# FOOD FOR THOUGHT Read It.

DOES DIVERSIFICATION PAY? . If it does not, why do people diversify when in financial distress? If it helps us out of financial troubles, it will help us to stay out. The best information that we can get indicates that there have been at least 5000 hogs shipped and sold from Dickens countyf arms during the past twelve months. Figure these hogs at a low average of 150 pounds each at8 cents per pound and you will begin to realize just what this little side-line has already done for he p insperous farmers of Dickens county and to the country as a whole.

The above figures does not take into consideration several thousand head o flogs that were killed on Dickens county farms for home consumption.

and ton capacity cotton seed ware-

The hog industry as we view it is only in its infancy, due to the fact that people are just now waking up to the vast importance of some side-lines on the farm and to the fact that alfalfa (the great pork producer) is no longer an experiment. It has been grown successfully the past nine years on the experiment station and the past few years by some of our wide awake and now prosperous farmers

We have been wonderfully biest with good rains, so why not take advantag of the opportunity and sow from one to ten acres in alfalfa, thus enabling you to reduce the cost of hog production 50 per cent or more. Then you would get enough hay to feed from one to five dairy cows.

A small patch of alfalfa near the house for the chickens would increase your egg production from 50 to 75 per cent during the winter months.

The baby beef feeding contest that is being carried on by the club boys and girls undr the direction of our good friend and county agent, Mr. R. B. Johnston, has thoroughly convinced us that our home grown calves can be very successfully finished on our home grown feed. When you see these calves on the 15th of this month and learn that these boys and girls are making from \$15.00 to \$25.00 clear profit on each calf, we venture the assertion that you will go back home with a full determination to feed a few next winter and spring. At least it going to be an eye opener to most of us. A little extra feed planted now will assist you in out your good determination.

The hen, the sow, the cow, a garden and a few baby beeves for side lines will put Dickens county on the map, and you on the road to prosperity. If you don't believe it try it.

The Spur Naional Bank bunch will be at the Fair Grounds with well filled baskets on the 15th and we heartily invite you to be there and bring the good wife and children-and basket spread your dinner with us and we will discuss problems of mutual interest and enjoy the good of life together.

QC------POULTRY SALES AVERAGE \$2.00 PER HEN

The average farm flock of chickens in northwest Texas brings in \$2.00 per hen according to 1015 records recently collected by the Ft. W. & D. C. Ry. during its poutry campaign. The average farm has 83 hens and the average sales are 161.00 per year.

The sales would be larger if more farmers kept standard bred chickens however the amount of sales per farm Rice bran on the Quality of Pork.

from average farm flocks is perhaps more convincing than if the sales gation. were from standard bred chickens. because many would think their scrub flocks would not return any where good chickens. Two thirds of these sales were from mixed or scrub flocks for 63 per cent of all the farms in northwest Texas have mixed or scrub flocks of chickens. No wonder people related crops. do not give their chickens more atten tion. No one cares much for scrub and millet, and their control. stock of any kind and they do not

expect much from them, yet these farmer's report 161.00 worth of fattening lambs. chickens and eggs and and show 132 00 of it as profit.

One of the big reasons for so many eggs for hatching from people who have mixed flocks or from those who have only scrub chickens. It is hard to believe that people will pay out hard earned money for setting of eggs or for breeding stock from mix. ed or scrub flocks. It has not previously supposed that anyone would do this or that any one would have the nerve to sell such stock or eggs There are 57 varieties of American. but according to their own confes-

#### GILPIN

The infant son of Mr. and Mrs. Haywood, has been quite sick, but Dr. Reed, says he is now well on his way to recovery.

The pie supper held at the Duck Creek school house, owing to the inclement weather was not as well at. tended as was expected. However over twenty one dollars were collect. ed to go on the new organ. And every body present had a good time. There were more pies and cakes than could possibly be eaten, and they were delicious. Miss Irelia McNerlin, won the pie for the "prettiest girl" there, and Mr. Chas. Bennett, won the pie for the "ugliest man." Mr. Bennett was proud of the honor conferred, upon him and says he enjoyed the pie immensely.

The baby beeves are not looking quite so good as they did owing to the rainy weather, but they will soon get over this now that it is clear and warm again.

Grandpa and Grandma Carlisle. has the sympathy of the entire neigh. borhood in the death of their sister Aunt Mary Jones.

Aunt Mary was loved by all who knew her, for she was a kind good woman, and she will be missed for a long lang time.

Mr. and Mrs. P. E. Hagins, took their little daughter Mary Pearl + Lubbock last week, where she was operated on. Her tonsils, and adenoids were removed, and sheis doing nicely. -School Girl.

TO THE VOTERS OF DICKENS CO. Why I want the county judges office First this is my aim in life. It has been my aim for the last ten years to practice law, as it is your's to be a farmer, doctor, merchant, preacher, school teacher or any other profession of life. I believe that we all have a place to fill and a calling in life and that is the only one that we can fill and do it as we should. And that it takes all that we can do to fill it properly, as it should be. To do this I have spent the last 8 years of my life studying law to be able to do something for my self, as well as others. I went before the Board of Examiners last year at Austin. Tak en the examination made all my subjects except two. Will go back and make them this fall.

