BILL ECHOLS GIVEN LIFE SENTENCE.

TRIED LAST WEEK IN SWEETWATER. MANY WITNESSES AND INTERESTED PARTIES PRESENT.

KILLING WAS IN NINETEEN HUNDRED AND TWELVE

Best Legal Talent on Both Sides. Every Inch of Ground Contested.

Sweetwater, Tex., Apr. 27.—The case of the State of Texas vs. Bill Echols, charged with the murder of Clayton Black at Coahoma two years ago was taken up in District Court here Monday 150 veniremen had been summoned from which to select the jury. The jury box was filled Monday afternoon and the taking of evidence began Tuesday lasting throughout Tuesday and Wednesday. Thursday was devoted to the arguments of the attorneys.

The defense was represented by five able attorneys while the prosecution was represented by a like number. Those for the defense were: Morrison & Morrison, of Big Springs; Shepherd & Sandusky of Colorado; Wood at Christian & Woodruff of Sweetwater. For the prosecution were: District Attorney W. P. Leslie, Jas. Brooks of Big Springs, Dallas; Schlarbrough of Abilene; Beall, Smith & Spencer of this city.

A large number of witnesses from Coahoma and other points were in attendance, many of whom were not called upon to testify.

The case was represented on both sides by the best of legal talent that could be secured and every legal point was warily contested.

To avoid any possible danger of demonstration officers were stationed at the entrance of the court room and a search of each person entering.

The arguments were made for the state by Jas. Brooks, G. W. Smith, J. H. Beall and Dallas S. Schlarbrough. For the defense L. W. Sandusky, S. H. Morrison, C. P. Woodruff, Judge Jas. L. Shepherd was suffering with an acute attack of indigestion and was unable to partake in the arguments. Judge Leslie, District Attorney, who had been ill for several days was unable to appear for the prosecution in the arguments to the jury.

The jurors chosen to hear the case are: W. C. Rorer, W. J. Cox, L. D. Faver, Jasper McCoy, Horace Cook, G. H. Hamilton, W. A. Clark, W. O. Hobbs, W. T. Condit, J. H. McLaughlin, J. A. Hamel, C. A. Jones.

where one case was dismissed; another case was tried and resulted in an acquittal, another was tried resulting in a hung jury, and the one which resulted in hung jury, and the one which was not tried at Eastland, were changed to Taylor County, at which place in March 1911, Black received a five year sentence for shooting Bill Echols, and Shandra Johnson got a ninety-day jail sentence, which cases later, however, were reversed on appeal to the higher court, and later such case was transferred from Abilene to Sweetwater, and finally resulted in an acquittal. In the meantime the other case which came to Abilene from Eastland had been sent to Sweetwater, tried and acquittal had shortly after the cases had been disposed of Bill Echols is alleged to have shot Clayton Black dead in the streets of Coahoma, in Howard County.

The Echols case was at one time transferred to Colorado, was tried here before Judge Shepherd which resulted in a hung jury.

MANY GLAD TO QUIT CALOMEL.

Thousands Avoid Taking the Drug And Use Dodson's Liver Tone in Its Place to Their Comfort and Delight.

Dodson's Liver Tone is a harmless, reliable vegetable-liquid. It is made to take the place of dangerous calomel.

Calomel in large doses is a poison. It is a mineral, a form of mercury. What it does unpleasantly and very often with decided danger in cases of constipation and sluggish liver, Dodson's Liver Tone does for you safely and pleasantly with no pain and no gripe. Dodson's does not interfere in any way with your regular business, habits or diet.

Dodson's Liver Tone is backed up by a guarantee of satisfaction or your money back. It is Floyd Beall the druggist, will tell you.

Of course so successful and so reliable a remedy has its imitators, but these stores have Dodson's and will not deceive you.

Dodson never makes extravagant statements. Dodson's Liver Tone has been made from the first to take the place of calomel. It gives the liver, overcomes constipation agreeably and makes you feel good and if you are not satisfied completely with it Floyd Beall will hand back the purchase price (50c) to you cheerfully, instantly and without question.

"THE PANAMA CANAL."

The Panama Canal will become the greatest development agency in the history of the world.

The magic touch of its influence will quicken the farm, mine and factory life of Texas and the inland empire that lies beyond our borders by bringing the Pacific markets within our trade zone.

It will arouse the Orient from its slumber; awaken the Southern Hemisphere to industrial achievement and will flash rays of light over the dark continent, and Texas is strategically located to receive first benefits of the large opportunities which the canal produces.

BIG RAINS OVER ENTIRE COUNTRY

Reports Show That Rainfall was Great at Almost All Points. 2.55 Inches Fell Here.

Colorado joy is full orb'd. A total of 2.55 inches of precipitation has fallen since Saturday evening. The two rains of Sunday night and Monday morning totaled 2.55 inches up to 8:00 o'clock.

Hambly reports a total of 4.80 inches for the two rains. Buffalo Gap reports 2.50 inches. Rain fell throughout the country, as was contained in messages received here. The rain seems to have been heavier in the northern part of the county than in the southern part. The rain was very heavy near Lorraine and Hornleigh. The Texas & Pacific Railway reports rain on its entire line from Big Spring east.

Telephone reports show that the rain was heavy over this entire section. Many streams are reported out of their banks.

Passengers on incoming trains report that the rains were heavy as far as the Brazos River. Associated Press reports indicate that the rains were general over Central, Northern and Panhandle of Texas. Oklahoma is reported to have secured some very heavy rains.

Farmers in the city Monday declared that the rain came in the nick of time to do much good to wheat and oats, and that there is yet a good chance for this country to produce as much as a half to two-thirds of a crop of these small grains.

Heavy Rain At Sweetwater. Passengers arriving on the 10:40 Texas and Pacific train from Sweetwater, report that the rain at Sweetwater during the early part of the night was very heavy. One of the passengers stated that Sweetwater citizens told him that Bitter Creek, which is near Sweetwater was the highest it had been in 20 years, and was still rising.

One of the passengers came from the foot of the South Plains, near Post City. He claims that the rain of Saturday night was intensely heavy throughout that section and that

ARMY APPROPRIATION BILL PASSES; BIGGEST AVIATION SCHOOL FOR SAN ANTONIO

San Antonio, Texas, Apr.—One of the army officers stationed at Fort Sam Houston Army Post, which is located just outside this city, said that word has been received at the Post from Washington, D. C. advising the officials of the passing of the Army Appropriation Bill in yesterday's session of the Senate. Included in this Bill is an appropriation of \$48,000 which is to be used in the establishing of an army aviation school at this place. Large buildings will be erected for this purpose and an additional \$250,000 spent principally for the purchasing of machines and equipment. This will be the largest army aviation school in the country and will be known as the "First Army Center." Work will commence on the buildings to be occupied by the school during July and will be rushed to an early completion.

Four Inches at Childress.

Childress, April 27.—Four inches of rain has filled all lakes and put all streams bankful.

Dallas, April 27.—With rivers and creeks in North Texas bank full and torrential rains continuing fear is felt today that the spring freshet will reach proportions of the last December flood, which cost 200 lives and several million dollars property damage.

The rains were more widespread than in December extending from Dallas and Waco east to San Angelo, Stamford and Childress in the west. At Waco this morning the police and firemen had to rescue people from low quarters of the city. The Brazos river has risen six feet in the last 12 hours.

Dallas had a heavy rain which put the Trinity river at the thirty-foot stage with predictions for thirty-eight feet, which was the highest in December. Low quarters of the city are flooded.

Waxahachie had five feet of water in some of its streets. Peacock, a small settlement west of Stamford, was blown away last night, but no lives were lost.

THE STATE AUTO ASSOCIATION.

The Texas State Auto Association met in annual convention one day last week at Dallas.

There was no very large representation present from any portion of the state. Judge C. H. Earnest represented Colorado and Mitchell County club as a delegate.

The work of the convention was all transacted in one day, but was important in many respects. Among many things outlined and provided for is a State wide guidebook similar to those gotten out by Montana, Colorado, and some other states, embracing logs of all the important roads and highways in the State, together with a comprehensive map of the State. This map now in preparation shows the West Texas Airline Highway passing thru Mitchell County as well as our road leading North west from Colorado via Cuthbert, Vincoet, etc.

Jno. A. Wilson, President A. A. A. was present and delivered a stirring speech to the convention. He is a cousin of President Woodrow Wilson, an enthusiastic good roads man, giving his time and means without reward other than the pleasure afforded.

West Texas, that is to say this portion of West Texas, along and near the Texas & Pacific, was treated nicely in the election of officers. Abilene secured the Vice Presidency and one director. Stamford, one director. Sweetwater, one director. Colorado, was complimented by electing Judge Earnest to the directorate—out of a total of twelve directors in the State. President F. E. Keith of Dallas was re-elected, but the Secretaryship this time went to Fort Worth, a Mr. Edwards.

