## Bid Let On Water And Sewer Project

The City Council accepted the bid of the Clyde Smith Construction Company of San Antonio of just under \$109,000 for proposed sewer and water improvements that a bond issue was voted on about 18 months ago.

The amount of the bid was much lower than bids had been on a previous opening a few weeks before, and was actually below the amount the City Council had expected to be bid.

The bid must be approved by the Government Agency that will purchase the bonds before work on the project can be started. Just how long this will take is not known, but the work should get underway by the middle of the summer.

The new sewage disposal tank is to be located on the Max Eubank farm southwest of town.

## Sonjia Neff Named Outstanding Twirler

Sonjia Neff, daughter of Mr. and Mrs. Buddy Neff, completed a two week training class Friday at Texas Tech twirling school.

Upon completion of the session, Sonjia was named as one of the three outstanding twirlers at the school. A senior in Santa Anna High School this fall, she will also be a twirler in the Mountaineer Band.

Mr. and Mrs. E. R. Cupps and Mrs. Seona Williamson, Pat, Mike and Belinda visited recently in Snyder.

## Much-needed Moisture Falls In County; 3 Inches Gauged Here

Gentle rains, ranging from .50 to 3.75, fell over most of Coleman County last Friday night and Saturday morning. The much-needed moisture will be a boon to small cotton, milo and other grain sorghums as well as pasture grasses.

No wind or hail damage was reported over the area. Largest measurement of rainfall was at Glen Cove where 3.75 was gauged. Rockwood reported the smallest amount of one-half inch.

Santa Anna received approximately 3 inches, according to reports, with Coleman receiving 2.39. Over three inches was reported in the Burkett area. Stock tank water was replenished with most area tanks nearing capacity.

## Rev. Bobby Weathers Sets Rockwood Talk

Rev. Bobby Weathers, pastor of Santa Anna Methodist Church, will conduct the evening service at the Rockwood Methodist Church Sunday.

Everyone is cordially invited to attend the service, which begins at 7 p.m.

Weekend visitors with Mr. and Mrs. P. A. Radle were Mr. and Mrs. Billy Radle of Junction and Mr. and Mrs. Nicky Poldrack and Danita of Coleman.

## SCS Representative Discusses Chemical Treatment of Ponds

By Ed. M. Schwille  
Soil Conservation Service

A dependable source of water for livestock is probably one of the main reasons a farmer or rancher builds a pond. However, ponds are constructed for irrigation, fire prevention, orchard spraying, erosion control and with increasing importance, recreational fun and fishing, both commercial and personal.

The average farmer or rancher does not know how to use chemicals in his farm pond and information has been lacking as to what kinds of chemicals a person can or cannot use to obtain clean water.

There are over 53,000 farm ponds constructed a year with over 1,200,000 constructed ponds now in use in the U.S. According to Joe K. Taylor, county office manager for the Agricultural Stabilization and Conservation Service, there are approximately 5,000 farm ponds in Coleman County. Also, located in the county are 61 floodwater retarding dams. Your guess is as good as anyone's as to how many of these ponds are properly managed. The Soil Conservation Service is responsible for providing technical assistance for constructing many of these ponds and furnishing in-

## New Ordinance Forbids Large Garbage Cans

### Croft Resigns As Science Teacher; Two Faculty Vacancies Now Exist

The faculty of Santa Anna High School is presently incomplete, with a commercial teacher and a science teacher being needed, according to announcement this week by Supt. Cullen Perry.

A serious loss was suffered last week when Gary Dale Croft, a well-prepared science teacher, resigned. It is anticipated that much difficulty will be met in filling this position, as qualified science teachers are very scarce in this area, Perry stated.

The Board of Trustees recently elected Wilson Bert Gravitt of Denver City to fill the position of assistant coach of Santa Anna High. It was stated that Gravitt had accepted the position, but he had not returned a signed contract by Wednesday noon of this week, although it was expected momentarily.

Gravitt graduated from Denver City High School in 1961, attended University of Oklahoma 61-62 and 62-63; Muskogee Junior College spring of 1963, and received his BA de-

gree from Northeastern State of Oklahoma in 1965 after two years of study. He has previously taught and coached at Atoka Junior High School in Oklahoma.

Gravitt is a former classmate of Wendell Robinson, who was recently employed as head coach here. They have been taught the same system of athletic operation and should be valuable assets to the local program.

The new assistant coach is single.

### County History To Be Feature Of Rodeo Floats

Early Coleman County history will be the theme of the 1966 Coleman Rodeo parade on July 15, and all civic, study or church groups are invited to enter a float in the competition.

Prizes of \$50, \$25, \$15 and \$10 will be given. Floats will be judged by points as follows: general appearance 7, story told (how well theme represented) 10, workmanship 6, quality of materials 7, power to attract and hold attention 10.

This competition will result in a hurried study of events in early days in Coleman County, as no much time is left.

Parade Chairman is Jim Williams, Box 888, Coleman, and any organization planning to enter a float may notify him.

### Gouldbusk Couple's Daughter Attending Special Institute

Mrs. Mary Griffin, daughter of Mr. and Mrs. L. H. Griffith of Gouldbusk, is one of 35 teachers of special education classes participating in an institute at the Texas Woman's University at Denton.

