C.B. QUIRKS AND JERKS

Lately, it seems to be the "Vogue Thing" for some of our local adolescent Citizen Band Radio Operators to see how much profanity they can expound on the airways. Each day they seem to want to prove that they can become bigger morons than the day before.

These childish "Jerks" evidently figure they are fooling everyone.... when the real fact is....90 percent of the local CBers know who they are.

These violations are not only against Federal Laws but also State Laws, (i.e. profanity in a public place, which the airwaves are) Many communities have recently prosecuted, convicted and sentenced violators with stiff fines and jail terms. Such charges as "Disturbing the peace," have been filed and prosecuted! Well, that is, when citizens have spoken up and their local law and Judicial officers had the guts to act without the fear of losing a few votes.

Another of the latest fads on C.B.....see if you can't talk so unintelligible that no one can understand you ! And for gosh sake what ever you do S-L-U-R at least

every other word and stutter excessively....Ro-Ro-Roger Goo-Goo-Good Buddy! Always repeat 10-4 at least 3 times (six is better).

If you removed a very few words from some of the CB'ers vocabulary (Good Buddy, Mercy, 10-4, etc.) probably there would be twice as much available air time.

L-L-Let Yourrr(slur) intelligence hang out. Wha-Wha-What do Y-Y-You thi-think of th-that goo-goo-good bu-buddy? Th-Three's T-To Y-You.

NOTICE TO DOG OWNERS

No person shall allow any dog owned or in his possession to be at large (off the owner's premises) unless properly restrained by a leash not more than six feet in length or obedient to the owner's commands. Any dog found at large may be impounded and its owner or keeper subject to prosecution.

I'm sure the "barn" swallows didn't read what I recently wrote but since that time a pair of them have come to be quite friendly with me at the Shop. Several times one just flew in the front door, fluttered around a while and flew out. Then the day came when he came in, flew round a while, flew out and returned with his mate. Now the two come in sit around on the light fixtures twitter a while then test their wings flying round. Sometimes they will stay in the shop for thirty minutes. They are almost totally oblivious to me. They don't fly when I walk close by. They don't panic when I stop and talk to them. They have come to be quite some pets. It sometimes seems that animals and birds sense a friendly spirit on

the part of people. Too bad all people aren't friendly toward one another. I guess these swallows feel safe and secure here so they are friendly. People too are friendly when they feel secure with another. An unfriendly spirit manifests a mistrust, a feeling of insecurity. How truly sad to so live and treat others that they come to mistrust one. Because I have never done anything to harm the swallows they are my friends. Many times we see an unfriendly spirit manifest, not because the person has been hurtful or harmful but because the person has refused to cater to the shims of and to "brown nose" an individual. Such unfriendliness does honor to the person who is snubbed.

# COMMENTS from THE SAGEBRUSH

by: JOE TOWNSEND

Have you given thought to landscaping your yard? A little creative thought can transform an ordinary yard to a beauty spot. The proper selection and placing of trees, plants and flowers is the key. One main idea to keep in mind is that you don't have to do everything today or even this year but today and this year is the time to begin. Another thing to remember is that to make and keep a yard beautiful you should select things that you can know will do well here. Because crotons make beautiful hedges is no indication they will here. Because Rhododendrons are beautiful in the Tennessee mountains does not mean they will grow here. Because a newspaper or seed catalog says a plant will grow "anywhere" is no sign it will grow and do well here. Another thing to remember is that the larger plants and trees are when you put them out the better they will do and the sooner you will have what you dream of.

Smaller and younger ones are cheaper but your death loss is higher and you must wait for them to grow. Another thing to remember is that you get what you pay for. Cheap plants and cheap trees are worth what they cost. There are no real bargains in this field. If prices are cut or merchandise is cheap, find out why. When you find the real reason you will be glad to pay a higher price and get better plants or trees. No plant or tree is a bargain if it dies. If a shrub or tree does not have a full replacement guarantee if it does not live-- the seller must know something he's not telling. It's better to pay a little more and get higher quality. After all first class is not that much more expensive.

## RETAMA GARDEN CLUB

The Retama Garden Club met April 20th, at the Parish House of the Episcopal Church. Hostess Mrs. Whit Parham, Mrs. Irene Blair, Mrs. Lucy Blahnik, and Mrs. Julian Lucas.

Mrs. Lucas reported on meeting with Mr. Lee Schermerhorn and members of Science and Biology Departments of our Brackettville Schools on the proposal of making an outdoor classroom with many uses, but basically for the study and planting of native plant and trees, and shrubs, of our own region of Texas. This is indeed a valuable project which the Garden Club wishes to aid in any way it can. Plans were drawn by Mr. Bruce Stoecker and Mrs. Julian Lucas.

The speaker, Mr. Howard Ragsdale, our Soil Conservationist, gave a most interesting and informative talk on conservation, showing slides, particularly of the Anacacho Bauhini, a rare shrub of this region found occasionally in areas where deer and cattle have not destroyed it. This shrub is of the legume family, sometimes called the Texas Bauhinia, which was first found in the Anacacho Hills in Kinney County. In previous years it has been noted in Mexico. It blooms from two to three months in the spring with showy white or varying to light pink blossoms. Bauhinia grows rapidly even in poor soil, and appears to have good possibilities for ornamental uses.

Another wild plant described by Mr. Ragsdale is the Golden Ball Tree which is hardy in this area and makes an attractive flowering tree.

Seeds from these plants were distributed to those present. We thank you, Mr. Ragsdale, for your information and aid. Our new club project for the year is to encourage the planting and preservation of useful wild flowers.