The entertainment at Dallas of visiting delegates was the work of Dallas Club and right royally was it done. Sweetwater one director. Colorado, under special obligation for courtesy and for the benefit of members of Mitchell County Club, it may be said that the President, from his chair took occasion to throw some small bouquets in our direction on account as he said of the good work of the club in enrolling a large membership, and in the interest manifested in the work of the Association.

Rheumatism Quickly Cured.

"My sister's husband had an attack of rheumatism in his arm," writes a well known resident of Newton, Iowa. "I gave him a bottle of Chamberlain's Liniment which he applied to his arm and on the next morning the rheumatism was gone." For chronic muscular rheumatism you will find nothing better than Chamberlain's Liniment. Sold by W. L. DOSS.

CITRUS FRUITS EXPECTED TO YIELD HEAVILY.

Riviera. According to growers of citrus fruits in this section this year's crop will be unusually large and the production will be the largest here in several years. The navel orange crop gives promise of large production, as do other varieties.

WHEAT CROP IN NORTHEAST PANHANDLE EXPECTED TO BE LARGEST.

Canadian, Texas, Apr.—The recent rains in this section of the state have been abundant and according to reports received here the wheat crops in the counties of Hemphill, Ochiltree, Lipscomb, Roberts, Gray and Wheeler are expected to be the largest ever harvested in this part of Texas. The rains have so advanced the growth of this product that a full crop is practically assured and a number of large wheat farmers think with a little more rain a record crop will be gathered. Other crops have also benefited from these precipitations.

Most Prompt and Effective Cure for Bad Colds.

When you have a bad cold you want a remedy that will not only give relief, but after a prompt and permanent cure, a remedy that is pleasant to take, a remedy that contains nothing injurious. Chamberlain's Cough Remedy meets all these requirements. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and restores the system to a healthy condition. This remedy has a world wide sale and use, and can always be depended upon. Sold by W. L. DOSS.

MAKES BACKACHE QUICKLY DISAPPEAR

A Few Doses Relieves All Such Miseries. Bladder Weakness, Kidney Trouble and Rheumatism Promptly Vanish

It is no longer necessary for any one to suffer with backache, kidney trouble, have disagreeable bladder and urinary disorders to contend with, or be tortured with rheumatism, stiff joints, and its heart-wrenching pains, for the new discovery, Croxone, quickly and surely relieves all such troubles.

Croxone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such troubles. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. It acts on the principle of cleaning out the poisons and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves, and makes the kidneys sift out and filter away, all the uric acid and poisons from the blood, and leaves the kidneys and urinary organs clean, strong, healthy and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Croxone is such, that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

If you suffer with pains in your back and sides, or have any signs of kidney, bladder troubles, or rheumatism, such as puffy swellings under the eyes or in the feet and ankles, if you are nervous, tired, and run down, or bothered with urinary disorders, Croxone will quickly relieve you of your misery. You can secure an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

TEXAS SEED USED IN RAISING ARIZONA'S FIRST LONG STAPLE

Clarksville, Texas, Apr.—Samples of long staple cotton grown from seed produced in Red River County, Texas have been received here from the Cotton Growers of Salt River Valley near Mesa, Arizona.

This is the first production of long staple cotton in commercial quantities in Arizona and 1200 bales were raised this year. The fibre closely resembles that of the Texas staple, but the grade is somewhat lower. Most of the Arizona crop was sold to English spinners and averages around 22 cents per pound.

MAY.

Wake me early, mother darling,
For I must go to war;
I want to be in Mexico
Where Wood and Funston are.
I want to see those famous men
Make little of their lives,
And I want to be there, mother dear,
When Roosevelt arrives.

I want to feel the land tip up
When he shall bound ashore,
And watch the vey mountains shake
When he begins to roar.
I want to see his men ride by
With banners at their head,
And hear the Mexicans exclaim,
"Here comes that fellow Ted."

May gets its name from the Latin
majores (the elders), just as we have
June from the Latin juniores (the
Younger). The Roman people were
divided into these two classifications
by Romulus, the one being appointed
to maintain the republic by their coun-
sels and the other by their arms. The
elders decided when the flag had been
insulted, and the juniors did the fight-
ing. This system was in some re-
spects similar to our own. When the
Gauls refused to salute after arrest-
ing one of his boat crews, Caesar took
the matter into his own hands.

land and sea. He began by seizing
the custom houses, which was custo-
mary in war then as it is now. The
situation in Gaul at that time was
about what the situation was in Mex-
ico when we began our war with Huer-
ta. There were three armies in the
field—the Aquilans, who carried
the eagle on their standards; the Bel-
gians, who were comparable to the
Constitutionalists, and the Helvetians,
who resembled the Zapatistas, Caesar,
who was a brilliant military strate-
gist like Gen. Leonard Wood, alternated
between playing both ends
against the middle and the middle and
one end against the other end until he
had the Gauls too exhausted to fight
the Romans at all. It was thus he di-
vided the country into three parts.

Like shells from Funston's trusty
guns,
The buds will open with a boom,
And showers tempered by the sun
Will fill the orchards with perfume.
The army worm will dance around,
And hurl defiance at the wheat.
The flicker's drumming will resound,
Across the meadowland and sweet,
The warlike muley cow will take
A polka at the milking pail.
And the playful billygoat will make
The calf salute him with his tail.

There is no other spirit quite so
catching as the thrill of war. It

makes us all desire to fight, no mat-
ter who or what we are. The quaint
peace advocate is wild to shoot some
body in the back, the married man
subdued and mild, becomes a raging
maniac, the parson rushes from his
pulpit and wants to scatter ball and
shell, the quiet man along the block
begins to fulminate and yell, the vet-
eran who testifies that war is hell be-
gins to dance, the women, who have
tender eyes, appeal for haversacks
and pants, the meek and lowly of the
earth intimidate the bold and brave,
and all that any man is worth is food
and filling for a grave.

To prate of peace is very well, and
peace we think a goodly thing; but
let the country ring the bell, and all
of us are in the ring. We did not get
this country here by methods favored
at The Hague, nor did our liberty ap-
pear on an invitation vague. We
fought for all we have today, and each
man of us was a bear; our liberty of
blessed sway—we dragged her hither
by the hair. We like A. Carnegie, all
right, and think his motives good
enough, but let somebody start a fight
and off with that amusing guff. A na-
tion lives and holds its own by knock-
ing other countries out and once its
character is known they all take care
what they're about. We licked a few
of them to show them sundry samples
of our grit, and now we're tanning
Mexico, they'll find we haven't chang-
ed a bit.

At any rate, the garden plot
Will shell the liver with its sass,
And all our ills shall be forgot
In brussels sprouts and sassafras.
The cautious navy bean will hold
The inner channels free from germs
The watchful will guard the
And bring the appetite to terms;
The green cucumber will essay
To take the palate with a rush,
And on a glad coming day
The water will remove the mush.

So far as known only one of the
President's daughters will be married
in May, but there will be a few wed-
dings outside of the White House in
quarters where affairs of state are not
interfering with the course of true
love. Dictator Huerta, who was cow-
ardly enough to pick war with us at
a time when Col. Roosevelt was down
in the Brazilian jungle and couldn't
get at him, will have another bad
month, probably his last. The Pan-
ama tola dispute, which was put aside
for a few days while the senate could
talk about something that more peo-
ple agreed upon, will be revived about
the ninth, when the moon will be full
and there will be a little light on al-
most everything. The first 20 days of
May will be under the influence of
Taurus the Bull, the second sign of
the zodiac. People born under this
sign believe in taking the bull by the
horns, and would have intervened in
Mexico a long time ago. After the
twentieth the month will be under
the influence of Gemini the Twins,
the third sign of the zodiac. People
born under this sign are a little timid,
and would rather have Villa fight with
us if he could see his way clear to

making any use of our army and navy
There will be no astronomical phenom-
ena during the month, all hope of
getting rid of Huerta in that way hav-
ing been abandoned.

Then June's blue skies will stretch
above.
The which we'll welcome gladly,
And men and maids will swear to love
Each other long and madly.

THE GREATEST KIDNEY REMEDY ON EARTH," SAYS A GRATEFUL WOMAN.

I want to tell you how much good
your Swamp-Root did me. About four
years ago, I suffered from what the
doctors called fistula and for two
years of that time I endured what no
tongue can tell. I also had inflam-
mation of the bladder and I tried doc-
tors medicines without receiving any
help. Someone told me about Dr.
Kilmer's Swamp-Root.

After giving it a thorough trial, I
received relief, so kept on using it and
today I am a strong and well wom-
an. If I ever feel badly or out of
sorts, I take Swamp-Root and it al-
ways straightens me out. I honest-
ly believe that this medicine would
cure all troubles you recommend it
for and it is a pleasure for me to send
my testimony and photograph to you.
I think Dr. Kilmer's Swamp-Root is
one of the greatest medicines on
earth.

