JUDGE WM. F. RAMSEY STRONGLY ENDORSED FOR GOVERNOR

Citizens of Cleburne Enthusiastically Adopt an Address to the Democrats of Texas.

Cleburne, Tex., Jan. 18.—A number of Cleburne's prominent and influential citizens met at the Court House last night to endorse the candidacy of Judge Wm. F. Ramsey for Governor of Texas. A large and representative attendance was present and there was a great deal of enthusiasm shown in favor of his candidacy. A number of speeches were made.

The address adopted by the meeting is as follows:

TO THE HONORABLE H. P. BROWN, CHAIRMAN:

We, your committee heretofore appointed by you at a meeting held by a large and representative gathering of the Democrats of Johnson County, called together for the purpose of expressing in a public way to the Democrats of Texas our knowledge and appreciation of Judge William F. Ramsey as a neighbor, citizen and Democrat, and to thus manifest in some small degree our interest in his candidacy for Governor of this State, hereby recommend the adoption by this gathering of the following address:

TO THE DEMOCRATS OF TEXAS:

This committee and the signers of these resolutions, as well as the citizenship which created it, is composed of men who have come together from the various walks of life who have not always heretofore been agreed, either with respect to men or measures, politically, and who do not now pretend to hold the same opinions on some questions, both State and National, of moment and importance to the people. They, however, are a unit in the belief that under present conditions the candidacy of Judge Ramsey for Governor is not only opportune and justified, but that the public weal demands it, to the end that hatred and ill-will may be eliminated from our politics and driven from the administration of our public affairs, in the hope that harmony and good feeling may be restored among our citizens and that strife and bitterness shall no longer find an abiding place in the several departments of our State Government; so that every interest and every individual shall feel and know that fair play, a square deal and justice under the law will be the moving spirit in the administration of the Governor's office and that this high plane will be reached in every department of the governmental service.

Judge Ramsey's father, Captain J. J. Ramsey, moved to Johnson County from Gonzales County more

than fifty years ago. Judge Ramsey, a child then, has continued to make this his home and the greater number of us have been witnesses of his conduct and life from his boyhood to the present hour.

In his early life he attended the old-fashioned frontier schools of the country and villages, typical of those days. As he approached manhood he became a student in Trinity University, at Tehuacana, where after some years of study he graduated. His early life was not different from that of the average of his kind, among whom he grew to manhood. Coming on the scene of action in the days following the Civil War, his lot was that of the average boy whose father had sacrificed his fortune and health in the interest of the South, the cause he so well loved but lost, the Confederacy, his father having been a Confederate soldier without stain or blemish on his record and to his death desiring no greater honor than to be numbered with those who defended their flag and their homes. After the war Captain Ramsey was a farmer and later a merchant, spending his last years under the roof of his son, Judge Ramsey, who delighted to honor and care for him.

Judge Ramsey has always been a Democrat, with faith in the fundamental principles of the party and never questioning the wisdom of its action in enunciating platforms in State or National conventions and always supporting the nominee of the party as though he were his personal choice, without reference to past differences or beliefs. In 1884 he was a presidential elector on the Cleveland and Hendricks ticket, making an active canvass of the district. He was ever active in support of the party and its nominees in all the contests in which the life and success of the Democracy was involved, and no man gave more of his time and means according to his ability in support of the party than did Judge Ramsey. He was a partisan and one of the most successful organizers in this part of Texas, but possessed the faculty so few of us have of being able to use the soft word that turneth away wrath, rather than indulging in biting sarcasm. It has therefore been his good fortune always to have the good will of his political opponents and to be in a position to become a pacifier and healer of party wounds, without weakening his influence or compromising any principle involved.

Judge Ramsey for more than thirty years has not been a candidate for any office, except for the position on the Court of Criminal Appeals to which he was elected without opposition. His interest in good government has been confined to the advocacy of measures and the support of candidates in harmony therewith and in this he has been active, zealous, untiring and unselfish. His success at the bar was attested by a large clientele and he commanded a position side by side with the ablest lawyers in Texas. In the thirty years of his active practice no defeat was ever so calamitous but that Judge Ramsey was ready to assume full responsibility for the result, and no victory was ever so great that in his modesty and mag-

nanimity he did not insist on the credit being given to those who were associated with him. A notable trait of his character was evidenced by his courteous demeanor and deference to the rulings of our minor courts, according to a justice of the peace of the remotest precinct the same dignity in his court as to the Supreme Judge. To the young and inexperienced practitioner he was at all times careful to consider his lack of familiarity with the procedure and practice, never aiming an arrow to wound his pride or humiliate him before his clients and the public with the view of emphasizing his own superior knowledge or experience. His attainments as a lawyer were further attested by a satisfactory service in which he achieved a well recognized distinction both on the Court of Criminal Appeals and on the Supreme Court. During his entire career in these great positions no partisanship or prejudices have reached or effected him. He has been brave enough and just enough, as we believe, to decide every case according to the law and its merits, without reference to popular clamor or public opinion, looking to the law for his guide and to posterity for vindication. In knowledge of our laws, our courts and the political history of the State, it would seem that Judge Ramsey has enjoyed peculiar opportunities to know, and has come to know beyond most men of his time, their purpose and their end.

In his business life he has been successful, without oppression or imposition. He was for many years connected with the public schools of our city and has demonstrated his unselfish devotion to their welfare and his interest in public education. The father of a large family, he has been a consistent and continuous patron of the public free schools, and, as ability and opportunity offered, of the State's higher educational institutions. He has always been liberal in his aid of all worthy enterprises and is among our most public spirited citizens. No case of charity was ever permitted to pass him unaided. For many years he has been in a position to render special service to the unemployed, to the young and struggling members of his own profession and to those needing the counsel of a wise adviser and the aid of an unselfish friend and in this respect it is not too much to say that few men have ever lived in Johnson County who have rendered more of unselfish service to his fellowman than he. The doors of his office and his library were never closed to the struggling, ambitious young man seeking to prepare himself for the law and his advice and tutorage were never denied where time and opportunity made them possible.

Politically he is sound in the essentials of the Democratic faith. He believes in clean politics, pure elections and good government; the protection of labor; the encouragement and protection of capital; the development of the resources of the State and a general forward movement. He has executive ability of a high order, is willing to listen to those entitled to an audience and while a man of settled convictions, unswerving integrity and rigid determination, he has at the same time the equable temperament which is willing to hear and the kind nature which invites confidence and discussion. It is believed by those who have known him the longest and best that his election as Governor of this State would mark a new and better era in Texas; that under his guidance the administration of law, civil and criminal, would be improved; harmony restored in the State Government; our educational institutions enlarged, bettered and encouraged; the laws better enforced and every man and woman in Texas made to know that there is a chief executive in Austin who regards himself as the holder of a sacred trust and as the servant of all the people.

Judge Ramsey is now, and has for many years been, in favor of State-wide prohibition. He advocated and voted for prohibition in 1887, as he did during the recent contest. Some of us have not believed, and do not now believe, that this method of treating the liquor question is soundest and best, but while we may not all agree with him upon this of other issues we all agree and unite in urging the Democracy of Texas to support his candidacy, on the ground that it stands for that which is best and dearest to the people of this State.

Among other things for which his candidacy stands may properly be mentioned the following:

1. Limitation of the amount of money to be expended in campaigns for nomination or election, and for publicity of contributions and expenditures both before and after election.
2. The prohibition of contributions by breweries, saloons and other selfish interests to campaign funds in this State.
3. For the improvement of our election laws, to the end that the ballot may be free and pure, and that each citizen of this State shall be entitled to one vote, and one vote only, and that freely cast and honestly counted.
4. For majority nominations, to the end that neither the demagogue nor servant of special interests may ever again be nominated for office in this State by a bare plurality.
5. The nurture, encouragement and extension of our educational institutions, from the common school to the State University, including the Agricultural and Mechanical College and the several normal schools.
6. For the protection of labor and its well being, by means of a just employers' liability and compensation act, as applied to hazardous occupations, and a Board of Conciliation and Arbitration.
7. For the encouragement, betterment and improvement of conditions of agriculture and those engaged in it, as well as stockraising, by means of larger and improved agricultural experimental stations in the charge of practical farmers, and all proper means to protect and advance these vast interests.
8. For such reforms in our code of civil and criminal procedure as will insure justice, save expenses and rid our system of foolish and unwise technicalities.
9. For re submission of the prohibition amendment and for the regulation of the liquor traffic in a sincere effort to minimize the evils of the open saloon, including a "day-light closing" and "original package" law and the removal of saloons from the residence sections of cities and towns, until State-wide prohibition can be attained.
10. Wise and efficient laws with reference to the development of the natural resources of the State, encouragement of manufacturing, conservation of storm waters and a wise and effective system of irrigation and drainage.
11. A hundred cents' worth of effort for every dollar of the public moneys expended in every department of the government and by every officer and employe from Governor down.

We beg to urge our fellow citizens of Texas who are actuated by a patriotic desire to improve the public service and to restore good government to the hands of the people of the State, to join us in the movement to assure the nomination of Judge Ramsey, in the belief that he has the ability and patriotism to meet the fair measure of every Texan's idea of what a Governor should be.

Two farmers are separated by a wire fence. One is short of feed, because his corn failed. The other has made some corn. One must buy all his feed, while the other has green pasture for his stock all winter. One has planted his cotton fields to wheat and rye. The ground is now green with good pasture, and next spring when he plows under the wheat and rye his land will be enriched. Meanwhile, his soil is not leached during the winter rains and suns. The other farmer has no green feed for his stock. One has always something to sell. The other has nothing to sell except cotton. There are farmers and farmers.

