## Cancer Society Allots Funds to Texas Projects

HOUSTON — Twenty cancer control projects in Texas—tumor clinics, information centers, and professional service groups—have just received appropriations totaling \$118,123.73, from funds raised in the Texas Cancer Crusade.

Budgets for the 20 projects have been approved by the Committee on Projects and Allocations of Funds of the American Cancer Society, Texas Division, and recipients of the funds are being notified this week by state headquarters of the Society in Houston.

"The Society's biggest test has been to figure out how to make the \$390,000 raised so far in the 1950 Texas Cancer Crusade line up with budget needs amounting to \$500,000," Dr. William F. Mengert of Dallas, Committee Chairman said. "One-fourth of all Cancer Society funds goes into research into causes and all possible cures of the disease. Money is constantly needed, too, for various services to cancer patients. Since early diagnosis is imperative for recovery from cancer, cancer education for the public and for doctors takes an increasing amount each year. All in all, our budget committees are hard pressed to make the necessary cuts.

"Members of this committee view it as a healthy sign of progress and future planning that requests outstrip available funds, but they're quick to admit that its not easy to apply the pruning knife to so many projects vitally needed to effectively control cancer in our state," Dr. Mengert concluded.

The Committee approved the following budgets for projects requested by local units, including in the 1950-51 appropriations the unexpended balances of the

current year: Tarrant County Information Center Fort Worth, \$12,340; El Paso County Medical Society Tumor Clinic, El Paso, \$6,000; Harris County Information Center, Houston, \$14,520.53; Nueces County Medical Society Tumor Clinic, Corpus Christi, \$3,520; Bowie - Miller Counties Medical Society Tumor Clinic, Texarkana, \$3,571; Tumor Clinic, Jefferson Davis Hospital, Houston, \$3,600; Professional education work by the San Antonio Society of Pathologists, San Antonio, \$500; State-wide tumor registry and survey by M. D. Anderson Hospital for Cancer Research, Houston, \$12,000; Nix Diagnostic Clinic, San Antonio, \$4,961.70; Potter County Information Center and Clinic, Amarillo, \$7,268; El Paso County Information Center, El Paso, \$6,365; Tumor Clinic at Parkland Hospital, Dallas, \$4,860; Dept. of Biophysics, Southwestern Medical School of the University of Texas, Dallas, \$9,000; Tom Green County Information Center, San Angelo, \$4,165; Galveston County Information Center and Galveston Tumor Clinic, John Sealy Hospital, \$5,862.50; Dallas County Information Center, Dallas, \$9,780; Bexar County Information Center, San Antonio, \$5,700; and the Travis County Medical Society Tumor Clinic and Information Center, Austin, \$4,110.

## PUBLIC EMPLOYMENT UP 525 PERCENT

In 1900 about one million persons were employed by the Federal, state and local governments combined. The 1950 figure exceeds 6,250,000, according to the National Industrial Conference Board. The nation's governmental parolls today total \$22,000,000,000.

Your gift to the Cancer Crusade will help the American Cancer Society reduce cancer deaths.

## Our Washington Newsletter

By Congressman O. C. Fisher  
THE PRESIDENT'S MESSAGE was the big news on Capitol Hill last week. It was followed quickly by bills to lift the ceiling on the number of men who compose the armed forces and steps were taken to put the nation on what has been called a "limited" war footing.

The best guess around here is that about 100,000 men will be required to chase the commies out of South Korea and that it will be September before a real counter offensive can be launched. Thus far our delaying action tactics have been carried out with less than two divisions, whereas the invaders swooped down with a total of nine divisions, well trained, seasoned and mechanized. Outnumbered 10-to-1, our troops have suffered but have performed with gallantry and heroism.

The North Korean army includes and estimated 70,000 veterans of the China war—Koreans who were in Manchuria and who went into the Chinese communist forces. And about 150 modern 34-ton Russian tanks spearheaded the drive. The Joseph Stalin tank—the largest of all—has not been used much. In fact only one of them has been in action. At least two others are known to be standing by.

The new super bazooka, capable of stopping any of these tanks, was flown to Korea three weeks after the invasion began. Many people have wondered why those bazookas were not readily available to meet the Reds when they crossed the 38th parallel. The fact is this new weapon is brand new. It was still in the testing stage, and the very first ones released by the factory were promptly flown to the war front. There they have proven very effective.

OUR CENTRAL INTELLIGENCE agency has been sharply criticized for its reported failure to report the pending invasion before it occurred. Actually, much of that criticism has been unjustified. CIA warnings had been very accurate so far as North Korean preparations were concerned. Accurate details of the massing of troops by the commies, the number of Russian tanks, the evacuation of civilians along the 38th parallel, the construction of military roads to the border, were made. Admiral Roscoe Hillenkoetter, director of the CIA, the other day furnished our committee with detailed reports of what his service had done, and the reports and warnings of the pending invasion were detailed and accurate.

The trouble was, our policy in Korea has in the past been indefinite and ill-considered. Only a few months ago it was announced around the world that neither Formosa nor Korea were considered essential for American defense and security. More than a year ago we pulled our troops out of Korea, and left the natives practically unarmed and unprepared for any invasion from the north.

And, despite that, American economic aid was continued for Korea. Now we know that the economic assistance there was a mistake without at the same time committing substantial military support. Many of us in Congress felt that to pour economic help into South Korea, without any assurance of military protection, was waste and folly. Now everyone knows that position was correct.

AS WE MOVE TOWARD A

new era of peacetime preparedness, it is important to keep in mind that this is not being done just to drive the Reds out of Korea. There are other trouble spots, and only the Kremlin knows where another war of the Korean type may break out around the world. The general belief here seems to be that Russia does not want show-down war with us at this time, but is prepared for several small wars to be fought by satellites.

Right now Greece is menaced by a concentration of the old Communist guerilla armies across the frontier in Bulgaria. Iran, with its oil riches, faces huge Russian armies across the border, but internal rebellion is not believed likely. Tito's Yugoslavia is ready for anything to happen. For weeks masses of communist troops and tanks have been focused on the Yugoslav border. And in the Far East Indo-China is on the brink of communist attack any time. Except for American intervention, it is believed Formosa would already be under invasion by the Chinese Communist armies.

SO, IT CAN BE EASILY SEEN that if Russia had been permitted to have her way in Korea—if the U. S. hadn't reversed its positions and intervened with military assistance, the Korean incident would have been but the beginning of a series of wars. Others may concur anyhow, but they will hesitate more now that Uncle Sam has got his dander up. The best insurance for peace is preparedness. It's the only language the dictators understand.

## Announces Civil Service Examination

"The Civil Service Commission announces an examination for filling vacancies in the position of Wage-Hour Investigator at the entrance salary of \$3825, per annum. Employment will be with the Wage and Hour and Public Contracts Division, Department of Labor, in the states of Arkansas, Louisiana, New Mexico, Oklahoma and Texas. Application forms and additional information may be obtained from the post office; the Executive Secretary, Board of U. S. Civil Service Examiners, Department of Labor, Wage and Hour and Public Contracts Divisions, 1114 Commerce Street, Dallas, Texas; or the Regional Director from the following U. S. Civil Service Regions:

Ninth U. S. Civil Service Region, New Federal Bldg., St. Louis 1, Mo. Tenth U. S. Civil Service Region, Federal Office Bldg., 610 South St. New Orleans 12, Louisiana; Thirteenth U. S. Civil Service Region, New Customhouse Bldg., Denver 2, Colo.; Fourteenth U. S. Civil Service Region, 212 South Harwood St., Dallas 1, Texas."

## ABSENT AT THE WRONG TIME

Less than half of the 435 members of the U. S. House of Representatives were present to vote on the large majority of motions connected with the 1951 General Appropriation Bill when it was before the House this Spring. Sometimes as few as one-seventh of the members voted. One amendment to increase a pork-barrel item carried by a vote of 32 to 29. A motion to cut the RFC appropriation lost 69 to 65. Of 35 motions to cut appropriations, only 10 carried. A majority of the remaining 25 lost out by less than 20 votes.

