

UPSTAGERS RETURN

UPSTAGERS TO RETURN TO AMPHITHEATRE

Once again this popular group of entertainers from Del Rio will bring the mellowest of melodramas to the Old Quarry Amphitheatre at Fort Clark.

This year's offering, entitled "The Pitfalls of Pauline," features Gloria Culpepper in the appealing role of beautiful blind Pauline Pureheart. When she and her equally beautiful sister come to town, they become not only the center of romance (with a capital ("R"), but also targets of the dastardly plotting by the villainous Chief of Police, Flint Fletcher, played by that experienced villain, Jim Bob McMillan.

OTHER MEMBERS OF THE CAST:

SUE CALLENDER
DOLLY DUPREE
BILL CULPEPPER
DAVID HAWLEY
SHARON ROBERTS
RICHARD BLEVINS
LIZ MILLER

MARK FRANKUM
The drama is under the direction of Jim Bob McMillan.
"The Pitfalls of Pauline" is scheduled for performance at the Old Quarry Amphitheatre, Fr. Clark, on Saturday, September 22, at 8:15 P.M.

Tickets now on sale at the Adult Center, Ft. Clark, are \$4.00 for adults and \$1.00 for students. Tickets may also be purchased at the Amphitheatre at the time of performance.

CITY COUNCIL MEETING

The City Council meeting in regular session at the September Meeting appointed the following community spirited citizens to the Filippone Building and Museum Committees.

BUILDING COMMITTEE

Mr. Tim Ward
Ms. Molly Ardrey
Mrs. J.Lee Ballantyne
Ms. Elsie Sauer
Mr. Richard Schaafer

MUSEUM COMMITTEE

Mr. Charles Downing
Mrs. Lily Dimery
Mr. Warren Outlaw
Mrs. Carlotta De La Rosa
Mrs. Mary San Miguel
Mr. Ben Pingenot
Ms. Elsie Sauer
Mrs. J. Lee Ballantyne

A joint meeting of the two committees has been called for Monday, September 17, 1984 at 7:30 P.M. City Hall Council Chambers to be briefed and form operating committees.

A council representative will discuss plans, policies and procedures and the future goals of the program.

All interested citizens are urged to attend and the Council takes pleasure in commending those citizens nominated and accepting these important appointments.

WHEAT CROP INSURANCE APPLICATION DEADLINE ANNOUNCED

HONDO, TX--September 30 is the last day to apply for Crop Insurance for WHEAT in KINNEY County, TEXAS, according to Tom Jean, District Director for the Federal Crop Insurance Corporation (FCIC.)

Crop Insurance covers unavoidable loss of production resulting from adverse weather conditions, wildlife, or fire.

"Three coverage levels (50, 65, or 75 percent) are available for insurance protection. Additionally, FCIC offers three optional price elections for valuing production lost or damaged," says Jean.

"To assist producers, the Federal Crop Insurance Corporation will cost share up to 30 percent of the cost of carrying insurance. For more information about the program, producers should contact an authorized Crop Insurance Agent,"

To select an agent, producers should check the list of agents available at their county ASCS office. Applications should be made no later than SEPTEMBER 30.

TEXAS EMPLOYMENT COMMISSION

A REPRESENTATIVE OF THE TEXAS EMPLOYMENT COMMISSION WILL BE AT THE KINNEY COUNTY COURT HOUSE EACH TUESDAY FROM 9:30 a.m. TILL 3:00 p.m.

EDITORIAL

BY GEORGE

As most of you know, a few weeks ago, the CAVALRYMAN started a fund raising campaign for a video center for our library.

Well, it has not been the overwhelming success I anticipated.

We are less than half-way to our goal. I would like to complete this project before the end of the month when Mrs. Corey will step down as Librarian.

ONE OF THE SUPRISING THINGS IS THAT OVER 50% OF OUR CONTRIBUTIONS HAVE COME FROM PEOPLE THAT DO NOT EVEN RESIDE IN KINNEY COUNTY!

I know that it is very easy to forget about an important project such as this -with all we have to do these days.

HOWEVER, let's get with the program and get this very important project completed for our community.

WE NOT ONLY NEED THE SUPPORT OF CIVIC CLUBS AND BUSINESSES, BUT ALSO INDIVIDUAL CITIZENS.

IF YOU WANT TO SAVE THAT STAMP AND ALL THE TROUBLE THAT GOES WITH IT, JUST CALL US AND WE WILL PICK UP YOUR DONATION! FOR MORE DETAILS SEE PAGE 8.

HOT LINE ANSWERS QUESTIONS ON PROPANE

AUSTIN, TX--The Texas LP-Gas Association has established a state-wide toll-free propane hotline. Now consumers, architects, builders, developers, and fleet operators have a central clearinghouse for their questions on propane, an economical energy alternative.

To obtain information, call 1-800-252-8232 between 8:30 a.m. and 5:00 p.m. Monday through Friday. Hot line operators will answer, or research questions.

The timing for establishing the toll-free hotline was critical according to Catherine Rips, spokesperson for the Association.

"By putting the hot line to work now, people have the opportunity to get information and consider making changes before the heating season sets

in."
"In some cases, by converting electricial systems to ppropane or adding gas space heating, consumers could see some startling results in

lower heating costs this winter."

