### THE NEW TOWN OF BURNHAM

A Visit to the Upper Brazos Valley and Its Future Principal City.

"Ye who listen with credulity to the whispers of fancy; who pursue with eagerness the phantoms of hope; who expect that age will perform the promises of youth, and that the deficiencies of today will be supplied by the morrow," attend to the story of the land opportunity and the Aladdin-like city of the Plains:

In the southeast corner of Garza county on a bench springing from the bank level of the Brazos river, where its sinuous course follows the mighty sweep of the cap rock of the south plateau, the Santa Fe Railway, after avoiding this frowning barrier, crosses the river on bridge and embankment, and stretches almost without a curve across twenty miles of a veritable oasis, to mount the cap rock of the great Llano Estacado, three miles beyond that creation of the Magician—Money, known as Post City.

Just at a point where this mighty artery of commerce comes to grade level north of the Brazos river, the town of Burnham is located. No more enchanting spot could have been selected; no point on the line of railroad between Snyder and Post City could offer greater advantages for perfect sanitation, ease of access or productiveness, than does this. It surely was with a prophetic eye the promoters, looking down the years, when this entire valley of the Brazos shall be covered with farms as the waters cover the sea, appreciated the importance of this site. Rising in mute and solemn grandeur to the south, the towering cap rock, bedecked with its kaleidoscopic mingling of mineral earth, var-hued stone, mountain cedar and carpet of a thousand kinds of wild flowers, sweeping up from the valley almost to the summit, affords a magnificent background and perspective to the growing town; while to the west and north, the undulating prairies, dressed in billowing green, stretch onward and outward, till they meet the horizon. What more ideal conditions and physical environment for a home. What more inviting field for the farmer and investor? What greater opportunity for stout hearts, willing hands and clear brains to achieve long life, happiness and prosperity?

The Brazos Valley Townsite Company owns six sections of the finest farming lands to be found in all this magnificent domain, contiguous to the railroad, and within quick and easy access to the town of Burnham. This Company has platted the townsite at what is universally conceded to be the most advantageous point on the railroad where it enters the valley. These lots will be sold at the uniform price of \$75.00, to be paid in installments. When all the lots have been disposed of, a day will be fixed for the opening. Before the distribution takes place, the entire townsite will be deeded to a number of trustees, selected by the holders of certificates of purchase, who shall determine the plan of distribution in harmony with the provisions of the laws of the State of Texas.

Besides the business and resident lots, the proprietors have included several parcels of the finest farm land in the distribution, ranging from five to 320 acres, and in addition to the certainty of getting a lot, each participant stands equal chance of securing a farm. The proprietors have agreed to pay \$6,400 for the 320 acres.

It requires no seer to predict the marvelous development that will occur in this valley within the next five years. The influx that has followed the building of every railroad in Texas, will not only be repeated along this line of the branch of the Santa Fe, but where ten years ago hundreds came thousands will rush into the magnificent empire thus opened and the settling of some portions of Oklahoma in a night, will find a counterpart in the rich valley of the upper Brazos. Nature has been prodigal in her blessing on this section. Not only does the land lay ideally; not alone is it of surpassing fertility; but the valley presents every class of soil to which the crops possible to be raised in this latitude, are adapted or indigenous. When the country within a radius of ten miles of Burnham is as thickly populated as central Texas, it will support a city of ten thousand population. As an evidence of the strength and fertility of the soil

around Burnham, it may be said in passing, that the mesquite and cat-claw here attain size and thrift, not even dreamed of, by people who think they have "seen Texas."

Like a sapphire in an emerald field, the townsite of Burnham occupies the coign of vantage, from which can be seen the mighty sweep of the surrounding prairies. "No pent-up Utica contracts its powers," but with the same indomitable spirit and confidence with which the town's promoters saw its greatness in the future years, they will make every achievement a stepping stone to the ultimate accomplishment of the town's inevitable destiny—the Queen City of the Brazos Valley.

Would it not be something to share in this achievement? To have your name associated with the founding, building and prosperity of such a city, and have a part in all the hopes, development and final success? Truly it is a commendable ambition, and the proposition is one that appeals to the highest and best instincts of a man. One fortunate investment here may in a few years represent more than the aggregate savings of a lifetime of the average man. Either for a home or an investment, no other place can offer so much, with such certainty, and so reasonable a price.

The proprietors of Burnham townsite are making no "something for nothing" appeals to the sucker or the weak. They had rather sell their property at the lowest possible price to men of business acumen and energetic action, than to dispose of the whole plat at three times the price asked to those who would acquire it solely for speculative purposes. The ambition and purpose of the promoters of this town, is to found a town upon the bed rock of all business success in Texas—agriculture. To this end they desire to not only have responsible merchants, tradesmen and professional men buy and permanently locate in the town of Burnham, but are likewise inducing the immigration and location of the very best class of small farmers. Aside from the townsite proposition, they own a great body of the finest farming land immediately surrounding the town, which they are offering to industrious farmers at exceedingly reasonable figures.

