Settle up Notice.

We desire to notify the public in general and all parties owing us in particular that we have sold out our windmill and hardware business in Colorado and are winding up our business here which must be done by December 1st.

All parties knowing themselves indebted to the Western Windmill company must come in and make some kind of settlement. We must close up our business and this notice means every one must come and settle and save trouble and unnecessary expense.

We desire to thank the public, one and all, for their patronage and ask those we have accommodated to heed this notice.

WESTERN WINDMILL CO.
Jas. T. Johnson, Manager.

Notice.

I will leave Colorado on Tuesday, November 16 if nothing happens more than I know now, and I ask all who know themselves to be indebted to me to please come and settle before I leave. I will be compelled to place accounts in the hands of a collector if you do not, and I would like to save you trouble, or extra expense.

W. C. NEAL,
Dentist.

For Sale—Three horses, harness, two buggies and one surry cheap for the cash. See Dr. Willis R. Smith, Colorado, Texas. 11-12

Say brother, sister, read this issue of the Record carefully, note the amount of local reading matter, the country news and other features. Then before you begin to find mistakes and faults, that you could have observed, compare it with the paper from your "old home town" and tell us the net result.

Don't fail to get your hat from Mrs. Jas. DeMoss for neither of you will be satisfied.

Colorado Gin Changes Hands.

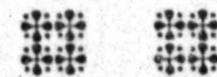

The interest of S. T. Shropshire in the Colorado Gin Company was acquired last week by Ward Gross. This is the oldest and most popular gin in Mitchell county, having done an immense business since the first season it was opened. The acquisition of this interest by Mr. Gross will bring into the business an even greater popularity and business experience, which will make themselves felt in the increased business of the gin, as Mr. Gross' connection with any enterprise is a guarantee of success.

In talking with C. G. Key about the peanut industry in this county, he informed us that he had threshed more than 2,000 bushels in Mitchell and a small part of Scurry counties. The crop, he said, compares very favorably with the output and profit of other crops this season. Some crops ran as low as four and five bushels to the acre, while others have yielded high as 35. He estimates that at least 700 acres were planted to the nut in Mitchell county the past year, and in view of the performances of the crop, he predicts a very much larger acreage next spring, now that the certainty of a steady market is assured the farmers. The nut has made many friends and inquiries for the best kinds are being made all over the county; information as to the Brazilian nut being most frequent.

CITY COUNCIL MEETS.

Business Transacted and the Affairs of the City Looked After.

The Council met in regular session Tuesday night with Mayor Adams, Aldermen Moerer, Earnest, Ratliff and Burns; Marshall Joe Key present and City Clerk Keathley absent; M. C. Ratliff, John Graves and the reporter as visitors.

Minutes of previous meeting read, corrected and adopted. Minutes of called meeting read and adopted.

Rebt. M. Webb then submitted his annual report of the Water Co., also the Electric Light Co. The reports were rejected because they did not comply with the law.

John R. Graves asked the City to refund \$25 that he had paid as a hotel license in 1908, as it was illegally collected so he thought. The matter was referred to a special committee, composed of Judge Earnest, Dr. Ratliff and F. M. Burns, to report at next meeting.

Communication from J. R. Patterson at Robert Lee, about a new walk in front of the Payne building, objecting to tearing up the present walk and putting down a concrete one in its stead. He was instructed to go on and put down a new walk.

Communication from the State Board of Health, asking the Council to pass an ordinance requiring all births and deaths in the city to be reported to the City Health Officer. The secretary was instructed to write for copy of the ordinance to be passed.

Lake Thorne, at the express office,

was discussed and Maj. Wrotham was to be notified to fill it up.

Arc lights for the streets were discussed and the great need of them was admitted by all, but as the City has no funds it was decided by the Council that they could do nothing; yet they urged someone to start a paper for voluntary contributions monthly, so as to put in three arc lights on second street which have been offered at \$18 per month.

Bills allowed as follows:
W. M. Cooper \$ 5.00
J. S. Vaughan 31.30
Colorado Drug Co.35
Burton-Lingo Co. 10.45
Moerer 10.96
Whipkey Printing Co. 9.30

Total \$71.36
Council adjourned.

Y. D. McMurray Elected.

The School Board met Tuesday morning and elected Y. D. McMurray as a member of the board to succeed Dr. Neal, resigned. In the Record's opinion no better selection could have been made. Immediately after the election the board visited the school in a body and found everything all right and everybody busy.

Money Loaned.

NOTICE.

To the citizens of Colorado. I will sell wood here for a few days only. Good dry wood sawed up stove length and delivered to consumers at **\$4.50** per cord. Watch for my wagon on the street or phone 266.

GEO. W. JENNINGS.

NOTICE

An Electric Sweeping machine you have seen them advertised in all the magazines operated by suction. Just take hold of the end of a hose, hold it upon the wall over the book case, about the furniture, etc., and the dust is all sucked up instead of making a big dust as sweeping usually does, it sucks in all the dust and deposits it in a closed pan.

