# SHERIFF'S CORNER

BY NORMAN HOOTEN

## ALL ABOUT DRUGS

The Good, The bad, and The Ugly  
by Norman H. Hooten,  
Sheriff, Kinney County

(continued from last week)

The yound drug abuser is a special problem to any community. They are less soph- isticated about how they obtain their durgs and it is here that the sociological problem lies-- the "wasting" of innumerable young lives. Children as young as 9 or 10 years of age as well as adolescents are subjected to the most widespred "chemical warfare". Illicit drugs are commonplace in the halls and on the grounds of most high schools in the U.S., ours is no exeption. Marijuana usage is everywhere, probably as widespred in use as tobacco. Alcohol is fre- quently abused by young people as well and isstill the number one drug problem in the nation. A description of marijuana and its effects will follow in this article.

Other drugs becoming more commonplace include the hard drugs such as barbiturates, amphetamines and morphine derivatives. Recently there has been an upswing in the abuse of cocaine and other drugs with unusual pharmaco- logical actions, such as phencyclidine (known on the street as PCP or "angel dust"), which is actually a veterinary product. An article in the Chicago Tribune indicated that a new "killer" drug had emerged on the streets of California. Drug abusers were turning up dead from some heretofore unknown, but apparently very potent narcotic. When a heroin addict would shoot up the equivalent of this drug to the usual "fix" amount of heroin, the drug was so potent that the addict would become highly overdosed. Research and invest igation by the Drug Enforcement Administration (DEA) uncovered a new synthetic narcotic in the Los Angeles area called "China White" on the streets. This synthetic substance sold for the same price a heroin,

the new drug was shown to be a chemical analog of the compound fentanyl, marketed by Janssen Laboratories, and was calculated to be 80 times more potent than morphine! Some illicitly operating back- room chemist obviously copied the published patent descrip- tion of the fentanyl analog to create a dangerous horror for narcotic users.

Even worse than the use of the conpounds cited above is the common practice in to- day's 'street drug' environ- ment is the simultaneous use of multiple drugs. Often victims of overdosing with multiple drugs will appear in the emergency rooms of hos- pitals or poison control cen- ters unable to be treated because of the conglomerate of drugs in their systems. One very dangerous but common combination is that "lacing" marijuana with "angel dust" or PCP. This often causes very detrimental psychological effects in inexp- erieneced young users. Some of thses effects are listed as follows:

- (1) ABRUPT CHANGES IN BEHAVIOR
- (2) MOODINESS
- (3) A TENDENCY TO SIT LOOKING OFF INTO THE DISTANCE
- (4) A TENDENCY TO LAUGH EXCESSIVELY OR TO LAUGH AT THINGS NO ONE THINKS IS FUNNY
- (5) A HOPPED- UP APP- EARANCE, BRIGHT SHINY EYES, WHEN USUALLY HIS/HER LOOK IS THAT OF A FAIRLY CALM PERSON
- (6) FLUCTUATIONS IN THE WIDNESS OF THE PUPILS OF THE EYES, NOT ACCOUNTED FOR BY CHANGES IN THE LIGHT INTEN- SITY.

This article will continue in next week's paper.

In accord with City Ordinance #222 the City of Brackettville Annual Budget covering the period 1 July 1982 thru 30 June 1983 has been extended three months to establish a new fiscal year commencing with 1983/84 budget year of 1 October 1983 thru 30 Sept. 1984.

The City Council in open session at the regular meeting on May 10, 1983 approved the three month budget extension as depicted.

CITY OPERATING FUND		1 July 1982 - 30 Sept. 1983	
1 July 83 - 30 Sept 1983			
Income :	\$18,840.30		\$200,378.67
Expenses :	38,195.04		174,401.84
Total :	(\$19,354.65)		\$25,976.83

POLICE MUNI. COURT OPERATING FUND		1 July 1982 - 30 Sept. 1983	
1 July 83 - 30 Sept 1983			
Income :	\$2,650.63		\$22,650.63
Expenses :	9,729.46		48,627.46
Total :	(\$7,078.83)		(\$25,976.83)

UTILITY FUND		1 July 1982 - 30 Sept. 1983	
1 July 83 - 30 Sept 1983			
Income :	\$65,563.86		\$352,543.86
Expense :	64,770.36		352,543.86
Total :	793.50		0

CITY OPERATIONS		1 July 1982 - 30 Sept. 1983	
1 July 83 - 30 Sept 1983			
Income :	\$ 87,054.88		\$575,573.16
Expenses :	112,694.86		575,573.16
Total :	\$ 25,639.98		0

Any information desired or details on specific expenses or incomes generated can and will be answered at any time during working hours at City Hall. An up to date working budget is always available to any citizen to examine in the City Managers Office.

