AN OPEN LETTER.

A Farmer's Views on Scientific Farm Demonstration.

Colorado, Tex. Mar. 2, 1914.
I received in the last issue of the Record that A. H. Watson, one of Mitchell county's farmers, seems to think there is no chance to improve present methods of farming in Mitchell county. I am not going to criticize Mr. Watson, on his views for I think every one should have a right to express himself, especially on this subject, for the sole prosperity of this county depends on the farm and ranch. At the present time both interests are so closely allied, that when the farm crops fail the stock interests suffer too. Mr. Watson says he has farmed here nine years and has seen wet years and dry years and don't think our present method of farming can be improved upon. Now I have not lived here near so long, nor have I seen any wet years, but I do think our present methods of farming can be greatly improved and I don't think that the Honorable Commissioners' Court could have done anything for the betterment of the people more than they did when they cooperated with the government and employed an up-to-date farm demonstrator. Mr. Watson further says that in the nine years he has been here he has not learned anything in regard to farming. I think in the five years that I have farmed here, I have learned a great deal and the most important thing is that we must improve our methods of farming, or we are out of business. When the prosperity of any country is based upon only one industry and that fails to make a support for the people, as was Mitchell County farm crops in the last five years, I think it is time to make a change.

Mr. Watson says he is looking for a man with a derby hat and a cigar and will only a hill's back learned knowledge of farming. I am looking for a man with a practical, up-to-date knowledge of the best methods of scientific farming, and I, for one, am ready, as soon as he comes to begin to put in operation his methods to the very best of my ability.

I think the Record deserves a great deal of credit for the efforts it has made to get the people to improve their methods of farming, and as its management has so kindly offered us its columns we ought to take the advantage of it and express our minds on this all important subject.

Now, brother farmer, I think the wheels of progress have begun to turn and believe it is the desire of every one of us to be progressive, so if that is our aim, let us get behind the issue and give it a push.

MARCH 10 CLEAN UP DAY FOR TEXAS

HEALTH OFFICERS ASK FOR CO-OPERATION OF EVERYONE MAKING DAY SUCCESSFUL.

Austin, Texas, State Health Officer Ralph Steiner issued a proclamation designating March 10 as "Clean Up Day" in Texas.

The proclamation points out that clean up day is intended to arouse a desire to ward off diseases peculiar to the warm months, as well as to guard against those, which like tuberculosis, is perennial.

He calls upon all health officers and county authorities and women's clubs to observe the day.

Persuant to the above I hereby issue my proclamation setting aside Tuesday, March 10th as clean up day in my county. Let everybody get busy and clean up around your premises. Rake up all trash in piles anywhere and the city will haul it off free of charge. Clean up the Alley behind your home, rake the street in front of your home. Get all the trash about in piles and it will be hauled off. Business houses should clean up the back Alley. Get all trash everywhere in piles. Let everybody get busy on Tuesday. If you can't work hire somebody and let us have a clean town.

C. M. ADAMS, Mayor.

SCHOOL NOTES.

To those whom it may concern, I desire to communicate the following information regarding the Texas School laws in their application to children to be transferred from one district to another in the same county.

The law provides (Acts of 20th Leg. Chap. 121, Sec. 5d) that any child between the ages of seven and seven years may be transferred from the district in which he lives to any other district of the same county, and that when so done, he shall be entitled to such a part of the session of the school by which transfer is made as the state and county funds maintain.

The state and county funds maintain the Colorado High School for a period of four months, so in a child's case with the above, all children who have been transferred on any other day, except as provided, are entitled to pay tuition for the remaining months of the session.

The law also provides that any child within the scholastic age residing within a district in which there is no High School, and who is sufficiently advanced to be classed in the eighth or a higher grade, may be transferred to a High School by the county board of trustees, and that said trustees may debit the account of the common school from which said transfer is made, and credit said High School account with an equitable amount of money to pay said pupils tuition. But this does not apply to children who are classed below the High School Department.