We are thinking of buying a machine. (Cost \$100.00) and renting it out to house wives, at so much per hour to clean house once a week or so. Is the idea a good one? Please tell us what you think.

COLORADO ELECTRIC LIGHT CO.

House to be Occupied.

The former premises of the Western Windmill Company on the corner of Walnut and Second street, have been leased by the Colorado Mercantile Co., will undergo some different arrangements and be occupied by the latter company about December 1st, as a warehouse for wagons, buggies, plows, reapers, mowers and other farm implements, all of which lines will be enlarged and the company of which Mr. Ward Gross is the most efficient manager, will reach out for greater territory and a heavier trade.

This business has made seven league strides the past four years in both its grocery and implement business. Line after line has been from time to time added to its stock, until now, there is not a similar institution in west Texas as its peer in point of popularity and solidity.

At the close of the month of September the halfway mark had been reached in the huge job of excavation at the Panama Canal. By that time 87,172,953 cubic yards or about one-half of the total excavation, had been removed. The grand total for September was 2,836,385 cubic yards, which is 1,043,952 cubic yards less than the highest record, which was made in March, 1909.

WHY SALVES FAIL TO CURE ECZEMA.

They Clog the Pores—Only a Liquid Can Reach the Inner Skin.

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and can not penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the only standard liquid eczema cure, oil of wintergreen as compounded in D. D. D. Prescription. After ten years of cure after cure, the world's leading skin specialists have accepted this as the true eczema cure.

We ourselves do not hesitate to recommend D. D. D. Prescription at \$1.00 a bottle, but for the benefit of those who have never tried the prescription, we arranged with the D. D. D. Laboratories of Chicago for a special large trial bottle at 25 cents on a special offer now. This first bottle ought to convince every sufferer, and, at any rate, it will surely take away the itch at once.

LORRAINE LETTER

(Miss Lillian Davis)

Mrs. Morgan who lives in east Loraine is reported quite ill this week. Reginald Gary who has been sick for the past two weeks is up again.

Miss Pearl Porter entertained quite a number of friends at her home south of Loraine last Friday night. Games were played and all had a merry time.

Quite a large crowd assembled in the High School auditorium Friday night for the Literary program of the ninth and tenth grades. Mr. Willie Blocker installed the new officers. Mr. Wirt Blume, president; Miss Grace Baker, secretary. An interesting program was then rendered which consisted of:

Chorus—Ten Girls.
Reading—Dona Blevens.
Instrumental Solo—Opal Templeton.
Story, A Visit to Mars—Ethel Gregg.
Violin Solo, with piano accompaniment—Homer McRae and Opal Templeton.
Reading—Grace Baker.

Debate—Resolved: That Queen Elizabeth was justifiable in the execution of Mary Queen of Scots. Affirmative Willie Blocker, Robert Henthorn; Negative Allan Goodgame, Writ Blume. The debate was interesting and well gotten up. The decision was rendered in favor of the negative.

T. O. Cowan of Fluvanna is visiting his sister, Mrs. S. D. Donahoo.

Quite a large crowd of Loraineites attended the singing convention at Zion's Rest. All report plenty of dinner, lots of people and an enjoyable time. The next convention goes to Colorado.

Quite a successful operation was performed by Drs. Shook and Copeland of this place and Dr. Smith of Colorado, upon W. E. Erwin. For several years Mr. Erwin has suffered with lung trouble which he believed to be tuberculosis. Careful examination led Dr. Shook to believe differently. An operation was performed last Tuesday in which an abscess was removed from his lung. He is now improving rapidly and his physicians and many friends hope that he may soon be restored to health.

Elder J. B. Jones of Roswell, New Mexico, was the guest of W. C. Copeland this week.

A. M. Loper and Doc Baker, two prodigals of the vicinity of Loraine, wandered far and wide seeking for

pastures green, have returned and will abide a while longer, having found nothing better.

Cornet Wimberly has sold his interest in the Stone Drug Co. The electrical display Saturday night put quite a number of phones out of business.

T. J. Kelley, the depot agent met with quite a painful accident. Monday morning he slipped and fell on the sidewalk breaking some of the bones in his left foot.

While there are rumors that Loraine may have machine shops some day in the near future and enjoy the real prosperity of an oil boom, as traces of oil have been discovered only a few miles south. Her real prosperity must ever be dependent upon her agricultural interests. When our people become thoroughly awakened to the latent possibilities of her soils, greater varieties and yields will be the result. For instance when our eyes are opened, electricity will play an economical part in the development of her horticultural interests. Good apples can be grown in Loraine, her soil being especially adapted to the apple, better than the light sandy soils. It is only a question of a little moisture at the right time. Electricity for driving pumps, concrete tanks for storage and underground irrigation will solve the problem.

As a practical demonstration of what may be done W. L. Edmondson has an irrigation plant for vines and trees that cannot be excelled for durability and efficiency. While first cost may seem prohibitive it is cheap in the long run. It consists of three fourths galvanized pipe buried along each row and at each tree or vine a tee is put in and a stand pipe of 10 or 12 inches projecting above the ground, with a cap loosely screwed on. Each line of pipe is connected with a head line pipe, the latter being connected with the fountain head. The water oozes out at the caps, and can be turned off or on at will. Mr. Edmondson has made a great success of grapes, some of the vines having grown this year thirty or forty feet in length, and by a system of pruning has born continuously the entire season.

