TO IRRIGATE 20,000 ACRES OF LAND

An irrigation project which, if carried out, would place under irrigation 20,000 acres of land located south of Sterling City and known as the Wade ranch, is being planned according to reports, by Judge G. H. Garland of Kansas City. However, as the latter, although in San Angelo a few weeks ago, is now at his home, no information further than the following, which is taken from the Sterling City Record, can be obtained:

Judge Garland, of Kansas City, Mo., was here last Monday closing up a deal with a big syndicate in which the lands known as the Wade pasture change hands.

This syndicate plans to put about 20,000 acres of this land under irrigation. A huge dam will be constructed across the Concho river, below the mouth of Mulberry creek to impound water with which to irrigate all the land within reach of it. Other dams will be erected on the various creeks and draws to impound the storm water that annually passes down them. This water is to be carried by ditches to the valleys on either side.

Besides all this about 4000 acres will be put under the Wiggins system of sub-irrigation. The water supply for this system will be pumped from wells.

Judge Garland says that 4,000 acres of this land will be planted in alfalfa, 8,000 in cotton and the remainder in various forage crops. He says work will begin in about 30 days and continue until the plans are executed. He further said that by 1915, this vast farm would be turned over to its owners fully equipped and in a good state of cultivation.

This land lies about six miles south and three miles east of Sterling City and extends south and east into Coke and Tom Green counties. It means much to Sterling City, and it behooves our people to cultivate the enterprise and hang the first man, that knocks it, up by the heels and make him leave the country. We learn that these men are backed by millions and will carry out the proposition.

Recalls Days of '62.

Mr. John Powell of Pineville in speaking of the snow that fell in this section in October, that being considered unusually early for this latitude, stated a few days ago that it reminded him very much of the fall of 1862 when he was doing service in the Confederate army in Tennessee and Kentucky. Mr. Powell said:

"I remember where I was in '62. I was in the 35th Tennessee Regiment, in Claiborne's Division, at Knoxville, Tenn. Pat Claiborne's Division was detailed to go through Kentucky with old Kirby Smith, and at Perryville, Ky a bloody battle was fought. On our return to Knoxville our shoes were worn out tramping over the rough peaks, and the soldiers could be tracked by the blood from their feet. We marched three days and nights, nine ears of corn being our rations during that time. We arrived in Knoxville some time between the 20th and 27th of October, to the best of my recollection, and upon our arrival in that town the company built a fire of a log heap 18 or 20 feet long and we laid on each side of the burning heap. During that night a three or four inch snow fell and we knew nothing of it until the next morning at roll call. Tired and worn out, we slept like hogs, covered up head and ears. While there we drew rations, shoes and clothing. We were near the adjoining corners of Kentucky, Virginia and Tennessee. The first battle in which I ever engaged was Shilo. At another engagement at Franklin, Tenn., which continued only five hours we lost 5000 men, five generals being included. Gen. Pat Claiborne was one of them, but I don't remember the names of the others. There were more dead men on the battlefield than I have ever seen in one place. I assisted in burying the dead and I am satisfied that a person could have started near a certain old gin house and walked two or three hundred yards on dead men, and never touch the ground."

The above was sent in by our old friend G. W. Hooks and was sent to him from his old home at Calico Rock Ark. Mr. Hooks says:

Please find enclosed clipping sent to me by an old Confederate friend requesting me to have it published in your paper for the purpose of finding old soldier friends in Texas.

You will soon need that Mr. Bill planter at McMurrys call at the store and he will explain how it is to be given away.

NEW MAN.

Logging the National Highway Through Colorado

In order to get the Dallas El Paso National highway published in the "Blue Book" this year there had to be an official logger to go over the route and this week a man from New York was secured who has been busy all the week logging what is known as the West Texas air line from Dallas to El Paso along the T. & P. railroad all the way. He was assisted from Sweetwater west as far as Midland by Colorado parties. It will be remembered that the road was first laid out from Dallas to Abilene, thence south to Angelo, west to Alpine and back northwest to Sierra Blanca and on to El Paso. Another route came from Dallas to Sweetwater thence to Snyder, Gail and Roswell and down to El Paso. Neither of these routes were feasible and the New route now will be along the T. & P. road all the way. This will be some 400 miles shorter route and the tourists will at all times be near the road and can always get water at the railroad watering stations and in case of a break down will always be in reach of the train. The other routes for many miles are from 40 to 70 miles off the railroad and have other objections. If this official logger reports the West Texas Air line as the best route and it is published in the "Blue Book" it will then be the established tourists route from New York to San Francisco.

WEST TEXAS NORMAL SCHOOL BURNS TO GROUND AT CANYON

Plant Was Valued at \$200,000; Insurance \$100,000; Was Destroyed Today.

Canyon City, Texas, March 25.—The West Texas Normal School building burned to the ground today. The building and contents were valued at \$200,000. Some contents were saved. None of the occupants or students were injured. Insurance on the building and plant is \$100,000. The exercises and studies of the school will be continued in the Randall county court house, one of the largest buildings in the Panhandle.

CLARENCE OUSLEY TO WITHDRAW NAME AS CANDIDATE

Fort Worth, Texas, March 25.—Clarence Ousley, editor and part owner of the Fort Worth Record, says that he will announce the withdrawal of his name as a gubernatorial candidate.

MARTINEZ APPEALS TO GOVERNOR COLQUITT.

Sentenced to Die April 11, He Pleads with Chief Executive to Save His Life.

Austin, Tex., March 20.—Application for commutation of the death sentence imposed upon Leon Cardenas Martinez to life imprisonment was today received by the Governor. It was referred to the Board of Pardon Advisors for investigation. Martinez is under sentence to be hanged at Pecos City, Reeves County, April 21, for the murder of Miss Mary Brown. The Martinez case has been to the Supreme Court of the United States and the young Mexican lost his fight in every court. As a last resort in an effort to escape the gallows he is now appealing to the Governor to intervene and commute the death sentence to life imprisonment.

Martinez Must Hang.

The Board of Pardons has reported adversely on the Martinez case and unless the Governor intervenes he must hang on April 21st.

BULLS FOR SALE.

About twelve yearling bulls and seven coming twos, all in first class condition at this time; these are all registered hereford bulls; one of the twos is extra good, and is suitable for a herd bull; I will sell these bulls reasonable, if I can dispose of them shortly.

FOR EVERYBODY

A CALL TO ORGANIZE.

To the Progressive Democrats of Mitchell County:

You are requested to meet at the Court House on Saturday 28th for the purpose of organizing our forces for the campaign to elect Tom Ball governor of Texas.

Judge A. W. Walker, Mr. Ball's campaign manager has fixed this date and urges our people to organize clubs in every precinct in every county of the state.

It is hoped that every one from the different precincts in the County who can possibly do so, will be on hand Saturday.

Mitchell County has stood to the front at all times in the fight against the liquor traffic, and no one who knows her history will for a moment doubt, but she will do her duty in the coming election.

In 1887 when this County had fifteen saloons, in the election for statewide prohibition the County voted dry, her history in this fight against liquor is one to be proud of and let us keep up the fight, for we all recognize the election of Ball is a step nearer statewide prohibition.

On with the battle for the mothers the wives, the children, the homes of Texas.

P. C. COLEMAN, Chairman.

NOTICE OF ELECTION.

There will be five county school Trustees to elect at the county election to be held on Saturday April 11th, 1914. Presiding officers of the election will take notice of the same.

A. J. COE

Ex-Officio County Superintendent.

Good fat, fed beef at Beall's Market.

A \$250,000 HOTEL FOR SAN ANGELO

San Angelo—J. M. Nix of Corpus Christi and H. H. Franks of San Antonio are planning to construct a \$250,000 hotel at this place, and local citizens are endeavoring to raise a \$50,000 bonus for the promoters of the project. The hotel will be modern in all its appurtenances.

FROM TEXAS INDUSTRIAL CONGRESS, DALLAS, TEXAS.

Many of the commercial clubs of the State are taking an unusual interest in the \$10,000 prize crop contest of the Texas Industrial Congress and are actively co-operating in securing contestants.

This is especially true of the Young Men's Business League of Palestine. Through its secretary, Mr. John Gaffrey, the Business League has mailed four hundred personal letters to farmers of Anderson County, enclosing in each an application blank to enter the crop contest of the Congress and urging the farmers to join.

The League has expended a great deal of effort in the upbuilding of Palestine, and it is now extending its work so as to include Anderson county as well. It realizes that one of the first steps in accomplishing its purpose is to induce the farmers to adopt the best methods of cultivating and at the same time try to secure a substantial money reward by competing for the prizes provided by the Texas Industrial Congress.

The example set by this commercial organization could be very profitably followed by others.

D. D. D. Opens New Era in Cure of Skin Disease

Professor Dudley's case of eczema was known to almost every hospital and physician of reputation throughout the state of Connecticut. His letter is another interesting demonstration of what is being accomplished by the famous specific D. D. D. Prescription. "It may be of interest to you to know that your life-giving preparation, D. D. D. Prescription has been of incalculable value to me. I was covered with eczema from head to foot when I began using your remedies. I could get no relief, although I tried a thousand means. I applied but two bottles of the Prescription; a cure was effected in a very short time, in less

than one month."—Prof. C. J. Badlong, South Lyme, Conn.

Ask any druggist today for D. D. D. Prescription. He'll tell you it allays the itch instantly—and soon there are signs of cure.

We have handled the remedy for years and regard it as the specific for skin troubles of all kinds. Come in or ask us about D. D. D. Prescription, also about D. D. D. soap especially for tender skins.

We offer the first full size bottle on the guarantee that unless it stops the itch at once, it costs you not a cent.

A BIG IMPROVEMENT.

The Largest and Best Equipped Garage in the West.

