FOURTH YEAR NO. 36.

COLORADO, MITCHELL COUNTY, TEXAS, FRIDAY, JULY 2, 1909.

WHIPKEY PRINTING COMPANY.

Ten little patriots Planted a mine Under a billy goat; Then there were

Nine little patriots Gathered about To see if a large Canon cracker was out

Wholly undaunted, The balance were strong To blow up the ice man When he came along

All the survivors Were perfectly bug To see what some powder Would do in a jug

Six little patriots, Game, for a' that, Tied a pinwheel To the tail of a cat

Five little patriots Overly skittish. Showed the grown folks

Four little patriots Sought to determine, If the Irish hold sizzers As long as a German

All the survivors Were fairly agog To touch off a skyrocket Tied to a dog.

Two little patriots, Vied, being boys, o see who could make The most singular noise.

he little shaver, The last to be nipped, ghted the fuse in his nnon, and slipped...

ven for climate, but hell for comyour Uncle Ganderbone.

above all the other months. To Rome it gave imperial Caesar, the fightinest man who ever lived. Marc Antony, who changed the name of the month from Quintillis to July, said that if Caesar had opened his eyes anywhere else on the calendar he probably would have been molly-coddle and Rome would have had woman suffrage. The Celts, who have made fewer mistakes than any other race, made and crops are looking better all July the beginning of the year, the time. and John Hancock, who was first Messrs Bagwell and Hale, rependence, said that credit for the visiting in our community.

The lonely worm Will take a brace And slap the robbin In the face; The liquor man Will utter cries And kipper half A dozen drys; The hot consumer, What with thrusts And blows, will kill

Himself some trusts, And the swimming pupil, Burned and red,

Will chase his dad Around the shed.

To all of which nobody much Powell Saturday. can make the least objection. We in that direction. We never shall Langford and children. do anything to Aldrich and his tar iff until the meek insurgents rise Sunday with Joe Powell and and take somebody's hair off. We wife. never shall reform a thing until we Messrs Gardner, York, Hale

## LUMBER

Yes, I am selling lots of it, and my customers are my best advertisement. ASK THEM ABOUT US. Are you going to build a chicken house, a barn, a room, a rent house, or a residence? I want to sell you the lumber. Don't fail to see me about it.

## It Will Pay You

I have pleased thousands of people and know I can please you. If you are one of my customers you know this is true; if you are not, I want to prove it to you. COME AND SEE ME.

## Lard Has Been in Existence a Long Time—So Has Indigestion

Human nature is hard to solve. People who are most particular about adapting the weight of their wearing apparel to the season and its conditions, who never think of going out in a storm without an umbrella and rubbers, who would not sit in a draft, will day after day eat lard-soaked food and not realize for an instant that it is clogging their whole inner machinery. Lard is produced from hog-fat, sometimes impure, always indigestible. Cottolene is the only rational frying and shortening medium in the world. It is made from refined vegetable oil and everything about it is digestible and conducive to health.

It will make pure, palatable, healthful food, and food which anyone can eat and enjoy without the after-pangs of a disordered stomach.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an airtight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable

There are many remarkable towns in Mexico, but none more in teresting than Guanajuato, "the hill of the frog." It might more properly be called the "gold brick town," for in the houses have been found much gold.

This is a curious situation, but it came about naturally. Guanajuato-pronounced Wah-nah-wahtois one of the oldest mining towns in Mexico, but the value of the place as a town was discovered when a railroad company decided to build a station there. It was found necessary to tear down about 300 adobe buildings, which were made of the refuse of various mines after the ore was extracted.

When it became known that the old adobe building would be torn down pieces taken at random were assayed. It was found that because of the old process, which left much gold and silver, they assayed from \$3 to \$24 a ton. The mean value was estmated to run abou \$8 gold a ton.

The old buildings have brought about \$30,000 Mexican, in gold, and persons who have built since the new machinery came into use are bemoaning the fact that the new houses do not contain as much gold as the old .-Scientific American.

## HOUSEWIVES

Do you want to know about a wonderful new time, health and money-saving kitchen convenience?

Then you should see the complete line of "1892" Pure Spun Aluminum Cooking Utensils now on exhibition

This ware is guaranteed by the makers for 25 years. It is absolutely pure, wholesome and thoroughly hygienic, will not crack, scale, peel, break, rust, tarnish, scorch

It is light weight, easy to handle and easy to clean; makes kitchen work a delight instead of drudgery; saves your money, time, fuel; protects your health against metal poisoning and serious troubles resulting from chipping of small particles into the food, which is one of the dangers from the use of the old style enameled wares.

You buy patent carpet sweepers, egg-beaters, dishwashers, clothes-wringers and many other time and labor saving conveniences, but there is nothing that will prove a greater practical household blessing than the "1892" Pure Spun Aluminum Ware.

Lose no time in seeing for yourself what it will do. Your money back if this ware fails to do what is claimed
