## BIG IRRIGATION PROJECT.

Plans Are Well in Hand for Development Near Miles.

Miles, Runnels Co., Tex., May 15.—The irrigation project being promoted by Col. C. M. Stanley whereby it will be possible to place as much as 100,000 acres of land in Coke, Runnels, Tom Green and Concho Counties under a gravity system of irrigation, received great impetus at a meeting held in Miles this week, when the final touches were added to the \$10,000 subscription by Miles citizens. This money is to be used to complete the final surveys and other preliminary work. Mr. Stanley expects to call on the business men of Ballinger and lay a similar proposition before them, which if accepted, will cause the extension of the canals to that vicinity.

The preliminary work of the reservoir is completed and the work of aligning the main canals will begin in a few days and will be pushed until completed.

## TEXAS BULLS WIN FIRST PRIZE AT HAVANA SHOW

Hillsboro, Tex., May.—Texas bred livestock continues to show its superiority over stock of other countries, and a number of Shorthorn bulls owned by Frank Scofield of this city, who lately returned from Havana, Cuba were awarded first prize at the International Exposition in that city recently. These animals were entered in competition with the prize bull of the Paris Exposition and some of the finest blooded stock in North and South America and were declared by the judges to be the finest lot ever shown in that country. A total of eight prizes were captured by this herd and a diploma was given Mr. Scofield, signed by the President and Senate of Cuba in recognition of these prize animals. This is declared to be the greatest victory ever won by an American exhibitor in that Republic. Mr. Scofield disposed of the bulls before returning home.

## LARGEST WHEAT CROP IN TEN YEARS PREDICTED

Wichita Falls, Tex., May.—Agents of the United States Department of Agriculture have completed their estimate of the 1914 wheat crop of Texas, after a careful survey of the wheat belt of this state. The 1914 yield is estimated at 15,600,000 bushels which is approximately 2,000,000 bushels more than last year. If the final figures come up to this estimate it will be the largest production in Texas since 1905, when the yield was 13,880,000 bushels.

Only five per cent of the Texas acreage has been abandoned on account of crop failure and 1,082,000 acres remain to be harvested.

The Texas crop on May 1st was 96 per cent of normal, or 12 per cent above the average condition on the same date last year.

The average price per bushel paid to farmers on May 1st was 93 cents, or 3 cents above the May 1st 1913 quotation.

## BILLY SUNDAY AND SLANG.

Billy Sunday in one of his New York sermons said:

"When David was at the camp of the army next morning, Goliath, the big giant, strutted out in front of the Philistine army and shouted at the other fellows: 'Come on, you mutts; if you want anything out of me, come on and get it! I'll give you what is coming to you.' And he strutted back and forth. David said to Saul: 'Who's that big stiff making all that noise out there?' 'That's Goliath,' replied Saul. 'Well, why don't you go out and get him?' asked David. 'He does that every day,' answered Saul, 'and he's got my goat.' 'I'll go after him,' said David as he put on Saul's armor, which was so big that he looked like a man in a hand me down suit four sizes too big for him. 'Nothing doing,' said David, as he took the armor off, and went down to the brook and pecked out some smooth pebbles. He put one in his sling and went out and whirled it around his head and fired it at the giant. The stone hit him on the cocco between the lamps and he went to the mat for the count."

To which the Dallas News comments on as follows:

We have to admit that the Billy Sunday version is far less exalted in its language than the Scriptural account of the famous encounter, but we suggest in behalf of the former that it conveyed to those who heard it a vivid impression of the occurrence in question.

## WEATHER AND CROPS.

Hamlin, Texas.—Just enough rain has fallen this week to insure wheat and oats crops. Cotton is all up. Prospects exceed any previous year.

Clarendon, Texas.—A heavy rain fell here Friday. Water is standing on the ground everywhere. Perhaps something over an inch fell.

Goodlett, Hardeman County, Tex.—This has been an unusually cold week for the time of year. Rain fell yesterday and wheat is the finest in the history of the country.

El Reno, Ok.—A rainfall of 1.34 of an inch all over the country today assures an immense yield of wheat. A large acreage was planted last fall and farmers are jubilant.

Spur, Dickens Co., Tex.—An inch and a half rain fell at Spur during the last three days. The rainfall was slow and general throughout Dickens County. Crop prospects are splendid.

Lazare, Cottle County, Texas.—A gentle rain fell here Friday. Wheat was beginning to need rain. What has fallen practically insures a fair yield from the wheat crop throughout this section.

Corwell, Ford County, Texas.—During the last twenty four hours one inch of rain fell here. Wheat is in full head and in first class condition. Most of the farmers have planted their cotton and feedstuff.

Sweetwater, Nolan County, Texas.—A one-inch rain fell here this morning, rounding out a week that has been cloudy and cool with intermittent showers. It is clear now with warm southwest wind blowing.

Midland, Texas.—A fine rain fell over the Midland country last night. This is the first rain since November and the cattlemen and farmers are jubilant. It came just in time to put a planting season in the ground.

Truscott, Knox County, Texas.—A slow rain began falling in this vicinity Thursday and continued at intervals through the night and Friday. The wheat crop is the best ever known here. A great deal of cotton and maize is up to a good stand. Stock water is plentiful.

Slaton, Lubbock County, Texas.—This section of the Plains was visited by a two inch rain Wednesday night. This rain, following a soaking four inch rain of two weeks ago, places this section in fine condition for a big crop this year. Grass is fine and cotton and feed crops are coming up.

Denton, Texas.—Beginning before daylight this morning rain has fallen practically all day, putting a stop again to farm work, already seriously delayed by the wet spring. There is some complaint of black rust in the grain fields on account of the excessive moisture in the soil, but no material damage from that source.

Fluvanna, Scurry County, Texas.—Tuesday and Wednesday were unseasonably cool in this section. Thursday and Friday brought timely and copious showers, which have put a good season in the ground, and some think will insure the wheat crop, which is now quite promising. General conditions are better than they have been for several years. Grass and all wild vegetation are growing rapidly and stock are getting fat.

San Angelo, Texas.—The absence of sunshine throughout this as well as other sections of West Texas with the prevailing normal temperature, is proving of great importance in promoting perfect range conditions. For nearly a fortnight the weather has been cloudy with occasional light showers, which following the early rains, have proved of unlimited benefit in rendering better already splendid conditions. Crop conditions were never better and the promise of an abundant harvest is most flattering.

It is reported that Chester and Charley Thomas have a new automobile, and drove it to Lorraine last Sunday on a trial trip. Don't know whether it is a Ford or not. Chester says it is sure enough a horseless vehicle and will get there and back.

The Choral Club in some beautiful choruses, violin and piano solos, at Opera House Tuesday night.

If it is possible to build permanent roads by the issuance of bonds, this is the thing to do. If this cannot be done, then the next best thing is a systematic use of the split log drag.

## Dressmaking.

Mrs. H. F. Rankin and Mrs. C. C. Wheat have opened a dressmaking establishment on the corner of West 7th and Pine Streets, and would be pleased for a trial order.

## DALLAS MAN DELEGATE TO INTERNATIONAL CONGRESS

Dallas.—Mr. W. C. Connor, ex-mayor of this city has been appointed an accredited delegate to the International Congress at Paris, France by the Texas Business Men's Association.

## Cure For Stomach Disorders.

Disorders of the stomach may be avoided by the use of Chamberlain's Tablets. Many very remarkable cures have been effected by these tablets. Sold by W. L. DOSS.

## For Sale Cheap.

Two new east front lots, with well; close in for sale. Cheap. See Dr. W. R. Smith.

\$1.00 per gallon for ice cream direct from factory. It's clean. Its the best—COLORADO ICE CREAMERY.

## HOUSTON SECURES SOUTHERN BAPTIST.

Nashville, Tenn., May 16.—The Southern Baptist Convention this afternoon voted to meet next year in Houston.

## HARRY K. THAW WILL GO TO STEVEN CAMP.

Concord, N. H., May 16.—Harry K. Thaw in a week will leave the hotel here with Sheriff Drew and Policeman Stevens as his guard and visit Steven's camp on Lake Masasechum. He will probably locate for the summer at a hotel in Gorham.

Floor stains furniture stains, clear varnish and the famous Chase Perfection Furniture polish.

H. L. HUTCHINSON & CO.  
Oat Meal paper at 20c per ROLL  
W. L. DOSS.

## Bookkeeping, Mathematics and Penmanship School

Next Monday morning I will open the above named school in the large hall over F. M. Burns' dry goods store.

This is an opportunity to secure a thorough course in double-entry bookkeeping at a very cheap rate. To get this course in one of the regular business colleges would cost from \$150 to \$200. The tuition here is \$5.00 per month, and any person fairly well prepared in Arithmetic and English may complete the course in two and one-half months. The school will be open both day and night. Pupils are not expected to spend the entire day at work, but may drop in any time during the day and give such time as they can spare to this work. They may come in several times during the day if they desire. Perfect order will be maintained and both men and women are invited to attend.

Instruction in Algebra will also be given, the tuition being \$3.00 per month, the lesson to last one and one-half hours per day.

Pupils may enter at any time, but should begin when the school opens.

Please phone me at once if you desire to take.

W. W. HART.

## WOODHEAD BUYS SUNSET MAGAZINE.

Completes Deal to Take Over Big Publication From the Southern Pacific Co.—The New Editorial Policy Will Apply to Vital Interests of Pacific Coast.

Sunset Magazine, hitherto conducted by the Southern Pacific Railroad Company, has been sold to William Woodhead, advertising manager of the publication, according to an announcement made last night by Woodhead. The details of the transaction by which the railroad disposes of the magazine have not been made public, but the new owner stated that there will be a radical change in the editorials and feature policy.

Sunset Magazine, the Pacific Monthly, as it will be known in future, was issued first in 1898 as a minor publication devoted to the interests of the Southern Pacific Company. Its growth was rapid and it expanded until it became national in scope.

The railroad company found that the widening scope and accumulating circulation and demands would justify its publication as an independent monthly that could compete with any of the magazines published and decided to sell it. Woodhead was given first opportunity to purchase.

He went East and financed the proposition, returning a few days ago. Word of the deal followed him here and Woodhead decided to announce its completion.

"Although this announcement is a little ahead of what I had intended, I can confirm the report of the sale," said Woodhead last night. "The magazine will be broadened until it

becomes the "Pacific Coast Expression," free of all control, editorial or otherwise.

