It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give

a trial. I still use Cardui when I feel a little bad, and it always does me good." Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Cardui, the woman's tonic. You cannot make a mistake in trying Cardui for your trouble. It has been helping weak, ailing women for more than fifty years.

THE FATE OF THE SINNER AFTER DEATH.

The Washington, D. C., "Star" gives in symposium in which eight clergymen "whose reputation for scholarship and knowledge of denominational doctrine is high" set forth, as clearly and simply as possible, the beliefs of their respective churches in regard to the problem, "What is the fate of the sinner after death?"

Rev. Fr. T. G. Smyth, Pastor of St. Anne's Church, Tenneytown, Maryland, says, "The Catholic Church teaches... a place of eternal torment for the wicked. The memory shall be tortured with sins committed, their trifling causes, their paltry pleasures; hence follow remorse, rage and hatred of self." Compare this with the Bible teaching that "The dead know not anything... their hatred and their envy is now perished." (Ecclesiastes 9:5,6) If the dead know nothing, how can they have any memory, or remorse, or rage?

Rev. Dr. G. E. Whitehouse, pastor of the Baptist Church in Berlin, N. Y., believes in "eternal punishment after death" and that the nature of this eternal punishment is "eternal misery." Compare this with the Bible teaching that Sheol, the death state is a state where all its inhabitants "rest together in the dust."—Job 17: 13-16.

Dr. U. G. B. Pierce, pastor of All Souls' Unitarian Church, Washington, D. C., says, "Death is the awakening from that prolonged and disturbed sleep that we have learned to call life." Compare this with God's warning to the first man, "Of the tree of the knowledge of good and evil, thou shalt not eat of it; for in the day that thou eatest thereof thou shalt surely die." (Genesis 2:17). Was Adam asleep when created perfect, and did he need to sin and become imperfect in order to awake?

Rev. Dr. J. Henning Nelms, Episcopalian, pastor of the Church of the Ascension, Washington, D. C., says, "It is impossible for the incident in human existence which we call death to be a relief remedy for the sufferings which come necessarily to every man who violates God's laws." Compare this with Job's appeal, "O that thou wouldst hide me in Sheol, that thou wouldst keep me secret until thy wrath be past." (Job 14: 12) Job evidently thought that his sufferings would end promptly if he could but enter the death state.

Rev. Dr. Forest J. Prettyman, chaplain of the United States Senate, says, "There is no dogmatic doctrine upon the subject of future punishment taught by the Methodist Church." Compare this with the positive (dogmatic) Bible teaching that "All the wicked will God destroy" (Psalm 145:20) and "They shall be as though they had not been."—Obadiah 16.

Rabi Abram Simon, Washington Hebrew Congregation says "Remorse of conscience carried beyond the grave is considered agony enough." The Bible says of the sinner when he dies, "In that very day his thoughts perish." (Psalm 146:4) How can he suffer remorse if he can no longer think?

Rev. Dr. J. Wallace Radcliffe, pastor of the New York Avenue Presbyterian Church of Washington, believes in "The unending judgment of the lost." The Bible says, "The end of the wicked shall be cut off." (Psalm 37:38). Can anything be said to be unending after the end has been cut off?

Rev. Dr. John Van Schaick, Universalist, pastor of the Church of Our Father, Washington, believes that "In time and eternity, the work will go on until all souls are saved;" but the Bible teaches that "The soul that sin-

neth, it shall die." (Ezekiel 18:4) "And never shalt thou be any more."—Ezekiel 28:19.

Rev. C. T. Russell, pastor of the Washington Temple, Independent, says, "The teaching of the Bible is that death, real, actual death, came into the world as a result of Adam's disobedience; that it rests upon all; that God has provided a Redemption; that a resurrection for all is impending, as a result of that Redemption, and that then, under the better conditions of the New Age, mankind, backed by the knowledge gained from present experiences with sin and its consequences, will demonstrate to the Creator, each for himself, whether he is worthy of the gift of God, eternal life."

"For the upright shall dwell in the land, and the perfect shall remain in it. But the wicked shall be cut off from the earth, and the transgressors be rooted out of it."—Proverbs 2:21, 22.

THE WANDERING JEW.

A FRIEND TO THE WORKING MAN. Five years ago I was so troubled with kidney trouble and inflammation of the bladder that I had to cease working my farm. Life looked dark to me until I heard of Dr. Kilmer's Swamp-Root through a cured friend. I tried a bottle and began to feel better at once. After using five or six bottles I felt fine and have continued to work as I had before my affliction.

I want to state that Dr. Kilmer's Swamp-Root is a kidney medicine that will cure and I owe my good work during the past five or six years to it.

Yours very truly,
C. W. MORRIS,
Prescott, Ark.
Subscribed and sworn to before me, this 27th day of March, 1912.
O. B. GORDON,

This is to certify that Mr. C. W. Morris has bought Swamp-Root at this store in the past.

The Saturday Evening Post of recent date contained an article that showed up the evils of the mail order houses in their true light. It is a story of how one good but unthinking woman ruined the business of an entire town, by patronizing these foreign houses and getting her neighbors to do the same. All of her boys, when they grew up, had to leave the home town and go to the town the mail order business had built up, to secure employment. They were only making a bare living in the cities, but that was better than they could do in the home town. Everybody began to send to the city for what they wanted until there was soon no local market for them to dispose of their produce; they had to send that to the city. By patronizing these foreign mail order houses, the parent is cutting down the chances of keeping his children at home and providing employment for them. He will have to send them to the mail order houses after a while to seek employment.

Goodman, of Colorado, but who had been gone from here more than twenty years, died last Thursday night at Dallas, Texas and the remains brought to Colorado for interment. Mrs. Goodman was a sister of Mr. Dick Boren. She was well advanced in years at the time of her death. Interment was made in the Odd Fellows cemetery, last Saturday morning.

