BUILDING PERMITS UP 500%

CITY HALL

BY: WM THURBER,
CITY MANAGER

City Council held their regular monthly meeting Tuesday, 11 of January, 1983, at city Hall. The highlights of which included the Mayor calling for a City Election to be held the 1st Saturday in April, to elect two Councilman for the expiring terms of Councilman Woodson and Councilman Davis.

The City Manager presented the financial report for the month of December with a comparison of the financial status of the City for the close of 1982 versus 1981. the City staff has been working well as a team and the year end reports more than justify the pay raises and new equipment and supplies purchased by the City. The increased revenue with no rate increas have enabled the staff to continue to increase services and support for the residents.

A new two year contract for Mr. Chester Young, the City Tax Attorney, was available and future plans made to include tax billings on the new computer to be put in operation by the City in March was discussed.

No bids on City owned property offered for sale were received and accepted by the Council so City will retain rights to all City lots previously advertised

Sheriff Norman Hooten appeared before the Council to explain his decision to charge \$18.00 per day for City Prisoners removed to the County Jail. The

jail charges were accepted by the Council as well as approving and adopting Ordinances #215 thru #219 as had been previously published in the Public Notices Section of this paper. The Ordinances covering Posting of Bills and Notices, Council Place Assignments, Rabies Control of Household pets, Personnel Policy on City Employees and an Ordinance covering Emergency Disaster Operations were read, approved, and adopted and are effective for City Operations

Mr. Chris Gomez, gave an interesting report on a program for this year's Little League Baseball Season. The Council was receptive to this program presented and will consider specific requests for the support at the February meeting.

Any resident who is a qualified registered voter is asked to contact the City Manager if they would be interested in performing the duties as the Election Judge, Assistant or Eleciton Clerk for the upcoming election in April.

***** GOOD SIGNS

Building Permits issued by the City of Brackettville increased 500% in 1982 over 1981. The school building project contributed a major show to this outstanding record but with the telephone building expansion, 14 residential expansions and remodeling, , 2 business expansions, 2 new homes, and 5 new mobile homes the record shows a steady, solid base for continued growth in this important economic indicator. Building permits issued for 1982 were for \$1,013,000.00 compared to \$202,100.00 in 1981.

STATE SENATOR BILL SIMS

State Senator Bill Sims of San Angelo, who campaigned to protect West Texas water supplies, was appointed today to the Natural Resources Committee overseeing water legislation.

Sims was also appointed to the Education and Intergovernmental Relations committees, and named Vice Chairman of the Subcommittee on Energy.

"The appointments are ideal for District 25 and I am very happy," Sims said.

"My priority request to Lt. Gov. Hobby was the Natural Resources Committee, and I am pleased and encouraged to serve on this panel."

Legislation affecting agriculture and oil and gas industries are generally assigned to the Natural Resources Committee which sits over subcommittees on agriculture, energy and water.

"Agriculture and oil and gas are economic pillars in District 25," he said.

"Also, my election campaign pledged to conserve and

enhance West Texas water supplies. This issue is dear to my heart, and I'm grateful to Lt. Gov. Hobby for honoring our requests. "

Sims said his seat on the Education Committee would help him work for full funding for Angelo State University at San Angelo, Sul Ross University at Alpine and Midland College.

"I am wrapping up preliminary work on dedicated funds for colleges and expect to make an announcement on that issue some time this week," he said.

SIMS APPOINTED TO EDUCATION COMMITTEE

Lieutenant Governor Bill Hobby announced at the opening of the 68th Legislative Session the he is appointing State Senator Bill Sims as a member of the Education Committee, the Intergovernmental Affairs committee, and the Natural Resources Committee
"I am pleased to call on Senator Sims' experience and knowledge in this session of the Legistature to help on these important committee," Hobby said of the appointments. Sims, from San Angelo, is in his first term in the Senate.

SHERIFF'S CORNER

By. Norman H. Hooten
Burglars, vandals, and thieves are still at work in our community. Both victims were from the Houston area. One man reported the theft of approx. \$750.00 worth of clothing and personal property from his pickup near a local lounge. The other victim reported the theft of a shotgun valued at \$25.00 from his vehicle that was left unattended on a ranch in the southern part of the County.