A number of Eastern business men and friends in Pacific Coast states will take over the magazine under the name of William Woodhead & Co. publishers. The editorial policy will apply to vital interests of the Pacific Coast and it will be independent in expression.

## SAM SCOTT ANNOUNCES.

He Will Oppose Hon. R. L. Henry for Congress From Eleventh Congressional District.

Waco, Tex., May 16.—The formal announcement of Judge Sam R. Scott as a candidate for congress from the Eleventh Congressional District, in opposition to Hon. R. L. Henry, was given out here this afternoon.

Judge Scott will open his campaign early next month in Falls County.

## S. P. BROOKS WILL RUN FOR SENATE.

He Announced This Morning his Intention To Get Into The Race In Nineteen Sixteen.

Waco, Texas, May 20.—Dr. S. P. Brooks, president of Baylor University, announced today that he would run for United States senator in 1916.

## JONES COUNTY TO VOTE ON LOCAL OPTION.

After being in the dry column for more than 25 years Jones County is to vote on local option on Saturday, June 6th.

Phone Vaughans feed store for nice fresh alfalfa.

## \$10.00 REWARD

Will be paid for information resulting in the arrest and conviction of the person or persons shooting or breaking the insulators on the transmission line between Sweetwater and Colorado.

### OLD FOLKS FIND NEW REMEDY RELIEVES ALL KIDNEY AND BLADDER MISERIES

#### Drives Rheumatic Pains Away, Relieves Backache and Bladder Disorders After A Few Doses Are Taken

Sleep disturbing bladder weaknesses, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life.

The new discovery, Croxone, overcomes all such disorders because it removes the very cause of the trouble. It soaks right into the kidneys, through the walls and linings; cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly. It neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles, causing rheumatism; and makes the kidneys filter and sift out all the poisonous waste matter

from the blood and drive it out of the system.

It matters not how old you are or how long you have suffered, Croxone is so prepared that it is practically impossible to take it into the human system without results. You will find it different from all other remedies. There is nothing else on earth like it. It starts to work immediately and more than a few doses are seldom required to relieve even the most chronic, obstinate cases.

It is the most wonderful remedy ever made for restoring the lifeless organs to health and strength and ridding the system of every particle of uric acid, and you can take it with the utmost confidence that nothing on earth will so quickly cure such conditions.

You can obtain an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if Croxone should fail in a single case.

### HOW, WHY AND WHERE I FARM.

#### The Personal Experience of a Progressive Farmer in Texas.

The following article was written by a Mitchell County man for the Home and Farm published at Louisville, Ky., and won a \$10 prize as one of the best articles. We reproduce it not only for the benefit of people who know nothing of the situation in this county but for valuable information to many of those who are now farming in this county.

#### Editor Home and Farm:

Seeing in a recent issue of Home and Farm a letter from a farmer on the hill land of Kentucky showing how he managed his crop in 1913 and what he made selling produce from three acres of land makes me want to tell how I farm, where I farm and why I farm.

I live in Mitchell county, Texas, about 100 miles from the plains on the Texas & Pacific railroad, 2,400 feet above sea level, which makes it exceedingly healthy. We have no malaria, no chills nor fevers. If it were not for births and accidents and appendicitis scares and the high price they charge, the doctors would starve.

The county is rolling, but a person from a rough country would think it was exceedingly level. The land is sandy mostly, some red, waxy land. We have tight sandy land and loose sandy land. We have sand storms sometimes that cause the loose sand to blow about, but the loose sand will stand the drouth best of any.

We have not much good water, as it is salty, soda or something else in this part of the county—but there are other parts of the county that have an abundant supply of fine water.

We have good schools and school buildings; school from five to nine months. We have the Methodist, Baptist, Presbyterian and leading churches. Politics is Democratic, as our Socialists are few and far between. We have a few negroes in the county seat town, which is Colorado. We have no saloons closer than 125 miles. We have very little crime of any kind. Our jail is empty. We raise cotton, maize and kafir and sorghum. Very little corn. No wheat or oats, as maize takes the place of corn and oats and is a sure crop with a heavy yield. There is a right smart of stock raising in the county. Fruit does well, such as peaches, plums, grapes and berries on the sandy land, and also sweet potatoes and vegetables when well cared for.

We have had five or six very dry years here, yet the people on the sandy land, where well cultivated, have made lots of stuff. The prospects at present are better than they have been since I came here, six years ago. I rented the first year down to a quarter section that I had bought, and every spare moment I had I was at work on my place improving it. I bought a raw body of land without any improvement, whatever, not even a fence. I paid \$125.00, and had \$40 to buy feed and to live on for the first year, and among strangers, too, and no credit.

I did not want to mortgage, but a merchant here had previously gotten a letter from a brother who had told him to see me and get my trade, as I was all O. K. and at the end of the year I owed him \$40. He did not charge me interest, and I did not mortgage. I made eleven bales of cotton in that year, 1908, but had to pay rent, and my feed crop was short, and I had to buy a considerable lot of feed the next year.

I did not want to pay rent, so with my wife and little girl, went on my own place, after gathering my 1908 crop and before having to move out I built a two room house with a hall between, bored and weatherboarded, celled, canvassed and papered, and built a brick flue in each end. Built a crib for feed, and fenced lots for cows, horses and hogs. I dug a storm house eighteen feet long, eight feet wide and six feet deep in pure red sand and clay, and put a door in each

end. The lumber for the cellar cost \$25. I did all the work myself on everything. I had my wife to help hold things in building houses and in ceiling and papering house. We moved in in January 1909, with five acres of land grubbed out for a farm. I bought rabbit proof wire and enclosed same to plant vegetables and truck crops on, and put an orchard. My money all being spent again and in debt, I went to my merchant to see if he would let a bunch of Mexicans get stuff there to eat and charge to me. He said he would. I put them to grubbing and grubbed out forty five acres in time for late crops, selling wood to get money to pay them above their living. The year was 1909 and exceedingly dry. My land being new ground, I made but 421 pounds of cotton, and that was on an acre of land cleared the year before. I did not make much feed, and had to buy to fatten my meat and also for cows and mules.

During the year, though, I sold all told from the place \$775 worth of stuff, on account of the trucking ground, and selling butter from three cows and poultry and eggs. I had two cows of my own and one borrowed. I also had a debt of \$120 for well drilling and did not get out with my merchant in full that year.

The next year, 1910, was dryer than ever, and I did not make much that year, but made enough feed to do me. I only sold \$675.35, I kept on selling off my sorriest cows and buying better ones. In 1911 I made a better crop, selling that year \$923.35, making enough feed, but it was dry also. Made seven bales of cotton from twenty five acres. In 1912 it was dry also, but I did better still, selling that year \$1,089.80, making about \$90 per month average. In 1913 I sold from the farm \$1,918.25.

I sold butter the year 1910 to the amount of 285 pounds at twenty-five cents; the year 1911 I sold 416 pounds at twenty five cents in 1912, 631 pounds at twenty five cents; 1913, 780 pounds at twenty five cents. This year I expect to do better than ever; my aim is 1,000 pounds of butter. I have six grown cows, three heifers and five calves, fourteen head in all, and good stock, but not registered.

The Durham milk stock is my shoe "all purpose cow." I have one soon to come fresh that is hard to beat by any thoroughbred dairy cow for milk and butter. I have one now giving milk that can make two pounds of butter per day. I plant but about twenty five acres in cotton, so that we can gather our own crop. I plant most of my place in feed. I also plant to sell water melons, I also plant cantaloupes and a few vegetables to sell. I sell melons from \$20 to \$100; cantaloupes, from \$10 to \$20; vegetables \$10 to 25; also sell turkeys from \$20 to \$60 worth each year; a number of chickens and lots of eggs, a few calves or yearlings. Also sell a hog on foot each year, or kill and sell meat and lard.

I have been married fourteen years, have never had to buy meat or lard yet, but have had to sell each year. I believe that every farmer should raise everything possible to sell and stop depending on canning factories and packing houses for a living. That would cause the cost of living to be lowered. Nothing gets high priced until the demand is great for that one article.

I see men all the time buying on credit and stocking up on canned goods and meat, lard, beans and peas—all of which can be raised if he will—depending on cotton to pay his debts in the fall. I have seen poor men pay \$1 for a jar of preserves, which his family would consume in two or three meals, when a dollar's worth of Lima or other beans would do a week or ten days. I have seen renters' girls buy dresses on credit at \$10 a piece and then in the fall you will hear them cry hard times, and cuss the merchant and middle men and speculators, when, in fact they have caused their own hard times.

I used to buy on time and had to mortgage some times, but did not buy much except what was absolutely necessary. I know men who own their places that claim it is cheaper to buy meat and lard than it is to raise it. I would raise one or two hogs if it cost me double what the packing house goods cost in order to be independent, and have my own meat and lard and fresh sausage and spare ribs and backbones, and then I have the satisfaction of knowing whether it is clean or diseased or not.

Again I have heard men, who claim to be farmers, say it is cheaper to raise cotton and buy feed than to raise it, and then some say it is just as good to streak their land off and plant as it is to break it.

If farmers would get out of all the "all cotton" habit and raise more of their living at home they would live better and their children would not dread the farm so much, and they would all be better off financially, physically and otherwise.

Raise more cows and drink pure butter milk instead of strong, codge the children will be healthier and their nerves stronger. A pound of coffee will do my family from three to four years.

We have a canner outfit and can peaches, berries, vegetables and so on for winter use each year. We canned last year peaches, plums, berries, crabapples, string beans, tomatoes and beans, and put up a lot of crabapple jelly, berry jelly and plum jelly. I have enlarged my berry patch, have set fifty grape vines and more fruit trees of various kinds.

I have also recently purchased a fine young mare and expect to make the place more profitable by her use as a family buggy animal. I sell a good colt occasionally.

I have also purchased a piano for my daughter in order that she might love the farm and home more by having something to make life enjoyable for herself and the family. I have given her a crop for her own this year—three acres—and have given her a good bicycle to ride to school, that she may enjoy going to school—three and one-half miles distant. It is cheaper and safer than a horse. I believe the children should be given something of their own. I teach them to work and manage things of their own profitably and pleasantly and to think the farm is ours and not pa's only. I believe a person should add improved machinery to the farm as fast as possible to save hard labor for himself and family. I expect to add some more to our residence this next month to make home more comfortable and attractive, and to add a gasoline engine and churning device, and use the engine to run small power devices to save hard labor, and to paint our residence also if possible.