Mr. F. S. Kelper of the Studebaker Garage has leased the Lasky building, corner of First str. and just in front of the T. & P. Passenger station. The Studebaker business has grown so rapidly and to such proportions that more room was needed and more machinery installed to do the work. Mr. Lasky will remodel the building throughout, putting in a concrete floor, a new roof, new windows and doors, and in fact fitting it up in first class shape for this business. The building is one of the largest in town, being 60 x 140 feet which will be perhaps the largest automobile garage in the West.

The offices will be partitioned off in the front of the building. The center division will be used as show rooms, where the famous Studebaker line of cars, will be on display, and always ready for inspection or demonstration. On each side will be ample room for the accommodations of his customers cars.

Anyone driving into town to spend the day or a few hours, can leave their car at this garage, protected from the sun and rain. As we understand it this service will be absolutely free.

The repair department and machine shop, will occupy a liberal space across the rear, having an entrance from the alley. Mr. Kelper will put in a modern machine shop, with all tool and machinery for repairing and rebuilding any kind of automobile. His air pump and each machine in this department will be driven by individual electric motors. It will be light and comfortable, and large enough that a half dozen cars can be undergoing repairs at the same time. None but expert mechanics will be employed. He will continue his service cars, which will be ready at any time to go anywhere, with expert and careful chauffeurs. Adjoining the shop will be the storage and supply room, in which will be kept a large supply of lubricating oils, grease and such necessities, as well as a supply of parts for different cars, so that in case of a hurry job the customer will not have to wait for a factory order. The gasoline will be kept in a huge reservoir, buried in the ground, with the automatic pump in front of the building. The air will be carried to the front so that a customer who wants gas or air can be waited on without driving inside.

Mr. Lasky estimates that the improvements will cost about \$2,000 and Mr. Kelper expects to add from \$2,000 to \$3,000 additional to his already complete equipment.

This is a valuable improvement for Colorado and when the official auto road from Dallas to El Paso is completed (which will be about June 1) there will no doubt be sufficient business to justify Mr. Kelper in his investment.

The Forty Year Test.

An article must have exceptional merit to survive for a period of forty years. Chamberlain's Cough Remedy was first offered to the public in 1872. From a small beginning it has grown in favor and popularity until it has attained a world wide reputation. You will find nothing better for a cough or cold. Try it and you will understand why it is a favorite after a period of more than forty years. It not only gives relief—it cures. For sale by W. L. Doss.

Adelphi College, a Baptist school in Seattle, has had Chinese students in its classes for several years. A member of the law faculty recently visited China and induced 96 boys, sons of well-to-do Chinese-Christian merchants to come to Seattle for their education.

Every day that you are without a Victor Victrola you are deprived of just that much pleasure.

H. L. HUTCHISON & CO.

HISTORY OF M E CHURCH SOCIETY COLORADO TEXAS

Twenty six years ago, in 1888, with Bro. Putnam, pastor in charge a few ardent members desirous of combining their efforts for the master's service, met and organized this Society as the Ladies Aid of Colorado church with nineteen charter members, of that number, one, Mrs. R. N. Gary is still with us.

The Society has continued during that time changing name of the organization as directed by conference.

In 1900 the Foreign Missionary Society was organized by Bro. O. A. Evans with twelve members, of which number five are still on roll, Mrs. D. N. Arnett, Mrs. W. B. Crockett, Mrs. I. D. Hall, Mrs. G. W. Donaldson, and Miss Mozella Dry.

In July 1911 by rules of church, the two societies, Home and Foreign were consolidated, unanimously electing Mrs. Arnett, Pres. who had been President of the Foreign Missionary Society since 1905 and fills same office at this time assisted by the following: 1st Vice Pres.—Mrs. W. P. Leslie.

2nd Vice President—Mrs. J. G. Merritt 3rd Vice President—W. W. Hart and Miss Jo Dry.

4th Vice President—Mrs. Hester. Corresponding Secretary—Mrs. J. B. Annis.

Recording Secretary—Mrs. W. B. Crockett.

Treasurer—Mrs. G. W. Donaldson. Agent for Society Papers—Mrs. I. D. Hall.

Press Reporter—Miss Mozella Dry. The Foreign Department averaged nearly \$100.00 each year for special work.

The Home Department built the parsonage and since kept it in repair. Each department is thoroughly organized and doing the work as mapped out by the conference.

Eight seats for the church and assisted other churches.

The first meeting of the Colorado District was held in Colorado in 1902. In 1912 the annual conference met here.

Were entertained returned Missionaries, and now have one, our very own, who is ready to go where she is needed most as a music missionary. This young lady is a polished musician in voice and instrumental.

We have studied the Home and Foreign works each year—now just finished Mexico of Today—and ready to begin the one on Immigration.

The study has been a source of much information and converts added to the Master's vineyard.

We have a membership of 50.

MOZELLA DRY, Reporter.

The Department of the Methodist Missionary Auxiliary.

The first vice president work was brought to a high state of efficiency during the four years that Mrs. Lyon had charge of the Juniors. She taught them through the Missionary society and the League having them meet each Sunday afternoon with a tea or some entertainment each quarter to which the parents and friends were invited. These always had splendid missionary programs and were a source of information to both old and young. As her successor we elected Mrs. W. P. Leslie who in March had a beautiful temperance program at the church. And the part that pleased her small members most of all was the fact that she surprised them with refreshments. They are planning many nice things for the summer months.

The Young People have a fine Society though not as many of the young people are members as should be. They study the programs in the year book and take the study course using the book in the spring their mothers have studied in the winter and finishing the second book in summer, when they meet every week. They began last year the work of the Camp Fire Girls the organization is to be perfected this summer under the supervision of Bro. and Sister Clements who already have the Boy Scouts organized. The Young People are rejoiced that their former President has offered herself as a musical missionary, and hope in years to come to have many of their number working definitely for the Master. They have made their pledge \$10. This year will make a payment to Stamford College.

The Study Course is our most loved department. We began away back with

the introduction to the study of Missions "Via Christi" and have kept right on finding each year study more absorbing than the last. It has become true that "information is inspiration," but if there is a missionary woman that does not believe its true let her read these books, and if she does not become inspired wit little world need she is indeed dead.

The fourth vice president this year is a "new boomer" and she is indeed sweeping clean. She visits the sick carrying with her some of her nicely prepared food, she has procured help for the needy and done something for the parsonage. She has some social service measures that she expects to bring about and she and her committee are strong enough to do many things if their enthusiasm does not wane.

A new parsonage, and Sunday School rooms for the church is what they hope to achieve with prosperous times, so lets pray and trust that we may be blessed with prosperity.

MRS. J. G. MERRITT, 2nd vice Pres

"CASCARETS" RELIEVE SICK, SOUR STOMACH.

Move Acids, Gases and Clogged-Up Waste from Stomach, Liver, Bowels—Cure Indigestion.

Get a 10-cent box now.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn nervousness, nausea, bloating after eating, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need good, gentle cleansing, too.

CUTHBERT CULLINGS.

Rev. Carmack preached to a fairly sized crowd Sunday morning and stayed for Sunday School.

D. T. Bozeman and son went to Colorado last week to do some surveying.

An old time blizzard was on hand Thursday made things disagreeable.

A doctor was called in to John Bynum's last week to see the sick folks.

The Cuthbert school is progressing nicely now. If nothing happens the pupils will have an entertainment at the close.

SI SLOCUM.

Avoid the Cheap and "Big Can" Baking Powders.

The cheap baking powders have but one recommendation they certainly give the purchaser plenty for his money, but it's not all baking powder, the bulk is made up of cheap materials that have no leavening power. Those powders are so carelessly made from inferior materials that they will not always make light, wholesome food. Further, these cheap baking powders have a very small percentage of leavening gas; therefore it takes from two to three times as much of such powder to raise the cake or biscuit as it does of Calumet Baking Powder. Therefore in the long run the actual cost to the consumer of the cheap powders is more than Calumet would be. Cheap baking powders leave the bread sometimes yellow and alkaline, and often unpalatable. They are seldom of uniform strength and quality.

Why not buy a perfectly wholesome baking powder like Calumet, that is at the same time moderate in price and one which can be relied upon? Calumet is always the same, keeps indefinitely and gives the cook the least trouble. Received Highest Awards; world's Pure Food Exposition, Chicago, Ill., Paris Exposition, France, March 1912.

Kills 272 Rattlesnakes.

Alex Roberts is entitled to the belt as the championship rattlesnake slayer of the county, having killed 272 rattlesnakes during the past week, on Mrs. Jno. Roberts ranch southeast of this city.—Big Springs Herald.

Don't forget that we still have a few Hoosier's that we will sell to responsible parties on the easy payment plan. H. L. HUTCHISON & CO.

It is stated that nine-tenths of the two hundred foreign students at Columbia University received their first intellectual impulse at a mission school.

Had you ever thought how unsanitary the Mexican and Negro women are with your laundry work? Our way is sanitary, all work guaranteed; Colorado Steam Laundry.

CHURCHES, CLUBS AND SCHOOLS

ENTERTAINMENTS, PARTIES AND SOCIETY'S DOINGS

—BY MRS. A. L. WHIPKEY—

You will confer a favor upon the Record and the editor of this department if you will phone her (No. 157) any announcement or news item

THE HANDLE ON A HAT.

You are going out into the world, my boy; Its busy scenes your mind will soon employ; And I know advice is cheap, And I know, too we shall reap, Rich reward for each kind action on the way! Kindly promise me you will remember that, And the latter words I say, Don't forget to use the handle on your hat.

Just a smile of recognition to a friend, He will bear the recollection to life's end. If you meet some one unknown, Speak to him in kindest tone, For childhood shows the man, as morn the day! All the world about us recognizes that, And can tell your future way. By the using of the handle on your hat!

IN CLUB LAND.

Bay View.

