Big Project of Frisco Maturing.

That the Frisco system is working its way into San Antonio from some point in the northern part of Texas via San Angelo seems certain from the way in which several minor railroad lines are being promoted in West Texas, which are no doubt connected with the Frisco.

From Colorado City to Robert Lee is a road to be built under the name of the Colorado & Concho Railway Company, and is being promoted by E. G. Hammock, who has been in St. Louis for the last month. Extending north of Colorado City, is a proposed line running to Dickens City, Dickens county, also presumably being promoted by E. G. Hammock.

While Mr. Hammock is not in San Angelo promoting a railroad R. A. Love, who promoted the Sunflower Route, is working to have constructed a line extending from San Antonio to San Angelo.

"The general belief in Robert Lee and all of Coke County," said George Cowan, editor of the Robert Lee Observer, Saturday, "is that the new Love road and the Hammock road are going to connect at San Angelo, thereby making a complete line from Dickens City to San Antonio, which will be owned and operated by the Frisco. The cause for believing that Love is also connected with the Frisco, is that he asked Robert Lee for a bonus to build his line. Now, as the Colorado & Concho Company is not making any further survey from Robert Lee it may be that the two promoted lines are going to meet at Robert Lee, nevertheless it will come through San Angelo.

"The Frisco has a branch or line that terminates at Quanah. From Dickens City to Quanah is a distance of about fifty or seventy-five miles and the two towns are in such location so as to make almost a direct line through some fine territory, to Colorado City from Quanah. Like the situation at present, there is a fine opportunity for some road bulging a direct line from Quanah by way of Dickens City, Snyder, Colorado City, Robert Lee, San Angelo, Brady, thence to San Antonio and the Frisco is constructing that line.

"The Frisco, as it is known, has been wanting to get into San Angelo as well as San Antonio for some time. It has already started grading a line from Brady towards Eden and about ten miles of the dump is built. We have made observations of the way in which the promoters of these lines are working, and from their movements it is clearly observed that the Frisco is working its way into San Antonio through some of the richest territory in west Texas.

"The bonus of \$50,000 that Robert Lee subscribed has not yet been raised, but within another week we will have up the required amount. Colorado City has already got up its bonus of \$125,000, and as soon as Robert Lee signs up with Mr. Hammock for the bonus raised, he is going to start con-

structing the line and expects to have the fifty miles built much sooner than the contract calls for."—San Angelo Standard.

As to Notices of Candidates.

The Record would again press upon candidates the value of newspaper space in forwarding their interests in the campaign. In the first place it puts the matter on a strictly business basis, and the candidate is relieved of all hesitancy in saying things in his own interest or of asking his friends to do so. It relieves the editor of the necessity of a eulogistic notice and disperses all taint of egotism in the candidates. In many places the various candidates contract for so much space during the campaign, and fill it with contributions of their own, or by their friends. Getting office is strictly a business proposition and should be held as such. Notices of candidates written by the editor of this paper will be charged for and marked "Advertisement," as the law directs they shall be. The usual complimentary notice, oftentimes a dozen in the same paper, and several for the same office, comes to mean nothing, and really do the candidate no good. They have come to be expected, however, and the editor must say the highly complimentary thing. With the new order, all this is obviated; the candidate can have whatever he wishes said, and the public knows he's paying for it and it is a generally accepted principle that nothing is worth having that isn't worth paying for.

Hubbard's have sold out their stock here at Colorado and are now packing and shipping same. This comes from no desire on the part of this firm to leave Colorado, but it comes up to them as a good business proposition, which they cannot afford to overlook. They are retaining their lease on the building they have occupied, and inform a representative of the Record that they will re-open early the coming fall with a large and complete stock of general dry goods. They are very appreciative of the business that has been given them by the people of Colorado and Mitchell county, and desire to thank them for their liberal patronage. We speak for a large business for this popular firm when they reopen.

If you want an organ or piano, you cannot afford to miss seeing the bargains J. H. Greene has in this line.

Next Friday, at the opera house, the Colorado Choral Society will give the cantata they have practiced for the past two months. The people of the town are respectfully invited to attend this concert, and support the Society to this extent. After this is given, another will be begun at once and all are invited to join who care to do so, and be ready for another concert about Easter. The Society is very anxious to have all lovers of music come and help.

DISTRICT COURT

Grand Jury Reports and Many Cases in the Court Disposed of

The grand jury, after a session of ten days and a thorough investigation of everything brought to their attention, adjourned this week, after returning 13 true bills, 11 of which were misdemeanors, and two felonies. The grand jury was composed of D. N. Arnett, Foreman, J. H. Althart, D. E. Gunn, G. D. Bynum, J. D. Falkner, S. K. Gregory, J. M. Helton, J. L. Killian, J. C. Prude, G. W. Womack and J. H. Tiller.

The Court, with Judge James L. Shepherd on the bench, put in the first week on the civil docket, and disposed of quite a number of cases. Last week the criminal docket was reached, with Hon. R. H. Gresham as prosecutor, Jesse Bullock, Clerk, with Sheriff Coughran and constable Fulkerson waiting on the Court.

The first case called was Oscar Baker, charged with embezzlement of over \$50.—continued until May term.

Bob Cooper, charged with horse theft in three cases.—continued to May term.

