Offering and song.

Every child did beautifully showing that they had been most carefully trained.

A sermon by Rev. Coughran followed the children's exercises and then came the dinner. There is no use trying to describe it, but those who ate of it will not forget its excellence.

At two-thirty Mrs. Shaw gave a talk on Missions and drew for the audience which was delighted with her eloquence and art. She got about \$45 promised for missions and drew everybody a picture that wanted one. A short sermon was preached which closed the day's services. One thing not on the program was the lovely singing of Miss Mary Coe which delighted everyone.

Figures That Lie or Liars That Figure, Which?

The anti prohibition papers and writers are flooding the country with a mass of figures, purporting to show the terrible effects of state prohibition. FACTS—the misnamed liquor paper, is getting all over the state at SOME ONE'S EXPENSE. A few thoughts occur to the writer.

First, the brand of prohibition we have in many parts of America is not a fair sample to go by. Before prohibition can be claimed to have had a fair chance, it must be put into effect all over the nation, and must have in power at Washington a party committed to the prohibition policy. Nevertheless the poorest enforced prohibition is better than the best enforced license. But if prohibition does bring such dire results, and if the sales of liquor increase as is claimed, why should the brewers turn loose hundreds of thousands of dollars in Texas to circulate literature and defeat, if possible, state prohibition?

A great deal is being said about the tremendous amount of capital that would be thrown idle through the closing of breweries. A great majority of the saloons of the state are owned by the brewers, and so very little capital is employed in them. The census of manufactures for Texas for 1905 (which is the latest available) shows a total capital employed in manufacturing industries in Texas of \$115,664,871. The amount of capital employed in the liquor business was \$5,150,308. How little this appears compared with the total, and how soon this capital would be employed in other lines. Besides with the liquor business removed, the people of Texas would save between \$50,000,000 and \$100,000,000 a year, now worse than wasted in drink, thus providing many times the capital now furnished by the brewers.

Much is said about the increase in tax rate which would be made necessary by state prohibition. It is figured out that under state prohibition the man who paid taxes on \$5,000, instead of paying to the general fund \$2.00, would have to pay \$3.10. This takes no account whatever of the saving to the general fund of the state through decreased cost of crime. But suppose, for arguments sake, that this be a fact. Is not the man worth \$5,000 better able to pay the additional \$1.10 than the drunkard or the drunkard's wife? Is it right to make the poorest class of our population pay our taxes while those better able are allowed to go free?

Another thought. Again quoting from the census we find that in 1905 the manufacture of liquor employed 626 wage earners and paid them \$412,426. The total number of wage earners employed in manufacturing in the state at that time was 37,176 and the total amount paid in wages \$19,207,754. Again, the total cost of materials used by the various manufacturing industries of the state amounted to \$67,055,589. Of this the liquor traffic contributed the pitiful sum of \$1,094,557, while the value of the product is given as \$4,133,936 out of a total value of manufactured products in the state of \$110,748,929. How pitifully small appears the contribution of the liquor interests to the prosperity of Texas, even viewed entirely from the "dollar" standpoint.

SCHOOL HOUSE BONDS SOLD.

CONTRACT LET FOR A NINETEEN THOUSAND DOLLAR BUILDING OF MODERN DESIGN.

Twenty-one or Two Thousand Dollars in School Treasury—Building to Be Finished Throughout With Best and Latest Equipment.

The Colorado Independent School district bonds have been sold and money received. The \$10,000 bond issue that has been pending for some time is now settled and the bonds have been sold. This week the secretary of the school board, S. D. Vaughan, received a check from the state department for \$10,000 for the bonds, this was followed by another check of \$322.23 accrued interest, which added to the \$10,200 already on hand makes \$20,522.23 besides a \$1000 note against the little school building making nearly \$22,000 in the treasury. The board got busy and wired the contractor to sign up contract and go to work. It will be understood that the board sometime ago adopted the plans for a beautiful building to cost \$18,801.70 and had signed the contract waiting the sale of the bonds.

The contractor is urged to begin and from this must be subtracted \$1900 for the old material on the ground so the board say only \$16,901.70 for the building which will leave them nearly \$5,000 to equip the building when completed.

