DRY SPELL COMPARED WITH 1886.

Old Timer (tells the Present Drouth a Picnic Compared to One of the Early Days.

The following reminiscence from the Taylor County News so nearly reflects the condition that obtained in this county at that time, that it may be of interest to many who take fright at every dry spell that ambles down the pike. Colorado was not such a sufferer from the dust at that time as Abilene. Colorado had tried to jump upon the map full panopied, as Mission sprang from the head of Jove. A water system equal to the needs of a city of 25,000 and a street car line were among the most immediate improvements the ambitious city of Colorado indulged. Otherwise, the parallel runs true:

"We are only happy by comparison, and it would be well to know the conditions and prevalence of the drouth 1886-87 to really minimize the situation of the present time. In 1886 Abilene had possibly 2,500 3,000 population. No farming or gardening to any extent was engaged. A few men in the country, mostly calloused fellows, were tickling ground and it smiled at their folly. The stockman was monarch of all surveyed and the sheepman hid and in secluded places, free grassing the prevalent law of the coun-

The intensity of the drouth of 1886 caused to dispel all hope that a tery so far west, which the stockmen was only fit for cattle purposes. prairie dogs, would ever be de into an agricultural section. A young city at this time had no works, the supply being obtained from a few cisterns and hauled by water wagons. In consequence there were no shade trees or berry, no green leaves and no effort pretense to have inviting and best premises. The failure to get consecutive months dried the dissected the leaves of the trees, including the mesquite, which is generally a salamander was so thick in the streets that only a case of extreme ne that would cause one to ven-

IVY'S SHORTEST CATECHISM ON SUBMISSION AND PEOPLE RULE.

Ques. 1.—Will the democrats of Texas vote in their primary July 23 on state-wide prohibition?

Ans.—No, they will not.

Ques. 2.—Then, what is it concerning the saloon they will vote on?

Ans.—Simply for or against submission—that is for or against letting all the people say, by general vote in a special election in 1911, whether the saloons, now in Texas shall stay or go?

Ques. 3.—What will be the effect of a vote against submission?

Ans.—It will be in effect to say to the people: "You shall not have a chance to tell the legislature whether you want saloons in Texas or not."

Ques. 4.—Will a real democrat—a man who believes in the reign of the people—cast a ballot that will thus deny to the people a chance to express themselves on the saloon question?

Ans.—I do not believe a real democrat will, Mr. Reader. What do you think about it? Ought not a democrat, though an anti-prohibitionist, be willing to trust the people?

CHAPTER II.

Ques. 1.—Should submission win will the democracy be committed to state-wide prohibition?

Ans.—Certainly not, because state-wide prohibition will not be voted on, and the party cannot possibly be committed on a question it does not vote upon.

Ques. 2.—If a majority in the primary should vote against submission will that commit the democracy against the doctrine of submission—against permitting the people to determine by a popular vote a great question vitally affecting their welfare?

Ans.—It certainly will, and will put the party squarely before the world as opposed to allowing the people a chance to express their will on questions of great public interest—against the doctrine of "people rule," which is the very foundation stone of democracy.

Ques. 3.—Will real democrats vote to thus put the party on record in direct conflict with its cardinal tenet?

Ans.—No, I think not, but thousands who are not democrats are threatening to come into this primary and vote against submission in order to force the democratic party to give an undemocratic expression on the liquor question. This is a natural thing for the enemies of the democratic party to do.

Ques. 4.—Will real democrats stand by and permit interloping enemies of the party to sneak in and commit the party against its vital principles?

Ans.—That remains to be seen, Mr. Democrat. Will you do your part to prevent such a calamity to the party?

Ques. 5.—What is the duty of every Texas democrat in the premises?

Ans.—First to see that his own ballot is cast in favor of "submission and people rule" and then exert his utmost energies to see that his neighboring fellow democrats do likewise.

Ques. 6.—Who, if anybody, can consistently vote against submission, as demanded by the Texas republican platform?

Ans.—None but republican liquorites, who owe allegiance to the republican party and not to the democratic party, and who are more interested in preserving the liquor traffic than in preserving "government by the people."

FLASH LIGHTS FROM THE DISTRICT CONFERENCE.

Was Colorado represented at the District Conference at Stanton? Indeed she was. We went, we saw, we heard, we conquered and were conquered, we came, and we remember.

We left Colorado on Tuesday evening July 5, and encountered the usual experiences "en route." The car was crowded and the men (not conference delegates however) dozed, and kept their seats while the women of this New South stood up or sat on suit cases, chattered and cast furtive glances at some (k)nightly sleeper.

At last we reached Stanton. We were met at the train by the pastor, Bro. Irwin, and committee, looking as pleased to see us as if we had arrived just after breakfast on a May morning instead of after midnight in July.

A carriage conveyed the writer and party of four to our temporary home where we were cheerily welcomed, and put to bed.

On awakening next morning we ex-

claimed "La! a garden; a real garden full of beans, potatoes, cucumbers and white cabbage, with other congenial companions." Before our wonder had expended itself a knock at our door met with the usual response and we were invited into the orchard. O, the memory of that orchard! In the center was a willow bordered fish pond while surrounding it were grape vines groaning under their weight of luscious fruit. Peaches were there in profusion; yes, and plums too. We were left there with the gratifying injunction, "eat, drink and be merry" two of which we at once proceeded to do.

The good Baptists of Stanton had rendered to the women the use of their pretty little church for the joint session of the Home Missionary and Foreign Missionary Societies. About 8.30 Wednesday morning, Mr. Harris of Stanton, who was indeed a faithful servant of the District Conference, called for those of our home and took us to the church in his carriage.

After devotions, opened by Mrs. Westerman of Big Springs, the Conference was welcomed by Mrs. J. R. Sale in such a cordial and spiritual manner that each visitor felt she was a necessary adjunct and was there on the Lord's business. The beautiful response by Mrs. J. N. Lehman of Sweetwater expressed fully our appreciation. Then came a few minutes social converse during which everybody came to know everybody else. We then went to the Methodist church where we heard a consecration sermon by the dear venerable Bishop Key. Can we ever forget that sermon, or be so bad again? Coming as it did from one upon whose hair has fallen the snows of three decades or more, from one whose record as a servant of God is not blurred by a single reproach, from one whose judgment has ever been wholly reliable, from one whose hope of eternity is so brightly assured, we felt as if an angel had proclaimed the message.

The afternoon session of the Women's Societies was opened with devotions led by Miss Smith, our lovable and loved little conscience from Thurbur. Standing before us in her quiet little bonnet of black, with soft white streamers knotted under her chin, her very attitude and expression was a call to better things. Her consecration shines from her eyes, and sounds in her voice. Her lips seem formed to say only good things.

We wish we could tell you all about the Conference, but space forbids. The Auxiliaries were well represented and gave good reports. The Home Mission Society of Stanton is doing good work. Before leaving there Mrs. Blandford organized a Foreign Missionary Society of twelve members, and gave them their commission.

The Colorado District seems to have abandoned the time-worn method of raising church money by the "festival" plan. The number of tithers has wonderfully increased, and many are following the calendar plan of a penny a day; others raise money by assessments or free-will offerings.

I would like to tell you about Mrs. Perminter, and her "Illustrated Lecture on Press Work," about Mrs. Stevens and her splendid address. "What the Woman's Work is Doing for the World." She further urged us to be social in our work, but not to forget the greater part which is the spiritual part, saying, "the twelve taught of Jesus were worth more to Him than the 5000 fed on a free lunch."

