

TRAIN WRECK, TEN KILLED

SPECIAL BEARING CONFEDERATE VETERANS FROM TEXAS TO MACON, GA. JUMPS TRACK.

Dead Passengers Are Believed to Be Veterans Though Their Names are Not Yet Known, Engine and Three Cars Off.

New Orleans, La., May 6.—Six to ten persons were killed and possibly twenty-five were injured, when the first section of the special train of the Confederate Veterans, bound from Texas to Macon, Georgia, where the Confederate reunion is to be held, was wrecked this morning near Hattiesburg, Mississippi. The engine and two coaches were overturned.

The dead passengers are believed to be veterans. The names are not yet known.

Big Springs Woman Killed.

The identified dead include Mrs. Charles Holmes, who is thought to be of Big Springs, Texas, and Mrs. James Cameron of Henderson, Texas. Several bodies are still under the wreck.

None From Colorado Hurt.

A telegram from Judge J. E. Hooper to friends here brought the information that the Colorado crowd, who are on the way to the reunion were on another section of the train and were not in the wreck. Mr. Hooper knew that many people here would be very anxious about those on the train from this point, so he wired at once that all were safe.

Farm and Ranch Tour.

The first tour for farmers and ranchmen ever held in the world will be run off next August. Farm and Ranch of Dallas is putting up \$1,000 in cash and a \$300 trophy cup as prizes for the event, and many other concerns and individuals are offering additional prizes.

Only farmers and ranchmen who live on and operate their farm or ranch and who own and drive their own cars will be eligible to compete. The run is expected to cover almost a thousand miles and last six days. It will come at the time the farmer is least busy, and at least one hundred entries are expected.

The benefit that will come to the farmers and ranchmen from this tour can hardly be estimated. He will see his state and learn by actual experience the necessity of good roads. It will bring widely separated communities closer together and widen the circle of friendship among the rural people. Above all it will advertise Texas far and wide as a history-making stunt, since the Farm and Ranch Tour is the first of its kind ever held in the history of the automobile.

The run will be under the sanction and with the approval of the Automobile Association of America, the three A's, as it is called. The rules governing the contest have been formulated

by that body and will be published in the near future. With the backing of the most powerful body in the automobile world this tour cannot fail of success. It is bound to center all eyes on our great state.

High Water Conditions.

Owing to the high water conditions in Louisiana, railroad traffic has been interrupted in many places, and passengers and shippers hesitate to risk travel and shipment. The following from General Passenger Agent Hunter of the Texas & Pacific road to local agent W. A. Crowder shows the conditions at the present time:

Dallas, Texas, 5-6-12.
W. A. Crowder, Colorado, Texas.

Press reports indicate we are suffering on account high water conditions Louisiana division situation affects our main line only at Melville. We are detouring trains via Cheneyville to New Orleans through Lafayette and Avondale entailing only slight delay. In addition we are operating local trains Nos. 55 and 56 between New Orleans and the east bank of the Atchafalaya River just east of Melville and Nos. 50 and 60 between Melville and Marshall. Please give this to the public and press and arrange for advertisement in your papers to continue for at least a week or ten days. Advertising that we are open on Louisiana Division for all through traffic both freight and passenger.

Pathfinder Starts on Trip.

Thursday morning, May 2, the Pathfinder that will map out the route for the Farm and Ranch Tour, and the Press car that accompanies it carrying the newspaper men left Dallas on the first stage of a history-making tour. It was accompanied outside the city limits by the full complement of the Dallas Automobile Club who wished them "Godspeed" at the end of the wonderful new viaduct.

The Pathfinder carries an expert route maker who will be able to show when he returns just where the best roads for the contemplated tour are, and by doing this be able to demon-

strate exactly what counties are wide-awake and deserve all the benefits such a tour cannot fail to bring them, and just what counties are not.

The route these cars will take is from Dallas to Waco, to Austin, to San Antonio, to Port O'Connor, to Galveston, and back to Dallas by way of Houston and Corsicana. It is expected that 10 days or two weeks will be taken to make the trip.

There was so much rivalry among the dealers at Dallas to furnish these two cars, the selection had to be made by lot. Fifteen different makes desired the honor, and in the drawing to decide the question the Case car won the right to act as Pathfinder and the Kissel Kar that of being the official Press car.

