VOL. 14 NO. 22
JUNE 4, 1987
BRACKETTVILLE, TEXAS

RED CROSS ASSISTANCE

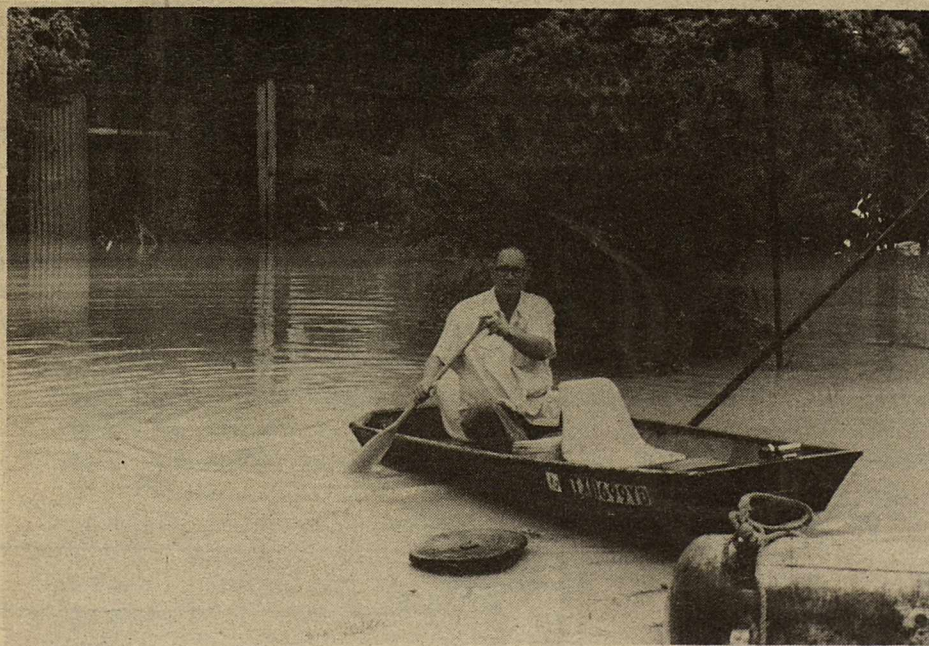

The Red Cross Service Center will be located at the Brackettville Civic Center. People who have received damage from the recent storm in their primary residence are eligible to apply for assistance. The hours of operation will be 8 - 5 starting Thursday, June 4th.

BRACKETTVILLE & FORT CLARK FLOODED

Sunday morning Kinney County was hit with 9.4 inches of rain within a few hours. Since we have continuously had rain off and on for the past two months, Brackettville flooded. With that amount of rain that fast the water could not run off fast enough and so flooded we were.

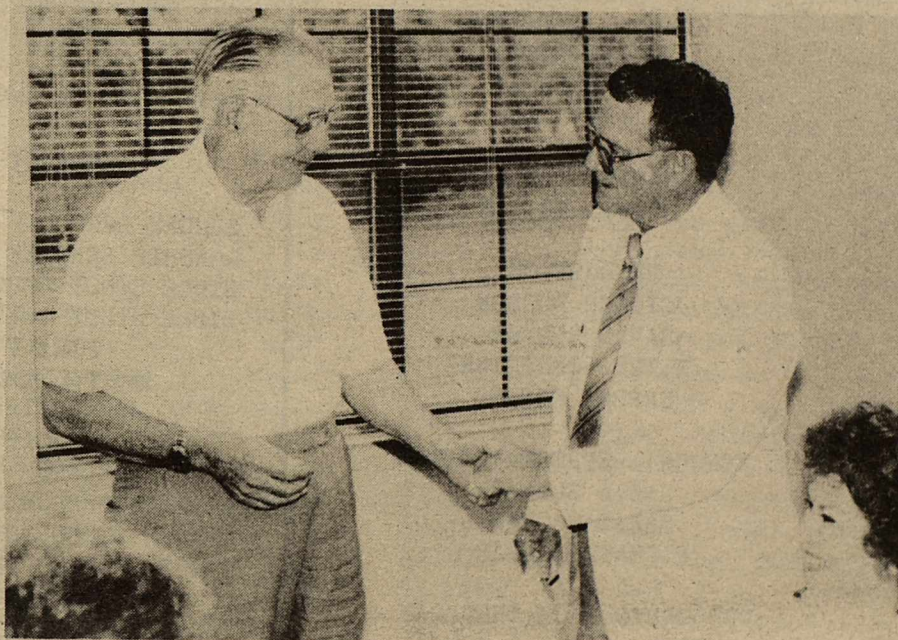

There was a great amount of damage to residents' homes and businesses. Fort Clark Springs in Unit 1, the townhouses, was under water. Some of the townhouses had 4 to 5 feet of water in them. Las Moras Creek was higher than it has been in approximately 30 years.

CONT. ON PAGE 10

Who needs Amistad Lake? We had our own lake Sunday morning here in Brackettville, Texas. If you don't believe me, ask Russell (Ben) Hoover, Jr. He thought a boat ride was just the thing to do with all the water in his back yard.

FAREWELL TO DR. HARBER

DR. JAMES HARBER & JUDGE TOMMY SEARGEANT

Dr. James Harber was honored by a farwell surprise party by approximately 25 of his friends and associates at the Fort Clark Golf Club on Friday, May 22, 1987.

Dr. Harber retired as of May 31, 1987, after ten years of service to this community. He has been our only Dentist in Brackettville. Taking care of our school children's teeth was his primary job. Thanks to him, our children's teeth are in good shape. Beside his primary job, he also attended adults with their dental problems.

Doc we are really going to miss you but we hope you enjoy your retirement.

Elia Garcia has been Dr. Harber's assistant for 10 years. They really made a good team. Both are very well liked and respected for their contribution to this community. We are hoping Elia can stay on with the state.