The promotion of this townsite is no experiment with the Brazos Valley Townsite Company. For the past ten years they have dealt exclusively in Texas realty. Their judgment both as to the quality of land and the natural tendency of immigration and commerce is almost an instinct. They have also promoted some of the most successful townsites in West Texas, and never has their judgment as to the investment been found at fault.

Already the town is not only on the map, but is making a noise. A first class store-house containing a stock of goods worth at least \$15,000 is completed and enjoying a good trade. A large two-story hotel is in course of construction, and when completed will afford a service equal to that of any inland town. In addition to these improvements the whole plat is being grubbed and otherwise improved. A contract was let last week for another business house to be completed as quickly as the material could be gotten on the ground.

Last week two automobiles of prospectors were taken up by one of the promoters. They visited not only Burnham, but other places as well. After going over the contiguous country, they were a unit in their opinion of the outlook for the new town. We are informed that several of them made investments on sight, while some said they would wait a bit. But one and all were surprised at what they saw and heard. The prospect exceeded their most sanguine imaginations.

### The Country's Mineral Prospects.

Within two and a half miles of the town of Burnham is a mine of mineral wealth. Cropping from the bluffs of the cap rock are remarkable showings of copper with gold and lead combinations. The presence of these proves that a "mother lode" must exist somewhere. A quantity of surface deposits was sent to the state mineralogist at Austin for analysis and his report showed more than 7 per cent copper to the ton. He said that if like deposits existed in sufficient quantities and transportation facilities were good that it would prove valuable. Others who have had experience in the mines of Alaska have examined the showing here and express themselves as very hopeful that

HENRY FREDRICK EDSON, Singer.

### Henry Fredrick Edson.

The music for the revival meeting being conducted by Rev. W. E. Lyon at the Methodist church, is under the direction of Mr. Henry Fredrick Edson of Fort Worth. He is director of music of the First Methodist church of that city, and has had many years experience in evangelistic singing. Aside from a singular fitness for his specialty, he possesses a personality genial and attractive. The increasing congregations since he came best attest his appreciation by the public. If you have not been attending these services, be sure to begin today; aside from the spiritual help of the sermon, the singing will prove an inspiration.

### The Bathing Club.

For two years the Record cried aloud and long for a public bathhouse on the rocks just west of the south bridge; but apparently, no one thought the town was quite ready for such ultra fashionable stunts as taking a regular bath. But something has occurred; the younger fry have organized a bathing club, built a bath house and have secured more than fifty members. The "jining" fee is fifty cents, and every member must furnish an individual suit.

In this connection we remark that in this country, the majority of the men and but very few women can swim. If they should get into deep water they must inevitably drown. You can hardly pick up a paper without seeing an account of someone drowning because of inability to swim. If the bathing club accomplishes no further benefit than the opportunity for the boys learning to swim, it will not have been organized in vain.

### T. J. O'DONNELL'S PLATFORM.

Some time ago in making my announcement to the voters of this the 101 Representative District, as a candidate for Representative in the 32nd Legislative assembly, I promised them at a later date that I would submit a platform, giving my views of the needs of this district as well as the legislative needs of the State of Texas.

I therefore respectfully submit the following declaration of principles, and shall at all times labor that the same may be carried into effect should I be elected.

I stand for Simon pure Democracy; which teaches that the majority rule.

I believe in, and favor the fullest industrial and agricultural development of the State comprised within this legislative district.

I believe in the submission of an amendment to the constitution of the State giving the voters a chance to vote on statewide prohibition.

I believe in giving the newspapers of the state the right to trade advertising space for transportation.

I believe in more experimental stations for west Texas, that agricultural methods may be improved.

I believe in the employe's compensation law.

I believe in the humane treatment of the unfortunates who are confined in the state penitentiary, and am opposed to the lease system of state convicts.

I believe in a liberal pension for the Confederate soldier, as a patriotic duty of the State of Texas.

I believe in an income tax amendment to the federal constitution.

I believe in liberal appropriations for the state educational institutions.

I believe in the modification of such laws that are not in harmony with a progressive spirit and tend to retard the growth of the state.

I believe in the state staying out of business enterprises.

I believe in being "conservative, yet progressive."

My motto is: "Stand up for Texas."

### An Irrigation Plant.

Dr. N. J. Phenix has turned his attention to irrigation with an energy and on a scale that can not fail to insure success. He owns about fifteen acres of land up the river above the old race track, which are ideally adapted to irrigation. A gasoline engine and pump have already been installed and he is now awaiting the arrival of the distribution pipes to put them in. The source of supply of the water, is the great hole in the Colorado river, which rarely ever dries completely. This is in the nature of an experiment, with the doctor, but if he meets with the success everyone predicts, it will doubtless mark the beginning of a new era of farming in this county.