## Mental Meanderings

The continued push and successes of the North Korean armies (the Communists) stems from two sources: first, preparedness with the biggest and the best in arms, and, secondly, taking every advantage of the unpreparedness of its enemies and the allies. Seems as if some peoples, and that means us, never learn.

One of the surprises of the present war is the manner in which the North Koreans have been able to keep their big tanks going even with all the concentrated drive and fury of the U. S. aircraft and big bombers. The presumption is that the Reds carried much of their needed fuel and supplies in their first push when the South Koreans had no air cover. Be as it may, the enemy can not hold out long with such air pounding of their supply lines. Or can they?

The scare buying of people in these United States is something that is giving the government and many of the cooler heads something to worry about. Hoarding of sugar and some foodstuffs have reached such proportions as to pose a grave threat to non-rationing, and with the prospect that controls will soon be needed.

Like everything else, continued hot weather has brought not only a lion's share of warm, or rather torrid, weather and a multitude of insects of all types and sizes and shapes. The most notorious of course are the mosquitoes and flies. Secondly are ants and small spiders. Fogging helps some, sanitation aids a lot, but self-help completes the job. And make no mistake about it—this is a job that's never done.

Make no mistake about it—we are in for higher taxes in this great country of ours. The plan is now to pay for the Korean war as we go along, and that is where the taxes come in. No reduction in excise and luxury taxes (possibly an increase), an upping of income taxes, and levying of some new ones. But nary a word about cutting down on non-essential governmental expenditures. At least, that is, until after the general elections are over in November.

In the Chicago zoo recently there was tossed a bushel of the herb catnip. It seemed to have a strange effect on the big members of the cat family, much as it does on the smaller cats themselves. Three big lions acted like silly cats with foolish antics, and a big leopard seemed to weave about dreamily as if hypnotized. It is presumed that no one has tried it on humans, but that would be a waste of time, as we humans already have about as much dangerous stuff along these lines than to fool with such a think as catnip.

Don't forget—our enemy polio! The Parkland Hospital in Dallas recently received its smallest and youngest patient for treatment of polio. It was a three weeks old boy.

The first Democratic Primary ever held in Kinney County in which County and precinct officers took part is now past history. In many ways it was a successful one. While not all of the candidates at first favored the primary, nor were they all one single ticket, all went along in order to start the Primary in this county.

With the war on over in Korea, conditions over here in this county continue as usual. It is not an unusual event to pick up a daily newspaper and see where several persons got killed in traffic accidents, at home, in the air, on the ground. Wherever people are, they get themselves killed. And at a rate faster than occurs in wartime. Seems there is no end to the manner in which a person can be induced to leave this old earth. Some ways are really terrible, others almost painless. The casualty lists on the home front continue to top those of the battle fronts.

The sense of humor that some people have! In a recent tabloid we found three fine specimens of sordid humor. In one a young wife came home to find her husband, with whom she had quarreled, absent. Investigating she found a "farewell" note, and also found, behind a curtain, a rope and beneath it a pair of shoes hanging off the floor; the police found the "live" corpse sleeping and hauled him off to jail. In another, a youth with one of those rubber masks which fit over the head, frightened a number of people near a cemetery until he met a cop who wouldn't scare. In the third, a youth was fixing up an electrified door knob hooked up to the heavy current; the joke was on him, and permanent.

The second primary takes place on August 26th. There are very few candidates on hand in the runoff then, but they will be worth voting for. Anyway, it will help you practice voting once more.

It is gratifying to note that the big dome on the court house will not have to be taken down as first feared. It can be repaired.

We take it for granted that liberty is our heritage, our right. Don't forget it was not given, but earned and kept by the nation's people Blood!

Not belittling but it seemed to us that the United Nations was going to let the United States take the burden of fighting the Reds in Korea. Little Siam started the ball rolling, and incidentally shamed the others into sending token forces.

Now they tell us that your personality does not differ any when you are asleep than when you are awake. That's some deducing. We always had the idea that even a mean personality could be "good" when he is asleep.

They say, do some scientists, that some wish are good earthquake indicators. That's a good item to remember, just in case, just in case.

Read a recipe for "raised doughnuts" the other day. In a daily paper. The columnist declared they were just too, too—! Well, out of curiosity, we read it. No wonder they were different! The recipe called for, among the other necessary ingredients, two teaspoonsfuls of whiskey!

And then you can buy a lawn mower which operates itself and can be run from a distance (preferably from a hammock under a shady tree) by radio control. No, it can't rock the hammock and fan you, too.

You can aid the American Cancer Society by mailing your gift to CANCER, care of your local post office.

## New Appliances

If you need a new Electrical appliance now is the time to Buy It!

We have in stock some fine Appliances, Electric Stoves, Refrigerators, Washers, Ironers, Percolators, Irons, Etc.

A LITTLE OF EVERYTHING

# Star Dust

STAGE SCREEN RADIO

By INEZ GERHARD

MICHAEL RABIN, 14-year-old violinist, will probably make August 10th a day to remember, when he makes his network debut on The Telephone Hour. Rodzinski, directing the Havana Philharmonic when Rabin made his world debut last April, said "He is marvelous, fantastic. He has a tremendous future!" Jascha Heifetz and other

MICHAEL RABIN

famed musicians have also advised and encouraged this young genius. Not that Michael thinks of himself as one; his bicycle is one of his most prized possessions, he likes to swim and collect stamps and playing pong, looks forward to having a car. That he may be one of the world's greatest violinists is no concern of his.

Male stars who've felt smug about the two hours' make-up and hairdressing the girls require should be warned by what happened to Mel Ferrer. The star of Robert Rossen's "The Brave Bulls" for Columbia, needed a full two hours and 15 minutes each time he dressed in the matador's costume for bullfighting scenes—with four aides assisting him.

The U. S. State Department has endorsed the Walter Huston Memorial International Scholarship now being set up to finance the education of two English speaking students from Trikkala, Greece, at the University of Arizona.

Fibber McGehee and Molly have a kitchen wall that is really a kitchen, which makes it all too easy for Fibber to indulge his love for cooking when they give a party. The August Woman's Home Companion's picture layout shows what a fine idea this is; that wall has everything from a barbecue to a sink, and affords privacy from the neighbors as well.

Hollywood homes are among the country's most attractive, thanks to top decorators. But any clever woman can copy the charming arrangements of curtains in the homes of Betty Hutton, Burns and Allen, the Bob Cobbs, Gale Gordons and Cedric Gibbons, as they are shown in this same Companion. The Burns' sun room and dining bay are especially effective.

Mala Powers, scored so notably during the first few days of her starring role in "Outrage" that she was signed for roles in Goldwyn's "Edge of Doom" and Stanley Kramer's "Cyrano de Bergerac" before "Outrage" was completed.

Ted Mack and the "Original Amateur Hour," which filled Madison Square Garden for their benefit for the New York Foundling Hospital, will stage their next benefit from San Francisco for the Disabled American Veterans.

Len Doyle, "Harrington" of "Mr. District Attorney," built his own home in Milford, Pa., exactly to suit him; did everything from clearing the land to putting in the plumbing and refusing to have a telephone—doesn't like phones. To reach him in a hurry Ed Byron, the show's director, has to notify the state police and have somebody tell Doyle.

Because he has so much difficulty getting away for vacations, Ben Grauer has signed a 10-year lease on a Bucks County, Pa., farm. His hundred acre retreat is about 2 hours drive from NBC studios, and Ezra Stone is a neighbor.

All available expert swordsmen were rounded up by Director Michael Gordon for filming a mass dueling sequence in Stanley Kramer's "Cyrano de Bergerac." Script called for Jose Ferrer to take on 100 men simultaneously.

ODDS AND ENDS . . . Joan Fontaine's favorite year is 1941, when she won an Oscar and the New York Film Circle's award as best actress, learned to fly a plane and shot a hole in one in golf . . . Paramount will film "About Mrs. Leslie," new book by the author of "Bad Girl," Vina Delmar—a good story that will have to be rewritten to pass the censors . . . Herbert Rawlinson, "Hollywood Star Playhouse" host, made his first picture in 1912.