The Commissioners Court wrote a resolution in appreciation to Dr. Harber and Elia Garcia for their dedication to their service to Kinney County. This resolution was presented to them by Judge Tommy Seargeant at the surprise luncheon at the Fort Clark Golf Club.

Again we want to thank Dr. Harber and Elia Garcia for their outstanding service to this Community.

GREEN TIPS BY KATHY BADER

Water, water, everywhere! I hope that last weekends rains and winds didn't destroy everyones gardens. We have managed to put everything back into place, and even though we had over a foot of water inside the nursery we were very fortunate that we suffered little or no damage - just a lot of very soaked and muddy plants. Hope you were as lucky.

But these rains are going to cause many problems (other than drowning) for our plants. Watch them closely for mildew, funguses, wilting, and rot. Remove all affected areas and destroy. The newer hybrid crapemyrtles should be OK but watch them. An application of fungenex every 3-5 days should keep the problems under control.

Another side affect of the rains will be snails and slugs. Dursban granules will control them, or put shallow bowls of beer around the beds and you'll be surprised at how many you can trap each eveing.

One of the most delightful things about this time of year are the hummingbirds are back. They have been drifting through in small numbers for several weeks but now they are here in force. If you don't want to feed just sugar to them, there are several very good plants that do very well here to attract them, and that keep blooming most of the summer. SALVIA GREGGORII is a bushy sage-like native that has bright red, white or pink flowers. There is also the trumpet vine, trumpet honeysuckle, coral honeysuckle, scarlet monarda, cannas, lillies, and cleome. Plant some or all of these in an area and watch the air show.

OK - things you can still plant in the garden: sweet potatoes, eggplant, corn, beans, okra, peppers, heat tolerant lettuce, and spinach in the shade of other plantings. Celery planted now will mature in the fall. Also, southern peas, blackeyed peas, lima beans.

Plants and flowers for summer blooming include: Copper plant, cannas, ginger, zinnias, verbena, lantana, yarrow, and the portulacas and moss rose. There are many more that will continue to bloom as long as they are planted in succession plantings and it doesn't get too hot too soon. One of the most beautiful are the lillies. They

are beginning to bloom now and look great.

Remember...watch for problems and get them when they begin, not when it's too late. Onions, garlic, and shallots will begin to turn yellow; this means they are near maturing. Stop watering them to produce longer keeping bulbs, and let them cure for 1 month before you store them.

Optimum height for St. Augustine is 3". Set your mowers for that height. Well, this ought to keep you busy till next time.

SKIN CANCER RELATED TO LONG TERM SUN EXPOSURE

Basking in the summer sun may seem like a relaxing and healthy activity. But the Texas Medical Association says the long-term effects of too much sun include skin cancer.

There are three types of skin cancer: basal cell carcinoma, squamous cell carcinoma, and malignant melanoma. A chief cause of all three types seems to be years of exposure to strong sunlight.

In basal cell carcinoma, the most common type of skin cancer, cells just below the surface of the skin become cancerous, and a tumor develops and becomes ulcerated. The ulcer grows slowly as it destroys the tissue at its edges. Unlike many other malignant (life-threatening) growths, it does not spread to other parts of the body until it has been present a long time. A basal cell carcinoma can be removed in a number of ways, and all methods have a high success rate.

Squamous cell carcinoma is characterized by a firm, fleshy, hard-surfaced lump that develops and grows steadily. In some cases, it looks like a wart. In others, it looks like an ulcer, but the ulceration never heals completely. A squamous cell tumor usually appears on a place that is constantly exposed to sunlight, such as the lower lip, the ears, and the hands. Like basal cell carcinoma, this skin cancer usually can be treated successfully if it is detected early.

Malignant melanoma is the most serious of the three types of skin cancer because it often metastasizes, or spreads, throughout the body. In this form of skin cancer, a tumor develops from cells in a mole or sometimes from pigment cells in what looks like ordinary skin. The most common symptom is change in a mole present since childhood. When malignant melanoma is diagnosed,

treatment consists of removal of the melanoma along with a wide margin of nearby tissue. In addition, any nearby lymph glands may be removed, because the cancer can spread through them. In some cases, cytotoxic, or anticancer drugs also are given.

Although physicians can treat many skin cancers successfully, prevention is the wisest course. Limit your exposure to strong sunlight and use sunscreen or sunblock lotion with an SPF (Sun Protection Factor) rating of at least 10.

OBITUARY

Gregoria M. Castro, 86, entered into rest Saturday, May 30, 1987. She was a former Brackettville resident and the widow of Lorenzo Castro. Mrs. Castro had resided in San Antonio for the past 10 years. Survivors include: Sister, Mary Arconn of Colorado; Granddaughter, Irene Hudson; Grandson, Michael Talamantez both of San Antonio; Two (2) Great-grandchildren. A Rosary was recited at 7:00 p.m. Monday at the M.R. Rice Memorial Chapel. Funeral Mass was held at 2:00 p.m. Tuesday at St. Mary Magdalene Catholic Church, with the Rev. Alof Kaler of the Sacred Heart Church in Del Rio, celebrant. Interment was at Kinney County Cemetery under the direction of Rice Funeral Chapel.

SERVING

THE GREAT SOUTHWEST

VIDEO VIEWER

BY RORY WOODSON

Hi, sorry about last week! To make up for it, I'll review 4 films this week. (1) "Rain Maker" (2) "Raintree County" (3) "Purple Rain" (4) last but not least "Who'll Stop the Rain". Just kidding folks!

Seriously, this week I'll review "Heartbreak Ridge" and "Jumpin Jack Flash".

"Heartbreak Ridge" is about Gunnery Sergeant Tom Highway, who's whole life is the Marine Corp. He's a relic in the new modern Army. He's not quite sure how to handle his superior officers who are fresh out of West Point, and he himself has been through every conflict since the Korean War.

