## LETTER FROM AUSTIN

An Interesting Budget From Mitchell County's Representative

Austin, Texas, Jan. 17th.

EDITOR RECORD:

I tell you it is no child's play for one to come here and do one's duty. It means promptness and work hard work.

The speakership contest was one of the warmest ones for years, so say those who have witnessed many others. Kennedy claimed 70 votes on the first ballot and Mobley claimed 82. Kennedy got 69 and Mobley 63.

Kennedy knows his business in the speaker's chair. He is quick, courteous, fair and firm. He announced from the speaker's stand that he would not appoint any one to a position who drank or gambled.

The submission issue is one of the hottest before the legislature, and it looks now as if we are going to have a hard time in getting the question submitted.

The Dallas News of the 15th inst. has me down as being in the anti-submission caucus. This is a gross error, which they have promised to correct. I have stated publicly and privately that I am for submission from start to finish and my position was so published in the Austin Statesman of the 11th inst.

We have now bills enough introduced to keep us here "all summer." I suspect that most of them will be anesthetized in the committee room.

The submission amendment is set down for hearing Monday, 18th, at 3 p. m. It is going to be a close fight, to my surprise, in the house.

Austin gives the legislators a banquet at the Driskill hotel next Friday. No politics or subsidy in it, just to show the good will and friendship of the citizens of Austin to the members of the legislature.

More anon.

W. B. CROCKETT.

## SENATOR BEN TILLMAN

Since Ben Tillman tried to probe the President with his pitchfork and is now very much in the limelight, it will be appropriate to publish some of his past political history.

Prior to 1890, when Tillman jumped from farmer to governor, the state of South Carolina was in the hands of what is known as the "old Southern gentlemen," and conditions in the state were, to a certain extent, alarming, so far as the future of the state in an industrial way was concerned.

A few politicians in Columbia and Charleston ruled the affairs of the state and had the state pocket made out for years ahead.

In the month of May, 1887, three years previous to Tillman's being elected governor, a meeting was held in Bennettsville, Marlboro county, and the farmers' association organized for both political and agricultural purposes.

In that year the supreme court of the United States handed down a decision in the famous Clemson will case, whereby the state became the owner of the property on which is at present located the Clemson agricultural college.

Tillman first came into prominence at this meeting, where he delivered his first public political speech, favoring the state taking some immediate action to utilize the sum of money and property thus received for the establishment of the college, as was provided for in the will of the late Mr. Clemson.

At that time one John Peter Richardson of Clarendon was governor. Mr. Richardson was a gentleman of the old school, and thought more, perhaps, of letting things go as they pleased than of pushing the state to the front, and affairs ran in the same old rut.

During the first term of Richardson as governor no recommendations were made to the two legislative bodies for utilization

was the work of the present senior senator of the state. The Shell manifesto took like wild fire in the country, and when the March convention was held Tillman was suggested as the man to head the ticket.

The convention came out flat-footed for certain needed reforms in the affairs of the state, the building of a normal college, the establishment of an industrial school for women, and the abolishment of the University of South Carolina as it then existed by changing it back to the South Carolina College.

Among the reform planks in the platform was the usual hue and cry against the railroads not bearing their just share of taxes, and the fact that the state was not deriving its just revenue from the phosphate fields, in the Coosaw and other rivers.

Although the late Senator Joseph H. Earle was approached by the Tillman faction to run against Richardson for re-nomination for a second term, and he refused on account of Mr. Earle having held the position of attorney general under Richardson, it was up to Earle to make the campaign for Richardson or old liners.

That campaign was noted for its heat and activity and when the delegates to the state convention assembled in August, it was found that the reformers had won, hand-down.

During his first two years in office as governor not a great deal was accomplished by Mr. Tillman except that Clemson and Winthrop colleges were established and the suits against the various manufacturing companies brought and won by the state.

When the second campaign came around in 1891 the prohibition question bobbed up and the pro-soaked persuasion to have a boy placed in the pells, and the people given an opportunity to enter their views on prohibition.

During that campaign Governor Tillman announced time after time that should prohibition carry it would veto any prohibition measure passed by the legislature. Prohibition carried by an overwhelming majority and the governor was up against the proposition good and hard.

To get out of a tight place, Ben Tillman conceived the first dispensary law that passed, called in the attorney general, O. W. Buchanan, and Prosecuting Attorney J. Monroe Johnson of Marion county to conference, and explained his plan to them.

