COTTON SOLD AS HIGH AS 42.50 ON SPUR MARKET LAST WEEK

Cotton on the Spur market last week brought as high as forty two and a half cents a pound. Throughout this week the price has ranged around this figure.

Forty two cents a pound sounds like a big price for cotton, but according to the figures of experts it has cost the farmers fifty one cents a pound to produce cotton this year. If it costs fifty one cents to produce cotton it is poor business to rush it on the mar-ket at forty cents a pound. There is not a question but that farmers could get more than fifty cents a pound for cotton if they would refuse to sell it for less. Everything now indicates that the market price will reach fifty cents a pound before the end of the year. This is the time to hold cotton, and the holder is taking very little risk. The trouble is that never before in our day has theprice been as high as forty cents, and everybody is anxious to "get the money."

At the close of the Civil war the and fifty cents a pound—and it may do the same thing again at this the close of the World's war. The whole world is short on cotton, and the spinners must have it regardless of price. We do not believe in "holding up" any body, but if it costs fifty one cents a pound to produce cotton, the producer should have a fair per cent of profit above this figure when he places his staple on the market. If we had a hundred bales we would hold it for fifty cents a pound. The fact of the business is that if we had to sell cotton for less than it cost us to produce it, we would quit the cotton business and engage in the oil business.

Brandford recently. Mrs. Wilcox had been ill for some months

SELL COTTON ONLY AS THE WORLD IS READY FOR IT

The government estimate of ten mil lion six hundred ninety six thousand bales of cotton for this crop is 534,-000 bales less than September 1st. The entime belt is infested with in-sects. Their effect upon the final yield is not yet determined. The damage by the insects may be expected to continue as a surprising factor through the season. A ten million bale crop, or less, is nearly certain. Insect damage results in low grade,

stained cotton. West Texas has prac tically all of the white, high grade cotton in the state and it is selling for two or three cents less than the infe-rior grades in other sections. To provide this the work to coll should remedy this the rush to sell should

The serious question is, where will the supply of raw cotton come from? English spinners say the South made a great mistake in reducing the acre age; that English spinners want four million bales of this crop for their own use, and could use the whole crop own use, and could use the whole crop They are furnishing German spinners cotton to spin into yarn, on commis-sion, and need two million bales or more for that purpose. The mills of the United States want 7,500,000, bales, Japan and Canada at least one million bales. This makes 15,500,000 bales. All want a better grade of cotton than last year's carry over. France, Italy, Belgium, Germany and France, Italy, Belgium, Germany and other countries need four to six million bales.

The carry-over of spinable cotton is estimated to be about three million bales. There is an eighteen to twenty million bale demand, and a possible thirteen million bale supply. The scramble for cotton will soon be ter-

rific. To rush it to market faster than it can be handled is very foolish. These spinners need eight or ten months to buy and pay for this crop. They will buy it faster only at a sac-rifice to the producer and profit to rifice to the producer and profit to themselves. Bankers and merchants are business men and know these are facts. They know the farmer ought to sell his own only as the world is

to sell his own only as the world is ready for it. The farmers rushing their cotton to market discourages bullish specu-lators from bidding the price up. Knowing the cost γf producing this crop averages about forty five cents per pound, banks and merchants, to whom many farmers look as their ad whom many farmers look as their ad-visors, should see to it that the crop is not marketed faster than it can be easily moved, and for not less than cost of production. If bankers, merchants and farmers will demand negotiable receipts from the warehouses, cotton can be held and debts eased without sacrificing the price. When the price of cotton declines, quit sell-

There is a cotton famine now. Cot-ton is selling for \$50 per bale less than it cost, and will easily bring cost As the first preliminary step to-ward actually returning the railroads to their corporate owners, the United States railroad administration Dec. 1 and merchants through increased de-

The existing conditions are forcing

us to get on a cash basis. There is absolutely no way around it. The paper supply houses demand cash for our paper, the grocery man demands the dry goods man, and when cash. we have printers they even demand the cash. Now we are forced to get the cash or quit business. When we came here ten years ago so many peo ple who subscribed for the paper were afraid we would only print the paper a few months and then quit, leaving them the subscription bag to hold that we were perfectly willing to car-ry them a year. At that time paper vas chesap and we could carry an account for a time. Things have chang ed. Everything has gone sky high, everybody wants the cash. We have demonstrated that we have the "staying" quality and you have no fear of losing your year's subscription by pay ing in advance. We don't want to lose a single name from our list, and other big papers have been doing this for years and the plans will be more satisfactory to all concerned after it is adopted. Look now at the dating opposite your name on this paper and you can see how your subscription stands. If you are behind please re-new. We don't want any one to be this plan.