What is termed as the South African method of irrigation is receiving a great deal of attention just now in Southwest Texas. The method consists of nothing else than the storage of rainwater for future use. So far no efforts have been made in these parts to do this, although the opportunity presented is said to be a very great one. All over Southwest Texas there are river beds which are filled to overflowing during the rains, but which carry little or no water a few days afterwards. To dam these beds up and use the water in the intervals between rains is now proposed. Reservoirs of that kind can be constructed at very low cost, consisting as they do of only some kind of substantial core and earth. The core will be built of stone wherever this material can be had and wood will be used where this becomes necessary. After the dam is built it is planted with grass and brush forming a good network of roots; all danger from erosion during heavy rains being thus eliminated.

### Failed in Health

"My mother died six years ago," writes Miss Ruth Ward, of Jerseyville, Ill., "and left me to care for six children. I had never been strong; and this, with the shock of her death, was too much for me. "I failed in health. I was tired all the time and did not want to go anywhere, nor care for company. I had the headache all the time and such bearing-down pains. "A very dear friend advised me to take Cardui, as it had done her so much good, so I commenced to use it and now I am in good health."

County Clerk Jesse Bullock then submitted his quarterly report, also his report from the finance ledger, which were approved.

Penn Bridge Co., \$5,988 complete.  
El Paso Bridge Co., \$6,925 complete.

Said above bids being considered each and every one of said bids were rejected and bidders requested to make a second bid, whereupon as per request said second bids were received and as the first named bids they were in all things rejected.

The M. S. Hasie Co. then submitted their third bid for \$3,800, which was also rejected, nearly one-half of their first bid. The Penn Co. then submitted a bid for \$3,700, \$2,238 less than their first bid, which was received and accepted and the bridge company gave a \$2,000 bond to have the bridge completed according to contract by September 1, 1910.

These bridges are to be, one on South Champion on the Colorado and Robert Lee road. One on North Champion on the Loraine and Silver road.

## NOTICE TO THE PUBLIC.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Record will be gladly corrected upon it being brought to the attention of its publishers.

"Great is Mitchell County, and The Record is its Prophet!"

COLORADO, TEXAS, FRIDAY, MAY 20, 1910

Dwight Llewelling of Dallas, will become a candidate for congress against Jack Beall.

The International & Great Northern Railroad system will be sold by order of the federal court to satisfy the demands of the second and third mortgage holders.

In reproducing a picture of the mausoleum wherein King Edward will be buried, the foreman of the El Paso Herald evidently got the block upside down when the scene was stereotyped. The shadows are fine, but the highlights a "leetle off" don't you think?

At the first election held in the south after the fifteenth amendment had become a law, the only evidence a south Texas negro could furnish that he was twenty-one years old and entitled to vote, was that he had had the seven-year itch three times, and a certificate from a physician that he was then well.

If you receive a copy of the West Texas Magazine, examine it carefully, read every article, and if you can endorse the enterprise, send in your own subscription and let a friend read your copy that he may become acquainted with the efforts of the publishers to exploit the great domain of West Texas on a higher plane than has before been attempted.

When Mr. William Jennings Bryan went to Nebraska City to deliver a lecture in favor of an extra session of the state legislature to adopt the Initiative and referendum, the use of the court house was denied him by the county commissioners. The spokesman of the commissioners gave as his reason for the refusal, "I am not ready to commit political suicide, because Mr. Bryan desires it."

The Jews of Texas will build at Waco an university of which the entire southwest may be proud, as being the only one of its kind in this great empire. Ample funds are at hand to build, equip and run it, besides generous endowments are promised. In this great institution, Waco is more than compensated for the loss of the Texas Christian University.

By holding to his present office, with the enormous power it gives him, to induce special interests to back him in his race for governor, lest they suffer at his hands in the making of rates, he is degrading the office of railroad commissioner and making a state-wide scandal. He should resign the office of railroad commissioner or retire from the race for governor. But Colquitt will do neither.

Preliminary arrangements were entered into at Asheville, N. C., whereby the Southwestern University at Georgetown would be moved to Dallas, and a greater university in the southwest promoted. A tentative contract has been made to this end for fifteen days, pending the meeting of the board of trustees of that institution.

Hon. Frank A. Judkins of Odessa, and candidate for representative of the 101st district, paid this office a pleasant business call Friday of last week. Mr. Judkins is an exceedingly affable gentleman, and talks understandingly of the conditions and needs of west Texas. His grasp of the material needs of this section is comprehensive and his views are sound and conservative. While here he met many of our people whom he very favorably impressed. His speech at the court house Friday night was well received.

