THE CHORAL SOCIETY CONCERT

Jairus' Daughter, a Sacred Cantata Most Beautifully Rendered Before A Large Audience.

For many weeks the entertainment given at the opera house last Friday night by the Colorado Choral Society, had been looked forward to by the lovers of good music and those interested in musical things. Owing to the illness of one of the members who had an important part, the entertainment had been postponed from the preceding week.

The program was a distinct departure from the usual run of programs on like occasions, and gave the individual voices an opportunity to test their qualities, never offered before.

The first part of the evening's program was the rendition of a cantata or rather of an oratorio, as it was a sacred composition consisting of airs, recitatives, duets, choruses, etc.; the texts being usually taken from the scriptures. The title of the cantata rendered Friday night was "The Daughter of Jairus," with music by John Stainer, and under the direction of Professor Thomas Dawes. Those who have had the opportunity of hearing Mr. Dawes before, were prepared to expect something much out of the ordinary, both in selection and in execution. To those who had not been so fortunate, a treat was held in store.

The Society has been practicing this composition for some time and were thoroughly prepared to give it a creditable interpretation in technique and expression.

A good house gave the Society that confidence and encouragement which are necessary to any successful performance. Neat librettos, containing the names of the members of the Society, classification of voices, text of the composition and program features were given to all on entering, so that the sentiment and music might be followed by the audience.

The opening chorus, "In that Day Shall the Lord of Hosts," was but an earnest of what the rest of the program would be and put the house in perfect rapport with the singers. The next feature of the program was the solo singing of Mrs. Brooks Bell and Mr. Allen Payne, "Behold, there cometh unto Jesus," with responses by the chorus. It would be invidious to specify the singing of any who participated. It was all so much better and so different a character from the singing usually rendered by our home talent, that the audience passed upon it collectively, as a whole, perfect production. The solos, duets, trios, quartettes and choruses, were well done, reflecting credit as well upon the thoroughness and efficiency of the teacher as upon the improvement of the members. It was by far the most classic and high grade musical performance ever undertaken by the singers of Colorado, and demonstrated that the people here are prepared to appreciate the better class of music and

willing to support its production.

The second part of the program was devoted to vocal, violin and piano solos by Mr. Dawes, and Dr. Merrell, preceded by a beautiful chorus.

Both the vocal and instrumental renditions by Mr. Dawes showed him to be a musician of unusual ability. The timbre of his voice, compass and technique were evident qualities. The concluding chorus, "Calm Be Thy Slumbers" ended one of the most successful entertainments witnessed for many years in Colorado. The appreciation with which it was received argued the success of all future ones of the same class. It stimulated an interest and several members were added to the society by reason of the performance. Mr. Dawes is to be congratulated upon the interest he has created in musical education and the town is to be congratulated upon having him locate in our midst. It is the universal wish that a similar entertainment be given in the near future, which no doubt would prove even a greater success than the last one.

Railroad Now Assured Colorado and Robert Lee Ready to Sign up.

Bonus at Both Ends of the Line Now Ready.

Contract to be Signed This Week.

A letter from Mr. E. G. Hammock at Little Rock, among other things says: "Rest assured the Colorado road will be built."

It is well understood that Mr. Hammock was to have a meeting of his New York and Little Rock backers in Little Rock last Saturday, when the Colorado proposition was to be submitted and the result wired here at once.

From some cause the parties failed to meet, and one day this week was set for the meeting. Mr. Hammock, the promoter, knowing that Colorado was very anxious to sign up for the road, very promptly wrote to Dr. Coleman, explaining everything, and urged for us not to become discouraged THAT THE COLORADO & CONCHO ROAD WOULD BE BUILT.

Word comes from Robert Lee that their bonus is ready and they are also ready to sign up.

In this case delayed news is good news, and by the first of next week we expect to hear definitely and also expect Mr. Hammock to come down and close the matter up.

Robert Lee Pledges Bonus.

An enthusiastic meeting was held at the court house Saturday, Jan. 22. Many citizens living in the middle western part of Coke county were present. Representative men made speeches and the band rendered music selections. The raising of a bonus of \$50,000 for the building of the Colorado & Concho railroad, from Colorado down the fertile valley of the Colorado river to Robert Lee, the county seat of Coke county, was the principal topic discussed. This will insure to Robert Lee railroad connections.

The San Angelo Standard says: Inaugurating the railroad campaign once more, the directors of the San Angelo Chamber of Commerce, in a meeting Monday night, instructed the railroad committee to immediately take up the proposition of the Colorado & Concho Railroad, running from Colorado to Robert Lee, and make overtures to bring an extension of that line to this city. The line from Colorado to Robert Lee is an assured fact now, as both of the cities involved have signed up contracts with E. G. Hammock, the Arkansas railroad promoter.

It is not hard to understand just what this move means. It means that San Angelo is going into another of those great struggles to secure a railroad, one that has every promise of being something big in the future. And will San Angelo win? Ask the old timers that have stood in the trenches for these many years and seen victory perch on its banner countless times.

San Angelo is after the Colorado & Concho! This is the first determined move that has been made and there is no doubt in the minds of those who know the railroad conditions in this country, that the Colorado & Concho will be glad to come to San Angelo.

Now the question has arisen as to the ownership of this railroad. Some declare that it is the Frisco, others the Santa Fe, some few say it is independent, but San Angelo does not give a sou marker who is behind it so long as it is an organization of men that are capable of fulfilling their contracts to the letter. That much Mr. Hammock has a reputation for.

The railroad committee will not brook any delays, but will go right into the matter with all of their old time vim—and the chances are that they will win."

Santa Fe West of Sterling City.

It is understood that the Santa Fe is grading westward three miles from Sterling City. This report was made by a citizen who lives in Sterling. What is meant by this action or where the road is headed for is a matter of much speculation, but it is the general belief that the Santa Fe is headed for Pecos by the way of Stiles, and on through several other western towns that are far from any railroad.

It is also understood that the Santa Fe owns the big Pecos Salt lake. In the purchase of this lake, it may be that the Santa Fe is going to build its line by and develop the lake. There is an everlasting quantity of salt in this lake and to develop it will mean the realization of much capital.

While the route that the Santa Fe is taking in making the grade from Sterling is not known, the idea is put forward that it is headed for Pecos City,

where it will join the Pecos River & Eastern Railway of New Mexico, a line which is controlled by the Santa Fe and which terminates at Pecos.

THE LAYMEN'S MISSIONARY MOVEMENT

It was one hundred years ago that the first foreign missionary movement was inaugurated in America, in what is now called the famous Haystack prayer meeting at Williamstown, Mass. The movement has grown from that date, but for the most part under the urging of the ministry of the evangelical churches. The present movement in a Presbyterian church in New York City in 1906, when 100 laymen were called in prayer. After a three hour session these men got a vision of the possibility of giving every man on earth a chance to hear the gospel during this generation. The chairman of this meeting declared: "We can do it, and we will," and this became and is the inspiration of the movement. The motto and watchword is: "The World for Christ in This Generation."

What explains the power of this movement in the lives of men? What is its significance in the life of the church? To these questions, at least partial answer is found in the following considerations:

1. The movement presents to men the greatest possible spiritual challenge. The greatest thing in the world is the world. If the world's needs are not great enough to arrest a man's attention and command his help, he is incapable of being moved by the most imperative challenge with which God has confronted men.

Men are awakening to their opportunity to enter as influential constructive factors into the currents of human history and into the whole world better because they lived.