There are quite a number of children attending the Colorado High School who are entitled to this transfer of funds, and I have arranged to have it done. On the other hand there are many children here who are within the scholastic age, who were not transferred, and who are not in the High School Department. These children have been given statements of their accounts, and unless said accounts are balanced, by order of the school board, the parents of said chil-

EXTERMINATE THE RABBITS

The Children's Community has inaugurated a unique method of exterminating the rabbits. They build a large pen out of poultry wire, out on the prairie and extend from this pen wings at right angles, some two or three hundred yards long. Then the whole country, men, women and children with ponies, dogs, guns and sticks all join in a general round up or rabbit drive. The drive is made toward this pen and they are finally rounded up in the pen, when the gate is shut and the children and dogs turned in for a general slaughter. A drive was made last week and trucks were called. A second drive was made and 75 were put in and branded. Last Saturday evening the third drive was made and 127 were successfully rounded. It is the greatest of sports to make these drives and then see the children and dogs in a pen with the many jack rabbits.

Next Saturday afternoon the biggest drive yet is advertised to start from the Fairview school house near the town. There will be present the

something like 100 men, women, boys and girls fully that many dogs and ponies and they expect to get as many as 200 rabbits. Everybody is invited to come and bring the dogs.

SINGLETON CALVES WIN.

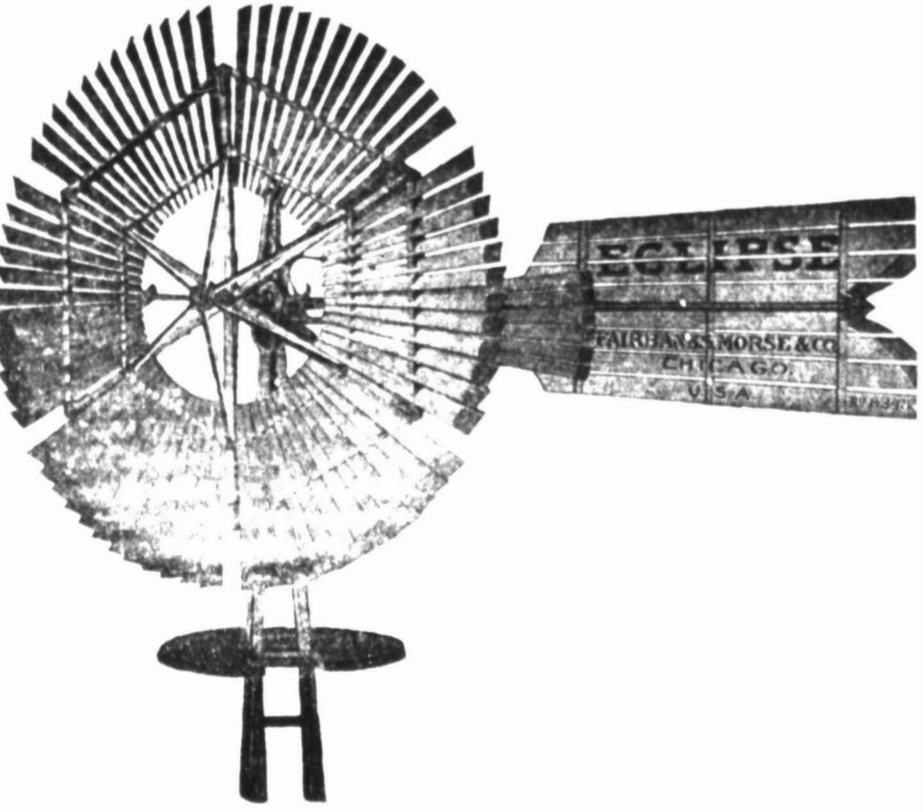

The Veteran Stockman and old time colorados S. F. Singleton came down from Tehoka last week on his way to the Oklahoma Stockman convention.

Mr. Singleton reports the shipping of some of his Tehoka calves to Shohana, Mo. and we clip from the Shohana Record the following:

John Lovell and Ed Gaines last week received one of the best bunches of calves from Texas ever brought here from anywhere. Mr. Lovell had five calves and Mr. Gaines 21 heifers, which averaged over 100 pounds each.

Those calves were in competition to the Swenson Spur Calves and won at ease victory. Mr. Singleton is proud of his white face calves as he will say.

Friday night is given away night at the Shadowland this week.

RAINFALL AT COLORADO FOR THE PAST TEN YEARS.