The investigation continues in the Malone burglary. I have asked Texas Ranger Tol Dawson, to assist me in this investigation and we are putting together all the information we have in the hopes that we can determine, at least, an overall picture of the crime. We also have some leads that we are investigating. Many rumors and pieces of false information have been investigated and disposed of. We are getting close but still lack enough evidence to make an arrest. I would like to remind some of those who seem to be trying to cloud the investigation that Art. 37.08 of the Texas Penal Code provides a \$1,000 fine and six (6) months in the County Jail for giving information about a crime to a peace officer when the person giving that information know it to be false and misleading. We need information, but false and misleading information waste valuable time and money.

We would suggest to those of you having guns on other valuable property in your homes, that you record the serial numbers and descriptions of those guns and/or property and put them in a safe place. (If you will bring a copy by my office I will be glad to put the list on file.) Then, should you be the victim of a theft or burglary the serial number and description of the stolen property can be entered in the TCLC computer. Quite often this aids, not only in the capture of the thief, but also in the recovery of the property. WE would also suggest that you NOT leave your guns in your vehicles. They are a prime target for thieves and can disappear quickly if left unattended.

The plan for the hoising of Federal Prisoners is progressing, we have 15 in custody at this time. We have had to spend some money at the jail in preparation, but we are almost complete now and are in pretty good shape for equipment, supplies, and personnel. We still have the trip planned to San Antonio to pick up more equipment made available by the U.S. Marshal's Service. As soon as we get this equipment installed we will have

a capacity of 35. I hope to maintain an average of 20 federal prisoners year round. This will assist us in balancing the budget for the Sheriffs' Department and County Jail.

The zebra is basically a light animal with dark stripes.

THE PAUL POAG THEATRE FOR THE PERFORMING ARTS

Paul Poag Theatre Receives Gift From The Larger Circle

The Paul Poag Theatre renovation fund has received a gift of \$893.45 from THE LARGER CIRCLE, an ecumenical organization originated by the women of the First Methodist Church in 1967. The LARGER CIRCLE functioned for 9 years from 1967 to 1975. The name was chosen from the thoughts of Edwin Markham's four-line poem:

"He drew a circle that shut me out,
Heretic, rebel, a thing to flout;
But Love and I had the wit to win,
We drew a circle that took him in."

Its purpose was to draw people of all faiths closer together in our community in a larger circle of Christian unity and friendship.

The first speaker was Dr. Hong C. Sit,, minister of Grace Chaper, a nondenominational church in Houston. Interpreters were provided for those who could not understand English. The first meetings were held in

Moore park, another in First Presbyterian church, and as attendance increased, it was noved to the Civic Center. Many will remember "The Sound Foundation," a wonderful singing group of young people from Trinity Baptist church in San Antonio in 1971, and then the appearance of Nicky Cruz in 1972 that filled the Civic

Center with the largest crowd ever assembled there.

Through the years the cooperation of all churches of the city was sought after and in 1972 more than 30 churches cooperated and participated in the outstanding presentation of Nicky Cruz.

In 1971 THE LARGER CIRCLE also began holding an annual city-wide Prayer

BILL SIMS

State Senator Bill Sims of San Angelo said today he is co-sponsoring a proposed constitutional amendment which lawmakers hope will resolve the controversial college funding issue.

Among other provisions, the bill seeks a guaranteed annual \$125 million appropriation divided among Angelo State University, Sul Ross State University, and 15 other state universities.

It would make the University of Texas Permian Basin and the University of Texas at El Paso eligible for increased proceeds from the Permanent University Fund.

Seventeen state universities, including Angelo State University and Sul Ross, saw their constitutionally dedicated fund wiped out last year when voters repealed the state property tax. The repeal sparked renewed efforts to divide the PUF which funds the University of Texas and A&M University Systems. Component schools of those systems, also sought larger participation in PUF bond proceeds.

Since then, legislators have searched for a college funding plan which would satisfy leaders of all institutions, both PUF and non-PUF.

An apparent compromise is SJR 4 by Sen. Carl Parker, chairman of the Senate Educational Committee.

Sims, who also serves on that committee, said he agreed to co-sponsor SJR 4 after talking with the presidents of ASU and Sul Ross.