The contractor is urged to begin work at once and it is hoped to have it completed by not later than November 1st. The board has been very careful and diligent in the selection of the incoming Faculty and as completed it now stands: W. W. Hart, Superintendent; Miss Nannie Ellis, Principal; High School; Richard Galbraith, Latin and German; Miss Cromwell, Miss Alice Shuford, Miss Mattie Lyod Irvin, Miss Ruby Cromwell, Miss Louise Coe, Miss Mamie Riordan, Miss Pearl Graham.

Remit by money order direct to the Record Co., Fort Worth, Texas.

Every farmer should become thoroughly posted on this great vital question and the RECORD can be depended upon to give both sides of the question fully and impartially.

About Three-Thirds True.

A dollar and a penny once happened together in the same pocket and the dollar at once began to put on airs like a red cow in a new barnyard. "I am a big gun" said the dollar, "and you are nobody. I am white and bright and you are only a dull, mud-colored little Indian. I am religious for I am all the time saying 'In God We Trust' and you are only a pagan. I am a patriot, for on one side I have the American Eagle, and on the other the Goddess of Liberty, and I buy lots of fire works on the fourth of July. I am heavenly minded. I have stars to think about and you don't have anything. I am precious, for I am nice bright silver and everybody wants me. But you are only base copper, and nobody cares a snap for you." "That may be so," said the poor little penny. "You may be more religious than I am; but I go to church and Sabbath school more than you do."—Byers Herald.

A Road Builder.

Mr. T. J. Record, President of the Lamar County Good Roads Association, and a banker at Paris, Texas, whose motto is: "When business interferes with building public roads, quit your business." Mr. Record quit his bank and managed the campaign for issuing \$300,000.00 in road bonds in the Paris precinct of Lamar County and carried the election by a vote of 13 to 1. A full vote was polled.

The Good Roads Association of Lamar County began its work by requesting the Federal government to send an engineer to Paris and inspect the roads in the proposed district and estimate the cost of construction. The report submitted by the government expert showed it would cost \$5,000

T. J. RECORD.

per mile to permanently improve the road and a campaign on that basis for a bond issue of \$300,000 was opened. Any community in Texas can secure a similar service from the government of cost by writing Mr. L. W. Page, Department of Public Highways, Washington, D. C.

A petition for a bond election was the next step necessary and the law required only fifty signatures; one thousand signers to the petition were secured.

The master stroke in the campaign was sending a committee of four members to adjoining counties to inspect roads recently built by bond issues and to talk with farmers along the route. The committee was composed of two business men who favored the bond issue and two prominent farmers who were leading the opposition. The farmer members of the committee saw, heard and were convinced. They returned to Paris good roads enthusiasts and spent the last four days of the campaign in the saddle riding over the precinct like repentant sinners, confessing the error of their ways and preaching the gospel of progress and prosperity.

On election day captains were placed over each block in the city and the rural districts were likewise subdivided and the territory covered by progressive farmers.

Meetings were held at seven school houses in the rural district each evening during the last ten days of the campaign and the power of the press thundered out for more roads and better roads. The campaign was a successful one and to the intense interest of the business men is credited the results of the election.

Wilson of Sweetwater and the defendants were represented by Judge Ed W. Smith and H. S. Garrett of Sweetwater. Motion was made for a continuance but was overruled and the case went to trial with a battle royal between the legal fraternity.

Monday morning the commissioners met in special called session and the first thing taken up was the matter of compiling the delinquent tax list for the past 25 years. The contract was awarded W. R. Long of Austin for \$500.

The Books of the Bible.

By W. E. Berry.

In Genesis we read the world was made by God's creative hand, in Exodus the Hebrews march to gain the Promise Land;