The hot line is a new service of the Texas LP-Gas Associaation established to provide information on the versatile fuel. LP-Gas, (butane and propane) is used for home heating, water heating, cooking, and clothes drying as well as for motor fuel and commercial/industrial applications.

The Texas LP-Gas Association is a statewide trade organization comprised of retail LP-Gas dealers and suppliers, whose main objectives are to promote safety and education throughout the industry.

Mr. and Mrs. Louis K. Ogle of Mandeville, LA wish to announce the approaching marriage of their daughter, Miss Margaret Ann Ogle, to Mr. John Stanley Fritter, Ill, son of Mrs. John W. Rutherford of Mandeville, LA and Mr. John S. Fritter, Jr., of Austin, TX.

The wedding will take place on September 22, 1984 at Ten 0'Clock in the morning at Christ Episcopal Church in Covington, LA. A reception will be held immediately following the ceremony.

Miss Ogle, whose mother was before her marriage Margaret Jean Berger, is a graduate of Mandeville High School. She is the grandaughter of Mr. and Mrs. Guy Allen Berger and Mr. and Mrs. John W. Ogle, all of New Orleans, LA.

Mr. Fritter, whose mother is the former Carole Ray Colosky, is a graduate of Mandeville High School. He is the grandson of Mrs. Grace Lee Colosky of Brackettville, TX. and the late Col. R.A. Colosky, and Mrs Gladys Fritter of Brackettville, TX and the late Mr. John S. "Kize" Fritter, Sr.

MOMS AND DADS !

It's time again! Time again for Fall Round-Up. Troop 234 Boy Scouts of America is recruiting youth for its troop. Bring your sons (10 1/2 or older) to meet our leaders and talk about registering your son with B.S.A. Troop 234. This could be a once in a lifetime adventure for your son, so don't let him miss out on the fun.

GIRL SCOUTS

That's a pretty tall order for the girls willing to take on that challange, and we have a small group of girls in this community that have done just that for the last two years.

This year we are hoping to improve our numbers, but we can't do it by ourselves. WE

NEED LEADERS.

Young and old adults - men and women. We can always spare a few hours a week for a good cause, the future of our community.

Come by the First Baptist Church, Sep. 17, at 7 p.m. for our Recruitment Round-Up, to lead our girls to a better future.

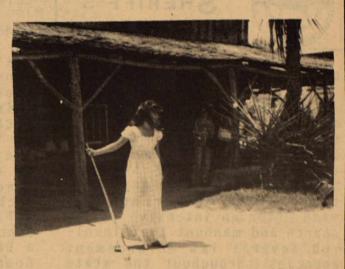

Businesses willing to sponsor a scout can drop us a line at Troop 282/283, Box 1214, City 78832

Cool Dessert Goes Well With Homework

Back to school doesn't always mean cool, crisp fall weather. Sometimes warm fall nights need cool, refreshing desserts like the Creamy Raspberry Squares featured here, to make the task of doing homework a little sweeter.

This delicious no-bake dessert is made simple with the help of Royal® Raspberry Gelatin. The Royal Gelatin is combined with evaporated milk, cream cheese and raspberries, then chilled in an Oreo® Cookie Crust. The creamy, light melt-inyour mouth taste is sensational.

Hungry students will find these Creamy Raspberry Squares a perfect accompaniment to calculus, French, science or whatever. You will find them an easy treat to prepare and a delicious way to reward diligent students.

CREAMY RASPBERRY SQUARES

18 Oreo Chocolate Sandwich Cookies, finely rolled

1/4 cup margarine, melted

2 (3-ounce) packages or 1 (6-ounce) package Royal Raspberry or Strawberry Gelatin

1-3/4 cups boiling water 1 (13-ounce) can evaporated milk, chilled

1 (8-ounce) package cream cheese, softened 1 (10-ounce) package frozen raspberries in light syrup,

thawed or 1 (9-ounce) package frozen sliced strawberries,

Prepared whipped topping for garnish, optional

In medium bowl, combine cookie crumbs and margarine; mix well. Press into bottom of 8 x 8-inch baking pan. Chill.

In large bowl, dissolve raspberry gelatin in boiling water. Stir in chilled evaporated milk. Pour half of mixture into blender container or food processor, add half of cream cheese. Process until smooth and creamy; pour into large bowl. Repeat with remaining gelatin mixture and cream cheese. Fold in raspberries and syrup. Chill until slightly thickened; pour into prepared crust. Chill until firm, about 3 hours.

Cut into squares to serve. If desired, garnish with prepared topping.

Baking Ideas That Take The Gake

FROM THE KITCHENS OF BETTY CROCKE

Don't bake fruitcake by the calendar.

Bake it by the book. Specifically, the new "Betty Crocker's Cake Recipes for Every Occasion." Here you'll find eight pages at the beginning filled with sketches and technique tips plus more sketches and tips throughout the book to take you

step-by-step to success. Priced at \$13.95 and available at book and department stores, this latest volume in the popular Betty Crocker series can set you on your way to baking better batter and world-class cakes.

The Fruitcake Ring below will add that special glow to mealtime endings all year around.

FRUITCAKE RING

Mincemeat Fruitcake (below)

Browned Butter Glaze (below) 3 cup coarsely chopped

pecans Bake Mincemeat Fruitcake as directed. Spread with Browned Butter Glaze, let-

ting it run down side unevenly. Immediately sprinkle top with pecans.