I keep books on every article I sell and everything I buy—have been for five years—and find it profitable and interesting. I keep the record of rains and rain fall. I record the birth of calves, pigs colts and so on. January the first I go over everything on the place, counting the number and pricing the same at a reasonable price, and put on record what I have at that time.

I find that I had \$400 worth more on the place this January than last year. These things do not include the improvements to the farm, such as fencing and buildings; it includes live stock, implements, household goods, meat, lard, etc. and also feed stuff, as hay or grain or cottonseed.

I never sell any feed of any kind. I purchase more of something to consume it, and sell them instead of the feed, and put the manure on the land. Our soil is rich, but it needs to be fed to keep it rich.

If I were able financially I would build a silo this year, buy an ensilage cutter and engine and put up ensilage to feed in winter with other feed and to feed in summer when it is dry, and increase my live stock, and cut out cotton raising almost altogether. I would also build a good sanitary barn for cows and provide feeding places where it would be handy and easy. I would also fix water pipes to all places, and also would set out shrubbery of different kinds to make the landscape more beautiful in order that I might have a Home, Sweet Home, indeed and in truth. If I and the family keep our health we will

be able to have the most of these things in a few years.

I have a girl and boy and want them to love the farm and I expect to try to give each one a course in the Agricultural College. Too many people educate their boys and girls to be everything else but farmers. If more would go to the Industrial College we would have better farmers and farmers' wives, and farming would be more profitable as we could make two blades grow where only one grew before and would be taught better tillage and less acres.

I usually get as much money from twenty five acres in cotton as my neighbors get from fifty acres as they hire it chopped, hire it picked and are overcropped and cannot give it the proper attention. We chop, cultivate and gather our own crop, and are not out anything for hired labor. I have not hired \$50 worth of work done in fourteen years outside of clearing land, and have improved two places, putting them in, cultivating, and putting all buildings, outhouses and fences on them. D. A. N. Colorado, Texas.

CRYSTAL CITY GETS NEW WEEKLY. CRYSTAL CITY—T. W. Lillis is the editor of the "Chronicle" a new weekly publication which is being published here. The initial copy of the new publication was issued last week and was replete with interesting reading matter.

"TIZ" SOOTHES SORE TIRED, SWEATY FEET. Ah! what relief. No more tired feet; no more burning feet, swollen, bad smelling, sweaty feet. No more pain in corns, callouses or bunions. No matter what ails your feet or what under the sun you've tried without getting relief. Just use "TIZ". "TIZ" draws out all the poisonous exudations which puff up the feet; "TIZ" is magical; "TIZ" is grand; "TIZ" will cure your foot troubles so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore, swollen or tired. Get a 25 cent box at any drug or department store, and get instant relief.

### SHOULD PALESTINE BE GIVEN TO THE JEWS?

Throughout the eighteen long centuries and more that have elapsed since the destruction of the city of Jerusalem, and the dispersion of the Jewish people among all the nations of the earth, the hope has burned in the hearts of all those worthy of the name of "The Children of Abraham," that the time would come when the blessings of the Lord would again be with His chosen people, and they would be restored to the land of promise from which they were never more to be plucked up.—Jeremiah 31: 27-34.

With this splendid hope in view, and in keeping with the spirit of the day—the spirit of organization and federation, there has been formed what is known as "The Zionist Movement," a distinctly Jewish organization whose avowed purpose is the returning of that people to their own land—the land of their fathers—and which the Lord promised to them for an everlasting possession. "Zionism" is gaining in numbers and influence among the ten millions of Israelites scattered over the whole known world.

Palestine, the Holy Land, by divine promise and by every moral right, belongs to the Jewish people. For almost 2500 years it has been under Gentile dominion, therefore, it is now about time for the nations and governments to return the land, now in possession of the Turks, to this enterprising and energetic people. Under their administration the country would prosper, and Jerusalem would, doubtless, in time become one of the leading cities of the world, commercially, financially, and politically. As it is on the direct line of travel between the East and the West, it would become the gateway between the Occident and the Orient, the mart and meeting place for all the people of the earth.

Perhaps, as suggested in the ancient Jewish prophecies, the affairs of all nations would be arbitrated and administered at Jerusalem; and thus,

### NO CALOMEL NECESSARY.

The injurious effect and unpleasantness of taking calomel is done away with by Simmons Liver Purifier, the mildest known liver medicine, yet the most thorough in action. Put up in yellow tin boxes only. Price 25c. Tried once used always. A. B. Richards, Medicine Co., Sherman, Texas, 5-30.

Marlin—Farmers in this section report that the recent rains here did very little damage to their crops and a large production of all crops is anticipated, although there will have to be some replanting of cotton and corn.

CRYSTAL CITY GETS NEW WEEKLY. CRYSTAL CITY—T. W. Lillis is the editor of the "Chronicle" a new weekly publication which is being published here. The initial copy of the new publication was issued last week and was replete with interesting reading matter.

Mrs. S. D. Donahoo was hostess for the H. M. S. last week.

Mrs. Jameson will be the hostess for it this week.

Mrs. Harry Hall is home from Midland.

Mrs. Jessie Pratt will be hostess for the ladies Aid Society this week.

J. E. Stowe and family motored over from Colorado Monday.

### TEN MORE COMMANDMENTS.

Good housing as a reform movement is aimed usually at the delinquencies of the landlord. But a woman's club, the Chicago Woman's Aid, under the leadership of its president, Mrs. Moses L. Purvin, is calling the tenant also to account. For its social service work in a congested quarter of Chicago, the Woman's Aid has formulated the following Ten Commandments of Good Citizenship which are distributed to audiences at settlements, field houses, and social centers.

- 1—Thou shalt honor thy city and keep its laws.
- 2—Remember thy cleaning day and keep it wholly.
- 3—Thou shalt love and cherish thy children and provide for them decent homes and playgrounds.
- 4—Thou shalt not keep thy windows closed day or night.
- 5—Thou shalt keep in order thy alley, thy back yard, thy hall and stairway.
- 6—Thou shalt not kill thy children's bodies with poisonous air nor their souls with bad companions.
- 7—Thou shalt not let the wicked fly live.
- 8—Thou shalt not steal thy children's right to happiness from them.
- 9—Thou shalt bear witness against thy neighbor's rubbish heap.
- 10—Thou shalt covet all the air and sunlight thou canst obtain.

The Chicago Board of Health has so approved of these Commandments that it incorporated them in its annual report and had them copied in 140 newspapers printed in all the foreign languages of the city. The Woman's Aid with its membership of nearly a thousand women, is doing important work in civics and philanthropy among the Jewish immigrants of Chicago.

Garden and Lawn Hose in rubber also two grades of cotton.

When the business of farming is placed beyond the thrall of grass and greed, then the farmer will become economically independent.

### STATE MEDICAL ASSOCIATION.

A Colorado Physician Honored—Protection of School Children New Branch of Association.

Dr. N. J. Phenix as a representative of the Mitchell-Nolan Medical Association last week attended the state Medical Association at Houston and was honored by being elected as one of the councillors of the State. Dr. Phenix returned home on Sunday night.

New Branch of Association.

A new and important branch of the State Medical Association that of medical defense, was created at this meeting by a constitutional amendment which requires the appointment of a medical defense council of three members. Dr. Graves, the retiring president, appointed on this council Drs. W. D. Jones of Dallas, E. F. Cooke of Houston and W. A. King of San Antonio. Dr. Jones of Dallas has been an ardent worker for the creation of this council and his appointment as chairman of the new branch was regarded by the physicians as a well merited compliment to him. It will be the duty of the council to investigate all charges of malpractice made against members of the association and all damage suits growing out of medical practice that are brought against members and to defend members against such charges and suits. For this purpose a special fund will be created by increasing the annual membership dues from \$2 to \$3. Dr. J. L. Diddy's resolution designed for the protection of school children was adopted. It recommends that the Legislature enact a law making the County Health Officer the medical inspector of the schools of his county. City Health Officers to be required by the same law to act as medical inspectors of the city schools. Dr. Diddy's resolution sets up the claim that there is not a county in Texas in which the nine rules of the State sanitary code are enforced in the schools.

We have a large assortment of all kinds of fishing tackle and sporting goods of all kinds. Basket Ball, Base Ball, Foot Ball, Boxing Gloves and Fishing Tackle. Doss is head quarters for sporting goods.

Stone and Webster Buy Fort Worth-Denton Interurban, Former Owners plan to Build to Mineral Wells.

Fort Worth, Tex. May—A deal was closed here this week whereby the Stone & Webster Interurban Corporation becomes the owner of the Fort Worth Denton Interurban. The transaction involves all right of way surveyed and secured by the Fort Worth Denton Interurban Company. The Stone & Webster people will begin the construction of the line without any unnecessary delay. Practically all of the right of way for this project has been secured and other preliminary arrangements completed, which will enable the purchasers to begin the grading of the route immediately.

It is rumored here that the stockholders of this interurban are preparing to organize another stock company for the promotion of an electric line between Fort Worth and Mineral Wells. It is understood that the parties interested in this line are willing to put \$500,000 in the project. A meeting will be held some time next week when more definite details relating to this proposition will be worked out.

We are selling O-Cedar polish and mops almost every day phone us to send you one. H. L. HUTCHINSON & CO.

The whole machinery of our money and credit system is directed toward the aid of the city and not the country.

## Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

# THEDFORD'S BLACK-DRAUGHT

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Thedford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

### A SUBTERRANEAN CAVERN OF GOLD.

It would take a mule train sixty miles long to carry in silver dollars the income from the Glenn Pool for the past six years. Laid in a row, the same would reach from New York to San Francisco, or they would make a pile 250 miles high.

The fabled wealth of Croesus fades into insignificance besides these cold blooded government figures; 122 million dollars in six years from a patch of ground about four miles square. Millionaires were made over night, so to speak.

A few miles from the heart of Glenn Pool, two wells have in the past few days set oil men on fire with the belief that a new extension of this wonderful pool has been discovered. Dericks are rising like a magic forest and with feverish haste men are pushing to see who will get the next big well.

With a large acreage lying between these two remarkable wells and surrounding one of them on three sides and with the crews straining every nerve to take a big prize by getting their well in first, the Great Western Company stands to win.

