SHORT HORNS HAVE STREAK OF BAD LUCK

LOOSE THREE GAMES TO ABILENE AND THREE TO BAIRD.

Had Won 10 and Lost 6 and Tied One
Out of Seventeen Games Played
Had Bad Luck This Week.

The last three days of last week the Short Horns went to Abilene in a series of three games.

The first day's game was a good one, both teams playing good ball, but the Bankers seemed to be the best sluggers and piled up a score of five to Colorado's two.

The second day was about such a game as the first. Abilene winning by a score of five to three.

The third game was an easier victory for the Bankers than the others. The score being 7-3 in their favor.

The attendance on these games was very light—in fact the gate receipts did not pay the expenses. Abilene may be a good town for some things, but it seems that when it comes to supporting the national game, they shy at a 25c gate fee. In our first game with Baird the gate receipts were larger than all three days in Abilene.

The Colorado boys were badly handicapped in the Abilene games by the umpire, who gave all doubtful decisions in favor of his home team, and some that were not so close. In numerous instances the Colorado boys were plainly discriminated against. Even some of Abilene's fans, who saw all three games, admitted that the umpiring was "rotten." But the Short Horns are in the game for the sport, as well as what can be fairly made out of it, and like all true sportsmen who love the game, can take defeat with as good grace as any of them. But all games should be "played fair" and let the victory or defeat be untainted by the umpire's loyalty to his home team.

Never has there a team played on the Colorado diamond, who had any kick coming about our umpiring. And the Record hopes that our good reputation on this line shall be sustained throughout the season. And if the Abilene team has the nerve to come up and play a series here, we will be as fair with them as we have been with all others.

The boys came home Sunday morning, and met Baird Monday in the first of a series of three games.

That Baird had a bunch of hard hitters was plainly shown when they lined up for business.

They hit out the ball in fine shape in the first game, scoring three in the first inning, but Colorado did the same to them, scoring three in their first. In the third both teams scored one each, after which Colorado was shut out, while Baird marked up three more. Making the score 7-3. Colorado lost this game when Baxter, who was in the box, threw the ball away on first, and let in two scores. Very few errors were made in this game, as almost every score was earned by good clean hits and several pretty plays were made. The features of this game was Hugh's catching and right fielder Dobbs' playing. He got eight flies, and went to first base every time he went to bat, except once when he was caught out on a foul.

The second day's game was one of the "rottenest" affairs of the season. Both teams were "punk," and it looked like everybody on the grounds could do nothing but make errors. Baird made almost as many as Colorado, if that were possible, but won out easily by their superior hitting. All that is necessary to say of this game is that the score was 14-9 in favor of Baird. Colorado's battery, Riggs and Hughes, did some good work, but could not win against such odds. If they had been supported like Baxter was the day before this game would have gone to the Short Horns.

The third game was also punk. The local boys started off like they were going to play ball, scoring three in the second and two in the third. But the visitors broke over in the fourth and gradually drew up until they had tied the score, and on an error of catcher on throw to first two trotted over the home plate. After this Colorado did not recover, and the game finally went to the visitors by 9 to 6.

The only feature of this game worth mentioning was the home run of Elmer Crawford in the seventh.

Baird left Wednesday night for Big Springs, where they have a series of three games.

The Colorado boys are excusable to some extent from the fact that this closes six series of three games each, in consecutive playing—three weeks of hard work. Most of the boys have regular jobs here in town, and work every day until time to go to the ball ground. They were about fagged out, and need a rest badly. Manager Scott says after he rests them up a few days and probably makes some minor changes in the line up, he will be ready for all comers, as he thinks the bad run of luck is now broken, and that he will win back the place in his average.

Opponent	Played	Won	Lost
Big Springs	6	3	3
Loraine	2	1	1
Baird (tied one game)	6	3	3
Weatherford	2	2	0
Cuthbert	1	1	0
Anson	3	1	2
Abilene	3	0	3
Total	23	10	12

LOOK OUT! YOU MAY BE NEXT!

Judge Thomas L. Blanton's versatility in misrepresentation probably reached its acme Monday night over in Westbrook. A good sized audience was present, and after screaming his usual trade against Judge Smith, he approached toward a man in the audience, stamped his foot vigorously, threw down his index finger into the man's face, and yelled "There sits Lester Majors of Midland, the man who wrote those awful misrepresentations about me in the Midland Reporter—there he is! Ah, Mr. Majors, I forgive you—I forgive you!" and then he went on to describe all this man had done against him. The man was somewhat abashed and taken back—but the crowd concluded that his uneasiness was to be expected, after all he had done against Judge Blanton. Twice during his speech Judge Blanton denounced the man as "Majors." The audience disburbed, none the wiser as to the man's identity, depending, of course, on the word of this Champion of Truth, Judge Thomas L. Blanton.

The following Tuesday last, Judge Blanton ran across the man at Loraine, in the presence of a large crowd in front of the bank there, he approached the man and said "How do you do Mr. Majors," and extended his hand; to the surprise of those present, the man looked Blanton in the eye, spurned his hand, and in a most gentlemanly manner said "My name is not Majors, sir; I have never been in Midland in my life. I sat at Westbrook last night and listened to you deceive those good people overthere in denouncing me as a man who had written falsehoods about you," and, from all reports, this stranger gave Blanton a thorough dressing down. Judge Blanton actually tried to talk the man into being Mr. Majors of Midland! Finally, realizing his predicament—Blanton swelled up and said defiantly "Well, a man told me you were Majors of Midland!" And, in justice to Judge Blanton, we will say that he apologized to the gentleman for calling him Mejors—but not for denouncing him as the man who had written the articles; and in his usual way, Judge Blanton unlimbered his prolific supply of soft soap and told the man he knew he was a better man than Majors, anyway! The man then asked Judge Blanton if he was going back over to Westbrook to retract his misrepresentations—to which Blanton made no reply.

Reader, do you grasp the significance of this? We will, for charity's sake, admit that a man did tell Blanton that the gentleman in question was Lester Majors, of Midland; let's admit it. Now, would you or any other sane, normal man publicly denounce a stranger whom one single man pointed out to necessary to say of this game is that you as being a certain individual—would you stamp your foot and fling your finger in the man's face and denounce him? But—remember—this was Thomas L. Blanton—this is the man who said Judge Smith did not deliver his speech in Congress; this is the man who said that the Powells, of Baird, had named a Postmaster to be appointed at Baird in 1916; this is the individual who said an ex-Confederate soldier had been ruthlessly turned down by Judge Smith at Haskell—BECAUSE A MAN TOLD HIM SO!

As we started out to say, you may be next—no man in a Blanton audience is safe from attack.

TOO COLD FOR SPINELESS CACTUS PERMITS OF 2500 SALOONS TO EXPIRE

Colorado Record

I noticed in the Record that you suggest planting the spineless cactus in your locality.

Kindly permit me to say a few words concerning the spineless cactus. I have made a test of the matter here in Arizona, and my belief is that it will only thrive in a country where the temperature rarely ever drops below freezing. This is a milder climate than Mitchell county and the winters are too cold for it. My plants made a good growth the first year. I gave them plenty of water and some of them grew as many as 7 and 8 leaves, but soon froze down to the ground after winter set in. They came out in the spring and made a very good growth the second year but that winter finished them.

E. C. Cullen, McNeal, Ariz.

The new painting of Uncle Joe Cannon in the capitol is not at all lifelike. It hasn't a cigar in its mouth.

FOR SALE—One mare and a single buggy.—See or phone L. E. Allmond.

AUSTIN, Texas, June. On July 19 the liquor permits of 2,500 of the 2,500 saloons now operating in Texas will expire according to I. E. Hartsell, chief liquor permit clerk in the controller's department, in order to avoid a hiatus among the saloonkeepers over the state. Mr. Hartsell has been urging these retail liquor dealers to send their applications for renewals at once. As a result a large number of the permits have already been renewed.

Hartsell says that where there are no protests and where the applicants for renewal have complied with every provision of the law, the permits are being renewed. There are a number that are being held up for action by controller Lane, who will be back from his campaign trip on June 28. Those saloons whose applications for renewal of permits have been held up and are not renewed by July 10 will be compelled to close their places of business until the permit is granted.

How would it do to get up a joint debate between Henry Savage Landon and Theodore Roosevelt?

JUDGE-BLANTON'S VENOMOUS TIRADE.

