

DUMP MAY

Firey City Council Meeting

MAYOR MENDEKE explains the seriousness of the City's garbage disposal situation at the Council meeting, April 28th.

POLICE CHIEF, JOHNNY FRITTER resignation was reluctantly accepted by the City Council.

On Thursday, April 28, a heated debate took place between City Secretary, Roland Williams and Councilmen, Joe Garza and Richard Garcia.

A few days before the meeting, Councilmen Garza and Garcia came to Mr. Williams's office about a residential water leak. Williams stated that he would get to the leak when he could. The two councilmen then allegedly stated that they wanted it fixed "today or tomorrow". Williams said, "One of the councilmen made the statement that it only takes three of us to fire you." Both councilmen at the meeting denied making the statement.

During the meeting, Williams told the council, "If I have to depend on what somebody tells me to do, or get fired, I will not put up with it. I will not be intimidated that way! Come to find out, the leak had been fixed and the occupants of the house had broken the leak again."

Mayor Mendeke reminded the councilmen that city business should be conducted through the entire council, and since the subject was not on the agenda for that meeting, it would not be discussed any further.

Council ACCEPTS POLICE CHIEF'S RESIGNATION

The Council accepted Chief of Police, Johnny Fritter's resignation and voted to pay his accrued vacation salary. Mayor Mendeke said he would prepare a letter of recommendation for Fritter and regreted losing his services. The council then voted to advertise for a replacement for the position.

City Dump and SOLID WASTE DISPOSAL

The mayor informed the council that the State Health Department was demanding immediate action on proper garbage disposal.

Several plans were discussed, including: Having a contract with the City of Del Rio to handle the problem; trying to secure funds for equipment; and land to operate a proper sanitary fill.

The fact was brought up that it may be necessary to place an additional assessment on water bills to handle garbage pickup and disposal.

Another council meeting was held on Monday, May 2, and the following statement was issued by city hall for publication:

DUMP CLOSED

The City was notified by the Texas State Health Department that the present Solid Waste Area is no longer useable and that changes would have to be made. The City Council is investigating different approaches to the problem.

For the present time and until further notice the area will be locked unless the attendant is present who will tell you where to put your trash and dead animals. The hours of the area are as follows:

FIREMEN HONORED

Brackettville-Veterans of Foreign Wars Post 8921, Juan Avila, Jr. has presented members of the local Volunteer Fire Department a certificate of appreciation in recognition of their outstanding service to the community.

Fire Chief Alvin Hall, accepted the certificate from David G. Luna, V.F.W. Commander.

TELL MOM YOU LOVE HER

YOUR REPRESENTATIVE REPORTS:

By: SUSAN GURLEY MC BEE

Less than a month remains in the 65th Legislature Session; and between now and the last day, May 30, the state capitol will be the scene of frenetic activity. We are already working long hours---starting in session occasionally at 9 a.m. and not stopping until 11 pm. So if you've tried to contact me, and I'm a little late returning you telephone call or answering your letter, that's the reason.

The appropriations bill should have finally passed the House by the time you read this column. Many days have been spent in floor debate on it in an attempt to cut it down to more realistic and practical proportions. Because of the anticipated revenue surplus at the beginning of the session, the state's budget writers tended to be overly generous in allocating funds, leaving little or nothing for such necessary, but as yet unfunded, items as a raise in teacher's pay and increased assistance for retired teachers. Virtually all areas in the appropriations bill were trimmed in an effort to fund these important items and still provide for school finance, highways, and ad valorem tax relief. Thus, if the particular state program or project that interests you the most received less funding than you had hoped, you can take comfort in knowing that so did everyone else's.

During these waning days of the session, the status of bills changes frequently, so don't hesitate to call the toll free number, 1-800-252-9663.

If you need more than just the status bills, don't forget my telephone number is 512-475-2763; and my address is Post Office Box 2910, Austin, 78769.

There have been many welcome visitors from the district to the Capitol during the last month, including a group of junior high school students from Sonora.

Two major and controversial issues of the session--county ordinance making authority and the Peveto property tax restructuring proposal--have both passed the House and await uncertain fates in the Senate. Another important issue--a presidential primary bill--is pending in the House, as of this writing.

And, as I noted last month, many of their more emotional and much talked about issues to surface this session are still not expected to get out of committee and to the floor for a vote.

CHEMISTRY SCHOLARSHIPS OFFERED

UVALDE--Students expecting to enroll in either freshman or sophomore chemistry during the fall of 1977 at Southwest Texas Junior College are eligible to compete for two \$100 scholarships.