Hogg Organization For Education.

The Organization for the Enlargement by the State of Texas of its institutions of Higher Education has been formed and has been endowed under the auspices of the Alumni association of the University of Texas, the Organization and its endowment having been accomplished largely through the efforts of Mr. Will C. Hogg of Houston, the son of the lamented James Stephen Hogg, who, himself, during the latter years of his life, was greatly interested in higher education and expressed the purpose of conducting in person a Statewide campaign in behalf of an adequate and dependable financial support of all the state institutions of higher education, and for their permanent removal from the domain of factional and partisan politics. Hence the organization is popularly referred to as the Hogg Organization.

The institutions of higher education comprehended in the work of the Hogg Organization, each receiving equal consideration, are the four state Normal Schools, the College of Industrial Arts, the Agricultural and Mechanical College, and the University of Texas. The common public schools, rural and urban, and the private, endowed, and denominational schools will also be accorded generous aid and assistance in their efforts at improvement.

The officers of the Hogg Organization are composed of the following well known citizens of the State: Standing Committee—E. B. Parker, Houston; M. Sansom, Fort Worth; S. E. Mezes, Austin; Clarence Ousley, Fort Worth; George A. Robertson, Dallas; R. L. Batts, Austin; W. H. Burges, El Paso; John W. Hopkins, Galveston; F. C. Proctor, Beaumont; Advisory Committee—S. P. Brooks, Waco; Will C. Hogg, Houston; F. M. Bralley, Austin; Frank Kell, Wichita Falls; C. Lombardi, Dallas; E. O. Lovett, Houston; Charles Schreiner, Kerrville; Ed. C. Lasater, Falfurrias; Educational Campaign Committee—F. M. Bralley, Austin; Charles Puryear, College Station; W. B. Bizzell, Denton; R. B. Cousins, Canyon; S. E. Mezes, Austin; S. P. Brooks, Waco; Lee Clark, Austin; F. M. Bralley, being the State Superintendent of Public Instruction, was chosen Executive Secretary of the Organization and of the Educational Campaign Committee.

It is the purpose of the Hogg Organization to encourage by all legitimate means the enlargement of the institutions of higher education in Texas and, thereby, to increase the volume and the quality of service rendered to the people by such institutions, and to remove them from the domain of factional and partisan politics. In this laudable undertaking all patriotic, ambitious Texans should unite.

Each of the higher educational institutions is in great need of more and better buildings, of a larger supply of well-trained and capable teachers, and of enlarged laboratory and library equipments. Education is fundamental to the welfare of the Commonwealth. It is the basis and the hope of happiness, efficiency, and prosperity for the individual, for the community and for the state. No greater or more important work could be undertaken for the State, and the men in charge of the movement command the confidence of the people and give strong hope of achieving great things for education in Texas. 5-10

Jeffersonian Democracy.

Whenever a fellow loses his political face and breaks away from the great body of the democratic party in practice, or in other words, becomes a turncoat or a bolter, he always claims to be a "Jeffersonian" democrat. Its the party that's gone wrong; he stands like the rock of Gibraltar. If poor Thomas Jefferson from the other shore could hear the different kinds of democracy that has been laid at his door as an excuse for all kinds of political apostasy, he would rue the day he ever ran for office. And of all the interpreters of the simon pure brand, our Joe is the most liberal. He can find in it an excuse and an explanation for literally "rooming and eating" in the republican camp. Listen to this from his speech at Daingerfield, Texas, last week:

"I will take you into my confidence my fellow-citizens, and frankly say that I came to Texas to prevent, if possible, an instruction for Governor Wilson.

"I recognize in him a Southern man, a Christian gentleman and a scholar of ripe attainments and if he were as much a democrat as he is a Christian I would gladly support him. But he is not a Democrat, judged by the Jeffersonian standard, and if not he is not a democrat at all."

Either swat the fly or make it wipe its feet on the door mat.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. We have been prescribing the D.D.D. remedy for years."

Prescription for eczema and absolutely guarantee that it will take away the itch the instant you apply it.

If you are suffering from any form of skin trouble we would like to have you come to our store, for we have had the agency of this remedy for so many years that we can tell you all about D.D.D. Prescription and how it cures eczema. In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a 31 bottle on our guarantee that it will cost you nothing unless you find that it does the work. For that matter a trial bottle for 25c ought to be enough to absolutely prove the merits of the remedy.