## HOUSEHOLD MEMOS by Lynn Chambers

### Entertain at Luncheon With Colorful, Tasty, Easily Prepared Menus

ENTERTAINING YOUR church, club or friends at luncheon during the warm weather need be no problem if you start out with ready made menus that are easily prepared. Those given in the column today have been planned for their colorful appeal, and they're full of tasty food that is guaranteed to please. Your guests will be more apt to enjoy the luncheon if they find you awaiting them, looking as cool and delightful as though you had just stepped out of the proverbial hat box. Desserts and salads should be planned so they may be prepared the evening before.

**Menu I**  
\*Oven-Fried Chicken  
Sweet Potatoes with Cranberry Glaze  
Green Bean Salad  
Pineapple Whip

Prepare chicken as for fried chicken (dredge with flour, salt and pepper, and fry until golden brown in skillet). After browning, transfer to roasting pan or casserole. Add water, if desired. Cover and bake in a moderate (350°) oven until tender, about 1 to 1 1/4 hours. If desired, uncover during last 10 minutes to crisp.

**Pineapple Whip (Serves 6)**  
1 No. 2 can crushed pineapple  
16 marshmallows, cut in eighths  
1/2 pint whipping cream

Combine crushed pineapple and marshmallows, reserving a few pieces of pineapple for garnish. Cover; let stand in the refrigerator for at least an hour. Just before serving, drain well. Whip cream and fold into pineapple mixture. Pile into chilled sherbet glasses and top with pineapple pieces.

**Cranberry Glazed Sweet Potatoes (Serves 4-6)**  
1 cup canned jellied cranberry sauce  
1/4 cup brown sugar  
4 large sweet potatoes, cooked or canned

Crush cranberry sauce with fork and combine with brown sugar. Spoon over sweet potatoes which have been halved and placed in a greased casserole. Bake in a moderate (350°) oven for 30 minutes.

**Menu II**  
Hawaiian Braised Pork Chops  
Fluffy White Rice  
Green Salad  
Cherry Mousse  
Beverage  
Cookies

How to Prepare: The evening before, prepare Cherry Mousse; also, wash greens for vegetables and refrigerate to chill. On the morning of the luncheon, prepare pork chops and place in oven to bake; cook rice while pork chops bake.

**Hawaiian Braised Pork Chops (Serves 6)**  
6 loin pork chops (about 2 pounds)  
1 1/2 teaspoons salt  
1 cup water  
2 tablespoons cornstarch  
1/4 teaspoon cloves  
1/4 cup pineapple juice  
1 small green pepper  
3 slices pineapple

Oven-fried chicken with cranberry glazed sweet potatoes makes a colorful and tasty luncheon menu team. With a hearty main course like this, you'll want a frothy pineapple-marshmallow dessert as suggested in the column.

**LYNN SAYS:**  
Put Wild Greens to Use As Cooked or Raw Vegetables

Wild greens can be useful as a vegetable. They're cooked like other greens and are delicious. Strong-flavored wild greens are better when parboiled for two or three minutes in lots of water. Drain and cook as for other greens. For cooking greens, use lightly salted boiling water, and cook until leaves just wilt and greens are tender. Season and serve.

This cherry mousse made in a mold is a cool invitation to lazy summertime appetites. Made of smooth, whipped cream and sprinkled throughout with tempting bits of tart red cherries, this dessert is bound to please.

**LYNN CHAMBERS' MENU**  
\*Oven Fried Chicken  
Cranberry Sauce  
Mashed Potatoes  
Cream Gravy  
Sliced Cucumber-Tomato Salad  
Carrot Sticks  
Radishes  
Celery  
\*Coconut Ice Cream Balls  
Chocolate Cup Cakes  
Beverage  
\*Recipe Given

Brown chops thoroughly without added fat. Add salt and water; cover and cook for 30 minutes. Remove chops; add dry ingredients, liquid and green pepper and pineapple, cut in pieces. Simmer until thick stirring constantly. Add chops and let simmer for 10 to 15 minutes.

**Cherry Mousse (Serves 6-8)**  
1 No. 2 can sour red cherries  
1/2 cup sugar  
4 drops red food coloring  
1/2 teaspoon salt  
2 teaspoons gelatin  
3/4 teaspoon almond extract  
1 1/2 cups heavy cream, whipped

Drain cherries and grind them medium fine; combine with sugar and food coloring. Heat to boiling and cook one minute. Remove from heat and add salt. Soften gelatin in one tablespoon of juice dipped from ground cherries, then stir into hot cherry mixture until gelatin is dissolved. Chill until cherry mixture is thick, then fold in whipped cream lightly but thoroughly. Turn immediately into cold refrigerator tray and freeze at lowest temperature until firm. Return to normal temperature to let mousse mellow.

**Menu III**  
Chilled Apricot Nectar  
Sea Food Salad in Tomato Cups  
Potato Chips  
Pickle Fans  
Coconut Ice Cream Balls

How to prepare: Chill apricot nectar and all salad ingredients overnight. Ice cream balls may be made in advance if they can be frozen in refrigerator.

**\*Coconut Ice Cream Balls (Makes 12)**  
2 cups moist coconut  
3 pints vanilla ice cream  
Food coloring (red, yellow or green)

Place coconut in glass jar and add whatever color food coloring is desired. Cap jar and shake vigorously until color is distributed evenly on coconut. Scoop ice cream into balls two inches in diameter. Roll in coconut until well coated. Place in freezing tray or freezer until serving time.

**Seafood Salad (Serves 6)**  
1 can tuna fish, crabmeat, shrimp  
2 tablespoons French dressing  
1 cup diced celery  
1/2 cup diced cucumber  
2 tablespoons chopped radishes  
2 tablespoons lemon juice  
1/2 cup mayonnaise

Salt and pepper to taste  
Flake tuna fish and shrimp; remove black line from shrimp. Mix all seafood together and add French dressing. Marinate for 15 minutes. Add remaining ingredients and toss lightly.

If the wild green hunt does not yield much, you might try combining several different kinds to give enough for a vegetable. Wild greens will wilt quickly. Plan to use them as rapidly as possible to get them at their best, and for their vitamins and minerals, too. Discard wilted and damaged leaves, and cut off roots when you prepare them for use. Lift out of water several times to dislodge all dirt.

## KATHLEEN NORRIS A Foolish Woman

LINETTE ROY is 34. Her younger years were spent in the care of invalid parents, and in holding a responsible post-office job, which she still has. Two years ago she met one Robert Francis, a medical student two years younger than herself. Robert also had family responsibilities, and was only as far as his first year in medicine. He has now been obliged to interrupt his studies, and is driving for a doctor in a city some 300 miles away, hoping to save enough to get started in another year.

Robert gave Linette her first thrilling love affair. To her, hard-working, conscientious, lonely, it was a miracle of delight. To have a fine man's companionship, to talk over their respective trials and responsibilities, to listen to his first words of admiration, and to feel her own heart respond—well, perhaps only a woman placed as Linette was knows what that means.

They were never formally engaged. But they became lovers, Robert using the old arguments of appealing to her trust, her belief in his promises. Linette was not a girl in years then, but she was completely inexperienced, her father was dead, her invalided old mother was far past the point of advising. On the contrary, she

... her first thrilling love affair ...

had returned to childishness, and Linette had to make her own decisions. Carried off her feet by the passion and ecstasy that had come too late to her, she gave way to the emotions that are too strong for almost any woman so ignorant and so isolated.

**Miserably Unsatisfactory**  
Like any other self-respecting woman she found this arrangement miserably unsatisfactory, and when Robert went off to take his job in another city, they decided upon an understanding that would lead within the year to marriage, no matter what their financial or domestic situations might be.

A part of Linette's letter follows:  
"This was the way things were at New Years. Bob went away, and we wrote to each other, daily at first, then his letters fell off, as I expected they might. At Easter he was at home three days, and I saw him there three times, but I felt that things had changed. There was no love talk, and no talk of marriage. But he was working terribly hard, and looked and acted tired.