2. This movement makes the largest possible demands upon men. It strives simply to voice to them God's call for a life whose dominant purpose is to establish the reign of Christ in all human relationships. It reminds men that all life is a sacred trust, involving the stewardship of opportunity, of influence, of time, and of treasure; that spiritual values are the only permanent values; that selfishness is suicidal, while service of others brings to the soul the supremest possible satisfaction.

It has been truly said that we must either ask more of men or less. They are not satisfied with what they have been doing. The Laymen's Movement believes that we can only be true to the call of the world and of Christ by asking of men all they have and are, that the Kingdom may come and God's will may be done on earth as it is in heaven.

3. The effort to evangelize the world presents to every man the latest opportunity of service which can come to him in this life. It includes the man nearest to us, and also the one furthest away. It asks for the best which any man has of intelligence and ability to help solve the supreme problem of the world. This is an enterprise into which the most resourceful of men can put all they possess of life and possessions, and then wish that they had manifold more to invest. No man can live the larger life which God has planned for him unless he enters with his whole soul into the program of Christ for the redemption of the race.

4. The life purpose being emphasized by the Laymen's Movement, when followed, satisfies the deepest spiritual ambitions of men. Most men are not satisfied with the permanent output of their lives. Nothing can wholly satisfy the life of Christ within. In His followers except the adoption of Christ's purpose toward the world He came to redeem: fame, pleasure and riches are but husks, and ashes in contrast with the boundless and abiding joy of working with God for the fulfillment of His eternal plans. The men who are putting everything into Christ's undertaking are getting out of life its sweetest and most priceless rewards.

5. The effort to evangelize the world presents the speediest and surest method of saving the church. Our material resources are so stupendous that we are in danger of coming to trust in riches rather than in God. "If a man is growing large in wealth, nothing but constant giving can keep him from growing small in soul." The evangelization of the world is the only enterprise large enough and import-

ant enough to provide an adequate outlet for the church's wealth.

Another of the subtle modern foes of the church is rationalism. The final answer to this dangerous enemy is the standing miracle of modern missions. In the aggressive missionary operations of the church lies her fairest hope of salvation from formalism, from materialism, from rationalism, from selfishness and from indifference to the will of God.

6. As all branches of the church co-operate to accomplish the evangelization of the world, there are multiplying evidences that the unity of the church itself may be restored. In the mind of Christ the union of his church was associated with the salvation of mankind. He prayed "that they all may be one that the world may believe." Men believe in the Laymen's Movement because it is actually associating men of all churches in co-operative work for the accomplishment of Christ's one great purpose through His church. Professor Bosworth says that there are four things that bind men together: 1. A common hope; 2. A common work; 3. Delivery from common peril; and 4. Loyalty to a common friend. On this quadrilateral men of all communions may unite to make Christ known and loved to earth's remotest bounds.

The convention of the movement will be held at El Paso, Texas, for all the section of country west of Midland, on February 27, 28 and March 1st. The movement is interdenominational and every man who has an interest in the salvation of his kind is invited to attend this convention at El Paso.

For February.

My dears, do you know That a short time ago Two dear little children Named Ted and Pinchot Were stolen away On a bright autumn day, And would have been dodo Had Taft had his way. Their captors had planned When they got them in hand To dash for the nearest Tall cut in the land, And there in the trees To desert them to freeze And to die of starvation And grief, if you please. And when they were dead The robins so red Were to cover them up From the foot to the head With leaves of the wood And to sing when they could, "Fool babies in the forest, Now will they be good?"

But look far and wide, Never forest was split, Nor any place left Where the babies might have died; For the forests of yore They would never see more, And they heartily wished They had saved three or four.

Which occasioned a halt, And with verbal assault They openly said It was Ballinger's fault; So they cursed him some more, And they bitterly swore, And the babies were put back Just as good as before.

But that's enough of Ballinger, or for him or for him; the groundhog will awake again upon the 2nd inst. He'll pinch himself a time or two, roll over on his bed, engage in calisthenics till he's sure he isn't dead, recall the day's significance with never-failing humor, and come out to compare his girth with that of the consumer.

And side by side before his hole these two will reminisce, and each will tell the other what his weight, if any, is. They'll feel of one another's ribs, tell stories, laugh and prattle, jump up and down to see whose bones will make the drier rattle, and then, with standing back to back and no small bit of unction, they'll ascertain if they can throw a shadow in conjunction.

The which the country will await with trembling and misgiving, for if they can, we'll have to think of how to keep on living another *0 days and nights, frostbit and tempest-shaken, and paying an admission fee to see a piece of bacon.

But let us all be reassured And have the heart to sing: We don't believe a dozen such Could hope to show a thing; Or forty of them half and half

In rolid phalanx there, Unless they counted one-two-three, And filled themselves with air.

Our Mr. Taft should be ashamed to be so fat and sleek with everything so high we can't eat meat but once a week. He ought to be too big a man in other ways than to keep so buxom when he sees how thin the country is.

A sympathetic president in such a time of test would ask for nothing but to take pot luck with all the rest. He'd eat his hard and simple crust, his prunes and batter cake, and join the country in the stand we've taken as to steak. It does not seem like hard-heartedness for one in such a place to feed himself on tarrapin and set us such a pace. He ought to live on hominy and grow so thin and gaunt that anyone with seeing him would think he was in want. It would become him very well to say, "I live on rice," and prove it when he wrapped his coat around his body twice. We'd all stand up and honor him, alike with us bereft, and cheer him with what little strength the most of us have left.

St. Valentine will open up

His moving picture show And run a nickelodeon For seven days or so. He'll show us Algeron the Dude, And Little Wit the Dunce, And bore us terribly again With those unwitting stunts. And maybe this time we shall rise, As we should do, by gum, And put this whole infernal brand Of humor on the bum.

We never did know what it meant if anything at all, or who it was that started it, or why he had to fall for such a custom. Oft we think the way that we behave must make the good St. Valentine turn over in his grave. It is a shame to break his sleep, which also were quite serene, and keep him spinning just as if there were a belt between that ancient and respected bomb of him a long time dead and all the wheels there are in some fool picture maker's head.

At any rate, the country will by hook or crook survive and hail the blessed day that saw George Washington arrive. As time proceeds we more and more appreciate his mistake, and wonder if his coming here was not a great mistake. We can't help thinking that he was supposed to go to Mars, or possibly to one of the still older, riper stars. A man who will not tell a lie is not like one of us, and we'll bet a dollar he was billed to go to Uranus or somewhere else where one of us had been to them as queer and unlike everyone as George has been among us here.

But be it as it haply will, It soon shall come about That lent will hurry up to help The poor meat striker out, And Halley's comet will assume The aspect of a gorgon And see what it can do to save Us all from Mr. Morgan.

If that won't make him loose his grip it will be time to wonder if Mr. Morgan too, is not a pincer blunderer, and if he should not have been born in other circumstances as he are an' no one is so far advanced in ethics yet we are.

However, from the 17th we shall be under Pisces, the symbol of the Fish, and the significance of this is that persons born beneath the sign, though not quite Washingtons, will not be liars like we are, but only little ones.

The moon will fill the 23rd, and the last week will be quiet unless we have a suffragette or anti-tariff riot. The trust's big aviation meet will see the month out right, and beef at 30 cents a pound will win the prize for height.

