NAKAI BREEN HONORED IN HAWAII

Having been a member of Beta Sigma Phi only 2 years, she has paid our sorority many complements, along with many pleasures. In her own words she stated "THE MOST HONOR I HAVE RECEIVED IN MY LIFE, WAS BEING PLEDGED TO BETA SIGMA PHI". Endlessly she has worked with our local chapter, chapters in the towns in our area. Never Having to be asked to do anything BUT, volunteering her service to all causes of BETA SIGMA PHI, and others in need. She was educated in Oklahoma and South Texas. She speaks several languages. She has

a newspaper article called "INDIAN SMOKE FROM NAKAI". She is the author of "Lodges in the Sky". a poem about the American Indian, which was filmed by Texas motion picture Corporation, and narrated in English and Comanche. She designed a buckskin dress with the Swiss flag done in beadwork, with her doing all of the beading herself. She was to present this article herself but was unable to. One of her sons presented the dress to the head of state of Switzerland in her place. She has lectured in Schools, Lions, Rotary and Study Clubs, Chamber of Commerce and military bases on the Indians with great ease throughout Texas and Oklahoma and other states. She has made herself available to Radio shows and T.V.

Nakai is listed as a Cherokee Craftsman in the Cherokee nations, also in the News Edition of Personalities of the South. Although she is Cherokee she has been officially adopted by the KIOWA Indians.

She married her husband, BUD BREEN in 1949, who is a Western Artist. They have seven children, and two grand children.

Nakai help her husband with his paintings, so that the American Indians can be better understood.

Nakai is very active with Indian groups, such as Dallas Inter-Tribell Tree, Indian Clinic, Cherokee Orphans-Dallas-Fort Worth. Inter Tribe spokesman for the Texas Kickapoo Indians and head Chairwoman to organize the five civilized tribes of Texas, to maintain their cultures. The Breens have lived in Brackettville since 1960. To you Nakai Breen, your chapter, XI RHO PHI, presents you the award of "GIRL OF THE YEAR", with love on this day.

ALOHA!

Present Day Myths

by: JOE TOWNSEND

The assumption that the news media is a responsible entity in American society is rapidly fading. Comes now a Supreme Court ruling that the media can publish matter legally forbidden and with impunity. This basically holds that regardless of how it may effect the security of the nation, no matter how it may move to destroy human relationships, no matter how it may protect or enhance crime, it is legal for the media to print or cast it. When states have passed laws to protect such information the news media has worked that much harder to publish it. Some news hounds gloat over their ability to corrupt officials to gain "secret" documents. Some news channels manufacture news (CBS & its "HUNGER" film from San Antonio) and print blatant lies and cannot be held accountable. Now CBS has participated in a totally local problem to encourage publicity seeking radicals to cause trouble. People's reputations have been besmirched by printed lies and courts have awarded damages only to have them ruled unconstitutional by the U.S. Supreme Court. Reprehensible and radically dangerous as it is the time may soon come when a constitutional amendment may be a necessity to bring honesty, integrity and responsibility to irresponsible news makers.

Between Us

JOE TOWNSEND

I suppose everyone breathes a sigh of relief when an election is over, especially the general public. No longer are people upset over prying telephone calls. No longer are people disturbed by character revealing lies printed to hood-wink the public. No longer does the electorate have to listen to compaign rhetoric designed simply to get votes with no relations to truth and responsibility. One thing occurs to me. When an election is over the candidates should assume the responsibility to remove their stickers and other advertising from property of others. I'm thinking of particularly of telephone and electric power line poles. Most cities have ordinances forbidding the use of such poles. I do not know whether Brackettville does or not. If not it should. Few things detract from a clean looking town like poles plastered with political propaganda after the election is past. I know that some candidates have been careful to take theirs down. If all who put these signs up were as careful to take them down our city would look much better.

TIPS FOR GREEN THUMBS

JOE TOWNSEND

As the heat of summer is here it is important to get the very best use of water. One very important aspect is cultivation of your beds and around your plants. When watering is finished and as soon as the ground can be worked the crust of the soil should be broken with a hoe. For one thing this gives opportunity to kill any weeds or grass that have come up. Another thing is that the broken soil on top will serve as a mulch and help protect plants. The heat can do less damage and water can do a better job. This extra few minutes of work will pay big dividends whether in flower beds or garden.

HANDICAPPED HOTLINE TO ANSWER STATE NEEDS

A toll free state wide number is available now for all handicapped in the State: 1-800-792-1139.

Called Handicapped Hotline, the new service is part of the 1978-1979 Governor's Conference on Handicapped Individuals.

From now through summer it will be in service 8 a.m.-4:30 p.m., Monday

thru Friday. Plans are underway to expand its availability in the early fall.