Respectfully yours,

CUTHBERT CULLINGS.

All Cuthbert and surrounding com-
munity is rejoicing over the fine rain
which fell Sunday night and Monday
morning.
The Cuthbert school closed Friday.
Everybody went to the river Saturday
for a picnic. After dinner the school
boys came back and played a 4 inning
baseball game with the Red Bluff's
boys. Cuthbert winning 5 to 3. The
batteries for Cuthbert were Raymond
Womack, Burl Ray, and Frank Wo-
mack. Red Bluff's was Travis Harri-
son, Jim Hester and Jim Riley.

Immediately after a full game was
played between the first nine of Cuth-
bert and Fairview, the latter winning
14 to 7. Batteries: Cuthbert, Reid
and Grisset; Fairview, Williams and
Hicks.
Mr. and Mrs. Chas. McCoy's baby

WILSON ORDERS FEDERAL TROOPS TO COLORADO TO END STRIKE WAR

Militia Numbering 650 Today Facing Strikers Army of 2,000. Several Persons Were Killed Monday. Trinidad Citizens Organize Militia Co.

DENVER, Colo., April 28.—Condi-
tions in the Colorado coal fields are
more serious than at any time since
the strike began. Violence spread
from the southern field to the north-
ern. In the southern zone several
lives have probably been lost in the
fighting at Walsenberg, while hos-
tilities in the north inaugurated by sim-
ultaneous attacks on Louisville, La-
Fayette and Marshall mines have oc-
curred with unknown casualty list.
Fighting has been continued in the
Walsen and Marshall mines through-
out the night.

The militia arrived at Walsen yes-
terday. Troops were driven from the
McNally mine by strikers after two
men were killed, and two persons
were wounded, including a woman.
Strikers fired the mine buildings and
took possession of the property.

The main body of the strikers is
at Ludlow, near Forbes Camp. A wom-
en's committee today asked Govern-
or Ammons to authorize the commit-
tee to search the ruins of the Ludlow
strikers' tent colony, claiming that
hundreds of children are missing and
more bodies likely to be found. The
governor refused the request yester-
day. Strike leaders say that the sit-
uation is beyond their control. They
declared that mine guards started the
trouble to evade the surrender of their
guns, which was promised last Decem-
ber.

District Attorney Carlson of Boul-
der said the lawlessness was a pre-
arranged plot of the strike leaders,
who should be held responsible.
Seven Guards Killed.
WALSBERG, Colo., April 28.—
Sheriff Farr reported early this morn-
ing that firing continued at the Wal-
sen mine, and that seven men were
killed during the night. He said that
all reported dead were mine guards.
Troops arrived today to guard the
mines. They number 95 while the
strikers number more than 300.

Federal Troops Ordered Out.
WASHINGTON, April 28.—President
Wilson today decided to order the
Federal troops to Colorado to restore
order in the coal strike district where
virtually civil war exists. The deci-
sion was reached after a two-hour
cabinet session, which discussed the
strike situation. A proclamation will
be issued later ordering the Federal
soldiers to the scene of the indus-
trial conflict. The President and
Secretary of War Garrison will con-
fer at two o'clock this afternoon to de-
cide the number of troops to be de-
patched.

Chairman Foster of the House Mines
committee reported to the President
today that his conference with John
D. Rockefeller, Jr., yesterday regard-
ing the conference over the Colorado
strike situation had failed to relieve
matters.

Organize Company.
BOULDER, Colo., April 28.—Busi-
ness men today organized volunteer
companies, and will move against the
strikers unless the county peace com-
mission ends the disorder. The strikers
attacked Heala mine near Louis-
ville last night. Two guards were
wounded.

Civil War Now On.
TRINIDAD, April 28.—Six Hundred
and fifty militiamen today faced the
strikers army of 2,000. Serious trou-
ble is feared.

A MOTHER'S WORD.
Having read in the newspapers that
the University of Chicago has told
its Senior boys that if they will en-
list in the army, they will be given
their diplomas, and having heard that
the University of Texas is doing the
same thing, I feel impelled to give a
few words of warning to some moth-
er's son who is about to enlist, car-
ried away with enthusiasm and the
glory of war. War is not all glory.
There is another side to it. The
fought battles, bloodshed, long march-
es, hunger, fierce thirst, other hard-
ships, and perhaps death make it well
deserve its name—Grim visag'd war!

I had a brother, who, when the
Spanish American war opened, car-
ried away with the enthusiasm of it
all, enlisted, as these eager boys are
doing today. His regiment was camp-
ed in Georgia, I think, and was never
sent to the front, but he saw enough.
In a few months he began to think
lovingly of home and mother, and
wrote begging his father to get him
out of the army. The hard work at-
tached to it—menial work that he had
always seen negroes do, and the atti-
tude of the army officers towards
the privates, treating them as infer-
iors, and speaking no kind word to
them, was not the glory of war he had
anticipated.

"All is not glory that glitters," and
the glitter wore off rather quickly,
and he was enabled to see the tinsel
beneath it.
We mothers love our country, and
should it be invaded, or should the
necessity arise for a large army, we
would gird our sons' swords, and
bravely speak the cheering word,
even though our hearts were rent
asunder.

"The mother who conceals her grief
while to her breast her son she pres-
ses, then breathes a few brave words
and brief, kissing the patriot brow
she blesses, with no one but her se-
cret God to know the pain that
weighs upon her, sheds holy blood as
e'er the sod received on Freedom's
field of honor!"
But until such necessity shall arise,
let the standing army, which consists
of trained men whose business it is
to fight, be put to the front, and bear
the brunt of this war. Then if more
men are needed, let the University
Professors and others who are urging
and encouraging the young boys to
join, enlist. Before the boy does en-
list, we should be certain that he real-
izes the horror, as well as the glory
of war.

COLORADO, TEXAS, MAY 1, 1914.

The Record devotes considerable space this week to the Tom Ball opening campaign speech at Greenville. This is one of the most logical and forceful declarations we have read in a long while, clear and concise and to the point. Since Mr. Ball made this great speech, the business antis of the state led by Clarence Ousley have all declared for Ball and it looks now like his nomination in July will be made unanimous.

The Dallas Democrat Says: Old Huerta realized that Villa would soon get his goat, and he purposely provoked the United States to intervene.

Hon. Cullen F. Thomas is to take the stump for Ball. Mr. Thomas is a power in debate, and woe to the unfortunate member of the clan Ferguson who shall rashly rush upon the thick bosom of his buckler.

The old reliable American Eagle is acting as temporary substitute for Bryan's dove of Peace! Hear him screaming.

The Hon. Clarence Ousley knows a good Ball Game when he sees one! He's lined up as a pinch hitter for his old friend Tom. Line 'er out, Clarence!

War news overshadows everything. People are excited and all other issues and matters have been relegated to the background and baseball is a secondary consideration. When an American loses interest in politics or baseball then his blood is at fever heat. Do you know that April is the war month of this republic? A writer for a northern newspaper declares that the Pates have passed March, the month of the war god, and have written America's martial movements in the pages of temperamental April. This same writer points out that the present controversy with Mexico has brought a queer historical coincidence. Sixteen years ago on April 21, 1898, war was declared against Spain. The revolutionary war began April 19. The last Mexican war on April 24, and the civil war on April 14.

Why don't Gov. Colquitt consult a specialist in Hysteria? If his fits continue to grow in severity it is only a question of time before he will tear his shirt. The sight of a tamala vender makes him foam at the mouth now it is said.

COLORADO CREAMERY.

Entertains Distinguished Visitors.

The Creamery entertains Hesperian Club because of their interest in pure food and sanitary means of handling and preparing it. The members of the Hesperian Club were invited to the McSpadden Creamery Wednesday from four until six o'clock to witness the making of ice cream from measuring the milk and cream to the freezing and packing of the finished article. A number of ladies availed themselves of the opportunity and spent a thoroughly enjoyable and instructive time. The proprietor, Mr. Flem McSpadden was assisted by his mother in doing the honors. The room given over to this part of the ice plant's work was found beautifully clean, the concrete floor being scrubbed several times during the demonstration by having the hose turned on, a slight incline carrying the water to a pipe connecting with the sewer. All vessels used were washed in a big tank which has both hot and cold water and are scalded repeatedly. The measuring of the milk, and sure enough pure cream, the weighing of the sugar and ice cream powder, the measuring of the flavoring and the mixing of all the ingredients by Mr. McSpadden who was immaculate in white duck suit, made ice cream which is always a dainty, seem just a little daintier than ever before, and caused the ladies to feel that they could always be sure of good cream as its making is not guess work but an exact measurement for every gallon.

