County Guardsmen Win Numerous Awards At Camp

Members of Company "A" 1st Battalion, 142nd Infantry, Coleman County's own National Guardsmen, returned home the past Sunday from North Fort Hood, where they spent fifteen days of field training.

The local unit, a part of the 2nd Brigade of the 36th Infantry Division, brought back almost every award and trophy that could be won. They were chosen as the outstanding Rifle Company of the 36th Infantry Division during the camp; won the Big Battalion trophy for being the over-all best unit in the battalion for the entire year which ended with the summer camp; took the award for highest scoring rifle team in the battalion; best unit in the 1st Battalion during camp; and the trophy for the best kitchen in the battalion.

Local officials feel that this year's summer camp was a new experience and valuable training, not only for the recruits but for the older unit members as well.

Coleman County 4-H Camp Held At Lake Brownwood

Coleman County 4-H Camp was held at Lake Brownwood Christian Retreat, July 5 and 6, and was attended by 71 4-H'ers, 3 adult leaders, and 4 County agents.

On arriving Tuesday morning a 4-H Council meeting was held and the following were elected as officers for the 4-H County Council:

Co-Chairman - Scott, Talpa-Centennial and Norma Jo Eubank, Santa Anna.

Secretary - Sandra Hemphill, Talpa-Centennial.

Treasurer - Curtis Skelton, Mozelle Senior.

District Council Delegates - Dickie Horner, Santa Anna, and Debra Sparks, Mozelle Senior 4 - H.

Several people presented different programs to the 4-H'ers. Curly Hays, West Texas Electric of Abilene, presented a program on Isometric Exercises. Mr. Bill McElroy, Texas Department of Public Safety, presented a program on fire arms and safety with fire arms. Mr. and Mrs. Maynard Gaines of Coleman, taught the 4-H'ers various Folk Dances.

Mr. and Mrs. Richard Smith returned home Monday afternoon after visiting with their sons and families, Mr. and Mrs. Glenn Smith and daughters Jan and Fran, in Waco and Mr. and Mrs. Gene Smith and sons, Jeffrey, Gregory and Todd, in Tyler.

Mr. and Mrs. Roy West attended the Yates Reunion Sunday at the Coleman Park.

Bureau Queen Contest Draws 2 Local Entries

Two local girls have entered the Coleman County Farm Bureau Queen Contest which will be held August 5 at the National Guard Armory in Coleman.

Miss Marguerite Horner, daughter of Mrs. Katherine Horner of Route 1, who will be a senior in Santa Anna High School this fall, and Miss Norma Jo Eubank, daughter of Mr. and Mrs. James Eubank of Route 1, also a senior at Santa Anna this fall, have entered the competition.

Miss Horner has been a member of the Santa Anna Band for four years and will be head twirler this year. School activities include FHA member four years, Beta Club treasurer, editor of Annual, class favorite her sophomore and junior years, and a member of the basketball team.

Miss Eubank is very active in school activities having been a member of Beta Club for 3 years and club representative for Halloween coronation; Sophomore class representative for Homecoming Queen; secretary of Junior class the past year; a member of FHA, having served as treasurer and 1st vice president and will be president for the coming year; member of 4-H Club, serving as reporter and council delegate, and is president of the local club for the coming year, and recently elected as co-chairman of County 4-H club and is club recreation leader. She is also an assistant teacher in the primary department at Northside Church of Christ.

Mountaineer Band To March in Rodeo Parade Saturday

The Santa Anna High School Band will march in the Coleman Rodeo Parade on Saturday, July 16th, according to announcement this week by band director Fred Gray.

Gray has asked that all band members meet at the band hall Saturday morning at 9 o'clock for a brief rehearsal and preparation for the afternoon performance.

The director, who is presently attending a session at Texas Tech, also announced that summer band rehearsals will begin on Monday, August 22, one week prior to opening of the fall school term.

Trustees Conduct Busy Session At Meeting

Three teacher resignations were read and accepted by the Board of Trustees of Santa Anna Independent School District at the regular monthly meeting Tuesday, July 5.

Resignations accepted included LaQuinn Cooper Allen (a Title I position); Gary Dale Croft, science-math teacher; and Jackie Bullion, science and junior high coach.

Supt. Cullen Perry said that the Title I position would not be filled immediately, and would depend entirely on whether or not funds would be available. Applications are being taken by the board for a science-math teacher, a science-junior high coach, and a commercial teacher.

The district's Board of Equalization was completed with the

Sister of Local Man is Buried

Funeral services for Mrs. Oran (Jimmie) Benton Slaughter were held at 3 p.m. last Friday in Menard with burial in Rest Haven Cemetery.

Mrs. Slaughter, 65, a resident of Menard for 54 years, was a sister of Silas Benton of Santa Anna. She passed away in a Menard hospital after a long illness.

Survivors include her husband; one son; three sisters; two brothers and a granddaughter.

Attend church regularly.

Toast To Texas Turtles In Order

Here's a toast to the East Texas turtle as a scale tipper!

One weighing 130 pounds was hoisted out of Hawkins Lake near Tyler. A mere 95 pounder required the combined efforts of Mr. and Mrs. H. L. McDonald of Kirbyville to land when it snagged a set pole outfit.

