VOLUME 10 NUMBER 33

SEPTEMBER 16, 1983

BRACKETTVILLE, TEXAS

## CITY DUMPS OLD DUMP

### CITY HALL

BY: WM THURBER,  
CITY MANAGER

The City Council of the City of Brackettville meeting at their regularly scheduled monthly meeting on Monday, September 12, 1983, had a full agenda to discuss and were proud to receive 34 visitors who proved to be highly concerned with City matters.

The first item on the agenda to be discussed was the permit to demolish the Phillipone building on Brown and El Paso Street requested by Mrs. Huey. After a briefing of events leading up to the meeting by the City Manager, the mayor and members of the Council opened the floor to Mrs. Huey, Mr. Pedro Pena, the owner of the property's representative and guests.

Mrs. Huey stated the only remark she desired to make was she didn't understand why she had not been issued the demolition permit as requested.

Miss Else Sauer, Mrs. Peggy Miller, Molly Ardrey, Mr. Dowling, Mrs. Jamie Ballew, Mr. Shipman and others presented comments depicting their feelings on the demolition of such a landmark and historical feature of the City and strongly felt it should be restored for the enjoyment and educational advantageous to be enjoyed by future generations.

The City Council acting on behalf of the citizens tabled the request in order to obtain legal opinions and options

**TWO SMART AGGIES--AND PRETTY TOO!** Carlyn and Cayton Dugan are both students at Texas A&M that are majoring in Computer Science. Carlyn is a Junior and Cayton is a graduate student who will receive her Masters Degree this December. The girls are daughters of Mr. and Mrs. Pat Dugan of Del Rio and were kind enough to spend several hours getting the THE CAVALRYMAN'S new computer in operation.

available. The City Manager was instructed to contact the City Lawyer to ascertain legal rights of all concerned and present the findings to the Council at a Special Meeting to be called to consider the request.

The second major agenda item of interest to concerned residents was the request of the County Commissioners court for the City to sign a Quit Claim Deed on property sold by the County which included the Old City Dump Grounds. After much discussion and concern the Council decided to

cooperate with the County on behalf of all citizens and if legal and appropriate and in the best interests of all to cause the Deed to be signed.

As Article 5421C-12 of Vernons Annotated Statutes for the State of Texas authorizes the City to dispose of narrow strips of land and streets to abutting/adjoining property owners (County) the Council in a spirit of cooperation authorized the mayor to sign and deliver the Quit Claim Deed.

**HEADLINERS**

**38TH ANNUAL MEETING FOR RIO GRANDE ELECTRIC COOPERATIVE**

The Rio Grande Electric Cooperative, Inc. will hold its 38th Annual Membership Meeting on Saturday, September 24. the Meeting is scheduled at the Civic Center in Brackettville. Registration for the Members will begin at 9:00 am with the business portion of the Meeting starting at 10:00am. The business session of the Meeting will be followed by the annual barbecue.

President Bit Terry of the cooperative will preside over

the Meeting which will consist of reports plus the annual election of Directors and any other business which might come before the Membership.

The electing of four Directors for a three year term will include Candidates Jim Castellaw and Donald Wetzig of Carrizo Springs from District I; District IV candidates are James Bader and Gordan Lackey of Brackettville;

District VI candidates are George Tomlinson of Loma Alta and Johnny Leonard of Del Rio; District IX candidates are Gage Holland and J.D. Holman of Alpine.

Door prizes which are donated by the cooperative's Suppliers and electric appliances furnished by the Cooperative will be given at the Meeting.

**ELKS LODGE SPONSORS 'DIAS DE LAS MULAS'**

"Dias De Las Mulas", Del Rio's unusual annual mule racing extravaganza, will return 23 through 25, and this year's event promise to be as exciting as ever. Elks Lodge No. 837 in Del Rio is sponsoring the three-day festival for the second time, although Billy Bowers, val verde Downs Manager, will manage the races.

Events will begin at 1 pm all three days.

Bowers, well-known for his phenomenal development of quarter horse racing at Val Verde Downs, started "Dias Del Las Mulas" in 1978 with Bill Ward, a Lincoln County, N.M., Rancher.

This will be the fifth year of mule racing in val Verde County. Each year, "Dias" has been a success, drawing entrants and spectators from all over. The purses have grown since the first year, according to Bowers, and the Elks are expecting \$6,600 in added money this year.

Festitives for Friday, September 23 will be highlighted by mule barrel racing, pole bending and steer roping. Flat races begin on Saturday, September 24, along with hide, relay and chariot races.

The same four events will be featured again Sunday, September 25, with an added bonus of \$750 for the feature race supplied by the Elks.

Admission will be \$2 at the gate per day. Military personnel will receive a \$1 discount on Saturday. Box seats available by reservation by calling Greg Nebel at 775-2875. Food, beer and soft drinks will be available.

Straight mule racing is run in much the same way as horse racing, complete with photofinish cameras, Mule jockeys may ride any kind of saddle and must weigh at least 130 pounds. Some jockeys are professional riders, and others are the owners themselves.

Generally, minimules are used in chariot racing--mules that rarely strand over 39 inches at the shoulder. The chariots are made of everything from oil drums to motorcycle parts and often show quite a bit of planning.

Mules are getting faster through training and breeding practices, but they still can't catch a racehorse. Their entertainment value far exceeds their speed no matter what race any number of ways or directions, not necessarily the way it's supposed to.

**HISTORICAL SOCIETY TO MEET**

The september meeting of the FORT CLARK HISTORICAL SOCIETY OF KINNEY COUNTY, INC. will be held on Saturday, September 24, at 10:00am in the Member's Lounge at Las Moras Inn. The Historic District Preservation Plan will be the main topic for discussion.