When the annual conference of the Foreign Missionary Societies was divided at Mineral Wells last spring, and we, away out here on the sand-pelted, breeze-fanned plains or rock-ribbed hills of West Texas, were sent away to found a new home for Jesus, we felt a little discouraged, wondering how we would succeed. We no longer worry about that since meeting so many earnest workers in this one little district. We feel that Jesus is with us "to own and to bless."

The joint session of the Women's Home Missionary and the Women's Foreign Missionary Societies will no longer meet in connection with the district conference, owing to the increase in numbers on the part of each organization.

Bro. Shaw is very proud of his district work. Big Springs will entertain the women next year and Colorado the men.

Just before the close of the last session, Miss Omeira Terry, who was in Stanton as delegate from the Juvenile Missionary Society of this place, received a message from Bro. Griswold to come down to the Methodist church.

Roberts Business Colleges

Roberts Business Colleges are the only schools in Texas or in the South that have a man who devotes his entire time to our advertising and employment department. In this active campaign work in the interest of our graduates, we not only secure them positions, but are able, through our constant contract with business men to secure the best paying positions for our students.

ALL THE TIME

We are constantly having students enter our Commercial and Shorthand department, if you are ambitious and wish to increase your earning capacity, if you wish to educate yourself and be something more than what you are, more capable in every way, more helpful to yourself, to your family, to your friends, join our ranks and gratify yourself.

We will Secure you a Good Position.

We have done it for others, we can do the same for you. Think about this and let us help you. Write us or call to see us, or in some other way let your desires be known.

We are Sparing neither Time, Energy Nor Money

Our ambition is to have the greatest business training schools in Texas. You can't make a mistake by entering Roberts Business Colleges.

E. B. Hornuff, Business Mgr. Colorado, Texas.

She went, wondering, hoping, but never fearing, for she felt Bro. Griswold could offer only good things. He wished to present to her a full scholarship in Stamford college. This is quite a compliment which we rejoice to have one of our girls receive.

Mrs. Stevens of Anson proposed that before we adjourn we rise in a vote of thanks to our two District Secretaries, Mesdames Payne and Blandford for the splendid meeting they had made possible for us. She said the state could not boast of any better material than we have in the Colorado District, nor does the state own two more competent leaders. She alluded to the district secretaries as the "power behind the throne."

A consecration service, led by Mrs. Ledger of Westbrook, followed by singing "God be With You" completed the business, and the Fourth Annual District Conference of the Woman's Missionary Societies adjourned with benediction by Bro. Ledger.

We boarded the afternoon train for home glad to get back to husband and child, but happy in tender memories of the conference and of the hospitable people of Stanton.

ROAD BOND ELECTION CARRIES.

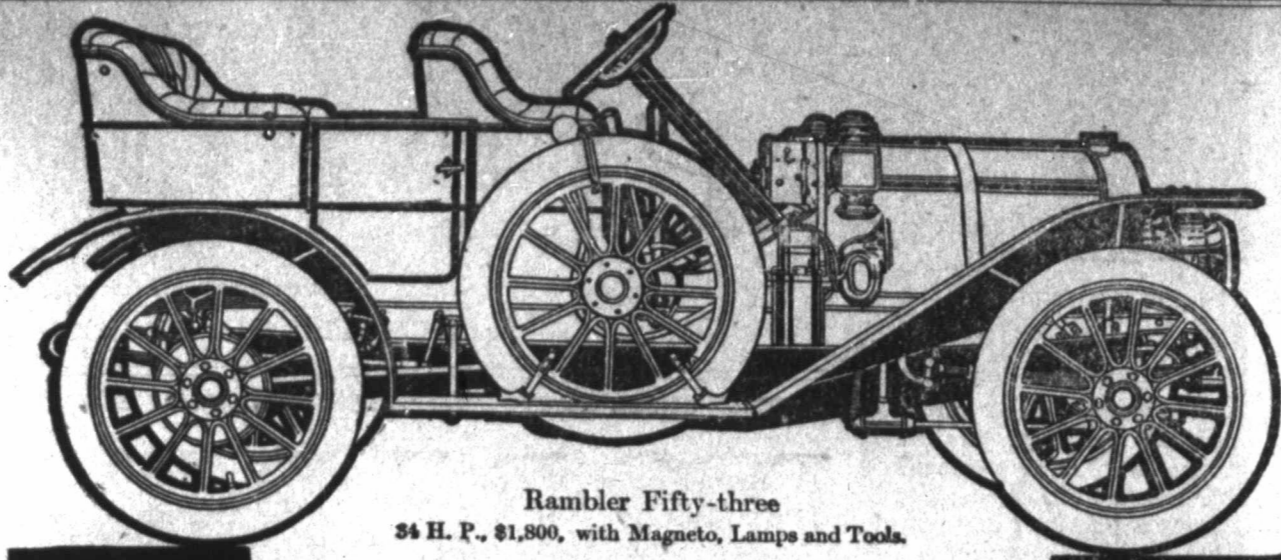

Thirty-Six More Than Two-Thirds Majority in Favor of the Bonds.

The result of the election last Saturday on the issuance of \$30,000 bonds for the purpose of building and improving the public roads of this independent road district, a scope of country approximately ten miles square, with Colorado as the center, was a greater victory than the friends of the enterprise had hoped to achieve. The vote was 184 for to 74 against. Two-thirds majority being necessary to carry, give the bond issue 36 votes to the good.

We recognize the fact that many good citizens of this district are opposed to this measure, not because they fail to appreciate the great advantage of good roads, but from the belief that the measure is at this time inopportune. We fail to get this view of the question. If a measure has any merit of economy at all, the county certainly needs that measure much more in time of depression and short crops, than at a flood tide of prosperity. If good roads are worth anything at all, they are worth more at a time when the farmers can less afford to pay the high toll that had roads have for twenty years exacted.

The payment of these bonds at 5 per cent during a term of forty years, will work a hardship on no one. No one improvement in the constructive line will so increase the value of every acre of land, so decrease the cost and time of internal transportation, as good roads. The voting of this issue of bonds is a long advance step for Mitchell county, and will doubtless mark the beginning of many more improvements. Practically every dollar of this money will go directly back into the hands of the people who pay it. There will not necessarily one dollar be sent out of the county.

On last Tuesday afternoon, the union prayermeeting, an association of ladies of all the churches, celebrated the fiftieth anniversary of its existence, at the residence of Mrs. J. E. Riordan. Quite a goodly number were present and responded in short talks in harmony with the spirit of the occasion, and scriptural quotations on the subject of "Praise." This association was organized by Mrs. Abe Mulkey, in July 1860, and eternity can alone disclose the good that has been done through its instrumentality. May the association survive to celebrate many more anniversaries.

Texas Live Stock

Texas has more live stock than any other state in the union. We have 15,981,000 head of live stock, valued at \$312,857,000 by the Federal Government Agricultural Department on January 1st, 1909. We have four head of live stock per capita. We lead all other states in production of cattle and mules; Illinois and Iowa lead us in horses and we stand third in hogs. To increase the value of our live stock we must raise the grade, improve the market condition and increase the market price.

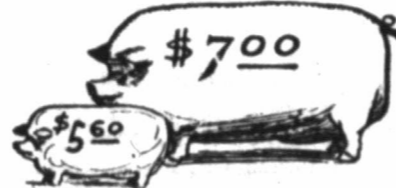

Texas has 1,312,000 head of horses valued at \$93,152,000. The average price of an Illinois horse is \$109 and the average price of a Texas horse is \$71 as shown in the cut below.

"Comparative Value in Texas and Illinois."