ENDORSED BY COUNTY BARS

Hon. W. P. Leslie Receives the Endorsement of the Bars of Mitchell, Borden and Howard Counties.

Indicative of the strength Hon. W. P. Leslie is developing in his race for the office of district attorney, the endorsement of the bars of Mitchell, Howard and Borden counties is very encouraging. It is the purpose of Mr. Leslie to make a clean canvass for the office, on the high plane of qualification and general fitness. The following speak for themselves:

Colorado, Texas, Jan. 23, 1912.—We, the undersigned attorneys of the Mitchell County bar, hereby endorse the candidacy of W. P. Leslie for the office of District Attorney for the Thirty-second Judicial District of Texas, and recommend him to the people of the district as a capable, energetic, fearless and efficient lawyer who will discharge the duties of the office if he is chosen to fill the same, in a manner that will reflect credit both on himself and his constituency. For four years Mr. Leslie has been County Attorney of Mitchell County, and he has been exceptionally efficient as a prosecuting attorney and has there gained a valuable experience in such duties.

Big Springs, Texas, Jan. 18, 1912. To Whom it May Concern:

We, the undersigned attorneys of the Big Springs bar, heartily endorse W. P. Leslie for the office of District Attorney of the Thirty-second Judicial District of Texas.

We take pleasure in recommending him to the voters of the District as a competent attorney and as one whom we believe will discharge the duties of the office, if elected, in a competent manner.

- Very respectfully,
H. R. DEBENPORT,
S. H. MORRISON,
JOHN B. LITTLER,
S. A. PENIX,
JAS. T. BROOKS,
T. F. GRISHAM,

M. H. MORRISON.

Gall, Texas, Feb. 3, 1912.

We, the undersigned members of the Borden County bar, hereby endorse the candidacy of W. P. Leslie, of Colorado, for the nomination for the office of District Attorney of the Thirty-second Judicial District of Texas.

- C. R. FIELDS,
Co. Atty. Borden Co.

J. L. CARROLL,
JOE J. GOOD,
County Judge.

W. P. Leslie for District Attorney.

In this issue of the Times is given the announcement of W. P. Leslie as candidate for the nomination to the office of District Attorney of the 32nd Judicial District, composed of Borden, Martin, Howard, Mitchell and Nolan counties; and in his announcement, he states that "I appeal to no man for his vote and influence by reason of any special relation or kindly feeling to me individually, nor because I do, or have, resided at any particular locality, but only in the event he honestly believes I can and will, under all the circumstances, best discharge the responsible duties of the office." That, it seems to us, is placing the campaign on a high and broad plane and if the voters of the district take that principle as a standard and guide and not some irrelevant or immaterial matter, they will be able to secure the most efficient man for the office and one who will best discharge its duties. We have known Mr. Leslie for a considerable time and can vouch for him as a man of character and integrity and who will never give those who select him as such official any cause for regret.—Roscoe Times.

SITUATION IN MEXICO GRAVE.

Orozco Lead Rebellion. — American Troops are Prepared for Action.

Washington, Feb. 6.—Another uprising is impending in Mexico according to official dispatches received here today. They cast grave doubt on the loyalty of General Orozco to President Madero and intimate that Orozco is about to begin a new rebellion and declare Chihuahua an independent state. Preparations for action are being renewed in army circles.

Savannah, Ga., Feb. 6.—Instructions were received here today at Fort Screven for three companies of coast artillery to get ready to go to Texas at once.

Pensacola, Fla., Feb. 6.—Two companies of artillery at Fort Barrancas were ordered to the Mexican border today.

Washington.—A few hours developments have put the forces of the United States army on marching orders and field equipment are also ready. Several thousand soldiers are resting on their arms, ready when the call comes. It is reported that the entire state of Chihuahua is in revolt.

OATS CASE BACK TO AUSTIN.

Negro Charged in Connection With Dallas Killing Before Criminal Appeals for 5th Time.

The case of Burrell Oates is before the court of criminal appeals for the fifth time and involves the death penalty, as in the four previous appeals. Oates has obtained reversals on these four former occasions and has been tried seven times, one having resulted in a mistrial and the other instance a juror became ill and brought the trial to an abrupt end.

Sol Aronoff, a merchant in Dallas, was murdered, presumably for robbery. Holly Vann was sentenced to death as a result of the crime, which was committed on November 29, 1904, and the execution took place. Oates, more fortunate, has obtained reversals. It remains to be seen whether he will hang this time or get a fifth reversal. Since the docket of the court of criminal appeals is somewhat congested, it will probably be some time before the case is submitted and decided.

Surprise Dinner.

On Wednesday evening the girls of the Senior Class of the High School, surprised their teacher, Miss Ellis, by preparing a feast, and all going in a crowd to her home to eat it and enjoy the evening. After all had eaten of such good things as fried chicken, Saratoga chips, olives, sandwiches, salad, ambrosia, cake and chocolate, to their fill, toasts were given in rhyme, but they are too deep for us to fathom, so those wishing to know about them will have to call on the young ladies for a copy. Miss Ellis was very pleasantly surprised and the young ladies enjoyed the evening very much as indeed they always do when they can be entertained by their teacher. Miss Ellis is held in the highest esteem by both this class and their nannies. The latter always feel quite at rest when their daughters are under her chaperonage.

Unparalleled Opportunity.

Attention is directed to the page ad in this issue of the Record of E. E. King, who has purchased the entire stock of the Colorado Dry Goods Company and will throw it upon the market, beginning Saturday, February 10th and continue for ten days. In this time the entire stock, consisting of \$10,000 worth of reasonable dry goods, boots, shoes, clothing and notions, must be disposed of. Prices will be cut half, and some of the goods will be absolutely given away. This will be a great slaughter of prices and an opportunity to buy many things every family will need now and later on. The goods will be moved, if prices can do it. This is one opportunity where you can get first-class dry goods at your own price. Read the ad in this issue, make a memorandum of your wants and go to this big sale on the opening day. It will well pay you.

Church Tea.

Thursday at the home of her brother, Miss Louise Webb gave an exceedingly pleasant tea for her church guild. This was an unusually large affair, all of the Episcopalians and numbers from the other churches being present, and thoroughly enjoying the pleasure of meeting each other. A clothes-pin contest was the amusement provided, which caused much merriment. A delightful refreshment course of salad and coffee was temptingly served. The financial part of the affair was entirely successful as well as social. A nice sum being made for the guild.

Burns & Bell

Judge Swayne of Fort Worth, held sensibly when he said that reading newspapers did not disqualify a man from serving on the jury. Such a policy puts a premium on ignorance and the judge is to be congratulated for his stand. If men are to be disqualified from jury service because they are too lazy to keep posted on what is happening, let's abolish our public schools and return to the cave and the mountain side. Because a man reads and thinks is no reason why he cannot render a safe and sane verdict under the law and according to the evidence, but is all the more reason why he should be able to give a just verdict. The foolish course in selecting juries has been the cause of much of the lax justice, and has done a great deal to minimize and discredit the law. Anything that belittles the law should be abolished immediately. We need greater respect for and a larger confidence in the law, and, if we are to get it, we must see to it that our courts are released from the fetters that have bound them so closely in the past. Intelligence must be regarded and ignorance discredited.—San Angelo Standard.

Nothing is of real value in the world except people. Never hurt a person by a wrong thought, or by act. Never hurt each other. Then go on a big discovering expedition and find each other. Never say, "That person has nothing in him," for that only means that you haven't found it yet. Then, last of all, never think you are the only person. You are just a part of "each other." You are not somebody else. We are each other. Life is each-other-ness not everybody-else-ness.—St. Nicholas.

Abilene is discussing the feasibility of a peanut factory. There is no doubt about the peanut being a successful crop in west Texas, and one of the best ways to encourage the planting of the crop, is to insure a ready market for it. Every farmer in Mitchell county who put in any amount of peanuts last year is more than satisfied with the result. Considering the amount of time, work and cost of seed, it beats any crop now grown. The town that gets up and goes after the things it needs, gets the prize.

We have for sale, Typewriter ribbons for all machines. Guaranteed to be the best at only 75 cents.

If evidence were lacking to prove that advertising in the Record brings results, the same can be found in the ad of Winn & Payne in this issue of this paper. The advertising this firm paid for in the issue of the Record of December 15th, was but a small part of the free advertising the firm received. It was not only a successful ad as it related to the purchasing public, but it gave the firm of Winn & Payne greater respect and higher prestige with the manufacturers whom they represent. The value of that ad to Winn & Payne cannot be expressed in a money equivalent.

Real severe sand storms have not been very prevalent the past six months, but west Texas always evens things up and maintains a general average in its weather. Last Saturday was as perfect a day as the most exacting could wish until about ten o'clock, when the wind began to blow, and by noon and for three hours, the atmosphere was thick with sand, gravel and other substantial evidences of a windy day up Amarillo way. While it lasted it was of the simon-pure brand, but toward the shank of the afternoon the wind abated and left as reminders a lower temperature and a coating of sand about half inch thick over everything not in doors.

With the impetus given the idea of farm demonstration work for West Texas by the National government agreeing to expend money and effort in co-operating with the state and its counties along that line, is given a further boost by the Texas & Pacific railroad company, establishing an agricultural department and promising to put a corps of men, trained in scientific agriculture and horticulture at work and who will devote their entire time to educational work and demonstrations along those lines.