This record was made from the Government Gauge, now in charge of Rev. H. G. Hennessy.

Table showing rainfall data for Colorado from 1904 to 1914, with columns for Year, Jan., Feb., Mar., Apr., May, June, July, Aug., Sep., Oct., Nov., Dec., Total.

COLORADO, TEXAS, MARCH 6, 1914.

The history of the move, how it grew and took hold of the public heart is fresh in the public mind. It culminated last Saturday in the meeting house of the First Baptist Church, Ft. Worth, when the Progressive convention packed every part of that great auditorium and overflowed—in all 4,000 strong.

THE FARMER'S CREDIT.

"The lack of capital is responsible for much of the poor farming, poor live stock and poor equipment found on American farms at the present time. Modern methods of improved Agriculture mean more capital.

should organize themselves on a co-operative basis, as is done in the European countries. There the agricultural credit institutions are managed by farmers and are under the direct control of the government.

THE SALOON IS DOOMED

Down at Fort Worth there met one of the most remarkable conventions ever assembled in the United States. It was a meeting that will go down into the archives of history without a parallel in the annals of mankind.

THE VALUE OF THE NEWSPAPER

The Record is one of the most widely circulated weekly newspapers in the state of Texas. There is not a state in the Union into which a copy of this paper does not enter, and many of the states are well represented on our mailing list.

THE CHRONICLE AND BALL

The esteemed Houston Chronicle is edging up to it gradually. It has put its staff correspondent, Lester B. Colby, for grubbing up the stumps, and that always signifies a yearning desire to cultivate that particular patch of ground.

Quitting the allegorical realm, the esteemed Chronicle has said that it isn't in favor of Statewide "dryness." But it is just crazy to see Tom Ball elected Governor, and this for two reasons: first, it rather likes Ball, and second, the election of Ball would bring thick darkness to its across-the street neighbors, the Post.

True, the Post for years sang Ball's praises. That was when Ball was in the Congress working for an appropriation to bring ships up to the wharves in Houston. What Ball believed as to other matters was of small moment to the Post so long as he was faithful to the old flag and an appropriation for Buffalo Bayou.

But now that Ball has struck out across the Llano Estacado, the Post will set him down as no better than the "Publicans and Progressives, and his elevation to the Governor's Mansion, if it should occur, will fetch anything but a Mulberry Sellers strophe to the Post's orchestra.

The entire Chronicle force is, metaphorically speaking, chafing at the bits while waiting for Foster to give the word for Ball. The chief editorial writer, Gillespie, is already nine-tenths "dry." Then there's young Harvey Carroll, who is a "dry" traditionally if not historically.

The esteemed Chronicle is already a P. D.; that is, a Progressive Democrat, and the chances are that it will, for this campaign become a P. P. D.; that is, a Progressive Prohibition Democrat, with Ball to reward and the Post to punish.

Prof. Beattie Endorses Editorial in Record "Too Much of a Good Thing"

The following letter has been received by the Rev. H. G. Hennessy from T. C. Merrill, M. D., now of the Bureau of Plant Industry, Division of Forest Pathology, United States Department of Agriculture, and may be of interest to the people of Mitchell County.

"I was somewhat interested to notice in a recent Record a statement of the rainfall at Colorado for the past ten years. In the same paper there was an editorial concerning the subject of holding water in the ground. Those two items interested me a good deal and I had a little discussion with Prof. R. Kent Beattie, who has had considerable experience with irrigation as practiced in the State of Washington. Prof. Beattie cordially endorses the editorial entitled 'Too Much of a Good Thing,' and in addition has been kind enough to give me the following points which may prove of some assistance to those who read the Record. Conservation of water in a semiarid region is of course a prime necessity. This is largely secured by providing an adequate dust mulch at a period when the evaporation is greatest, that is for your region, chiefly in the winter. When the crops are put in in March or April they should be covered with a fine dust mulch. Cultivating should be done after every rain. Cultivation is very necessary in order to keep the mulch upon the surface of the soil and should be done positively after every rain and just as soon as the soil is dry enough to permit it. Every hour's delay after the soil is dry enough to cultivate means a certain amount of water wasted which can and should be saved by the mulch. An additional method of saving water is to plant in rows. This limits the run-off which should be kept at the lowest point possible. Where planting is done on fairly steep slopes furrowing across the line of slope of the hill, i. e., concentrically to the axis of the hill, does much to prevent run-off. While the general proposition is true that light is better distributed when rows are planted north and south the direction of the rows can be otherwise modified when it is desirable to conform

the direction of the furrows in such a way as to hold water and prevent loss."