Those two men, after some considerable work, drafted the law which was introduced in the House by John Gary Evans, afterwards governor.

In 1894 the successor to Matthew C. Butler, United States senator, was to be elected, and Tillman offered himself for the place. Senator Butler and Governor Tillman campaigned the state, with the result that Tillman won.

The Butler-Tillman campaign was marked for its bitterness and charges and counter charges of fraud.

Since that time, almost every year, similar charges have been brought against Tillman.

Every time a charge was brought against Tillman, the senior senator would clear his name.

MEDICAL NOTICE

The Mitchell County Medical Association at a meeting held December 29, 1908, adopted the following resolution:

Whereas, In our community there are present persons who wilfully neglect and refuse to pay bills legally due for medical service, be it therefore resolved,

That persons included in the above class will be refused medical service, until they make satisfactory arrangement with the physician whose accounts they have thus wilfully repudiated. This rule is not intended to work a hardship upon any one. All persons who are honest and just can secure the service of any physician. It has become necessary for us to protect ourselves against dead-beats and imposters.

NOT OUR CROCKETT

No little surprise was expressed on the streets Sunday morning when our people read in the Dallas News that Representative Crockett of Colorado had attended a caucus of the anti-submissionists, to formulate plans for defeating the submission of state wide prohibition. Knowing Judge Crockett to be a staunch, died-in-warp-and-wool prohibitionist, his friends could not believe but that a mistake had been made. The matter was perfectly cleared when a local parliamentarian explained that in referring to a member of a state legislature the county he represented is used to designate him, as Bryan of Taylor, Crockett of Colorado, etc. Had it been our representative it would have read 'Crockett of Mitchell.' As there is another Crockett in that body, from Colorado county, he was designated as 'Crockett of Colorado.'

This explanation is but simple justice to Judge Crockett. As many people heard the matter repeated instead of reading it, and who may fail to hear that it was a misunderstanding, great injustice might be done our representative unless the matter were thus publicly corrected.

Nothing so promotes travel as sittings of a grand jury; but it is convenient when the session occurs out of the fishing and hunting season.

W. M. Burns, residing on the Harry Landers place, was in town Wednesday. He reports 14 pounds of butter weekly at his place but complains of a poor market.

E. A. Hall, residing on the Payne farm, purchased a horse in Colorado Wednesday and says he is preparing for a big crop this year.

The Hastings Land Co. are making some deals in real estate these days.

C. B. Hooper, mayor of Westbrook, and D. T. Bozeman, mayor of Cuthbert, were in Colorado on business Thursday.

On Sunday night there were announcements made at all the churches that an opportunity would be given after services for all who wished, to sign the petitions to be presented to the legislature, against race track gambling, statewide submission, and an amendment to the Sunday law relating to excursions. Practically all the men present signed

all three petitions, which will be forwarded to our representative at Austin at once, as the fight on submission is now to the fore.

Visitors who have not been to Colorado in several months are surprised when getting off the train at our new depot. They naturally infer that the town has improved proportionately in all other lines of building and among the first questions they ask is, "Isn't the town building a good deal?" Such is the influence and impression made by the erection of just one attractive building. A nice building on each of the vacant corners of Oak and Front streets would multiply this favorable impression on travelers fourfold, and the Record has not lost hope in their being built at no distant day.

Why doesn't some local capitalist build a few nice business houses, on Front or Oak street near the depot. The erection of a new business of any pretensions, would be something of a novelty in Colorado. It hasn't in this line kept in hearing of Lorraine's or even Westbrook's hot foot steps. Do the people who are able to build business houses think the town is finished. If a prospector should ask how many business houses were erected last year, the answer would not encourage him to put his money in Colorado property.

**WANTS LOWER RATE**

President Neill of the Farmers Union went to Austin to confer with Representative Townsend relative to the introduction of a bill in the legislature, making a 10 per cent cut in the cotton freight rate in this state. President Neill's carrying the matter to the legislature is the result of the refusal of the railroad managers to concede a reduction of 5 per cent as a compromise offered by the farmers. A petition signed by 200,000 farmers will be presented with the bill. The farmers of the south are now fully awake to a very vital fact, which is, that the difference between what they get for their cotton and the actual price of the cotton, represents the freight on that cotton from where the farmer sells it to tide-water at Galveston. And they realize that in the end they alone pay the freight.

