YORK IN RANCH MANAGEMENT PROGRAM

Brenda Kay York of Brackettville is among 34 ranch men and women taking part in Texas Christian University's unique nine-month Ranch Management Program.

They have come to Fort Worth from throughout Texas, as well as Kansas, Nebraska, New Mexico, Arkansas, Ohio, Idaho, and California and Venezuela and West Germany.

For 25 years TCU has been training today's rancher, a combination accountant-veterinarian-farmer-broker-salesman-executive-laborer who stands out as the general practitioner of the outdoors in an age of specialists.

Directed by John Merrill, the program combines 60 percent classroom time with 10,000 miles of field work to 60 ranches, farms, feedlots, marketing and packing facilities and research centers in Kansas, Oklahoma and Texas.

From now until next May these 34 students will concentrate all their energies on ranch management.

MARTIN RECEIVES DEGREE

Pat Ray Martin of Brackettville is among 137 persons receiving the Doctor of Veterinary Medicine degree this year from Texas A&M University, the nation's largest veterinary program.

Graduation for the new veterinarians ends three years of non-stop training.

Texas A&M supplies about 9 percent of the nation's veterinarians each year.

SELECTIVE SERVICE REGISTRANTS

Austin-- A list of Selective Service registrants born in 1962 and the first part of 1963 has been posted in the Kinney County Courthouse.

According to Colonel Paul Dean Aikin, the State Director of Selective Service for Texas, the Military Selective Service Act requires that the names of Selective Service registrants be posted

ed in a public place within each local board area.

Local Board tentative assignments have been made based upon the Zip Code of the registrants permanent home address.

Colonel Aikin says the law (the Military Selective Service Act) still requires all young men to register with Selective Service at age eighteen.

Currently, men born in 1963 are required to register within 30 days before or 30 days after their eighteen birthday. Registration forms may be completed at any United States Post Office.

If any young men failed to register on time, he may clear his record by registering as soon as possible.

ENROLLMENT FIGURES RELEASED

Enrollment figures released at the close of late registration at Southwest Texas Junior College indicate that, after final adjustments are made, approximately 2000 students will attend classes this year.

"We have entered the registration of 1974 students into the computer so far," said Vada Jesse, assistant registrar, Friday morning. "we still have to enter the students who registered yesterday, so we hope to break the 2000 mark when official figures are determined."

The breakdown of enrollment at the various areas served by SWTJC is as follows: Uvalde day 910; Uvalde evening, 225; Del Rio, 469; Eagle Pass, 265; Crystal City, Carrizo Springs and Asherton, 80; and Dilley, 25.

The unofficial total represents an approximately 10% decrease in enrollment from the fall of 1980. The decrease was expected, primarily because of the local housing shortage that is affecting the Uvalde community as a whole.

INCLUDED.

SEPTEMBER TIME FOR INSURANCE DECISIONS

Between now and September 30, Texas farmers can study the All-Risk Crop Insurance Program for wheat and barley to decide how it can fit into their 1982 plans.

"Basically, the program works the same as before. The producer signs up for protection now. After the crop is planted, they file a report of planted acres which becomes the basis for their protection.

"If the crop is damaged by an unavoidable natural hazard at any time during the growing season, an indemnity is paid on the difference between the producer's guarantee and the actual or appraised production," explained Ben A. Jordan, Jr., FCIC Regional Director. "Payment of premiums is not required until after harvest."

The program is set up so every producer can work out an insurance plan that fits his or her needs and budget. For wheat and barley, the producer selects a guarantee in bushels per acre from one of three levels which reflects approximately 50, 65, and 75 percent of their average yield.

The producer also selects on of three price elections. This year's options are \$2.50, \$3.50 and \$4.50 per bushel on wheat; and \$2.00, \$2.25 and \$2.60 on barley, according to the Regional Director.

Another feature of the program is that producers can count on the government paying up to 30 percent of the premium and the rest is tax deductible.

Those producers who establish good insurance experience also receive additional discounts of from 5 to 50 percent of the regular premium.

BOUGAINVILLEA...Nyctaginaceae..

