THIRD ANNUAL MEETING WOMAN'S AUXILIARY.

Tuesday and Wednesday the Episcopal women of the Missionary District of North Texas, were very busy in our little city. The opening service of the Convocation was held at 11 o'clock at the church. A beautiful sermon was preached by Mr. Williams of Clarendon. At 3 o'clock the Bishop made his address to the Convocation and immediately afterward the ladies adjourned to the Baptist Sunday school rooms, where all the services of the Woman's Auxiliary were held. The meeting was called to order, and after a song, the creed and prayer, Mrs. Hennessy gave the address of welcome in a most interesting and pleasing manner. She said:

Ladies, and Delegates to the Third Annual meeting of the Woman's Auxiliary, in the Missionary District of North Texas:—It is my great pleasure to welcome you to our city. We have met together in no spirit of idle curiosity, but that we might devote ourselves during these two short days to the consideration of how best to advance the Master's work in this part of the field. Our part in this work is a great one. My own experience in a missionary district is that of life. Born in Oklahoma before the coming of the great and noble Bishop Brooks in 1883, one of the most pleasurable memories of my childhood is that of my father reading the services of the church in the upper domestic room. His congregation and helpers consisted of a few faithful women who strove to maintain the services until a resident minister might be obtained. So my interest in domestic mission work is especially strong. My experience has been to see faithful women, even on the firing line of the church's missionary endeavor, who have seemed to see as their pattern those other women who were the last to linger at the foot of the Master's cross, and first to greet Him on "His Resurrection Morn."

There are two thoughts that I would give you in welcome to our gathering together. First, I would impress upon your minds the necessity of your intimate association by reading and thought and prayer, with the great doctrines of the church at large. We are so apt, in the midst of our local work for the material fabric of our own local organizations, to blind our eyes to the ideas of "Holy Church," which, throughout all the world, doth acknowledge "Him as Lord." It seems to me that it is impossible to use the prayer of our Master, without joining ourselves to all who call God "Our Father," and so we must be interested in, and seek for knowledge of the work in our own district, then of that throughout our country, and finally, but not least or last, that of christianity on foreign shores. We must be interested not only in maintaining our own services but in social service as well; the work of caring for those outside the field, the poor and weak end, out of the way people who are so dear to our Lord.

My second thought is this:—We women living in a time when much is being said concerning women's rights need to keep ever in mind the one thought that it is our high office to mould and determine the thought and character of the coming generation. By their love, the voice of prayer, christian influence, endeavor and culture, the emphasizing of the higher and better things of life, is the way by which women may control the vote and help handle the reins of State. It is her great work.

Again I bid you welcome. May our meeting together be of mutual help and inspiration.

Mrs. Walshe of Abilene, very gracefully responded. She said:

"Madam President and Ladies of Colorado: In response to your cordial greetings and gracious words of welcome in behalf of the Auxiliary of North Texas, I thank you; and say for them that we are very glad to be in Colorado today; for the fame of Colorado has gone abroad in the land. We have heard much of your beautiful little city; of your flower decked prairies; of your immense crops of prairie dogs and horned frogs; of your golden sandstorms and invigorating zephyrs; but most of all of your lavish western hospitality. We have heard of all this and longed to partake, and lo! the Convocation is invited to meet in Colorado; and here we are and ready to exclaim, like the Queen of Sheba when she saw King Solomon in all his glory, "The half has not been told." There are many reasons why we are glad to be in Colorado today. Some of us have been here before and we are glad to renew

former acquaintanceship and associations. Most of us are here for the first time, and were strangers when we came, but your friendly greeting and warm handclasp have made us strangers no more, but sisters. So we are glad to meet you and know you; not only our church sisters, but also other ladies of Colorado who are kind enough to take an interest in our meetings.

There is another reason why we are glad to be here. We are coming more and more each year to understand and appreciate these annual meetings of the Woman's Auxiliary. We are beginning to look forward from one year to the other, and wonder if we will meet the same friendly faces we did last year. It means much to the women of the district of North Texas to get together once a year and mingle together as St. Paul says, "with kindly affection and brotherly love." To learn to know each other and join hands and feel that we are each a link in the great chain that binds this district together. It is good for us to exchange ideas about our work and learn from each other. It is especially good for us to come together and lay aside our sordid earthly cares and put on the spiritual garment of righteousness for a little while. To get spiritual inspiration and enthusiasm and a splendid religious uplift to take home to sustain us for another year. We women of the larger towns like Colorado, Amarillo and Abilene, where we have every equipment and facility necessary for our beautiful worship, the opportunity for holy communion once a week, or oftener, cannot fully appreciate what these annual meetings mean to our less fortunate sisters who live in little towns where there is no Episcopal service, or even more isolated still is the sister who lives on some lonely western ranch, who never hears the music of the church bells calling her to prayer and who, sometimes, goes for years without the blessing of Holy Communion. To these women meetings are of uncalculable benefit. These give her the spiritual food for which she longs. They satisfy the longing of her religious nature and give her inspiration to take up her lonely life again. Likewise she enjoys the little social touch in these meetings. The reception, where once again she mingles with men and women of her own class, is like an oasis in the desert, a cup of cold water to a thirsty soul. To these women who are here today we say we are glad you are here. We are glad to know you, for wherever Episcopalian meets Episcopalian they clasp the hand of brother or sister; for the Episcopal church is unlike all other religious bodies in this land in one respect, it has never been rent asunder by sectional quarrels or discords. To us there is no North, no South, no East no West. We are all one father's children; and today we feel especially that we are in our Father's house, and like Peter on the Mount of Transfiguration, we cry "Lord it is good for us to be here."

The delegates were enrolled by the Secretary, Mrs. Thompson. Committees were appointed and then Miss Webb gave her president's address which was very fine indeed. She briefly reviewed the work of the woman's Auxiliary and urged the members to go back to their homes more ready and willing than ever to pray for missions; to study of missions, and to give to missions.

Miss Lois Prude sang prettily at this time.

An Auxiliary meeting and study class was conducted by Mrs. Melton of Ballinger. This was to show how the local work and the study might be combined in one meeting. Roll call was responded to with current missionary news. The local work was disposed of, then, the study of Japan Advancing. Whither? A delightfully interesting session was enjoyed alike by visitors and delegates.

At 7:30 Wednesday morning Corporate Communion was administered at the church.

At 10:30 the ladies met. After the creed and prayers Mrs. Alexander sang beautifully.

A large amount of business was disposed of by the president. Mrs. McClelland read a good paper upon how the Auxiliary may become a vital force in the parish or mission.

Miss Moorar gave a beautiful violin solo.

A question box and conference followed.

The session closed with the noon-day prayer for missions.

Wednesday afternoon reports were finished. Election of officers was

taken up. Mrs. McClelland of Clarendon was elected first vice-president; Mrs. Thompson of Abilene, secretary. Miss Webb was later re-appointed president by the Bishop.

A rising vote of thanks was given the Baptist people for the use of their Sunday school rooms. Another rising vote was tendered the people of Colorado for their kindness and hospitality. The departed members were remembered with a resolution.

Miss Webb was elected delegate to the General Convention, which meets in New York in October; Mrs. Temple was made alternate. Miss Webb thanked the ladies very graciously for their help and support in the work.

Mr. Trappnell of Amarillo was introduced and made a splendid address upon "The Woman's Auxiliary; Its Contribution to Womanhood and the Church."

Miss Paret of Sweetwater sang beautifully.

Bishop Temple spoke for a short time. He said the Auxiliary was the pride of his heart. After thanking the women for their work, he closed the meeting with a song and prayer. Amarillo was selected as the next place of meeting.

Social.
Of course the social side was not omitted. Luncheon was served both days at the Barcroft for all the delegates, both gentlemen and ladies and on Tuesday evening an elegant reception was given at the home of Mrs. Bailey to the Bishop and visitors.