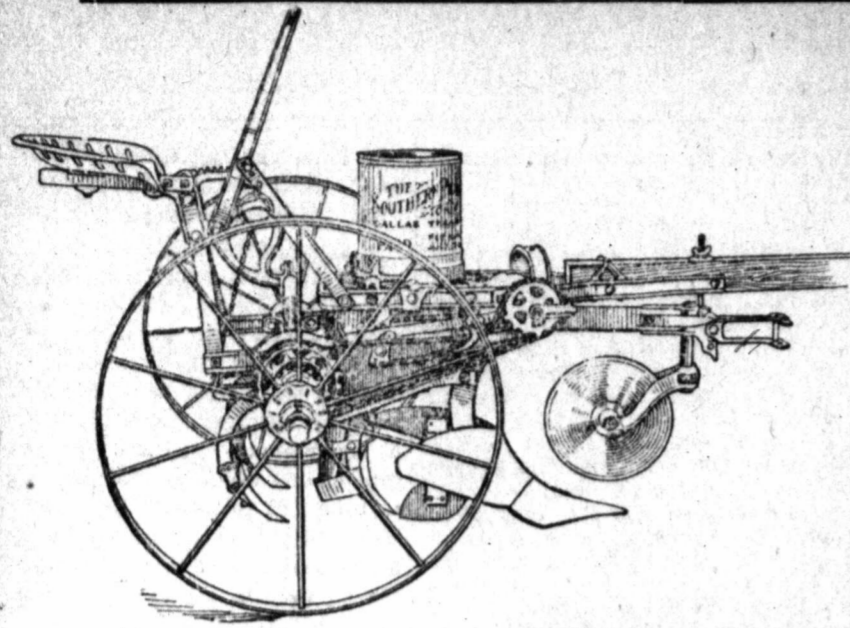

And then the welcome spring will come. The winter go a scooting, And March come in like one of what T. Roosevelt has been shooting.

Cash Market.

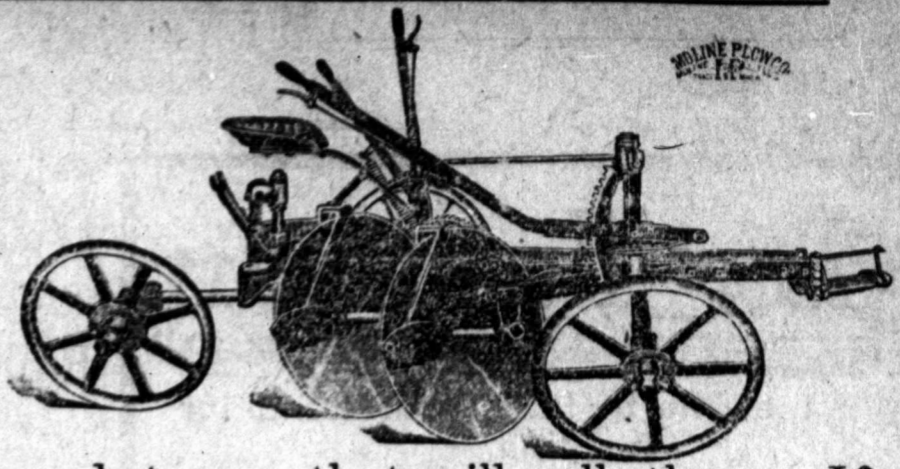

I have purchased the meat market from H. B. Broadus, next door to Glover's grocery. Commencing Tuesday, morning, March 1st, I will deliver meat anywhere in the city of Colorado for cash. Your patronage will be appreciated. Very respectfully G. N. BALL.

By virtue of an order of sale issued out of the Honorable District Court of Mitchell County, on the 2nd day of February, A. D. 1910, in the case of George M. Brown versus H. W. Stoneham, et al, No. 1226, and to me, as Sheriff, directed and delivered, I have levied upon this 2nd day of February, A. D. 1910, and will, between the hours of 10 o'clock a. m. and 4 o'clock p. m., on the first Tuesday in March, A. D. 1910, it being the first day of said month, at the court house door of said Mitchell county, in the city of Colorado, proceed to sell at public auction to the highest bidder for cash in hand, all the right, title and interest which H. W. Stoneham had on the 14th day of January, A. D. 1907, or at any time thereafter, of, in and to the following described property, to-wit:

All of that certain tract or parcel of land situated in Mitchell county, Texas, known and described as the south-east quarter of survey number seventy-five (S. E. ¼ of survey No. 75) in Block number twenty-six (No. 26) as surveyed by and for the Texas & Pacific Railway Company, under and by virtue of certificate No. 2-1390, issued to the said Railway Company, by the Commissioner of the General Land Office of Texas; it being a part of the same tract of land which was patented to the said The Texas & Pacific Railway Company, by Patent No. 623—Vol. No. 37—and containing 160 acres, more or less, together with all the improvements thereon: Said order of sale, having been issued under, and by virtue of a judgment rendered in the District Court of Mitchell county, Texas, on January 11th, 1910, in the above numbered case, foreclosing the vendor's lien of said George M. Brown upon the above described land and premises: Said property being levied on as the property of H. W. Stoneham, to satisfy a judgment amounting to \$2091.08, in favor of said George M. Brown, with interest thereon, from January 11th, 1910, and costs of suit.

Given under my hand this 2nd day of February, A. D. 1910.

G. B. COUGHRAN,
Sheriff of Mitchell County, Texas.

To tell an untruth about a candidate in order to compass his defeat, to endorse such falsehoods by supporting a candidate who stands for such, is on its face an election fraud, as palpable as stuffing the ballot box or defacing a ticket, and should be punished as such by the state.

COLORADO, TEXAS, FRIDAY, FEB. 11, 1910

Dr. Cook should at least have the thanks of the marines. Tell it to the Danes is now the symbol of credulity.

J. J. Hill, the railroad magnate, lays a large part of the blame in the cost of living to the extravagance of housekeepers.

"Barclay is Willin" says Champ Clark, when approached with a suggestion of a presidential boom for himself.

Why, sure we have a candidate in West Texas. He hails from Midland and his name is A. S. Hawkins. He wants to be lieutenant governor, and what's to hinder him, pray.

So that's the why and wherefore of Mr. Love's resignation and retirement to the simple life. But his friends would none of it. The state must be saved, and who so mighty to do it? T. B. Love for governor, with Gov. Campbell as backer.

The average cho-chauf (the engineer of the auto) gets better pay for his services than the average doctor, lawyer or preacher, evidently on the principle that man has always paid more for his pleasures than for his morals.

Sweetwater has another paper, the Signal, by the Adams Brothers. They are veterans in Texas newspaperdom and know how to give the people a clean, progressive paper, a special specimen of which the first number certainly is. The Record exchanges with pleasure.

The cat that came back, finds a counterpart in J. W. Riggins, just now running for mayor of Waco against one of the most prominent and popular citizens of Texas, H. B. Mistrof. Six years ago Riggins thought Riggins the dearest man politically in Texas, but he is showing as much vitality as a nine-life cat.

The fertile valley of the Colorado river from Robert Lee to Colorado deserves a railroad. The increase of population and taxable values the building of such a road as is now proposed, would produce, would pay for it a dozen times over. Let's have the road; and as Daniel Webster said on one occasion when discussing the public debt after bibulous potations: "Why, sure the public debt ought to be paid. And if no one else will, why I'll do it myself." Which offer in view of his utter disregard for his private obligations, made its liquidation a certainty.