Bougainvilleas (or paper flower) are vigorous subtropical woody plants armed with spines. Though normally climbers--as seen outdoors in warm climates--they can be trained to keep bushy indoors, and there are some recently introduced dwarf-growing kinds that remain bushy without special attention. Their oval leaves are sparse and uninteresting, but they have decorative papery bracts surrounding small cream-colored flowers. Under good conditions these colorful bracts, which are mainly produced in spring and summer, persist for several weeks and even longer for dwarf kinds. The bracts may be white, yellow orange pink, red or purple and they usually appear in clusters of 10 or 20.

Proper care: Light-in order to bloom, Bougainvilleas need as much as 4 hours of direct sunlight per day.

Temperature--normal room temperature are suitable during the active growth period.

Watering-water actively giv-

ing enough to moisten the mixture thoroughly allow the top 2/3 to dry out between waterings.

Feeding--standard liquid fertilizer.

SCHOOL MENU

SEPTEMBER 14--MONDAY

1/2 pint milk; Rice Krispies;
Pineapple Juice

 JC Penney
TIPS TO HELP YOU

Q. Is it alright to make hand bound buttonholes even if the sewing instructions suggest machine made ones?

A. Yes, by all means finish the garment to your satisfaction. Hand finished buttonholes add a professional finished look to any garment.

Q. What is wrong with pants that pull down from the waist in the back?

A. This means more room is needed through the hip area. Measure then adjust your pattern before cutting your fabric.

Q. I have a large figure. Can I wear prints?

A. Prints are fine. Stay away from large prints. A small print on a dark background can be very flattering.

UPCOMING DEER SEASON APPEARS PROMISING

UVALDE--The upcoming deer season promises to be everything that last year wasn't.

Good forage and better than normal weather conditions should result in better quality deer than a year ago and more of them

according to a Texas Agricultural Extension Service wildlife specialist based here.

Hunters can even expect better antlered deer from the improved nutrition which is a major contributing factor to their condition.

"Last year's drought effectively reduced the deer numbers in overpopulated areas," explains Dr. Dwight Guynn. "This year there is more food for each animal which translates into good antler growth for bucks and higher fawn crops for does."

Higher fawn crops generally means the deer herds are immediately beginning a population increase. Hence, Guynn stresses that landowners and hunter can work toward a larger female harvest this year in order to keep down the increasing deer population where desired.

"Failure to harvest more does in the past seasons led to overpopulated conditions in many parts of the state that resulted in large die-offs similar to what happened when the drought hit last year," Guynn says. "Historically, deer harvests in the Hill Country have been about 10% of the population per year. However, we recommend that 20-25% of the deer population be harvested annually just to compensate for reproduction and

keep the population from increasing beyond the food supply."

Guynn, a certified wildlife biologist headquartered at Texas A&M's Agricultural Research and Extension Center in Uvalde, says it's getting harder each year to predict the type hunting season that hunters can expect. Weather conditions and food availability are major considerations. With a good corn crop and lush green forage available deer will feed mostly at night and bed down during the day, making hunting more difficult.

He says an early frost or scarce food conditions during the season usually cause deer to roam more during daylight hours to seek food. Deer would be tan be more visible and available to hunters. They could also be more easily drawn to baited stands.

Guynn reminds landowners that deer census techniques and spotlight counts can be used to better determine deer populations and evaluate proper harvest levels. More can be learned about these techniques along with aging methods, harvest record systems and harvest recommendations through local county extension agents or Texas Departments of Parks and Wildlife officials.

Deer season opens in most Texas counties at sunrise on November 14, Good hunting!!

KINNEY COUNTY LIBRARY

BY: Marie Bixby

Dear K.C.,

The Friends of the Library meeting was held at 7 p.m. Tuesday at the County Court room. Pres. Don Parks got right down to business. Walter Moore gave his report on the Friends labor fund receipts and disbursements. Since his first letter got such good response from many of the absentee landholders, Charles Ward offered to compose a second letter to those who have not acknowledged the first letter--giving them a second chance to help this cause.

Al Pagel gave a report of the progress being made at the building site. He said that he would be able to get the building enclosed within the next few weeks making it possible to store building materials safely until such time as more money for labor is available--the source of which may again be more fund raising or from skilled volunteers. When asked, Mr. Pagel suggested a push for volunteers be postponed until the present phase of the work comes to a standstill; at which time the "friends" would purchase liability insurance to protect such volunteers in the event of accident on the job.