A monster from Lake Tawakoni hit 97 pounds, just three pounds larger than one from Caddo Lake.

John Carlisle, regional director for the Texas Parks and Wildlife Department, recalls the exploits of much smaller turtle than any of these. It snapped a broom handle in half. Carlisle pondered what might have happened had the handle been a human limb.

CRUNCH!

Mr. and Mrs. Press Thompson of Stamford and Mr. and Mrs. Harvey Terrell of Haskell visited Mr. and Mrs. Roy West Saturday night and attended the Yates Reunion in Coleman Sunday.

Marcia and Sharon West of El Paso and Gaylon Pricer of Abilene are visiting their grandparents, Mr. and Mrs. E. W. Gober.

Equalization Board Holds First Meeting

Members of the Board of Equalization of Santa Anna Independent School District met at 8 p.m. Tuesday in the high school building to organize and map procedure plans, according to announcement from office of Supt. Cullen Perry.

New property, new valuations and property changes will be studied first, with the assistance of the tax assessor.

Members of the board are A. L. King, Jack Dillingham, W. L. Vaughn, William R. Brown, J. W. McClellan and Rachel Cupps.

addition of Jack Dillingham and William Brown. Others on the board are A. L. King, J. W. McClellan, Bill Vaughn and Rachel Cupps.

Trustees discussed the school's bus routes, with the idea of eliminating one and thereby reducing the number of buses from seven to six. Bus drivers for the coming year were hired and include Allene Rutherford, Eugene James, Sybil Dean, Darrell Ashley, Claude Langford and James Keeney. Custodians E. E. McClintock and G. R. Anderson were also re-hired.

The board rejected a bid of \$256.00, submitted by Kelly Motor Co., for an international bus which was listed for sale.

Other action included the continuance of school insurance with the company now carrying it. Decided to proceed with installation of a fence encircling the football field, and purchase laundry equipment for the gym; to be paid for on a three-year finance plan. Also voted to send Coaches Wendell Robinson and Bert Gravitt to the coaching school in Houston on July 31.

Superintendent Perry also reported on the fund data of school accounts, and relayed information to the board concerning Title I plans for the coming year.

Cowboys Competing For Over \$6,500 In Prize Money at Coleman's Rodeo

Cowboys are competing for more than \$6,500 in purse money and entry fees at the big 29th annual Coleman Rodeo, now in progress.

The show opened Wednesday afternoon with a big downtown parade at 5 p.m., with the first performance of the 4-night action starting at 8 p.m. in the association's \$100,000 arena.

A parade will be held each afternoon and will feature such celebrities as Carolyn Seay, Miss Rodeo of America, of Corpus Christi; Miss Jan Brown of Harper, Tex., who is Miss National Rural Electrification; and Miss Cindy Turner of Mineral Wells, who is Miss Mohair of the Universe.

Miss Mary Lou Taylor, queen of the 1966 rodeo, will reign over the big show, and she and other visiting queens will be featured in the parades, grand entry and special activities.

Producers of livestock for the show are Beutler and Son of Elk City, Okla. It is reported that all stock is in excellent condition, rough and ready to give contestants a run for their money.

A number of extra features are slated, including a special rosinback act by the Zoppe Family, and Allan Bing with his electric organ, who furnished music to the tempo of the rodeo action that is pleasing to spectators.

A matched roping between Eldon Dudley and Bill Teague will furnish tense moments for fans. The contestants will rope three calves each night, and the one with the lowest time for 12 calves will take the purse.

GARDEN PARTY TO HONOR DR. AND MRS. KOOS

A Come and Go Garden Party, honoring Dr. and Mrs. John Koos, will be held from 7:30 to 9:00 p.m. Thursday, July 21, at the El Rancho Henner Gardens.

Neighborhood Club Meets Tonight

The Neighborhood Improvement Club will meet tonight (Thursday) at 8 o'clock in the Lions Club building.

A short entertainment program will be presented, under the direction of Modora Gilmore and Richard Horner, to be followed by a discussion of projects beneficial to the community.

Everyone interested is invited to attend and it is hoped that each one will adopt the motto "each one bring one" so that a good crowd will be present.

Lions Install 5 New Members

A very good attendance was registered at the Santa Anna Lions Club meeting Tuesday noon when installation and initiation ceremonies were conducted for five new members.

Business activity got underway after introduction of Jim Stokes, past president of Coleman Lions Club, and Tode Hensley, Hensley then introduced John Skelton, who proceeded with the installation. New members installed were M. M. Roller, John R. Kooz, Wendell Robinson, Earl Ray and Clyde Bunnell.

Secretary Ford Barnes gave a report on financial expenditures of the club for various projects and activities during the past year. He reported that five projects for fund-raising were undertaken and completed.

Vinson Descendants Schedule Reunion

Descendants of the late Mr. and Mrs. J. T. Vinson will gather at the Coleman Park Sunday, July 17, for their annual reunion.

The late Mr. and Mrs. Vinson settled in this area, north of the mountain, in the early 1900's. Of the five children born to the couple, only one son, B. T. Vinson survives.