John Wesley, a long time ago, said he had noticed that the farmers who lived along good roads were uniformly prosperous, while those who lived along poor roads were almost as uniformly poor themselves.

Animal husbandry will enable you to build up the farm by the use of barnyard manure and help you to become independent of low-priced cotton. Get good animals and plant crops to feed them.

Doctors Said Health Gone

Suffered with Throat Trouble

Mr. B. W. D. Barnes, ex-Sheriff of Warren County, Tennessee, in a letter from McMinnville, Tennessee, writes:

Mr. B. W. D. Barnes.

"I had throat trouble and had three doctors treating me. All failed to do me any good, and pronounced my health gone. I concluded to try Peruna, and after using four bottles can say I was entirely cured."

Unable to Work.

Mr. Gustav Himmelreich, Hochheim, Texas, writes:

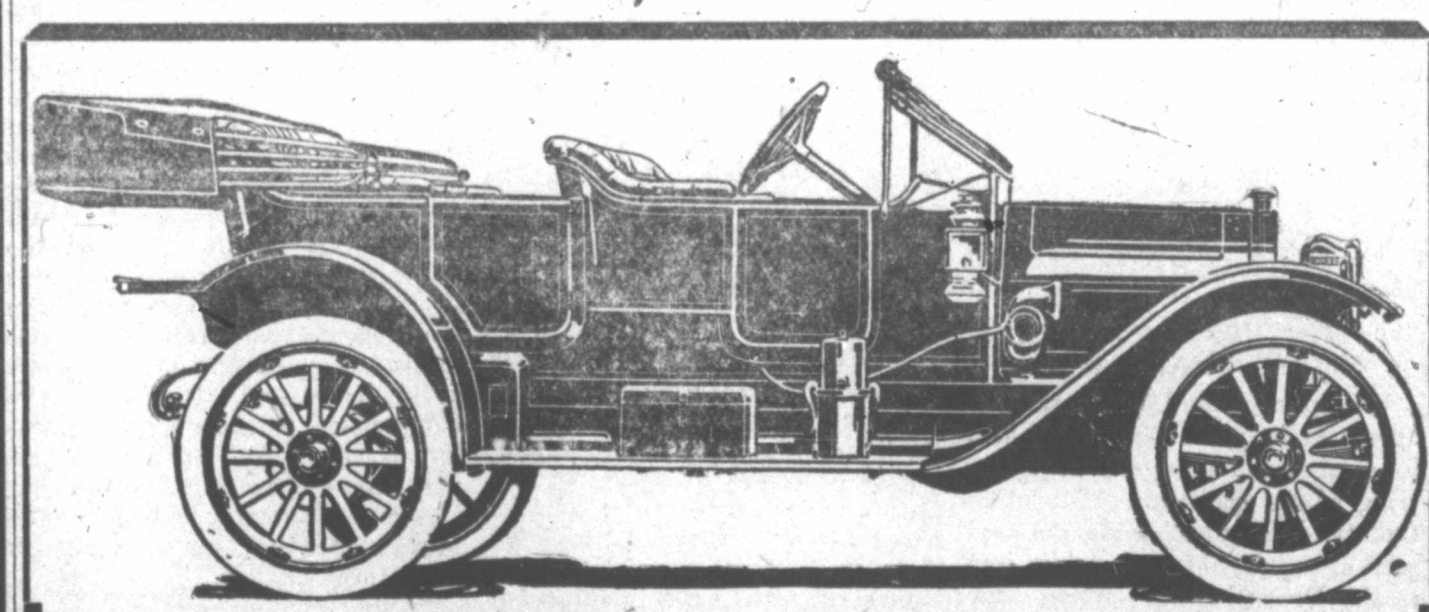

"For a number of years I suffered whenever I took cold, with severe attacks of asthma, which usually yielded to the common home remedies."

"Last year, however, I suffered for eight months without interruption so that I could not do any work at all. The various medicines that were prescribed brought me no relief."

"After taking six bottles of Peruna, two of Lacupa and two of Manalin, I am free of my trouble so that I can do all my farm work again. I can heartily recommend this medicine to any one who suffers with this annoying complaint and believe that they will obtain good results."

For Farmers and Stock Men Only.

As a special inducement we will print them at the following prices: 250 note-heads for \$1.00; 250 envelopes \$1.00. Try this and see if it does, not pay you. If you will figure it out, this is as cheap as the same amount of stationary would cost you, bought in small lots at the store, with nothing printed on it.

EXPORT STATISTICS, lately prepared, show that, during the month of November, the U. S. Shipped abroad 1,364 motor cars, virtually double the number shipped in the corresponding month of 1910. Of this number The Studebaker Corporation shipped just 413 cars—more than 37 per cent. In detail the exports of the Flanders "20" and the E-M-F "30" cars manufactured by the Studebaker plants comprised more than 15 per cent of the exports to South America; more than 51 per cent to Great Britain and Ireland, and more than 57 per cent to Australia and New Zealand.

Can there possibly be any connection between the limit of 11 pounds, which the advocates of the parcels post suggest, and a gallon of booze, fugged and boxed for shipping? That's the left of the critter.

We have received a copy of two of the "Laborer," a journal of the working class, published at Dallas in the interest of the federated system of labor and incidentally, socialism. The chief feature of interest about it is that the name of a former Mitchell county boy appears as one of the contributing editors—Nat Hardy.

A man who sits by the fire, smokes his pipe and reads his church paper and complains about the benighted condition of the poor heathen, while his frail little wife brings in the coal, wood, water and milks the cow for the comfort of her lord and master; such a man—if such an imitation of the real article can be called a man—is not worthy of such a woman's willingness.

It was Orozco, the arch rebel, during the Diaz administration; it is now Orozco, the pacifier, the savior of the Madero regime; but wait till this great Orozco is disappointed in some selfish desire, and he'll take to the brush with the other brigands, and another revolution will be added to the long list now performing operabouffe in that excitable country.

El Paso papers lauded President Madero of Mexico as a great humanitarian because he revoked the suspension of constitutional rights, but the very next day praised his promptness in using the "iron hand of Diaz" in trying to suppress a revolt which had broken out over night. The stability of everything in Mexico except the spirit of revolution, must be taken with caution.

The trial of Beal Sneed for the killing of the elder Boyce is now in progress and promises to be one of the most stubbornly fought cases ever tried in this state, both sides being inflamed with prejudice and financially able to carry the case to the courts of last resort. Tales of—poison and bribes are already rife, while the friends of both sides all over the state are taking decided stands. The papers state that Sneed's defense will be temporary insanity.

It is the prediction of the Record, based on the evidence of things to be seen all around us, that just as soon as warm weather opens up, the town of Colorado will experience nearly as great building boom as it enjoyed in 1906-07. There are several new buildings projected, while only during the past week two inquiries have been

made by non-residents about business houses; one being from a well to do party in the sheet metal working and hardware business in Virginia, inquiring about an opening here for such a business.

Senator Gore, the only blind man who ever served in the United States senate, is to have an extra clerk because of his blindness. A resolution to that effect was passed in the senate a few days ago. In order that the position may be made permanent, the senator's name was specially named in the resolution authorizing the appointment. This is the first time that the senate has granted a special clerk to a senator. When Gore's term expires his successor will not inherit his extra clerk.

Since it has come to pass that about half of the human race must undergo an operation for appendicitis it is good news to be informed that the operation has been so simplified as to permit of the patient leaving the bed in twenty-four hours after the operation. The news item says: "Heretofore an incision of one and one-half inches was made. According to the latest method the incision is only three-fourths of an inch. No muscles or fibres are cut, but separated just enough to admit the insertion of the index finger of the operator. After a digital examination has confirmed the diagnosis the appendix is brought to the surface with the hooked index finger. After the appendix is removed the completion of the operation is simple.

It is not a common sight, particularly in West Texas, to see cotton picking and bedding ground for the next crop going forward at the same time in the same field; yet this very thing is to be seen in several sections of Mitchell county. No one can doubt that a good cotton crop was produced last year in this county, 15,000 bales being a very conservative estimate, but the break in the market and the consequent depression of the price made the crop bring the farmer very little more than that of the previous year. But this misfortune cannot be laid to the country; nature did its part, and all things considered, especially the fine feed crop made in this county, Mitchell is far ahead of most of the famed black land counties of central Texas.

The parting of the ways for Governor Woodrow Wilson and Col. Geo. Harvey, editor of Harper's Weekly, was as sudden as it was unexpected. That Gov. Wilson made a mistake in telling Col Harvey that the active support of his paper was doing hurt to his chances for nomination by the democrats for the presidency, is conceded by many of the most prominent men of the party; and the letter of Henry Watterson has only emphasized the magnitude of Governor Wilson's mistake. But the statement that it has ruined his chances for the nomination is a very untrue conclusion. The wish is father to the thought with many who hold that view. The honest mistakes a man makes, however large, do not hurt him permanently, like the dishonest little ones. Governor Wilson will be heard from about the 25th of the coming June.

The best that can be said of the situation at Juarez is that it is, quiet—just now. The mutinous troops have been withdrawn and the great Orozco been appointed governor of the state of Chihuahua. Work on restoring the damage done by the drunken mob of last week is going forward. The dam-

age done to private individuals will amount to half a million dollars. But the next change of the moon may bring on another outbreak somewhere in the republic.