The scholarships will be awarded by the local chapter of the American Chemical Society based on the results of a test to be given each applicant at 10 a.m., May 7th, in Room M2 of the Garner Science Building on the SWTJC campus.

"One scholarship will be given to an incoming freshman planning to enroll in our first chemistry course, Chemistry 141" explained instructor Ed Heath. "The second scholarship will be given to an incoming sophomore enrolling in Organic Chemistry 241."

Heath said students needing further information may contact him by calling 512-278-8333. Formal application for the scholarships is not necessary but students desiring to enter the competition should plan to be present at the May 7 testing.

MIGRANT STUDENT PROGRAM

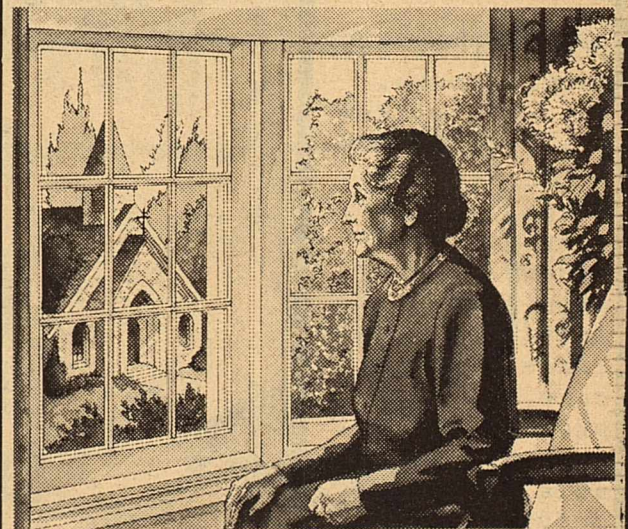

Pictured are Ninfa Lozano, Director at St. Edward's University, Austin, and Roman Echazarreta, Jr., who work with the migrant students who have reached the 11th or 12th grade in their education.

In an effort to assure the continued educational success of this volatile group of migrant students, St. Edward's University, through the funding of the Governor's Office of Migrant Affairs operates a program entitled ESTIMA (Educational Studies to Influence Migrant Advancement). The ESTIMA program will render services and financial aid to the student to help him make the transition from high school to the University a positive and successful experience.

UVALDE--Southwest Texas Junior College will confer degrees and award diplomas to more than 27 students May 12 during an 8 p.m. convocation program in La Forge Hall.

Speaker for the year-end graduation ceremony will be Dr. Kenneth H. Ashworth, commissioner of higher education for the Texas College and University System.

Dr. Ashworth is the former executive vice president for the University of Texas at San Antonio and also served as vice chancellor for academic affairs for the University of Texas System.

The Texas educator is a Phi Beta Kappa graduate in economics from the University of Texas at Austin and received his master's degree in public administration from Syracuse University. In 1969, Dr. Ashworth completed his doctorate in history and philosophy of education at UT-Austin.

The 1977 graduating class consists of 178 candidates for associate in arts, associate in science and associate in applied science degrees. Ninety-six students are candidates for diplomas in five technical and vocational programs offered by the college.

POW WOW TO BE HELD

An all American Indian Pow-Wow will be held at the Val Verde Fairgrounds on May 28-29.

The first of its kind in this part of Texas is being sponsored by the Beta Sigma Phi Society City Council.

Featured at the performance will be a group of dancers of Oklahoma and Dallas-Fort Worth Inter-Tribal. Also represented will be the Kiowa, Apache, Comanche, Cheyenne, Seminole, Cherokee, Pawnee and many more.

To name a few of the selected and hand-picked best are: Chief Vernon Tehuano of the Quahado Clan; Billy Huntinghorse, great grandson of United States Army Scout, Bill Huntinghorse; Patsy Tehuano, great grand daughter of Chief Satanta; Theodora Whiteshirt, great grand daughter of Chief Black Kettle.

There will be two days of top performances, starting May 28 at 6 p.m. to 11 p.m. and May 29, 2 p.m. to 6 p.m.

Indian food and handcrafts will be on sale both days - bring your family and enjoy the festivities.

LITTLE MR. & MISS KINNEY COUNTY PAGEANT SLATED

The Little Mr. & Miss Frontier Fair Pageant will be held during the Ninth Annual Frontier Fair sponsored by the Brackettville Chamber of Commerce. The Pageant is open to all boys and girls 6 and under and living in Kinney County. The pageant is scheduled to be May 13, 1977 at 4:00 p.m. in the Kinney County Civic Center. There will be competition in sportswear and party dress.