T. T. Hensley, charge of embezzlement of over \$50.—Dismissed.

T. C. Crane, charge of horse theft.—Continued to May term.

B. N. Garrett, charge of embezzlement of over \$50.—Dismissed.

F. G. Thurmond, charged with assault with intent to murder. Judge Thurmond was ably represented by Attorney Woodruff of Sweetwater, and announced ready for trial; the jury was impaneled, and H. L. Ransome and L. C. Hightower, both absent witnesses were fined \$100 each by the Court, and attachments issued. The trial was had, and after a short time out, the jury brought in a verdict of not guilty.

The case of J. A. Fore, charged with misappropriation of public funds, there were three cases against him, and he went into trial of one, which resulted in a verdict of not guilty. The other two cases were continued until the May term. Mr. Fore was represented by L. W. Sandusky.

Jim Anderson, burglary:—nolle prosee.

John Guitar, charged with violating the anti-trust law in three cases, was continued to May term, on account of sickness of the defendant.

Geo. Dunn and Jim Fulkerson,

charged with permitting gaming on premises.—continued by agreement. This is the case where two young men played a game of pool, where, it is claimed, the loser of the game paid the fees.

The case of Will Morrison, charged with assault with intent to murder, was called. Judge F. G. Thurmond and L. W. Sandusky represented the defendant. The case went to trial Wednesday morning before the following jury: N. J. Rogers, J. C. Gray, A. W. Johnson, G. L. Conover, W. H. Hale, D. M. Vinson, J. H. Posey, A. P. Brown, H. J. Free, B. H. Fuller, G. G. Garrett and R. E. Ballard. The evidence was all in by 3 o'clock p. m., and the attorneys finished the argument by 6 o'clock, when the jury was charged by the Judge. They deliberated all night and up to Thursday at 2 o'clock, when they reported that they could not agree, and the Judge turned them loose. We understand that they stood 8 for acquittal and 4 for conviction. John Lovelady, Will Warren and J. W. Francis, all absent witnesses, were fined \$100 each, and attachments issued.

N. T. Smith, charged with rape, had his case continued to May term.

NOTICE TO CUSTOMERS

Inasmuch as the price of cement and all else that enters into the construction of concrete work has risen considerably in the past few days, it is very necessary that we either charge more for the work we do, or do an inferior grade of work. There is, therefore, but one thing to do. We must charge more for our work. Heretofore we have been charging 9 and 10 cents per foot, the price hereafter will have to be 13 cents, to one and all. This is as reasonable as good work can be put down, and we believe our customers will be willing to meet us half way. 2-11

W. G. DeLANEY,
D. S. BIRK.

At the home of Mrs. Furgeson a few of the ladies of the church entertained most pleasantly last Thursday in honor of Mrs. Shaw. A linen shower, a contest and pleasant conversation were the features of the occasion, with appetizing refreshments at the close of the afternoon.

Union Items

Everything is quietly moving along in our community. The farming interest is growing, and now is a good time for the Mitchell county people to begin in good earnest to study crop diversification, and by all means never lose sight of the fact that it is always best to plant a sufficient acreage in feed stuff to make home and the farm self sustaining.

I hope that the day is near at hand when Mitchell county will be at par (if not in the lead) with any county in the fair land of the west.

I believe the people of Colorado are hoping to secure another railroad, something of which every citizen of the county ought to feel proud of and lend a helping hand.

Bro. J. M. Shuford came out last Sunday and filled Bro. Ledger's appointment, much to the delight of his hearers, for he preached as strong a sermon as it was ever my pleasure to listen to. Come again Bro. Shuford, we are always glad to see and hear you.

"Plunket" seems to be anxious about me leading out on the Farmers' Union question, so I will touch it lightly at first and perhaps will exchange ideas with him occasionally.

I will say first, and all the time, that I deem it a very great institution. Why? Because it has, in my opinion, accomplished more good for what it is intended to do, in the same length of time, than any other institution in the bounds of my knowledge. Its work has been on many lines; socially, fraternally and financially; which no up-to-date man will deny. Then, as an educator, it has no equal, on all lines of farming and general improvement and development. Then again, it has proven to be a good thing to test a man's stickability, and many weighed in the balances and found wanting the other man's toll and efforts, for no backslider ever refuses to take a better price for what they make, than they used to. In conclusion, what I have said will either serve as a joke or reality, but if Plunket, or any one else has got a good or intelligent reason to offer why every farmer ought not to belong to the Farmers' Union, I would like to see it in print.

CITIZEN.

L. A. COSTIN.

The attention of the readers of the Record is directed to the announcement of L. A. Costin for the office of Sheriff and Tax Collector of Mitchell County, found in its proper column.

Mr. L. A. Costin needs no introduction to the people of Mitchell county, either as a private citizen or officer. He has lived here long enough to be thoroughly identified with the best interests of the country, and establish himself in the esteem and confidence of his fellow citizens. He has been in office long enough to thoroughly demonstrate not alone his peculiar fitness and ability, but his popularity as well. Aside from filling the office of tax assessor the past two terms with the utmost satisfaction to every tax payer, he was for five years the chief deputy Sheriff under Sheriff Johnson, where he performed every duty and assumed every responsibility that pertains to the office of sheriff. Indeed, it is hard to understand how any man could be better qualified by experience and natural adaptability for the office to which he aspires, than Mr. Costin. His majorities in past elections indicate his standing with the voters of the county. The fact that he has practically filled the office for a number of years and his further official record in his present office, is an absolute guarantee against any mistake in putting him in the office of Sheriff and Tax Collector.—He has already made good there.