Mrs. Griffin makes her home in Palacios. Classes began June 8 and will continue through July 15.

Mrs. Griffin was one of 35 selected from over 700 applications from over 15 states to attend the institute. Subject of the session is "the teaching of reading to handicapped children and youth." It is the only one in the United States designed for this specific purpose.

Mr. and Mrs. Robert Slusher, Montie and Sandy of Odessa, came during the weekend to visit Mrs. Slusher's mother, Mrs. Erin Day, and to take home Susan, Sherry and Mitch, who have been visiting here for three weeks.

### Gary Sanderford Named Mozelle Superintendent

Gary Sanderford, a science teacher in the Grandfalls-Royal schools for the past seven years, has been named superintendent of Mozelle schools. He assumed duties this week.

Sanderford is a graduate of San Angelo Central High School and Sul Ross College, completing work for his masters and administrative certificate at Sul Ross last summer.

He is a member of the Baptist Church where he teaches a Sunday School class, and a member of the Masonic Lodge.

His wife, a registered nurse, has been Grandfalls school nurse and lunchroom supervisor for three years. She is a graduate of Shannon School of Nursing and San Angelo College.

The Sanderfords have one son, Kelly Ralph, 4.

Mr. and Mrs. Luther Talley of Dallas visited his parents, Mr. and Mrs. Arthur Talley, over the weekend. Little Neil Talley returned with them to Dallas for a two week's visit.

### 4-H Horse Show Winners Named

Winners in the Coleman County 4-H Horse Show, held last Friday at the Coleman rodeo grounds, have been announced.

Tony Allen, junior entry, was one of the top winners with the champion mare and winning junior all-around.

Tandy Clark showed the champion gelding, while Becky Allen had the champion Shetland, and Linda Thompson and Ann Davis tied for senior all-around.

### Jaycees End Fishing Rodeo

The Santa Anna Junior Chamber of Commerce voted at their regular meeting Thursday night of last week to cancel their previously announced Fishing Rodeo. They are in the process of refunding money to those who have purchased entry tickets.

During the last week the rodeo got a good start.

Clarence Gilbert brought in the first in the bass division Tuesday night. The fish weighed in at just under five pounds. On Friday evening late he brought in another bass that weighed 5 pounds and seven ounces.

While the Jaycees were voting to cancel the rodeo Bill Day brought in a whopper to open the catfish division. This was a real nice 24 pound, 1-ounce yellow cat.

These two fishermen had really set some patterns for other fishermen to set their sights on.

### Headstart Shows Progress; 30 Students Enrolled

The 1966 Summer Headstart program is well into its second week, with 30 children enrolled. The students are participating in a normal pre-school schedule, with a work program, a play program, music and other activities added as feasible, according to Supt. Cullen Perry who is administering the program.

Field trips and other visitations are planned for the two-month program which is designed to prepare the children for beginning of school this fall.

Headstart teachers are Mrs. Lucille Dean and Mrs. Leta Parker, and assistant teachers are Mrs. Mary Lou Jones and Mrs. Joe Guerrero.

Mrs. Christine Smith is in charge of the lunchroom, assisted by a corps of volunteer helpers. Mrs. Winnie McQueen's Homemaking girls are working as volunteer aides as a part of their summer project. Their part of the program will terminate this week and, officials are requesting volunteer adult assistance, especially in the lunchroom.

Transportation is being furnished those who need it, with Darrell Ashley and Mrs. Sybil Dean serving as bus drivers.

### Masonic Lodges Slate Joint Installation

New officers of Mountain Lodge No. 661 A.F. & A.M. for the coming year were elected and appointed at a slated meeting on June 16.

A joint installation service for all lodges in Coleman County will be held Friday, June 24, in the Masonic Hall in Coleman. Lodges represented include Santa Anna, Coleman, Gouldbusk, Voss, and Atoka.

Local officers to be installed are Paul Pembroke, worshipful master; H. A. Burden, senior warden; Milford Blanton, junior warden; Ben P. Vinson, treasurer; Montie L. Guthrie Jr., secretary; C. N. Perry, chaplain; Jimmie Blanton, senior deacon; E. E. Blanton, junior deacon; Roy West, senior steward; J. T. Avants, junior steward; and Roy Bledsoe, tiler.

### John McDaniel Heads Lions Club

JOHN MCDANIEL  
... New President

John McDaniel, local manager of West Texas Utilities, was installed as president of Santa Anna Lions Club at the regular meeting Tuesday noon.

Conner Scott, Zone chairman District 2A-1, of Brownwood served as installing officer, and spoke briefly to the group on the importance of an active Lions Club.

Other officers elected and installed to serve for the coming year were:

1st vice president—Jake McCreary; 2nd vice president—Robert Smith; 3rd vice president—Montie Guthrie; tail twister—Bobby Weathers; Lion tamer—Nick Buse; and secretary-treasurer—Ford Barnes. New directors are H. A. Burden and Richard Horner.

Thomas Wristen, out-going club president, presided over the meeting.

### Nutrition School Scheduled For Young Homemakers

Bessie Parker, County Home Demonstration Agent, will conduct a nutrition school for young homemakers.

Classes will be held once each week from 8 p.m. to 9 p.m. in the Willie Wirehand Room.

