GRADUATING SENIORS TELL HOW THEY DID IT

Point Rows

The traditional mark for the end of a story in journalistic circles is the "30". For some reason, this has come to be the accepted sign of the end of a story.

Some experts say that this symbol was borrowed from the earlyday telegraph operators, who used the two numerals to signal the end of each message. When newspapers started using the telegraph to speed up the transmission of news stories, just naturally adopted the telegrapher's sign for the end of a story.

Whatever the source, to sign thirty means to bring to an end, in journalistic parlance.

That is what this column is, the —30— mark to our current operation of The Santa Anna News.

As most of our readers know, we have purchased the newspaper in an adjoining county, and we will be going down there to publish and edit that paper. We have been trying to divide our time between that paper and this one, and it is just a little bit too much for one person. To properly edit and publish a weekly newspaper takes about 26 hours a day, eight days a week. To try to handle one, while engaging in other activities, and do a good job of it, is almost impossible. So we have worked out an arrangement with the owners of newspaper (technically, the J. J. Gregg estate), whereby the lease under which we have been publishing The Headache will be dissolved, by mutual consent, as of June 1, 1966. This will allow us full time to devote to our new venture, and will allow the local paper to have a staff that can devote full time to it, which thing the readers of both papers deserve.

So this is our thirty mark for this episode in Santa Anna. But we are not going to put the cover on our typewriter and slip away without making some comments.

For one thing, we will do a little reminiscing. It has been an interesting two years. We came back to weekly newspapering from six years in the field of magazine publishing. And there is quite a difference! But weekly newspapers have always been our first love, and we were happy to get back into this branch of the nutty publishing business.

We were not without some measure of success. For instance, the paper won first place in the statewide Texas Press Association competitions, for column writing, and tied with four other weeklies for the honor of being the outstanding newspaper of its size in Texas. And then we won second place in the West Texas Chamber of Commerce community service award competition—the first time, we were told, that a paper placed in that competition on its first try. What we appreciated even more were the compliments by our readers. And the complaints.

We look stands on questions we felt were of importance to the future and present well-being of our community. We gained some enemies that way, lost some advertising. We were told recently, by someone who had formerly been connected with the paper, that we were crazy to take stands on controversial issues, if it meant that

The legal and technical details of the changeover in management of this paper have taken a great deal of time, necessitating the delay in getting your paper to you. Sorry about that.

we might lose revenue thereby. We could not disagree more. It is the job of the newspaper to try to lead the way, and to have the courage to call a spade a spade. When we have to subordinate principle to finance, that is when we will start looking for another line of work.

And yet that is what some businessmen in Santa Anna expected—forgetting that this is a form of censorship, repugnant to our American tradition of freedom of the press. They forgot that the purpose of an advertising medium is to get their message before the greatest number of interested readers, apparently preferring that their advertising message should appear in a bland, uninteresting paper that would offend no one, and at the same time interest no one. This type thinking was out of date in the last century, and it is certainly passe today.

Santa Anna has great potential. Its greatest asset is also its greatest liability. In an early version of this column, we mentioned the sign that stands outside a small town north of Waco. It says, "Welcome to Milford, home of 750 fine people, and one or two old grouches."

Santa Anna has its share of

STANLEY McSWANE

I am the son of Mr. and Mrs. Jack McSwane, of Rockwood, Texas. I was born on July 14, 1948, in Brady, Texas.

I started school in Rockwood, with only two students in the first grade. The next year, I was transferred to Santa Anna. Here I remained throughout my school life. I have really enjoyed it despite the hardships.

Now that I am about to graduate, I plan to go ahead to college this summer. I would like to end by giving thanks to all people who made my education possible.

JOE RUTHERFORD

I, Willard Joe Rutherford, was born on January 5, 1948, in Santa Anna Hospital, to Mr. and Mrs. William F. Rutherford.

In the fall of 1954, I started my education. During my early years of school life, I received several perfect attendance awards. I started playing football in the sixth grade, and also came out for basketball in the seventh grade. Graduating out of grade school in 1962, I became freshman in Santa Anna High School. During my freshman year, I was in FFA. My sophomore year, I came out for football and lettered. My junior year, I lettered in football, ran track, and was in FFA. My senior year, I lettered in football, was senior class vice president, and was in FFA.

My plans for the future are to attend Howard Payne College and major in physical education.

WARREN WALLACE

On March 2, 1948, Mr. and Mrs. Joe Wallace were blessed with a baby boy, born in Santa Anna Hospital. After much deliberation, they decided to name him Warren Bruce. On the first eventful day in September, he started to school. The most enjoyable of these years were the three he spent playing football and running in the little Olympics. After eight long and tiring, but pleasant, years in grade school, he entered high school to continue his higher education. In his freshman year, he was elected class reporter-historian. The sophomore year found him elected to the office of class president, and also picked class favorite. Warren, during his junior year, was presented the history award, elected as photographer to the annual staff, and served as treasurer for the FFA. During the senior year, he served as Beta Club president, FFA secretary, annual staff photographer, class parliamentarian, and was a member of the cast of the senior play. He was also selected a runnerup to most handsome. During his time in high school,

both, we think, and it is only if the great majority of fine people begin to speak up and drowned out the less numerous but more noisy old grouches, that this town will prosper and grow.

We hope this happens. We have two years of work, and sweat, a little blood, and a few tears, invested in Santa Anna. We think it was a good investment.