Those wishing to participate need to have their name and \$1.00 entry fee in at the Chamber of Commerce office by April 29.

TIPS FOR GREEN THUMBS

There is truly a rash of insects. Aphids, plant lice, even cutting ants, and even mildew are very much in evidence. If caught in time, they do little damage. Spray with a good insecticide. Many times you can care for your problem by dusting with wettable powdered sulfur. This will kill aphids, red spider and mildew. It is perhaps the cheapest control agent. The longer you wait to spray or dust, the more damage is done and the more wide spread the problem. Check your plants carefully and often. A spray in time saves much.

Insure your property against flood damage for as little as 25¢ per \$100 of protection.

If you live in a designated flood-prone area, your single family home can be protected against flood damage from \$35,000 up to \$70,000 for a reasonable cost.

Most other private and public buildings and their contents can be insured at comparably reasonable rates.

This is possible under the National Flood Insurance Program, a joint undertaking of the federal government and the insurance industry.

Floods can happen at any time, causing untold amounts of damage. Causes range from Spring runoff to Summer storms to Autumn hurricanes.

So be prepared. Check with your local property/casualty insurance agent. Find out if your area is eligible for the federal flood insurance program.

If so, apply for your flood insurance now. Because there's a mandatory 15-day waiting period before it goes into effect.

Don't let your future be swept away.

The St Paul
Property & Liability
Insurance

St. Paul Fire and Marine Insurance Company, Saint Paul, Minnesota 55102

Senator Lloyd Bentsen

TOWNS WITHOUT

DOCTORS

When someone in Olton, Texas, gets sick or is injured, he can either drive 30 miles to Littlefield or 23 miles to Plainview.

There is no doctor in this South Plains town of 2,000, and there hasn't been for more than a year now.

It is a problem the people of Olton have wrestled with for some time. Over two years ago they sent a delegation to London to sign a contract with an Australian doctor. He moved to Olton, practiced medicine for a year and three months, then got a more attractive offer and moved on.

"I have my hopes up to get one," says local businessman Fred Thompson, who is helping to spearhead the town's search for a doctor. "But rural medicine is pretty sad. We've done everything we know. We've advertised. But every other town is doing the same thing."

The fact is that as of the last count, on December 31, 1973, there were 23 Texas counties that had no medical doctor.

Statistically Texas leads the country in the number of counties that are without physicians.

In addition, 49 of the 971 counties in the nation that have been designated by the Department of Health, Education and Welfare as "critical health manpower shortage areas" are in Texas.

And 200 of the more than 2300 "medically underserved" areas in the U.S. are in Texas.

This lack of adequate medical care is hard on everyone who lives in one of these areas.

But it is especially hard on the elderly and the disabled.

As a member of the Senate Finance Subcommittee on Health, I am co-sponsoring legislation that will alleviate this situation somewhat.

It says if you have a rural area and there are no medical doctors available in that area, then Medicare can reimburse health clinics for services provided by either physician assistants or nurse practitioners.

At present, federal health

insurance programs do not recognize the harsh realities that face health care delivery in the rural areas of Texas and the nation. The programs now limit their payments to physicians only, regardless of the circumstances.

However, this reimbursement policy makes it difficult - and in some cases impossible - for the elderly and disabled residents of many rural areas to receive any Medicare benefits at all.

MAKE IT YOURSELF WITH WOOL CONTEST SLATED

The President's energy conservation plans will undoubtedly mean hardships for some, but this could be a banner year for the sheep industry and, more specifically, the Make It Yourself With Wool Contest.

"The contest is certainly not a new thing, but it's so timely," says Mrs. Jack Groff, Kerrville. "Next winter we can turn our thermostats down and wear wool."

Mrs. Groff, first vice president of the National Wool Growers' Women's Auxiliary, is also the current national coordinator of the Make It Yourself With Wool program.

Headquarters for the national program has recently been moved from Roswell, N.M. to Kerrville, where it will remain for the next two years under Mrs. Groff's leadership.

Begun in Utah in 1960, the Make It Yourself With Wool program became an annual affair, based in Denver until the move to New Mexico two years ago. It is sponsored by the Women's Auxiliary to the National Wool Growers Association and is open to girls from all the 48 contiguous states.

Participants design, construct and model clothing based on wool, and entries are judged on correct construction, application to current fashion and poise in modeling. Contest division include pre-teens, 10-13 years, juniors, 14-17, and seniors, 18-24.

Winners in the various district contests move to state level eliminations and finally to national competition, set next January in Denver. Scholarships are awarded to the national divisional winners, the grand prize winner receiving a 15-day vacation to Acapulco, Mexico.