"That was all, until this week when I discovered that he has been home, was here for two nights, about 10 days ago, without a word or telephone message to me.  
"Mrs. Norris," Linette's letter goes on, "I was stunned. I have been unable to eat or sleep since. Loving and trusting him as I do I know that something has happened, he is angry with me, or someone has told him something that has changed him. I telephoned him at once, but it was most unsatisfactory. He pleaded that his mother and sisters had absorbed his time, that he had tried to call me, and so on. He said to wait for his letter; there has been no letter, and inasmuch as I cannot live—I feel I actually will die—if things are left this way, I am appealing to you. Of one thing I am sure; Robert loves me. If I did not know that, I would try to put the whole thing behind me. But Robert loves me. How can I win him back?"

**Love Is Gone**  
Linette, I say in reply, the one thing of which I am sure, and of which you are yourself sure, deep in your heart, is that Robert doesn't love you. Any man who loves a woman won't be in the same town with her for three hours, much less three days, without telephoning, rushing to see her, dating her for every possible instant.

Your love affair is over. Accept this terribly hard dictum, and start fresh tomorrow. Act as if Robert were dead; many a brave woman has had to rise to that situation in the past few years. Plunge into three or four different activities; make yourself do it. Every fibre of soul and body will revolt at first, but that's the only cure. Study a language; that is always my first suggestion. Then get a puppy to spoil and be spoiled by. My own predilection is for a cocker. They are happy in an apartment and very loving.

## SEWING CIRCLE PATTERNS School Frock in Gay Contrast Two-Piecer Has Yoke Interest

**8349**  
4-12 yrs.  
Puffed Sleeves

**1883**  
11-18

For the Campus  
A WELCOME addition to a campus wardrobe is this handsome two piecer in junior sizes. Try it in a bold striped fabric, used crossways for the pretty shaped yoke.

Pattern No. 1883 is a sew-rite perforated pattern in sizes 11, 12, 13, 14, 16 and 18. Size 12, 4 1/4 yards of 36-inch fabric.

Pattern No. 8349 comes in sizes 4, 6, 8, 10 and 12 years. Size 6, 2 yards of 36-inch; 1/2 yard contrast.

Don't miss the new fall and winter stylized—a complete guide in planning a smart, wearable fall wardrobe. Free pattern printed inside the book, 25 cents.

## AROUND THE HOUSE

While doing other housework, use your alarm clock when cooking. Set it so it will ring when food should be removed from the stove.

A storage space that has a temperature of from 35 to 45 degrees F., with a humidity of 85 per cent or more, is ideal for conserving egg quality.

There are just two rules for serving watermelon successfully—pick a good one, and serve it cold.

Potatoes are grown on about one and one-half to two million farms throughout the United States.

Here are a few simple ways to remove starch without damaging your iron. If the iron is hot, shake salt on a piece of paper, and rub the iron back and forth over the salt until the starch rubs off. You can remove starch from a cool iron by scouring it with fine steel wool or a moist cloth dipped in fine scouring powder.

Braising—a process that combines browning, steaming, and stewing—is a good way to cook the less tender kinds of meat.

## Local News

Mr. and Mrs. J. C. Ayres recently returned from a visit in Georgia.

Mrs. R. A. Moore and John Filippone were in Eagle Pass last Friday.

The Brocamontes Place has put up a new neon sign, "El Casino" the past week.

Mr. and Mrs. Herman Schafer of San Antonio visited in Brackettville over the week end.

Mrs. William Fullbright and children visited in Franklin Texas several days last week with relatives.

Frank Ayers, of Rooksprings was here the past week end visiting his parents, Mr. and Mrs. J. C. Ayers.

Mrs. Homer Jones and Mrs. Anson Hoover of Del Rio were visiting in Brackettville Friday with relatives and friends.

Miss Mittie Jones was in Corpus Christi the first of last week being called by the death of her nephew, Martin Boehmer. She returned home during the week.

Mr. and Mrs. D. J. Morrison of Beaumont and Mr. and Mrs. H. Bowman of Houston, spent the week end visiting Mr. and Mrs. A. R. Davis. Mrs. Morrison and Mrs. Bowman are sisters of Mr. Davis.

Misses Betty Lou and Estella Olvera returned this week from a week's visit in Old Mexico.

## BEN RAMSEY THANKS TEXAS VOTERS

BEN RAMSEY, run-off candidate for Lieutenant Governor, thanked Texas voters this week for the vote they gave him in the July 22 primary election. Ramsey, shown here in his San August. time law office, said his heart was "filled with humble gratitude," and asked his supporters to continue the fight and elect him Lieutenant Governor in the Aug. 26 second primary. Ramsey is the only experienced candidate in the race.

### RUN OFF CANDIDATES

The Runoff Democratic Primary which will be held on August 26th, 1950 finds no Kinney County and district officers, candidates in said runoff.

However, there will be several candidates for state offices in the democratic primary runoff which includes the following:

For Lieutenant Governor, Ben Ramsey of San Augustine and Pierce Brooks of Dallas.

For Commissioner of Agriculture, John C. White of Wichita Falls and J. E. McDonald, present holder of said office.

For court criminal appeals, Judge W. A. Morrison of Cameron and E. L. Lattimore

For supreme court place one, Fagan Dickson, of San Antonio, and Will Wilson, of Dallas.

For associate justices of the supreme court, Meade F. Griffin, present holder of said office and George Harwood, of Dallas

Ben Ramsey of San Augustine candidate for Lieutenant Governor and former Secretary of State, thanked the voters of Texas this week for the votes and support which put in the second primary run-off for Lieutenant Governor. Ramsey expressed confidence in victory in the second primary election August 26; Ramsey's statement to the voters said:

"My showing in the first primary for Lieutenant Governor fills my heart with humble gratitude. It convinces me that I will be nominated in the run off. Among my opponents were some of the ablest and most experienced of Texas' public servants—men whose legislative records have made them widely and favorably known. It seems clear that they divided with me the support of that great majority of citizens who believe that experience counts in public service, as it does everywhere else."

"I served in the Senate while three of these men were members of that body, and three others were members of the House. Many of my friends are also their friends and many others who know me only from my legislative record faced a choice between several men whom they deemed competent and deserving."

"The situation in the run off will be very different. I will no longer be confronting the popularity and prestige of men who have served ably in one or both Houses of our law-making bodies and many friends who share my own admiration for those men will feel free to cast their ballots for me. I believe that great majority of Texans will agree with me that in these crucial times the post of Lieutenant Governor should be filled by a trained and experienced man."

—The Womens Society of Christian Service of Brackettville Methodist Church will hold regular meetings on the first and third Tuesday evenings at 7:30. Members and friends are urged to attend.

"I'm at home in this kitchen!"

Your doctor has many modern electrical appliances in his office.

**COOKING CENTER:**  
 The electric range gives you accurate, cool cooking. All the cooking heat goes directly into the food instead of the kitchen. Automatic time and temperature controls on the oven allow you to "set it and forget it."

OF COURSE, IT'S ALL-ELECTRIC! It's a modern workshop that's planned to save you time, labor and steps. In it you can enjoy automatic, fast, clean cooking with an electric refrigerator; more kitchen freedom with an electric dishwasher and garbage disposal unit and plenty of work surfaces.

Only electricity can give you such a convenient time and labor-saving kitchen because it can do so many jobs quickly, efficiently and economically. Plan now to make yours a modern kitchen — let low-cost electricity run it.

**DISHWASHING CENTER:**  
 This boon to housework handles pots and pans as well as dishes and silver—dries without wiping. An automatic disposal unit takes care of the garbage chores.

**REFRIGERATION CENTER:**  
 The electric refrigerator has the capacity to make and hold the low temperatures necessary for safe food protection even in the hottest weather. It's economical, too.

 November General Election

### Veterans' Questions And Their Answers

Q—Would an American serviceman, paralyzed from the waist down because of action in Korea, be entitled to the special VA benefits of an automobile and a grant for buying or building a home designed for "wheel-chair living"?

A—He could not get the car, for the law limits motor vehicles at Government expense to World War II veterans only. But he might be eligible for the housing grant, if he meets the other requirements of the law authorizing special housing.

Q—I want to take a GI Bill course in automobile mechanics. Where can I get a list of nearby schools approved to give this training?