*City Hall continued*

The Council also appointed two members to the Brackettville Housing Board to serve two years. Mrs. Sarah Hoover to be extended for two years and Ms. Delores Stevens to replace Mr. Chris Gomez, whose term had expired, for a two year term.

A City Ordinance to prohibit parking within 20 feet of the corners of Ann Street and Spring Street was also passed with the City Manager reading the Ordinance on the proposed Cable TV Rate Increase for the second reading and outlining and updating the Council on the states of the EDA and CDA Grants requests.

The meeting was opened for business at 5:30pm and adjourned at 9:30 pm. Your Council proved again to be interested, effective, efficient, and acted solely in the best interest of the Citizens of Brackettville in a long and lengthy but extremely important meeting.

The Council and City Staff salute those who participated and welcome all to attend.

**SHAHAN RE-ELECTED DIRECTOR**

The Texas Tourist Council meeting in San Antonio re-elected J.T. "Happy" Shahan, Owner of Alamo Village as a director. Shahan has served on the Council's Board for fourteen years representing our area and the attractions industry.

The Texas tourist Council is a private enterprise organization whose purpose is to support and supplement our state's efforts to attract more visitors to Texas.

\*\*\*\*\*

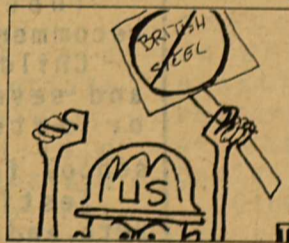

**Let's Ask the Experts!**

There's been some controversy lately about the number of jobs likely to be lost by Americans because of the deal arranged between United States Steel and the government of Britain-subsidized British Steel Corporation.

The U.S. Steel Company plans to stop making steel at its Fairless Hills, Pennsylvania plant and instead import steel from a plant in Scotland, which uses a newer, more efficient process. The British steel would be shipped to Pennsylvania to be finished there.

Lloyd McBride, president of the United Steelworkers, says that if British Steel is allowed to send subsidized slabs into this country, other countries will do the same. Many other mills might start laying off workers and buying steel slabs made by the subsidized industries of other countries. Many state legislators and city councils have passed resolutions condemning this deal.

According to the Steel-

workers, the plan would mean about 3,000 people would lose their jobs in this country, perhaps more at the Scotland plant.

That many people out of work would be bad enough, but McBride says that if the deal goes through, the jobs lost would eventually mean the loss of tens of thousands of other jobs.

Many Americans are saying that Congress should look into the matter, and point out that our government should try to find ways for our workers to have more jobs available, not fewer.

People are writing the U.S. Senate, Washington, D.C. 20510, and the House of Representatives, Washington, DC 20515.

**NEWS**

**For Senior Citizens**

Thanks to the strong leadership of President Reagan, experts say, many older people are less likely to go broke on a fixed income.

After decades of mismanagement, compounded by changing population, the Social Security system faced a cumulative deficit of \$150 billion to \$200 billion by 1989.

An improved economy and an answer to the Social Security crisis are doing much to put some of the gold back into many people's golden years.

Fortunately, on April 20, 1983, President Reagan signed into law the Social Security Amendment of 1983.

The successful plan brings in \$166 million in additional revenues and cost savings over this decade.

Since President Reagan took office, not a single dollar in basic Social Security retirement benefits has been cut—in fact, there have been two consecutive cost-of-living increases. Today, the average Social Security recipient receives \$64 a month more in benefits than when President Reagan took office.

In general, the President's fiscal policies are seen as helpful to older people. As the economy improves and inflation falls, older people's money can buy them more.

**THE TUBERCULIN TEST--HOW IT  
WORKS AND WHAT IT SHOWS:**

The simple skin test will show whether a person has been exposed to the Tuberculosis germ.

The test entails injecting a harmless solution called Purified Protein Derivative (PPD) into the surface layers of the skin, usually on the left forearm. The test itself is called the Mantoux. The Texas Department of Health recognizes the Mantoux technique as the preferred one and the only one authorized for general use in its clinic.

The test will be examined within forty-eight hours to determine if the result is Negative or Positive.

A Negative Test, means that the body is free of the TB germ or that the individual has never been exposed.

A Positive Test, indicates that the person tested has been exposed to the TB germ, but not necessarily ill, however, a Chest X-ray will help the physician determine if followup is deemed necessary.

The multiple puncture test (Tine), in general is less specific than the standard Mantoux Tuberculin Test.

Tuberculin testing is recommended for:

Children entering the first and seventh grades of school or entering Texas public school for the first time.

Testing will be September 20th and students will be read on September 22nd.

**LIBRARY NOTES**

**BOOKS**

Mrs. Charolette Corey  
Kinney County Librarian

**Library**

We wish to welcome Mrs. Margaret (Peggy) K. Peck, Mrs. Doris Knaver and Mr. Richard Mountains as new members to our Library Board. These three members replace David Blackwell, Paul O'Rourke and Walter Moore whose terms expired last June. We shall miss these fine people as they have served well and given good advise.

Commissioner David Luna mentioned at the last commissioners' court meeting that he was glad to see services being provided by the Library out-reach program to "shut-ins". This service is provide after closing time to the public (7:00 pm) and we feel its our duty to endeavor to give equal and complete library service to all of the community to the best of our ability. We appreciate Mrs. Steve Frazier for her recent volunteering to help with these services. anyone interested--please contact the Librarian at 563-2884.

You will notice we have recently moved our Texana and Southwest Literature Collection into the room formerly the Librarian Office.