They were shown the process with sherberts, the preparation and packing of the bricks of pink and white cream, and finally were served the frozen cream while in its mushy state before being packed and allowed to ripen then the thoroughly frozen product to which they are accustomed and it was hard to decide which was the best.

The Club is glad of this opportunity to visit such an up-to-date sanitary plant, and are glad that pure food is being produced in their own country. They are under many obligations to Mr. McSpadden for his courtesy, he having furnished lovely pink and white brick cream to them last week complimentary, and then invited them to the plant. The pure food committee takes courage and feels that advancement is being made. The Club will urge everybody to eat home ice cream this summer, and be sure of having the best.

Don't miss the three ball games next week, 4, 5 and 6 between Baird and Colorado.

THE GLORIOUS RAIN.

No water shortage this year. The river is full, the creeks and lakes are full the cisterns are full and some men would be full if they could get to Angelo. Glorious is the only word that expresses it, and Central West Texas with all of West Texas is in clover. It could not have come at a better time unless it had come a few days earlier. Wheat will get down to business in earnest, maize and sorghum will grow almost a foot a day, and cotton will not be far behind. Watch the country come back and come back right. The country is in better condition and crop prospect brighter than any time in the past six years.

The Hard Hitters from Baird will be here Monday, Tuesday and Wednesday of next week. Come out and see the Short Horns clean 'em.

OPENS UP THE CAMPAIGN

Hon. Tom Ball Fires the Opening Gun for Governor.

HE IS AGAINST NATION-WIDE PROHIBITION

Also Opposes Statutory Prohibition, But Is For Submission of Prohibition Amendment.

Greenville, Texas, April 21.—Hon. Thomas H. Ball of Houston opened his campaign for governor here today in an address which was heard by a large assembly of people who were liberal in their manifestations of approval. Judge Ball spoke in part as follows:

Fellow Citizens, Ladies and Gentlemen:

In response to the cordial invitation of Greenville and Hunt county I am here today to begin my campaign for the democratic nomination for governor of Texas.

I deemed it appropriate to select the natal day of the independence of Texas to open my campaign for the highest office in the gift of the people, in obedience to what I believed to be a substantial demand for my return to the public service.

Here are some of the great public questions which call for solution: An education must be placed within the reach of every child in Texas and our educational institutions properly equipped and provided for.

Our eleemosynary institutions must be made safer, more habitable and present buildings enlarged or new ones builded to meet all proper demands upon them.

Our predominant agricultural interests must be conserved, fostered and encouraged in every legitimate way.

The land problem must be solved so as to make it possible for every honest and industrious citizen to own his home.

Penal institutions should be made self-sustaining, while carrying out the dual object of punishing crime and reforming criminals.

Our codes of civil and criminal procedure should be simplified and reformed, that justice may be expeditiously had without technical obstruction, unnecessary expense or unreasonable delay.

Capital desiring honest investment, and with the purpose to obey the law, should be assured of a hearty welcome and ample protection.

Labor should be guaranteed recognition of its just demands, whether by needed legislation or opportunity by individual or co-operative effort to secure fair wages for honest toil, and protection to life and limb, as far as possible, in the hazardous occupations in which many are engaged.

Our state must be put on a cash pay as you go basis and its affairs administered in a businesslike way keeping taxes as low as consistent with the needs of the State and the people given a dollar's worth for every dollar of taxes paid.

Our election laws must be amended to prevent the corruption of the ballot or the casting of a ballot by any voter not able to name the candidate to be voted for and the office to be filled.

And without neglect or sacrifice of any of these great questions, the liquor interests must be put out of politics and the liquor traffic driven from every section of Texas.

It is idle to talk about the people of Texas dropping the liquor question and agreeing that prohibition must not be discussed and not even regulatory measures proposed, when every man and woman in Texas has pronounced views upon the subject. Mr. Ferguson, a life long anti and opposed to both local option in Bell county and statewide, prohibition in Texas, declares against any agitation of the question, making the very first plank in his published speech.

Submission and Prohibition.

I am for submission and for constitutional statewide prohibition, and until we can wipe out the liquor traffic in Texas by constitutional amendment I favor minimizing its evils by all proper measures which will better regulate the business and keep those engaged in the traffic from corrupting or controlling the politics of this state or of any county in it.

We are going to have submission on our ballots in the July primaries and I shall do my utmost to help carry it.

If the amendment be submitted, pending its fate I shall take up other public business including amendments to our election laws that will help us to get a fair election, honestly conducted and returned, and prevent the liquor interests from using money as they did in 1911 to override the will of the people.

Opposed to Statutory Prohibition.

I do not favor statutory prohibition. I shall not go into a legal argument about its constitutionality.

Does Not Favor National Prohibition.

I believe a democrat can advocate or oppose either local prohibition, state prohibition or national prohibition, and I do not believe it to be proper to make a democrat's position on the question a test of his democracy.

As for myself, I have never aligned myself with the national prohibition movement. I have no sympathy with the legalized liquor traffic in any state in this Union, but I believe it best to treat the state as the social unit and by state prohibition, adopted by state authority, drive out from their borders the business of selling liquor.

Having the views, I cannot join with the large army of ardent prohibitionists a campaign for national prohibition.

I am a firm believer in the state's rights, but I do not assent to the views of many of my friends who believe that advocacy of national prohibition is equivalent to advocating the destruction of state's rights.

Democratic Party and Prohibition.

Within the ranks of the democratic party nearly 200 counties have been made dry under democratic laws, and the evils of the liquor traffic greatly lessened, and all because of the prohibition agitation. The charges that I am trying to commit the democratic party to either state or national prohibition is in face of my record.

In 1888, as a member of the platform committee at Fort Worth, I sat up until 3 o'clock at night fighting the heart of oak plank offered by Judge Clark declaring prohibition undemocratic, and voted for the substitute plank offered by a state-wide prohibitionist, Senator Sam Bell Maxey, declaring that "man's views on prohibition should not affect his party standing."

In 1908, at San Antonio, when the prohibitionists were in control of the state convention, I urged the plank declaring that "the democratic party was not thereby committed for or against state-wide prohibition," for which the prohibition majority in that convention unanimously voted.

After I am nominated in the July primaries and submission has carried I will be at the August convention of the democratic party, favoring the same plank which was adopted at San Antonio.

A Business Administration.

If elected governor I shall regard myself as a trustee for all the people of Texas and not for any class of the people, charged with the duty of giving an honest, economical and business-like administration of state affairs in all its branches.

I will have no friends to reward or enemies to punish at the expense of the people or to the detriment of the public service, and business, and not politics, will affect and control my course of conduct.

Favors compulsory school attendance.

Would keep A. & M. and State university separate and maintain both institutions in the interest of the people, properly equipping them for great efficiency.

Favors constitutional amendment providing for a board of directors of not less than five to manage the penitentiary system with terms expiring so as to keep two thirds experienced men on the board.

Favors a law reform commission of three or five lawyers to overhaul and simplify the laws of criminal procedure.

Favors salaried officers rather than fee system.

Opposed to repeal of the Robertson insurance law.

Believes in organized labor.

Favors initiative referendum and recall under proper restrictions.

Favors majority nominations and a constitutional amendment disfranchising for five years those convicted of violation of election laws.

Discussing the question of landlord and tenant, Mr. Ball said:

Legislative Program.

If submission carries in the July primaries, the legislature ought to be able within three days after it meets to pass a joint resolution and submit the prohibition amendment in July, 1915. If submission fails, no such election can be held, and whether it carries or fails, there need be no neglect of other great public questions.

These are some of the plans I have for the relief of the people of Texas, whose affairs are in a deplorable condition. Governor Colquitt, and those opposing me, blame the legislature, with its pro majority, for such conditions, although legislative efforts met the executive veto of many meritorious measures.

The next legislature will have a prohibition majority, and it will be in order to elect me governor; then if we do not care for all the material interests of the state, the prohibitionists of Texas will assume the responsibility and take all the blame.

As it is safer to judge a man by what he has done than by what he proposes to do when making a platform to run for office on, I will tell you something of my party record and my stand upon public questions.

My Democratic Record.

I have always been a progressive democrat. However, I have never been hampered with the idea that any exigency arising in the affairs of the people could not be met because the arm of democracy is too short to bring to our people the blessings and rights for which government was ordained among men in this country of ours, "dedicated to human liberty, based on human rights."

My conservatism has been sufficient to enable me to resist at all the business of selling liquor. (Concluded on 5th page)

ALBERT TAYLOR.

On Monday night May 4th Albert Taylor will be with us again.

The El Paso Herald Says: Albert Taylor, as necessary to hundreds of Texas households as a kitchen cabinet, is back in El Paso. While he has not been coming to El Paso with his excellent stock company as often as he has been visiting eastern Texas, the name of Albert Taylor is something sort of magical even here.

