LEGAL NOTICE

NOTICE ACCORDING OPOR-TUNITY FOR PUBLIC HEAR-ING GEOMETRIC DESIGN.

The Texas Highway Department is proceeding with plans for the reconstruction and widening of US 84, etc. from Coleman, Southeast to US 87 in Santa Anna along its existing location. It includes minor relocation for new overpass structure to replace present AT & SF Rwy Underpass for railroad grade separation. Additional right-of-way is being secured throughout the 7.2 miles limit of the project (the added strip being mainly on the west side of present roadway and a new strip for overpass and approaches). Plans provide for rebuilding of the highway to modern design requirements for two paved lanes 13 feet wide with 9 feet paved shoulders alongside. Work is to be scheduled such that a portion of present or new pavement or paved detours will be provided for use of traffic throughout the duration of construction.

Maps and other drawings showing the proposed geometric design and any other information about the proposed project are on file and available for inspection and copying at the Resident Engineer's Office at Coleman, Texas.

Information about the State's Relocation Assistance Program, the benefits and services for displaced and the relocation assistance office as well as information about the tentative schedules for the acquisition of right of way and construction can be obtained at the Resident Engineer's Office.

Any interested citizen may request that a public hearing be held covering the social, economic and environmental effects of the proposed design for this highway project by delivering a written request to the Resident Engineer's Office on or before Friday, June 27, 1969. In the event such a request is received, a public hearing will be scheduled and adequate notice will be publicized about the date and location of the hearing.

If you want what you want when you WANT IT... then WANT ADS are for you!

A message to those Americans who don't happen to think the land of milk and honey is going all sour.

Our country is in a strange mood these days. Uncertainty surrounds us. So what can you do about it? Well, first of all, maybe you should take a long, hard look at this country of ours. Maybe we should look at our healthy side as well as our ills. And maybe, just maybe, you'll find we're not all that bad. Sure we have our problems. And they're not going to go away if you just stand along the sidelines as a spectator. But they might start to go away if you seriously want to do something for your country. A U.S. Savings Bond is one way. Let's say you fork over \$18.75 of your hard-earned cash. Through a Payroll Savings Plan where you work, or at your bank. That will give you a Bond that's worth \$25.00 in just 7 years. If you did that every month you'd stash away quite a nest egg for yourself. And so would your country. Your country would be economically stronger to find remedies for some of the headaches we have. While it's preserving something called freedom. Something that's hard to appreciate. Until you lose it. Savings Bonds now have a new high interest rate of 4 1/2%. And buying them gives you the privilege of also buying the even higher interest 5% Freedom Shares in combination. However you look at it, it simply makes a lot of sense to invest in your country. After all, it's the only country you've got. Take stock in America Buy U.S. Savings Bonds & Freedom Shares

**While you're saving money for college, make sure there's a college to save money for.**

There are all kinds of ways to save money for a college education.

A good savings account.

Life insurance.

Or U.S. Savings Bonds.

You see, U.S. Savings Bonds will not only save you money, but they'll insure your country's future at the same time.

It's one way of making sure there's a college whenever you're ready to send somebody to college.

But back to the money part. Let's say you buy your one-year-old son a \$25.00 Bond every month. When he's 18 and ready for college, he'll have \$5,506.00.

A \$50.00 Bond every month would give him \$11,012.00 when he's ready to enroll.

And the beauty is, you never have to

worry about this investment.

You simply sign up through a Payroll Savings Plan where you work and then sit back and let the money pile up.

Savings Bonds now pay a new higher rate—4 1/2%—when held to maturity of 7 years.

And if they're lost, stolen, or destroyed, the Treasury Department will replace them free.

Also, with each Series E Bond you buy, you're entitled to buy the same or lower denomination Freedom Share. Which pays 5% when held to maturity of 4 1/2 years and is redeemable after one year.

Any way you look at it, buying U.S. Savings Bonds makes sense.

They not only get the kids ready for college.

They keep the colleges ready for the kids.

Miss Carolyn Rowe, the daughter of Mr. and Mrs. Vernon Rowe of Santa Anna, became the bride of Junior Lee on Saturday night, June 14, in a candlelight ceremony at the First Baptist Church. Rev. Bill Brewer officiated at the double ring ceremony.

Providing wedding music were Jimmy Benton, organist, and Mrs. Beth Erick Joyner, soloist. Selections included "The Twelfth of Never" and "The Lord's Prayer".

The bride wore an A-line gown of white bridal satin overlaid with sheer silk organza. The bodice featured a high neckline and long full sleeves. Her shoulder-length veil of sheer illusion fell from a cluster of organdy petals outlined with seed pearls and irrescents. The bouquet of pink sensation roses featured a linen and lace heirloom handkerchief carried by her grandmother and mother in their weddings. She carried an Irish sapphire in her shoe and wore a diamond ring borrowed from her mother.

The bride's only other jewelry was an oval opal necklace, a gift of the groom.

Mrs. Byron Rowe of Irving served her sister-in-law as attendant. She was attired in a petal pink crepe dress with a fitted bodice and long sheer sleeves. Her short veil of pink illusion fell from a pink bow. She carried a nosegay of pink roses and carnations.

The wedding party stood before a background of potted palms, centered by a large arrangement of white gladioli. Tall multi-pronged candelabra held tall white tapers. The center aisle of the church was illuminated by candles in crystal holders. Clusters of stephanotis tied with pink satin and velvet streamers were attached to each holder.

In the houseparty for the reception in the church annex were Mrs. Charles Pyburn of New York, Misses Kathy Shaw of Winters, and Beverly Foster of Johnson City. Miss Maria Shaw registered guests.

The bride's table was covered with a bouffant floor-length cloth of white embroidered organza. A center arrangement of pink gladiolas, roses and carnations was entwined around three crystal votive lights. Crystal appointments were used to serve the bride's cake and the pink punch.