In Which He Attempts to Answer Congressman W. R. Smith of Colorado

The United States mails have just been befouled by as vile a document as was ever produced. We have before us Judge Thomas L. Blanton's latest appeal to the voters of the district. Being a candidate desirous of defeating one, Smith, it would seem that the quarrel, if any, would be between the two contending candidates. But the first portion of the aforesaid document is devoted to as loathsome vicious besmirching of the characters of men who are his neighbors in Abilene, as could be imagined. None are spared; the chief executive of the city of Abilene is made the object of his venomous pen, because he is supporting Smith; the chief executive of Taylor county comes in for his share, for the same reason; and the names of other prominent citizens in Abilene are dragged in for discussion. Then as a pretense to fulfill the solemn promise which he (Blanton) made to the voters to prove everyone of the things which Judge Smith said were misrepresentations, he proceeds to pull the wool over the eyes of the voters by an entangled tirade of evasive argument, not a single word of which is even a pretension of refuting Smith's twelve charges of misrepresentation. Judge Blanton has requested the voters to go to the polls and vote against him if he did not make good his charges against Smith. There is no question as to the outcome of the Congressional race on July 25.—West Texas News.

JAKE'S RESTAURANT CLOSED

Agreeably to his usual habit, Jake Maurer closed his restaurant this week and will take a well earned vacation, which will be devoted to fishing, when fishing is good; hunting when hunting is in order and no violation of law, and simply resting the balance of the time. He expects to be gone two months, and on his return, before opening his restaurant for the fall run of business, he will thoroughly renovate the premises from top to bottom and otherwise make the place cozy and inviting. 7-10c

WACO—Contracts for the construction of 175 miles of public roads were awarded this week. This entails an expenditure of \$894,271.43

JACKSONVILLE—Fourteen carloads of tomatoes were sold at public auction this week, bringing 85 to 95 cents a crate.

Their fickleness is what makes some girls interesting.

CORSICANA—Seventy miles of road will be constructed within the next two months.

ROBSTOWN—Netting farmers 1,050, a carload of roasting ears containing 20,000 pounds of corn has just been shipped to Kansas City.

QUANAH—A \$20,000 extension of water mains has been ordered.

In his book "busting 'em" Ty Cobb bats about 160.

July

July owes its name to one of the most dramatic incidents in history. After getting the tolls repeal bill through the Roman Senate, Caesar insisted upon keeping the body in session until it did something about the trusts. The Senate had been in continuous session for more than a year, almost every plank in the platform had been religiously kept, and many of the Senators had already given up their chautauqua work for one summer. The fact that Mark Antony, Caesar's Secretary of State, was doing his Chautauqua work on the side, which the Senators could not do, added bitterness to impatience. Caesar charged some of the Senators with joining in a business conspiracy to save trusts. He said he had received thousands of letters from business men saying that unless they had peace and quiet for awhile everything would collapse. He accused Brutus, Cassius and others of the opposition party of having inspired these letters, and announced his determination to keep the Senate at work until it passed the trust bill, if it took all summer. The next morning while passing through the White House to the Senate Chamber he was set upon by Cassius and Brutus and some of their associates, and assassinated. Thus perished the greatest reformer the world had ever known up to that time, a soldier, statesman and author. He had ended the war in Gaul by dividing that country into three parts, reversed the Roman tariff downward, reformed the currency, adjusted the canal tolls, negotiated with the Persians, and struck steadily to business, neither going bear hunting or playing golf. Mark Antony, who preached the funeral oration, suggested that the month of Quintilis, in which he had been born, become his monument, and the name of the month was therefore changed to July. Being rid of Caesar, the Senate adjourned, the trust bill was abandoned, and Rome fell. Once mistress of the world, it is now one of the little picture post card kingdoms on the Mediterranean.

The college graduate will wake
From dreams of being in demand,
And p. familias will make
Him hustle as a harvest hand.
The festive calf will sweat the fly
With nice precision in its plump,
The territory voted dry
Will sadly rally round the pump
The fisherman will cast his lot
When summer skies are soft and blue,
And the widow discover that
A one-piece bathing suit will do.

The summer sun will take its place
Another season overhead, and all the
area of space will turn a pergatory red.
The ice man dashing to and fro will
sound his reveille at morn, the farmer
while the sun is low will gallop
through his corn, the mad dog fleeing
from the brook will start the marshal
shooting his slugs, and kingbird on its
perch will look for army worms and
doodle bugs, the baseball parks will
bulge with fans exorting men to might
and main, and the crush around the
soda stands will crack the onyx with
the strain.

The spirit born of Bunker Hill will
fire a few belated shot, and practiced
orators will thrill the populace on
empty lots. The beacon lights of toy
baloons will flash and twinkle in the
night, the stir of patriotic tunes will

The income tax must be paid by July 1. Failing that, you will be sold for taxes and will be held by the buyer until redeemed. If you get yourself in this fix, don't count too much upon your wife. She may redeem you and she may not. If you are in your wife's name that may help but don't be too sanguine. The average woman is much more interested in these days in reading her title clear to equal rights than anything else she has been in the habit of going around. Trust to your instinct as a man, and have your income tax paid. The women are nice people, but they are women.

On the morning of July 3 the sun and Sirius the dog star will rise together for the first time this year, and the dog days will set in. An ancient Egyptian dog star was credited with the floods in the Nile, which came at this season of the year and gave the Egyptians their crops. The dog was worshipped as the God Isis, and many beautiful temples were built for it. The dog days originated with the Romans, who attributed an evil influence to the dog star and objected to the theology of the Egyptians as it pertained to this matter. Like all theological disputes, this one became very bitter. Caesar suffered from the heat of the dog days until he took his army into Egypt, reducing the ancient empire to the wreck of its former glory which it remains today. The dog was taken out of the Temple and put in the dog house, where it remains. Science has subsequently discovered that Sirius affected neither the floods on the Nile nor the heat in Rome. Both sides were wrong, as usually proves to have been the case in a theological dispute. The dog star will continue to rise with the sun every morning until August 11, when the dog days will end.

On July 4th we celebrate the anniversary of our independence by shooting off the ammunition we had left after the British surrendered. Some of this powder is a little old and damp, but it will go off if one will wait long enough. The accidents which happen on the Fourth are mostly due to lack of confidence in it upon the part of the people who insist upon going back to see if it hasn't gone out. The same thing happened to the British during the Revolution. They were blown up a dozen different times, and finally retired permanently.

On July 8 Mr. Rockefeller will be 75 years old, and gasoline will go up a cent. Mr. Rockefeller always makes his own parents. July 15th will be St. Swithin's day. According to the traditions if it rains on St. Swithin's day it will rain for the next forty days. It won't rain. We don't have forty days rain in twenty-five years in this country any more. The democrats don't know how to make rain.

For the first twenty-one days in the month of July will be under the influence of Cancer the Crab, the fourth sign of the zodiac. People born under this sign never let go, once they get hold. Mr. Rockefeller was born under it, is an example. The last ten days of the month will be influenced by Leo, the Lion, the fifth sign of the zodiac. Persons born under this sign are very brave. The won't say Roosevelt discovered the River of Doubt unless they think so. The moon will be full on the seventh.

The August will return a pace
To fricasee and glow,
And Paradise will seem a place
Of everlasting snow.

France is to honor Col. Roosevelt who is to reciprocate by making the occasion as interesting as possible. He always does.

THE ANNUAL FARMER'S SHORT COURSE.

The Fifth Annual Farmer's Short Course will be held at the Agricultural and Mechanical College of Texas, July 20th to 25th, inclusive. The Course will be preceded by the Farmers' Institute, July 17th, 18th and 19th, 1914.

Character of Work
The Short Course is planned to meet the needs of practical farmers, business men and women who desire to farm on a better basis, to make farming more profitable and to make farm life more comfortable and attractive. Separate courses will be offered in the four main departments of Agriculture: Agronomy, Animal Husbandry, Dairy Husbandry and Horticulture. Each of these departments will include other closely related subjects.

DOMESTIC SCIENCE: In addition to courses given in agriculture, the College has secured the co-operation of the United States Department of Agriculture, Washington, D. C., and the Girl's Industrial School, Denton, Texas, in giving a course in Domestic Science. This work in Domestic Science will be confined to cooking and canning. This course is given for the special benefit of farmers' wives and daughters.