YOUR KIDNEYS.

Colorado Residents Must Learn The Importance of Keeping Them Well

Perfect health means that every organ of the body is performing its functions properly.

Perfect health cannot be enjoyed if the kidneys are weak and disordered. Thousands testify that Doan's Kidney Pills have a reviving action on weak kidneys.

What this remedy has done in so many cases of this kind is the best proof of its merits.

Read the following. It's testimony gratefully given by a Sweetwater resident.

G. W. Gambell, Sweetwater, Texas, says: "One of my family has used Doan's Kidney Pills with good results."

For sale by all dealers. Price 50 cents Foster-Milburn Co., New York sole agents for the United States.

Remember the name—Doan's—and take no other.

The home and all its contents of District Judge Thos. L. Blanton of Abilene, was destroyed by fire Thanksgiving morning, about 2 o'clock. His loss is estimated at \$15,000, with an approximate insurance of \$8,000. No clue as to the origin of the fire has yet been found. The many friends of Judge Blanton, all over the district, will sympathize with him in his heavy loss. Mrs. Blanton was from home at the time of the fire.

Cured of Liver Complaint.

"I was suffering with liver complaint," says Iva Smith of Point Blank Texas, "and decided to try a 25c box of Chamberlain's Tablets, and am happy to say that I am completely cured and can recommend them to every one." For sale by W. L. Doss.

"FOOLING" WITH ALFAFA.

Twenty years ago the owner of a West Virginia farm began "fooling with alfalfa." He scattered it about his farm, but never made a success of it. But the scattering plants slowly inoculated the farm, and now alfalfa can be successfully sown without inoculation anywhere on the farm. There is a lesson in this for many of us. If we will pursue the plan of sowing a quart or so of alfalfa-seed to the acre with all our clover or grass seeding we shall soon find that the farm has become "friendly" to alfalfa.

The long deferred cold wave, which we have been expecting and dreading, came in from Amarillo last Saturday morning just after the rain. The drop was not severe or sudden, but by night the wind had freshened from the north and fires—good ones, at that—were not hard to take. This writer is thankful—devoutly thankful—that there is already provided enough fuel for any reasonable spell with no dire necessity of rising three hours before daylight. The present ill is so very near us that we allow ourselves to forget other things in commiserating it. There are many things for all—any of us—to be grateful for, if we will only take our eyes off the nearest difficulty and lift them up to the mountains. Bad enough one says, to be crippled up this kind of weather. Yes, it is not pleasant; but how much worse it would be if uncomfortably housed.

UNFAIR TO THE DRUGGIST.

The Old Joke About "Something Just As Good," Doesn't Apply to This Drug Store.

You have probably heard dozens of times the old story that a drug store was a place to "get something just as good." There is at least one druggist in the world that you can't say this about.

It is certain that an inferior article will never be substituted for a guaranteed one by Floyd Beall's drug store. Take for instance a safe, reliable remedy for constipation and liver trouble like Dodson's Liver Tonic. This harmless vegetable liquid has proved so satisfactory a liver stimulant and reliever of biliousness as to entirely take the place of calomel without any danger or restriction of habits or diet, that there are dozens of preparations springing up with imitations of its claims.

But Dodson's Liver Tonic is guaranteed to do all that is claimed for it, and if you are not satisfied with it, Floyd Beall will hand your money back with a smile. Any person going to this store for a bottle of Dodson's Liver Tonic will be sure of getting a large bottle of this genuine remedy in exchange for his half dollar.

There was much and loud complaint from those who were compelled to travel the county public roads last week in vehicles. It was the first time the clay has been thoroughly wet since the roads were built, and the settling process was attended with many holes and deep ruts. But this will stir up our worthy road authorities to look after the good roads the county now has and to begin on those places that suffered most from the recent rains. Having once gotten the concrete idea of what good roads mean to everyone who travels them, the people of Mitchell county will never stand for going backward to the old and expensive regime of bad or indifferent highways. There is a force, called public sentiment behind the good roads question now.

Fit His Case Exactly.

"When father was sick about six years ago he read an advertisement of Chamberlain's Tablets in the papers that fit his case exactly," writes Miss Margaret Campbell of Ft. Smith, Ark. "He purchased a box of them and he has not been sick since. My sister had stomach trouble and was also benefited by them." For sale by W. L. Doss.

The bark of the soap box vender of razors, razor paste, 18-kitchen utensils in one, grease eraser, etc., is being heard in the land again. This is another infallible sign that the word has gone down the water tank line that conditions in West Texas are beginning to look up. First class Shumate razors for \$1.00 will rust in the cases of the home dealer, but one of these curbstone sharps can sell a dozen imitation razors, costing 25c to 35c each, for \$2.50 fast as he can hand them out.

If you need a bible for your own use or for a present, I have the greatest bargains ever seen in Colorado—from the best to the cheapest—W. L. Doss.

WHAT SHALL WE DO?

Brother Jonathan.

Are we harvesting what we have sown, or are we sowing? Many evil things happen daily in this free and enlightened United States of America. Do we spend so much time in going to so many different kinds of churches and prohibition rallies, forty-two parties, pink teas, baby shows and movies, that we don't have time to look after and teach common good morals and the right way to live to the younger generation? Is the slit skirt or the old man's toddies to be blamed for all our troubles? There seems to be several bolts worked loose and a wheel or two rather wobbly in our domestic machinery. Now who is going to fix it, the church, the state or the men and women who are responsible for the little lives entrusted to their care? Is society at large going to let them have a living? Things are so different from what they used to be that the ones that have the most children can't do much but work hard and turn the kiddies out on the commons, without even a loose herder to look after them, and those that have more money and less young ones, turn them loose with a target gun and an auto to idle about and get into mischief.