He's having a hard time dealing with the prospects of life without the Marine Corp as he is quickly reaching mandatory retirement.

Clint Eastwood does a good job acting and directing this film! It's really a good movie, I give it an 8.

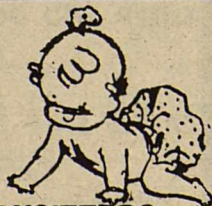

"Jumpin Jack Flash", is a very funny movie about a bank computer operator who one day gets a message from a James Bond type character asking for help in getting out of Russia or some place. I haven't seen "The Color Purple" yet, but if Whoopi Goldberg is half as good in a dramatic role as she is in a comedy roll, it will be a good move. I also give J.J. Flash an 8, it's well worth watching. Till next week, stay dry!

Tired of peeling carrots? Drop them into boiling water. Let stand five minutes then drop them in cold water. The skin should slip right off.

"THE NITTY
AND THE GRITTY"

BY JOE TOWNSEND

Two Chinese philosophers were once walking down the road when they came to a bridge over a small stream. They paused to look at the rippling flow of the water. They could see small fish swimming in the water. One philosopher turned to the other and said, "See the fish gaily swimming too and fro having a good time." The other philosopher replied, "You are not a fish, how do you know they are having a good time?". The first philosopher then replied, "You are not I, so how do you know that I do not know they are having a good time?".

Herein is some good teaching. I hear so many people say, "If I were he I would do thus and so." The honest reply is that if you were in his shoes you would likely do the same thing he does. We are overly presumptuous when we begin to want to make decisions for others. We are in an equally untenable position when we criticize others actions not knowing the full story behind the actions. Certainly all of us can see another's mistakes. Generally, however, we class as mistakes that which we would not do. What we do, right or wrong, we are prone to approve in another. That which we do not do we easily condemn another for doing. I am not you, therefore, I cannot know your motivation nor reasoning for what you do. You are not I, so you cannot know my motivation nor reasoning behind my actions. Not knowing these factors we should be most careful about criticizing the actions of another. Even when we know the action is patiently wrong we should take time to pause and reflect as to the whys of the action and be charitable in the matter. After all, if some in the world were not charitable to us, we would be in bad straits.

CRIPPLED CHILDREN'S
BENEFIT

There will be an all day Fajita Cook-Off held at the Kountry 'N on Hwy. 90 just West of Brackettville on Saturday, June 13, 1987.

The cook-off will benefit the Shriner's Crippled Children's Hospital and Burn Center. There

are several openings for booths at the site (no food booths permitted), at no cost. We ask that you pledge a percentage to the benefit. There will be drawings throughout the day for door prizes. Trophies will be awarded to the first 5 places for fajitas and chili.

Craft booths are invited with a small donation for the space. Everyone please come on out and support us in this effort to raise money for crippled and burned children.

POOL OPENS MONDAY

The Brackett Community Swimming Pool will open Monday, June 8. We will be open Monday thru Saturday from 11 a.m. - 7 p.m. The pool will be available at night for anyone wishing to use it for a party, at a reasonable fee. We will be open all summer, and will close just before school begins. A special thank-you to the Episcopal Church and all the other people who donate their time and money to keep our pool open and running for Brackett residents.

CEMETERY CLEAN-UP

There will be a general clean-up of the Catholic Cemetery June 7 - 20. Please have your graves and lots clean, as the Bishop from San Antonio will visit our cemetery June 24. Bring your tools and work anytime.

The Committee

"THE GLORY ROAD"

Saloon Girl, Rosetta Pingnot, from the 1986 production of "The Glory Road", set this year for June 26, 27 and July 3.

The Old Quarry Society for the Performing Arts has announced the completion of casting for this year's production of "The Glory Road". A story of Historical Fort Clark and Brackettville, the presentation will be June 26, 27 and July 3 at the Old Quarry Ampitheatre at Fort Clark Springs (Brackettville).

The following roles and cast are: Oralee, Debbie Ward; Lt. Tim Riley, Tim Ward; Silas Applegate, John Ward; Oscar B. Brackett, Harrell Floyd; Rancher, Ron Kelley; Little Oralee, Sarah Kelley; Sally Ann, Cherrise Ward; Mrs. Filipone, Lucille Schooler; Mrs. Quince, Doris Eckenroth; Mrs. Fritter, Jewel Robinson; Mrs. Ross, Joan Boutwell; Mrs. Jones, Iola Jones.

Also Col. D.C. Tompkins, Jack Taunt; Betty Lou, Betty Inman; Private Sempkins, Larry Moore; Col. Ranald S. MacKenzie, Frank Eckenroth; Lt. John L. Bullis, Clinton Brown; Annie Mae, Rosemary Rice; Zeke, Bob Rice; Capt. Patrick Cusack, Stoney Burks; Comanche Chief Yellow Wolf, Father David Zumaya; Col. George S. Patton, Warren Outlaw; Gen. Phillip Sheridan, Ray Kurtz; Gen. Jonathan Wainwright, Fred Brockwell; Samuel S. Maverick, Don Parks.

Judy Burks will be the Music Director and Kathy Conrey will be the accompanist.

The Southwest Texas Genealogical Society will hold its fourth Quarterly meeting in Las Moras Restaurant at Fort Clark Springs in Brackettville Saturday, June 6, from 10 am - 1 pm.

Principal speaker will be SWTGS member Miss Charles Emily Wilson, veteran educator and civic and religious leader in Brackettville, who will detail her role in preserving the heritage of her people, the half-remembered Seminole Indian Scouts of Southwest Texas.

