Section 2. The management and control of the public free schools of Brackett Independent School District as created by this Act is hereby vested in a board of trustees that shall be composed of seven persons, who are resident citizens and qualified voters in said district, and each member of said board of trustees shall before entering upon the discharge of his duties as such, subscribe to the official oath provided by the General Statutes of the State of Texas.

The board of trustees of the present Brackett Independent School District as same has been heretofore organized are hereby continued in office until the expiration of their respective terms, and their successors shall be elected as provided by the General Laws for the election of trustees in Independent School Districts incorporated for school purposes only, and the election of said present trustees is hereby in all things validated.

Section 3. The Brackett Independent School District, as created by this Act, shall have the exercise, and is hereby vested with, all the rights, powers, privileges and duties of a town or village incorporated under the General Laws of the State for free school purposes only and the board of trustees of said Brackett Independent School District shall have and exercise and are hereby vested and charged with all the rights, powers, privileges and duties conferred and imposed by the General Laws of this State upon the trustees of Independent School Districts, incorporated under the General Laws of Texas for free school purposes only.

Section 4. The outstanding bonded indebtedness heretofore voted in said Brackett Independent School District shall remain in full force and effect and shall be chargeable against the territory which voted it; provided, however, the board of trustees of said district, herein created, may order an election, without the necessity of a petition therefor, for the purpose of determining whether or not the said district as herein created shall assume such outstanding bonded indebtedness.

Section 5. The board of trustees shall have the power to and may appoint a tax assessor and collector and board of equalization for said district.

Section 6. All laws and parts of laws in conflict herewith are hereby expressly repealed.

Section 7. The unsatisfactory condition of the schools in said district creates an emergency and an imperative public necessity that the Constitutional rule requiring bills to be read on three days be suspended, and the same is hereby suspended, and that this Act take effect and be in force from and after its passage, and it is so enacted.

The foundation of Capital is laid in a bank account and cemented with savings.

RESOLUTIONS BY P T A ASSOCIATION

Brackettville, Texas March 1, 1923 Whereas, it has been discovered during the physical examination of the children in this school that there is an alarming number of the young boys addicted to the use of tobacco, and

Whereas this widespread use of tobacco constitutes a menace to the children and to the community, and

Whereas it is a violation of the statutes of the State of Texas to sell tobacco to those under 14 years of age, therefore

Be It Resolved that this Parent-Teachers' Association, realizing the danger to the youth in this early use of tobacco, hereby petitions all merchants and dealers in Brackett to help curb the spread of the habit by refraining to sell tobacco or cigarettes to those under 14 years of age, in compliance with the laws of the State.

Be It Further Resolved that a copy of this resolution be furnished each dealer in Brackett who handles tobacco, a copy be printed in the Brackett News-Mail, and that a copy be spread upon the minutes of this organization.

J. R. C. At Spoford

In spite of the fact that the Junior Red Cross has been organized only a week they are going some splendid work.

To obtain individual membership they are keeping "health rules," beautifying the school yard and doing some service for others each day.

In this way they are serving themselves, the community and others.

The aims of the Junior Red Cross are:

To cultivate in this generation a realization of the fact that Service is the keynote of all community life and not merely an expression of philanthropy;

To fix in the minds the incentive of Service Rendered rather than of Personal Gain in every department of Social life;

To impress upon the new generation the importance of physical and mental fitness as a basis for effective social service;

To develop a better citizenship through the cultivation of habits, ideals and attitudes of service and of organized cooperation--local, national and world wide.

Anyone who stops a moment to think, knows that the future of a nation rests with the children of today. The program of the J. R. C. should foster a high type of citizenship through a program of service in connection with the regular school work.

The children through the J. R. C. can assist in meeting the needs of their local community and thus learn the beauty of unselfish services.

Whatever the activities may be, it can become a lasting influence in civic responsibility and teach our duty to the community as an institution, or citizenship through Service.

M. F. WAGGENER, Red Cross Nutrition Worker.

S. A. WOMAN SHOT

Mrs. Helen Clark, who is claimed to be a resident of San Antonio, died Friday night last in Del Rio, where she had been taken by companions after she woman had been shot and wounded, accidentally it is claimed. According to the San Antonio Express the woman is supposed to have made a statement regarding the shooting, saying it was accidental. The party of which she was a member was travelling to Del Rio in a car, and consisted of H. A. Hite, B. Yaeger, and Mrs. M. King of San Antonio. The party were at Perdido, ten miles west of Brackett on the

Brackett-Del Rio road, and Mrs. Clark is said to have shot herself accidentally in taking a pistol out of the side pocket of the car. The two men in the party were held while an investigation was conducted. They were later released.