It looks like a little old-fashioned teaching of common honesty and morality at home would do good about now and might answer for the present, or until we could get something better in its place. The people might take to it as a new fad and make it go. This is a pretty good old world to live in, and I don't know of a better one at present that I want to move to, and if some of this domestic speeding could be stopped there would not be so much danger of skidding and a general smashup.

HIC JACET CORBETT.

When upon September 7th, 1892, the invincible John L. was knocked into a cocked hat by James J. Corbett a new hero climbed a pedestal, and thereafter both animals and kids displaying any of the "knock-out" prowess of the new champion, were named for his sake. Shortly after this there came into the possession of Emmett Jeffress of this place, a particularly good looking, peculiarly pugnacious and generally victorious full blooded English terror, which earned his right to the distinction of bearing the name of victor. He was accordingly dubbed "Corbett" and thereafter took up his residence in the home of Capt. R. A. Jeffress, and attached himself in the self appointed capacity of immediate body guard to the doughty Captain himself. Whenever one saw the Captain, he knew Corbett was hard by whenever one glimpsed Corbett, he was equally sure the Captain was coming on behind. Reaching the office

of the Captain, Corbett either kept watch over him from the top of the stairway, or from a sunny spot at the foot.

In his young and salad days Corbett carried a particularly big chip on his shoulder and hung his dare to any dog to knock it off, on the outer walls. There were not lacking dogs in those days which were ready to knock it, and the progress of Captain and Corbett from home to office or from office to home, was frequently interrupted by a dog fight. Corbett did not draw the class line, but tackled all sizes, weights shapes and breeds; but it is not of record that he ever noticed a "Pug". There were other bull dogs in Colorado in that day, and they and Corbett not infrequently met in combat. And just here we wish to clear up an aspersion that was at that time cast upon the Captain by owners of dogs that Corbett had trounced. Although a man of peace himself he was suspected of enjoying quietly a lively set-to between anything, dog or human, and so it was, he was suspected of putting Corbett up to many of his fights by some private signal between themselves; and that, if Corbett was making easy sausage meat of his adversary, the Captain would say, "Why, let 'em fight; the other dog jumped on Corbett." If it seemed that Corbett had tackled the wrong tom-cat and was busy chewing what he had unsuspectingly bitten off, the Captain would insist on a separation, and would get Corbett by the scruff of the neck and pull him out from under, the while admonishing him to behave himself on the streets.

But the tooth of time, as well as the teeth of many adversaries, began to show upon this redoubtable fighter, while the infirmities of age and senile decrepitude bore heavily upon him. His latter days were spent in nothing more strenuous than digging holes in the yard and burying bones, and forgetting where they were. Our own personal acquaintance with him began after the edge of his fighting temper and physical strength had begun to abate. We have heard many tales however, of his performances and realize that he bore his name worthily. We knew him as a battle-scarred, stiff-jointed, mangy wreck of his former self, and yet there was something that age, adversity nor mange could kill, about him. Heshowed he was a thoroughbred to the last. Recently we began to miss him with the Captain, and asked about him. He no longer cared to go from home, but lay around dreaming doubtless, just like his human brothers, of his past performances. One day last week he closed his eyes on earthly scenes, having more than compassed the average canine limit. Peace to his ashes.

HEADACHY, COSTIVE BILIOUS, "CASCARETS"

Sick Headache, Bad Breath, Sour Stomach, Mean Liver and Bowels are Clogged—Cheer up!

Get a 10-cent box. Sick headache, biliousness, dizziness coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

Crop Larger Than Expected.

Washington, Nov. 29—The crop reporting board of the United States Department of Agriculture has just completed its estimate of the 1913 corn crop and the total production for Texas is 169,944,000 bushels, which is several thousand bushels above the preliminary estimate made thirty days ago. Compared with the production of 1912 this year's yield shows an increase of 16,650,000 bushels and is the largest crop produced in Texas since 1908, when 201,848,000 bushels were raised. The yield per acre in 1913 was 24 bushels, 21 bushels for 1912, and the ten year average is 20.3. Texas took fourth rank in total production in 1913, but held eighth place during the previous year.

TWO RICH MEN.

The philosopher of the Peoria Star thus recounts: Two men have recently died. One was Adolphus Busch He was the youngest of twenty-one children, and he came to St. Louis in 1857 when he was 21 years old. His first job was clerk in a river steamer. When the war broke out he served in the Union army, and after his services were finished he opened a malt house. This brought him in contact with Eberhardt Anheuser, who owned a small brewery in St. Louis. In 1861 he married Anheuser's daughter. It wasn't long before he obtained control of the brewery and his wonderful business ability made it at the time of his death the largest establishment of its kind in the world. He formed a friendship with a brewer, Carl Conrad, and from him obtained the formula for Budweiser beer. He paid Conrad a royalty for a good many years, but at last he bought the rights and was the sole owner. Busch was a liberal and generous patron of everything that tended to upbuild St. Louis. He followed out old Louis Fourteenth's idea who said: "I give best by spending largely," and at his death he left a fortune of \$60,000,000. The other was Benjamin Altman. When he died he left an estate of about \$50,000,000. But he left his near kin only \$800,000. The rest he distributed among his intimate associates and the employes in his business, and gave a hundred thousand dollars to art. All persons in the Altman store in New York City who worked there twenty years received \$2500 each. Those who had been employed more than eighteen and less than twenty \$1500, and to each employee over fifteen years a thousand dollars. These men understood how to use their money while they were living, and in spite of numerous benefactions they each left enormous fortunes. Busch left a large family, but Altman was a bachelor. It shows that the old pinching, grasping, miserly quality fails to meet modern requirements. We demand now of a rich man that he shall remember that much of his wealth came from opportunities which the public gave him, and in dividing up his substance he should bear in mind that the men who help him pile up his accumulations are entitled to some share of it.