W. D. Thacker, of Draper, was on of the state after cotton pickers, and informed us that he brought back nine hands. This is much better than many others have done. Others have gone and spent many days, returning home empty handed. We would have thought by this time that the country would have been overloaded with pick ers, but such is not the case. We understand that a campaign is being wag ed against the Spur country along the route, telling pickers that Spur has but little cotton and that we have more hands than jobs. This, course, is being done to get hands for themselves, but we believe we would get theem in a legitimate manner or do without.

We have joined the "home shaving club" now in further reducing the "high cost of living" in this day and In doing our own shaving we find that we not only will save money but time. We can shave ourself in two minute's time whereas in going to barber shop fully an hour's time is lost in going and coming and waiting. Workmen now make about one dollar per hour. If a man shaves three times a week, by doing the work himself he saves not only the seventy five cents paid the barber, but three hour's time which amounts to \$3.75 per week or a total amount of \$194.00 per year What is now worrying us is how we are going to manage to get our hair cut.

During the past month and more we have been without a printer, doing all the work ourself-and by the way we have turned out more work than we ever did before with three to five printers. We have not had time and opportunity to call on advertisers as heretofore, but a number of them have been staying with us, bringing us copy and otherwise helping us thru this stringency. We appreciate it and when the rush is over we will in some manner endeavor to return these favors.

W. H. SEALE,

GEN. PERSHING PROPOSES FEDERALIZED GUARD

Recommends Placing Troops That Have Seen Service in Reserve Units.

Washington.-Elimination of "dead timber" among officers was suggested by General Pershing before the senate and house military committees as one of the steps advisable in peace-time reorganization of the military estab lishment.

In nearly every grade, the general said, there were a few officers who had passed the stage of usefulness and should be replaced.

In reducing the army from 500,000 to 300,000 men, the general said only a very small reduction could be made in the number of staff officers.

"We had 350 on our staff in France for an army of 2,000,000 men," he said. We should have needed the same number for half as many.'

"Staff officers have been able to come to congress," General Pershing added, "and get promotion to the exclusion of promotions for officers of the actual fighting arms.'

"I think it would be wise to take all troops that have seen war service in national guard units and induct them into the federal reserve units," he answered. "The national guard could be kept as part of the training service.

COMMITTEE REPORTS SUGAR CONTROL BILL

Report of Senator McNary is to Effect That Shortage is Not Serious

Washington .- The bill proposing Caraway. continuation of federal control over sugar during 1920 is reported to the senate on the calendar with a view to early action.

In a majority report Senator Mc-Nary (Rep.), Oregon, author of the bill and chairman of the senate agriculture sub-committee which investigated the sugar shortage, declared "a serious situation will ensue" if the sugar equalization board's control over sugar is discontinued.

Senator McNary's report suggested that present conditions were largely psychological, due to fears of future shortages. Data in the hands of the committee, the report states, showed that about 730,000 tons of Cuban and domestic sugar was available for dis-tribution until Jan. 1, which should meet the needs of the country. The world shortage of sugar was estimated at 2,000,000 tons over the pre-war average.

Will Take Cattle Paper

STRIKE SITUATION LOOKS BRIGHTER

HOPEFUL VIEW OF SITUATION IS ENTERTAINED BY OFFICIALS AT WASHINGTON

SOME DEFECTIONS ARE NOTED

First Real Test of Strikers' Strength Shows Approximately 425,000 Out, but No Disorder

Washington.—Official Washington is firm in the belief that the end of the coal strike is near. There is noth- complishment, the senate then upset ing definite to justify this hopeful view of the situation, but everywhere the feeling prevailed that influences were being brought to bear to have the by Senator Sherman (Rep.) of Illinois strikers, numbering more than 400,000, and proposing to write into the treaty return to work.