Further, they are in a line between the wonderful Glenn Pool and the recently discovered Cushing-Deep Sand Pool in the same county, which is the most electrifying fact in the American oil industry for years. Men thought they had exhausted the Cushing field but by chance they struck a deeper sand and behold, new gushers whose production has outdone the dreams of avarice.

Oklahoma produced 15 per cent of the world's oil in 1912. Only one foreign country produced more. Her increase in seven years was over 4000

per cent. She probably produced one-third of the world's "refining crude" (for high grade oil fit to refine) during the first three months of 1914.

But the Oklahoma Oil situation is beyond description in these few lines. Those who are interested are invited to address Mr. B. J. Waugh, Sales Manager of the Great Western Petroleum Company, Box 357, Tulsa, Oklahoma, who will gladly furnish additional information along this and other lines connected with the wonderful opportunity in Oklahoma Oil.

### SKIN DISEASES CURED

Hunt's Cure is the name of the remedy which is absolutely guaranteed to cure all forms of skin disease of the purchase price promptly refunded. Wonderful results are obtained by its use, curing cases that would not yield to other treatment. Ask your druggist. A. B. Richards Medicine Co., Sherman, Texas 5-30

### TO VOTE ON TICK ERADICATION

San Angelo—A number of cattlemen of this county are interested in tick eradication and are striving to get an election called to vote on an appropriation for this work. It is thought the proposition would carry by a large majority.

Keep cool, sweet tempered and clean this summer. This will be easy if you send your laundry to us. The best and cheapest washing you can have with no trouble to you.

THE LAUNDRY.

When calling for cream at your dealers be sure its made at Colorado Creamery—if not 'refuse' it, for ours is not only sanitary but the best—COLORADO CREAMERY.

### IRRIGATION WELLS AT SLATON.

Slaton, Lubbock County, Tex. May—Col. A. B. Robertson is putting down at this place a big irrigation well. This is the first of a series of wells that will be drilled by Mr. Robertson on his 9,000 acre tract of agricultural land adjoining the town of Slaton.

### Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by W. L. DOSS.

### LETTER LIST.

The following is a list of letters remaining unclaimed in the Post office at Colorado, Texas, May 16th 1914. In calling for letters please say advertised. 1 cent due on advertised matter.

Mr. Arthur Davidson; Mr. J. R. Lowery; Mr. Arthur H. McVeigh Mr. J. B. Stothhouse; Mr. H. A. Wilson.

JNO. W. PERSON, P. M.

### 5 OUT OF 7 VOTES.

A prominent business man in Colorado this week received a business letter from Abilene and the letter closed with this sentence.

"A recent canvass of the city of Abilene shows that Smith will get 5 out of 7 of the votes here in Blanton's home town. How is that for local pride?"

Yours sincerely,

Pete's service car will haul anything or have it done.

The COLORADO RECORD

Published Every Friday at Colorado, Mitchell County, Texas, Office in the Masonic Building, Corner Second and Oak Streets.

Entered as second-class matter at the post office in Colorado, Texas, under the Act of Congress of March, 1879.

BY WHIPKEY PRINTING CO.

WHIPKEY BROS. Owners and Editors
F. B. WHIPKEY Business Manager
A. L. WHIPKEY Secretary and Treasurer

NOTICE TO THE PUBLIC
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of this Record will be gladly corrected upon it being brought to the attention of its publishers.

Table with 2 columns: Description of advertising rates and Price. Includes rates for one page, half page, and one-fourth page per month.

RAINFALL FOR COLORADO THE LAST TEN YEARS.

This record was made from the Government Gauge, now in charge of Rev. H. G. Hennessy.

Table with 12 columns: Year, Jan, Feb, Mar, Apr, May, June, July, Aug, Sep, Oct, Nov, Dec, Total. Shows rainfall data from 1904 to 1914.

COLORADO, TEXAS, MAY 22, 1914.

The whole nation is nourished from the farm.

It is a waste of money to spend it upon roads that are not given proper drainage.

Watch this country come back this year and reward the man who staid with it during the drouth.

Scientists, experts, prophets and prognosticators say we are entering into a cycle of several years prosperity.

The average farm haul is nine miles and it takes two horses five hours to haul 600 pounds this distance over unimproved highways.

The man who retards the growth of the city in which he lives in order to promote some selfish interests is a bane to his community.

It has rained so often and so much since our last report that we have lost track of it. Suffice to say this kind of season is hard on the socialist party, and spineless cactus in Mitchell county.

Attention is called to the ad on last page this week of Prof. W. W. Hart. Here is a school of mathematics, penmanship and book keeping the same as taught at Waco for \$20 for the course. You can get it here at \$5.00 per month. See Prof. Hart.

The anti prohibition band wagon was hit in the beam and shattered to splinters. A blind negro boy with one arm would never have made such a mess of driving a six wild mule team by a snorting locomotive as those opposed to Tom Ball and State-wide prohi, have made. Sam Sparks could have won the fight but Sam was slaughtered and those crooked Fort Worth yahoos who did the dirty work are going down in defeat—West Texas Magazine.

The Attorney General of this state has filed suit against nine printing concerns—eight in Texas and one in St. Louis—as follows: Exline-Relmers, Fort Worth; Hargreaves, Dallas; Hill Waco; Clark & Courts, Galveston; Maverick-Clark, San Antonio; Dorsey, Dallas; Cargill, Houston; Bernard, St. Louis, Mo. It is stated that these companies have an auditor that checks the books of each company to see that the price contract has not been violated. They are charged with violating the trust law. It is charged by the State that the defendants, since the formation of said combination, have gotten their price books from common source and have sold county and commercial stationary and office furniture within the State of Texas at the same price. The minimum price of the penalties each company would be liable for is \$24,800 or a total of \$223,200 for the nine, while at the maximum, each would be subject to 248,000, or a total of \$5,696,000. There is a number of business concerns that have been contributing to these trusts, when they could have gotten their work done by home people. And could have gotten just as good work for less money. But some people are too big to live in a small town. They live here to make money, but whatever they use it must come from a city. That makes a noise like "a big bug."

WHOO LA

More Rain. Crops Growing Every body Smiling and Still More Rain.

Since last weeks issue more than an inch of rain has fallen and we have had all kinds of weather. The sun has been hidden so long some say it is mildewed. Wednesday and Thursday of last week a slow ground soaking rain fell in this county and as a result the entire Colorado country is in ideal condition and bumper crop prospects still prevail in every community. Watch us come back, and reward every man who staid through the drouth.

Should no calamity befall the crop of this county 20,000 bales of cotton will be marketed in Colorado this fall and the farmers will not only have enough feed stuff for home consumption but plenty to supply all newcomers who may settle in Mitchell County.

Crop prospects are most encouraging. Never before have the farmers taken greater care to get their land in good condition. The rains last fall together with those of recent date have saturated old "Mother Earth" with moisture and crops are coming up and growing by leaps and bounds.

Mr. Dulin, county demonstration agent has persistently insisted upon the importance of securing good seed for planting, and never before have the farmers been so particular in this respect.

We are informed that our farmers are planting a large acreage of feed stuffs, such as kaffir, milo maize, fetterita, etc, and doubtless will harvest great quantities of feed. From every viewpoint it now looks like the West is going to have the mantle of prosperity entwined about her.

In Judge Blantons literature that he is mailing out over the district appears this paragraph.

"With those who know him, such criticism published by the Colorado Record, cannot hurt Judge Blanton's standing. Besides being Judge of the 42nd Judicial District, and a Ruling Elder in the First Presbyterian church of Abilene, Judge Blanton is a member in good standing, as a Woodman in Abilene Camp No. 136, W. O. W.; Abilene Lodge No. 42 Knights of Pythias; Abilene Lodge No. 274, I. O. O. F.; Abilene Encampment No. 117, I. O. O. F.; Abilene Canton No. 19, I. O. O. F.; Abilene Rebekah Lodge No. 89, I. O. O. F.; a Master Mason in Abilene Lodge No. 559, A. F. & A. M.; a Royal Arch Mason in Abilene Chapter No. 159; a Knight Templar Mason in Abilene Commandery No. 27; a Thirty Second Degree Scottish Rite Mason in Dallas Consistory No. 2, and a Shriner of Hella Temple."

CENTRAL WEST TEXAS.

Central West Texas is strictly in the swim. The ground is wet, wheat and oats are growing and filling out by the inches, people are happy and everything is lovely. Sallie and the children are going to have two new dresses this year and don't you forget it. Come to Mitchell County.

There is an excuse for everything except bad roads.

MR. HENRY'S ANNOUNCEMENT.

No one was surprised to read in the dispatches of Saturday afternoon and Sunday morning that Congressman Robert L. Henry of this district and city would offer for re election in the July primaries and for the United States senate in 1916. It has been generally accepted for several months that the Waco congressman would enter the race for the place now held by Senator Culberson, an announcement to that effect having been made in the editorial column of our esteemed contemporary, The Waco Tribune, which is the official oracle for Mr. Henry's political plans.

Chief interest in the definite announcement from Mr. Henry lies in the fact that Waco will have two distinguished citizens in the race for this high office, for Dr. S. P. Brooks, president of Baylor University, while not having formally announced his candidacy, has decided to enter the race provided the conditions are favorable at the time he thinks an announcement ought to be made. It is generally conceded, too, that Thomas M. Campbell, former governor, is anxious to wear the toga and will be in the scramble for it if he sees any chance to land it.

All three of these men belong to the pro wing of the Texas democracy and all of them have been loyal adherents of the Wilson administration in most things at least, and Dr. Brooks and Governor Campbell are strong advocates of the Ball program in the gubernatorial race. Mr. Henry has not expressed himself in this race, so far as we have been informed, though as Mr Ferguson has been a strong Henry lieutenant in Bell county and proposed Mr. Henry's name for the senate at the Wilson Henry banquet in this city more than a year ago, we take it that personal if not political inducements would compel a very strong feeling in Mr. Henry's heart for the Temple candidate.

But the race, which will reach its maximum about two years hence, will develop issues and we should not be surprised, in view of the agitation for national prohibition, to see the prohibition question injected into the senatorial race and cut a figure in it just as was the case in 1912 when Senator Sheppard walked away from Jake Wolters and Mr. Randell in easy manner. The direct election law provides for majority and we fancy it will narrow down to a two-man race with alignment on the liquor traffic as the chief consideration. In that event it will be a contest between President Brooks and Governor Campbell to see which can the more effectively rally the dry forces behind him and then become the sole opponent of Mr. Henry, an anti staidier, provided he is the sole candidate who is opposed to prohibition.

