LEGISLATIVE NEWS.

Date for Prohibition Election Set For July 22nd.

Culbertson's Third Term. Every Vote in House and Senate Cast For Senior Senator.

(Special Correspondence.)
Austin, Tex., Jan. 30. The people of Texas will be given an opportunity to settle the prohibition question July 22 next through a constitutional amendment. Both branches of the legislature have adopted a joint resolution providing for the submission of the issue this summer. The resolution as adopted is quite stringent and is the one proposed by the pros in both branches. Should this amendment be adopted, it will effectively stop the selling of intoxicating liquors in the state. The pros, who are in the majority in both houses, have had their way in the framing of this resolution and should it fall in its mission the fault will not be that of the anti.

The contest now regarding this matter will be waged in the field. The pros and the anti have excellent organizations. The head of the anti is Colonel Tom H. Hall of Houston, while the anti is being led by Colonel J. P. Walters, also of Houston. The contest will be a vigorous one, and either way comes the result, it is believed by those concerned that it will settle the prohibition question for at least twenty years.

Culbertson's Third Election.
An important event has taken place in the legislature was the re-election for the third term of Hon. C. A. Culbertson as senior United States senator from Texas. The house and senate each in a separate session selected Culbertson as senator and there being no other candidates, except Mr. Culbertson, he was unanimously elected. In his address to the senate he stated that he was glad to be re-elected and that he would continue to be a faithful and efficient member of the senate.

Two Branches Companies.
The people throughout the state will be pleased to learn that it is not the intention of Governor Campbell to abolish the state ranger force. The governor has announced a reduction in the number of companies from four to two, and one of these will be commanded by Captain John R. Hughes and the other by Captain J. J. Sanders, just appointed. Captain Hughes will probably be stationed in the western section of the state, while Captain Sanders will be stationed in the eastern section. In his campaign speeches Governor Campbell did not seem to favor the ranger service very much, and it was generally expected that he would recommend the abolition of the service.

Initiative and Referendum Dead.
The joint resolution introduced in the house providing for the submission of a proposed constitutional amendment on the question of the initiative and referendum is dead. The resolution came up for consideration in the house and upon a vote being taken thereon was defeated by a vote of 15 to 12, requiring a two-thirds vote in favor of the proposition for it to pass. This settled the matter as far as the Thirty-second legislature is concerned.

Sheep Scab Bill Passes.
The house has passed today a bill which provides for the establishment of a sheep scab fund. The bill provides for a fund to be established for the purpose of providing for the treatment of sheep affected with scab. The bill also provides for the appointment of a committee to investigate the scab problem and to report thereon to the legislature at its next session.

Two Courts.
The legislature has passed a bill which provides for the establishment of two courts in the state. One court will be established in the city of El Paso and the other in the city of Amarillo. This bill will pass in the senate and its fate in the house at this time cannot be foretold.

For City Prisoners.
Senator M. Nease of Dallas has secured the passage in the senate of a bill providing that the executive committee of any political party shall call an election and make nominations upon a portion of its party out of the qualified voters of such city. This bill, while chiefly designed to remedy evils said to exist at Dallas, it is general in its application. The bill amends the Texas election law. The Dallas delegation favors the measure in the house, but it is believed that the bill will meet with serious opposition in the lower branch of the legislature.

Congratulations to Mexico.
Senator Murray has introduced a concurrent resolution in the senate wherein he congratulates the Mexican government on the splendid progress of its people socially and politically during the past quarter of a century, and that the government of Texas

has no sympathy for nor part in the late so-called revolution in that republic. The resolution also appears to be the citizens of Texas to refrain from aiding in any manner or encouraging the government of the sister republic. The resolution also provides that a copy of the resolution be sent to the governors of the various Mexican states and also to President Diaz.

For Benefit of Convicts.
Representative Woods believes that justice should be tempered with mercy and that the occasional first offender should not have placed upon him the indelible brand of the convicted man, and with this end in view he has introduced two bills in the legislature. The first bill seeks to make it possible merely to put a certain offender against the law that they must appear for trial without having their names arrested. The second bill seeks to establish a degree of parity between the first and second offenses in the law. As the law is at present, where a second offense is punishable by a fine or imprisonment, the wealthy man can pay his way to freedom, while the poor man is forced to fall and the law is not enforced. It is a very possible thing that any family is liable to have a member appear in jail for a crime.

Means Less Revenue.
If the bill introduced by Representative R. B. Cullum, which provides for a law that will exempt from taxation the property of a person who is a member of the legislature, passes, it will mean a loss of revenue to the state. The bill provides that the property of a member of the legislature shall be exempt from taxation for a certain period of time. This exemption will apply to the property of the member and his family.

Tax Exemption For Factories.
Representative Cullum has introduced a bill which provides for a tax exemption for factories. The bill provides that factories which employ more than a certain number of men shall be exempt from taxation for a certain period of time. This exemption will apply to the property of the factory and its contents.

Opposes Forfeiture Suit.
Representative Cullum has introduced a bill which provides for a forfeiture suit. The bill provides that a person who is convicted of a crime shall be liable to a forfeiture suit. This suit will be brought by the state against the property of the convicted person.

Evidently Not Favored.
The passage of the bill introduced by Representative Cullum, which provides for a tax exemption for factories, is evidently not favored by the legislature. The bill has not yet passed the house and it is believed that it will not pass the senate.

Opposition to Free Bill.
The bill introduced by Representative Cullum, which provides for a tax exemption for factories, is opposed by many members of the legislature. They believe that the bill will result in a loss of revenue to the state.