Mrs. Arbutnot was hostess for the Bay View Club last week with Mrs. C. M. Adams as leader, and carried out this program: Roll Call—Current Events. Brave Little Holland—Chap. 26. Quotations from Shakespeare. Antony and Cleopatra. Act 1, parts of scenes 2, 3. Miss Louise Moorar was the guest at the social hour. A delicious salad course was served.

Hesperian.

The Hesperian Club met with Mrs. Barcroft last week with Miss Doss as leader. This program was followed: Roll Call—A quotation from the lesson. Talk—St. Antoine—Miss Jo Dry. What was the punishment for High Treason in England at this time—Mrs. V. W. Allen. Is Sidney Carton an Impossible Character—Mrs. J. L. Allen. Lesson—Book two Chapter 1 to 7. At the social hour a two course luncheon was served by the hostess.

G. F. C.

Miss Ruth Buchanan was hostess for the G. F. C. last week. The time was spent in sewing. The guests were Mrs. Royall G. Smith, Miss Etta Doss, Eleanor Van Tuyl and Mrs. Garner Hammock of Ballinger. Refreshments of cream chicken, in patty cases, asparagus jelly, potatoe chips, hot buttered rolls, olives, with coffee and chocolate.

500

Miss Bernice Torrell was hostess for the 500 Club Tuesday afternoon. Mrs. Stoneham Beal and Mrs. Staton Hamner of Galveston were the guests. The Club prize was won by Mrs. Henry Doss and Mrs. Hamner carried off the guest prize. After many enjoyable games the hostess served a delicious two course luncheon.

CHILDREN HATE OIL, CALOMEL AND PILLS

"California Syrup of Figs" Best For Tender Stomach, Liver, Bowels—Tastes Delicious. Look back at your childhood days, Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them. With our children it's different. Mothers who cling to the old form of physics simply don't realize what they do. The Children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

MISSION STUDY.

The Baptist Mission Study Class were honored in being the first guests in the beautiful new home of Dr. and Mrs. W. R. Lindley last Thursday. Notwithstanding it was a very disagreeable day a good number attended. Mrs. E. Keathley was leader and the subject studied was Housing the Churches in the New West. Much information was gained in regard to the Building and Loan Fund in this denomination. The Bible Questions were on the Gospels.

One new member was received, Mrs. Holland and many paid dues for the year—or part of it. At the social hour the hospitable hostess served delicious chicken salad wafers and hot coffee, followed by more delicious cream and cake. It was indeed a pleasant meeting in every way.

Seniors.

The Senior Class of the High School entertained the Juniors last Saturday evening at the home of Miss Eva King with a 42 party.

Few outsiders were honored with an invitation. Miss Ellis and Miss Aldrich assisted the young people in having a good time. At the close of many enjoyable games a delicious fruit salad with wafers and chocolate were served by the young ladies. The Juniors were unanimous in declaring they had pleasant evening.

CANTATA.

The Christian ladies are preparing to give a cantata some time in April somewhat similar to Sylvia. Everyone remember with pleasure Sylvia and will look forward to another pleasant evening.

PRESBYTERIAN CHURCH

(Guy B. Duff, Pastor). Next Sabbath will close our church year; let us make the services of the day the best of the whole year. The best in attendance, in punctuality, in contribution and above all, in devotion, and worship of God. Sabbath School at 9:45 A. M. J. M. Thomas, Supt. Preaching services by the Pastor at 11 A. M. and 4:30 p. m. Mens Mission Study Class at 7:30 p. m. Prayer meeting each Wednesday evening at 7:45 p. m. Every body most cordially invited to attend all these services.

METHODIST CHURCH.

Every Sabbath Sunday School at 9:45 a. m.; Preaching at 11 a. m. and 7:30 p. m.; Junior League 2:30 p. m.; Senior League 6:30 p. m.; Prayer meeting every Wednesday 7:45 p. m. Choir practice every Wednesday following Prayer meeting; Vesper Service every 4th Sunday 7:30 p. m. A cordial invitation is extended to all. R. A. CLEMENTS, Pastor

Badly Burned.

Nothing relieves a scald or burn more quickly than Hunt's Lightning Oil. This wonderful liniment is very healing. For cuts, sprains, bruises, etc. it is fine. Sold by all druggists in 25c and 50c bottles.—W. L. Doss.

A LETTER FROM

DR. WESTON SAYS
This is the first time since the 4th I've been able to write a line. That day 30 pieces of skin were cut from my thigh and grafted on my foot and leg. I was put to bed with my foot higher than my head and told I would have to stay in bed, absolutely quiet, flat on my back for a month or more. Not all the grafts "took" but enough to start the skin spreading again, and the Doctor says the foot and leg are healing now nicely, but it will take time, absolute rest in bed and patience to put me in walking shape again. As I can now get up in bed a few minutes daily, will keep you posted as to my progress.

There is more ill humor and more sickness and disease caused from the house wife trying to do the washing or getting some Mexican or Negro too, than any other cause, send your laundry to the Colorado Steam Laundry we are reliable and will do the work cheaper.

One third of your time is spent in bed you might well afford a Sealy Mattress this spring when you clean house. H. L. HUTCHISON & CO.

Order your Easter Hats early, latest designs and newest styles in all new goods at Mrs. B. F. MILLS.

See Kewpie at Majors.

BOY SCOUTS.

Colorado now has full fledged boy scouts. Two weeks ago they were organized with Rev. Mr. Clements as Scout Master. They had twenty three in the organization and now have a wide awake number of twenty nine. They went Wednesday on a drill and are preparing to go on a hike and rabbit drive Saturday.

They are now studying hard on the signs, rules and regulations, and when their suits come they will present an inspiring picture. Every mother should be interested in this move for it not only keeps her boys out of mischief but it develops them in many ways for every boy is required to attend Sunday School and at least one preaching service at his church. So every one should aid these boys in every possible way.

DISTRICT CONFERENCE.

The District Conference to be held at Snyder has been postponed until May 29 to 31st.

B. W. DODSON,

Presiding Elder.

REPORT FROM JUDGE HOOPER

Judge J. E. Hooper, in the Sanitarium at Mineral Wells, has been a very sick man the past two weeks, in fact has been right at death's door. Loving friends and relatives have watched almost breathlessly for a change. On Wednesday morning the change came for the better, after a period of unconsciousness of four days and nights, he revived and all appearances tend to show a slow but steady improvement and at this time Thursday great hopes are entertained of his speedy recovery. The entire town of Colorado, the Church, the Lodge, and Business circles have been in suspense, waiting and watching with much prayer, and when the good news came Wednesday morning of the change it was quickly passed around and all rejoiced.

Mr. Hooper is now thoroughly conscious and rational and is asking about his friends.

On Wednesday evening just after Mrs. Wheeler and the children returned from prayer meeting they were alarmed by the barking of the dog and Mrs. Wheeler went to the door to see the cause. As she opened the door a bullet barely missed her head, she closed the door but the shooting continued until the dining room, windows were shot out. She and the children immediately left for a neighbors and he went over there but could find no trace of any one. Mrs. Wheeler has no idea who did the shooting but says, they will not find her unprepared another time.

TWO NEW CARS.

Last week Mr. Herrington and his daughter Sallie, drove two new 5 passenger Overland cars out from Dallas and as soon as they arrived the cars were taken by Judge Loney and Mr. F. M. Burns, although Mr. Burns says it was his wife who bought it. This is two more new cars for Colorado and the editor has a still better chance of getting a free ride once in a while.

FORD CAR TURNS TURTLE.

Early Thursday morning Dr. Dugeon of Sweetwater was going over to Loraine taking a Mrs. Sparks who is a trained nurse over to Loraine. Somewhere between Roscoe and Loraine the car turned turtle. Dr. Dugeon has several broken ribs and Mrs. Sparks is still unconscious at this writing. We could get no particulars other than the above.

A TRAINED NURSE.

Colorado now has a resident trained nurse in the person of Miss Thelma Kennedy who is making her home at present with Mrs. Bob Brennan. Miss Kennedy comes from Dallas and is well recommended as a nurse.

NEW BANK.

Newt. McCaghen of Loraine and Carl Wille of West have opened up a new National Bank at Matador. The First National Bank of Matador will have a capital stock of \$30,000 a majority of the stock already being subscribed for. In fact a majority of the stock was subscribed for the first day; the gentlemen opened their books for stock subscriptions.

Mr. McCaghen and Mr. Wille both expect to build residences here and make this place their future home. The gentlemen come to Matador well recommended indeed.

These boys are well and favorably known in Colorado and their many friends wish them success.

POSTED.

The Mary Lewis lands and all leased lands by her are posted according to law and all trespassers, will be prosecuted, wood haulers and hunters beware. MRS. MARY LEWIS 4-17-c

When it comes to glasses come to us. J. P. MAJORS. Jeweler & Optician.

MISSIONARY COLUMN.

Lay Workers in Korea.

Writing from Korea, a missionary of the Presbyterian Church U. S. A. says "Two aims have been before the missionaries—set the people to studying and set the people to work. As a result, last year in the Northern Presbyterian mission alone there were 1,380 Sabbath schools attended by 66,000 pupils. The average church attendance was 73,000 so practically the whole church attends Sabbath school. It required 57,000 "monthlies" and 5,000 "quarterlies" to supply the classes. Besides, there were 1,055 Bible study classes or conventions in this one mission, attended by 43,500 members, and extending from five to fifteen days. These are self-supporting the men and women walking several days, if necessary, carry food, and perhaps babies, too, in the case of the women.

"One way of setting the people to work is to take up collections on days of evangelistic work, the Christians volunteering for from two days to two weeks. Another is to divide the territory around each church in apple pie divisions and to allot each division to several volunteers. The greatest human agency in the building up of the Korean church has been the volunteer work of the lay members.

"Educational work has not been neglected, even though it has been placed second. In our mission there are 488 schools, 450 of which are self-supporting. These are attended by 11,213 pupils. "In the six mission there are about eighteen hospitals; the eight in the above mentioned missions treating 72,000 patients the past year.