Mincemeat Fruitcake

2 eggs

1 jar (28 ounces) ready-touse mincemeat

16 ounces mixed candied fruit (about 2 cups)

1 can (14 ounces) sweetened condensed milk 1 cup coarsely chopped pecans

2-1/2 cups all-purpose flour 1 teaspoon baking soda

Heat oven to 300°. Generously grease and flour 12-cup bundt cake pan or tube pan, 10 x 4 inches. Beat eggs slightly in large bowl. Stir in mincemeat, candied fruit, sweetened condensed milk and pecans. Stir in flour and baking soda. Pour batter in-

Bake until wooden pick inserted in center comes out clean, about I hour 50 minutes. Cool 15 minutes: remove from pan. Cool completely.

Browned Butter Glaze

2 tablespoons margarine or butter

1 cup powdered sugar

1 teaspoon vanilla 1 tablespoon hot water

Heat margarine in saucepan over medium heat until delicate brown. Cool slightly. Stir in powdered sugar, vanilla and water. If necessary, stir in additional hot water. I teaspoon at a time, until glaze is desired consistency.

THE SHERIFF'S CORNER

by Norman H. Hooten, Sheriff

Larry Ronald Stiver, 43, who escaped from custody at the Kinney County Jail on August 28th, was arrested by FBI agents at a truck stop in Oklahoma City on Friday, September 7th. The arrest was made after an intensive 10 day search and manhunt that involved several law enforcement agencies throughout the state and many hours of hard work by those involved.

As most of you know, Stiver was being held on Felony charges from the state of North Carolina and was fighting extradition to that state when he escaped. He tricked a Kinney County Jailer into bringing him aspirin at 3:00 am at which time he threatened the jailer with bodily harm by the use of a knife to effect his escape. Professional law enforcement techniques, close cooperation between the several law enforcement agencies involved in the search and a little luck aided tremendously in his eventual capture. We had finally been able to get the break we were waiting for and were able to trace a phone number he was using for communications. FBI agents were notified and staked out the phone booth and arrested Stiver sho-

rtly after noon at the scene as he was completing another

At the time of this writing, Stiver is being held in the Oklahoma City County Jail in lieu of bonds total-ling \$135,000.00. It is unknown at this time if he is going to waive extradition back to Texas to stand trial on the escape charges. If he decides to fight extradition we will definitely start extradition proceedings to ef-

fect his return.

The public meeting concerning the possibility of a Detention Center in Kinney County, which was held last week, brought out some interesting points, both pro and con. Most of the questions asked about the proposal were sincere and well taken. Of course, as is always the case in a controversial subject there were some questions and statements made that were totally out of context and bordered on the ridiculous, but these types of responses are to be expected anytime an issue such as this is brought

to the public for discussion. Some people who are sincerely interested in hearing the information from both sides, pro and con, come to public meeting to be informed before making their decisions and ask sincere and concerned questions. Others whose minds are closed and are basically uninformed of the facts make statements and allegations that are totally out of context. But this is human nature and is to be expected. I still believe that the final decision should be put before ALL the people in the form of a Voter Preference Vote. I do not believe that any small special interest group, from either side, should make the decision, either for or against the issue.

We all have to live together in our community and county and should be able to make decisions that will effect our overall welfare without hatred and extreme bias for one another. We may disagree on certain issues but I feel that we should be able to work out our problems with each other, make decisions and still remain friends and neighbors. We all depend on each other in one form or another and hopefully any issue can be worked out in an adult, responsible manner that will not leave us bitter and separated from each other.

HARDWARE STORES

ENFORCERS SAY TO ROCK-' MAKE MY DAY

The Tiger offensive attack and Tiger defense, dubbed the "enforcers", tuned-up for tonight's game with the improved Rocksprings Angoras by beating the Leakey Eagles 17-6 last Friday at the Eagles Nest.

Having a hard time on the ground, the Tigers found the airways open. The Tigers scored first in the second quarter when Senior Quarterback Walter Dyer tossed a 22 yard touchdown pass to halfback David Benites. A blocked punt by Roger Brown set-up the second score with Dyer kicking a 25-yard field goal. Later in the second quarter Dyer hooked up with Brown on a 40 yard "bomb" to complete the Tiger scoring.

Leakey's scrappy defense held the Tigers scoreless in the second half. The Eagles got on the score board when tailback Quetro Patterson walked in from one yard out. Defensive cornerback Benites intercepted Leakey's quarterback once, thus ending any Eagle chance of defeating the Tigers.

TIGER TIMES

Editor: Pat Rodrequez Sponsor: Ronald Kelley

Staff: Beth Bowlin, Alma DeHoyos
Margaret Gomez, Jesusita
Lopez, Jesse Perez, Bea
Reyes, Francis Rodriquez,
Susana Terrazas, Walter
Dyer, Kay Demiry, Ana
Robledo

The Tiger Times is a cooperative effort of the Brackettville High School Journalism class and the Kinney Cavalryman.

Head Coach Cliff Baker said,
"We need to be in better shape",
after watching the film on Saturday. He continued, "defensive
coordinator Ken Mulligan did a
great job of handling the Tiger
Defense. They shut down the
Leakey offense. The special teams
unit and secondary under coach
Steve Voissem gave the Tigers excellent field position throughout
the game.