Washington, D. C., Jan. 18. The supreme court of the United States today affirmed the decree of the state courts of Texas imposing a fine of \$1,162,000 on the Waters Pierce Oil Co. of St. Louis and ousting it from the state on a charge of violating the state anti-trust law.

**REAL ESTATE TRANSFERS**

Among the recent sales reported in real estate we get these: C. M. Adams has bought the J. W. Bird section of land northwest of Colorado, in the Rogers community, for (\$22.50 per acre) \$14,400. This is one of the best sections of land in Mitchell county and is well improved.

J. W. Bird has bought \$9000 worth of rental property in Colorado and is now a citizen of this place.

B. Jackson of Coke county has bought the 320-acre tract from Dock Hightower at \$15 per acre. This place is 30 miles south of Colorado. Mr. Jackson also purchased the L. C. Hightower property in Colorado for \$2000 and has moved here as a citizen. Foster Smith sold, his 60 acres one mile south of Colorado to A. Dorn for \$40 per acre. Mr. Dorn will move here to have the benefit of our schools.

I. Underwood, a substantial citizen of Comanche county, bought this week the 192 acres from A. J. Payne at \$25.50 per acre, and has moved on the place. In this deal Mr. Payne acquires a section up on the plains belonging to Mr. Underwood. This land sold at \$10 per acre unimproved.

P. H. Collier, who lives at Dukedom, Tenn., sold this week a one-half section, in the Ben Horn neighborhood, to W. M. Payne and son of Waxahachie, Texas, for a consideration of \$7,200 or \$22.50 per acre. This is a fine one-half section of land and is a bargain at that price. Mr. Collier in Tenn., and Mr. Payne, who is the father of our J. I. Payne, and an excellent citizen, are both subscribers to the Colorado Record and no doubt this paper was instrumental in bringing about this trade. Mitchell county lands bring good prices and the best way to advertise Mitchell county is to send the Record to your friends in the old states.

**KILLS GRAY FOX**

Although there are numerous red fox to be found in Texas, a gray one has always been rare even in the eastern counties, and to find one in west Texas was thought to be impossible. When, therefore, Howard Cooper brought one to town Friday that he had killed just outside the city limits he oldest hunter in the community as well as the oldest inhabitant, had to confess himself bested. Nothing like it was seen here "in the early days." It was the genuine gray fox, and Howard sold the hide, which we understand is quite valuable, running from \$10 to \$25 each. A fox-wise hunter gives it out that they always go in pairs, and that its mate must be somewhere in this vicinity also.

### WEEKLY HEALTH BULLETIN

Tuberculosis—Continued

The germ or bacillus gets in by the nose, mouth or an open wound. Wherever implanted it produces little nodules called tubercles. These may grow in size. They may soften, break open and be expelled, leaving behind an ulcer or a cavity, bacilli being left in the walls of the ulcer to continue the disease.

In the process of cure nature throws a wall of scar tissues about the tubercle, ulcer or cavity. This wall becomes thicker and thicker, growing towards the center until nothing is left but a scar. This is the way perfect cure is accomplished.

Until the scar is thoroughly formed, it may break down at any time, leaving the bacilli free to continue their action at that place—in other words, a relapse occurs.

(Continued next week)

There will be a good deal of the speaker-of-the-house vs. the administration spirit in the 31st session's legislature.

Both the pros and antis claim to have Governor Campbell's assurance that he is with 'em to the last ditch."

Never in the history of the world has there been such a succession of calamities as during the past month. A train wreck or mine horror involving the death of a hundred or two people gets no more prominence in the daily press than a prize fight or game of base ball. The reading public have become case-hardened by the very frequency and extent of these horrors and forget them as soon as read. Their nerves have become insensible to shocks only by such a calamity as befell southern Italy last month.

A bill to abolish the fee system as far as that is practicable, by providing that fees of county officers paid by the county shall become the property of such county, and such officers shall receive a fixed compensation to be paid to each officer under limitations provided by the bill—has been introduced at Austin by Thomas, Senter and Sturgeon. It strikes at the abuses that seem inseparable from the fee system and forms the basis for all sorts of official graft, by giving publicity to the exact amount each officer receives and limiting the compensation of each. It aims to stop the scandalous spectacle of a subordinate officer receiving two or three times the compensation of the governor of the state, or chief justice of the supreme court.