Japanese School for Women.

The Japanese government has done little to promote the education of girls above the high school.

With the exception of the Womens Higher Normal school at Tokyo and the corresponding one at Nara there has been practically nothing done. The higher normal schools in no sense provide for general culture. Women who attend these schools receive their tuition free and are bound to teach for five years after graduation. The women's university gives a three or four years' course above the high school. The enrollment in the college department is 450. There is a woman's private medical school in Tokyo with an enrollment of 300. Last year this school received government recognition, as a special school.

Costly Opium Outfit Burned.

A rather remarkable opium burning took place recently at Teng Eih K'on. The offering consisted of two large packages of opium valued at \$300 to \$400 four elaborate opium pipes with cloisonne and ivory trimmings which were wrapped in silk holders, a number of finely decorated opium lamps, knives, scissors and other accessories. This expensive outfit belonged to the Duke Kuei, who died a short time ago. His sons stated that they were burning it to set an example to other families in Peking.

What One Church Does.

Trinity church, Durham, N. C. has a membership of only 400 yet it has pledged its support to Rev. Bert Alexander and wife in Japan. Rev. L. Matsumita in Japan, Rev. A. U. Td Tsae in China, and Rev. O. Hyun Young in Korea. Trinity provides also for the education of fifty girls in Shanghai, China. In the home field it has pledged the support of eight orphans. It provides also for the education of a ministerial student at Trinity college.

The Chinese Government reports more than 40,000 schools under its control, and has primary and intermediate grades in every province, with total enrollment of 1,500,000 students. The mission schools are said to be far ahead in quality of teaching and seventy-five per cent of the textbooks used in the government schools were prepared by Christians or under Christian supervision.

India, with its population of 315,132,537 souls, is the biggest jewel in the British crown. India is pre-eminently a land of faiths. Out of the population of more than 315,000,000 souls, only seventeen persons were found, according to a recent census, who avowed themselves atheists.

A police superintendent in India has recently asked that some of the Christian young men be trained for policemen. As most of the Christians belong to the low caste, this shows the impression made on the minds of the outsiders by the characters of the Christians.

One pastor writes: "One woman in my church who cooks in a private family has given in the last few months seventy dollars to foreign missions. She is a Scotch-Irish Presbyterian from Belfast. That may explain her loyalty but the real cause is she knows her Savior."

Mr. Bill's Planter free at McMurry's.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you. You can't make a mistake in taking

CARDUI

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

Has Helped Thousands.

SPRING MILLINERY

TANGO Hat with the high side and bandeau effect, trimmed with grograin ribbon and linen flowers. Very attractive.

A NOBBY STREET Hat of soft braid and mesaline crown, also braid hats.

HEMP and MILAN shapes, with the high side effect and in sailor shapes—in Tango, black and the new blue.

Order Your Easter Hat NOW

Place your special orders for Easter Millinery now and avoid the rush of the last few days before Easter. We have designers and trimmers of recognized ability in our millinery work rooms who will execute your special orders in original styles, or carry out to the letter your own individual ideas, just as you wish.

Let us urge an early visit and an early placing of the Easter orders to avoid the rush and possible delay of last few days.

GIVEN THE WRONG CREDIT.

Last week we published a little political squib clipped from the West Texas News at Snyder and credited it to the Roscoe Times which was an error, as the Times published no such notice. It should have been credited to the West Texas News.

The editor of the "Sports Afield" in an article published in "Outdoor Life" says:

"I have made my bed beside the limpid waters of the Concho when the shimmering rays of the moon shone softly through the leaves overhead and the musical rhythm of the water lulled me into slumberland. I have rolled away the stones and laid me down to sleep 'neath the sweet-smelling cedars of Edwards county; I have climbed Davis Mountains and watched the sun go down behind the purple hills, and have pilloved my head in the long sacrahusta and heard the dismal howl of the giant prairie wolf break the stillness of the night. I have slept on the bleak prairie of the great Llano Estacado, miles from any habitation. I have felt that exquisite loneliness that comes to one when Night drops her sable curtains down and naught but the far-away bark of the lone, lone coyote greets your ear. I have done all this and more."

The editor only got a faint touch of western Texas life. He knows not what he missed by not having visited Mitchell County and the Colorado country. Here where the ozone makes the ladies cheeks blush like American Beauty roses; where the placid waters of the Colorado drives all care away as you sit on the rock bound shore. Here where the toilers hands assisted by nature makes the prairie blossom as the rose, where the limpid streams and song birds bring to mind Elysian fields of music and happiness; where prosperity reigns supreme and sweet contentment holds its sway. All this he missed and in blissful ignorance thinks he has seen it all.

According to fruit men and railroad men, it is impossible to estimate the tens of thousands of oranges that were consumed last Saturday. The date was celebrated as "California Orange Day". The Texas and Pacific, with many other railroad systems, featured oranges on its dining car menus for all meals. The observance was in line of celebrating California's 45,000 car crop of 1915.

On March 31st McMurry will give away absolutely free a Mr. Bills planter. Come and see at the store.

THE FARM DEMONSTRATOR

Mr. W. A. Dullin, the farm demonstrator hired by the Government and the County is now here at work, among the farmers and will make a report in next weeks paper of his plans and progress made so far. Here to some extent is the plans he will work on.

After crops that will mature early such as corn, are well started in the wide rows. Some strong vining variety of peas can be planted between, and while being cultivated use companion crop will receive the advantage of this cultivation also, until matured, and afterward the late variety of peas will have the entire space to feed upon. Between the rows of those crops that mature late, such as cotton and kafir some early and dwarf variety of peas or beans should be planted. As soon as the peas or beans are ripened they should be picked and the vines worked into the soil. The peas should be planted early enough to well insure getting them to grow and yet late enough to not absorb moisture that may be needed to mature the companion crop.

In this alternated row system yields of the standard crops can be increased in most years, and the value of the nitrogen, humus and grain produced by growing the peas will be added. Peas are also good sub-soilers. Their roots penetrate deeply, and as they are decaying provide numerous entrances through which rains can easily enter into the soil.

Immediately after harvest of a crop on all classes of land it is well to double disk with a disk harrow to aid in conserving moisture, until the deep er plowing can be done. On light sandy soils that are inclined to blow a good plan is to harvest all crops that mature early, as soon as they mature and immediately plow under deep ly all stalks or stubble and harrow and firm well to aid in retaining moisture, and to hasten the decay of the vegetable matter. Then plant peas at once or before September 15th if there is moisture enough to start them. If the season is too short for the plant to mature peas they may afford some pasturage. The stubble of the peas should remain where it grows until after the next season's crops are well started in wide rows, then as these crops are being cultivated the stubble of the peas can be gradually worked into the soil. On this plan all the advantage of deep earth breaking can be gained, the plowing tendency checked and the soil improved. If the peas fail to grow some winter cover crop will protect the soil from blowing. In some years it is possible to follow small grain with fall crops of Milo, Mexican June corn, etc, but this process will extract fertility very rapidly. Wide rows of these fall crops, with peas between, would be permissible, yet all peas and some pasturage would prove the better investment in future years.

Notice.
This is to notify my friends and the public of Mitchell and adjoining counties, that I may be found at the new boot and shoe shop of Eugene Hauschild

AMERICAN HIGHWAY ASSOCIATION

Enormous development of the financial side of the road movement shown in the fact that 1230 counties in the United States now have outstanding highway bonds aggregating a quarter of a billion dollars, according to the Official Good Roads Year Book for 1914, which is to be issued by the American Highway Association in Washington early in March.

The fact that the counties mentioned have bonded themselves to the extent of a quarter of a billion dollars in order to improve and maintain their roads is only one of the surprising developments of the road movement as shown by the latest Year Book. A stupendous new business is shown to have grown up in the United States as a result of the road boom—a business employing more than one thousand persons in actual supervision of the roads, in addition to the increase in banking business, due to handling bonds, increases in the road machinery and materials, and the other by products of the boom. Not merely has there been a tremendous saving in the wear and tear on horses and in the prevention of waste on the farm due to the inability to get the shipping points over poor roads, but there has been an actual increase in property as a result of the need for work and materials on the construction of new roads and the improvement of old ones.

Progress reports from every state highway department comprise a chapter in the new Year Book which shows that only eight states have failed to establish highway departments, while in several of the states notably New York, Illinois, Iowa and New Mexico the tendency towards centralization has progressed so far that practically all the work of road improvement is being done under state supervision. The Year Book, which is a complete inventory of road statistics and other necessary data, sets forth that approximately twenty thousand miles of roads have been constructed under State supervision in the past year.

Highway officials in the various states have already applied for the latest edition of the Year Book, which gives a digest of state road laws; shows the use of no convicts on the public roads; bond issues; mileage, appropriation, directories of official manufacturers and contractors; types of roads; full list of books, documents and authorities; description of foreign road systems; highway engineering in colleges; construction of bridges and culverts; and reviews of all the addresses and technical articles which appeared in 1913. J. E. Pennybacker, secretary of the American Highway Association, whose president is Logan Waller Page, director of the Federal Office of Public Roads, is editor of the Year Book, an Charles P. Light is business manager.

MORE RURAL ROUTES

What Colorado needs and must have is more rural mail routes. Now that the post office is to have a new building much enlarged a new set of modern fixtures it behooves our citizens to see that we get more rural routes. Mr. Person informs us that: they are almost certain to get two new routes this summer, one out to and beyond Bulard and another out South of town via Seven Wells, but what the people are clamoring for is a route out through the Cedar Bend Community to return via Cuthbert.

Something like 200 families would be served by this route who are now almost entirely cut off from mail service. This route can be secured if proper roads and bridges are built. The Commissioners should get busy on roads for this route. It will require a bridge across the Colorado river at the Raymond Johnson crossing and we are in formed that the citizens of Cedar Bend and all that community are willing to contribute or donate \$1,000 on this bridge, with this liberal offer before them the Commissioners should get busy and build the bridge. The business men of the town stand ready and willing, to help in establishing this route and all it takes to get it is a move in that direction by the Commissioners.