Fears were voiced concerning the long delays of the trial to come before the Superior Court Judge--and who or what circumstances are protecting the guilty parties at our expense. A committee was appointed by Pres. Don Parks to inquire into this matter in depth and to come up with appropriate action.

Yours truly,
Friends of the Library

LANDOWNERS PASSING UP DEER LEASE REVENUES

UVALDE--Texas landowners may be missing out on a bundle in available revenues by not leasing out hunting rights on their land, according to a Texas Agricultural Extension Service wildlife specialist based in the heart of Southwest Texas' deer hunting mecca.

"Deer leases are going for a premium in most counties," says Dr. Dwight Guynn a certified wildlife biologist. "The increased popularity of deer hunting, increasing population shifts to the Southwest and the desire to get away from the city life to the serene countryside have been the main resources for the increased demand for hunting leases."

Guynn says that anyone who has recently tried to locate a deer lease has probably felt the crunch. "It's not just in Southwest Texas, but in most areas where deer hunting is a popular sport," he explains.

Actually, the surge in deer hunting interest around the state--especially from metropolitan factions--has led to a critical shortage of affordable deer leases.

But an attractive alternative for hunters and landowners does exist, Guynn acknowledges.

"Landowners can list their ranches with local chambers of commerce for deer leasing," he says. "This offers landowners an additional, yet unplanned source of revenue, while allowing more hunters to enjoy the sport."

Guynn's view is shared by Bill Dillard, executive vice-president of the Uvalde Chamber of Commerce.

"that's absolutely correct," Dillard maintains. "We got 10 times as many requests for deer leases at the Uvalde Chamber office as we have leases available. This could be virtual gold mine for ranchers who have never leased their land for hunting and a lifesaver to those in search of a nearby lease."

Dillard notes that many hunters from metropolitan areas are usually unfamiliar with the areas they want to hunt. Hence, he says they usually first call the chamber of commerce, and the closer to the opening of deer season, the more calls he receives. In addition, many local residents call his office in hopes of locating a lease. He says both situations are consistent with chamber offices across the state.

"It makes us feel good to be able to help someone locate a deer lease and we feel just as bad when we don't have enough listings to go around he says. "By having more leases available we can take care of out of town hunters as well as local residents who have trouble locating one. It can work out for everyone if we get sufficient listings."

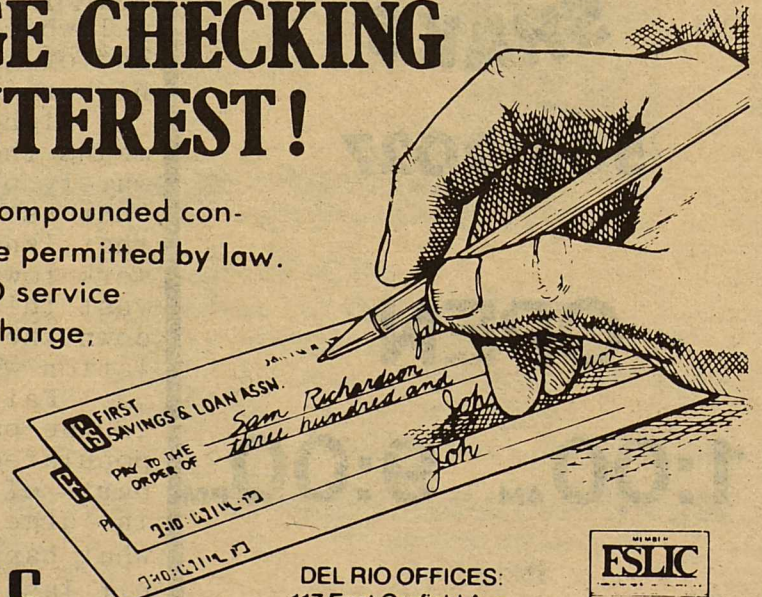

Like Guynn, Dillard says that more leases mean additional dollars to area landowners and, consequently, a stronger local economy.

Although deer season gets closer with each fleeting day, there's still time for the chambers of commerce across the state to help out, provided landowners respond quickly to the pleas. But this time the plea can mean supplemental income for landowners and a feeling of total satisfaction to every one.