Why do people keep their screen doors up during the cold weather? Not only is it provocative of profanity to have a crazy screen door slap you on the heels, spat you on the nose while you are trying to hold one door open while you open the other, without taking both hands out of your pockets, but the wear, tear and cussing of the door should be considered. It doesn't last half as long as when taken down during the winter. The screen door is tolerable only as being preferable to the flies and mosquitos in summer, but in the winter it becomes an unmitigated nuisance.

The trust problem is so far beyond anything the State of Texas may do that we have serious doubts as to its getting a hearing in the campaign, especially if the people take the time to reason about the matter. It is, of course, the problem of problems, but Texas legislation can no more solve it than a snow ball can put out the fires of hades. Nor, for that matter, can any criminal statute emanating from the federal congress get anywhere near the evil. And why? Because the trusts are the children of the protective tariff, and chasing a trust across fields and through briar patches may afford some amusement, but it is wasted energy so long as the tariff wall remains.—Waco Times-Herald.

What nearly every town needs is a more pronounced public spirit. Civic stagnation is the result of indifference and that indifference has its root in a selfishness that considers nothing but private gain. Take any community whose citizens are intent on their private affairs and you'll find a community destitute of progress and public spirit. It is a short sighted policy based upon the wrong idea that it does not pay individually to spare even a fraction of time to devote to the general good. In truth it does not pay not to do it for in these pushing days the town destitute of that wholesome, wideawake spirit which makes for the public welfare falls behind. Other towns pass it by, draw away its trade, and leave it hopelessly in the rear as a fossilized specimen of antiquity petrified through clinging to a dead selfishness and obsolete methods.

The grading of the road between San Angelo and Sterling City is practically finished and ready for the ties. By April 1st trains will be running to Sterling City.

Mrs. O. P. Belmont, leader of New York society and a leading suffragette, has wiped out the color line and asked negro women to join the Association she is organizing. If it suits Mrs. Belmont it should suit us.

W. I. Hargrett and Fort Worth capitalists are figuring with the people of Fort Stockton and Pecos county, on building a railroad from Monahans, via Grand Falls to Fort Stockton.

If you do nothing else to improve your home, plant out a few shade trees. If you own vacant lots, the planting of trees on them will enhance their value and make them more desirable.

60,000 qualified voters ought to produce quite a rousing election; that the number Texas has, and it is the burden duty of every one of them to vote, whenever they have the opportunity.

The Lubbock Avalanche bears the report that Colorado is to have a prohibition election soon. Well, yes, come to think of it, we will have a prohibition election in July. It will be to prohibit a lot of fellows grabbing the public offices in this state and county. It might be called a prohibition election.

Albert T. Patrick, who has been a prisoner for nearly ten years, and who is now serving a life sentence in Sing Sing prison for the murder of William Marsh Rice, has been formerly disbarred as a practicing lawyer by the appellate division of the supreme court. Taking advantage of his position as a member of the bar, Patrick had been able to fight his case for years.

Dr. Rankin's fight for prohibition is all right; he wields a mighty blow. But if he is going to meet all classes of opponents to prohibition, pretty much on their own grounds, it seems to us it would be best for the interest of the church and Zion in general, to do so outside the church and pulpit. There may be religious politics, but the combination of religion and politics into political religion, one is sacrificed, and its usually religion. A preacher politician is possible, but a political preacher.

High Lights and Shadows.

Philadelphia, Dec. 22.—Probably the most costly and beautiful gift that any woman in the world will receive this year will be a rope of magnificent pearls, said to have cost \$750,000, which George D. Widener will present to his wife, who was Miss Eleanor Elkins, daughter of the late William L. Elkins, the traction magnate. It is the most costly string of pearls in the world. It is said that Mr. Widener intended the gems, some of which are nearly as large as pigeon eggs, as a surprise for his wife, but news of the gift that a princess might well envy leaked out.

And here is another: Philadelphia, Dec. 22.—Rather than face her six children on Christmas morning without any presents or money to buy them, Mrs. Sarah Ennis of this city last night went into the kitchen and turned on the gas. She was found several hours later, but not in time to save her life.

No two incidents ever occurred so close together perhaps, showing the extremes of the two conditions of affluence and miserable poverty. The man who spends a king's ransom for a bauble, knowing in the same city are women who had rather give their lives than face their children on Christmas morning without presents or the hope of getting them, come perilously nigh to the "rich man" whose entrance to paradise will be as difficult as the passage of the camel through the needle's eye. That's him certainly.

There are 1500 wolf scalps at the Sterling county court house, we understand, waiting the meeting of the county commissioners court, on which 15 cents bounty each will be paid. With 15 cents for his scalp and 60 cents to \$1.50 for his whole hide, Mr. Cayote is much more valuable dead, scalped and skinned, than alive. Not a bad business could be done in a section where they are numerous.

The jury in the case wherein S. S. Carpenter was charged with the murder of Bert Simpson last June, was discharged by Judge Harner, after trying to agree on a verdict for 26 hours.

Its so if you saw it in the Record.

A Question that Will Not Down.

This from the Memphis Commercial Appeal is worthy of repetition: All wealth comes from the soil. You can create wealth only out of the earth, or out of things that come from the earth. The one thing necessary for human existence is food, and all the ramifications of man's activities are finally dependent upon this food problem.

We are apt to forget our obligations to the soil and to tillers of the soil.

Our cotton, our wheat, our corn our fruit, our wool, our cattle—these require the care of our fellows, and to them must we look for the maintenance of our existence and particularly of our civilization.

We are assaulting the citadel of all that's worth while when we, through our tax systems, discriminate against the farmer, who feeds us all. There are those who resent that last statement, but it is veritable truth—no farmer, no civilization.

And so we repeat: why should not the American farmer be privileged to buy in the market where he sells.

Don't Do As This Man.

A carpenter in New York City, last week sawed off a beam on the end of which he was sitting, and fell six stories to the pavement below. He will live to regret his foolish act and profit by his experience.

Don't laugh at him too soon. There are multitudes just like him; a few in every town, and Colorado is no exception. People who live in a town, own property in it, have their money invested in it and make a living off the citizens of the town, do the same foolish act when they talk against the progress of the town, abuse its civic administration, discourage every effort to stimulate growth and progress, and are continually depreciating the town and predicting failure. They are but digging under their own foundations, sawing off the end of the log on which they are sitting. It isn't necessary that they contribute money to every movement started to help the town, to help. While money is a prime factor in doing anything in a material line, there is much besides that is vital to the success of every enterprise. Hearty and confident co-operation, with sympathetic encouragement have often brought to pass what money alone failed to accomplish.

However, tempted to ridicule and discourage any effort your neighbors make to benefit the town and help the general good, as well as private interests, think of that carpenter who performed the brilliant stunt of sawing off the log that held him, six stories above the ground. There are sawyers as well as knockers.

True as Gospel.

The following is not from holy writ, but is just as true as if it were, veritable "apples of gold in pictures of silver." Many a boy and girl, become disgusted with their homes on the farm, because they are never consulted about things that concern their comfort and pleasure, or given a responsible part in the work or management of the farm work. Try making a business partner of your boy, and he may pull you out of ruts in which you have been struggling for years. In making plans for the next crop, consult your wife and children. They may have valuable suggestions. Besides, they will feel a greater interest in the farm if you will take them as partners. Your boy will not wish to leave the farm if you allow him to have a voice in the management of it. He may be a better farm manager than you are.

J. S. Judge, D. E. Bryant, for the eastern district of Texas, died at St. Louis last Saturday. He was appointed by President Harrison.

Waco is to have a 14-story skyscraper—right soon.