Leviticus contains the law, holy, just and good,

Numbers enrolls the tribes all sons of Abraham's blood,

Moses in Deuteronomy show forth God's mighty deeds,

Joshua into Canaan land the host of Israel leads,

In Judges their rebellion oft times cause God to strike,

But Ruth records the faith of one most pleasing to his sight,

First and second Samuel of Jesse's son we read,

First and second Kings ten tribes revolted from his seed,

First and second Chronicles see Juda captive made,

But Ezra leads a remnant back by Prince Cyrus' faithful aid,

The city's walls of Zion, Nehemiah builds again,

Whilst Esther saves her people from the wicked plots of men,

In Job we read how faith will live beneath affliction's rod,

David's Psalms are precious songs to every child of God,

The Proverbs like a string of godly pearls appear,

Ecclesiastes teaches how vain all things are here,

The sweet songs of Solomon enrapt sweet Sharon's rose,

Whilst Christ the Saviour and the king the wise Isaiah shows,

The warning Jeremiah apostate Israel's scorn,

Than in his Lamentations their awful downfall mourns,

Ezekiel tells of dazzling things and wondering mysteries,

Whilst kings and emperors yet to come Daniel in visions see,

Of judgment and of mercy Hosea loves to tell,

Joel describes that blessed day when Christ the risen Lord,

Micah pronounces Judah lost but again restored,

Nahum declares on Ninevah justice shall be passed,

In view of Chaldea's awful doom Habakkuk in visions give,

Zephaniah warns the Jews to turn repent and live,

Haggai wrote those who saw the temple build again,

Zechariah prophesied of Christ's triumphant reign,

Malachi the last one to touch the high prophetic cord,

His warning notes sublimely show the coming of the Lord,

Matthew, Mark, Luke and John, the holy gospel wrote,

Describing how our Saviour died, His life and how He taught,

Acts shows how God the apostles own, with signs in every place,

St. Paul in Romans tells how a man is saved by grace,

First and second Corinthians rebukes, exerts, reproves,

Galatians shows that faith in God the only Saviour loves,

Ephesians and Philippians show what christians should know,

Colossians bid us live in love and for eternity,

In Thessalonians we are told the Lord shall come from heaven,

Timothy and Titus a bishop's duty is given,

Philemon marks a christian's love which only christians know,

Hebrews reveal the gospel's message figured by the law,

James teaches us that without faith holiness is vain and dead,

St. Peter points to that narrow way in which the saints are led,

John in his three Epistles of love delights to tell,

Jude give us awful warnings of judgment, wrath and hell,

John in Revelations prophesied of that great judgment day,

When Christ and Christ alone shall bid the trembling sinners stay.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as attested under oath, are Stone root (*Collinsonia Canadensis*), Bloodroot (*Sanguinaria Canadensis*), Golden Seal root (*Hydrastis Canadensis*), Queen's root (*Squilla Siliquosa*), Black Cherry bark (*Prunus Virginiana*), and Drake root (*Podophyllum Peltatum*), with triple refined glycerine, prepared in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

Fishermen Returned.

Judge J. E. Hooper, J. A. Buchanan, J. P. Billingsly and Dr. W. A. Morrow, who are followers of Sir Isaac Walton, returned last week from their Paint Rock fishing trip and of all the big fish stories ever heard in Colorado they have been told. Peter was a fisherman by profession and he lied three times. He had been with Christ every day for nearly three years and yet when a little frisky maiden pointed her finger at him he wilted and lied—lied three times and to clinch it "cussed" like a Roman soldier.

The trouble with Peter was that he had been a fisherman by profession and all fishermen, of course are natural born liars. But Peter didn't always lie. He quit after his experience with fire at Pentecost; and so the reader must not get the idea that these fishermen are in the line of apostolic succession just because they are addicted to prevarication. Billingsly said the bluffs where the painted rocks were 300 feet high. Morrow declared he ranched there 75 years ago. Buchanan sat on a log and was heard to say:

"Oh, that I were Willie with my bare feet in the 'crick,' fishing with a string that dangled lightly from a crooked stick; free from all foolish troubles that ambition has come to bear, not caring that I was freckled and without a hat to wear; Oh, I wish that I were Willie, with my back against a tree, where I could not hear my mother calling anxiously to me."

We have been requested to withhold from publication just what Judge Hooper said about the number and size of the fish caught.

The 119 mile run and return was made by the E. M. F. 30 car without a hitch or least trouble.

Washington Letter.

Washington, May. (Special.)—The resignation of Secretary of War J. M. Dickinson was a surprise to the public but not to those who were in his confidence. Mr. Dickinson's relations with the administration have been entirely cordial and harmonious. He resigned because of business demands upon him in his home state Tennessee. He entered the cabinet, as subsequent events proved, at a considerable sacrifice, relinquishing a salary as an attorney for a railroad company twice that of his federal office, and since he has been with the Taft administration he has had the misfortune to lose a large part of his fortune, which he will now endeavor to retrieve. Those who know the facts are assured that there is not the slightest political significance in the step he has taken.

