WHIPKEY PRINTING COMPANY.

Colorado Ice Company

TO ICE CONSUMERS:

This is to advise you that we will start our ice business for the season beginning with tomorrow when our wagons will begin making daily deliveries to all customers.

We have engaged the services of Mr. T. A. Griswold, who will have charge of the local business at ice house—office phone 296—and who will issue and collect for all coupon books.

It will be our aim to render a prompt and satisfactory delivery service AT ALL TIMES, and if you don't get it we would appreciate it very much if you would IMMEDIATELY phone in your complaint to Mr. Griswold and he will see that you do get it. Also notify him promptly of any inattention or lack of courtesy on part of drivers.

Our price on ice from the beginning, and continuing until further notice will be at the rate of

30 CENTS PER 100 POUNDS

regardless of quantity taken at each delivery.

Also please remember always that WE POSITIVELY WILL NOT BE UNDERSOLD BY ANY COMPETITOR, and that this reduced price of 30 cents per 100 lbs. will be still further reduced when, and as, same may be necessary.

Your credit is still good with us.

Yours very respectfully,

Mexico City.

Mexico City, one of the oldest, most beautiful and richest cities of America, was a great city two hundred years before the Spanish came to America. It was a great city in the midst of the lakes that spread their bright waters in the vale of Anahuac long before Aztec came who gave the city its name. The Toltecs were the first to settle in this beautiful valley, but the Aztecs, a wandering tribe conquered them, calling the city Tenochtitlan, from "Tunal," a cactus on the stone; but in after years came to be called Mexico, the great war god of the Aztecs. The altitude of the city is 1,349 feet above the level of the sea at Veracruz, only 200 miles away, gives it a most delightful climate and a most even temperature. It has a population of nearly 500,000 of which about 1000 are Americans.

The National Library, situated in a fine building, once the church of San Agustín, like other religious buildings of that time belonged to the State. Portrait busts of distinguished Mexicans ornament the railing enclosing the garden. In the interior are statues of the greatest men in literature of all times and places. The library contains over 200,000 volumes, chiefly ecclesiastical literature, but a most valuable library is being collected that comprises the choice books of the world.

The National Museum, half a square east of the cathedral and just in the rear of the National Palace contains a fine collection of antiquities and objects of national history, excellently arranged and altogether the most interesting place in the capital. Some of the picture writings of the Toltecs and Aztecs were very interesting, also the sacrificial stone, and calendar stone are unintelligible to us, but interesting relics of the country before the conquest.

On the very foundations of the greatest pagan temple of the continent is erected the most ambitious Catholic church in the western world—the Cathedral. The corner stone of the present Cathedral was laid in 1573, the first service was held in 1626. There are 14 chapels in the Cathedral, 7 in each side dedicated to the various saints. These chapels were formerly enclosed with handsomely carved wood railings but now they are behind iron gratings, where there are constantly burning candles and tapers in front of the images of the saints. The choir is enclosed within a high railing of richly carved woods and in the center of this enclosed space is a large octagonal stand for the music books that have their notes so large that they can be read from the seats around the railing. Two immense organs, also in

carved wood, rise almost to the arches of the roof.

Plaza Mayor is the main plaza and is in the city's center where stands the Cathedral, and facing it the National Palace. All cars for all parts of the city and the subways start from this plaza. La Alameda, is the park of the better classes, and is so called from the fact that it was first planted with poplars. Every city has its Alameda but this is THE Alameda of Mexico.

The beautiful plazas, Cathedrals, and public buildings with the rare statuary, of finest art make this one of the most interesting cities of America to visit.

Sweetwater Farmers Plant Peanuts.

The peanut crop is one of the most profitable that can be grown, and there is no country under the living sun that is more admirably adapted to the growth of the crop than West Texas. The soil and climate are both ideal and with a little effort the growing of peanuts out here could be made a great industry.

Peanut oil and peanut cake are now produced in commercial quantities and both are said to be the equal of the products of cotton seed. The mill at Gloster, Miss., reduced 1,926 pounds of 64 1-5 bushels of peanuts to 62 2-3 gallons of peanut oil and 64 14-100 per cent cake, and cotton seed will not do better than this. There is another product, the hulls, and outer shells, which, with the vine, makes a good hay. Peanut cake is worth \$25 a ton; and the hay \$12 a ton. The nuts sell for \$1 a bushel at the mill, and even the poorest land will produce 25 to 50 bushels per acre.

Austin, Tex.—Governor O. B. Colquitt has appointed County Attorney J. E. Vickers of Lubbock, to officiate in the new Lubbock court.

Voting on Prohibition in Future.

The following question has been asked:—If the amendment to the Constitution carries in the coming election, will that bring state-wide prohibition, or will it just bring the right to vote on prohibition in the future?

The proposition which has been submitted to the voters of Texas, and upon which they will pass on July 22, is to repeal the present Section 29 of Article 16 of the Constitution and to adopt another Section in its place. We print the present Section 29 and the proposed Section 29 below:

Present.
Section 29. The legislature shall at its first session enact a law whereby the qualified voters of any county, justice's precinct, town, city or such subdivision of a county as may be designated by the Commissioners' Court of said county) may by a majority vote determine from time to time whether the sale of intoxicating liquors shall be prohibited within the prescribed limits.

Proposed.

Section 29. The manufacture for purpose of sale, barter or exchange of intoxicating liquors on and after the second Tuesday in January, A. D. 1912 is hereby prohibited within this state, except for medicinal, scientific and sacramental purposes. The Legislature of the State of Texas shall at noon, on the second Tuesday in January, A. D. 1912, by authority of this section, meet in session in the city of Austin, and pass efficient laws to enforce this section; but nothing contained in this section shall prevent any session of the Legislature from passing any law to enforce the same; and all laws in force when this amendment is adopted providing remedies, penalties or forfeitures in relation to the manufacture, sale or transportation of intoxicating liquors shall remain in full force and effect until modified or repealed.

If the amendment (the new section) should be adopted, the local option system will be at an end, and there will be no further voting on the subject of prohibition in Texas, unless at some time in the future the Legislature should submit the question, and to do this a two-thirds vote of the Legislature would be required in each branch of the same.

In the event of the adoption of the new section, State-wide prohibition will become the rule on the second Tuesday in January, 1912, but its effectiveness will depend upon the action of the Legislature, which is directed by the proposed action to enact laws for the enforcement of state-wide prohibition.

In short, if the amendment carries local option ceases and state-wide prohibition becomes the rule.

Pros Appeal Injunction.

Lockhart, Texas, March.—The pros have appealed the injunction against the Caldwell county local option election recount to the court of civil appeals at Austin. Quick hearing is expected there.

SOUTHWESTERN TELEPHONE COMPANY BUYS OUT T. & P.

Takes Over Exchanges at Following Places; Merkel, Sweetwater, Roscoe, Colorado, Westbrook.