It may be all right, but it does not comport with the good old blue-stock, Scotch-covenanting way some of us were raised, to see the gospel of peace and humility brought to people with all the red paint, bold type circus pictures and "certificates of making and keep your 'year' to the ground good" that many modern evangelists

employ. True, it may catch some, but its usually the kind of work that has to be done over. No theatrical venture ever employed more systematic advertising than some evangelists do. They arrange for special editions of the local paper, have pictures made of the converts, "characteristic poses," symposiums of opinion, sketch of the big gun's life, and all the other means of notoriety, that characterize a purely mercenary enterprise; but the central figure in it all—the center around which all this circus-poster endorsement revolves, is the revivalist in propria persona. We can find nowhere in the Book, an endorsement of such methods, but ample rebuke.

Don't take your ear from the ground if you want to hear some encouraging news soon. "What is it?" Oh, we can't tell just yet, but it will be worth waiting to hear.

I don't care who he is, or where he came from or what denomination he represents, it's all one to me if he is trying to do good by preaching to the people to quit their devilment. Even if he has no church at all, and he is talking and acting that which is good to humanity he has my sanction to keep it up.—Sterling City Record.

There are two things, besides the Colorado & Concho railroad, that the Record shall keep harping upon until they materialize or the people rise up and gut this office and ride us out on a rail in full evening suit of tar and feathers. This "Great Torchlight-of-Liberty and Paladium-of-the-Common People's Rights" will never die in peace until we have a court house that will be a credit to the county, and the park kept in perfect trim and verdure. The other chief desire of his heart is a fine sanitarium and thoroughly equipped hospital, where the afflicted and injured of west Texas can come and have their sufferings alleviated. There is no reason why a celebrated institution of this kind cannot be supported here as in any other state.

## The Stayers.

West Texas has never been a congenial habitat for the quitter and weakling. The men who have grown wealthy and waxed fat, are they who had the courage of their convictions; who looked upon the land, saw that it was good, and drove deep their traps to 'stoy pit.' Almost without exception, the men who own west Texas today and best understand its conditions and needs, are the men who came to stay, who were determined to take, hold and subdue the country—accepting the sand storms, droughts and blizzards with the verdant pastures and bountiful crops.

## The County's Fiscal Condition.

The Record wishes to compliment the present members of the Commissioners' Court of Mitchell county. During the past two years they have handled the business of the people with fidelity and ability. There are now on hand more than \$10,000 in cool cash; \$4,000 to the credit of the jury fund; school bonds \$1,000; permanent school fund \$7,856—total assets \$23,286.07. During their administration, \$25,000 of the county's indebtedness has been liquidated. At the present tax levy and taxable valuation, with a like economical policy, the county will be free of debt within three or four more years.

As to the county court house, the Record has seen "a great light," and has been converted as effectually and with as sound reason as Saul of Tarsus on his Damascus trip. We will have a few remarks to that effect in next week's issue.

The Record has been asked regularly twice a day the past month: "How about the railroad?" All we can afford to tell just now is—Did you see that carload of scrapers being hauled out this week? Do like we tell you, pictures and "certificates of making and keep your 'year' to the ground good" a trifle longer; not to the gas pipe.

## Mrs. Knight of Bellview.

A dozen or more things are recommended to cure constipation, and for five years Mrs. Knight of Bellview, Tenn., tried them all. She was almost in despair when Dr. Caldwell's Syrup Pepsin was recommended to her. She took it and was immediately relieved. She continued with it and was permanently cured. It will cure anyone of constipation or any stomach, liver or bowel trouble. It is absolutely guaranteed to do what is claimed, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg., Monticello, Ill. It is sold by all druggists at 50c and -1 a bottle.

At the Bankers' Convention recently held at El Paso, a paper was read by J. T. Tolbert, of the New York City National Bank, in which he declared that the present day tendency to extravagance, was a menace to the nation. This tendency was shown by the application for loans by the banks. He asserted that automobiles have a great deal to do with the high cost of living and deplored the fact that many borrowed money with which to buy machines.

When the plans had been formulated for the publication of the West Texas Magazine, prospect were sent to a number of former citizens of Mitchell county, soliciting their approval of the enterprise, if not their support. Among the first to respond was Col. A. B. Robertson, of Fort Worth, who not only heartily approved the venture, but sent ten subscriptions also. Among other things, he said: "The enterprise is a laudable one; much can be said in favor of that country, and for its advantages, which, if made known to the right people, the country should become densely populated in a few years. I wish you great success in the undertaking."