IF CHILD IS CROSS, FEVERISH AND SICK

Look Mother! If Tongue is Coated, Cleanse Little Bowels with "California Syrup of Figs."

Children love this "fruit laxative" and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then you'll little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

SERVING LIQUOR AT DANCE OR BANQUET NOT UNLAWFUL

It is no violation of the 9:30 saloon closing law to serve intoxicating liquor by a dancing club or at a banquet, provided such liquor is not served by a saloonkeeper and such intoxicants are purchased in the usual way and served to the guests in the usual way, according to a ruling made public Monday afternoon by the attorney general's department through Assistant Attorney General Keeling. This ruling was made in answer to questions propounded by City Attorney Currie McCutcheon of Dallas. He wanted to know if it was a violation of the 9:30 closing law to furnish liquor free for a dancing club at one of their private dances, provided the dance is given within the saloon limits and also if it is legal to serve liquor under the same conditions at a private banquet.

"We advise you," says Mr. Keeling, "that in the opinion of this department if the intoxicating liquor served on the occasions mentioned were not served by a licensed saloon during prohibited hours, no law would be violated in serving same. The only way in which it would constitute a violation of the law to serve intoxicating liquors during the hours in which

saloons were closed, would be for the saloons to be interested in serving such liquor for their own uses in the regular and ordinary way, without stipulation that it should be served by the saloon making the sale, we see no reason why they could not be served at banquets in the Adolphus hotel."

Captain "Buffalo" Jones, of Portales, N. M., who ropes lions, tigers, hippopotami and all other wild animals while the moving picture man records the very act itself, has closed a contract with a circus for a live adult gorilla, to be roped by Jones in Africa and delivered to the circus in this country, for \$250,000. There is no live adult gorilla in captivity today, but Jones says if there is one in the world, he'll get him. Jones leaves next month with his helpers, photographers, etc.

"NIGHTS OF GLADNESS."

Every now and then a popular song or instrumental piece rushes over the country like an inundation, sweeping all before it. It is not always easy to determine just what it is that strikes the popular fancy, but in "NIGHTS OF GLADNESS" recently issued by Jos. W. Stern & Co., New York, which has set two countries singing and dancing, there can be no doubt that its success is due to the real merit of the composition.

There is an irresistible swing to this new Boston Waltz. From the first resorts.

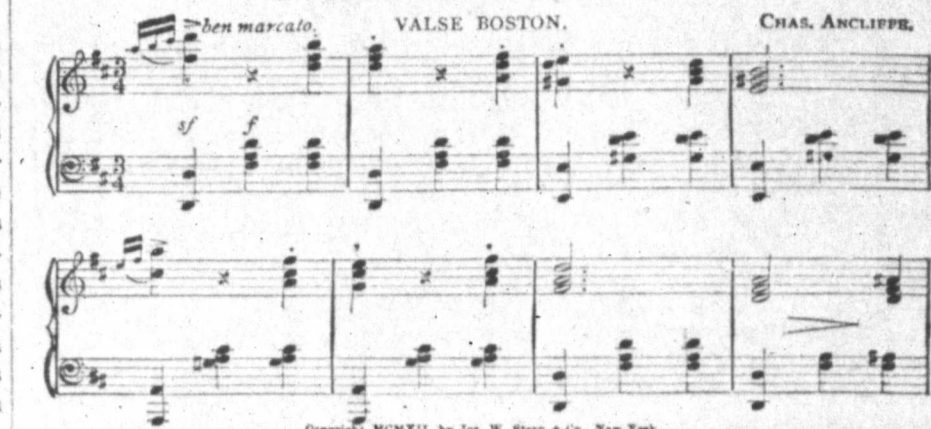

lar to the last there is a dash and go and bang that compels attention; eyes sparkle and bodies sway to the tune of its lively melodies.

Throughout the country, at the cabarets and restaurants, at the vaudeville and in fact wherever music is heard this piece will be found on the program.

Its engaging dancing qualities have commanded immediate recognition and it has been selected as the standard Valse Boston at all the fashionable dances of Newport, Narragansett Pier, Deal Beach and other famous resorts.

I received a car load of these cars last week, all of which have been sold. Another car load on the road, out of which two have been sold.

As I have four counties over which to distribute these cars, there may be some delay in getting them, and would suggest to those who want a Studebaker to get in their order as soon as possible. However, with the special arrangements I have with the factory, and the large number of cars I have contracted for, I hope to be able to supply all customers promptly.

COLORADO, TEXAS DECEMBER 5, 1913.

If questioned about the matter ourselves, the people of this county would likely have said last Monday morning, that enough rain had fallen for some time, and the matter of more of it, referred to a distant day. But regardless of the wishes or needs of individual communities, a harder rain was poured out upon the earth Monday night than has fallen for some time.

What a pity the state was not restricted congressionally by the last legislature. The voters of the state would not be vexed by a horde of candidates of whom most of them never heard before, but would know all about the man they were voting for. Voting for a congressman-at-large puts a good man at a disadvantage and gives the inferior candidate as good a chance for election.

Albert Taylor, the old and favorite theatrical man, has added a side line to his enterprises. The papers state that he has gotten behind the hopes of Cass Tarver, the Jones county erstwhile, white hope, and will see that Tarver is put into the pink of condition and given ring experience before another set fight with a veteran of the ring. Tarver and Taylor will have headquarters at El Paso, for a while.