CATTLE RAISERS GROUP SETS MEMBERSHIP MEETING

Texas and Southwestern Cattle Raisers Association will hold a membership get-together at the Civic Center on Highway 90 in Uvalde, Texas, at 6:30 p.m., Tuesday, September 15, says Don C. King, TSCRA secretary-general manager.

"The purpose of this casual, down-home meeting is to acquaint ranchers in Uvalde and surrounding counties with the new program and services our Association has undertaken in recent months on their behalf," King said. "It will be an excellent opportunity for members and staff personnel to discuss one-on-one what the Association is doing for its members."

John S. Cargile, TSCRA president, of San Angelo, will be on hand to discuss the most recent Association activities which will be happy to answer any questions cattlemen might have concerning the Association's involvement in various programs that affect livestock producers. A 20-minute slide show describing TSCRA and its activities will be shown.

Hosts for this event will be Dolph and Chip Briscoe Ranch, Inc., and Ed Vaughn, all of Uvalde.

The cattle raisers get-together is one of several grassroots meetings TSCRA, which represents 14,000 livestock producers in Texas, Oklahoma and surrounding states, has sponsored in recent months. It is open to all members in the area and other interested cattlemen at no charge.

"We hope that all members as well as those cattlemen and horsemen in Uvalde, Kinney, Real Edwards, Maverick, Dimit, Zavala and Bexar counties who are not yet members will attend," King said.

AIRSHO SLATED

An abbreviated replay of World War II airpower will fill the skies over Hondo Airbase Sunday, September 13, when the Confederate Air Force presents its second annual AirSho to be staged here.

The two-hour narrated show, from 2 to 4 p.m., tells the story of airpower through that war, beginning with the bombing of Poland by the Germans, through the bombing of Spain and into the Battle of Britain and the air war over Europe.

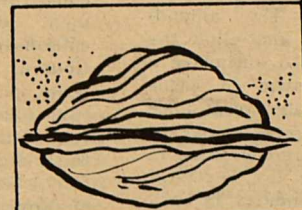

Filling the skies with some 60 World War II vintage, aircraft the show builds to a climatic highlight, the attack on Pearl Harbor by the Japanese. Members of Gulf Coast Wing in Galveston, flying their modified zeros and Kate bombers, re-en-act the dastardly attack in a thrill-packed 10 minutes title, "Tora, Tora, Tora."

Gates at Hondo Airbase will open at 7 a.m. on September 13

and the spectators will have plenty of opportunity to view the vintage aircraft prior to the flying activities at 2p.m. They also will be able to buy food, beer and other refreshments.

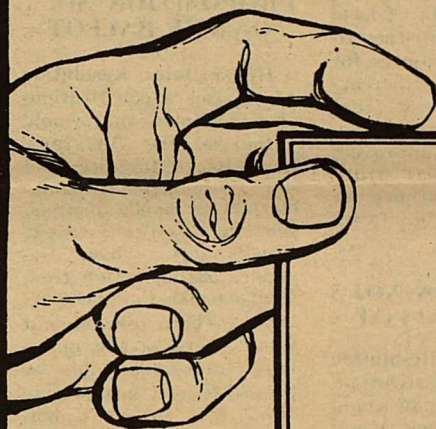

Tickets at the gate will be \$10 per person, with children under six being admitted free. Advance tickets through September 12 are \$5. Military personnel in uniform will be admitted for \$5 on the day of the show.

The event is co-sponsored by the Medina County Fair Ass'n. which will stage its second annual Medina County Fair at Hondo City Park on September 19-20.

About 15 species of walnuts are native to North and South America.

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS
OF PROPOSED
CONSTITUTIONAL AMENDMENTS
SPECIAL ELECTION
NOVEMBER 3, 1981

**PROPOSITION NO. 1
ON THE BALLOT**

Senate Joint Resolution 8 proposes a constitutional amendment that would allow the legislature to authorize cities, towns and other taxing units to grant exemptions from ad valorem taxes on an unproductive, underdeveloped or blighted area in order to encourage its development. The amendment would also allow the legislature to authorize a city or town to issue bonds or notes to finance this development and to pledge future increases in ad valorem tax revenues from the property in such areas to repay these bonds or notes.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize cities, towns, and other taxing units to encourage the improvement, development, or redevelopment of certain areas through property tax relief and the issuance of bonds and notes."