The affair is expected to be attended by a large number of grandchildren and great-grandchildren.

Mr. and Mrs. C. F. Judd of Freeport visited over the weekend with Mr. and Mrs. Ed Jones.

Lions Elect International President

Edward M. Lindsey of Lawrenceburg, Tennessee, was elected President of Lions International at the Association's annual convention in New York City, July 6-9. Serving as the 50th President during the Golden Anniversary year, Mr. Lindsey heads the world's largest service club organization with 797,159 members in 135 countries.

Lions International is best known for its many community service projects, youth programs, sight conservation activities and aid to the blind. During the past year Lions Clubs around the world completed more than a half million community projects.

ASCS Committee Taking Requests

The County Committee for the Agriculture Stabilization and Conservation Service began taking applications for federal cost-shares on Monday, July 11, Joe K. Taylor, County ASCS office manager announced.

Producers may file an application for any approved practice under the ACP program, except summer legumes or forage practices.

If producers carry out a practice on brush and pear control, deferred grazing is a must, Taylor explains, or the producer may be excused from the deferment by the County Committee in consultation with the SCS.

The County Committee has set a final date for taking applications for treatment of mesquite. If only kerosene or diesel is used, the final date is September 20th.

Control practices completed by August 31 must be deferred in September, October and November. Control practices completed on and after the first of September just defer three consecutive months during the growing season in 1967.

Taylor also reports that reports on crop measurements will be mailed to all producers just as soon as the acreages and computation are completed. Producers have 15 days from the date of the notice to dispose of excess crop acreage or give additional diverted acreages. Anyone who does not completely understand the report on crops should contact the ASCS office at an early date. Farmers are reminded that diverted acres under cotton, wheat and feed grain programs cannot be grazed. Livestock cannot be on this area unless it is clean tilled at all times.

City Now Taking Applications For Sewer Connections

The City of Santa Anna is now taking applications from residents for sewer connections, according to announcement this week by Mayor Ford Barnes.

Mayor Barnes states that a \$10.00 deposit will take care of the tapping charge for new connections during the time the ditch is open. After the ditch is closed the charge will rise to \$35.00 for the connection.

City officials are now awaiting final approval on the project before starting construction, but a tentative date of August 1 is being projected. To expedite work and also eliminate the higher cost, city officials urge patrons to make application now.

An advertisement asking residents to make application for this service is carried elsewhere in this issue of The News.

Former Local Banker Selected for Honor

The late Dewey Pieratt, a native of Santa Anna and former employee of the Santa Anna bank, was selected for inclusion in a comprehensive directory of leading bankers, entitled "Who's Who in Banking," slated to be published the past spring.

A letter from the editors of Who's Who in Banking, dated November 10, 1965, and addressed to Dewey L. Pieratt, president of the Commercial Bank of Beeville, was received by his wife following Mr. Pieratt's death on November 12, 1965.

In the letter, editors James R. Hamblen and Frederick Stein, explained that banking's first comprehensive directory would be published and that Mr. Pieratt had been selected for inclusion. The book would include bankers representing institutions throughout the United States, and would fill a distinct need in correspondent banking relations, as well as provide ready access to information about outstanding bankers.

Mrs. Roger Hunter of Austin is a sister of the late Mr. Pieratt.

Fine Racks Looming On Texas Bucks

Those budding deer trophies are looking better by the minute, sport!

Such is the assurance of Rod Marburger, biologist in the Edwards Plateau region for the Texas Parks and Wildlife Department.

He said the new antlers are coming out massive at the base, presaging possible prize racks aplenty come fall.

At Austin, a Department spokesman said Marburger's reports are being duplicated almost statewide. And they apply to practically all wildlife species.

Connally Salutes Park Service On 50th Anniversary

Governor John Connally signed a proclamation today saluting the National Park Service for its 50-year labor of love in preserving scenic and historic landmarks, many of which are in Texas.

Designating the week of August 21-27 as "National Park Week" in Texas, he counseled Texans to consider a vacation in their home state this year "as a homage to their heritage." He praised the Department of the Interior's park service for its far-flung efforts in Texas, pointing out it serves the interest of all Texans "in preserving nationally recognized resources of both history and natural history."

Connally said: "Americans by the millions are discovering a Texas that many Texans, themselves, have yet to discover. And among the state's most popular attractions are those whose preservation and operation we owe to the National Park Service."

Governor Connally noted that 175,000 Americans visited Big Bend National Park last year, an increase of 45 per cent over the year before. And he said attendance at Fort Davis National Historic Site, a park service facility he cited as "the best preserved of all western military forts," is up 40 per cent this year over 1965.

"The movement of pleasure-seeking America is increasingly toward Texas," the Governor said. "It would seem that Texans might be well-advised, as a matter of personal economics as well as pleasure, to look to their own resources when planning their vacations."

United Presbyterian Church Hosts Brazos Summer Presbytery

The United Presbyterian Church was host to the Brazos Summer Presbytery July 12 for an all day business meeting.

The eleven-thirty devotion was led by Rev. Jerry Boles of Stamford.

Rev. Jessie Iwig of Electra is moderator for this Presbytery of 59 churches.