This difference in price is largely due to the grade of horses. By improving the grade we can add about \$40,000,000 to live stock values of the state. This is equal to \$10 per capita and would be net money to the farmer as it costs no more to raise a good horse than it does a poor one.

We have 3,304,000 head of hogs valued at \$5.60 per head while Illinois hogs are valued at \$7.00 per head as shown in the cut below.

"Comparative Value in Texas and Illinois."

We have 1,853,000 head of sheep valued at \$2.70 while the Illinois sheep are valued at \$4.80 per head. This difference is due to difference in grade and accessibility to the market. By raising the grade of the live stock of Texas to the Illinois standard we can increase values \$50,000,000 per annum, says the Texas Commercial Secretaries' Association.

The spirit of progress that makes the farmers want better public highways, more factories, more railroads will stimulate them in improving the grade of live stock.

ROBERTS' BUSINESS COLLEGE.

A knowledge of shorthand, type-writing and practical business methods is something that is a positive help to every person in any kind of business. As a stepping stone to higher things, take the case of George B. Cortelyou who, after receiving a training at a New York business college, went to Washington as a stenographer to the president, secretary, first secretary of commerce and labor, secretary of the treasury, and is now head of the great Consolidated Gas company of New York. The Roberts business college will take any pupil and in a short time make a finished stenographer, book-keeper, etc., of him or her. John T. Roberts, the head, has been ten years in this work, and is a Knight Templar, Mason and Shriner. Mr. Roberts has schools at Merkel, Texas, and in Ballinger and Colorado as well. This school has been established six years and has an annual enrollment of 125 pupils. The class rooms are on the east side of the square, over the first National Bank building. E. L. Ouseley, the principal, has been in this work for nine years, having before taught school at Waco, Brownwood and Denison. Positions are secured for pupils within thirty days from graduation.—Fort Worth Record.

Hon. G. C. Rankin, Washington, D. C.

Men in high life, who are at a constant nervous tension, soon suffer from indigestion. Hon. George C. Rankin formerly of Monmouth, Ill., now holding a high position with the government at Washington, became afflicted in that way. He wants it known that he cured himself with Dr. Caldwell's Syrup Pepsin, and recommends it to others similarly afflicted. It is absolutely guaranteed to do what is claimed, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg., Monticello, Ill. It is sold by all druggists at 50c and \$1 a bottle.

RAMBLER WINS IN DENVER.

In the Denver Endurance Contest, Rambler Fifty-Four won with perfect road score and only two points against it after technical examination. The contest covered seven hundred and twenty-four miles over the worst roads in Colorado. The Rambler, which competed with twenty well known, high-priced cars and won with a perfect road score, is ready to start on another such trip.

LORRAINE LETTER

Mr. and Mrs. J. C. Helm and others from Loraine who have been attending the Normal at Snyder, are home again.

Mrs. H. M. Perry and children came in Saturday night from Tyler. They were accompanied by Mrs. Perry's sister, Mrs. Holloway of Corsicana. Mrs. Perry also attended a normal at Corsicana.

Mrs. Alonzo Phillips came in from Houston Saturday, where she has been attending a normal and visiting friends. All of our teachers have attended a normal at some place this summer, thus more thoroughly qualifying themselves for their duties as teachers.

A. C. Hewgler of Brownwood, Miss Isophine Tolar, Mr. C. M. Thompson, J. M. Templeton, Mrs. Tom Bennett, Misses Cora Thompson, Opal Templeton, Mecca Rhodes and Miss Mettie Rodgers of Hico, all went out to the Thompson ranch on Silver, last Tuesday and had a most delightful time.

The Woman's Home Mission Society held their regular meeting at the Methodist church Monday afternoon, and had a very interesting and profitable meeting.

The Christian meeting which is being conducted by Elder Lawrance is still in progress.

Miss Fannie Petty who has been visiting her brother Walter Petty, returned to her home at Hico Wednesday.

W. L. Edmondson closed out an eighteen thousand dollar stock of goods at Cisco last week to the following parties: J. W. Ward, McCauley and Earnest Goode.

Dr. Henthorn our mayor, has become a competitor in the truck growing line, excelling many of the full fledged gardeners in superior products. The Doctor was selling beans last week that measured ten inches in length.

A. C. Hewgler of Brownwood is visiting friends in Loraine.

On last Saturday night the Odd Fellows and Rebekahs had a joint installation of officers. The presiding officers for the ensuing year are J. E. Stowe, District Deputy Grand Master, and Mrs. Georgia Avant, District Deputy Grand President of Rebekahs. A number of Coloradans were present. Refreshments were served and a pleasant social time was had.

L. W. Rhodes assistant depot agent returned last Saturday from a week's visit to Fort Smith, Ark. Mr. Rhodes says he feasted on roasting ears, fruits, etc., during his visit.

Mrs. Donie McPherson who has been sick for so long, we are glad to state is able to drive out.

Mr. Hunter Looney and wife, and two sisters, Misses Beas and Juliet Looney, were in Loraine Monday, guests of Mrs. A. J. Blume.

F. B. Whipkey, manager of the Colorado Record was in Loraine Monday night to attend the meeting of the Masonic lodge.

Mr. and Mrs. Travis Beach of San Angelo, who have been visiting their brother Lon Beach and wife, returned home Tuesday.

Mrs. Sarah Murphy of Montgomery, Alabama, sister of our townsman, W. A. Adams, after a visit of several weeks here, will leave Saturday for Grand Saline and will visit her brothers there before returning to her home in Alabama.

Mrs. J. C. Rogers and daughter of Hico are visiting her sister Mrs. Sydney Altman.

S. B. Watlington of New Boston who came in a few days ago to visit his sister, Mrs. H. R. Looby, returned home Thursday, accompanied by his sister and her children, who will be gone for some time. Clint Seymour and wife will occupy Mrs. Looby's residence during her absence.

Mrs. D. K. Wray of San Angelo is visiting her daughter Mrs. S. E. Brown C. P. Gary and family accompanied by Miss Ethel Gregg, left Tuesday for a summer outing on the Concho.

Mr. and Mrs. I. W. Baker enjoyed a drive to Colorado Sunday evening.

Mrs. R. B. Pratt and daughter-in-law Mrs. Jesse Pratt are visiting relatives and friends in Hico, their former home.

Wirt Blume left last week for the Davis mountains, he will be gone some two or three months.

Frank Johnson and family, Mrs. J. M. Baker and daughter, Miss Grace returned home last week from their camping and fishing trip. They were gone several weeks, and traveled about four hundred miles, caught lots of fish and altogether had a most delightful outing.

R. B. Thomas of Terrell a super-annuated minister of the Methodist church preached two very practical sermons at the Methodist church last Sunday. Bro. Thomas and wife were guests of J. R. Hall and W. B. Wimberly during their stay here, having been their pastor in former days.

Mrs. Victor Payne is visiting in Col-

orado this week. Victor departed for the county capital Tuesday, claiming business as the object of his visit.

Miss Annie Gregg was accompanied home by her friend, Miss Mary Wood of Snyder, who will spend the week with the Misses Gregg.

Mrs. D. C. McTear and little children left Wednesday morning for a visit to her cousin, Mrs. Williams of Abilene.

SPECIAL SCHOOL TAX.