Drop into our store anyway and we will tell you all about this great remedy.

IN SWEETWATER**

SOMETHING DOING ABOUT LIVE STOCK QUARANTINE IF HE IS ELECTED.

He Tells It To Them Straight About the Live Stock Commission and Quarantine Law as It Exists.

Judge W. F. Ramsey, in his speech at Sweetwater, Texas, on April 30th, 1912 with reference to the live stock interest and the quarantine conditions in Texas said:

"Now, again, my friends; let me tell you another thing I will do if I am elected governor of Texas. There will be something doing with some sense in it about the great livestock interests of Northwest Texas. Your law now provides that your governor shall appoint three commissioners, from various parts of the state, one east, one south and one west. The governor has appointed three men; one of whom evidently had 'flown over the cuckoo's nest.' One of them in Victoria; O, certainly that is south; one of them a 'bullionaire' in Del Rio—west all right; but he goes all the way to the hot-bed of liquor and hell's half acre, where the panther laid down, in Fort Worth, to get his third man; a man who had not voted the democratic ticket, as I understand, until the liquor question became prominent in the politics of Texas. They took these dipping vats from Sweetwater, and they put them all the way down to Callahan county, where anti prohibition had not become such an issue in politics, and now if a man of this county wants to get 'Old Muley' across the line up here fifteen miles, he has got to make a trip to Baird, in Callahan county, stay ten days, dip old 'Muley' and come back on the west bound train with his cattle, in order to get them across the line.

"If I was to appoint a commissioner that didn't have more sense than that, I would take everyone of them out of the back door before they had been in office ten days. And yet the governor of Texas talks like he was doing all sorts of things for the livestock interest. Still he vetoed the appropriation for the A. & M. College; a bill for an appropriation that is to teach and do something in the interest of the livestock industry of this state.

"We ought to have men on that livestock commission not because they are wealthy; nor because they are able to make great campaign contributions, but we ought to have a lot of men interested in the traffic, interested in the welfare of the country; we ought to have a veterinarian on the board; we ought to have some provision by law for advanced study in respect to the diseases of the livestock of the country; and we ought to put it on a civil service basis and get the greatest possible good out of that great arm of the government. That is what we need to have in force; and if your Uncle Ramsey is elected governor of this state, that is what you will have in this country."

Declared to Be Three-Quarters of a Mile Wide Five Miles Southeast of Greenville.

Greenville, Tex.—Parties who came into Greenville from the country southeast of here report that at a point about five miles southeast of this city they saw a drove of frogs that was three-quarters of a mile wide.

They said there must have been millions of them and they were traveling in a northeastern direction.

The frogs, which were all sizes, were so thick in the road and in the wagon tracks that the people drove out of the road to keep from killing so many by rolling the wagon wheels over them.

SOME FACTS ABOUT THE "YELLOW HEIFER"

Gov. Colquitt Forgot to State at Sherman that He Abolished the Bat Only a Month Ago.

If the newspaper reports are to be taken as true Governor Colquitt at Sherman, in discussing penitentiary affairs, dramatically displayed the "Yellow Heifer," and waving it around his head, as tears came into his eyes, said "And yet they ask you to defeat me for Governor because I abolished things like that." Gov. Colquitt pictured how the convicts had been in the past mistreated by this brutal instrument. It is stated that the Governor, having finished a discussion on this subject, flung the great leather strap from him with a scornful gesture.

The bat was used by Colquitt's appointees for thirteen months after his inauguration. It was abolished on March 25, 1912, according to extract of prison minutes of March 25, quoted in letter from penitentiary authorities to Governor Colquitt dated Mar. 26, 1912. See Fort Worth Record of March 21st, 1912. Why, Governor Colquitt, if the bat was such a terrible instrument of torture did you allow its use for thirteen months after you were inaugurated? You could have abolished it the day you came into office, for you say that you are sought to be defeated for abolishing the bat, when in fact Judge Ramsey had announced for the place you now hold six months before you abolished this "brutal instrument?"

We are glad that the "bat" has been abolished. It is to be regretted that it ever had a place in our penitentiary system. And here we want to remark that Judge Ramsey came out for this wholesome reform in his opening speech at Gonzales, the advance copy of which had been in the hands of the leading dailies of the state several days before Colquitt had the bat abolished.—Cleburne Chronicle.