For the Crawford Theatre, for the first time this season, was packed full for his opening performance. Down in east Texas they have a saying that there are two things that are family institutions: two things that everybody talks about. One is the Democratic ticket and the other is Albert Taylor. When they have family troubles, household worries or financial difficulties, they go to see Albert Taylor when he is in town or plan a visit to him when he comes again, and they get over it.

There is something magnetic about this actor that draws a great personal following to him: While they talk about the plays Albert Taylor gives them, they talk mostly about Albert Taylor. Taylor always carries a good supporting company, however, and his presentations are so far above those of the average repertoire company that Albert Taylor is not classed by his followers as a repertoire actor; he is looked upon as an institution.

His performance of "My Father's Son" was an excellent one; his support capable his audience pleased.—El Paso Herald.

SEATS ON SALE NOW.

WHICH WILL IT BE?

Which will it be? The dogs of war are tugging their leashes, panting for a word to fly at Huerta's throat and get his everlasting goat. Our warships plow the briny deep, by night their searchlights swing and sweep 'em to the far horizon's rim, and anything with strength to swim would better swim the other way than meet those ships in dire array; our other ships along the shore but wait to loose the cannon's roar and send a crushing iron glow against the walls of Tampico. And when they knock against her walls their blows shall echo through the halls throughout all Montezuma land. Then let the peon wake and stand beside the door and with a grin invite Miss Freedom in. For freedom goes along with us, yes, we might say "Miss Freedom, plus." The sound of our each battle drum means "Here's Miss Freedom and then some." Freedom! Ah that means swift relief! Freedom to pay our price for beef, freedom to pay our price for booze, freedom to buy ten dollar shoes, freedom to work all day and bust a gallus to support a trust. Aside from that 'tis with delight we claim that we're about all right. South South with every man and boat. It looks like war, and us the goat. If Huerta don't salute our flag we'll civilize him and then brag.

HON. TOM BALL'S SPEECH

(Continued from 4th page.)

times any proposition which I deemed unsound in economics.

While a traveling man I became convinced that a railroad commission was necessary to fix rates and prevent rebates and discrimination.

In 1890, before the Confederate reunion in Madison County, I declared in favor of pensions for Confederate veterans in needy circumstances, and afterward advocated the measure for the relief of Confederate soldiers.

In 1896 I stood with the Bryan wing of the national democracy and fought for the principles of the Chicago platform.

In congress from 1896 to 1903 I was faithful to the interests of every section of this state, as a member of the rivers and harbors committee, and in all matters affecting the public welfare true to the great body of our people.

The congressional record shows that I introduced bills prohibiting trusts, denying them the use of interstate carriers and the United States mails, and putting their products upon the free list.

That I voted against the radical departure from our established policy in taking over the Philippine Islands at an enormous cost of blood and treasure.

That I made the first assault upon Chairman Hepburn and his interstate commerce commission because of its failure to bring in amendments to the commerce act to give the interstate commerce commission power to fix and maintain rates and prevent extortion, discrimination and rebates.

I was one of the authors of the constitutional amendment under which our state banking system was organized, and a strong advocate of the state bank currency law.

I declared for a national bureau of markets in connection with the department of agriculture; at the Rusk County Fair, before such a measure was ever proposed in congress.

In 1911 I turned aside from all personal and professional business for more than eight months to lead and win the statewide prohibition fight, the fruits of which were denied us and the will of the people of Texas upon a great public question thwarted.

Before the smoke of that conflict had cleared away I began, with the others, to fight to carry Texas for that great exponent of popular government, Woodrow Wilson, and the result in Texas made possible his nomination at Baltimore.

At Baltimore I was one of the delegates where the Texas delegation was the storm center of that great convention and, by its unswerving fidelity, a potent factor in giving us the victory and a national administration which has proven, and will prove, a benediction to the American people.

Methods of the Opposition.

I regret that at the very inception of the campaign an officer and an ex-officer of the Farmers Union in violation of what I believe to be the objects of both the associations which they represent, undertook to dictate to the farmers of Texas what their attitude should be in following their political convictions.

I have always been on friendly terms with Mr. Ferguson, and he employed my firm to represent him in a case of some importance in our section.

In his opening speech at Blum, Mr. Ferguson tied up the old anti organization and the liquor interests behind him by going further than Governor Colquitt, who did sign the 9:30 closing law and other regulatory measures, declaring that he, Ferguson would veto any liquor legislation put up to him by the legislature and "strike it where the chicken got the ax." With this declaration, and his record of always fighting local option in his county, or prohibition in the state he could head off a lineup of the liquor forces behind any candidate other than himself. From this coalition the business ants of the state not on the pay roll, and with no liquor to sell, fell away in large numbers and announced their purpose to support me.

Alarmed because this class of anti-

could not be delivered and with failure confronting him. Mr. Ferguson shifted his position and got behind a masked battery.

In his opening speech at Blum he declared his friendliness for the railroad corporations.

What a change has come over the spirit of his dreams.

The farmers began to balk when Mr. Ferguson had lined up the liquor interests; something had to be done, and from his home at Temple he gave to the press this statement.

"Mr. Ball wants the people to make him governor, because he has for the past fifteen years been in the employ of railroad and other large corporations, and is in favor of and seeks to commit the Texas democracy to national prohibition," and then made the worst appeal to class prejudice that has been given out in many days declaring "this is to be a fight of the classes against the masses; the strong against the weak; big business against little business and corporation against the people," and that I had millions behind me. What a change from his Blum speech.

Mr. Ferguson knows me and knows in his heart that all the corporations in Texas could not swerve me a hair's breadth from the pathway of my duty or influence me to be false to any trust imposed upon me by an individual, much less all the people of Texas.

He knows that no client of mine ever controlled my politics and that I have stood all my life for a square deal in private and public business. He pays high tribute to President Wilson and yet when he was doing his best to defeat President Wilson in this state I was standing out for Wilson and his policies against all the biggest clients I had.

He charged at Houston that I had spoken against Governor Hogg at the old Turner hall when he ought to have known that I was one of the floor managers for Governor Hogg at the regular convention held in the car barn, when Mr. Lane, who presided over Mr. Ferguson's meeting, was the chairman of the Turner Hall convention which put up the ticket against Governor Hogg and all the regular democratic nominees.

Whatever may be the course of Mr. Ferguson, or any opponent of mine in this campaign, I will not join in a campaign of passion or prejudice.

I stand for the brotherhood of man, and appeal not to the weak against the strong, but to the strong and weak alike; not to the people against the corporations, but to the corporations and the people not to the tenants farmers against landlords, but to tenants and landlords; not to wage earners against employers, but to wage earners and employers; not to the masses against the classes, but to

the classes and the masses; all as citizens of a common country and interested in the welfare and happiness of all who now live in Texas or desire to make their homes among us.

With "a square deal and not an inch more for every individual and interest in Texas" as our slogan, and "all for each and each for all" as the rule and guide of our faith and practice, we may hope for the uplift of humanity and the welfare and happiness of all our people without regard to condition in life, party, faith, or religious creed.

Readings from Poe and Lowell—Mrs. Stowe.

Discussion—The Greatest American Poem.

The guests were Mesdames Robert Brenand, J. D. Wu'fjen, Sam Wulfjen, Henry Doss, Miss Dera Wulfjen and Miss Cochran of San Angelo.

During the program the ladies worked on cup towels and bath towels and when they were finished giving the bride to be, Miss Dera Wulfjen.

Ice cream and cake were served at the social hour. Mrs. Merritt was at the Club again after several weeks absence.

Standard.

The Standard Club met with Mrs. Prude last week. This program was carried out:

Roll Call—Great Masters of Vienna. Romeo and Juliet, Act III, Scenes 3, 4, 5.

Magazine—Austrian—Hungarian Literature—Mrs. Crockett.

Romeo compared with Hamlet—Mrs. Sherwin.

Social Hour—Refreshments.

G. F. C.

Mrs. Coleman Smith was hostess for the G. F. C. last week. Several games of 42 were enjoyed. The guests were Mrs. L. C. Dupree, Misses Annie Beall, Ella Dry, Jo Dry, and Cochran of San Angelo. Miss Ella Dry was the winner of the guest prize a pair of blue hose. Mrs. Jim Coughran the club prize, a hat pin holder and the lone hand fell to Miss Roxie Coughran, a stiletto. After the games the hostess led them to the ever popular place, Ben Morgan's where refreshments were generously served.

FEDERATED CLUBS.

Mrs. E. A. Barcroft, Mrs. W. L. Doss and Miss Eta Doss returned home Saturday last from Abilene where they attended as delegates the First District Federation of Womens clubs. Mrs. Doss was enthusiastic over the meeting and from her we got about the following:

The convention opened in Carnegie Hall. Music was conducted by Mrs. Henry Bass of this city. Endowment fund report by the secretary, Mrs. R. E. Buchanan, was read. A collection was taken which netted \$4.75. A fund of \$10,000 is being raised for rural club life in Texas. Report of district secretary showed forty-five towns in the district and ninety-eight clubs enrolled.