The Southwestern Telegraph & Telephone Company has taken over a number of western exchanges of the Texas & Pacific Company, states Manager C. A. Boule. This adds to the company's numerous properties the following exchanges; Merkel, Sweetwater, Roscoe, Colorado and Westbrook. All subscribers at these exchanges can now be reached by subscribers at Abilene.

Friday night at midnight the last papers were signed which means that the great Southwestern Telephone Co. absorbs the T. & P. Telephone system, which operates the local telephone exchange. Besides the exchange in this city they own the lines at Merkel, Trent, Roscoe, Colorado City and Cuthbert, and as will be seen the deal is of pretty big proportions. At present the Southwestern company are maintaining their headquarters at Abilene. By taking over the T. & P. lines, we can expect big improvements to be made in this city in giving us one of the finest telephone systems to be found at any point in West Texas. In other words, it is another boost forward.

Miss Minnie Bellah will still retain the management of the local exchange and the office, for the present will not be moved.

It is the intention of the new management to install the central energy system and cable all wires on exclusive telephone poles and perhaps later on put them underground. The new management tells us they will greatly improve the system but that it will take time to do so.

COMPTROLLER CANCELS SALOON MAN'S LICENSE

Unprecedented Action Taken Today by State Executive; Saloon Man Can Appeal.

Sour Laka, March.—Comptroller Lane today canceled the saloon license of Tom Malavansos, whom the Texas Brewers Association charged with selling liquor to minors. It is the first time in the history of this state that a liquor permit has been called by an executive officer.

Malavansos has the prerogative to appeal to the courts against the Comptroller's action but pending the outcome there his business place must be closed. The charge was made under the Robertson-Fitzhugh law.

HEAVY RAINFALL.

Conditions in Central West Were Never Brighter.

Heavy rains fell over a large portion of Texas Sunday night but no damage is reported so far. Rains throughout most of the state averaged from one to two inches. Everywhere immense benefit to grain crops is reported and the outlook for bumper yields of wheat and oats is considered the best in years.

East Texas Slighted.

While some portions of East Texas report rainfall the precipitation apparently was not so general as throughout Central West Texas.

Heavy Rains Around Snyder.

Heavy rains fell over this section Sunday night, greatly benefitting grain.

Two Inches Rain at Ballinger.

Two inches of rain fell in this section making the wheat crop.

The rain Sunday covered practically all of Central West Texas, much of the Panhandle, all of North Texas and part of southern Oklahoma, all of East and Central Texas and extended to the Gulf of Mexico, taking in all of south much of Southeast Texas and part of Louisiana. It averaged one inch, according to reports.

In many parts of the state heavy wind and hail accompanied the rain and wrought considerable damage. In some towns small buildings were torn down and in places telegraph service was crippled, but fruit trees and crops were practically uninjured.

The fall in Mitchell county was .73 coming slow and gentle like it did makes our outlook for grain the brightest. Up to date Mitchell county has received 5.94 inches of rain while we only got 6.56 inches in the whole year of 1910. Come to Mitchell county.

A PUBLIC PLAYGROUND FOR COLORADO.

A Plan to Provide a Place Where the Children Can Spend their Time During the Vacation.

The greatest problem that confronts the parents of Colorado, is how they shall direct the boundless energies of their boys and girls during the vacation, so that they shall develop physically, and at the same time have the proper atmosphere in which to grow.

From the study of agriculture we learn that a plant gets five-sixths of its life and fiber from the atmosphere that surrounds it. It is so with growing boys and girls.

On Saturday, April 1, a few deeply interested people met at the home of Mrs. Dr. Ratliff and a temporary organization was effected, the purpose of which is to see if the parents of Colorado wanted a public playground, where their children could go and engage in games and receive systematic physical training.

Rev. Elliott was elected temporary chairman and T. L. Hamilton Secretary pro tem. A committee composed of the temporary officers was elected to look into the question of securing the necessary grounds, finding out the possible cost of equipment, etc.

A mass meeting will be called in the near future to effect a permanent organization.

It is not a theory that confronts the parents of Colorado, but a condition and it must be met. No one will doubt that the back-alley games, such as marbles for keeps, etc., is the starting point for gamblers, and the men who will fill our now crowded penitentiaries. These grounds are the incubating places for all that is destructive to our laws and society.

The thing for those who care to have these conditions removed and a substitution made that will be a positive good to the child, is to get in this movement at once. Some parents are going to pay out more than the whole thing will cost, in fines and lawyers' fees, if the present method is not done away with.

No person who knows the first principle in child nature, will try to solve this child problem by trying to keep the child at home and keep him inactive. You had as well try to train a duck to stay out of the water.

Let everyone who reads this, talk it to your friends and make up your minds to be at the mass meeting whether you expect to have a part or not.

For the children we will say that there will be basket ball, base ball, races, gymnastic exercises, swimming races, boat races and every other contest that will develop the winning quality that makes men succeed in life.

The great general, Wellington, said that the battle of Waterloo was won on the foot ball grounds at Oxford University. It is so that athletics develops those qualities of playing by fair rules, and winning only when prepared by hard practice. It also teaches that the other fellow has rights which must be regarded.

Funds have already begun to come in and it is expected that the question of financing the affair will be easy. The high school will lend the use of about \$150 worth of athletic goods for the summer.

T. L. HAMILTON, Sec.

Forty Thousand Steers Sold.

El Paso, Tex.—F. H. Evans of Garden City, Kan., closed a deal with Gen. Luis Terrazas of Chihuahua for 40,000 head of steers to be delivered during the spring and summer. The deal involves \$1,600,000, and was closed by Mr. Evans and representatives of Gen. Terrazas at the American National Bank today. This is the largest cattle deal in this section in many years.

Test of Saloon Law.

Austin, Texas.—Controller Lane said that he understood that his action the other day in forfeiting a liquor dealer's license would be tested in the courts, as would one or two other test cases now in prospect. The action was the first of its kind under the new liquor regulation law and Mr. Lane says that until he is sure of his grounds he will proceed with caution but that if the courts sustain and uphold the right of the Controller to forfeit a license for causes then he will go after numerous saloons over Texas which he says he knows are violating the law.

It is now time to get 1911 dog tags.

LORAINÉ LOCALS

Brief Mention of the Week's Happenings at Busy Town of Lorainé.

Walter Lowe's little girl had her arm broken at the elbow last Sunday. She was carrying the baby down the cellar steps when she slipped and fell. The baby was unhurt.

The scarlet fever scare in the communities northwest of here is dying out. It was only a very mild form, and never really became serious.

Mrs. M. F. Casey is reported on the sick roll this week.

Mrs. J. E. Stowe is reported convalescent from an attack of the grippe. Miss Mary Gregg left Tuesday for Colorado to visit Miss Stowers of that city.

The young folks surprised Mr. and Mrs. W. C. Brown last week by turning out en masse to their hospitable home. All ages and sizes were there, the house was filled to overflowing and we understand that even the barn was called into commission to handle the crowd. Everyone reports a splendid time. Ross Gregg attempted to load the whole crowd on one float, but his horses objected and balked. Many had to walk back to town.