Classes are as follows:

- (1) Eat to Live Better
- (2) Children Grow Right with the Right Food
- (3) Meal Planning Made Easy
- (4) Food Selection and Buying
- (5) Principles of Food Preparation
- (6) Food Fads and Facts (weight control)

Enrollment will be limited to twenty students. Those interested may contact the County Home Demonstration Agent's office. Pre-registration period will be Tuesday, June 21st through Monday, June 27. The first class will be 8:00-9:00 p.m., Monday, June 27.

There is no registration fee. Free babysitting service will be provided if needed. At the close of the school a certificate will be presented to each person attending the classes.

Mrs. Paul Tucker and children of Fort Davis are visiting her parents, Mr. and Mrs. S. K. Morelock.

The Santa Anna City Council is in the process of passing a new City Ordinance, one that will prohibit the use of large garbage cans in the residential as well as the business part of the city. The ordinance is published elsewhere in this issue of The News. You are urged to read it carefully and comply with its provisions.

During the last several years a number of local people have been using large oil drums for their garbage from their kitchen and other areas of the home and office. Primary reason for this new ordinance is that it is almost impossible for one man to handle the large garbage can. They must be picked up, loaded onto a high-bed truck and emptied, then put back in their place. One man just cannot handle the large type cans.

When the new ordinance is finally adopted on August 4, 1966, it will become effective immediately. Thus those who are now using the large type cans should get prepared for the new ruling by getting the smaller type cans immediately. According to Section 2 of the new ordinance, anyone who does not have the smaller type cans on August 5 will be charged with a misdemeanor and if convicted can be fined up to a maximum of \$25,000 per day for as long as the larger type cans remain as their garbage cans.

The new ordinance clearly outlines the procedures to follow in getting other trash hauled off, as well as the description of the new regulation garbage can.

The City Council urges and requests the full cooperation of every citizen. The garbage disposal is a very important part of the city's business. If all citizens will comply with the instructions as set out in the new ordinance, most everything in the way of un-wanted trash around your home and business can be carried off without any additional cost.

### Education Classes Are Progressing

Adult Education classes, being held four nights each week in Santa Anna High School, are definitely successful as indicated by a larger enrollment than anticipated.

Classes, now in the second week, have 28 enrolled in typing, 13 in shorthand and 20 in bookkeeping, according to Mrs. Louise Farquhar, who is serving as instructor.

Bookkeeping is scheduled on Monday-Thursday, and Tuesday-Friday from 8:30-10:00 p.m.

Typing classes are on Monday-Thursday from 7:00-8:00; and Shorthand, Tuesday-Friday from 7:00-8:30.

### VISITING IN WASHINGTON, D. C.

Mayor and Mrs. W. Ford Barnes left by plane Saturday morning for a two weeks vacation with their daughter, Mr. and Mrs. Terry Sanders Sr. and family, Terry Jr., and Christie, in Norfolk, Va. They plan to spend the entire two week period in the Washington, D. C. area.

Mr. and Mrs. Buck Mills and Karen of Olton, were weekend visitors with Mrs. S. A. Moore.

### County Historical Committee Plans Camp Colorado Cemetery Restoration

Plans were made for the restoration and clearing of the Camp Colorado Cemetery when a group of Coleman County Historical Committee members and other interested citizens met there last Friday.

Joe Stevens is heading the plan, assisted by John Elkins, Leonard Stevens, and others. A fund is being raised for payment of materials, and Kay Anderson, Commissioner of Precinct 1, will direct the work.

Plans call for the clearing of brush and trees, restoration of the old rock walls around the graves whereby family plots will be restored using the original stones, and some type of smaller bronze marker to be placed at all graves which can be identified. It is hoped that the families involved will bear the cost of these inexpensive markers.

Most striking feature of the restoration will be erection of a large monument near the entrance, possibly granite, and landscaping of the base similar to work done by Thomas Wristen at Trickham earlier this year.

Two nice donations have been pledged toward the cost of this monument, but more money will be needed, the committee stated. This project is a continuation of the aims of the Historical Committee in locating and preserving sites famous in Coleman County history.

Present for the Friday meeting were Mrs. Joe Burroughs of Novice, committee chairman; Mrs. C. D. Bruce of Santa Anna, vice chairman; Mrs. Charles Evans of Santa Anna; Mr. and Mrs. Solon Wilson, John Elkins, Joe Stevens, Mrs. Bessie Parker, and Leonard Stevens, all of Coleman.

### Tips About Health & Safety

(Control of Fertility)

"Tell me about 'The Pill' doctor. Does it work? Is it safe?"

These are questions that millions of American women are asking today. The answers are not always simple.

"The Pill" to which the questions refer is known to physicians as an "oral hormonal contraceptive." Its proper use permits a couple to retain a high degree of control over whether and when the wife becomes pregnant. It is now being used regularly by several million American women.

Actually, there are a number of different pills, all designed to control fertility, that have been licensed by the federal government and are now on the market. All are available only by prescription.

The Committee on Human Reproduction of the American Medical Association recently published a report on "The Control of Fertility" for the guidance of physicians in practice.

"The Pill" is one of half a dozen methods available for control of pregnancy. The AMA Committee's report says: "the nonsurgical contraceptive methods, in descending order of theoretical effectiveness are (1) oral hormonal control; (2) intrauterine devices (IUD); (3) mechanical devices; (4) foams; (5) creams and gels used alone; rhythm, and coitus interruptus; (6) other chemical methods.