He is no untried man; all the risk of mistakes that naturally attend the services of a new man, however bright, are in Mr. Costin's case, wholly eliminated. There may be others, and are, who are just as good and competent, but "Lark" has demonstrated his worth and fitness.—(Advertisement).

The only Homer Robinson, who has been railroading at Amarillo for the past two years, came home Friday and will not return to the Windy Village for some time at least. Asked if it was much cold up there during the recent blizzard, he said, "Not uncommonly so. The only inconvenience was from the flames of lamps freezing. Had to pinch 'em off to put out the light."

We carry in open stock the Macey Sectional book cases; call and see them. J. H. Greene.

ED W. SMITH,
President

ROBT M. WEBB,
Secretary.

Gentlemen:—

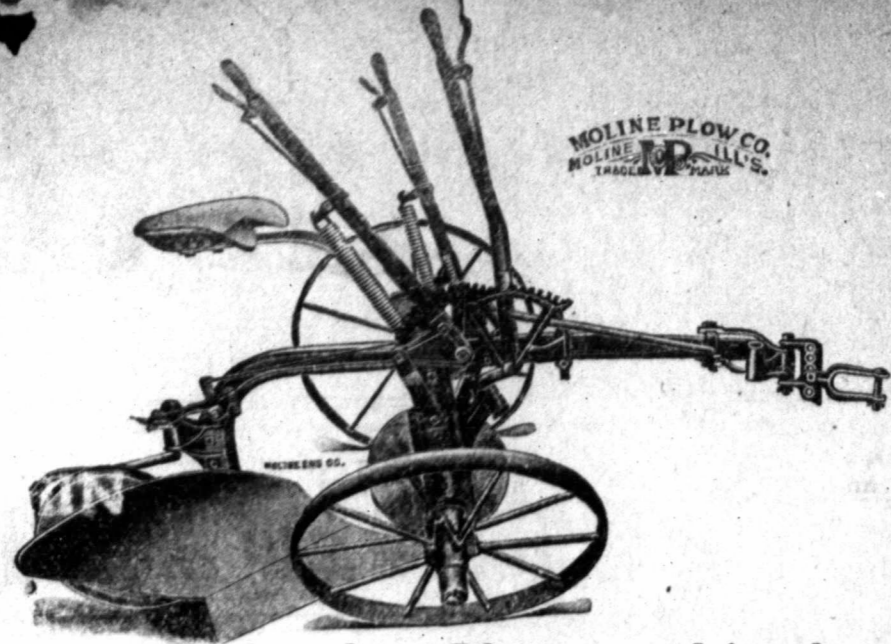

Your favor of recent date to hand. I am glad to note that the Commercial Club of Colorado is interested in the good Road's Movement of Mitchell County, and will say that I am very much in favor of the improvement of these roads and the bonds you spoke of seems to me like a reasonable way to get this. However, I know very little about such, but do know in farming the roads in their present condition are about the worst proposition we have to contend with. I think you will find a great majority of the farming class of the same opinion.

I would be very glad to attend a meeting of the Commercial Club, but as we live some twelve or fourteen miles from Colorado, it would be very uncertain whether I could come or not, anyway you have my support in this behalf.

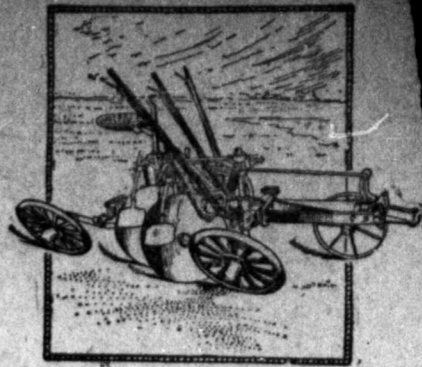

Very respectfully,

W Publish no Names of Correspondents

NOTE—We are very anxious to hear from the farmers on the road question. What do you say, Gentlemen? Will you vote for Road Bonds if we get up an election? Let us hear from you.

Woodmen Joint Installation.

On Thursday night of last week, the Woodmen of the World and the Woodman Circle joined installation ceremonies at their hall in the Snyder building. No small preparation had been made to render the occasion a complete success, and from the expressions heard from all who were fortunate enough to be present, they certainly realized their expectations. Representatives from the neighboring lodges of Loraine, Sweetwater and Big Springs were met at the train by a procession of the local Choppers and escorted to the hall, when the ceremonies began. After the ritualistic features of the occasion were duly observed, a bounteous and refreshing luncheon was spread for the delectation and promotion of Woodcraft. Good music was not lacking to grace the program. The local orchestra interspersed timely selections with the program of the installation ceremonies. By far this was pronounced as the most pleasant occasion of its kind in the history of the lodge at Colorado. There were present fully 200 members and visitors.

The following officers were duly installed for the Woodmen:
W. H. Gardner, Consul.
G. M. Bell, Adv. Ljeut.
W. P. Copeland, Banker.
E. Keathley, Clerk.
D. S. Nettles, Escort.
G. I. Jeffreys, Watchman.
C. E. Franklin, Manager.

