### SPUR COUNTRY FINEST COUNTRY IN AMERICA

H. C. Allen returned Thursday from Pecos, Carsbad and other New Mexico points where he has been spending the past two weeks. He stated that he is now better satisfied with the Spur country than he has ever been before. He says that country is very dry, and even where they have been irrigating the crops do not compare with the crops of the Spur country. We have always known that the Spur country is the finest country in America.

### SHERIFF OF BAYLOR CO. KILLED BY NEGRO

Monday of this week Sheriff Ellis, of Baylor county was killed by a negro. Sheriff Ellis and two deputies had gone out four miles south of Seymour with the negro hand-cuffed for the purpose of permitting the negro to secure a gun hidden and which he had stolen. The negro proposed to get the gun if the sheriff would take off his hand-cuff and let the two deputies stay behind. After leaving the deputies the negro secured the sheriff's pistol in some manner, shooting the sheriff several times and failing to kill him in this manner jumped on him and with his feet stamped the sheriff to death. The two deputies arrived at the scene in time to see the negro going over the hill and making his escape. Later a posse of citizens overtook the negro, riddled him with bullets and later burned his body. Feeling is pretty high in Seymour and it is reported that every negro in the town has gone.

### SAM OWEN DIED SATURDAY NIGHT IN SPUR

Sam Owen died Saturday night at his home in the western suburbs of Spur, and the remains were interred Sunday in the Spur Cemetery. He had been in ill health for some time but his death at this time was unexpected.

Sam Owen settled a ranch home twelve miles southwest of Spur sixteen or seventeen years ago, coming to this country from San Saba county. Later he moved with his family to Canada where he spent five years and where he now also owns a ranch home, returning last year to Spur where he has since made his home. He was about sixty years of age at the time of his death. He leaves a wife and several children to mourn his death.

Sam Owen was a good citizen and was from one of the very best families in the state of Texas. We have known the Owen family all of our life. There are no better people, and in their death the country sustains a real loss. To the bereaved family we extend our sincere sympathy.

### CARD OF THANKS.

We wish to extend our heart felt thanks and appreciation to friends and all who assisted and extended us kindnesses and sympathy during the illness and death our husband and father.—Mrs. Sam Owen and Mrs. J. B. Morrison.

### DO NOT THROW AWAY GOOD MONEY

By buying cheap Wagons and Buggies when you can get one of the celebrated standard makes from us right here in your own home town.

You are protected by a guarantee of absolute satisfaction when you buy a Peter Schuttler Wagon or a Banner Buggy, and you can always depend upon getting value received for your money.

We have a car of these buggies just in and will have a car of these Wagons in this coming week, so be sure and see us before you buy that Wagon or Buggy.

Take your choice. There's a Full Measure of Satisfaction in Shoe in the Store. A fit for every Foot and every purse, so come along and let us fit you up. We have just received our Fall line of Shoes and can satisfy your wants, and if it is a pair of Slippers you want don't forget that we are making a special price on all Slippers, and the price will move them.

In Accents Mild We Modestly Proclaim that we are positively Headquarters for Staple and Fancy Groceries, and while we do not claim to have cornered the market when we whisper softly in your ear OUR PRICES you will wonder how we do it.

Some of you will remember that we told you some two weeks ago that you had better buy that Flour while we were selling it at \$3.50 per hundred, as it was going up and we held the price down until last Saturday to give you a chance. Some of you took advantage of this and satisfied your wants, but some of you did not, so don't blame us when you have to pay \$4.00 per hundred for this Flour.

We are glad to announce to our Lady customers (the widows especially) that our Uncle Bill Perry is back on the job, after spending some two weeks on the creek fishing, and from his looks we believe he is going to Fish hard after your grocery trade, and if his smiles and our prices don't get it we will be fooled.

### HIGHWAY MEETING IN SPUR NEXT MONDAY

A meeting of the Fort Worth Roswell Highway Association will be held in Spur Monday, August 14th, at two o'clock at the directors room of the Spur National Bank. Delegates from the various counties along the route of the auto highway will be in attendance. In the evening a dinner will be served at the Spur Inn.

This meeting is for the purpose of further promoting the interests of the highway now being built from Fort Worth through Spur, Girard, Jayton, Aspermont, Peacock, Swenson and other towns both east and west of Spur.

Work is now in progress on this highway through Dickens county and a considerable portion of the roadway has already been graded between Spur and Girard. The grading work west of Spur and to the Crosby county line will be commenced at once. Bridges and culverts are now being put in along the route, and when complete Dickens county can boast of as fine roadway as any other county in Western Texas.