"The need for control of population, whether in nations or in individual families, is now recognized on a world-wide basis," the Committee report said.

"The effectiveness of the oral contraceptives is virtually 100 percent, certainly the highest

of any method short of surgical sterilization or total abstinence," the Committee said.

"The suppression of ovulation by the oral administration of progestagens has been under study since 1954. At present eight products in various dosage forms have received clearance from the U.S. Food and Drug Administration for use as contraceptive agents.

"The chief side-effects of oral hormonal contraceptives are spotting and breakthrough bleeding, nausea and vomiting, breast tenderness and weight gain, but these usually diminish with successive cycles and can be minimized by adjustment of dosage or shift in products.

"Breakthrough bleeding can occur in as many as 25 to 30 percent of first cycles, usually diminishing in succeeding cycles. The advantages of having several products available to choose from are obvious, offering opportunity to shift both dosage and product until the one best suited to the patient's physiological makeup is found. To date, no increase in the incidence of malignant transformations has been reported in those women who were found to be free of pelvic cancer prior to taking the oral contraceptives.

"The possible association of thromboembolic phenomena (blood clots) with the use of oral contraceptives has been reviewed by several committees," the Committee said, adding that no connection has been found. "However, in order to allow for the unlikely occurrence of thromboembolic episodes, it has been suggested that women with previous vascular problems, varicose veins or other factors which may predispose to thrombophlebitis should be watched carefully.

"Changes in liver function and jaundice have occurred in women taking oral contraceptives. For this reason the drugs are contraindicated (not to be used) in patients with either a reliable presence or history of breast or genital cancer are considered absolute contraindications to hormonal contraception.

"There has been no evidence to support the belief that hormonal contraception has an adverse effect on menopause. On the contrary, an increasing number of gynecologists are finding these drugs helpful and recommending their use for the regularization of the irregular menopausal cycle and the control of menopausal symptoms.

"Because of concern about possible long-term adverse effects of the oral hormonal contraceptive, the FDA presently limits administration from 1 1/2 to 4 years, depending on the drug and duration of experience with its use. Continuing studies of several large groups of women have been in progress

for over ten years, however, and no evidence of long-term adverse effects has been shown."

It is clear from the AMA report that "The Pill" is highly effective in controlling fertility. But it also is clear that there are some individuals who cannot use "The Pill", and that there are others in whom its use must be carefully watched by a physician.

As is true of most drugs, there is no single answer to the question "Is 'The Pill' right for me?" The physician must provide the answer on an individual basis for each patient.

### SAVINGS BOND QUIZ

Q — I want to convert my E bond holdings into H Bonds and have been advised that it will be necessary to sell the E Bonds and use the proceeds to buy H Bonds. Is this correct?

A — No, and it would be to your disadvantage to do so. E Bonds may be exchanged at their current redemption value for H Bonds, the smallest denomination of which is \$500. Under the exchange procedure, interest which has accrued on your E Bonds would not have to be reported for Federal income tax purposes until the H Bonds were cashed or reached final maturity. To sell your E Bonds first would make this interest subject to taxation immediately.

Q — I have been buying Savings Bonds naming my 11-year-old son as co-owner with a view of creating an educational fund for him. In the event of my death, would my wife or my son have control of these bonds until such time as he is ready for college?

A — Under the circumstances outlined, the bonds would become the sole property of your son, and he would exercise control of them. Regulations permit a minor to cash a bond provided he is of sufficient competency to sign the request for payment and understand the nature of the transaction.

Q — How is the new interest rate of 4.15 percent going to apply to the E Bonds I am buying? Isn't it true that the bonds will be worth only their face value when they reach maturity?

A — Yes; but the bonds you are buying now will reach maturity in 7 years, instead of 7 years, 9 months as before. The increase in the interest rate from 3.75 percent previously paid on bonds is accomplished by this shortening of the maturity period.

### Defensive Driving Can Save Lives

Be a defensive driver whether you are on a vacation trip or just performing routine daily driving tasks, suggests Mrs. Elsie Short, home management specialist at Texas A&M University.

Traffic fatality reports show that driver error contributes to four out of five fatal accidents. "This fact should make each of us aware of our responsibility as an operator of an automobile," Mrs. Short adds.

Seat belts have saved lives and reduced injuries when accidents occur, but they don't in themselves prevent accidents, she emphasizes.

"Watch out for the other driver" means to be a defensive driver. You must assume responsibilities for errors that might be made by another motorist and take positive action to prevent them, says the specialist.

Safety in your automobile and at home can be planned in all of your home projects with members of your family, the specialist suggests.

### Veterans Questions & Answers

Q — If Dependence Indemnity Compensation death benefit payments for a minor child have been stopped by reason of that child's marriage, may payments be resumed if the child is divorced prior to reaching the age of 18?

A — No. Once married, a person is no longer considered a child under the legal definition for the purpose of VA benefits.

Q — My husband who is a World War I veteran has been receiving a nonservice-connected pension of \$78.75 a month. We own our own home. Our friends now tell us that the Veterans Administration Affairs Committee in Washington will take our home and my husband will lose his pension because we own our home. Is this correct?