Judge Crockett has introduced a bill providing for the re-organization of the 32nd, 34th, 39th and 63rd judicial districts, and creating the 68th district. If the other three are as large, and with as rapidly growing court dockets as the 32nd district, there can be no question as to the urgent need of reorganization. The entire time of Judge Shepherd is taken by the courts of the sixteen counties, comprising the 32nd district. All have increasing dockets; besides much time is lost going from one court to another in counties off the railroad. The Record regards Judge Crockett's bill both timely and

The filibustering tactics of the anti-submissionists in the senate give evidence of their purpose to kill the measure in the upper house. If this is done, there is every reason to believe its defeat will be due to the influence of the whiskey interests alone. The Record believes the Democratic party committed itself to submitting the question of statewide prohibition to the people, and the 31st legislature was selected upon that basis. The voters, by a Democratic primary said they wanted the question submitted and reposed confidence in the candidates who now compose the legislature to see that the question was duly and legally submitted. It was a platform demand of the Democratic party, and the Record cannot understand how the expressed will of a majority of Democratic voters of Texas can be thus subverted, without gross violation of the principles and usages upon which the integrity and perpetuity of the party have depended and forever must depend. To thwart the will of the people now, under whatever pretext of principle argument of policy, were to play recreant to a trust in which sound morals as well as good faith and clean government are closely involved.

The Van Zandt Enterprise wants the names (one good one will do) of farmers who have moved to west Texas, bought land, paid for it and put the deed down in the northeast corner of their round-top, hair-covered, brass-nail-studded "chists," and been content. Well, Brother Hobbs, you invited the avalanche yourself, but when you cry "enough," we will stand by with scoop to help dig you out. Will give you the one name and wait your request for more, which will be sent by letter. We will begin with an ex-Van Zandter. You may remember D. M. Vinson, who came from Grand Saline vicinity; no better farmer or citizen you ever had. He is here in Mitchell county, bought land not once, but three times, paid for the last purchase with what the first one produced. Saw him 'this week; says he is doing better than he ever did elsewhere. As to the salting down of his deed in the rawhide chist, farmers in this section keep their money and papers where moth, rust, rats nor carelessness can effect them—in the bank. Now, Brother Hobbs, we are getting a list for your illumination and if you want their names, send self-addressed, stamped No. 11 envelope, the one condition being that you publish all the names we send. Will you?

Among the other things intended for your own betterment this year, resolve to spend your money cheerfully. Not in useless extravagance—oh no; but the money you must spend, do it good humoredly. Bill collecting is a thankless job, but it gives one close insight to his neighbor's character. Some people only pay their taxes and other debts when they can no longer put them off, when so grudgingly and in such a way that one would think they were being robbed.

wash woman to come half a dozen times for a pittance and at last fling it like a bone to a dog. A man who pays his debts promptly and pleasantly is more than human in a bill collector's eyes. To "chew the rag" and dispute, insinuate mendacity and suggest error, when a man asks for what you know you owe him, is neither just or decent treatment of a friend who has accommodated you and your family. Horrible to say, some of the worst offenders in this despicable practice are women. But you ought to hear some of them over the telephone when they finish telling the dealer just what they think of his way of doing business, and hang up the receiver,—it smokes like a hot axletree. Think how much you appreciate the customer who comes in, asks the amount of his or her account, pays it in full and says "thank you" when you hand back a receipt. How you want to kick yourself for not charging him more.

### AMENDE HONORABLE

In the card of thanks issued by the Kindergarten Association last week, occurred one of those unaccountable and preverse errors that will at times creep into all printed matter, no matter how closely read and censored and they always occur at the most unfortunate time, under conditions most naturally misunderstood and easily misinterpreted. It were useless to try to explain such mistakes. They must be accepted as an awkward fact and diligence redoubled to keep them out in the future.

No other member of the association took a more active part in getting up the entertainment or did more to assure its great success than Mrs. J. B. Annis, and to ignore even her signature to the card of thanks for the public, was a slight, upon its face, that naturally would be noticed and felt.

The error was not discovered till day after publication. The copy was found and the entire responsibility rests upon carelessness in putting the article in type. Our reporter was in no wise to blame. The names of the entire committee were there—the compositor simply omitted the name of Mrs. Annis. Lack of space last week forced us to cut much of the individual mention of the cast out, but the card of thanks was given entire. The fault did not come under the notice of even the proprietors of the Record, but rests upon the compositor and proof reader. There being no typographical errors, the copy and the proof were not compared as they should have been.