To The Prohibition Democrats of Mitchell County.

We the undersigned delegates elected by you to represent this county in the conference which met at Ft. Worth on February 21 beg leave to submit to you the following report:

It gives us great pleasure to say: from information gathered from representative men from every part of the state we consider that there is no longer any division in our ranks, all questions which have heretofore caused trouble have been settled, and for the first time in the history of our efforts to destroy the liquor traffic in Texas we will present a solid front to the enemy during the campaign of 1914 for the election of State officers, and in 1915 for submission of the amendment to the constitution to prevent the manufacture and sale of intoxicating liquors in Texas.

Again as to further evidence of our united strength, we would call your attention, to the fact, that in the Fort Worth Conference, there was not one note of discord, but a unanimous approval of every proposition that was submitted.

Tom Flinty Jr., the greatest newspaper correspondent in Texas in report of the meeting to his paper uses the following language: "It was the most remarkable gathering I have ever witnessed in an experience of more than thirty years. It was the most harmonious meeting I have ever attended, not even excepting a church convention."

Again we would call your attention to the significant fact, that instead of candidates being forced to spend weeks and months, and a fortune in a campaign to secure the nomination for Governor, we see the people from Texarkana to El Paso, from Red River to the Gulf calling on a man who was not a candidate, to be our standard bearer in this great fight to free Texas from the liquor traffic.

Again as to his ability to deal with the many other great questions, to be settled in our State government we would call your attention to the clear, and forceful speech delivered by Mr. Ball in accepting the nomination as well as his splendid success on all public questions with which he has had to deal during his public career.

A resolution was passed calling on all counties to contribute one dollar for every delegate, they were entitled to in the meeting. Mitchell county was the first to respond in pledging the amount, which is \$60.00 for the county.

Every phase of the various questions which will arise during the campaign was discussed, and among the others, the right of the "Prohibition People" to hold a meeting and endorse a candidate for Governor, and still maintain their political rights in the Democratic Party.

This should not and would not be dignified by even a reformer, but for the fact there are those in Texas who really give it serious consideration. It surely comes with but poor grace, from those whose souls have been greatly troubled on account of this Prohibition question," seriously interfering with "personal liberty" to deny the right of anybody to gather together to express a preference for a man, or for measures.

We do not think you need worry about this matter, on the day of the primary we think we will all be there to vote for Ball for Governor, and this in the primary to be called, and the day to be fixed by the "Democratic Executive Committee" of Texas.

Another matter which has been suggested by some, because of the Fort Worth meeting having disclosed in favor of not only state, but nation wide prohibition there is necessarily a permanent division in Texas Democracy, for the reason there is no possible hopes for nation wide prohibition in many years to come, hence the continued fight in the party. We feel there is no reason whatever for alarm in this direction.

A political party which cannot exist, because of the advocacy by a majority of its membership of a great principle, which stands for good government, the home, the boys, the girls, as prohibition does ought to die, and the sooner it does die the better day will come. We however, feel no fears for the future of the Democratic party in Texas because of its position on this question, and despite the dire prediction think the Prohibition People will still be found fighting its battles.

It will be expected of us that we effect organization in every precinct in our county for the campaign, and remembering that the votes of Mitchell County in the election in 1911 gave the largest percentage for submission of any county in the State casting as many as 500 votes, we are confident you will keep up your record.

Most respectfully yours. P. C. COLEMAN, W. P. LESLIE, T. J. COFFEE.

JUDGE WALKER FOR CONGRESS. Announcement Marks Injection of National Prohibition in Campaign for Office in State.

Hon. A. W. Walker of Dallas, chairman of the prohibition elimination movement, announced that he would be a candidate for Congressman at Large. National prohibition will be a plank of his platform. His announcement marks the first concrete injection of the issue of National prohibition in a campaign for office in Texas.