Entrants are encouraged to use 100 percent wool fabrics, but this year's rules permit blends of at least 70 percent wool and up to 30 percent other fibers. In keeping with the trend toward wool blends, future rules will allow a 60/40 combination.

Entry blanks and descriptive brochures will be available through most school home economics departments, county Extension offices and numerous department stores featuring clothing and fabrics from major wool textile companies. Information and entry forms are also available through the Make It Yourself With Wool office, Box 349, Kerrville, Texas 78028. The office phone is (512) 896-2566.

MICROWAVE DEMONSTRATION SET

UVLADE--Microwave cooking, a phenomenon capturing the interest of homemakers across Southwest Texas, will be emphasized during two Southwest Texas Agricultural Resources (STAR) program efforts here May 10-11.

Two Microwave cooking schools will be held at the Texas A&M University Research and Extension Center here. The session on May 10 will begin in the evening for working homemakers and the second school will be scheduled from 10 a.m. to noon on May 11.

Both sessions will be taught by Fort Worth Home Economist, Mrs. Billie Phillips. "We expect Billie to demonstrate some speedy and economical recipes using the microwave," said Gloria Schwarzlose, a Texas Agricultural Extension Service district agent. "We also are looking forward to her instructing on adapting utensils for use in the microwave oven."

Other aspects of microwave cooking on the agenda will be variable cooking powers, defrosting and features available on microwave ovens. Participants also will have an opportunity to taste some of the foods prepared and to ask questions.

Mrs. Phillips, who has five sons and husband to feed daily, says the microwave oven has revolutionized her life.

Before the microwave era, women with seven people showing up for dinner every night could easily say they slaved over a hot stove for hours. Now, dinner for Mrs. Phillips' gang of hearty eaters often takes less than 20 minutes from freezer to table.

A native of Shreveport and a graduate of Northwestern State University in Louisiana with a degree in home economics, Mrs. Phillips first met the microwave oven in its infancy 20 years ago in her first job, as a home economist with the Baltimore Gas and Electric Co. in Maryland. Now she has been depending on a microwave oven in her home on a daily basis for years.

And She's become quite an expert at using the electronic marvel.

"I don't want to mislead anyone in thinking I don't use my regular oven, too," she said. "But I do all of my ground beef dishes in the microwave and I love chicken and fish in the microwave also."

"Even if I never used it for anything but reheating and defrosting it would be worth it for me. But I use it for so much more."

About the only times Mrs. Phillips said she heats up the regular oven are for better cuts of beef such as steaks and roasts, for browning rolls and for baking yeast breads. But she's usually preparing some type of meal-in-one casserole, the ideal dishes "for this group of boys," she said.

The Microwave cooking schools are being sponsored by the Family Living Task Force of the STAR Program and the Texas Agricultural Extension Service. The programs help fulfill the goals of the STAR group in meeting an educational need in a 19-county area of Southwest Texas.

CB BREAK

BY THE SKY PILOT

The CB continues to prove itself as a medium of usefulness as well as enjoyment. Recently I was caught in a very bad storm and rain in Dinue and Moore. I had loaded a heavy load of trees and had to go into San Antonio to get some plants. The use of the CB saved me considerable time by finding how to miss the flooded low-water crossings. I saw that night just how effective a CB can be during stormy weather and in flooding. Twice in recent weeks I've been able to pick up people stranded on the highway whose car had become immobile through their use of CB. Scarcely a day passes that I do not hear someone on the channel who calls for help and always comes a quick and helpful response. The CB's seem to feel in a more friendly atmosphere and with an ear open to the cry for assistance. Thanks for the channel we'll be 10-10 till we see you again on this same channel. 3's and 8's to you. This is KOH 4856, the Sky Pilot out of that Brackettville Town and we'll be down and on the side.

BETWEEN US

BY:
JOE TOWNSEND

There has been a rash of anonymous calls on the telephone in Brackettville for a good long time. Some of these have been obscene. Some have been just pesty. Some have been harrasment. 'Tis a sick minded person who would indulge in such childish behavior. Only a coward of the lowest caliber would make a telephone call and refuse to identify himself or herself. Little do they realize they usually violate State and Federal Law. On second thought anyone who does this indicates by his actions his lack of character and therefore could hardly care less what the law is. He labors under the impression he'll never be found out. This is ignorance in action. Seldom does one do this for long without being found out. People in Brackettville should make it a purpose in life to put an end to such actions. If citizens concerned in such things would unite and work at it these psychos would easily be put behind bars where they couldn't use a telephone.