Rocksprings, a second place finisher in their district last year has a greatly improved offensive line, according to head coach Bill Holbrook. Holbrook was in Leakey scouting during the game last Friday. He rates the Tigers as a formidable foe in any given year.

There are thirty-eight football players on the Brackettville Junior High School Roster. Practice began during the week of August twenty-seven through thirty-first.

Eighth grade football players listed are, Mike Aguilar, Jesus Aguirre, Joe Chavez, Juan Chavez, Darrin Corbin, Rodrigo DeLeon, Reyes Diaz, Abel Esparza, Lee Floyd, Joe Garza, Frankie Gutierrez, Joe Martinez, Frank Morgan, Sean Mulligan, Manuel Pena, Noe Pinales, Will Risinger, Placido Samaniego, Ruben Talamantez, Jerry Reed, Salvador Pacheco.

Seventh grade football players listed are, Ernest Abrigo, Mike Cervantez, David Flores, Mitch Frerich, Mark Gomez, Val Gomez, Xavier Gomez, Marshall Henrich, Jorge Hernandez, Norman Luna, Johnny Martinez, Tommy Rainey, Marcus Saenz, Armando Talamantez, Joe Uvalle, James Schermerhorn, Ted Coston.

Rhea Slaughter, Nakai Breen, Nicky Sacynski, Ronnie Latham, Jodi Schermerhorn, and Robin Ward are the B.H.S. Cheerleaders choosen by our student body. They have been working long, hard hours all summer long improving their cheers. "It's hard but fun", according to all of the cheerleaders.

They support our Tigers all the way. Not only Friday nights, but during practice you find them urging the Tigers on.

Frances Rodriguez

For the first three weeks of school, Miss Osburn's 6th grade has been studying how globes and maps are used to study about the world. In the 6th grade, Social Studies is geared toward world geography and history. "We took our first test Friday, September 7. It was rough but the students did pretty well of course, there is room for improvement but considering it was the first big test, they did pretty well", according to Miss Osburn.

SESQUICENTENNIAL

FOUNDATION

FORMED

A Texas-South Australia Sesquicentennial Foundation has been formed. These two states will be celebrating their 150th year as states in 1986. Brompton Primary School, in Adalaide, South Australia, and Brackettville Elementary School will be exchange sister schools.

Mrs. Courtney Schwander,
Brackettville Elementary Principal,
will send information to the sister
school. Brompton will send information back to Brackettville. Mrs.
Schwander plans to display all information in the Elementary School.
The two schools will exchange information for two years. Mrs. Schwander
is very excited about the program.
She stated, "All elementary teachers
and students will have a chance to
participate in the information
exchange."

This year the Brackettville Independent School District has many new faculty members, one of those members is our new Journalism teacher and sponsor. He is Mr. Ron Kelley.

Mr. Kelley came to Brackett-ville after serving sixteen years as a teacher and principal in New York, Texas, and California. His last job as a principal was in kindergarden-eigth grade in Rock-springs, Texas. Mr. Kelly is a history teacherat Brackettville Junior High School. Mr. Kelley is also a preacher for the Methodist Church in Brackettville.

Mr. Kelley lives in Fort Clark with his wife Judith, and three children; Hope, Sarah, and Chris. Mr. Kelley spends his time visiting at Fort Clark and in Brackettville when he's not teaching at school. The Kelley Family plans to make Brackettville and Fort Clark their permanent home, according to Ir. Kelley.

TIGERETTES LOOKING

AHEAD

The following questions were asked of members of the 1984-1985 Tigerette Basketball Squad.

Rhea Slaugter: Why do you like to play basketball and how many years have played?

Rhea said she likes to play basketball, because she likes sports. She is also head cheer leader this year. She played basketball for five years. Also, she for been on the varsity three years.

Elida Estrada: Who's going to be the harest competion this year?

Elida thinks this year that Dilley and Natlia well be the harest competeters.

Shawn Kalston: Coming from a big town did you have alot of experience in playing basketball?

Shawn said, "No, that's why I moved to Brackettville, so I could play basketball".

Martha Samaniego: How far would you like to go this year in basketball competion?

Martha said she really would like to win Bi-District and go to State.

FACULTY

This year among the new faculty there is a new typing and record-keeping teacher. She is Mrs. Kathy Adams, she is orignally from Uvalde, but for eight years lived in Brackettville. She feels that Brackettville is her "hometown".

She truly enjoys teaching in Brackettville. She has had many excellent and enjoyable students in other schools, but it seems like this year might promise to be the best one, according to Mrs. Adams. Mrs. Adams has had eight years of teaching experience in places such as Brackettville, Roma, Rio Grande City, Carrizo Springs, and in Uvalde.

Emma Swain has been working as an administrative secretary for thirty-five years.

FORT CLARK HISTORICAL SOCIETY

Rotary Club

The Fort Clark Historical Society will meet September 22nd at 2:00 p.m. in the members lounge over the Las Moras Inn. The speaker will be Fred Hicks of Austin, who was a member of Troop F, 5th Cavalry from 1937-1941. Mr. Hicks will tell of his experiences in a talk entitled "The Life and Times of a Soldier in the 5th Cavalry."