But then there is Governor Colquitt who is also anxious to go to the senate and who is much closer to the anti prohibitionists who dispense the funds contributed for political purposes than Mr. Henry is, and it is possible that by the use of the liquor machine in his behalf, Mr. Colquitt could put Mr. Henry out of the running.

We are making no predictions as to the outcome of the contest and no pledges further than we shall support the man who, in our opinion, is best qualified for the senate, but if all four of these men get into the contest it will be a decidedly interesting one and will hold the center of the stage that year. If Judge Ball is elected governor—and we think he will be—he will hardly have any opposition in 1916, and the senatorial race will probably loom up as the real big event in state political circles. Mr. Henry announces he will make a thorough state wide campaign and we presume the other candidates will do as much and the people will have ample opportunity to make a choice for the senatorship—Waco Morning News.

CONGRESSMAN SMITH IN PECOS.

W. R. Smith, M. C. Sixteenth Texas, spent Tuesday in Pecos, en route from El Paso to his home in Colorado City. Judge, needless to say, was most heartily received by all Reeves County people and was assured on every hand that he would get 95 per cent of the votes cast in the primary in July. Judge Smith has been instrumental in getting every good thing that has come to the Pecos country from the government. He is the father of the Elephant butte project, and chairman of the committee on irrigated lands in the House. There is no more wholesome or active worker in the national house, and it is to be hoped that he may be kept there for twelve years longer. He was instrumental in getting the survey made of the Pecos river and the possibility of getting the government to build a Pecos river reservoir was opened through him. Vote for Smith!—Pecos Times.

We have water coolers in assorted sizes as well as prices. H. L. HUTCHINSON & CO.

JUDGE BLANTON AT MIDLAND.

Judge Blanton, who imagines he is running against Judge Smith for Congress spoke last week out at Midland and the Midland Reporter in referring to his speech, among other things said: "When Judge Blanton made that Midland speech he was wearing a Scottish Rite watch charm and a Blue Lodge pin. But after hearing the Judge's speech no Mason had to look at his display of Masonic emblems to know that he was a member of that organization.

A man who undertakes to use a fraternal organization to serve his own selfish purpose violates the cardinal principles of that organization, and such a violation is a prostitution of his honor and integrity far greater than that of the unfortunate woman of the streets, who prostitutes and debases herself in order to gain the means of a bare subsistence. The woman's sin is committed under the pressure of desperate necessity, such a man barter his honor by the exercise of his own free will, and would, if he could, subordinate the noble teachings of such organization to the service of his own selfish end."

We have never heard Mr. Blanton in one of his speeches, but will say if he is using Masonry either by word or emblems to further his political ends, he will loose by far more votes than he can ever hope to gain.

THE TENANT PROBLEM.

The Texas farmer is the man of the hour. Besides furnishing campaign material for gubernatorial aspirants, he is claiming attention from other sources and his welfare is becoming the paramount issue of both political and commercial bodies.

As a solution to the problem of the 220,000 tenant farmers of the state, the Trinity Commercial Club offers to place a million acres of land in the Trinity Valley at the disposal of the tenant without cash payment for one year, and giving him forty years there after in which to pay for his land.

The joy of home-owning is one of the highest emotions of the human race and implanted deep in the heart of every renter and tenant is the desire to some day own the roof which shelters him. The gubernatorial candidate or commercial club who helps to solve the tenant problem, is rendering a valuable service to mankind.

BUILDING MODERN GIN.

Killeen—A new gin of modern construction and latest improved machinery to cost about \$7,500 is being erected here to replace the one destroyed by fire during the last cotton season.

Second Street  
Colorado, Texas

**JOHN S. OGLESBY**  
PUBLIC ACCOUNTANT AUDITOR  
AND SYSTEMIZER

Correspondence Solicited.  
817 Wilson Building Dallas, Texas

**SHEPERD & SANDUSKY**  
Attorneys-at-Law

Practice in all the courts.—Office in Looney Block, Colorado, Texas

**V. O. MARSHALL**  
Successor to W. W. Campbell.  
—Dentist—  
Office in Fire Station Building.  
Office Phone No. 88.

**Jack Service**  
I have a good black Spanish Jack. Will stand at Nunn's wagon yard. \$10.00 for the season. Mares carefully handled.  
E. W. WOODARD.

**FAIRVIEW FANCIES.**

All kinds of weather this week from the North Pole to Equator, fairstimes never look then at the present time. The prospect for good crops was never better than now.

Geo. Goodwin and family are making a flying trip to Wichita Falls this week in his auto.

Professor Jim Harris was visiting friends at Fairview on Sunday.

Professor Claude Hooks and his sister Blanche returned from Westbrook and Loraine where they have been teaching school.

What pluck courage and self confidence will do at times, this was shown by the bravery at Vera Cruz, by a Scotchman, the commander of the Bristol cruiser Essex at Vera Cruz. To him the Americans owe much. Tweedle is the name of this commander who like Fuston and Roosevelt when he starts to do things he does them in a hurry. Tweedle heard about the hundreds of Americans Huerta was refusing to permit to leave the city of Mexico, he secured a special train and, started for the capital a little time afterward finding him in the Palace talking in plain fashion to the Dictator. He told of orders he had from London and switched the Bristol lions tall in the face of the President and demanded the custody of Americans with the result that the official promised to permit the Americans to leave, but not the Tweedles trains. Afterward more plain talk from the Bristol commander secured an escort from the President for the train, leaving the Americans and three train loads started for Vera Cruz. Journey back to Vera Cruz on his own train, commander Tweedle at Soledad became pained again. There he found 113 Americans in captivity and held by a Mexican colonel and their execution had been threatened. The Americans were defected, the women crying and the children begging for food. Tweedle demanded that they be turned over to him. The Mexican colonel refused to comply. Get on that train Tweedle commanded the Americans indicating his engine and cars. These people are my prisoners surely snatched the Mexican official. Tell your general that the commander of the Bristol cruiser Essex took them from you, replied Tweedle, saluting the astonished Colonel who dazed saluted in return as the commanders train the Americans aboard steamed away. This remarkable courage displayed by this Scotchman, during these trying times is I think worthy of special mention. It is said he bluntly informed the Mexican army men that he had come for the American non-combatants had been sent by his King to get them and was going to have them by fair means or foul. When the history of the Vera Cruz incident is written it is to be hoped that some of the praise will be given to Commander Tweedle of the B. M. S. Essex who so courageously did so much for the Americans in Mexico in an hour of such grave crisis. Turn Tweedle, Fuston and Roosevelt loose for a short time and they would have Huerta hide hung on to dry.

**GOOD NEWS.**

Many Colorado Readers Have Heard It and Profited Thereby.

"Good news travels fast" and the thousands of bad back sufferers in this vicinity are glad to learn where relief may be found. Many a lame, weak and aching back is had no more, thanks to Doan's Kidney Pills. Thousands upon thousands of people are telling the good news of their experience with this tested remedy. Here is an example worth reading:

J. J. Burnett, Snyder, Texas, says: "I have used Doan's Kidney Pills for the past five or six years, whenever I have had any symptoms of kidney trouble and I have always been benefited. I suffered every year from rheumatic twinges and weak kidneys. Seeing Doan's Kidney Pills advertised, I got a box. They strengthened my kidneys and cured the rheumatic trouble."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Burnett had. Foster-Milburn Co., Props. Buffalo, N. Y.

**FLATTERING OUTLOOK FOR CATTLE.**

The cattle markets throughout the United States are high and the Texas cattlemen who are now busy getting their spring crop of fat heaves to market have every reason to feel perfectly satisfied with the outlook. The grazing prospect this spring is better than it has been for a number of years as the rains have been generous and grass is good throughout the cattle country. Speaking of the future cattle market and the livestock situation in Texas and the Southwest generally the Breeders' Gazette of Chicago says: "Much of the country inquiry reaching commission house circles is for opinion as to when an advance in cattle values is probable. The trade, however, is making no bullish forecasts. In the language of a recognized leader there will be little cause for dissatisfaction if present values are maintained, and that is about all most people in the trade are expecting to accomplish." The product of steer selling at \$8.50 to \$9.00 and few bullocks are realizing more than the latter figures, comes high when it reaches the consumer and both killers and distributors are doing such small volume of business that maintenance of present prices is necessary to enable the to stay in business.

**MANY ARE GLAD OVER LIVER TONE**  
Former Sufferers From Constipation Now Improved Without Taking Unpleasant Calomel.

Many, many thousands of people who formerly suffered from constipation are delighted with the relief brought them by taking Dodson's Liver Tone instead of disagreeable and often dangerous calomel. Calomel is a poison, a form of mercury, dangerous to many people and causing unpleasant after effects for nearly everyone who tries it. Dodson's Liver Tone is recommended as a perfectly safe and reliable remedy to take the place of calomel. This is exactly what it is made for and has been made for ever since the first bottle was put up and sold. It is widely imitated. So be careful to get the original. Dodson's Liver Tone is sold and guaranteed by Floyd Deall who will refund purchase price (\$5.00) instantly with a smile if you are in any way dissatisfied. Dodson's Liver Tone is a palatable vegetable liquid. Its action is easy and natural, with no gripe, no pain and the after effects are agreeable. Dodson's Liver Tone does not interfere with your regular duties, habits and diet, and builds and strengthens instead of weakening you or "knocking you all out" for days, a scamolom and strong purgatives so often do. Dodson's may do for you what it has for all these other happy thousands of people.

**STATE MEETING OF DRUGGISTS.**

Richardson, Texas, May, 15th, 1914. —The annual meeting of the Texas Pharmaceutical Association in El Paso June 16, 17 and 18, promises to be one of more than ordinary interest to the "pill rollers" of the state. Scott White Local Secretary of El Paso, writes that a special rate of \$18.00 from Dallas, Fort Worth, and San Antonio has been secured, with an addition of only one cent per mile for distance beyond. A special trip is promised to Cloudercroft, the "Sky Mountain" and besides this, if conditions permit, an excursion will be made over into Mexico where a bull fight and a cock fight will be put on. Trolley rides are planned for the visitors and a couple of genuine Mexican Suppers placed before the "poison dispensers."