An Annual Audit by a certified public accountant will be conducted in October of the fifteen month period vice the normal 12 month fiscal year.

**CONTINUED FROM PAGE 7**

Then, all those containers must be sorted by brand name for collection. While the piles of unwashed containers are waiting for pick-up, they could attract hordes of rodents and pests, necessitating frequent and costly pest control. Finally when the trucks from each distributor arrive, the containers must be recounted and checked for brand consistency.

It's a cumbersome process. And costly. Because unlike our voluntary recycling system that pays for itself, and PAYS TEXAS CONSUMERS OVER \$20 MILLION A YEAR, the forced deposit law will result in higher prices. In fact, prices in forced deposit state prove that all the costs get passed along to the consumer.

The real irony of the forced deposit law is that Texas already has the best voluntary recycling program in the nation. Last year, we recycled in excess of 73% of all aluminum can sold, and another 26 million pounds of glass. Those percentages are quickly approaching the recycling percentages in forced deposit states. But while Texas consumers are making money recycling these states are paying for it.

So the next time you hear about how forced deposits are going to clean up Texas, Hang on to your wallet. And think about how much we have to lose

**FLAG CEREMONY  
AT FORT CLARK**

The Fort Clark Historical Society will present Scout Troop #234 of Brackettville, Amistad District, in a flag ceremony marking Memorial Day on Monday, May 30th at 5 P.M. The program will be held on the grounds of the Old Fort Clark Guardhouse Museum at Fort Clark Springs. Directing will be Robert Martinez, Scoutmaster, and Ken Plummer, Assistant Scoutmaster.

**ENVIRONMENTAL SCIENCE II  
FIELD TRIP**

Mr. Frerich's Environmental Science II class took their last field trip on May 18, 1983. The Briggs Ranch on Mud Creek was the site selected for the trip. Students were shown how to collect and preserve a variety of fish native to this region.

\*\*\*\*\*

**SHERIFF'S  
CORNER**

**BY NORMAN HOOTEN**

A 14 year old juvenile male was arrested Sunday afternoon, May 22 in connection with a daytime burglary attempt of the Kinney County Land Company on Highway 90, owned by Molly Ardrey of Brackettville.

I received a call at approx. 6:15 pm from a concerned citizen who reported seeing two young boys attempting to enter the building through a side window. Upon my arrival at the scene, the burglar jumped out of the window and took flight. I quickly gave chase and just as quickly fell flat on my face with a twisted knee. The young burglars incentive for speed was evidently greater than my own, as he quickly outran me. Wisdom gained through the years (and the fact that when I

was in my prime I had trouble breaking a 15 second 100 yard dash) had prompted me to have patrolman "Corky" McGuire waiting a block away and he captured the speedster with a flying tackle on Gove Street near the Burger & Shake. The case has been turned over to Juvenile Officers.

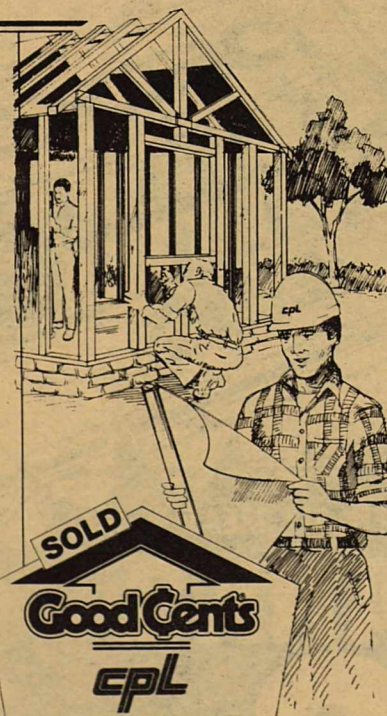

Another burglar, Francisco "Frankie" Martinez 17 years of age, was tried in District Court Monday, May 23, and received a 4 year probated sentence. Martinez was arrested by me almost a year ago in connection with the burglary of Gonzales Store, owned by Mary Paiz of Brackettville. Property valued at over \$700.00 was taken in this burglary. Approx. \$540.00 worth of that property was recovered with the arrest of Martinez. He was ordered by the court to make restitution to Mrs. Paiz for the market value of the property not recovered.