NOTICE SINGERS.

We take this method of again calling your attention to the approaching Annual Meeting of the Mitchell County Singing Convention, and again insist that all communities that have not already organized a Singing Class, do so at once and begin practice. This meeting will be held in Colorado City on the first Saturday and Sunday in May and we shall try to make it the best ever had in this County, and can do so if you will co-operate with us. For requirements to become members of this convention you may address the undersigned secretary, who will gladly furnish all information desired.

W. L. DOSS, President.
EARL JACKSON, Secy.
County papers please copy.

Come and see Mr. Bills at McMurry

SILLO SAVES COST OF FEEDING.

Good prices are now being paid for farm products, but we hear our city cousins complaining of the high cost of living, and, through their complaint, we are fearful lest in some way we lose these high prices. The farmer is not inclined to believe he is receiving any more for his produce than he should. In fact, he maintains his profit is still too small, and he should receive more. As we are an agricultural people and prosper as the farmer prospers, we certainly should rejoice in these high prices of farm products, but at the same time we expect the farmer to use economic methods in his production. To illustrate: We would hear a storm of complaint if the cloth-makers were using the spinning wheel and charging prices accordingly. We could not afford to pay for manufactured goods if they were turned out by old methods. We demand progress in every department of our industry, for the lagging pulls back the leader. If beef and butter are too high it may be because they are not being produced economically. Therefore the consumer certainly has a right to complain if the farmer does not use economic methods in his husbandry.

There is produced every year in this country sufficient forage to feed liberally all the livestock of the land, and leave a good balance. The shortage each year is due to the spoilage and wasting of forage already grown. The means of preserving this forage will solve the stock problem of the country. The principal waste is in the corn belt states where over 80 per cent of the stalk and leaves of this most valuable forage are wasted. As economic stock production is determined by the proper use of the forage, the silo furnishes a means whereby all farm forage can be preserved in the best possible condition for feeding. The silo is too well known to require description, but its use is certainly sadly wanting. It can be safely said, on any farm where 10 head of more of cattle are kept, a silo is a necessary equipment and of great economic value.

Besides corn, excellent silage may be made from alfalfa, clover, oats and peas, rye, sorghum, kafir corn, millet and milo maize. While corn is the principal crop for silage, it is often made from other plants, especially during drought seasons, when excellent sorghum and kafir corn can be grown as a catch crop. The first cutting of alfalfa hay during a wet season is often lost. This could be put in the silo and saved and by feeding out during the summer months the silo can be refilled in the fall with corn and kafir corn.

During recent years we have noted a steady increase in the price of hay, in fact, all forage is high, and it is necessary for the stock keeper to produce a forage at less money than hay if he wishes to realize a good profit on his stock. In this capacity the silo comes as a great boon. Experiments have shown that the silo will save 10 cents on the cost of producing a pound of butter and \$2.50 on the cost of producing 100 pounds of beef. With this advantage the silo becomes the stock farmer's gold mine. A. L. HAECKER.

A BEAUTIFUL VEIL.

(Sulphur Springs Gazette)
The keeper of the record on the Fort Worth Record takes the Gazette editor to task for discussing what we termed the "Troubles of the Record Keeper." He states that we "see things through smoked glasses," but in this he is, as usual, mistaken—on the wrong track—our vision was never more clear and we can look down the misty vale of Texas politics and see the "record keeper" and his beloved "constructive Democracy" battered, bruised and bleeding upon the rocks of defeat in the July primary. The prime motive of those with whom the record keeper is now training is to perpetuate the open saloons in Texas, and all this talk about "constructive Democracy" started by The Record is mere flim flam, and the beginning of the fight against statewide prohibition, which is coming under the administration of our next governor—Thomas H. Ball.

The record keeper says a number of prominent men who formerly fought Democracy are now lining up for Ball. Don't worry about that. Brother Fitzgerald; that's only another demonstration that Ball is the character of man the people of Texas can unite on, as a whole, with the exception of those who want the liquor interests to control Texas politics. Then besides, we are living in a progressive age and political "backsliding" are permitted to come back into the fold of Democracy with only the mild injunction of "Go and sin no more."

The keeper of the record does himself proud in his wonderful and lurid word painting. He is unquestionably one of the most brilliant and versatile writers in Texas or the South and it is really lamentable that his talent cannot be used in a better cause. The people of Texas see and liquor through that beautiful veil of constructive Democracy you are constantly spreading before their eyes, Brother Fitzgerald, and while we admire the dexterity of your brush, the veneering is too thin, and "the negro in your wood pile" keeps poking his head out.

Your Wife's Work
is just as trying and important as your own and perhaps more tedious—but is her strength as great?
Women who are nervous and fretful and easily fatigued promptly gain strength and natural energy by taking Scott's Emulsion after meals because it is essentially nourishment—not a drug that stupefies or alcohol that stimulates—there is pure, rich medical nourishment in every drop which nature appropriates to enrich the blood and rebuild the latent forces of the body.
Probably nothing is more popular with physicians for just such conditions than Scott's Emulsion.
Avoid substitutes called "wines," "extracts" or "active principles"—they are not cod liver oil.
Insist on the genuine Scott's
AT ANY DRUG STORE 13-64
SCOTT'S BOWNE BLOOMFIELD N. J.

CATARRH OF THE PHARYNX.

Clearing out your throat every day, all day. That is what you have been doing for months. Possibly years. A little mucus covers the pharynx. If you were to go to a doctor he would tell you that you have pharyngitis. If you were to look into your own throat you would find just back of the soft palate a red, lumpy, granular appearance of the back part of the throat. Pharyngitis the doctors call it.

Perhaps he would call it, follicular pharyngitis. It causes you constant annoyance. You are always making slight disturbances when seated in an audience. Can't hold your throat still. Stringy mucus bothers you. Worse in the morning.

A-hem! A-hem! A-hem! That is the way you are going nearly all day. Sometimes in the night when you wake up. You ought to gargle your throat with salt water every morning. Cold salt water. That clears out the throat perfectly and makes it ready for treatment.

Peruna is the treatment. Begin with a teaspoonful before each meal and at bedtime. Try it for a week. You will be convinced. Of course, Peruna will not entirely relieve you in a week. That is too much to expect of any remedy. But it will benefit you so much you will be convinced. Yes, it will. It has done this many times.

Follicular pharyngitis. Big words. Almost as bad as the disease. But if you take Peruna for one month regularly, you may forget that you ever had such a disease. Then you will have a perfect right to forget the big words too.

People who object to liquid medicines can now obtain Peruna Tablets.

SHERIFF'S SALE

THE STATE OF TEXAS, County of Mitchell.

Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Mitchell County, Texas on the 17th day of February 1914 by Earl Jackson Clerk of said District Court for the sum of Fourteen and 91-100 Dollars and costs of suit, under a Judgment of Foreclosure of Tax Lien, in favor of the State of Texas in a certain cause in said Court, No. 2240 and styled The State of Texas vs. Hardie Caesar, Robbie Caesar, Wm. Cheek, Samuel Cheek, Thomas Cheek, Martin Garcia, Sallie Garcia, Mary Robb Royall G. Smith and unknown owners, placed in my hands for service, I G. B. Coughran, as Sheriff of Mitchell County, Texas did on the 17th day of February 1914 levy on certain Real Estate, situated in Mitchell County, Texas described as follows, to-wit:

Lot No. 10 in Block No. 35 in the City of Colorado in Mitchell County, Texas, and levied upon as the property of Hardie Caesar, Robbie Caesar, Wm. and Samuel Cheek, Thomas Cheek, Martin Garcia, Sallie Garcia, Mary Robb, Royall G. Smith and unknown owners and that on the first Tuesday in April 1914, the same being the 7th day of said month, at the Court House door, of Mitchell County, in the City of Colorado Texas, between the hours of 10 a. m. and 4 p. m. by virtue of said levy and said Order of Sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Hardie Caesar, Robbie Caesar, Wm., Samuel and Thomas Cheek, Martin and Sallie Garcia, Mary Robb, Royall G. Smith and unknown owners.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Colorado Record, a newspaper published in Mitchell County.

Witness my hand, this 17th day of February 1914.

G. B. COUGHRAN.
Sheriff Mitchell County, Texas.
By Preston Scott, Deputy 3-27

Judge Looney and family of Colorado were here Tuesday for a short visit.

J. C. Prude of Colorado were among the busy ones here this week.

Quite a number of citizens have helped the rabbit drives at Champion and Bauman.

E. M. Baldwin of Silver will serve a barbecue dinner with the Champion and Silver people on Friday and also engage in a Rabbit drive.

Grain Privileges Money in Wheat

Puts and calls are the safest and surest method of trading in wheat, corn or oats. Because your loss is absolutely limited to the amount bought. No further risk.

Positively the most profitable way of trading. Open an account. You can buy 10 puts, or 10 calls on 10,000 bushels grain for \$10, or you can buy both for \$20 or as many more as you wish. An advance or decline of 1 cent gives you the chance to take \$100 profit. A movement of 5 cents \$500 profit. Write for full particulars and Bank References.

R. W. NEUMANN New First National Bank Building COLUMBUS, OHIO Address all mail to Lock Box 1420.

John Johnson and wife of Champion were up Sunday.

Mrs. Chess Kidd died at her home on Saturday at five o'clock she had been a sufferer of tuberculosis for some time and her death was not unexpected. She leaves a father and mother and several sisters and brothers and a husband and three children to mourn her loss. All of whom have the sympathy of the entire community. She was buried at Lone Wolf cemetery on Sunday afternoon. Rev. C. M. Jameson conducted the services.

WHITE SOX AT ABILENE.