Born on the Ft. Clark post in 1910 in Brackettville, Miss Wilson is a descendant of slaves who fled from their masters and of free men who uprooted their families, left their homes in Florida, went to Oklahoma, Mexico, and ultimately to Brackettville where they were scouts for the United States Cavalry, whose job was to rid Texas of hostile Indians and make the area safe for settlers. In return, the scouts were promised land and citizenship.

Because these Seminole scouts were expert fighters and trackers, they conquered the hostile Indians of Texas in approximately 15 years. Because the army had no further use for the scouts, they were disbanded in 1914. Unfortunately, the government refused to honor its promises to the Seminoles, and they were forced to leave their homes on the reservation.

As a result, some returned to Mexico or left for large cities, but Miss Wilson's parents, Rebecca July and Billie Crawford Wilson, were among the majority of Seminoles who decided to stay in Brackettville. Her father worked at the fort for the quartermaster and her mother served as cook in the homes of the officers.

Her maternal grandfather was Sampson July, and her maternal grandmother was a Creek Indian. Her paternal grandfather, Ben Wilson, came from Mexico to join the scouts. Ultimately, eight men from the July family and 16 Wilsons saw service as scouts.

According to Miss Wilson, "There were only 147 of Seminole Indian Scouts in Southwest Texas during their fewer than 50 years of service, yet they produced four Congressional Medal of Honor winners and compiled a record of bravery unequalled in the history of the cavalry."

After completing her elementary, junior high, and high school education in Brackettville, she

received her bachelor's degree from Tillotson College in Austin and her master's degree in education from Prarie View A&M University.

After teaching 43 years in Brackettville, Miss Wilson retired March 31, 1986.

Miss Wilson is a member of St. John Baptist Church, where she is Sunday School Superintendent, president of the Ladies' Mission, and a worker in all auxiliaries. She is also secretary-treasurer of the Seminole Indian Scout Cemetery Association, a member of the Kinney County Library Board, and a member of the Kinney County Historical Commission.

Following the meeting at Fort Clark Springs, a luncheon will be served by Las Moras Restaurant. There will be a luncheon charge of \$5.50 for members and \$6.50 for non-members. Reservations may be made with check payable to SWTGS and mailed to Nell Evins, Box 65, Batesville, Texas 78829.

Dues for SWTGS regular members are \$15 per year; Sponsors per year are \$25-\$99; Patrons are \$100. Additional information may be obtained by writing Southwest Texas Genealogical Society, P.O. Box 295, Uvalde, Texas 78802.

BARBEQUE & DANCE

As a fund-raiser the Babe Ruth Baseball League is having a barbecue-dance Friday, June 12th, with a minimum \$3.00 donation, \$1.50 for kids 12 and under. Please mark your calendar and join us to make this a successful year.

REWARD

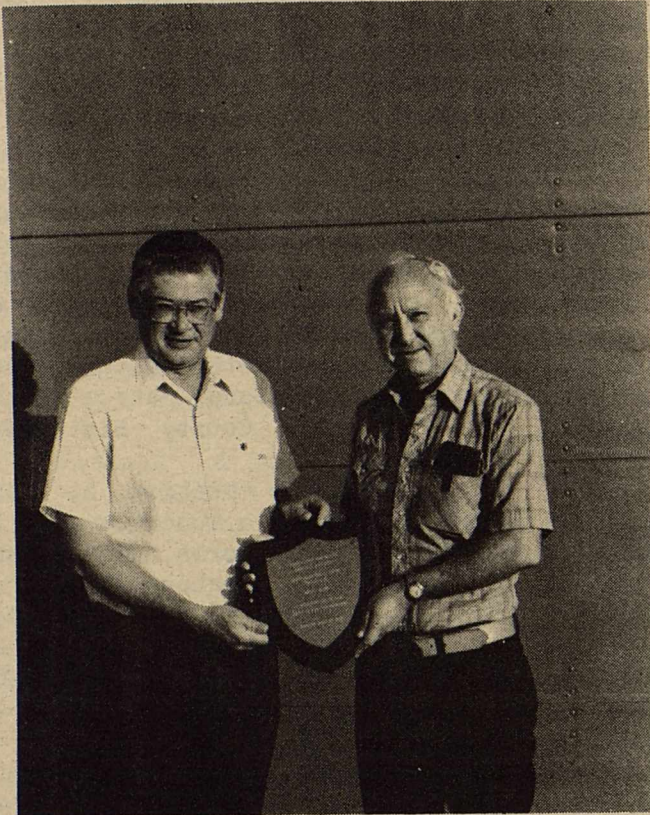

\$500 reward offered for information resulting in the arrest and conviction of the person or persons who vandalized the Masonic Cemetery during the Memorial Day weekend. Contact the Kinney County Sheriff's Department.

**CONGRATULATIONS
FROM THE KINNEY CAVALRYMAN**

HELPFUL HINTS FOR FLOOD VICTIMS

HOW TO SAVE FLOODED CARPET

Fast action can save flooded carpet. For carpet that hasn't begun to dry out very much, chances are good for salvage. If carpet has begun to dry, check for major problems before trying to save it.

Ideally, a professional carpet cleaner can ensure the least damage -- with cleaning, drying and stretching under controlled plant conditions.

However, if professional help is impossible, follow the steps below for looselaid carpet or rugs and for wall-to-wall carpeting.

REMEMBER: The most important factors are removing debris and dirty water and drying out the carpet as quickly as possible to prevent additional damage.

LOOSE-LAID CARPET, RUGS

First, take loose-laid carpets and rugs outside and put them on a flat surface, such as patio or concrete driveway.

Use a garden hose with a high pressure nozzle to flush out debris and dirty water.

Then use a carpet-cleaning solution to clean the carpet and remove more soil.

Next, place the rug or carpet **FACE DOWN** so any stain will "wick" (move) onto the back of the carpet -- rather than to the tips of the carpet surface yarns.