AGRICULTURAL EDUCATION: A special course will be given in Agricultural Education. This work is designed especially to meet the needs of the public school teachers of the State who are teaching agriculture.

A series of lectures and practical demonstrations on poultry will be given throughout the course by Professor J. E. Rice, Professor of Poultry Husbandry, Cornell University. A lecture will be given each night on a subject of general interest.

The equipment of the School of Agriculture, including farm machinery, soils laboratory, live stock, creamery and orchards, will be available for the use of the Short Course students.

In addition there will be assembled for inspection and study a complete collection of improved farm machinery and labor-saving devices. Each afternoon from four to six o'clock, there will be given demonstrations with traction and gasoline engines; up-to-date farm machinery, construction of silos and silage production; spraying plants with knapsack barrel, bucket and power sprayers; testing milk, milking machinery, canning fruits and vegetables.

Admission
There will be no entrance examinations. An incidental fee of \$2.50 will be charged each student.

Board and Lodging
A charge of \$1.25 a day will be made for board and lodging, or fifty cents a day for lodging when meals are not taken at the Bernard Sebia Hall. Three large dormitories equipped with electric lights, shower baths, etc., will be open for students. One hall will be set aside to be used by women.

Railroad Rates
The railroads have agreed to offer a rate of one cent each way, effective July 16th and good until the close of the Farmer's Congress. The Commissioner of Agriculture will issue to all institute delegates passes dated so that whoever desires may remain over from the Institute for the Short Course.

Estimated Expense for the Course.
Board and Lodging at 1.25 per day ... \$7.50
Incidental Fee 2.50
Railroad Fare 5.00
Total \$15.00

It is important that all students should arrive at College Station in time to register by 8 p. m. Monday, July 20th. Before attending lectures, each student must pay his incidental fee at the Treasurer's office and register at the Registrar's office.

All persons who expect to attend should make application at the earliest date possible to J. KYLE, Dean of the School of Agriculture.

Again has the hand of death fallen upon the unhappy house of the Hapsburgs of Austria. On Sunday the Arch Duke Francis Ferdinand and his morganatic wife, the duchess of Hohenberg, were assassinated by an 18 year old student in the streets of Sarajevo, Province of Bosnia, while making their annual visit. An attempt was first made to kill them with a bomb, but the Archduke saw the missile coming and warded it off with his arm. The second attempt was made with a revolver at close range and proved all too successful. Both the Archduke and his wife died before they reached the hospital. The Archduke was heir to the throne of Austria-Hungary. Maximilian the unfortunate adventurer-emperor of Mexico and Leopold of Belgium were brothers of the present Austrian emperor.

SUIT TO DISSOLVE BUSINESS MEN'S ASSOCIATION.

95 Corporations are Made Defendants. AUSTIN, Texas, June 27.—A suit instituted in the Twenty-Sixth District Court of Travis county today, in which a temporary injunction was granted, will create state-wide interest.

Today's proceedings were instituted by Attorney General Looney and Assistant Luther Nickels in the name of the State against the Texas Business Men's Association, including the ninety-five corporations, which the petition alleges are members of the association. The Texas Business Men's Association is the successor to the Commercial Secretaries' Association.

District Judge Charles A. Wilcox granted a temporary injunction restraining the payment by defendants of money into the Texas Business Men's Association.

In addition to asking for injunction to prevent the contribution of funds the prayer also asked for the dissolution of the Texas Business Men's Association.

The suit is based upon the alleged violations of terms of Article 6647, R. S. 1911, which prohibits the use by a railroad corporation of any of its funds or assets for anything except the legitimate purpose of the corporation, and the provision of chapters 86 and 166, Act of 1907, which prohibits any character of corporation from contributing to the expense of any candidate for office, or to promote or defeat any question submitted to a vote of the people and prohibiting the use of any corporate funds except for carrying out the purposes for which the corporation is chartered.

Text of Court Order
The Court entered the following order:

"Upon consideration of the foregoing petition it is ordered that the Clerk of this court issue temporary restraining orders restraining each of the defendant corporations named in the petition from paying or promising to pay directly or indirectly, any sum of money or other things of value out of the funds, property or assets of said corporations to the Texas Business Men's Association, or any of its officers or agents until further hearing herein.

"The said defendants either or any of them may file at any time pending final hearing hereof a motion or motions to dissolve the temporary restraining order herein issued, and this shall be effective only until further hearing herein, unless the same upon such hearing shall be continued in force."

The petition goes into many details and is very lengthy. Among other things it alleges that the Atchison Railroad system contributed five thousand dollars to the association, while the Gulf Colorado and Santa Fe gave \$750 each during 1910, 1911, 1912 and \$1,000 last year, while the Katy is alleged to have contributed \$1,190 and the Texas Central \$275. Specific amounts are not named as to the other defendants.

The names of the ninety-five corporations are set out as defendants in addition to J. A. Arnold, secretary and manager, and Thomas B. Yarbrough, treasurer.

DON'T ENDURE HEADACHE
Just get a bottle of Hunt's Lightning Oil and apply it to the head. The aching is gone quickly, in some cases instantly. Seldom fails to give instant relief for neuralgia. Fine for rheumatism. Sold by W. L. Doss.

SAN ANGELO—Approximately 1,500,000 pounds of wool were sold here this week to Eastern buyers.

FORT WORTH—A model dairy farm with a hundred head of tested cows is being constructed here at a cost of \$40,000 by Dr. C. H. Harris.

A leopard may change its spots but Victor Murdock will never submit to caucous rule.

Whenever you see an Arrow think of Coca-Cola

THE COCA-COLA COMPANY
ATLANTA, GA.

THE COTTON CROP OF 1913 IS THE BEST EVER GROWN

WASHINGTON, June 24.—Final figures on the 1913 cotton crop, announced today by the census Bureau, place it as the largest the United States has ever known, with the exception of that of 1911. At the same time estimate of the total value of the crop shows it was the most valuable ever produced, it being worth \$1,043,760,000.

The quality of the cotton ginned from the 1913 crop, counting rounds as half bales and including linters, was 13,928,811 running bales, or 14,156,586 bales of 500 pounds each. Cotton seed produced was 6,305,000 tons, of which 4,579,568 tons were crushed.

The value of the cotton is estimated at \$887,160,000, and of the seed \$156,000,000. An interesting feature of the 1913 production was the crop of the Imperial Valley in Southern California, where 22,838 bales were grown. It has been reported the acreage planted this year in the Imperial Valley will show a large increase, while the production is variously estimated at from 50,000 to 100,000 bales. Last year's production was more than double that of any previous year there, where commercial growing of cotton has been in progress only a few years.

Another feature was the production in Arizona, where 2,290 bales are ginned the largest part of which possessed the characteristics of that grown in Egypt. The 1914 area shows a large increase, variously estimated at from 12,000 to 15,000 acres.

We are very glad to learn that Mrs. Vernon Castle is recovering from an operation for appendicitis; now, if she can only cut out the tongue how nice it would be.

Corpus Christi—The 600 acres of Sudan grass in this county are valued at \$300 per acre by B. Youngblood director of the state experimental station. The total value is \$36,000.

Mr. Rye, the Tennessee candidate for governor, has proven an inspiration to all paragraphers in the country.

TWO CROPS SAME LAND
Farmer Believes Feterita On Grain Stubble Will Make

If the farmers of the Concho country can get the seed and labor to plant the crop, they have the best opportunity they have had in years of making two crops on the same land. With the excellent season that now exists the oat and wheat stubble land should produce good feed crops. In discussing the possibilities of a second crop, a prominent farmer said Thursday:

"We want to plant our stubble ground in some quick maturing crop that will stand the hot dry weather that is almost sure to come in July and August.

"Cane has been the stubble crop for the past few years, whenever an attempt was made to get a second crop, but it has failed very often.

"This year cane seed is very high and good seed hard to get at any price. There has been quite a little said of feterita, and I have tried it and found it to be one of, if not the most valuable, crops to plant at any time from the first of May till the last of July. It is especially desirable for planting in summer, as the hot dry weather seems to have no effect on it. It is extra early and matures several days earlier than maize. It makes more grain and of better quality than maize and the forage is superior to kaffir corn. The grain is white and about twice as large as that of maize, soft and very rich in food and value.