While four prominent citizens and church members of Marked Tree, Ark. were playing a stiff game of poker in one of their homes, an unknown young man stepped into the room and at the muzzle of an automatic pistol demanded the \$600 which lay on the board in a progressive "jackpot." The money was handed him and he backed out of the door and disappeared in the darkness. What do you suppose those four prominent citizens of Marked Tree, Ark. did? Nothing, of course, but were glad to get off that light.

The civil engineering department of the city will have to look after its gutter pipes and culverts before another hard rain comes. There does not seem to be sufficient fall or capacity of the closed culverts to carry off the water without depositing the sand which soon fills them up. It would not be a bad idea to have all the streets, particularly those in the business part of town, surveyed with the idea of securing proper drainage. During the rain Monday night, many of the culverts were insufficient to pass the water brought down from the hill, and overflowed. They should be so constructed that they will keep the channel scoured out and free of sand deposits.

The Lubbock Avalanche has installed a standard linotype machine in its office, and now presents a neat, clean "8 point dress" to its many readers. We have wondered these several years past, how the Avalanche managed to issue the paper it did, all hand set. That excellent paper will now go forward by leaps and bounds, where it before plodded along. In one year the machine will be the most important thing in the office; it will have become indispensable. More uses are found for it every day. The Record congratulates the Avalanche on this long step forward. May it never retrace one of them.

There are many industrious, honest and capable farmers in Mitchell county, who do not own a foot of land themselves, nor are they able to rent the land and supply themselves till the next crop is made. There are also still more landlords owning land they want worked by a reliable and industrious class of farmers. The thing is to bring these two classes together, for upon them depends the prosperity and development of our county. A good and dependable shareworker is not picked up everywhere, but where such an one is found, he proves a most valuable adjunct to the landlord.

We regret that misplacement last week and the crowded condition of the paper this week, have forced us to leave out a write up of the wedding of Miss Ruth Nichols, at Mangum, Oklahoma, week before last. Miss Ruth was largely reared here and has many friends interested in her future happiness, whom the Record joins in wishing for her in her new relation, all the blessings she could wish for herself.

Dear friends: Be not deceived; old Probs is not mocked, but just giving sufficient rope for you to hog-tie yourself later on. This wetness of the ground and frequent recurrence of rain is no sort of argument against the importance of irrigation in Mitchell county. Don't be lulled into the fatuous idea that this present condition presages a series of seasonable years. Farming under the old regime is exactly like every other form of chance. One crop no more depends on the preceding or following one, than one throw upon the roulette table has any connection with another. Because a man has lost 35 consecutive times on the roulette table, is no basis for hoping or believing the 36th throw will win. Every throw upon the table and every crop put into the ground stands or falls by its own laws. If there be any "system" by which to beat these laws of chance and accident, it is beyond the ken of finite mind to fathom. The crops of Mitchell county may stand in as great and immediate need of a little water at the right time, next August as they did last August. Go ahead with your irrigation projects; be independent of chance, and whether it rains or does not rain, you will be prepared to carry over your crop through the crisis.

Reading of the campaign the ladies of the Cemetery Association are making in Big Springs reminded the Record of the faithful services the ladies of Colorado have given this important matter for many years, and with but negligible help. The ladies of Big Springs are endeavoring to secure 100 annual contributions of \$5 each from the business men of the town, and others who feel an interest in the work of keeping up the habitation of our dead. Really, the Record does not see how the good women of our own cemetery association have done what they have. The association should have at least \$500 per annum pledged to its support by the community. This, with other sources, would put the association in an easy condition; enable it to pay the sexton regularly, and do many things in keeping up and beautifying the grounds, which lack of funds has heretofore prevented. You could not make a better thank offering than by sending our local association a check for \$5 or \$10.

In talking with a dozen or more people who have lived in Mitchell county and nearby country since 1878, we gather that such a continuous spell of weather, as has prevailed here for the past five or six weeks, is not of record. It is not only unusual, but unnatural, in defiance of all the progress of the seasons and creates a condition that must have some kind of violent and sudden termination. Bro. Hicks, whose forecast, can be taken for just what people think they are worth, predicts a very uncertain and dangerous sequence; however, his almanac is not responsible for the unnatural conditions now prevailing. The Record will keep close watch on the meteorological changes that happen during the next season. Some influence must be shown by next year's crops.

How many farmers of Mitchell county are trying to conserve any of the moisture now in the ground by deep plowing?

LET'S HAVE A TRADES DAY.

In most every other part of the country, the people have by common consent, set apart one day in each month—usually the first Monday—as a time on which to meet at the county seat, and bring everything they wish to trade, swap, give away, or announce what they want to buy. These occasions bring together good crowds—crowds willing and ready to do something. Early every one coming will bring along a little money in the hope of picking up a bargain, and generally spend it.

Colorado needs just such an occasion every month. If the merchants and others interested in the town, will enter into the spirit of the day, mingle amongst those who come to buy, sell or trade, these trade days will soon become of quite a deal of importance. They will become the poor man's clearing house for anything he wants to buy, trade or sell; and there are doubtless, dozens of things on every farm in Mitchell county, for which the owners have no use, but which are of too great value to throw away. Your neighbor may want this very thing, but feels that he is not able to buy a new one. If he and his neighbor could get together, there'd be a trade, right now.

Many citizens of the town and country, have been discussing this matter, and come to the conclusion that Colorado and Mitchell county need a Trade's Day, and hereby call on all citizens of the county to join heart and hand in the move to establish and maintain one. They suggest that the First Saturday is more suited to this section for a trades day than the First Monday; and as tomorrow will be the first Saturday in December, let's make a start by coming to town and expressing approval of the move. Then get in the furrow and work for the success of the First Saturday in January. Talk it with your neighbor in season and out; do not fail to come and bring along something to sell or trade, or advertise for something to buy—anything from a peck of peanuts to a ten-section ranch can be handled.

