"That's what I call some package." eried Hosmer proudly as he held aloft a round metal package desorated with a smiling face which was sandwiched between the legend "You can amile-I you ase Deniola

"It is pretty," sonceded the head of the firm as he took the ean into his hands and inspected it more carefully. Bome actress, isn't M? Her face teens familiar.

"Actress nothing." was the senismpmous retort. Hosmer could afford to be flippant when he scored a success. "That's the little typewgiter over in the shipping soom. I caught her smiling like that one day, and it made a bit with me. I invented the powder to go with it. It's the old 'Saponies,' with a little carmine put in to make it book different. I tell you, Mr. Powers, in a week that Dentols girl will be known all over the country, and the sales-well, I'll be around for a raise in salary in about five we ks."

Powers smiled and nodded. Hosmer had a regular scale of self praise When he suggested that the firm owed him a hat for an idea it was only an ordinary hit. The hint that he lunched about 2 o'clock was a sign that he had greater confidence in an idea. The last time that Hosmer had appounced that he was worth a raise in salary was when he had introduced "sunburn cream" which eventually had brought the cosmetic company very nearly a quarter million. Dentola seemed destined to enjoy a

more permanent success. Within two months the Dentols girl smiled upon the entire nation. Even in the tiny hamlets Deptola placards adorned the general stores.

The Dentola girl smiled life size apon the city throngs, and more than life size she beamed at train tired travelers along the trunk lines.

Vaughn, the head of the shipping department, was rather vered over the incident. He had supposed that the picture was merely to be used to decorate the cans of powder.

It became something of a nuisance when visitors to the model factory of the cosmetic company insisted upon seeing the original of "Miss Dentola." Vaughn, resentful of the admiring glances of the masculine visitors, prometed to Hosmer.

"It's all a part of the campaign," deinsed the sales expert, with a laugh. Miss Dentola is the best saleswoman that ever was. We sold more than a million boxes last month, and the orders are still piling in. I tell you, Hen, it pays to advertise when you adverthe right."

"Sure," assented Vaugha, "but you're overdoing it. We wanted to sell the tooth powder, not to bring people to

Barty in the eampaign Powers had face had re dered the girl rather spicuous, so the company paid for a carriage that took her to and from her

> At first Hostner had approved the suggestion, but now he went to the other extreme. There was no chance to walk home with Miss Pryor, and his request for permission to call was met with a polite negative.

He and Vaughn could only fight it out during office hours, and when Vaughn objected to Hosmer's continned presence in the shipping department and asked Powers to give Hosmer a hint to that effect the sales export retailoided by again reverting to bis suggestion flat Mins Payor should be transferred to the mics office

The constant bickering could have but one effect. From surliness they passed to open warfare, and at they brought the motior to the boad of the firm.

Much pleaded his ease, and then a stood waiting the decision with anxiety that showed plainly in their Bach felt that a victory with the chief would aid his fight, and the moments that passed after the ease had been stated were painful to them both. Powers glanced slowly from one to

the other, and his face broke into a smile "You both say that you have

ment.

right to Miss Pryor's services," he began slowly. "I'm afraid that you will both have to hire other typists. Miss Prvor tells me that you both are-errather cordial to her. It seems that you, Vaughn, have suddenly discovered that you need Miss Pryor. Only a little while before the advertising campaign was started you told me that you should have to put on another girl, as Miss Pryor was willing, but slow. I fancy that the way out of this will be to g t another Dentola girl and another typist for the shipping departsuit.

"There's no reason for such denstic aversen," eried Hosmer, but Powers own smiled aga.a.