The next meeting will be May 18th at the home of Mrs. Leonard Frerich.

# CPL explores many new fuel resources.

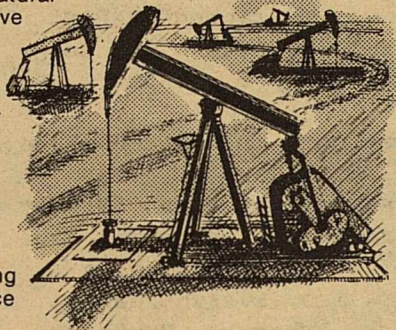

**To insure continued reliable electric service for you,** Central Power and Light Company is investigating a variety of new fuel resources to supplement dwindling supplies of natural gas.

In the near future, we'll be adding coal and uranium to our supply of fuel resources used to generate electricity. Our first coal-fired power plant will be ready in 1980. Later that same year, we'll have power from our share of a nuclear unit, the South Texas Project.

We know that a diversity of fuel sources will be essential to guarantee that we always can provide an adequate supply of electric power for South Texas. We are, therefore, involved in many research and development activities:

- CPL is continuing to support research efforts in nuclear fusion at The University of Texas through the Texas Atomic Energy Research Foundation; and in development of geothermal resources along the Texas coast, a three-year project with the university's Center for Energy Studies.
- CPL has entered into a partnership for a natural gas exploration program, with 12 productive wells completed of 23 drilled so far.
- At CPL's La Palma power station in San Benito, a pilot plant will be established to test the feasibility of gasifying high-sulfur coal and fuel oils on a commercial basis.
- CPL has placed in service its first electric generating plant designed to operate for extended periods on fuel oil as well as natural gas.
- Virtually all of CPL's power plants are being refitted to burn fuel oil to guarantee service when natural gas is not available.

In outlining a few highlights of our current activities, we hope we have brought you a better understanding of the effort we are making to be certain we can continue to provide you with dependable electric service, even though the price will be higher.

It's a beautiful world! But most of us are in too big a hurry to notice that our creator has decorated this earth with a fantastic array of living color, which we call wildflowers.

The eye of the camera sees and records minute glimpses of the generally unseen world of nature's small dimensions....tiny blossoms deep within the grass....a drop of dew that captures a glint of morning sunlight...the delicate parachute that carries the dandelion seed. When projected upon the screen, these are rare views seen to cry out to us: "Slow down! Seek out the beauty that is all around you and enjoy the free gift of the wildflowers...for God has indeed created a beautiful world!"

On May 7th at 5:00 p.m. in the Brackettville Civic Center the Brackettville Chamber of Commerce will present Mr. Thomas Young in a program of wildflower photography. Using three screens for images that often blend together into one broad panorama, Mr. Young will introduce many of the more than 5,000 varieties of blooming plants and wildflowers to be enjoyed in Texas. Mr. Young's hobby of wildflower photography has led him into every corner of the state and into the mountains of both East and West coasts in pursuit of the beautiful blossoms of our native plants and flowers.

Judge Roberts received 76.4 percent of the ballots cast by more than 11,000 attorneys in this significant vote.

"Roberts' record on the court.. is one of a thoroughgoing commitment to equity and impartiality in the execution of the law," the Corpus Christi Caller comments.

"The Caller feels he has fully earned a second term on the bench."

The Houston Chronicle endorsed Judge Roberts with praise of a sound job, his devotion to the law and a reputation for fairness and integrity in all matters pertaining to his duties.

# GET READY FOR SUMMER (the easy way)

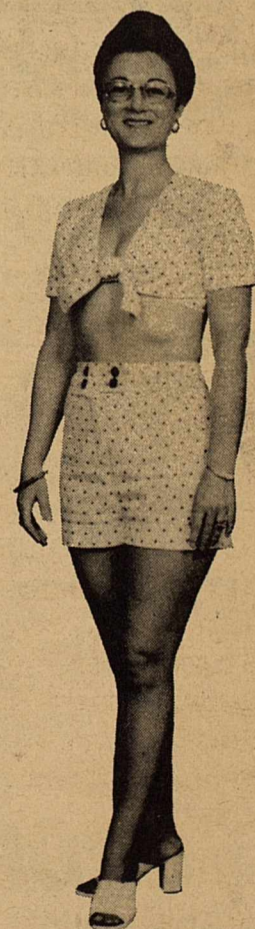

Carole Halla, of Houston, has really trimmed down with Pat Walker's exclusive figure program. She actually lost 59½ pounds and over 64 inches . . . just where she needed to lose them. In the snapshot on the right she was wearing a size 20½, now she wears a size 11. Mrs. Halla writes: "I never thought I could look and be so tiny . . . and still going down . . . I couldn't be happier."

The exclusive Pat Walker figure program has been effective for millions of women of all ages. Safe passive exercise tones your tissue, improves your circulation and removes unwanted pounds and inches . . . without crash dieting. You enjoy complete privacy in elegant surroundings and you do not have to disrobe. In fact, you can take your half-hour treatments anytime, because you don't need special clothing and you won't even muss your hair. Call today for a figure analysis and a complementary treatment . . . there is no cost and no obligation. We will plan your personalized program and tell you the total cost of your figure correction before you even begin (based on \$3 per treatment.)

Mrs. Gerlene Snider, also from Houston, is looking forward to this summer since she has gone from a size 12 to a size 6 with Pat Walker's method. At 5 foot 2, she's lost 13 pounds and 17½ inches in all the right places. She writes: "I always felt ugly in shorts and bathing suits. Now I feel like a new person and my family is so proud."