"Last summer when the dry hot weather was burning up the cane, my feterita thrived and made a good crop right between them. It seems to get considerable of its substance from the air as it makes well on poor ground. One end of my patch last year ran up on a hillside where the land was so poor it had never made a paying crop of anything, but my feterita made a good crop regardless of the drought.

"I advise all to plant feterita on their stubble ground. By buying seed in quantities it will cost 25 cents to seed an acre."—San Angel Standard.

SURPRISING CURE OF STOMACH TROUBLE

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mrs. Geo. G. Stengle, Plainfield, N. J. writes, "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's Advertising Booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat almost everything that I want." For Sale by W. L. Doss.

WHAT IS ADVERTISING?

As the result of a prize contest announced by the Pompeian Co. for the best definition of advertising, Walter L. Hamburger, of Baltimore, was awarded the prize twenty five dollars for the following definition.

"Advertising—the force which enables the modern business man to disregard the distance between himself and his prospective customers.

"The force which gives him a million eloquent tongues with which to tell his business story to the world.

"The force which enable him to create new desires, and to point out new ways of supplying old needs.

"The force which, properly directed, will make a worthy business prosper, but which, no matter how cleverly applied, cannot give appearance to an enterprise founded on falsehood.

"The force by which a business may be built or wrecked, and which, by the last analysis, brings him who uses it just that measure of success that his efforts deserve.

Advertising—the force which has transformed the parlor melodeon into a piano, the cracker barrel into an inner seal package, the crane over the hearth into a fireless cooker, and everything else in the world in like degree."

WHY WOMEN FADE.

This is for ladies only. Men should keep their eyes off it.

A million women today should be told what other millions have learned—that they need one element in their blood far more than men, and that lack of it is the reason they are apt to fade many years before they should. The needed element is iron. Iron builds up the red corpuscles of the blood and sustains, vitality and strength. Women need a constant supply of blood-making material, or their system breaks down under the constant drain. The very moment there is a lack of blood, or when the blood is impoverished, the signal appears upon the face in sallowness or palor, and the remedy is McCroskey's Tonic, for it contains iron.

Nothing else meets this particular condition as well. Use of it has made thousands of women look many years younger and made them even feel younger than they looked. It not only restores strength, energy and beauty, but it is a prompt and certain cure for all the ills peculiar to the sex. It cures because it removes the first cause. It supplies just what nature needs to bring health. It strengthens the debilitated organs and gives tone and elasticity to muscles and ligaments rounds out wasted tissue and renews the vigor of the nervous system, it helps quickly and just as surely and permanently. It has been used and praised by both old and young women, and mothers should see that their daughters coming into womanhood should take it. It will bring them through all right.

TEXAS CATTLEMAN BUYS 150,000 MEXICAN SHEEP

FORT WORTH, Texas, June 28.—According to Jim Primm, cattleman and capitalist of El Paso, who passed through here today in the private car of J. O. Crockett, he has just purchased 150,000 head of Mexican sheep.

The animals will be brought across the international line at El Paso in shipments of 20,000. The whole purchase is to be marketed within the next four months.

CAUSES OF STOMACH TROUBLES

Sedentary habits, lack of out door exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, overheating, partaking of food and drink not suited to your age and occupation. Correct your habits and take Chamberlain's Tablets and you will be well again. For sale by W. L. Doss.

There is not enough money in Tampeico to transact business, and poker chips are being used as a makeshift.

Pete Avery has the agency for all kinds of Electric Irons, also a fine Toaster Stove. On exhibition at Allmond's store. Go see them. Low in price. Has many uses.

Fire at Salem, Mass last Friday destroyed 10,000,000 worth of property and rendered nearly 20,000 homeless. Supplies for their immediate relief poured in.

IS CHEAP MONEY A POSSIBILITY?

EDITOR'S NOTE.—This is the first of a series of articles on AGRICULTURAL PROBLEMS prepared by Judge S. A. Lindsey, chairman of the Texas Farm Life Commission.

I am to write a series of short articles relating to agricultural problems. In this one I shall show that it is possible for money to be had by Texas farmers on good land security at 6 per cent and on cotton at 5 per cent. It is only a question of arranging the security and taking down the bars which keep money from land securities.

All will agree that there is much money in the world to be had at 4 and 5 per cent if the security is satisfactory; that there is no better security than agricultural lands and cotton, if the land is good, well improved and kept in that condition, and the cotton is first-class staple, well ginned, baled, wrapped and dry, securely housed in a warehouse and insured.

If evidence is required here it is: All over Europe land security gets money at from 3 to 4 1/2 per cent. Money is not chained down in Europe and a difference of 1 per cent will bring it here provided the security is the kind that the investor is accustomed to.

In many Northern and Eastern states money is seeking investment in good land securities at 5 and 6 per cent. The cotton warehouse people in Memphis borrow money, all they want, at 4 per cent. I have seen apples 25 cents a bushel in Missouri and \$2 a bushel in Texas; peaches 40 cents a bushel in Texas and \$3.75 in Colorado. Why? For the same reason that money is 4 and 6 per cent in other states and countries and 8 and 10 per cent in Texas, which is that fruit growers and fruit consumers have no means of dealing directly with each other and the agencies that bring the two together take the difference.

Last summer while discussing the subject of rural credits with Messrs. Wolf and Cahill of London, the two best authorities in the world on the subject, one of them said: "Money talks to such only as understand its language. All one has to do to get cheap money is to learn to speak its language and go where it is. Money has no home affections. It hunts security and interest rate. The first thing one thinks of when contemplating rural credits is, where is the money to be obtained. This is an unwarranted uneasiness. Arrange the security so it speaks the language that money understands and it will come."

The other day a Texan giving testimony before the congressional committee having before it the subject of rural credits mentioned "vendor's lien notes"; the discussion that followed showed that congressmen, senators and financiers had never heard of a vendor's lien note. The only ones who understand the Texas vendor's lien security are Texans, and they would be foolish to lend money at 5 and 6 per cent when they can get 8 and 10 per cent. German money understands the meaning of Landshafter debentures; Austrian money the bonds of the land mortgage banks and the French money the language of the credit Foncier. If we want German, Austrian or French money at their interest rates, or Eastern money at rates prevailing there, we must arrange our securities so they can speak the language of these monies.

In my next article I will tell how this may be done. I will also point to an abundance of cheap Texas money which would safely cross the barrier to the farms of Texas if we do not by law keep the fence up.

Compared with other states, Texas ranks fortieth in railway mileage per area.

To afford Texas the same railway facilities as Illinois has, will require an additional investment of \$1,000,000,000.

Texas railroad property is valued at \$109,000,000.

TEXAS CATTLE ARE IN IDEAL CONDITION.

FORT WORTH, Texas, June.—It was declared by Col. T. H. Montgomery who returned from his Floyd county ranch, that cattle are in the best condition they have been in for the past twenty years. The animals are as fat now, he says, as they are in the fall after the summer run on pasturage.

SKIN DISEASE CURED OR MONEY BACK.

Hunt's Cure is absolutely guaranteed to cure Itch, Eczema, Tetter, Ringworm or any other form of skin disease. Failing to cure the druggist is authorized to promptly refund your money. Sold by W. L. Doss.

TEXAS BEES MANUFACTURE MONSTER CROP OF HONEY

SAN ANTONIO, Texas, June.—Texas bees will produce a larger honey crop this year than that made by the nectar-gathering insects in any other state in the Union.

This is due to the "wet spring" which has covered the State with a dense growth of flowers. The condition of the nectar bearing blossoms is placed at 115 per cent by the Federal Department of Agriculture.

Bee keeping is carried on in the southwestern part of the state.

4,000 POUNDS OF MEAT FOR HUNGRY CONCHOANS.

SAN ANGELO, Texas, June.—A total of 4,000 pounds of beef and mutton will be served to the people from the Concho country at the annual picnic and fair to be held here July 4. The number of cattle necessary to kill 4,000 pounds reaches the proportions of a small herd.

MAY RANCH SOLD.

This week, Mr. A. R. Wood, the rustling land agent reports the sale of the May ranch owned by J. W. Webb. The ranch was sold to the R. H. Burk Land Company at Whitney for a consideration of \$50,000. Mr. Webb will remain on the ranch until Jan. 1 when the new owners will take charge. Mr. Wood has closed several large deals lately but this is the largest of recent date. It is no trouble to trade Mitchell county land for East or Central Texas property and if you have anything in this line Woods is the man to put it through.