States Depository Reduction.
The legislature has passed a bill which provides for a reduction in the number of state depositories in Texas from thirty-five to sixteen. This bill will pass in the house and its fate in the senate at this time cannot be foretold.

Interesting Controversy.
An interesting controversy has developed between Governor Campbell and Captain E. A. Bolmer, present pension commissioner. Captain Bolmer maintains that his term of office does not expire until next June, having been appointed for a period of two years, while Governor Campbell insists that he should vacate. Captain Bolmer has decided to invoke the law and obtain an injunction to prevent his successor, R. A. Burford of Henderson county from attempting to discharge the duties of the

office, while the governor has announced that Burford will be duly installed on February 1st. The governor said that if Captain Bolmer does not relinquish the office he will be put out. The result of this contest is watched with considerable interest. Captain Bolmer claims to be backed by the Confederate veterans over the state in his effort to retain the position. It has developed that it is not necessary for the senate to confirm the appointment of Mr. Burford.

Salaries of District Judges.
The bill increasing the salaries of district judges was passed by the House yesterday. The bill provides for an increase of \$1,000 per annum for each judge. The bill will pass in the senate and its fate in the house at this time cannot be foretold.

Numerous Bills Introduced.
The calendar grows longer and longer. We now have 300 bills introduced to the legislature. They cover everything from venting jackasses running to regulating everything everybody. The people have become accustomed to legislative harassment and are already well plastered with law. The effort to stir up the will be watched with interest. It is a virgin field and no doubt good laws will be passed. However, there is a marked difference between a bill and a law at the present time. There are great many bills which define crime and prescribe punishment and while the legislature is engaged in the laudable effort of elevating the human race, should not forget that our material interests are of importance and that foreign vessels load with Texas cotton are steamers from Europe, that the hills in mountains of Texas are ready to be plowed by a trade and that we have good farm land 150 miles from the railroad awaiting the advent of the steam engine.

Trunk Line Highways.
Senator Terrell of McLennan county has introduced a bill which provides for the establishment of trunk line highways. The bill provides that the state shall acquire the right of way for a highway and shall construct the highway. This bill will pass in the house and its fate in the senate at this time cannot be foretold.

News From the State Capitol.
The legislature is engaged in a busy session. Many bills are being introduced and many are being passed. The session is expected to continue until the end of the month.

The New Governor.

Re-election of Senator Culbertson.
The legislature is engaged in a busy session. Many bills are being introduced and many are being passed. The session is expected to continue until the end of the month.

Rules.
The legislature has passed a bill which provides for the establishment of rules. The bill provides that the legislature shall have the power to make and alter its rules. This bill will pass in the house and its fate in the senate at this time cannot be foretold.

Fewer and Better Laws.
The legislature has passed a bill which provides for the establishment of fewer and better laws. The bill provides that the legislature shall have the power to make and alter its laws. This bill will pass in the house and its fate in the senate at this time cannot be foretold.

Who Buys Automobiles.
The legislature has passed a bill which provides for the establishment of a fund to be used for the purchase of automobiles. The bill provides that the state shall purchase a certain number of automobiles. This bill will pass in the house and its fate in the senate at this time cannot be foretold.

Re-Districting the State.
The legislature has passed a bill which provides for the re-districting of the state. The bill provides that the state shall be divided into a certain number of districts. This bill will pass in the house and its fate in the senate at this time cannot be foretold.

DON'T BE CONSTIPATED

Everyone knows when he is constipated, and everyone should know the risk he is running when he fails to promptly correct it.

PRICKLY ASH BITTERS

Is a Bowel Tonic and Regulator.

It empties the bowels just as thoroughly as the harsh, gripping cathartics and does it mildly, comfortably, pleasantly. Moreover, it leaves a beneficial influence behind it because the bowels remain healthy and regular thus there is no return to constipated conditions.

Summer Normal
On Saturday the teachers of West Texas will meet at the court house to locate the summer normal. Sweetwater, Big Springs and Colorado all have bids and bonuses raised for the normal. The Normal will meet in June and last six weeks. It will be a nice little advertisement for our city to secure this educational meeting as well as the benefits attached to it.

Judge Coe and Prof. Hart are to look after Colorado's interest and will both make speeches. Big Springs and Sweetwater will both have strong speakers here representing their town. Colorado is ready with the money and oratory for the battle.

The Electric will give away a beautiful Bon Bon dish Friday night, February 3rd, to the holder of the lucky number.

In The Man On The Box.
Henry E. Dixey's production, "The Man on the Box," the New York-Chicago comedy success with Bert Leigh occupying the Stellar position will be the attraction at the Opera House on Feb. 8th.

DON'T EXPERIMENT
You Will Make No Mistake if You Follow This Advice

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, its time to act and no time to experiment. These are all symptoms of kidney trouble and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in this vicinity. Can Colorado residents demand further proof than that contained in the following testimonial?

Mrs. M. J. Gollightly, of Merkel Texas, says: "I had trouble from my kidneys for the past five years. There was a dull ache across my hip and loins, at times extending into my limbs as far as my knees. The secretions from my kidneys were also unnatural. I used two boxes of Doan's Kidney Pills and they did me so much good that I gladly recommend them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

FROM UNION

Dear Mr. Editor: As I haven't seen anything from this settlement for some time.

I will give you a few items, but nothing very new, as this is one of the leading farming sections of the Mitchell county. I will tell you a little about it and am frank to say that the people generally speaking are the best up in the way of preparing their land for another crop than they have been in years and it seems that there is unusual zeal manifested. We all feel like we are obliged to have a crop this year.

Say, Mr. Editor there has been a great change taking place in this country. Methinks every man is prophesying for a good crop this year and we are not new comers either. Say, do you reckon we are that other fellow.