Dry the carpet as fast as possible. Even on a warm sunny day, speed up drying by using fans to blow air over the carpet.

Expect some shrinkage, but remember that rapid drying at least will help a carpet keep yarn strength.

Also in cases of minimal shrinkage, you can use power stretchers to restore carpet on its original size.

WALL-TO-WALL CARPET

Leave carpet **ON THE FLOOR** in the first stages of clean-up, if possible -- to prevent major shrinkage problems.

Major shrinkage can occur during drying -- when wall-to-wall carpet is removed from its tacking strips.

Start the clean-up by removing as much water as possible. Use a water vacuum -- or the vacuum on a hot-water extraction unit.

Both machines are usually available from rental companies. In suctioning water, do not try to use home-type vacuum cleaners designed for routine household dry

dirt and dust removal. Electrical shock can be the result.

After water is removed from the carpet surface, check for water in the pad or the underlayment.

To do that, press down hard on the carpet. If more water comes to the surface, the pad needs further checking.

Lift a portion of the carpet and check as much of the pad as you can.

If the pad seems wet throughout, both carpet and pad must be removed -- to permit carpet, pad and flooring to dry out.

Prolonged moisture on any type of wood flooring will result in buckling and other serious damage.

If the pad seems only somewhat wet, you can remove that moisture by blowing air between the carpet and the pad.

For this, remove the carpet from tacking strips at one corner and use a vacuum cleaner exhaust to blow air under the carpet -- or use a portable hair dryer or fan.

APPLIANCES

Do not use major appliances until checked by a serviceman. Unplug all electrical appliances, including lamps, etc. and do not replug until checked by serviceman.

Wall sockets may need to be opened and cleaned out - turn off electricity first.

Discard and replace fabric electric cords. Rubber electric cords can be used after damage is repaired and cords are completely dry.

BEDDINGS

Interspring mattress - cleaned by commercial renovating companies - call a dry cleaner to find the name of a company. If the mattress is soaked, it may be less expensive to buy a new one.

BLANKETS, PILLOWS AND SHEETS

Rinse to remove as much mud as possible. First wash in cold water then in warm suds and disinfectant. (Do not wash in hot water - could make stains permanent). Repeated washing in warm sudsy water may be required.

CLOTHING

Rinse to remove as much mud as possible. First wash in cold then in warm suds and disinfectant.

Disinfecting products:

Chlorine Bleach - as disinfectant if fabric permits - 1 cup in washer - dilute in water before adding clothes. Do not use on wool and

silk.

Pine Sol - use 1 cup in washing machine.

Roccal - commercial disinfectant safe for most fabrics even wools and silks.

Zephrein - commercial disinfectant safe for most fabrics even wool and silks. Use 2 tablespoons per load in top loading washing machine.

Clothes may be dry cleaned - after dried slowly at room temperatures. Tell dry cleaner the source of stain.

BOOKS AND PAPERS

1) Open and partially dry
2) Sprinkle partially dry books with cornstarch or talcum powder to absorb moisture.

3) Weigh to straighten pages
4) Alternate opening and weighing until thoroughly dry to prevent pages from sticking together

5) When nearly dry can apply low heat to pages with an electric iron
X-14 fungicide may be sprayed on pages to retard mold. (Available at supermarkets). Book will continue to deteriorate after drying because of flood water.

FURNITURE

Depend on the extend of damage and value of furniture.

-Antiques are generally worth the time and effort.

-Clean, dry and reglue solid wood furniture. Veneer furniture may not be worth regluing.

-Remove drawers, sides or any moveable parts carefully!

Clean off mud and dry slowly - not in direct sunlight.

when dry reglue and clamp. It may be necessary to consult a professional carpenter.

-For white water marks - wipe with soft cloth and turpentine or camphorated oil or solution of 1/2 cup ammonia and 1/2 cup water. Wipe dry and polish with furniture polish.

If not successful - use 000 steel wool and boiled linseed oil or mineral oil - rub with the grain, wipe dry with soft cloth and wax.

For deeper stains use ammonia on a damp cloth or cigarette ashes rubbed with the grain.

Upholstered furniture - ventilate! Clean and dry. May need re-upholstering and padding.

Flooding in the area of the Slubar Insurance Agency and the Kinney Cavalryman office located on Spring street.

Fort Clark Spring's bridge crossing Los Moras Creek. Water level rose to the top of this bridge.

Fire Department rescued people trapped by high flood water.

Civic Center flooded.

CONT'D FROM PG 1

Brackettville and Fort Clark Springs had not seen flooding like this in 30 years. About that long ago dams were built north of Brackettville and we thought that we would not have any more floods. Well, back to the drawing board.

The American Red Cross is here and anyone needing assistant should go to the Civic Center from 8 a.m. to 5 p.m. for help. What a wonderful thing we have to have friends like The American Red Cross people. Their help here in Brackettville is very much appreciated by all.

The wettest atmosphere on the planet Mars, found in the far north during the summer is more than 100 times drier than the air we breathe on Earth.

Groups that work to save children's lives, or protect Americans of all ages are among the dozens of vital charities supported by a special organization.

These charities include: The National Easter Seal Society, the Muscular Dystrophy Association, United Cerebral Palsy, Franklin Square Hospital, United Way, and the National Guard. The organization that supports them all is the International Brotherhood of Teamsters.

That group's total contributions increased 44 percent in three years, soaring from about a million and a half in 1983 to well over two million by 1985.

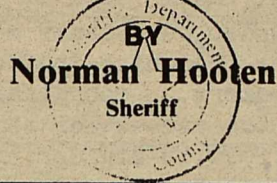

The latest three-year donation total is over \$5 million.

Teamsters General President Jackie Presser meets with Jamie, Easter Seals 1986 Poster Child at IBT Headquarters in Washington D.C.