"I will be a candidate for Congressman at Large," Judge Walker said. "I will make a formal expression of my views within a few days. However I will say this now: the matter of National prohibition is going to be a large issue, and I believe as a representative from this State I can do some valuable work in Congress along that line. In other words, I want to do all that I can in divorcing our Government from the liquor traffic. The time has certainly arrived when the disgraceful situation of our National Government being a party to the liquor traffic ought to stop."

Judge Walker is in harmony with the principles of progressive Democracy, and was one of the original Wilson men in this State. His platform will cover other progressive issues now before the public.

Clark Griffith wants to buy Ty Cobb from Detroit for \$100,000. If this trade goes through it will prove that Griffith has a world of money; if it doesn't it will show that the owners of the Detroit team haven't much sense. —Houston Post.

We call attention to our farmer friends to the open letter of R. C. Morgan in this issue. It is a good and sensible article, and his views are along progressive lines. If all the farmers of this county would look at this proposition as Mr. Morgan does, and give their hearty co-operation, old Mitchell in a few years, would be not only the banner county of the west, but would be in the front ranks with the agricultural counties of the state. Let us all pull together, and try to get \$800 worth of advice and experience out of the farm demonstrations during the next year. We would be glad to hear from other farmers on this or any other subject of interest to the farmers of this county.

MRS. LATHAM'S BOND REDUCED TO \$10,000

Woman Charged with Murdering Snyder Man Has Bond Reduced By Higher Court.

Mrs. Minnie Lee Latham who was denied bond at Snyder, but later granted bond in the sum of \$30,000 before Judge Thomas at Anson, succeeded in getting her bond reduced to \$10,000 by the higher court at Austin. Her attorneys say her bond can be made promptly and she will be granted her freedom.

YOU CAN'T EARN MONEY WHEN YOU'RE LAID UP.

There are a lot of people in this town who cannot afford to be sick. Perhaps none of you feel that you can but certainly some of you can't, for as soon as you are sick, your wages stop and worry and debts begin to pile up. The sensible thing for you to do, as soon as you feel run-down and worn out, no matter what the cause, is to take something just as quick as you can to build up strength and health. Make yourself more comfortable and provide against serious sickness.

We don't believe there is any other medicine made that will do as much towards saving your health and thus helping you save your money as Rexall's Olive Oil Emulsion. It is a medicine that gets right at the trouble and relieves it by toning the nerves, enriching the blood, and giving new strength and health to the whole body. It doesn't do this by means of alcohol or habit-forming drugs, because it contains none. Its strength and health-giving power is due to pure Olive Oil and the Hypophosphites, long endorsed by successful physicians, the one for its food value, the other for its tonic value. Here, for the first time, they are combined, and the result is a real nerve, blood and body-building medicine—a real strengthener that we are proud to tell you about. You don't need to hesitate in using it, because if it doesn't do all we say it will and satisfy you in every way, it will cost you nothing. If it doesn't make you strong and well again, come back and get your money. It will be given to you without word or question. Sold only at the more than 7,000 Rexall Stores, and in this town only by us, \$1.00.—W. L. Doss Colorado, Texas.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

A TRIO OF GOOD THINGS FOR THE HOME

Furniture, Hardware, Victor Talking Machines

Our spacious house is brim full of good things too numerous to mention, but we will call special attention to a few of the extra values that make up the TRIO.

In Furniture we have the best line of leather seat easy chairs ever offered. Our line of floor coverings is unexcelled in quality and price and the largest stock from which to select in this country.

In Hardware we have stoves from the cheapest to the best, everyone of which is guaranteed to be the best for the money that can be had anywhere. Our line of shelf and builders hardware is most complete and, too, we have a complete line of DIAMOND EDGE AND KEEN CUTTER CUTLERY.

In Victor Talking Machines we have them from the \$15.00 to the highest priced ones, and to hear them means to want one. Every machine is in itself a marvelous master-piece of workmanship and display of ingenuity. We have Records of all kinds—from the sacred songs sung by the Trinity Choir to those irresistible tangos that are taking the whole world by storm, played by the European Orchestra. Machines and records demonstrated any time, free.