**OUR SCHOOL.**

On the first page of this issue we publish in full an Act of the present Legislature by which is created a new Brackett Independent School District that absorbs the older one and takes in much more territory. This move was necessary, any one cognizant with the financial condition of school knew. To continue on the old basis meant no school next year. It was impossible to run the school on the old financial basis with the tax rate as high as it could be placed. Enlargement of the district was the only method open, and it was taken as the solution.

The School Board has already accepted the new condition and one of their first acts was to pass an order to use the county valuations and elected the County Tax Assessor to take the re-valuation. This means reducing the tax values given last year, and a general saving to all the tax payers in the district.

In the second place an election has already been called for March 31st to place the tax rate not in excess of 50 cents on the \$100 valuation. There is no doubt the measure will carry. Anyone who has been paying \$1.00 on the \$100 valuation—and increased valuation at that—realizes it is to his interest to favor the proposition and save money. This election means reduction of school taxes 50 per cent or more.

Great care was exercised in laying out in the district so as to be fair and square in the distribution of the territory with our school house as a center. A measurement on the map will show that all four corners of the new district have approximately the same distance to the school house.

The new district will be better prepared now than ever to take care of all the children attending the school from all portions of county. Besides this we are taking care of all the school children from Fort Clark, and our school has been a great asset to the Army people here, this being a matter of record with the War Department. The benefit and work of our school is well understood and appreciated by them.

Our forefathers knew well the value of education, and they considered it as a fundamental pillar of the constitution. They accepted it as the greatest progressive measure and a means of enlightenment and democracy. They pledged themselves to its cause; knowing that their children would profit thereby. We must do the same and assist the cause of education. To make the government better educate the children—it's future citizens.

**MRS. JOHN SHEEDY**

Mrs. John Sheedy, daughter of Mr. and Mrs. Chas. K. Sims, pioneer citizens of this community, died Friday, March 10th, after an illness of several years. Mrs. Sheedy during her illness had suffered greatly and underwent several operations, with only temporary relief. Death was not unexpected, as her condition had taken a turn for the worse the last few days preceding her decease. Mrs. Sheedy was 45 years old at the time of her death.

Burial of the remains was accomplished Saturday afternoon, March 10th, at 2:30 P. M. from the family residence, Rev. Father Martin conducting these services. A large number of friends and relatives paid final tribute to the deceased. Burial was made in the local cemetery.

Surviving Mrs. Sheedy are her parents, Mr. and Mrs. C. K. Sims, her husband John Sheedy and two sons, Eddie and Johnie, and other relatives. To these in union with this paper is extended the sincere sympathy of our people. Mrs. Sheedy was a good christian woman, patient and good-natured; and even long suf-

fering could not dim the genial sunshine in her soul.

**CARD OF THANKS**

To these kind souls who by tender acts, words and ministries during the illness and death of our loved one, Mrs. John Sheedy, helped us all to bear our cross with Christian fortitude, we express our sincere appreciation. Theirs will be a reward greater than we could ever hope to give. John Sheedy and relatives.

**BURNS HAND WITH ACH**

Will Dooley Friday afternoon accidentally cut a finger of his right hand severely. In attempting to apply first aid, he reached into his medicine cabinet for a bottle of antiseptic, and instead secured one of carbolic acid, which he poured over the finger and part of his hand. The acid severely burned his hand, and he was forced by the pain of his injury to summon a physician. He is at present still going to the hospital to have his hand treated and states that as it is improving considerable he hopes within a couple of weeks to get some use out of it.

**A PARAMOUNT PICTURE**

Thrilling escapes from tigers and other wild animals of the jungles, perfect reproduction of many of the most famed of the temples of India, and a story as breathless as it is intriguing are some of the features of massive Paramount picture, "Above All Law" which comes to the Star Theatre next Tuesday. The story tells of a powerful Indian prince who, believing his wife to be unfaithful, plans to build a magnificent tomb and bury her alive. Then high dramatic action begins. Don't miss it.

Measure Formed to Aid Agricultural Interests of the Country.