"There is an excellent reason." said slowly. "I 'an. to marry Miss Prvor. She did me the honor to accept me, and as soon as the Dentols craze is forgotten we will be married. Meanwhile she has her royalty from

the use of her picture, and she will not need her position. She would have told you this, Vaugha, had you waited until this afternoon. Vaughn, too dazed to speak, turned and left the office, and Hosmer was about to follow when Powers detained

him with a word. "You said that you would win a raise on Dentola, and you have," he said kindly. "It pays to advertise, Paul

"For, when you have something to cell," sgreed the expert, "but I was trying to sell Dentola, not Miss Destola. The next time I get out a good article I'm going to marry the original first and advertise afterward."

"Miss Prvor and myself are very grateful to you," said Powers, with a cordial hand clasp, "and I hope that Oil Co. you find another Debtola, Paul

NOTICE OF SHERIFF'S SALE (REAL MOTATE)

Mr. Tippton of the Iudson & Tippton at We lexas alled this week and cheer Record office by bragging offerencessessessessessessessesses cord as the best county pa

the factory to see Miss Dentola. There was a chap in yesterday who said he had seen the pyramids and the Sphinx and the tower of Pisa and all the other show spots of Europe, but he felt he couldn't go back to Montana until he'd seen Miss Dentola. By the way he looked at her I guess he would have liked to take her back to Montana with him. He's only one. There's hundreds. It's all Miss Pryor can do to keep her work up.

"I'll take her over in my department," offered Hosmer, with suspicious readiness. Vaughn shook his head. "She would have to learn an entirely new line of work," he objected. "She knows the shipping game now. Let her stay, even if your ads. are a nuisance and worse

"But I think she ought to be in my department," urged Hosmer. "It is in the advertising end that people would expect to find her."

"You get out of here," demanded Vaughn, half in friendliness and half very much in earnest. He had had Minnie Pryor in his department for more than iwo years and had given her scarcely a look until Hosmer had made her nationally famous.

When men in Alaska began to send proposals of marriage to the girl, Vaughn began to replize that his assistant was decidedly pretty, and as this knowledge came to Hosmer about the same time there ensued a pretty race for favor.

Minnie Pryor, finding herself in de mand for the first time, developed into a beauty. So long as she had been merely Minnie Pryor, typist, she had gone her quiet way, but now Joseph Powers, president and practical owner and how trivial they seem when you of the corporation, insisted that she be get well? When I was ill awhile ago I given a royalty on the use of her pic- could not take any water to drink, alture, and, though this was but a frac- though I nearly died of thirst. But tion of a penny per box, the generous late every night the nurse would use of lithographs enabled her to dress bring me a small glass of cracked ice. becomingly for the first time, in her narrow life,

With the purchase of better clothes she had seemed to acquire that inde- ice the sound was the most beautiful finable charm which belongs to the woman who knows herself to be in demand. She did not develop what Hosmer was wont to term "big head." but she held herself well, and the apolo- have the icebox at my command I getic little typist of the shipping room wouldn't eat a piece for anything. had become the belle of the cosmetic company's works.

Hosmer had his room papered with her pictures, and the more he saw them the more deeply in love with the ing menus. He would call out his ororiginal did he sink. Vaughn had but ders in a loud voice and then nearly one of the posters in his office, for he did not need them with the girl herself bending her shapely head over the desk by the window, and he, too, was very much in love.

In the office both men made the best use of their time, but once the clusing time arrived Miss Pryor disappeared. rules us .- Horace

YOUR OPPORTUNITY

TO BUY A LOT IN

'Brownlee on the Plains"

Lots Now Selling at \$20.00 and Up

A GRAND OPPORTUNITY FOR ANY MAN OR WOMAN TO BEGIN SAVING MONEY AND BECOME INDEPENDENT

IF you have never begun saving money, begin this very day and save something every month. You will feel better and walk with a lighter step than you ever did before. You can buy a lot in "Brownlee on the Plains" by saving as little as 16³c a day, and before you have paid for your lot it will doubtless be worth two or three times what you paid for it.

PRICES OF LOTS

The prices of lots in "Brownlee on the Plains" have been made very low, and we do not claim to give you a few acres of worthless land with each purchase, but have given you the worth of this so-called free land with each proposition in advance, in the low price that we make on these lots.

