Councilman's Tractor Burns

Tuesday afternoon, the above tractor, that was loaned to the City by Councilman, Don Nance, the previous day, broke into flames and exploded across from Joe Garza Store, while mowing grass along the City Street.

The Brackettville Volunteer Fire Department responded rapidly but do to inadequate equipment they were unable to save this piece of equipment.

LETTERS to the editor

TO THE EDITOR

Regarding the article in The San Antonio Light which was reprinted in The CAVALRYMAN.

It was replete with replete with twisted versions of interviews. It was outstanding for lack of knowledge of facts. Other than to upset honest people of intergrity I know nothing it accomplished. It contained deliberate lies which I'm convinced came from the sick mind of a newshound trying to do just what he did----- stir antagonism with the hope of selling a few more papers.

Congratulations on your editorial it was a most apropro and timely writing to which all thinking people must subscribe.

Dear Mr. Loos,

Your reprint of the San Antonio Light article on Kinney County elections and politics had a few statements that were untrue. I hope this affidavit from Mr. R.R.Laman, presiding judge of the absentee voting in the May 4, 1974 Democratic Primary Election will correct Mr. Talamantez' statement about blank ballots.

Sincerely yours,

SCUTTLEBUTT from Fort Clark

BY **Ronnie Dunnam**

This is the first of many columns that will be written in the CAVALRYMAN by a member of Fort Clark Springs.

At the Last Meeting of the Community Council a few members brought forth a Lawyer to discuss the situation at the Fort. There were a great many ideas discussed but it is felt the problems can be delt without the Lawyer and I agree.

The Fort had a good turn out this weekend for it was the first of the Winter months.

Many people have kids in school and can not come down during the winter that would like to and we would like to see more people here. We have a great place here, but it needs a lot of improvement and the only way that we can accomplish this is for everyone to work together.

There is only one thing to think about---Will the Fort be here next year?----The only way it will be here is that everyone pull in the same direction.

RECONVENED MEETING, SEPTEMBER 11, 1975

Sept. 11, 1975
County Judge Tommy Seargeant &
County Commissioners
Brackettville, Texas 78832

Dear Judge Seargeant,

We certainly appreciate the outstanding cooperation that we have received from the County in the past in regard to any activity that the Chamber of Commerce has sponsored.

We feel that the Community is a great asset to our community and we are extremely proud to be able to utilize these facilities.

Enclosed is our check for \$200.00, which was the proceeds from our benefit dance toward purchasing furniture for the Civic Center.

Thank You, again.

Sincerely,
/s/ Travis Wilson, President
Brackettville Chamber of Commerce

CLINIC CONTRIBUTION

COUNTY ATTORNEY RESIGNATION

County Attorney Tully Shahan presented the following letter to the Court:

September 11, 1975
Tommy Seargeant, County Judge
The Honorable Commissioners' Court
Kinney County, Texas

Dear Sirs:

Pursuant to my appointment as District Attorney of the 63rd Judicial District September 10, 1975, I respectfully submit my resignation as County Attorney of Kinney County, Texas. This resignation, if accepted, will be effective October 1, 1975.

I include with this resignation my sincere thanks to you for your cooperation and a chance to work in a field of Law in which I am interested. My two and nine months as County Attorney of Kinney County will never be forgotten.

I respectfully submit this resignation for your acceptance.

Respectfully,

/s/ Tully Shahan
County Attorney
Kinney County, Texas

Commissioner G.C. Talamantez made a motion to accept Tully Shahan's resignation as County Attorney and Commissioner T.H. Glover seconded the motion which passed unanimously.

JIM FAITH PRESENT

Jim Faith of the auditing firm of Meredith, Coleman & Dalrymple, met with the Court to review the 1975-1976 budget for Kinney County. Mr. Faith requested that the Justices of the Peace turn in all reports by September 30, 1975, to implement the 1975 audit to take place in October 1975.

Two worthwhile range tours will be conducted in the area next week. One will be on the Ed Young Ranches at Uvalde, on September 29th and the other on the Halff Brothers ranch at Pearsall on September 30th.

The Ed Young Tour will begin from his home at 1:00 p.m. The emphasis on this tour will be on profitable application of conservation practices on leased land. Improvements which have been made on the ranches are such as brush management, fencing and livestock water development. Following the tour a barbeque and fellowship will be held at the Young house.

The Halff Brothers tour will begin at 9:00 a.m., 3 miles Northwest of Pearsall on Highway 140. Emphasis will be placed on methods of control of mixed brush. A Dutch treat lunch will be catered at noon. Following lunch, a brush control program and discussion will be held.