As the librarian spends 99.9% of her time out front meeting the needs of her patrons, this room has found a much abetter use. "Texana" is the Library's first priority in materials purchasing so expect to see more and more books about local history. Many of these books will be out-of-print editions so they will not be allowed to leave the Library--so be ready to pull up a chair and read. Later the library plans to get a photocopy machine and people will then be able to photocopy sections of interest from these items.

Let us know if you have any favorites you wish us to purchase.

# AMBULANCE CALL

BY:KAY SMITH

Thank you for your support.  
/s/ Volunteer Ambulance Crew  
\*\*\*\*\*

Dear Resident of Kinney County:

We, the Volunteer Ambulance Organization, are asking for donations to help us by a back up ambulance for our community. We feel that this will be a great asset to our community.

As you all know there have been times that we have needed a back-up either for more than one emergency or when our ambulance is in need of maintenance. With this opportunity to buy a back-up we feel that we will be able to provide better services more effectively and efficiently.

The price of our back-up ambulance will cost as follows:

- Ambulance.....\$2,000.00
- Insurance.....\$1,000.00
- Total.....\$3,000.00

All donations will be greatly appreciated. Please mail donations to: VOLUNTEER AMBULANCE SPECIAL FUND, P.O.BOX 738, BRACKETTVILLE, TX, 78832.

OR

You may go to the First State Bank and make your donations directly to our account. If you prefer to do this please take this letter with you and have them deposit it to the account stated above. If you have any questions please call one of the ambulance members. They are as follows: Rosa Baker, James Bitter, Sam Pat Ferguson, Walter Geeze, Smiley Goodloe, Bill Herman, Sandy Herman, Joyce Hooten, Norma Perez, Domingo Rocha, Sheri Scott, Paul Shepperd, RoseMary Slubar, Delia Smith, Kay Smith, Doreen Toliatt, Tim Ward, Ronnie Watson/Chaplin.

## STATE TREASURER SENDS CHECKS TO COUNTIES FOR ROADS

September 8---Texas Treasurer Ann Richards is sending checks today totaling \$7.3 million in grants to the state's 254 counties for road construction and maintenance projects.

The 28 counties in the San Antonio area are receiving a total of \$728,000.

The State Treasurer each year disburses money appropriated by the Legislature for the Lateral Road Program. The grants may be used by counties for the purchase of right-of-way and for construction and maintenance of lateral roads, farm-to-market roads or state highways.

Richards said the 47.3 million is allocated to each county under a formula based on the county's area, rural population and lateral road mileage.

State Road Grants to counties in San Antonio area:

Dimmitt.....	\$15,707.08
Edwards.....	\$23,513.98
Kinney.....	\$10,767.02**
Maverick.....	\$17,304.85
Uvalde.....	\$21,830.07
Val Verde.....	\$27,650.88
Zavala.....	\$14,088.91

(\*\* Note: Kinney County by stars).

## \*\*\*\*\* SENATOR SIMS OBJECTIONS ARE STRONG

State senator Bill Sims of San Angelo to say voiced strong objections to a proposed rule change for the Texas Parks and Wildlife Department concerning the maintenance of traps.

"Essentially, the proposed of the rule in section 65.379 (a)(8) requires traps set up to catch fur-bearing animals be examined every 24 hours," Sims said.

"However, the TP&WD rule change would not differentiate every 24 hours," Sims said.

"However, the TP&WD rule change would not differentiate between traps set up for furbearing animals or predator traps that accidentally catch furbearing animals."

Sims further stressed the hard ship such examinations would pose in the wide-open areas of West Texas.

"Trapping for predators is our major method of control at this point," Sims said. "Out here, the rule would simply become unenforceable."

Senator Sims urged those with concerns about the proposed rule change to contact the Texas Parks and Wildlife Department in Austin at At 512/479-4974 or 800/792-1112.

"I urge the parks and Wildlife Department to take into consideration the vastness of this area, the distances between traps and the heavy use of traps for predators," Sims said.  
\*\*\*\*\*

## LET CHILDREN EAT CHEESE FOR SNACKS

A foolproof way of providing youngsters with nutritious snacks is to stick to basic foods like cheese and apples. It's smart to keep extra amounts of certain staples on hand, so you can select from two or three of the food groups for between meal eating.

Let them eat cheese! Children like cheese. They'll enjoy being little cooks if you stash three plastic bags in the refrigerator for an after-school raid. These bags will hold cheese cubes, vegetable pieces and fruit chunks. Supply youngsters with wooden picks and let them make their own mini kabobs.

Real Cheese supplies protein, calcium, and phosphorus in much of the same amounts as milk. One and one-half ounces of cheese contains the same amount of calcium as one cup (8 oz.) milk. A one-ounce of cheese can furnish 21 percent of the protein for seven-to-ten-year-olds. At the same time, cheese is a dependable source of phosphorus since it supplies about 18 percent.

Children can have a great time playing grown-up if you furnish them with cheese dips, either the homemade variety or process cheese spreads purchased in glass jars or plastic tubs. These too, can be served with beggies, fruit, or wheat crackers, all good basic foods.

Older children who know how to use oven, broiler or griddle will enjoy making their own pizza on English muffins. See that they have canned pizza sauce and some shredded cheese on hand. Mozzarella is often used, but Scamorze and Provolone can give pizza an Italian accent. Pizza can be varied for a change of pace just by changing the cheese to Cheddar.

an assortment of shredded or grated cheese--those

## GUEST EDITORIAL

# A Question of Personal Freedom

Esther McClure

Book banning really burns me up. When bans are posted against authors like Hemingway and Mark Twain, I feel that my personal freedom of expression is in danger. My freedom of choice certainly is.