The determination of the democratic congress to save about \$40,000,000 to this country and the consequent cutting down the naval and public building appropriation, has brought fourth from the warlike Hobson a howl like a coyote wolf. We can readily understand Hobson's fondness for the navy; it was the catapult that kicked him from obscurity to the loftiest pinnacle of maudlin, slobbering fame. The unofficial story goes that when the Spanish-American war "broke out" the old Merrimac was a condemned heap of scrap iron, unfit for service and unworthy of insurance, and worth what it would bring as junk. It was in some way unloaded on the government at a rattling good price—some \$375,000, it is alleged—and sent to Cuba with a load of coal, but was unable to make the trip back unloaded. To get rid of the old tub without scandal, the brilliant scheme of making it the sacrificial lamb in blocking the channel to Santiago harbor and sealing the Spanish fleet within tight as wax, was conceived, and the brave lieutenant threw himself into the jaws of death with patriotic zeal. The old Merrimac was sent to Davy Jones' locker; Hobson got a crown of glory and a seat in Congress, but it didn't choke the channel a little bit; nor can anyone recall the name of a single brave sailor, who was not in on the game, but risked his life through purely patriotic service. Sic transit gloria mundi.

Congressman Slayden of Texas evidently wishes to butt the bull off the bridge instead of telling him he's out of place. He will introduce a bill before congress making a third term impossible and rendering a president ineligible to succeed himself. It must be as clear as the nose on some men's faces that this bill is pitched specifically at Teddy, but we think it entirely unnecessary. The great Washington, who had only to consent to be given a third term, established a precedent which has not only been respected by others who could have had a third term, but who have pointed out the danger and undemocratic principle of the thing. The law is as firmly established in the minds of the people of this country, that no president should be given a third term, as if written in the basic law itself. We regard all this twaddle about Roosevelt being nominated for another term, as the veriest nonsense, kept before the people by the enemies of Mr. Taft. If by any hysteria of factional partisanship, Roosevelt should be nominated and he should accept it, we believe the best element of this country, irrespective of party differences, would rebuke such violation of the unwritten law in a way that would puncture even the rhinoceros hide of Mr. Roosevelt. We believe Mr. Slayden's proposed bill is aimed at a phantom.

The people of a neighboring town came to the conclusion a creamery was needed in that community, and that the dairy business was well enough developed to sustain such an institution; but before any steps were taken, the commercial club of the town made a thorough canvass of the country within a radius of five miles to ascertain how many cows could be depended on to furnish milk to the creamery. Satisfied there were sufficient cows to supply the industry all the milk it could use, contracts were made with their owners that they would bring their milk to the creamery, and sell it for a certain price; promises were also gotten from the largest milk users without cows of their own, that they would buy of the creamery instead of the private seller. Such a creamery cannot fail. The foundations were securely laid; the supply and disposal of its product were arranged before a wheel was turned or a dollar invested. The milk from 300 cows at least was contracted for and the whole output of the creamery sold before beginning operations.

"Freedom" is a word much hacked about; how flippantly we use it. The truth is, those of us who lead the ordinary life made up of joys and sorrows of a creature, external kind, know nothing of what freedom is. Success does not bring it; wealth can not give it, nor poverty assure it. Only those who have passed through some tragical experience; bound by some giant of habit hand and foot, or enslaved by some consuming passion, and come out safely on the other side, know what the word means. The woman who loves and is doomed to see her idol crumble into dust in her hand, yet does not become embittered; the man who has fallen like a stone through the layers of society, yet who finds his soul alive at the bottom of the pit—it is they who know what "freedom" really means.

HIC JACET—

After an heroic fight to get upon a solid and self-sustaining footing, the Sweetwater Daily Reporter last week passed into that limbo which invariably receives an effort to put a quart of water into a pint cup. It simply can't be did. A daily paper is the result of a demand—a demand conditioned upon a certain state and stage of development—and which cannot be forced or bullied without loss and failure. Many a good weekly paper has been ruined by starting a daily issue under the impression that it meant only more labor and white paper; that the weekly could be made up of the several daily issues. The fact is a weekly paper and a daily cannot serve the same clientele. If they read it in the daily, they don't want it in a weekly, and if they see it in a weekly, they won't have it in a daily. Until a town has reached a population of at least 10,000, a daily is a very risky proposition to the promoters; it involves more hard work, longer hours, more money, less pay and more kicks and curses, than working at a railroad wreck. The Record force knows something on trying to run a daily in a town not ready for it.

To our mind, the ideal newspaper is a weekly of 2500 to 3000 circulation, having the confidence and friendship of the community it serves, and so closely interwoven with the interests of the people that they refer to it as "our paper" and regard renewing their subscriptions in the fall as religiously as they do paying their taxes. Such a paper becomes as much a public institution as the bank, school or court house, and becomes so firmly established that neither fire or other calamity can do more than destroy its visible assets. No struggling, struggling daily in ourn, if you please.

Henry Watterson shot his fuse and expected to hear something drap; but carry a drop. The trouble with the old man was his vanity and egotism were wounded by Wilson's refusal to allow Marse Henry to ask money of Thos. F. Ryan for the furtherance of the democratic campaign. Between Dr. Wilson and Col. Harvey the most cordial relations still exist, the latter recognizing, the farther the incident receded, that Dr. Wilson had the rare courage and manhood to speak the truth as he conceived it. The charges which Watterson and others thought and hoped would blast Dr. Wilson's prospects, have been shed by the very strength of the man's character, like water from a duck's back.

The Record is very grateful for the spontaneous response made by its subscribers to the notices sent them of their average of subscription. There are nearly 500 subscribers to whom the paper is sent in single wrappers, scattered from the city of New York to Oakland California, and from North Dakota to Sonora, Mexico. Of this number there are not 25 who have failed to respond to notices sent them, and renew their subscription. Less than half a dozen have ordered their paper stopped. We take this to mean that the Record is a fairly good paper, and that the people who read it think it worth the money. Mr. Advertiser, you should make a note of this.

There never was a time when investments in west Texas realty were as sure of appreciation as now; and no county in this section of the state surpasses Mitchell as an agricultural certainty. The history of Mitchell county the past three years has demonstrated beyond a doubt that as a farming section, it is the peer of any of its neighbors. Land in Mitchell county at \$20 to \$25, or even \$50 per acre, considering the ease of its cultivation and immunity from pests and noxious growths, is a cheaper and better paying investment for the landlord and tenant, than land in central Texas at \$100 to \$125 per acre with a good crop every year.

The history of every day since the abdication of that grand old man of Mexico, Diaz, but emphasizes the fact that he knew his people; knew just how they must be controlled in order to secure peace at home and respect and confidence abroad. The success of Madero means the success of some other revolutionist against him, and on, on to anarchy, murder and rapine. That contingent of American sympathizers who held Diaz as a tyrant have received very little assurance from the history of the republic since Diaz left, that their sympathy was not as premature as it was misplaced. How the better element of Mexico, the intelligence and virtue of it, will wish they had the "Old Tyrant" back.

The railroads have come to realize that it is not enough to merely build roads to develop the country through which they run. Conditions in this western country are not very encouraging to the man of small means and equipment. The roads that are now

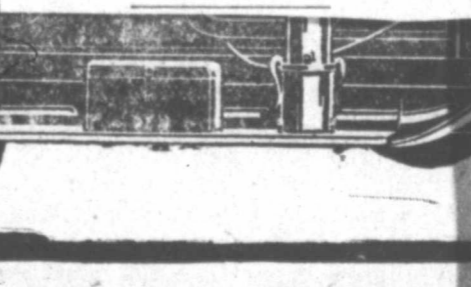

building, are buying large tracts of land and where possible are putting it under irrigation, which will be divided into small holdings and sold to settlers. This policy insures the permanent settlement of the country, as it enables small farmers to realize from their investments from the start; besides, making the land of the railroad much more valuable and salable.

Revived activity in the real estate business, is one of the most hopeful indications of the return of good times. The large land holdings all over west Texas are being bought by enterprising individuals and companies, cut into small tracts and offered to the small farmer, after the conditions of living have been made easier for him. Inquiries are being made daily about lands advertised for sale, and many tracts are changing hands. With a good crop this year and a fair price for it, west Texas will go forward by leaps and bounds. The building of new railroads has made new territory accessible to the small farmer and gives him a market for his farm produce.

As we go to press, the Sneed trial is in progress at Fort Worth. Many witnesses have been examined, but the case has been lacking in the sensational developments expected by the morbid-minded. The general opinion is that the trial of the case will consume two weeks or more, though Judge Swayne is doing all in his power to expedite matters and prevent killing time.

Congressman Henry's quixotic tilt with "money trust busting" is on a par with the goat butting the mogul engine off the bridge. Such grandstand tricks as wipng up the earth with the combinations of capital-power and repealing the 15th amendment, are unworthy the mind of a real statesman, and are only put on parade just before election to make the ever gullible public think they really have an honest intention to do good. Of course Mr. Henry knows and the money trust understands this is all done before the curtain, to boost the congressman and make it appear that the trust is being regulated. Like the game of faro, it amuses the fools and don't hurt the game.

The destruction of the First Baptist church at Fort Worth Saturday night coupled with the attempt to destroy the home of Rev. Frank Norris, the pastor, was the work of incendiaries, without a doubt, and the citizens of that city are aroused to the most intense indignation, and offer \$2000 reward for the arrest and conviction of the fire bugs. Only a few weeks ago, unknown parties made an attempt to shoot Rev. Norris as he sat in his study after a night service.