Editor Hardy is becoming acclimated right along. From the way he booms the mighty empire of the west in the Western Light is enough to make him forget the warnings he used to give the people of central Texas against the arid west. He has caught the spirit all right.

"Back to the soil," says Jim Hill, and his sentiments are echoed by the increased price of everything the people of this country consume. "Back to the soil," says the congested cities, where thousands of young men and women flock every year, to find disappointment, ruined life, suicide, or worse for the girls. "Back to the soil," say every profession, whose schools annually turn out thousands more graduates than the field demands. "By the sweat of thy brow shalt thou eat bread" was the burden imposed for violated law. It meant to till the earth; all other callings and lines of activity were but incidental and necessary to this one great vocation. If the proportion of people whom nature intended, should pursue the vocation of agriculture, there would be almost unknown. But where one in ten produces the necessities of life, subsistence, with the nine becomes merely a bottle of wits. The greatest economic need of this time is "Back to the soil."

Cost of District Court.

The jury cost of the district court just closed was \$178.00. The jury, grand jury and bailiffs and jury commissioners cost was \$749.00. By the 15th of February, 1910, all county warrants, of whatsoever kind, will be cash. Entire cost of court, \$1,327.00.

All orders delivered that are received by 9:30 a. m. by Ball's market.

AN ORDINANCE

To amend Article 80 of the Ordinances of the City of Colorado, Texas, and to protect the engines, trucks, ladders, buckets, axes, or other apparatus belonging to or in the possession of the Fire Department of said City of Colorado, Texas.

Be it ordained by the City Council of the City of Colorado, Texas, that Article 80 of the Ordinances of the City of Colorado, Mitchell County, Texas, be amended so as to read as follows:

Section 1. It shall be unlawful for any person whatever, or any member or any company of the Fire Department of the City of Colorado, Texas, under any pretext whatever other than for the purposes for which the same are intended in said Fire Department of said City, to take, or use any engine, truck, ladder, bucket, ax or other apparatus belonging to or in the possession of said Fire Department, or to break, deface, or injure any such named apparatus.

Section 2. It shall be unlawful for any person to pass on or over any water hose belonging to or in the possession of the Fire Department of said City of Colorado, with any character of vehicle.

Section 3. Any person violating either of the foregoing sections, One or Two, of this ordinance, shall be deemed guilty of a misdemeanor and upon conviction therefor, shall be fined in any sum not less than Ten Dollars nor more than One Hundred Dollars.

Takes effect from and after its passage and publication. Passed February 8, 1910.

Approved, this 8th day of February, 1910.

Attest: E. KEATHLEY, City Secretary.

The County Executive Committee.

It will be remembered that on July 25th, 1908, that A. B. Robertson was elected chairman of the county democratic executive committee, and J. L. Doss elected from Precinct No. 1. There were no other members elected at that time, hence the old members from the other precincts hold over. The old members were G. A. Goodwin, T. O. Cowan, U. D. Wulfjen, J. F. Barber and J. C. Morris. T. O. Cowan has left the county, U. D. Wulfjen and J. F. Barber have been elected to county offices, and are thereby disqualified. This leaves Mr. Geo. Goodwin and J. C. Morris of the old committee and J. L. Doss as the only members of the committee. There are in the hands of the chairman \$53.75. In view of the coming election this committee will have something to do and it would be well for them to see "where they are at."

Tuesday afternoon the Card Club met with Mrs. Stoneroad, Mrs. Roundtree being hostess. There were three tables of players and the usual jolly time was enjoyed. The Club was adjourned until after Lent, Mrs. Stoneroad being hostess at that time.

On Wednesday Mrs. W. L. Doss entertained the Twenty-one 42 Club and at the same time Miss Doss entertained the Young Ladies Club. There were eight tables of players and lone hands were made and games won most rapidly. At the close of the game a delicious salad course was served. Mesdames Penson, Jim Smith and Clayton were made members of the Twenty-one Club, which meets next with Mrs. Ingram. Miss Arnett is the next hostess for the Young Ladies Club. The out town guests were, Misses Foster, Craig, Humphrey, Douglass and Mrs. Logan. This was a very enjoyable afternoon, all present being glad they were there.

NOTICE TO CUSTOMERS

Inasmuch as the price of cement and all else that enters into the construction of concrete work has risen considerably in the past few days, it is very necessary that we either charge more for the work we do, or do an inferior grade of work. There is, therefore, but one thing to do. We must charge more for our work. Heretofore we have been charging 9 and 10 cents per foot, the price hereafter will have to be 13 cents, to one and all. This is as reasonable as good work can be put down, and we believe our customers will be willing to meet us half way.

The Facts About Pe-ru-na.

Is Peruna an alcoholic beverage in disguise? Is it possible to use Peruna as a substitute for whiskey? Do people buy Peruna and use it as a toddy or a bitters, or a bracer?

It would be the easiest thing in the world for any one to demonstrate the falsity of such statements. Let any one go to the drug store and purchase a bottle of Peruna. Let him undertake to use it as a beverage, or take this remedy in doses considerably larger than those prescribed on the bottle. Would the result be alcoholic intoxication? Nothing of the sort. Let any one try it and see.

Peruna is a medical compound quite heavily loaded with medicinal ingredients. If taken in doses larger than prescribed it would produce a positive drug effect. No one could take it as a beverage. If any one doubts these statements, try it and see. We know that Peruna cannot be used as a beverage; that it will not intoxicate; that it cannot be used as a substitute for liquors. We guarantee that PERUNA CONTAINS NO CHEAP WHISKEY—OR ANY OTHER WHISKEY, for that matter.

It contains a small per cent. of cologne spirits, absolutely essential to dissolve and hold in solution medicinal ingredients, but the drugs contained in Peruna prohibit its use as a beverage. It would be the easiest thing in the world for any one to demonstrate this if they chose to do so.

Peruna is sold everywhere. THE INGREDIENTS ARE PLAINLY PRINTED ON EACH BOTTLE. It has been said over and over again that chemists have analyzed Peruna and found it to contain only cubeb and whiskey. Now we challenge any chemist to demonstrate any such statement. Let any one who has even a smattering knowledge of chemistry purchase a bottle of Peruna and see whether or not it contains whiskey, find out for himself whether or not it is composed of cheap whiskey and cubeb. Of course, cubeb is one of the ingredients of Peruna, but there are many other ingredients. It contains hydrastis canadensis, corydalis formosa, collinsonia, and at least four other medicinal ingredients. To be sure, no chemist could so analyze Peruna as to be able to identify the various medicinal ingredients. This is beyond the ability of any chemist. But any ordinary chemist would be able to say that Peruna is heavily loaded with medicinal ingredients of some kind in addition to cubeb.

Now why are these statements repeated when their falsity could be so easily demonstrated? Simply because there is continued hostility toward Peruna on the part of the medical profession. Very likely the magazines which took up the crusade against Peruna and denounced it as a cheap beverage were misled by statements of the medical profession. Probably they were sincere in their attitude towards it. But now, after all these things have been said and refuted, it would seem to be in order for such people to use a little fairness and common sense in the matter.

Every time any one says that Peruna is nothing but cheap whiskey and cubeb he is telling a lie, an absolute falsehood. Most people intend to speak the truth. But the prevalent habit of repeating other people's statements, without investigation as to their truth, has led many well-meaning people to say these false things about Peruna.