Any druggist who fails to attend the El Paso meeting will miss the greatest treat ever offered to Texas Druggists. If you crave further information write to Dr. E. G. Eberlee, Dallas, or Scott White, El Paso.

Phone 38 for prompt and satisfactory service.

A man who mistakes a shadow for the substance will never progress.

**MITCHELL COUNTY LOOKS GOOD.**

We are now face to face with the best crop prospects that we have had for a number of years. In the winter months good rains fell and put a deep season in the ground, thus enabling the farmers to prepare their land, which they did, then the spring rains came earlier than usual, putting an excellent season in the ground.

There has been a great amount of seed planted and some of it is coming up; in fact, there is quite a lot of the crops already up, while a still greater amount is being planted. The acreage this year will far exceed that of any previous year in nearly every variety of crops usually raised in this section. This is true of those who have been farming here for a number of years, and there are many who are farming this year who have not been heretofore, hence increased acreage.

The rain this week will help the range conditions which are already fine, but the additional moisture will keep the rapidly growing vegetation at its best and insure ideal range conditions within a very short time. The past few days have been real cool which has been detrimental to a certain extent to growing crops, as very little growth can be put on at such a low temperature. However, at this season of the year, such cool weather does not last long and will be followed by better growing weather; some more of those ideal days for which the Colorado country is famous.

We are looking forward to one of the best years in the history of the country, and it looks very much like our fondest anticipation will be realized.

The Record is optimistic; it's our nature, and we believe that the close of the year will find us on the top round of the ladder of prosperity. Our farmers and ranchers will be well compensated for their labors, and will reap their share of the benefits. Sure it rained today, yesterday and tomorrow. The bottom has fell out and the stockman and farmer are happy; the Merchant is jubilant, the banker is joyous and the old timer is gleeful over the prospects of the best year in all West Texas.

The Angelo Standard brings out his big red rooster and says:

Rain! Rain! Rain! That's the schedule of the weather man today in Concholand, and one of the heaviest and most beneficial rains in years is falling throughout the length and breadth of San Angelo's great trade territory, the precipitation averaging from heavy showers to three inches. From far beyond Sterling in the Big Springs country on the northwest to Ballinger and beyond on the southeast and from Sweetwater and Olorado City on the north and east to Sonora and the great cattle country to the south and west the gentle drops are falling, bringing that smile which only Jupiter Pluvius can produce to the faces of stockmen, farmers and business men alike and filling the water holes with that muddy but ever welcome water, to which thirsty cattle will eagerly rush in hot, sizzling August.

Most Prompt and Effective Cure for Bad Colds.

When you have a bad cold you want a remedy that will not only give relief, but effect a prompt and permanent cure, a remedy that is pleasant to take, a remedy that contains nothing injurious. Chamberlain's Cough Remedy meets all these requirements. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and restores the system to a healthy condition. This remedy has a world-wide sale and use, and can always be depended upon. Sold by W. L. Doss.

The town that is lost in the shuffle is the one that has no good roads leading into it. The town that is not up on the map is the one that is without good roads and good streets.

Get the LaFrance from A. J. Payne ever sack guaranteed.

Progress is only possible where there is mutuality and co-operation.

Ben Morgan will order the latest books published for you.

The time has passed when roads are built haphazard.

Received the highest award at Chicago World's Fair

**TEXAS RANGE CONDITIONS GOOD.**

Summary of Week's Reports Shows Beneficial Rains.

Range conditions are good in nearly every part of the State, according to the daily reports of the inspector of the Texas Cattle Raisers' Association. The following is a summary of the week's reports:

Alpine—Weather dry; range short; Amarillo—High winds; weather and range fine.

Beeville—Weather and range good every day in the week. Brownsville—Weather warm; range fine.

Canadian—Weather clear and warm range good. Carlsbad, N. M.—Cloudy and dry; hot winds; cool nights.

Clovis, N. M.—Cool and cloudy; range fine; cattle doing well. Dalhart—Nice growing weather; range good.

Menard—Weather fine; cool and misting, range good. Midland—Admixture of rain, cloudy and misting weather.

Paducah—Clear, range good; cattle in good shape. Pecos—Cloudy and showers.

Pleasanton—Clear and hot; range fine. Hebronville—Weather fine; range good.

Roswell, N. M.—Dry and warm, but range good. San Angelo—Cloudy and warm; grass short.

Sansom—Weather fine; good rains, cattle doing nicely. Sinton—Weather warm; range fine.

Uvalde—Weather hot; range good, but needing rain, cattle doing fine.

The past year saw the completion of nine Y. M. C. A. buildings in foreign fields as follows: Kyoto university, Hostel, \$8,000; Kyoto city medical school, Hostel, \$6,000; Seoul industrial annex, \$12,550; Hong Kong Student, \$27,500; Rangoon Student, \$20,000; Bangalore City, \$35,000; Alleppey, \$2,750; Robert College, Constantinople \$40,000; Syrian Protestant college Beirut, \$50,000. Additional ones under construction are the Korean Student, Tokyo, \$12,500; Tientsin \$100,000; Shanghai Boys' \$55,000; Poshow, \$45,000; Manila Philippine, \$60,000; Manila Student, \$55,000; Constantinople, \$75,000; Bangalore Army \$25,000; Karachi, \$15,000; Jubbulpore, \$6,000; Secunderabad, \$4,500; Seoul Gymnasium for Boys' Extension, \$20,000.

A farmer situated alongside bad roads is seriously hampered in getting to the markets with his products.

Ben-Morgan sells for cash only.

Good roads, like salvation, are costly, but are a permanent joy when once secured.

**Catarrh Cannot Be Cured**

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

**LARGE REALTY DEAL CONSUMED.**

Fort Worth—A deal was closed in this city whereby J. M. Shelton of Amarillo becomes the owner of the Romero Ranch, which consists of 211,000 acres and lies in Hartley and Oldham counties. The consideration was \$850,000 and is recorded here as one of the largest realty deals consummated in this part of Texas within twenty-five years.

**The Telephone "S. O. S." Saved the Farm**

"One day last fall my wife and I started for a drive, leaving the house deserted. A short while after we'd passed Jones' place, Mrs. Jones saw smoke coming from our roof.

"She ran to the telephone—Got Mrs. Reed who operates the switchboard located in her home. Mrs. Reed called all the nearby people on the line (two long rings—the emergency signal,) and they put the fire out with little damage."

A telephone on the farm is a protection and safe-guard in all emergencies. Southwestern Tel. & Tel. Co. 4-R-14.

## CHURCHES, CLUBS AND SCHOOLS ENTERTAINMENTS, PARTIES AND SOCIETY'S DOINGS

BY MRS. A. L. WHIPKEY

You will confer a favor upon the Record and the editor of this department if you will phone her (No. 157) any announcement or news item

### TEACHERS.

What has become of the old-fashioned boy  
Who didn't talk back to his pa?  
And what has become of the girl—  
Such a joy—  
Who didn't know lots more than  
ma?  
They have wandered away; they  
have gone, hand in hand.  
With those others who mounted  
the skids.  
Those old-fashioned parents who used  
to demand  
A little respect from their kids.  
And where can that old-fashioned fel-  
low be found  
Who gave up his seat in the car?  
Who, pausing to chat with a woman,  
felt bound  
To at once toss away his cigar?  
He has gone, hand in hand, with the  
old-fashioned maid  
Who used to say "Thanks" for the  
seat.  
Who thought cigarettes, for men,  
even, a shade  
Indecent, not merely effete.  
This jolly world moves in a lot of  
new grooves  
And brightly dawn many new days;  
It's a good world, you bet, growing  
better—and yet  
There was sense in some old-fash-  
ioned ways.  
Now if you had command of the whole  
blessed land  
Where would you start to put on  
the lids?  
Can you think of a better beginning,  
off-hand,  
Than inspiring respect in the kids?  
—LEE SHIPPEY

### IN CLUB LAND.

#### Bay View.

Mrs. R. O. Pearson was hostess for the Bay View Club last week with Mrs. G. W. Smith as leader. This program was carried out:  
Roll Call—Current Events.  
Quotations from Shakespeare.  
Anthony and Cleopatra, Act III scenes 12, 13, 14 and Act IV scenes 1, 2, 3, 4, 5, 6.  
A two course luncheon was served at the social hour.

#### Standard.

The Standard club met with Mrs. Sherwin last Friday.  
This program was carried out:  
Roll Call—Favorite Play, and Why.  
Romeo and Juliet, act V, scenes 1, 2.  
History, Chapter 12.—Mrs. Prude, Mrs. Sherwin.  
Paper—"Kassuth"—Mrs. Gary.  
Social Hour—Refreshments.

#### Hesperian.

The Hesperian Club met with Miss Jo Dry last week at Miss Dry's Studio with Mrs. Edgar Majors as leader and carried out this program:  
Roll Call—Current events.  
Parliamentary Law, Contest.

**MR. LEWIS A. RIFFLE** tells his experience with coughs and colds that lead to nervousness and debility.

Colds are often aggravated during the summer because inactive bowels and a stomach out of order are prime causes in keeping a cold from getting well.  
Pe-ru-na has very beneficial laxative qualities that neutralize such conditions. Its tonic ingredients tone up the system, and thus invigorate the stomach's functions to normal activity.

Mr. Lewis Riffle.

Mr. Riffle's experience is especially interesting at this time of the year because it shows the close relationship there is between a nervous breakdown and a neglected cold.

Pe-ru-na should be kept in the home at all times, that a cold upon its first appearance may be treated promptly and successfully. This often saves money and time, and what is more important, a great deal of vitality.

Mr. Riffle, of 758 Gautenbein Ave., Portland, Ore., writes: "I have found Pe-ru-na a most remarkable medicine for building up the system and for curing coughs and colds."

"I took it for four weeks a few months ago when I was all run down, nervous and debilitated, and it quickly restored my health."  
"I always keep it on hand, as a few doses will cure a cold if taken in time."  
People who object to liquid medicines can now obtain Pe-ru-na Tablets.

Reading of Year Book.  
Talk—American Composers—Mrs. S. L. Majors.

At the social hour the members were escorted to Ben Morgan's where ice cream and strawberries were served.

### G. F. C.

Miss Jeanette Earnest was hostess for the G. F. C. last week. Forty two was played. The guests were Misses Jessie Person, Mabel Smith and Lela Whipkey.