A—The VA regional office nearest your home maintains up-to-date lists of all schools, located within its jurisdictional area, approved by State Approving Agencies to offer GI Bill training.

Q—If I apply for GI Bill training before the July 25, 1951, cut-off date, will I be able to start my course sometime after that date?

A—No. Under the law, you actually must be in training on that date. The exceptions are interruptions of training beyond your control, such as summer vacations, illnesses and the like.

Q—Some years ago, I served on active training duty in the National Guard for 15 days. During that period I suffered a disease that resulted in a disability. Am I eligible for disability compensation?

A—No. Public Law 108 states that you must serve for periods "in excess of 30 days" in order to be eligible for compensation for disability resulting from disease. On the other hand, there is no minimum time limit in the

case of disability resulting from injury while on active or training duty with the National Guard.

### Stockholders' Meeting

The annual meeting of the stockholders of the Brackettville National Farm Loan Association was held at the office in the News Mail building on Saturday August 5th, with the president, A. M. Sator in the chair.

The Association makes services loans on farm and ranch property through the Federal Land Bank of Houston. For some years the Bank has paid sizeable dividends to its associations and this association has been able to pass the greater part of these dividends to its stockholders for borrowers. During the twelve months period ending June 30, 1950, this association paid its stockholders dividends amounting to 3% on their capitol stock in the association.

While the current rate of interest on all loans made by the associations and the Federal Bank is 4%, for the year 1949 the cost of interest to borrowers of this association was only 2.82%, due to dividends paid during the year.

The directors of the Brackettville National Farm Loan Association are A. M. Sator, Ben H. Nolan, O. R. Davis, W. W. Jamieson, and E. A. Bayer. The Secretary-Treasurer is Mrs. Annie D. Rone.

Cancer is the second most frequent cause of death, the American Cancer Society points out.

**Melancon-Veltmann**

In a ceremony at the 11 A. M. Mass at St. Rose of Lima church in Houston on July 30, Miss Jacqueline Veltmann, daughter of Mr. and Mrs. Chas. Veltmann of this city, became the bride of Alfred Melancon, son of Mr. and Mrs. Alfred Melancon of Houston.

Rev. Paul Pieri, chaplain of the fourteenth battalion marine corps reserve, of which the groom is a member, officiated at the double ring ceremony. White stock and gladioli decorated the altar. The organist furnished the traditional nuptial music.

Serving as matron of honor was Mrs. O. E. Clay, wife of O. E. Clay, also a member of the fourteenth battalion, and best man was Charles Veltmann brother of the bride.

The bride wore a ballerina-length dress of white silk eyelet embroidery. Her tiered veil of illusion was held in place by a coronet of seed pearls and she carried a bouquet of white orchids.

Following the ceremony the groom's uncles and aunts, Mr. and Mrs. John Boyce and Mr. and V. W. Anderson were hosts for a reception for members of the families at the Boyce home 4636 North Mac Gregor Drive.

The couple left later for a wedding trip and will return in time for the groom to leave with the battalion for active duty Aug. 23.

The bride graduated from our Lady of the Lake High School in San Antonio and is now a Junior at the University of St. Thomas, Houston. She is a member of the National Honor Society and is athletic representative of the University and a member of the student council.

The groom is a graduate of St. Thomas High School and is a senior of the University of St. Thomas at Houston. He also attended the University of Houston summer school. He plans to study law at the University of Texas after his graduation from St. Thomas.

**Border Shrine Club To Meet In Fort Clark August 12**

The Border Shrine Club will hold a meeting at the Fort Clark Guest Ranch in Brackettville August 12.

The regular meeting will be held at 7 p.m. a dance following. The Alzafar band of San Antonio will furnish music for the dance.

The meeting originally scheduled for August 10 has been postponed so uniform bodies of the Alzafar Temple of San Antonio could attend, Judge Grover C. Poole, president, said. They will furnish music for the meeting.

All Shriners are urged to attend the meeting. Judge Poole said Roy D. Akers, the Imperial Potentate of the Alzafar Temple of San Antonio is expected to be present.

Shriners from Eagle Pass, Sabinal, Brackettville, Uvalde and Del Rio are members of the Border Shrine Club.

The Alzafar band and uniform bodies will parade at Sabinal and Uvalde on their way to Brackettville from San Antonio.

**SEWER PIPE LAYING NEAR BRACKETTVILLE**

The laying of pipe for the new Brackettville sewer system which had been under construction for the past several months by the McKensie Construction Company is practically completed and very little more work in this respect remains to be done, representatives of the company have stated.

To be accomplished yet are reconstruction of local streets damaged by construction necessities and construction of the booster plant.

Mrs. F. H. Stallknecht of Bellville arrived Saturday for a visit with her son Donald. She was accompanied here (with Miss Dorothy Olson).

Mr. and Mrs. Alfred Melancon of Houston were here this week visiting her parents, Mr. and Mrs. Chas. Veltmann and family.

Mrs. M. E. Nash returned last week from California where she had been to visit her son, Bill.

Leslie Perry was a business visitor in Waco last week end.

Mrs. Katherine Mendeke of Austin spent the week end here with relatives and friends.

Sam Hutebison and Allen Brooks have recently returned from an interesting visit in Oklahoma.

Sgt. W. C. Hall left Monday morning for San Antonio, where he received a check up in the General Brooke Hospital.

Mrs. A. A. Berry of Edna, Texas, was here several days last week to visit her mother, Mrs. E. Sauer, and other relatives.

Mr. and Mrs. Olvera and two daughters, Alice and Mary, have returned after several days visit in the Rio Grande Valley and San Antonio.

Mr. and Mrs. Barnett and children of Corpus Christi spent a few days last week visiting her grandparents, Mr. and Mrs. John Gilder.

Mr. W. J. Brown left week for Junction where he will be superintendent of construction on the new A. & M. Camp project there.

Rudolph Luna has completed the purchase of the former Wm Sampson Store building, which been the location of Luna's Red & White Store No. 2.

Mrs. O. F. Seageant returned last week end from San Antonio where she had been for several days visiting her daughter, Mr. Marjorie Dodge.

Mr. and Mrs. W. F. Sampson left last Saturday for an extended visit in Saltillo, Monterey and other points in old Mexico. They also expect to visit some points in the U S before returning home.

**SCHOOL OPENS SEPT. 1st**

Supt. C O McKinney announces that school will officially open September 1st. All students are to report that day at 10 A. M. for registration. Classes will begin Tuesday Sept 5th at 9 A. M. All students entering school for the first time will be required to bring their birth certificate.

A complete program of activities is planned. The band is practicing daily now. Football practice will start September 1st. The first game will be at Tiger Field September 15th when Brackett team will play La Coste.

Miss Else Sauer took her Sunday school class to Garner Park for a delightful outing last Saturday and Sunday.

Heredity in Sport

JOHN PARTRIDGE, the veteran race horse trainer and one of the smartest, was discussing a new angle concerning heredity in sport.

Grantland Rice "that we began discussing various angles on heredity among competitors.

"I've discovered one thing," Dr. Mayo said then, "That is that athletic mothers rarely give birth to athletic children. I mean the ones that come to me. They are so muscularly developed that apparently they need too many things to carry their own system. I have checked back as far as I could and have discovered that most fine athletes come from mothers who were not athletes—not in any way. I mean the Cobbs, the Kutts, the Dempseys, the Hagens. Most of them were rather frail.

"For that matter," Dr. Mayo said, "not many fine athletes on the male side breed sons or daughters who are good at athletic games. Out of a long list of children from these famous athletes I've discovered very few who ever amounted to much as competitors in sport."

"This got me to thinking recently about this subject," Partridge said. "So I began looking into the horse angle. I discovered from a long review that very few good running mares ever gave the racing game either good colts or good fillies.

"Here's a list," The veteran trainer took out a record book and the figures were there to prove his statement. Most of the good ones came from well-bred mares, but not good racing mares.

"A Man O'War can be the sire of many great racing horses," John said. "But it doesn't work that way for mares who can win races. It must be for the same reason Dr. Mayo discovered or dug up a few years ago. One would think that an athletic father and mother would produce an athletic prodigy. Only they don't. Or at least rarely. Apparently heredity on the athletic field doesn't run that way."