Friend, L. C. Dupree is kind of temporary ramrod till permanent organization is effected. Talk with him; he'll give you the Trades Day bug in virulent form. We want the day.

COMMENDABLE ENTERPRISE.

As an appreciation of the patronage of the people and abiding confidence in the stability of the country's prosperity by "Campbell's" big store, was carried in last Sunday's Abilene Reporter of "Campbell's" big store, was a most happy expression. The merchant who has been in business in West Texas long enough to become acquainted with the country's fluctuating fortunes; who has had the nerve to take the good with the bad, and is convinced of its ultimate triumph as a dependable farming proposition, and who is willing to demonstrate his faith by such a generous exploitation of his business—such a merchant deserves the most loyal support of his community. The ad was a notable feature, not alone in merchandising, but in publishing, as well. No small credit is due the Reporter in producing such a piece of work. With one possible exception we know of no other office in West Texas, capable of turning out such an ad in such artistic shape. "Campbell's" has made a most generous bid for the business of Taylor county, and as a rule, the business man who advertises generously, deals with his customers in the same whole-hearted way. They are the people who give genuine bargains. The Reporter has "taken the rag from the bush" in its mechanical expression of this generous idea, and the city of Abilene should feel proud of them both.

IN NEW QUARTERS

The Honorable City Council of the City of Colorado, Texas, is now comfortably housed, with the City Secretary and Collector, in the building back of Adams store, next the alley. A part of the building, separated by a partition is used by Jas. Greene, as an office. Here the council has plenty of room, and the secretary will keep everything in apple-pie order. As a matter of public interest the Record has always been more than willing to publish the proceedings of the city council, not officially, but to let the tax payers know how the city's money is disposed of, and the price the people pay for certain service. We would appreciate the favor if the secretary would furnish us with a copy of the proceedings, the day after the council meets. This would give time to get it published the same week of the meeting.

Mr. R. M. Webb left Wednesday night for Dallas, where he will work until Christmas in the office of the state manager of the Missouri State Life Insurance Company. If he likes the inside office work, he will move to Dallas to live; if he does not, he will return to West Texas and take a cer-

tain territory. With Mr. Webb's natural endowment of persuasive power he should make an eminent success in the insurance business, on any part of the field. The Record wishes him success, yet is reluctant to lose him from our citizenship.

PLAINVIEW POINTS.

Rev. A. D. Leach went to Vincent in Howard county last Friday to visit the church and see his old friends. He was pastor of that church ten years ago, we feel sure he had a most enjoyable time, he has just got back from the convention and brought the convention as far as Abilene with him.

The last chance to give something to the orphans Christmas box is the second Sunday in December. We feel that everybody could give to this cause so this is a gentle reminder that the last chance is on Bro. Leach's preaching day.

The Literary society is going to meet this coming Saturday night, we are badly crippled on account of the president, Mr. Bruce Aycock being gone but if we can't get it started and going we hope with the assistance of momentum to keep it going, it is rather hard to get folks interested in a thing that they can't see.

It has been raining for 10 days and raining hard too, quit on Tuesday night, yet we have not heard any kick worse than a wish that it would quit raining, but some people will get impatient and say all manner of angry words, suggesting that they know more about running this world than the one that made it, and we know that the very people that think they know the most about running this world could not make a "Crowsfoot" if a piece of string was put in their hands.

Rev. W. C. Hart preached at our school house last Sunday.

There has been an effort made to build a baptist church out here the committee raised \$200.00 and could have raised a \$100.00 more if it was needed they had an offer of a house at Midway for something near a \$100.00 and we feel sure something will be done to secure it, although it will need adding to it to make it comfortable, the committee has the people behind them to back them up, the committee is composed of Mr. T. J. Howell, Mr. J. H. Posey, Mr. John Humphrey, Mr. Billie Franklin, Mr. Jeff Davis.

AT HOME.

Despite the fact that Wednesday afternoon was dreary, misty and gloomy looking and the streets muddier than at any time in years, yet nearly all of Colorado's dames and damsels called at the hospitable home of Mrs. G. W. Smith in response to the invitations sent by her and her daughter, Mrs. R. O. Pearson to an At Home in honor of Mrs. Royall G. Smith, the recent bride of their son and brother and who is so well known and loved in this city.

They came in twos, trios and groups to do honor to this occasion. The guests were welcomed at the door by Mrs. F. M. Burns and led to the cloak room by Mrs. Simon and led then to the hostess and down the receiving line of the happy occasion. First the honoree looked charming in a gown of pink crepe de chine beautifully trimmed in shadow lace, beads and fur that were combined in a way that showed her individual taste and style. Then came Mrs. Pearson, Mrs. Harness, sister of Mrs. Royall G. Smith and Mesdames Thomas, Stoneroad, D. N. Arnett, P. C. Coleman Willis R. Smith with Mrs. F. J. Payne and Mrs. J. T. Harness seated as the guests of honor, all near and dear friends of the families. Here and there about the spacious rooms were more intimate friends who constituted the house party and vieing with each other to make the guests feel at ease.

The house was decorated with ferns and out flowers. Also the dishes of chinese sacred lillies were noticeably beautiful and appropriate.

The dining room looked very pretty with the table covered with a handsome table cover of Mexican drawn work with a dainty pointace centerpiece in the middle of which stood a candelabra with lighted candles and around it and on the edge of the table were wreaths of natural flowers and ferns.

The guests were shown to the dinette and J. W. Smith where charming young ladies in beautiful costumes served ice cream, angel food cake and mints.