The names of the ladies present were: Mrs. Bromley and Miss Rountree, Plainview; Mrs. Bell, Baird; Mrs. Ellis, Mrs. Savage, Mrs. Locke, Mrs. Alexander, Mrs. Thompson, Mrs. Walshe, Mrs. Dimline, Abilene; Mrs. Pierce, Mrs. Melton, Ballinger; Mrs. McClelland, Miss McClelland, Clarendon; Miss Paret, Mrs. Bowen, Sweetwater; Miss Rix, Mrs. Dawes, Big Spring; Mrs. Scott, Coleman; Mrs. Waddell, Fort Worth; Mrs. Roberts, Mrs. Pickens, Abilene; Mrs. Baker, Albany.

Reception.
Tuesday evening the local Woman's Auxiliary delightfully entertained the visitors, delegates and many of their town friends, with a reception at the home of Mrs. Bailey. The hostess, Miss Webb, and Bishop Temple, were in the receiving line. Soon a gay company filled the reception suite.

was served in the library by Earnest. A delightful musical program was rendered. Miss Paret of Clarendon sang and as gave Annie Laurie so sweet hearers were almost breathless. Moorar gave a very pretty violin solo. Mrs. Alexander of Abilene beautiful numbers and was more. Her voice is one of beauty and clearness, and was appreciated. Dr. Marshall enjoyed quite as much by the

MAJOR W. V. JOHNSON.

There fell asleep in this city, in the early morning hours of May 6th, 1913, Major Willa V. Johnson in the seventy-sixth year of his age. And when he passed away the Great Reaper gathered unto himself another brave and gentle soul; another courtly and gallant gentleman, courageous as a lion, tender as a woman and with a heart like that of a little child—such as one as is the South's greatest pride and the proudest product of this glorious land of ours—an old-time Southern gentleman.

Willa Villey Johnson was born in Scott County, Kentucky, March 4th, 1837, the son of Gov. George W. Johnson and Ann E. Viley, members of two of the most prominent families of Kentucky. He took the full college course and became a graduate of Georgetown College, Georgetown, Ky. He was married in 1862 to Miss Lilly Wilford of Louisville, Ky., who survives him. Six children were born to this union, of whom four survive. Mrs. V. W. Allen of Colorado, Texas; Mrs. Mary Belle Blanc, of Atlanta Georgia; Willie Johnson, of Chihuahua, Mexico and George W. Johnson of Venice, Cal.

When the great struggle between the states began he entered the Confederate army and became a member of Gen. John C. Breckenridge's staff with the rank of captain. He fought during the entire war, and at various times; was also in the commands of Generals Joseph E. Johnston and Jno. B. Hood in Tennessee and Georgia. For his coolness and courage under fire and for gallantry on the field of battle he was promoted to the rank of Major, and when the titanic struggle ended with the surrender at Appomattox, like the good and true citizen he was, he laid aside the sword for the ploughshare and for many years was an extensive cotton planter in the Mississippi valley.

In the year 1882 he came to Texas as director and General Manager for the Kentucky and Magnolia Cattle Companies, which properties were successfully conducted by him for a number of years. Major Johnson was the first man to build a wire fence in the northwestern country, and also bored the first well on the Staked Plains.

After resigning this position he became the owner of the Dixie ranch near Lubbock, Texas, which he finally sold and then established a shoe factory in Chihuahua, Mexico which is being successfully conducted by his son, Willie.

Major Johnson's legion of friends will ever hold him in remembrance for as long as this old world shall stand devoted to duty, unswerving loyalty, adherence to the right, intolerance of the wrong, will be the cardinal virtues that unite men's souls and binds them with hoops of steel. And such was he of whom we write.

SUNDAY SCHOOL NOTES.

Last Sunday quite a number of the officials of the Mitchell County Sunday School Convention had the pleasure of assisting in organizing a Sunday school at Longfellow. A large number were present and all seemed enthusiastic about a school in this community. Never has a school been organized with brighter prospects, as there were enough present for all departments and all in such peace and harmony. President P. C. Coleman conducted the devotional exercises and explained the object of the visit, and the following officers were elected: Supt., J. R. Pickens; Asst.-Supt., P. D. Felts; Sec., Miss Bollinger.

Secretary Robt. M. Webb then took charge and the school was properly graded, with Miss Anna Pickens in charge of the cradle roll department. Miss Ruth Pickens, the beginners; Miss Annie Witt, the primary; and Mrs. J. J. Atkinson, the home department, with quite an efficient corps of teachers. We wish for this school continual growth, peace and prosperity and happiness, and hope to have the privilege of another visit.

Miss Nellie Riordan made a talk on the importance of daily bible reading and left a number of pledge cards. We all feel that the visit was a success as a deeper interest seemed to be aroused in this one important work.

G. F. C. Entertain.

Thursday evening Misses Dera Wulfjen and Abbie Thomas entertained the G. F. C. club with a lawn party at the Wulfjen home. Each member was told to come and bring a gentleman. The lawn was prettily adorned with Japanese lanterns which cast sentimental shadows in all the cosy nooks. Rugs covered the grass, seats being placed cozily, and the punch bowl peeping out from the branches of a tree. The piano was on the porch and a musical program was given. Misses Buchanan, Stokes, Coughran and Merrell played, while Miss Moorar gave two beautiful vocal numbers. A burlesque upon the singing convention was next in order. After much singing the banner was awarded the gentlemen. There were charades and games which kept up the fun until a late hour. A refreshment course of apricot tea and cake was served while the punch bowl was kept filled all evening. Mrs. Shropshire is hostess this week.

he is by the home folks. Miss Loney also sang. A refreshment course of cream and cake was served in the dining room by the young ladies of the house party. It was indeed a pleasure to meet the clergy, gentlemen who were delegates, the handsomely gowned, brilliant women, and spend an hour with them in conversation. This was by no means the least important of the session, and of course the most enjoyed by all.

METHODIST MEETING.

Bro. Martin of Sweetwater who is preaching at the Methodist church is having good congregations and is giving them some splendid sermons. He preaches the Word with power and loving kindness, and the Truth is impressed upon the hearts of all who hear him. The christian who hears him will be inspired to higher and bolder efforts and the unsaved will be made to feel the truth and beauty of Christ's love. Go to hear him.

During a literary entertainment last Friday night out at Longfellow school house, an attempt was made by one or two parties, to disturb the exercises, which was promptly nipped in the bud by Sheriff Coughan and deputy sheriff, Sam Curry. It appears that entertainments had been disturbed at that place before by the same parties, and anticipating a recurrence of the same thing on that night, the officers were requested to be on hand. They so effectually put a stop to these disturbances, it is believed they will not recur in the future.

The offenders came into town last Saturday and paid off the damages like men. Such occurrences are very unpleasant in any community, and are to be deplored. Sooner or later they all come to the same end. Every community has the inalienable right to meet for worship, entertainment, instruction or pleasure when they so elect and the law guarantees them freedom from molestation and disturbance. They who disregard this right and the law, must expect to be held accountable. The Record hopes it may never occur again, either in that community or anywhere else.

Among the cases passed up by the supreme court last week were those of J. M. Radford et al vs. City of Colorado and The State of Texas vs. J. M. Terry. Application for a new hearing in the former case was refused, thus leaving the City of Colorado winner of the suit against J. M. Radford and others to compel them to move their spur switch out of the alley in the rear of the Radford Grocery Company's warehouse. The finding of the county court in the case of Mr. Terry, assessing his penalty at a fine of \$25 and 20 days incarceration in the county jail, was affirmed. The final disposition of the case now rests with Governor Colquitt and the exercise of his pardoning prerogative.

RECITAL AND CANTATA.

Friday evening Miss Lucille Stonerod gave her closing recital and cantata at the opera house. This is an event looked forward to by all artistic and music loving friends, and this year the juvenile cantata "Snow-White and the Seven Dwarfs" exceeded even the beautifully artistic productions of other years.

The recital came first, a handsome new piano having been sent out, for the affair. The program was begun by Madeline Looney playing "The Dancing Lesson;" Eloise Pond's piece was "Violets." Dorothy Lassefer the "Elegy Nectare;" Lottie Landers "By the Mountain Spring;" Sib's McKlenny selection was the "Poor Man's Weather-glass." Lorena and Lillian Smith had a pretty duet. Marion Adams selection was "Espagnole." Winnie Spalding had "The Tale of the Bear;" Bonnie Logan, "Dolly's Dream;" Kirk Ratliff, the only boy who played, deserves great credit. His piece was "He and She." Lorena Smith played "Good Luck;" Julia Shepherd "Scherzino." Inez Nunn played the "Dance of the Butterflies;" Isla Tilley "The Spring;" Lula Mae Dulaney "Starry Night;" Madeline Shepherd "Drifting." These pieces were all well rendered and not only reflects credit upon the pupils themselves but upon their teacher as well.