State of Texas, County of Mitchell: Whereas, on the 11th day of July, 1910, a petition was presented to me for an election in common school district No. 7, of this county, on the question of authorizing a tax of and at the rate of 20 cents on the \$100.00 valuation of taxable property in said district for the purpose of supplementing the state school fund apportioned to said district, said petition bearing the requisite number of signatures of property tax paying voters of said district, and being in every respect in conformity with law:

Now, therefore, I, A. J. Coe, in my capacity as County Judge of Mitchell County, Texas, do hereby order that an election be held on the 6th day of August, 1910, at Roger school house, in said common school district No. 7, of this county, as established by order of the Commissioners Court of this county of date the 16th day of May, 1908, which is recorded in book 2, page 566, of the minutes of said court, to determine whether a majority of the legally qualified property taxpaying voters of that district desire to tax themselves for the purpose of supplementing the state school fund apportioned to said district and to determine whether the commissioners court of this county shall be authorized to levy, assess and collect annually a tax of and at the rate of 20 cents on the \$100.00 valuation of taxable property in said district for said purpose.

Osie Green is hereby appointed presiding officer for said election, and he shall select two judges and two clerks to assist him in holding the same, and he shall, within five days after said election has been held, make due return thereof to the commissioners court of this county as is required by law for holding a general election.

The ballots for said election shall have written or printed thereon the following:

"For School Tax."
"Against School Tax."

All persons who are legally qualified voters of this state and of this county and who are resident property tax payers in said district shall be entitled to vote at said election.

The sheriff of this county shall give notice of said election by posting three notices at three public places in the said district for three weeks before the election.

Dated the 11th day of July, 1910.
A. J. COE,
County Judge Mitchell County, Texas.

"Never Had a Sick Day."

You hear lots of people say they never had a sick day in their lives. Ask them further and you will find out they never have constipation and that they can easily digest everything they eat. That is the keynote of health—perfect digestion, perfect elimination. To obtain these, use Dr. Caldwell's Syrup Pepsin, which cures all stomach, liver and bowel troubles in old or young. It is absolutely guaranteed to do what is claimed, and if you want to try it before buying, send your address for a free trial bottle to Pepsin Syrup Co., 119 Caldwell building, Monticello, Ill. It is sold by all druggists at 50c and \$1 a bottle.

VAN TUYL RANCH.

The crops of this neighborhood are looking very much better since the great rainfall.

A Baptist meeting is in progress at the Lander's school house. It is being conducted by Rev. Lee Masters, a state missionary. We hope that the meeting will be a great success.

Several from here attended the big mid-summer carnival at Colorado and all say they had a tremendous time.

Rev. Lynder of Loraine preached an excellent sermon at our school house Sunday at 11 o'clock. Bro. Lynder promised to preach for us again next Sunday.

Clyde York and family and Fred McCasland and wife spent Saturday night at L. York's.

Mr. Taylor and family visited Mr. Joe Gill and family Sunday.

Several of our neighbors are enjoying the pleasure of eating roasting ears, and declare them to be excellent.

Several of the young people visited at Joe Gill's Sunday.

Special Notice to Voters

The general primary election will occur on Saturday, July 23rd, which will be a very busy day for the officers of the election everywhere. It is therefore of the utmost importance that every voter coming to the polls BRING HIS POLL TAX RECEIPT WITH HIM. There will be no time to make out affidavits that poll taxes have been paid. This matter is important, and failure to heed its wisdom may prevent many from voting. Take due notice hereof and govern yourselves accordingly.

COLORADO, TEXAS, FRIDAY, JULY 15, 1910

The heat in New York City is running people insane. In Texas its politics that's doing the same work.

The cold storage warehouses of Chicago are holding 45,000,000 eggs for the high prices that will obtain just before Christmas.

An honest trap will always catch the rascally fox. Whenever the crook goes against an honest proposition, he gets into trouble.

July 27th is the day set for the great Scurry County Picnic. The world is invited to come and see what the people of that county have to offer in the way of good things.

Twenty-five insurance companies have filed amended schedules with the fire rating board, following the order recently issued effecting the reduction of rates on various places over the state.

And now comes, at this late day, a miner and sailor, who depose that they climbed Mt. McKinley in proper persons, and there found the selfsame copper tubes that Dr. Cook alleged to have deposited there at the time of his ascent.

Another terrific red dust storm passed to the south of us last Friday, just one week following the first one. We are at a loss to understand the phenomena. With sand storms we are familiar, but this red dust— Did it strike you again Bro. Kellis.

There is talk of President Taft appointing Joe Bailey to a position as associate justice of the Supreme Court of the United States. Well, if Mr. Taft decides to go entirely out of the legal profession for a man, why Joe would fill the bill as well as any other.

We interviewed as many as twenty farmers on last Saturday concerning the condition of their crops in their respective localities. About half of them said they had enough rain to benefit their crops greatly; some said they had much better prospects than last year, while a few complained that their crops needed rain, and that badly.

If a man or woman be educated only in mind to the exclusion of morals, whatever ability they may possess, is more of a menace to society than an asset. Religious morality, is the element of safety in all education. Mentality of itself is a very doubtful blessing. Christianity is the one essential element in the making of sane and sound men and women.

What with drilling for oil, erecting an ice, light and power plant, not to mention several other smaller enterprises, our neighbor, Snyder, is putting on her seven league boots, in earnest. We rejoice at the town's prosperity. Snyder is a stunning good burg. Especially do we envy the court house in which she dispenses justice.

The town of Baird will soon have an efficient system of water works. An ample water supply is not only a blessing, but as sound and negotiable collateral as government bonds. Colorado has a decided advantage of any town on the T. & P. road, west of Ft. Worth, in the matter of good water for domestic and manufacturing purposes. We have water around Colorado, enough and to spare.

Aside from a railroad giving the town connection with good and growing towns, we doubt if there could be secured any enterprise that would prove of more permanent benefit than the lake that would result from the damming of Lone Wolf creek at the site of the proposed dam. An abundant supply of good water is always capital, attracting other capital, for water is of vital necessity to any enterprise that we could wish to foster.

The Chinese government on January 31, 1910, approved the joint report of the commission of constitutional reform and the commission on revision of the code, recommending the abolition of slavery throughout the empire and the purchase and sale of human beings under any pretext. The action of the Chinese government is taken in response to the memorials of two Chinese officials, Chou Fu, viceroy at Nanking, submitted on March 25th, 1906, and Wu Wei Ping, a censor, presented Feb. 6, 1909.

It is positively against the traditions, laws and landmarks of the craft to give any attention whatever to communications sent into a newspaper office unsigned by the writer's real name. Merit of the article makes not the slightest difference. Your name must accompany the article, not for publication, but as a guarantee of good faith and honest intentions. Please remember this, and sign every article sent in with your real name; we must have that, but you may use any fictitious signature you see fit, for the publication of the article.

The influence of the humblest life counts far more than we can see. Every day there emanates an influence that tends to make our associates better or worse. Eternity alone will discover how far reaching our influence is, but as time passes the results of our individual lives can be seen on those around us, either as an amendment in the lives of others, or in increased respect for our own. That was a beautiful tribute to the sterling character of a man who recently passed away, when a friend said of him: "Whenever I think of his daily life, it makes me want to be good and clean, like him."

The millennium is promised by socialism by destroying the existing order of things; divide the wealth of the world into equal parts, and inaugurate an era of perfect equality of opportunity and substance. This is the theory, but if they should reconstruct society out of the same corrupt humanity that constituted the destroyed order, they would only bring about still greater evils and inequalities. For he same injustice and greed would reproduce in a single generation, the very order of things they now complain of. The gospel program is to transform the building material, eliminating the elements of injustice and greed.

As an indication of how careless the average voter is, regarding his poll tax receipt, the fact is interesting that at the election last Saturday on so important a matter as the bond issue, out of a total of 258 votes, 108 voters failed to bring their poll tax receipts with them. Neighbors, this won't do. If you come to the polls on July 23rd without your receipt, it will be impossible for the officers of election to accommodate you with an affidavit and give all time to vote. The ticket will be longer than usual, and will require much time to fill out. Please heed this admonition and bring your poll tax receipt with you when you come to vote. Look it up now and ask your wife to remind you to bring it.