The guests were made to feel so "at home" that the leaving hour came all too soon and they felt as though they would like to lengthen just this one afternoon. It is always an honor to be in Mrs. Smith's home and to greet her new daughter made it doubly so and it was indeed a pleasant afternoon.

BE JEALOUS OF THE BEAUTY OF YOUR HAIR

In other words, be careful of it. The beauty of your hair depends upon its health. If it's beautiful, it's healthy. To make it glossy, bright, silky soft—to make it fall more easily into graceful, wavy folds of the coiffure—to make it stay where you put it—use Harmony Hair Beautifier. This dainty liquid dressing is just what it is named—a beautifier. If your hair is beautiful now, use it to make it even more so, and to preserve its loveliness. If it is not beautiful now, Harmony Hair Beautifier will improve its appearance in a way to please you, or money back. Its rose fragrance will overcome the oily smell of your hair. Easy to apply—simply sprinkle a little on your hair each time before brushing it. Contains no oil; will not change color of hair, nor darken gray hair.

To keep hair and scalp dandruff-free and clean use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big laboratories in Boston, where the many celebrated Harmony Perfumes and Toilet Preparations are made.

Did you ever live in New York? Did you ever think of the trials a young girl has to contend with to make her way in New York alone? No, you did not. Witness the coming attraction presented by the United Amusement Company, at the Opera House next Friday, Dec. 12 and you will be fully repaid in seeing one of the most startling stories you have ever listened to, and you can leave the performance with the assurance that the story was taken from real life and is not fiction. The play, "A SLAVE GIRL OF NEW YORK" is so startling in its truthfulness, that it is sensational and those who witness it can hardly believe that the conditions presented can be true.

Changeable Climate

IS A CONSTANT THREAT TO THE HEALTH OF THE PEOPLE.

Dr. Hartman, of Columbus, Ohio, discusses an important health topic. He says:

Yes, it is the climate, not the germs, that we have to fear in this country. The germs are present, to be sure, and are of some significance in diagnosis. Climate, a changeable climate, is the true cause of disease. The atmospheric pressure varies, the humidity of the atmosphere rises and falls. All this presents to the body very great trials to adjust to.

The area of high pressure forms in the northwest. Moves rapidly southeast, subjecting millions of our population to its influence. The result is, thousands upon thousands of people catch cold. A small per cent. of these thousands do not get well of their cold. It goes into pneumonia, or chronic catarrh, or bronchitis, or laryngitis, or pleurisy.

Now, what I am getting at is this. These climatic changes are inevitable. No one can prevent them. The very best we can do is to prepare for them, defend ourselves against them.

Good health is the best preventive. The very best, vigorous health, with excess vitality, this is Nature's own preventive and protection.

We do not all have this, however. Some of us must have assistance. The assistance that I use for myself, would recommend for my friends to use, my neighbors and my countrymen, is Pe-ru-na. Keep Pe-ru-na in the house.

If the children indicate they are catching cold, give them Pe-ru-na. If the parents, the grandfather or grandmother, present those symptoms that are so well known which precede a cold, a few doses of Pe-ru-na and the deed is done.

Some people are very subject to colds. Others who have weak lungs and are timid about our winter weather, take Pe-ru-na off and on during the whole winter season. The plan is a good one. The medicine is inexpensive. It does no possible harm to the system. It keeps the appetite regular and keen. It assists digestion and helps the user through the inclement weather of winter.

OUR JOBBING INTERESTS

Texans Consume \$300,000,000 Dry Goods Annually.

The Jobber, Salesman of Industry and Forerunner of Factories.

We can never hope to become a manufacturing country or to acquire power in commerce and trade until we first build up our wholesale and jobbing interests. The jobber is the salesman of industry, the servant of the factory, the standard-bearer of prosperity and the authorized medium of co-operation between the producer and the consumer in economic distribution of merchandise and in empire building.

The people of Texas consume annually approximately \$300,000,000 worth of dry goods and notions, and only a small fraction of the purchases are made through Texas jobbers and manufacturers. No country can advance far in industrial progress until it patronizes home institutions; no community can become powerful in trade and remain indifferent to its local industries. Patronizing home industries is as essential to our commercial success as patriotism is necessary in government, and those who do not do so fail to discharge a debt inherited from civilization and lose an opportunity of making a living contribution to the progress of the country.

The patronizing of our jobbing houses would call for an immediate increase in investments in that industry of approximately \$50,000,000, give direct employment to 100,000 people, bring within our borders ten thousand factories affording employment to a half million people, provide a home market for our farm products, give us control of our own business affairs, make us independent of, instead of dependent upon, our foreign neighbors and multiply the opportunities of every citizen.

There is not a town, village or hamlet in this State that would not become the logical location for one or more of these factories, and yet this natural heritage is withheld from them through lack of co-operation among the buying interests of Texas.

1000 Agents Wanted at once to sell a self-heating sad iron. Pay salary or commission. Agents make from \$15.00 to \$20.00 per day. Ladies make good representatives. Imperial Sad Iron Co., Fort Worth, Texas, Box 285, 12-12-p.

Co-operation between practical farmers and proficient business men will eliminate ignorance and prejudice.

FREE WOOL.

Texas Sheep Herds Rapidly Increasing and Quality Improving.

The sheep has butted more political parties out of power and trampled more politicians under its feet than any other influence in public affairs. Congress has recently ejected him from legislative halls and, as he runs through the market places bleating for protection against the withering winds of Australian competition and seeks in vain, shelter from floods of free wool from foreign countries, he may arouse the sympathy of the American farmer. The sheep is a statesman of proved ability and wide experience in political affairs and he may make his fleece the paramount issue of the coming campaign.

Some of the most prominent sheep of the nation who are leaders of the ruling families will meet at the Ft. Worth Fat Stock Show on November 22-28 and talk over their recent political defeat and lay plans for future campaigns. Every candidate for office, student of political economy and voter as well, should attend the Fat Stock Show and study the issue which the sheep will present.