## Change in Business.

John Lovelady and son Audrey, have purchased the business of the Colorado Cold Storage company, and are now in charge. Mr. Lovelady has for years been one of the largest and most successful cattlemen of west Texas and what he doesn't know about a steer isn't worth putting in the book. With two such judges and buyers of cattle as Uncle John and Audrey in the field, this market can be depended upon to get the best that's to be found. They have large pasturage near town where they feed whatever stock they buy.

They have secured the services of the "old reliable" H. D. Gilbert, who will have direct supervision of the market, which is a guarantee of both efficiency and straight dealing. Give the new firm a chance to show you.

## A Growing Business.

The Record has been aware all along that G. B. Harness was doing a "land office" business in the line of abstracting and insurance, but little realized its real volume. Being in his office this week and seeing a pile of bulky, financial looking and jacketed documents, we inquired what they were. "Abstracts—all abstracts" was Mr. Harness' reply. Many of them related to the O'Keef land. Mr. Harness is recognized as an expert in both the abstract and insurance lines.

The millinery establishment of Mrs. Jas. DeMoss keeps abreast of the demands of the most particular and ultra-fashionable. As a special feature of the business, an expert tailors from Denver, Colorado, has been secured and hereafter the ladies and misses of Colorado will have the same facilities for having tailor made suits as those enjoy who live in the larger cities.

Mrs. Bodell comes with the highest endorsements and recommendations as an artist and skilled operator in her line. She knows the dictates of Dame Fashion in her most fastidious tastes; and makes a special study of every customer. She will arrive sometime next week and be a permanent feature of the business of Mrs. Jas. DeMoss, having charge of the dress making department. Colorado is indeed fortunate in securing such an institution, and the Record predicts a tremendous business in this new line of business. ## OBITUARY.

S. Edwin J. Crockett was born in Marshall county, Miss., August 1, 1865. He had a twin brother, and they having been born about the close of the civil war, the parents conceived the idea of naming them for two of the generals; hence Samuel Edwin Johnson was the full name of the deceased and the other brother was named for Gen. Lee. His twin brother lives in Arkansas.

The love and affection of the twin brothers was very marked and beautiful.

It so happened in their lives that they were not separated very long at a time. The deceased spoke very tenderly with reference to his twin brother just a few days before his death, saying in substance, "If my time has come to go, I wish I could see my brother and impress upon him the importance of making the necessary preparation for the future life."

There are also some striking incidents connected with the life of the deceased and that of his brother, W. B. Crockett, in whose home he died.

Soon after the birth of the twin brothers, the mother had a long spell of sickness and the little ones had to be fed on artificial food, so it fell to the lot of W. B. to care for Ed. Night after night and day after day he looked after and fed his infant brother, caring for him with the tenderness of a mother. And it so happened that his brother W. B., had the pleasure of caring for him again during the closing days of his life, and it was with tender, loving hands that his brother and wife did all that could be done to make his last days pleasant.

The deceased was hopeful and seemed anxious to live, but the time had come when his Father called. He obeyed the summons and slipped peacefully away on the morning of April the 30th, 1910.

The funeral services were conducted in the residence of his brother on Sunday morning, May 1st, by the writer, assisted by Rev. Holmes Nichols of the Baptist church.

The floral offerings which were placed upon the casket as it rested in the center of the parlor, were marked evidences of the many sympathizing friends of the bereaved family and the deceased.

After the services in the home the remains were followed to the cemetery by a large number of sympathizing friends and neighbors and deposited in

the last resting place to await the resurrection call.

The deceased was twice married. To the first union were born two children, W. B. Crockett, Jr. and Winnie Davis Crockett, hence he leaves behind as his immediate family two children and four brothers. The prime cause of his early death was pneumonia, the last attack which carried him away being the sixth attack.

The writer was with him frequently during his last days and hours, and talked freely to him with reference to the future, and can gladly say that the way was clear. He told us just the evening before his death, that there was not a cloud between him and his hope of heaven.

So I would say to his children, brothers and friends, see to it that you so live as to be able to meet and grapple with the last enemy as he was.

No more appropriate words can express the attitude of the deceased when his feet touched the chilly waters of death than the following: "Sustained and smoothed by an unflinching trust, he approached the grave like one that wraps the drapery of his couch about him and lies down to pleasant dreams."

Young man, if you are contemplating entering commercial life, qualify yourself by attending Roberts Business College.

Why not attend Roberts Business College and prepare yourself for one of those good positions they guarantee?

The business of the Colorado Cold Storage Co. was sold last week to Mr. John W. Lovelady, who assumed possession on Monday. The immediate management will be under the direction of his son Audrey.

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice, thereby inducing good digestion. Sold by all druggists.

Never hesitate about giving Chamberlain's Cough Remedy to children. It contains no opium or other narcotics and can be given with implicit confidence. As a quick cure for coughs and colds to which children are susceptible, it is unsurpassed. Sold by all druggists.