Confidential reports to the department of justice from its agents in the to 28. The other, sponsored by Sena coal fields were said to show many de- tor Johnson (Rep.) of California, offections from the ranks of the strikers.

The sweeping power of the federal court injunction in cutting off all strike benefits is being relied upon by the government to bring the strike to a speedy end. Local representatives of the United Mine Workers of America were notified that checks to cover expenses for the last half of October could not be sent at this time because of the court's order.

Idleness of the miners with no funds available for their support makes it doubtful if they can hold out for any extended period.

Three conciliators of the department of labor here from the coal fields, are in conference with officials of the department and give first-hand information as to actual conditions.

Continued pressure is being brought to bear on officials of the United Mine Workers of America to call off the strike. Definite assurance has been given union officials that President Wilson and Attorney General Palmer stand ready to attempt an adjustment of the controversy that led to the strike as soon as the strike order has been rescinded.

Washington .- The big news in the monarch. He left Washington a hapcoal strike situation is the federal court's restraining order to stop engineering of the strike by union leaders. It was followed by a long line of developments and opened the door to wide possibilities.

Attorney General Palmer emphasized to the labor leaders that the government's injunction was in no wise an infringement of the workingman's right to strike, but that is was a lawful process against a calamity to the country.

The principal leaders in the miners union met the court's action with denunciation as a "violation of consti-tutional rights," declarations that it came too late to reach their men with a countermanding order, and with predictions that it would be disregarded anyway.

Washington,-An executive order fixing prices for bituminous coal has been signed by President Wilson. te are not affected Prices of antra The maximum prices are fixed by states and for prepared sizes range from \$4.60 a net ton at mine mouth to \$2.60. Rules set up during the war governing the margins of profits of middle men and wholesale and retail dealers were re-established and Fuel Administrator Garfield was given all the authority to regulate production, sale, shipment and storage or use of bituminous coal that he had during the raw.

THE TEXAS SPUR

GENERAL PROSPERITY

FIGHT IS LAUNCHED ON LABOR PROVISION AND BIDS FAIR TO BE LONG.

TREATY IS REJECTED

LAST AMENDMENT TO

Washington.-The 48 amendments attached to the peace treaty by the foreign relations committee have passed into history. The last survivor of the group, a proposal by Senator Moses ed by the federal reserve board from (Rep.) of New Hampshire, to revise voting strength in the league of nations, has been consigned to the discard in the senate by a vote of 47 to ing, was noted in practically all sec-

As if gaining impetus by this actwo more proposed textual changes in the treaty, brought in by individual senateors. One of them, presented preamble a reference to the deity, was laid on the table by a vote of 57 fering a new solution for voting inequality in the league, was killed out right by a count of 43 to 35.

The effort to hasten final action has struck an obstacle which seems like ly to prevent further progress for several days. A determined group of senators will launch a fight to eliminate the labor section of the treaty, opening a debate which, in view of unsettled labor conditions over the country, is expected by the loaders to last for for at least a week. The battle is expected to be the more spir ited because it is regarded as holding out whatever hope remains of writing any amendment into the treaty.

KING ALBERT HAS SHORT TALK WITH PRESIDENT

Belgian Monarch Starts Homeward After Brief Meeting as Climax of Visit.

Washington .- King Albert and Pres ident Wilson clasped hands Thursday The meeting at the president's bed side, brief as it was, proved the climax of the American visit of the Belgian py man, to sail for home from New port News on the transport George Washington, which brought him to this country. From the day he landed the pleasure of his tour has been marred by the anxiety over the president's condition, and he had abandoned hope of being able to see him.

When he drove to the White House, Albert had little expectation of being able to see the man for whom he has expressed the highest admiration. On-

y at the last moment, at the president's earnest request, did Rear Admiral Grayson, his physician, consent to a brief chat. The king went alone to the sick room, operating the ele-vator himself. His call lasted ten minutes.

SECRETARY WILSON HEAD OF LABOR CONFERENCE

Cabinet Member Becomes an Official

REPORTS OF FEDERAL RESERVE BOARD NOTE DANGER IN IN-CREASING STRIKES.