The night program was interesting

throughout, many songs being sung. Miss Ella Cockrell gave a review of the club work in this district. Mrs. Burnside also spoke. Mrs. Warner of Claude spoke on "Woman's Duty to Woman."

The afternoon session was complete. Treasurer's report showed the district was in a healthy condition, with a balance in the treasury. A number of stirring reports were heard, and a debate on "Resolved, That new conditions demand a new type of women," was won by the negative. For the affirmative—Mrs. W. H. Huggins of Vernon, and for the negative, Mrs. Max Cohen of Mineral Wells.

A resolution amending the constitution for nomination of officers was adopted.

Delegates, numbering 200 with visitors, departed on night trains, for their various homes.

K AND L OF S.

Monday night was regular meeting night for the Knights and Ladies of Security Lodge. Quite a good number of members were present and several new candidates were initiated in due form. Quite a good interest is taken in this new order and new members are added each week. This lodge meets every 2nd and 4th Monday nights in each month. A team has been selected and drill work is going on and by next meeting night the members hope to put on the work in good form.

MISCELLANEOUS SHOWER.

On Tuesday afternoon Mrs. W. W. Hart entertained the Hesperian Club and G. F. C. Club with a Miscellaneous shower for the coming bride, Miss Dera Wulfjen.

The house was prettily decorated with pansies ferns, and geraniums. In the front were bright eyed pansies every where while on the dining table were candles and a huge centerpiece of beautiful geraniums.

The guests were greeted under the awning by Miss Doss who directed them to a hook on the porch where Miss Lona Burk requested them to write a wish for the bride in a quaint little hand painted book.

Then they were greeted in the parlor by the hostess and bridal party. After music by Misses Whipkey, Stokes and Buchanan Mrs. Royall G. Smith sang in her sweetest manner, "Little Pink Rose" and Mrs. Oscar Majors sang very tenderly "Mine".

The guests were invited in the dining room and there beheld the old oaken bucket that was soon to rise from the well not moss covered but filled with beautiful dainty and practical gifts for the bride. After Miss Jo Dry had given in her own original style a poem on the Gift Laden Bucket, the bride was asked to draw it up which she did again and again and each time it was filled with tokens of best wishes for her future happiness.

There were many things to wear, lovely things for the "Little House" and many useful things for the kitchen.

After everything had been admired and all the young ladies wishing they would be the next bride, a delicious grape ice was served and thus ended a happy hour for all present.

Don't miss the Better Babies program at the Shadowland Study at 3 o'clock.

A COLLEGE PARTY.

On last Saturday Miss Louise Moan invited Miss Lucille Russel and Mrs. David Harrel to spend the day with her and a pleasant surprise awaited them. Nine other girls had been invited and it proved that they were all College girls most of them having been students of St. Mary's at the same time and renewed their College friendship and talked of the many frolics they had had together. A contest of finding the names of their different schools was much enjoyed.

Pictures cut from papers and pinned on the wall after they were put together and properly construed spelled it out. A mill near a ford was easily spelled to the ones who had gone to Milford College, also a map of the world with an "It" made University easy. A game of correct spelling was much enjoyed with the honorees as the choosers.

Another surprise awaited not only the guests but the hostess when twelve young men came to enjoy the indoor picnic.

A regular picnic luncheon was spread on the floor and served from paper plates and tin cups.

The iced tea was in a bucket with a big dipper in it which was in demand quite often. Miss Byrd Adams was allowed to "pike" she was one of the St. Mary's teachers and showed her authority by making them salute the flag—or rather flags as a center piece had been artistically made from a number of them. Mrs. Carter gave a toast to the College girls and an autograph album was presented to the honorees with an autograph from each one.

It ended as all successful picnics do—the crowd had to hurry home out of the rain.

Tickets for ball games next week can be purchased now at Foyd Bealls drug Store.

CLASS PICNIC.

CLASS MEETING.

The Philathea class of the Methodist Sunday School met with their teacher, Miss Dry in her studio Wednesday afternoon. A social good time was had in honor of the coming bride and the two faithful young lady public school teachers who are soon to leave.

Miss Leathers and Miss Thomas. Bowls of pansies decorated the room and were made in corsage bouquets for the young ladies as souvenirs of the occasion. A beautiful Lily being presented to the bride to be, Miss Dera Wulfjen.

Refreshments were served by their devoted teacher at Ben Morgan's. Mrs. Clements was the only outside guest.

WILL CLAYTON WRITES.

Will Clayton down at Del Rio writes, in part as follows:

We are having a hot time down here. You had better put on your war paint and come down and join in the fun.

The United States Custom Officers, were issuing guns and ammunition to the citizens of Del Rio last night, so I proceeded to get my supply. If anything happens, we sure will be in readiness for quick action.

We had an awful rain here last night several washouts on the S. P. lines.

This Mexican trouble has sure knocked business in the head. The Mexicans here do not now whether they will have to go back to Mexico or stay here; if they will behave themselves they will not be troubled here.

Will write again soon,
Your Son, BILL.

DEATH OF MRS. HAM.

On Saturday morning Mrs. L. W. Ham departed this life at the home of her daughter, Mrs. P. C. Coleman.

Notwithstanding she was past eighty six years of age and had been a sufferer for more than five months yet it was a hard blow to her loved ones and sadness to her many friends.

Mrs. Ham was born in Mississippi but in her girlhood days came with her parents to Texas and she spent over 65 years of her life at Tyler but for the last years of her life she has lived in Colorado with her daughter, Mrs. Coleman.

She was the last of a large family. She was converted and joined the Baptist church at the age of sixteen living a happy useful christian for seventy years.

No one but the Father, who knows all things, can know of the many lives she has brightened in those years in his service. She was left a widow at an early age and the responsibility of rearing her little family rested solely on her.

Her sweet childlike faith bore her up under all life's trials and difficulties and her hope at the last was beautiful to behold. She realized that her end was near and asked her loved ones to read a hymn that was precious to her soul.

O sing to me of Heaven
When I am called to die.
Up until the last years of her life she was constant at the house of God listening eager to the word of God which was indeed the Bread of Life to her.

And an inspiration it was indeed to Christians to see her saintly face.

"Blessed are the dead which die in the Lord from henceforth: Yea, saith the Spirit that they may rest from their labors; and their works do follow them."

Dr. Coleman and family left Saturday night with the body for Tyler and the funeral services were held at the residence of her niece, Mrs. Bell Sunday afternoon.

The Record extends sympathy to the relatives in this sad hour.

Mr. Husband, if you care to save your wife miles of steps do not deprive her longer of a Hoosier which does save miles of steps.

Sanitary Creamery.
We have the only Sanitary sterilizing system in the world and we are proud of it. Our cans and utensils are first washed in hot water, then are placed in boiling water and left stand while steam is coming through a perforated pipe at the bottom under high pressure, the cans are then placed in the sunshine. This makes them thoroughly sanitary.

Before your clean house repaper those rooms with that fine paper at DOSS.

SMOTHERING SPELL

Sour Stomach, Heart Burn

In October, 1910, we received a letter from Mrs. Hall, from which we make the following extracts:

"About twelve years ago my health began to fail. I couldn't eat anything without suffering for it. I had heart burn, sour stomach, indigestion of the heart, smothering spells, pains in my sides and back. In fact, I suffered all over, and a cough almost like consumption. Doctors failed to relieve me; in fact, they didn't seem to know what ailed me. I continued to grow worse until I was able to sit up only a part of the time. I had almost lost all hopes of ever being any better."

"But one day some one threw some books in at my door. I read them and found them to be Peruna books. 'They described my feeling so truly I sent at once and got a bottle and began taking it. You pronounced my ailment systemic catarrh, and gave me some advice."

"When I had taken two and one-half bottles I began to eat without suffering. I continued to improve. When I had taken eight I was like a new person. That was nine years ago."

"I think Peruna the greatest family remedy there is, for so many ailments are due to catarrhal trouble. I would advise any one afflicted with catarrh to take Peruna and I am sure it will leave."

In the Revised "Hills of Life" we have many similar testimonials which should interest sick people everywhere. Sent free by the Peruna Co., Columbus, Ohio.

People who object to liquid medicines can now obtain Peruna Tablets.

SPANISH PEANUTS.

The Spanish Peanut has proven itself one of the most valuable crops that can be grown by farmers, so the Texas Industrial Congress has included this crop among its prize offers for the present year.