It is a subject that could stand a bit more study.

The Younger Stars

What has become of the younger golf stars? Where are such kids from the past as Bobby Jones, Francis Ouimet, Chick Evans, Gene Sarazen, Walter Hagen, Johnny Goodman, Bob Gahagen?

In the recent P.G.A. the last 16 left averaged around 36 years of age. Cary Middlecoff and Jack Burke are about the only new names that have sprung up lately. The P.G.A. apparently wants no youth in its major tournament which frequently leads to such results as we had at Columbus with two old-timers left.

It was nice to see two instructors fighting out the last round with the tournament stars beaten out, but someone in golf should start encouraging a few young fellows.

On the amateur side, they turn pro when they can make part of a living at the game.

Golf has always had one major trouble. It is too expensive for too many people. The price of golf balls has risen. The price of clubs is up. Caddies cost you \$2 or more a round now against 75 cents and a dollar a few years back. There are few caddies from the younger crop watching crack veterans play as Sarazen, Hagen and others did.

Jerry Travers was a kid phenom at 15. Bobby Jones shot a 70 when he was 12. At 14 he reached the last eight in the amateur championship.

I saw Chick Evans shooting in the low 70's when he was 16. Francis Ouimet was scoring 70 to 71 when he was 18.

Golf was then a young man's game. It is still a young man's game but not many kids today have the money or the zest for hard work needed.

The Total Base Record

Recently Bobby Doerr of the Red Sox contributed two home runs, a triple and a single in one game.

Back in the 90's, Bobby Lowe of Boston and Ed Delehanty of Philadelphia each hit four home runs and a single in one game. This is a matter of 17 total bases and it still stands.

Lou Gehrig, one afternoon in Philadelphia, came the closest to cracking this mark. Lou hit four homers and at his last time at bat smashed out a long fly ball.

Embarrassed Senators

THE FOLLOWING incident took place on the senate floor, but was not reported in the congressional record.

The continuation of the draft act was before the senate for a vote. Three of the strongest isolationists James Kem of Missouri, George Malone of Nevada and Arthur Watkins of Utah, all Republicans—huddled with floor leaders.

"Don't embarrass us," they whispered. "We don't want a record vote. Just the ayes and nays."

Whereupon Oregon's Wayne Morse stomped back to fellow Republican Cabot Lodge of Massachusetts and said in a loud whisper: "The nerve of those guys!"

Lodge, getting the cue, immediately demanded a record vote. When the roll was called, all three—Kem, Malone and Watkins—meekly voted "aye"

Korean Contrasts

The following four incidents happened in widely separated parts of the world, but they may have significant bearing on each other:

1. U.S. troops in Korea reported that they knocked out a North Korean tank; the Korean crew jumped out, their clothes on fire, and the Americans tried to get them to surrender. But the Koreans rejoined their own forces and kept on fighting. "I used to have contempt for them," said a high American commander, "but I was mistaken."

2. In the U.S. senate, Lodge, Republican of Massachusetts, proposed two billion dollars more in arms aid to the world.

3. General Eisenhower, requesting more money for the Voice of America, said: "All the armies in the world are no good without morale."

4. The senate appropriations committee, one day after Eisenhower, Gen. George Marshall, Bernard Baruch, Gen. Bedell Smith, and Gen. David Sarnoff of RCA had emphasized the importance of Voice of America propaganda, proceeded to scorn the above advice. The committee lopped \$13,000,000 off the state department's 1951 budget, and \$1,300,000 off the Voice of America.

Meanwhile, in Korea, tough, propaganda-fed North Koreans continued to cut through demoralized, unpropagandized South Koreans like a warm knife through butter.

World's Worst Advertisers

A better way to tell the American story to the rest of the world is something this columnist has been harping on for five long years—probably to the boredom of a lot of readers.

Propaganda, of course, is a word used to cover a great many meanings, and to some people it means angled news, deliberately twisted to put across a certain cause. But the best propaganda is the truth. And the most powerful weapon to make people think you are doing good is to do good.

But while we have been doing a great deal of good through the Marshall plan and in many other ways, we have failed to tell the people the truth about that good. Thus the wheat we sent to France and Italy went onto the normal channels of trade, brought in revenue for those governments, balanced their budgets, and kept them in power. But the American people got little or no credit.

By contrast, in 1947, when the United States actually was supplying 90 per cent of the wheat used by the French people, the Soviet government landed one cargo of wheat in Marseilles. The wheat was carried in an American lend-lease ship, and the Russians required the French to pay dollars, while our wheat was given away. Yet, by staging a parade through Marseilles, the Russians created the impression they were the only nation coming to the rescue of the hungry people of France.

This was partly what inspired the friendship train. Organized on the west coast so that it could cross the continent and be a genuine contribution by the American people, newsreels of the train's progress were sent to western Europe in advance and shown in the motion picture theaters there, to give the people concrete evidence of how Americans from every walk of life were anxious to contribute to their welfare.

Propaganda doesn't have to be carried by radio or by the printed word. The best and most wholesome forms of propaganda are by personal contact.

Congressional Penny-Pinchers

This is about what the Republican 80th congress did four years ago when the senator who is now urging increased funds for propaganda was assistant secretary of state. William Benton, now senator from Connecticut, was put in charge of the state department's Voice of America.

Benton had been able to sell top businessmen enough propaganda ideas to make him a wealthy man. But when it came to selling mossier-backed congressmen, he failed.

WEEKLY NEWS ANALYSIS

American Troops Taking Beating In Korea; Mobilization of U. S. Manpower and Industry Forecast

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

KOREA:

G.I.'s Take Beating

As the Korean battle went into the fourth week it became apparent to every American that U.S. troops were taking a beating.

They were outnumbered; tanks were inferior and too few; guns and bazookas could not pierce the 12-inch armor of the Russian made tanks. They were pinned to foxholes by tanks, artillery and mortars; overwhelmed by massed infantry, sniped at from the sides and rear by infiltrating columns.

Taejon, provisional capital of South Korea, was abandoned after the Kum river line was broken by thousands of fanatical Communists who charged American positions without regard to casualties. They overran first aid stations, killing patients and chaplains, and for every one the Americans killed, ten took his place.

American forces began a slow withdrawal which appeared would halt some 35 miles southeast of Taejon where a range of hills offered a natural defense position. Whether or not they held this position would depend upon reinforcements and the continued flow of guns, tanks, and ammunition.

No matter how optimistic a view an observer was inclined to take, the situation appeared serious. As has often been the case in the past, Americans greatly underrated North Korea's military strength and fighting determination.

Facts of the situation indicated: North Korea had 10 to 15 divisions—100,000 to 250,000 men, with replacements handy from the armies of Communist China when needed. At least 200 tanks, with replacements also available from Russia, and almost unlimited supplies behind the lines in Siberia and in Manchuria.

United States would need eight full divisions, perhaps 250,000 men. The inadequate supply of tanks and heavy artillery in the Pacific would have to be remedied.

The one bright spot in the picture was the work of the U.S. air force which had knocked out tanks, bombed and strafed troop concentrations and supply lines, and driven the North Korean planes from the air.

But military observers pointed out that air power will greatly increase the chances of victory, but the Korean war, as has been the case in all wars, will be won by the soldier who fights through mud and rain and cold and heat. The foot soldier has not been replaced with push-button warfare, as yet.

MCCARTHY:

Called a Liar

Senator Joseph McCarthy, who has had more front-page publicity in the American press than any one man in a number of years, has made the front pages again, but not to his liking.

The senator, still screaming charges of communism in the state department, was called a liar by three Democratic members of a senate investigating subcommittee.

Reporting their conclusions from a four-month inquiry, they attacked the Wisconsin Republican in terms of harshness rarely used in the senate's history. They accused him of conscious falsehood and of serving the interests of the Communists by raising baseless suspicion among the people of the country.

They cleared every person McCarthy accused of being a Communist.

The Republican members of the subcommittee, Senators Hickenlooper and Lodge, declined to sign the report.