The weather is warm and pleasant, just exactly to suit the times, for if it had been a hard winter what would have become of the stock. Surely the great Architect of the Universe knows best.

Now a word to the farmers. I believe that past history will bear me out in saying that the less rain we have in the winter, the more we have in the summer, so let's hold fast to our zeal and energy and hope for the reward. (Still prophesying, you see.)

Our literary school is under a good headway and I hear is doing well under the management of Prof. Tines.

Sunday school and church work is moving along very nicely. Bro. Choran is our pastor and we all think we like him. Come over Mr. Editor and see how a trip in the country would serve you.

The farmers' union in this section is on a boom. Mr. Farmer, if you want to get to heaven, when you die, be a Christian and if you want to do well on this earth, be a good farmer's union man.

Good wishes for everybody and editors too.

Will Open Big Jewelry Store Here
J. P. Majors, one of the leading jewelers of the West has closed a deal with Chas. McFarland for a long lease on the building formerly occupied by the Eagle Cafe near the post office and will at an early date open up a fine jewelry store there.

The building is to be thoroughly remodeled on the inside and front and specially arranged for a modern jewelry store there.

Mr. Majors has purchased fixtures for this store at a cost of \$2500 and when he opens his business here, our people may expect something unsurpassed in the west in this line of business. He proposes to carry an immense stock and be a fixture in this city.

He owns a large store at Colorado where he has made a phenomenal success of his business.

Poll Taxes Paid
The number of poll taxes paid this year is 1131, against 1469 last year. Including the exemptions there will be about 1200 voters in the county this year. They paid as follows:

- Colorado, Prec. 1—512.
- Westbrook, Prec. 2—107.
- Herbert, Prec. 3—48.
- Seven Wells, Prec. 4—30.
- Cuthbert, Prec. 5—83.
- Daniels, Prec. 6—43.
- Loraine, Prec. 7—308.

Making a total of 1131, which is 338 short of the number paid last year.

A CONUNDRUM
Why do people who do not eat pork as meat continue to use it in the form of lard? Lard is just as indigestible as pork. In a recent article on cooking fats, Dr. Paige Emery, the eminent specialist, writes as follows:

"The healthful and economical solution of the cooking fat problem is the use of Cottolene. Cottolene is purely a vegetable product, is easily assimilated, and aids digestion. Dietetic experiments have shown conclusively that when a vegetable oil is used in cooking in preference to animal fat, it is more easily assimilated and yields far more nourishment to the body."

Cottolene is not only wholesome; it is economical as well, one-third less being required.

COMING.
"The Man On the Box" that delightful dramatization of Harold McGrath's famous novel of the same name is underlined to come to the Colorado Opera House on February 8th.

Be sure and go to see our Loraine neighbors in their splendid all the world Missionary drill at the Tabernacle Friday evening. They will be sure to be on hand unless the weather man sends us a blizzard and then of course they cannot come. There will be no admission, but a free will offering will be taken for the Juvenile Mission society of the M. E. church.

Road Bonds.
The good roads bonds for Colorado precinct are being printed again and are here now, or soon will be to be signed up. These bonds were once printed and all signed up, but an error was found in the printing, so they were destroyed and new bonds issued. It is but justice to say that the Record did not do the printing, or it

would not have been so long delayed.

Christian Aid met last week. Mrs. Harness for election of Mrs. Sam Majors was president; Mrs. C. T. Harness, treasurer; Miss Elinor Du... Secretary. The regular meeting was held Thursday at Mrs. Maxfield's, with Mrs. Jess as leader. These ladies fine work last year and under leadership of such good officers a fine year's work is prepared for 1911.

A fine musical service was held Sunday night at the Presbyterian church. In the absence of Marshall, the singers from Episcopal church and the Presbyterians, and a part of the choral club were all on the program. Dr. Merrill, with Mr. Dawes at the organ gave some beautiful violin solos. Mrs. Lindsey's vocal solo was splendid as was Miss Adams. The chorus from Ste. Cecilia's Day was quite as pretty as when given first and the choir singing was of a high degree of excellence. The house was filled and every one greatly enjoyed this service. We hope a number of these services will be held next summer when the union meetings are held. Music inspires to higher and holier things, far more than mediocre preaching and is a welcome change from even good preaching, so we hope that the service of Sunday night will be repeated.

The play, Miss Ferless and Co. presented by Mrs. M. K. Jacksons Philathea class Friday night at the opera house was a success in every particular. Mrs. Jackson as instructor had the young ladies splendidly trained and the comedy was laughable from start to finish. Miss Majors as the heiress, was fine. She is splendid in any role, but this seemed to fit her especially. Her chaperon, Miss Isla Smith was the genuine old maid. Her costume as well as her acting made her part a scream from start to finish. Miss Cornell as the Irish servant girl was also fine. Miss Ina Wulfjen from the lost nation and her chicken were interesting specimens. The guests of the heiress all did their parts splendidly. They were Misses Mattie Shuford, Ford and Lowe. Misses Doss and Dere Wulfjen, the two boys, disguised as girls were both very good indeed. The young ladies had a good house and cleared a nice sum for the use of their class which has undertaken several kinds of work for this year.

A "42" Event.
Misses Greenwood and Thomas most pleasantly entertained the Girl's Forty Two Club on last Thursday evening, with an open meeting, at which the members all wore their prettiest frocks and their escorts likewise had on their best attire. There were eleven tables of 42 players. Mrs. R. O. Pearson's pretty home being the meeting place. The games were very interesting, but not so much so that all did not take time to enjoy little social chats. At the close of the games, the prizes were awarded to Miss Mabel Ratliff, Messrs Gardner Harness and Gamble. A lovely and delicious refreshment course was served and much enjoyed, for if anything will create an appetite it is a hard fought game of forty-two. Then one always knows there is something good in store and goes prepared to enjoy the best. The young ladies proved the most charming hostesses and of course the guests all did the right stunts so the evening was a success for all.