### A SMALL FIRE AT THE NEW GIN BUILDING

A fire originated early Monday night in the new office building of the J. W. Baker gin now being constructed in the southwest part of town. The office building had just been completed, the workmen had quit for the day, and in changing clothes they were thrown in a corner of the building, and probably a cigarette stub or a match carelessly thrown down set fire to the clothing. A small hole was burned in the wall of the building. W. S. Hunter discovered the fire and had it put out by the time others came to the fire.

### NEW SCHOOL BUILDING IN DRY LAKE COUNTRY

### ANOTHER BRICK BUSINESS HOUSE NOW GOING UP

Work was commenced this week in the construction of another brick business house on the east side of Burlington avenue and adjoining the Luce building. This house is being constructed for J. C. Keller of the Riter Hardware Company and will probably be occupied later by this firm.

Conductor Keith, of the Stamford & Northwestern Railway Company, is also having his frame building vacated for the purpose of building a brick and it is presumed that the work on this building will also begin within the next day or two.

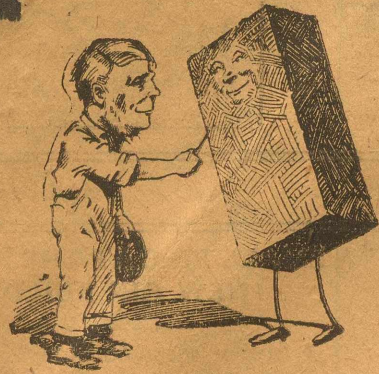

The building progress in the city continues uninterruptedly and in the most substantial manner.

**SHOW THIS TO THE YOUNG FOLKS**

A beautiful legend of Niagra comes to us from the Indians. They tell us, that in the olden times among the Indians, it was the custom to offer a sacrifice yearly to the Great Spirit of the Falls. They thought they caught glimpses of the Great Spirit in the mist that rises, and in the rainbow that hovers about the falls when the sun or moon shines. The sacrifice was the most beautiful and gentle girl in the tribe, and the final decision was by lot. One year the lot fell on the daughter of the chief of the tribe, whose wife was dead. He showed no sign of surprise or sorrow, although life without his only child would be dreary and empty. He realized, however, how alarmed and how horrified she would be at the fate which awaited her. The shouts of the worshippers might drown her cries, but the dizzy depth of the cascade was appalling. As the little canoe was pushed out into the rapids above the falls for its fatal plunge, no sign of her father appeared. Where was he? Would he not at least give her one parting word? Suddenly another canoe shot out from the bushes, and with strong strokes was pushed alongside the one containing the victim. Would the father rescue her? No, he ran his canoe alongside her's—then threw away his paddle! He would die for her! What a beautiful picture of parental love and sacrifice! Yet, this is but one illustration of millions of cases, where that same love is demonstrated, in a lesser degree, possibly, but the same nevertheless, every year, every day. The world has come to expect parental sacrifices, they are so common, so looked on almost unmoved, while even the children, the recipients of love's tribute, do not always recognize, and only seldom acknowledge it. Some recognize, but trample under foot the thousands of heroic things done for them—comparatively few appreciate what parents do for them, and seek to reciprocate as fast as possible. How many cases could be noted if all facts were at hand where parents have worked and sacrificed for a score of years that their children might have a good time while young, often denying themselves all comforts, and even things necessary for health, in order to give the children more pleasure and greater advantage? And who has never heard of such parents being treated with gross disrespect by the children, in some cases, even maltreated when old and helpless, and cases have been known among so-called civilized people where parents have spent their last years in the poorhouse, while their children for whom they had worked and sacrificed, were living in comparative ease and comfort. The world claims to love heroes and heroines, and while honors well placed, none should forget that millions of heroes and heroines are living among us and about us, working and sacrificing and rearing their children through sacrifices as great, in the aggregate, as any battlefield hero could make, for they give time, strength, comfort, and all that go to make up life itself, satis-

fied to cripple along in poor health during what should be the best years of their lives, if their children may have the comforts and honors of life. High in the annals of heroism and sacrifices for others should be seen the names and memories of fathers and mothers.—Word and Works.

**LETTER FROM W. S. TAYLOR IN COLORADO**

Colo. Springs, Colo., Aug. 4. Mr. Oran McClure, Spur, Texas, Friend Oran:

As many of our friends who read the Texas Spur would like to know how we are getting along, I thought I would drop a few lines to the Spur for publication. We left Spur July 17th with our baby Jack very sick with bowel trouble. Our trip has been a success so far, for he has mended every day since we started.

