## Mullin Defeated Carbon Here Saturday Nite

The Carbon Wolverines played their first game of the season against Mullin here last Saturday night. Mullin made two touchdowns in the first three minutes of the ball game before our boys settled down.

Bobby Carlton ran 30-yards for our only score. The final score of 36-6 was not a true indication of the closeness of the game. Our team is mostly freshmen and sophomores while Mullin played like a mid season team. After our boys settled down they played some good defensive and offensive football.

We play Rochelle there Friday night, Sept. 15 at 8 o'clock and play Sidney there on Thursday night, Sept. 21.

### All Automobile Accidents Must Be Reported On

AUSTIN—Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, reminded Texans today of the change in the Motor Vehicle Laws which makes accidents occurring on parking lots reportable to the DPS.

Under the new section of the law, which became effective Aug. 28, for immediate investigation and a written report filed with the DPS within 10 days. Forms for reporting are available from any police agency.

Accidents occurring on shopping center parking lots and those in areas where a particular store has provided free parking space are re-

portable provided that any injury or death has occurred or there is a total of \$50 or more in property damage. The only accidents which are exempted under the new law are those occurring in private residential driveways or on a privately owned parking lot where a fee is charged for parking.

## GORDON SPOT

By DEE GORDON Eastland County Agent

A general rain that measured from one to three inches fell over this region Sunday and Monday nights to assure peanut farmers a good yield and to permit plowing and planting of small gains and cover crops.

Eastland had 1.01 inches Sunday night and Monday; .63 Tuesday and .60 Wednesday morning, to bring Septembers total to 2.24. Wednesday's forecast was rain according to Official Weather Observer Wallace Greiger.

Eastland logged its first completely dry August since 1943 to bring the year's total rainfall to 18.71, some four inches below the 1966 total for the same period and almost two inches below the average for the period.

It was the first month without measurable rainfall since

July, 1965.

The rain gauges showed 2.1 inches in Cisco, 2.4 inches for Eastland, one inch at Gorman and Carbon, 1.8 inches for Putnam, two inches at Ranger, 1.5 inches at Moran, and up to three inches in Morton Valley and elsewhere in the County.

Farm leaders said the county's some 35,000 acres of peanuts were assured a good crop as a result of the rain. Near drought conditions had been threatening peanuts not in irrigated areas.

Some peanut harvesting was expected to begin late this month in areas where fields have been watered by irrigation. Dry land peanuts normally are harvested in October.

Dry pastures will have time to put out some green growth before frost and stock tanks were mostly in good condition. Plowing was due to start as soon as dry weather permits,

### PROCEDURE IS OUTLINED FOR OBTAINING DRIVER'S LICENSE

AUSTIN—Col. Homer Garrison director of the Department of Public Safety, reminded Texans today that any person, regardless of age, must have a birth certificate or other legal document showing birthdate in possession at the time they first make application for a driver's license.

"Apparently many applicants are unfamiliar with this new requirement in the law, Garrison advised, "and large numbers of prospective drivers are being turned away until they return home and get such a document. This part of the law applies only to those drivers who make application for their first Texas driver's license, and not to those wishing to renew a license.

Garrison outlined the procedure to be followed to obtain a license in order to clear up any misconceptions

brought about by changes in the driver's license law.

First, the applicant must be the proper age. A person 16 years old may obtain a license provided he has completed an approved course of driver education or has a certificate showing that such a course is not taught at the school regularly attended by the applicant. Persons 13 years of age or older may qualify for an Operators License without taking driver education. Persons 15 years of age or older may be licensed to operate a 5-brake horsepower motor scooter.

The applicant, with the necessary birth certificate, goes to any examining office of the DPS. If he wishes to take the driving portion of the examination, he must provide a vehicle in which to be tested. After Jan. 1, 1968, applicants for the motorcycle li-

ense must provide, in addition to the motorcycle, a car and a licensed driver to convey the License Examiner during the road test.

Upon arriving at the Examining Office, the applicant will fill in necessary forms and be given a vision test and a written test. If he completes both of these satisfactorily he will be given the road test. If he completes all phases of the examination satisfactorily, he will be issued a temporary permit which will enable him to drive until receiving his license from DPS headquarters in Austin. If the person has not had sufficient experience in operating a vehicle, he may pass the written and vision portions of the examination and be given a temporary learner's permit which will enable him to drive as long as a licensed operator over the age of 21 is in the front seat of the vehicle at the same time.

Pearls are weighed by grains; diamonds by carats.