HOT FLASHES.

Women in middle age often complain of hot flashes. They are at that stage of life—when their delicate organism needs a tonic and helping-hand which only Dr. Pierce's Favorite Prescription can give them. Many women suffer needlessly from girlhood to womanhood and from motherhood to old age—with headache, dizziness or headache. A woman often becomes sleepless, nervous, "broken-down," irritable and feels tired from morning to night. When pains and aches rack the womanly system at frequent intervals, ask your neighbor about

Doctor Pierce's Favorite Prescription.

Mrs. J. Darrow, of 221 S. Benton Street, Baltimore, Md., says: "I wrote you about nine months ago, telling you of my condition. I have a fine baby girl—she weighed nine pounds when born. She is my third child and the strongest of them all. My suffering was only for two hours. I took several bottles of 'Favorite Prescription' and one of Dr. Pierce's Smart-Weed. I never had a well day before I took your medicine. I was surprised how well I felt—could eat—was always hungry, and never had a sick stomach. The nurse who was with me said the medicine was wonderful because I got along so nicely after having had so much trouble before. She intends to recommend it to all her suffering patients. Everybody is astonished at me because I only weighed 102 pounds before and now I weigh 135. I have had several ladies come to me and ask about Dr. Pierce's medicine. I am willing to recommend it to all who suffer and want help. If any want information I will be glad to give it to them."

GOVERNOR COLQUITT SPEAKS IN COLORADO

More Than a Thousand People Listen To a Defense of His Administration.

He came, he saw, he conquered—some. Although last Friday was not a very good day for speaking, His Excellency, Governor O. B. Colquitt made five separate and distinct speeches on his itinerary from Snyder to Sweetwater.

He left Snyder in the morning and made a short speech at Dunn; arriving at Buford, he was literally held up and informed that such a thing as a real live governor of the great state of Texas passing through so important a municipality as Buford, known in the early annals of this section as "Bone Hollow," was not to be thought of, much less done. So, the governor obligingly stopped his auto and delivered a short address.

Arriving at Colorado shortly before noon, he was met by a reception committee of about fifty strong. After meeting a number of our citizens, brushing off the dust of his journey, dinner at the St. James hotel, a little rest, then meeting more voters, the time arrived for his address.

He was introduced by Judge R. H. Looney, who assured the audience of fully one thousand people, that any words of introduction by him would be the sheerest waste of time; everybody knew him. The governor lost no time in clearing the ground, but plunged immediately in media res. The line of his speech followed those he has made elsewhere. He defended his administration, insisting that he had redeemed every campaign pledge and under the hindrances thrown in his way by political enemies had given Texas a quiet and peaceful regime. He restated his position on the prohibition question, declaring his adherence to the doctrine of local self government. He had no apology to make for his generous use of the pardoning power. He had pardoned about 300 convicts and would continue to do so where cause could be shown for the exercise of executive clemency. He briefly touched upon the school house bonding question, declaring he had given preference to such bonds over all other kinds.

He spoke of the difficulties his administration met on its threshold regarding the management of the penitentiary. With a new and untried law to put into execution and an empty treasury with which to do it, he considered he had done very creditably under the circumstances. He exhibited one of the fearsome "bats" with which prisoners were tortured and said he was glad to state that its use was discontinued.

Owing to the fact that he had to make two more speeches before he retired for the night, the Governor spoke hastily and briefly on many questions. He had but little to say about his opponents, further than that it was the same influence that began before his inauguration to discredit him and his administration; but that he felt when the vote of the state was counted after the July primary, his administration would be overwhelmingly endorsed by a large majority of the best citizens of the state of Texas and his political enemies rebuked. Although Mitchell county had not gone for him in the last election, he fully expected that he would receive a majority of its vote at the coming primary.

Governor Colquitt was for his first time in many of the West Texas counties he visited on this junket, and was surprised on every hand at the wonderful progress and development which he saw, and expressed the hope and purpose of returning at some less strenuous time and visiting over the whole empire of West Texas at his leisure.

A large crowd heard him speak, fully one thousand people being in the tabernacle. His remarks were listened to with the closest attention and frequently applauded. He made a very favorable impression on many who had never seen him or heard him speak.