J. S. Muns and little daughter Lula, who have been absent for some time visiting at Wortham, Corsicana and Dallas, returned home Friday night. While in Dallas he placed his little girl in St. Paul's Sanitarium for the purpose of having her leg straightened. She had been crippled by the leaders

drawing, caused from an attack of Bone Erysipelas. The physicians pronounced the operation a success and after remaining in the Sanitarium a week they returned home.

Bradley Dunlap has sold his tailor shop to Karl Kay and Theo Kelley.

Herbert Hints.

There were services at the Baptist church Sunday at 11 a. m. and at 3 p. m. by Bro. Maddox of Abilene, and we heartily welcome Bro. Maddox in our midst.

The health of our community is very good. At the home of Mr. and Mrs. J. C. Northcutt there is much gladness due to the fact of the arrival of a baby boy.

Bro. Shufford filled his regular appointment at the Methodist church Sunday morning.

Mr. Arthur Miller of Beal's Ranch was among the Herberites Sunday.

Mr. and Mrs. J. S. Barber and Miss Lizzie Welch were in Colorado Monday at which place Mr. Barber remained for Commissioners Court.

Mr. H. A. Browne was in town Monday on business.

The farmers are almost thru with their cotton picking now and Monday morning pupils were flocking to school from every direction.

Mr. and Mrs. A. M. Northcutt and daughter, Miss Era were in town Friday.

Miss Etta Falkner, Sunday school teacher of Intermediate class has the most apt and studious pupils in Sunday school, so she says and we believe it.

Mr. and Mrs. L. L. Welch and daughters Lizzie and Virgie were visitors of Mr. and Mrs. N. P. Browne Friday.

The following dined with Mr. and Mrs. Falkner Sunday: Mr. and Mrs. Hood and daughter, Mr. and Mrs. Enyart, Miss Lizzie Welch, Rev. Maddox and Mr. J. A. Hood, also Miss Stella Welch.

Mr. and Mrs. Welch and sons and little daughter took dinner with Mr. and Mrs. Barber Sunday.

Mr. Eli Lane and family moved this week up to Conway settlement. We regret to see them leave us.

The Ladies Mission Society meets Saturday evening.

I agree with Mr. Hayseed on his visiting proposition.

SWEET SIXTEEN,

Our Stock Report.

Kansas City Stock Yards, November 8, 1909.—Last week was the banner week of the season in receipts of range cattle, the whole range country extending from the Panhandle through New Mexico, Arizona and up into Colorado and the Northwest being well represented in the supply. The railroads have been promising to furnish more cars, and the decline of shipments from native territory in the last few weeks is enabling them to keep those promises. The market was lower at the opening last week, but improved after Tuesday, and closed the week in good shape with a ten cent advance Friday. The supply today is liberal from the range districts, but the total run is moderate, at 16,000 head, market strong to 10 higher on killing stuff, 10 to 25 higher on stockers and feeders.

Beef steers from Colorado and the West have sold up to \$5.50 recently, although steers weighing over 1,300 pounds are wanted and would bring around \$6.00, bulk of the beef steers \$4.50 to \$5.00, stockers today \$4.55 to \$4.75, cows \$3.50 to \$4.20, heifers up to \$5.00, stock cows and heifers \$2.80 to \$3.75. Beef steers from Texas and New Mexico bring \$4.00 to \$4.75, stockers \$3.40 to \$4.60, cows and heifers \$3.25 to \$4.10, canners around \$2.85 calves \$3.75 to \$6.75. Calves gained 25 to 50 cents last week, and are a quarter higher today. A train of commonish Arizona stockers sold here recently at \$3.20 to \$3.50. The feature in the cattle trade last week was the extra strong call for range bred stockers, and the total shipments of stockers and feeders to the country were 600 car loads.

Sheep and lambs sold good last week till Thursday when there was some loss in the price, but the market is good today, 10 to 15 higher, run today 5000 head. Offerings of range stuff are light today, but some new tops were made on fed stock, and native lambs at \$7.35, light weight yearlings \$6.35. Choice range lambs would probably bring this price, and grass yearlings are quotable up to \$5.50, wethers \$5.00, ewes \$4.00 to \$4.35. Demand

from the country keeps up fully as strong as any time this fall, and prices are higher than heretofore, feeding lambs at \$6.00 to \$6.50, feeding wethers and yearlings \$4.35 to \$4.85, breeding ewes \$4.00 to \$5.25, according to flesh and breeding, old ewes around \$3.25. Eastern reports are encouraging, and indicate that mutton is going into consumptive channels as fast as it can be dressed, and if the visible supply can be properly distributed in the marketing, prices should be satisfactory some weeks ahead.

within the law and contributed liberally to the dividends, salary and expense of our favorite bank, until necessity compels us to check out that generous balance. Our steps finally show only 56 cents to our credit. Tomorrow we leave town. The book-keeper balances our book and we find that the 56 cents is there all right. Then we unwittingly draw a check for it. We present it at the teller's window. Instead of the bland smile and the happy word of days gone by there falls upon us a dull, sickening thud—"Officer, arrest that man," and we turn to find a plain clothes' man at our elbow. We get six months. The bank gets the 56 cents. During the year the bank closes 100 accounts averaging 56 cents each. With the \$56 it gives a banquet to the directors at the end of the year and the cashier makes a neat little speech on the "Perquisites of the Petty Account."