Don't Suffer!

"I had been troubled, a little, for nearly 7 years," writes Mrs. L. Fincher, in a letter from Peavy, Ala., "but I was not taken down, until March, when I went to bed and had to have a doctor. He did all he could for me, but I got no better. I hurt all over, and I could not rest. At last, I tried Cardui, and soon I began to improve. Now I am in very good health, and able to do all my housework."

TAKE The CARDUI Woman's Tonic

You may wonder why Cardui is so successful, after other remedies have failed. The answer is that Cardui is successful, because it is composed of scientific ingredients, that act curatively on the womanly system. It is a medicine for women, and for women only. It builds, strengthens, and restores weak and ailing women, to health and happiness.

If you suffer like Mrs. Fincher did, take Cardui. It will surely do for you, what it did for her. At all druggists.

LORAINÉ LOCALS

Brief Mention of the Week's Happenings at Busy Town of Lorainé.

The Ladies Aid Society of the Baptist church will give a Valentine Social at the residence of Mrs. Jerry Walker, Wednesday evening, February 14th. Refreshments will be served, and proceeds will be applied on the church debt. Sheriff G. B. Coughran was here Monday.

L. W. Sandusky spent the day here Monday on legal business.

F. B. Whipkey was here from Colorado last Tuesday for a brief visit.

W. A. Adams is spending this week with home folks in Fort Worth. He left Monday and is expected to return today.

Mrs. Mabel Reynolds returned to her home in Grandview last Tuesday after a visit to her brother W. L. Edmondson.

In the language of Alf. H. H. Tolar, an erstwhile well known newspaper man of Colorado, we had a fine "rain" in this section last Saturday.

Miss Eva Terry, who is teaching elocution in the High School here this term, will give a public entertainment at the opera house next Friday. Miss Terry reports splendid progress being made by her class, and believes her many patrons will be agreeably surprised at the efforts put forth next Friday evening.

Miss Eva Terry's class will give a home talent play at the Lorainé Opera house Feb. 16 (don't forget the date). Splendid readings and special music. Admission 15 and 25 cents.

Joe Bennett was in Colorado last Monday.

Herman Fitley made a visit to Colorado last Monday.

Sherman, who has been on the sick roll, is reported very much improved.

Jorden Bennett got off his beat last Monday and was discovered in Colorado.

W. B. Lary of Carlton was here Tuesday on a business trip. He took occasion to look up several of his Hamilton county friends who now reside here. He also visited the News office and got acquainted with the editor.

Protracted Meeting.

The Baptist church will begin a protracted meeting Thursday before the third Sunday in this month, which will be the 15th. The meeting will be conducted by Rev. G. B. Airhart, the pastor. All other denominations and all christian people are requested to come out and assist in the meeting.

Purity in Pastry means

Cottolene

Hogs are not cleanly—hog fat is always under suspicion—and lard is nothing more or less than hog fat.

Cottolene as a frying and shortening medium is just as far ahead of butter or lard as the automobile is in advance of the bicycle, or electric light preferable to gas.

Cottolene is a vegetable shortening—made from pure, refined cotton oil. It may cost a little more per pound—but you need to use only two-thirds as much. It is better and more economical.

GOOD ROADS

PRIMITIVE AND MODERN TYPE OF WHEEL.

The wheel was the greatest invention the world has ever known; with it progress and prosperity sprang into life; upon it has rolled the burden of civilization; its revolutions have woven the fibre of refinement and culture into human life, and its evolution have been as wonderful and powerful as life itself. At each step of its progress, it has demanded better roads and it has brought our public highways from trails to macadam roads.

Steamship Lines.

In describing the greatness of Texas, we invariably recount our railroad mileage, our public highways, our agricultural area and our industrial opportunities, but to gain a clear conception of our power and our possibilities, one needs to navigate our rivers and sail our seas.

A new steamship line opening up commerce is almost as valuable to our prosperity as a new railroad. We now have forty-six steamships plying out of Galveston and the flag of every nation on the globe can be seen floating from this harbor. In tonnage it ranks second to New York.

We have 1,210 miles of permanently navigable rivers which we have practically deserted and considering that freight can be transported by water for two mills per ton mile against one cent by rail and forty-three cents by public highways, we gain a conception of what waterways mean to our commerce.

Preventable Accidents.

Our Boards of Health are per-

forming a splendid service to mankind by directing attention to preventable diseases and teaching us to remove their causes, but one of the most timely suggestions received from these custodians of human welfare is contained in a few rules which, if followed, will greatly reduce the list of injuries and deaths, as well as destruction of property, traceable to explosions of oil, gasoline, etc. The rules follow:

First—Keep oil, gasoline or naphtha cans in the shade.

Second—Never pour oil from a can directly into the stove or grate, but pour the oil into a cup or other open top vessel, and from this to the fire.

Third—Never, under any circumstances, use gasoline or naphtha for starting fires.

Fourth—See that cans used for gasoline or naphtha are plainly marked or labeled to avoid possibility of mixing with kerosene.

Note—Lamp oil may ignite, but cannot explode when contained in an open cup.

WOMAN'S WOES

A Certain Cure for Female Trouble and That Tired, Nervous, Depressed Feeling That Makes Household Work a Dreary Burden.

Work, work; Nothing but work; Tiresome drudgery! Work used to be a pleasure, but now a few minutes effort leaves you weak, discouraged and irritable with a feeling that everything has gone wrong.

The liver and bowels are responsible for this.

The symptoms are, heart palpitation, faintness, suppressed, excessive or irregular periods, bad digestion, bearing down pains in the side and back, nervous weakness, poor appetite, costiveness.

Prickly Ash Bitters sweeps away these troubles like magic, because it strikes at the root of the disease—the stomach, liver and bowels.

Women who take medicine for female troubles that does not benefit these organs are wasting money and valuable time. The liver is diseased because the stomach is unhealthy, and both have produced a constipated habit. This stoppage of healthy action in the liver and bowels has filled the system with impurities which have brought on irregularity in the female organs; it follows therefore, that a medicine which will correct the liver, strengthen the stomach and promote healthy bowel operations is the remedy for menstrual difficulties.

The poor, tired, discouraged woman who has suffered silently and so long with the ailments of her sex soon feels the strengthening and exhilarating influence of Prickly Ash Bitters. It does its work thoroughly, beginning with the stomach and extending its purifying and stimulating influence to the liver and bowels. When the stomach, liver and bowels are active and working in harmony, there must be health and regularity in the female organs. As a result of this improved condition the patient takes a renewed interest in her household duties. Appetite and strength return, the eyes are brighter, the complexion clears, and before long she is transformed into a bright, happy woman with rosy cheeks and cheerful spirits.

"I suffered much from indigestion and constipation. I had a drowsy tired feeling and nervous headaches all the time. I began using Prickly Ash Bitters and it has helped me wonderfully. I now have a good appetite, sleep well and can do a greater amount of work than ever before."

"Maine" Explosion Not a Mystery.

An incurved bottom plate proves an outside explosion. When the unwatering of the "Maine" commenced, and the level had been sufficiently reduced to expose the greater part of

the vessel, there was revealed at the seat of the explosion such an absolute destruction of the hull that the army engineers in charge believed it would be impossible to locate the exact point at which the explosion started. The determination of Congress, however, to investigate every scrap of the hull that could be brought to light, and the voting of liberal appropriations for this purpose, have been rewarded by the discovery, and the establishment beyond all question of doubt, of the exact point at which some enemy from the outside struck the fatal blow.

So strangely torn asunder and twisted out of its original position was the material of the hull, that evidently only a naval constructor familiar with every detail of the construction could have hoped to piece the thing together and identify the individual sections. This work was entrusted to Naval Constructor W. B. Ferguson, to whose indefatigable labors is due the collection and orderly arrangement of a mass of concrete evidence, which proves that the "Maine" was blown up intentionally by some person or persons who placed a charge of low explosive against the outside of the hull of the ship. What the mine was can only be conjectured. It may have been of the crudest construction. An ordinary barrel, say of the size of a sugar barrel, loaded with black powder and with a few glass tubes filled with the proper materials for igniting the powder, projecting from it, the barrel being provided with a length of rope and an anchor, would have been quite sufficient. The depth of the water was known, as was probably the draft of the "Maine," and the anchoring rope could have been made of sufficient length to cause the ship, in swinging, to come into contact with the mine. On a dark night the placing of such a mine would be a simple matter, for a fishing boat, sailing by the "Maine" could have let the mine go from its stern without much danger of detection.

Whatever the method, it is certain that the mine came in contact with the bottom of the "Maine." Had it contained a high explosive, a clean hole would have been cut through the bottom immediately over the mine. But being filled with a low explosive, probably black powder, the blow was distributed over a rather wide area, say, some 200 square feet, which was dished upwardly, from one to two feet, while the plate immediately above the mine was torn loose from the adjoining plating and blown inwardly and to the rear until it was folded back. Immediately above this plate was the 6-inch magazine, in which was some black powder in cases, used for saluting purposes. The heat of the intruding gases was sufficient to ignite this powder, which, in turn, set off practically the whole of the forward magazines. The testimony of survivors was practically

unanimous that two explosions occurred within a fraction of a second of each other—the first muffled, the second louder and more powerful. It is needless to expatiate upon the evidence thus presented.—Scientific American.