The GCHI as established by Governor Dolph Briscoe is part of an Executive Order to examine and identify problems facing individuals with physical and mental handicaps.

Through the HOTLINE, planning and orientation sessions throughout the State, 6 Forums in five regions all during September, and State Conference in October, it will be possible to assess the problems and formulate solutions.

Another important activity of the Conference will be to interpret much of the new federal and state legislation concerning employment of the handicapped and transportation accessibility.

It is further planned that during the October conference some out of state individuals will participate in exhibit and entertainment presentations.

Walter W. Stueck, coordinator of the Traffic Safety Coordination Program located at Southwest Texas Junior College, will resign May 15 in order to accept a similar position at Texas Tech University in Lubbock.

The Regional Traffic Safety Office at the Junior College is responsible to political subdivisions concerning all traffic projects. within the following nine counties: Uvalde, Real, Val Verde, Sutton, Kinney, Dimmit, Maverick, Zavala and Edwards.

Stueck indicated that his position will hopefully be filled within the near future since there are numerous traffic safety projects that have been initiated since the inception of the program last August.

"All future traffic safety projects will continue to be coordinated through the Traffic Safety Office at the Junior College," he said. "Being based at Southwest Texas Junior College has definitely been an asset in pursuing the goals and objectives of the Texas Office of Traffic Safety, which is developing programs to reduce fatalities and injuries due to vehicular crashes."

Further information concerning the program can be obtained by writing the Regional Traffic Safety Office, Southwest Texas Junior College, Uvalde, Texas 78801, or by calling (512) 278-4401 extension 235.

HAIL, RAIN ALL IN SOUTHWEST TEXAS

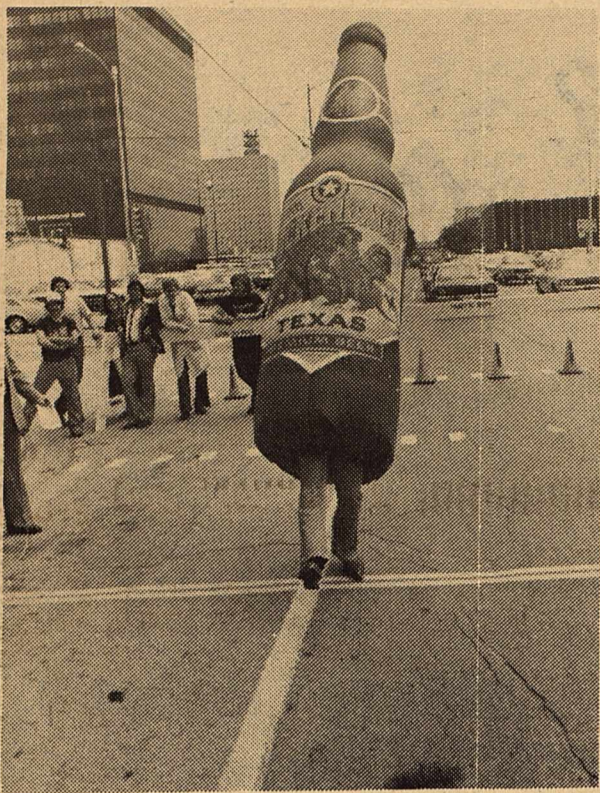

UVALDE--Some areas of Southwest Texas last week received welcome moisture while other areas got an unwelcome dose of hail to damage and destroy some crops.

Southernmost areas of 19-county region received rain up to two inches, and moisture fell in parts of drought-ravaged LaSalle and Maverick Counties. Neighboring Dimmit County, however, continues to report no precipitation.

Parts of Vel Verde and Northern Uvalde counties experienced a late afternoon hail storm early in the week. more than 2,000 acres of corn, cotton wheat, sorghum, pickles, and onions were damaged by the hail.

Hill country counties are in the best shape as far as moisture is concerned, but rain would still be welcome in most of those areas. Where moisture has fallen, hay and cattle prospects have improved.

IN the Wintergarden, yellow onions are being plowed out for lack of a market. White onions continue to move vairy welll and the carrot harvet is continuing in full swing.

LUCKENBACH, Texas - School officials at Luckenbach U have expressed dismay at recent reports of the signing of Earl Campbell, former UT all-American and Heisman Trophy winner, by the Houston Oilers.

According to a spokesman for the school, "Luckenbach U ain't part of NCAA and we figure the best way to get a good team is to hire good players. We bid three acres and the rights to a Luckenbach Beer distributorship in Fredericksburg for Campbell. We figure it's as good a long-time security for Earl as the Oilers \$1.3 million bid. It'd take Earl a good hundred years to make that much in Fredericksburg."

Luckenbach U's proposed Gillespie County Conference football schedule 1978 includes Cain City A&M and Art Institute, Stonewall University Dental Branch, Round Head State University, Downtown College in Gold, and other less notable teams.