Even now the grim gates of Leavenworth's home for the incompetent righteous are yawning wide for the unwary writer of the 'odd-cents' check. \$1.00 for cleaning your watch. COOPER. Its so if you saw it in the Record

If some day the newspaper man should print the contents of his waste basket there would probably be a riot. There would be trouble in many homes arrests in some directions, shot guns in others, trouble all around. But the patron never sees the waste basket. He only glances at the beautifully printed pages, complains if one letter in fifty is upside down, growls his disappointment if one name in five hundred has happened to go wrong, kicks because his communication signed "Tax Payer" has been condensed into respectable English, frowns because the editor don't take his advice about publicly warning his neighbors against throwing more melons in the alley, and is generally disgruntled, but not so much at what he falls to find. He knows his share of the waste basket, but if he could have one look at the contributions made to that receptacle by his neighbors and friends he would thank God for the existence of a man with sufficient intelligence and courage not to print all he knows and to temper even that which he does print.

Fairview Facts. We farmers are very busy anxiously awaiting Jack Frost hoping that he will assist the cotton in opening.

A good many farmers are plowing and several have sown winter oats that are promising good pasture this winter.

Our school began Monday morning and for a while our progressive trustees were busy making some needed repairs. Mr. Geo. Goodwin returned home last week. We were glad to see him out at Sunday school again. Misses Womack and Bryan of Cuthbert visited Fairview Sunday school. Quite a few of our young people attended church at Rogers Sunday. Several also were at the box supper there Friday night and report an enjoyable time.

Mr. J. M. Doak's parents and brother of Snyder were pleasant visitors at his home Thursday and Friday. Miss Gertrude Friend of M'dland, who is visiting Miss Mattie Casey accompanied by Guy Casey took dinner with Miss Julia Burrous Sunday. Mr. Montie Hasting of Harn's Chapel was in our community Sunday. In the last write up from Fairview the following item was printed: Mr. Will Berry is suffering this week from a badly bruised face caused by coming in too close contact with the gate post at about 3:30 Monday morning, while returning home from Mr. Plercy's. We hope for the sake of the

feminine world that he will soon recover."

The above was intended as a harmless joke and words cannot express my regret that it was not accepted in the same spirit in which it was written, but as such was not the case, the young man concerned has especially requested that it be corrected. It should have read: "Mr. Will Berry has a very slight scratch on his cheek this week caused by running against the gate post between 12 and 1 o'clock (his own statement) Monday morning while returning home from Mr. Plercy's. We hope for Mr. Berry's sake he will soon recover." "SUNSHINE."

(We will say for the benefit of the correspondent that in an intermittent experience of thirty years, we have found it of most dubious propriety to attempt even the most innocent jokes in print. One never knows how they will be taken—rarely ever in the spirit they are written. But we assure every reader of this paper that every word sent into this office is read, and if the editor thinks there is the slightest chance for offense, the doubtful paragraph is cut out. If we publish an item, it is harmless—on the surface.—Editor.)

Van Tuyl Ranch. Our community is busy this week saving hay while the sun shines—in other words picking cotton and cutting feed stuff.

Every one seems to be enjoying the pretty weather especially those who have cotton to gather. Mr. Jack Frost will be more welcome this year by staying off late. Mr. Harry Langford intends to have a windmill erected on his place some time soon. Mr. L. T. York and daughter, Ruth visited Mrs. Emma Powell Thursday evening. Mr. Taylor gave a nice entertainment Thursday night. The same was well attended. Mr. Will Hale and family are visiting in our community this week. Some visitors from Colorado visited J. M. Bailey and family Sunday. We are looking for a rain and then Mr. Jack Frost will probably come. I will close with best wishes to the Record and its many readers. "UNCLE ANDREW."

Jack Johnson, the Texas nigger prize fighter, gave an Irish contractor, named Tom Carney, a bit of impudence and started in to mash his face. But the Irishman felled the nigger senseless at a single blow.