THE BEST MEDICINE IN THE WORLD.

"My little girl had dysentery very bad. I thought she would die. Chamberlain's Colic, Cholera and Diarrhoea Remedy cured her, and I can truthfully say that I think it is the best medicine in the world," writes Mrs. William Orvis, Clare, Mich. For Sale by W. L. Doss.

What do you suppose the women would find to worry about if they were given the right to vote?

\$200,000 EXPOSITION FUND CAMPAIGN IS PROGRESSING.

AUSTIN, Texas, June The campaign of the Texas Panama-Pacific exposition commission to raise \$200,000 for a Texas building and a suitable representation at the exposition from this state is proving a success, according to J. T. Bowman, secretary of the commission. A sufficient amount has already been subscribed to insure the erection of a suitable building and a proper exhibit.

A GOOD INVESTMENT

W. D. Magall, a well known merchant of Whittemound, Wis., bought a stock of Chamberlain's Medicines so as to be able to supply them to his customers. After receiving them he was himself taken sick and says that one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy was worth more to him than the cost of the entire stock of these medicines. For sale by W. L. Doss.

After appealing to the bugbear of libel threats and the "fair-mindedness" of West Texas voters we are expecting the "rumored withdrawal of Judge Smith" to be Judge Blanton's next card.

So great was the crop and so few the laborers, that much of the wheat crop of West Texas was thrashed by moonlight—and some on Sunday; but the ox was grievously in a deep ditch...

Up to the time this paragraph was written, there has been two weeks of hot and clear weather. The cotton is growing and flourishing like the proverbial green bay tree, but the feed crop would be greatly helped by a good shower this week...

The people of Ward County are in line for Congressman W. R. Smith in his race for reelection. They recognize that Judge Smith has made an able representative in Congress and that he is now in position to make even a better one by reason of his experience...

Gov. Colquitt made concession to June 19th by pardoning forty negro convicts confined in the state penitentiaries. It has been his rule to extend mercy to clemency on various holidays.

It is safest in these latter days to always "look a gift horse in the mouth." The patent attorneys, commercial associations, and various other promoters with an axe to grind, keep the county printing offices flooded with free copy for the "busy editor."

Now it will be expected there will be a rush to get new maps of Brazil, with the new river, as soon as they can be published. The world has been in ignorance long enough.

It seems strange to us that Mr. Cleveland was not, nor Mr. Wilson seems to be able to break the precedent of appointing a negro to the important office of Recorder of Deeds for the District of Columbia.

How President Wilson and Mr. Bryan can credit any politician from the mediation proceedings at Niagara passes the understanding of the average man. And even should old Huerta, Carranza and Villa agree to everything the United States proposed...

The result of a campaign for the past five years for a safer and saner celebration of the Fourth of July, are seen in the severe restrictions thrown about the sale of fireworks in all large cities.

Candidate Blanton's threat of prosecution for criminal libel has proven a boomerang that slapped him on the nose. Newspapers that were inclined to be noncommittal as to his choice between the candidates...

Alas and alack! The Record feels between the devil and the deep sea. It has seemingly drawn the fire of both a district and county candidate, both of whom flourish the bludgeon of "libel" over his head.

WHY DON'T THEY ACCEPT?

Five days ago Thomas H. Ball made a public proposition to the Commercial Secretaries of Fort Worth, which up until this time they have not accepted.

The Commercial Secretaries is an organization supported by railroads and breweries to control Texas politics. Here is the proposition that Ball openly made to them.

That his manager, A. W. Walker, appoint one man. The Commercial Secretaries name another. The two constitute themselves as a court of inquiry and sit for three weeks taking sworn testimony as to where the Commercial Secretaries get his money...

But isn't their refusal to accept that fair proposition an eye-opener for the voters? Along with the other evidence piled up in the attorney general's office and other places, isn't it convincing proof that there are a whole lot of things the Commercial Secretaries want to conceal?

The Commercial Secretaries are fighting Tom Ball as hard as a man was ever fought for governor. Do the people want to vote for the candidate of that invisible government?

The candidate of invisible government in Texas is James E. Ferguson, Bentler and former Street Railway president of Temple—Dallas Dispatch.

Summer drinks are increasing in volume, like the tide in the bay of Pamp.

THE NEW RECLAMATION BILL.

Congressman W. R. Smith from this district who deserves to be re-nominated and re-elected to congress because of the services he has performed and his fitness for the place...

The president's great conservation program includes five or six bills which congress will be expected to get on to before it adjourns.

This measure, framed and introduced by Congressman Smith of this district who is chairman of the irrigation committee in the house...

The bill includes many other provisions intended to legalize the reclamation act and facilitate the prompt utilizing of the reclaimed lands by actual farmers on small farm units.

The chief argument of his opponent is that Mr. Smith has had the office long enough; but everyone familiar with congressional affairs knows that the influence of a state delegation in congress has a definite relation to the length of service of its members.

Let West Texas give Mr. Smith an overwhelming majority at the July primaries—not merely a deserved compliment to a faithful public servant, but from considerations of pure self interest in what is best for the district.

In these days of strenuous competition and publicity, a grocer might as well have a barrel of sand behind his counter as sugar, unless the purchasing public know he had the sugar.

That his manager, A. W. Walker, appoint one man. The Commercial Secretaries name another. The two constitute themselves as a court of inquiry and sit for three weeks taking sworn testimony as to where the Commercial Secretaries get his money...

TEXAS FACTS

COTTON.

In hauling the Texas cotton crop to market the services of 400,000 teams and wagons are required, which form a procession 2,400 miles long.

One year's cotton crop of Texas will clothe 309,000,000 people.

In Texas there are 1,670 gins, 113 compresses, 323 oil mills, and 15 cotton mills.

Dallas, Texas, is the largest cotton gin machinery manufacturing center in the world.

Cotton constitutes 27 per cent of the agricultural production of Texas.

Twenty-five per cent of the cotton seed oil mills of the United States are located in Texas.

The cotton seed crushing establishments of Texas represent a capital investment of \$31,500,000. They furnish employment to 4,000 persons.

One seed of Texas cotton will produce one stalk of about 20 bolls. There are 80 cotton seeds in one boll.

It takes 25 pounds of cotton seed to plant one acre.

It takes 1,050 pounds of seed cotton to make a bale of 500 pounds lint, and 1,150 pounds of cotton seed.

The seed from a bale of cotton will yield 17 gallons of oil, 550 pounds of meal, 300 pounds of hulls and 25 pounds of lint.

The compress reduces the size of the cotton bale one-half.

Three-fourths of the Texas cotton crop is sold in Europe.

Texas has 26 per cent of all the land in the world, which is at the present time considered capable of growing cotton.

More new cotton gins were installed in Texas during the 1910-1911 ginning season than in any other state in the Union.

We have one gin to every 2,500 acres planted to cotton.

To manufacture all the cotton we produce in Texas will require an additional investment of a quarter of a billion dollars in cotton mills.

The importance of cotton as a necessity of life is made manifest when we consider that during the past century the world's population has increased 120 per cent, while the uses of cotton show an increase of 2,700 per cent.

The leading cotton-producing counties of Texas are Ellis, McLennan, Hill and Williamson.

The greater part of the Texas cotton crop is planted in April and matures in October, although some of the crop is marketed the latter part of August.

The largest cotton crop ever produced in Texas was in 1912 and amounted to 4,880,210 bales of 500 pounds each and sold for \$321,430,000, including the value of the seed.

The seed from the Texas cotton crop sell for \$39,690,000 annually, and weigh 2,171,000 tons.

An acre of cotton, in Texas, the leading cotton state, yields \$11.00 more than an acre planted to corn in Illinois, the leading corn state, and \$11.00 more than an acre of oats in the leading oat-producing state, which is Iowa.

Texas factories use only one bale of cotton out of every 100 produced.

An acre of Texas cotton yields \$23.69 worth of lint and \$3.50 of seed.

The average cotton production of the world is 13 bales per 1,000 population, and the average for Texas is 1,000 bales per 1,000 population.

Texas has more cotton gins, compresses and cotton seed oil mills than any other state.

At one planting a seed of Texas cotton will multiply 1,600 times.

To plant the Texas cotton crop requires the services of 500,000 persons, 1,000,000 cultivate it and 2,000,000 persons are kept busy months gathering it.