If the book is on the shelf, I have the choice whether or not to read it. That is the essence of freedom, granted under the First Amendment of the Constitution. No elitist group has the authority to make those judgements on my behalf.

Granted, we may disagree about the literary value of CATCHER IN THE RYE, or ULYSSES, but our values are based upon individual experiences and moral convictions. When someone tries to take away my right to exercise my own discretion, they are in effect invalidating me as a person. They are saying that my perceptions are insufficient to make decisions.

When any group, whether it be the Moral Majority or the Communist party, starts to exert control over the information that I have access to, in a book, newspaper, or on the evening news, we are straying from our ideals of democratic freedom.

A special display of "banned books" is open to the public in the foyer of the Southwest Texas Junior College library in recognition of "Banned Book Week", an event celebrated nation-wide this week. The SWTJC library also recently announced Saturday hours for the fall semester and a contest to improve services.

"Banned Book week" is sponsored by the American Association, American Library Association, National Association of College stores and American Society of Journalist and Authors.

The event is intended to assert that it is the right of each individual to choose the books she and he wants to read, and that it is dangerous to relinquish that right. They believe that a free people, placing a high value on the freedoms of speech and thought, will not abrogate its freedom of choice in reading matter.

People have tried to ban or burn one book or another almost since the first book was produced. Reasons have been as varied as the titles: The language was offensive, or the contents considered pornographic or obscene, objectionable politically or because of religious belief.

Other books have disturbed some people because of ethnic, cultural, or lifestyle differences. The books in the SWTJC library display have been subjected to banning for a number of reasons.

It is the contention of the national organizations

sponsoring "Banned Book Week" that individuals frequently think it all right to ban a particular title them might find offensive while being willing to fight for the right to read another book upon which they look with favor.

"Education is to teach people how to think, not what to think," said Billie Noguess, SWTJC library director. "Libraries are a basic thing in democracy. They make information available so that people can make educated choices."

"Many of those viewing the display will be surprised to find some of their favorite reading has been banned at some time," Noguess continued. "This is one of the best possible exhibits a library can have because it demonstrates the danger of attempting to control what people can read."

Included in the display are: THE HOLY BIBLE; MILTON'S PARADISE LOST; HEMINGWAY'S FOR WHOM THE BELL TOLLS; ALICE IN WONDERLAND; GULLIVER'S TRAVELS; GONE WITH THE WIND; THE SCARLET LETTER; and SWTJC's American History textbook, among many others.

The display is arranged with accompanying art work according to the reasons the different works were banned. Categories include objectionable language, political objects, religious objections, racial and cultural bias, inappropriate for young readers and obscene language.

In other news from the

SWTJC library, Saturday hours for the fall semester were announced, and new contest to improve library services has started.

The College Library will be open from 9 am to 3 pm on four Saturdays this semester: September 24, October 1, 8, 15.

In an attempt to meet the needs of those who use the library, Noguess is offering a long stem rose to anyone who makes a useful suggestion concerning improvement of library services.

### THE CAVALRY RIDES AGAIN AT FORT CLARK

In FRACAS AT FRACTURED JAW, the melodrama to be presented at The Old Quarry amphitheater, Fort Clark Springs, the cavalry rides again and so does the Pony Express.

The Upstagers of Del Rio, under the direction of Fred Brockwell will present this new story of the old southwest on Saturday, September 17, at 8:30pm. Admission is \$4.00 adults and \$1.00 for children.

Will the villain get his just desserts? Will the Colonel find his regiment? Will the hero and heroine find true love? Will justice prevail over corrupt politicians? Come, hiss the villain and cheer the gallant hero. Be a part of the action in FRACAS AT FRACTURED JAW.

A special Theater-Goers Dinner is being served at Las Moras Inn Restaurant at 6:30 pm. The menu includes: Baked Chicken, rice pilaf, vegetable, tossed salad, rolls, coffee or tea. The price of the dinner is \$5.20 including tax.

Tickets for both the melodrama and the dinner are on sale at the Adult Center and Las Moras Restaurant, Fort Clark Springs.

\*\*\*\*\*

### DEER COUNT

We are in the process of trying to coordinate and schedule our fall-helicopter Deer Census, on individual ranches. Ranchers and landowners interested in this should contact us as soon as possible.

Call: Soil Conservation Service, James Crumley, District Conservationist, Box 707, Brackettville, 78832, at 563-2414 or 563-2070 (home)

**'PHONE POWER' CONNECTS TEXAS VETERANS WITH VETERANS LAND PROGRAM LOANS**

The first contact thousands of Texas veterans have with the Veterans Land Program comes when they call the toll free 1-800-252-VETS line seeking information on how to apply for the Texas Veterans Land Program.

By using the program, a qualified Texas veteran may borrow up to \$20,000 for as long as 40 years to purchase a minimum of ten acres of land. Current interest rates are at 8.5 percent. Since the program's inception in 1949, over, 80,000 Texas veterans have purchased land through this unique and successful program.

"Phone power" was started by Texas Land commissioner Garry Mauro to give accurate, up-to-minute information to veterans and real estate professionals on Veterans Land Board programs and to help eliminate the 14,000 name waiting list for applications.

With the help of five full-time information coordinators staffing the phone lines Monday-Friday, 7:30 am to 6:00 pm, the waiting list has been eliminated and veterans who

apply can now expect their loans to be processed within 90 to 120 days.

"Our 'phone power' people have to be excellent communicators who will leave each veteran confident that their questions are being handled by a thoroughly-trained professional giving personal attention to their problems," Commissioner Mauro explained.