The young girls of Lorainé have organized a new and novel club. They call it the K. K. K. Club and every member is bound by an iron clad skull and cross bones oath not to reveal the words for which the mystic letters stand and a heavy financial penalty is attached to the one who should betray the secret. Many suggestions have been made by outsiders among which are, Kant Keep Kwiot, The Kids Kant Kiss, the Kids Kandy Klub, the Kute Kids Korner and a various assortment of others, but we do not vouch for any of them being accurate.

Mrs. M. A. Altman is reported on the sick list this week.

Miss Mollie Tyra, who spent Friday Saturday and Sunday here, left for Sweetwater Monday morning.

D. C. McRae went to Sweetwater Tuesday to attend court.

Hamp Wallace of Big Springs spent Sunday here with the home folks. His sister Miss Annie May entertained a number of friends at an informal luncheon in his honor.

Pearson Wallace of Snyder spent Saturday and Sunday here visiting home folks.

Mr. and Mrs. W. R. Grice were in from the farm Monday.

Mrs. D. C. Byrne and Mrs. Byron Byrne were in from the ranch last week the guests of Mrs. Dunnahoo.

Mrs. T. C. Bounds and children were in from the Rendrebrook ranch this week visiting her mother Mrs. Avant.

Miss Eckles was visiting in Lorainé this week.

Mrs. Wylie of Eastland, who has been visiting her sister Miss McCaghren, returned home Saturday night.

Miss Pauline Payne and Hazel McKenzie, J. B. Blandford and Fred Gleson of Colorado visited Lorainé last Saturday in their private car.

Those who attended the Lockhart-Lawrence debate at Hermleigh last Sunday were, W. C. Brown and wife, J. D. Howell and wife, A. M. Jackson and wife, W. H. Summers and wife, S. E. Brown and family, M. Zellner and family, Dr. Shook and Charles Reeder and lady.

Joe Jackson, Miley Burroughs, Tennis Wilson, Boyd Richie and Misses Lelea Bennett, Grace Baker and Lorainé Dees attended the singing at Champion last Sunday.

E. Brown, W. C. Brown, Howard Spikes, Tennis Wilson, Fletcher Porter and others left Monday for Sweetwater to attend court.

W. L. Long moved into his new home this week. He says he has more room for his chickens to grow.

Robert Henthorn spent Saturday and Sunday with the home folks returning to Sweetwater Monday morning.

Mrs. J. R. Bird returned to Roscoe Monday night after a visit with relatives here. Mr. Bird came up on the westbound train Monday night, and returned with her.

S. H. Hart has a new baby at his home, the new comer being a counterpart of her mother. Born Sunday. All doing well.

Byron Byrne was a visitor in Lorainé last Monday.

John C. Prude made his usual visit to Lorainé this week.

Paul Terrell of Colorado spent last Saturday in Lorainé the guest of his uncle, W. T. Mullin and his little friend Ernest Lee.

G. C. Farris preached at the Center Point community north of Big Springs last Sunday morning and at the Salem church north of Coahoma Sunday night. He reports good rains in that section and says all crops are looking good and the farmers in high spirits.

Judge F. P. Brewer of Colorado was here Monday on legal business.

Leslie Collier is rejoicing over the arrival of a fine baby girl at his home. Born last Sunday.

From Union.

After the fine rain Sunday night the long faces have again passed away and pleasing smiles has taken their places. This season puts our land in fine shape for planting and we predict every inch of time will be utilized for the farmers of our country feel the need of a crop this year very forcibly.

The general health of this community is reasonably good and all things considered, everything moving along reasonably well.

The rabbit club met Saturday night and reports showed something over three rabbits scalped right recently.

Pretty good showing and methinks every good citizen should put his means and influence behind this move and push it to a finish. For the oat crop in our midst is now very promising and we are largely dependent on this club for a crop.

A good many of our people went to Colorado Monday to hear W. T. Loudermilk speak about farmers unionism, one of the subjects of the day. Wake up, farmers of Mitchell county to your best interest and greatest duty. No farmer should join the farmers' union who is not eligible and it takes a good man to be that so if we find you are not a member we rear you will be rated with the other class. Now if this script fails to find its way to the waste basket I may come again.

Coloradoans In Sweetwater.

Coming to Sweetwater.
The Colorado Film Exchange, now of Colorado, Texas, has closed a deal for a building, and in a very few days will move to this city.

This company does a large business throughout the state, supplying a large number of shows with films, besides keeping a number of their own on the road.

Mr. G. L. Wallace the genial manager, says that the main attractions Sweetwater had for him were the facilities she had to offer in the way of express companies, the American, Pacific and Wells-Fargo operating here. Mr. Wallace left last night for Colorado to make preparations for the company's removal to this city.

Mrs. P. A. Hazzard, of Colorado City, who came down to attend the Choral Club musicale, which was held last evening, will return home tonight. While visiting our city Mrs. Hazzard was the guest of Mrs. Jno. T. Johnson.

Judge F. G. Thurmond, of Colorado is in the city looking after court matters here. He came in this morning. Jno. T. Johnson went east today in the interest of the Western Windmill Company.

ALL MY PIMPLES GONE

Girl Tells How a Blotchy Skin Was Cleaned by a Simple Wash.

"I was ashamed of my face," writes Miss Minnie Pickard of Altamahaw, N. C. "It was all full of pimples and scars, but after using D. D. D. Prescription I can say that now there is no sign of that Eczema, and that was three years ago."

D. D. D. has become so famous as a cure and instant relief in Eczema and all other serious skin diseases, that its value is sometimes overlooked in clearing up rash, pimples, blackheads, and all other minor forms of skin impurities.

The fact is, that while D. D. D. is so penetrating that it strikes to the very root of Eczema or any other serious trouble, the soothing Oil of Wintergreen, Thymol and other ingredients are so carefully compounded there is no wash for the skin made that can compare with this great household remedy for every kind of skin trouble.

D. D. D. is pleasant to use, perfectly harmless to the most delicate skin, and absolutely reliable. A 25-cent bottle will give you positive proof of the wonderful effectiveness of this great remedy.

SUNSHINE.

FROM COTTON FIELD TO KITCHEN.

Cottolene comes from the oil of the nutritious cotton seed. Without touch of human hands, it flows through the factory from one process to another, and finally into pails sealed air-tight by special machines, and protecting the Cottolene also from dust and odors.

Compare this with most other cooking fats—made from hog fat, which is always more or less indigestible, and inferior in quality—and marketed in tubs or loose-covered pails.

From cotton field to kitchen, Cottolene is made with the single aim of purity, healthfulness, cleanliness. Of what other cooking fats can this truthfully be said?

Backache

Is only one of many symptoms which some women endure through weakness or displacement of the womanly organs. Mrs. Lizzie White of Memphis, Tenn., wrote Dr. R. V. Pierce, as follows:

"At times I was hardly able to be on my feet. I believe I had every pain and ache a woman could have. Had a very bad case. Internal organs were very much diseased and my back was very weak. I suffered a great deal with nervous headaches, in fact, I suffered all over. This was my condition when I wrote to you for advice. After taking your 'Favorite Prescription' for about three months can say that my health was never better."