Rev. Mr. Hennessy, after speaking of the need of music in all our lives, presented the medals. The one to beginners was given to Miss Julia Shepherd; that to the intermediate to Miss Isla Tilley.

The curtain now went up on the Cantata. Miss Whipkey at the piano. Snow-White was in the center of the stage while the maids, in pretty white dresses, with filmy veils on their heads sang their birthday greetings. Snow-White who was Miss Lois Prude thanked them sweetly in song, her pure clear voice adding much to the beauty of the whole. The Queen, Miss Irene Whipkey, came in singing, she is the sovereign queen of this fair land. She was very beautiful and stately in royal purple, with her magic mirror. The little forest children came in and marched about their princess and queen. They were all in white with baskets in the hands of the larger and circles in the smaller, all with wreaths on their heads. They kneel to pay homage to Snow-White. At this the queen becomes angry and asks if she is not the most beautiful person in all the land. They answer: "The most beautiful except the princess. The queen asks if children and fools tell the truth. The children sing "We give Snow-White our service." She asks them to say no more and tells the queen they are overfond of her. The queen seeks the aid of the magic mirror, which says that Snow-White is more beautiful than she; so she plans the death of the princess. She tells her that she may go to the woods for flowers with Carl, the huntsman. In the forest Carl (Ralph Homan) sings a weird song of death, but cannot kill the princess, so he leaves her alone to starve. Their duet, Farewell, was one of the prettiest of all. When Snow-White is alone and wandering what will become of her, the Forest Children come and sing a welcome, but they cannot help her. After she has gone, the Prince, Chester Thomas, comes in search of her as does Carl, who has some bread for her. The Prince sings of her charms and the Maids and Forest Children add to his song with theirs of love and devotion.

Snow-White is next shown into a room in the house of the Seven Dwarfs. These queer little hunchbacks with their peaked hats and long flowing beards were the very cutest things of the play. They were Willie Doss, Kirk Ratliff, Harry Ratliff, Lester Ratliff, Max Payne, Paul Terrell, Stansel Whipkey, J. G. Keathley and Anthony Lyon. After finding out who Snow-White is they take her as their house-keeper, as she tells them she can knit and cook and sew. The dwarfs leave her to sleep and the queen comes in disguised as a peddler and persuades her to buy a girdle. This she laces on her and stabs Snow-White. The Forest Children find her and go for the dwarfs who save her. The queen comes as a market woman, and poisons her. The prince finds her and brings her to life. The prince is the wedding group. The bride is the wedding group. The bride is the wedding group. The bride is the wedding group.

ANNOUNCEMENT.

**West Texas Summer Normal at Colo-
rado, June 3 to July 17.**

Faculty.

M. A. Watson, Conductor, Superin-
tendent of Public Schools, Snyder,
Texas. Twenty years successful ex-
perience in the Public schools of Tex-
as. Several years conductor Summer
Normals and five years County Super-
intendent of one of the most progres-
sive educational counties of East Tex-
as. Member Summer Normal Board of
Examiners 1911.

J. W. Hale, Superintendent of Roby
Public Schools. Mr. Hale holds a high
place as a school man, having had sev-
eral years experience as teacher and
Superintendent of some of the best
schools of West Texas, and has been
conductor of Summer Normals for
several years.

L. E. King, Principal of Sweetwater
High School, graduate of Sam Hous-
ton Normal and of the University of
Texas. Mr. King has had six years
experience as teacher and ample ex-
perience as member of Summer Nor-
mal faculty. Mr. King has charge of
science in the High School and will
have that subject in the normal. Pup-
ils may count themselves fortunate
in having an opportunity to take the
sciences under Mr. King.

G. L. Farrar, Principal of Loraine
High School. Mr. Farrar will have the
mathematics in the Normal. That is
his subject in the schools where he
teaches. He has had several years
work as teacher and was chosen by
the teachers of Mitchell county as a
member of the faculty of this Normal.

Miss Sallie Hutton, Primary Super-
visor of Colorado Public Schools. Miss
Hutton will have charge of Primary
methods and comes to us with several
years successful experience. She is a
graduate of Southwestern University
and has taken extensive courses in
Primary Methods at the Summer
School of the South at Knoxville,
Tenn. Miss Hutton will give actual
practice work with pupils of Colorado
showing exactly how to apply the lat-
est and best methods in the primary
department. This feature of the work
alone will be worth the cost of the

course to any primary teacher.

Work Offered.

The work offered will be all that
outlined by the State Department of
Education for all grades of Certifi-
cates. Examinations will be held at
the close of the session for all classes
of certificates.

Text Books.

The newly adopted books will be
used as far as possible. Arrange-
ments are being made to have the
books in the hands of the dealers at
Colorado by the opening of the Nor-
mal. All persons attending should
bring with them all the texts they may
have on the subjects they expect to
study. They can be used with great
advantage for reference. In Methods
and Management use Sutton and Horn
School Room Essentials. In Reading
use Briggs and Coffman. In Solid
Geometry use Wentworth Smith, Re-
vised. In History of Education use
Monroe Brief course. In fact the
books selected will conform to the
recommendations of the State Super-
intendent who will doubtless base the
examinations upon the texts suggested.
All teachers will have access to the
High School Library at proper times
and that will be a great help.

Equipment.

The Colorado High School is recog-
nized as one of the best equipped
schools in the State. Plenty of mat-
erial for laboratory work in science
and ample apparatus. Fine library-
plenty of room, all seated with the
latest model of single desks.

Location.

Colorado is situated on the Colorado
river and the Texas and Pacific rail-
road. It is easy of access from all
points east, west, north and south. The
climate is delightful in summer, being
out of the mosquitos and flies and yet
not in the windy belt where it would
be uncomfortable. The people of Col-
orado are enlightened and progres-
sive. They are generous and hospita-
ble and it will do you good to spend a
few weeks in their midst.

Expenses.

The expenses have been reduced as
low as is consistent with efficient
work. Tuition will be six dollars for
the term of six weeks or one dollar
per week, but in no case will a fee of
less than five dollars be accepted. The
fee for examination will be one dollar,
which goes to the State Board.

Good board can be had in the best
homes at reasonable prices, ranging
from \$4.00 per week up. This does
not mean dormitory board, but good
substantial board with the best peo-
ple of Colorado.

Advantages.

1. Every member of the faculty a
specialist in the work he will do.
2. Every member of the faculty a
teacher or Superintendent in one of
the best schools in West Texas.
3. The records show that a greater
per cent. of applicants receive certi-
ficates from the small normals than
from the larger ones. This is due to
the fact that larger numbers are dis-
tracting. We will not have a "big"
normal and each pupil will come in di-
rect personal contact with every
teacher.
4. Good positions are easily obtain-
ed in West Texas by worthy teachers
and while we do not run a "teachers
agency" every member of the faculty
will help worthy pupils to secure bet-
ter positions and better salaries.
5. Healthful climate and progres-
sive people. Excellent student body.
6. No distracting elements attend-
ing the final examinations. We guar-
antee that no pupil of West Texas
Summer Normal shall be disturbed
and hindered by others from doing his
Normal TWO
best work. Every opportunity will be
offered for successfully passing the
examinations.
7. Expenses are as low as can be
had where the work is done well. We
prefer to give the very best service
and win approval rather than cheapen
the work and have you go away dis-
satisfied.

Who Should Attend.

1. Those desiring to improve their
scholarship and render themselves
better qualified to teach.
 2. Those who desire to receive State
Certificates of any grade.
 3. Those who desire to build upon
their certificates to higher grades.
 4. Those who desire to get better
positions and better salaries.
 5. Those who desire the assistance
of the best school men in West Texas.
 6. Those who desire to spend a
pleasant summer in study rather than
waste it or spend it where it is un-
comfortable.