The prizes were won by Mrs. Vaughn, Miss Mabel Smith and Ethel Stokes. Refreshments of brick ice cream and angel food cake were served.

### TEACHERS ELECTED.

The school board met last Saturday night and selected some of the teachers for next year. There are several yet to be elected and the board will meet again on Saturday night to complete the work.

Those selected so far are:  
Superintendent, W. W. Hart; Principal, Miss Nannie Ellis; Seventh Grade, Miss Mae Ely; Sixth Grade, Miss Johnnie Collins; Fifth Grade, Miss Lucele Russell; Fourth Grade, Miss Exie Campbell; Primary teacher, Miss Sallie Hutton.

The third grade teacher and teacher of Latin and German are yet to be elected.

All Colorado is proud of the public school and the record it has made. From the lowest grades to the grade in the high school the teachers are efficient and do their work well. Superintendent Hart in his quiet way is giving Colorado a system of public schools that is second to none.

This reason he can do it is he has competent helpers. Principal Miss Ellis is a woman with high ideals and is a most faithful and persistent worker. What is true of Superintendent Hart and Principal Miss Ellis is true of every teacher in the public schools of Colorado. Nothing but high class work is done, and we are glad to honor them for the service they are rendering. Teaching is not play, some unpleasant tasks come up in a school of 700 pupils, patrons will complain, however we have heard no complaint whatever, but much praise. But the point is some one feels his child has been overlooked or mistreated let him help the teacher right the mistake instead of falling out with the teacher, remembering that best results are obtained by co-operation. The session just closed has been one of great helpfulness to the children and young people of Colorado and should be a source of satisfaction to every citizen of the city. No agency forms the ideals and directs the thoughts of the boys and girls of the city like the public schools. Nothing touches so many lives for good or bad as the public schools, and when the splendid work of the teachers of Colorado is contemplated it is with a feeling of profound gratitude that the boys and girls of the city have had such fine opportunities for study and are allowed to come in contact with people like our teachers.

To the board of Trustees of Colorado Public Schools, who give by their time freely to look after the interests of Colorado much of the credit is due. Back of every good school there must be a board of trustees composed of wide awake, good men.

The Baraca of the Baptist church meets at 10 o'clock at the Parsonage. All members are requested to be present and bring a new one. We had a good attendance last Sunday. The lesson was enjoyed by all present as our pastor explains this scripture to the class. We hope to be able to send delegates to Waco to the Baraca-Philanthropy meeting there on June 6. All strangers are welcome. Come all.  
WALTER OWENS, Class Reporter

Miss Whipkey's recital, assisted by Choral Club, Tuesday night at Opera House—25c.

### BIRTHDAY PARTY.

Miss Fannie Bess Earnest entertained a number of friends in honor of her eighth birthday, last Thursday.

A delightful time was had playing games.  
The little hostess served brick ice cream and cake. Many dainty gifts were left the little lady as a souvenir of the pleasant occasion.

Before your clean house repaper those rooms with that fine paper at DOSS.

Prayer meeting Wednesday evening at 8:15 P. M.  
Every body most cordially invited to all these services.

### METHODIST CHURCH.

Every Sabbath Sunday School at 9:45 a. m.; Preaching at 11 a. m. and 7:30 p. m.; Junior League 2:30 p. m.; Senior League 6:30 p. m.; Prayer meeting every Wednesday 7:45 p. m.; Choir practice every Wednesday following Prayer Meeting; Vesper Service every 4th Sunday, 7:30 p. m.  
A cordial invitation is extended to all.  
R. A. CLEMENTS, Pastor.

### FIRST BAPTIST CHURCH.

(J. N. Campbell, Pastor)

Protracted meeting at the Tabernacle the first two weeks in August. Dr. C. B. Williams of the Seminary doing the preaching.

Increase for past 6 months: 16 (2 by baptism, and 14 by letter.)  
Decrease for past 6 months: 35 (2 by exclusion, 14 by letter, 16 put on non affiliated list, and 3 by death.)  
Present membership 244.

Fifth Sunday meeting of Sweetwater Baptist Association at Roscoe Thursday, Sunday, May 28th 31st.  
Public worship 11 a. m. and 8 p. m. May 24th. All welcome.  
Sunday School 10 a. m. J. H. Greene Superintendent.

Baraca Class 10 a. m. at Pastor's Home.

Junior B. Y. P. U. organized at 3 p. m. by Mr. and Mrs. W. R. Morgan. The boys and girls of the church 16 and under will join.

Senior B. Y. P. U. at 7 P. M. It is growing every Sunday.

Prayer Meeting Wednesday 8 p. m. Teachers Meeting and Normal class after Prayer meeting.

If you like good classical music attend the recital Tuesday night. Hear the Choral Club sing, and the little tots play—Voice, Piano, Violin.

### SLUMBER PARTY.

Miss Juanita Pond entertained a number of her friends, in honor of Miss Marion Adams, last Friday night with a slumber party, before she left to spend the summer in Alabama.

A good supper was enjoyed, games played, and a little beauty sleep was enjoyed.

### PROTRACTED MEETING FOR EAST COLORADO.

The Presbyterians have been kind enough to loan their building in East Colorado for a meeting to begin Monday night June 1st.

Rev. J. A. Lindley of Sweetwater, assisted by Pastor J. N. Campbell, will conduct the meeting.  
All are cordially invited to attend.

Refrigerator season is on and we have the goods and we are anxious to sell them.—H. L. HUTCHINSON & CO.

### Jersey Bull for Service.

I have a full blood jersey bull for service. Will come and get your cow and return her for \$1.00. Service for bull \$2.00, in advance. Phone No. 45 or 290. R. L. BENTON 5-22p.

### KINGS DAUGHTERS.

Mrs. Webster was hostess for the Kings Daughters of the Methodist Sunday School last week.

A large number were present. Besides the regular business they decided to study the Hamills Books of the Bible during the summer.

The guests were Mesdames Crawford, Clark, Waller and French of Merkel and Miss Grace Williams. Grandma Cooksey and Grandma Hall honored the ladies with their presence which was a delight to them indeed. The richness of their lives lends a sacredness to any gathering for according to nature they can not grace these occasions much longer for they are both living on borrowed time, but may many years be granted them.

At the social hour the hostess served Angel breath and cake.

### PREACHING SERVICES.

Rev. A. R. Lawrence of Abilene will preach at The Church of Christ next Saturday evening at 8 o'clock also Sunday morning at eleven o'clock. Sunday afternoon and Sunday evening. Everybody cordially invited to attend.

### A CORRECTION.

Last week in giving a list of the honor pupils of the public school we failed to give Miss Ruth Dorn as first honor in the eighth grade and put Master Willis Jones as winning first honors in the first grade and Little Miss Leonora Ehrlich as second when it should have been Leonora as first and Willis as second.

### Y. W. A. MEETING.

The Y. W. A. of the Baptist church met with Miss Madeline Shepherd Wednesday afternoon. An interesting program was carried out.

At the social hour the hostess served gelatine and cake.

### KEEP IT TUNED.

C. W. Pos the expert piano tuner will look after your piano regularly. Trips every six months, summer and fall.

The strength and vigor of the state is as much dependent upon conserving the fertility of the soil as upon the intelligence of the people.

Don't ask for credit you will be turned down. BEN MORGAN.

Drink this and be refreshed!

# Studebaker

THE FULL FLOATING REAR AXLE WITH FULL TIMKEN BEARINGS **FOUR**

Electrically Lighted **\$1050** Electrically Started

Why STUDEBAKER FOUR Sales Are Enormous

Bluntly—because no car on the market reveals equal value.

Because, for instance, no other car in the world at this price has a full floating rear axle equipped even to the hubs with Timken bearings.

Because this axle could not be made better, no matter how much we were willing to spend or you were willing to pay.

The same thing is true of Studebaker-Wagner starting and lighting—the cars of highest cost may show its equal—but they cannot show its superior.

The same thing is true of the proportion of parts actually manufactured in the parent plant—the costliest cars may make as good a showing, but none of them can show more.

The same thing is true of the accuracy of the processes which enter into the manufacturing—they may be equalled in the costliest cars, but they are not surpassed.

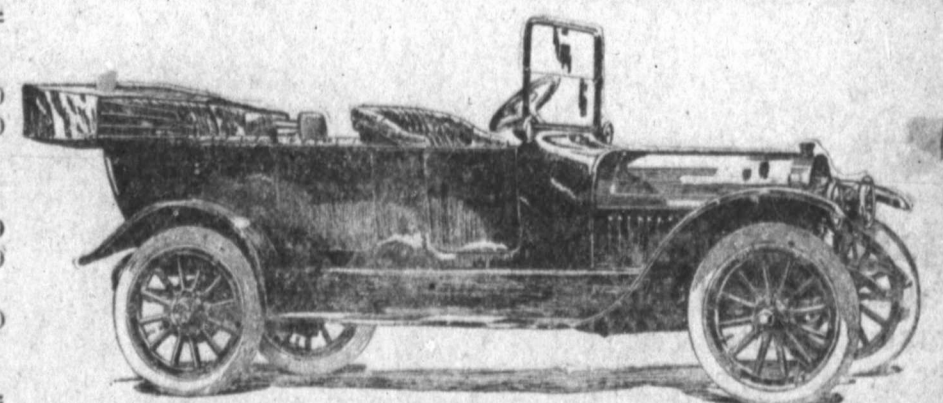

We repeat, with added emphasis—the sales of this \$1050 FOUR are enormous because no car now on the market reveals equal value.

### MEXICO COTTON.

Our local compress has been busy the past week compressing quite a lot of cotton shipped out of Mexico. Some say it is cotton confiscated by Villa and being shipped to Eastern spinners. Of course it was stopped at the first compress which happened to be Colorado. Up to this time 52 car loads have been received and it is rumored that there are 25,000 bales all told, if this is so there will be over 600 cars. This Mexican cotton is put up in such a way as to attract attention, the bales are only 4 feet long and the bagging and wrapping resemble fish netting more than anything else. There is a great deal of mystery attached to the shipment of this cotton, no one can find out anything about it, where it comes from who is the shipper, where it is going, how much there is of it etc. The courts seem to have something to do with it as an injunction was gotten out against the T. & P. road and some of the cotton stopped at Marshall. We understand there is some of it at Big Springs and it seems that a shipment is received just when so ordered by the courts. It is Mexico cotton all right and is quite a nice pick up for our local compress and especially so should they get the whole 25,000 bales.