Dr. Pierce's Favorite Prescription

Is a positive cure for weakness and disease of the feminine organism. It allays inflammation, heals ulceration and soothes pain. Tones and builds up the nerves. Do not permit a dishonest dealer to substitute for this medicine which has a record of 40 years of cures. "No, thank you, I want what I ask for."

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

QUALITY IS ECONOMY

Joys of Newspaper Life.

The Record has been issued under difficulties for the last few weeks owing to the run of rush work which always precedes the opening up of spring business in the country. "But" next Thursday the Editor hopes to leave for Fairview and surrounding country to visit the local correspondents in relation of getting more news and if the desired event comes off the readers will be treated to a better sheet for a few weeks. For you know there is lots of fun in running a county newspaper. If you don't think so you should try it for a while. About ten o'clock last night the Editor sitting on the floor, enjoying himself as though he was wearing some. He was wondering how much longer the engine would run without medical attention and trying to think up some new words which would fitly express his opinion of the knockers in Colorado wishing the paper was off the press, trying to remember if he had included ink in his last order to the supply house and at the same time hunting among a lot of old junk for a missing section of that thrilling narrative "Four years on the coast of Labrador." In another part of the office a balking linotype was arousing profanity terrible to behold and through it all the rain gently pattered on the roof of the printing office south of C. Lasky store. The editor of a county newspaper rises early in the morning of a happy day and hurries to his work with his soul full of hope and his bread basket full of "eggs and pancakes." With a thrill for the nobility and responsibility of his work he sets out to print a better paper than has ever yet been issued this side of Halifax. He throws open the doors and windows and lets a little sunshine in then rushes to his typewriter like a thing inspired. He writes about three lines and then leaves it to start the engine, cleans up a little pl. set a little job, throws in a little ad and lo, it is feeding time once more. Along in the afternoon he doesn't care a whoop whether the paper gets out or not, all he wants is a soft place to light on and the assurance that he will stay lit when he gets there. Along about six p. m. he plods home to get his fodder tring to grasp this sorry scheme of things entire and wishing some of the delinquents would pay up so he could buy a flying ship to get more news, for if the merchants continue to send job work out of town we shall need one to gather in the news

for at night he dreams that he is editor of a large city paper drawing a salary of \$10,000 per year and having a devil and two negroes to turn the press on the day the paper comes out. After two weeks rambling in Mitchell county the editor is again at his desk a sadder but a wiser man. The only thing he saw of interest was a razorback hog he ran across up in the northwest part of the county belonging to R. G. Tapp. He bought this hog a few months ago from a man in Arkansas and she was a razorback of the most pronounced variety. Tapp has lots of trouble keeping fence posts and trees on his place, as when his sow first arrived. She cut them down by scratching her back on them. She also caused trouble by standing under a barb wire and flogging it in twain in an effort to relieve the itching along her back bone. She would not eat corn not knowing what it was and for a while Mr. Tapp despaired of making anything out of her, but one day after she had sawn through a fine apple tree he hit her over the back with an ax but he ruined the ax and he never tried that again. At last the sow cut down a four wire fence and wandered into a field of peanuts one fine morning and could not help eating them. About four o'clock in the afternoon Tapp came along and saw her and hardly knew his sow she was so fat and healthy looking. He let her stay in the peanut field and in a few weeks she was as fat as butter. So thorough has peanut fields of Mitchell county eradicated the razorback blood from her system that her last litter of 18 pigs only two had any sign of backbone, the rest were meat all the way through.

Rawlins, Missionary Secretary will be the out of state speakers on the program, and leading Texas workers will be prominent in the discussions.

The Harem Skirt.

The harem skirt is being taken seriously in Rome. One father has committed suicide because his daughter wore them.—Bonham Favorite. Its an evident fact the Bonham editor never has seen one of these skirts or he would not refer to it as them. For his information, and as we view it, the harem skirt is patterned after the beautiful designs to be seen in an elephants hind legs. It is a fit, not a them or a those, it is not sold in pairs, nor worn in the plural. David Harem, we assert, didn't plan that awful skirt. The harem skirt does not fear the March winds. Thank goodness! The flamboyant Easter hat will soon divide attention with the trouser skirt.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Record will be gladly corrected upon it being brought to the attention of its publishers.

"Great is Mitchell County, and The Record is its Prophet!"

COLORADO, TEXAS, FRIDAY, APRIL 7, 1911.

Last week we had occasion to refer to the mesquite trees as having begun to "leaf out" and the printer made us say "leave out" and some Smart Alex down the road wanted to know what was "left out" when it was not his "butt in."

A gentleman returning from a tour of Italy stopped in front of our court house and gazed at it in admiration. "I wish that was in Rome," he said, "such a beautiful old ruin would be worth thousands of dollars." O you county fathers.

By referring to our news column it will be seen where Attorney Lane has revoked the license of one saloon man for violating the law. This is the first act of this kind on record in this state and Mr. Lane should be congratulated for tracking the law.

The Record man attended Sunday school again last Sunday and overheard one of the lady teachers instructing her class. It seems that one of her pupils was in the habit of using the word "damn" and she had promised him ten cents to not use it, he reformed and she gave him the dime. As he had the money in his hand he eyed it thoughtfully for some time, and then remarked, "Teacher, I know a word that is worth fifty cents."

The Record had intended to suggest to the Commissioners' Court that they use the second-hand lumber they had on hand to build two small bridges on the Colorado and Loraine roads, one on the south and one on the north road. But before we could do so, Commissioner Wimberly of Loraine, came up and got the lumber and is now at work building these bridges. The Loraine people have a good commissioner in the person of Mr. Wimberly, who is always looking out for his end of the county.

Senate bill No. 225, permitting county commissioner's courts to hold monthly meetings and transact business now limited to quarterly sessions, met with the approval of the governor and received his signature. It is a good law and the governor exercised good judgment in placing his stamp of approval on it. Frequently matters of great importance arise concerning the affairs of a county that demand immediate attention, and the law will greatly expedite matters and protect the people's interests. We are pleased to see common sense measures like this passed. We need more of them.

The Rotan Commercial Club and the city of Rotan have just completed the fencing in of several parks at that place. Rotan has a number of small parks which are nicely set with shade trees and though the town is a comparatively new one, its parks are among the prettiest to be found in the state. Park building is as necessary to the growth and development of a city as any other commercial enterprise and the citizens of Rotan are wisely securing the sites for their park while the land is to be had at a get busy and get two or three small parks started and make them beauty spots for the children play grounds.

Not Interested.

A call was made Wednesday evening for the business men to meet and discuss the plan of having a Mitchell county exhibit at the Dallas Fair this fall. Only some five or six met and no action was taken. Mitchell county will likely raise a bumper crop this year and what we need is more farmers and this is a splendid opportunity to advertise Mitchell county. Big Springs has already bought space at the fair and Scurry county is getting busy. Even Coke county will have an exhibit. Will we sit still and let all the counties around us show to the world what they have and we do nothing? Shall we?