IN SPITE OF UNRES

Washington .- Despite disturbed industrial conditions, great prosperity obtains generally over the country, according to reports for October receivits agents in the several districts. A strong demand for commodities, verging at times upon recklessness in buytions.

Summarizing the reports, the board, in a statement just issued, said the labor situation occupied a position of primary importance with an increasing degree of general unrest over the country.

"The steel strike, which has been long drawn out, though with production well maintained," said the summary, "is apparently approaching its end. The strike has not in recent weeks seriously hampered production.'

WARNING TO COAL **PROFITEERS ISSUED**

Palmer Will Not Permit Government's Action to Benefit Employers.

Washington,-Suggestion from the Wholesale Coal Trade associatian of New York that the government should not fix a maximum price for coal or interfere with the normal course of supply and demand during the strike brought from Attorney General Palm. er the assertion that he would take the same action against persons en hancing prices as was taken against the union officers.

"The action of the government was taken solely in the general public interest," Mr. Palmer declared, "and I shall not permit it to be used, directly or indirectly, for the benefit of the employers' side of the controversy."

GENERAL PERSHING ADVISES STANDING ARMY OF 300,000

Cost of Maintenance Makes Larger Army Impracticable, General Asserts.

Washington. — Dissenting in many important respects from the program recommended by the war department and the general staff, General Pershing told the military committee of congress that 300,000 men, raised entirely by voluntary enlistment, should be the outside figure considered for a standing army.

He favored universal military training to provide an emergency reserve. but thought general educational work should be combined with it and military discipline "somewhat relaxed" so that the system would be in complete harmony with democratic institutions. He fixed six months as the training period.

Disabled Will Get More Compensation. Dallas.-The bureau of war risk insurance at Washington has reported

WHEN YOU PAY BY CHECKS.

You get a Receipt in Every Case through the Endorsement of the party to whom the check is made. It is a pretty good thing to have, and saves any question as to whether an account is paid or not. This is only one of the advantages of a bank account; there are many others. If you have no checking account, we would like to have you open one with us. Wont you drop in and talk the matter over.

Bonillas For President of Mexico

Washington .- Advices from Mexico tell of a proposal under consideration there to send a commission at once to Washington to ask Ambassador Bonillas to accept the nomination of the third party for the presidency to succeed Vensustiano Carranza. The advices indicated that the Carranza administration would support Ambassa dor Bonillas against General Alvaro Obregon and General Pablo Gonzales, the two military men whose candida cies have already been announced of flcially.

Shipping Rivaling British Predicted

Washington.-Predictions that ships flying the American flag will almost equal the tonnage of Great Britain by the end of 1920 were made in the senate by Senator Jones, (Rep.) Washington, chairman of the senate commerce committee in introducing his bills proposing alternative plans for a permanent federal shipping policy. Both bills were referred to the commerce committee for future considertion.

Buys German Diamond Field

London.-A dispatch from Johannesburg reports the purchase by an Anglo-American company for 1,000,000 pounds of sterling of all Germany's private and state interests in the diamond fields of what was formerly German Southwest Africa.

of the League of Nations.

Washington.-Secretary Wilson has been elected permanent chairman of the international labor conference by acclamation.

Wilson thus became an official of the league of nations, of which the conference is a part, despite the refusal of congress thus far to ratify the peace treaty.

Except for election of a chairman and examination of delegates' credentials the conference has finished all preliminary business and is ready to go ahead with consideration of the five topics laid before it by the Paris peace conference.

The question of application of the 48-hour week is expected to arouse most discussion. Other subjects scheduled for debate include regulations governing employment of women and children.

MEXICAN RAILROADS TO BE RETURNED TO OWNERS Twenty Entombed Miners Given Up.

Announcement From Mexico City That Merger Made in 1908 Will Be Dissolved.

Laredo, Texas .- The great merger of the railway system of the republic of Mexico, which was effected in 1908 under the administration of the late President Porfirio Diaz, when all the railroads operating in Mexico, including the Mexican National line from Laredo to Mexico City, were merged into what has since been known as the national lines of Mexico, is to be dissolved and the various railway properties are to revert to their private owners.