COUNTY 4-H'ers VIE FOR DISTRICT HONORS

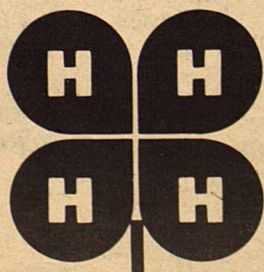

Seven 4-H'ers from Kinney County will compete in 4-H contests for District 13 in Uvalde, Saturday, May 7.

County Extension Agent Carl Esser said the youths, who won in county competition will be competing in the contests.

District winners will compete against top finishers from the other 13 districts of the Texas Agricultural Extension Service in June at State 4-H Roundup in College Station.

The Saturday event will be held on the campus of Southwest Texas Junior College, Esser said.

Kinney County youths will be competing in both senior and junior divisions against contestants from 19 other Southwest Texas counties during this Saturday's event. They are Warren Voss and Joel Voss, sons of Mr. and Mrs. Jim Voss, Seth Kaplan and Kevin Kaplan, sons of Mrs. Molly Ardrey, Brad Gwartney, son of Mr. and Mrs. R.D. Gwartney, and Leisha and Lashawn Wardlaw, daughters of Mr. & Mrs. Hadley Wardlaw. Joel Voss and Kevin Kaplan will be competing in the Safety Demonstration Contests, Brad Gwartney will be competing in Natural Resources, Warren Voss will be participating in Foods and Nutrition Lets Speak Out, while giving a demonstration on Cattails and their nutritive value. Leisha and Lashawn Wardlaw will present a demonstration of Turquoise which will go in the Open Class.

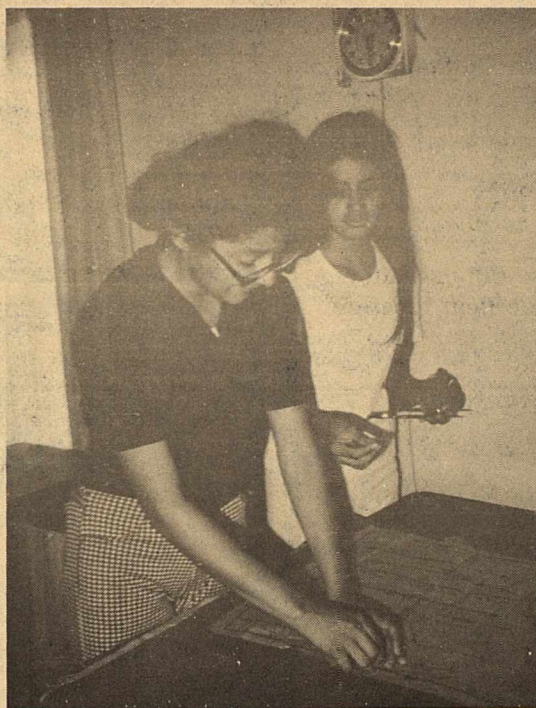

4-H NEWS

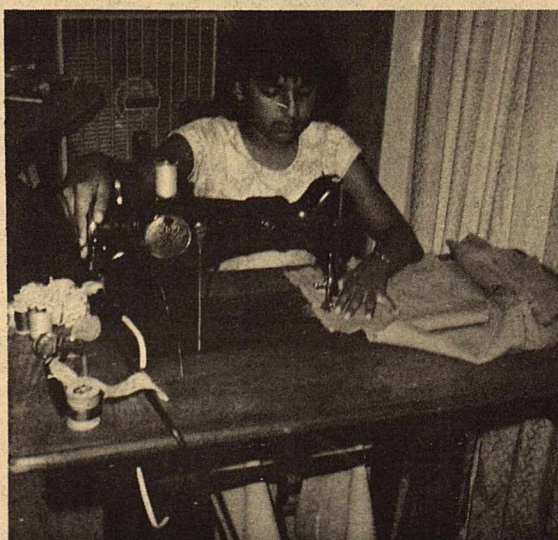

The Brackettville 4-H leaders, Mrs. Villarreal, and Francisca Delgado, are showing Delma Villarreal how to follow instructions on her paper guide.

Delma Villarreal, a 4-H student, who won first place last year, is trying to finish her project.

Mary Jane Garcia asks Delma for help.

Sandra Munoz is sewing part of her blouse.

Rita, and Francisca are correcting Mary while cutting her pattern.

The 4-H will model their fashions May 21, 1977 at the Courthouse grounds at 3:00 p.m. Refreshments will be served.