Select a piece of well drained sandy soil or a sandy loam that is well supplied with vegetable matter. If sandy loam is not available use the lightest soil you have. Plow it six to eight inches deep as early as possible and work into fine condition. Lay off rows three and a half to four feet and plant one nut every eight to twelve inches. The seed need not be shelled but care should be taken to see that every pod planted contains a good strong nut. The difficulty so common in securing stands with peanuts is largely due to the fact that the seed are not properly selected the greater depth upon the lighter soil. Plant any time after danger of frost is over. At distances suggested it will require one and a half to two bushels of seed to plant an acre.

The cultivation of the crop should begin soon after germination. In the early stages a weeder or smoothing harrow, with the teeth set at an angle so that they will not penetrate deeply, run across the rows, will give the best and cheapest cultivation. After the plants get larger the cultivation should be frequent, with an ordinary cultivator. During the later cultivation the soil should be worked towards the plants so as to provide

plenty of loose soil for the formation of the pods. It is not necessary however to cover the blooms. The pegs which later form the pods will push their way down into the soil if the latter is kept loose. Keep the field clean of foreign growth. To do this it is frequently necessary to use the hoe between the plants in the drill.

Fresh stable manure should not be used for peanuts but they will do well upon land that has had applications of this material the year before. Commercial fertilizers give good results when used upon peanuts. For large yields it pays to use as high as six to eight hundred pounds per acre. A good potato fertilizer, or one analyzing two to three per cent of Nitrogen, six to eight per cent of phosphoric acid and six to ten per cent of potash is about right. Either buy this ready mixed or mix two hundred and fifty pounds of cotton seed meal, four hundred acid phosphate and one hundred and seventy-five pounds muriate of potash. Peanuts require an abundance of lime for the best results and on most soils the application of one thousand pounds of lime per acre will be found of great benefit. Apply the lime broadcast and harrow it in. The sooner this is applied the better. If the larger quantity of fertilizer is to be used it is best quantities it can be applied in the drill before planting care being taken to mix it thoroughly with the soil.

COUNTY AGENTS NOT CHIEFLY ADVISERS.

Seven Other Suggestions Which Make His Services so Very Profitable to a Community.

W. A. Dulin our County Demonstrator says:

County agricultural agents are sometimes referred to as "county advisers." This implies a misunderstanding of the real work of the agent. Advisory work is a part of the agent's duties, but is a minor part. The county agricultural agent has about half a dozen principal functions:

1. He studies the agriculture of the county to learn what is being done and what is worth while agriculturally in each part of it. This study includes farm financial and organization surveys.

2. He gives the results of his studies to farmers, not in the way of advice, but as facts observed and conclusions drawn. This is done through the local press, lectures, institutes, circulars, short courses and personal interviews.

3. Based on these local studies and the ascertained needs of the county, clubs, associations, and the like are organized and the individuals solicited to undertake definite lines of agricultural improvement on their own farms. Organizations are also formed for co-operative buying and marketing and the standardization of farm products.

4. He endeavors to co-ordinate all existing agricultural agencies within the county, so that all may work unitedly and efficiently.

5. He develops local leadership. The task of improving the agriculture of an entire county is so stupendous that the agent must be primarily an administrator. He must inspire and accept the help of voluntary assistants in work.

6. He acts as the connecting link between the scientists of the research institutions of the State and Nation and the farmer, presenting the results of investigations in such a way that the farmer can use them, and calling attention of scientists to the local agricultural problems of the county and soliciting their assistance.

7. He gives advice. This may relate to spraying, seed treatment, mixing fertilizers, combating insect pests cultural practices, or other miscellaneous matters which are the stock in trade of every well informed agent. The giving of advice is seventh on the list, because in actually improving the agriculture of the county it is probably of least importance, though in point of time it may be the first work undertaken.

J. T. Hiser south of Loraine came in on Tuesday and handed in a copy of the Clinton (Mo.) Eye a paper published at Mr. Hiser's old home and also the old home of the deceased T. J. Payne. In the paper we found the following letter written by Mr. Hiser:

I received quite a lot of letters from old friends in Henry county in answer to my piece in the Eye and got all the information I needed. I found some of my old company and mess mates that I had lost track of long ago. It shows that there is something in printer's ink. I heard of more old friends still living than I expected to and yet a great many have died in the last 35 years.

To any one who may want to hear from Jim Hiser, the old Henry county boy of long ago. I will say that I am in West Texas, Mitchell county, and my post office is Loraine. I am in good health and weigh 225 pounds. We have 4 children, 3 boys and 1 girl, all grown, from 18 to 36 years old. All of them are at home and none of them married.

We are 230 miles west of Ft. Worth. We raise cotton, maize, sorghum, kafir corn, peas, horses, mules, cattle, sheep and jack rabbits. We have been netting them. We take net wire and make a net something like a quail net have wings mile long and get all the men and boys in the country to drive with shot guns with small shot and deploy around three or four sections and drive as you do quails. We made a drive last Tuesday and got 1124 scalps in one day. Now someone will say, "old Jim has got to blowing since he got out in this windy country," but this is the gospel truth. They have got to be a pest and we have to kill them in self defence to save the crops. We get 3 cents per scalp for them. That pays for the shot and powder. The ladies have dinner on the ground after the drive is over. We have big times. Some men kill as many as forty in one drive. One man was stationed in the creek and killed 32 on the spot. We got 78 in the pen, and put small boys in with sticks to kill them. They have big times. Well, this is enough rabbit talk for one time.

I would like to see old Henry county once more before I have to pass over the great divide as most of the old 16th have done. Would like to get a letter from A. M. Bucher and J. C. Gil-

The above pyramid is made up entirely of quart cups, pint cups, gallon cans, peck measures, leaden or iron weights, scales, and every known variety of appliance for determining quantity. Every measure in this pile was condemned as incorrect by the Austin Inspector of Weights and Measures, and was taken away from the dealer who was using it. The heap as it here appears formed a part of the exhibit set up for Home Economics Week at the University of Texas, and below appeared the placard: "Why be a poor housekeeper? Why say it is only a little? One cent a day on ten purchases lost by short weight means \$30.00 a year. Thirty dollars a year will clothe the baby."

SEVEN PASSENGER SIX \$1575

Full Floating Rear Axle Electrically Started Electrically Lighted

Outselling them, because it outvalues them. Not merely charging less, but giving more. An inventory of features, inside and out, proves it. A demonstration settles the question beyond dispute.

A seven-passenger "Six—not a five—or a six-passenger. So comfortable that mind and body pronounce it perfect. So light that it skims the road as a swallow skims the air. Weight so well distributed that it sticks to the road-way as though it were a rail-way. So free from friction that vibration is reduced to the vanishing point. So powerful that no condition it meets can daunt it. Nothing left to be desired—size, beauty, roadability. And still—a lower price.

Judge it, first, by its own superb steadiness, smoothness and power. Then, by comparison with cars costing more.

- Full Floating Rear Axle with pressed steel housing.
- Studebaker-Wagner separate unit starting and lighting.
- Full equipment of Timken bearings.
- Two disappearing auxiliary seats in the tonneau.
- Gears of our own heat-treating and cutting.
- Springs of our own make and testing.
- Our own drop-forged front axle.
- Our own beautifully designed and finished body.
- Our own special crowned fenders.
- Our own steel stampings and castings throughout.

WASHINGTON WRITINGS.
Society—White House Wedding—And Other Matters of Interest.

Washington, D. C. April.—The river and harbor appropriation bill now pending before the Committee of the Senate, and which, in all probability, will be increased three or four millions by the upper branch of Congress when it comes before that body, provides for 119 surveys, a somewhat smaller number than either of the last two acts carried. Chairman Sparkman of the House Committee on Rivers and Harbors said, apropos of these surveys, "It is believed that we have now reached a point in river and harbor development when the demand for new work will be less, with a resultant reduction in the number of surveys in future annual bills and in the number and magnitude of the projects recommended by the engineers."

The recent seizure by the New York Customs authorities of the village of meadow ants which Mrs. C. W. Morse to bring with her from Europe is only an episode in the perpetual warfare against undesirable immigrants human, animal and vegetable. Mrs. Morse's village, like the one which reached Philadelphia about a fortnight before, was probably a by-product of the increased interest in nature study, but the United States Government not only discourages such aids to amateur research but absolutely prohibits them. By a law passed in 1905 the importation of living insects into this country is forbidden and there are other laws which regulate so strictly the importation of larger animals that in many cases no discretion is left to the authorities.

Nevertheless tourists and amateur scientists persist in their efforts to introduce additions to the flora and fauna of the United States which the country would be happy to be without. It is estimated that one-half the pests that afflict farmers and stock have been imported from abroad such as the gipsy moth, the mongoose, the Australian flying fox, which in reality is an overgrown bat, and the San Jose scale.