Of the Woodman Circle as follows:

Mrs. Belle Vaughan, Guardian.
Mrs. Nannie Newman, Adviser.
Mrs. Flora I. Keathley, Clerk.
Mrs. G. W. Donaldson, Banker.
Mrs. Katie Doss, Chaplain.
Mrs. May McKinney, Inner Sentinel.
W. M. Cooper, Outer Sentinel.
Mrs. Lillian Phenix, Manager.
Both lodges begin the year with bright prospects for active work.

Mitchell County Singing Convention.

The next Singing Convention will be at Colorado, the first Sunday in February. At present the Lone Wolf class holds the banner and I'm sure that they are making preparations to continue holding it. We trust that all classes will come well organized and prepared for the contest singing. We would be glad to have a number of select quartettes, solos, and duets from the various classes. We expect a number of singing men from other counties and hope to make the day both profitable and enjoyable.
J. C. HELM, President.

A whole family can keep itself in health by the use of Dr. Caldwell's Syrup Pepsin, because it is a laxative that works mildly and surely, and some member of the family is almost always in need of such a remedy. Dr. L. L. Underhill, medical superintendent of the Working Woman's Home of Chicago, writes that she gives nothing but Dr. Caldwell's Syrup Pepsin. It is absolutely guaranteed to do what we claim, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg. Monticello, Ill. It is sold by all dealers at 50c and \$1 a bottle.

The department of agriculture issued its ginners' report this week, which credits Texas with 2,463,732 bales.

Uncivil War.

A war between the sexes is predicted by Mrs. O. H. P. Belmont, "unless," she adds, "equal suffrage is granted to women." She made her prediction to an audience of 200 men, members of a church club in Brooklyn, a few nights ago. The war seems to have long since started in that quarter. She and her first husband, one of the Vanderbilts, warred, and a separation resulted; and her daughter Consuelo, who married his royal nibs, the Duke of Marlborough, is living apart from her husband, possibly because of a war spirit in the household. It is altogether likely, however, that both the ladies were justified in declaring war; for both hubbies were evidently tough propositions.—Bowie Cross Timbers.

If such a war as predicted by Mrs. Belmont actually breaks out it will not last long. The ladies will have to retire after the first skirmish to do up their back hair again, and the men will seize the opportunity to rally and charge the enemy while her mouth is full of hair pins.

East Texas paper carried 26 emagats for office the second issue after the lists opened.

Altitudinous in price and scarce in quality as they are, eggs are still the cheapest diet for the poor man.

If the Planchot-Ballinger fraud had first page, top of column until the Jeffreys-nigger.

Dunn's and all other papers take a bright view of the business conditions, and crop prospects.

A man can and will believe anything he wants to believe. Campaign falsehoods are only believed by those who are such dishonest political bigots that they want to believe them.

Don't sleep on your rights and neglect to pay that poll tax before February 1st. You'll wish an hundred times you had when the campaign waxes warm.

If you ever expect to own a piece of land or a home in West Texas, now is the time to get it. There is no possibility of real estate ever being as easily secured as at the present time. Land will not be as cheap again. It is going up by leaps and bounds.

"It is an admitted fact that the journalistic brains of Texas are concentrated west of the ninety-eighth meridian in Texas," says the editor of the San Angelo Standard. And modesty prevented his adding "and south of the T. & P. railroad."

The year starts off with promise of as great mortality as the last. Floods, fires, mine and railway accidents daily swell the list. Another no inconsiderable agency of death is added in the flying machine. If the science of aviation is ever made practical it will demand a heavy toll of human life.

The honor of public office—and all public office is an honor—should attract as candidates the most intelligent and sensitively moral men of our citizenship. There is no office within the gift of the people, which can not be magnified and made a great honor to him who fills it. It is not the office, but the manner in which it is filled that confers the honor.

Paper Models First.

"A number of our exchanges are very busy just now building railroads on paper.—Ector County Democrat. One of which, Brother Frame, we are whom. Yes sir; busy building railroads—on paper. The papers of Texas have built more railroads, factories, mills and other industries, than have been constructed of brick, mortar, iron and wood. The paper was just as necessary an element in the building of all these as were the money and material. Creating sentiment in favor of these enterprises was just as important as the manual labor that raised the grade and drove the spikes. It bears the same relation to the mechanical construction that the girl's consent does to getting married, and that's so.

Building a paper railroad is much like building the false work that supports the real structure. Without the light wooden frame work, the massive girders of iron and superstructure could not be put in place. When the first suspension bridge was built, it was across a deep gorge, with sides so steep and high that it could not be crossed with a boat. A light string was carried across the canyon by a carrier pigeon, by which a single wire was next pulled over to the opposite side, which in turn brought across larger ones—enough of them to weave the mighty cables that supported the heaviest railroad trains with their load.

Few enterprises are put through these days without first having a paper model. Colorado is now making its paper model of the Concho & Colorado railroad, but pretty soon we hope to have the working model also completed. Yes sir, busy building railroads—on paper.

It is not necessary to speak or write a lie to be a liar, nor to tell an untruth, to be one. Silence may make for a lie as effectually as the spoken or written declaration. Any attempt to deceive, to produce a wrong impression is morally a willful lie. Often the telling of just enough truth or even the whole truth, may produce a deception or false impression. It is none the less a lie. To speak the literal truth, knowing it will produce a false conclusion, is as mendacious as an overt falsehood. There is as much of omission in a lie as commission.