A luncheon was served at the noon hour in the Fellowship Hall.

Dr. Ben H. Moore, pastor, was host for the local church. He gave a short history of his church's beginning. It was organized July 10, 1885 and was at that time part of the Brownwood Presbytery.

The last Presbytery was held here before going into Brazo Presbytery.

The Buffalo Gap Summer Camp was in session. The leaders of the camp brought all the young people to the meeting, where they might learn about the business of the church. The youth had a sack lunch at the Mansie.

Approximately 100 attendees. They complimented the local group on their beautiful new, debt-free church.

Tips About Health & Safety

High blood pressure, more properly called arterial hypertension is an abnormal state of the circulation that may be caused as well as a result of arterial disease, says a pamphlet from the American Medical Association called "Your Blood Pressure".

Four of every five cases of persistently increased blood pressure are known as primary or essential hypertension, for which no underlying cause can be identified, says the AMA publication. It often occurs in those with a family history of increased blood pressure.

The other one-fifth of the cases are called secondary hypertension, which means that the cause is known to be some defect or disease.

Hypertension requires a lifetime of management. The patient and his doctor working together, plan a living pattern, supplemented by the various medical procedures, that will result in the longest and most useful life that the patient can live, even though the doctor may never know the cause of the patient's hypertension.

In untreated hypertension, the course from onset to death is approximately twenty years. The first two-thirds is without symptoms, and can go undetected unless the patient undergoes periodic health examinations, particularly in the middle years. The last one-third of the twenty years is compli-

Veterans Questions & Answers

Q. - I am a member of the National Guard and have served three years in this capacity, including a 15-day active duty period each year. Does this qualify me for educational assistance under the new G. I. Bill?

A. - National Guard drills and 15-day tours of training duty not qualify a person for the new G. I. Bill. Eligibility requires at least 181 days active military service (as opposed to training), or if service were less than this time period, it must have been terminated by reason of service-incurred disability. The veteran must have also serviced on or after February 1, 1955.

Q. - Would a doctor participating in the VA Career Resident Program as a full time physician of the Department of Medicine and Surgery and be eligible to schooling under the new G. I. Bill?

A. No. Those participating in the residency and internship program under 38 USC 4114 (b) would be entitled.

Q. I am a serviceman now on active duty. I previously served more than 180 days, part of this period after January 31, 1955, and honorably discharged. I plan to continue my education at a nearby college and my duty schedule will permit me to carry an academic load of 10 semester hours. What is the

rate of educational allowance payable to me by the VA. I have a wife and one child.

A. You will be entitled to the same 3/4 time rate of \$115 per month which is payable to a discharged veteran with 2 dependents (VAR 14126 (B)).

Q. - I am severely disabled and in a VA hospital. I will be hospitalized about 2 months, then will require nursing home care as my wife will be unable to care for me. Shall I wait until I am discharged from the hospital to file claim for increased pension?

A. - You should file your claim for increased pension now, as "housebound benefits" of \$35 per month may be payable while you are hospitalized.

Q. - I had active duty in the Army from January 1956 to December 1965. I spent more than two years of this time in Viet Nam. I was in an automobile accident in February 1966 which rendered me permanently and totally disabled. May I receive pension for these disabilities since I am a veteran of the Viet Nam War?

A. - No. Pension is payable to veterans of World War I, World War II, and the Korean Conflict discharged under other than dishonorable conditions after 90 days or more active duty, or because of a service-connected disability from reasons not traceable to their service.

Q. - What period of service is required for entitlement under the new GI Bill?

A. - Six months (181) days of continuous active service since February 1, 1955 or discharged for service incurred disability. Full time duty in Armed Forces shall include authorized travel to and from active duty.

Baptists to Stage Puerto Rican Crusade

Sixty Spanish-speaking and English-speaking pastors and laymen from Texas will leave Dallas today to participate in the Puerto Rican New Life Crusade July 3-16.

The crusade is jointly sponsored by the Baptist General Convention of Texas and the Home Mission Board of the Southern Baptist Convention. It is the third major evangelistic crusade in four years for the BGCT.

In 1963 Texas Baptists sponsored a crusade in Japan with more than 500 Texans participating. In 1964 the convention conducted a state-wide crusade among Spanish-speaking people called the "Latin American New Life Crusade."

The Southern Baptist Convention began work in Puerto Rico just two years ago and now has 10 congregations on the island.

GOOD EDUCATION KEY TO LEADERSHIP

A good education is the key to good leadership, according to Ben Barnes, speaker of the Texas House of Representatives.

Speaking at the recent Texas 4-H Roundup awards dinner, Barnes told the young people that they are "fortunate to be living in this decade of the Space Age. Some of you may even go to the moon. Education is the key that opens the door for your tomorrows. Texas provides fine facilities for a good education, so don't stop until you have completed yours and are fully prepared for leadership roles."

AS IT LOOKS FROM HERE...

Omar Burleson, M. C. 17th District, Texas

WASHINGTON D. C. — What child has not had fun catching lightning bugs but experienced disappointment the next morning to find the brilliance turned to drab gray.

Meaning lessons might be drawn such as a midsummer night's dream or like many things of beauty which fade when we try to imprison them or look too closely.