Supervisor Carol Murphy said, "My staff must be able to explain eligibility requirements and answer questions on applications, survey rules, easements, and title transfer for the nearly 2,000 veterans and real estate agents that call each week.

"The response to the proposed Veterans Housing program has been so strong that we are adding extra lines to handle the calls," Murphy said.

If approved by the voters on November 8, the Housing Assistance Program will be able to offer Texas veterans long-term, low-interest loans up to \$20,000 to apply toward the purchase of a home.

"I want to urge all Texas veterans and realtors to call our toll-free number and let our staff answer any questions

they have about the program. We'll make every effort to answer your questions or resolve your problem immediately," Murphy said.

**OSTEOPATHIC MEDICINE WEEK**

By proclamation of Governor Mark White, September 18-24 has been designated Osteopathic Medicine Week in Texas.

Announcement of the proclamation comes from Robert G. Maul, D.O., of Lubbock, President of the Texas Osteopathic Medical Association (TOMA).

This special week coincides with National Osteopathic Medicine Week (NOM) being coordinated by the American Osteopathic Association and American Osteopathic Hospital Association. NOM week is being celebrated to honor America's fastest growing professional medical group.

In recognizing the importance of the contributions osteopathic physicians make to the health care needs of Texas, Governor White made note that 90 percent of the 1500 Osteopathic physicians in Texas engage in general or primary care specialties.

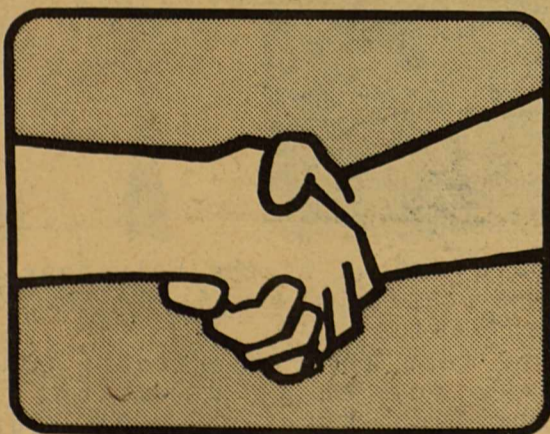

The TOMA was founded in 1900 and has grown over 1000 percent since that time. Its main function, according to Dr. Maul is to insure that the option of osteopathic medical care is always available to Texans.

Osteopathic medicine is a system of total health care which emphasizes the body structure and function and how they interrelate. The osteopathic physician is committed to the treatment of the whole person rather than the disease, Dr. Maul said. For that reason, he said the theme, "Discover the Difference" has been chosen for Osteopathic Medicine Week, September 18-24.

## FACTS & FIGURES

The most recent estimate is that there are 41 million dogs in the United States. The tallest breeds are the Great Dane and the Irish Wolfhound, both of which can exceed 39 inches at the shoulder.

\*\*\*  
The U.S. Government recently published a report on the tar and nicotine of 208 cigarette styles. Carlton was listed lowest in three categories. The lowest tar king was Carlton Box (less than 0.5 mg. tar, 0.05 mg. nicotine—nobody tested lower). The other lowest

mg. nicotine in both filter and menthol). The manufacturer of the brand reports even lower numbers in the Box package, listing tar at less than 0.01 mg. and nicotine at 0.002 mg. per cigarette.

\*\*\*  
The United States had 1,769 English-language daily newspapers on October 1, 1979. They had a combined net paid circulation of 62,088,000 copies a day.

A typical hippopotamus can run faster than an average man.

Warning: The Surgeon General Has Determined That Cigarette Smoking Is Dangerous to Your Health.

Box: Less than 0.5 mg. "tar", 0.05 mg. nicotine, Menthol: Less than 0.5 mg. "tar", 0.1 mg. nicotine; 120's: 6 mg. "tar", 0.6 mg. nicotine av. per cigarette, FTC Report Mar. '83.

**PUBLIC NOTICE**  
BRIEF EXPLANATORY STATEMENTS  
OF PROPOSED  
**CONSTITUTIONAL AMENDMENTS**  
SPECIAL ELECTION  
NOVEMBER 8, 1983

**PROPOSITION NO. 1  
ON THE BALLOT**

House Joint Resolution 91 proposes a constitutional amendment which requires a county with a population of 30,000 or more to be divided into not less than four nor more than eight justice of the peace precincts. A county with a population of 18,000 or more but less than 30,000 shall be divided into not less than two nor more than five justice of the peace precincts. A county with a population of less than 18,000 shall be designated as a single justice of the peace precinct or, upon a finding of necessity by the commissioners court, shall be divided into more than one justice of the peace precinct but not more than four. The amendment provides further, that in any precinct in which there is a city with a population of 18,000 or more, two justices of the peace shall be elected. The amendment allows a justice of the peace, constable or commissioner to continue in office until the expiration of his term, although a change in precinct boundaries results in the officer no longer being a resident of the precinct for which he was elected or appointed and allows a justice of the peace or constable to continue in office until the expiration of his term even though a change in precinct boundaries results in the abolishment of the precinct or more than one justice of the peace or constable serving the precinct. Vacancies in the office of justice of the peace or constable that result from a precinct boundary change shall be filled by the commissioners court until the next general election. The amendment would take effect on January 1, 1984, and counties with populations of less than 30,000 and with more than four justice of the peace and constable precincts would have until January 1, 1987 to comply with the amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing fewer justice of the peace and constable precincts in counties with a population of less than 30,000 and providing for continuous service by justices of the peace, constables, and county commissioners when precinct boundaries are changed."