As an indication of the widespread interest taken in the recent fight between the white man and the negro, it may be interesting to note that more than 750,000 words were handled by the Western Union Telegraph Co., out of Reno, Nevada, on July 4th, between the hours of 1 and 2:40. Not since the San Francisco earthquake and fire, has a greater volume of business been handled regarding one single event. A force of 100 operators was necessary at Reno to handle the business. Added to what has been written before and since the fight, about the fighters, the reports would fill more pages than have been devoted to any king or president that ever lived. The amount of matter sent out concerning the death and funeral ceremonies of the late King Edward did not exceed 150,000 words.

The First Newspaper in Texas.

The recent purchase of the trade mark of the Eagle brand of condensed milk by the Milk Trust from the heirs of the Gail Borden estate, suggests interest in the fact that Gail Borden, Jr. published the first newspaper in the state of Texas.

He was a native of New York, moving thence to Cincinnati, Ohio, whence he came in 1828 to Texas, settling at old San Felipe, in Austin county. He was a man of education and refinement, possessing withal an ingenious turn of mind. He filled a number of civil offices, and was a member of the Convention at San Felipe in 1833. In 1835 he began the publication of the "Texas Telegraph," the first permanent paper in the state. The printers were working off a form of the paper at Harrisburg, when the army of Santa Anna appeared at the place, and seizing the office, threw press and all the type into the Bayou. The publication was renewed in 1836 at Columbia, but was later, with the state government, transferred to the new town of Houston, when the paper was sold soon after to Messrs Moore & Cruger. The paper under this same name was published for many years.

Mr. Borden was the agent for the Galveston City Company, and afterward collector of the port of that place. After Texas was annexed to the United States, Mr. Borden distinguished himself as an inventor. He secured a valuable patent for preserving meat in the form of what he called "meat biscuit," and for a process for condensing milk, which patent right is today owned by the great milk trust. The town of Gail and Borden county are so named in his honor.

The salary of \$100,000 offered to ex-President Roosevelt by C. W. Post, of Battle Creek, Mich., to head a new labor organization, is not a joke. Mr. Post is not only one of the wealthiest men of the northwest, but he is also one of the most energetic, meaning what he says and saying what he means, with extraordinary earnestness, freedom and fearlessness. The new organization, to the presidency of which Mr. Roosevelt has been invited, is known as the Trades and Workers Association. Joseph W. Brice, the president, started it in Battle Creek a short time ago. Mr. Bryce was at one time president of the State Association of Railroad Men and, disapproving of the methods of the heads of the federation, he organized a new body, with the purpose of settling all differences regarding wages, hours and conditions by mediation, following the Canadian method, by which employers appoint two arbitrators, the employees two more and these appoint a fifth. On failure to agree, the commissioner of labor selects the fifth man; and if either party refuses to accept the award, after evidence has been taken under oath, then the facts are given to the press and public opinion usually forces a settlement. Labor bodies are uniting with the new organization and employers are favoring it and it is believed by Mr. Post that if Colonel Roosevelt would take the presidency it would gain two million members in a year. To this end Mr. Post is willing to pledge an annual salary of \$100,000. His pledge is good.—Leslie's Weekly.

The man who pays his debts and his taxes may be a blessing or a curse to the community. It depends on what else he does. In making this statement it is to be understood that by the word "debt" is meant the ordinary cash obligation which a man incurs in the transaction of his business. There are men who appear to believe that so long as they are not indebted to their neighbors for goods purchased, or the municipality or the state for the last tax levy they have discharged their whole duty and nothing more can be asked of them. But in reality, a man's duty to his neighbor is limited only by his power to do his neighbor good, and his ability to be of service to him. The community in which the prevailing statement is "What do I get out of it?" is one which does not and cannot prosper. What do you put into it, is the test.

If you want to get right tired, read one of these little one-gallused newspapers, where the editor is striving hard to win the name of "booster," and watch his editorial page. His first, second, third and fourth editorials are something like these, respectively: "Boost," "Be a booster or bust." And yet he has little, if anything to say in well chosen words about the advantages and possibilities of his town. Being a professional booster is, to our mind, not far from being a professional liar. We like to read about the good points of the town, when told well and truthfully, but we get tired of his "boosting."—Ex.

The population of Deaf Smith county has quadrupled within the past ten years.

JUST A SUGGESTION.

Men and Brethren: If there were a feeling of disappointment over the failure of Colorado to land the West Texas Normal, and we yet feel that a school, a genuine, simon-pure, thorough going school, already firmly established by its good works, would be a benefit to the city of Colorado, why not look into the possibility of securing the location here of the "Academy of Our Lady of Mercy," now located at the town of Stanton.

We have heard that the buildings of this school will soon need very extensive repairs or rebuilding. The existence of an educational institution of the character of this one, cannot fail to add much, not only to the material advantage of any town, but elevate the moral tone of the community. It is quite likely, if the above representation as to the condition of the buildings be true, that if the people of Colorado would offer in good faith, a liberal amount for the removal of this school, the trick might be turned.

In this connection it may be well to note that not for the past several years has Colorado failed to have one or more students in this institution of learning; last session there were two from Colorado. Again: the laundry bill of this school with the Colorado Steam Laundry will approximate \$100 per month. Prorate a like amount among all the different lines of business in the town that would necessarily cater to the needs of such an institution, and some idea can be gained of the worth of the school to Colorado.

THAT WONDERFUL LETTER.

A friend has sent in a letter purporting to have been written by Christ and asks that it be given publication. We published this same letter in 1907 by request, and may not have room for it again for some time, but beg to say regarding it: In this letter is an injunction that whoever finds it should publish it to the world, and a great threat is made that dire misfortune and a series of calamities will surely follow to the person having possession of it and withholding it from the world. Says a very eminent biblical scholar of this same alleged letter, in the Christian Observer:

"A careful reading of this spurious letter shows that it was drawn by some shrewd person in recent years, to appeal to the superstitious fear of the credulous. As showing that the letter was written long after the time of Christ, the letter contains a command to fast five days in the year beginning on 'Good Friday.' The first appearance of the letter in print was said to have been in the Rome (Ga.) Tribune of October 31, 1891. Names of several persons are given in the newspaper who are said to have had copies of the letter and failed to have it published, and these were visited by dire misfortunes. The letter carries its own reputation, for it was evidently written by some ecclesiastic who sought to compel people to churchly duties by appealing to their superstitious fears. If any of our readers see this letter published, or if copies are sent to them, we would advise them to ignore its threats and disregard its advice."

I would rather fill my purse with money and keep its beautiful gate forever ajar to my happy girls while yet they linger under my roof, than to clutch it with a miser's hand until the harpstrings of youth are broken, and all its music forever fled. I would rather spend my last nickel for a little bag of striped marbles for my bare-footed boys, than to deny them their childish pleasure and leave them a bag of gold to quarrel over when I am dead.—Bob Taylor.

General Fred Funston, the U. S. general who captured Aguinaldo, the Filipino leader, died at his home in Leavenworth, Kansas, last week.

The population of Amarillo has grown from 1442 in 1900, to 9957 in this good year of grace.

W. C. Calkway, of the Buford community, who was operated on some months ago, went to Temple this week where he will undergo another operation.

Prevention by the ounce is worth cure by the ton. At this season there is no small amount of typhoid fever and flux in the country. One cannot be too careful of eating trash and keeping everything about the premises sweet and clean. Again: don't forget to give the infant water—pure water—not ice, several times during the day. It is likely the very thing it is crying for.