The Record's Position.

On July 22 an election will be held to determine whether or not the open saloon shall be put out of Texas. This is a question that cannot be straddled and every voter is either for or against the saloons.

To the readers of this paper who have paid any attention to its editorial utterances that the Record will take up the fight for state-wide prohibition in the campaign this year. The Record has considered the question in all its phases and can not find one single good reason for the continuation of the open saloon in Texas, but at the same time we realize that there is room for a difference of opinion on this subject and give the opposition credit for sincerity. We expect to make a strong effort for the adoption of the constitutional amendment that will drive the legalized whiskey traffic from our state; we expect to present the matter to the people of Mitchell county so plainly that no voter will go to the polls without understanding what he is voting for when he casts a ballot contrary to the prayers of the good women and moral sentiment of the best citizenship of the Lone Star State. At the same time we will have respect for the opinion of others and use argument and not abuse.

We will print all news matter pertaining to the campaign free of charge and such other matter for the press as we feel financially able to do so, but no arguments or advertisements of any kind will be published for the antis even though paid for from the brewers slush fund. We do this to be consistent, for the past five years we have turned down and refused to print over \$500 worth of whiskey advertisements and certainly if the paper can not afford to run paid whiskey ads we certainly can not afford to run, paid for, anti argument.

We are poor—can't even pay our grocery bills—but, bless God, they cannot buy space in the Record.

The antis as a rule use abuse and criticize the preachers and are very anxious over the "purity of the sacred desk." If we could convince the antis that Christ and the judgement would come on July 23, every one of them would vote a pro ticket on July 22nd. Yes, if the antis really thought the judgement would come by Sept. 1, the preachers would have to quit prohibition work and do nothing but take antis into the church. They'd come in droves and if they could not get into the church of their choice just any old church would do. Any sort of a church beats a saloon. You know, any church that would offer any protection from the wrath of him who said, "As ye did it unto the least of these ye did it unto me," because most antis know that the man who votes to authorize his agent, the saloon keeper, to debauch and destroy men and degrade women and children and cause them to suffer is just as guilty as the agent who stands behind the bar and dishes out the poison.

And here is another point: Every intelligent preacher knows the saloon is the worst enemy to man on earth, and the greatest obstacle to the work and progress of the church. They know they can't preach religion in a man who is full of booze, and they know that even if they did get him interested in religion on Sunday the saloon can knock it all out of him with a drink or two, on Monday. It won't mix, we've seen it tried a thousand times. It is like a farmer planting his crop out in the woods without first clearing away the brush.

We cannot see how a christian can harmonize an anti vote, for it seems to us that the saloon man and the saloon voter who authorized and established the business, either to quench his unnatural thirst for booze, or to get the license money at the cost of human life and human souls, and the local option pro who don't want saloons in his own county, but joins the bums and booze boys in the city slums and helps them defeat the preachers and earnest christian people of the centers of population where the toughs naturally congregate and trade their manhood for booze and booze, are about equal partners.

Does it look like a good christian man after voting to save himself, would say, "If the cities want to go to hell let them go, it is no concern of mine."

Clean up the Town.

If we would avoid all danger, it should be seen to that the town receive a thorough cleaning up. Now is the time to attend to this highly important matter. We call upon the authorities who have the power to act in the premises, to see that the law is enforced. "An ounce of prevention is better than a pound of cure." Clean up. An epidemic of fever in Colorado would be a terrible set-back to our town. And while our natural conditions of climate, pure water, etc., are in our favor, yet if we permit filth to accumulate and breed germs, we simply court disaster. Clean up.

A campaign or clean up brigade should be organized and all the vacant lots and alleys cleaned up. Up in the north edge of town there are vacant lots with more than a wagon load of tin cans on them. Many of the alleys contain ash and manure piles all of which breed flies and they in turn breed disease. Colorado should clean up, for with its beautiful streets and magnificent shade trees we could make the town a perfect park. If the city marshal has the power he should cause certain places to clean up. If he has not the power to do so the council should give him that power. Every lot owner in Colorado should see that it is kept clean.

Mitchell county farmers will be justly rewarded if they make big crops this year for they never lost their nerve during the little dry spell last year.

Crop Paid Big.

M. B. Perry is preparing the seed bed for twenty more acres of alfalfa. This will make 55 acres on the Perry farm. The alfalfa at this time on the 35 acres is about the waving point. The February rains brought it out strong, and Monday night's shower made a wonderful change in its already fine appearance. Mr. Perry states that last winter he was fearful the excessively dry fall and summer had practically killed the larger part of his alfalfa. Investigation seemed to show that it certainly was dead down nearly two inches, but the spring rains started it off, and now the field is a sight.

Mr. Perry has 40 acres of splendid oats, planted since the February rains. He is a strenuous advocate of deep plowing; says that he don't believe it possible to plow too deep, for such work makes the best water-holding bed, and in order to get the best results for the crops it is then only necessary to keep the top soil pulverized well, and thereby conserve the supply of moisture.

One hundred acres were in cotton on this farm last year, and netted Mr. Perry \$5.00 per acre for rent from his share of the crop. This season he will have in 200 acres. Having expert cotton farmers who are good workers, he expects to make a big crop. In Illinois, Mr. Perry's \$180 land netted him \$5.00 per acre as rent while this here which cost \$40 per acre netted last year from the cotton, as stated, about 12 3-4 per cent. Where can you beat it? Of course this result was obtained because Mr. Perry is a careful farmer who gets the best of cotton farmers for his renters and therefore reaps his reward in the shape of a good big return on his investment. If we had more such farmers in this section as Mr. Perry, farm lands hereabouts would soon be on a parity with Illinois' lands as to price.—Quannah Observer.

Notice.

Bids for County Depository. Whereas, it becomes necessary for the Commissioners Court of Mitchell County, Texas, to select at the next regular term thereof, the same beginning the 2nd Monday in May, 1911, a county depository for the public funds of said county during next two years, notice is hereby given that said Court at said term will receive proposals for said funds from any banking incorporation, association, or individual bankers in Mitchell County that may desire to be selected as the depository of the funds of said county.

All bids to conform with the requirements of law as prescribed in chapter 164, acts 1905 and the amendments thereto in chapter civil, acts 1907.

A. J. COE,
County Judge.

The road commissioners of Upshur county held a meeting recently and decided to establish a permanent road gang, equipped with road building machinery and under competent supervision. A campaign for good roads will be carried on in that county.

Canadian reciprocity has been carefully groomed for the special session of Congress.

Keep Smiling.

The campaign work during the next four months to close the saloons in Texas will try the patience and test the metal of every honest, earnest worker for the cause of civic righteousness. When political tricksters want to work schemes and disorganize and divide the opposing forces they glory in the strife and confusion, and arraying neighbor against neighbor by dragging into the campaign anything on earth that will make them disagree and kick up a row.