A — The government will not take your home because your husband is receiving a nonservice-connected pension. You are being poorly advised by your friends.

Q — I am a veteran of World War I. I am 65 and I am retiring this month. Could you

please tell me if I am entitled to nonservice-connected benefits from the VA and how I go about filing for such benefits.

A — There is no benefit based on age alone. Veterans of World War I, World War II or the Korean Conflict, discharged under other than dishonorable conditions after 90 or more days service, or because of a service-connected disability, who are permanently and totally disabled from reasons not traceable to service and are unable to perform a gainful occupation may be entitled to a nonservice-connected pension if their income without dependents is under \$1,800 or with dependents, under \$3,000. You should contact your nearest VA office.

**"Police Brutality" Is Unwarranted...**

Law enforcement today is being degraded purposely in many instances, by the widespread and indiscriminate use of the term "police brutality."

This practice is called a guila-by-language process by some individuals. They may be right. For example, the word "juvenile" has been associated with "delinquency" so often and so long that now, when used alone, it has disagreeable connotation to much of the public.

"Police brutality" conjures up visions of hulking men in uniform clubbing and beating innocent people. Rarely, however, does the term fit the circumstances to which it is applied. It is used in wild accounts of enforcement officers' lifting limp demonstrators who block busy thoroughfares, in references to oral commands by policemen who disperse potential troublemakers, in depicting efforts by officers to halt violations of the law, and in describing any number of other sworn duties performed by policemen.

We know there is a calculated and deliberate attempt by some groups to inflame hostility against law enforcement by charging "police brutality" without cause. To a large degree they have succeeded. The term is bandied about in all media of communication without serious consideration as to its true meaning or its harmful effect on a profession which is charged with enforcing the basic rules of civilized living.

I agree with a growing number of responsible news editors, public officials, and law-abiding citizens that it is high time to get this "pet slogan" into a better perspective. We do not deny there have been instances of misuse of force by enforcement officers, but such incidents are not as prevalent as the public has been led to believe. A general and accepted principal of the law has been that an officer may use such force as is necessary to make lawful arrests, protect his life, and perform other specific duties. Frequently, however, the choice is not his to make; he HAS to use force or be maimed or killed and have the rights of all the people trampled by those who have no respect for law or due process. Even then, his best efforts often are not enough, as evidenced by the appalling number of officers assaulted and killed each year.

Policemen have the same basic rights as others. There is no reason why they should be singled out for ridicule by invalid accusations. The public, the press, and law enforcement itself should launch a concerted drive to stop the semantic indictment of police. Allegations and incidents should be reported and described in realistic, impartial, and truthful terms. If an officer is assaulted while making an arrest and uses undue force to subdue the person, then call it "undue force." If an officer uses profane language to a citizen, then describe it as profane language. If an officer is thought to be biased or prejudiced in his treatment of groups or individuals, then the complaint should so state. But the constant cry of "police brutality" as a catch phrase, exploited and used as camouflage for illegal conduct, is dead wrong. It is a stigmatization of police by rote.

John Edgar Hoover,  
Director, Federal Bureau of Investigation

**29 More Games On Baseball Slate**

**Independence Day Programs Slated**

Two highly explosive programs have been scheduled for the Cotton Bowl in Dallas, in celebration of the Independence Day holiday.

The events will be the big concerts and fireworks shows sponsored for the twelfth year by the Tom Thumb Stores Inc.

The oom-pah-pah of a big band playing old-fashioned patriotic music will sound out in the Cotton Bowl beginning at 8 p.m. Sunday, July 3, and Monday, July 4.

The two shows, which are identical, are designed to help people celebrate a safe and sane Independence Day holiday.

**Popular Musical Billed For Fair Entertainment**

"Fiddler on the Roof," hailed as the most in demand musical on Broadway since "My Fair Lady," will be a featured entertainment attraction at the 1966 State Fair of Texas in Dallas.

The long-running Broadway hit will present 22 performances in the State Fair Music Hall October 7 through 23.

Twenty-two performances of "Fiddler on the Roof" will be given during the 1966 Fair, beginning with the opening night performance on Friday, October 7.

Mr. and Mrs. Daniel Gilbert, Alice and Mike of Liberal, Kansas, arrived Sunday night for a two weeks vacation with their parents, Mr. and Mrs. Doug Moore and Mr. and Mrs. C. C. Gilbert.

Mr. and Mrs. Clyde Bartlett and Mr. and Mrs. Jim E. Bartlett and daughters, Lynda, Barbara and Betty Jean, spent Sunday visiting Mrs. J. Ed Bartlett. Jim is the son of Mr. and Mrs. Clyde Bartlett, and is presently visiting them in Merkel. Bartlett joined the Naval Air Corps 17 years ago, taking technical Air Corps training. He has taught in Florida, Virginia and California. The past three years he has been stationed in Key West and Norfolk, Va. The next three years he will be stationed at Corpus Christi, rounding out 20 years in Naval service.

## Stovall Families Hold Reunion

Mrs. E. G. Stovall of Coleman, who was 89 years of age on March 10, was the oldest person present at the annual Stovall reunion held in the clubroom at Coleman County Electric Co-operative Sunday, June 12. Among relatives attending from Santa Anna were Mr. and Mrs. Cecil Stovall.