After January 1, 1910, the following United States statute goes into effect:
 "No person shall make, issue or circulate, or pay out by note, check memorandum or token of obligation for a less sum than one dollar intended to circulate as money or to be received or used in lieu of lawful money of the United States, and every person so offending shall be fined not more than \$500 or be imprisoned not more than six months, or both."—Federal statute, passed in 1862 and lately resurrected.
 The meaning of all this is that you are not to draw any check for less than one dollar after January first—nor any notes, nor any orders or I. O. U's. Uncle Sam does not want you to do anything that will interfere with the circulation of the subsidiary coins of the government. He has found that orders, small notes, shall checks, etc., interfere with his business, and you mustn't do it any more.
 "Bank Notes," a bankers' journal of Indianapolis, has the following comment:
 "We have searched long and diligently for the motive behind this anticlimax of financial farce comedy, and after two weeks we find ourselves standing upon a thin crust of uncertainty, with one hand grasping a half-baked suspicion, and the other frantically waiving an obsolete document called, the Constitution.
 "We are face to face with some propositions that it is reasonable to suppose were overlooked by our astute national legislators.
 "Folks like ourselves, whose bank accounts habitually gyrate between a dollar and an overdraft will have a sorry time pulling through the winter.
 "We will have to borrow money the first week in January, but the second week we can check out car fare and sidestep the penitentiary by possibly a five cent margin. By strict economy we may make this last until we accumulate another dollar deposit. With two weeks' spending money, we will worry along in mortal fear of the highwayman, who will take it away from us and the bank solicitor who will upbraid us for "hoarding" and for carrying money around in our clothes that should be greasing the wheels of commerce.
 If perchance, we burn \$7 cents worth of gas and send a check for it, we get pinched. If we forget it or it is convenient to carry the money to the gas company's office, along comes an overalled, muddily booted individual who climbs over, the potato bin and can fruit and kills all the future good intentions of the kitchen range. If we burn only 52 cents worth of electric light the inspector will come up and fix the meter.
 "One dollar will start an account," will continue to help the poor man into the paths of thrift and to an eventual competence, but the new law will prove a sad blow to the woman who is giving herself a course in banking by depositing a dollar and checking it out 'two bits' at a check just to get a 'knowledge of business affairs' to please her husband.
 "Perchance we have lived for years within the law and contributed liberally to the dividends, salary and expense, of our favorite bank, until necessity compels us to check out that generous balance. Our stubs finally show only 56 cents to our credit. Tomorrow we leave town. The Book-keeper balances our book and we find that the 56 cents is there all right. Then we unwittingly draw a check for it. We present it at the teller's window. Instead of the bland smile and the happy word of days gone by

Home Course In Live Stock Farming I.—Fences. By C. V. GREGORY, Author of "Home Course in Modern Agriculture." "Making Money on the Farm," Etc.

ONE of the most important parts of the equipment for live stock farming is a good system of fences. Poor fences cause breachy stock and endless trouble.

here is very heavy. If there are more than twenty rods in a single line it will be necessary to brace a line post midway between the corners to stretch from, as more than twenty rods cannot be tightened satisfactorily on one stretch.

After remaining in the hot creosote for six hours the posts are taken out and immediately placed in the cold creosote. The sudden reduction of temperature causes the steam in the pores of the post to contract...

CONFERENCE OF CATTLEMEN.

Executive Committee to Have Meeting on Eighteenth in Regard to Quarantine Matters.

Fort Worth, Tex., Nov. 6.—With the hope of bringing about an adjustment of grievances of the cattlemen of the provisional area of the cattle quarantine district a meeting of the executive committee of the Texas Cattle Raisers' Association has been called for Nov. 18 at association headquarters, in this city, and to aid in such adjustment Gov. Campbell and the members of the State Live Stock Sanitary Commission will be urged to be present.

It will be remembered that during the summer months the cattlemen of the provisional area were restrained from moving their cattle from ranges where there was an insufficiency of grass and water by an order to the effect that cattle could not be moved from ranges in the provisional area where ticks were known to exist six months prior to the time of removal, even though they were found upon inspection to be free from ticks. This order was issued by the inspector of the Bureau of Animal Industry of the United States.

Feeling that this order was oppressive and would entail heavy losses upon the cattlemen of that section, a mass meeting was held in the courthouse at Colorado City and temporary organization effected which was later made permanent as the West Texas Cattle Raisers' Association. Dr. P. C. Coleman was chairman of the meeting and of a subsequent meeting held in Fort Worth with the State Live Stock Sanitary Commission. At this latter meeting it was agreed that a temporary suspension of the rule be granted to give relief through the drought season.

The matter has been discussed pro and con since that time and the difficulty of reaching a satisfactory adjustment resulted in a visit being made to Washington by Congressman W. R. Smith and Judge Ed J. Hamner, representing the cattlemen of the provisional area. It had been agreed that a conference be held with the executive committee of the Texas Cattle Raisers' Association at its regular meeting Dec. 14, but following the visit to Washington it was decided to be advisable to hold the conference at an earlier date, and for this purpose Dr. Coleman, wrote Secretary H. E. Crowley, who in turn issued a call as sent out to the members of the executive committee is as follows:

Nov. 6, 1909.—Dear Sir: The members of our association ranching in the provisional quarantine district of Texas are much aggrieved and oppressed on account of present rules and regu-

lations promulgated and enforced by the Bureau of Animal Industry of the Federal Government, and the State Live Stock Sanitary Board of Texas, and insist that heavy losses are entailed constantly by reason thereof.