Used according to the directions on the bottle, PERUNA IS A SAFE AND RELIABLE CATARRH REMEDY, but, like any other good medicine, if taken in excess of those doses, it will produce drug effects very unpleasant to the person who takes it.

It is therefore up to every honest person to quit making such statements concerning Peruna, or acknowledge that he is repeating slanders about which he knows nothing. One might just as well say that Castor Oil is an intoxicant; that if taken in large enough doses it will operate as a "boozer." If people never tried to see, but simply repeated such statements about Castor Oil, the majority of people would come to believe them. It is no easier to demonstrate such a statement about Castor Oil than it would be about Peruna.

Any one who takes Peruna knows that such statements are false. To say that Peruna is cheap whiskey and cubeb may constitute good material for jokes on the vaudeville stage, but there is no excuse for any one who pretends to be truthful saying over again this oft-repeated falsehood.

LORRAINE LETTER

Our postmaster and wife had the pleasure of a visit from their parents, Mr. and Mrs. Baker, of Roscoe, last Monday.

Mrs. Jones of Terrell, mother of Mrs. J. R. Hall, is visiting relatives and friends in our city.

Samp Wallis was down from Big Springs, Sunday.

Ross Gregg, Allen Hall, Wiley Thompson and Robert Henthorn attended the opera at Colorado Monday night.

Miss Annie Blocker made a business trip to Colorado Monday.

Cornet Wimberly who sold his interest in the Stowe drug store some time ago, with a view of locating elsewhere, has decided to remain in Lorraine, and has re-bought an interest in the same drug store, where he will be pleased to see his many friends.

Our old friend J. H. T. Johnson is home so list this week.

Paul Freeman and family are now occupying their own home, just vacated by Mrs. Dees.

Mrs. Dees and daughter are comfortably ensconced in the cosy little home of W. B. Wimberly, for the year.

Notwithstanding the inclement weather a large crowd of Lorraineites attended the singing convention at Colorado Sunday. They report having been royally entertained and having an enjoyable time.

The ladies of the Young Women's Society spent several days in our city this week with friends and relatives.

Mrs. E. C. Gaines wife of Representative Gaines from Comanche, is visiting her parents, Mr. and Mrs. E. M. Kelley.

R. E. Olinger of Anson, a graduate in pharmacy, came in Tuesday morning to take charge of the drug store of W. L. Edmondson & Co., but was called back immediately to attend the funeral of his mother.

T. O. Cowen is a frequent visitor at Lorraine.

Little Wesley Edmondson has been quite sick this week, but is much better at this writing.

Miss Clemmie Dodson of Alpine is visiting her relative, Mr. Sharp, on South Champlain.

Miss Dodson has the reputation of being a practical printer and we are informed has purchased the Big Springs Enterprise.

The Ladies of the Foreign Missionary Society held their regular meeting at the Methodist church Monday evening. After having disposed of the regular business, the following officers were elected for the ensuing year: Mrs. A. J. Blume, President; Mrs. J. W. Smiley, First Vice-President; Mrs. Martha Blume, Second Vice-President; Mrs. J. G. Holmes, Third Vice-President; Mrs. D. C. McRae, Recording Secretary; Mrs. T. J. Davis, Corresponding Secretary; Mrs. J. H. T. Johnson, Treasurer.

Mrs. Bounds and little daughter Nettie, who have been quite sick for the past week, are convalescent.

Eugene and Max Smiley have returned from Upton county with their household goods.

Mr. W. B. Wimberly (Jack) loaded a car with lumber and household goods, and departed Tuesday for Lorraine, New Mexico, where he expects to make his future home. He is accompanied by Sidney Boykin who goes on a prospecting tour, and will also assist Mr. Wimberly in building. Mrs. Wimberly and the little girls will join Mr. Wimberly later. While we regret to lose them, we wish for their success, and that their fondest hopes may be realized.

On last Saturday the sad intelligence came over the wires that Harold Canon is no more, he died suddenly, away from home and loved ones. Mr. Canon was a son-in-law of our fellow townsman, W. S. Thomas, and it will be remembered, was in bad health for some time before he left here. He left last fall on the advice of physicians, in the hope of regaining his health, but all in vain. His death occurred in Lometa, Lampasas county. We sympathize with his family, and especially with the young wife and babe, in this, their dark hour of sorrow and bereavement.

Miss Grace Arrington attended church and Sunday school here last Sunday. She was the guest of Miss Pearl Porter.

Those who attended the entertainment given by the Young Peoples' Foreign Missionary Society, Friday night, were favored with an entertainment of no ordinary merit. The Sniggles family was well portrayed. Miss Annie Blocker as the mother of eleven daughters, was inimitable, and each of the daughters, as they were proudly introduced to the audience by the fond mother, gave evidence of the good training they had received from her, by their respectful obedience.

Mrs. Starkey Dees Sewell is a violinist of rare ability, and those who had heard her when she appeared on the stage here about a year ago, were eager to again listen to this talented woman. She held her audience spell-bound from her first appearance, rendering a number of instrumental and vocal selections. As we listened the words of Whittier seemed applicable:

"As pure and sweet, her fair brow seemed Eternal as the sky;
And like the brook's low song, her voice—
A sound which could not die."

In the instrumental selections given she was accompanied by her sister, Mrs. King, who is a fine pianist and is teaching a large class in our town.

If anyone doubts that we have capable home talent, come to Lorraine and attend one of our entertainments.

Mrs. Frank Tippie is dangerously ill for home in West Lorraine. Mr. Tippie, who was at work at Winters, was summoned to her bedside last Saturday.

Would you like a nice dressed chicken for dinner Sunday? Ask for Ball's market.

Cottolene Never Makes Food Greasy

Food cooked with hog lard and compounds is so thickly coated with grease as to give the gastric juices little chance to assimilate and digest it. *Cottolene* contains no hog fat. It does not coat the food with grease, and food cooked with it is easily digested.

From the standpoint of health, there is no comparison between food cooked with *Cottolene* and food cooked with lard. Lard is just hog fat—*Cottolene* is a vegetable product of Nature.

Cottolene makes food which any stomach can digest and builds up the tissues of the body.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

The following new members were received: Miss Cowen, Miss Frank Riordan, Mrs. Coleman, Mrs. Oderholz and Dr. Campbell. The school house has been wired for electric lights, and as soon as possession can be had will be thoroughly overhauled and fitted up right. Miss Lucile Stonerod is the regular accompanist, and is a valued addition to the Society.

NOTICE TO PEANUT RAISERS.

Denison, Tex., Feb. 2, 1910.

Mr. O. M. Mitchell, Colorado, Tex.

Dear Sir:—We are mailing you contracts and posters. While we are only getting these contracts with the farmers of Grayson county, we would contract with your farmers just the same. The contract price of 70 cents we consider unreasonable as peanuts will be worth more than this, as they would be worth 70 cents for feed. I hope it will be possible to get at least 50 or 100 cars of peanuts from that section this fall.

Yours truly,
TEXAS NUT CO.

We are now ready to make contracts with you for the year 1910 for as many acres of Spanish peanuts as you will agree to plant. The object of this contract is to show the farmers our confidence in the CROP and if we were not reasonably sure that peanuts would be worth much higher price we would not bind ourselves in this way. We will guarantee you 70 cents per bushel for all Spanish peanuts you will raise, and as for over production this is almost an impossibility. Our capacity for the coming year with good merchantable Spanish peanuts will be 1500 bags per day, four bushels to the bag, 30 pounds to the bushel making a total of 6,000 bushels per day. Should we get an average of 50 bushels per acre it will take 120 acres to run us a single day. From these figures you can readily see the vast amount it will take to operate this plant. Should it be possible to get the nuts we would be only too glad to operate at night—then it would take 240 acres to run us 24 hours.