## Fidelas Class Meets With Mrs. McDonald

The Fidelas Class of the First Baptist Church met in the home of Mrs. Elton McDonald last Wednesday. The group worked on pillow cases and quilts.

Refreshments of sandwiches, cokes, potato chips and punch were served by the hostess to Mmes. E. W. Gober, Ed Schreuder, Pierre Rowe, Arthur Casey, and visitors Mrs. A. C. Spark and Mrs. W. A. Branton.

## Camp Plans Made At WMU Meeting

The Women's Missionary Union of First Baptist Church met Thursday, June 15, in the church annex.

Mrs. Robert Smith presided during the business session. The group discussed sponsoring girls to the Intermediate G.A. Camp at the Heart of Texas Baptist Encampment, Monday, June 20-24; the Y.W.A. Retreat, June 24-25; and the Juniors, June 27-July 1.

Those attending were Mrs. Raymond Jones, Mrs. Robert Smith, Mrs. John Brown, Mrs. William Brown and Mrs. Elton McDonald.

## Grandson of Local Residents to Wed

Announcement has been made of the engagement and approaching marriage of Miss Bettie Harmon, daughter of Mr. and Mrs. Lyndal L. Harmon of Lubbock, to Roy McQueen, son of Mr. and Mrs. A. G. McQueen of Lubbock.

The prospective groom is a former resident of Coleman County and a grandson of Mr. and Mrs. M. W. Cathey of this city.

## 4-H Improvement Day Held Tuesday

A county-wide girls' 4-H Self Improvement Day was held from 9:00 a.m. to 12:00 a.m. Tuesday in the Willie Wire-hand Room.

Miss Debra Sparks of the Mozelle Senior 4-H club was mistress of ceremonies.

The program consisted of four different speakers. Mrs. Eddie Brink, Cosmetic Consultant of Brink's Pharmacy, gave a program on skin care and eye make-up. She demonstrated the techniques of applying eye make-up so that the young ladies would be able to achieve the "natural-look."

The Reverend Paul Smith of Concho Baptist Church gave the spiritual development part of the program. His talk was on morals, moral development, and how one may achieve high moral development.

Mrs. Maynard Gaines presented a program on figure types and the type, style and color a dress should be for the different figure types.

Mr. Amon Johnston, vice-president of the First Coleman National Bank, gave a program on how to get a job. Mr. Johnston explained the type of appearance, and what one would expect during an interview.

The Talpa 4-H Club won the five dollar prize which was being offered to the club with the best attendance.

Carol and Sue Kingsbery and Mrs. Mary Lela Clifford went to Crystal City Saturday for a short visit. They went on to El Paso where Carol and Sue will spend a few days with Mrs. Clifford.

# State Capital NEWS

**Austin — Auto insurance rates in Texas may rise an average of \$2.11 a year per motorist.**

State Insurance Board is weighing testimony given at a public hearing on rates last week. Decision probably will be announced soon, since new rates usually are effective August 1.

Look for these rate changes if the Board follows staff recommendations:

- Liability (bodily injury and property damage) up 11.9 percent.
- Private passenger \$50 deductible collision, up 2.4 percent.
- Full comprehensive coverage, up 0.3 percent.
- Private passenger \$50 deductible, comprehensive coverage, up 17.7 percent.
- Rates, of course, will vary widely among 26 rating districts.
- Among strong recommendations to the Board were:
  - A driving record classification plan to reward the safe driver with lower rates and hit the "bad" driver with higher premiums.
  - A more flexible rate schedule for drivers under age 25 — with highest rates for young males of 17.
  - A private passenger classification plan to produce a lower rate for drivers with less exposure to accident conditions.
  - A means by which a driver in the "assigned risk plan" could purchase additional coverage over normal \$10,000-

\$20,000 limits. Board earlier announced it was considering feasibility of requiring companies to write an equitable portion of all lines and classes of insurance in order to provide coverage for drivers over 65 and under 25 who face increasing difficulties keeping policies in force.

**FRUIT FLY REPORTED —** First Mediterranean Fruit Fly has been discovered in Texas — in Brownsville area.

Agriculture Commissioner John White said the dangerous pest has been positively identified. Medfly can cause economic loss by stinging or implanting eggs inside fruit, causing widespread spoilage.

Total of 13 inspectors from Texas Department of Agriculture and U.S. Department of Agriculture Plant Pest Control Service have been sent to the Valley to place an additional 1,000 traps and determine extent of infestation.

White assured Valley citrus growers that treatment of any affected or susceptible orchards will follow immediately to insure complete eradication. He noted that last Medfly outbreak in Florida have been successfully checked.

**COURTS SPEAK —** State Supreme Court held that Big Spring must stick by 1937 contract in which it agreed to provide as much as 300,000 gallons of water a day to Big Spring State Hospital for 10 cents a thousand gallons.

## SPECIAL NOTICES

**ORDINANCE NO 241**  
AN ORDINANCE DECLARING THE DUTY OF EVERY PERSON, FIRM OR CORPORATION OWNING, MANAGING, OPERATING, LEASING OR RENTING A HOTEL, RESTAURANT, CAFE, BOARDING HOUSE, EATING HOUSE,

Supreme Court agreed to review a San Antonio malpractice suit involving a physician's obligation to warn a patient of all dangers of an operation. Patient in the case lost his hearing after an operation, claimed he didn't understand all dangers involved before he agreed to surgery.