LIBRARY NOTES CHAROLETTE COREY

We are in the process of organizing a lot of our old reference magazines and can use any old 3 ring notebook binders you might have laying around the house. If they are heavily marked on, don't worry, these can be covered with contact paper.

The elderly from the Nutrition Center enjoyed watching Jacque Cousteau's "The Water Planet" last

Tuesday. The Child Welfare/Child Abuse Board met at the library last Monday evening to discuss

re-organization plans. Someone recently asked me if we really need a VCR for the library. The answer to that is...how much FREE video cassettes do people want to watch? The library offers this free service as opposed to having to rent these video cassettes.

Not everyone has a video cassette player and these library services should not be restricted SOLELY to the rich. Having a VCR will open up new educational & recreational doors for many, many people in the community.

Thanks to George Loos and efforts and all of you who have responded to this need, we pray that we will reach our goal within the next six weeks.

Hug someone and have a blessed day!

Historical Highlights Presented By 7-Eleven Stores, A Major Sponsor Of The 1984 Olympic Games

OLGA KORBUT-Munich, 1972

Olga Korbut! The name still conjures up one of those rare moments when an Olympic event captures the imagination of the entire world: the elfin-like Russian, 4-11 and 84 pounds, bursting into tears after missing a routine on the uneven parallel bars at Munich, a slip that cost her the gold medal and, in the very same instant, projected her as the darling of television viewers around the globe.

Ironically, it was this failure rather than success (she would later win three gold medals) that made her a household name. Through the magic of television, the tiny Russian girl's tragedy, and her ultimate triumph, gave a new human dimension to women's gymnastics and, indeed, provided a turning point in the evolution of the sport. Olga, the charming little pixie from Grodno, Byelorussina, became a folk hero overnight, a role model for young girls in every nation. Gymnastic clubs were springing up in cities and towns everywhere, almost before the cheers and the tears from Munich had faded away. Mothers packed their young daughters off to beginners classes by the tens of thousands. The day of anonymity for women gymnasts was at an end, and it was Olga Korbut

who was the apostle of the new movement. Her gold medal-winning performances on the balance beam, in the floor exercises and in the team combined event at Munich had shown the world the beauty and artistry of women's gymnastics, just as her sobbing, emotional breakdown had tugged at the hearts of everyone who watched that day. People related to Olga's failure, and they shared in her eventual

triumph. Gymnastics suddenly was seen as a sport of not only form and execution but as a very human experience, with tears and heartache and disappointment. Reaching out to her audience ("Medals do not interest me; I need the love of the public!") with the poise of a showbiz veteran, Olga Korbut had touched millions of people—and had written herself a place in Olympic history.

TAXATION, TEMPTATION, AND JUSTICE

By John Murphy
What does a hike in excise
taxes mean to the average
American? How does it affect
employment, and inflation?

American? How does it affect employment, and inflation? These are just some of the questions the President and Chief Operating Officer of Philip Morris discusses in this article excerpted from a recent speech.

When pollsters ask people which they prefer — excise

taxes or broad-based taxes—
the man in the
street opts for
excise taxes.
That may be
because the
consequences of

excises are poorly understood. Federal excise taxes hurt the little guy. They throw people out of work They increase prices and they undermine prosperity and economic recovery. These economic recovery. These problems are hard for the public to spot. We all pay excise taxes, sometimes known as user fees, when we buy telephone and teletype services...when we buy firearms. . . enjoy wagering and games...buy certain motor vehicles, automobile parts and accessories. . . and gasoline and lubricating oils. Not all of us realize it, but we've also got excise taxes on fishing equipment. The trouble with these excise taxes is, they're arbitrary and unfair. Why should telephone users, motorists, beer lovers, smokers, liquor fanciers, and hunters and fisherman have to pay

Excise taxes are hard to see because we pay for them purchase by purchase. Many feel it is a narrowly based tax that hurts those who can least afford it.

more taxes than other people? When I go down to pay, let's say \$2.89 for a six-pack of beer or \$8.59 for a carton or cigarettes, I'm paying the same amount of taxes as a welder making \$11 an hour or as the checkout clerk who earns less. For the welder or the clerk - or someone on Social Security - those excise taxes take a greater percentage of income than they do for people who are better off. If arbitrary unfairness weren't enough, excise taxes are inflationary. Excise taxes increase manufacturing and retail prices without any additional product benefit to the consumer. Perhaps the most damning drawback of excise taxes is that they cost jobs. Last year the Federal government doubled the excise tax on cigarettes. What did that tax hike mean for employment? An economist did a study. The economic model indicates that the chain reaction from last year's innocent-

sounding eight-cents a pack increase could lead to the equivalent of 15,000 jobs being lost. What's true for tobacco is true for other industries. Since we pay excise taxes purchase-by-purchase, excise tax sponsors have had some reason to hope consumers won't notice the new pennies dribbling away. Well, I think people are catching on. The excise taxes are no longer so small as to be unnoticed. That means, I think, we're coming to the end of the road for the revenue-generating potential of narrowly-based taxes. The obvious alternative is broad-based taxes. At the Federal level, that means primarily personal and business income taxes and the various taxes that fund Social Security and health insurance. Because broad-based taxes are applied equally to everything, they are the taxes that intrude least in the normal workings of the free marketplace

To make a one-pound honeycomb, bees must draw nectar from about two million flowers.