It is more fun to see a man read a puff on himself in a newspaper than to see a fat man slip on a banana peel. The narrow minded man reads it over seven or eight times, and then goes around to appropriate what copies he can. The kind hearted man goes around to the office and pays what he owes. The successful business man who advertises regularly and makes money by it immediately starts out to find the editor and the two walk silently down the street, and the business man takes sugar in his and they both eat a clove or two and life is sweeter and peace settles down on their hearts for a moment. Such is the experience of a mustard seed that falls on different ground.—Gilpin Observer.

CHAIRMAN SELLS EXPOSES CAMPAIGN LIE ON WILSON

The Booker Washington Circular Which Originated in Fort Worth Proven to Be False.

Dalals, Texas.—Judge Cato Sells, chairman of the Woodrow Wilson state committee, gave out the following statement today:

On yesterday we announced that we had in formation that the Champ Clark headquarters at Fort Worth had caused to be printed a large number of circulars entitled, "The Nigger and the Governor of New Jersey," in which indefensible charges were made in a most offensive manner against Governor Woodrow Wilson, in connection with the Booker Washington-Ulrich incident. At that time we were cautious not to charge that the circulars had been put into circulation, but confined ourselves to the known fact of their having been printed. We then had in our possession a copy of the circular referred to, and now have the further information of circulation through the mails, as is positively shown by the following affidavit:

State of Texas, County of Bosque. Before me, the undersigned authority in and for said state and county, on this day personally appeared C. L. Batson, county superintendent of schools for Bosque county, who being by me duly sworn, upon oath, deposes and says:

That on Tuesday, April 30, 1912, he received through the United States postoffice at Meridian, Texas, an envelope, upon which plainly appeared the Fort Worth, Texas, postoffice stamp, where same was mailed, which said envelope when so received by him contained a number of printed copies of a circular headed, "The Nigger and the Governor of New Jersey," and which said circular among other things contained this charge:

"When that arrogant nigger, Booker Washington, was caught by Ulrich peeping through the key-hole of a white woman's bed room, and was appropriately beaten by the white man, Woodrow Wilson was one of the four assanine white celebrities to telegraph consolation and confidence to the nigger."

(Signed) C. L. BATSON. Sworn and subscribed to before me this, the first day of May, A. D. 1912. (Seal) ERNETS MUIRHEAD, Notary Public for Bosque County.

We also herewith give to the public a telegram received from a distinguished citizen of Texas, who is now in New York City, acting in an advisory capacity to the Woodrow Wilson headquarters, as follows:

"New York, N. Y., April 30, 1912. "Hon. Cato Sells, Dallas, Texas. "Governor Wilson requests me to say to you that he never sent Booker Washington any message or condolence in connection with the Ulrich incident. E. M. HOUSE."

I anticipate that this is the first time in Texas politics that our citizenship has had such an experience, and I predict that the candidate responsible for this slanderous procedure will be called to the bar of justice, and proper sentence rendered by a patriotic and justice loving people.

I am certain they will not tolerate such an apparent injustice and effort to injure one of the greatest citizens, and best democrats this country has ever produced, and that it will arouse their righteous indignation to such an extent, and with such results that it will never again be repeated in Texas.

There are already out several editions of the story of the loss of the Titanic with illustrations made from the description by survivors, and advertised as the "agent's harvest."

RIPLEY SAVES RAILROAD \$7,000 A YEAR IN PENCILS

One Glance of His Eye Puts New Idea Into Being and Miracle Is Performed.

A few weeks ago President E. P. Ripley of the Santa Fe railroad was standing in one of the general offices on the line and observed a clerk, working at a desk, throw into the wastebasket a bit of lead pencil, probably one fourth of the original pencil. The clerk drew another pencil from the drawer and sharpening it, proceeded with his work.

President Ripley picked up the piece of pencil and saw that all the matter with it was in its short length. In his mind he began figuring how much was lost in lead pencil stubs on the Santa Fe system where thousands are in use every day, if every clerk did as the young man in the local office.

A few days ago there was received at every office of the Santa Fe system a consignment of lead pencil lengtheners, or savers, a handle the size of a pencil with a screw attachment at one end for the holding of short lengths of pencil and a kindly letter of advice requesting that the lengtheners be used.