Confidence Voted British Government. London.-The government has been given a vote of confidence in the house of commons on its financial policy by an overwhelming majority of 355.

hat the Sweet bill, house bill No. 8 will pass congress substantially without amendments, according to W. H. Kemper, Dallas representative for the war risk bureau. The Sweet bill, which has already passed the house of representatives, provides in part for more liberal pay for former soldiers, sailors and marines with total tempar ary disabilities and makes changes in the payment of converted government insurance.

Brotherhood Takes Hand in Strike. Washington.-Immediate steps for assembling at Washington an industri al commission to deal broadly with present turbulent conditions is suggested by the advisory board of the Brotherhood of Locomotive Engineers. Deploring "attempts at government by injunction" as a means of settling the coal strike, the board declared in junction proceedings would make con ditions worse "and defer, if not defeat, a peaceful settlement."

Steubenville. Ohio - After battling their way to within 150 feet of where 20 miners have been imprisoned since Wednesday morning rescue workers were ordered out of the Y. & O. mine No. 2 at Amsterdam, Ohio, by mine officials and state mine inspectors, who feared an explosion might occur according to word received here. Hope has been abandoned that the miners are alive. Rescue parties worked all night in the gas-filled mine.

Nov. 11 "American Legion Day." Austin, Texas.-Governor Hobby has issued a proclamation proclaiming Nov. 11 as American Legion day. The governor has also in a proclamation issued some time ago designated Nov. 11 as Armistice day. Not only former service men, but all citizens, are urg ed by the governor "to acquaint themselves with the noble purposes and patriotic nature of the American Legion.'

"TRANSPORTIN'."

preparing to haul off the big cotton crop made on Charlies place this year. R. W. Dismuke came in from the East last week with two cotton pick-ers. He says that he saw more than five thousand people in Wichita Falls and not one of them would pass the time of day with him. While in the East he met a weather prophet that told him we were going to have things told him we were going to have things happen in December that had never happened beforee—storms and earthquakes and other disasters. Possibly

this is true, but we prefer to wait and let the future take care of itself.

'Twas a cool day in February, We were told that we would sail. So we spent the day gettin' ready That night to hit the trail.

And hit the trail we did In te darkness of the night, With kit bags, packs and overcoats We started towards the fight.

We landed at a ferry port They run us on a boat, They cut loose all the tie lines And we started out to float.

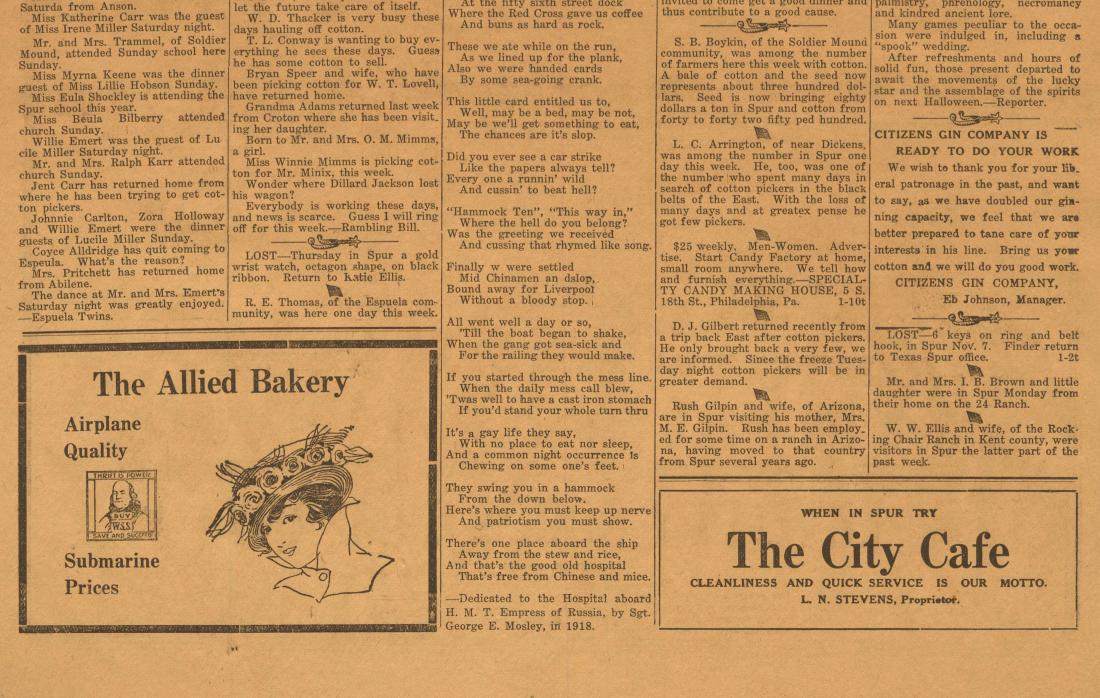

About six a. m. we landed At the fifty sixth street dock Where the Red Cross gave us coffe UNCLE OF C. F. CATES' DIED.