WHAT CURES ECZEMA?
We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itea.
Because—D. D. D. starts the cure at the foundation of the trouble.
Because—it cleanses, soothes and heals the skin.
Because—it enables Nature to repair the ravages of the disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.

Drop into our store today and talk over your case with us.

THE FROZEN NORTH!

On the Coast of Labrador—The Great
Fisheries—Seal Hunting—The Ani-
mals—The People—Customs, Etc.

—By W. E. Berry—

I was born and raised in Somers-
etshire, England. At the age
of 13 my parents bound me an ap-
prentice to a large fishing estab-
lishment on the Coast of Labra-
dor, near Hudson bay. I took ship
at Weymouth, bound for the coast
of France. There I boarded the
French ship Canopus, bound for
Newfoundland and Labrador.

This was a small ship, only 98
tons, burden, loaded with salt sup-
plies and fishermen. We had a
long rough voyage. We left
France in April and landed there
in June. Our water cocks leaked
and half our supply was lost. We
were then put on an allowance of
one pint a day for 22 days. I of-
ten wished myself home again.
But you know there is no back
door aboard ship through which
to slide, and worse still, all on
board were French, not one to talk
to, only in that language. But
one thing I gained by this; I learn-
ed the French language during
those two months which has been
useful to me in different parts of
the world since then.

After many hardships, gales of
wind and ice bergs by the thous-
ands, we made the coast of New
Foundland, a pleasant sight, land
again, or rather snow, for the en-
tire country was covered with
snow, two feet deep, in the month
of June. We anchored at Bone
Bay for three days, took on wood
and water. Then we left for the
coast of Labrador, and after five
days we cast anchor at Lance de-
Loup, my destination. Well here
I was, 3,500 miles from home no
friends, relatives or any one I
knew. I knew there was but one
thing to do, that was to grin, and
bear it, for I knew that the best of
friends must part, and that nerve,
will and courage will take a man
onward and upward. Floods may
come and cities may be destroyed,

but man's heart beats on full of
courage and determination. Noth-
ing in the past has daunted him;
nothing in the future will hold
him; nothing in the way of disas-
ter or calamity will dampen his
courage or halt his progress, and
it will not lessen his faith in him-
self or that great power above,
which holds the ball on which we
live. The unthinking may rail,
the atheist may scoff, but only
those who peep into the wonder-
land of research and science, real-
ize the vastness of the universe and
the wonderful providence of that
Creator, who lights the stars and
guides the planets in their courses
and shapes the destinies of man,
with His all loving and merciful
hands. "Those" were my own
thoughts at this time, for we all
knew that the purest ores were
produced from the hottest furna-
ce and the brightest lightning
comes from the darkest storms.
Yes, and in this realm of eternal
snow and winters, man finds the
land, the sea and air, equally in
his path. Everything fights against
him. The most intense cold be-
numbs his limbs and his joints,
while fogs and the driving sleets
often darken the sky and at the
same time arm the frosts with
keen teeth. The ocean over which
he moves, besides its ordinary per-
ils is crowded with new and
strange horrors, for some time the
ice lies in fixed beds that bar all
navigation as effectually as would
a wall of iron, and over its rug-
ged and broken surface he can only
make his way by leaping from
one piece of ice to another, with
the risk of being engulfed at
every step. Sometimes it bears down
upon him in vast floating fields
with such a force that at the shock
the strong timbers of his ship
crack and give way, like an egg
shell, and sometimes crushed and

ground to fragments between two
ice floats, sometimes it rises before
him in the shape of a lofty moun-
tain, which is liable to burst at
any time and bring ruin and disas-
ter upon his head or burying
crew and vessel beneath the tum-
bling waves into the abyss below,
and a night of four months
duration closes a dismal year.

Far beyond the flood a frozen con-
tinent
Lies dark and wild, beat with per-
petual storm
Of whirlwind and hail, which on
firm land
Thaws not, but gathers ice, more
and more, on every gale.

In the sea, bordering Labra-
dor, ice is king and it gives
strange evidences of its power.
More dangerous than hidden
shoals or sunken rocks to the nav-
igator are the floating islands of
ice, which swing about, grind one
another and fall with force that
would crush the strongest ship.
There is a solemn grandeur in the
slow, majestic motion with which
these islands are drifted by the
currents to the south. But vast
and mighty as they are, they are
unable to withstand the elements
combined for their destruction.

When these islands of floating
icebergs begin their journey from
their northern stronghold, they
strike the gulf stream which soon
melts them. The average ice of
which they are composed is from
50 to 100 feet in thickness, and a
beautiful spectacle they present
with the reflection of the sun's
rays as they slowly drift their way
to the south. Ships at all times
require vigilance to seeure their
safety. Vessels have been crushed
to pieces between two ice fields in
motion and the strongest ship is
unable to resist their mighty pow-
er. Many ships have been uplifted
by coming in contact with these
fields of ice. Some have had their
hulls completely torn open; others
have been buried beneath the frag-
ments piled upon their decks. Ice
bergs are composed wholly of pure
and fresh water, as shown by an-
alytic examinations.