Brides are occupying the center of the social stage in Washington just now and will continue to do so for some weeks to come, for an unusually large number of noted society belles in the National Capital are to be wedded this spring. A bridal season with a White House wedding in it is

regarded as one that is indeed worth while. The preparations for the marriage of the President's daughter, Miss Eleanor Wilson, are taking definite form, and there is now an air of briskness about the living rooms of the White House that has not been known in the historic mansion since the marriage of Mr. and Mrs. Sayre last November. It is understood that the bride of the Secretary of the Treasury will make another trip to New York some time before the wedding, which the wise ones say will be in early June, to complete her trousseau but when that trip will be made is as much a secret as the actual date of the wedding. It is expected there will be more display at this second White House wedding than there was at the marriage of Miss Jessie Wilson, for Eleanor Wilson has not hesitated to stay in her girl's way that she is for more fuss and feathers and furrows than either of her sisters on joyous occasions such as the approaching wedding, and Washington society, also loving fuss and feathers, is also correspondingly elated.

Some wag of a newspaper correspondent a few weeks ago published in a number of newspapers throughout the country a paragraph that has brought thousands of letters to the Director of the Mint from every section of the country asking that he send them \$34.99 as his or her share of the per capita circulation of the money of the United States. The correspondent stated in his despatch that that amount would be due every man, woman and child in the United States if Uncle Sam's money were divided up, and thousands have actually believed that by writing to the Treasury Department they would receive the money. A form letter in reply to the vast number of these letters has been gotten up in the Bureau of the Mints to disabuse the minds of those who were misled, but it has kept several clerks busy for many days simply addressing the envelopes to the misguided applicants, many of whose letters begging that the money be sent at once are pathetic.

Labor throughout the land has become intensely interested in the proposed new government bureau to be known, when it is established, as the Bureau of Labor Safety of the Department of Labor, and incidentally the nation's vast army of industrial workers numbering about 34,000,000 men, women and children are equally interested in the recent announcement by Victor J. Evans, a well known patent attorney of Washington, that he will give the sum of \$1,500 to the three persons inventing the most practical and effective life and limb protecting devices to be applied to machinery in industrial establishments, the first prize to be \$1,000 the second \$300 and the third \$200. A number of distinguished men, headed by Vice President Marshall and Speaker Champ Clark, have agreed to act as a commission to select the seven expert judges to pass upon the merits of the inventions, the other members of the commission being Secretaries Houston and Wilson, of the Agricultural and Labor departments, respectfully, President Samuel Gompers, of the American Federation of Labor, and Robert Mackay, and H. C. Young, editors respectively of the Railroad Man's Magazine and Popular Electricity. The Evans contest for the best inventions will not close until June of next year. The rules issued governing the contest are not onerous, and the contest is open to every man, woman and child in the land.

A little newspaper advertising is a good thing. More of it is better.

NEW POST OFFICE.

Mr. Gardner Harness informs us that he has the bill of lading for the new post office fixtures, they were shipped out on the 21st and will arrive in a few days and be installed at once, probably about the first week in May. The entire outfit will cost about \$2200 including about 400 combination lock boxes, with all the desks, tables, chairs, sack racks, rural route racks, cabinets, etc, making everything complete and up to date when installed and the building remodeled and painted, ours will be one of the completest, neatest and modern post offices in the West. A large flag staff will be erected above the building and old glory will unfurl her patriotic folds to the southern breezes.

MACHINERY ADDED.

The Record has been busy this week installing motors and those who have never tried it, have lots to learn. First place it puts you in the power of soulless grasping monopolists, a plumber ain't in it compared to an electrician, because you don't know anything about the current of this business and if you fool with him he will turn the current on you. We decided that anything would be better than a balky gasoline engine so took the next best thing and put in half a dozen motors, one on each machine and now when you want work all we have to do is to press the button, connect with the high power cable and the machine does the rest.

DELAYED TRAINS.

Colorado was without train service from Sunday morning until Monday evening. The cause of the 36 hour delay was occasioned by a derailment three miles west of Santa about 1:40 Sunday afternoon. Engineer Dean was slightly scalded and the fireman suffered some slight abrasions and a light scald. None of the passengers or the train crew were injured.

It is believed that softness of the track was the cause of the derailment. The Tender, baggage and combination cars turned over. The tender turned completely over. A wrecker was sent out and put to cleaning up the track. Traffic was delayed for more than 36 hours.

SPINELESS CACTUS.

Interest is being aroused among our farmers and stockmen in regard to the spineless cactus or prickly pear, free from spines. Last week an agent, Mr. Jones from the Spineless Cactus farm in California was here and quite a number of our citizens purchased a supply to get a start and give this new food a fair trial in Mitchell county. Mr. Ellwood purchased 500 of the plants he having seen them growing and knew what it was.

There are two kinds, the citrus and the forage. The former can only be grown where the climate is warm and equable the year round. It produces as high as two hundred tons to the acre. The forage kind is the one suited to Mitchell county and vicinity. Merced, Special and Robusta varieties of the Forage kind are very hardy withstanding deep winter ground freezes and produces as high as 30 tons to the acre of the very finest stock food in our section when everything else has died for want of moisture. Everybody knows that the prickly pear with the spines burned off makes fine stock food. Spineless Cactus is the development of Luther Burbank who has taken the ordinary prickly pear and made it into this plant, absolutely free of spines, specially adapted to the regions of the drought.

Spineless Cactus is not a hoax, but a proven producer and the supply of plants is far less than the demand. Every farmer and stockman should get a start. There are no "ifs" nor "ands" about this wonderful crop. It is making good all over the west and a field once started will keep producing year after year. If our people had known of such crops as this long ago, years of drought would have lost their terror. In purchasing the plants be sure and get the varieties suited for this section.

SPECIAL NOTICE TO HOME FOLKS

NEW GARAGE OPENS.

The Largest and Best Equipped Fire Proof Garage in West Texas.

The big new Studebaker garage just in front of the T. & P. passenger station, has been completed, having been completely remodeled by C. H. Lasky. It has solid concrete floor throughout, with special wash room, with inclined floor and sewerage. The work room has concrete pits, so that workmen can get under a car without lying down. Gasoline reservoirs and supply pipes are underneath the ground or laid in concrete. This building is as nearly fire proof as can be made without steel construction and insurance on cars stored here will have a much lower rate.

Mr. Keiper is moving this week, and the garage will be open Sunday, with an attendant in charge to take care of visitors machines. Mr. Keiper invites all who come in to the singing convention in cars to come around and leave them in his garage out of the sun and where they will be safe. He makes no charge for this, but offers it as an accommodation to those visiting Colorado, not only on this occasion, but at any time they are in town.

Of course it will take a week or two to get his machinery and everything installed and in good shape, but when he does so, he will have the honor of having the largest and best fire proof garage in the West if not in the entire state.

Mr. Keiper also has the honor of being one of only two garages in the state who are members of the American Automobile Association and appear in the official directory of that Association.

Mr. Keiper is enthusiastic about the Airline Auto road through Colorado to El Paso and California and says when it is completed, it will be worth as much to Colorado as a short line railroad.

He invites the public in general to call at the garage after he gets moved, and look at the new Studebaker cars, and get a demonstration, after which he says you will buy one "because it is a Studebaker."

DEATH OF MR. F. M. FARMER.

On Sunday night at ten thirty death again entered Colorado and claimed Mr. Francis Marian Farmer, brother of our fellowtownsman, Mr. J. B. Farmer.

Mr. Farmer had only been here about two weeks having come from Winstboro here in search of health, but his time had come and he welcomed the summons as becometh a good soldier. He was born in Alabama July 10th 1845 moving with his parents to Miss. and lived there till 1869 when he and the brother here came to Texas and have been together almost all the time since. He had no family of his own but all his nieces and nephews had his name sacredly for the many good times and for the help he rendered them, and were only happy that they could be of service to him in his last hours.

He was the first of six brothers to be taken, all the others are past the prime of life. He died as he lived a Christian.

The funeral services were conducted by Rev. Clements Monday afternoon. The Record extends sympathy to the sorrowing ones.

IN MEMORIAM.

Beeville, Tex.
To the Many Friends and Loved Ones: Bro. C. C. Roach who formerly lived near Colorado in Seven Wells neighborhood, whom the Drs. advised to come south for his health but his health could not be regained he was living in Bee County at the time of his death. Everything was done that loving hands could do but God in his wisdom saw fit on the 7th of April to call him home, to rest.
I have known Rev. Roach for the past 7 years to know him is to love him. Just a short time before his death he called his loved ones about his bed and told his company how to manage the business and told Ed and Gladys, his two oldest children, to give their hearts to Jesus and meet him in Heaven. He said he would like to live with his loved ones but if it was not Gods will, He was submissive. He leaves a father, two sisters a wife and three children and host of friends to mourn but our loss is his gain. May God bless his loved ones.