For more than eight decades, the union has been responsive to the needs of others. Nearly two million members strong, it's this nation's biggest union. It prefers to think of itself, however, as the union with the biggest heart.

SHERIFF'S CORNER

The week-end of May 30-31, 1987 will be remembered by Kinney County residents for many years to come due to the heavy rains, electrical storms, and flooding in low lying areas of Brackettville and Ft. Clark.

The already saturated ground in our area just couldn't hold any more water and when it rained all night Saturday and then when another 5 1/2 to 6 inches fell in a little over an hour Sunday morning serious problems developed.

High winds and heavy rains tore off roofs and blew down trees and the dry streambeds and Las Moras Creek just couldn't hold all the water than came rushing in.

Downtown Brackettville and parts of Ft. Clark along Las Moras Creek were flooded with reports of water rising as high as 3 to 5 feet in some houses. Highway 90 between the Buckhorn Saloon and Bizzell Construction was flooded and closed for over an hour and we finally opened one lane to traffic to clear out the congested roadway.

The flooding stranded many residents who were trapped by fast rising water and we are extremely grateful for the assistance of the Volunteer Fire Dept., the local Border Patrol, Highway Patrol, Game Warden, and other too numerous to list in rescuing the trapped residents and moving them to safe places and traffic control. Members of the Highway Department were very helpful in scouting out flooded areas in the county and assisting motorists.

Emergency conditions had settled down and were under control by 2:00 p.m. and we then received a call reporting stranded motorists on Tularosa Road in northern Kinney County. We enlisted the assistance of Vernon Miers and Terry Fisher of Southwestern Communications who brought a small boat to the scene and helped us make several trips back and forth across the deep, swift-running water ferrying the two girls and their clothing to safety on the East side of the draw. The two girls had been on their way into Brackettville from their ranch home on the Silver Lake Ranch to meet their brother who was going to take them to San Angelo

where they will be attending college when they became trapped between two flooded dry creek beds and couldn't go on nor could they return home. Grace Hernandez and her sister were very grateful for the assistance as it would have taken several hours for the floodwaters to recede enough for them to pass. Grace's sister clung tightly to her Teddy Bear as we transported her in the boat over the deep, swift flood waters.

We had just completed that rescue operation when we received a call reporting a vehicle had been washed off the road at Pinto Creek Draw north of Brackettville on the Rocksprings Road (Hwy. 674). Upon our arrival there we found that the pickup truck had been washed down the arroyo approx. 50 yards by the deep, fast-moving floodwaters and was submerged with only the top showing. Vernon Miers and Terry Fisher had followed us to the scene with the boat and we were further assisted by County Attorney Tully Shahan. We finally determined that no one was in the vehicle and it was locked so we assumed (correctly) that the occupants had gotten out safely. This was confirmed a short time later when we talked with motorists stranded on the north side of the draw. They had seen and talked with the driver of the vehicle who had caught a ride back to the Leona Ranch after the pickup stalled in high water. It will be several days before the vehicle can be removed from it's resting place in the draw.

Victims of the flooding will spend quite some time and money in clean-up operations as many of them suffered water damage to interiors and furniture in their homes.

All this just proves that "You can't mess with Mother Nature"!

May 28, 1987

Honorable Sheriff Hooten,

Please see the attached flyer..... Would you ask a local newspaper to run this information. We have done so here in Young County. We must stop this attempt to turn America into another Atheist Country. Your help will be a stand against all the corruption we in Law-Enforcement see.

Yours truly,

Ed Shields
Sheriff

Madelyn Murray O'Hair, an atheist whose efforts successfully eliminated the use of Bible reading and prayer from all public schools fifteen years ago, has been granted a Federal hearing in Washington, D.C. on the subject (F.C.C. The Petition, R.M. #2493) which would ultimately pave the way to stop the reading of the Gospel on the airways of America. She took her petition with 27,000 signatures to back her stand.

If her attempt is successful (as her last one was), then all Sunday Worship Services being broadcast either by radio or television will be stopped. Many elderly people and shut-ins, as well as those recuperating from hospitalization or illness, depend on radio or television to fulfill their worship needs every week.

Madelyn is also campaigning to remove all Christmas programs, Christmas songs and carols from public schools.

YOU can help this time. We need one million (1,000,000) signed letters. This should defeat Mrs. O'Hair by showing that there are still many Christians alive, well, and concerned in our country. This petition is #2493. Sign, cut out and mail the form below. Please do not sign as Mr. and Mrs., but sign individually. Let each adult sign one separately and send it in. Be sure to put Petition #2493 on the lower left-hand corner of the

WEATHER RULES FOR SAFE BOATING

by Larry Peabody
National Weather Service

It's summer. For millions of Americans, and thousands of Texans, this means boating.

Many who go out on the water in small craft do so for the first time, and inexperienced skippers suddenly learn that responsibility for safe operations goes along with the fun of running a boat.

So before setting out:

Obtain the latest available weather forecasts for the boating area. Where they can be received, the NOAA Weather Radio /NWR/ continuous broadcasts (VHF-FM) are the best way to keep informed of expected weather and sea conditions. If you hear on the radio that warnings are in effect, or see flags or lights at warning display stations, don't venture out on the water unless you are confident your boat can be navigated safely under forecast conditions of wind and sea.

While afloat:

1. Keep a weather eye out for: the approach of dark, threatening clouds which may foretell a squall or thunderstorm; any steady increase in wind or sea; any increase in wind velocity opposite in direction to a strong tidal current. A dangerous rip tide condition may form steep waves capable of broaching or capsizing a boat.
2. Check radio weather broadcasts for latest forecasts and warnings.
3. Heavy static on your AM radio may be an indication of nearby thunderstorm activity.
4. If a thunderstorm catches you

while afloat, you should remember that not only gusty winds but also lightning poses a threat to safety.