All the country was very dry and hot 'till we reached Dalhart, Texas. There the rain met us and the roads were wet to Raton, New Mexico. We crossed the Rockies to Trinidad, Colorado, found a nice place to camp in Central Park, and rested Saturday and Sunday, then continued our journey on, camping one night at Pueblo, thence to Colorado Springs.

The trip was a most delightful one; no car trouble at all, and tho' a long way from Spur, we felt at home at every camping place. At Clayton, New Mexico, we met up with old friends and neighbors, Mr. and Mrs. Jim Kerlin, of the Flying A Ranch.

We wish to express our sincere thanks to those kind friends of Spur, who helped us make this trip, especially do we thank Messrs. John Luce, J. J. Martin, Geo. S. Link, E. C. Edmonds and Dr. Standifer, who helped us where we couldn't help ourselves.

Baby Jack is walking around the camp now. When we left home we had to raise his head to give him medicine, and tho he is almost restored to health in this country, yet I would not give the Spur country and people for any part between here and Spur.

Please send me the last three issues of the "Spur." We feel lonesome without the "Spur." We have a splendid place to camp here at Colorado Springs. We spend the nights here and go up in the Canyons in the day time where the air is cooler. We expect to start home in about two weeks.

With best wishes for the Spur people and the Texas Spur, we are very sincerely yours,

W. S. Taylor and Wife.

**ASPERMONT AND SPUR.**

The Aspermont ball team is now in Spur for a series of 3 games with the Spur team, Thursday, Friday and Saturday of this week. The game Thursday resulted in two scores each after playing twelve innings to break the tie.

J. P. Gibson was among the number of business visitors to Spur this week.

W. D. Eldredge, of near McAdoo, was in Spur Friday of this week.

L. W. Langston, of Davidson, Oklahoma, was in the Spur country recently visiting at the home of J. C. Weir and family. Mr. Langston liked this country, had the Texas Spur sent to his address and the probability is that he will later move to this section and locate a home. We extend him a hearty welcome and assure him that he will prosper with the great majority of the citizenship.

# Wood Cutting Prohibited On Spur Lands!

Notice is Hereby Given That Any Person Who Cuts Wood of Any Kind Whatever From Any of Our Lands Any Where Now or Hereafter will Be Prosecuted to the Fullest Extent of the Law Without Favor or Consideration

**IN** Some localities in past years, the lands have been shamefully cut over, regardless of our rights, and those of purchasers of land not occupied. Many otherwise honest men, have come to think that what others have done, without a penalty resulting, they can also do, and there is an increasing disposition to appropriate wood wherever it can be found, no matter to whom it belongs. This must and will be stopped. We must protect the people who have already bought Spur Lands, and those who will hereafter buy them, from this wood cutting.

Some people pretend to think there is no objection to it. This is, therefore, public notice that no one has our permission to cut, saw, grub, break down or gather wood of any kind whatever from our lands anywhere, and that prosecution will certainly follow trespassers hereafter without favor.

### STATE TAX RATE FOR NEXT YEAR 45 CENTS

Austin, Texas, July 31.—Ad valorem tax rate 20c, school tax rate 20c, pension tax rate 5c; total 45c.

The State Automatic Tax Board today fixed the tax rates for the ensuing year at the foregoing amounts. The ad valorem tax is 10 cents less than a year ago, while that for schools and pensions remain the same. The total assessed valuation is estimated at \$2,754,313,023, based on reports from 288 counties.

A total State tax rate of 45c should produce \$12,283,408 as the aggregate State taxes, divided as follows: Ad valorem purposes \$5,377,626, schools the same and pensions \$1,377,156. Those amounts are not net, as it costs about 20 per cent to assess and collect the taxes in this state, making a deduction of approximately \$2,478,881. The reduction of 10 cents in aggregate State taxes reduces the total amount collected from the taxpayers under last year of about \$2,868,411.

The Comptroller calculated that the appropriations out of the general revenue during the fiscal year ending August 31, 1917, would total \$7,299,788. The net ad valorem collections after deducting 20 per cent expense load, amount to \$4,406,901. But to that is added \$3,254,324 of revenue gathered from other sources, or a grand total of \$7,661,225. The last materially exceeds the appropriation requisitions and allows for bad collections and deficiency allowances.

In the revenue from other sources is included something

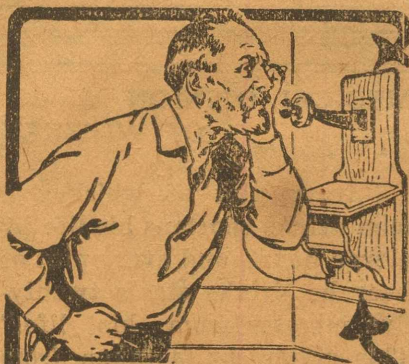

over \$2,000,000, which will be on hand in the state treasury on Sept. 1, to the credit of the general revenue. The remainder is made up of franchise tax and other special tax collections through the various state departments besides \$275,000 from polls.