On Tuesday night Miss Lela Whip-
key entertained her Sunday school
class of boys, each one of whom had
an invited guest, a girl, with a lawn
party in the moonlight. Miss Whipkey
had planned to light the lawn and
porches with electric lights, but the
light being out of commission, a few
lanterns and the full moon had to do
service. The piano was placed on the
porch, with plenty of chairs on the
large lawn. The boys came in promp-
tly, each bringing his invited guest, and
soon the neighborhood was resounding
to the merry peals of laughter and
song. A number of games were play-
ed and when they began to get tired
all gathered around the piano and
sang song after song—new, catchy
popular pieces, and all the old time
songs our mothers used to sing. Then
Mrs. Whipkey, assisted by several of
the boys served delicious fruit punch
with home made cake of several vari-
eties. There was an abundance of
this, and all were helped two or three
times, in fact the boys, for once, said
they had "enough." At eleven o'clock
they gathered around Miss Lela to tell
her what a good time they had spent
and thank her for the jolly party. The
boys say they sure like their teacher
better than ever, and hope she will
give them another party soon.

About 6:30 Sunday afternoon, it
looked as if nothing could prevent a
rain, but all the preparation and
promise ended in a beautiful sand-
storm, which prevailed for some time.
There was a good rain, however east
of this place, Merkel and Abilene be-
ing the favored places. We can't have
things all the time as we want them,
particularly rain, but when we don't
get it, we rejoice at the good fortune
of our neighbors.

Again on Monday evening the clouds
and electrical display gave evidence
of rain in this vicinity, and we of Col-
orado met them more than half way
with wishes and welcome; but the
time was not just ripe for another
good shower in Colorado. There was
a good sprinkle about 8:15, which
hardly settled the dust, but to the east
of us good showers fell. Loraine had
a good one, while the day before Ros-
cos and the country further east were
blest. We knew our time would come
soon, and so long as the county gets
the rain, we denizens of the towns can
well afford to wait.

Do it now—phone Hall's grocery for
a gallon of ribbon cane syrup.

IRRIGATED LAND.

At Ballinger, Mr. Farmer paid
\$17,000 for 340 acres of land, and
the first year's crop brought the
net sum of \$23,160, the rent
alone making the owner a net
profit of \$7,580. Dr. Phenix is
now offering a small tract of his
farm for only \$50 per acre, in-

crop will more than pay for the
land. When he makes one more
sale the price is to be raised to
\$75 or \$100 per acre.—Adv.

COLORADO, TEXAS, MAY 23, 1913.

The debt of New York City is now \$1,022,000,000, a goodly load for a youngster like New York, but with real estate owned to the value of \$1,300,000,000, it does not look so formidable.

We have read somewhere that "its a dead heat between the fool who farms and the farmer who fools." We have all met in our time, both these gentlemen and have noticed that their general complaint was nothing doing or doing nothing—Ex.

Of all the germ fads, the most ridiculous is that about money spreading disease. Show us the man who would turn down a twenty dollar bill if offered him by a patient with cholera or Asiatic plague. We'd all risk disinfection and take it.

After June 1st of this year, by order of Lindley M. Garrison, Secretary of War, the Panama Canal Zone will be prohibition territory. There are now 25 saloons in Panama, and a strenuous but fruitless fight was made by the whiskey interests to prevent the passing of this order.

Owing to the endless characters in the Chinese language—every word having a different character, and the inability to transmit the language by telegraphic code; that government has decided to adopt an alphabet, and a board created for that purpose has just adjourned at Peking. The alphabet consists of parts of Chinese characters which represent fixed sounds. There are 24 initials and 15 finals, making 39 characters.

Those timorous souls who feared Mr. Bryan would so overtop and dominate President Wilson that the latter would be but an appendage to the administration, have another fear coming. It is Mr. Bryan who is so lost in the shuffle that he looks to the surface now and then like a fish in troubled waters. Everything emanating from the White House will have Mr. Wilson's "mark" upon it.

SCORE FOR MRS. WILSON.

A change that will readily meet the approval of every southern man and woman closely followed the visit of Mrs. Woodrow Wilson to the bureau of engraving and printing, last week. She found white women employees of the bureau working beside negroes, and on the day following her visit, an order was issued by the assistant secretary of the treasury completely segregating them. This is not the only reform a Southern woman in the White House will effect.

We have had a communication two weeks in this office signed "John Peasimist" which we would like to publish, but as there was no genuine name accompanying it, have held it up thinking the writer would send his real name. It is an iron-clad rule in all responsible printing offices to publish no article or communication without the real name of the writer accompanying it. The name is not required for publication, but as a guarantee of good faith and responsibility. You may sign any name to the communication you wish, but the real name must be known to the editor. This particular article is a good one and calls attention to an important matter. We will gladly print it if the writer will send in his real name.

The disposition to kick the fellow who is down and out, will likely never be overcome. There will always be those who will set themselves upon a little higher plane than their fellows and exclaim: "Behold." It is the same old story. When a man takes one step on the downward path, there are hundreds standing ready to help him take the second, where there is one friend to lend a helping hand to pull back. Our time on this earth is short and longest. How much better would it be and how much greater would the

world be if we could but take every misguided brother by the hand and lead him to the plane upon which we in our egotism and self-righteousness have been basking.

We call attention to the ad in this issue of the Record, of the Simmons College Summer School. The same standard of work will be done in this school that has made Simmons College an established institution in West Texas. It offers superior advantages in both equipment and faculty. Opportunity is given to do real college work and credits will be given towards a degree for college work done.

Those who so strenuously object to circuses and other travelling forms of amusement because they take so much money out of the country, should be consistent enough not to patronize foreign mail order houses. Every circus or tented show leaves considerable money in every town it visits besides being forced to pay taxes wholly out of proportion to any other line of business. But not one cent taxes do the mail order houses pay, nor one cent do they contribute in return for the thousands of dollars sent to them annually from this country. The money kept at home by keeping out the circuses, rarely finds its way into the pockets of those who object to the shows on this account. The people who spend money on shows, will spend no less with the home merchants; and those who do not patronize shows, patronize the home merchants just as little as they possibly can. The "spenders" will give up their money for shows and everything else they want, and if they can't go to a show there is no likelihood they will spend the money saved with the merchant. And the other class—the "Non-spenders," who won't patronize a show; very likely will not spend that money with the merchant.

Farming is taking on more dignity and business like methods in West Texas than the industry ever enjoyed before. Farmers themselves are just realizing that their's is the oldest, most needful and most honorable calling in life. On the success of our farming interests depends all else. The population of a strictly farming country are in every way better citizens, better individuals, than those of manufacturing or mining sections. The man who owns a good farm, is an individual who follows the leading of no other man. He thinks for himself and acts according to his own judgment. He is the backbone of the country's patriotism, the nucleus of its banks. He is independent and bows to no one. Put that same man in a manufacturing community; make him foreman of some department of the work, and he would lose all his independent spirit, truckle to the boss and be always afraid of his job, which is held over his head as a threat if he does not vote to suit the interests of the concern he works for. Besides, he loses his identity and becomes submerged in the common force. He is then ripe for all kinds of organizations that tend to array his interests against those of the people who employ him. By all odds, the farmer is the most independent man on earth; that he is not, is his own fault, the error perhaps, beginning before he was born.

We pretend to no prophetic gift save in the domain of psychological meteorological prognosis. Which some technical terms translated into popular idiom and vernacular means some slight ability to jolly the people along about the weather—particularly about rain. Although they know we know absolutely nothing more about it than any other guesser, they still are able to transmit our common hope into some kind of belief and confidence. We have striven to impress upon their minds the principle that "believing is seeing;" that if we believe and work in harmony with our faith, the thing is accomplished before we realize it. "We have maintained all along that the rains would come in "good time" and we submit they have. There never was a better time for them than this very year of 1913. If our prophetic office attains no higher dignity than keeping a few good people in faith and confidence, it will have done more than the official seers of distinction. We know you do not believe our predictions as to rain but we go know you would be glad to believe them. Wishes are fathers of more things than thoughts. They are the basis of faith and hope.

fore we realize it. "We have maintained all along that the rains would come in "good time" and we submit they have. There never was a better time for them than this very year of 1913. If our prophetic office attains no higher dignity than keeping a few good people in faith and confidence, it will have done more than the official seers of distinction. We know you do not believe our predictions as to rain but we go know you would be glad to believe them. Wishes are fathers of more things than thoughts. They are the basis of faith and hope.