Remember that we stand back of everything that we sell and are ready at any time to make it good.

PEANUTS A PAYING CROP

From our earliest recollection until a few years ago, the average Texas farmer associated the name "Peanut" with county fairs, circuses, etc. Today their value to the average farmer is a leading subject in all our farm papers.

By reading and observation, the writer has been fully convinced there is nothing that would pay the farmer a greater interest on the investment than a few acres of peanuts. First, the peanut is recognized as a great drought resisting plant, as shown in almost every instance where it was planted last year. Second, that they are adapted to every soil and climate in Texas has been proven by the fact that you can find them growing in East, North and South Texas—you can find them growing on the Staked Plains.

I believe that every acre of agricultural land would produce peanuts in profitable quantities. There is something more to peanuts today than the nickel bag or roasted peanuts bought on the street corner.

The hog has entered into competition with man in the consumption of peanuts, and experiment stations of more than one state claim that peanuts as flesh producers are worth 75 cents per bushel when hogs are worth 6 cents a pound, and \$1.00 per bushel when pork is worth 8 cents per pound.

Cattle and horses eat peanut hay, and thrive on it as well as they do on the choicest alfalfa. In 1913, it is said that Stephens county, Oklahoma, produced \$900,000 worth of peanuts, the nuts being worth \$600,000 and the hay worth \$300,000. This may be over-

drawn, but we know that Texas farmers have received around \$1.00 per bushel for all peanuts offered this season.

The short feed crop all over the Southwest has caused prices on all kinds of hay to reach unheard of levels. We want to emphasize the fact that the farmer who had a few acres planted in peanuts last season is dollars ahead of the man who neglected to plant this sure and paying crop. The great increasing demands for peanuts for commercial purposes will insure the maintenance of the present prices or increase the same, so our farmers may plant and rest assured that the cry of over-production of peanuts will not ring in their ears this fall.

Preparing Seed Beds.

The land should be prepared just the same as for corn or cotton—turned and well harrowed. This should be done as early as possible. After each rain, between breaking and planting, the land should be either harrowed or disced lightly—the very coarse sandy soil will not stand harrowing, for to do so we would cause the land to "blow."

Time To Plant.

Beginning about April 15th. This is based on an average season. Peanuts require as little work as any spring crop. Every operation in their cultivation can be done by machinery, and require no tedious cultivation. Some farmers complain that they are unable to get a stand of peanuts, on account of mice, moles, gophers, etc.

How to Secure a Stand.

First, get good seed, hand-pick

them and plant none but full, plump and light golden pods. If you have an acre to plant, get 1 1/2 bushels of seed; take a 5 cent bar of any good laundry soap, dissolve in 1 gallon of boiling water, and add 1/2 pint of kerosene and stir for 10 minutes. Have your peanuts in a barrel or tub, then add enough cold water to your mixture to just cover the peanuts. You will have to weigh the peanuts down. Soak peanuts for one and a half to two days. Take them out and plant in moist soil, and you will have a stand in from three to five days, and can rest assured that no mouse, rat, gopher, crow or other pest will rob your seed bed.

We make this appeal to our farmers, for we believe that it is to their interest to plant at least a small acreage in this great paying product.

—Henry E. Webb, Agricultural Agent

LESS DYSPEPSIA NOW—HERE'S THE REASON

The fact that there is less dyspepsia and indigestion in this community than there used to be is largely, we believe, due to the extensive of Rexall Dyspepsia Tablets, hundreds of packages of which we have sold. No wonder we have faith in them. No wonder we are willing to offer them to you for trial entirely at our risk. Among other things, they contain Pepsin and Bismuth, two of the greatest digestive aids known to medical science. They soothe the inflamed stomach, allay pain, check heartburn and distress, help to digest the food, and tend to quickly restore the stomach to its natural, comfortable healthy state.

There is no red tape about our guarantee. It means just what it says. We'll ask you no questions. Your word is enough for us. If Rexall Dyspepsia Tablets don't restore your stomach to health and make your digestion easy and comfortable. We want you to come back for your money. They are sold only at the 7,000 Rexall Stores, and in this town only by us. Three sizes, 25c 50c and \$1.00.