Agt.

f.

By reading our folder "Brownlee on the Plains" you will be thoroughly informed as to the geographical location, advantageous position, surroundings and future prospects of Beautiful "Brownlee on the Plains." You will also find the following magnanimous propositions made therein by Mr. E. G. Salser, the owner of Brownlee. We are not offering you a plug hat, gum shoes, box of cigars, nor inflated stock in some unknown fiinancial proposition, to superinduce you to buy this property. But instead we offer all premiums in the form of first class lasting and public benefits.

Read These Offers

Mr. Salser will give \$1000 each to five denominational churches. He will give the handsome sum of \$2000 for a public school building. This evidences Mr. Salser's friendship toward Education and Christianity and his great desire to populate Brownlee with a class of high tone, moral citizens, and to provide society and education for their children.

This Is Not All

No Niggers Here

We are determined that the baneful effect of racial differences and prejudices shall never curse Beautiful Brownlee on the Plains. We are determined that Brownlee shall be one place in Texas where the most refined lady may walk the streets without protection and in perfect safety. We are determined that Brownlee shall not be the dumping ground for the scum and riffraff of lower races. We are determined that Brownlee shall be a place where a white man shall not be compelled to come in competition with Japs, Coolies, Mexicans and negroes, who can live on ten cents a day and work at half price. With this end in view we will deed these lots to none but Caucasioas, and will bind the purchaser to transmit this property to none but Caucasians.

Country Fast Settling Up

Almost every train which passes thru this section brings us many new farmers and they are bringing with them their big horses and fine cattle from the north, south and east. They are building good farm houses and opening up big farms all over the Brownlee country.

No Chance Game, but a Sure Investment

Money invested in Brownlee is just as certain to make you a profit as water is to flow down hill. It is only a question of how many lots you buy in Brownlee as to how much you will make. We are not offering to give you a chance at a section of worthless land or a free home, but we do believe that this is the best investment for your money you can find anywhere.

In order that Brownlee may have an adequate supply of water, Mr. Salser has agreed to take \$5000 stock in a first class water company.

Still Another Offer

The record in Martin County in the production of cotton has prompted Mr. Salser to take \$10,000 stock in a \$50,000 cotton seed oil mill.

The last two offers above mentioned, alone, without his great efforts to build up Brownlee in many other ways and inducements he is offering, is enough to insure 5000 people in Brownlee within a year or two.

The Greatest Offer of All

The railroad mentioned in our folder has been graded out of Stanton thru Brownlee to Lamesa, Dawson County, with the exception of a short gap between Brownlee and Lamesa. This short gap will soon be closed, as teams and scrapers are now busy making the dirt fly.

Mr. Salser is under contract to give the handsome sum of \$30,000 to this road when the road is completed and the sales are over. This bonus with the \$50,000 from Stanton will be sufficient to build the road from Stanton to Brownlee.

If you wish to take advantage of the increase of values in these lots or in agricultural lands by getting here ahead of the railroad, we think you will have to hurry.

No Taxes

You will have no taxes to pay on your lots until you have paid your contract in full, and thereafter your taxes will be very low, as you will escape the city taxes for a year or two until Brownlee has a city government, and the tax rate in Martin County is very reasonable.

Free Life Insurance

. Should you die before your payments are completed, we will deliver to your heirs a warranty deed to the lot you have agreed to purchase without another payment being made. The day your application reaches our office your life is then insured for the full amount due under your contract.

Make Your Money Work for You

If you should work 1000 days at \$1 a day you would have earned \$1000, and would possibly have saved onefifth of this amount, or \$200. This \$200 safely invested in any safe property by reason of the great unlimited and unceasing westward tide of immigration, will earn you five times as much in the next 1000 days as you will gain by labor. Is this not simple? Is this not true? A great thinker once said: "If wish to read the future you must study the history of the past." What does the history of Texas the past ten years teach?