The man who doesn't love to watch green things (in the vegetation line) growing and feel that he has a hand in the growing, is not as a rule, a very aggressively constructive citizen. If its nothing larger than a patch in the garden or a flower bed, he feels that he is adding to the beauty or the wealth of the community. We once knew a man, able-bodied and strong as an ox, but so utterly and superlatively trifling that he made no pretense to supporting his family. His wife and the oldest daughter did washing and sewing, and one son worked on a farm. But sorry as he was, he was the most industrious and successful gardener ever known in that country. He grew old fashioned flowers, sweet and medicinal herbs, besides the finest vegetables imaginable. But the strangest feature of it all was, he would not sell a vegetable or a single flower for money. What more than his family consumed he gave away, and he was the mecca for all the "root and yarb" doctors in the country. With all this man's shiftlessness and lack of business sense, through his innate love of seeing things grow and fructify, he filled a very useful though humble niche in the community. If a neighbor were ill he would be among the first to visit him and take a bouquet of flowers, while his garden was always at the command of those who were without. The only thing in which he differed from his more prominent and successful neighbors, was being imposed upon by the still more trifling ones.

COME ON BACK.

We were shown a letter last week by Chas. Lasky from a farmer now living in Oklahoma, who formerly lived on the orchard place of Mr. Lasky. He is very anxious to get back to old Mitchell county, and writes to learn if Mr. Lasky has a place for rent. It is, we admit, a great temptation to leave Mitchell county when the clouds withhold their accustomed rain and dew; when the fields and prairies grow brown and sear; when the water holes dry up and all vegetation withers; and particularly is the temptation strong when one reads of abundant rains and crops just a little way off; but with the first signs of returning prosperity; when the reports of good seasons in Mitchell county go forth, the very ones who have yielded to the dulcet tones of the siren's song and moved away, are the first to return. They know what Mitchell county soil can do under proper conditions and encouragement. They never leave here for some other place because of any dissatisfaction with any feature of Mitchell county; but its conditions that are beyond the power of men to foresee or prevent that make them move. If these same farmers were able to tide over one, two or three years of lean crops, they would have stayed by the stuff, knowing well that the tide would turn and they be the gainers by being on the ground. Every farmer or other business man who ever left Colorado and Mitchell county will find a welcome waiting for him now that old Mitchell is coming into her own glory again. Come on back, boys; there is now room, and there will soon be prosperity enough to reach all around. Besides the country needs a thousand small farmers, just like you.

Of course business is dull just at this time. If it were not, it would be still duller next fall and winter. If the farmers were not busy in their crops at this season there would be nothing made to make business hereafter. This is the season when the real farmer comes to town as seldom as possible. When he begins to raise all he consumes at home he will come to sell as often as he now comes to buy. He will also raise much of the stuff sold by the local merchants instead of importing it from south and east Texas. If there were no dull seasons—seasons of replenishing—there could be no prosperous ones.

The San Angelo Standard's big red crowing roosters are kept on the front page much of the time now. But not in the interest of politics; something more important is happening in that country. The Standard's roosters say: "It has rained; there'll be hay in the barn; bacon in the smokehouse; potatoes in the cellar; honey in the hive; money in the bank. Good times in West Texas and the goose hangs high!"

Try Record want ads for that lost

LET US NOT LAG.

One of the most fatal fallings we have in connection with putting afoot any project of public utility or enterprise, is that we blow off too much enthusiasm at the beginning. We once knew a little steamboat on the Yazoo river in Mississippi, which had a twenty horse power boiler and a whistle from a big Mississippi river pack-boat—a regular 100 horse power boiler that could notify the natives for twenty miles when a boat was coming. This 100 horse whistle was attached to the 20 horse boiler, and whenever the little boat left off its whistle, it had to tie up to the bank till it raised enough steam to travel.

We expend too much energy in getting ready to get ready and then have not enough to get ready with. The project of sinking an experimental irrigation well on some piece of land near town, is a most pious one, and aside from being directly in line with the development of the country on irrigation lines, the safety of the proposition and indemnity of the individual investors against loss is assured by the offer of the party on whose land the well is developed, to take it over including all expenses. Of course, if water is not found in sufficient quantity for irrigation purposes, the individual investor loses just what he has subscribed toward the venture. If no water is found the knowledge of the fact that it is not under that tract of land is worth something, and it is valued accordingly.

If, however, an abundant supply of water be found, the knowledge will be worth a great deal more than the water alone. We will have demonstrated that we have the water for successful irrigation and every farmer will be encouraged to sink a well of his own. If water can be gotten here sufficient to irrigate 40 to 80 acres from one well, the possibilities of our development would become incalculable. It would mean that when a farmer planted an acre of cotton or corn, or whatever else, he could depend on a yield equal to the utmost capacity of the land, if he but did his part. Farming would become a certainty and the spectre of drought eternally banished from all our feasts. Don't let the test well proposition lag and die of inanition.

The measure before parliament extending the suffrage to 6,000,000 women of the English empire, was lost before that body last week. The women themselves have done the measure more harm than all else. The vote was 266 to 219. The 50 votes of the Irish Nationalists sealed the fate of the bill. In their campaign the women of England have wantonly destroyed more than \$5,000,000 worth of property, chiefly by the torch. They had planned the destruction of Westminster, and did fire the cathedral of St. Paul. They proved themselves unworthy and incapable of the ballot. Had men done these things instead of women, they had long ago been shot down by the military.

Little more than a decade ago the imperial government of China hunted down and slew its christian subjects and foreigners like wild beasts and brought all the resources of the nation at its command to aid in driving the "foreign devils" from its shores. Skipping over that time we find the Chinese government a liberal republic—and listen. The president of China recently appealed to all the christian subjects of the empire to set apart April 27th last, as a day of fasting and prayer; prayer for the government, for its president, for the constitution, for the maintenance of peace and the election to office of only good, strong and honest men. No wonder then, when asked by a visitor to that country, what he considered the greatest need of China today, the Chinese President replied: "Christianity, by all means."

Secretary of the navy, Garrison, has granted permission to Amundsen, the antarctic explorer, to pass his ship, the Fram, through the Panama canal this fall, when it starts on its arctic trip.

Two girls were arrested at Fort Worth last week charged with shop lifting. The youngest, an innocent girl of ten, says she took things because she saw other girls take them, and wanted to look pretty also. When their cases were called the root and cause of the whole story was discovered in the fact that the parents of these girls allowed them to "come and go wherever and whenever they pleased." That tells the whole story.

There has been a falling off on the market of "Lone Star" brands of the various goods. It is now a misdemeanor to use the Texas flag or state seal for advertising purposes, or to give publicity of any kind to any commodity for commercial purposes.

Although the election was strictly according to law and his commission duly authenticated, Congressman H. Olin Young, a republican from Michi-

gan, voluntarily resigns his seat. 458 votes cast for his opponent were thrown out because of an error in his name. Mr. Young says he is convinced these 458 voters intended to vote for McDonald, his democratic opponent, and he can not conscientiously retain his seat.

HAMLIN VS. COLORADO.

The series of two games between Colorado and Hamlin base ball teams was played Wednesday and Thursday evenings as per schedule. The Hamlin boys had some trouble in getting through, but finally arrived in time for the game, which was called at five o'clock, with Mayor C. M. Adams as umpire. The Colorado battery was Bodine and Gage. From the very start the Colorado boys had them up in the air. Both teams did very poor playing, as the score would indicate. The pitching on both sides was very good, but the support was weak and the ball was put out in the brush several times, being completely lost on two occasions. A few brilliant plays were made, but these were more than offset by the number of errors on both sides. As far as we could judge from the Wednesday's game the teams were pretty evenly matched, the Hamlin boys being handicapped by strange grounds, and an all day ride in a crowded automobile. The score of the first game was in Colorado's favor, 13-6, and as we go to press just as the Thursday game is being played we dare not predict how it will terminate. We wish to say that the Hamlin boys, so far, have been unusually courteous and gentlemanly in every respect; no quarrelling nor squabbling of any kind and the boys acted the perfect gentlemen, on which the Record congratulates them, and Colorado appreciates the fact. They took their defeat as sportsmen should all in good part. We hope to have the Hamlin boys back with us again this season.