We have a ready sale for all the nuts we can furnish, with demand still increasing.

Yours very truly,
TEXAS NUT CO.

We have heard, unofficially, that there would be a change in the express service on the Texas & Pacific road in the near future; that the American Company would handle the business hereafter. This appears a bit fishy to us, inasmuch as the Goulds are supposed to own both the road and a majority of the stock in the Pacific Express Company. On the other hand we have heard that all the express companies were practically in one pool. That for convenience and system, the territory was divided among them. But these things are beyond the finding out of those on the outside who are only asked to pay the freight.

Many people of Colorado did not know that there was a band in the city, and were surprised last week when a committee canvassed the town in the interest of the organization. On the next day at high noon every wide when the band, about 22 strong marched out on the street, arranged themselves in a circle in true concert style, put up their little music racks, and made as good music as the average band of years of practice. They have certainly made great progress during the time they have been organized. Although Mr. Lee Jones does not aspire to the role of a professional band man, he has certainly done thorough and good work in the training of these boys. They deserve generous help at the hands of the town.

WOMAN'S WOES

A Certain Cure for Female Trouble and That Tired, Nervous, Depressed Feeling That Makes Household Work a Dreary Burden.

Work, work; Nothing but work; Tiresome drudgery! Work used to be a pleasure, but now a few minutes effort leaves you weak, discouraged and irritable with a feeling that everything has gone wrong.

The liver and bowels are responsible for this. The symptoms are, heart palpitation, faintness, suppressed, excessive or irregular periods, bad digestion, bearing down pains in the side and back, nervous weakness, poor appetite, costiveness.

Prickly Ash Bitters sweeps away these troubles like magic, because it strikes at the root of the disease—the stomach, liver and bowels.

Women who take medicine for female troubles that does not benefit these organs are wasting money and valuable time. The liver is diseased because the stomach is unhealthy, and both have produced a constipated habit. This stoppage of healthy action in the liver and bowels has filled the system with impurities which have brought on irregularity in the female organs; it follows therefore, that a medicine which will correct the liver, strengthen the stomach and promote healthy bowel operations is the remedy for menstrual difficulties.

The poor, tired, discouraged woman who has suffered silently and so long with the ailments of her sex soon feels the strengthening and exhilarating influence of Prickly Ash Bitters. It does its work thoroughly, beginning with the stomach and extending its purifying and stimulating influence to the liver and bowels. When the stomach, liver and bowels are active and working in harmony, there must be health and regularity in the female organs. As a result of this improved condition the patient takes a renewed interest in her household duties. Appetite and strength return, the eyes are brighter, the complexion clears, and before long she is transformed into a bright, happy woman with rosy cheeks and cheerful spirits.

"I suffered much from indigestion and constipation. I had a drowsy tired feeling and nervous headaches all the time. I began using Prickly Ash Bitters and it has helped me wonderfully. I now have a good appetite, sleep well and can do a greater amount of work than ever before."

From Union.

Although last Sunday was somewhat of a rainy day, very cold and disagreeable, yet our very zealous pastor, Bro. Ledger, came over and preached a very strong sermon to a very small audience.

Our public school is out and Prof. Hood has moved to other quarters.

Mr. Compe Pritchett followed him by taking a subscription school at Union and I bespeak for him a close consideration, as he is a home-made young man that deserves credit.

Our Farmers' Union Lodge is doing fairly well and are expecting greater things in the future.

Our people are looking forward to a high day at our next quarterly meeting which convenes at Union next Saturday and Sunday, 12th and 13th. Come over Mr. Editor and see how we country people do at quarterly meetings.

Well, Plunket asked me what about the farmers who never joined the Farmers' Union. Well, that is a hard problem; but as good an answer as I know is, that they lost their taste for something good, just before the Farmers' Union was organized. And another reason is that the weak brothers who have deserted its ranks are still in the way. This is a stubborn fact and can't be intelligently denied (in my opinion). Now this may seem to some as criticism, or sarcasm, but such is not intended. For every up-to-date farmer knows that our strength as a farming class of people lies in a unity of mind and purpose, and a concert of action.

Now to the good roads question: So far as my intelligence goes and dictates for me, causes me to speak boldly and say that I am opposed to any bond issue for that purpose, as we have as good roads as our forefathers ever had. Besides this we farmers go to town too much anyway, and if we had such roads as the some-times outlined, I fear it would injure our crops. And further, my church discipline opposes taking up goods in any way without a probability of paying for them, and we all know that this generation could never pay that debt, and I doubt the propriety of it being right for us to incur a debt for unborn generations to pay.

Besides all this, our country people have justly become prejudiced against the use and travel of the automobiles, for we have to give them the good part of the road anywhere we meet them, and no one like the country people, knows the inconvenience of this matter, for we can't scare them like they can scare our terms, and if we had good roads, as is spoken of, where would the trouble end.

WASHINGTON NEWS

Who is Who and what they are doing at the National Capitol.

Washington, Feb. 10.—After having their hopes repeatedly dashed to the ground during the past few years, the people of the territories of New Mexico and Arizona are about to become citizens of sovereign states of the Union.

It is expected that a lively fight will develop in the Senate Committee on Territories before the bill, which has already been adopted by the House by an almost unanimous majority, will be reported favorably to the Senate. Senator Beveridge, the chairman of this committee, was for a long time opposed to allowing the two territories to come into the Union separately. It was he who directed the opposition to the great winning fight made a few years ago by Senator Foraker of Ohio. It is likely that the conditions of entering the Union will be made more difficult than in the House bill.

No matter how much opposition develops in the hearings, however, there is no doubt of the final passage of the final passage of the bill through the Senate before the end of the session, for the reason that both parties in their last national platform made emphatic declarations in favor of it. Those corporations which have benefited more under a territorial form of government than would be the case under a state, because of the much lower rate of taxation under the former, are not putting up the same fight through a numerous paid lobby, and the possibility of a struggle on the floor of the Senate is remote.

Nor are the territories themselves sending big delegations to Washington to further their cause. Formerly the wealthy men of each territory who, for patriotic or selfish reasons, were interested in having a state form of government were called upon to contribute to a general fund, out of which the heavy expenses of the representatives were paid. The governor and state officers appeared among them, aiding in the work of button-holing the members of the House and Senate. As these delegations were made up of the leading politicians of the territory, various schemes for political control were arranged with such care that all the offices were apportioned in advance. When the bill upon which these hopes depended did not pass, the disappointed crowd disconsolately made its way home.

With each disappointment thus encountered it became more difficult to raise the fund necessary to maintain the delegation, hence the small lobby in Washington at this session.

More than ordinary historic importance attaches to the enactment of a law permitting Arizona and New Mexico to enter the Union. It means that the last of the territory within the mainland of the United States will be made a part of the sisterhood of states. For nearly 125 years, as the boundaries and civilization of the country have been extended, new commonwealths have been added to the original thirteen until the forty-seventh and forty-eighth are about to complete the work. Vermont was the fourteenth, entering in 1791, and Oklahoma was the forty-sixth, entering in 1907. Some statesmen at the Capitol predict that the number will eventually be fifty, when the population of Texas becomes so dense as to make desirable the division of it into four states, in accordance with the powers granted it when it was annexed to the Union in 1845.