### "DEAD BEAT" AMENDMENT

Our present statutes really shield the "dead beat" and encourage him in defeating the payment of his honest debts. One may lend to another his money, merchandise, professional or manual skill, his time, either for profit or without compensation, all in good faith, and there is not a court in Texas with power to protect him in collecting his debt, when the beneficiaries of his kindness and misplaced confidence refuse or neglect to repay him. Through the operation of these laws, which is the grossest of class legislation, fortunes have been lost and the integrity of many good men impugned, for failures, which these laws make probable.

In view of this condition, a petition will be presented to the present legislature asking that body to submit at next election an amendment to the state constitution, allowing any person holding a just and legal claim against another, to garnishee as much as 10 to 25 per cent of any wages or salary that may be due such debtor, to be applied to the payment of such claim.

MR. WILLIAM A. PRESSER, 1723 Third Ave., Moline, Ill., writes: "I have been suffering from catarrh in the head for the past two months and tried innumerable so-called remedies without avail. No one knows how I have suffered, not only from the disease itself, but from mortification when in company of friends or strangers.

"I have used two bottles of your medicine for a short time only, and it effected a complete medical cure, and what is better yet, the disease has not returned.

"I had tried several remedies and was about to give up, but thought I would try Peruna.

"After I had taken about one-third of a bottle I noticed a difference. I am now completely cured, after suffering with catarrh for eighteen years.

"I think if those who are afflicted with catarrh would try Peruna they would never regret it."

**SAVE THIS, ANYWAY**

Here is a simple, home-made mixture as given by an eminent authority on Kidney diseases, who makes the statement that it will relieve almost any case of Kidney trouble if taken before the stage of Bright's disease. He states that such symptoms as lame back, pain in the side, frequent desire to urinate, especially at night; painful and discolored urination are readily overcome. Here is the recipe. Try it:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

A well-known druggist here in town is authority that these ingredients are all harmless and easily mixed at home by shaking well in a bottle. This mixture has a peculiar healing and soothing effect upon the entire kidney and urinary structure, and often overcomes the worst forms of Rheumatism in just a little while.

This mixture is said to remove all blood disorders and cure the Rheumatism by forcing the Kidneys to filter and strain from the blood and system all uric acid and fowl, decomposed waste matter, which cause these afflictions. Try it if you aren't well. Save the prescription.

Are you troubled with the "Blue Devils"? If so the Harry Scott company guarantees a sure cure in their musical farce, "Ma's new Husband," which is to be presented on Monday night Jan. 25th at the opera house.

No one who sees the full grown man who attempts to pose as a boy in the care of the tutor, and who afterwards marries the woman whose son he so cleverly represents himself to be, can suppress the laughter that the occasion evokes, and he is only one of half a score of mirth-provoking characters that rust through the risible scenes of the piece. The music and lyrics are fitting accompaniments to a clever book and enhance the entertainment.

**DABNEY SWEENEY DEAD**

The sad intelligence reached the friends of Dabney D. Sweeney in Colorado Monday morning that he had died the day before at Stiles in Reagan county, where he had gone to take charge of the business of R. G. Anderson at that place. He was taken with pneumonia while on his way to Stiles and being in ill health to begin with he fell an easy prey to the disease. He had many friends here who learnt of his death with sincere regret. He was a clean, manly fellow, unobtrusive in his inter course with the world, genial, but steadfast to convictions of what he conceived to be right.

His remains were taken to Westbrook for interment, which occurred Tuesday January 19th.

A good live, real estate agent will do any town good; but the real estate grafter will do your town more harm than forty legitimate real estate men can do good. The grafter will sit around the hotels or on the street where he can watch for prospectors that have been brought to town by other men and as soon as he gets an opportunity he will go to the stranger and proceed to load him up on all kinds of tales with the result that the stranger gets disgusted and quits your town. The only remedy that we see to get rid of the real estate grafter is knock his head off every time he butts into the other fellow's business.