J. W. Neff, formerly president of the State Farmers' Union, was here last Friday, for the purpose of conducting a farmers' institute. The matter has been extensively advertised, the speaker was here, but from some fly in the ointment, the meeting failed to materialize. Mr. G. L. Wallace, acting secretary of the commercial club, informs us that quite a number—thirty at least—joined the institute. Neither the president or secretary of the former institute was on hand. We hope for better luck next time.

Fifty-two scholarships enrolled during the first week is the record of the Roberts Business College in this city.

The closing exercises of the school at Herbert, under the administration of Prof. J. M. Hood, occurred Saturday, and quite a number of Colorado people (mostly candidates) attended. They report an entertaining program ample to eat, an ingenious welcome and some earnest electioneering.

A touch of rheumatism, or a twinge of neuralgia, whatever the trouble is, Chamberlain's Liniment drives away the pain at once and cures the complaint quickly. First application gives relief. Sold by all druggists.

The Western Trade Exchange is not only doing business, but its business has gotten too big for its britches, and is having a larger and better fitting pair made. The corner room of the Chas. Lasky block has been leased and as soon as it can be remodeled and fitted up for the business of the exchange, it will be occupied. The Record rejoices to note the success of any man or any laudable business. Manager Wallace has by close and faithful attention to the details and small features, built up a large and lucrative business.

In the last few days the Roberts Business College has had four calls for office help, one of these was placed in Big Springs at \$100 per month and two at Sweetwater at \$60, and one at Hamlin at \$75 per month. Young people hadn't you better prepare yourself for one of these positions? There are plenty of them waiting for you.

Let Roberts Business College prepare you to battle with the commercial world.

Now, that the public schools are closing, quite a number are taking out their scholarships in the Roberts Business College with a view of preparing themselves for the commercial world.

During the present week, the Methodist meeting has been continued. Mr. Edson of Fort Worth, is here and has charge of the singing. Prayer meeting for the men is being held in the Shepherd building, chairs and an organ have been placed in the hall. At 10 o'clock each morning services are held there. Interest in the meeting is growing, and while the visible results are not such as Pastor Lyon would wish, the net results of the two weeks' services have exceeded his expectations in reviving the church, and deepening the work of grace in the hearts of all who have attended and taken part.

If you have a son or daughter, don't send them off to some commercial school. Right here in Colorado is a good business college as can be found in the state. Its guarantee is not so strong on getting the student a job, as in qualifying him to hold it—to make good.

D. S. Kirk, wife and son left Monday night for Fayetteville, Ark., to visit his mother whom he has not seen since he was twelve years of age. They will be gone about three weeks.

**Deafness Cannot Be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. Fine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

### LIKE FISH!

Harry Landers and J. C. McCreeless received from the government fish hatchery at San Marcos, Texas, this week, quite a number of young bass, which they will put in suitable tanks on the Landers ranch and at Union. These tanks are fed by living water and are free from cat and carp. The Record is glad to see this move on the part of citizens to appropriate the things which the federal government has gone to so much expense to procure for them, and wishes more of them would avail themselves of everything adapted to this section in the line of agriculture and stock raising. The Record will keep track of the progress of these fish colonies and borrow a hook and line against the time they are "fitten."

### HOME ENDORSEMENT.

Hundreds of Colorado Citizens Can Tell You All About It.

Home endorsement, the public expression of Colorado people, should be evidence beyond dispute for every Colorado reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far away places. Read the following:

Miss Jennie Hooks, Colorado, Texas, says: "Doan's Kidney Pills lived up to reputations in my case. I suffered severely from pains through my kidneys. I had but little control over the kidney secretions and the pains through my back caused me intense misery. Reading about Doan's Kidney Pills and the beneficial results that had followed their use in similar cases, I was led to try them. They removed the pains and soreness across my back and strengthened my kidneys. I am glad to acknowledge it to others persons suffering from kidney complaint."

# THE GAME IS ON

Base ball from now until the wintry winds; Speedier than ever grows the energy of the players; more interesting than ever grows the game, and so it is with this furniture store. Each sale is a game by its self.

Line up as follows:

- Catcher, Ostermoor Mattress
- Pitcher Gurney Refrigerator
- 1st B Free Sewing Machine
- 2nd B New Home Sewing Machine
- 3rd B Standard Sewing Machine
- S. S. Ruby Sewing Machine
- Rf Couch Hammock
- Lf Couch Hammock
- Cf Couch Hammock
- Umpire Mitchell County
- Captain **J. H. GREENE**

This team vs. all teams in competition. Results given below. The most interesting part of the game is to watch the catcher put 'em to sleep, the spectators and rooters make 'em mad. The pitcher quietly cools 'em down to play again.

The first man up tries a little safe hit, but nothing doing for these basemen and that short stop sew him up now.