**HEALTH RULES ADOPTED —** State Health Board has adopted tentative rules governing standards for frozen desserts sold in Texas and regulations to check disposal of wastes from boats.

Dessert rules apply to ice cream and substitutes, sherbets, water ices, ice milk and other products. A public hearing on proposals will be scheduled later.

Proposed watercraft regulation would require holding tanks for all marine toilets on boats. Sewage could be removed only by pumping it into onshore facilities. Rule also would outlaw boatmen throwing garbage, rubbish and litter into waters. Aim is to prevent water pollution.

**APPOINTMENTS ANNOUNCED —** Thomas E. Riggs of Waco and Clifton B. Drinkard of Eden will be director and assistant director of the new Veterans Administration Data Processing Center in Austin. Center will have more than \$3,000,000 worth of data processing equipment to serve the nation's 135 VA hospitals and 38,000,000 veterans.

Dr. Jim W. Tunnell, director of instruction for McAllen Public School system, has been named project leader for Governor's Committee on Public School Education. He will head an evaluation of educational programs in Texas public schools.

**OIL PRODUCTION REDUCED —** Because of gloomy testimony and statistics, the Texas Railroad Commission again has reduced Texas oil production after a statewide prorated hearing.

July order will hold prorated wells to 33.3 percent of total ability to produce. This is down 1.2 percent from June's rate and 1.7 percent below the April high of 35 percent.

A recalculation of the actual oil production resulting from the July cut-back produced an estimate that it will be 2,734,836 barrels a calendar day from allowable of 3,118,042 barrels a day.

Translated into actual barrels of oil in the pipelines, the new production figure is just below the 2,749,135 the wells produced in January.

**SHORT SNOOKS**  
Atty. Gen. Waggoner Carr has ruled that a salvage dealer must, upon demand, surrender license plates and certificates of titles to motor vehicles obtained for scrap disposal, resale or any sort of salvage.

Texas Supreme Court ruled that Texas Highway Commission may dispose of unused right-of-way and that land does not revert back to original owner.

A "Visitor Center" will be built by the Texas Highway Department at the Judge Roy Bean Museum at Langtry in Val Verde County.

**APARTMENT, BUSINESS HOUSE, OFFICE, PRIVATE RESIDENCE, OR ANY PLACE WHERE KITCHEN GARBAGE ACCUMULATES TO PROVIDE SUITABLE GARBAGE CONTAINERS FOR ACCUMULATIONS OF SUCH GARBAGE AND FOR THE HANDLING AND DISPOSING OF TRASH AND RUBBISH THAT SHALL ACCUMULATE FROM SUCH PREMISES; MAKING THE VIOLATION OF THIS ORDINANCE A MISDEMEANOR; FIXING THE PENALTY FOR SUCH VIOLATION; REPEALING ALL ORDINANCES IN CONFLICT HERewith AND DECLARING AN EMERGENCY.**

Section 1. It shall be the duty of every person, firm or corporation owning, managing, operating, leasing or renting a hotel, restaurant, cafe, boarding house, eating house, apartment, business house office, private residence or any place where kitchen garbage accumulates, to provide a portable garbage can container constructed of galvanized iron, tin, or other suitable metal, with tight fitting cover of a capacity of not less than five gallons nor over thirty gallons and the daily accumulations of kitchen garbage shall be placed in this can. **Texas Highway Users Pay 20% of Taxes**  
Texas highway users dug down in their pockets for 29 percent of the total state taxes collected last year, Texas Mid-Continent Oil & Gas Association reported this week.

The Association's Oil Information Committee Chairman, Charles F. Heidrick, Dallas, said that a U.S. Department of Commerce study showed that the state tax on motor fuel, which amounted to \$229,175,000, was the largest single item in the highway-user category. Other special taxes on vehicle owners included registration, drivers' license fees and motor carrier taxes.

Of the state's \$1.2 billion in taxes, highway users paid a total of \$345,427,000.

Mr. and Mrs. John Venable, Mark Alan, Keith and Paul visited during the weekend with her grandmother, Mrs. Annie Stovall.

Sunday afternoon visitors were Mr. and Mrs. Fred Haynes and granddaughter, Linda Cozart of Angellon, who is visiting a few weeks here with them.

## Idea Might Shock Today's Cattleman

An old-time cattleman would be shocked. Researchers at Texas A&M University's Coastal Bend Experiment Station at Beville, feed grain to cattle that are knee-deep in grass.

The idea, according to Ed Neal and Bill Conrad, A&M researchers in charge of the recent tests, is to eliminate the big drop in gains that comes during the hot summer months. During hot weather and short moisture periods, grass loses some of its nutritive value, and an animal's forage intake decreases. The result is a drop in gains.

In the A&M experiments, steers averaging about 500 pounds each were grazed on Coastal Bermudagrass. Half were given five pounds of sorghum grain each day and the other half got none.

Gains of the steers on Coastal without supplemental feed began to drop about the first of July and continued down, reaching a low in August. During one period in late August and September, these cattle lost weight.

Those on Coastal without the grain supplement gained 1.2

pounds a day from April 23 to July 7 and gained only .4 pounds per day from July 7 to September 15.