**PROPOSITION NO. 2  
ON THE BALLOT**

House Joint Resolution 105 proposes a constitutional amendment which would limit a homestead in a city, town or village to a lot or lots amounting to not more than one acre of land, together with any improvements on the land. The constitutional requirement that, at the time of designation, an urban homestead not exceed ten thousand dollars in value without reference to the value of any improvements on the land would be eliminated.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment replacing the limitation on the value of an urban homestead with a limitation based on size."

**PROPOSITION NO. 3  
ON THE BALLOT**

Senate Joint Resolution 1 proposes a constitutional amendment that authorizes the Legislature to enact legislation that permits representative associations of agricultural producers to collect refundable assessments on their product sales to be used solely to finance programs of marketing, promotion, research and education relating to those products. It provides, further, that adoption of the proposed constitutional amendment will bring into effect Senate Bill 607, Acts of the 68th Legislature, Regular Session, 1983, with rejection of the amendment resulting in Senate Bill 607 having no effect.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment providing for the advancement of food and fiber production and marketing in this state through research, education, and promotion financed by the producers of agricultural products."

**PROPOSITION NO. 4  
ON THE BALLOT**

House Joint Resolution 30 proposes a constitutional amendment which authorizes the Legislature to enact laws to provide for the succession of members of the Legislature in the event of enemy attack and allows the suspension of procedural rules imposed by the Constitution in the

event of, or immediate threat of, enemy attack. The amendment empowers the Governor, after consultation with the Speaker of the House and the Lieutenant Governor, to suspend the constitutional requirement that the Legislature hold its sessions in Austin and allows the suspension of procedural rules by the Governor issuing a proclamation in which the House of Representatives and Senate concur by resolution approved by a majority of the members present. Suspension of the constitutional rules may not exceed a period of two years under a single proclamation; however, the Governor may renew the suspension by issuing a new proclamation concurred in by the House of Representatives and the Senate through a resolution approved by a majority of the members present.

The amendment will appear on the ballot as follows: "The constitutional amendment authorizing statutory provisions for succession of public office during disasters caused by enemy attack, and authorizing the suspension of certain constitutional rules relating to legislative procedure during those disasters or during immediate threat of enemy attack."

**PROPOSITION NO. 5  
ON THE BALLOT**

Senate Joint Resolution 12 proposes a constitutional amendment that authorizes the Legislature to enact legislation providing for the use of the permanent school fund and income from the permanent school fund to guarantee bonds issued by school districts. The amendment provides, further, that the Legislature may appropriate part of the available school fund for administration of the permanent school fund or of a bond guarantee program established pursuant to the amendment.

The constitutional amendment will appear on the ballot as follows: "The constitutional amendment authorizing use of the permanent school fund to guarantee bonds issued by school districts."

**PROPOSITION NO. 6  
ON THE BALLOT**

House Joint Resolution 1 proposes a constitutional amendment which would permit the Legislature to provide for the garnishment of wages to enforce court-ordered child support payments. The garnishment remedy would not be available for other purposes.

The proposed amendment will appear on the ballot as follows: "The constitutional amend-

ment allowing the Legislature to provide for additional remedies to enforce court-ordered child support payments."

**PROPOSITION NO. 7  
ON THE BALLOT**

Senate Joint Resolution 14 proposes a constitutional amendment that authorizes the Veterans' Land Board to provide for, issue, and sell general obligation bonds of the State of Texas in an amount not to exceed \$800 million to provide financing to veterans of the state. The amendment requires that three hundred million dollars of the state bonds be dedicated to the Veterans' Land Fund. The Fund is to be used to purchase land to be sold to veterans under such terms, rules and regulations as may be authorized by law. The amendment creates the Veterans' Housing Assistance Fund and requires that \$500 million of the state bonds authorized by the amendment be dedicated to the Fund. The Veterans' Housing Assistance Fund will be utilized by the Veterans' Land Board for the purpose of making home mortgage loans to veterans for housing within the state and for the administrative

costs of administering the fund and issuing the bonds. The amendment provides, further, that if there is not money in either the Veterans' Land Fund or the Veterans' Housing Assistance Fund available for payment of principal and interest on the general obligation bonds issued pursuant to the amendment, then money coming into the Treasury in each fiscal year is appropriated in an amount sufficient for payment of principal and interest due in that fiscal year.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment for financial assistance to veterans and to authorize the issuance of \$800 million in bonds of the state to finance the Veterans' Land Program and the Veterans' Housing Assistance Program."

**PROPOSITION NO. 8  
ON THE BALLOT**

Senate Joint Resolution 1 proposes a constitutional amendment that authorizes political subdivisions to exempt veterans' organizations from ad valorem taxation on their property. The amendment requires that the veterans' organizations be chartered by the United States Congress, be composed of members or former members of the United States Armed Forces, and be organized for patriotic and public

service purposes. The amendment provides, further, that political subdivisions may exempt fraternal organizations from ad valorem taxation on their property. The amendment requires that the fraternal organizations be organized to perform and be primarily engaged in charitable or benevolent functions. The Legislature would be authorized to enact laws that prescribe eligibility requirements for fraternal organizations to benefit from the exemption and to pass legislation limiting the types or amount of property owned by a fraternal organization which may be exempted from ad valorem taxation.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to authorize taxing units to exempt from taxation property of certain veterans' and fraternal organizations."