Washington.—Both the senate and house approved the conference report on the farm credits bill Saturday, and President Harding signed the bill Sunday.

It was late Saturday night that the safety of the legislation was assured through the adoption, without a record vote, of the conference agreement by the senate. The house a few hours previous had approved it, 277 to 34.

Appropriations of the present session aggregated \$3,939,809,026.80, according to a statement by Senator Overman of North Carolina, ranking democrat on the senate appropriations committee. He said this was an increase of \$264,800,000 over those for the present fiscal year and much larger than the last pre war year of 1915, when the total was \$1,107,000,000.

The \$156,000,000 deficiency bill, with its appropriation of \$400,000 for the federal coal commission was prepared during the morning for transmission to the president. Another bill to which final approval was given was that of Senator Borah, republican, Idaho, extending the authority of the coal commission.

Washington.—The farm credits bill, proposing to establish two new banking systems, one government and the other private, to meet the financial needs of the agricultural industry, was passed Thursday by the house.

The vote was 305 to 36, chief opposition being registered by members from New York and the New England States.

The new federal banking system proposed would consist of 12 "intermediate credit banks" located in the same cities as the Federal Farm Loan banks, and with a capital of \$5,000,000 each. They would be authorized to issue tax free debentures up to a total of \$600,000,000, giving them aggregate resources of \$660,000,000, or nearly twice the amount which the war finance corporation has been called upon to advance to the agricultural industry.

Private credit corporations which will be authorized by the bill would have a capital of not less than \$250,000 each and their number would be unlimited.

It is these organizations that will make advances to producers of live stock on long term paper. There also would be private discount corporations having a capital stock of not less than \$1,000,000 each. Under an amendment adopted by the house the war finance corporation would continue to function until next January 31, by which time it is assumed that the new farm credit systems will be in operation.

**German Debt Grows**  
Berlin.—Germany's floating debt, during the 10 days ending February 20 increased by 514,000,000,000 marks. This brings the total to 2,229,800,000,000 marks.

Fifty per cent of the miners in the Ruhr Valley of Germany, are to be given a vacation on full pay during March and the others are to be granted April on the same terms, according to information received by the French. It is conceded that such vacations would reduce the present production of the Ruhr mines approximately one-half, or to about one-fourth of normal.

**Big Sum for Navy Program**  
Washington.—Appropriations aggregating \$20,950,000 for modernization of battleships and reimbursement of contractors as a result of the naval scrapping program under the Washington arms conference treaty were approved Friday by the senate. The house previously had approved the items.

**New Rail Commissioners Named**  
Austin, Tex.—W. M. W. Splawn, professor at the university of Texas, and W. A. Nabors, of Wimsboro were Tuesday appointed railroad commissioners to succeed Earle B. Mayfield, resigned, and Allison Mayfield, deceased. The former will succeed Earle B. Mayfield, while the latter will succeed Allison Mayfield.

**Modernize Battleships**  
Washington.—Appropriations aggregating \$20,950,000 for modernization of battleships and reimbursement of contractors as a result of the naval scrapping program under the Washington arms conference treaty were approved Friday by the senate. The house previously had approved the items.

**Gets Insurance Credit**  
Smithville, Tex.—Smithville has been given a three per cent insurance credit on fire insurance rates beginning March 1. This credit is the result of small fire losses and a well equipped volunteer fire department.

**Board of Equalization Named**  
Hempstead, Tex.—The board of trustees of Hempstead School District has elected J. H. Garrett, Sr., G. M. Lay and Jesse Sapp to serve as a board of equalization for 1923.

### WASHINGTON NEWS.

The senate naval omnibus bill was passed Friday by the house. It provides, among other things, for determination by the secretary of navy of claims of contractors against the navy for work done during the war and for the sale of naval aviation fields at Galveston, Texas; Lake Hurst, N. J.; Quantico, Va., and Chatham, Mass.

The army appropriation bill which carries an appropriation of \$56,580,000 for rivers and harbors projects was signed Saturday by President Harding.

Relief for the Kansas City, Mexican and Orient railroad through authorization for an additional loan of \$2,000,000 from the government revolving fund was authorized in a bill passed Friday by the senate.

President Harding Friday signed the Red River leasing bill. Friday and has awarded Tom Testerman of Oklahoma, who is said to have produced the first well in what is now the government area, the pen with which the executive signature was affixed. Claimants will have sixty days within which to file their papers with the secretary of the interior.