**PROPOSITION NO. 2
ON THE BALLOT**

House Joint Resolution 117 proposes a constitutional amendment that would authorize a person to receive a patent to land from the Commissioner of the General Land Office under certain conditions. Application for the patent must be made within five years from approval of the amendment. The land must be surveyed, public free school land not previously patentable. The person must have a properly recorded deed to the land, which he acquired without knowledge of the patent defect and which title he and his predecessors in interest have held for at least 50 years. The person and his predecessors in interest must have continuously claimed the land and paid the taxes for at least 50 years.

This amendment does not apply to beach land, submerged land, or islands. An applicant may not use this provision to

resolve a boundary dispute. This amendment will not apply to land which has been determined to be state-owned by a court of competent jurisdiction or that has a productive state mineral lease on the effective date of the amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school fund land held in good faith under color of title for at least 50 years as of November 15, 1981."

**PROPOSITION NO. 3
ON THE BALLOT**

House Joint Resolution 38 proposes a constitutional amendment that would enable the legislature to grant to a state finance management committee the authority to manage state funds. Funds constitutionally dedicated to specific purposes would not be subject to committee management. The committee would be composed of the Governor, Lieutenant Governor, Speaker of the House of Representatives, Chairman of the Senate Finance Committee, Chairman of the House Appropriations Committee, Chairman of the Senate State Affairs Committee, and the Chairman of the House of Representatives Ways and Means Committee.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to allow the legislature to grant to a state finance management committee the power to manage the expenditure of certain appropriated funds."

**PROPOSITION NO. 4
ON THE BALLOT**

House Joint Resolution 6 proposes a constitutional amendment that would provide that one-half of the surplus tax revenues

above the spending limit provided by Article VIII, Section 22, of the Texas Constitution would be placed in a Water Assistance Fund to be used as provided by law, including projects for water development and conservation, water quality enhancement, and flood control purposes or any combination of these purposes.

The amendment also provides \$500,000,000 of the general credit of the state to guarantee bonds issued in commercial markets by local political subdivisions, including cities, counties, and special districts. The amendment allows amounts to be established to decrease or retire state debt, which is defined as that debt secured by the full faith and credit of the state. The amendment would raise the interest that could be paid on authorized, but unissued, bonds guaranteed by the full faith and credit of the state from 6% to 12%.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the use of a portion of the excess revenues of the state for water development, water conservation, water quality enhancement, and flood control purposes; authorizing the use of the state's credit, not to exceed five hundred million dollars, to guarantee the bonds of cities, counties, towns, and other units of local government in the financing of projects for such purposes; increasing the interest rate that may be paid on previously approved, but unissued, state bonds; and authorizing a program to retire state bonds."

**PROPOSITION NO. 5
ON THE BALLOT**

House Joint Resolution 19 proposes a constitutional amendment that would exempt livestock and poultry from taxation. Currently, farm products in the hands of the producer and family supplies for home and farm use are exempt.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to provide for the inclusion of livestock and poultry with farm products as exempt from taxation."

**PROPOSITION NO. 6
ON THE BALLOT**

House Joint Resolution 81 authorizes the governing body of a county, city, school district or other political subdivisions to exempt from taxation a portion of the market value of a residence homestead. The portion exempted may be as much as 40% for 1982-1984; 30% for 1985-1987; and 20% for 1988 and after. The amount of an exemption may not be less than \$5,000 unless the legislature by general law prescribes other monetary restrictions on the amount of the exemption. An eligible adult is allowed to receive other applicable exemptions provided by law. An exception is made where ad valorem tax has previously been pledged for the payment of debt.

The amendment further directs the legislature to require that notice be given to property owners of a reasonable estimate of tax on their property in certain situations.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing a political subdivision to provide property tax relief for owners of residence homesteads and changing certain property tax administrative procedures."

**PROPOSITION NO. 7
ON THE BALLOT**

House Joint Resolution 4 proposes a constitutional amendment that would authorize the Veterans' Land Board to issue and sell an additional \$250,000,000 in bonds increasing the Veterans' Land Fund's total bond issuance authorization from \$700,000,000 to \$950,000,000. The amendment would increase the maximum interest payable by the state on these bonds from 6% to 10%, and permit an even higher rate, if specified by the legislature.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance of additional bonds to finance the veterans' land program and to increase the maximum interest rate allowable on veterans' land fund bonds."