Thursday, April 2nd, the Chicago White Sox of the American League, will play the Abilene Bankers in the Bankers Park at Abilene. The Bankers team will be strengthened by several major league players. This exhibition game will afford the baseball fans of this section an opportunity of seeing some of the Worlds greatest players in actual play.

Work has been completed on the grounds putting the field diamond in the class with the best ones in the State, also, the grandstand has been enlarged which will now comfortably accommodate the largest crowd which ever witnessed a baseball game in this section.

For this date, April 2nd, the railroads leading into Abilene have all announced cheap excursion rates.

The best ball bats to be had are at Doss.

Efficiency is the watch-word in all kinds of business.

Beautiful new spring Millinery at MRS B. F. MILLS.

VILLA IS A NEGRO.

Bandit Rebel Leader "Reported" to Be Former Local Negro.

Former Negro "Companion Makes "Spiel" in San Francisco Chronicle Story.

That Pancho Villa, the rebel bandit leader of Mexico and former "top" Sergeant George Goldsby, well known in San Angelo and who was once stationed at Fort Concho, are one, and the same is the burden of a sensational story which recently appeared in the San Francisco Chronicle. The Tenth Cavalry is composed entirely of negroes and mulattoes.

While the probability of a Maryland negro passing among Mexicans as a full fledged native Mexican was considered remote the story nevertheless created local interest as it recalled the escapades of the negro sergeant who is remembered as a daredevil capable of the strategic powers with which Villa has been credited. The Chronicle says:

"Gen. Pancho Villa, the conqueror on horseback of the constitutionalists army in Mexico, and the man to whom the United States Government seems to look to overthrow President Huerta, is an American citizen, a native of Maryland, and a former enlisted man of the United States Army.

"Two men, both former soldiers, and whose reputation for veracity are unquestioned, absolutely assert that this is the fact, and one of them goes so far as to state that he talked with Villa in Mexico three weeks ago and exchanged reminiscences with him of the time when both the men served in the Tenth (colored) Regiment of Cavalry.

"W. A. Hayes, messenger in the quartermaster office at the Presidio of San Francisco and a former member of Troop D, Tenth Cavalry, absolutely recognize Villa from his pictures as George Goldsby, first sergeant in D. Troop in 1882, when he left the service and went to Mexico. His testimony is further corroborated by Fred Scott who was a non-commissioned officer in the same troop in 1882. Scott informed Hayes a day or so ago that he crossed the border line between the United State and Mexico three weeks ago, saw Gen. Villa, had a long talk with him, and during the progress the talk "swapped yarns" of the old days of the Tenth Cavalry.

"There is absolutely no chance of my being mistaken," Hayes said. "Gen. Villa and First Sergeant Geo. Goldsby are one and the same man. I served in the same troop with him, and men who serve together in any military organization, meeting one another daily and learning each other little idiosyncrasies, don't forget each other in a hurry.

We now have plenty of water and are putting out the very best quality of work. We ask the housekeepers to give us a trial—Colorado Steam Laundry.

Friday night is give-a-way night at the Shadowland this week.

Confidence and good will are mighty good business assets.

Come and see Mr. Bills at McMurry

WHAT IS THE MATTER WITH THE WORLD.

The solution of this age-old problem is easy. The remedy for all the ills afflicting the human race may be readily found, when once the cause is ascertained. As effect follows cause so a remedy to be effectual must be applied to the source of the troubles.

There is one cause for all political corruption, social evils, financial frauds, industrial ills, liquor traffic, wars, poverty, disease, strikes, lock-outs, shame, misery, sorrow, and suffering.

Experience has demonstrated that it is futile to attempt to remove the branches of evil. The tree itself must be killed. The only way to kill the tree is to strike at the roots. What are the roots? The answer to this is the answer to the entire problem of "What is the matter with the world" It is selfishness in the human heart. Analyze every evil in the world and it can be traced to this one source.

Remove selfishness, and the evils will fade away. How can this be done? It will require the divine power of the Creator. Hopeless indeed would be this world if God had not provided the remedy. This, which is beyond the power of man to achieve, will be done when Messiah's kingdom is established in the earth. His righteous reign will be inaugurated for the very purpose of removing the stony hearts of selfishness and of giving to mankind hearts of flesh, dispositions of love and kindness and good will—Isiah 9:6-9; Ezekial 36:26, 27.

THE WANDERING JEW

TEACHERS NOTICE. We received a letter this week from the State Superintendent as follows:

I desire to call your attention to the necessity for the use of uniform examination paper by all applicants for State Board of Examination is required to grade the papers of approximately 8000 applicants for teachers' certificates during each year. This necessitates the handling and grading of approximately 60,000 to 70,000 papers, so you can see, very readily, that it is absolutely necessary that the papers be prepared on uniform examination paper, in order that the work of grading the papers may be rapidly and accurately accomplished.

W. T. DAUGHTY State Superintendent.

The Record has in stock the above paper as required and all teachers are requested to get their examination paper here, so as to have it all alike.

The efficiency of a product is judged by its users.

RETIRED GEORGIA PLANTER'S ADVICE TO KIDNEY SUFFERERS

Regarding the wonderful merits of your Swamp-Root, I cannot say too much. After suffering severely for three years or more with severe pains caused by weak kidneys I was finally induced to try Swamp-Root through a testimonial I read in one of the newspapers. I was in such a condition that I was obliged to arise from my bed six or eight times every night. I purchased a fifty-cent bottle and before it was used I felt so much relief that I purchased a one-dollar bottle and by the time this was taken the old pains had left my back and I could sleep the whole night through. I am a retired planter, 70 years of age, and owing to Dr. Kilmer's Swamp-Root, I am in the best of health and feel like a boy. I am always glad to recommend Swamp-Root to those who are in need of it.

Sincerely yours,
C. E. USSERY,
Bowerville, Ga.

Personally appeared before me, this 8th of September, 1909, C. E. Ussery, who subscribed the above statement and made oath that the same is true in substance and in fact.

T. H. McLANE
Notary Public.

Letter to Dr. Kilmer & Co., Birmingham, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Colorado weekly Record. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

ELECTRIC FLASHES.

Lomax III, announces that it will give free electric power to all new industries locating there on the basis of one horse power for each male employee.

Electricity is extensively used in the manufacture of shoes. Electric motors drive the machinery and electric heat is used in the ironing and stamping of leather.

The output of tungsten ore for this country during 1913 was 1525 tons, valued at \$640,500. A large portion of this new metal is used in making Mazda lamp filaments.

By a process called "fishing" old houses can be readily wired for electricity without distributing the walls or plaster. The wires are "fished" up and down between the walls and floors.

Dr. W. D. Coolidge, of the experimental laboratories of the General Electric Company, Schenectady, N. Y. has recently made a wonderful improvement upon the X-ray tube whereby the rays can be controlled and directed at the will of the operator.

The oldest private electric plant in New York City has the invention of the incandescent lamp. The three 25 kilowatt Edison generators have been in continuous service for thirty-one years.

The largest motor-driven irrigation pumping plant project is in Western Idaho. Here 30,000 acres in the valley of Snake River, 2300 feet above sea level, are irrigated with water pumped by electricity. Nine motor-driven pumps, arranged in four batteries, lift the water from the lower to the higher levels. The capacity of the plant is 200,000,000 gallons a day.

Detroit is installing 900 new street lamps.

It is announced that Marion, Mass., is to have the largest wireless station in the world.

Ten years ago, it is said, there was no electric railway and no electric lights in China.

Twenty electric trucks have been added to the Postal Transfer Service in New York.

Only six per cent of the passenger vehicles on the streets of London are drawn by horses.

Direct wireless communication between this country and Germany has been established.

The U. S. Navy Department will establish a wireless station at Point Isabel in the Texas Gulf Coast.

There is a steady demand for electric light and power plants in the awakening cities of the Chinese Republic.

Chronic Stomach Trouble Cured.

There is nothing more discouraging than a chronic disorder of the stomach. Is it not surprising that many suffer for years with such an ailment when a permanent cure is within their reach and may be had for a trifle? "About one year ago," says P. H. Beck, of Wakelee, Mich., "I bought a package of Chamberlain's Tablets, and since using them I have felt perfectly well. I had previously used any number of different medicines but none of them were of any lasting benefit. For Sale By W. L. Doss.

STOCK MARKET REPORT.

Kansas City, Stock Yards, March 16 1914—Cattle receipts here last week were 7000 head less than corresponding week last year. The deficiency of almost 25 per cent here put this market in an independent class, and cattle sold without regard to a break of 25 to 50 cents at Chicago. That market depends to a larger extent on Eastern demand for an outlet, and conditions East were against buying in the West, account of beef importations, a sluggish beef market, and liberal marketing of cattle fattened at

points east of Chicago, including the Lancaster section in Pennsylvania. At Kansas City supplies are light, and the demand from the eight large packing plants here, and the small killers together with the large percentage taken for the country, absorbed the supply last week at prices around 10 cents above the close of the previous week. Receipts here today are 11,000 head, and as leading for Chicago was discouraged last week account of the break in prices there, that market has a moderate supply. Hence, there is an effort to make some readjustment of prices today, and sales here are steady to 10 lower. The close of the market today was firmer, and the finish steady with close of last week. Near prime steers sold here recently at \$9.20, but there is nothing of that class here today. Oklahoma corn and meal fed steers today at \$8.35 to \$8.70, middle class natives \$7.75 to \$8.60, hay and pulp fed Utah and Idaho steers \$7.80 to \$8. Northern Colorado steers \$7.60 to \$8.40, quarantine steers \$7 to \$8.25, native and western cows \$6 to \$7.75, heifers \$7 to \$9, stockers and feeders \$7 to \$8.25, veal calves up to \$10.50. Hogs developed considerable strength after Wednesday last week, and tops sold at \$8.80 Saturday, highest price since last September. Supply is 7000 today, market 10 lower, top \$8.75, paid for two loads, bulk of sales \$8.40 to \$8.65. Receipts are less than requirements of packers, particularly as order buyers take 15 to 25 per cent of the hogs, and Armour paid \$8.75 for a load of Nebraska hogs, that arrived late today. Local prices have been running 5 to 20 cents above other Missouri River markets for ten days. Sheep and lambs closed last week strong, at the week's best figures, and sales today are steady to 10 higher than Friday. Receipts today the \$300, good lambs \$7.75 to \$7.80, middle class lambs around \$7.50, prime ewes \$5.85, wethers worth \$6.25, yearlings \$7. Some Texas lambs sold here Thursday at \$7.55, and goats around \$4.25.