AVOID THESE SERIOUS HEALTH CARE BLUNDERS

One of the most serious health care blunders anyone can make is to ignore a symptom. A symptom that should never be ignored is blood in the urine, medically called hematuria.

Even a small amount of blood may make the urine bright red. While this does not mean you are losing a lot of blood, it does mean in every case, there is the need for investigation.

These are some common causes of blood in the urine: Infection (so called hemorrhagic cystitis), benign growths (such as benign prostatic enlargement in men) and kidney or bladder stones (urinary calculi). The most important cause of blood in the urine, however, is malignancy (i.e., cancer of the kidney, bladder or prostate). Therefore, whenever there is blood in the urine (red color and or clots) you should see a urologist.

A urologist is a physician especially trained in the diagnostic evaluation and

A urologist is the person to see if you have blood in the urine.

treatment of urinary and genital diseases. Specific tests to evaluate hematuria, or blood in the urine, would be: First, an intravenous pyelogram (IVP). An IVP is an x-ray of the kidneys using dye injected intravenously which is then excreted by the kidneys after giving both functional and structural information about both kidneys. Kidney tumors can often be first discovered this way.

Another test would be cystoscopy, which is the visual inspection of the lower urinary tract using a small caliber instrument passed disconnected with the control of the cystoscopy. Which is the visual inspection of the lower urinary tract using a small caliber instrument passed disconnected with the cystoscopy. Which is the visual inspection of the visual inspection of the visual inspection of the lower urinary tractures are controlled in the cystoscopy. Which is the visual inspection of the lower urinary tractures are controlled in the cystoscopy which is the visual inspection of the lower urinary tractures are controlled in the cystoscopy. Which is the visual inspection of the lower urinary tractures are controlled in the cystoscopy which is the visual inspection of the lower urinary tractures are controlled in the cystoscopy. Which is the visual inspection of the lower urinary tractures are controlled in the cystoscopy which is the visual inspection of the lower urinary tractures are controlled in the cystoscopy with the cystoscopy and the cystoscopy with the cystoscopy and the cystoscopy with the cystoscopy and the cystoscopy are cystoscopy are cystoscopy and cystoscopy are cystoscopy and cystoscopy are cystoscopy are cystoscopy and cystoscopy are cystoscopy and cystoscopy are cystoscopy are cystoscopy and cystoscopy are cystoscopy are cystoscopy are cystoscopy and cystoscopy are cystoscopy are cystoscopy and cystoscopy are cystoscopy are cystoscopy and cystoscopy are cystoscopy are cystoscopy are cystoscop

through the urethal urinary passageway.

These instruments have excellent optical and lighting capabilities and do not require any incision for their introduction into the urinary tract. Small tumors can be discovered this way.

They have the diagnostic tests available to determine the cause of the bleeding.

Expert's Recommendations For Winning The War On Waste

How can we win the war on bureaucratic waste and inefficiency in federal govern-ment? The President's Private Sector Survey on Cost Control (PPSSCC), headed by J. Peter Grace, chairman and chief executive officer of W.R. Grace & Co., has issued 2,478 cost-cutting suggestions that it said would result in a savings of at least \$424.4 billion over three years.

The Grace Commission, established in June 1982, re-cruited 161 top executives from private business and other organizations to chair 36 Task Forces, which were staffed by more than 2,000 volunteers. The entire proect, which cost more than \$76 million, was funded entirely by the private sector. In a letter to President Rea-

gan accompanying the report, Grace targeted a number of "absurd situations we found throughout the government that add up to billions of dollars per year and where the opportunities for savings are clearly avail-

Among the Commission's findings: Federal pensions provide between three and six times the benefits of the best private sector plans.

The solution? Bring the Civil Service retirement plan closer to private sector retirement norms for a three year savings of \$30 billion, the Commission recommends.

J. Peter Grace, head of the President's Private Sector Survey on Cost Control, is shown with President Reagan discussing the commission's cost-cutting recommendations which would result in a savings of at least \$424.4 billion over three years.

balance the budget, the Commission contends.

PPSSCC found that one third of all income tax revenue is consumed by personnel mismanagement, system failures and program waste in federal government; one third goes uncollected, largely as a result of the underground economy; and 100 percent of what is collected pays the interest charges on the federal debt and government contributions to transfer payments (social programs). "In other words."

Raising taxes will not help said Grace, "all individual income tax revenues are gone before one nickel is spent on the services which taxpayers expect from their govern-

Many people concerned about America's economic future are writing to their legislators to suggest their congressmen implement the findings of the Grace Commission. They address the letters to the U.S. Senate, Washington, D.C. 20510 and the House of Representatives, Washington, D.C.

The Science Of Skin Care

TANNING SAFELY HAS LONG-TERM SKIN BENEFITS

Ouch!

Summer sunburn can not only be painful, it can age your skin prematurely

While it is best to gradually work your way up to a golden tan, sunscreens allow you more time in the sun-for fun and to work toward the degree of tan you want. Factored sunscreen products used according to instructions are the most reliable way to achieve a safe tan, according to the Avon Skin Care News Bureau

"Shaded makeup, like foundation, eyeshadow and blush, can be an additional barrier between you and the sun," says Dr. Yale Gressel, Ph.D., Avon's Director of Product Safety and Integrity. "Newer formulas, like Advanced Moisture Makeup. contain a significant a mount of sunscreen, as well as rich moisturizing ingredients. Scientifically advanced makeup with benefits such as these can actually be seen as the final step in skin care," he explains.