To amend the anti-free pass law so as to declare the provisions of that act shall not prohibit railway or sleeping car companies from contracting with newspapers for advertising at its cash value and paying for the same in mileage books at cash value of same, mileage books to be used only by the owner or owners of newspaper and provided that if they shall transfer such mileage books to any one other than member of their own family or other of their employees, the offender shall be subject to a fine of \$500 to \$1,000.

This is important and after reading it, you will do well to cut it out and preserve it for future reference.

**MURRAY'S**

Balsam for the Lungs and Kidneys. This is a Sequel to the Wonderful Story.

I was born in the State of Kentucky, where my father practiced medicine forty-eight years, and where his father, his brother and my brother also practiced till they were very old men.

When my father was about 35 years of age he was taken down with what the physician at that time called quick consumption. His brother physicians who attended him gave up the case, telling him they could do nothing more for him. He then told my mother to get certain remedies and how to compound them and in less than three months he was able to resume his practice. He lived to be 86 years old and never had another attack of lung trouble, but was a strong, healthy old man. After being cured he gave the medicine the name of Murray's Balsam for the Lungs and Kidneys.

This medicine loosens the cough so the patient can expectorate with but little effort and gradually but surely heals the lungs. I don't know that it will cure tubercular consumption so that it may not be brought on again by exposure, but I do know there are people in Taylor, Callahan, Brown, Eastland, Hamilton and many other counties in Middle and West Texas who are now able to attend to their business and apparently in good health who would have died with lung trouble years ago had they not used this medicine.

It will cure an ordinary sore throat in a few hours and relieve Tonsillitis the same way, but it takes about a bottle of the medicine, that is about three weeks' treatment, to eradicate tonsillitis entirely so as to have the tonsils from being cut out. It will loosen an ordinary croup very quickly and keep it from settling on the lungs, and will cut the phlegm and relieve the croup quicker than any other remedy that has ever been discovered. Give a child 2 years old 3 to 5 drops on its tongue with no water to wash it down and it will work its own way down and relieve the child in a few minutes. For a child 4 to 12 months old from 2 to 3 drops; a good way is to drop it on the joint of a case knife or on paper, as it is thick like syrup. Mothers who have once used it with their children will not do without it.

It is as good for kidney and bladder troubles as for lung and throat troubles. Every ingredient in it is a kidney remedy, and a person don't have to wait, as is the case with many kidney remedies, till he has taken two or three bottles or relieved, but where there is anything wrong with the kidneys or bladder the improvement begins with the first dose. When children are troubled with bed wetting, after they have taken the medicine two or three days, the mother will not know whether they are cured or not till she stops giving the medicine. It should be given at least a month and stop, and if it comes on again give it another month. It is rarely the case that it has to be given the second month. Many persons have to get up many times during the night. This shows disease of either the kidneys or bladder and frequently bed. After using this balsam three days the patient will rest quietly from 6 to 8 hours and when down with lumbago, toe back and sides racked with pain and helpless to rise from the bed or chair without assistance, this balsam will cure and enable the patient to go to work before other remedies will begin to take effect.

Twenty-five drops will cure any case of cramp or bilious colic in less than twenty minutes, generally in about ten.

Now, as a proof that this balsam is what I claim it to be, I will allow any one who purchases a bottle to use it a week and if not entirely satisfied with it they may return it at the end of the week and get their money back without any questions being asked. Is this honest? I think so. I have had hundreds of letters from persons who have been cured of kidney and lung and throat troubles with this balsam, and the reason I do not have them printed is, first, it costs money, and, secondly, I have seen so many such and have so little confidence in them that I am thoroughly disgusted with them, and I believe others feel the same way about it, so I say, use it at my expense for a week and you will not have to make an affidavit nor sign any statement nor say anything only that here is your medicine, I am not pleased with it, and get your money. I don't believe one bottle in a hundred will be returned for I have seen the medicine used ever since I was a child, and am now past 70 years of age, and it is spoken of by all who use it as a wonderful remedy. If your druggist does not keep it, write to F. I. Murray, Abilene, Texas.

It is put up in one-ounce bottles, there being from 3 to 4 weeks' treatment in a bottle. The bottles are strong and will be sent by mail on receipt of \$1.00, 3 bottles for \$2.50.

**THE SOCIETY REALM**

Mrs. J. G. Merritt, Editor

Miss Emma Dupree entertained the G. F. C. Thursday afternoon at the home of Miss Pearl Ruddle in a most delightful manner. The usual good time was enjoyed at the 42 game. No prizes were given but a delicious salad course was served during the social hour.