All lawyers will tell you that the examination is just about ten times as hard to make as it was even ten or twelve years ago. Which I think is is all right. For as Blackstone writes "a little law is poison to any man. The office of county judge does judge does. not require that a man shall have license to practice law. But it does require that he shall be learned in the law.

I am not asking the people to give me the office because I am entitled to it any more than other man or that I am a poor man. But the office be-DICKENS HOME IMPROVEMENT | GARZA COUNTY CATTLE LEADS | longs to the people. And will have

D. C. P. S. T.

To have good schools we must first have good teachers. And then the hearty cooperation of all the parents. And our schools have got to be kept up with progress of time and the need of today no 50 years ago. I say with out fear of contradiction , teachers are the poorest paid of any public servant according to the service that he renders.

We are either building up or on the decline. A man that is not building up for something higher is just about done as far as the country is concerned. A dead fish can float down stream, but it takes a live one to go up. The only thing that we can give our children that the world can't take away from them is an education. If parents could feel the interest in their children that the teachers do, we would have better schools and less gray headed school teachers.

You can find people in all walks and profession of life that have retired from their profession with ample money to sustain them. But I have never seen one teacher do this yet after they have rendered the county their service. And helped thousands of boys, and girls to noble higher life. Our schools are just what we would have them be. The fountain can rise no higher than its

#### THE RELIABLE TRANSMISSION IS A FEATURE OF THE BUICK "FOUR"

The same quietly oerating, dependable transmission that has been so pronounced a feature of the Buick Six, is employed in the Buick Four. The design is the same-the quality is the same-only in size is there any difference.

And back of every Buick car is the skill and experience of 20 years, com bined with unparalleled manufacturing equipment facilities.

### SPUR BUICK COMPANY

When Better Automobiles Are Built, Buick Will Build Them!

### Children are quick to know Kellogg's superior goodness

Little folks instantly recognize Kellogg's Corn Flakes from imitations! They know the delicious Kellogg flavor and they know that Kellogg's are never tough or leathery or hard to eat!

Kellogg's Corn Flakes are so superior in flavor and in wonder crisp crunchiness that once you know Kellogg's you will always serve Kellogg's.

And, Kellogg's should be best because they are the original Corn Flakes-the most delightful cereal ever made! Insist upon Kellogg's-the kind in the RED and GREEN package, because none are genuine without the signature of W. K. Kellegg, originator of Corn Flakes!

#### MAY ISTH WILL BE A BIG. BENEFICAL DAY IN SPUR

1 3 30

Monday, May 15th, will be a big day in Spur. On this day the forty one baby beeves now being fed and finished for the market by members of the Dickens County Baby Beef Club, will be brought to Spur to be inspected and judged by an expert from the Fort Worth Packing House.

The day will be of even greater importance than was the one day Poultry School several weeks ago, and it is expected that fully as many people will be in attendance.

In connection with the inspection and judging of the baby beeves, an entertaining program is being arranged. A basket picnic is on the program, and everybody is invited to bring a basket-and it is given out that the townspeople will not merely go out and partake of the dinner, but will be on the ground with well filled baskets in contributing to a general feast and enjoyment of the day in an old fashion, get to gether meeting.

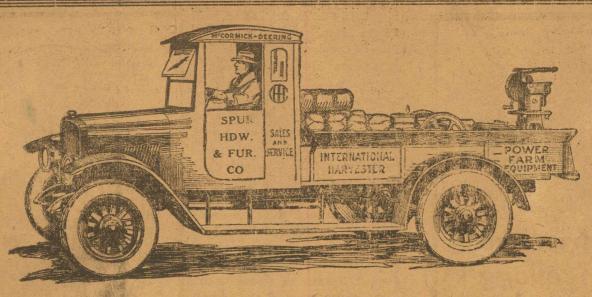

The occasion will be one of material importance to the country as well as of pleasure to the thousands of THE BRYANT-LINK COMPANY people who will be in attendance.

The day will close a thorough and complete test of feeding and finish. The Bryant-Link Company Store ing as well as marketing beeves at News is a new publication, and the Tuesday wih Mrs. Sam T. Clemmons. #### BABY BEEF CLUB CALVES ARE SCIENTIFICALLY FED

1. 13 . 21 16

NEWLY ELECTED MEMBERS

On December 11, 1921, 41 head of grade Hereford calves were sold to the club boys and girls of Dickens county to be fed under the supervision of County Agricultural Agent.

These calves have been scientific ally fed since that time, and will be finished on May 15, 1922 at which time a representative of Swift & Co. will judge them and in all probabiliry buy them here.

These calves will be the best finished lot which has ever gone from West Texas, and represent only the head of the great procession of market-toppers which we hope to send out within the next few years.

A complete and accurate record has been kept of every feeder, and a handsome profit is assured from every calf in the club.

The purpose of this contest has been to stimulate an interest in feed. ng some of the splendid calves which are each year sent to Northern feed lots to be fitted for market. We hope we have succeeded in a small way, in awakening this interest, and that another year will see our feed crop sold at a reasonable price to be fed locally to calves which will in At a Delphian Club meeting held At a meeting of the Spur School turn net a profit by reason of hav-