The contested nomination of Walter L. Cohen, negro republican leader of Louisiana to be customs controller at New Orleans, was finally defeated Friday by the senate, which rejected the president's nomination. The vote on the confirmation of Cohen was 27 to 35, it was reported, with a few republicans joining the bulk of the democrats in defeating the nomination.

The farm credits bill, proposing to establish two new banking systems, one government and the other private, to meet the financial needs of the agricultural industry, was passed.

Brigadier General Frank T. Hines, retired, was nominated Tuesday by President Harding to become director of the veterans' bureau, succeeding C. R. Forbes.

**STATE AND DOMESTIC NEWS**  
Alvin Owsley, national commander of the American Legion, Friday announced the appointment of all national committees for the session to serve during the coming year. Wayne Davis of San Antonio was appointed head of the legislative committee.

The bodies of six miners were recovered Saturday from the mine of the Weyanoke Coal and Coke company at Arsta, Mercer county, Virginia, Friday which was shaken by a heavy explosion. Hope for rescuing alive five other miners of the 38 entombed by the blast was abandoned when rescue workers said they were unable to reach the section of the mine where the men were at work when the explosion occurred.

Business failures in the United States for the year 1922 totaled 22,415, an increase of 11.9 per cent over 1921, when there were 20,014 failures throughout the country.

**FOREIGN NEWS.**  
"The coming year may just as well be one of war as one of peace," declared Mustapha Kemal Pasha, the Turkish nationalist leader in his anniversary address to the grand national assembly at Angora Friday. Kemal said that if peace attained the nation would devote itself to reconstruction. The policy of last year, of not seeking foreign loans, would be followed consistently, while the strengthening of relations with sister nations like Afghanistan and Persia would be one of the foremost aims of the government, which likewise was consolidating its sincere relations with Russia."

**New Type Derrick in Texas**  
Houston, Tex.—The California type derrick has made its appearance in the gulf coast fields of Texas. New derricks erected by the Humble Company on its Abel lease at Hull have established the fashion with balconies around the furler boards and crown blocks. Derricks with balconies are required by law in California but not in Texas. In the former state they were adopted as a safety measure for the protection of life and limb of derrick men.

**Fort Worth Stock Market**  
Fort Worth, Tex.—Calves suffered a decline of 25c to 50c Friday but on cattle the market held to a generally steady level, and most of the run of 1,300 head of cattle and 250 calves cleared in fair season. Steers in the navy yards ranged up to \$8, and several cars of South Texas steers brought \$6. Two cars of tippy yearlings went at \$8.25 and a few loads cleared at \$7 to \$7.25. Strictly tippy hogs were here, and nothing could beat \$8.15.

**ADJOURNMENT OF 67TH CONGRESS**

President Signs Farm Credits Measure and Many Others—Closing Scenes.

Washington, June 29.—The sixty-seventh congress, which had spent a greater proportion of its two-year span of life in action than any other in the history of the country, adjourned sine die, at noon Sunday.

During the few hours of the session President Harding, spending part of the time at the capitol, signed the farm credits bill, the Sweet bill for the liberalization of the veterans' bureau act and other measures. No legislation was vetoed.

Vice President Coolidge's gavel fell sharply at noon, after an almost continuous morning session of two months, and the house adjourned at 12:06 p. m. after a concert by a section of the Marine Band and a chorus of popular songs by members and spectators.

The president reached the capitol at 11:25 o'clock and was kept busy reading and signing the final avalanche of bills. The last bill to become law was the "better butter" measure, changing butter fat standards. An important measure placed on the statute books at the last moment was the one providing for return to enemy alien owners of all seized property worth \$10,000 or less.

Reassembling at 10 o'clock, the senate heard "swan songs" by Senators Frelinghuysen, republican, of New Jersey, and Sutherland, of West Virginia, tributes to Speaker Williams, democrat, of Mississippi, by his colleague, Senator Harrison, of Mississippi, and tried vainly to pass a few more bills. A fifteen-minute filibuster by Senator Hill, democrat, of South Carolina, delayed the proceedings before the vice-president's gavel fell in the midst of Senator Dial's speech against an omnibus pension bill pressed by Senator Bursum, republican, of New Mexico.

Previously, Senators Lodge, of Massachusetts, and Robinson of Arkansas, republican and democratic leaders, appointed to confer with President Harding, had advised the senate that the president had "no more communications to make." Mr. Coolidge declared the senate adjourned "without day."