The People

The people that inhabit the arctic
regions are a mixture of Eng-
lish, French and Esquimaux, and

the latter are very peculiar in their
ways. These wonderful children
of eccentric creation are control-
led by no law, either written or
traditional, and are acknowledge-
able only to their own conscience,
yet they are orderly and given lit-
tle to crime. They have a few ap-
pointed persons in their tribe who
give counsel, but never assert their
authority.

Transportation.

The manner of locomotion in
Labrador is odd and novel. All
travelling is performed with dogs.
Dogs are to Labrador, what horses
are to this country, and without
dogs, commercial business and
traffic could not be carried on. For
traffic purposes, the dogs are rig-
ged in teams and attached to a
sledge. The sledge of Labrador is
light, though strongly built, eight
feet long, eight feet wide and will
carry a load of 1500 pounds. The
runners are made from the jaw
bones of the whale. Each dog is
expected to draw seventy-five
pounds of weight while they can
pull twice that amount, it is best
to not overload them. They are
hitched to the sledge by means of
a single trace attached to a breast
strap. The outside dog thinks his
place hardest of any, so after pull-
ing in that position for a while, it
will slacken its pace and skillfully
run under several traces and re-
appear near the center of the
group, without creating the least
confusion. Every team has a
"boss," usually the largest and
fiercest dog among them. This
"boss" dog is never lazy and at-
tends to it while travelling that
none of the other dogs shirk their
work. When the "boss" finds a
dog slacking its trace it jumps on
it and administers such a severe
drubbing that it is rarely neces-
sary to repeat it. When two dog
teams meet on the same road se-
rious trouble follows, for one team
will attack the other, and in most
instances some of the dogs get kill-
ed or maimed for life. It is impos-
sible to separate them, although
the driver may club with cruel ef-
fect. Ordinarily a team is com-
posed of twelve dogs, and such a
team will draw a load of 1200
pounds ninety miles per day and
show little signs of fatigue at the
close of the day.

Before starting on a journey the
dogs are kept without food for two

or three days until they are very
hungry and gant, and while travel-
ling they are very sparsely fed on
frozen meat, which they bolt with-
out chewing. A dog will not work
when it is well fed; it becomes
lazy and is easily tired. Though
active under the excitement of
hunger they are obedient and are
driven by words, which are "hike,
hike" when they should start and
"haw, haw" when they are want-
ed to stop; "ra da" come to the
left and "huk, huk" go to the
right. It is necessary some times
to stimulate the dogs to a brisker
gait with a whip, the manipulation
of which requires a skillful hand;
an inexperienced person would
punish himself much more than he
would the dogs. The whip used is
generally fifteen yards long and
the handle about six inches in
length. A short lever it would
seem, considering the length of the
whip. The whip is made of seal-
skin and is about 3 inches thick at
the large end, tapering down to a
single cracker at the small end.

One has to learn to use the whip
with a masterly hand, or make up
his mind never to drive dogs, for
the dogs are guided entirely by
the lash and to successfully drive
a team, one must be able to hit any
particular dog out of the whole
team of twelve and accompany the
feat with a resounding crack. But
after this is done to get the whip
back is another difficulty, for it
is apt to entangle itself among the
dogs and traces or fasten itself
around bits of ice so as to drag a
person heels over head in the
snow. When journeying along,
the lash trails along behind the
sledge and when thrown forward
it is allowed to extend itself with-
out an effort to bring it back, and
when a well directed crack of the
whip, strikes an ear or forefoot
of an unfortunate dog it is sig-
nified by a howl of rage or pain
that it does not forget that day.
The best drivers are well known on
the coast and are the only profes-
sional class of men that are look-
ed up to and well respected.

COLORADO STEAM LAUNDRY

THE JURY RETURNS UNANIMOUS VERDICT.

(By a Staff Correspondent)
A jury consisting of some of the
most distinguished chemists of Amer-
ica has returned a unanimous verdict
of "not guilty" in the case of Knocker
et al. vs. Coca-Cola. It will be re-
membered that some time ago a re-
port was circulated to the effect that
Coca-Cola contained injurious mater-
ials and was, therefore, harmful in
its effects upon the human body.

The rumor was originated by an
unscrupulous competitor of Coca Cola
the popular temperance drink spread
rapidly and found some credence
among those who did not know the
origin of the report.

The jury finds that not only does
Coca Cola contain nothing harmful,
but that it is much superior to tea and
coffee in that it is free from tannic acid
and therefore promotes digestion in-
stead of retarding it. Each of the dis-
tinguished chemists reported that he
had made a careful chemical analysis
of Coca Cola and found it to contain
no "dope" of any kind. If you would
like to see copies of these letters writ-
ten to the Coca Cola Company, Atlan-
ta, Ga., for a free copy of the booklet
entitled "The Truth About Coca-Cola."

The jury was as follows:

1. John M. McCandless, State Chem-
ist of Georgia.
2. B. B. Ross, State Chemist of Ala-
bama.
3. Dr. A. I. Metz of Tulane Univer-
sity.
4. Prof. W. B. Burney of South Car-
olina College.
5. Prof. C. H. Palm of the Univer-
sity of Texas.
6. Dr. Wm. H. Taylor, State Chemist
of Virginia.
7. Dr. Louis Schaefer, President of
Schaefer Alkaloid Works, Maywood,
New Jersey.
8. Prof. Emerson R. Miller, of Ala-
bama Polytechnic Institute.
9. Dr. J. C. Mims, Chemist of the
Board of Health, New Orleans.

is almost an assured fact one of our citizens. Prof. C. gars, is to be one of the few to some sixty million dollars the estate of an English aristocrat. The following dispatch, Seattle, Washington, to the Sas City Journal, dated on July 11 gives an account: After 30 years of investigation and preparation, ever since father died in Cleveland, O. Epitany seven years ago, J. A. Glorby of 211 1-2 Warren Avenue

announced that he had received final and definite word that the estate of his ancestor, Francis Glover, who died near New York city 150 years ago, is to be divided.