The Bailey question will be worked for all that it is worth. Socialism will be cursed and discussed. Church differences will be magnified and argued by old cussing sinners who haven't been in a church for years. Preachers will be informed by the same old sinners as to their duties. Even the good women will be criticized just as harshly as will be prudent in some cases, but every level headed pro who wants to win votes for his cause will just keep on smiling and working. It is the only way to win in a good work. Booze and boodle may work with the darkeys and dagoes, but courtesy and kindness is the only medicine for free born Americans. Try it and keep smiling.

About Our Circulation.

But few people have any idea of the extent of the Record's circulation and where the paper goes to advertise Colorado and Mitchell county. The Advertising Lie is Bad.

Bad as a matter of business judgment. If the purpose of advertising were only to gain attention, the loud noise might do. But the man who advertises is aiming to establish himself in the minds of the people. If he lies to them they soon discover it, and from that moment his statements have no force. If he tells the truth it will take some time to satisfy the people that he is always truthful, but the final outcome is certain.

One, by one the great dailies are eliminating whiskey advertisements from their columns. The latest addition to this list is the St. Louis Republic.

Pale-Faced Women

You ladies, who have pale faces, sallow complexions, dark circles under eyes, drawn features and tired, worn-out expressions, you need a tonic.

The tonic you need is Cardui, the woman's tonic. It is the best tonic for women, because its ingredients are specifically adapted for women's needs. They act on the womanly organs and help to give needed strength and vitality to the worn-out womanly frame.

Cardui is a vegetable medicine. It contains no minerals, no iron, no potassium, no lime, no glycerin, no dangerous, or habit-forming drugs of any kind.

It is perfectly harmless and safe, for young and old to use.

Take CARDUI

The Woman's Tonic

"After my doctor had done all he said he could for me," writes Mrs. Wm. Hilliard, of Mountainburg, Ark., "I took Cardui, on the advice of a friend, and it helped me so much. Before taking Cardui, I had suffered from female troubles for five years, but since taking it, I am in good health. I think there is some of the best advice in your book that I ever saw." Your druggist sells Cardui. Try it.

Farmers' Union Talk.

Monday evening there gathered at the tabernacle about 200 of our best farmers to hear the talk to be made by W. T. Loudermilk, the state president.

The meeting was called to order by the county president, E. M. McCreeless, and the speaker introduced in a neat and well worded little speech.

Mr. Loudermilk does not claim to be an orator but a plain farmer and expressed himself as well pleased to meet the representative farmers of this county. He is a plain speaker and an interesting talker. He spoke for about two hours and received the best attention. He is a well posted man and made many forceful and practical illustrations to prove his position. Of course "The Farmers' Union" was his subject and he handled it in such a way as to make friends of all and a good impression. It was a fine talk, full of good thoughts and will be beneficial to all who heard it.

The speaker claimed that supply and demand never governed the price of cotton and devoted considerable time to show why it did not. He proved very conclusively that the price of cotton controlled or governed the price of all commodities, even the price of farm labor and illustrated it by referring to the fluctuations of prices when cotton went up or down.

In February 1904, the price of cotton was 6 1/2 cents and 74 per cent of the crop under mortgage, the union issued a proclamation to the farmers to hold one bale out of five for 10 cents and in July they got 10 cents.

In 1907 they held for 15 cents but fell down and showed the reason was that Theodore Price called a convention of spinners and speculators in Manchester, England and decreed that they should not have it, and the money interests pooled and in order to keep the price of cotton down caused the 1907 panic. The speaker made some interesting statements here about the cause of the panic and he seemed at all times to be at ease in handling the subject and well posted in figures and prices and the different moves made on the commercial checkerboard by financiers and price manipulators.

The speaker closed with a beautiful and intelligent illustration of the advantages of co-operation, why the landlord and tenant should work together and co-operate with the merchant and banker. He made it very plain how the landlord could help the tenant and put him practically on a cash basis. Mr. Loudermilk is a farmer himself and he explained in detail how he runs his own farm and co-operated with his tenants and if his plan was adopted and followed here it would be beneficial to all.

The talk was well received and will greatly benefit the local unions in this county.

COMMISSIONERS COURT.

Special Called Session Monday April 3.

The new law passed by the recent legislature having gone into effect the commissioners court can now meet monthly if they so desire instead of quarterly as heretofore. Matters of importance coming up in redistricting the county into new school districts, Judge Coe called the court for this meeting. The commissioners court is as follows: A. J. Coe, Ex-officio presiding officer; U. D. Wulfjen, Com. Precinct No. 1; W. M. Green, Com. Precinct No. 2; J. S. Barber, Com. Precinct No. 3; W. B. Wimberly, Com. Precinct No. 4. All were present and transacted the following business:

Clyde Hines and W. J. Kgy filed their butchers bonds, which were examined and approved.

A. A. Dorn et al petitioned for a sub-division of school precinct No. 8. G. W. Hooks also for precinct No. 7. G. E. Goodwin for precinct No. 6. L. S. Coles for precinct No. 1.

All these petitions were granted and the precincts divided as asked.

C. H. Lasky petitioned for a second class road, which was granted as per minutes of the court.

A. J. Coe was then allowed \$13.45 for sending a pauper to Shreveport.

The following bills then were allowed: W. M. Green, work on bridge, \$6.00; L. R. Pond, work on bridge, \$54.30; A. H. Nessmith, work on bridge, \$8.30; Adolph May, work on bridge, \$1.00; H. E. Pond, work on bridge, \$4.00; Ed Rice, work on bridge, \$55.20; L. R. Pond, work on bridge, \$3.25; J. S. Barber, service rendered county, \$28.50; T. M. Grant and A. A. Daniel, service rendered county, \$30.00; A. J. Coe, trial court, \$3.00; Doss & Johnson, hardware furnished county, \$45.25; J. B. Moore, work on river crossing near Cuthbert, \$3.00; H. D. Womack, moving old bridge lumber, \$3.00; J. J. Roe, material, furnished county, \$9.84; Burton-Lingo Co., \$68.00; Maverick Printing Co., \$28.00; Martin Stationery Co., printing, \$4.65; Bennett Printing Co., printing, \$18.75; per diem, \$15.00.

The board will not meet again until next regular quarterly meeting unless some important matter comes up requiring immediate attention and in that event it will meet in special called session on the 1st Monday of the month.

Notice to School Patrons.

Friday is the last day of school at the Rogers school house, northwest of Colorado and there will be a closing exercise program. The patrons of the school and everybody else are invited to attend and especially the patrons of the school as the special school tax subject is to be discussed and arrangements made for a longer term of school. There will be a good dinner on the grounds and the county school superintendent will speak. All are invited and especially the patrons of the school.

Shubert Symphony Club.

Through the efforts of Messrs Hart and Jones of the Colorado Public Schools, negotiations are under way for a performance in our city on April 26th, by that pleasing musical organization, the Shubert Symphony Club and Lady Quartette, of Chicago. Many of our readers have heard this popular company and no doubt everyone knows of the high favor in which its eight years of success has placed it. The great variety of this company's program has endeared it to the hearts of American music lovers, until today it stands undoubtedly first in their affections. Their new program is said to be the best they have ever presented, and their house will be large here, if they are secured for an entertainment. This entertainment will be given under the auspices of the Colorado City Schools. Twenty-five per cent of the proceeds will go to them, and for the purpose of equipping the Department of Science.