Birthday Dinner.

Monday evening Dr. Marshall entertained the official board of his church, together with his pastor, Bro. Craig, and the missionary from Mexico, Mr. Mellinger. This was his birthday and it is the custom of the Christian official board to entertain each other upon these anniversaries. The dinner was a delicious one and Mrs. Marshall was assisted in serving by Mrs. Craig and Smith. The place cards were original verses bearing upon the profession of the gentleman for whom they were intended. Mr. Craig gave several original poems. All responded to toasts, which were given in rhyme. A peculiar coincidence was that this was also Mr. Mellinger's birthday and his age was the same as that of his host. The official meeting was held after dinner in the parlor, and of course business was a pleasure after such a delightful feast of wisdom and good cheer.

Little has been done in the district court this week, the time being taken in hearing motions, demurrers, etc. The grand jury is grinding away on such grist as comes into its hopper.

Monday afternoon Mrs. G. D. Adams and Mrs. Nettles entertained their classes of boys, at the home of Mrs. Adams, with a very enjoyable party. Each boy was asked to bring goods enough for a blouse, and while Misses Daisy Adams and Lois Whipkey entertained the boys, Mrs. Adams, Nettles and Whipkey made blouses six being completed during the afternoon. While refreshments were being served the history of Buckner Orphans home was told the children and they were made to feel very much interested, and glad that they had given a garment.

Not Fit For Ladies.

Public sentiment should be against it, and we believe it is, there can be no reason why ladies should have to suffer with headache and neuralgia, especially when Hunt's Lightning Oil gives such prompt relief. It is simply a question of getting the ladies to try it. All druggists sell Hunt's Lightning Oil in 25c and 50c bottles.

ECHOS FROM THE DALLAS TRADE EXCURSION.

Dallas, Texas: The hospitality of the citizens of Colorado and the substantial business interests and enterprise of that city made a deep and lasting impression on the members of the thirteenth annual excursion party of the Dallas Chamber of Commerce, declares L. O. Daniel, a prominent Dallas business man and a member of the party. "Practically every business man and manufacturer that took part in the trip returned home impressed with the necessity of putting on additional men in the Panhandle and West Texas and in getting into closer trade relations with that section," he said. "Colorado and West Texas generally have a splendid future, and have just begun to grow. We are deeply grateful to the citizens of that city for their kind and courteous treatment. We returned home better Texans for the trip was an educational one in the extreme and one that is bound to make us better citizens in every way."

TOO BAD—FOR THE KIDS.

It was really a sad disappointment for all the kids (?) not to see the show Saturday, after whetting their appetites and working up their imagination by looking at the bills for a week. Nor were the kids only disappointed. The grownups had set their hearts just as firmly on seeing the great parade as any. After coming from Sterling City where it exhibited Friday and pitching tents behind Burns & Bell's store, while the crowd stood around getting a preparatory taste of the show and numerous small boys worked as they would never have worked bringing in wood for mother, for a pass to the show; it was a disappointment to all hands not to have a show. But the law is the law, and when it says that an exhibition, so advertising, is a circus and must pay \$150 to \$200 license to give each performance, the fiat is inexorable. Not being willing or able after sizing up the potentialities of the crowd in town, to pay such license, the management decided not to give any exhibit at all. Sic transit gloria mundi.

THE DON CARLOS SHOW.

Don Carlos and his dog and monkey show are now in Colorado and there will be the greatest amusement and entertainment for both old and young. The little folks are delighted with this entertainment, while the older ones are amazed at the intelligence—and sagacity of the animals. His trained animals perform tricks that can be accounted for only on the basis of real thinking powers in the animals. The show is not only clean, high-class and amusing, but is intensely educational. Children who see it will never forget it; it will be a red letter day in the calendar of their lives. Be sure you see these trained animals. Don't forget the dates—Thursday, Friday and Saturday, May 22, 23 and 24th at the Opera House, seats on sale at Majors.

START YOUR LIVER. DON'T STOP WORK. Dodson's Liver Tonic Acts Mildly, but Surely, Livers Up the Liver and You Stay on Your Feet.

It is the experience of calomel users that if they take enough of the drug to have the desired effect it seriously interferes with their work of the day after. But this is the least important item, for calomel is often a dangerous drug and acts on the system violently. Don't take chances with calomel. Get a bottle of the pleasant, safe and perfectly harmless Dodson's Liver Tonic, guaranteed to take the place of calomel. Instead of making you feel worse the next day it makes you feel better—and you actually are better, for no remedy in the whole world lives up the liver, regulates the bowels and really rejuvenates the system any better than this dose.

You are the sole judge of its merits. Floyd Beal is fully authorized to hand you back your money without question if it fails to please you—and relieve you.

Remember, if you feel constipated and bilious, what you need is Dodson's Liver Tonic. A large bottle and a good guarantee for 50 cents from Floyd Beal.

This writer attended the entertainment given by the pupils of Miss Lettie Miller, teacher of elocution and expression in the Lorraine high school, Tuesday night, and had the honor and pleasure of acting as one of the judges in the reading contest. There were eight contestants, ranging in age from about 10 to 18 (plus years. They all did well—much better than the average of such entertainments, reflecting careful and efficient training together with aptitude and diligence on the part of the pupils. The youngest contestant, little Miss Mae White, secured the first prize, while the second prize was awarded Nellie Norman. The former showed remarkable poise, aptitude for acting and naturalness in every word and gesture. After the reading contest, the young men of Lorraine regaled the large audience with an original minstrel show, interspersed with local hits and jokes. The entertainment must have been a financial success, judging by the large crowd present, as well as a literary one. But Lorraine always makes a success of everything its people lay their hands to.

Every Automobile Buyer Should Know the Studebaker Line

It will repay buyers everywhere to keep their eyes on the Studebaker line.

Both for sheer, positive value and for tremendous selling power, Studebaker cars will bear watching. The demand since these cars were announced has been overwhelming and by every sign will continue heavy for months to come. Studebaker dealers before the year is done, will have taken their profits on 50,000 cars.

One reason for the big value offered by the Studebaker line is the new and remarkably satisfactory motor design. It provides both for accessibility and efficiency. And in this day of assembled cars of very similar features, the original and undeniably desirable Studebaker design opens up new and distinct advantages.