They next try the field, but with the same result, for the fielders are already to swing anything that come their way, so its three up and three down.

When we come to the bat it looks like a race track, our Ruby is first up, who make first on a safe, the New Home gets a two bagger, The Standard makes third by a good run, at the rate of 4000 stitches per minute (her record.) Then the Free Sewing Machine comes to the bat and makes a home run.

The other teams give up and the result is 4 to 0. Four runs and no errors.

### JOHNSON CLUB ORGANIZED.

Much Enthusiasm Evincied for the People's Favorite.

Hon. Cone Johnson.

Colorado, Tex., May 14, 1910.

To the Record:

After a call duly issued, prohibition democrats from all parts of Mitchell county met at the court house in Colorado, on this date, for the purpose of organizing a Mitchell County Cone Johnson club.

Reports were received from various precincts in the county of a very encouraging nature, it being stated that every voter in some communities is for Johnson, and the general belief prevailed that Mr. Johnson would carry this county by an overwhelming majority.

Funds were subscribed and arrangements made for a systematic and thorough canvass of the county.

Judge A. J. Coe was elected president of the club and Ed W. Smith was elected secretary, and the following resolutions were unanimously adopted.

"The members of the Mitchell County Cone Johnson Club, composed of the prohibition democrats of Mitchell county, Texas, in mass convention assembled, at Colorado, Texas, on the 14th day of May, 1910, beg leave to submit the following for the consideration of all other democrats within this county and state:

"Whereas, statewide prohibition is the paramount issue now confronting the people of Texas, and rightly so, and will continue to be such until settled, and will not be settled until settled right; and

"Whereas, there can in our opinion be no middle ground upon said question of state wide prohibition, for when it is pursued to its logical conclusion, the truth is, if the sale of intoxicating liquor is wrong in one locality, it is wrong in all others; if it is right in one locality it is right in all others; and

"Whereas, we believe that the open saloon and the sale of whisky is wrong in Mitchell county and in every other locality in the great state of Texas; and

"Whereas, as democrats seeking through the democratic party to secure the abolition of the whiskey traffic in Texas, we propose the doctrine that in order to more certainly secure state wide prohibition in Texas, we favor:

"(1) The submission by the Thirty-second legislature to the voters of Texas a constitutional amendment prohibiting the manufacture and sale of intoxicating liquors within this state. If, however, the Thirty-second Legislature, as did the Thirty-first Legislature, defies the will of the democracy of the state, and refuses to submit said amendment to the sovereign voters of the state, then we favor:

"(2) The enactment by said Thirty-second Legislature of a statute prohibiting the manufacture and sale of intoxicating liquors within this state—in other words, "statutory state wide prohibition," and

"Whereas, we believe that consistency, good faith, and a due regard for the cause of prohibition require all sincere prohibition democrats in Texas to support that candidate for the democratic nomination for governor, whose position in this great question is the most consistent and uncompromising, and in which the saloons can find no hope of compromise or yielding; and

"Whereas, after careful consideration of the platform utterances and personal, political and official records of the various candidates for governor of Texas, we are firmly convinced that the only hope of securing state wide prohibition in Texas, insofar as same may be accomplished through the executive department, lies in the election of the Hon. Cone Johnson, of Tyler, as governor of Texas. In making this broad assertion, we have in mind Mr. Johnson's pure, clean, high-souled integrity of personal, political and moral character, which is so highly commended by the merchants, bankers, professional men, and pastors, and by two thousand other citizens of his home town, and by all honest men who know him well, and which no person has successfully gainsaid. We consider him one of the greatest thinkers and speakers in the state, whose speeches to the voters over the state are making thousands of votes for prohibition in Texas; therefore,

"Be it resolved, that we cheerfully enter into this campaign for prohibition and for its greatest advocate and exemplar, the Hon. Cone Johnson, and hereby pledge ourselves to use every honorable effort to secure his nomination for governor in the democratic primaries on July 23rd, 1910."

A. J. COE.

President Mitchell County Cone Johnson Club.

ED. W. SMITH,  
Secretary.

#### Class Entertained.

There can be no sweeter theme than the class of 1910, Colorado High School, in honor of whom on Wednesday evening Dr. and Mrs. Phenix threw open their doors and entertained informally.

With the faculty and board of trustees as guests, the hours passed lightly in merry jests and happy predictions for the future of six of Colorado's fairest daughters and two of her typical sons. One feature of the entertainment that added zest to the evening was an original set of puzzles the solution to each being the name of either a teacher or trustee.

After refreshments the guests departed, carrying with them a memory of the class in the brightest mood; amid expressions of hearty good will, and a deeply rooted faith in the boys and girls who, reared in our midst, have rightfully earned our earnestness of expectation for them, and our loyal pride in them; so

"Here's to the class of Naughty-Ten,  
Of lovely girls and honest men!  
Who on the battle ground of life  
Have willing hands for every strife."