The recital given under the management of the sophomore class of the High school Thursday evening was well attended and very much enjoyed by those near enough to the stage to hear Miss Ault, a reader from Boston. Her voice was not very strong and the acoustic properties of the auditorium are none the best; so those in the rear of the room failed to hear. Her program was fine and well delivered. The musical numbers given by Misses Merrell, Blandford, Majors and Graves were all splendid. The sophs took in about \$40 on this and are to be complimented for bringing outside talent to help out their entertainment.

The Hesperian club met Friday with Mrs. Merritt, with a good attendance and a splendid lesson. The meeting this week is with Mrs. Phenix, with this program: "His verse blooms like a flower night and day."

Roll call—quotations from Southern poets. Parliamentary drill. Leader—Miss Dupree. Lesson—act IV, scenes 1 to 4, Hamlet.

Southern poets. Father Ryan as poet laureate of the Confederacy—Miss Hughes. Sidney Lanier as critic, poet and musician—Mrs. Johnson. Courtship and letters to his wife—Mrs. Majors.

The art and spiritual meaning of Lanier's poems; musical in motive and thought; the symphony—Mrs. Merritt. Criticism and religious faith; the crystals—Mrs. Payne.

Round table studies of the negro by writers of the South.

The Standard Club met last week with Mrs. Burns with this program: Roll Call. National and State holidays.

Text study and reading, Act I scene II. Leader—Mrs. Coleman. Reading, Brutus before Philip and Henry before Agincourt. —Mrs. Sherwin.

Magazine, Two great engineering Feats. Leader—Mrs. Crockett.

The meeting this week is with Mrs. Gary at Mrs. Crockett's.

Again we thank our friends for helping to make our entertainment Tuesday evening a success. We gratefully appreciate your help and are glad to state that \$30.00 was cleared for the Kindergarten, we especially thank Miss Stonerod who trained the choruses and are also grateful to every one who took a part and by their aid helped to make the entertainment what it was. Thankfully yours, The Kindergarten Association.

The U. D. C. met Tuesday with Mrs. Carter to celebrate Lee's birthday. A short but very enjoyable program was given after which delicious refreshments were served and the chapter adjourned to meet next month with Mrs. Merritt, with the regular program.

The Twenty-One 42 club enjoyed a delightful meeting Wednesday with Mrs. John T. Johnson. The red rose was won by Mrs. Humphries, the bud by Mrs. Ingram. Special entertainment was provided for the babies of the club, there being one

present. Delicious refreshments were served by Misses. Whipkey and Risinger.

The Card Club was entertained by Miss Hooper Tuesday at Mrs. J. L. Doss' and an enjoyable afternoon spent.

The Wednesday Social Club were entertained by Mrs. Moor this week in her most hospitable manner. Mrs. Moor is not a member of the club so her delightful hospitality was doubly appreciated.

**THE PLAY IS REPEATED**

The presentation of the "Mitchell County Fair" at the opera house last Monday night a week ago, by the Kindergarten ladies was such a howling success from every point of view that the Association determined to have it repeated last Tuesday night.

Owing to the propitious weather, the audience greeting it the second night was considerably larger, than on the first. The cast in its minor and non-essential characters was hardly as full as for the previous performance, but no feature was omitted or specialty curtailed. The entire company seemed to do as well without the supervision of the lady who trained them and superintended rehearsals, as with it.

Altogether, there has never been an entertainment by Colorado talent that surpassed the "Mitchell County Fair" for its spontaneous humor and hearty, healthy enjoyment, and the Record only reflects the universal approval that both presentations received.

We hope the Kindergarten Association may see its way to give another entertainment of kindred spirit and the Record will assure it liberal patronage.

Great credit is due to the members of the association for their devotion to this meritorious work. The free Kindergarten

has become a fixed factor in the social, moral and intellectual development of Colorado City and the community welcomes every opportunity to encourage its work.

**THE LADIES AID**

The Ladies' Aid society of the Baptist church will hold their regular weekly tea at the home of Mrs. W. J. Hatch next Thursday evening from 4 to 6 o'clock, Jan. 28th. Everybody invited. A free will offering by the members.

The Callahan County News, Ralph Shuffler editor, is the most pretentious among new west Texas papers. It is an unusually neat mechanically and bright editorially, six-column quarto, while its generous advertising patronage reflects the esteem in which the business men of Baird hold it. We wish it abundant success.