What is Good For Headache!

One lady says, after suffering dreadfully for about seven years, she tried Hunt's Lightning Oil, which almost instantly relieved her, and has been entirely free from those dreadful headaches since. Ask your druggist.—W. L. Doss.

Magazines, newspapers, cigars and tobaccos at Ben Morgan's.

The Entire State of Oklahoma and Parts of Texas Feel From Quarantine Against Scabies in Cattle.

Washington, D. C.—The Acting Secretary of Agriculture has issued an order, effective March 16, releasing certain counties in Texas and the remainder of the State of Oklahoma from quarantine to prevent the spread of scabies in cattle.

The territory released is as follows: In the State of Oklahoma the counties of Cimarron, Texas, Beaver and Harper, and in the State of Texas the counties of Hansford, Lipscomb, Hutchinson, Hemphill, Carson, Gray, Armstrong, Donley, Briscoe, Hall, Hale, Floyd, Lubbock, Lynn, Garza, Andrews, Nueces, and Cameron, and all of Roberts County south of the Canadian River.

YOUR MONEY BACK IF YOU WANT IT

Leading Druggists Will Refund Purchase Price of Dodson's Liver Tonic if You're Dissatisfied.

Floyd Beall may not be willing to guarantee the safety and reliability of calomel for constipation and sluggish liver, but these stores will and do stand back of Dodson's Liver Tonic with an unconditional guarantee to refund the full purchase price (50c) instantly without question if you are not satisfied in every way with liver Tonic and its results.

If you take calomel, perhaps you will seem to get temporary relief, but if often happens that the after-effects are at least unpleasant; and sometimes dangerous. Calomel in large doses is a poison and actually deadly to some—perhaps to you—and hence its use means taking chances.

With Dodson's Liver Tonic you are always safe. Its reliability is so certain that it can be sold with the money back guarantee. It is a vegetable liquid, pleasant to take, and it cannot harm. It clears up the dulled and aching head and cleans out the clogged system in what many have found to be a wonderful way. Dodson's Liver Tonic will do for you what it has done for thousands—and you run no risk in trying it. Ask Floyd Beall about Dodson's and the guarantee.

We have a fine second hand buggy for sale also set of harness.
H. L. HUTCHINSON & CO.

MORE SILOS FOR THE BROOKS FARM

That silos are proving profitable in Iron county is evidenced by the following from the Merton Star concerning the proposed erection of many new silos in that vicinity:

Another of our citizens who is enthusiastic over the silo proposition is J. R. Brooks, who is now feeding a large bunch of stock, both calves and sheep, on the ensilage stored last fall.

Mr. Brooks had two 200-ton silos constructed last summer and filled with sorghum in the fall at a cost of \$1.17 per ton, which, at the prevailing price for this class of feed when stored, would have very nearly covered the entire cost of the silo equipment.

So well pleased is Mr. Brooks with the experiment and the improvement made in the stock being fed that he has contracted with W. E. Hodge of Brownwood for the construction of five more silos to be put up at once. They will be constructed of California redwood and will have the same capacity as those already on the Brooks farm, where the proprietor is contemplating raising an immense crop this year. Mr. Brooks is a model and progressive farmer, who leaves nothing undone for the betterment or improvement of his place, as the attractive new cottage and the several silos bear witness.

Others in this vicinity are also contemplating the construction of silos this season among them being Will Landley of Sherwood who, we understand, will build of California redwood, while others will build of cement staves, and at least one farmer contemplates building of brick.

Chamberlain's Tablets for Constipation

For constipation, Chamberlain's Tablets are excellent. Easy to take, mild and gentle in effect. Give them a trial. For sale by W. L. Doss.

Several northern cities are requiring the wash women to register with the Health Officer, and give the names of the people they wash for, this is done to prevent disease, the Steam Laundry way is sanitary they are not required to register.

THE MODERN WEATHER PROPHET

Recollect last spring when that late frost struck your orchards and produce? You'd have given a mint to have had fair warning.

A Rural Bell Telephone will summon help when frosts threaten, besides being profitable in countless other ways. Our nearest Manager will cheerfully furnish information, or write to:

THE Southwestern Telegraph and Telephone Co. DALLAS, TEXAS

IT IS AN ART

It means something more than simply cutting letters. We pride ourselves on our unique designs. They are original and appropriate for the article to be engraved. No two alike. Your silverware will not have the same lettering as your neighbor's. We conform to your suggestions, if you like. Come and see samples of the work we have done. Our prices on jewelry and silverware are reasonable and we engrave them free of charge.

James T. Johnson

The Give-away night at Shadowland will be Friday.

Bob Lindsey who lives at Lamesa and who now represents a drug house at Dallas spent Wednesday here interviewing the trade and meeting old friends.

We will show the greatest line of Oil Stoves this season that has ever been offered by any dealer in Colorado. See us B-4-you buy. H. L. HUTCHISON.

Mr. and Mrs. Ed Rowley of San Angelo are visiting relatives and friends in the city.

A car load of all kinds of farm implements just unloaded at McMurry's. See the Mr. Bill Planter—Free.

Mrs. N. J. Phenix visited Mrs. McKenzie on the ranch this week.

Official Base Ball goods of all kinds at Doss.

Mrs. D. S. Nettles returned home Sunday after a pleasant visit with friends in Roscoe.

For cigars, candies, magazines and Periodicals see me, I keep a full line. BEN MORGAN.

Born Sunday to Mr. and Mrs. Spruell a girl baby.

We are doing better work now than we ever did. Linen is white, try us if it is not right we will make it right; Colorado Steam Laundry.

Born last week to Mr. and Mrs. Charles Mann a fine girl.

Silk umbrellas with guaranteed top and handles from \$3.00 up. J. P. MAJORS, The Jeweler.

Mr. and Mrs. J. H. Key and Miss Lena spent Sunday in Sweetwater with relatives.

All kinds Hot Drinks at Ben Morgan.

News comes from Mrs. R. D. Ingram in the Sanitarium in El Paso that her condition is not so bad as was feared and she will return in her usual good health in a few months.

EAT CABBAGE, FISH SAUSAGE, NEW BREAD

No Indigestion, Gas, Sourness or Upset Stomach if You'll take "Pape's Diapepsin"—Try This!

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick sour, gassy stomach? Now, Mr. or Mrs. Dypeptic, jot this down: "Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

times—they are slow, but not true, "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made by getting a large fifty cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion dypepsia or any stomach disorder.

The time is drawing near for the McMurray "Mr. Bill" planter to be given away, March 31st better get in your guess.

Last week we had an ad for Bro. R. W. Thomas wanting to sell a cow etc, but he wanted to buy and has it in this week.

Come in and see or phone 35 and ask what we have. Beal's Market.

Judge, C. H. Earnest spent most of the week at Ballinger where he had business connected with the courts at that place.

We will trade one Hoosier Kitchen Cabinet for Fryng chickens who will be first? H. L. HUTCHISON & CO.

Fred McKenzie came in from the ranch on Tuesday and boarded the train that night for Kansas City where he goes to buy some more full blooded Durham Calves to restock his ranch.

Teachers are required to use examination paper as proscribed by the state. We have it in Stock at the Record office.

Mr. and Mrs. Chas. Moeser with the two boys came in last Friday night from Cincinnati, Ohio, called here on account of the sickness of his brother, Billy Moeser. Mr. Chas. Moeser is a prominent business man of Cincinnati and this is his first visit to Texas. These are pleasant and amicable people and Colorado as well as Billy is glad of their visit.

For Sale—A good young stallion for sale at a bargain for cash or will trade for property. See R. L. Benton, Colorado. 3-27-p.

Kewpie wants to see you Ask Majors

M. A. Churchill, of Sweetwater, stopped off yesterday for a couple of days' visit with his daughter, Mrs. R. R. Smothers and grand-daughter, little, Miss Nell—Pecos Times.

Ben Morgan will order the latest books published for you.

O. F. Jones, manager of the Spade ranch spent Wednesday here on business.

Want a heater or a stove at rare bargain prices? Then see McMurry quickly. He has a few good ones that will go at cost or less.

Our old friend S. H. Wallas was over from Big Springs this week and renewed for the Record.

Pete's service car will haul anything or have it done.

Jack Williams came down from Vincent on Monday and enjoyed Monday night here with his many friends.

House cleaning time is a hand and you should call at our store and inspect our beautiful line of floor coverings. H. L. HUTCHISON & CO.

Misses Maud and Rota Farmer spent the week end with relatives in Sweetwater.

Hot coffee, Hot Chocolate and Bouillon at BEN MORGAN.

Billy Moeser who was quite sick for several days is now steadily improving and able to be up. His many friends hope to see him out again in the next few days.

Call and see wag, chief of the Kewpie's, Majors the Jeweler.

Come and see Mr. Bills at McMurry

Sunday morning last Mrs. Ann Ward mother of Mrs. Billy Moeser came in from Henrietta, Okla., and they now have a family reunion at the Moeser home being 14 in number.

When you want Pete's service car after 6 o'clock Phone 101.

Get that Easter Suit now. Buy from J. H. Greene.

Bennett Scott left the first part of the week with a Shipment of the Stokes cattle to Kansas City. Bennett said he would make a report about the city on his return.