This year's rate and valuation is designed to produce net \$4,406,901 for the available school fund. That fund has other tax income, such as part of the liquor licenses, polls of \$750,000, etc., which will give it close to \$6,000,000 from tax sources. To this is added something like \$2,811,693 from interest and rental on school lands, also interest on over \$20,000,000 in bonds held by the permanent school fund. The grand total, therefore, for the annual school apportionment is in the neighborhood of \$8,800,000. To be added to the last is \$600,000 cash balance now in the treasury to the credit of available school funds. There must also be taken into consideration the fact there will be no deficit to be paid out of this year's apportionment, as there was last year, when a little over \$1,000,000 was left unpaid from the apportionment made in 1914.

Thus the per capita apportionment for the coming scholastic year will no doubt be more than it was during the year just closed, though there will be close to 120,000 more children within the scholastic age. The new scholastic age is 7 to 17 years, inclusive, against 7 to 16 heretofore. This is expected to raise the total scholastics from 1,129,000 to 1,250,000. The apportionment may go over \$7 per child.

It developed that the general revenue fund has a cash balance today of approximately \$3,728,000.

When all August accounts are paid, the odds and ends of the fiscal year settled and payments made on new buildings authorized it is expected that the general revenue fund will have at least \$2,250,000 on hand on Sept. 1. That is the healthiest amount it has had in many years. It will help meet the appropriation during 1916-17.

### WORLD'S GREATEST FIGHTING SHIP

It may interest Americans to know that the world's greatest fighting ship, pronounced the greatest battleship she has ever known, was delivered to the U. S. Government on June 1. An American magazine writer says the Pennsylvania takes her place upon the waters of the earth the superior of any other craft that floats. Not only is the Pennsylvania the biggest battleship in the world, but she has the capacity of hurling the

greatest weight of destructive shells and of all the nations of the world that enter the list as fighters upon the sea not one has a ship that equals the Pennsylvania in power. The ship mounts twelve great guns of fourteen-inch caliber, she is 600 feet long and 97 feet in width and is manned by 911 American seamen, 75 marines, 40 petty officers, 12 warrant officers, 18 junior officers, 25 wardroom officers or a population of 1,121 men. She has a speed of twenty one knots, she is 13,400 tons of floating steel and in this one mighty ship has gone 8 cents for each man, woman and child beneath the flag, because she has cost \$13,000,000. Sea Power says so, and Sea Power is a magazine for the nation's defense. A fleet of Pennsylvanias should be able to sweep the seas.

W. H. L. Ward returned to Spur Tuesday from the plains country near McAdoo where he has been the past month building a new farm house on the Riley Wooten farm in that section. Riley Wooten also had his farm home remodeled and some additions made to the home.

In every section of the country the building improvement progress is in evidence. There is no section of country in all of western Texas which is now making more substantial and rapid development progress than the great Spur country.

**VERNON DEPOSITS ARE BURGLARIZED**

Last Sunday morning, early, during the absence of the night operator, some one entered the Frisco ticket office and took \$18.50 from the drawer. Entrance was made through a window and it is thought by a party who knew well the conditions there.

On the following morning at just a little past this hour the Denver lost \$107 from the ticket drawer. In this instance the robber entered at the door while the agent was out waiting on the morning train. A lady in the waiting room saw a strange man enter the office but never thought but that he was one of the regular office men, and therefore, took no notice of the man.

There is no clue whatever to either of these bold burglaries, but it is believed that they were committed by the same man. The officers are at work upon both cases but as yet have nothing to report.—Vernon Record.

**MEDICAL OPINION OF WHISKEY**

"Every pint of whiskey a man drinks shortens his life by eleven hours, and every pint of beer he drinks steals twenty-five minutes from his life." This statement is taken from "Alcohol—Its Influence on Mind and Body," a book by Edwin F. Bowers M. D., and just off the press of Edward J. Clode, New York.

Dr. Bowers has gathered his facts and statistics from life insurance tables, scientific tests and the experiences of scientists in this country and in the countries of Europe. Dr. Bowers declares that alcohol is neither stimulant, medicine nor food, and that its use, even in the smaller amounts works definite, measurable harm to mind and body. Many thousands of cases of deaths were investigated to arrive at these conclusions.

It is this sort of investigation that is making an outlaw of John Barleycorn in so many states and countries.—Kansas City Star.