The steers getting supplemental grain averaged 1.7 pounds per head a day from April 23 to July 7 and averaged 1.1 pounds a day from July 7 to September 15.

U. D. Thompson, Extension animal husbandman at Texas A&M University, figures on the basis of this test, it may pay cattlemen to feed supplemental grain during the summer. It would be well to consider feeding grain or other high energy feeds during periods of short moisture, Thompson said.

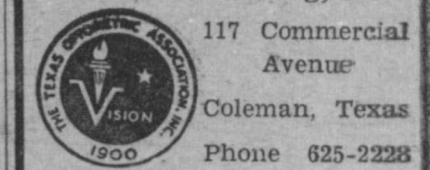

At the end of the grazing season, the cattle on Coastal without supplement were rougher and had a general unthrifty condition, but the steers on Coastal plus supplement were slick, alert and appeared thrifty.

With a steadily rising population in the State and Nation goes a mounting demand for wood and the thousands of products made from wood.

Attend church regularly.

### 53 Arkansans Due \$1,631,000 By Social Security

Remember the Titan II missile site fire near Searcy, Arkansas, in August of 1965, when 53 men died?

Bob Tuley, Social Security Administration district manager in Abilene, has just received an actuarial study of the expected total payment from social security to the 53 families. It will amount to \$1,631,000 if the 72 minor children attend school through age 21, and \$1,402,000 if they do not.

All 53 men were insured for survivors benefits. Only one had such scanty coverage to bar his widow from benefits at age 60, but she and her children are currently receiving payments. Her widow's benefits will end when the child reaches 18.

The other 52 widows can be expected to receive \$682,000 in payments after age 60. Four are past age 60 now. The 33 widows and the minor children in their care will receive \$956,000 if the children attend school through age 21 and \$727,000 if they do not.

The 37 families being paid at this time have this monthly benefit range: 3 @ less than \$100.00; 7 @ \$100 - 149.99; 6 @ \$150 - 199.99; 6 @ \$200 - 249.99; 10 @ \$250 - 299.99; and 5 @ \$300 - 306.00.

In addition to monthly benefits now and in the future, \$13-

evenly over all parts of the pond. For algae control, salt-size copper sulfate should be used and large crystals for controlling weeds. Large crystals sink and produce a heavy concentration close to the bottom allowing the fish to move into the upper layers of water where the chemical concentration is less.

Since copper reacts with galvanized material, containers made of galvanized material should never be used. Stainless steel containers or containers lined with glass, enamel, copper, or plastic can be used.

If you want clean water in your farm pond, it would be to your advantage to look into this method of ridding your pond of algae and some weeds. The office of the Soil Conservation Service in assisting the Central Colorado Soil and Water Conservation District can give you assistance in proper management of your pond.

000 was paid in lump sum death benefits. On the average, the Searcy family with one child or more under age 18 will receive \$38,620 if the children are in school after age 18; \$31,700 if they are not. The average expected for the widows without minor children will be \$17,820.

Tuley says that some people still think of social security as only a retirement program. He feels the above rather graphically illustrates the potential value in the survivorship area. The value of the disability program, a third portion of social security protection, was increased when the 1965 Amendments removed the requirement that the impairment(s) be expected to continue indefinitely or result in death. He explained that disability benefits are now payable if the impairment(s) have lasted, or can be expected to last, 12 months or more.

### State Fair Horse Show to Feature 4 Events This Year

The whirlwind performances of 2,000 horses in all popular breeds and types will be a major attraction during the Exposition of Young America, the eighty-first anniversary of the State Fair of Texas in Dallas next October 8 through 23.

Ray W. Wilson, manager, has announced that the 1966 State Fair of Texas Horse Show will feature four instead of the usual three series.

Mr. Wilson said that exhibitors already were responding to State Fair's expanded horse show program this year.

"There's no doubt about it," he said. "We're going to pack State Fair Coliseum with the finest horses and ponies in America and present a series of shows truly representative of our status as the official fair of the prime horse-breeding state in the nation."

### Son of Trickham Man Is Buried

Services for Jack Vaughn, 46, of San Diego, Calif., formerly of Brownwood and Farmington, N. M., were held last Wednesday at 10:30 a.m. in Davis-Morris Funeral Home, Brownwood, with the Rev. Jackson Oglesby officiating. Burial was in Greenleaf Cemetery.

Mr. Vaughn who owned and operated a trucking business in Farmington before moving to San Diego, died in a veterans hospital in Long Beach, Calif., after a long illness. He was born Jan. 7, 1920, in Brown County.

A member of the Methodist Church, Mr. Vaughn was a member of the Elks Lodge. He served with the U.S. Navy in World War II and was active in civic affairs in Farmington. He attended Brownwood Public Schools.

Survivors include his wife, Frieda Vaughn; a son, Tommy J. Vaughn of Saigon; one daughter, Vicki Vaughn of San Diego; his mother, Mrs. Mable Vaughn of Brownwood; his father, Thomas G. Vaughn of Trickham, and two grandchildren.

### Miss Callie Lowe Dies In Houston

Miss Callie Lowe, 81, of Houston passed away in her home in Houston, June 6, according to word received here this week. Funeral services were held June 8 with burial in Memorial Oakes Cemetery in Houston. She was a member of the Methodist Church and Order of the Eastern Star.