The sheep provides food and clothing for man and enjoys the distinction of being the only animal that renders a dual service. King Cotton is a strong rival of wool but, notwithstanding the humiliating competition of vegetable fibre, the production of wool in the United States has increased more rapidly than that of cotton during the past half century.

The 1910 federal census report shows 10,257,779 pounds of wool produced in Texas; 289,419,977 in the United States and 2,695,732,000 in the world. We furnish less than one-half of one per cent of the world's supply and 3.2 per cent of the United States production. Wool is produced in 207 counties in Texas. The farm price per pound of wool last season was 28 cents under an eleven cent tariff, which has since been removed. The annual production per capita in Texas is 2.6 pounds and the average consumption per capita is 5.75 pounds. The world's average consumption approximates one pound per capita.

The report of the United States Department of Agriculture shows we had on January 1st, 2,073,000 sheep valued at \$6,012,000. During the past ten years our sheep herds have doubled in number and value per head.

THE CONCRETE POWER OF MONEY

We boast a good deal about our democracy and about this bully land of the free where every man is judged accordingly to his individual merit, but that is a mere delusion that we cherish for exhibition purposes. The cold truth is that we are a nation of money worshippers. We rail at the rich, but there is a deal of envy in the criticism and in spite of all our boasting and vamping we bow at the shrine of the money bags.

We know that the millionaire as a rule is not the most useful citizen and we know that the greatest monetary rewards do not go to those who perform the greatest service, but the man with money commands our attention while the man who is simply engaged in performing some really important service to humanity, some responsible and useful work hardly calls for a passing glance.

The engineer in charge of a lighting express proving his skill, coolness, courage and ability to think and act quickly and correctly in an emergency, attracts no attention, but a pin-headed dude, with just brains enough to fill a lady's thimble, who commands 20 million that he never earned and never could earn, causes whole crowd to stand and rubberneck as he passes by.

And after all it is not so much wonder that this is so. The truth is that when the crowds stop and gaze on the pin-headed dude it is not him they have in mind at all, but the millions that are called his. Those millions represent power in the concrete and man always has been and always will be attracted by power.

Under our system of civilization money commands all the forces of human endeavor. It can cause mountains to be leveled, vast rivers to be bridged and continents to be spanned by lines of steel. It builds floating palaces to ride the seas and harnesses to other palace the forces of steam and electricity and hauls them with more than race horse speed across the land.

It builds the warships of nations and outfits their armies. It builds up principalities and checks the ambition of kings. War lords may strut and fume and boast of divine rights, but without money in their treasuries they are helpless. So it is that money represents power in its most concrete form and in a way that appeals to the common understanding. That is why

men bow down at its shrine and are willing to sacrifice honor and manhood to obtain it.

"The love of money is the root of all evil." That was true when it was spoken. It is true today. Trace back practically every crime to its first cause and it will be discovered that cause was the unholy, selfish love of money or its equivalent. Every war that has drenched the world with blood was caused by a selfish desire to hold or acquire property in some form or other. Every slum that reeks with filth and poisoned air, the abode of wretchedness and dire poverty, is the result of human greed for gain.—Mail and Breeze.

GIRLS! THICKEN AND BEAUTIFYING YOUR HAIR
Bring back its gloss, lustre, charm and get rid of dandruff—try the Moist Cloth.

To be possessed of a head of heavy beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre, and try as you wish you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

Queen of Pantry Flour—McMurry.
It looks like old Probs is trying to fool us again on the cold wave and blizzard arrival. While we are satisfied with its delay, the weather is unseasonable and conducive to many ailments—colds, pleurisy, pneumonia, etc. More than half the people one meets has the "sniffles" or the "snuffs"—worse cold ever remember to have had. Every indication Saturday evening late and Sunday night, was for a cold and wet Sunday. But a more balmy and comfortable day has not occurred lately.
California Woman Seriously Alarmed.
"A short time ago I contracted a severe cold which settled on my lungs and caused me a great deal of annoyance. I would have had coughing spells and my lungs were so sore and inflamed I began to be seriously alarmed. A friend recommended Chamberlain's Cough Remedy, saying she had used it for years. I bought a bottle and it relieved my cough the first night, and in a week I was rid of the cold and soreness of my lungs," writes Miss Marie Gerber, Sawtelle, Cal. For sale by W. L. Doss.

MRS. B. F. MILLS
J. D. Lane of Iolanthe, with several other attendants upon the stock show at Fort Worth, returned Thursday morning, loud in the praises of the occasion. They had seen larger crowds there on former occasions, but every department was complete and a spirit of optimism prevailed regarding the cattle industry the coming year. With cattle in good keeping condition to begin the winter, with abundant grass and water; with not more than four months of real winter weather to feed them; the outlook for the continued prosperity of the cattle business and high price of beef, is indeed rosy. The cattleman who owns outright several hundred head of stuff, and with present conditions before him, has every reason to be pleased with his lot.
You can get fresh fish at Mac's Cafe, at 15c pound; the cheapest eating.

She said patients were still coming to be treated, old and new, and that as she was unable to make any explanation as to the whereabouts of the manager and physician, she thought it best to discontinue the ad and notify the public that the sanitarium under recent management no longer existed.

H. S. RANCH RE-SOLD.

J. F. Little, who some time since bought the HS ranch of W. R. Felker, both of Rogers, Ark., has sold his interest in the ranch to W. L. Ellwood, with about 1400 head of cattle. The consideration was approximately \$125,000. This ranch is a land mark in this section, and has always been regarded as a most desirable property. It occupies a large part of the southwest corner of Mitchell county.