They have appealed to President James Callahan for such assistance in the premises as the executive committee of the Cattle Raisers' Association of Texas may be able to render them, and requested him to call a meeting of said executive committee to convene in the city of Fort Worth on Thursday, November 18, 1909, at which time and place Gov. Campbell and said Live Stock Sanitary Board will be urged to attend, with a view to relieving the conditions referred to.

President Callahan therefore directs in compliance with said request, that the executive committee of the Cattle Raisers' Association of Texas be called to meet in this city on November 18, 1909, for the purpose of rendering such assistance and taking such action in such matters as may be deemed proper and for the purpose of transacting such other business as may be properly brought before said meeting. Very respectfully yours,

H. E. CROWLEY, Secretary.

Out of the Ginger Jar.

Much beer never brought good cheer. The liar is always ashamed of the naked truth.

When you can't tell the truth, don't tell anything. The rural mail-box is a sort of post office on one leg. There is no place in any well-kept pantry for family jars.

Best for Biscuits.

A prominent teacher in one of the Domestic Science schools in Mississippi writes that she is using Cottolene in her lessons with excellent results. She says: "For biscuits Cottolene is all that could be desired. The biscuits are light and flaky, with none of that disagreeable odor often found in foods shortened with lard. Cottolene is also an excellent medium for frying croquettes and doughnuts. It gives them a clean, crisp, brown crust."

Other noted experts, such as Mrs. Rorer and Marion Harland, have given similar testimony to the merits of Cottolene. It is a cooking fat made from the finest vegetable oils; it gives better results than lard, and it is much more wholesome and economical as well.

Four such lights as that how at the crossing of Second and Walnut streets would cost about \$6 per month each. If the city could see its way to put them in, we believe the railroad would put at least one, on the north side of the passenger depot. Don't you think they would be worth the price to the town?

A Pleasant Evening.

On last Friday afternoon there started from Mrs. L. E. Lasseter's a cavalcade composed of the giddy young public school teachers, chaperoned by Mrs. S. D. Vaughan. As the party made its way to a previously selected spot on Lone Wolf, it made an imposing picture. With the enthusiasm of extreme youth, the gallant Central Ward Supt. shouldered the eatables, stowed away in a huge basket, and constituted himself vanguard; while at a distance that lent enchantment, the High School Principal and the Master Mathematician, with a staid and deliberate pace, not peculiar to extreme youth, heroically bore up a long stick run through the ball of a bucket filled with water; thus successfully bringing up the rear.

After the other members of the party had fully explored all the territory adjacent to the spot selected for the picnic, the water bearers hove in sight. With some difficulty, they were assisted in climbing down the steep bank. Once down, they proved themselves more agile than one would naturally suspect, in helping gather wood and in making the fire.

Soon the air was filled with the odor of such dainties as coffee, broiling bacon, and onions. When all due preparations were complete, the pronounced injunction "Let all the right-ones be seated" was obeyed to the letter, simultaneously and immediately. These were the last words spoken for twenty-five minutes, during which time Mr. Payne, in a mood of abstraction, broke the monotony by overturning a cup of hot coffee. As a result there was noticed an immediate change of location among several. After another interval of comparative silence, Mr. Newlee began clamoring for his desert. A protracted search was instituted and the missing course was found at some distance up the creek, and the agitator was appeased by all the apples he wanted, or, rather, by all he could eat.

Lunch being over, there was executed the next number on the program—singing. The chief features of this number were Mr. Lowrey's baritone solo, "Rocked in the Cradle of the Deep" and Mr. Payne's absolute silence, "Rainbow," "Red Wing," "Take me out to the Ball Game," "Old Folks at Home," "My Old Kentucky Home" were vigorously rendered, when some member of the party struck up the opening strains of the song that invariably transports one, away from those who hold him dear, with a swiftness and certainty rivaled by no material carrier, and impeded by not even the gossamer threads of the poet, to home scenes and familiar faces, "Home

Sweet Home."

The next motion having received a warm second, and a unanimous vote, the party clambered up the steep banks and made its way to the drug store. Only once was the line of march broken. This was the halt occasioned by the proposition, "Let's play 'Marching round the Levee.'" The ring was formed on the bridge, the singers began their duty, and Miss _____ was asked to be in the middle. Just as she was measuring her love to show him, some one exclaimed, "There comes a buggy." Instantaneous dispersion was the result.

While in the drug store, where Mr. Newlee assumed the role of host, the party was refreshed by cream and other frozen dainties, and delighted by choice graphophone selections.

As a finale, Mr. Hall generously dispensed kisses (wrapped in vari-colored tissue paper) to all the party, regardless of age or sex. Faces were then turned toward home where all were soon dreaming dreams of "A Pleasant Evening."

ANON.

Resolutions by the School Board.

Whereas Dr. W. C. Neal has resigned from the School Board and will soon remove with his family to Abilene, and in view of the loss to the school board and the citizenship of Colorado, as well as in recognition of his services and worth as a citizen and christian gentleman, we offer this testimonial of our esteem. Be it therefore

Resolved, That we accept his resignation from the Board of Trustees of the Independent School District, with unfeigned regret, and extend our thanks for his wise counsel, conservative course and rigid justice in his official capacity.