\$52,000.00 for Development

JII.

matte much

We challenge the world to show another real estate development where so great a percentage of the proceeds of the sale will be spent in the development of the property.

Possession at Once

If you desire to improve your lot, we will give you immediate possession. In fact, you have immediate possession, when you sign your contract with us, and you do not have to wait for a drawing or a lottery scheme as in other town site propositions.

Would You Like to Build?

Why, just do it. For each of the first twenty persons desiring to build a home in Brownlee, or a small business house, Mr. Salser will deliver lumber at Brownlee to the amount of \$350 worth, provided each of the twenty persons have bought and paid for lots to the amount of \$100. Get busy tomorrow, if you like.

Our Responsibility

ERNOR

As to our responsibility, we gladly refer you to our indorsements in our folder, or ask you to write any bank or reputable business house in Stanton, Texas.

BE QUICK AND MAKE YOUR SELECTION. GET FIRST CHOICE IN LOTS. Brownlee is the most desirable property on the market today. Write or see us at once, and let us explain the proposition to you

he mud on the bottom of the ep sea, instead of being black or wn, is all the colors of the rainshallow water at a distance of from 100 to 200 miles from the easts of the United States and Europe are whitish, being largely comora away from shore by the action nental rock fragments are mixed rith the other deposits.

In greater depths, far from land, into the place of dreams before der the northeast Pacific, the sean floor is carpeted with clay, mging from brick red to a reddish one. The bed floats in midair, with planets above and below. Could one and greasy to the touch while wet, but when dried cakes into a hard, broken by a smart blow from a body inactive, and the eyes are fixed hummer. When rubbed with the ingers or any hard substance the ly a puff of wind brings one down fragments become glazed and shin- again to realities as it passes from ing like earthenware, though far darkness to darkness. Consciousless brittle.

In this red clay minute red worvas almost invisible to the naked indicates the larger celestial bodies eye are found, but whether the worms are colored by the ooze they mhabit or the ooze owes its ruddy Sue to them is a question yet undeeided by marine scientists. Another kind of mud is straw color, beming cream white when dried. men it is soft and light as ashes to the touch and sticks to the finness like fine flour, which it closely meembles.

In tropical seas at considerable istances from land mud is found a deep rose color, shading to milky white. Nearer land this mud becomes gray or bluish gray. Blue mad is only found on the bottom a some tributary or arm of the sea. the blue color is caused by organic matter and sulphide of iron. The ingleasant odor of this mud is due to supplureted hydrogen.

Green mud and sand are developed along bold and exposed coastsa. for instance the Atlantic coast of the southern United States and on he Agulhas bank. The green colened sand, which sparkles in the run like pulverized emeralds, is muchly found in shallower water han the mud-that is, in about 449 rihoms to 513 for the mud. Neifor is discovered at less than 100 m more than 900 fathoms.

Around islands of volcanic origin Magazine. mud varies from light gray to brown and black. Co : mud, red white, is found, of course, near the coral reefs and islands. Along the Brazilian coast the ooze is identical with that in the Yellow sea near the mouth of the Yangtse- ly it is not desirable to expose a kiang, being red brown in color and clock to the unavoidable jolting that yielding the same deposits on anal- the handling entails if it really does ysis .--- St. Louis Post-Dispatch.

The Sky and the Stars as Viewed From Broad Sahara

The nights in the desert are as beautiful as the days, though in winter they are often bitterly cold. bow. Marine deposits in either deep With the assistance of a warm bed and plenty of blankets, however, one may sleep in the open in comfort, and only those who have known this vast bedroom will unweed of minute shells reduced to derstand how beautiful night may were and mingled with volcanic be. If one turns to the east, one may and tiny mineral fragments may stare at Mars flashing red somewhere over Arabia, and westof the waves and currents. In the ward there is Jupiter blazing above Texas. HOMER L. HUTCHINSON.