Henry L. Stimson, of New York, who succeeds Mr. Dickinson as Secretary of War, first came into national notice as the Republican candidate last summer for Governor of New York who was nominated in the convention by former President Roosevelt. President Taft, as soon as Mr. Dickinson indicated his earnest desire to quit the cabinet, was predisposed to Mr. Stimson, but consulted Senator Root who heartily approved the idea of the appointment. He has had no experience in military affairs, but as an active and leading member of the New York bar his practice has embraced considerable relation with governmental affairs.

Something unique and indeed aboriginal in the way of a petition has reached Congress. It has come to Speaker Champ Clark and bears 66 signatures in what looks like blood—every name in red.

It is a protest from the Chippewa Indians of the White Earth Reservation in Minnesota against what they allege is an attempted legalization of fraudulent land sales of their reservation. The signatures are in the prints of thumbs dipped in poke-berry juice. The first name signed to the document is that of a chief, May-zhuc-he-gwonobe.

The first Congressional Directory for the Sixty-Second Congress presents its usual interesting disclosures as to the personnel of the membership of the two houses. Examination of the biographical sketches of members shows the notable fact that average age of members of both houses is younger than usual, and that this lowering of the average age has come largely through Democratic gain made at the last election. The oldest Senator continues to be Isaac Stephenson, of Wisconsin, who is just four months older than Senator Shelby M. Cullom, of Illinois. The youngest senator is Luke Lea, of Tennessee, who was thirty-two April 12, and who is with one exception the only senator under forty years of age. The next youngest is Senator Nathan Philemon Bryan of Florida who is seven years older than Mr. Lea. There are just forty members of the House who are under

forty years of age, and 36 of these are Democrats. The youngest is William Francis Murray, of Massachusetts, who succeeded John A. Keliher from one of the Democratic Districts of Boston. The next youngest is Byron P. Harrison, of one of the Gulf Coast Districts of Mississippi, who succeeded Eaton J. Bowers. Murray will be thirty years old September 7, while Harrison will reach thirty August 29. General Isaac R. Sherwood, representing the Ninth (Toledo) Ohio District, Gen. Sherwood will be seventy-six August 13. The next oldest is former Speaker Cannon, who celebrated his seventy-fifth birthday on May 7, according to accounts of his realization of the event by dancing a jig.

It is also interesting to observe that the chairman of many of the important committees are young men much younger than has been the average. Senator Penrose, chairman of the committee on Finance is fifty. Oscar W. Underwood, chairman of the committee on Ways and Means had his forty-ninth birthday just the day before Uncle Joe Cannon danced into his. John J. Fitzgerald, of New York, chairman of the committee on Appropriation, is just thirty-nine, although the average age of the fourteen Democrats of the Ways and Means Committee is forty-five, while the average age of the seven Republicans is fifty-eight. Dallzell and Hill, of Connecticut, are just two years younger. Members of the committee who are under forty-five are Harrison of New York; Kitchin of North Carolina; James of Kentucky; Hughes of New Jersey; Hull of Tennessee; Peters of Massachusetts; Palmer of Pennsylvania, and Longworth of Ohio.

Miss Stoneroad's Piano Recital

A FEAST OF MUSIC AND SONG BY HER PUPILS.

A Japanese Cantata, Rendered Equal to Grand Opera.

After many weeks of preparation, Miss Stoneroad's pupils gave a piano recital and cantata at the opera house last Friday night. It was an ideal evening and a large crowd early assembled to hear the program, as all who ever attended one of Miss Lucille's recitals, knew it would be well worth hearing. But of all her entertainments this one was probably the most interesting and enjoyable of them all.

The stage was tastefully decorated in Japanese design, being set for a garden with many lanterns suspended from above, and bright colors in Japanese combinations. At 8:30 the program opened with a duet by Lela and Irene Whipkey and followed by solos by Grace Mann, Inez Nunn and Lottie Landers; then a trio by Annie McMurry, Winnie and W. B. Crockett; two solos by Maxwell Thomas and Ethel Wells; duet by Mabel Earnest and Leonard Simon; solos by Lela Whipkey and Hazel McKenzie; duet by Eula Campbell and Ada Mae Yates; solos by Marion Adams, Carrie Mae Cooksey, Marguerite Beal, Lula Mae Dulaney, Juanita Pond, Neppie Branch and Nora Blandford; duet by Roxie Coughran and Pauline Payne; finishing with solos by Fannie Farmer and Jeanette Earnest.

In this part of the program she was most ably assisted by Mr. Tobe Cohen of New York City, who rendered a beautiful and splendidly executed violin solo.