The Democrat members termed McCarthy's charges "a fraud and a hoax perpetrated on the senate of the United States and the American people."

Their report said, in part: "They (McCarthy's charges) represent perhaps the most nefarious campaign of half truths and untruth in the history of this republic. For the first time in our history we have seen the totalitarian technique of the big lie employed on a sustained basis.

"The result has been to confuse and divide the American people, at a time when they should be strong in their unity, to a degree far beyond the hopes of the Communists themselves, whose stock in lies is confusion and division."

SOVIET UNION:

An Olive Branch

Although no official announcement has been made, it is believed in many quarters the Soviet Union has offered terms for settling the Korean war. It is a bloody and wild-eyed branch the Russians are holding out to the United Nations.

After the sugar coating of diplomatic language is penetrated, it seems Russia would be willing to call off the affair after China is seated in the United Nations.

Korea Commander

Lt. General Walton H. Walker, a tank expert from Texas and commander of the Eighth Army, has been named to the top command post in Korea. Walker gained fame as commander of the 20th corps in Patton's Third Army.

MOBILIZATION:

Is It Near?

Many observers are wondering if complete mobilization of this country's manpower and industrial strength is in prospect for the near future? Some believe it is, unless the world situation takes a sudden and unexpected turn for the better.

Within a matter of hours after this writing, President Truman was expected to go before congress and outline for the American people steps deemed urgent to cope with the Korean war. He was also scheduled to speak over a nation-wide radio hookup and tell Americans just where we stand.

One official predicted the President would:

1. Request new military funds or contract authorizations totaling \$5,000,000,000 to \$6,000,000,000.

2. Propose legislation authorizing 100,000 more men for the army above the present legal limit of 637,000 and 60,000 more for the Navy, which now cannot exceed 666,882. An increase may also be ordered for the 502,000-man air force.

HOME FRONT:

Controls Likely

Observers on the home front are predicting limited controls to back up an intensified military campaign in Korea.

At this writing the controls had not been asked for, but observers pointed out that anti-inflationary action was becoming more urgent with each day. They predicted President Truman would ask for them within a very short time.

A request for higher taxes, to cover an expected jump in military spending, was held to be inevitable.

Government officials were predicting privately that President Truman would ask congress:

1. Power to allocate—by voluntary means, or more drastic measures if necessary—steel and a few other basic metals.

2. Authority to put quantity ceilings on the production of automobiles, television and radio sets and other civilian products consuming large quantities of metal, so that the demands of these industries will not interfere with arms production or create a "gray market" in prices.

3. Restoration of consumer credit controls. By tightening up on easy-payment credit for automobiles and other consumer goods, it is hoped that some of boom-level buying demand may be removed from the market.

LABOR:

Mobilization Urged

At least one labor leader, William Green, president of the American Federation of Labor, has demanded all-out preparedness for any eventuality, including mobilization of labor.

"We find ourselves facing a situation with the implication of a third world war . . . If war is localized now, we know it is only a question of time until the inevitable happens. Only adequate preparedness can safeguard us," Green said.

He added: "We cannot send our soldier to the fighting front without training equipment and regular supplies . . . We must provide quick transportation which will increase mobility . . . There will be no side lines secure from bombing . . . There must be mobilization of labor."

Electoral College

In what observers believe to be one of the strangest line-ups in modern political history, the house killed, 210 to 134, the proposal that would have made a presidential election more nearly reflect the popular vote.

The senate approved the constitutional amendment last spring. The measure needed a two thirds vote. Had it passed, it would have needed approval by states.

ECONOMY:

Profits and Prices

As the Korean war roared into its fourth week much of the news was being made on the home front in the form of profits and prices.

Government agencies announced after-tax profits of American manufacturing firms as a whole were nearly five percent higher in the first quarter of 1950 than in the fourth quarter of 1949.

At the same time the prices of foods, especially meat and coffee, took an upward swing that made many consumers catch their breaths.

At least one congressman, Representative Klein of New York, demanded an investigation of high living costs and profiteering. He went so far as to charge bakers and dairies with "soaking the consumer without conscience."

"Meat prices are threatening to turn this country into a nation of vegetarians and ruin the cattle raising states," he said.

Also on the economic front, the Federal Reserve Board said preliminary figures show that industrial production reached a new postwar peak in June.

Production was estimated at about one percent higher than the previous postwar peak of October-November, 1948, and 17 percent above the level of June, 1949.

Some highlights on the net profits report:

1. After-tax profits were \$100,000,000 higher in first-quarter 1950 than the preceding quarter, but unchanged from the 1949 first-quarter mark of \$2,400,000,000.

2. The rate of return on stockholders' equity was 12 percent in first-quarter 1950 against 11.6 in last year's fourth quarter and 12.8 in its first-quarter.

3. Dividend payments to stockholders totaled \$1,000,000,000 against \$1,700,000,000 in last year's fourth quarter and \$900,000,000 in first-quarter 1949.

4. Profits per dollar of sales rose to 6.2 cents from 6 in last year's fourth quarter and 6.1 in its first quarter.

5. Setasides for federal-income taxes amounted to \$1,500,000,000 in both the 1950 and 1949 first in fourth-quarter 1949.

EDUCATION:

No One Flunks

A new trend in education—100 percent promotion of pupils in the lower grades—is reported by educators.

Educators won't come right out and say no one flunks any more in the lower grades on the ground that some elementary pupils still need the threat of failing to spur them on, but it's true that fewer are flunking.

The new trend seems to be based on four points:

1. Little is learned by repeating.

2. Failure merely discourages and does not aid pupils.

3. There is no reliable way of determining failures.

4. Real failures cannot do the work, no matter how often they repeat.

This is a long jump from the days of reading, writing and arithmetic and the rule of the hickory stick. The educators sum up their report:

"Nonpromotion is an admission of an inadequate school program and has no place in a school where children are motivated properly and work to the level of their capacities.

"What is looked on as a pupil failure may be a teacher, supervisor, or administrator failure."

Into Battle

The realities of the Korean war were impressed on Americans in every walk of life as this country's soldier went into action in Korea. Scenes like the one above were grim reminders to Americans that the foot soldier is still the workhorse of war. A group of U.S. soldiers above are nearing the front.

HENRY WALLACE:

What Now, Little Man?

Henry Wallace, who calls himself a progressive but who has been the darling of the Communist press since his visit to Russia, now finds himself consigned to the ranks of Wall Street buccaneers by the Daily Worker.

Observers are wondering what will be the next utterance of this muddled thinker who was once the Vice-President of the United States and greatly liked?

Smart Kid

"Here boy," said the man to the boy who was helping him drive a bunch of cattle, "hold this bull a minute, will you?"

"No," answered the boy, "I don't mind bein' a director in this company, but I'm darned if I want to be a stockholder."

How mild can a cigarette be?

MORE PEOPLE SMOKE CAMELS than any other cigarette!

and among the millions who do...

VIC RASCHI

Famous pitcher for the New York Yankees says: "Camel mildness agrees with my throat! And there's nothing so cheering as that Camel flavor!"

AN OUNCE OF PREVENTION

WACO, TEX.—"An ounce of prevention is worth more than a pound of cure" may well be the motto of the M. N. Waits home, located at 2103 Ross St. Mrs. Waits believes in getting her family in top condition, and Crazy Water Crystals have helped her do this for over 17 years.

Many ailments that folks suffer with—upset stomach, gas pains, headaches, run-down, played-out feeling, nervousness and many other body aches and pains can often be attributed to faulty elimination. That's where Crazy Water Crystals go to work. A product of nature, they aid nature in keeping the body functioning properly so that folks can fight off many ailments and diseases and thus enjoy robust health.

Ask your druggist about Crazy Water Crystals. Sold at all leading drug stores; half lb., 85¢; full lb., \$1.25. SATISFACTION GUARANTEED by Crazy Water Co., Inc., Mineral Wells, Texas.—Adv.