The Mitchell County News of several weeks ago, gave a list of nine different persons, most of them with families, who had moved and settled in the country around Westbrook. The tide has set in again to west Texas, and if the present outlook for a good crop year is realized, we will have just such another rush to this country next fall as was experienced in the fall and winter of 1906. And just here we remark that those who were not frightened by the temporary arrest of this immigration, caused by the somewhat short crops of the past two years, are the ones who are winning out. They are now in position to take advantage of the good things that may come their way.

The protest which so often goes up from the merchants of the smaller towns that the mail order houses are getting all the money of the farmers, would be much better directed were it aimed at the indefensible system of roads which make it so easy for the farmer to stay at home and order his goods from a catalogue, and so difficult for him to do anything else. In many parts of the country there could be no better investment as a business builder than for the business men's associations of those towns to collect funds and expend them in the wise improvement of the roads leading into their cities. A country road, once properly made and with a modest allowance for maintenance, could not get away and would be a continual business bringer.

It boots not how the candidate stands on the Bailey or any other man issue; it can effect the interests of the people in no wise, to no extent. But it does matter how the candidate for the state legislature stands on the prohibition question. The legislature was elected on a platform demanding that the question of statutory prohibition be submitted to the voters of the state, and every representative elected stood pledged to that end. Yet the expressed will of the people was ignored rough-shod in this instance; then why not in any instance and on any question? Evidently this repudiation was not the result of sober reflection and honest conviction. We want men sent to Austin next time, whose convictions on the submission question are settled—fixed, and whose back-bones are strong enough to stand by themselves, whose political ambition is subservient to their honesty, and who will carry out the expressed will of their constituents.

County Sunday School Convention.

On the 27th and 28th of this month the regular County Sunday School Convention will be held in Colorado. Bro. Wiggins and his wife will be here. Bro. Wiggins to take charge of the Intermediate and Adult Departments, and Mrs. Wiggins to take the Beginners and the Primary Departments. We have never had Mrs. Wiggins with us before and this will be a rare chance for the teachers of the little people to get some good points. Word has been sent to every teacher in the town, and to every superintendent in the county. It is earnestly hoped that all will avail themselves of this opportunity and come to this Convention. We want and invite every Sunday school worker in the county to come and be with us.

The farmer is the man who moves the world, we might say. If he would go out on a strike and refuse to raise a crop for a single year, it would undoubtedly produce a more disastrous effect than would result from a universal strike of all the other organizations combined. In fact, he would paralyze the world; yet there are many people who don't seem to know how much more our prosperity depends on the farmer than it does on the dude with the cane and waxed moustache.—Paducah Post.

Choral Society.

The Colorado Choral Society will hold their Musical on the night of the 28th of this month. They are doing some hard practicing, and are holding two rehearsals each week, and no doubt this will be a treat for those who love music. We understand there are some twenty-five or thirty in this society, with a number of applications on hand from those who will join as soon as the present Musical is given. The Society is so far on with the present work, that no new applications can be considered just now, but a new piece will be started as soon as they are through with this one. The Society hopes for forty voices next quarter.

We are credibly informed that the contract has been let for the erection on the vacant lot west of Doss' drug store, of a two story pressed brick front building, trimmed with sand stone. Mr. Jas. Dulaney of Sweetwater owns the lots and will put up the building. This is certainly good news and will be hailed with great gratification by every citizen of the town. The location is a most eligible one, and the fact that it has been vacant for so long a time, was a tacit reflection on the business enterprise of the city of Colorado. Strangers wondered why the local capitalists did not invest in a building on the lots. A nice attractive building will help the looks of that end of the street very much. Mr. Dulaney is to be congratulated on his enterprise.

Sunday afternoon at the Baptist church the U. D. C. held memorial services in honor of Lee and Jackson's birthdays. Splendid addresses were given by Revs. Lyon and Marshall. One speaking upon Lee the other on Jackson. A fine paper was read by Mrs. Gustine while Mrs. Smith read a beautiful poem "The Baltimore Grays." The Veterans were guests of honor upon this occasion. If all would attend these open meetings a better understanding of the aims and purposes of the Daughters would be obtained. They stand for a high and noble cause—the commemorating and remembering of noble deeds done by noble men.

UNCLE ANDREW

A GREAT ENTERPRISE COMES TO COLORADO

THE COLORADO DRUG COMPANY MAKES AN IMPORTANT CONNECTION WITH THE LARGEST CO-OPERATIVE CORPORATION IN AMERICA.

BACKED BY MEN DOING AN ANNUAL BUSINESS AMOUNTING TO \$75,000,000.

PEOPLE OF COLORADO BENEFITED

The Colorado Drug Co., of this City, have, with characteristic enterprise, demonstrated their ability to keep well abreast of the times by connecting themselves with the largest druggist's co-operation in America. The men connected with this enterprise do a yearly business aggregating over \$75,000,000, which well emphasizes its soundness and magnitude. Nearly two thousand retail druggists throughout the United States have organized themselves as a co-operative company for the purpose of producing a line of medicinal preparations which they recommend, absolutely guarantee and back-up with their own names and personal reputations. The formulas of these remedies are thoroughly known to every one of these druggists and the ingredients of each will be truthfully described to the public and the remedies sold with the distinct understanding that their purchase price will be instantly refunded without question or quibble if they fail to benefit the user.