C. F. Cates received a telegram in-forming him of the death of his uncle, Chales D. Cates, which occurred Nov. 11th at his home in Decatur. He was one among the oldest settlers of that section of Texas, being eighty odd years of age. He was the last living uncle of Mr. Cates, and his death will

November 15th, in the building north of the Midway Hotel. Everybody is invited to come get a good dinner and thus contribute to a good cause.

A "SPOOK" PARTY ENJOYED IN DRY LAKE COMMUNITY

On last Friday night while mother earth was enveloped in murky gloom, the young people of the Dry Lake section enjoyed a communion with the years of age. He was the last living uncle of Mr. Cates, and his death will be mourned by many early day set-tlers of Texas. COME, COME, COME! COME! The Ladies of the Baptist Church will serve chicken dinner Saturday, November 15th in the building north

GREAT CALAMITY FORECASTED BY A NOTED "FORECASTER." this prophecy: "The planets, in their orbits, swing in great eclipses about the sun. They

Prof A. F. Porta. a noted "sun-tot" forecaster, and author of "Por-ta's Weather Laws", has recently prophesied much bad weather to come in December, and a very severe storm period from the 17th to the 20th. Ecologian is a merciric of what he Fololwing is a synopsis of what he

"Owing to a strange grouping of 6 mighty plannets, such as has not been seen for a score of centuries, the U. will be visible to the naked eye.

"Since me nfirst began to make rec-ords of events no sun-spot has been indeed. large enough to be seen without the large enough to be seen without the aid of instruments. The sun spot that will appear will be a vast wound in the side of the sun. It will be a gigantic explosion of flaming gases. leaping hundreds of thousands of miles out into space. It will have a crater large enough to engulf the earth, much as Vesuvius might engulf a foot ball. Such a sun spot will be rich enough

great earthquakes, to say nothing of flood and fearful cold. "I make this startling prophecy with no desire to be merely sensation-al or alarming. It is merely because my study of the planets has revealed certain results with such mathematic-al certainty that I now say to you: "Be warned in advance. Tremen-dous things are going to happen from December 17th to the 20th, and after-wards.' Here are the astounding but simple facts that enable me to make

are linked to the sun and to each other by chains of electro-magnetic energy whose compelling forces coun-teract each other and hold each planet in its regular path. Whenever two planets wheel into such positions that they pull together on the sun—either in conjunction on the same side of the sun, or in opposition with the sun betwee them—their united pull causes the sun's gases t explode or leap out into space in the whirling volcano we call the sun spot. These sun spots in S. next December, will be swept by the most terrific weather cataciysm experienced since human history be-gan. It will be caused by the hugh-ets as well. Two planets, united, are will be visible to the naked eye. one-four make a very great storm

But, on December 17, 1919, no less

a foot ball. Such a sun spot will be rich enough in electro-magnetic energy to filing the 'atmosphere of our planet into a disturbance without precedent or par. allel. There will be hurricanes, light ning and colossal rains. It will be weeks before the earth wil regain its normal weather conditions. There will be also gigantic lava eruptions, great earthquakes, to say nothing of flood and fearful cold. fore known in the annals of astrono-my. They will be massed in the nar-row limit of 27 degrees, on the same side as that of the great sun. Direct-ly opposite, coming into opposition with this gigant league, will be the huge planet Uranus. The magnetic currents between Uranus will pierce the sun like a mighty spear. Our earth is outside of the league at an angle of nearly 90 degrees in perfect position to receive almost the full

be the outcome? My knowledge does not permit me to state, beyond the fact that the storms, eruptions and earthquakes will be tremendous in strength and scope."