**PROPOSITION NO. 9  
ON THE BALLOT**

House Joint Resolution 70 proposes a constitutional amendment to authorize the Legislature to provide, by local or general law, a method by which judges of statutory courts with probate jurisdiction may be assigned to any other statutory court with probate jurisdiction and to any constitutional county court in any county in the state.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for assignment of judges of statutory probate courts to other statutory county courts with probate jurisdiction and to county courts."

**PROPOSITION NO. 10  
ON THE BALLOT**

Senate Joint Resolution 17 proposes a constitutional amendment that authorizes the Legislature to enact laws which would allow a city or town to expend public funds to relocate or replace sanitation sewage laterals on private property if done in conjunction with the replacement or relocation of sanitation sewer mains serving the property. The amendment requires that the law authorize the city or town to affix a lien on the private property, with the consent of the owner, to cover the costs of the replacement or relocation of the sewer laterals on the property. The lien may not be enforced until five years have expired since the date the lien was affixed. The amendment provides, further, that the law require that the costs of the replacement or relocation of the sewer laterals on the private prop-

erty be assessed against the property with repayment to be amortized over a period not to exceed five years and at an interest rate provided by law.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to permit a city or town to expend public funds and levy assessments for the relocation or replacement of sanitation sewer laterals on private property."

**PROPOSITION NO. 11  
ON THE BALLOT**

Senate Joint Resolution 13 proposes a constitutional amendment that would change the Board of Pardons and Paroles from a constitutional agency to a statutory agency and would eliminate the Governor's power to revoke paroles. The Legislature would be authorized to establish the Board of Pardons and Paroles and to require it to maintain records of its actions and the reasons for its actions. The amendment would empower the Legislature to enact parole laws. Constitutional language specifying the qualifications and terms of office for members of the Board of Pardons and Paroles is eliminated. The constitutional language governing the composition of the Board of Pardons and Paroles and the manner of filling vacancies on the Board is eliminated.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to change the Board of Pardons and Paroles from a constitutional agency to a statutory agency and to give the board power to revoke paroles."

Si usted no ha recibido una copia de los informes en español, podrá obtener una gratis por llamar al 1/800/252/9602 o por escribir al Secretario de Estado, P.O. Box 12887, Austin, Texas 78711.*

Popcorn is an American Indian invention.

**TEXAS NATURAL HERITAGE PROGRAM LAUNCHED BY GENERAL LAND OFFICE**

Texas Land Commissioner Garry Mauro announced the General Land Office will participate in a Natural Heritage Program which will inventory the state's vast biological resources. In cooperation with The Nature Conservancy, the General Land Office will launch a study which will compile the state's valuable plant, aquatic and animal species and the outstanding geological formations in once centralized program. The contract was signed in ceremonies at the General Land Office today.

"By compiling the vast natural resources of our state into an easily accessible program, we will have a cost effective system which will be available to government,

business, industry, and all the people of Texas," Mauro said. The natural heritage Program will allow the General Land Office to effectively develop and also protect the many types of natural and biological resources in this state."

The cost of the natural Heritage Program will be divided between the General Land Office and the Texas Nature Conservancy. The program will compile data from existing information systems in government and the private sector. New data will then be compiled to augment existing natural resource information. The Natural conservation is a nationwide non-profit conservation organization founded in 1950.

As an example, Mauro said the General Land Office will benefit from this program in

several areas. The Natural Heritage Program will identify sensitive areas on Texas lands which will assist in planning and management. The state will also be able to trade for lands which have been identified by the program as unique or suitable for protection. This will include both dry land and wetlands area. The program will enable the General Land Office to identify restrictions for oil and gas leases on public lands which will encourage development of these natural resources.

Private concerns, state and federal agencies and citizens will be able to use information from this program to properly plan and manage sensitive areas subject to development. Conflicts with developments can be avoided when environmentally sensitive areas or unique concerns are identified in the planning stages.

"this is the type of program which, through a coordinated effort of the private sector and government, can provide Texas with an effective management system which will be of benefit to all," Mauro said.

**BEWARE OF A HOUSE THAT'LL HAUNT YOU.**

The haunting starts just after you settle into a home that doesn't have built-in energy savers. Like insulated walls, windows, doors, ducts, water heater and attic—and an efficient heating and air conditioning system. Without them, ghastly heating and cooling bills appear. Every month. Invisible energy leaks begin to lurk.

Eerie drafts wander here and there. A terrifying tale—one that goes on and on. Unless, of course, you build or buy a Good Cents Home. The home that's designed with energy-conserving features that cut your heating,

cooling and water heating energy usage up to 50%.

Now. Isn't that reason enough to ask your builder or Central Power and Light Company about a Good Cents Home?

**A GOOD CENTS HOME WON'T HAUNT YOU MONTH AFTER MONTH.**

CPL People—Working With You To Help Hold Energy Costs Down

**OUR HEALTH**

Surprising to many is just how many people suffer from duodenal ulcers. The current estimate is about four million.

While many people believe that the typical ulcer candidate is the driven business executive, that's not necessarily true. Although a specific cause of duodenal ulcers isn't known it has been established that the incidence of duodenal ulcers is 70 percent higher among smokers than among non-smokers.

Interestingly, a bland diet of small, frequent meals and lots of milk and cream is no longer considered the best treatment for ulcers. Patients on normal diets have been found to heal as well or faster.

serious problem. If you have frequent or constant stomach pain, see your doctor.

Moreover, a healed duodenal ulcer doesn't mean the trouble is over. Studies have shown that 80 percent of patients will have a recurrence within the first year of healing.

This information comes from Smith Kline & French Laboratories; discoverers of the prescription drug,

A duodenal ulcer is a Tagamet®

## SHERIFF'S CORNER

**BY NORMAN HOOTEN**

Civil process as well as law enforcement kept us busy this past week. The usual run of DWI and Public Intoxication cases were handled over the Labor Day week-end. Some were bonded out and will be tried later, others were tried in the proper courts and were released after paying their fines.