The object of this essay is not one of philosophy but on the uniqueness and value of the firefly in this day and time of nuclear energy and rapid scientific advancements.

Scientists have never come up with an explanation as to how the firefly produces his cold light. It remains a mystery — just as it was to us as children.

To relate the insect's usefulness to science somewhat degrades the romantic legend of Latin American ladies wearing little lamps in their hair for ornaments and the story of the military doctor, William Gorgas, performing an operation by the light of a bottle of fireflies.

The national aeronautics and space administration's flight center at Greenbelt, Md., is not especially interested in the firefly as yielding a soft summer magic which makes all the world seem young. It is interested in scientific and medical research. The lantern is the firefly's tail is what the scientists are trying to figure out. They say the light is produced by combining something called adenosine triphosphate (referred to as ATP) with chemicals in its tail. Evidently, this is quite a trick.

It seems man can turn out ATP, a basic protein of life

converted into energy, but he fails to turn it into light as a firefly can. How it is done, they do not know, and the firefly's secret remains its own.

The reason a firefly collecting company in New Jersey pays children a cent apiece for fireflies is to furnish them to the Greenbelt Laboratory for research. The reason of the research is to determine the action of ATP in the red blood cells. As it is understood by the layman, the firefly can be used to measure the amount of ATP in red blood cells, which may result in detecting energy problems and possibly produce answers about diseases like cancer.

The scientists say that where there is ATP there is earth-like life. That is where the Goddard Space Flight Center comes in. Late this year or early next, Goddard will launch its first rocket with a life-detection instrument (called firefly) which will contain extract of firefly lanterns. If the rocket encounters live microorganisms in the upper atmosphere, the extract will glow. It will trigger an electronic system so sensitive it can detect one-quadrillionth of a gram of ATP. The information will be radioed back to earth.

The naval weapons laboratory at Dahlgren, Virginia, a sophisticated scientists center, also ponders space age problems and is calling for 25,000 fireflies for a study of their light-producing materials. The Center also offers a dollar a hundred for fireflies.

Understandably there is a concern that pesticides will eradicate the lightning bug, as well as the mosquitoes and other undesirable insects. And, too, it looks as if insects and bugs may not be sterilized under the method used for the eradication of the screwworm but will be defaced too. Experiments with certain soundwaves at a low hum destroyed 75 percent of moth eggs, and of those which hatched half died the first day. Adults lived a shorter life. It is sort of comforting to know there are still things the scientists cannot figure out and that they have to run to small boys and small bugs for help.

Noah Webster was 40 years of age when he began writing the dictionary and 70 when he completed the work.

Specialist Gives Tips On Borrowing Money

How's your I. Q. when it comes to borrowing money? Here are ten money tips which may help you become more adept. They're suggested by Mrs. Doris Myers, Extension home management specialist at Texas A&M University. The tips are from the National Association of Credit Unions.

- 1) First, no matter how good the interest rate sounds, find out what the credit or loan will actually cost you in money.
- 2) Before you sign any papers, make sure all the figures are entered correctly. Never leave any blank spaces to be filled in later.
- 3) Question all insurance charges. Find out what kind of insurance you are buying, and exactly what it covers. Many different insurance "lead on" practices have been reported.
- 4) On installment purchases you may owe the payments to some other firm, not the dealer. Find out who it is, and if it is a reputable firm. If you have any doubts, check.
- 5) Read the note or contract to see what penalties are imposed for late payments. Some penalties are exorbitant.
- 6) See if there are any other charges specified in the note or contract. Don't skip the fine print or you may be sorry.
- 7) Read what is said about repossession in a time-payment contract. Do you get a fair notice before the item is repossessed? What repossession charges can be levied against you? This is important.
- 8) Understand clearly what security you are giving. On a purchase, find out if it includes other merchandise you have bought previously. Above all, look to see if the note or contract gives your creditor the right to collect your salary.
- 9) Make sure you do not sign away any of your legal rights or guarantees, such as the right to refuse merchandise that is not as promised.
- 10) See if there is a provision for a refund of interest or carrying charges if you complete the payments ahead of schedule.

Henry Clay is credited with saying "I'd rather be right than president."

Life Preservers Good Luck Charms

Floating logs were responsible for two boating accidents near Bay City reports State Game Warden Carl Covert. A man was able to swim ashore but lost his boat after it had hit a log in the swollen Colorado River. And life preservers prevented a tragedy in the Intercoastal Canal near the mouth of the Colorado. A boat containing three people collided with a log and capsized. All had life jackets. And because of this, they all lived.

TAX MAN SAM SEZ:

Authorities at Texas A&M say that the average farm in Texas is worth \$250,000. This means that the days of the one-horse farm are past. Operating a farm nowadays is a big business. Running a big business requires good tax records. The farmer who fails to keep good tax records may find himself plowing his profits into a Form 1040. Keeping good records is always good business.

Perry Lynn Johnson, Carl Ray Cowen Engagement Told

PERRY LYNN JOHNSON
... to wed

Mr. and Mrs. L. R. Johnson of Gatesville announce the engagement and approaching marriage of their daughter, Perry Lynn, to Carl Ray Cowen, son of Mrs. Dee Yancy of Santa Anna.