It costs \$15,000,000 to pick the Texas cotton crop, \$12,000,000 gin it and \$3,000,000 to compress...

GOING SOME

There are 500,000 Fords in use. Each one certainly averages no less than 20 miles daily for twelve months in the year. These 500,000 Fords, therefore are traveling and showing themselves over a stretch of 19,000,000 miles each day, or 300,000,000 miles each month, or thirty-six hundred million miles each year.

This is a distance equal to 143,000 times around the world.

If these 500,000 Model T's started on a tour around the world and kept within a half mile of each other they would encircle the globe ten times.

Every city street, highway, parkway, every village street, every country road is lined with Fords.

So prevalent is this constant and ever increasing parade that men, women and children who never knew anything about motor cars, can pick them out.

The Ford is the easiest car to think about, because it is seen more frequently. A. J. Harrington, Art.

TYPHOID FEVER BANISHED FROM UNCLE SAM'S ARMY.

Typhoid fever has been banished from the United States Army. Maj. F. F. Russell in a recent issue of the "Journal of the American Medical Association" makes this statement and says the disappearance of typhoid is due directly to typhoid vaccination. In the entire enrollment of over 90,000 men in barracks and camps in the United States, Philippines, China, Porto Rico, Cuba and Hawaii there were during 1913 only three cases of typhoid. Two of these were recruits, who, after five days of enlistment, developed the disease. Out of the entire body of 90,000 men only one case occurred in an inoculated soldier during the entire year.

This case was a soldier in the battalion on duty in China. All three of these cases fully recovered. It is pointed out that typhoid fever has been for centuries the most dangerous disease to soldiers and that every army whether on post duty or in the field, has expected to pay a heavy toll in sickness and death in this disease.

MEAT PACKING LEADING INDUSTRY

Growth of Texas Plants Remarkable

For many years Texas has held high rank as a livestock producing unit, but only during the past decade has the slaughtering and meat packing business assumed mammoth proportions. From a comparatively small industry ten years ago it has become the leading manufacturing enterprise of the state as measured by the value of products manufactured. In 1900 the nearest approach to a packing house in Texas was a sausage factory. We had four of these plants at that time and their combined annual output had a value of \$12,000. The latest census reports show fourteen slaughtering and meat packing establishments operating in Texas whose yearly production is more than \$42,000,000 in value. This gigantic industry furnishes employment to 4,300 persons, who receive \$2,600,000 annually in salaries and wages and represents a capital investment of \$12,138,500.

The packing houses of Texas slaughter 2,000,000 head of livestock annually, which is equivalent to the natural yearly increase and is 20 per cent of our meat animal supply. These animals cost the packers \$37,500,000, while a decade ago animals slaughtered were valued at only \$3,170,000.

In number the predominating class of meat animals slaughtered is hogs, the total number killed each year being 940,000, compared with 208,270 ten years ago. The demand for pork has increased with marked rapidity in Texas during recent years, and last year we consumed \$240,000,000 more of pork and pork products than we produced.

Beaves and calves rank next to swine in number slaughtered, but the cost of the cattle killed yearly is \$7,000,000 more than that of the hogs. As Texas is the leading livestock State she also ranks first in number of cattle. We had 6,056,000 head on January 1, 1913. In 1912 the value of beef produced in Texas had a value of \$47,812,000, while the requirement for the year was only \$19,000,000, leaving a surplus of \$28,812,000. Our packing houses now slaughter a million head of cattle annually, while ten years ago the killing capacity was only 32,000.

The Texas sheep which at one time was of little commercial value and his flesh, our most delicate edibles, a decade the number increased more than...

GREAT POSSIBILITIES OF THE COLORADO IRRIGATION PLANT.

The following from the pen of Chas. M. Stanley, the engineer in charge of the Colorado Irrigation project, was written in reply to a request, to the Manufacturers' Record.

Miles, Texas, May 21.

Gentlemen: Your courteous inquiry for information is received and while we are not in position to furnish all the details requested, the following is respectfully submitted.

The Colorado river is one of the largest rivers in Texas and draining a watershed of more than 10,000 square miles of mountainous country renders it one, if not the most valuable stream in the state. Beginning at the foot of one of these high mountains which crouches close to the river bed is a beautiful stretch of fertile land. These lands extend for miles and embrace more than 100,000 acres of irrigable soil, as rich as the valley of the Nile.

By the construction of a dam 400 feet long and a bulk-head 210 feet long, a lake of water may be conserved 85 feet deep at the dam and approximately one mile in width and extending 24 miles in length up the river. Nature has done much for this project, and there are a number of canyons and dry lakes that may be filled by gravity from the river dam and the water may be in turn gravitated upon the lands adjoining the subsidiary reservoir.

By the use of these interior basins much water may be stored thus relieving a heavy drain on the river, lake to irrigate a large body of land. This will afford an opportunity of developing a power plant of some 5,000 horse power. This power we intend to supply to the farmers owning the irrigated lands and the towns surrounded by said lands for domestic and manufacturing purposes.

If there is a surplus we will utilize the balance to pump water upon the lands above gravation. We believe this is perhaps one of the most desirable projects of its kind in the world, the elevation being 2,000 feet which is ideal for irrigation. Our surveys are not finished yet but enough is complete to warrant us the assurance that the plan is feasible and this will open up one of the greatest farming and stock feeding industries of any state in the Union.

DALLAS - The richest purses ever awarded at a State Fair will be awarded at the Texas State Fair this year. The amount is \$80,000.

MORAN - Four new bricks costing \$10,000 are being erected here.

WALNUT SPRINGS - The Walnut Springs Ice Plant has been finished.

ALICE - Sixty bridges and culverts are to be constructed in this county during the summer.

Senator Vardaman, the long haired statesman from Mississippi, has bloomed out in a white suit, and it behooves Senator Lewis of Illinois to bestir himself and those illustrious alburn whiskers to retain his senatorial pre-eminence.

CHARLES M. STANLEY.

SUBMISSION RALLY.

Dallas, Thursday, July 2, 1914.

To the Democrats of Texas who Oppose the Saloon and who Favor Driving Liquor out of Texas Politics: The question of instructing the next legislature to submit to the qualified voters of Texas a constitutional amendment providing for State-wide Prohibition has been ordered placed upon the official ballot for the Democratic Primary to be held on July 25th, by the State Democratic Executive Committee in response to the petition of more than forty thousand Democrats who are qualified voters.

For the purpose of perfecting a thorough statewide organization of our forces and exchanging views and taking such steps as may be deemed advisable to make the victory of the forces of good government in the July primaries as overwhelming as possible all along the line, the undersigned members of the State Advisory Committee of Prohibition Democrats of Texas, provided for by resolution of the Fort Worth Conference, which designated Hon. Thomas H. Ball as a candidate for Governor, and which declared in favor of the submission of a prohibition amendment to the constitution by the next legislature, hereby call a State-wide Submission and Prohibition rally, to be held in the City of Dallas on Thursday, July 2, 1914.

Every Texas Democrat who opposes the open saloon and its domination of Texas politics, and who favors the restoration of good government in Texas, is cordially and urgently invited to attend. Hon. Thos. H. Ball, our candidate for governor, will be present and deliver an address, and addresses will also be delivered by a number of other notable citizens of Texas. It is our purpose and desire...

this occasion contrast as strongly as possible in every way with the rally of the liquor forces recently held in Dallas, and we urge you to co-operate in all proper ways to bring about this result.

The usual excursion rates will be granted on all railroads.

THOS. B. LOVE, Chm. of Advisory Committee.

The State Advisory Committee of Prohibition Democrats of Texas has issued a call, as above, for a State-wide rally of the forces of good government, to be held in the City of Dallas on Thursday, July 2, 1914, to be addressed by Hon. Thomas H. Ball, our candidate for governor, and many other notable citizens of Texas.

A great gathering on this occasion is assured. Thos. B. Love, the Chairman, writes and says: We believe it to be highly important and desirable that a mass meeting of Prohibition Democrats of your county be called at once, to be held at your county seat, sometime in the near future, to make arrangements for the attendance upon this rally of citizens from all parts of your county.

It is important that your local correspondents of the leading newspapers of general circulation in the state should send reports to their papers of the fact that this meeting is to be called and also a report of the meeting when it is held.