The new boiler for the light and power plant arrived this week and will be put into service immediately the brick work on the furnace can be finished.

LEGISLATION.

The calm before the storm is on in Austin. The Capitol is shrouded in a robe of mystery. Political experts refuse to hazard their reputation on the outcome of the Special session of the legislature. Some of the wisecracks affirm that the thermometer will jump ten degrees when the Governor's message is read, while the defenders of the administration contend that the Governor has his hand on the public pulse and will submit no legislation of importance except the Fire Rating Insurance Board matter.

Each morning a flock of rumors are turned loose at the Capitol to furnish copy for the newspaper reporters, but the Governor is as silent as the sphinx of Egypt concerning the contents of his message. He knows how to keep a secret and is doing it.

There is only one fundamental fact now on the legislative horizon and that is the Fire Rating Insurance law. This field of legislative adventure, however, is sufficiently large to afford a playground for amateur statesmen and the law givers who would "square a circle" will have an opportunity of airing their views on saving the country. The outcome, no one knows. A number of administrative faithfuls have made a pilgrimage to Mecca during the past week and it is understood that a bill has been prepared embodying the views of the administration, but no matter who is the author of the bill, or what the bill contains, it will look like the outside of a storm cellar after a hurricane, when it has run the gauntlet of the House and Senate. The present law may be repealed; it may be amended; it may stand as it now reads. Able law givers are on all sides of the subject. There are those

who contend that you can't make a silk purse out of a sow's ear and favor the repeal of the law in toto and the desertion of that field of legislative endeavor; others who would save the pieces by patchwork, and still others who contend that patience is a legislative virtue and favor a further trial of the law. Take either horn of the dilemma; we have a pretty kettle of fish and likewise an expensive one—expensive to the people who bear the saddle marks of the little "Red Rider" and expensive to those who pay the legislature while making mistakes, and pay again while they are correcting them.

Those who differ with the Governor's policies, will have to admire his manly courage in calling a special session of the legislature to repeal the Fire Rating law. This bill was one of the pet measures of the administration and was ably chaperoned through both the House and Senate by trusted lieutenants of the Governor, and in publicly sitting down to a mess of crow, the Governor exhibits true evidence of manhood which his admirers have always contended he possessed.

Now that the Governor has had a vision and is turning the searchlight on the statute books of Texas, other laws may feel the woodman's ax, or come under the ban of the pruning knife. The biggest room in the world in improvement and now that the legislature is on the inside of that roomy apartment, under special direction of the administration, it is hoped they will occupy their new quarters during the entire session. It is within the power of the Governor and the Governor has the reputation of recognizing opportunity when it knocks at his door.

LOCAL NOTES

On Tuesday night there was every indication for a general rain over the northern part of the county. We learn that the Cuthbert community, which has suffered more perhaps, than any other, received a very good rain. Reports all the way from Sweetwater to two or three miles east of Colorado show a fairly good rain over that section.

R. M. Smith has gone to the ranch, south of Westbrook for a few days recuperation.

J. H. Pond is visiting relatives at Gordon.

Mrs. L. P. Adamson is visiting her son, Walter Adamson, at Snyder.

A new agent is holding down the desk in the Pacific Express office. It is Mr. Andrew Sanders of Sweetwater. Prentiss Jeffers is still the factum factorum loci.

R. W. Morgan and R. P. Price left Wednesday morning for some indefinite place, fishing. They took along half a pound of assafoetida and a dozen loaves of bread. The general opinion is that neither of them has enough angling skill to catch cold.

FOUND—In waiting room of passenger depot Wednesday morning, bunch of keys, one Yale, seven padlock, suitcase and one skeleton key on bunch. Prove property, pay for this ad, and get your own.

Miss Clara Reaville left this week for her home in Houston, where she will visit and enjoy success from teaching the young idea how to play. She expects to return in time to resume her class in the early fall.

The band will give an open air concert as the court house park tonight, if the lights can be wired in by that time. Come out and enjoy yourself and encourage the boys with an appreciative presence. The director, specially invites spooning couples to be on hand, with the promise that the inspiring strains of the martial music on the program, will likely make the "laggard in love" pick up the expected amount of nerve. So let everybody come out.

Mr. O'Donnell, of Lamesa, candidate for representative from this representative district will speak to the people of Colorado and vicinity, on Thursday, July 21st, at the court house. He invites all to hear him discuss the issues of the campaign.

The infant of Mr. and Mrs. Barnett, living about one mile south of town was buried Tuesday afternoon at 2 o'clock in the I. O. O. F. cemetery.

Misses Mable Smith and Nora Blandford left Tuesday morning for a visit to Mrs. R. O. Pearson at Sweetwater.

Misses Ione and Fay Dulaney returned to their home in Sweetwater Sunday morning, after a week's visit here with relatives and friends.

On last Thursday evening little Miss Alice Johnson Majors entertained in honor of her eighth birthday. Many of her friends came and all enjoyed a merry time. They played all kinds of games, after which they had ice cream and cake, out on the lawn, in plates just like big folks. The little hostess received many pretty gifts.

Miss Bessie McMurry is visiting with friends at Dallas.

Friend Jack Smith little cares whether there is any primary election now or not. The office of assessor of taxes of Mitchell county, would be a cheap honor indeed compared to the prize he won last Tuesday night—a nine-pound girl. How now, Brother Candidates, are you in it?

Too hot to stay in the house; then get a cot from J. H. Greene and get out in the yard.

The building for the new ice plant and creamery is fast nearing completion, and it is a dandy, too. The construction is modern in every respect, and the work and material is first-class. The machinery will begin to arrive next week. The boilers are expected to arrive in a few days, and by the time they are set the other machinery will be on the ground. In the course of sixty days, if no accident delays the work, the plant will be ready for work.

WEALTHY TEXAN KILLED

Trinidad, Colo., July 11.—R. T. Wiley, a wealthy resident of Mineral Wells, Texas, walked off a Pullman car while asleep last night near Rameyville on the Colorado and Southern Railway and was killed. His body was found today by a searching party. Mr. Wiley and wife were en route to Colorado Springs.

Mr. Wiley was well known to all the older residents of Colorado and Mitchell county. He was an uncle of our former fellow townsman, A. B. Robertson, with whom he was at one time associated in the cattle business. It is stated that the interment will occur at Fort Worth.

IATAN DOTS.

We have been blessed with a few light showers lately and prospects are very favorable for more. Crops are looking very well considering the dry weather.

Mr. Young reports having cotton knee high, and we understand he is not alone by any means.

Miss Alice Shuford stopped off here on her return from Stanton, and left Wednesday for her home in Colorado.

Mrs. H. A. Bass is visiting relatives at Paris, Texas, and will remain among friends about three weeks.

Mr. Charles Davis and family of Big Springs have been visiting the family of W. A. Griffith for the past few days and have now returned home.

An ice cream supper was well attended at the home of Mr. and Mrs. G. E. Sutphen last Friday night and all report an enjoyable time.

Mr. R. B. Taylor is reported on the sick list this week, but is improving nicely, we hear.

Mr. O. C. Able, the agent at Iatan is visiting relatives and friends in Indiana, Mr. A. E. Campbell having taken his place until his return.

Quite a nice crowd attended prayer meeting last Sunday night.