ANTIS PREEDICT VICTORY

The Prohibition election in Howard County on March 14 is warming up and the Antis say they will win the election by a good safe margin.

Come and see Mr. Bills at McMurry

CUTHBERT CULLINGS.

A number of Colorado people came out Saturday to participate in the rabbit drive conducted by Nonie Womack. The people met at the Willow Creek bridge and then separated, driving the rabbits westward towards the pen. When all were in the pen except the ones that managed to escape the pen was closed and the rabbits killed and counted by different ones who reported 179 killed in the pen and a large number shot on the outside. This makes about 500 killed in the drives held around Cuthbert during the last few weeks.

A party was given at Mr. Dafferns Saturday night, a large crowd attending.

The Mitchell County Singing Convention was held at Fairview Sunday and a large crowd of Cuthbert people were present. Dinner was spread for every one there, and all had a fine time. It was agreed to have the next convention held at Cuthbert in June. Everybody come.

Messrs. N T; J C; W. R. and family and Charlie Womack went to Colorado Sunday. Mr. W. R. Womack returned to his school at Shepherd.

"TIZ" FIXES TIRED, SORE, SWOLLEN FEET

Good-bye sore feet, burning feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good-bye corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony. "TIZ" is magical, acts right off. "TIZ" draws out all the poisonous exudations,

which puff up the feet. Use "Tiz" and forget your foot misery. Ah! how comfortable your feet feel. Get a 25 cent box of "TIZ" now at any drugist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

Want a heater or a stove at rare bargain prices? Then see McMurry quickly. He has a few good ones that will go at cost or less.

FAIRVIEW

The west side singing convention met here at Fairview on March first. On Saturday night there was a free entertainment which was very good. Speeches, Dialogues, Pantomime and a play called The Ten Virgins, which was well rendered. The house was full, several from Colorado.

On Sunday by 10 o'clock 13 autos was on the ground. Singing was the order of the day. Just before noon Judge Coe announced there was a wedding on hand and at 12:30 2 couples marched in the house. Mr. Judson Felts and wife and J. T. Mints and Mrs. Victorine Burden, the latter couple was made man and wife. About 250 people sat down to dinner of which there was plenty. After dinner singing again. Judge Looney made a short talk. Judge Coe made a few remarks, then C. C. Wheat, wound up with one of his sugar coated woman suffrage talks, which was somewhat amusing. The next convention will be held at Cuthbert the first Sunday in June.

BUFORD NOTES.

(Delayed from last week) Well every body is still alive and it is cooler than usual.

A kid party was enjoyed at the home of the Redman family Friday night.

Mrs. J. S. Curry paid Mrs. Calaway a pleasant visit at Colorado Saturday.

Mr. Curtis Rogers and Mr. Tant Lindsey made a flying trip to Mr. Bodine's Sunday afternoon.

We are going to pull our literary off at Buford Friday night and expecting the county Judge to come out and make us a speech.

Buford was visited by a number of partions Friday afternoon to watch the basket ball game.

Mr. W. L. Doss is expected to be at Buford Sunday afternoon at Singing. Mr. Frank Redman was in Colorado Saturday on business.

HAD CATARRH FIVE YEARS.

Mr. Johnson of St. Elmo, Illinois, was troubled five years with catarrh. The catarrh was so severe in his case that his life seemed threatened. As he expresses it himself, he had "one foot in the grave."

MR. S. S. JOHNSON St. Elmo, Illinois.

catarrh specialist in St. Louis was tried. He got so weak and thoroughly run down that he declares he could not walk more than a hundred yards without resting.

Few people understand that catarrh is a constant drain on the system. The discharge of mucus which is going on in such cases is largely composed of blood serum, and is a great waste. Sooner or later it will weaken the strongest man.

According to reports received from Mr. Johnson, he was in a desperate condition, but he found relief from his trouble. We will let him say how he found it. His own words say:

"My friends told me to take Peruna, and I did so. I now feel that Peruna has saved my life. It is the best medicine on earth, and I would not be without it."

This seems almost too good to be true. No doubt there are some readers that will think so. The above statements, however, can be verified by writing Mr. Johnson.