We feel sure that the holding of these mass meetings within the next few days over the state will be of great value in stimulating interest in this rally, which means great things for the candidacy of Col. Ball and a large majority for submission in the July Primaries.

Please do not fail to attend to the matter promptly. The tide for Ball and submission is setting in strongly during the past few days. We are going to win by a large majority. You can feel it in the air. The liquor pow-wow held in this city last Saturday has been distinctly harmful to Ferguson and the liquor interests, and this is privately admitted.

THOS. B. LOVE, Chm. P. S.—The usual convention rates will be given by the railroads for this rally.

The only way to get the genuine New Home Sewing Machine is to buy the machine with the name NEW HOME on the arm and in the legs. This machine is warranted for all time. No other like it. No other as good.

CHURCHES, CLUBS AND SCHOOLS ENTERTAINMENTS, PARTIES AND SOCIETY'S DOINGS

BY MRS. A. L. WHIPKEY

You will confer a favor upon the Record and the editor of this department if you will 'phone her (No. 157) any announcement or news item

HOME WEDDING.

At eight o'clock Tuesday morning at the home of the bride's parents, Mr. and Mrs. J. W. Smith, Mr. R. A. Taylor of Marshall and Miss Isla D. Smith were married.

The ceremony was performed by Rev. R. A. Clements, pastor of the Methodist church.

The house was prettily decorated with ferns and cut flowers.

Just before the hour arrived Mrs. Brooks Bell, with Mrs. Floyd Beall at the piano, sang "God Make Thee Mine". Then Mrs. Beall played the Wedding March and the bride came in on the arm of the groom and was met by the pastor in the center of the room and in the presence of the family and a few dear friends the ceremony that made them man and wife was said.

The ring ceremony of the Methodist church was used.

Miss Isla looked charming in a suit of electric blue poplin with accessories to match, carrying a huge bouquet of American beauty roses.

She is one of Colorado's fairest young ladies and as such has the best wishes and love of her entire circle of friends.

The groom is a traveling salesman and has been coming to Colorado for a good many seasons and has many friends here who congratulate him on winning one of the flowers of Colorado.

Mr. and Mrs. Taylor left on the morning train for his home in Marshall and from there they will go to New York, Boston, Baltimore and other places to spend their honeymoon.

The out of town guests were Mr. and Mrs. Frank Ramsdale of Oklahoma City and Mr. and Mrs. R. W. Mitchell of Abilene.

THE YOUNGER SET

Mrs. McSpaddin entertained the younger set Tuesday night in honor of Miss Madaline Adkinson of Beaumont who is visiting her daughter. They all came in a crowd with Mrs. B. F. Dulaney as chaperone.

A merry time was had singing and playing games. Pineapple Sherbert and cake were served for refreshments.

"12"

Mrs. Coleman entertained her Sunday School class with a few other girls, Wednesday afternoon with a 42 party in honor of Miss Madalyn Adkinson of Beaumont. A pleasant time was had. The hostess served orange ice and orange cake.

500 CLUB.

Mrs. Brooks Bell was hostess for the Five Hundred Club Tuesday.

There were five tables and bridge-whist was also played.

Miss Lily Allen won the first club prize and Miss Bernice Terrell the second. Mrs. Bailey won the Bridge Whist prize and Mrs. Hooten, the guest prize.

Refreshments were red and white ice cream and cake with miniature red, white and blue parasols, stuck in the cream.

MARRIED

At the Baptist parsonage, on Sunday afternoon, Mr. Alfred Richey and Miss Nora Hallmark.

G. F. C.

Miss Mildred Coleman was hostess for the G. F. C. last week. Misses Jeanette Ernest, Mabel Smith, Jessie Person, Ione Burk and Humphrey of Paris were the guests. Refreshments were a salad course followed by apricot ice.

NEW MISSIONARY SOCIETY

The young ladies of the Presbyterian church met and organized a Missionary society Monday afternoon. They will study both Home and Foreign Missions. The officers are Louisa Roe, Pres., Miss Ethelyn Stokes, Vice Pres., Miss Eleanor Coleman, Secy., Miss Ione Burk, Treas.

CEMETERY ASSOCIATION.

The Cemetery Association met with Mrs. Gustine Wednesday. The regular business was transacted. The collectors turned over the amount collected and reported the cemetery grounds in better condition than last month.

YOUNG PEOPLES SOCIETY

The Young Peoples Missionary Society of the Methodist church met with Miss Eva Davis Tuesday afternoon. The lesson was on Mexico of today after which a splendid special prayer meeting for the success of the meeting now in progress was held. Light refreshments were served at the social hour. The meeting next week will be with Miss Gertrude Schroeder.

THE METHODIST MEETING.

The meeting is still in progress at the tabernacle. The pastor is giving the people, and especially his church, some good spiritual sermons.

While the unsaved are not taking the interest it was hoped for, yet the Christians are being strengthened and the church put on a higher plane generally, the need of a great co-operation is being felt by all.

FIRST BAPTIST CHURCH

(J. N. Campbell Pastor.)

Sunday School at 10 a. m.; J. H. Greene, Sup't.

Baraca Class at the Pastor's home.

Topic of Sermon: "Temperance." Public Worship at 11 a. m.

Regular Monthly Conference 12 m.

Junior B. Y. P. U. at 3 p. m., Mr. and Mrs. W. R. Morgan in charge.

Senior B. Y. P. U. at 7:30 p. m. The 50 young people of the church are urged to come.

Evening preaching service called off for Methodist revival at tabernacle.

Prayer meeting on Wednesday at 7:30 p. m.

Teachers meetin and Normal Class after Prayer meeting.

Protracted meeting at tabernacle the first two weeks of August. Dr. C. B. Williams of Fort Worth will do the preaching.

Money for the Hooper Memorial room at Simmons College readily and graciously subscribed.

MISSIONARY SOCIETY

The Missionary Society of the Methodist church met at the church Monday with a good attendance.

The regular business was transacted and most of the quarterly pledges and dues were received. Mrs. J. T. Davis gave a splendid report of the recent meeting at Plainview.

PRESBYTERIAN CHURCH.

(Guy B. Duff, Pastor.)

Sabbath School at 9:45 a. m.; Preaching at 11 a. m. No services at night but we worship with our Methodist brethren at the tabernacle.

ALL SAINTS' CHURCH—EPISCOPAL (Rev. Harold G. Hennessy, Priest-in-charge.)

Services for the fourth Sunday after Trinity; Holy Communion, 7:30 a. m.; Sunday school, 10 a. m.; Holy Communion and sermon, 11 a. m.

All are most cordially invited to attend these services.

THE SECRET OF SUCCESS

Genuine Merit Required to Win the People's Confidence.

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promise of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value within itself, is like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfills almost ever wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address

Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Colorado Record.

JIM GORDON MOVES TO COLORADO

J. D. Gordon has traded his hotel, the Hamlin Inn, at Hamlin, to A. G. Griffin for a 160 acre farm one mile south of Colorado, in Mitchell county, and is moving this week to his new property, Mr. Griffin coming to take charge of the hotel.

Jim Gordon and family belong to us, having spent many years in and around Anson, where they have many friends who will be looking for them back home before another year rolls around.—Anson Western-Enterprise.

The Record welcomes Mr. Gordon while speeding Mr. Griffin in his new home, but indulges the hope that the former will never wish to leave so good a heritage as old Mitchell county.

T. & P. SUPERINTENDENT RESIGNS

Announcement is made of the resignation of J. W. Everman, general superintendent of the Texas and Pacific Railway and his acceptance of a similar position with the Cotton Belt line, with headquarters at Tyler, Texas. Mr. Everman has been with the T. & P. for more than a quarter of a century, coming to this state from the north as a telegraph operator. His advancement has demonstrated his ability as a railroad manager.

NO CONGESTION IN CROP MOVEMENT

WASHINGTON, June 18.—Under the new currency law the comptroller of the currency estimates that \$500,000,000 is already available in the national banks of the country for farm mortgage loans.

The perfect husband always belongs to another woman.

An optimist was never known to oppose road or street improvement.

Economy in all of its angles is embodied in the question of good roads.

The best way to get improvement started is to begin with the split-log drag. This habit then becomes contagious.

Candidates who are afraid to advocate improved roads, had best be kept at home. This means that they are untrue to their expressed desire to save the country.