The final hours in the house were more colorful. The Marine Orchestra playing in the "well" vied for favor with a hastily organized quartet of members whose rendition of old favorites soon drew the entire house and most of the spectators, who overflowed the galleries onto the floor.

Music had its usual place on the Marine Orchestra program, and as its stirring strains filled the chamber, cheers went up from the floor and galleries with the piercing "rebel yell" rising above the din. The Southern chorists were led by Representative Ward of North Carolina.

Farewell eulogies occupied much of the time of the hour and a half the figure was in session. Representative Fordney of Michigan, Campbell of Kansas, Kitchen of North Carolina, Alfre Robertson of Oklahoma and Mrs. Huck all were given ovations, but Uncle Joe Cannon received the greatest tribute.

After praises of the retiring veteran of forty-six years of legislative service had been said by Representatives Hicks, republican, of New York, and Sisson, democrat, of Mississippi, Mr. Cannon was escorted down the center aisle by Representative Rudenberg of Illinois, while members and spectators stood, applauding and cheering.

Before the close of the session the democrats were placed in charge of the house while a resolution was adopted by unanimous vote, thanking Speaker Gillett for the "able, impartial and dignified manner" in which he had presided for the past two years. Representative Collier of Mississippi replaced Representative Campbell, the speaker pro tempore, and Representative Garrett of Tennessee, the minority leader, offered the resolution.

**The COTTAGE GARDENER**

**GARDEN CLUBS ARE OF GREAT BENEFIT**

The Co-Operative Organizations Should Be Formed Before Garden Season Begins.

Co-operative garden clubs of two general types—those whose members have their gardens on a large public tract of land and those whose members are backyard gardeners. In either case, the important thing is the "get-together" spirit among neighbors, the cultivation of the feeling that something is to be gained by a knowledge of what one's acquaintances are accomplishing.

The organization should be perfected before the garden season begins, and all practical details attended to.

Discussing Planting Methods.

Such as arranging for the use of land or purchasing materials. A membership fee of 50 cents to \$1 is frequently paid. A director, business manager, general supervisor or treasurer of the club should be elected, and in many cases it is well to hire a trained garden specialist to give instruction, at least at the start, thinks the United States Department of Agriculture.

Where a group of gardens is located on one piece of land, it is often necessary to provide special means for financing the cleaning up of the land, moving and fitting the soil, and later for the policing of the gardens to prevent losses from theft or stray stock.

Clubs consisting of neighbors who plant gardens in their back yards must include provision for rendering a distinct service to their members. This service consists of the purchase of manure for fertilizer, plowing, supplying seeds or early plants. In a few instances the spraying of crops to control insects and diseases has been handled in a co-operative way, applying the spray wherever needed.

**POINTS ON GARDEN PLANNING**

**Industrious Soil Worker Should Make Plans on Paper While Ground is Frozen.**

A garden laid out according to plan usually gives twice as many returns besides saving a lot of time in figuring out where to plant and what to plant next. "Take a tape or yard stick and measure off the garden." Draw it to scale on paper and figure out while the ground is still frozen just where everything is to go and what crops are to succeed others.

If the garden space is small, say as small as 10 by 10 feet, it is a question of which vegetable will yield the most returns. A surprisingly large amount of vegetables can be grown in even this small space.

It is well to decide upon two main crops which may be grown at the same time or as a succession. Tomatoes and string beans offer a good solution with freshes, lettuce and young onions as the first crop, the tomatoes and beans to follow. The beans taking comparatively little nourishment from the soil compared with other vegetables may be grown in rows between the tomatoes, which should be placed three feet apart each way and trained to single stems tied to stumps at least five feet high. When the string beans have been harvested there will be opportunity to follow with crops of turnips or carrots for fall. A dozen tomato plants can be grown in this space, leaving plenty of room for the other crops between the rows. From a dozen well-grown tomato vines a lot of fruit may be harvested during the season.

If string beans are not desired, carrots, beets or turnips might be put in.

In planning the garden, particularly a small one, it is best to run the rows north and south to get a better distribution of sunlight and so that one row does not cut off the supply of sunshine from another, which often happens when the rows are run east and west, and taller vegetables are placed to the south end.

"My Digestion Is Sound as a Dollar Since Taking Tanlac," Declares Buffalo Citizen.