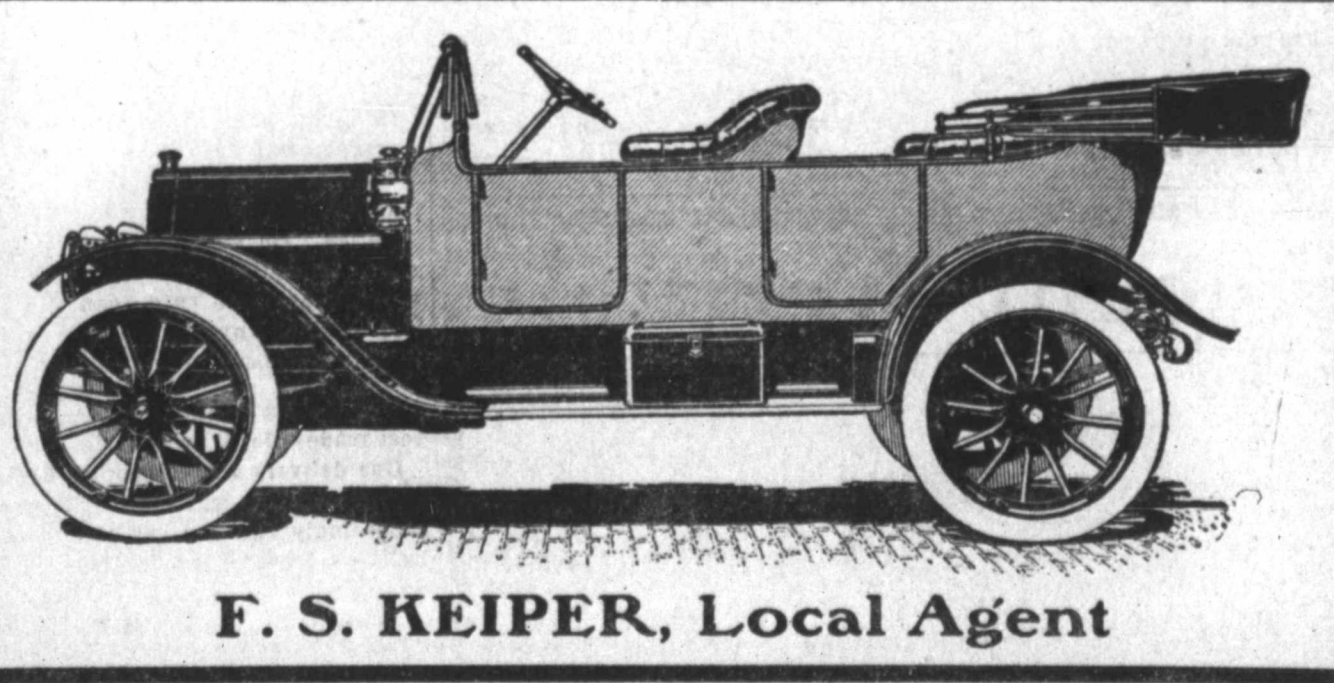

The most important points of Studebaker motor design lie in the bloc cylinder casting, the position of the pump and magneto on a transverse shaft in front of the cylinders, and the positive oiling system contained in the removable pressed steel base of the crankcase.

The monobloc cylinder casting has been developed by the advance of foundry methods, until in the hands of skilled and well-equipped manufacturers, both here and abroad, it represents higher efficiency than can be obtained by any other method. The placing of the magneto and pump on a transverse shaft in front of the cylinders has successfully solved the problem of accessibility both for the magneto and pump, and also for the valve adjustments. The oiling system is simple, easily reached when desired, and is at the same time positively efficient. And the excellence of motor design is only one of the many points of superiority to be found in Studebaker cars.

The buyer who has not studied these cars is, we believe, overlooking a matter of vital importance.

Religion and Medicine

S. B. HARTMAN, M. D.

Is there any intimate relation between religion and medicine? Yes, there is. The old-time healer was also the priest. Theology and medicine have not maintained a separate existence very long. They used to be one. Yes, there is an intimate relation between religion and medicine. It is well known of a person who eats with unthankfulness and ill-natured spirit, that his food will not have the same effect as if he were in a kindly mood. The same is true of medicine. If a person swallows a medicine with suspicion, has no faith in its action, is more or less afraid of the one who gives him the medicine, it cannot do him as much good as if he had unwavering faith in it. The mind has a wonderful influence over the body. Those who believe that

a loving Father controls the destiny of mankind are a great deal better prepared to meet the vicissitudes of life and to overcome disease than the one who has no such faith. A truly religious man makes a better patient than an irreligious man. In using the word religion I am not referring to any particular kind of religion. The Jew and the gentile, the Catholic and the Protestant, each have a religion in which they believe. They also agree in the essentials. A religious man may believe that it is necessary for him to use every means in his power to get well. He may believe that it is perfectly proper for him to employ doctors and take medicines. But he also believes that when he has done the best he can there is a higher power that has charge of his affairs, that absolute justice will be done him, that no evil thing can befall a good man. He goes forward with confidence, sick or well, rich or poor, and gets a great deal more comfort out of life than the man who has no religion.

I have found myself saying many times to people who have a chronic ailment, "You need religion as well as medicine. You need faith in an overruling providence that guides everything to wise ends; that the affliction of disease teaches a lesson that every one should strive to learn." This does not mean that sick people are to sit down and trust that an overruling providence will do everything. Nothing of the sort. He is to use remedies guided by his best judgment, but in the use of them he can believe that all things are well and that in the end all things will come out right. Any medicine has a better chance to cure a man who holds such a faith.

Some men are so faithless and unbelieving, so restless and desperate, their minds so unsettled, that even the best of medicine has little chance to do them any good. Therefore I say that religion is often quite as necessary as medicine, that the want of religion frequently defeats the action of the best medicine.

Many a chronic invalid has searched in vain for a physical remedy simply because he has lost his grip on vital religion, the religion that not only provides salvation in the world to come, but soundness of body and mind in the world that is.

Yes, there is a most intimate relation between medicine and religion. Other things being equal, the irreligious man stands a poor chance of getting well when he is sick, while the religious man frequently gets well in the most astonishing way after the doctors have all given him up to die. With a firm faith in a rational religion and an obedient use of the right remedy a great many hopeless invalids could be restored to perfect health.

Well, you have made it clear as to what you mean by religion. But what is the remedy you would recommend?

Of course I would recommend different remedies for different conditions. But the particular remedy that I am interested in at this time, the remedy that meets more chronic ailments than any other remedy I know of, is Peruna. Peruna is a remedy for that multitudinous group of ailments that are dependent upon catarrhal derangements.

I am furnishing a book on catarrhal diseases which I send to any person free. In this book I explain quite fully the uses of Peruna. Those who do not care to wait to send for the booklet at this time will find information and instruction as to the general uses of Peruna explained within the wrapper of each bottle. PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

LOCAL NOTES

Miss Wellis of Loraine came over Friday to be present at Miss Stonerod's recital.

Poor appetite is a sure sign of impaired digestion. A few doses of Chamberlain's Stomach and Liver Tablets will strengthen your digestion and improve your appetite. Thousands have been benefited by taking these Tablets. Sold by all dealers.

Hon. W. P. Leslie, of Colorado, and S. W. Altman, of Loraine, were here a short while Thursday, enroute home from Sweetwater. Mr. Leslie proved himself to be somewhat of a runner last summer in the race for district attorney in which he won, but Thursday he proved himself to be some walker, having walked in from Sweetwater. Mr. Leslie is making a good record as district attorney, and we are sure he will continue to make good.—Roscoe Times.

Lard, Lard, Lard. Pure and wholesome. Why buy packing house lard say more money for it when you can get the pure lard from us for less money. PHONE 35.

All the delegates from this city to the state convention of the Christian church held last week at San Angelo, report a most harmonious meeting with much business done. The general condition of the denomination within the state is fine, every enterprise prospering. Next year's meeting will be held at Gainesville.

Every article essential to correct dressing for any and all occasions at Coughran Bros. They are headquarters for the latest in everything to wear. Phone 154.

Last Thursday Mr. N. P. Brown, living next the Phenix irrigated farm, took out to his place a brand new gasoline engine and will do considerable irrigation himself. He has been experimenting in a small way the past few years and is convinced that it is the hope of this country. With Dr. Phenix and Mr. Browne, two of the foremost apostles of irrigation in the Mitchell county, as a nucleus, we look to see all the land contiguous to the river and suited to an irrigation system, put under water. It is the doctrine, neighbors; it's the gospel of successful farming in West Texas, and the sooner the farmers recognize this and put it in practice, if only a few added acres each year, the sooner they will throw off the yoke of the one and most uncertain crop tyranny.

It would surprise you to know of the great good that is being done by Chamberlain's Tablets. Darius Downey, of Newberg Junction, N. B., writes: "My wife has been using Chamberlain's Tablets and finds them very effectual and doing her lots of good." If you have any trouble with your stomach or bowels give them a trial. For sale by all dealers.

Ollie P. Ford was up from the McKeen ranch last Friday. His injured foot is getting along nicely.

With a silo you feed every particle of your corn or maize crop; from root to tassel. It's the most economical thing for farm or dairy. The "Galvanized Steel, Cypress Lined" is the cheapest, because the best. A. C. Gist is agent. 4-25-4

Briggs Robertson, of Slaton, and one of the prominent business men of that growing little city, was visiting the scenes of his childhood days and shaking hands with friends last week. He came down in his Franklin car.

We do our best to furnish you with meat you can eat, and we have spared no expense in the way of feed this past winter to have it for you. We try to deserve your trade. Phone 35.

Col. Victor D. Payne, representing the Monig Dry Goods Co., Fort Worth, visited friends and relatives here last Saturday. He is as youthful and spry as in days of yore.