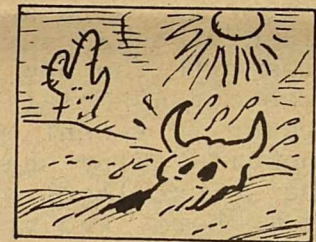

tween the two associations is that ATPE vehemently opposes collective bargaining for public school employees and was successful at stymieing TSTA's bid to get legislation passed by the 67th Legislative making it legal in Texas.

"If it ever comes to the classroom teacher putting down the textbooks and chalk for the pick et sign, the children of Texas will be the big losers," Molly Sanders, who recently formed a local unit of ATPE in Corpus Christi, said.

"It is time that the taxpayer who are footing the bill for education in this state realize that there is a strong movement among organized labor and the TSTA to initiate collective bargaining for school teachers in this state," Morrow said.

"On the other hand, it is also time for the public to realize that if quality education is to exist they must get priorities straight and bring salaries in line with those for other college graduates who are entering private industry.

"While many young people are choosing other higher paying professions, and some veterans are leaving education for the same reason, many dedicated teachers are hanging in there working to improve quality and accountability without militancy. These are the teachers ATPE represents," Morrow said.

The Sahara desert comprises an area as large as Europe: over three and a half million square miles.

**ATPE OPPOSES SCHOOL
TEACHERS STRIKES**

Above the din of noise about teachers leaving their classrooms for higher paying jobs and student's scores falling, a new voice is gaining momentum with an organization of some 35,000 Texas educators who are supporting a resurgence of quality.

"The crisis, commotion, and confusion that currently reign in many classrooms today must be replaced by commitment, confidence, and character," Mike Morrow, executive director of the Association of Texas Professional Educators (ATPE) told high school vocational counselors at a conference sponsored by the Texas Education Agency in Austin recently.

ATPE, the association which Morrow represents, experienced a 50 percent increase in member

ship last year which he attributes to the fact that "teachers are sick and tired of the current union tactics and political overtones that some teacher groups have adopted."

"While our members want and are entitled to a standard of living commensurate with their training and education, they are concerned with more than their paycheck and beating the kids out the door when the bell rings at 3:30 p.m.," Morrow said.

ATPE supports local control of public schools and is not affiliated with the National Education Association as is the Texas State Teachers Association (TSTA).

"We believe that the direction of education in this state should be decided by Texans instead of bureaucrats in Washington," stated president Charles Pickitt, Richason, said.

Another major difference be-

The Southwest Texas Junior College chapter of the Society of Physics Students (SPS) has been designated as an Outstanding SPS Chapter for 1980-81.

Only 36 of the 500 SPS chapters received this award, which is given to recognize the high quality of the chapter's activities during the 1980-81 academic year.

SWTJC is one of only about 3 two-year colleges across the nation that have SPS chapters; the local chapter was therefore in competition with primarily 4 year colleges and universities.

Some of the other winning chapters were Auburn University, University of California at Berkeley, University of Iowa, University of Kansas, Kent State University, Old Dominion University, Pennsylvania State University, University of Pittsburgh, South Dakota State University, United States Air Force Academy and Villanova University.

The SWTJC SPS chapter also won an Outstanding Chapter certificate for 1977-78, the first year that the awards were presented. The award was originated to give recognition to the student chapters for their work in the promotion of physics through their chapters.

Judgement for the awards was based on chapter activity as demonstrated through regular meetings; on campus faculty and student speakers; films; SPS social events; chapter membership outstanding chapter projects; outside guest lectures and SPS related tours; Bendix Award and Marsh W. White Award proposals submitted and awards granted; student papers presented at SPS and other scientific meetings; student attendance of and participation in SPS Zone or regional meetings and hosting an SPS Zone or regional meeting.

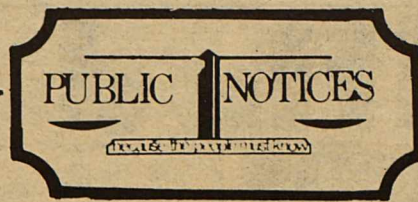

On October 23 to 25, 1980, the SWTJC SPS chapter co-hosted the Joint meeting of the Texas Section of the American Association of Physics Teachers and Zone 10 Region of the Society of Physics Students. During the conference the chapter invited several speakers, including, most notably, Dr. Albert Barlett, Professor of Physics at the University of Colorado at Boulder.