The estate now amounts to sixty millions of dollars, according to the will, his ancestor having owned a large tract of land near New York, which was sold and the money received herefrom deposited in the bank of England soon after Glover's death.

The interest on the original sum has been piling up for a century and a half and there are but few Glover descendants to share in the final distribution.

Prof. Boggs maternal grandmother was before her marriage to W. W. Brooks, Mary Glover, the granddaughter of Francis Glover, who died near New York City and who was the owner of Glover Park on the Thames.

Prof. Boggs said he had heard in his childhood of this estate from the older members of the family. And in fact the name Glover became a family name. He had an uncle who died in 1881 and was named for his grandfather, Edmond Glover, the son of Francis Glover. He has a cousin now living in Georgia, whose name is Glover Brooks.—Stephensville, (Ark.) News.

Mr. Boggs of Arkansas, J. A. Glover of Kansas City and Glover Brooks of Georgia are the real heirs, each getting about \$20,000,000.

The Prof. Boggs at Stephensville Arkansas is the father of the late Mrs. A. L. Scott. He is an old man, (widower) with a grown unmarried daughter and those here who know him say that he will provide handsomely for his grandchildren here.

Mr. A. L. Scott said that they had not received the money yet and he is losing no sleep over it. It is believed by the knowing ones that the Scotts here will be amply provided for.

From Washington

The Democratic caucus last week, it is but fair to say was as harmonious as was ordered, with subsequent events as seemly, as such incidents have attached to any party organization in Congress. The Democrats have organized the Ways and Means Committee according to the will of the majority of their party—on a tariff for revenue only basis. As far then as concerns the house, the issue will be quite clearly drawn against the long maintained theory and practice of protection. The Democratic tariff tacking committee will there fore fight it out on that line all next summer. And we all shall see what all we all shall see.

The membership of the other standing committees—sixty one in number—except the majority part of the rules committee, will not be chosen until Congress meets in December. As now understood the policy of the Ways and Means Committee in its augmented power as a committee on committees will be, while striving for harmony to select committee members with chief reference to seniority of committee service and with due regard to generally admitted peculiar fitness for particular committee duties.

Following this policy the ranking Democrat of the minority of each committee is in line for promotion to its chairmanship and except in few instances, it is not doubted that this course will be followed. There are two chairmanships which will probably prove bones of contention to embarrass the committee-making committee, that of Appropriations and that of Rivers and Harbors. Jno. J. Fitzgerald, of New York, first of the present minority of the former committee has a rival aspirant in Albert S. Burleson, of Texas, next in order. Burleson mainly bases his claim upon party regularity, opposing Fitzgerald as having at the organization of the House in March, 1909, led off 23 Democrats to vote with speaker Cannon against the majority of Democrats combined with a majority of so-called Republican insurgents in a revision of the house rules.

While as to the Rivers and Harbors Committee, Samuel M. Sparkman of Florida is the ranking Democrat and was one of the 23 voting as did Fitzgerald, he is in danger of displacement because Joseph E. Ransdell, of Louisiana next in rank, was not only regular in the rules contest, but enjoys the distinction of remarkably high fitness for the post. His friends are urging him for the chairmanship upon the ground of special aptitude unremitting diligence and sagacious comprehension of the great public works handled by the committee. They think it is but the need of just and proper recognition that the popular president of the National Rivers and Harbors Congress should be made the chairman of the Rivers and Harbors Committee.

In the general opinion here has again signalized his superior judgment of judicial material in his appointment of a judge for the eighth United States circuit. The appointee, Representative Walter I. Smith, of Iowa, is serving his sixth term in the House, and has been one of the leading legislators. As a member of the committees on rules and appropriations he has taken high rank in the House for superior ability and fairness that have commended him to all sides. Judge Smith served on the circuit bench of his state twelve years before coming to Congress. He fills the vacancy left by the appointment of Willis Vandeverter to the United States Supreme Court.

LORAINÉ

Miss Ann Stelle celebrated her 93rd birthday at the home of her niece, Mrs. C. M. Thompson on the 25th of January. Miss Stelle was born in North Carolina in 1818 and is a very interesting character for one of her age. She had in her possession, a pearl pocket knife which is now 75 years old, which she gave to Mr. Wiley Thompson and of which he is duly proud. Miss Stell, while confined to her bed, is able to eat regular meals and sleeps well and enjoys company as much as any one.

Miss Libby Lee was in shopping this week and reports her brother some better. Mrs. Jim Bird visited her mother, Mrs. A. S. Dees on Friday. Miss Menshaw of Huntsville is the guest of her sister, Mrs. W.

L. Edmondson. Dr. and Mrs. Chambers have decided to remain here and not move to Flint. Their friends will be glad to know it.

Mr. Leon Galaway has accepted a position as clerk in the post office.

Mr. W. J. Dixon who has been away on a prospecting trip for some time past, has returned and opened up his barber shop.

Pratt Hardware Company are to occupy the building recently vacated by Blakey Brothers.

Mr. A. C. Pratt was in trading one day this week.

Miss Dessie McLaughren entertained a number of friends at her home on Wednesday evening, the following being present: Misses McRea, Hall Marler; Messrs. Hall, Wallis, Brown and Thompson. The time was spent in jolly old fashioned games and social converse. At a late hour the guests bade the charming hostess goodnight and report a most pleasant time.

Mr. Ben Hart and family have moved to Mr. J. H. Gregg's farm.