The bride-to-be, a 1964 graduate of Gatesville High School, is a junior at Tarleton State College in Stephenville. The prospective groom is a 1962 graduate of Santa Anna High School and received a bachelor of science degree from Tarleton in May.

Wedding vows will be exchanged at 7:00 p. m. Saturday, August 6, at the Live Oak Baptist Church in Gatesville.

All friends and relatives of the couple are cordially invited to attend the wedding and reception.

Men with fashion derring-do will go lively in colorful sport shirts this Summer. Many of the shirts, such as the one shown here by Christian Dior, capture the brightness of a sunny day. The sport shirt, made of 100% Durene cotton yarn, is patterned in a bold plaid with

ice-cream shades of blue, yellow and white. Because it is woven of Durene, a mercerized yarn, extra coolness and comfort are in the offing. And the silky lustre resulting from the yarn's mercerization process will not fade out, but remains bright after numerous wearings.

Lounge-minded males, noting the shirt's side vents for wear outside of trousers, will appreciate the design for comfort. The short sleeved shirt features continental collar and a single breast pocket.

For the sun season, sartorial-minded men will focus on Durene cotton sport shirts such as this. They are practical, provocatively styled and offer the utmost in lustrous good looks.

141 People Attend Newman Reunion

The family of the late J. Tom and Lucy Newman held their annual reunion at Lake Brownwood on July 8, 9 and 10.

Children present for the occasion were Louis Newman of San Angelo, Henry, Walter and Virgil Newman of Santa Anna, Orin A. Newman of Brownwood, Roy Newman of Dallas, and Frank Newman of San Angelo. Daughters present were Mrs. Byrom Hall of Dallas and Mrs. Edgar Parish of Fort Worth.

Grandchildren, great-grandchildren and great-great-grandchildren, along with cousins and guests, swelled the total attendance to 141.

Visitors from Santa Anna included Mrs. Tom Kingsbery, Sue and Carol, Mrs. P. B. Snook, Mrs. Lucille Wylie, Mrs. Modora Gilmore, Miss Beth Irick, Allyn, Pam and Keith Gill and George England. Mrs. Buddy Wylie, who was visiting in Santa Anna with the Norval Wylces, also attended the affair on Saturday.

Agent Conducts First Class

"Children Grow Right with Right Food" was the second lesson in each of the three nutrition schools this week being conducted in the county by Mrs. Bessie Parker, county home demonstration agent.

All young homemakers and other homemakers with preschool age children are eligible to attend any one of the classes during the six weeks period.

In the Civil War National Guardsmen found themselves in a unique situation—when at the Battle of Front Royal, May 23, 1862—two Guard regiments of the same designation and from the same state faced each other in battle. They were the 1st Infantry (Confederate) and the 1st Infantry (Federal), both from Maryland.

Highway Department Releases New Travel Brochure

The immense variety of Texas pleasure travel is portrayed in an entirely new edition of the popular travel brochure, "TEXAS - America's Fun-ter," released today by the Texas Highway Department in Austin.

The 32-page color brochure incorporates maps, photographs and art work in a glossy, magazine-style format. It provides the traveler with a short, vivid course in Texas geography, spiced with colorful pictorial glimpses of things to see and do in the "Friendship State."

So vast is Texas, the new brochure divides the state into six recreational regions, focusing on attractions which are depicted by caricature maps, drawings and photos. Designed to give equal representation to all parts of the state, the new publication illustrates a cross section of Texas vacation variety. Historical, amusement and recreational features are portrayed in each section, outlining a brand of fun for everyone.

Also included are informational sections on hunting and fishing, highway regulations and tourist services provided by the Texas Highway Department.

Nearly a million free copies of an earlier edition have been distributed since its introduction some three years ago. Demand for the new publication is expected to be even larger.

The new brochure joins other pieces of travel-oriented literature which are now being distributed by the Highway Department. More than three million pieces are annually provided free to Texas travelers.

Supplemental literature includes the Official State Highway Map, Texas Calendar of Events, State Capitol Guide, Texas Facts Sheet, State Parks Guide and an invitation to visit Highway Department Tourist

TAX MAN SAM SEZ:
A lot of taxpayers have a very serious question — "Can I give my money away? How much can I give away without filing a federal gift tax return?"

The law is actually liberal on allowing gifts without tax. You can give \$3,000 a year to your son or daughter — or anyone else — without having to file a gift tax return. A husband and wife with community property can give \$6,000 each year without filing a gift tax return. The law also allows you a \$30,000 lifetime exemption for gifts before you pay any gift tax. This \$30,000 is in addition to the \$3,000 exemption you have for each year. You can take the \$30,000 exemption at any time but you must file a gift tax return to claim this exemption. If you want to give large gifts you should file a gift tax return and pay the tax. You can give a good sized estate away tax free if you plan your giving.

Bureaus.
Augmenting literature supplied directly to travelers are other Highway Department travel promotion efforts, such as colorful travel posters displayed at convention sites, and a half-hour motion picture released less than a year ago. A Spanish language version of that popular travelogue is now circulating in Mexico, while French and German versions are in production.