Every home should be provided with the last edition of "The Ills of Life," sent free by the Peruna Co., Columbus, Ohio.

The Baptist Sunday School has been constantly growing, reaching the 300 mark March 1. Rev. Campbell of Roscoe was a visitor in our school last Sunday. Let all the teachers make special efforts to come to teachers meeting on Wednesday night.—Reporter.

"The Girl and the Tramp" which is announced to appear at the Colorado Opera House next Thursday night March 12 is a mixture of comedy, drama and song, created exclusively for fun purposes only. It is said to be one long laugh from start to finish. Prominent in the cast are Miss Ploy Mann and Mr. Fred Byers as Happy Jack, the Tramp. Introduced during the action of the play there will be seven song bits.

MARTINEZ EXPECTED SATURDAY

Washington, D. C. Feb. 24—Judge S. J. Isaacks, Pecos, Texas: Mandate will issue in Martinez case tomorrow, Signed W. R. Smith.

We understand that the papers in this case will be sent from Washington to Austin and from Austin to Pecos and that it is expected to have the papers here and also the prisoner Martinez by next Saturday, so that Judge Isaacks can pass sentence on him during this special term of District Court. There is now but one chance for him and that is for Governor Colquitt to interfere and grant a respite or commutation to send him to the penitentiary.

HELPFUL WORDS.

From a Colorado Citizen.

Is your back lame and painful? Does it ache especially after exertion?

Is there a soreness in the kidney region?

These symptoms suggest weak kidneys.

If so there is danger in delay. Weak kidneys get fast weaker.

Give your trouble prompt attention.

Doan's Kidney Pills are for weak kidneys.

Your neighbors use and recommend them.

Read this Colorado testimony.

G. W. Filler, horsehoer, Colorado, Texas, says: "Several years ago I was suffering intensely from pain in my back and sides, caused by weak kidneys and I had other troubles common to kidney sufferers. Seeing Doan's Kidney Pills highly recommended, I used two boxes and they cured me. It gives me great pleasure to endorse them."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Filler had. Foster-Milburn Co. Props., Buffalo, N. Y. 3-6-c

THE SICK THIS WEEK.

No word from Dr. Weston is taken for good news.

Judge J. E. Hooper at Mineral Wells is slowly improving.

W. B. Ralph at the Marshal hospital will return home this week.

G. B. Harness was sick several days this week but has recovered.

Mabel Kirkpatrick in south Colorado operated on for appendicitis is doing very well.

Little Louise Wulfjen who was operated on for appendicitis is slowly recovering. Mrs. Addie Wulfjen, her mother was wired for at Georgetown and came home at once.

Little Annie Mooser who has been real sick with pneumonia the past week is much better today.

Mrs. W. H. Mooser received a telegram last Thursday that her mother, Mrs. Ward, in Oklahoma was very sick. Mr. Mooser left on the first train and found her quite sick. While there he received a message to come home his baby girl was sick. He left Mrs. Ward much better and, happy to say found little Annie better when he reached home Thursday morning.

Mrs. F. A. Winn is still quite sick but her friends think their is a little improvement.

"THE LITTLE MILLIONAIRE" with Bert Leigh and Hazel Burgess, a fascinating feature of Geo. H. Cohan's musical farce, "The Little Millionaire" which is to be presented at Colorado Opera House, Wednesday March 11th, one night only is the whistle, song numbers contained in it. The popularity of Mr. Cohan's compositions is not difficult to explain. He has the happy faculty of tantalizing the ear with haunting melodies attuned to lyrics, that tell a clean story and presenting them in a scenic and ensemble surrounding that adds materially to their musical and verse value. Any number of instances of Cohan's skill in this direction are furnished in "The Little Millionaire." Seat on sale at Majors, no advance in price.

Come in and see or phone 35 and ask what we have. Beal's Market.

BACKACHE

Is an indication of kidney trouble. It means much to the victim because the deadly Bright's Disease begins in just such symptoms.

PRICKLY ASH BITTERS

Is a successful remedy for diseased kidneys. It strengthens the suffering kidneys, helps them to perform their duties properly and by cleansing and regulating the bowels it drives out unhealthy conditions; restores strength and vigorous health.