New **Good Cents** home cuts heating, cooling and water heating energy use up to 50%!\*

For years Central Power and Light Company has worked with builders, architects and designers to help you save money through the Energy Efficiency Award program. The homes built to EEA specifications were a good value, enabling their owners to make impressive savings in utility costs.

But with the technological advances developed in recent years, CPL now is introducing an even better, more energy efficient house. The new Good Cents home makes it possible for householders to reduce use of electricity up to one-half for the "big three" that consume the largest share of the total energy budget in a typical residence: heating, air conditioning and water heating.

The owner of a Good Cents home lowers operating costs through adequate insulation and highly efficient systems for cooling, heating and water heating.

Good attic ventilation and numerous other energy-saving measures will all be checked and certified by a qualified technician from CPL.

Estimated savings on heating and air conditioning the house are predetermined in a computer-conducted energy analysis.

Soon builders across South Texas will be producing and selling Good Cents homes. If you are planning to build or buy a new house, consider one of these super energy-savers. Besides getting more for your money now, you'll enjoy up to 50% savings on major electricity users throughout the life of your home—and gain added value for possible future resale.

\*The exact amount of savings will depend on individual circumstances.

### TEXAS RESOURCES AND ENVIRONMENTAL COUNCIL

The one Thing the Forces Deposit Law is sure to clean out. is your pocketbook...

A legislative bill has been introduced that will have a great impact on the consumers of Texas. It will require you pay a deposit on returnable containers. We urge you to let your Texas legislator know how you feel about this costly legislation by letter or phone call. If you need further information the Texas Resource and Environmental Council who oppose this type of legislation will be happy to work with you.

An active group in Texas are working for passage of forced deposit law which they state will end Texas' litter problem. We want you to know that the only thing this law will really clean is your

pocketbook.

There's why...with the forced deposit law, You'll have to pay at least 5¢ in Deposit for every beer or soft drink you buy in glass, plastic, or aluminum containers.

To get your deposit back, you'll have to spend more gas and more time. Because the forced deposit law requires you to return your empty containers to the store where you bought them or to another store that sells the Particulare brand of beverage you bought. And before you get your deposit back, chances are you'll have to wait in line to get all your cans and bottles counted.

But that's just the beginning. The Grocer's handling costs of cans and bottles will virtually explode. First, the store needs someone to count and refund all deposits.

**CONTINUED ON PAGE 3**

## YOUR GARDEN

### Eye On Safety

Few Americans realize it, but each year over 5,000 eye injuries are caused by mishaps in the yard and garden. Pruning a bush can send flying clippings into the eye. A lawn mower can

hurl a stone into your eye or someone else's. Chemicals in pesticides, herbicides and fertilizers can severely burn your eyes. Here, from the National Society to Prevent Blindness, are some precautions you can take:

- Read thoroughly all package labels and instruction sheets that go with gardening tools and chemicals.
- Keep others away when you're mowing the lawn.
- Wear goggles or safety glasses when you're doing yard work.

For more information, contact your state Society to Prevent Blindness or the National Society to Prevent Blindness, 79 Madison Avenue, New York, N.Y. 10016.

Americans eat more bananas than any other fruit—18 pounds per year for every man, woman and child—and all of it is imported.

## LIBRARY NEWS

All-ee, All-ee, All's in FREE- for the week of May 30th- June 3rd, 83. All books and materials returned during this time will be accepted for return with penalty of "Overdue fines." "Lost" material will still have to be paid for. Fines incurred for books returned prior to and after these dates will still be enforced. This offer is being made in an effort to bring in all books from school students and people who have been away on vacation.

We wish to thank Col. W. B. Mann for donating 39 hardback books and a set of 10 volumes from "The Standard Reference Work" from the estate of the late Mrs. Lucie L. Callen from San Antonio.

Also, we continue to thank Mr. Charles Downing from Ft. Clark for his donations to our Texana Collection. Most of the books and materials he has given to us are out or print and expensive to find.

We also thank L. Forbes, Don Crowder, Ava Linderman, and Mrs. Molly Burdette for their donations.

A correction needs to be made (my fault) to my last weeks' column- that is - the fund drive we will participate in during the 3rd week in June is the United Way. Also, it is my understanding that only those organizations previously mentioned who have representatives actively collecting for the drive will receive a portion of the donations. So, if you plan to be gone during the week June 20 - 25th please leave your donation at the library for the United Way. SEE YOU AT THE LIBRARY. Respectfully Yours, Mrs. Charolette Corey, County Librarian.