For an effective program of sun protection, scientists at Avon have developed the

You can face up the sun in style with protective sunscreens.

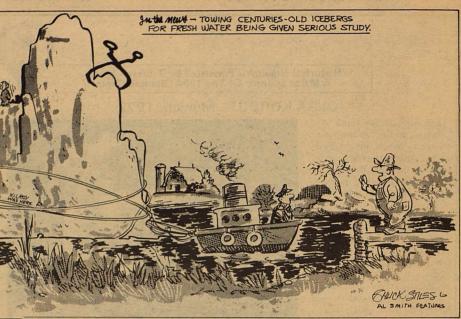

with a full range of Sun Protection Factors (SPF). The extra protectors are the higher factor numbers and offer the greatest protection. For maximum coverage, SPF 15 allows sunning 15 times longer than without sunscreen protection. Sunbathers can start with Ultra Sunsafe Tanning Lotion, which contains an SPF of 15 and is water resistant. A new Protective StickSPF 15 is an easy, portable way to apply spot protection to especially delicate areas, like the nose, ears or neck.

Sunsafe Tanning Lotion-SPF 8 Water Resistant is specially formulated to protect skin that burns easily. After 40 minutes of swimming you will still have maximal protection against sunburn. SPF 8 allows sunning eight times longer than without sunscreen

The regular protectors are Tanning Lotion-SPF 4 Water Resistant, offering moderate sunburn protection and Dark Tanning Oil—SPF 2. for skin that always tans.

Once you've got that tan, you'll have a better chance of keeping it with a moisturizer developed for after sun. like Tan Saver Moisturizing Lotion. It is a quickly absorbed, non-greasy formula that is rich in emollients to pamper skin that has basked in sun's parching rays.

The real beauty of tanning safely is not just the tan you get this summer, it's the damage you don't get from exposure to sun without proper

"TAKE IT BACK - I ORDERED FRESH WATER ... THAT STUFF'S OVER 10,000 YEARS OLD!"

Our old air conditioner broke down permanently. I'm glad.

"I didn't see it that way at first, of course. For one thing, it was July, with the weather getting hotter every day. And naturally, we were concerned about money and how much we were going to have to pay for new air conditioning.

'As it turned out, the breakdown showed us how to SAVE money.

'Our dealer explained EER and SEER-efficiency ratings for air conditioners. The higher the number, the more efficiently the unit operates. He said we'd get the most economical service from one rated 8 or above.

"The people at CPL said the dealer was absolutely right: we should choose a model with an EER of at least 8. And they helped us figure the BTU sizing right for our house. That's impor-

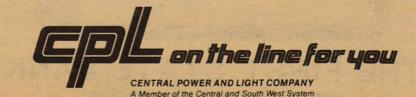

'We hadn't been using the new air conditioner very long before we realized how much the old one had cost

us by using more electricity than necessary to do the job.

'Now I'm happy the old unit died. Our new system has an EER of 8.7and it's made a difference! More cool air, more comfort. Lower summer electricity bills than we've had in years.

"Wish we'd looked into this EER business a long time ago...

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED

CONSTITUTIONAL AMENDMENTS GENERAL ELECTION

NOVEMBER 6, 1984

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 29 proposes a constitutional amendment that provides to state-chartered banks the same rights and privileges that are or may be granted to national banks of the United States domiciled in this state. For example, if national banks become authorized to maintain branch offices, this amendment would extend the same privilege to state banks.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide state banks the same rights and privileges as national banks."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that restructures the Permanent University Fund to provide: (1) for the expansion of the institutions eligible to participate in the bonding capacity of the fund to include the components of The University of Texas and Texas A&M University systems that have been added to those two systems of higher education since the Permanent University Fund was last restructured by constitutional amendment; (2) for the expansion of the purposes for which bond proceeds can be expended from new construction to include major repair and rehabilitation projects and the acquisition of major capital equipment (e.g., computers and laboratory equip-ment) and library books and materials; (3) for an increase in the bonding capacity from 20% (% for The University of Texas System and % for the Texas A&M University System) to 30% (20% for The University Sy University of Texas System and 10% for Texas A&M University System) of the value of the assets (exclusive of real estate) in the Permanent University Fund in order to provide sufficient bond proceeds to care for the addition of 10 new institutions to those authorized to participate in the Permanent University Fund bonding program and to care for the expanded pur-poses for which the bond proceeds can be spent; and (4) for the dedication of the dividends, interest, and other income from the Permanent University Fund remaining after payment of principal and interest due on bonds and notes issued, to the provision of support and maintenance (over and above normal legislative appropriations) for Texas A&M University in Brazos County, Prairie View A&M University, and The University of Texas at Austin.