Who stand up nobly and with zest,  
Proclaim the honor of C. H. S.  
In them we have no fear of shame  
Of worthy censure nor of blame!  
We give to them our loyal trust,  
For they will conquer or must bust!  
So here's to them, nine rousing rabs  
Of faith and trust—no measly  
pshaws!

They are the mettle strong and great  
Who'll write their names on Fame's  
big slate.

Long may the colors green and white  
Unfurl her standards for the right.

## Beautiful Spanish Dancer Gives Praise to Pe-ru-na.

NERVOUS prostration is usually the result of a vocation which requires a continual strain on the nervous system. In such cases it would be wise if a change of vocation could be made. But this is not always possible and a good tonic becomes a necessity. Peruna is a tonic that invigorates without producing a drug habit.

Peruna is not a beverage nor a bitters, but an honest, straightforward tonic that increases the appetite and encourages digestion. There is a great demand for tonics during the depressing heat of summer, and especially in countries where hot weather is very prevalent. Such a demand is exactly met by Peruna.

Miss Pilar Monterde Praises Peruna as a Tonic.

A letter sent to the Peruna Drug Mfg. Co., from the popular Spanish dancer, Miss Pilar Monterde, is as follows:

Teatro Principal, City of Mexico, Nov. 3, 1905.  
Gentlemen: Having used your justly celebrated remedy, "La Peruna," for some time, I have the pleasure of informing you that I consider it the best tonic I have ever used. It is a wonderful fortifier of the nerves after exhaustion and it increases the vitality of the whole body, and in my own case has produced the most complete and permanent restoration. It is also pleasant to the taste. I do not hesitate, therefore, to recommend this remedy to all women as the best and most pleasant tonic that they can possibly take. Yours very truly,  
Pilar Monterde.

Inspiring them with courage true,  
And strength from God to dare and do!

A large and highly appreciative congregation, composed of the members of all the churches, welcomed Rt. Rev. A. C. His discourse in the morning was a gem of literature, a crystal of thought and a sacrament in its spiritual exaltation. This writer heard him preach the baccalaureate sermon at the University of Mississippi in 1879.

J. J. Bromley has let the contract for a new residence to be erected at the corner of Grover and West Third streets, the contract being given to Lawrence Kerr, the youngest of the Plainview contractors. Mr. Bromley sold his present home to Dr. C. C. Gidney, of Granger, during his last visit to Plainview.

A postal from Brother Nichols assures us that he is "having a time" in Baltimore, which ambiguous statement can be interpreted according to every reader's idea of that same hilarious experience. He further informs us (in parentheses) that he has "painted the old town, and hit red." But here we draw the veil of inviolable friendship, as he was just leaving for Washington and New York City. His next communication will likely come by wireless.

Bruce Phenix has again done credit to his Alma Mater, and added honor to his home town in winning the medal offered for best cartoon work by Baylor Round Up for 1910. We are justly proud of the boy who in an institution such as Baylor University, carries off the honors so worthily and so well.

Messrs. Sholty, of Daybrook, Ill., who purchased a portion of the old Bush & Tiller ranch, were in Colorado this week. 'Tis needless to say the Record keeps them up-to-the-week on Mitchell county news.

Several of our country letters were unavoidably crowded out this week which we regret very much. When these letters are left out it is because we have no room for them, and not because we do not want to publish them. So we hope our correspondents will continue to write as usual, and we will do our best to make room for the country letters hereafter. We are glad to have these correspondents and hope to get others from the different communities.

A three days picnic for Colorado,--June 30, July 1, and 2nd.

O. M. Mitchell and the Pond boys returned this week from their trip to Mississippi and Alabama.

### The Glorious Rain.

A slow rain fell all day Wednesday and continued into the night. On Thursday morning about 2 o'clock quite a hard shower fell for a few minutes. Reports from over the country show that the rain was general, and did a vast amount of good. Owing to the amount of moisture already in the ground it will not require as much rain as usual to keep the crops going. The rain came in the nick of time, as many were beginning to feel the need of it. Oats were done an immense good as were the gardens and grass.

Arthur Young, a leading attorney and land man of Snyder was a business visitor to Colorado this week.

At a called meeting of the barbecue committee of the Commercial Club, Wednesday afternoon, it was determined, in view of the scarcity of beef and other difficulties, to turn the matter of the blowout over to Mr. G. Russell, clerk of the Woodman Camp at that place gives encouraging accounts of him. He is now able to sleep on his back, and straighten his leg. His improvement from now forward will be more rapid, that the hold of the malady is broken. Everybody who knows Charley Goodwin will rejoice at this news.