- Keep below deck if possible.
- Keep away from metal objects that are not grounded to the boat's protection system.
- Don't touch more than one grounded object at the same time (or you may become a shortcut for electrical surges passing through the protection system).
- Put on a life jacket and prepare for rough sea conditions (by the way, you and your entire crew should be wearing flotation devices anytime you are afloat, not just when weather threatens).

June 7 through 13, 1987, has been proclaimed National Safe Boating Week. In recognition of Safe Boating Week, and to promote safe boating the year round, the National Oceanic and Atmospheric Administration/NOAA/ and National Weather Service, along with the Sea Grant College Program, the National Safety Council, the Texas Safety Association, and the U.S. Coast Guard, offers boaters and marina operators several useful brochures to assist in preparing and protecting boats against severe weather.

To obtain one or more of these safety brochures, along with a listing of NOAA Weather Radio stations and frequencies in Texas and around the Gulf of Mexico, contact the National Weather Service office or Marine Advisory Service Extension Agent nearest you. Additional information may be obtained from the Texas Safety Association and U.S. Coast Guard. Or write or call the Marine Special Programs Meteorologist, National Weather Service Forecast Office, 830 NE Loop 410, Suite 300, San Antonio, Texas 78209, 512/822-1132.

Safe boating is no accident, it is a habit. Make this week, and every week, Safe Boating Week.

SARAGOSA VICTIMS TO RECEIVE DONATIONS

DEALERS TO DONATE CARS AND
TRUCKS TO SARAGOSA VICTIMS

AUSTIN, Texas--Members of the Texas Automobile Dealers Association are donating more than 60 used cars and trucks to Saragosa, Texas residents to replace those vehicles destroyed by a killer tornado a week ago.

Also, three Texas motor transport companies -- Texas Auto Carrier of San Antonio and T.J. Max Inc. and

Auto Convoy both of Dallas -- are transporting many of the vehicles at no cost.

TADA, which represents more than 1,400 Texas franchised new car and truck dealers, coordinated the effort at the request of state Rep. Larry Don Shaw, D-Big Spring, whose district includes Saragosa.

"Every human has some basic needs that must be met -- clothing, shelter, food and transportation," said TADA President Gene Fondren. "There has been tremendous support from the rest of the state -- from the rest of the country as well -- and many of Saragosa's food, clothing and shelter needs are being met. But without transportation, they cannot drive to relief shelters, they cannot find new jobs, their attempts to rebuild their lives are seriously hampered."

The transfer of vehicles will begin within the next few days and they will be distributed by the drawing of lots. Some of the vehicles are going to Saragosa from as far away as East Texas.

The killer tornado that flattened the West Texas town May 22 left Saragosa residents with virtually nothing but the clothes they were wearing when the storm hit.

TROPICAL SNO' CONTEST

AS YOU KNOW TROPICAL SNO IS HAVING A CONTEST. IT STARTED MAY 21, 1987 AND WILL END ON JULY 21, 1987. HERES HOW IT CAME ABOUT ALL THE TEEN'S KEPT ASKING WHO WAS EATING THE MOST SNO'S. SO WE DECIDED WE WOULD FIND OUT IN THE FORM OF A CONTEST.

HERES OUR RULES

1. MUST BE AGE 13 TO 19
2. MUST ENTER IN PERSON AT TROPICAL SNO
3. ONLY SNO'S EATIN BY CONTESTANTS WILL BE COUNTED

THEN ON JULY 21ST. WE WILL GIVE OUR WINNER'S A TROPICAL SNO T SHIRT VISOR OR CAP, BUMPER STICKER AND BEST OF ALL 5 FREE SNO'S. THIS WEEK SHERI WHITE AND MIKE BRODERICK ARE FILLING UP ON THOSE DELICIOUS SNO'S. WHO WILL BE IN THE LEAD NEXT WEEK? TUNE IN AND FIND OUT! TS - YOUR GONNA LOVE IT!

RICHARD STEIN

563-2550 278-3631
AFTER 5:00 P.M.

...Continued from last week

The Chuck Wagon was very well equipped and carried a tent which could sleep sixteen men at a time. The cooks stove was built to order at a cost of thirty-six dollars with a elongated stove pipe that was used in the tent where the men cooked, ate and slept in rainy weather or when a blue northern blew up.

The food was good, even on the range, not just sow-belly and beans. A typical meal might be beef steaks, sourdough biscuits, gravy, can corn and vinegar pie.

Nelson Morris raised his own Percheron freight horses and sold some on the market. Four or six of these horses pulled his freight wagons on periodical trips to Midland for supplies. He also bred and sold mules.

His Angus cattle were raised on the "C" until they were yearlings, then shipped to his ranches in the Dakotas where they were kept until they were three years old and ready for slaughter. Then they were

shipped to one of his five packing plants.

This part of the country was still wild. The Willow Springs massacre of an ambushed wagon train had happened near here in 1883.

When Morris built his headquarters on his Chicago ranch he built near a spring and a lake which was called Baird Lake, so named for a Captain Baird who was killed by Indians about the year 1862. In 1928, Ladd Callahan in his eighties told the following story about Captain Baird.

Captain Baird was in command of a small party of soldiers on patrol. He had hired a young man named Ladd Callahan as scout because Callahan was familiar with the country. When the troopers were near the lake, Captain Ladd saw a lone Indian on horseback and gave chase, while the troopers and scout hung back to watch. When the Indian realized the captain would catch him he took off his moccasins and set them in plain sight in the trail and dismounting, dove into a buffalo wallow and kept under cover. When Captain Baird dismounted to examine the moccasins, the Indian ambushed him, killing him with one shot. Captain Baird was buried near the lake and after scouting around, the troopers went back to Big Spring, because it was found there were three or four hundred Indians camped at the nearby spring, where the present headquarters of the "C" Ranch now stands. The odds were just too overpowering.