House Joint Resolution 19 also annually appropriates \$100 million in each fiscal year, beginning September 1, 1985 (from the first money coming into the state treasury that is not otherwise appropriated by the constitution) for the use of those

agencies and institutions of higher education which are not included in The University of Texas or Texas A&M University Systems and, therefore, not eligible to participate in the Permanent University Fund bonding program. The amount of this appropriation could be adjusted every five years by a % vote of the Legislature, but could not be adjusted in such a way as to affect pure transfer of the desired to the substantial of the substanti outstanding bonding indebtedness. Each institution of higher education that is eligible to participate (i.e., those institutions of higher education outside The University of Texas and Texas A&M University Systems) would be authorized to expend directly its share (such share to be determined pursuant to an equitable formula) of the \$100 million appropriation for the purposes of acquiring land, constructing and equipping buildings or other permanent improvements, major repair and rehabilitation of other permanent buildings or improvements, and acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials. Additionally, each institution would be authorized to issue bonds backed by a pledge of up to 50% of its share of the \$100 million annual appropriation for the purpose of land acquisition, new construction, and major repair and rehabilitation projects.

Except in the case of fire or natural disaster and in other extraordinary cases, verified by a two-thirds vote of each house of the legislature, all institutions of higher education would be precluded from receiving appropriations of general revenue funds for the purposes of land acquisition, new construction, and major repair and rehabilitation projects.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to create from general revenue a special higher education assistance fund for construction and related activities, to restructure the Permanent University Fund, and to increase the number of institutions eligible to benefit from the Permanent University Fund."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 65 proposes a constitutional amendment which authorizes the legislature to provide for the payment of assistance to the surviving dependent parents, brothers, and sisters of officers, employees and agents of the state or its political subdivisions, including members of organized volunteer fire departments and members of organized police reserve or auxiliary units authorized to make arrests, who die in the course of performing hazardous official duties. Payments to surviving spouses and dependent children of

such officers, employees, and agents are already authorized by the Constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for payment of assistance to the surviving dependent parents, brothers, and sisters of certain public servants killed while on duty."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 20 proposes a constitutional amendment which abolishes the office of county treasurer in Bexar and Collin counties if a majority of the voters in each of those counties vote in favor of abolishing the office of county treasurer in a local election to be held on the issue. All the powers, duties, and functions of the office of county treasurer in each of these counties would be transferred to the county clerk.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to abolish the office of county treasurer in Bexar and Collin counties."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 22 proposes a constitutional amendment which provides a new method of filling a vacancy in the office of Lieutenant Governor. The amend-ment requires the President pro tempore of the Senate to call together the committee of the whole Senate within 30 days after a vacancy occurs in the office of Lieutenant Governor. The committee would be required to elect one of its members to perform the duties of the Lieutenant Governor until the next general election. This individual would continue his duties as Senator at the same time that he performs the Lieutenant Governor's duties. If the Senator who is elected ceases to be a Senator before the next general election, another Senator must be elected according to the above procedure to perform the Lieutenant Governor's duties. The President pro tempore would be required to perform the Lieutenant Governor's duties pending the election of one of its members by the committee of the whole Senate.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the state senate to fill a vacancy in the office of lieutenant governor."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 73 proposes a constitutional amendment that permits the use of public funds and credit for payment of premiums on non-assessable life, health, or accident insurance policies and annuity contracts issued by a mutual insurance company authorized to do business in this state. The constitutional prohibition against a grant of public money to an individual, association, or corporation or against becoming a stockholder in a corporation, association, or company has limited life and health group policies of political subdivi-sions to non-mutual insurance companies. The amendment would permit mutual insurance companies to bid for those policies.

The proposed constitutional amendment will appear on the ballot as follows: The constitutional amendment to permit use of public funds and credit for payment of premiums on certain insurance contracts of mutual insurance companies authorized to do business in Texas."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment to change the membership of the State Commission on Judicial Conduct to include one Judge of a Municipal Court and one Judge of a County Court at Law, who shall be selected at large and appointed by the Supreme Court with the advice and consent of the Senate.

The amendment also provides additional grounds for removal from office of judges or justices of Texas courts, and provides additional disciplinary actions that could be taken in lieu of removal or censure. The amendment would extend the Commission's disciplinary authority to masters, magistrates, and retired or former judges who hear cases by designation. The amendment creates a tribunal to review recommendations of the State Commission on Judicial Conduct for removal or retirement of a judge or justice. The review tribunal would be composed of seven (7) Justices or Judges of the Courts of Appeals selected by lot by the Chief Justice of the Supreme Court. The amendment also provides for appeal of the review tribunal's decision to the Supreme Court of Texas and grants an accused judge the right to discovery of evidence.

The proposition will appear on the ballot as follows: The constitutional amendment relating to the membership of the State Commission on Judicial Conduct and the authority and procedure to discipline active judges, certain retired and former judges, and certain masters and magistrates of the courts."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment which increases the per diem of members of the Legislature. The amount of per diem allowed during a calendar year would be equal to the maximum amount set in federal income tax statutes as of January 1 of that same year as a deduction for ordinary and necessary business expenses incurred by a state legislator. Current per diem is \$30; the maximum deduction is now \$75.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide a per diem for members of the legislature equal to the maximum daily amount allowed by federal law as a deduction for ordinary and necessary business expenses incurred by a state legislator."

Estos son los informes explanatorios sobre las enmiendas propuestas a la constitución que aparacerán en la boleta el día 6 de noviembre de 1984.