Over two thousand different formulas were turned over to the company. Each formula being selected because of its tested and proved value and established reputation, gained through continued and successful use by prominent physicians.

A research committee of expert chemists and physicians made a most thorough and exhaustive test of each one of these two thousand prescriptions until they had selected about three hundred as being the very best and most dependable known to medical science, each for the treatment and cure of a particular ailment.

These three hundred remedies are now manufactured by the company, which is known as the United Drug Co., Boston, Mass., in one of the largest, most modern and best equipped pharmaceutical laboratories in the United States.

The tremendous output of this company enables it to purchase drugs, herbs and other necessary material in very large quantities. The co-operation and professional advice of 2000 leading druggists guarantees the high quality of everything used and guarantees that only formulas of extraordinary merit are used in the manufacturing of their products.

The preparations of the company are shipped direct to the retail druggists who are connected with the enterprise. Thus their absolute freshness is assured. It is impossible for their quality to deteriorate there are no middlemen's or jobber's profits to be added to their cost, and the public can obtain these products at actual cost of

manufacture, plus a single retail profit.

One noticeable feature of this business, and a very commendable one, is that no one remedy manufactured by this company is a "cure-all." Each one of the 300 different remedies is a known and dependable specific for a particular ailment. The confidence of the druggists interested in this enterprise is unquestionably demonstrated by this guarantee which is printed on every package: "This preparation is guaranteed to give satisfaction. If it does not, come back and get your money—it belongs to you and we want you to have it."

This is certainly an innovation that must appeal to the people of Colorado. It insures safety and satisfaction because our own local druggist, Colorado Drug Co., who are so well known and highly respected for their integrity, are connected with this enterprise and are staking their own personal reputation on the quality of these remedies, and the very frankness with which they take the people of Colorado into their confidence insures an unprecedented success for these remedies which are sold under the trade-name Rexall, which means King-of-All. From reports coming from thousands of towns and cities, the Rexall Remedies are certainly demonstrating their full title to the name.

Those who have previously refused to buy proprietary medicines because there was no way of ascertaining their ingredients, can now purchase Rexall Remedies, the formulas of which they can have for the asking. Besides they are sold by a concern personally known to you and located right here in your own city, who guarantees that they are in every way as represented or they will cost you nothing.

Rexall Dyspepsia Tablets are the first of the three hundred remedies which are being introduced. Anyone in Colorado who suffers from stomach derangement, indigestion or dyspepsia should not hesitate to try this Rexall remedy when they are so highly recommended and backed with such a strong guarantee.

The Colorado Drug Co. are so well and favorably known for their sterling honesty and square dealing that we predict a great success for them with the Rexall Remedies, and they are to be heartily congratulated in bringing this great and modern business enterprise to Colorado.

We urge all who may be in need of prepared medicines to call on the Colorado Drug Co. and learn about Rexall Remedies. Enterprise of this sort should be encouraged.

The Brotherhood hopes to do a good work among the men of Colorado this year. The most important thing is to get the men and boys to attend the services. Let every member bring a friend with him next Sunday, and every Sunday thereafter.

T. M. Hawkins, Kansas.

It is surely considered a recommendation of an article when the proprietor of the store uses it. With regard to medicine, the range of choice is especially large. Yet when Druggist J. M. Hawkins of Mound City, Kas., got ill and needed a reliable laxative and tonic for his stomach trouble he selected Dr. Caldwell's Syrup Pepsin, which he naturally considers the best. This remedy is absolutely guaranteed to do what is claimed, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Building, Monticello, Ill. It is sold by all dealers at 50c and \$1 a bottle.

The Record is still of the opinion that a sanitarium in Colorado would be a great success and we see no reason why one should not be established on a paying, or at least self-supporting basis. Smaller towns than Colorado have both sanitariums and professional nurses, and find that they pay.

MAY PROVE FATAL
When Will Colorado People Learn the Importance of It!

Backache is only a simple thing at first.

But when you know 'tis from the kidneys:

That serious kidney troubles follow: That diabetes, Bright's disease may be the fatal end.

You will gladly profit by the following experience.

'Tis the honest statement of a sufferer who was cured.

Frank Polacek, of Big Springs, Texas, says: "It was two years ago that I first used Doan's Kidney Pills. I was then working in the shops and from continual drinking of too much ice water, my kidneys became disordered. The most severe pains darted through my back, causing intense misery. The kidney secretions were too frequent in passage and annoyed me greatly. I was unable to get anything that would relieve me until I procured Doan's Kidney Pills. After taking the first few doses I felt better and two boxes made me as well as ever. Whenever I have the least symptoms of kidney ailment, I use Doan's Kidney Pills and am soon all right."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

A False Alarm.

On last Monday morning Capt. Potts and four rangers arrived in Colorado from Ysleta. Almost immediately telegrams from all the daily papers began to pour in to all the local correspondents and others, asking that details of the "lynching" be rushed. Inquiries came by telephone and telegraph throughout the day, and it was some time before the city papers could be convinced there had been no lynching at Colorado, talk of lynching or thought of lynching, as there had been no difficulty or other crime committed in the county for a long time. News that rangers had been ordered to Colorado by the Adjutant General at Austin, had been sent out from that place to the various daily papers, and the presumption grew that it was for the purpose of preventing a lynching. The Record is glad to state that no crime has been committed in Colorado or Mitchell county, and the presence of the rangers here had no connection with any kind of disturbance. Evidently the order was the result of misapprehension.