The Sheriff's Sale of a lot a membership on Fort Clark was held Tuesday, the 6th, and the property was purchased by Fort Clark Springs Association, Inc. for \$1,700.00. The lot and membership had been attached by a Court Order.

Tuesday afternoon at 3:00 pm a meeting was held in my office at the County Jail to discuss Rotation Wrecker Service in Kinney county. This meeting was attended by Sgt. Lee Smith of the Texas Department of Public Safety, Brackettville Police Chief, Donnie Nance; Senior Border Patrol Agents, Roy Dyer and "Pee Wee" Corder, Wrecker Owners James Earl Smith; Dave Broderick and myself.

The meeting had been called in an attempt to standardize the Rules & Regulations governing the operation of rotation wreckers and to unite the various laws enforcement departments in their expectations and requirements of the wreckers.

As a result of this meeting, a Rotation Wrecker Agreement with the various law enforcement agencies was signed by Smith Wrecker Service and Broderick Wrecker service, both of Brackettville. The meeting was very successful, the various law enforcement agencies are now united in their requirements and the wrecker owners know what is expected of them. All those who were in attendance voiced their approval of the results of the meeting. As the old saying goes: "reasonable men can reach reasonable solutions to reasonable problems."

The cost of feeding prisoners at the County jail for the month of August was

decreased from the \$1.26 per meal for the month of July to \$.95 per meal. a total of 2,602 meals were served in July vs. 2,639 meals served in August.

this was done through careful planning and preparation by Chief Jailer Jim O'Halloran and Jail DIATICIAN Martha Taylor. the meals served maintained the quantity and quality of previous meals at a lower cost to the county. My sincere Thanks to Chief O'Halloran and Dietitian Martha Taylor for their mostvaluable assistance with the complicated process of food service and cost planning at the jail. These people often go beyond the call of duty in order to assist me in keeping a sound program at the jail.

Prisoner care fees due the county totalled \$15,264 for the month of August. The breakdown is as follows: U.S. Marshal's Service...\$14,940. Brackettville Police\$ 144. U.S.Border Patrol...\$ 180. Total.....\$15,264.

This brings the total prisoner care fees for the year September 1,1982 thru August 31,1983 to \$118,732.00. I anticipate that figure will increase for the coming year to approximately \$170,000. This is due to an anticipated rate increases for prisoner care form \$18.00 per day to \$20.00 per day in the near future.

The new fiscal year for the county starts October 1 and we look forward to increased efficiency within the sheriff's department as the employees and this officer learn from the experience we have gained over the past year.

I would like to take this opportunity to express my sincere appreciation and gratitude to the men and women working with me in the Sheriffs' department and county jail for their efforts in helping me maintain and increase the high standards we all expect from this department. Without their dedicated assistance this job could not be done. THANK YOU!

I feel that we have come along way since September 1, 1982 and the job is far from being over. The crime rate has decreased and I feel this is largely due the good working relationship we have with the local officer. we all work

together for the common good and many of those who have committed crimes against the community have been caught and successfully prosecuted. This tends to make others with criminal intentions think twice before committing crimes against the people. I wish we could say that someday we will ave a crime free community, but we all know this will never be. In every society there will always be necessary to have peace officers who are willing to devote the majority of their time and efforts to maintaining peace and harmony within the community they serve.

That's all for this week, I hope we can all join together and make our city and county a more crime free, safer place for us and our children to live.

### JONES ASSUMES DUTIES

Connie Jones assumed her duties on September 1, as executive director of the Opera House in Uvalde, according to an announcement by the Uvalde Arts Council. Mrs. Jones comes from Graham, Where she was founder and general manager of the Graham Cracker Theater. She directed a staff of four.

In 1972-73, she directed 33 plays at the Connie Jones Theater for Young People in Lexington, Ky., where she taught drama at The Lexington School.

THE new Opera house director is a native of Bellevue, Ohio, and holds a Bachelor of Fine Arts degree from TCU, Ft. Worth, and a master's degree in theater from Bowling green University in Ohio. During her career, she has been active in student and community theater activities. One summer, she had a part in "The King and I" at Point Theater, Ingram.

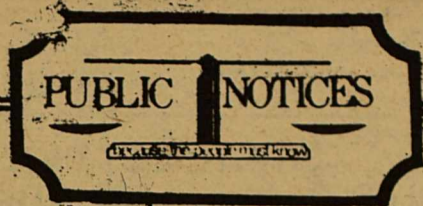

She is a member of Alpha Psi Omega, national dramatic fraternity, and holds numerous offices in her church and other organizations. Her husband, Ron, own and operates a foreign car repair and restoration shop, which he will move to Uvalde in the near future.

FANCY THAT!

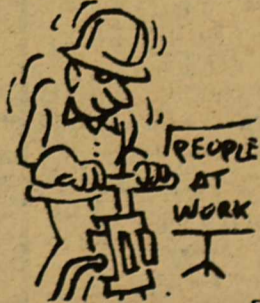

Real hourly earnings for the average American worker rose in 1982 for the first time in four years. Between 1978 and 1981, they had fallen by 8.5 percent.

Another saving grace for the economy: The savings rate rose in both 1981 and 1982. It declined by nearly a sixth from 1976 to 1980. In 1982, it hit a six year high.

Some Americans attribute this economic upturn to the strong leadership of President Reagan. Those who want to participate in the election process can call Molly Gaylord at (202) 863-8710.