The Cemetery Association met Wednesday at the home of the president, Mrs. Carter. A great deal of new work was projected; the laying of pipes to the new part of the grounds, and the planting of trees and cleaning up of the grounds. A great deal of work having already been done under the supervision of the president and everything reported in good condition. The business men are helping the ladies more than ever before, and the work is made much easier by their aid, still others are needed. Want you come in, if you are not a member?

The Baptist meeting closed Wednesday evening. Bro. Broome did some fine preaching, good crowds attended every service and while there were no additions to the church every member who heard him was benefitted by his plain talks upon right living and our duties to each other. Sunday evening the other churches held no service and a large crowd was present. His text was "Follow me," and his sermon "made plain the duty of parent to child, of friend to friend and of neighbor to neighbor. If we would live as he told us this would be a much more pleasant place in which to live, as well as a much better one."

To The Prohibitionists of Texas.

A great mass convention of the prohibitionists of Texas is hereby called to meet at Waco on San Jacinto day, April 21. The Cotton Palace has been engaged for the occasion and the first session will be held at 10 a. m. Able speakers will address the meetings and good music will be provided.

All counties which have not perfected their prohibition organizations should do so at once, to the end that every county in the state be represented at the opening of our campaign for the adoption of the prohibition constitutional amendment on the 22nd of next July.

Counties should, as far as possible, appoint representatives, but every

Death at Loraine.

The community or entire county was shocked on Thursday morning to learn of the death of Mrs. Edmondson, wife of Banker Edmondson at Loraine. She was sick about six weeks with pneumonia and died at 4 o'clock Thursday morning and the remains will be buried today at 10 o'clock at Loraine. She leaves a husband and four children one of which is a babe one month old.

Mrs. Edmondson was president of the Home Mission Society in the Methodist church, an earnest worker and good christian lady, esteemed and loved by all. Her father and mother at Huntsville will attend the funeral. The entire town and country are in mourning over this sad death.

Special Service at Tabernacle.

Thursday afternoon the Guild tea was held with Mrs. Looney with a large crowd in attendance. Mrs. Marshall led the Bible reading upon the ninth commandment, and made plain our duty to our neighbor. These Lenten readings have been very helpful and most clearly and beautifully expressed.

A program of music both vocal and instrumental was rendered by Miss Looney and delicious refreshments served. Tuesday evening Mrs. Prude had a tea for the gentlemen and young folks, though of course the married ladies were invited. This was a most delightful and profitable occasion.

The series of meetings at the Baptist church closed last night. Pastor B. Broome held two services a day for ten days. While there were no visible results in the way of conversions and accessions to the church, we feel sure the gospel sermons preached will be as bread cast upon the waters and as seed sown upon good ground.

The attendance was good and the christian people generally co-operated in the meeting. Everybody enjoyed the

Bible sermons preached, the only difficulty being to get them out on time.

teacher, Mrs. Dyas being present. The lesson was studied then a social session very much enjoyed. During this time delicious refreshments were served. This is one of the banner classes of the Methodist Sunday school, all the scholars being present every Sunday.

Mrs. Collier's class of girls gave a delightful April Fool party Friday evening at the home of Edna Majors. Each of the girls invited a boy and a few outside friends were present. The first diversion was a sketch artist contest. Miss Connell drew the pictures of the boys and Nell Ruth Arnett that of the girls. The boys pictures were pinned on the girls backs and the girls pictures on the boys, paper and pencils being provided for the guesses. Most of the pictures looked like almost anybody, so it was hard to guess to whom they belonged. Several piano solos were given by Miss Nora Blandford and May Roland. Then menu cards decorated with scenes suggestive of feasting were passed and all told to select most carefully their articles of food. Care was needed, as the celery soup, with toasted tid-bits, and roasted duck with basting, mock English walnut salad, biscuit and syllabub, all sounded mighty good, and no one was allowed but three things. The duck was duck indeed, brown duck basted with white cotton thread; the biscuits were dainty delicious looking ones, but they were made of clay. The syllabub proved to be a "silly-bub" most cleverly drawn by Irna King. The decorations on the menu cards was the work of Ruby McGill and Jessie Person. At the close of this mock meal, forresty was passed and instead of the supposed tooth-picks, was long hickories for naughty boys and girls. Some one shouted April Fool. Then delicious cake and cream was served the merriment subsiding until after this was disposed of. The party was a complete success in every particular except that Mrs. Collier was taken sick and was unable to be with her class. Everything had been so prettily arranged by her that all went off as if she had been there, but all missed her and regretted her absence. She is always devising new pleasures for her class, which is constantly growing in numbers and interest.

The Foreign Missionary Society of the M. E. church met Monday at the church. The lesson was upon Latin America. Mrs. Crockett had some "Brazil Nuts." Mrs. Collier a fine paper upon Our Next-door Neighbor. Mrs. Jackson a good one. A Trip to Cuba; and Mrs. Lyon a Map Study of Brazil. The officers for the year were installed by Bro. Lyon, who made a very helpful talk. The business of the Society was then taken up and the meeting closed.

WHO ARE "THEY"?

(By a Staff Correspondent).
We all have a way of saying "they say" this or that or some person or some thing and accepting it ourselves as authentic when someone says "they say" to us.
But if we stop to inquire into the exact source of the information, either we would be unable to trace it back to anyone other than that elusive individual, "They say," or we will find back of it the unkind gossip of some enemy.
And just because "they say" fails to put the blame of a falsehood on any one person's shoulders it really is the most dangerous of statements and one of the hardest to refute.

So let us beware of believing "they say" stories. Let us treat lightly all gossip introduced by the words "they say," or if this gossip makes us suspicious of its object—and it is natural and human that it should at times—let us suspend judgment until we KNOW. In other words let us do the object of "they say" the justice to investigate until we find someone who is in position from actual knowledge and whom we can trust, to make a positive statement over his own name as to the truth or falsity of the "they say" story.

The writer has been led to pen this little lesson in practical fairness by reading a little book issued by the Coca-Cola Company of Atlanta, Ga. entitled "The Truth About Coca-Cola." That truly delicious and wholesome beverage has for so long been the subject of "they say" stories in which all manner of untrue and detrimental things about Coca-Cola have been circulated that the manufacturers have been forced to issue their book giving authentic information about this beverage. And the information therein contained does not rest its case on any "they say" statements, but bases its arguments on analyses and statements of chemists and scientists occupying the highest positions in America.

This is a most interesting book—a fine study in dignity in refuting falsehoods—and a book of information that all should read. You will find it well worth your while to write and ask the Coca-Cola Company, Atlanta, Ga., to send you a free copy.

IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Troubles.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to dropsy or Bright's disease. The best remedy to use is Doan's Kidney Pills. It is for ills which are caused by weak or diseased kidneys. Residents of this vicinity are constantly testifying permanent cures.