Jewelry repairing, Diamond setting and hand engraving is our hobby. J. P. MAJORS, The Jeweler.

Get the official Base Ball at Doss.

A. L. Scott
GRAIN, HAY, COTTON SEED
MEAL AND HULLS

Just received a car of oak wood sawed in stove length.

GREENE & COMPANY

WRITTEN AT WASHINGTON

Washington, D. C. March—"If you were offered the choice of command, which would you take, a single ship like the modern dreadnaught New York, or 100 ships like the Oregon, the pride of the Spanish American War?"

This was a question recently put to a gathering of naval officers by Col. Robert M. Thompson, Chairman of the Executive Committee of the Navy League of the United States.

These officers, practically to a man, asserted their preference for the single ship and argued that it would be able to defeat the 100 in battle. They cited the fact that the guns of the New York had a hitting range of 12,000 yards at which they were able to penetrate fourteen-inch armor. The guns of the Oregon had this degree of penetration at no more than 3,000 yards. Beyond that distance they would have no effect on the modern battleship. They showed that the Oregon was able to hit but five times out of 100 at a distance up to 2,500 yards while the New York could hit seventy times out of 100 at a distance up to 7,500 yards. The New York likewise could fire three times as many shots from each of its guns as the Oregon.

The speed of the New York is nearly double that of the Oregon. Were she pursued by the 100 ships she could steam along out of their range and pick them off at will. Were the 100 in flight the New York could pursue them and as they came within 12,000 yards or less, sink them. There would be safety done of 3,000 yards, or about five miles, for the New York in which she could destroy Oregons with little danger to herself. No number of them should be effective against her.

Such are the advantages of the new ships over the old.

It was not known in Washington until a few days ago when W. G. Buchanan, of Morganfield, Ky., told the story, that the Hon. Augustus Owsley Stanley, Representative in Congress from the second Kentucky district, and now a vigorous campaigner for the United States Senate, gained his start towards fame and congressional honors through his defense of a man in his town of Henderson, Ky., when he was a struggling young lawyer never dreaming at that time of national fame.

His client was charged with the heinous offense of carrying a concealed weapon, a pistol, and the evidence was all against him. Stanley, who is a silver tongued and gifted orator, got up to make the closing plea for his crestfallen client, and he made a plea that was vigorous and telling to a marked degree, asserting in ringing tones and with sweeping dramatic gestures that a man of the high and noble character and gentle, peaceful ways of the one he was defending would not stoop to the disreputable practice of "totting" upon his person a murderous and even barbarous weapon with which to go out upon the streets and slay his fellow man.

But in his peroration the Hon. Augustus Owsley became too strenuous; the coat tails of his black Prince Albert coat spread apart at one of his mighty gestures, and one of them settled over the butt of a six shooter in his hip pocket that to the bulging, astonished eyes of the Court, witnesses and spectators, looked to be a yard in length. Augustus Owsley didn't know it, of course, and proceeded to the end although somewhat mystified at the suppressed mirth that seemed to prevail in the courtroom. No young lover caught stealing his first kiss was ever more abashed than the future Congressman and nemesis of the great steel trust when he was immediately called to the bar, lectured by the Judge in sternest language and fined \$25 for "totin" a gun in the peaceful-state of "Ole Kaintuck". The funniest part of it, however, was that the jury moved by his eloquent appeal, acquitted his client and, Stanley's fee in the case being just the amount of his fine, it promptly went to the clerk of the court. The joke on Augustus Owsley spread throughout the country, and brought him from obscurity to such prominence that his people later sent him to Congress.

In a curious fact that the Washington lemon market is in a precarious state, and some fear that a veritable lemon famine is imminent if things go on as they are. Not the kind of "lemon" that is "handed" to so many in the slang sense, but the real thing in the lemon line, for the price of this well known acid fruit of the rutaceous tree has gone 'soaring' in the grocery and fruit stores of the capital owing to the sudden and unprecedented demand for it in high official and social circles.

Most of the supply Washington gets is now being gobbled up by the fat men and women of the smart set, for nearly all of them appear to be taking the new "lemon cure" for obesity that has recently struck the town. Every other society woman one meets and man too, if he has an attentive wife—who weighs more than a sylph-like figure calls for religiously jogging along the road to slenderness with the acid juice of the lemon as conductor.

This is the prescription officials and statesmen of high and low degrees, their wives and sons and daughters are taking. Imbibe the juice of a lemon clear and straight before breakfast every morning. The first day the consumer should take the clear juice of two other lemons at two other times. Next day the juice of three, and so on, each day increasing the dose by one lemon until twelve is reached. For three days swallow the juice of the twelve, then start back, dropping off one each day until the original acid dose is reached. Then, wait three days and begin all over again. It is claimed by a number who are taking the "cure" that the bitterness of the doses is more than offset by the happy results they have obtained. One short, fat congressional woman reduced herself from a vulgar 187 pounds avoirdupois to 167 pounds in two weeks, and is now an ardent and graceful worshiper at the shrine of this particular species of the citrus tree!

INDIGESTION

A Disorder that Breeds Disease in the Body, and an Easy Way to Cure it.

Take care of the stomach and you will have little need for the doctor.

When the stomach begins to show signs of disorder; when the food digests slowly and with discomfort; when you have heartburn; feel bloated and uneasy; you are in a condition that needs attention.

Prickly Ash Bitters corrects the disordered stomach by strengthening and toning up the digestive organs, driving the badly digested food into the bowels and thence out of the system.

Constipation is nearly always present when the stomach becomes sour or disordered. Prickly Ash Bitters contains the medicinal qualities which act as a restorative and regulator for the stomach and bowels. It strengthens the digestive organs, cures constipation and prevents the return of bilious conditions.

Thousands of people who have received lasting benefit from this great remedy willingly testify to its power in curing indigestion, constipation and kidney trouble.

"I suffered from constipation for years, and tried many remedies, but Prickly Ash Bitters is the only medicine that has ever done me any good. Through its use I am now in good health and entirely free from all traces of my former trouble."—B. P. STIGALL, Winnsboro, Louisiana

SPRINGLOVE.

RAMBLER

In the spring of the year the young man's fancy turns his thoughts to his best girl. As I looked out toward the east this bright sunny morning of March the 22 and saw spring coming over the hills with a rose in her hair, and a smile on her face that would melt a polar iceberg and this reminded me that if I have anything to say to the tender hearted boys and girls of Fairview and Riverside I had better say it now, better take the young lads and lasses by the hand, in a fatherly way and give them some advice before it was too late. For spring with all her far famed loveliness and beauty is a dangerous proposition. She is queen of all the sirens and the morning of broken hearts. Her smile is a snare and a delusion and danger lurks in her song. When the fatal wires of spring gets to galloping around in a young fellows blood. You had better look out. For there is something coming pretty soon, 10 times out of nine this thing they called love will settle around the fellows heart and cause him to act worse than a love sick gander at a poultry show.

Especially if there happens to be a pretty girl somewhere in sight. I have searched all the receipt books for a formula for this cure and I will give you the shure cure. Take two parts gentle spring, one part gosling boy and one part pretty girl, mix and set out in the moon light. That's all, it will make one fool certain, and often makes two. But I would not advise any young man around Fairview to try this experiment for it is dangerous and love-sickness is a terrible disease. I have been there and I know there are but only three cures, Time, Death and Matrimony. Take your choice. If you can't get your choice take some one else's. For one thing is as good as another and a blamed sight better some times, for you know love is somewhat like the Itch more folks have it than they are willing to own up to it. But if you never have swallowed the love germ, and felt it toe nails digging holes in your heart, you'd better not want it, and this time of the year you must be careful and if you don't want to get this awful disease called love you had better shut your eyes, stop your ears and hold your heart with both hands. But who cares I can hear the old folks above asleep and snoring and the watch done gone a visitng, a warm fire warm room with only one chair alongside of a pretty girl in the community "who cares".

The above effusion was handed in by a man past meridian in life's journey. When the old men talk and write of Love, birds, streams and flowers it is a sure sign of spring.

GIRLS! STOP WASHING THE HAIR WITH SOAP

Soap Dries Your Scalp, Causing Dandruff, Then Hair Falls Out—Try This Next Time.

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes to the roots, invigorating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

POSTED.

The Section of Land known as the Misses Dry land 4 miles southwest of town is posted by law and all trespassers will be prosecuted.

THE STATE OF TEXAS, County of Mitchell.

Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Mitchell County, of the 12th day of March 1914, by Earl Jackson, Clerk of said Court for the sum of One Hundred Sixty Four and no -100 Dollars and

costs of suit, under a judgment in favor of J. H. Huston in a certain cause in said Court, No. 2244 and styled J. H. Huston vs. J. L. Dunlop and W. T. White, placed in my hands for service I G. B. Coughran, as Sheriff of Mitchell County, Texas, did on the 19th day of March 1914, levy on certain Real Estate, situated in Mitchell Co. Texas, described as follows, to-wit: All of Block No. Fourteen (14) in the Resident Addition to the town of Loraine, Mitchell County, Texas, as surveyed by the Texas and Pacific Railway Company and levied upon as the property of J. L. Dunlop and W. T. White and that on the first Tuesday in May 1914, the same being the 5th day of said month at the Court House door of Mitchell County, in the City of Colorado, Texas, between the hours of 10 a. m. and 4 p. m. by virtue of said levy and said order of Sale I will sell said above described Real Estate at public vendue, for cash to the highest bidder, as the property of said J. L. Dunlop and W. T. White

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Colorado Record, a newspaper published in Mitchell County.

Witness my hand this 19th day of March 1914.

G. B. COUGHRAN, Sheriff Mitchell County, Texas.

By Preston Scott, Deputy. 4-10-c

Ben Morgan The Confectioner.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. F. J. CHERRY, & CO., Toledo, Ohio. Sold by Druggists, etc. Take Hall's Family Pills for constipation.