2. That we commend him most heartily to the people of Abilene as in every wise worthy their highest confidence and greatest honors.

3. That in his successor, Mr. Y. D. McMurry, his mantle has fallen upon worthy and efficient shoulders, who will fill his place and perpetuate his influence.

4. That a copy of these resolutions be furnished Dr. Neal, also spread upon the minutes of this board and published in the Colorado Record.

LOCAL NOTES

The U. D. C. met Monday with Mrs. V. W. Allen. The president was ill but the first vice president, Mrs. Gustine, most gracefully presided. A pleasant meeting with the usual routine business was held, after which the society adjourned to meet in December with Mrs. Reese, the program to be announced later. The time of meeting is now changed to three o'clock.

Going to paper? See the bargains in beautiful remnants at Doss' drug store.

Rev. Henson preached his last sermon for the conference year, Sunday night and gave a report of all the departments of the church. This showed an increase along all lines of work and all collections and assessments well paid up in spite of hard times and drought. This speaks well for both pastor and people, and it is fully expected that Bro. Henson will come back next year.

Manicure specialties are a bargain if gotten at Doss' drug store.

A big debate is soon to be arranged in Loralne between the Christians and Primitive Baptists. The leaders in this movement are now looking about for a large tabernacle. Two of the ablest debaters in the respective faiths will be here, Elder Chas. Kennedy of McKinney and Rev. S. A. Paine of Dublin. Dates will be published.—Loralne News.

Manuel's phone is 56—Your clothes called for and delivered.

And now comes Senator Collum of Illinois for to be heard. He tries the old trick of trying to tickle the south under the chin, by advocating the disfranchisement of the negro, and justify his attitude with the republicans by the assumption that this would most effectually kill the democratic party. He assays the demagogic stunt of carrying water on both shoulders.

MRS. ELLA SIMON.

A letter comes from C. D. Harper, an uncle of James Greene, who writes from Somerville, Ga., that crops are fairly good there and the high prices paid for cotton and cotton seed, will enable most all the farmers to pay out and put the country in good condition.

W. H. Harris, a brother-in-law of Geo. Waddell, who formerly lived in Colorado, died at Odessa, yesterday and was taken to Midland for interment.

Dr. Phenix performed an operation upon Mrs. A. J. Culpepper last Wednesday, which was very successful.

Mrs. Barbara Wall and children who have been visiting Mrs. R. D. Ingram went on Wednesday to Midland, Mrs. Wall's home.

Saturday evening Post for sale at Record office. Back copies can always be secured.

The Record family are under obligations to Mrs. E. J. Hamner for one of the celebrated thoroughbred Plymouth Rock cockerels. It is a fine specimen of that breed.

The Record is busy this week turning out a nice order of job work for a firm in Waco, Texas.

Money Saving Furniture Buying.
The Record man tried all this week to get an interview out of James H. Greene, the furniture man, about his business, prospects, etc. But he has been so busy putting out nice furniture that he had no time to talk.

The trade being consummated between Mrs. A. A. Bailey and Mr. Berner by which Mrs. Bailey became the owner of the fine Berner home, of course she first figured on refurbishing it which was done by Mr. Greene out of his big furniture emporium, she buying from him, nice mahogany parlor suits, early English finished dining room furniture, an extensive library suit, consisting of table, chairs, couch and Macy sectional book cases all in early English finish; bed room being finished with polished brass beds and Birdseye Maple, dressers and tables to match. Also the Ostermooor mattresses and having the halls finished with early English finished hall trees, etc.

Then the J. C. Prude brick mansion being completed Mr. Greene placed within its palatial walls some of the nicest furniture ever sold in Colorado consisting of Quarter sawed Golden Oak dining room suite solid Mahogany parlor suite, Golden Oak library including Macy's sectional book cases; bed rooms of Birdseye Maple. Also the latest style Smith & Davis steel beds which are the latest and of which Mr. Greene carries a full line.

These parties are extra well pleased with the furniture and Mr. Greene's prices. They bought of him because they saved money by doing so, and Mr. Greene is proud of having these people as satisfied customers.

A noticeable feature in the Greene furniture business is that he is putting in all the time a nicer line of goods than has ever been handled in Colorado before and the increasing demand for these goods is very satisfactory to Mr. Greene.

Heretofore quite a number of orders for fine furniture have been sent out of town but now that Mr. Greene carries a big stock of these high class goods such orders are filled by him.

Mr. and Mrs. Jack Smith will move into the Bailey home, who has had it re-furnished throughout by Mr. Greene and when completed will be quite cosy.

It is now a common saying, "if you want anything in the furniture line you can get it at Greene's."

Family Washing.
Don't fool with wash women, burning up your work, etc., when the Colorado Steam Laundry will do your family washing rough dry and return your linen ironed at 35 cents per dozen.