C. Ward, photographer, Opera House Bldg., Abilene, Texas, says: "Doan's Kidney Pills rid me of pain in the small of my back which had caused me considerable suffering. As I used no other remedy at the time, I give Doan's Kidney Pills the entire credit for bringing this relief."

West Texas Meet at Colorado.

The state has been divided into ten districts. Each one of these districts is to hold an inter-scholastic meet to decide which school is the best in that division. The winning team will send six men on a free trip to A. & M. College on April the 21st.

Through the efforts of Prof. Hamilton, Colorado was selected by the executive committee as the place for the meeting of the West Texas division.

All of the schools from Abilene to Midland are in this division, and have been invited to take part here next Saturday. Several have already sent in their list of men with the events in which they are to enter. Others are expected to send lists before the last of the week.

It will no doubt be the biggest thing of the kind ever pulled off in this part of the state. The fastest runners and the highest jumpers in west Texas will be here and it will be a contest worth seeing.

It is regretted that the race track is so far from town, but the admission has been fixed so that it will not be much after all.

The following is the list of events in their order:

- 1—50 yard dash.
- 2—12 pound hammer throw.
- 2—100 yards.
- 4—Discus hurled.
- 5—12 pound shot.
- 6—Pole Vault.
- 7—229 yard dash.
- 8—Running Broad Jump.
- 9—440 yard run.
- 10—Running High Jump.
- 11—120 Low Hurdles.
- 12—380 yard run.
- 13—229 Yard Low Hurdles.
- 14—One Mile Race.
- 15—One Mile Relay Race.

On Saturday after next four of the Colorado boys will go to Roscoe to take part in the T. & P. Meet. If all illegal players are kept out, as we are sure they will be, the home boys will cause people to sit up and take notice.

From the interest already manifested there will be a record breaking crowd present on Saturday to see the West Texas Meet. Everybody should come out and encourage their men on to victory.

The exercises will begin at the race track about 12:30, and last all evening. Let Colorado turn out and give them a big crowd.

Every piece of work done in my shop has my personal guarantee. J. P. MAJORS.

Iri Hicks Almanacs.

At last we have been able to get the 1911 Iri Hicks Almanac and now have them here. As it is a little late for them we have reduced the price to 20c and will send his "Word and Works" magazine three months free to each person who buys an almanac. Come on, you can't farm successfully without Hicks.

City Election.

The city election was held on Tuesday. The election was very quiet, with but little excitement. C. M. Adams was re-elected mayor and F. M. Burns, C. H. Earnest and H. F. Wheeler were all re-elected aldermen. W. H. Moeser was elected to fill the unexpired term of J. W. Bird, resigned, and T. B. Cowan was held over. Ernest Keathley was re-elected secretary without opposition. The board now stands:

- C. M. Adams, Mayor.
- F. M. Burns, Alderman.
- C. H. Earnest, Alderman.
- T. B. Cowan, Alderman.
- H. F. Wheeler, Alderman.
- W. H. Moeser, Alderman.
- Ernest Keathley, Secretary.

The Council has done, and is doing a good street work, and so far as we can learn are giving entire satisfaction.

When you buy jewelry or anything else from Majors you get the worth of your money.

Geo. Goodwin of the Cuthbert country was here Monday and said, all Mitchell county is particularly favored from a grain and cotton crop outlook, but no section of the country has anything on Cuthbert.

"I have lived in this country a good many years, but in all my experience out here I have never seen conditions more flourishing. It's a safe bet right now that grain and cotton will produce heavier yields than in 1908, when we made bumper crops. We are in excellent shape up to last week, and Sunday night's rain which was the right sort and just enough, absolutely assured us wheat and oats in the greatest plenty."

"Large acreages of oats and wheat are planted over the entire Cuthbert country. I have sixty acres in small grain and its looking elegant. Figuring on making a million or so this year."

Some Egg.
A. R. Andrews out at Westbrook brought into the Record office last Saturday a hens egg that measured 8 inches around it one way and six inches the other. If you will take the trouble to measure a common egg you will see this is more than twice the size of an ordinary egg.

Mr. Anderson says this is a common ordinary occurrence for the Westbrook country and the hen was slated over the fine prospects and was doing her part to show what Mitchell county could do when given a chance.

Quietly Married.

On Friday night last at the home of the bride's parents in South Colorado, Mr. Deal Stoneham was married to Miss Hattie Scott. Rev. W. M. Elliott officiated. It was strictly a home wedding and a very quiet affair. The young couple will make their home on the Stoneham farm near Seven Wells.

Making Good at A. & M.

A letter from Walter Whiskey at the A. & M. College says his company are off on a two days hike to the Brazos River where they live in army style. As he is quartermaster he was quite busy. They recently returned from Galveston where they viewed the monuments of the U. S. army and battle ships. Walter will graduate there in June taking a full course in architectural, engineering and has been offered a government position in the drafting department at the Panama Canal but has not yet decided to go so far from home. He says he has no easy time making his grades in the senior class as it will be remembered that he is working part of his way through this year.

Socialist Needs.

One day this week a Socialist was standing on the corner wind-jamming about like this:

"I want reform." I want land reform." I want educational reform." I want—" some one butted in and said, "liberedom."

Will Come Back.

W. R. Powell who bought a 160 acres of land off the Van Tyl ranch and left it last year, writes from Arlington and says in part. Send me the Record, how is things in old West Texas? Things look all O. K. here, corn up and a fine stand, having good rains, please be sure and send the paper as I expect to return to West Texas some time.

For Bro. Powell's information will say West Texas was never better in all its history, health, wealth and contentment await all who will return to this bully country.

Great is Colorado.

We are getting words of praise every day from our leading citizens about our fine streets. Colorado is looking better, there is no doubt about it, but there is another matter that must be attended to, the ladies of our town have been begging me to see to this at once and have promised to stand by me in this move, which is to be "The Tin Can Move."

We will give the time limit for these alleys to look their best until April 10th. Let everybody "get busy" and see that all trash, etc., is moved away by that time. The city will see to the moving after that date at only \$1.00 per load.

We are glad our good ladies have asked this and we will see to it that this work is done. Read the letter.

L. E. AYERS, City Marshal.

Mr. Ayers: You are doing wonders to our little city, but please have the alleys cleaned up.

The "FAT" from the FLOWER

Which would you prefer to put in your stomach—a fat such as lard, direct from the hog, or a vegetable product such as *Cottolene*, that is pure, healthful and easily digested?

Besides being healthful, *Cottolene* is a cleanly product. From Cottonfield to Kitchen—human hands never touch the oil from which *Cottolene* is made. Moreover, it is packed in patent air-tight tin pails—never sold in bulk—and is absolutely protected from air, dust and contamination.

We guarantee *Cottolene* to be fresh and satisfactory, or authorize your grocer to refund your money. Under such conditions why take chances with hog lard or any imitation of *Cottolene*?

There is more Catarrh, the scourge of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