Such travel promotion efforts were instrumental in attracting many of the record 12.7 million out-of-state visitors who toured Texas by car during 1965. Those automobile visitors spent more than \$613 million while in the Lone Star State.

Pecan Weevil's Love Life Could Be A Sham

Texas A&M University and the U. S. Department of Agriculture are teaming up in an attempt to control the pecan weevil by making the bug's love life a sham.

It's the same biological trick that has been played so successfully on the screwworm fly in Texas and other states. Male flies are sterilized by exposure to atomic radiation and then turned loose by the millions to mate fruitlessly with the females.

The same system will be tried on the pecan weevil, which often causes heavy losses and damages market quality of pecans in Texas and other areas despite control efforts with insecticides. A&M researchers also

plan to investigate chemical sterilants — compounds that can possibly sterilize the weevils by spraying pecan trees.

The National Guard is always ready. It goes into immediate action to defend our nation if our security is threatened.

Austin — Taxes — with its what, why, where, who and because—raised its unpopular head in the Texas capitol this week.

Texas Committee on State and Local Tax Policy presented a report to Gov. John Connally and the Texas Legislature.

Everybody's request for more money indicates that the spending program to be presented the 1967 Legislature will eat up the \$75,000,000 state surplus—and require new money to finance.

Higher education, pay raises for teachers and state employees, water development, state park and recreation expenditures, Texas Highway Patrol — all want in on the act.

The tax policy committee is headed by Rep. Ben Atwell of Dallas, who asked the Texas Research League to list possible sources for new taxes.

Proposed were: Increase the state sales tax from its present two per cent to two and a half or three per

cent, raising \$72,400,000 to \$144,800,000 a year;

Corporation income tax of 4.4 per cent (average of those in the 37 states which levy it), raising from \$18,000,000 to \$106,000,000 a year;

Graduated personal income tax raising \$75,000,000 a year. (There are 36 states with personal income taxes.)

DRAFT CALL

Texas' part of fulfilling the national draft call for 31,300 men in September includes 1,381 men in July; 1,837 in August; and 1,585 in September, says Col. Morris S. Schwartz, State Selective Service Director. In addition, between 4,000 and 5,000 Texas men will be called for pre-inductment physical and mental examinations in September.

GRAIN FARMERS CAUTIONED
John C. White, Commissioner of Agriculture, advised Texas grain farmers to "make certain your harvest is stored in a state-licensed warehouse and to demand a valid Texas Grain Receipt.

Approximately 70 warehouses have failed to renew their licenses this year, though the grain harvest is well underway in many parts of the state. Grain stored in these warehouses is not protected by bond and license required by law, said White.

MORE BOAT RAMPS

Thirty-three new boat ramps across the state, making a total of 94 such ramps, have been approved by the Texas Highway Commission.

Twenty of the new ones are adjacent to farm-to-market or park roads.

These new ramps will increase launching facilities by more than one-half and will cost \$241,800, or an average of \$7,327 each. Source of money, provided for under the Texas Water Safety Act, comes from

Certificate of Number fees collected from Texas boat owners.

And, speaking of boats, new boat inspection fees and unclaimed boat gasoline sales taxes are reaping about \$100,000 a month for the state.

According to the State Parks and Wildlife Department, a new system is being set up so that fines collected for boat safety law violations will go to a State fund, rather than to county funds where most other law-breakers' fines are deposited.

BIG THICKET ENDORSED

State Parks and Wildlife Commission endorsed "in principle" the creation of a Big Thicket State Park. It will embrace some 15,000 acres of the 300,000 acres in Liberty, Hardin, Tyler and Livingston Counties known as the "Big Thicket."

Will Odom of Austin, commission chairman, said endorsement would be made "specific" after the Parks and Wildlife staff has studied the proposal. Then all the Commission needs is legislative approval.

OTHER PARKS NEED REPAIR

According to William M. Goslin, park services director, state parks buildings need repairs to the tune of \$70,000.

State Parks are expected to get \$2,200,000 for improvement from federal sources during each of the coming two years. But Goslin said a complete statewide outdoor recreation plan is needed by 1970 to keep the state qualified for federal aid for park construction.

COUNTY GOVERNMENT STUDY

Lt. Gov. Preston Smith appointed the following as an advisory committee to the Legislative Council on County Government:

Harold Green, president, County Judges and Commissioners Assn.; L. D. McCormick, president, County Treasurers Assn.; O. D. Ginegan, president, County Tax Assessors-Collectors Assn.; V. G. Young, assistant director, Agricultural Extension Services at Texas A&M University; Joe G. Resweber,

Harris County attorney; Dick Kirby president, County Auditors Assn.; and Bill Waters, president, District and County Attorneys Assn.

Council is composed of 10 Representatives and five Senators, with Smith as chairman and House Speaker Ben Barnes, vice-chairman.

CONTRASTING JOB SITUATION

Texas employment is continuing its upward trend, but at the same time, unemployment is rising too, the Texas Employment Commission reports.