He said SJR 4 will benefit all four institutions which serve his constituents.

Specifically, SJR 4 would

-- provide an automatic annual appropriation of \$125 million from general revenue to non-

PUF schools with an "inflation escalator" implemented yearly.

--make all 19 components of The University of Texas and A&M University Systems eligible to participate in the PUF bond proceeds.

--raise PUF bonding authority from 20 percent to 30 percent of PUF value to accommodate the components.

--Constitutionally recognize Prairie View A&M University as a participant in the "excellence funding" provided to the A&M University System.

If the Legislature approves the measure, the proposed amendment would face voter approval in November, 1983.

IT'S A FACT!

A new mortgage plan is available to homeowners and buyers that has lower effective interest rates—sometimes even in single digits. The plan—called the "Fannie Mae" Mortgage Solution—is available on any one- to four-family home on which the existing mortgage is owned by Fannie Mae, the nickname of the Federal National Mortgage Association, which is the largest single source of mortgage money in the country. Under the plan, existing FNMA loans can be "traded in" by a home owner or buyer for a new Fannie Mae loan.

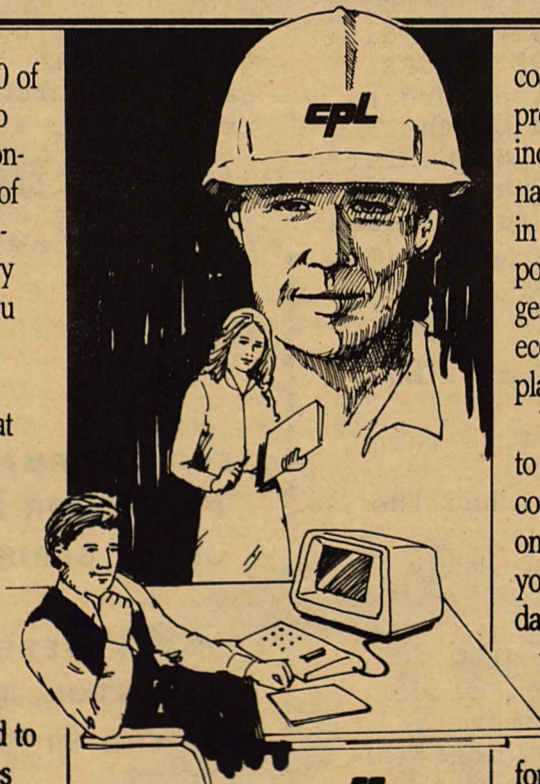

The new loan can be for up to 95 percent of the appraised current market value of the home. A brochure that tells all about the Fannie Mae Mortgage Solution is available free by writing to: Federal National Mortgage Association, Mortgage Solution, 3900 Wisconsin Avenue, N.W., Washington, D.C. 20016.

We're the people of Central Power and Light Company, who provide the power that helps South Texas grow.

There are more than 2,500 of us, neighbors of yours who work the high lines, the control rooms and the offices of CPL to make sure the electricity you depend on every day will be there when you need it.

It takes energy to create jobs — and we provide that energy, building and operating the plants that insure reliable service throughout a growing South Texas. As this area continues to develop and grow, we'll be ready with the efficient energy needed to open new job opportunities for the future.

In addition, we are making every effort to keep your electricity costs as low as possible. We've switched to

coal for part of our power production to combat steep increases in the price of natural gas — and are sharing in construction of a nuclear power plant that also will generate electricity more economically than gas-fired plants.

We want to work with you to help keep rising energy costs down. And you can rely on us, as always, to be at your service 24 hours a day, supplying the electricity that brightens our lives today and brings a better tomorrow for all of us.

Breakfast in the spring, which was held in the San Felipe Country Club. The theme for the first breakfast was "God's Way to Save America."

"Many Christian people in our community gave of themselves and their means to make these inspiring programs possible and the Historian's scrapbooks of these activities are a joy to pour through! We trust that this gift of the balance of the funds will help to bring more good, wholesome, clean entertainment to the people of our city in an appropriate setting, the new Paul Poag Theatre."

The word "crystal" came from a Greek word meaning both ice and rock crystal since the ancients believed that rock crystal was a modified and permanent form of ice.