Anyway, it has been an interesting two years. We have made a few friends, and a few enemies (and a good enemy is sometimes as important as a good friend). We have had a good time, enjoyed ourself, and done have had the opportunity to do something that we felt was important, even if on a relatively limited scale. What more could we ask of this adventure we call life?

By the way, we have had some inquiries from readers about this column. If anyone is so addicted to it that they want to keep on reading it, we will be happy to take your subscription to the Richland Springs Eye Witness, a bargain at only four dollars a year.

So instead of the usual

we use to separate items in this column, here we will substitute

he played football for four years. During his junior year, he received an all district honorable mention, and also served as cocaptain. In his senior year, he was named runnerup most handsome. Upon graduation, he plans to attend Howard Payne College, but has not as yet decided on a major.

WIL NOTEBOOK—PATTERNS FOR PROGRESS

ECONOMIC DEVELOPMENT

... its benefit to you

Economic development means developing all of the basic economic resources of a community or area to their fullest potentials, creating new wealth in the area and attracting wealth from outside the area. It CAUSES a higher standard of living for all of the people, making the community a better place to live, work and play. It PROVIDES improved community facilities, increases job opportunities, especially for the young people, and attracts new people to the town.

FIVE BASIC SOURCES FOR ECONOMIC IMPROVEMENT

—INDUSTRY—creates new jobs, utilizing and increasing the labor force's value to the community plus helping to share the tax burden for improved community facilities.

—TOURISM—adds wealth to the community that was created outside of the area, and makes a favorable impression on tourists as a good place to live. Tourists' dollars circulate many times within a community.

—AGRICULTURE—improvement of product yields and quality of products produced plus further processing of the products can add greatly to the economy of an area.

—NATURAL RESOURCES—developed in an area change and increase the wealth as well as providing job opportunities. Depletion of the natural resources can cause adverse effects on the economy.

—GOVERNMENT—local, state and federal institutions and agencies keep tax money in the area and in some cases, bring in additional wealth from the outside.

An object of a sound economic development program is to balance the economy of a community or area from all five sources. ATTENTION and EFFORT should be given to the ones which present the best possible chances for economic development and improvement. Attracting new industries, or the expansion of existing industries, usually provide an excellent opportunity for economic development.

My junior year, I was secretary-treasurer of the class. I was president of the Librarian Club, and representative in the Halloween coronation. I was also sophomore class favorite. My senior year, I was reporter of my class; Pep Squad leader; vice-president of the Librarian Club; homecoming queen; and representative in the Halloween coronation.

I was in FFA two years; Librarian Club three years; lettered in volleyball my junior year; and was a member of the senior class play cast.

After graduation, I plan to work this summer, and attend Angela State College in the fall. My plans are indefinite as to the field I will choose, but it will be nursing or dentistry.

SHARON MAYS

I was born Thursday, April 22, 1948, at 7:00 a.m., in the hospital at Freer, Texas. The first several years of my life were spent in Freer. My parents are Mr. and Mrs. Page Mays. I have

two younger brothers. David is a freshman, and Lafayette is an eighth grader this year.

I have received all of my education in the Santa Anna schools. I have enjoyed my four years during high school, and am looking forward with anticipation to my future. I plan on entering San Angelo State College this fall.

I wish to sincerely thank my family, classmates, and teachers

for all the encouragement and assistance they have given me in my schoolwork. I intend to do my best to succeed and fulfill my life by becoming a good citizen.

MARY JEAN HAYNES

I, Mary Jean Haynes, daughter of Mr. and Mrs. J. E. Haynes, was born June 10, 1948. I have lived in Coleman County all my life.

In elementary school, I was a member of the band, choral club, basketball team, and Pep Squad, of which I was drum major. I also participated in the Little Olympics. When I graduated from grade school, I was sixth in grade standings.

I have been a member of FFA for four years. I served as song leader my junior year, second vice president my senior year, and also as area IV treasurer. I have also been member of the Beta Club four years. I was student council representative my freshman and junior years. This year, I am serving as president of FTA, of which I have been a member for three years. I was a member of the senior band for three years. I was a

cheerleader my senior year.

This year, I received the Betty Crocker Homemaker of Tomorrow award. I rank fourth in my class.

After graduation, I plan to continue working, and later marry.

LINDA JOYCE McINTIRE

On October 17, 1948, a daughter was born to Mr. and Mrs. Billie McIntire, of Rockwood, Texas, in Overall Memorial Hospital, in Coleman. They gave her the name of Linda Joyce.

In 1954, she started school at Rockwood, and transferred to Santa Anna in the second grade. During junior high, she participated in Little Olympics.

When she entered high school, she joined FFA and the Librarian Club, of which she has been a member for four years. She served as parliamentarian and sergeant at arms of FFA. During her years in high school, she participated in Interscholastic League spelling and number sense. She was a member of the Pep Squad for one year, a member of the annual staff for two years, and the student council for one year. She was a member of the senior play cast.

When she graduates, she plans to attend college at San Angelo for one year, and then go on to nursing school.

career is complete with a medal for physical fitness.

My plans for the future include training in a barber school.

MARY JO QUINN

I was born in Coleman, Texas, on June 9, 1948. My parents are Mr. and Mrs. J. W. Quinn, Jr. I have two brothers, Jim and Frank.

I attended Mrs. Fannie Rich's kindergarten; South Ward school, in Coleman; Ella E. Hughes Elementary School; Southwestern Union College Academy, in Keene, Texas; Coleman High School; and Santa Anna High School.