During the 1980-81 academic year, the SWTJC chapter also hosted special speakers Dr. C.K. Mank, Professor of Physics at Sam Houston University and Dr. James Crawford of Southwest Texas State University.

The local SPS chapter also sponsored the Second Annual Physics Olympics in March in conjunction with the Annual SWTJC Science Fair, an annual event held by the SWTJC science and math division for area high school science departments.

The officers for the award-winning 1980-81 SWTJC SPS chapter were Tommy Southerland, president; Anthony Morin-Edwin Garner, vice-president; Binky Gibson secretary-treasurer; and Diane DeVries, publicity officer.

Sponsor of the organization is Mary Beth Monroe, SWTJC physics instructor.

PUBLIC NOTICE

The City of Brackettville is now accepting bids for a concrete bridge measuring ten feet by thirty-five feet by four feet.
(10' X 35' X 4')

The City of Brackettville has the right to refuse any or all bids.

AVISO PUBLICO Breves Declaraciones Explicativas De Las ENMIENDAS CONSTITUCIONALES PROPUESTAS ELECCION ESPECIAL 3 DE NOVIEMBRE DE 1981

PROPOSICION NO. 1 EN LA BOLETA

Resolución Conjunta No. 8 del Senado propone una enmienda constitucional que permita a la legislatura autorizar a ciudades, pueblos y otras entidades fiscales conceder exenciones de impuestos por avalúo en una área no productiva, subdesarrollada o deteriorada para estimular su desarrollo. La enmienda también permitiría a la legislatura autorizar a una ciudad o a un pueblo emitir bonos o vales para financiar este desarrollo y empuñar futuros aumentos en los ingresos de impuestos por avalúo sobre la propiedad en dichas áreas para pagar estos bonos o vales.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que autoriza a ciudades, pueblos, y otras entidades fiscales estimular el mejoramiento, desarrollo, o redesarrollo de ciertas áreas por medio de auxilio en los impuestos sobre la propiedad y la emisión de bonos y vales."

PROPOSICION NO. 2 EN LA BOLETA

Resolución Conjunta No. 117 de la Cámara de Representantes propone una enmienda constitucional que autorice a una persona a recibir título de terreno del Comisionado de la Oficina General de Terrenos bajo ciertas condiciones. La solicitud para el título se tiene que hacer dentro de cinco años a partir de la aprobación de la enmienda. El terreno tiene que ser terreno de las escuelas públicas libres, medido, y no previamente titulado. La persona tiene que tener una escritura del terreno propiamente registrada, que adquirió sin saber del defecto de título y que él y sus antepasados interesados han tenido por lo menos durante 50 años. La persona y sus antepasados interesados tienen que haber reclamado el terreno continuamente y pagado los impuestos por lo menos durante 50 años.

Esta enmienda no se aplica a terreno de playa, a terreno sumergido ni a islas. Un solicitante no puede usar esta provisión

para resolver una disputa de límites de terrenos. Esta enmienda no se aplica a terrenos que hayan sido declarados propiedad del estado por una corte de jurisdicción competente ni a los que tienen un arriendo estatal de minerales, los cuales están produciendo en la fecha efectiva de la enmienda.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que autoriza al comisionado de la Oficina General de Terrenos a dar títulos para ciertos terrenos del fondo para escuelas públicas libres tenidos en buena fe bajo título aparente durante por lo menos cincuenta (50) años antes del 15 de noviembre de 1981."

PROPOSICION NO. 3 EN LA BOLETA

Resolución Conjunta No. 38 de la Cámara de Representantes propone una enmienda constitucional que autorice a la legislatura conceder a un comité estatal de administración financiera la autoridad de administrar fondos estatales. Los fondos destinados por la constitución a fines específicos no estarían sujetos a la administración del comité. El comité estaría compuesto del Gobernador, el Gobernador Teniente, el Presidente de la Cámara de Representantes, el Presidente del Comité de Finanzas del Senado, el Presidente del Comité de Asignaciones de la Cámara de Representantes, el Presidente del Comité de Asuntos de Estado y el Presidente del Comité de Medios y Arbitrios de la Cámara de Representantes.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que permite a la legislatura conceder a un comité estatal de administración financiera la autoridad de administrar el gasto de ciertos fondos apropiados."