In "A Forgotten Empire of the Pecos", Paul Patterson tells about a big cattle deal that had to do with the Chicago Ranch. The "TX" Ranch which was located on the Pecos near Horsehead Crossing sold 5,000 head of cattle to the "C". Usually the buyers made the delivery in a deal but this time the "TX" delivered the cattle to the railroad in Midland. The cattle were bunched together below the rimrock of what is now called King Mountain. They started trailing about one o'clock in the afternoon. It was such a large herd to move, they didn't stop but went on through the night, arriving at Warfield halfway between Midland and Odessa, where they rested, and moved into the shipping pens in Midland the next day, where they were shipped to the Morris Packing Plant in Chicago. The cattle followed a lantern hung on the tail end of the chuck wagon through the night drive.

Bert Rosenbaum of Indiana as a young man bought a ticket on the Homeseekers train to Pecos, Texas in 1907. On the trains he met two young fellows who were on their way

to the "C" Ranch to visit the general manager. The three boys became friends and persuaded Rosenbaum to stop off in Midland with them and go to the "C" Ranch. When the trains stopped in Midland the boys went up town where they bummed a ride on the Chicago Ranch freight wagon which was preparing to take some supplies to the headquarters. When the two lads returned to the east, Bert Rosenbaum stayed on at the ranch. Morris had died in August, a few months before Rosenbaum came to the "C".

Without the information so graciously given by Clint Newlin and Bert Rosenbaum, Nelson Morris would have remained just a biography in a book, instead of a kind, warm and honest personality.

Although Nels Morris was a moneyed man throughout his life, he kept his simplicity of character. He didn't like his name publicly connected with his numerous worthwhile charities, but he gave his name to the Nelson Institute of Pathological Research, which he established. He died in Chicago, August, 1907.

FACTS FROM OUR COUNTY JUDGE

Dear Fellow Citizens,

In my capacity as Kinney county financial officer, I believe that taxpayers of our county are most interested in where our county income comes from, and where it goes. This is public information and can be accurately obtained from the county auditor.

In the immediate future, budget requests for the fiscal year October 1st, 1987-September 30th, 1988 will be reviewed and considered by the commissioners and myself. There will be numerous other items budgeted from the general fund, including insurance, autopsy fund, and indigents burial fund that will make up our overall anticipated budgeted disbursements, and must be offset by estimated budgeted receipts. The current (1986-87) fiscal budget plus budget amendments and the shortages we will have in estimated budgeted receipts will leave us with only a small cash reserve.

This is of grave concern to the commissioners and to me. A lot of belt tightening must be done to comply with the state law mandating a balanced budget, while everyone seems to want a little more.

I am providing some data below for those interested reflecting the countys allocation for its part paid the Kinney County Tax Appraisal Board, as well as the county taxes received and the rate per \$100.00 value for the past five years, as well as the current and proposed 1987-88 fiscal years.

The county budgeted \$36,841.60 for its part for the 86-87 year, which was amended in the amount of \$5,545.47 for a down payment to purchase an in-house computer, totaling \$42,387.07 for this year.

The Tax Appraisal Districts new budget request is for \$44,241.00, and for all the entities is for \$104,674.00, an increase of \$19,200.00

Fiscal yr.	Rate	Taxes collected	Co.Apprsl/coll.cost
1981-82	.57	366,753.49	\$30,989.82
1982-83	.65	417,738.90	31,549.74
1983-84	.65	440,890.34	35,846.00
1984-85	.65	502,055.16	30,388.96
1985-86	.61 1/2	477,294.40	45,815.92
1986-87	.55	409,281.60(to 5/1)	42,659.91
1987-88	-?-	none to date	44,241.00

As you can see, we are looking at a lot of budget trimming and/or raising of taxes. We will be working toward a balanced budget for you.

Yours sincerely,

Tommy Seargeant
Kinney County Judge

ROTARY SCHOLARSHIPS TO BE AWARDED

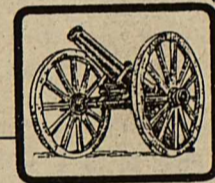

The Brackettville Rotary Club and Rotary District 584 will be accepting applications for Rotary Foundation Scholarships until July 15, 1987, according to David Trent of Del Rio, Chairman of the District Rotary Foundation Committee.

These scholarships, which pay all expenses for a year's study in a foreign country, will help eligible students abroad for the 1988-89 academic year.

The five types of awards to be given this year are: Graduate Scholarships; Undergraduate Scholarships; Vocational Scholarships; Teacher of the Handicapped Scholarships and Journalism Scholarship.

We're your independent, hometown bank, here to serve your needs.

FIRST STATE BANK
OF BRACKETTVILLE

MEMBER F.D.I.C

563-2451

The requirements for each of these awards are as follows:

GRADUATE SCHOLARSHIPS: Bachelor's degree or equivalent prior to commencement of award studies. Students, single or married between the ages of 18 to 24 are eligible.

UNDERGRADUATE SCHOLARSHIPS: Completion of two years undergraduate study before commencement of award studies. Single students between the ages of 18 and 24 are eligible.

VOCATIONAL SCHOLARSHIP: Secondary school graduate or equivalent at time of application. At least two years work experience required. Applicants must be between the ages of 21 and 50 and may be married.

TEACHER OF THE HANDICAPPED SCHOLARSHIPS: Secondary school graduate or equivalent with at least two years experience teaching the handicapped. Applicants may be between the ages of 21 and 50 and may be married.

JOURNALISM SCHOLARSHIP: Secondary school graduate with two years full time experience as a journalist. Applicants must be between the ages of 21 and 50 and may be married.

Anyone interested in any of these awards may contact Richard Mountain, secretary of the club at 563-9248.