Prof. and Mrs. J. A. Summerhill returned Tuesday from a three week's visit to relatives in Grandview.
J. M. Page came in from Abilene Wednesday morning and returned to his wife's bedside in Abilene that evening. He reports Mrs. Page in a fair way to recover and that if she continues to improve, they will return home in ten days.
Worrell & Rutherford, who have moved the old school building, are figuring on moving the Baptist church from Daniels to a proposed site near Car.
Mr. and Mrs. Arthur Jones of Phoenix, Ariz., are visiting Mrs. Jones' parents, M. Wheeler and family, of Vietas.
Born—To Mr. and Mrs. J. T. Smith of Spade, July 3, a boy.
M. D. Estes presented us with a genuine buffalo horn this morning, which we value very highly. If any of our friends know of any of these horns in their localities and will send them in we would appreciate them.
A freight train ran over three calves belonging to G. J. McKenney, Sunday night, killing them outright. This makes about the third accident of the kind in the past month.
A fine rain fell in the Car settlement yesterday afternoon and extended to the Daniels neighborhood. A good shower fell at Iatan and Bob McNairy stated that part of his pasture received a good wetting.
"Uncle Dick" Adams said he rode in the rain an hour on the road from Vietas to Car, and M. Wheeler stated that water was standing in the road this morning when he came to town.
A. Petty brought in a cotton boll almost grown, yesterday, which was taken from the field of F. M. Thompson, who lives about three miles northeast of town. Mr. P. was offered anything he wanted on time from cold drinks to money and pills, on the good cotton prospects. He stated that Mr. Thompson had about 20 acres of cotton this year besides a number of acres a little younger, and that he has about 200 acres in same neighborhood almost as good and his June corn is tasseling and one more rain will be needed to make it and his Kaffir corn.

Resolutions of Appreciation.

At a regular meeting of the Ladies Aid Society of the Baptist church, the following preamble and resolutions were adopted by a unanimous vote: Whereas, Rev. and Mrs. Nichols has removed from our midst, in obedience to the direction of the Great Shepherd of the sheep, we desire to thus voice our appreciation of the great work they have done among us, and offer this tribute of respect and love. Therefore, be it

Resolved, that the Ladies Aid Society of the Baptist church has lost one of its most useful and valuable members, in Sister Nichols, and a safe counselor and much loved pastor, in Brother Nichols.

Resolved, that this Society commend them and their most excellent family most heartily to the people of Vernon, as in every way worthy their confidence, love, and heartiest co-operation. Be it further

Resolved, that a copy of these resolutions be furnished Brother and Sister Nichols, also spread upon the minutes of this society and a copy furnished the Colorado Record for publication.

WASHINGTON LETTER.

Winthrop C. Jones, tally clerk of the House of Representatives has prepared a general summary showing the work done by the 61st Congress, including the extraordinary session which is an object lesson to the country and refutes as strongly as possible the oft repeated assertion that the 61st Congress would turn out to be "a doing nothing Congress."

There were introduced 27,267 bills, 240 joint resolutions, 54 concurrent resolutions, and 848 simple resolutions the latter meaning resolutions of various sorts requiring only the acquiescence of the body in which they originated.

The various committees to whom this vast number of bills were assigned made 1738 reports of which 614 were on public bills and 688 on private bills and resolutions. There were 266 adverse reports and 170 that did not reach the calendars.

The House passed 993 bills of various kinds, sorts and conditions.

There were 324 public laws, which includes the omnibus bridge bill, omnibus dam bill, omnibus public building bill, omnibus light-house bill, omnibus Indian bill and omnibus claim bill. There were 170 private laws in which were included 6140 private pension bills, which were included in 34 omnibus House pension bills containing 4324 items and 22 Senate omnibus pension bills containing 1616 items. 51 public resolutions and 2 private resolutions were signed. There were 443 public bills and 550 private bills and resolutions passed the House. There were 228 bills placed on the calendar for unanimous consent of which 5 remain on the calendar, 23 were objected to and retain their place on the Union and House calendars.

There were 36 motions filed, under the new rule, to discharge committees from further consideration of various bills referred to committees and not reported.

Finally as an indication of how many times members were called upon to be present and answer to their names on a roll call it is stated by Wally Clerk Jones that there were 118 roll calls. At most conservative estimate each roll call in the House of Representatives consumes at least 35 minutes, fully three days of twenty-four hours each or six working days of twelve hours each were consumed in calling the rolls.

Commencement exercises during the month of June added hundreds of A. B.'s, L. D.'s and other mystic letters to the names of men in public life. Col. Roosevelt, President Taft and a long line of men prominent in affairs of state were among those so honored, but little comment was created when the University of Notre Dame, Indiana, conferred the degree of Doctor of Laws upon Edward A. Moseley, Secretary of the Interstate Commerce Commission. Mr. Moseley has occupied that position ever since the commission was created seventeen years ago and during all that time he has used his abilities in the interest of railway employees on every possible occasion. Year after year he fought persistently for laws which compelled the companies to equip their trains with automatic couplers, air brakes, and all sorts of appliances making for greater safety. There is not a railroad organization in the country which fails to appreciate the great work which Edward Moseley has accomplished for the vast army of railroad employees. He has been made an honorary member of every organization and whenever a party of engineers, firemen, conductors or switchmen comes to Washington a delegation is certain to call upon the Secretary of the Interstate Commerce Commission.

It is doubtful if there is a more popular official among the employees than Edward Moseley in any of the departments. Every one of his subordinates swear by him and more than a million people, either as organization or as individuals have joined in congratulating Dr. Edward A. Moseley, L. D., since the honor was conferred upon him by the Indiana University.

The National Rivers and Harbors Congress, whose platform has had the hearty endorsement of President Taft, will hold its seventh annual convention in the City of Washington, Dec. 7th, 8th and 9th, next. It is expected that the forthcoming session will be the most important ever held by this great body of business and professional men and women who are unselfishly interested in bringing about a broad and liberal policy on the part of the government toward the rivers, harbors and canals of continental United States to the end that water transportation may become an adjunct to rail transportation yet be independent of each other.

President Taft will open the Congress as he did last year, but in view of his terse criticism of the last River and Harbor bill, in which he pointed out reasons why the bill should be vetoed, but which he refrained from vetoing because of the imperative demands of the Corps of Engineers that money be appropriated to hasten the work of completing some of the projects, the President's address will be awaited with great interest.

President Taft is a waterway enthusiast but he does not believe in the "piece-meal" policy of continuing appropriations. He wants projects that have been under way for a decade or more completed speedily and the chairmen of the committees of Congress dealing with rivers, harbors and canals have their work cut out for them. They know just what bill will be signed, just what character of a bill will be vetoed and they must govern themselves accordingly.

COMFORTING WORDS.

Many a Colorado Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Colorado readers.

W. E. Oglesby, contractor, of Abilene, Texas, says: "About two years ago, while living in Fort Worth, I had a severe attack of kidney trouble. I could not lift or exert myself in any manner without my back feeling as if it would break. There was also considerable annoyance from the kidney secretions, the passages being irregular. I at length heard about Doan's Kidney Pills and procured a supply. The results of their use was better than I expected, for the contents of two boxes completely cured me. I advise any one suffering from kidney complaint to give Doan's Kidney Pills a trial."

Proposed Amendment to the State Constitution Authorizing the Establishment of a Home for Widows and Sailors of Confederate Soldiers and Sailors.

House Joint Resolution No. 7.

Joint Resolution to amend Section 51 of Article 3 of the Constitution of the State of Texas, as amended in 1903, so as to authorize the grant of aid in the establishment and maintenance of a home for the disabled and dependent wives and widows of Confederate soldiers and sailors and such women as aided the Confederacy, and making an appropriation.