PROPOSICION NO. 4 EN LA BOLETA

Resolución Conjunta No. 6 de la Cámara de Representantes propone una enmienda constitucional que disponga que la mitad de

los ingresos sobrantes de impuestos, sobre el límite de gastos dispuesto por el Artículo VIII, Sección 22, de la Constitución de Texas, sean depositados en un Fondo de Asistencia del Agua a ser usados como provea la ley, incluso en proyectos para el desarrollo y la conservación del agua, la mejoría de la calidad del agua, el control de inundaciones o para cualquier combinación de estos propósitos.

La enmienda también provee \$500,000,000 del crédito general del estado para garantizar bonos emitidos en mercados comerciales por subdivisiones políticas locales, incluso ciudades, condados y distritos especiales. La enmienda permite que se establezcan cantidades para disminuir o para retirar deudas del estado, las cuales se definen como deudas garantizadas por la plena fe y el crédito del estado. La enmienda aumentaría el interés que se pueda pagar en bonos autorizados pero no emitidos, garantizados por la plena fe y el crédito del estado, de 6% a 12%.

La enmienda propuesta aparecerá en la boleta como sigue: La enmienda constitucional que autoriza el uso de una porción de los ingresos sobrantes del estado para el desarrollo, la conservación y la mejoría de la calidad del agua y para el control de inundaciones; que autoriza el uso del crédito del estado, no en exceso de quinientos millones de dólares, para garantizar los bonos de ciudades, condados, pueblos, y otras entidades de gobierno local en la financiación de proyectos dedicados a tales fines; que aumenta la tasa de interés que se puede pagar por bonos estatales previamente aprobados pero no emitidos; y que autoriza un programa para pagar bonos."

PROPOSICION NO. 5 EN LA BOLETA

Resolución Conjunta No. 49 de la Cámara de Representantes propone una enmienda constitucional que dejaría libres de impuestos el ganado y las aves. Actualmente los productos agrícolas en manos del productor y las provisiones familiares para el uso de la casa y de la granja están libres de impuestos.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que permite incluir el ganado y las aves con los productos agrícolas libres de impuestos."

PROPOSICION NO. 6 EN LA BOLETA

Resolución Conjunta No. 81 de la Cámara de Representantes autoriza al cuerpo gobernante de un condado, una ciudad, un distrito escolar u otras subdivisiones políticas declarar libre de impuestos una porción del valor de residencia. La porción libre de impuestos puede ser hasta 40% para el período 1982-1984; 30% para 1985-1987; y 20% para 1988 y los años siguientes. La cantidad de la exención no puede ser menos de \$5,000 a menos que la legislatura por ley general prescriba otras restricciones monetarias de la cantidad de exención. A un adulto elegible se le permite recibir otras exenciones aplicables previstas por la ley. Se hace excepción en caso de que los impuestos por avalúo hayan sido comprometidos previamente para el pago de deudas.

La enmienda además dirige a la legislatura que requiera que se les dé a los propietarios una estimación razonable de impuesto sobre su propiedad en ciertas situaciones.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que autoriza a una subdivisión política proveer auxilio en los impuestos sobre la propiedad para los dueños de hogares de residencia y que cambia ciertos procedimientos administrativos en los impuestos sobre la propiedad."

PROPOSICION NO. 7 EN LA BOLETA

Resolución Conjunta No. 4 de la Cámara de Representantes propone una enmienda que autorice a la Junta de Terrenos para Veteranos poner en circulación y vender bonos adicionales en la cantidad de \$250,000,000 lo cual aumentaría de \$700,000,000 a \$950,000,000 la autorización total de circulación de bonos del Fondo de Terrenos para Veteranos. La enmienda aumentaría el interés máximo pagable por el estado por estos bonos de 6% a 10% y permitiría una tarifa aún más alta si fuera especificada por la legislatura.

La enmienda propuesta aparecerá en la boleta como sigue: "La enmienda constitucional que autoriza la emisión de bonos adicionales para financiar el programa de terrenos para veteranos y que aumenta la tarifa máxima de interés que se permite en los bonos del fondo de terrenos para veteranos."