For further information concerning these tours you may contact the local Soil Conservation Service Office.

New Parking Rules Aid Football Fans

The new parking plan was inaugurated at the Asherton Game, Friday Night, and worked beautifully, thanks to all concerned the School, Sheriff's Dept., City Police and all the individuals.

The area was evacuated in twenty minutes with a minimum of confusion and rushing.

Chief of Police, J.Fritter, would like to express his thanks to everyone for their cooperation and especially to the Fans and Spectators who were so willing to obey the new plan.

With the plan already started the next game should go over very smooth, in in doubt ask some of the patrolmen as that is what they are there for.

Thanks to the Citizens of Brackettville.

around the campus...

Memories of last year invaded the Brackett High campus, Monday, with the arrival of the 1975 Tiger yearbooks. The books, a striking black with gold medallion, were passed out Monday night at a signing party. Dedicated to the late Mr. Elmer Gum, the annuals featured every facet of school life. Editor Peggy Postell asks that last year's Seniors make arrangements to have their books picked up. Not content to rest on past laurels, the 1976 yearbook editors combined work and play at a planning-eating session Thursday night, at the home of Mrs. Verna Howard, annual sponsor.

Very special thanks this week goes to the Tiger band, drill team, twirlers, and participants in last Friday's half-time show. If you missed it, you missed a great treat. Under the able direction of Mr. Leo Lugo, director, and Tino Gomez, student director, the "Spirit of '76" was seen once again. Narrated by Mrs. Kathy Bader the band presented songs of America's past. Highlight of the show came when the lights were turned-off and the band and drill team formed an American Flag with the use of flash lights.

Tiger Twirlers---Lou Ann Lindeman, Dawn Slubar, and Kathy Dyer--- provided visual attraction with flaming batons. More or less recreating Paul Revere's ride was Kenneth Carnly, Molly Pitcher was played by Patricia Hernandez and the "Spirit of '76", bandages and all, was portrayed by Kim Baxter, Monica Sandoval, and Joe Gomez. What will this group do when the new uniforms arrive in December !!

Spirit was already high before the game because of a good pep rally. The Spirit Stick was awarded to the Senior Class, represented by Peggy Postell. Possession of the symbol of B.H.S. determination is prized by each class and they certainly work hard to get it. One teacher was heard to remark, "If they (the students) worked this hard in class, they'd all make straight A's." Recognition must be given to the Cheerleaders and their sponsor Miss Sheri Foster, for their long hours and hard work.

The Brackett F.H.A. is currently planning an initiation party for the Freshman, Monday, Sept. 29th, according to Secretary Traci Roselle.

Scheduled for 8:00 p.m. the event will be held in the Home Economics Cottage.

Words like "ego-state" "syndrome" and "repressive psychosis" are being heard in B.H.S. halls this quarter. No, it is not a meeting of head-shrinkers but simply the result of a new course being offered this year. Under the direction of Mr. Thomas Lester, a psychology-sociology Class has begun study of basic human behavior. Promises to be very interesting.

Another different class project was produced by Mr. James Collettes, Civics class-room became, for a while, the Brackett television station, as the students presented a new simulation program. Newscasters for station WVN were Brenda Alston, Becky Pena, Smokey Crain, Cindy Gomez, and Joel Terrazas. Broadcasting for station KAKA was Peggy Postell, Bill Pratt, Steve Pena, Jamie Davis, and Sterling Goodloe.

TIGER TALES

A full quarter went by before the Brackettville Tigers caught fire, but when they did, they burned up the field last Friday night, scorching the Asherton Trojans, 21-12. Asherton took the edge with a fumbled ball and went out in front, 6-0, but Junior, John Jones, plowed forty yards for the touchdown that tied the game. Tony Samaniego, sophomore, put the Tigers ahead with the extra point. An interception by Samaniego then made the score 14-6. A second Asherton touchdown in the fourth quarter put the pressure on and Mark Tidwell, quarterback, responded from the 14 yard line on a keeper and Samaniego tacked on the PAT.

Rushing honors went to John Jones who is just now getting to show his stuff because of the flu bug. Samaniego looking even better than last week, was also, a standout. Juniors Raul Cervantez and Buck Smallwood added to the depth of the Tiger offense. Defensively it was also a good game, partly due to linebacker Ruben Cervantez and safety Mark Tidwell. Indicative of the strong defense, Asherton failed both extra point trips.