The entertainment given Friday night by the Ladies Home and Foreign Societies was a decided success. The ladies were dressed in costume to represent the different countries that are in need of the missionary work and made an interesting and impressive picture. The vocal and instrumental solos as well as the readings were very much enjoyed. Mrs. Shaw's pictures, which were drawn with such swiftness and ease and were so pretty, added pleasure to the entertainment. A large and appreciative audience greeted them and a nice little sum realized, which will go to forward the Missionary cause.

Mrs. W. A. Adams came in from Fort Worth Thursday to visit for awhile.

Mrs. F. Chambers has been quite sick for several days.

Mrs. C. P. Gary came in Friday from Kosse, where he was called on account of the illness of Miss Vera, who was able to return with him.

Miss Myrtle Jeans and Mrs. Anthony of Champion attended the entertainment here Friday night.

Miss Georgia Menshaw came up from Champion Friday to visit her sisters and attend the entertainment.

Mrs. Shaw and children were over from Colorado Friday and were guests of Mrs. Avant.

Mrs. Hubert Toler and Miss Isophene Toler left Saturday night for Fort Worth, where they will see Ben Hur. Miss Isophene will remain over for a visit with her friend there, Mrs. John S. Wade.

Misses Anzo Hattell and Minnie Parker of Roseco were the guests of Mrs. M. D. Cranfill last Saturday and Sunday.

Mrs. M. D. Cranfill entertained a number of friends in honor of Misses Hattell and Parker with a "42" party on Saturday evening. Mrs. Cranfill is a charming hostess and all report a most enjoyable time.

A. A. Tyler sold his farm, north of town, consisting of 160 acres to Mr. Harrington of Colorado, consideration \$4,000.00.

Dr. W. H. Henthorne attended the West Texas Dental Association at Colorado Saturday.

Material was unloaded this week for a steel bridge to be built over Champion creek. This will be of great benefit to the travelling public and especially to the farmers living in that section. Our commissioner Mr. Wimberley is to be commended for securing this much needed improvement to our public roads.

District Deputy Grand Master J. E. Stowe, accompanied by several other Odd Fellows installed the officers of Colorado lodge last Friday night.

Messrs Carrol Compton, Ardner Turner, Homer Brown and John Clark of Valley View community attended the entertainment at Mrs. Jackson's Friday night.

Have You Tried It? There is a bottle of Cardui waiting for you at the drug store. Have you tried it? If not, we urge you to do so, before your troubles have obtained such a hold on you, that nothing will drive them out. Even now, it may be nearly too late. But try it anyhow. If anything can help you, Cardui will. It has helped in thousands of cases, where other medicines had been tried in vain. Why should it not do the same for you? Take CARDUI The Woman's Tonic. "My daughter, Octava, would have been in her grave today, had it not been for that fine medicine, Cardui," writes Mrs. Laura Lawrence, of Drennon Springs, Ky. "Nothing I tried helped my daughter, until she had taken Cardui. I had sent for the doctor, when I thought of your medicine and got a \$1 bottle. When she had taken four doses she became all right. I often recommend Cardui to my friends." Your druggist sells Cardui with full instructions for use on the bottle. He Saw His Shadow

Yesterday was groundhog day and he surely saw his shadow, repairing quickly to his underground habitation where he will hibernate for thirty days. Look out for a squall.

Mrs. Shaw and two of the children spent Friday and Saturday visiting friends at Lorain. Friday evening she assisted in a Missionary program with her drawings. These were of course much enjoyed and we are glad that she could be with the Lorain ladies in their entertainment since she belongs to them as much as to Colorado.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Fierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants. Athletic Meet for Colorado.

On Saturday, February the 4th, the boys of the Colorado High School will meet the boys of the Lorraine High School in a field and track meet. This is the first of a similar series of contests that are to take place among the high schools of West Texas.

This first meet will take place at the old fair grounds on the race track, one mile northwest of Colorado. There will be no charges of any kind, because the business men of Colorado contributed so liberally to the athletic fund of our high school.

Because it is so early in the season, the full list of events will not be played.

The following will be the program for Saturdays meet:

- 1.—Shot Put.
- 2.—Hop, Step and Jump.
- 3.—100 Yards.
- 4.—Standing Broad Jump.
- 5.—Standing High Jump.
- 6.—Running Broad Jump.
- 7.—Relay Race (4 men 110 yds each.)
- 8.—Running High Jump.
- 9.—Vaulting.
- 10.—One Mile Race.
- 11.—220 Yards.
- 12.—440 Yards.

Each team will enter three men and the team will be declared victorious that can score the highest number of points, counting five points for first place, three points for second place, one point for third place.

The Lorraine boys have the reputation of being the best athletes between Ft. Worth and El Paso, and so far no one has been able to change their minds.

The Colorado boys have disputed their title and it will be a battle worth seeing. Both sides are in good condition and it promises to be a very exciting evening.

Arrangements will be made with carriages to haul people to the grounds for five cents each.

The carriages will start from the Court house at 12:30. Let everybody be present and encourage the boys to do their best.

Hunting Party.

Last week, a party of hunters left on a game killing expedition at the mouth of Silver creek and returned this week, not laden with game, but some mighty big stories. No deer were killed.

In the party were Brooks Bell, Wes Allen, Tom Smith, Chas. Mann, Ben Plaster, Earl Morrison and Friday, with Cal Frank Johnson, the two latter being gentlemen of color as cooks and chief guides.

"The Winter Tale" as told by Shakespeare in pictures at the Electric tonight.

The County Commissioners will meet in regular February term on the 13th.

Death of a Child.