Austin, Tex., Jan. 18.—Governor Campbell and the attorney general's department are jubilant over the state's victory in the Waters Pierce case as announced from Washington today. The case was commenced here in May, 1907, both the district and supreme courts deciding in favor of the state. The corporation will be required to pay all penalties sought.

John D. has never been averse to standing his share of court costs just to keep the cogs of justice running smoothly, but when it comes right down to paying a flat-footed fine, John ain't on record at all. We hope Texas will get that \$1,620,000 fine, and hope we'll live to see it paid.

Representative Reedy of Smith county wants the membership of the lower house of the Texas legislature reduced from 133 to 93 with increased pay. If he will accept the amendment increasing their ability, his bill ought to be a winner.

The regular meeting of the United Brotherhood occurred at the Woodmen hall last Sunday afternoon at 4 o'clock. By actual count there were present 113 men, who came out upon the special invitation given them on the cards distributed Saturday afternoon on the streets and left in the business houses.

The meeting was addressed by Rev. Holmes Nichols, who spoke very earnestly and convincingly for about forty minutes, on the "Good Fight."

The Brotherhood will meet at the Woodmen hall regularly at 4 o'clock on Sunday afternoons, and will be addressed by both lay members and ministers as may be selected by the proper committee, of which there are several, covering every feature of the Brotherhood's work.

A most cordial invitation is extended every man and boy in Colorado to attend these meetings and a hearty welcome is assured all who will come and meet with us.

**A SURPRISE MARRIAGE**

The friends of Obie Avery and Miss Addie Coughran were greatly surprised Monday morning on learning that on Sunday night they had quietly repaired to the home of Rev. J. T. Henson and requested that they twain be made one, and his Reverence, having a sympathy for candidates for the marital state, cheerfully performed the ceremony. Both these young people have many friends who congratulate them and wish for them all the happiness and prosperity that can come the way of mortals.

**REGULAR SATURDAY MARKET**

The Ladies' Aid Society of the Baptist church have established a regular Saturday market. The market will open at 2 o'clock Saturday afternoon, Jan. 30, at Burns & Bell's grocery store. We earnestly solicit the patronage of ALL our friends.

They have also decided to take charge of the annual sale or bazaar and will conduct it on the exchange plan, as was done by the Mission Band last year. The society was formed into circles to work to that end. Every member of the church is urged to join the circle nearest them and contribute work for the bazaar orphans home, the poor etc. In this way we will not only do more and better work for the objects that need our support but will get to know each other better.

**MISERY IN STOMACH**

Why not start now—today, and forever rid yourself of Stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat then take Pape's Diapepsin to start the digestive juices working. There will be no dyspepsia or belching of Gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and Dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapepsin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of Indigestion and Upset Stomach in five minutes.

There is nothing else better to take Gas from Stomach and cleanse the stomach and intestines, and besides, one triangle will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapepsin works your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all Stomach Misery is waiting for you as soon as you decide to begin taking Diapepsin. Tell your druggist that you want Pape's Diapepsin, because you want to be thoroughly cured of indigestion.

CLAPP and WALK-OVER Shoes, HART, SCHAFFNER and MARX Clothing; in fact, everything that is contained in our three big stores. We have two reasons for putting on this sale. The first is: we wish to reduce our stock before taking inventory. The second is: WE NEED THE MONEY. Never before have the people of Mitchell and adjoining counties had the opportunity of purchasing their dry goods supplies at cost, plus 10 per cent, from a \$75,000 stock, and everyone should get the full benefit of this opportunity. We buy our goods from first hands and do not patronize houses that cater especially to that portion of the retail trade that are continually giving special sales and whose offerings to the public consist principally of printer's ink and hot air. This is a plain business proposition. We are not dealing in superfluous

Laughs and tears are the ruling factors in "Thorns and Orange Blossoms" the strong emotional comedy drama, which comes to the Opera House tonight. The story is well known. In fact, publishers' statistics show that over 5,000,000 copies of Bertha M. Clay's famous novel have been distributed throughout the world, being translated in over sixteen different languages. The story relates to a poor girl's marriage to an English nobleman, is exceptionally well written and of vital importance to every girl who is forced to earn her own livelihood. The production is under the direction of the Rowland & Clifford Amusement Co.