A CIVIC IMPROVEMENT LEAGUE

Now that our high school building is nearing completion, some thought should be taken looking to the beautification and preservation of the premises. The yard, after being graded, should have a grass sod, or coating of gravel, to protect it from the wind, which has so badly damaged the yard of the Central school building, and is making a good start on the high school yard. More trees would also help, not only the looks of the premises, but would help the grass as well, say nothing of the grateful shade they would furnish in warm weather. It is not enough to build nice houses; their preservation and adornment of their premises, is just as important, and indicates the standard of local pride in such matters. This is a matter in which the good ladies of the town, who have ever shown themselves ready to help along anything touching the economic welfare of the town, can render valuable service, and the Record believes they would take hold of this matter if brought to their attention.

We would suggest that the Mayor call a mass meeting of the citizens of Colorado; for everybody, men, women and children, for the purpose of organizing a big civic league. Get as many members as possible, with dues of 25 cents per month, receive donations in money, trees or labor; appoint a committee of ladies to devise ways and means by which to raise additional funds, etc., etc. Colorado can be made a beautiful place, a healthy place and a comfortable place to live by the expenditure of a little time, money and labor; and of some of these items, hundreds of citizens are ready to offer, if they had some organization through which to work.

THE GULLIBLE PUBLIC.

Safe breaking and second story burglary are getting to be an absolute method of crime. They bear the same relation to Twentieth Century swindling that old-fashioned hand work does to modern labor saving machinery.

The report just presented by E. S. Sharp, chief postoffice inspector, says that the gullible American public gave up \$77,000,000 last year to get rich quick men.

The ease with which these gentlemen work the American sucker is simply astounding. A Canaan of financial milk and honey lies before the man who possesses nerve, imagination and a five dollar bill.

One favorite method of making a million on five dollars is to organize a company to promote a summer resort or suburban colony near some large city. You get an option on some abandoned farm. No cash need be paid, the liberal allotment in the stock of the dream company is enough. You get some impecunious draftman to draw plans of a hotel and cottages. A few shares of stock requires him.

The first expenditure of cash other than a few postage stamps, comes when you walk up to a newspaper office and insert an advertisement in "Business Opportunities." This may cost you the sum of one dollar. You advertise for some gentleman with \$10,000 to join you in a conservative enterprise paying five hundred per cent. From the many replies you will get enough cash to take a suit of rooms in the best hotel in the city, establish a fat bank deposit, acquire financial testimonials and incorporate your company. Fifty per cent of the sale of shares goes to advertising, and fifty per cent you can salt away in some bank in Buenos Ayers or Melbourne.

The postoffice, even more than the newspapers, is the means by which this modern safe breaking is performed. Mailing lists, technically known as "sucker lists" consisting of names of people who have money but no financial judgment, have been valued at \$100,000 by these people. Some of them send out two hundred and fifty letters each to as many as ten thousand persons.

Mesquite Murmers.

The people of this community are busy preparing the ground for this year's crop.

Misses Willie Gregg and Sloan Erwin of Loralne attended the box supper here last Friday, and Miss Oma Gregg accompanied them home Saturday.

Mr. and Mrs. Cordie Wright of Roscoe spent Friday and Saturday with Miss Clevis Burton.

The box supper last Friday night was a great success. A large crowd attended. A vote for the prettiest girl and the ugliest boy was enjoyed by all. Mary Porter was declared the prettiest girl and Jim Woodard voted the ugliest boy. A shoe contest was

another feature, a prize given for the boy who got his shoes on first, and the one who got his shoes on last. Jeff Porter won the prize for being the fastest and Alton Daily for being the slowest.

BACHELOR GIRL.

Diversification and cotton for revenue only, is the shibboleth of the successful farmer in west Texas.

Irrigation is the leaven in the agricultural loaf. It has done more to discredit the all cotton crop and demonstrate the value and necessity of diversification than all else combined. Its twin sister of intensive farming. The day is not far distant when every farmer will have an irrigated patch on his farm on which he will depend for those things which without it, he is compelled to buy. With an irrigated patch of five to ten acres, fully half the expense of the farmer's table can be provided.

A HARMFUL DOCTRINE.

The Record yields to none in state pride, in keen appreciation of what the state has accomplished, of its matchless resources and unparalleled opportunities; but believes that the simple truth is sufficient for their exploitation. Only the qualities of paradise can be written in superlatives, and no good feature can exist without an element of evil to maintain the eternal balance. To read the literature scattered from Dan's house to Brush Arbor, by the Texas Commercial Secretaries Association, an outsider would think (if simple enough to believe what he read) all one had to do in Texas was to bank money with one hand and go fishing and picknicking with the other. Nor is its stilted hyperbole all we have against its policy of developing the state and bringing it into its own.

On the inside of the front cover of one of its most recent booklets, appears this sentiment, hedged round about with a double border to make it attractive, as if it were a principle of action:

"The fundamental principle of civilization is the accumulation of wealth."

This sentence pronounced from the teacher's rostrum or sacred desk, would be branded as the rankest infidelity and as a sentiment most pernicious to the young. Nor is it anything else. Such doctrine is what makes socialists and anarchists; manufactures the bomb and whets the fratricidal knife. Wealth, mental culture and all the civilization that they can bring are but engines for destruction without that divine increment of life; that element which makes all our powers and accomplishments a blessing instead of a curse.

BUFORD NEWS.

Miss Della Prentiss returned Sunday from an extended visit among relatives and friends at Spade.

Misses Lula and Nettie Reeder were visiting the Misses Hulda and Annie Bodine last week.

A pleasant afternoon was spent by a crowd of young people at the home of Rev. Bodine Sunday afternoon.

The weekly singing was held at the home of Mr. Bose Prentiss Sunday evening. Quite a good time was spent by the young people.

Mr. Frank Redman was a visitor at the O'Neal home Sunday afternoon.

Mr. and Mrs. Sam Bedford visited Mrs. Bedford's parents Sunday.

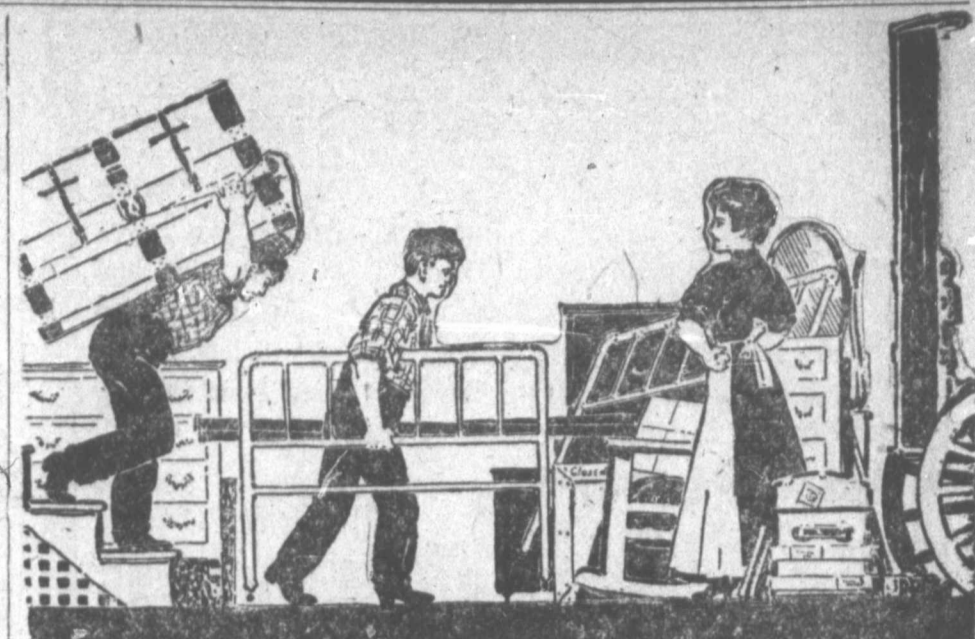

Mr. Earl Callaway was down in Jones county last week for a few days.

The president of the Literary Society called a meeting for last Friday night to carry out the programme arranged for the preceding regular meeting which was called in on account of the health situation. A number of those on the program were not present on account of sickness, but an hour and a half of time was spent very pleasantly listening to the good music by our string band and the excellent recitations and songs by those on the programme. The young people are to be complimented for their interest in these occasions. We take this occasion to thank the young people for their good behavior at these meetings.

The past week has been examination week in the school. The pupils have put up an excellent lot of papers considering the very great difficulties under which we have labored, enforced irregularity of attendance and such. They will do still better work next time we feel sure.

PENCIL PUSHER and PUPILS.

The Record still wants a reliable correspondent at Westbrook, Spade, Cuthbert, and in fact every postoffice in the county. The community news of the county is the most valuable a country newspaper can have, and we earnestly desire to cover the entire county. Local correspondents can furnish this news and thereby give themselves a more interesting paper and bring the different communities in closer touch and interest with each other.

Be Sure Your New Home Is Lighted By Electricity

The best homes and apartments are wired for electric light. No other light compares with electric light in convenience and safety. Every home can now afford electric lighting because new Edison Mazda Lamps give more light than any other lamps using an equal amount of electric current.

New Edison Mazda Lamps are now strong enough for all practical purposes when given ordinary care in handling. The light giving filament is made from drawn tungsten wire that is as strong as steel.

Come in and see these lamps to-day.

We ADVERTISE Your Property

No. 1—A good five-room house in Colorado, close in. This is a nice improved place for sale cheap; will take part trade, or terms to suit. A big bargain.