Total employment rose from 3,867,600 in April to 3,898,000 in mid-May, while unemployment rose from 121,000 to 124,000 during the same period. The number of workers on non-farm payrolls rose by 6,500 to 3,585,300, and farm employment jumped 23,900 during May. The 3,000 increase in unemployment was caused by early entrants into the market from schools.

SHORT SNORTS

Governor Connally has approved nine grants under the Economic Opportunity Act. Fort Worth and Tarrant County got the biggest chunk of money — \$368,980—for use in planned parenthood services, family-neighborhood services, poverty centers and dental care. Waco and McLennan County received \$346,130 for day-care services, booster education, remedial and summer education, expansion of Planned Parenthood.

Department of Agriculture designated as drought disaster areas Carson, Lipcomb, Wheeler, Hemphill and Collingsworth Counties.

Dr. Hal Potts Dallas, is new district program consultant for Texas OEO, appointed by Governor Connally.

Beef Steak Buying, Broiling Explained

Need ideas on how to select quality beef steaks for broiling?

Now that vacation is at hand, there'll probably be more opportunities for backyard cookouts and get-togethers with family and friends. To assure tenderness, quality and flavor in beef steaks, be willing to pay for a little fat and choose from the top three grades — prime, choice or good, suggests Mrs. Gwen Ciyatt, Texas A&M University Extension consumer marketing specialist.

The sirloin is the largest and most economical broiling steak. If it is cut one and one-half inches thick, it will serve four or more people. The porterhouse is the largest short-loin steak, and when cut one and one-half inches thick, it will serve four people.

The T-bone steak is smaller and contains less tenderloin than the porterhouse. When cut one inch thick, it weighs about one and one-half pounds and serves two persons. The smallest steak in the short loin is the club steak, which contains no tenderloin. When cut one inch thick, it weighs about a pound and serves one.

Rib steaks are cut from the loin end of the ribs, and contain the rib-eye muscle but no tenderloin. They are the least expensive of all broiling steaks.

All of these steaks are recommended for broiling if they are cut from prime, choice or good grade beef, Mrs. Ciyatt says.

He who loves best his fellow-man Is loving God the holliest way he can.

—Alice Cary.

Monahans Sandhills Big Texas Tourist Attraction

If you are traveling through West Texas on U. S. Highway 80, you will find unique recreational opportunities at Monahans Sandhills State Park, located five miles east of Monahans.

The primary attraction of the park is the 3,940 acres of wind-sculptured sandhills. Seventy-foot mountains of pure sand enjoyed by young and old, beckon visitors from afar.

Sculptured dunes, constantly changing with the wind, cover 15 square miles. The park is a fascinating duplicate of Sahara Dunes, where you can ride "Sand buggies" roller coaster style.

park have adapted to the peculiar environment of the sandhills. Miniature oak trees that seldom reach a height over three feet struggle to maintain roots in the shifting sands, while wild flowers that grow at the edge of the sand dunes would do justice to the finest cultivated flower beds.

Because of the abundance of water in the sandhills, the Indians lived in the area for thousands of years. Amateur archeologists continue to find many artifacts that were covered by the shifting sands. Visitors occasionally find fossils and bones of prehistoric animals and there are rumors of buried gold from a wagon train massacre in the frontier days.

The Sandhills Museum, a modern stone and glass building that spans two sand dunes, is located just inside the entrance to the park. There you will find displays of art, science, nature, crafts and antiques.

For those who like to picnic, there are shelters to provide shade, barbecue grills, and tables. Campers are also invited to spend the night in the sandhills.

The park is open daily throughout the year.

Mr. and Mrs. Ray Conner, Robert, Billy and Lorie of Norwalk, California, and Mr. and Mrs. Frank West and sons of Graham were visitors last week in the Roy West home.

WO-HE-LO To Everybody!

Dressed in her ceremonial Camp Fire Girls costume, Denae Kimball, of Houston, Texas, points to the spot where 1,000 teen-age Horizon Club girls will spend three weeks learning about our Latin American neighbors.

The Horizon Club Conference Afloat, first international sea and land conference of its kind sponsored by a national youth agency, was planned to give girls in the senior program of Camp Fire Girls an exposure to other cultures and experiences in sharing.

The Conference will combine the usual pleasurable aspects of a sea voyage with a full program of workshops and seminars to reinforce previous studies in the history, geography and culture of Latin America and the Spanish language.

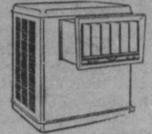

At ports of call—San Juan, Puerto Rico, Cartagena, Columbia, and Kingston, Jamaica—the girls will meet government officials, visit girls' camps, rural communities, industrial plants and native homes, where several will spend time as house guests. The Horizon Club girls also plan to entertain their Latin-American counterparts aboard their ship, the M/S Aurelia.

The thousand girls, representing 35 states, have been working in after-school jobs for two years to defray most of the cost of the voyage. They will be accompanied by a professional staff of 100, including three chaplains.

"WO-HE-LO," — Work, Health, Love—is the watchword of the Camp Fire Girls organization.

Mr. and Mrs. Jan Smith and babies of Killeen visited Thursday and Friday with her parents, Mr. and Mrs. Jim Lovelady. Mrs. Smith is the former Alice Anna Lovelady.