Last Thursday night, the Brackett Junior High team traveled to Batesville to bring home a 22-0 win. Richard Martinez and Nelson Payne led the Cub attack. These future Tigers are looking better at every game.

COMMENTS from

THE SAGEBRUSH

A little plant life can make a house or room come to life. There are no plants that will live without some care. There are, however, some that demand less care than others. For all the fun made of philodendrous and all the talk of the "philodendron syndrome," these plants remain the simplest to care for and can add of outstanding warmth, life and beauty. There is a wide variety of these plants with differing growth patterns. Certainly they do better with lots of light but most do well with a medium amount of light either natural or fluorescent. The plant should be chosen for the spot. It's always better to decide where a plant will sit and choose a plant to fit the place. Corners, open walls, large blank places need tall, large leaf or wide spread plants. Coffee table, end tables, step tables, small areas can best use plants of smaller stature and slower growing proclintiy. If just "does something" to a room to have growing plants in it. whether it be living room, den, bedroom, bathroom, or kitchen----it adds.....

Between Us

BY: JOE TOWNSEND

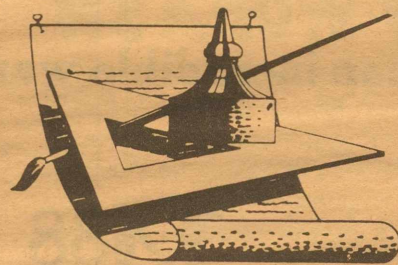

A humming bird flew into the shop yesterday. She could not find the open door to fly back out. No matter how carefully, slowly and easily I tried to guide her to the door the more frantic she became. Finally she made a mad dash and hit the window. When I picked her up she was grasping her last breath.

Out of the hundreds and hundreds of humming birds that travel through here and the hundreds who over-summer here, seldom does one come in the door. Of the few who have come in all others have found their way out or have allowed me to help them out. Again--how like human beings are these birds. Many people get themselves into a spot where they have no business and should not be. Some find their own way out and others lean on others to get them out. Once in a while one beats himself to death in frantic panic because he refuses either to find the answer or let anyone else show him the way. While I'd rather lose a battle in a war that will be won for a good cause than to win the war for a bad or worse cause, I find it better not to put myself in a position I shouldn't be in. However, when I do find myself in such a spot I try coolly and calmly to find my way out. Failing this I seek proper help. What a pity --- that person who butts his head against a brick wall and gains nothing but a sore head or the person who gets into a mud fight and wins but gains nothing by the mud he collected in battle.

LUNA'S LOUNGE

NATIONAL HIGHWAY WEEK

By official memorandum, Governor Dolph Briscoe has designated the period of September 21 to 27, 1975 as National Highway and Transportation Week in Texas, with the theme "Transportation, America's Lifeline" with a call on all citizens to observe the week with appropriate recognition that transportation is indeed America's Lifeline.

The Highway system was created over a period of about a half-century and has afforded Texas with a vital linkage with other transportation systems serving the public. The varied forms of transportation are a direct product of public demand for maximum service at minimum cost, a demand that will continue by ordinary citizens to sustain their way of life.

In view of the increase in population, inflation, congestion, and the elimination of indiscriminate use of energy, great challenges face those responsible for providing good transportation. The goals are not as clear or as easily attained as they have been in the past. The facing of many of these problems in transportation has been given to a new State Department of Highways and Public Transportation.

Since the New State Department of Highways and Public Transportation came into being in June, public transportation problems are being identified and studied, and approaches are being planned to meet the challenge, in addition to taking care of normal highway demands.

In each county the creation and maintenance of the Highway System is dependent upon the local highway maintenance sections and engineering residency offices. Men and women stationed locally in the communities they serve are sensitive to the local area transportation needs. These personnel will continue to provide the best possible transportation system for those communities in which they serve.

During National Highway and Transportation Week, the public is especially invited to visit local maintenance section warehouses and resident engineer offices, as well as the Del Rio District Office. The local facilities are located on U.S. Highway 90, East and are open daily to public inspection, to include visits from Public Schools or other school classes. These are the same offices in which you may be provided with travel maps, pamphlets, and brochures, along with general and specific information regarding highway conditions. You will find highway and transportation personnel to be very glad to see you and helpful in providing service and assistance in matters relating to their work.

Transportation, America's Lifelines, means the sustaining of your way of life as safely as possible. You may go from City to City, anywhere in the City, rural areas, or to remote places of majestic scenery, because you have demanded and are willing to pay, as a user, for the great American freedom or mobility. Your continued assistance is important to strengthening the Transportation framework that is so necessary to your livelihood.