Arizona was a part of the territory acquired from the Republic of Mexico by the treaty of 1848 and by the Gadsden purchase of 1853 and was part of the original territory of New Mexico. It is 378 miles long by 339 miles wide and contains 119,290 square miles.

New Mexico was acquired under the same treaties. It is 760 miles north and south by 346 miles east and west and contains 128,920 square miles, a population of 195,310.

It is calculated by the Republican leaders in Congress that attention will be drawn from the Ballinger inquiry, and the strategic position of the party aided generally by the probe into the causes of the high cost of food stuffs, which is about to be thoroughly made by the Ways and Means Committee of the House.

The increased cost of living has been felt in every section of the country and various attempts have been made to explain it on political and economic grounds. The fact that it was ascribed to the Dingley tariff had much to do with the revision of the schedules last summer. By many the tariff is still held responsible and during the hearings to be held the Democrats will do everything possible to prove this. On the other hand the Republicans contend that if prices have increased because of the tariff, wages are also higher. They do not admit that the tariff has produced such an effect in price and will put a host of witnesses on the stand to prove otherwise.

A sub-committee of the House Committee on the District of Columbia, has been looking into the cost of food in the District of Columbia. Before it the statement was made by Secretary Wilson that the country is full of little food trusts which hold up the consumer without any particular advantage to the farmers and other direct producers. The Ways and Means Committee is anxious that all phases of the food inquiry shall be investigated, so that some conclusion acceptable to all the people of the country may be arrived at. Experts will be put to work and witnesses from all classes of producers and consumers will be placed on the stand.

UNCLE ANDREW

The Swine or the Flower?
Ah me! I saw a huge and loathsome sty, Wherein a drove of wallowing swine were barred,
Whose banquet shocked the nostril and the eye;
Then spoke a voice, "Behold the source of lard!"
I fled, and saw a field that seemed at first One glistening mass of roses pure and white,
With dewy buds 'mid dark green foliage nurse;
And, as I lingered o'er the lovely sight,
The summer breeze, that cooled that Southern scene,
Whispered, "Behold the source of COTTOLENE!"

The Singing Convention.

The Mitchell County Singing Convention met here Sunday and brought a number of delegates. Owing to the fact that there was not present a sufficient number of classes to constitute a quorum, there was no contest singing. By common consent the banner was carried back home by the Fairview class, its present holders. To say that the Christian church, where the Convention met, was full, doesn't hint at the audience. It was more than crowded; worse than packed; tighter wedged than jammed—it was literally rained full of people, and more wanting to get in. Had there been heating facilities in the tabernacle, the crowd would have made a good show-up, even in that vast auditorium.

The singing was a treat to all who attended. As usual, Mr. George Goodwin was the presiding genius in general, who, by the way, is an entire singing convention within himself. He loves music, for the sake of the melody that is in him, and delights in giving pleasure to others. All the singing was good, but the feature that seemed to take the appreciation of the audience was the singing of four little girls from Fairview, with Mr. Goodwin assisting. The next convention, we understand, will also be held at Colorado, and arguing from the success of this one, it will prove even a greater treat than the convention just passed. Let us not forget the date, the first Sunday in May, and give them a royal welcome and hearty co-operation.

THE CAUSE OF COLDS

Food Advice Regarding the Prevention of Coughs and Colds.

If people would only fortify and strengthen the system, the majority of cases of coughs, colds and pneumonia might be avoided. These troubles are frequently due to weakness, which produces a catarrhal condition of the mucous membrane, which is an internal skin of the body. When this skin is weakened it becomes easily infected with germs which cause many of the diseases to which flesh is heir. Healthy mucous membranes are essential safeguards of the body's general health.

An excellent aid in the prevention of coughs, colds, pneumonia, and such like infectious diseases, is a remedy that will prevent or cure catarrh.

We have a remedy which we honestly believe to be unsurpassed in excellence for the prevention of coughs, colds and all catarrhal conditions. It is the prescription of a famous physician, who has an enviable reputation through the use of this formula. We promise to make no charge for the medicine should it fail to do as we claim. We urge everybody who has need of such a medicine to try Rexall Mucu-Tone.

It stands to reason that we could not afford to make such statements and give our own personal guarantee to this remedy if we were not prepared to prove the reasonableness of our claim in every particular, and we see no reason why anyone should hesitate to accept our offer and try it. We have two sizes of Rexall Mucu-Tone, prices 50 cents and \$1.00. Sometimes a 50 cent bottle is sufficient to give marked relief. As a general thing the most chronic case is relieved with an average of three large bottles. You can obtain Rexall Remedies in Colorado only at our store, The Rex all Store, The Colorado Drug Co.

IN MEMORIAM.

Mrs. Elizabeth Clarke, the wife of J. W. Clarke, and mother of Mrs. N. J. Phenix, left the walks of life on the 27th of January, at the home of her daughter.

Her father was one of the pioneers of Texas and fought with Houston at the battle of San Jacinto. Mrs. Clarke was born June 26, 1843, and in 1860 was married to Mr. John W. Clarke in Centerville, Leon county, Texas.

When young she gave her life to Christ, uniting with the Baptist church. She was a member of the Daughters of the Confederacy.

Several years ago her health failed and her devoted husband and she, left their home in one of New Mexico's good valleys, to travel from place to place, hoping to restore her accustomed health.

She was a devoted wife, an affectionate and careful mother. Then to the stricken husband and a circle of relatives and friends, we would say: "That ye sorrow not, even as others which have no hope; for if we believe that Jesus died and rose again, even so them also which sleep in Jesus, will God bring with him."

The funeral service was conducted by pastor Holmes Nichols, and she was laid to rest in the Odd Fellows cemetery.

Her body but sleepeth, awaiting the coming of the Lord. Be ye also ready for in such an hour as ye think not, the Son of man cometh.

CLASSIFIED ADS.

Rates:—Ads in this column will be inserted at 5 cents a line, but no ad less than 25 cents per week. They must be paid for, cash in advance, as we cannot open up an account of 25c and have the trouble of carrying it on our books and collecting. No ads taken over the phone unless money is sent, or the advertiser has an account with us. We have been forced to make this rule and will treat all alike. Articles found and left here to be called for, will be held until the ad is paid-for. If you have an ad you want inserted in this column, write it out plainly, send it in with 25c for each week that you want it to appear—don't phone it in, as there is liability of mistakes. These ads get results every time.

Many Thanks.

To those who have been buying the Saturday Evening Post from me offer my thanks. While I did not win the Shetland pony, I was awarded a handsome cash prize, and have won two State championship prizes, and have been promoted to a district agent. For all of this I am indebted to my customers, and again I thank you for your patronage. I have signed a contract to sell the Post for this year, and I am going to try to beat the record. I am sure all my old customers will stay with me, and I am making a big effort to get one hundred more. See the ad in this issue of the record about the new story which commences this week. Please me your order and I'll deliver the Post or Ladies' Home Journal to you every week. STANSEL WHIPKEY.

No. 8

TRADE MARK

L

LEGGETT & PLATT
CARTHAGE, MISSOURI.

The above cut is an exact reproduction of the BLACK TIN TAG found only on the original LEGGETT & PLATT patented single cone noiseless spring beds. This line is positively limited more than any other line of single cone spring beds on the market. Why—because the idea of its construction is and has been for the past twenty years universally known to be the best. Compare the temper, workmanship and finish with that of the imitators. See that your spring bears the Black Tin Tag.