All the clerks and officials and officers of the great system are included in this letter of advice and while the initial cost of the lengtheners is staggering in amount, it is estimated by President Ripley that the use of them will save his road \$600 a month, or more than \$7,000 during the course of a year.

CITATION BY PUBLICATION.

THE STATE OF TEXAS, To the Sheriff or any Constable of Mitchell County, Greeting:

Oath having been made as required by law, You are hereby commanded to summon William Neild and the unknown heirs of William Neild, J. B. Watkins, and the unknown heirs of J. B. Watkins, Amelia H. Jones, and her husband, William H. Jones, Amelia H. Jones, a feme sole, and the unknown heirs of Amelia H. Jones, by making publication of this Citation once in each week for eight successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 32nd Judicial District, to appear at the next regular term of the District Court of Mitchell County, to be held at the Court House thereof in the City of Colorado, on the 3rd Monday in May, A. D. 1912, the same being the 20th day of May, A. D. 1912, then and there to answer a petition filed in said Court on the 19th day of March, A. D. 1912, in a suit, numbered on the docket of said Court No. 1352, wherein W. A. Cocreham is plaintiff, and William Neild and the unknown heirs of William Neild, J. B. Watkins and the unknown heirs of J. B. Watkins, Amelia H. Jones and her husband, William H. Jones, Amelia H. Jones, a feme sole, and the unknown heirs of Amelia H. Jones are defendants, said petition alleging that plaintiff resides in Mitchell county, Texas, and the respective places of residence of the defendants are unknown to plaintiff:

That on March 1st, 1912, plaintiff, was lawfully seized and possessed of a tract of land situated in Mitchell county, Texas, to-wit: all of the north-east quarter of Survey No. 53, in Block No. 26, as surveyed by virtue of certificate No. 2-1379, issued to the Texas & Pacific Railway Company, except five acres, in the form of a square, in the north-east corner thereof, the same containing 155 acres, more or less:

Plaintiff claims said land under the following chain of title, to-wit: Patent from the State of Texas to the Texas & Pacific Railway Company, dated February 14th, 1881; Deed from the Texas & Pacific Railway Company to Eli Newsom, dated January 21st, 1884; Deed from Eli Newsom (who is the common source of title) to William H. Jones and Amelia H. Jones, dated October 20th, 1884; Deed from William H. Jones to George M. Ihinger, dated May 17th, 1897; Deed from George M. Ihinger to J. D. Wulfjen, dated September 9th, 1899; and Deed from J. D. Wulfjen and his wife, M. J. Wulfjen, to plaintiff, dated January 1st 1912.

That on March 1st, 1912, defendants ejected plaintiff from said land and unlawfully withhold from him the possession thereof, to his great damage:

That on the date of his said ejection plaintiff was the lawful owner, in fee simple, of said land, by virtue of his record title thereto, and the fact that he, and those under whom he claims title, have had continuous, peaceable and adverse possession of said land, cultivating, using and enjoying it, claiming it under deeds duly registered, and paying all taxes thereon, for a

period of more than five years next preceding said 1st day of March, 1912, and next preceding the date of filing this suit:

And by virtue of the further fact that he, and those under whom he claims title, have had open, continuous, notorious, exclusive, peaceable and adverse possession of said land, having it enclosed by a substantial fence, for a period of more than ten years next preceding said 1st day of March, 1912, and next preceding the date of filing this suit; plaintiff specially pleads the five and ten years' statutes of limitation:

And he avers that he believes, and alleges that defendant, William Neild, is claiming said land by virtue of a deed of trust, executed by Eli Newsom and wife, Lydia R. Newsom, on December 1st, 1883, to J. B. Watkins, trustee, to secure the payment of one note, executed by said Eli Newsom and wife, of the same date, for \$700.00 bearing interest from date at six per cent per annum, and payable to the order of William Neild, five years after date:

That J. B. Watkins is claiming said land by virtue of a deed of trust, executed by said Eli Newsom, and wife, December 1st, 1883, to M. J. Dart, trustee, to secure the payment of ten notes executed by said Eli Newsom and wife, dated December 1st, 1883, the first of which was for \$9.80, and the other nine of which were each for \$10.00, payable to the order of said Watkins, 6, 12, 18, 24, 30, 36, 42, 48, 54 and 60 months respectively, after date:

That each and all of said notes have been fully paid, thereby extinguishing said respective liens securing them: That said Amelia H. Jones is the wife of said William H. Jones, and is claiming said land by virtue of having been one of the grantees in the deed dated October 20th, 1884, executed by Eli Newsom, conveying said land to said William H. Jones and Amelia H. Jones; that by said last named deed, said land became the community property of said William H. Jones and Amelia H. Jones, and was not then, and never afterwards became their homestead:

And in the alternative, plaintiff alleges that on October 20th, 1884, said Amelia H. Jones was a feme sole, and was also a feme sole on May 17th, 1897, when said William H. Jones conveyed said land to George M. Ihinger, and that whether she was a married woman, or a feme sole, on May 17th, 1897, whatever right and title she may have had in and to said land, is barred by the five and ten years' statutes of limitation, which plaintiff specially pleads:

That said respective claims of said defendants, William Neild, J. B. Watkins and Amelia H. Jones, constitute clouds upon plaintiff's title to said land; that plaintiff does not know whether said William Neild, J. B. Watkins and Amelia H. Jones are living or dead; he alleges they are living, but joins the heirs of each and all of them, as parties defendant, in order if they, or any of them, are dead, to have before the court, all parties interested.

may seem just and proper. Herein fail not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, Jesse H. Bullock, Clerk of the District Court of Mitchell County, Texas.

Given under my hand and Seal of said Court, at office in Colorado, Texas, this 19th day of March, A. D. 1912.

Harmon Not in It

While our own preference is Wilson, we do not forget our repeated statement that the Times-Herald is not an organ. Therefore, we are under obligations to say that it looks to us as though Chairman Hunt of the McLennan County Clark campaign committee has good grounds for a portion of his hopefulness. In other words, it begins to look as though the opposition to Wilson here in Texas would switch to Clark. We have no definite fact on which to base this conclusion, but it is atmospheric, so to speak. Clark has delegations to his credit, while Harmon has none. As Chairman Hunt says, "Harmon is not running at all; he is just taking a little walk for exercise." It will not surprise us in the least if the message goes down the line—possibly has already gone—to switch from Harmon to Clark. It would be the sensible thing for the Wilson opposition to do. There is much in the Clark candidacy that is appealing, especially in view of his running record, while there is nothing, absolutely nothing, in the Harmon candidacy to quicken enthusiasm. We confidently expect the contest next Saturday to settle down to Clark and Wilson.—Waco Times-Herald.

"Marion Harland," Mrs. Janet M. Hill, and Mrs. Sarah Tyson Rorer are among the cooking authorities whose names are familiar to almost every housewife. Each has her own distinctive methods of work, but it is interesting to note that on the all-important question of a cooking fat, they are unanimous in recommending Cottolene.

"Marion Harland" says of Cottolene: "It has given complete satisfaction." Mrs. Hill says: "Very satisfactory; glad to recommend it." Mrs. Rorer says: "A much more healthful product than lard."

With such authority behind it, every housekeeper will be safe in giving Cottolene a trial. It is purer and more wholesome than lard—and it is more economical, too, one-third less being required.

One will be the running of the most popular girl between twelve and fifteen for queen of the carnival. The names of these girls will be announced next week and the voting will begin. Votes will sell at one cent each. The girl winning the most will be crowned with her attendants and maids the last night of the carnival. Another feature is to be a parade of all the children in town with their baby buggies, tricycles, bicycles, wagons, etc., a prize to be given to the best decorated. There will be various booths and other attractions at the carnival proper. The names of those entering the popular girl contest will be given next week.

Colored School Closes.

On May 3rd, the closing exercises of the Colorado Colored school were had. There was a program replete with essays, songs and recitations. The essay of Hattie V. Wallace was of unusual interest. The subject was the "Value of Good Reading," and it was handled in such a way that it made an impression on all who heard it and incited in those who could not read, the desire and ambition to do so. The teacher of this school, S. A. D. McClennan, has done good work the past year and there is unanimous wish to have him returned for the next term. The school has gotten along very harmoniously the past year, with no more friction than is always to be found in all schools, where the teachers do their duty.

The afternoon was very pleasant and much enjoyed, a delicious refreshment course being served by the hostess.