Be It Resolved by the Legislature of the State of Texas:

Section 1. That Section 51 of Article 3 of the Constitution of the State of Texas, as amended in 1903, be so amended as to hereafter read as follows:

Article 3, Section 51. The Legislature shall have no power to make any grant or authorize the making of any grant of public money to any individual, associations of individuals, municipal or other corporations whatsoever; provided, however, the Legislature may grant aid to indigent and disabled Confederate soldiers and sailors who came to Texas prior to January 1, 1880, and who are either over sixty years of age or whose disability is the proximate result of actual service in the Confederate army for a period of at least three months, their widows in indigent circumstances who have never married and who have been bona fide residents of the State of Texas since March 1, 1880, and who were married to such soldiers or sailors anterior to March 1, 1880; provided, said aid shall not exceed eight dollars per month, and provided further, that no appropriations shall ever be made for the purpose herebefore specified in excess of five hundred thousand dollars for any one year. And also grant aid to the establishment and maintenance of a home for said soldiers and sailors, their wives and widows and women who aided in the Confederacy, under such regulations and limitations as may be provided by law; provided, the grant to aid said home shall not exceed one hundred and fifty thousand dollars for any one year, and no inmate of said homes shall be entitled to any other aid from the State; the Legislature may provide for husband and wife to remain together in the home; and provided further, that the provisions of this Section shall not be construed to prevent the grant of aid in cases of public calamity.

Sec. 2. The Governor of the State is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of the State of Texas at the regular election of State officers, in November, 1910.

The sum of \$5,000.00 or so much thereof as may be necessary, is hereby appropriated to pay the expenses of carrying out the provisions of this Resolution.

W. B. TOWNSEND,

Secretary of State.

BE WHAT YOU ARE.

The man who tries to make the world believe that he is several notches higher up in the scale of respectability and financial standing than he really is, generally fools nobody but himself. To say the least of it, he can't fool the world all the time. The time is coming when he must show his hand. He may keep his banker in the dark, and win the favor of society and the church, but unless he has something better than a fictitious credit, the public will find him out. Nothing is more creditable to a man or woman than to be what they are. Nobody likes a sham. Simplicity paid for, is far better than the frills of vanity and pride on a credit. Fine clothes and splendid homes and summer trips are all right if they are in keeping with one's lot in life, but to be and appear something that we are not is insincerely personified. Our friends will think better of us, society and the church will entertain a deeper regard for us and the banker will have more respect for our credit if our bearing has the stamp of genuineness. Let's be what we are.—Eagle Lake Headlight.

NOTICE OF SHERIFF'S SALE (Real Estate).

By virtue of an order of sale issued out of the Honorable District Court of Mitchell County, on the 24th day of May, A. D. 1910, in the case of R. H. Middleton versus L. B. Cope, W. P. Williams, Ed. The Dairy Industry of United States.

According to the last year book of the department of agriculture, there are 21,720,000 milch cows in the United States, and these are worth \$702,945,000.00. The magnitude of the industry can perhaps be best understood when it is considered that these cows produce yearly about \$1,000,000,000.00 worth of dairy products.

There is no other branch of diversified agriculture so important to the progress of a community. The fertility of the soil can best be maintained by the liberal use of barnyard manure and the dairy herd not only makes this possible, but dairying is also more remunerative than other branches of farming when properly carried on.

Dairying has made wonderful progress since the advent of the modern creamery and the consumer of butter has not only been benefited by being furnished a more wholesome and palatable article of food, but the wife in the farm home has been relieved of the drudgery incident to making butter on the farm. Where formerly the cream was ripened and churned into butter under conditions not conducive to fine quality in the finished product and in the majority of cases by unskilled hands, now the most of the milk or cream is delivered to a modern creamery where conditions are suited to the purpose of making butter, and the result has been a wonderful improvement in the quality of our dairy products. As the quality has improved the demand has been greater, and the progress of dairying has been remarkable during the past decade.

The perpetuity of the country's greatness depends upon increasing the production of farm products from year to year, a result which not only furnishes our people with food but maintains the prosperity of our farming communities. Increase in production can only come through improved methods of agriculture and soil improvement. When it is considered that the dairy cow is the foundation for soil improvement and farming prosperity, her importance is best understood, and interest in her should not be confined to her owner. She is an important factor in the development and prosperity of our country.

Note.—Referring to the above government bulletin, in connection with the creamery now in course of construction at Colorado, it is a vital necessity that as many cows as possible be arranged for to supply the plant with cream. There cannot be too many of them. The plant can take care of all the cream that the county can furnish. Unless the plant is supplied with enough cream to keep the machinery going, it will be impossible to make it pay.

A Trifle Shy.

The final report of Assessor L. A. Costin to the State Auditor, shows that the county of Mitchell has failed to hold its own against the deterring effects of the last two dry years. The decrease, is, however, slight. These are the figures: 1909 valuation, \$7,144,625; 1910 valuation, \$6,841,500. Polls 1909, 1673; 1910, 1581.

It does seem that Colorado is the last place to get wet in west Texas. If it thunders in Mitchell county, it is almost sure to rain in the vicinity of Lone Wolf mountain. But as long as it rains all around us, we are willing to hide our turn with patience. If every one else has plenty, it's a poor rustler who can't get "his'n."

A Bargain for Printers.

Owing to the installation of our linotype we have about 400 pounds of Century expanded 10-point type and 200 pounds of 8-point, which has been used only two years. This type is good as new and will be sold at a bargain with the cases. Prefer to sell all to one party, but will sell in smaller lots.—Address the Record.

Since the fact has leaked out that Jake Maurer owns an automobile, he tries no longer to mislead his friends. In order that he may give the magnificent machine a tryout, he will close his place of business for two weeks, next month and he himself and wife accompanied by a cook, to the silvan nooks and sequestered dales of the south Colorado, where he will put into practice those piscatorial principles which he erstwhile imbibed from the immortal Isaac Walton of complete angling fame. During that time the restaurant will be closed down, the whole refurbished, furnished up with paint and paper, in order to be ready for the fall crush.

Dr. Phenix has found his fine colic pup. Of this we are truly glad, as he had a lingering suspicion that would not be dispelled, that the editor of this "great fearless and outspoken torchlight of liberty and palladium of the people's rights" had swiped it, just because he had admired the pup and had tried to scrape up a trade for it. Had not Mr. Scott Green found the pup and seeing the advertisement, phoned the Doctor that his pup had been found, we might have faced His Honor in the prisoner's dock.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

At the semi-annual election of directors of the United Brotherhood last Sunday afternoon at the tabernacle, the following officers were elected for the ensuing six months: President, W. H. Goodwin; Vice-President, J. A. Buchanan, who was also elected Treasurer; Secretary, A. H. Weston, re-elected. Chairman on Music, C. A. Pierce; Chairman Program Committee, A. H. Weston. A report by the treasurer, showed that the Brotherhood owed but a small amount, balance on the fire and stove.

Once again, the Record pauses to burn a pinch of incense to the Colorado Concert Band. Its performances during the carnival convinced the most unmusical that the band boys were more than making good. The boys have well passed that stage of uncertainty and fear, and every day witness a noticeable improvement in their playing and confidence. Colorado is justly proud of its band. Much credit is due to Mr. Lee Jones, for the unremitting work and care he has given the boys. He does not pose as a band master, but we doubt seriously if more substantial progress could have been made by the boys under the instruction of the most pretentious "perfectionist." Mr. Jones informs us that he is arranging to give a series of band concerts at the court house park, and invites the entire town to come out on such occasions and hear what the boys can do. No objection, he says to any amount of spooning. These concerts will commence tonight (Friday) and will occur on Friday night of each week.