No. 2—This is 708 acres of good land in Dawson County, near Lamesa and is for sale or trade. This land is on the Santa Fe railroad and offered at a bargain. Small payment and ten years time on balance. Will take any kind of trade.

No. 3—Here is 160 acres of fine land in two miles of Westbrook for sale or trade. I consider this a great bargain and if you want a home this will suit you.

No. 4—Have a good five room house, well improved place in Mineral Wells. Will sell or trade for small tract of land, anywhere, of equal value. Investigate this offer.

No. 5—This is a ten section proposition but is such a rare bargain as to make it sell at once. It is fine land in Borden county, 80 per cent agricultural, 3000 acres sub-irrigated, only nine feet to water, inexhaustible sheet water at 22 feet. Have everlasting springs. Estimated that enough water could be secured if properly developed to irrigate the whole tract. Has two sets of fine improvements, a store and postoffice, school, ranch houses and is an ideal proposition for small colonization project. This land is offered at only \$15 per acre, half cash with terms on balance. There is twelve acres of old alfalfa on the place, cutting four tons per acre, and this alone shows this land to be equal to any of that in the Pecos valley or in California.

No. 6—320 acres of good sandy loam 7 1/2 miles northwest of Colorado, improved. 75 acres in cultivation, 250 acres tillable. Loan of \$1200. Terms one-fourth cash, balance to suit.

No. 7—160 acres sandy loam farm 6 miles from Westbrook; price \$20 per acre; \$900 incumbrance. Will exchange equity for horses, mules or merchandise.

No. 8—480 acres red land soil, 250 acres in cultivation; 460 acres tillable 20 acres grazing land; all fenced; mesquite for fuel; two good wells, windmill and tank; one good four-room house and outbuildings; one two-room house and out buildings; half mile to school; 7 miles of Iatan, Mitchell county, on T. & P. railroad, half mile from postoffice. Price \$16.00 per acre, one-third cash, balance 2 to 7 years at 9 per cent.

No. 9—320 acres; 75 acres sandy loam, balance red and black land; 75 acres in cultivation; 175 acres tillable; 145 acres good grazing land; all fenced; plenty mesquite timber for fuel; two wells and tanks; 3-room house, good barn and outbuildings; one and a half miles from school; four miles of Westbrook; 7 miles from Colorado (county seat Mitchell county) on the T. & P. railroad. Price \$20.00 per acre, one half cash, balance to suit.

No. 11—9 acres sandy loam, all in cultivation; fenced; good windmill, well and cistern; good 5-room house and outbuildings; joining the city of Colorado, Mitchell county. Price \$2,500, \$1000 cash balance to suit. A fine proposition for poultry farm or truck patch.

No. 14—640 acres deep red sandy loam, all tillable, all good grazing land; a great bargain at \$6.50 per acre. 16 miles south-west of Tahoka, county seat of Lynn county, on the Santa Fe railroad.

No. 15—One of Mitchell county's best improved farms, 196 acres, dark sandy loam; 175 acres in cultivation, all tillable; good well and windmill and tank; good 4-room house, barn 25x60; half mile to school; 3 miles east of

Colorado, Mitchell county. Price \$40 per acre. Half cash, balance to suit at 8 per cent interest.

No. 16—Must be sold. 640 acres, five miles of Colorado; 3 sets of improvements; 320 acres in cultivation, 75 per cent tillable. Make offer quick.

No. 17—5120 acres. One of the best stock ranches in west Texas. Good valley soil; all fenced; half tillable; all good grazing land; abundance of grass; part of this land had grass on it 18 inches high and would have cut several thousand tons of hay; good 5-room house; large surface tank; 16 miles northwest of Kent, Culberson county, on the T. & P. railroad. Land lays so that you could see a cow almost anywhere on the entire tract. Party not able to stock this ranch and will sell at a sacrifice. \$4.00 per acre one-fourth cash, \$1.60 due the state, can run 35 years at 3 per cent, balance to suit at 8 per cent. Will exchange. What have you?

No. 18—640 acres soil sandy loam, 440 acres in cultivation; 85 per cent tillable; all fenced; three wells and two windmills; three sets of tenant improvements; one and a half miles of school; 12 miles northwest of Colorado, county seat of Mitchell county, on T. & P. railroad. Baptist Church.
 Notwithstanding the extreme cold weather last Sunday we had a fine day for all our services: 195 in Sunday school and \$5.00 collection. Both the morning and evening services were well attended, and fine interest.

We are planning to launch, in the immediate future an evangelistic campaign. The pastor cannot succeed in this unless those who love the Lord lend a helping hand. Let it be the constant prayer of every saint that the spirit of the Master use them in bringing the lost into the kingdom. There are those who are lost to whom you can speak and for whom you have the privilege of praying. Don't fail to do this. If you cannot see them, try to reach them through the mail, praying God to bless the message.

Are you a Sunday school teacher? and have you those in your class unsaved. Find them out and make a definite effort to win them to the Savior's love, and to love the house of God.

Much of the success of the campaign depends upon the Sunday school teacher. Let no opportunity pass unused. The injunction of God's word is, "As we have opportunity, let us do good." Do all you can to help the pastor, and don't be slow to advise him about things you don't think he knows. Be thoughtful and earnest and watchful.

At the 11 o'clock hour next Sunday the service will be specially for the young people. Do your best to get as many as you can to attend. It may mean much to somebody.

Services next Sunday at regular hours. The Teachers' Training class will meet in the pastor's study, at the Sunday school hour, 10 o'clock.

Preaching at 11 o'clock; theme: The Lake and the River. This will be the hour for the young people.

Preaching at 7:30. Come and bring your friends, praying that the good Father may give us a great uplift.

B. BROOME, Pastor.

Hesperian Club.

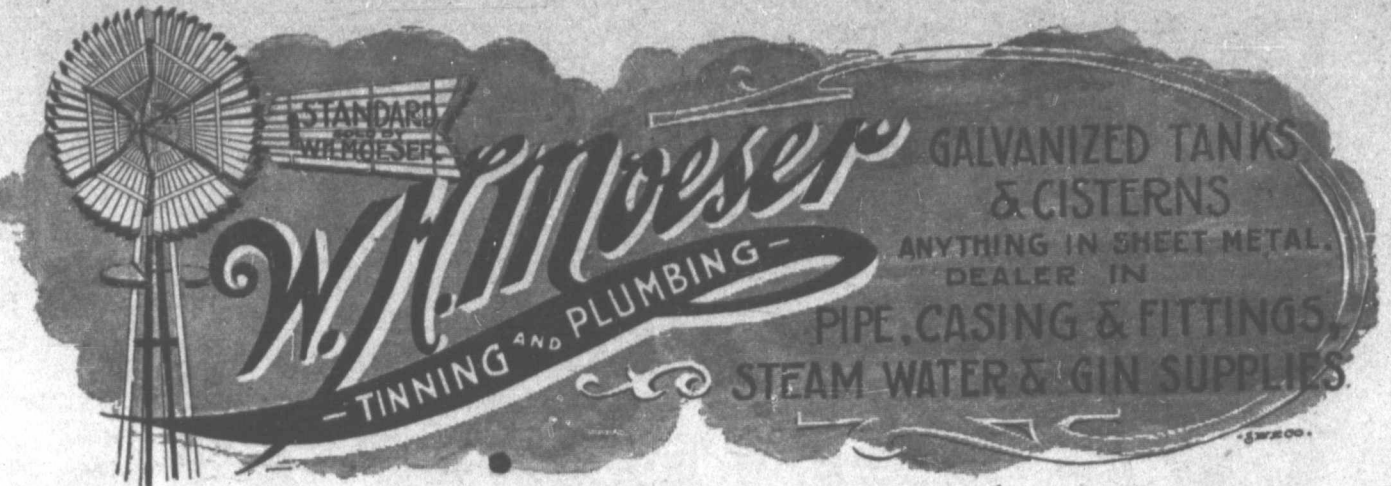

Miss Mabel Ratliff was hostess for the Hesperian Club Friday, and a very pleasant meeting was held. A rising vote of thanks was given the doctors of the town for their precautions in regard to the school children during the scarlet fever excitement. The lesson was conducted by Mrs. Majors. The roll call for the second part was the name of a fashion designer or a beauty specialist. Under this head Mrs. Broadus gave a very excellent paper upon the 'Sin of Ugliness, and Mrs. Ratliff a fine one upon 'The Woman of Charm.' The hostess had as her guests Mrs. J. P. Mays, Mrs. C. M. Stonerroad and her mother. Her little brother, Harry, enlivened the social period with a well rendered piano solo. The club rejoiced to have Mrs. Greene with them once again; she will entertain this week at the home of Mrs. R. O. Pearson. A lovely salad course was served during the social hour.

Missionary Meeting.

The Methodist Missionary Society met Monday at the home of Mrs. Floyd Peall, as Mrs. Arnett, the president, was there with a very severe cold. All the officers, except the Agent for the Voice, Mrs. Cooksey, were present. She was kept at home in quarantine. Twenty-two members were present and an unusually interesting meeting was held. The first vice president, Mrs. Lyon, read the scripture and conducted the business. Mrs. Davis read a fine article, the plea for the Twelve, begging that each member of the church spare one hour each month for the Missionary Society. Mrs. Jackson read a good leaflet upon the Needs of Latin America. Mrs. Payne told of the Physical and Moral Dangers of Premature work for Children. Mrs. Hester gave Reasons why a Girl's school should be established in Rio de Janeiro, Brazil. The Press Reporter, Miss Dry, had some newsy clippings, and a beautiful letter from Miss Middle Shelton in Honchow, China was read. Inclosed in this were some Chinese ghost money, and some cash.