THE ALARMING INCREASE OF BRIGHT'S DISEASE.

"He died of Bright's Disease." Hardly a week passes that this statement is not made in reference to some prominent citizen.

The increasing prevalence of this disease makes the present time seem most opportune for discussion in the hope that some who are unconsciously afflicted with this dreaded disease may receive timely warning.

A prominent citizen residing in a nearby town informs us that he suffered for nearly a year from Bright's Disease, but that he recently affected a complete cure.

"What seemed to be the first indications of the trouble," was asked.

"They seemed hardly worth noticing. My digestion bothered me at times, my stomach seemed out of order, and I had occasional backaches, but I thought it was due to too much work."

"Did you take anything?"

"I did not. Later, my strength failed me, I had severe pains in the back and noticed some irregularities of the urine, I couldn't sleep well at night. I then used some simple remedies, but without benefit."

"Did you realize that your trouble was Bright's Disease?"

"I never thought of such a thing. Finally, my condition became serious. My back ached all the time, I had shooting pains in my joints and a weak tired feeling in the knees, a little work played me out completely. I then began doctoring for kidney trouble but did not improve very much."

"Did you have any trouble with your heart?"

"Yes. I had spells of heart throbbing and a nervous faint feeling. I thought I had heart disease and treated awhile for that. Nothing seemed to help me. I had to give up trying to work."

"How did you affect a cure?"

"A friend of mine persuaded me to try Prickly Ash Bitters. I bought a bottle of the medicine. After taking it a week I began to feel some better, my urine became more natural and there was a gradual lessening of my misery. I kept on taking Prickly Ash Bitters for several weeks and I could feel my strength returning—slowly at first—but increasing daily. I am now entirely cured of my trouble and able to do a full day's work without the least fatigue. I consider Prickly Ash Bitters the grandest kidney medicine in the world."

Thousands of people attest in like manner to the wonderful benefit derived from Prickly Ash Bitters. It is a time tried and successful remedy for Bright's Disease or any disorder of the kidneys.

Prickly Ash Bitters is in every sense a system tonic and regulator. It possesses important properties for curing ailments of the stomach, liver and bowels in addition to its great power in the kidneys. It is a valuable article to keep at home, where a dose or two can be taken whenever needed. When used for any disorder in the kidneys, stomach, liver or bowels it is the right medicine in the right place.

Absolutely New—Altogether Different

Therefore Cures Where Others Fail

Ware's Black Powder and Ware's Baby Powder are tasteless and perfectly harmless antiseptics that kill the germs in the Stomach and Bowels which cause Dyspepsia, Indigestion, Flatulence, Sick Headache, Dysentery, Cholera-Morbus, Intestinal Indigestion, Catarrh of the Stomach and Bowels, and Diarrhoea—thereby removing the cause and relieving the trouble.

Ware's Baby Powder is for children, and if your baby is suffering from bad bowels, irritation from teething and condition that we call summer complaint, stomach all upset, food undigested, use Ware's Baby Powder. It cures the little ones.

"I have been suffering from catarrh in the head for the past two months and tried innumerable so-called remedies without avail. No one knows how I have suffered, not only from the disease itself, but from mortification when in company of friends or strangers."

"I have used two bottles of your medicine for a short time only, and it effected a complete medical cure, and what is better yet, the disease has not returned."
"I can most emphatically recommend Peruna to all sufferers from this disease."

Mr. A. Thompson, Box 65, R. R. 1, Martel, Ohio, writes: "When I began your treatment my eyes were inflamed, nose was stopped up half of the time, and was sore and scabby. I could not rest at night on account of continual hawking and spitting."

"I had tried several remedies and was about to give up, but thought I would try Peruna."

"After I had taken about one-third of a bottle I noticed a difference. I am now completely cured, after suffering with catarrh for eighteen years."

"I think if those who are afflicted with catarrh would try Peruna they would never regret it."

The reception and banquet given at the opera house Saturday night by the Odd Fellows and Rebekahs, was an enjoyable and interesting affair. The new officers were installed, both the Odd Fellows and Rebekahs, after which interesting ceremony and short talks by different members, a nice musical program was given, and then the banquet! The tables fairly groaned under their burden of good things;

there was plenty, and to spare. W. L. Doss and wife and several others from Colorado were here to attend the Odd Fellows' reception.

Mr. Gandy's nice, new residence on College Heights is nearing completion.

The Misses Nelson invited quite a number of friends to their pleasant home Monday night to a surprise party—the occasion being the birthday of their brother, Allen. The young man knew nothing of the party until the guests began to assemble, however he was agreeably surprised, and gave each one a hearty welcome. Forty-two and other games were played, one, especially caused much merriment. The young ladies secreted themselves behind a screen, with an aperture for the face, another screen was placed upon the face, with only an opening for the eyes, and the boys had the fun of peering into the eyes and guessing whose eyes they were. Refreshments of fruits, cake, etc., were served. All had a most delightful time and wished for Mr. Allen many happy returns of the day.

Mr. and Mrs. Prude of Colorado spent the day with Mrs. Blume, Saturday.