Again we are called upon to announce the death of a little child. Etta Elizabeth Ross, aged two years and eight months, died at her home near Westbrook, Jan. 31st of Pneumonia. She was the daughter of Mr. and Mrs. Everett Ross and the apple of their eye the beloved darling of a fond grandmother and a circle of uncles and aunts.

Her sweet, sunny disposition and lovable ways had twined their heart strings all around her and her death left a vacancy, not often found in the going out of a life, lent so short a time from the heavenly home.

The funeral was held Wednesday at the home of Mrs. Ross' sister, Mrs. Harry Landers, and was conducted by Bro. Lyon and Bro. Broome, after which the little form was tenderly laid in its last resting place. And today, a tiny flower covered grave in the Old Fellow's Cemetery, is all that is left on this earth of another of "our darlings" but in heaven, there is another link in the chain that hold's us fast to the home "where there is no death, neither sorrow, nor crying, neither shall there be any more pain, for former things are passed away."

We know that all is well with little Elizabeth and that, though she cannot return to us, we may go to her and spend eternity with the little one, who for so short a time adorned the earthly home.

We sympathize with the bereaved family, the more that their baby girl is sick with the same disease at Mrs. Landers. We hope that she will be spared to her sorrowing family and grow up and take the place of the sister, who has gone home to Him who said: "Suffer little children to come unto me, and forbid them not, for such is the kingdom of Heaven."

The Man on the Box

Very few plays on the American Stage are ever heard of after the second or third year, excepting that they are sometimes given presentation by some permanent stock company, as the theatre going people are very fickle and want a change.

Among those that are produced year after year, with unvarying success may be mentioned, "Way Down East", "In Old Kentucky", "Old Homestead", "The Man on the Box" from the pen of Harold McGrath, dramatized by Grace Livingston Furniss, from the novel of the same name, is now in the fifth season of unvarying success and bids fair to be as long lived as the others mentioned.

Temporarily Closed

Mr. G. E. Crawford has temporarily closed his shop and will take a vacation. Later on in the summer he will open up with a big stock of material to do a regular tin shop and plumbing business.

THE 101 PICTURE

The Greatest Educational Picture Ever Shown

The Colorado Film Exchange under the able management of G. L. Wallace made a ten strike when they secured the exclusive Texas rights for the famous 101 Ranch Picture.

On Monday and Tuesday nights of this week these pictures were put on in Colorado for the first time and the show proved a pronounced success. The show began early and showed to full houses until late at night. The house would be filled and people waited on the outside until the 3300 foot reel was run through, the house emptied and filled again and so on even to the second night and so popular, entertaining and instructive were these pictures that many requests have been made to put them on again.

On Tuesday night, the Editor, hearing so much talk about the show went to see for himself and was agreeably surprised and highly entertained. While we may not be a competent judge, yet we can say, this was the best series of realistic scenes we have ever seen. More than \$3000 was paid for this Texas right alone and it seems to be well worth it.

The 101 pictures are to be put on in all the towns in Texas of any importance and if any fail to see it they miss a treat.

The film is over 3300 feet long and takes over an hour to show it.

The film is a real western picture, showing industrial scenes of the largest, most modern ranch farm in the world. It shows 500 farm mules, 100 yoke of oxen, 100 farm hands, 10 threshing machines, log hauling, harvesting, 1400 acres of alfalfa, mowing, raking, go-deviling, stacking, baling and marketing. The old square bale hay press vs. the Modern round bale press. The auto trucks pulling 7 tons at one time.

The great annual fall Round-Up showing life on the 101 ranch in Oklahoma; Buffalo chase, branding and dehorning long-horn steers, riding wild bucking bronchos, including Coffin, the most dreaded outlaw in Oklahoma. Riding wild steers by the cowboys and showing for the first time, 5000 head of cattle in one big herd.

The Fight for Life is another great feature. This fight, between man and bull is a hand-to-horn combat. Wm. Pickett, the Oklahoma cow boy is the only man in human history who ever performed this desperate feat, escaping alive. It is positively a true picture.

The Indian Buffalo Hunt was grand, not a white man being shown in the picture. 500 real American Indians in a realistic Buffalo hunt; the killing with bow and arrow of two real American buffaloes, valued at \$10,000. The squaws skinning and preparing the buffaloes for the feast; Indian camp by moonlight; Indian war dances, etc.

See William Pickett, the Dusky Demon from Oklahoma, throwing wild steers with his teeth, the most daring act ever attempted by mankind.

It is truly the greatest educational picture ever shown.

If you have land or city property in Mitchell county or any where else for sale or exchange, list it with me. I expect to go to East Texas and Arkansas soon and will have good opportunity to make sales or exchanges. Make your list and mail it to me at Colorado or leave it with Mr. L. E. Lasseter, upstairs in Dulany building.

SUNSHINE.

Farmers who expect to achieve the best results during the coming season should begin now to thoroughly prepare their soil, so as to hold moisture and be prepared to catch what may come. They should look well to seed selection and plant the best seed of all kinds. Farmers should look well into their own interests and be proud of their occupation for on it hinges all other industries, and if farmers will work together on a co-operative basis, the best results will be obtained. Begin now to prepare for the State Fair exhibits and make the agricultural exhibition this year the largest in the history of the Fair.

The cereal production of Texas is reaching a magnitude where King Cotton can well afford to look to his laurels. We now have 1,295,000 acres in winter wheat, which according to Government reports is now in better condition than the crop was this time last year. We harvested last year 555,000 acres of wheat and we therefore show an increase of over 100 per cent in acreage. We are rapidly advancing in cereal production and our harvests are beginning to be recognized by the bread eaters of both hemispheres. Texas can feed and clothe the world.