### Not Fit For Ladies.

Public sentiment should be against it and we believe it is; there can be no reason why ladies should suffer with headaches and neuralgia, especially when Hunt's Lightning Oil gives such prompt relief. It is simply a question of getting the ladies to try it. All druggists sell Hunt's Lightning Oil in 25c and 50c bottles. A. B. Richards Medicine Co., Sherman Texas. 5-30.

### DISTRICT COURT.

On Monday of this week the regular May term of the District Court convened with District Judge W. W. Beal on the bench. All the Court officials present and everything in readiness.

The Grand Jury was empanelled as follows:

C. P. Conaway, J. C. Bullock, A. A. Dorn, T. J. Free, D. C. McRae, W. H. Hale, J. S. Barber, C. M. Thompson, J. M. Baker, J. F. McGill, D. L. Phillips.

The Judge delivered his charge orally and the Grand Jury retired, selected Mr. C. P. Conaway as foreman and commenced their labors. On Tuesday the Grand Jury adjourned for two weeks without making a report.

The Court has put in this week on the civil and appearance docket. There is not a Criminal case to come before this court.

Next Monday May 25th The Jury Docket will be taken up and the following has been summoned as jurors for that week.

J. J. McLure, J. J. Hagood, C. D. Bacon, C. B. Armstrong, D. H. Pace, J. H. T. Johnson Jr., E. B. Morgan, J. J. Morris, H. G. Reese, T. J. Wimberly, R. M. Jones, T. Z. McKinney, A. K. McCarley, A. C. Pratt, W. C. Farmer, J. C. Northcutt, H. M. Perry, M. D. Cranfill.

### Rheumatism Quickly Cured.

"My sister's husband had an attack of rheumatism in his arm," writes a well known resident of Newton, Iowa. "I gave him a bottle of Chamberlain's Liniment which he applied to his arm and on the next morning the rheumatism was gone." For chronic muscular rheumatism you will find nothing better than Chamberlain's Liniment. Sold by W. L. DOSS.

### FARM FOR RENT.

**COMMISSIONERS COURT.**  
County Fathers Work While Their Constituents Sleep. Board of Equalizers.

The Commissioners Court met last week in regular May term. Aside from the regular routine of work such as passing on the quarterly reports of the various officials, passing on accounts, hearing road petitions, etc., the commissioners were confronted with the proposition of going over the tax rolls carefully with a view to equalizing the tax renditions of the county.

G. B. Coughran, tax collector, D. T. Bozeman, Justice of the Peace, R. H. Watlington, Justice of the Peace, A. J. Coe County Judge all submitted their quarterly report which was examined and approved.

D. T. Bozeman and H. S. Beal as butchers submitted their quarterly reports, examined and approved. School trustees annual statement from Colorado and Lorraine independent districts were checked and passed.

Some corrections were made in erroneous tax renditions etc. Canvassing the returns of several special elections at Lorraine and Fairview was gone into and the election results declared.

Provisions were made for a partial maintenance of a Mrs. Ammons by the County.

J. H. Airhart and others petitioned for a public road.

Messrs. J. A. Buchanan, Y. D. McMurry, J. F. McGill, D. N. Arnett and H. C. Beal were appointed to go over the proposed road and assess the damages.

The Per Diem was allowed when the Court resolved itself into a board of equalizers and the tax rolls carefully gone over and checked up.

Good young Jersey milk cow for sale or trade—Calf about two months old, but cow milks without calf. See us for bargain, or phone 222. J. C. GRAY.

Ben Morgan The Confectioner.

**PAY THE CASH.**

The grocery and dry goods men probably get from 30 to 90 days time on their goods that they sell you on the same terms, but people I don't get 30 seconds time on anything I sell and I am selling meat on a small margin of profit and I expect the cash for it.

I have said that I didn't mind making a ticket or two if you happen to drop in without the money or send your child but if I have got to run an account for you to get your trade I don't want it whether you are a wage earning man or a man worth \$50,000 dollars because whoever owes me I can't use the money until I get it and I need it all the time.

I handle the best I can get and will appreciate your trade.

Markets in nearby towns are getting 25 and 27 1/2c for meat that I am selling for 20c.

Very truly yours,  
5-29-c BEALS MARKET (H. S. Beal)

**WATCH THE WHEAT GROW.**

The rain Tuesday night was just what the doctor ordered for small grain. Wheat and oats are the finest the country has raised in many years, and there is a lot of it which is the best part of the story.—Abilene Reporter.

A city to grow and prosper must have citizens who realize that industrialism is the life blood of a town.

**IRRIGATION PROJECT INSPECTED.**  
Congressman Smith and Director Newell Visit West Texas Sites.

Pecos, Tex., May 15.—Director F. H. Newell of the United States Reclamation Service, and Congressman W. R. Smith of the Sixteenth District conferred with local people with reference to the reservoir and irrigation possibilities of the Pecos Valley. At a meeting attended by people from over a large portion of the Pecos country, Mr. Newell expressed himself as favorably impressed toward the proposition of a reservoir for the Pecos Valley of Texas.

Mr. Newell said that Secretary Lane's plans for the securing of an appropriation of approximately \$100,000 for reclamation work were interrupted by the Mexican situation, but that he was confident sufficient funds could be secured for any definite need of the service in this locality when the need had sufficiently developed.

Mr. Newell was taken to Phantom Lake, a body of water covering about eight square miles, and a proposed reservoir site. He was also taken to Barstow and shown the development around there. He left Wednesday morning with P. M. Fogg, the United States Reclamation Service engineer, who has in charge the topography and hydrographic survey of the Pecos Valley, to Arno, where the party planned to board the northbound Santa Fe. They detrained at the State line and inspected the Ezell reservoir site.

This, like the Elephant Butte, lies directly across the river. If constructed, it will impound more than 19,000 acre-feet of water, and will form a lake more than eleven miles long. It is estimated that it will cost in the neighborhood of \$1,000,000.

**THE GREATEST KIDNEY REMEDY ON EARTH," SAYS A GRATEFUL WOMAN.**

I want to tell you how much good your Swamp-Root did me. About four years ago, I suffered from what the doctors called fistula and for two years of that time I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root.

After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

Respectfully yours,  
MRS. JOHN BAILY,  
West Main St., Portland, Ind.  
Subscribed and sworn to before me this 12th day of July, 1909.  
C. A. BENNETT,  
Notary Public.

Letter to Dr. Kilmer & Co. Binghamton, N. Y.

**Prove What Swamp-Root Will do for You.**

Send ten cents to Dr. Kilmer & Co. Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Colorado Record. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

The person who sees no beauty in smokestacks, skyscrapers and railroads does not stand for progress.

John Vaughan, the old reliable feed man. All kinds of feed all the time. Phone 27 for quick delivery.

**MISSIONARY COLUMN.**

**A Shocking Custom.**

Mrs. J. R. Moore, writing from Choon Chun, Korea, says: Last night the death angel came to the home of Mr. Sin and today the poor man was buried. He left a wife, a baby and five measures of barley—nothing else I am told. Our Christians invited the widow to come and spend the night with them, not merely because she was lonely, but to protect her from anyone who might come by force and take her away to become the wife, perhaps the school one, for someone else. She has already been consulted on the subject and expressed a desire to live the remainder of her days in widowhood. If she were to be taken it would be no violation of Korean custom, for often when a young, or even middle aged woman is left a widow a company of men go, usually at night I believe, and by force take the widow to become the wife of some other man. It may be one whom she has never seen before.

**A New Idea.**

The young women in Korea use various methods for travel when doing evangelistic work in the country. Occasionally they go in jinrikishas, often on horseback, and oftener they walk, sometimes for miles. Not long ago Miss Mary Myers had rather an amusing experience on a country trip. No jinrikisha nor horse was to be found and there were seventy li (twenty three miles) between her and the station where she was to take the afternoon train. The church elder came to her rescue and offered his cow. All arrangements were made. Her boxes (saddlebag style), coats and bedding were placed on the cow, and at 3:30 a. m. perched high on top of the pack, she began the trip in the jolliest moonlight possible. There were two hours in the moonlight, a glorious daybreak, a spark of sun and then snow. Miss Myers says: "Really a cow affords delightful riding, and I am thinking of investing in a cow for itinerating purposes."

The following letter from the wife of N. E. Joyner, principal of Laurens institute, Monterey, Mexico, tells a pitiful story in a few brief lines. But what words, however eloquent could describe the agony of this deserted wife in the sufferings of her hero husband at the hands of a Mexican mob. The letter is dated Jackson, La., and is written to one of the mission secretaries it is as follows.

"Dear Dr. Cook: I have just received a letter from Mr. Joyner recounting the frightful experiences he suffered during the past two weeks. He was arrested during an anti American demonstration on the 22nd carried through the streets in the midst of a cursing mob, taken to the penitentiary and sentenced to be shot. Just before the time for the execution he and three other Americans were released by the rebel soldiers. He says "By the grace of God I was able to face what seemed certain death without flinching!"

"He said the school had closed for a few days, but would finish the year's work this month. Truly God hears and answers prayer."

"MRS. N. E. JOYNER."

The Southern Presbyterian church has 2,778 members in Japan, of which over 12 per cent were added during the past year.

Baptist women of Alabama paid to their foreign mission board a jubilate offering of \$41,990.74, and the home board \$293.88 making their total jubilate offering, over and above the gifts through the regular channel, amount to \$42,284.62.

Of a population in Mexico of 15,000,000 it is said that the white races number 3,000,000; half breeds, 6,000,000; pure blood Indians, 6,000,000 but that even the white are not all of wholly pure blood. Eight millions can neither read nor write.

In China the membership of the Methodist Episcopal church, south has grown from 2,283 in 1910 to 4,377 in 1914. The attendance of the Sunday School scholars has more than doubled advancing from 3,274 in 1910 to 6,710 in 1914, while the number of students in schools has increased from 1,770 to 3,050. Contributions in the field for the support of the work have risen from \$4,319 to \$8,410.

In Turkey there are 580,000 people to every medical missionary.

Porto Rico has 208 organized evangelical churches with a membership of 12,000.

A small Chinese girl, carrying a very large baby, was once asked how she managed to lift so big a burden. Her answer was: "That is not a burden, it is my brother."

The Y. M. C. A. of Constantinople has secured pledges of \$1,400 a year for support of a new association building.