## GREEN GRASS OF WYOMING

By Mary O'Hara

Carey learns of Howard's plans to enter West Point and extends her congratulations. Ken, becoming increasingly aware of Carey's allure, begins to evidence signs of being jealous of Howard. Subconsciously seeking to ward off the threat of Howard as a rival, he tells Carey his brother "already has a girl." Ken invites Carey to go for a walk to Castle Rock and she accepts. Meantime, Neil chides Howard for trying to "cut out" Ken with Carey, something which he deems. Neil is afraid of Cricket, the bull, and begs Rob to dispose of the animal. Ken is upset as Carey talks of her desire for babies after she is married.

### CHAPTER XII

"I see what you mean. It's just a kind of make-believe." He glanced at her questioning, and she became serious and then nodded doubtfully. "Well, let me be in it, too. Wouldn't I do?" He laughed gaily and presently Carey laughed too, hesitatingly at first, then more hilariously as their emotion found an outlet. They roared together.

This caused more uproarious laughter, then Ken said, "I pass on both counts. Anything else?"

Carey gaily counted the points on her fingers. "He'd have to be a good physical specimen—"

Ken flexed his arm and showed his muscle. "I'm the wiry kind. I had pneumonia when I was ten, but I'm all over it."

Carey was giggling. "He'd have to be religious, but I know you are."

Ken asked, "How do you know?" They were beginning to forget that it was a game of pretend.

"Because your family is. Your father says grace and you all go to church. But," added Carey, "I don't know if you yourself are, are you?"

"I don't know."

"Why don't you know?"

"Well, how can you tell?"

"Do you say prayers?"

"Sure," said Ken.

"Then you're religious. Why did you say you didn't know?"

"Well, I thought you meant, sort of, if I was good."

"Oh, no! I don't think it's the same thing at all. Well—so you are religious. And healthy enough, I guess—"

Carey laughed, sighed, reverted to her first theme. "Just think of naming them all! And the color of their eyes and hair—all different!"

Ken felt shut out again. These children of hers!

She straightened up, the soft wind blew her hair back from her face. Clapping her hands she looked far off into the western horizon as if she could see several of the little ones sitting on the small clouds that were gathering around the sun. "I just hope one of them will look like Penny. I think she is the most beautiful baby I ever saw."

"Well, if I am the father, maybe one of them will. She's my sister, you know."

He said this so seriously that Carey was brought up short. She gave a little embarrassed laugh. "That was just pretending, you know."

"I know," said Ken.

"Oh, Ken! Just think of giving them all their baths and putting them to bed!"

Ken gave an exclamation of annoyance. "Those children of yours! You don't think of anything else! You're just a little girl playing with dolls! I really don't think it's exactly proper!"

"It certainly is," Carey defended herself. "It is a subject that is of the greatest importance to all young people, especially girls, and one has to study and think about the things that are important."

"Let's go back," said Ken abruptly.

### Carey Exults Having Two Boys Seek Favors

Carey was in the delightful state of mind that any girl is in when two handsome and attractive boys vie for her favor and there is always someone a male someone, looking at her. She was as gay as a lark. She was always laughing, always singing, always running off with one or another or both of them. Rob and Neil tasted the joy of having a grown girl in the house.

One morning a message came from the Mexican shears that they would arrive at the Goose Bar Ranch next day, and Rob went down to the corrals where the boys were working with their colts, and called out that one of them should ride up to Jeremy that afternoon and tell him that they would be moving down to the ranch the next morning early for the shearing.

The two boys looked at each other, then at Carey.

"Which of us?" asked Howard.

"Ken can go," Rob walked back to the house.

Ken looked at Carey. "Will you ride up with me, Carey?"

Howard said quickly, "I'm going fishing. Carey, you said you wanted to do some fishing."

Carey decided that she would prefer the fishing to the ride, and soon after the noon meal she and Howard were out digging in the

flower beds for worms, while Ken saddled up.

He was coming home late in the afternoon when, without intending to spy, he saw a strange scene on the big flat rock which overlooked one of the best pools on Deercreek.

From where he was riding high up along the Saddle Back he got almost a bird's-eye view of it. First there were two figures, then there was one figure, then there was some sort of a scuffle.

A flame of anger poured all through Ken. He didn't want to spy. He turned his face away, took another tack down the mountainside and rode slowly home, knowing what it was to hate his brother, to hate the hate, to feel utter misery.

He unsaddled Flicka and walked down through the Gorge, going toward the back door. Then he heard them coming up from the stream. They were behind the house and Howard was laughing as if he would burst. Ken stopped walking and stood still. In a moment or two he would be face to face with them. He was trembling.

Howard said, "But, Carey, I

They were behind the house and Howard was laughing as if he would burst. Ken stopped walking and stood still. In a moment or two he would be face to face with them. He was trembling.

Howard said, "But, Carey, I

flower beds for worms, while Ken saddled up.

He was coming home late in the afternoon when, without intending to spy, he saw a strange scene on the big flat rock which overlooked one of the best pools on Deercreek.

From where he was riding high up along the Saddle Back he got almost a bird's-eye view of it. First there were two figures, then there was one figure, then there was some sort of a scuffle.

A flame of anger poured all through Ken. He didn't want to spy. He turned his face away, took another tack down the mountainside and rode slowly home, knowing what it was to hate his brother, to hate the hate, to feel utter misery.

He unsaddled Flicka and walked down through the Gorge, going toward the back door. Then he heard them coming up from the stream. They were behind the house and Howard was laughing as if he would burst. Ken stopped walking and stood still. In a moment or two he would be face to face with them. He was trembling.

**MORE PORK** per hundred pounds of feed can be obtained when supplements that supply the nutrients in accord with body requirements are used, experiments at the Purina Research Farm at Gray Summit, Mo., have shown. Since gains made early in the lives of pigs are the cheapest gains, it has been recommended that growing animals be fed a ration high in animal and total proteins, while fattening and finishing rations can be low in proteins and high in carbohydrates.

**Federal Aid Bills Flooding Congress Found to Total 307**

Uncle Sam has a bargain basement sale in the making with a total of 307 attractive offers of financial aid to state and local governments. All the Federal Government wants in return is a bigger say in running home-town affairs.

In a special study released today State Chambers of Commerce added the bills for Federal aid before this 81st Congress and same up with the total of 307.

If all of them were passed, they would add approximately \$3,200,000,000 to present Federal spending the first year and

well over \$6,000,000,000 a year by the sixth. None of the bills even hinted that the people in the states would pay in full, by Federal taxes, for the very "aid" they were offered.

These proposals cover 41 different types of grants-in-aid. They include such measures as spending \$8 million for the Federal Government to enter the charter training field and another \$50 million to promote the health and soundness of youth.

Federal grants-in-aid to state and local governments have grown steadily since the end of World War II, both in total dollar expenditures and in the number and variety of services subsidized. Federal aid outlays for the fiscal year 1950 amounted to ap-

**"Who's going to pay for my car?!"**

Ask this question after an accident and you may find that it's you who will have to foot the entire repair bill unless you have Collision and Upset insurance.

Ask us this question now, before an accident occurs and we'll be glad to tell you all about the kind of protection this low-cost policy offers to every motorist.

proximately \$2 1/2 billion. This is \$800 million more than the total sum paid out in the fiscal year 1948—just two years ago.

The amazing thing about this flood of grant-in-aid measures is that few, if any, State Governors have come to Congress asking for such legislation. Many State Legislatures have adopted resolutions roundly criticizing Federal grants-in-aid as a growing and costly evil. For instance, the Indiana Legislature said:

"Indiana needs no guardian and intends to have none. We Hoosiers were fooled for quite a spell with the magician's trick that a dollar taxed out of our pockets and sent to Washington, will be bigger when it comes back to us. We have taken a good look at said dollar. We find that it lost weight in its journey to Washington and back. The political brokerage of the bureaucrats has been deducted. We have decided that there is no such thing as 'Federal' aid. We know that there is no wealth to tax that is not already within the boundaries of the 48 states."

**Heap Plenty Bureaucrats**

Latest Civil Service figures show that the U. S. Bureau of Indian Affairs employs 12,741 people to care for the 333,969 Indians in this country. This is an average of one bureaucrat for every 27 Indians.

Early treatment of cancer could save at least 67,000 lives a year, the American Cancer Society points out.

**POSTED**