Homer Hooker of San Angelo, formerly of Colorado, was shaking hands with old friends here this week.

J. B. Annis was called to Merkel this week by the illness of his father whom, we are glad to report, is much better.

With this issue, the Record begins the publication of a series of articles on "Making Money on the Farm." They are from the pen of practical farmers, not theorists, and one who has demonstrated on the farm everything he writes about. We want our farmers to read these articles in order that we may determine if they are worth the printing.

The Record subscribers are coming in and paying up surprisingly well, considering the conditions. Don't forget friends, the postoffice department will not allow us to carry subscribers more than one year behind. You want the paper, we want you to have it, but it can not be sent through the mail if you are behind more than one year, and the label is on the paper to be seen of all Uncle Sam's postmasters.

At a meeting of the Baptist Ladies Aid Society last Thursday, Mrs. W. C. Neal resigned the office of secretary, which office she had held for several years. The society will miss her in many ways, as she has from its very inception been one of its most faithful and efficient members. She is commended to ladies of the Baptist church of Abilene particularly, as a valuable acquisition on every part of the field of christian endeavor.

Twenty thousand acres of school land in Crane county were sold last week, at an average of \$5 per acre. Three years ago this same land was deemed so undesirable it was not listed, but it has proven its worth.

Catarrh of the Stomach a Prevalent Disease Difficult to Relieve.

A PROMPT AND EFFICIENT REMEDY.

Mr. S. W. Jackson, 315 Weaver Block, Greenville, Ohio, says: "While I was superintendent of construction of J. F. Bender and Bros. Co., of Hamilton, Ohio, I became entirely unfit for business with catarrh of the stomach."

"A friend called my attention to a remedy for this condition. I began to improve at once. I was soon able to return to my former profession."

"It would require many pages to describe the condition I was in and the relief I have obtained."

Here is another case. Officer George Y. Stout, 724 North Broadway, Baltimore, Md., says: "I suffered very much with catarrh of the stomach and nervous indigestion. I lost fifty pounds in four months."

"A friend called my attention to a remedy, which I used, and gradually got well. I have gained half my lost weight back again."

Chronic Stomach Trouble.

Mr. Robert J. Gillespie, 634 South Main St., Los Angeles, Cal., secretary of Lather's International Union, was also suffering from catarrh of the stomach a long time. He grew thinner and paler, lost all ambition and appetite. Sick at the stomach, indigestion continually.

A friend also called his attention to a remedy, which brought about a decided improvement. After continuing the use of the remedy for a month, he considers himself permanently relieved.

Now, once more, Mr. Christian Hoffman, Slatington, Pa., says he suffered for many years with catarrh of the stomach. It produced a miserable cough, day and night. He tried doctors and many remedies. At last his attention was called to a remedy, the same remedy that relieved the others which had been referred to above. He claims that he was entirely rid of his stomach difficulty.

Pe-ru-na Brought Back Health.

What was the remedy that has wrought this remarkable relief? Sofar, the remedy has not been mentioned.

If any one doubts the correctness of these statements it is very easy to verify them by writing to the people whose names have been given, enclosing a stamp for reply.

The remedy is within the reach of every one. It is simply the good, standard reliable remedy known as Pe-ru-na.

If the truth were known, the probabilities are that Pe-ru-na has relieved as many cases of catarrh of the stomach as any other popular remedy in existence. We have a great many unsolicited testimonials from all parts of the United States, declaring in strong and enthusiastic terms that Pe-ru-na has entirely relieved them of catarrh of the stomach, that they were wretched and miserable beyond words, but Pe-ru-na has restored them to health, vigor and happiness.

These are the facts. Now, if you have stomach difficulty, it is up to you to act upon them or ignore them, as you please.

Symptoms of Stomach Catarrh.

"The affection may result from errors in diet, or the use of alcohol. The excessive use of tobacco, especially when the juices or the leaves are swallowed, is likely to cause it."

"Highly seasoned or coarse, irritating foods, sometimes induce the disease."

"As chronic gastritis (catarrh of the stomach) is essentially a secondary affection, one of the primary causes is an unhealthy state of the mouth, nose or throat, such as bad teeth or catarrh of the nose (ozena)."

"The patients are usually poorly nourished, pale, sallow, thin, fatigued easily induced, muscles flabby. Loss of appetite or capricious appetite."

"The tongue is usually coated brownish gray. Cankerred mouth is a common occurrence."

"Pain is not common. When present it is usually dull, and is aggravated by food, especially when this is of an irritating character."

"Vomiting may occur in the morning. Also after meals. Sickiness to the stomach frequent and persistent."

"Food produces dull headache, and a feeling of general nervous distress. Constipation usually quite marked."

These symptoms, given by Gould and Pyle, coincide exactly with the frequent descriptions Dr. Harman is receiving from patients all over the United States.

If you have any of these symptoms get a bottle of Pe-ru-na. Take a dose before each meal. See if your stomach does not immediately feel better, your appetite improve, your digestion at once resume business.

People who object to liquid medicines can now secure Pe-ru-na tablets.