Space would not permit us to mention individually those who took part in the program but we wish to say that each and every one, from the tiny tot of the beginners to the young ladies finishing the course, performed in such a manner as to reflect great credit upon themselves and upon Miss Stoneroad as their teacher.

Miss Lucille, as she is more generally called, has been teaching her for years. Having acquired her musical education from some of the best masters, and finishing at the Chicago Conservatory of Music, together with her natural aptitude, patience and conscientious work, makes her specially fitted for her position. Her pupils all love her and her patrons admire and respect her, not alone for her ability as a musician, but for her lovely disposition and engaging manners. That her work has been a success the past year was fully demonstrated at this recital.

At the close of the recital, Dr. A. H. Weston stepped upon the stage and in his usual pleasant manner spoke a few appropriate words, and in behalf of Miss Stoneroad presented the three medals, as follows:

Beginners, Lula Mae Dulaney; Intermediate, Ethel Wells; Advanced, Jeanette Earnest. These were beautifully engraved gold medals and were more fully appreciated by the pupils because they came as a surprise.

Perhaps the most beautiful part of the entertainment was the second part—the Japanese Cantata, "Princess Chrysanthemum." In this part there were about sixty persons composing the players, ballet, fairies and sprites. The actors proper were in Japanese costumes, while the fairies were in white with decorations of silver, and the sprites in pretty red costumes. The drills and dances were well executed and were most beautiful. The play was only a little plot, serving as a means to introduce the singing. The chorus singing was splendid as was also that of Miss Mary Coe, who was the Princess and sang several solos, as well as leading the chorus. The sprites (the sprites) sang their lines with as much feeling as the grown-ups, and what they lacked in volume they made up in enthusiasm. Irene Whipkey, Queen of the fairies, sang her part very sweetly. W. B. Crockett, as "Saucer Eyes" the Wizard Cat, was fine. The young men, Fred LaDora as the Emperor, Milburn Doss, Prince So-Tru, and Fred Glisson as Prince So-Sli all did well in their parts and brought many rounds of applause.

Miss Stoneroad feels very deeply the applause given her recital and the many kind words of appreciation which have been expressed and she specially wishes to thank Mr. Cohen for his violin number, Miss Coe for her singing, Miss Lela Whipkey who so ably played the accompaniments, and Messrs. Doss, Glisson La Dora and others for the parts they were kind enough to play for her.

Between parts 1 and 2, Prof. La Dora gave a splendid exhibition of baton and gun spinning.

All in all it was one of the most

enjoyable events of the kind ever rendered in our city, and all look forward to Miss Lucille's recital next year with a lively anticipation.

Cake Baking Contest.

MISS ISLA SMITH WINS THE FIRST PRIZE—SIXTY CAKES WERE ENTERED IN CONTEST.

About \$30 Realized For the Public Play Ground Association and Improvements Will be Made.

Saturday was a great day for the ladies of Colorado who were cooks and a very busy one for the members of the playground association. The Cottolene baking contest was held in Burns and Bell's grocery store for the benefit of the playground association. Mr. Lake, representative of the Fairbank Company arranging this.

Sixty cakes were received and six loaves of bread. The judges were Mesdames Welch, Ott and Bass, all strangers to the cooks in town. All the cakes were good and it took a long time to sample and test them all. While this was being done Mrs. Ratliff, Mrs. Landers, Mrs. Annis, Mrs. A. L. Whipkey and Mrs. Merritt assisted by a bevy of charming young ladies consisting of Misses Lela and Irene Whipkey, Mable Smith, Nora Blandford, Jeanette Earnest, Winnie Crockett, Lena Key, Abbie Thomas, Mabel Ratliff and Louise Coe served coffee and wafers to all who came in. This was provided by the grocery store and was very nice indeed. Up in the gallery a string band of four pieces played splendid rag time and dance music and kept the crowd below patting their feet and in some instances a dance was undertaken. The building and sidewalk was filled with people at eight o'clock, the time set for auctioning the cakes and awarding the prizes.

Mr. Patterson read the list of prizes and acted as auctioneer. The first prize went to Miss Isla Smith and with it she received a gold medal from the Cottolene Company. Mrs. Ratliff secured second and a silver medal. Mrs. Will Singleton third and Mrs. W. B. Crockett fourth. These were all nice assortments of groceries given by Burns & Bell. For the largest number of cakes Mrs. Barcroft received a set of scissors from Doss & Johnson.