Now is the time to get rid of your rheumatism. You can do it by applying Chamberlain's Liniment and massaging the parts freely at each application. For sale by all dealers.

Bob Cooper was up from Loraine last Friday, having suffered from the bite of an unruly and vicious horse.

If you have not tried that East Texas ribbon cane syrup at Hall's, you have missed a rare treat.

Judge Warren W. Beall of Sweetwater arrived Sunday night and assumed the wool sack Monday morning in district court.

Phone McMurry for fresh vegetables. Beal Bros. want and will appreciate your trade.

Walter Carter, accompanied by Mrs. Carter arrived Sunday night. Mr. Carter is the court stenographer for this district.

Lame back is usually caused by rheumatism of the muscles of the back, for which you will find nothing better than Chamberlain's Liniment. For sale by all dealers.

Mrs. M. J. Culp, who has been on an extended visit with her several sons at Dallas, Coleman and Bronte, returned home Monday. She will remain here but a short time and go to visit her son who owns a ranch west of Midland.

Let us save you money on lard. We sell pure hog lard for 15 cents per pound.—Beal Bros. 4-25c

Mrs. A. L. Robertson, sister of Mrs. W. H. Smith, returned to her home at Leander Monday, after a visit with Mrs. Smith of several weeks.

25 cents in the Record classified ads will turn the trick.

Miss Willie Smith returned last week from a visit with relatives in Georgetown.

Mrs. W. T. Mullin was a pleasant visitor to this office this week and informed us that it was her purpose to continue the publication of the *Lorraine News* unless the plant and business could be sold to advantage. Mrs. Mullin is not new at the newspaper game and is a writer of more than usual ability. Backed by the business people of *Lorraine*, she can make the *News* a power for good in that community. The *Record* wishes her every success.

"Subscribe for your home paper first. Then take the El Paso Herald. The southwest's greatest newspaper."

The work of removing the remains of the old St. James hotel has literally begun. Not in a tumultuous, steam shovel and tram car way, but by easy stages and small loads. A number of boys and men were put to work this week cleaning the whole brick and piling them. The bats and plaster is being hauled away. Any boy who wants a job need not go hungry from looking.

See Hall for maize, kafir and June corn seed. They are fresh and proven.

Mr. and Mrs. Dick Arnett Jr., of Justiceburg, attended the Episcopal convocation this week and visited relatives.

Fifteen different vegetables, fresh and fine, received every day at Hall's Phone 100.

The *Record* wants a regular correspondent in every community of the county. The value of a country newspaper depends on the amount and reliability of the community news. One section of the county wants to know what is going on in the other sections.

NOTICE.

I still have Meybane Triumph cottonseed for sale at the Farmers' Union Warehouse at \$1.00 per bushel. 5-30c E. M. McCRELESS.

McMurry has the exclusive agency for Queen of Pantry Flour. Best flour made, every sack guaranteed.

Former District Attorney, R. N. Grisham of Sweetwater, is attending district court here this week. He seems perfectly natural here.

Doss is the man who furnishes pure ice cream on shortest notice for any public or private occasion.

Don't forget the Normal will soon be opened here, and all those who wish to take boarders or lodgers during the term had better make application for them in advance.

For the best line of cigars and tobaccos, go to Ben Morgan's. He keeps them.

Rev. Miles Jenkins, who has been pastor of the Colored Baptist church at this place for the past seven years, left Wednesday for Roswell, N. M., where he will take the pastorate of the church at that place, but will return here about once a month until the indebtedness of this church is paid. Jenkins was pastor of the colored Baptist church at Abilene five years before coming to Colorado, where he had the same good standing among the best white people of the community he enjoyed here. He is a credit to his church and race, and the people of Colorado regret to see him leave. The *Record* commends him to the people among whom he is going.

There never was a time when people appreciated the real merits of Chamberlain's Cough Remedy more than now. This is shown by the increase in sales and voluntary testimonials from persons who have been cured by it. If you or your children are troubled with a cough or cold give it a trial and become acquainted with its good qualities. For sale by all dealers.

Mr. John L. Sheen of San Angelo, is the guest of L. C. Dupree and family this week.

THIS WEEK

We call the attention of the ladies to our Spring display of

SILKS

Shoes For the Men

We have Edwin Clapp and Walk-Over low-cut shoes, the best on earth for the money. Get you a pair while we have your size.

CHAS. M. ADAMS

La France Flour took the prize at Dallas state fair. Hall handles it.

Louise Wulfjen, the twelve year-old daughter of Mr. and Mrs. B. L. Wulfjen, made a most distinguished record in her school work the past season, in the Lowe school. She swept the head-mark prize; easily took the monthly average prize and tied with an 18 year-old boy for the general efficiency prize. This is an unusual record for a pupil of her age and we congratulate the little miss upon her successes.

Hall handles the famous "Golden Gate Coffee" and all kinds of the best classes of tea.

Mr. E. A. Maddin, one of the owners of the Tuft ranch, and who will be resident manager of same, purchased the home place of Mr. Sam'l Gustine this week, and will locate in Colorado. The consideration was \$3,300. This is one of the most pleasant and well improved places in town, convenient to school and in a splendid neighborhood.

FOR SALE—I have for sale a good horse, nearly new surry and harness, will sell very cheap. Apply to C. H. Earnest, Colorado, Texas.

D. M. Logan and family visited in Dallas last week, and he also attended the Shriners' meeting.

Fresh consignment of East Texas ribbon cane syrup; the finest ever in Colorado, at Hall's.

Ollie P. Ford received the sad intelligence by wire Tuesday that his mother was very low and sinking fast. The message was phoned out to him and he came in and took the train for Plummer'sville, Ark., where his parents live. We hope he will find his mother's condition much improved on his arrival.

What a Baptist Preacher Did.
This is to certify that I have used one box of Hunt's Cure for Skin trouble, and same cured me after using about \$5.00 worth of other ointments and salves. Nothing like Hunt's Cure for Skin troubles. Rev. H. T. Sizemore, Hemphill, Texas.

S. D. Vaughan and Tom Stonerod went over to Big Spring Wednesday and took the "horse degrees" in masonry. Colorado having no commandery, all those desiring these degrees must apply at Big Spring. There are more Knights Templar in Colorado than are requisite for a separate charter, but the policy of the grand commandery is to build up strong subordinate commanderies in large territory, rather than weak ones with small jurisdictions. In the afternoon an auto full of Knights went over to be present at the festivities.

A. C. Gist is agent for the best silo for West Texas; its "Galvanized Steel, Cypress Lined," air spaced; cooks and keeps the silage perfectly any length of time. It's the king of all silos and most economical. Don't buy till you see Gist. 4-25ff.

Birthday Party.
Tuesday was Bonnie Logan's tenth birthday, and she invited a number of her little friends in to her party. After playing games, her mama served ice cream and cake. The birthday cake was cut, and while each little girl ate cake, they made the best of wishes for Bonnie's future welfare and happiness. Three small prizes were given. Mary Terrell, Marie Vaughan and Etta Coughran got these for making the best wishes. Every little girl brought lovely gifts and all had a good time.

Hall handles all the field seeds.

H. Cook attended the commandery convocations at Big Spring Wednesday night.

Get a few settings of eggs from O. O. Shurtleff and have a credit at the grocery store next year. 5-2-ff.

LOST.—Somewhere in Colorado a pair of gold-rimmed glasses in an aluminum case. Bring to *Record* office and get reward.

Pattie Ayers, the greatest coloratura soprano of her age, will sing in Colorado at an early date. Announcement of date will appear later; watch for it. You can not afford to miss hearing this great artist.

NERVOUSNESS DENOTES WEAKNESS
but is promptly relieved by the medical nourishment in **Scott's Emulsion** which is not a nerve-quieter, but nature's greatest nerve-builder, without alcohol or opiate.
Scott & Bowne, Bloomfield, N. J. 13-25

The farmers of Mitchell county expend \$21,576 annually for feed-stuffs. 300 of the farmers of this county report purchases of feed-stuffs and the annual expenditure per farms reporting is \$72. By proper diversification of crops this money can be kept at home.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