The school is planning football try-outs later this spring. They expect Lam Schwerdtfeger to quarterback the team, if he can be persuaded to give up his present part-time job. Lam is a quality control man in charge of hop-smelling for the Luckenbach Beer brewery now in the development stages.

A PROCLAMATION BY GOVERNOR BRISCOE designates Nursing Home Week beginning Sunday, Mother's Day, May 14th and suggests that period as an appropriate time for Texans to visit the residents of the 1,013 licensed nursing homes in Texas. With the Governor for the signing ceremony were (1) H.H. (Bert) Foreman of San Antonio, Texas Nursing Home Association Public Relations Chairman, and Sidney D. Rich, President of the state association which sponsors the event.

GOVERNOR BRISCOE DESIGNATES NURSING HOME WEEK TO BEGIN ON MOTHER'S DAY

Residents in more than 1,000 nursing homes across Texas will be honored during a special week to begin Sunday, Mother's Day, May 14th.

Nursing homes in this area and elsewhere in the state and nation will hold Open House and a variety of other activities to mark the occasion which is sponsored annually by Texas Nursing Home Association.

Sidney D. Rich, president of the Texas professional association which is

the nation's largest, said: "The observance of Nursing Home Week in Texas has taken on great significance from several standpoints. First, of course, is the relationship of communities to residents of nursing homes. That is most important. But, there is another great potential involved. Our 'week' provides a wonderful opportunity for the general public to go into homes in their own neighborhoods and learn first hand what modern,

licensed nursing homes are really like."

Rich went on to say that a great many people "too many, in fact, have never actually been inside a nursing home and therefore have mistaken and often negative ideas about them. Today's nursing homes are much nicer than many people think they are. They can prove this to themselves simply by visiting, and Nursing Home Week is a good time to do it."

Roy Rogers and Dale Evans are celebrity "Hosts" for Texas Nursing Home Week, proclaimed by Governor Dolph Briscoe and scores of mayors of local communities to continue throughout the week beginning on Mother's Day. The celebrated entertainers are donating their influence to urge visits to nursing home residents.

"Residents will be expecting you," said Dale Evans in her official invitation, "don't disappoint them. And when you go, carry greetings from Roy and me with you... will you?"

Nursing homes are filling an important role in the health-care delivery system. In Texas there are several thousand more nursing home beds than hospital beds, emphasizing the growing importance of long-term care in a society with lengthening life expectancy.

Governor Briscoe, in his proclamation, termed the role of nursing homes as "vital" and encouraged all who can to visit with residents and to become personally informed on the quality of care being delivered in licensed Texas facilities.

SIXTH GRADE HAS SHOCKING EXPERIENCE

BY: Nocona Breen

Thursday, April 27, the Jones Elementary sixth grade had an electrifying show. Central Power and Light Company sent John Vitaglione to Brackett to speak to the sixth graders about the different types of electricity.

Vitaglione showed examples of hydropower, nuclear power, and solar power. He also lectured about the uses of energy from the times of the caveman until today.

Vitaglione also had a static electricity machine. A volunteer placed his hand on the machine and his hair stood on end like a porcupine's.

The Electric Show lasted for about 55 minutes and was very informative and entertaining.

Mr. Vitaglione was assisted by Muriel Davoust.

How YOU can control the cost of Keeping cool this summer...

Your electric bill may double during our searing summer season because of your increased use of air conditioning. That's because more than half the electricity used in most air conditioned homes during the summer months is the power used for cooling. How much electricity you use during the hot South Texas summer just ahead is, to a large extent, up to you.

Fortunately, you can control your use of electricity substantially by using air conditioning wisely. HERE ARE SOME SUGGESTIONS TO HELP:

- Have your air conditioner cleaned and checked each year to insure that it is running at top efficiency.
- Clean or replace the filter at least once a month, or preferably every two weeks.
- Keep the thermostat set at the highest comfortable setting, around 78 degrees. Keeping your house at 71 degrees could cost twice as much for air conditioning as a 78 degree setting.
- Keep the outside sections of central air conditioning units free of grass, leaves, shrubbery and other obstructions. The unit must have free circulation of air for good performance.
- Keep direct sunlight out of the house with shades or draperies. Trees, shrubs, awnings and shutters also can provide shading for your home and reduce the work load of your air conditioner.

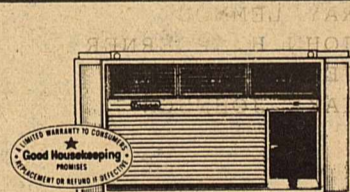

If you want more information on operating your air conditioning system more economically, we have a free booklet for you. Ask for "How to Save Money on Your Air Conditioning" at your local CPL office.