Christian Missionary Society.

The C. W. B. M. met Thursday with Mrs. C. T. Harness and held a very interesting session upon the Training School. After the devotional exercises, Field Reports were given as roll call. Then Mrs. Broadus gave a splendid talk on the Training School at Indianapolis. Mrs. Smith had an interesting biographical sketch of Charles T. Paul, president of the school. Mrs. Harness had the relationship of the Training School to the Church, the Missionary and Missions. This was very good indeed and certainly encouraging as to the future of missions. A spirited discussion of these topics closed the program. This was the first meeting held since Mrs. Ed Jones moved away and she was much missed, as she had always been one of the most faithful C. W. B. M. members; ever at her post of duty with her part prepared. The Society showed their appreciation of her loyalty by the gift of a set of

beautiful silver teaspoons; so they will certainly never be forgotten by her. The social hour was specially delightful. Nut salad, sandwiches and hot tea being temptingly served by the hostess. The March meeting will be with Mrs. Price in her new home.

Three Trains Daily.

The Record learns from a reliable source that on next Sunday or the Sunday following, trains Nos. 7 and 8 which now stop at Sweetwater, will be run to Big Springs. There is also a rumor that Nos. 1 and 2, which are through New Orleans trains, but run no further west than Fort Worth, will be continued as far west as Sweetwater, and possibly to El Paso, in order to handle the California traffic east, which now goes largely by way of the Southern Pacific road. El Paso now has two daily trains over the Texas & Pacific. When all the improvements in equipment, track and train service, which are purposed by the present management, shall have been made, the old reliable T. & P. will kick up its heels and raise a dust with the very best of them. Pending these improvements, the extension of trains 7 and 8 to Big Springs, will prove a great and appreciated convenience to the people along that part of the line.

The Record is pleased to receive this week a renewal of the subscription of Hon. John A. Slicher, of New York, president of the Judge Publishing Company and editor of Leslie's Weekly. Judge Slicher has been a subscriber to the Record for several years and is a land owner in Mitchell county. He owns a half section of shiner land just north of the corporation limits and has refused repeated opportunities to sell at a good round price. This is an indication that he has confidence in the future development of this country and growing importance of Colorado. Besides Judge Slicher, the Record has nearly a dozen subscribers in New York City and environs, not including a half dozen advertisers.

TWENTY YEARS.

Makes a great difference in most women. They are troubled with "nerves"—they suffer from backache, headache, sleeplessness, a sensation of irritability or twitching, hot flashes, dizzy spells, or many other symptoms of female weakness. The local disorder and inflammation should be treated with Dr. Pierce's Lotion Tablets and the irregularity and weakness of the female system corrected and strengthened with Dr. Pierce's Favorite Prescription. The strain upon the young woman or the woman of middle age—upon the nerve and blood forming structures—may be too great for her strength. This is the time to take this restorative tonic and strength-giving nerve and regulator. For over forty years sold by druggists for woman's peculiar weaknesses and distressing ailments. The one remedy so perfect in composition and so good in curative effects as to warrant its makers in printing its every ingredient on its outside wrapper. The one remedy which absolutely contains neither alcohol nor injurious or habit-forming drugs.

Mrs. Scott.

Following letter selected at random from a large number of similar ones and cited merely to illustrate these remarks:

"In the winter of 1908, I became greatly run down and freckled," writes Mrs. HENRY SCOTT, of Swan Creek, Mich., Route 1, Box 48. "I slowly but surely grew worse, and, at last, resolved to apply to the doctor for help. The doctor said I had inflammation, enlargement and incarceration. I was in bed eleven weeks and got no better. The doctor said I would have to have an operation, but to that I would not listen. My husband purchased two bottles of Dr. Pierce's Favorite Prescription. When I started to take this remedy I could not walk across the floor, but after I had taken three bottles I could feel myself gaining, so I dropped the doctor and took Dr. Pierce's Favorite Prescription. Only for it I think I would have been dead—I really believe it saved my life. I feel better now than in twenty years."

WHY SO WEAK?

Kidney Troubles May be Sapping Your Life Away.—Colorado People Have Learned this Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, headache, dizzy spells and urinary disorders, kidney weakness may be the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills make sick kidneys well. Can Colorado readers demand further proof than the following statement:

George Win, of Midland, Texas, says

"Doan's Kidney Pills are the only medicine I ever used that did me any good. For several years my kidneys caused me a great deal of suffering. I had severe pains in my back and if I sat for awhile, it was hard for me to arise. The secretions from my kidneys were so frequent in passage and accompanied by a scalding sensation when being voided. Since taking Doan's Kidney Pills these difficulties have entirely disappeared and I have felt as well and strong as ever before in my life. I give Doan's Kidney Pills my highest endorsement."

A sheriff's sale of real estate "before the court house door, in the town of Colorado, between the hours of 10 a. m. and 4 p. m." last Tuesday afternoon, brought quite a crowd to the spot. The property of A. R. Wood was bought by J. R. Shepherd for \$350. The Chas. Goodwin place, consisting of a valuable section of land, situated about six miles southwest of Colorado, was bid in by I. H. Burney of Fort Worth for \$6,900. The C. C. Lowe place in Colorado was bid in by Burns & Bell at \$150, and the land of T. O. Cowan, Sidney Boykin et al., was bought by Canda, Drake and Kloh, for about \$2,100.

There were 150 less poll taxes paid in Taylor county for 1911 than the year previous, while there were 130 more in Mitchell county last year than the year before.

Don't send off for cheap or latest music. Doss has it, all kinds, from 10 cents up.

We met John Farmer Saturday and he took the Record to task for a statement in the paper that any industrious tenant could pay for a farm. He wants to know how it can be done. The Record can not tell just the details of the business, but knows that lots of farmers do so. Not everyone can farm, no more than everyone can make a successful lawyer, doctor or preacher. A farmer is born with just that temperament that makes success of everything he does on a farm. He must have the "call," which is just as divine as was that of the fishers by the sea of Galilee. Lacking this natural bent, all the hard work possible will not bring success. We can vouch for the fact that John was a great success where he was, and are glad to know that he and his wife have returned to town and will remain.

The G. F. C.

The young ladies who sewed so assiduously before Christmas preparing their gifts, found it such a pleasant and profitable occupation that, instead of resuming their 42 game, they continue to sew at their weekly meetings. They met Saturday a week ago with Miss Louise Coe, who being a teacher, is busy on other afternoons. A delightful session was held and last week on the regular day of meeting, Thursday, Miss Greenwood was hostess. Spring seemed near from the number of dainty pieces of hand work with which the members were busy. At the close of the afternoon a dainty salad course was served. Mrs. Abe Dolman is hostess this week.

Sunday School Party.

Friday evening the members of Mrs. J. T. Davis' Sunday school class entertained an equal number of girls at her home. The boys themselves furnished the refreshments and otherwise provided for the entertainment of the young ladies. Games were played; there was music and some amusing stunts by the hosts. Everyone greatly enjoyed the occasion and the boys fully demonstrated their ability as entertainers, while the young ladies showed their appreciation of the efforts put forth in their behalf. A refreshment course of gelatine and cake was served, and each young lady provided with an escort home. The hosts were Frank McLure, Boyd Dozier, Bassett Davis, Nelson Vaughn Lee Mitchell, Junius Merritt, Jim Ayers, Jacob Shuford, Homer Simpson, John Coughran, Wellington and Walton Hester.

The latest classic music, ballads, ragtime—all kinds of music from 10 cents up at Doss.

The nearer the high school building approaches completion, the better impression it makes. There can be no question as to the thoroughness of the work, while the design speaks for itself. Mr. Heerman, the contractor, has certainly given the city its money's worth and erected for himself a lasting monument to his skill and honesty as a contractor and builder, and the Record hopes he may be able to secure much of the building to be done in the near future in Colorado, and that it may be to his profit.

Soft Molasses Cookies

(Recipe by Mrs. Mary J. Lincoln)
The children—and the grown-ups, too—will enjoy these cookies. Try some next baking day. Scald one cup molasses, pour it over one-fourth cup Cottole, add one-half cup sugar, one-half level teaspoon salt, and one level tablespoon ginger, or a mixture of other spices if preferred. Dissolve one-half level teaspoon soda in one-fourth cup cold water, add to the cooled molasses, then stir in from three to four cups flour, making a soft dough to drop and spread in a pan, or a stiff dough to be rolled and cut. Bake in moderate oven. The use of Cottole as a shortening insures cooking that is both palatable and easy to digest.

Store Burglarized.

Some time during Tuesday night some one cut a hole in the thin panel of the rear door of the dry goods store of Burns & Bell and removed the prop with which the door is fastened at night. The cash register was opened on the "no sale" key and about \$6 in money taken. An examination of the stock failed to show that anything had been disturbed except a few boxes of shoes. From the manner in which the work was done, it is evidently the work of some one familiar with the lay of things on the inside of the store. Sheriff Coughran was notified and came to the scene, but no clue has yet been found as to the identity of the burglar.

Later—Jim Bellah was arrested for the offense and committed to jail pending investigation.

M. C. Prentice of the Buford community was brought into town Wednesday and upon examination was adjudged a lunatic. He will be placed in the asylum just as soon as room can be secured for him.