"There is no doubt about it, Tanlac does all they claim it will do—and more," was the positive statement made recently by the Richard H. Lawson, well-known engineer, of 1007 Elmwood Ave., Buffalo, N. Y.

"I used Tanlac for a combination of troubles and it put me in splendid condition all the way round. First, I had a bad case of stomach trouble, was simply chock full of sourness and gas, had a general distressed feeling and a burning pain in my stomach that I couldn't get rid of. With my appetite wrecked and digestion gone, I became awfully weak, nervous and run down and could get scarcely any rest or sleep at all.

"Tanlac answered every demand made upon it in my case and today my digestion is sound as a dollar. I have an immense appetite, and with every ache and pain gone, I am sleeping fine, and feeling strong and energetic as of old. Tanlac is 100% good."

**Baby Was Pale and He Did Not Seem to Grow**

If the baby's stomach is out of order he does not assimilate his food and stops growing. This was the trouble with Mrs. A. L. Williams' baby. Mrs. Williams lives at Racepond, Ga., and writes:

"My baby never seemed to grow and was pale and sallow. My sister told me to give him Teethina, as she gave it to her baby, who is as fat as a pig. I took her advice, and in a week my baby was completely changed. His complexion cleared up and he started growing."

Teethina corrected her baby's stomach trouble so he could digest and assimilate his food, which is absolutely essential to baby's health and growth.

You can increase the number of times each exercise is performed. Close the eyes tightly, then open, alternating five times. Close the eyes and gently rub your fingers over the lids, rubbing from the nose outward. These exercises are simple and easy.—Los Angeles Times.

Dr. Brander Matthews, the famous critic, said at a Columbia tea: "The school of French novelists that is passing—the school of Anatole France, and Loti and Mirabeau and Maupassant—was very brilliant, certainly, but its philosophy wasn't cheering.

"Those men remind me of an anecdote. A young chap had proposed to a beautiful girl. The girl, blushing and weeping a little, had accepted him. He folded her in his arms, pressed his lips to hers and whispered: "Dearest, is this the first time you have ever loved?" "Yes," the girl sighed, "but it's so nice that I hope it won't be the last."

**Pearls Long Imitated.**  
The imitation of pearls is not a new industry, but was carried on centuries ago. In the inventory of the jewels of a French lady of high degree in 1731 there is named "un collier de perles fausses," a necklace of false pearls, but more than a century earlier pearls were made in France by a jeweler named Jaquin, and so successful was the manufacturer, it was said the finer ones were bought up by the dealers of Asia and became rare in France.

**New Aluminum Ore.**  
Aluminum is not found in a pure form, but in combination, chiefly as an oxide in the mineral corundum (ruby, sapphire and emerald); hydrated oxide in bauxite, hydrargillite and diaspore; hydrated phosphate in wavelite; hydrous sulphate in combination with potash in alunite and in combination with oxygen and metals as aluminates, as in spinel, chrysoberyl and garnet. It also is found as a silicate in various clays. Its chief ore is bauxite.

**Island Brings Bride Luck.**  
A romantic superstition has earned for Norfolk Island, in the Pacific Ocean, the nickname of "Honeymoon Island." It is believed that a bride who spends her first month of married life there will be assured of long life, health, wealth and happiness.

**Wrong Start.**  
A pessimist is a fellow who, when told that he should cheer up, as things are not as bad as they look, replies: "No, but they seem so."—Vanderbilt News.

**A Poet With Good Sense.**  
If such a man as Corneille lived in my time I would make him my prime minister. It is not his poetry I admire so much, but his good sense, his knowledge of the human heart and, in a word, his profound policy.—Napoleon.

**Why the Moon is Avid.**  
The moon is a smaller globe than the earth. Its gravity is only one-sixth of that of ours. As a consequence the atmospheric pressure normal to the moon is far too low to condense water. Steam issuing from a vent remains steam. The internal forces of the steam's molecules are greater than the attractive force of the moon. Steam flew away as it emerged, leaving the moon arid and waterless.—Chicago Tribune.

**Common and Preferred Stock.**  
Preferred stock in a corporation is a share which is entitled to a dividend before any other dividend is payable. The amount of the dividend is limited, however. Common stock receives its dividend after the preferred stock, but the dividend is not limited. Holders of preferred and common stock in a company are contributors to its capital and are members of the corporation.