Mr. and Mrs. J. M. Baker expect to leave Tuesday night for Corpus Christi for the benefit of the latter's health. Mrs. Baker is a most estimable lady and we sincerely hope the change will be beneficial.

After the ceremony, and congratulations were over, they were ushered into the dining room which was tastefully decorated, and delicious refreshments of ambrosia, whipped cream and cake were served. Miss Pearl is the eldest daughter of Mr. George Seymour, and is a most worthy young lady, possessing all those traits of character which go to make up a true woman, and one of which any man may feel proud. A. A. Tyler for Commissioner.

Mr. A. A. Tyler, of Loraine, announces this week as a candidate for the office of Commissioner for Precinct No. 1. See his announcement in the proper column. No office in the county is more important than that of commissioner, and the duties require a level-headed, just and efficient business man. The acts of our county commissioners touch more directly and quickly, the interests of the individual citizen, than any other officer of the county. Therefore the best men we have should be put into this office.

250 Thrilling Stories.

In every family there is a constant demand for stories—good, thrilling stories of adventure and heroism. That The Youth's Companion supplies this demand is attested in more than half a million homes.

The serial stories for 1910 alone are well worth The Youth's Companion subscription price. These include stories by Arthur Stanwood Pier, C. A. Stephens, Grace Richmond, Chas. Miner Thompson and Winifred Kirkland. Send for full prospectus of the 1910 Volume and see what an amount of the best reading has been secured for The Youth's Companion family for 1910.

THE YOUTH'S COMPANION, Companion Building, Boston, Mass.

President Brown of the New York Central railroad, hits the nail squarely on the head when he attributes the increased cost of living to increasing consumption and decreasing production. Production per acre must be increased by more intelligent methods or we must face the day when we shall not produce enough to supply our own necessities. We must grow more; there must be more producers, or we must live on less, to arrest such calamity.

A Princely Gift.

Charles M. Schwab has made a gift to the children of New York which is conservatively valued at \$2,000,000. He deeded the magnificent pleasure resort at Richmond Beach, Staten Island, to the Sisters of Charity of St. Vincent De Paul of New York City, and while there is no specific reservation in the deed of gift, it is understood that the sisters are to use it for the benefit of the poor children of New York City. It is the purpose of the Sisters of Charity to utilize the property in the winter for the benefit of sick and crippled children of the poorer classes in New York, who will be benefited by outdoor life.

The Family Orchard.

Mr. Editor: I notice in the Record letters from different sections of Mitchell County, treating on various subjects. So far, I have not seen anything about fruit trees, nut trees or shade trees.

There are sections in many states where many farmers have fresh fruit the entire year around. Especially apples. Peaches, varieties properly selected, can be gathered from the tree from May till November. Plums, grapes, black and dewberries can also be had for several months. Of course these things require proper attention at the proper time. So does everything else. This is not a chance world. It is safe to assert that an orchard pays as large a dividend for labor performed as anything else on the farm. When we consider that a bearing orchard constitutes about one half the living expenses of the family, its better health and fewer doctor bills, we will be ready to plant out trees.

Just a word here, about how to buy trees. Don't take an agent's word that he will furnish you with "first-class trees." Last year thousands of trees were sold to unsuspecting citizens of Mitchell and adjoining counties to be "first-class." They were sold at exorbitant prices, and when they were received they were 2 to 3 feet high. They were the cheapest grade of trees sold by any nursery.

The following sizes of trees and prices are within the reach of all. 1

will give only peach trees as more of them are sold than any other kind.
2 to 3 foot trees \$50 per M.
3 to 4 foot trees, \$75 per M.
4 to 5 foot trees, \$125 per M.

Smaller lots, of course, higher. The small trees are one year's growth; the next size two years, and the last three years. Any of these trees are as apt to live and grow as the others, but of course, the larger the size the sooner the bearing.

About nut trees. It is believed by those who have experimented, we will say with pecan trees, that as a money maker they beat a gold mine. At a convention of nut growers recently held at Atlanta, Ga., one grower made the statement that his orchard is in bearing and that his trees average him \$40 each—nuts sold for one year. At twenty feet apart each way, one acre will contain 108 trees. Just a little arithmetic will show you that the income per acre was more than \$4,000.00. Such an acre is easily worth \$10,000. Beats a gold mine all to pieces.

Sunday School Convention.

On Thursday and Friday of next week, the Mitchell County Sunday School Convention will be held in Colorado. It is earnestly hoped that all Sunday School people will avail themselves of this opportunity to come to the Convention, and get all they can out of it. Superintendents and teachers are especially asked, for this Convention is especially for them though all who care to attend are cordially invited. Let us have a goodly company, and encourage the work. Further notices will be given Sunday from the different pulpits.

It is somewhat an anomalous condition to hear the Mohammedan Muezzin's call to prayer from a Minaret in the heart of New York City. 353,000 of the 880,000 foreigners who came to the United States last year, flocked to New York City alone. The followers of Confucius have in course of erection in that city, a \$100,000 temple of worship.

Don't forget the date of the Mitchell county Singing Convention—first Saturday and Sunday in February. Give the visitors a good, time while within our gates.

The statute making the wearing of a secret order emblem when one is not a member, a misdemeanor, is proving no dead letter. There have been frequent convictions.