Why He Liked the Song.

A man who knew nothing of muly business views he took of men and things told Mr. Frederick E. Weatherby that what he liked most about his song, "Nancy Lee," was its sentiment. Mr. Wetherby was pleased, as he relates in London M. A. P., and asked the man what it was in the sentiment which specially appealed to him. "The refrain," he replied. I pressed him to tell me what it was in the refrain he liked so well. "Why," he said, "it is the common sense of the thing." On further pressure he said: "Don't you remember what you wrote?" "Not precisely," I answered. He was good enough to repeat the refrain to me. "The sailor's wife the sailor's star shall be." "Well?" I said. "Well," he replied, "if the noun "I." He says: sailor's wife is his star, she would him.

Whether clear or cloudy, a rosy

A Peculiarity of English.

Still another peculiarity in our English language has been pointed out by a foreign linguist. This time it concerns the use of the pro-

"If a Frenchman writes with refalways be able to keep her eye on erence to himself, he makes 'je' (the French equivalent of 'I') with a small 'j.' So with the German, who may use capitals to begin every noun, but he always uses the small 'i' in writing 'ich.' The Spaniard sickly looking, greenish hue, wind avoids, so far as possible, the use and rain; a dark or Indian red, of the personal pronoun when writrain; a red sky in the morning, ing in the first person, but he always writes it 'yo,' taking pains, rain; a gray sky in the morning, however, to begin the Spanish equivalent of our 'you' with a capi-Now dawn, fair weather. Remark- tal. In English it is surely big T able clearness of atmosphere near and little 'you.'

The Navigating Jellyfish.

Scientifically, of course, the popular idea of the jellyfish is wholly mistaken. But it is perhaps only in tropical waters that he is found in the perfection of intelligence. In the south Pacific, around the islands of Polynesia and as far south as the upper portion of the north island of New Zealand, there is a jellyfish that not only knows where he wants to go, but is even provided with a sail, which he can and does hoist or lower at will. The sail, like the rest of this curious animal, is almost transparent, but, unlike the body of the fish, which is of the usual gelatinous construction, the sail is a membrane almost as hard as shell .-- London Standard.

"'And I copped it?' he chuckled. 'You saw it first. By gosh, you nearly upset me! I was too quick for you, though. Hard luck !'

"He paused and gave me a kindlv look

" 'Say,' he exclaimed, 'I don't want to be mean. I'll tell you what I'll I'll go halves. You saw it do first.

"'Oh,' said I, 'you are too generous. Halves would be too much.' "'Well, then,' said he, 'I'll make it a third. You was the first to see

shyster "'All right,' said I. "That makes your share, then, \$33. Give me \$15, and we'll call it square.'

"He gave me a keen, frowning look. He thrust the watch into his pocket.

"'Fresh!' he muttered and vanished in the crowd."--Exchange.

Wanted to Make Sure.

A number of students from a German university were drinking in a beer garden. A self satisfied looking American said to one of the shortest and stoutest students:

"I'll bet you \$5 you can't drink seven schooners of beer!"

The Dutchman hesitated, then declined the bet and left the room. In ten minutes he came puffing back, hurried up to the American and exclaimed:

"I vill dake der bet!"

The beer was ordered, and the Dutchman in the presence of an admiring and envious company quickly drank off the seven schooners.

The \$5 were paid over, and the American asked:

"Would you mind telling me why you went out before you took the

CLEAN UP NOTICE

SAN ANTONIO IS FIRST

Now that the city government has been so enthusiastically endorsed by the taxpayers,. it is very necessary that each individual do his whole duty to justify the dicision of Saturday in doing those things for which the corporation stands. It is therefore imperative that all the streets, alleys, yard premises and closets be thoroughly cleaned up and kept so.

It is also ordered by the authorities that all waste paper, poxes and trash, of whatever kind be burned if swept into the street or put into a receptacle