THE COUNTRY NOW KNOWS

(Pauline Periwinkle in Dallas News) With suffrage rights secured to women in ten states, with the question more or less a burning one in the majority of remaining commonwealths, with the president and congress and political parties being besieged to declare themselves, the country has a right to know the attitude of thinking women generally. Especially was this information important and desirable because of the frequent statements from suffrage opponents, men and women that the suffrage movement was kept alive by a few agitators, whereas the masses of American women were either indifferent to or arrayed against it.

It can not be gainsaid that the General Federation of Women's Clubs fairly represents the attitude of American women on any question that is raised in its council. It is the greatest forum of women's thoughts in the world today, and it has no rival to which can be taken an appeal. Unless it reverses itself, its dicta must stand as reflecting the views of not only the largest number of women, but those who are regarded as the most intelligent, substantial and active of their sex.

When the General Federation of Women's Clubs, in convention assembled resolved to give to woman suffrage, its moral support, notice was served on the nation as to the belief and aspiration of the majority of its millions of women citizens. The country now knows.

CUT FLOWERS.

Mrs. J. W. Smith has a supply of fresh cut flowers, jasmine buds at 50cts per dozen. Carnations at \$1.00 and beautiful roses at 50 and 75cts per dozen.

T. & P. READY FOR SHIPMENTS

In line with the expectation that this year's grain, cotton and corn crop in Texas and Louisiana will possibly make new records, the transportation department of the Texas & Pacific Railway is making ready to take care of the big movement. Car equipment is being placed in first class condition and the improved road bed on the greater part of the system will do a great deal toward affording quick dispatch in shipments.

Only 20 cents per ROLL for Oat Meal wall paper at W. L. DOSS.

RENEW FIGHT FOR SCOTT'S FORTUNE

Daughter is Confident She Will Win Cattleman's Millions

FORT WORTH, Texas, June.—After winning in two courts her fight to break the will of the late Winfield Scott, millionaire banker and cattleman, well known in the big cattle markets of the West, Mrs. Georgia Scott Townsend of Denver, beautiful daughter of the dead millionaire, will again go into the courts to continue her fight for what she considers an adequate share of his estate, valued at 3,000,000.

The state supreme court, having reversed the findings of the two lower courts and remanded the case for a new trial, preparatory to a new trial, preparations are being made for another big legal battle here.

HELPFUL WORDS

From a Colorado Citizen

Is your back lame and painful? Does it ache especially after exertion?

Is there a soreness in the kidney region?

These symptoms suggest weak kidneys.

If so there is danger in delay. Weak kidneys get weaker.

Give your trouble prompt attention. Doan's Kidney Pills are for weak kidneys.

Your neighbors use and recommend them.

Read this Colorado testimony.

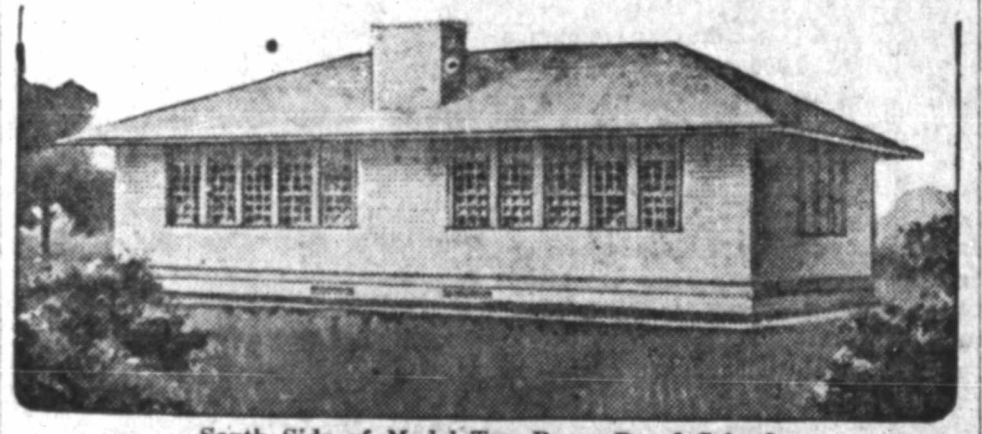

W. W. Fuller,

G. W. Fuller, horseshoer, Colorado, Texas, says "Several years ago I was suffering intensely from pain in my back and sides, caused by weak kidneys and I had other troubles common to kidney sufferers. Seeing Doan's Kidney Pills highly recommended, I used two boxes and they cured me. It gives me great pleasure to endorse them."

Price 50 cents at all dealers. Don't simply ask for a kidney remedy but for Doan's Kidney Pills—the same that Mr. Fuller had. Foster-Milburn Co., Props., Buffalo, N. Y.

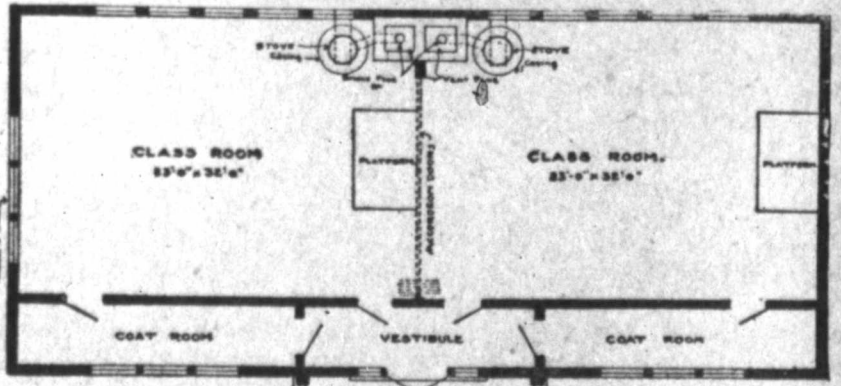

AUSTIN, Texas, June.—Capt. Jno. E. Hughes, senior officer of the Texas ranger force, is being urged by the citizens of Cameron county to enter the race for sheriff of that county. However, Capt. Hughes has practically declined to enter the contest.

THE MODEL RURAL SCHOOL HOUSE

South Side of Model Two-Room Rural School

It costs no more money and no more labor to build a model school house than it does to build one of the same size but of less desirable arrangement. The construction, heating, lighting and sanitation of school buildings present special problems which the general architect and even the physician are not always prepared to meet. In the home only two or three people are in one room at the same time, and these are usually moving about. If cold, they can move to the fire; if the day is dark, they can move near the window; if the sun shines brightly on their work, they can move away; if they become fatigued, they can change

Floor Plan

seats, open a window, or go out for fresh air. The people in a crowded church or hall usually remain only an hour or two, and are not kept still and at hard mental work during this period. In the school, on the contrary, each room must contain from thirty to sixty children for five hours a day; no one can move about at will; the boy farthest from the fire must be kept comfortable without overheating the boy next to the stove; every corner of the room must be lighted well on even the darkest day, and yet no direct sunlight must fall on any pupil's book; ten to twenty times the amount of fresh air needed in a dwelling room must be brought into a school room, and yet no child must be in a draft.

The following good features are illustrated in above cut:

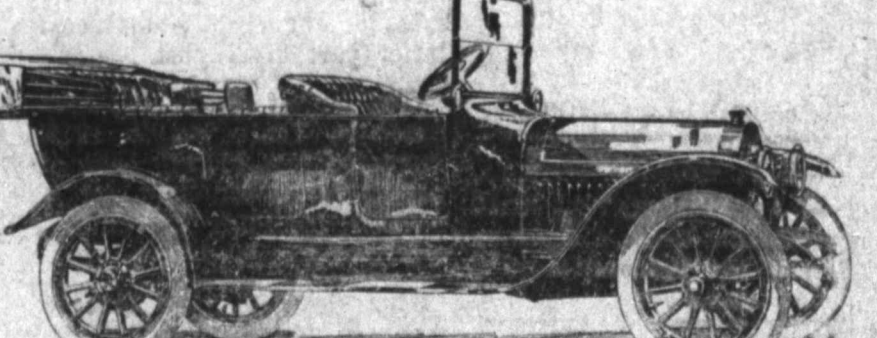

1. No windows are in front of or to the right of the pupils.
2. The windows are grouped on the left, with thin mullions between, allowing a strong light to come from the pupils' left. The windows behind the pupils are lowered, thus shutting out the light while providing ventilation.
3. The windows are high at the bottom so that the air passes evenly over the room; there is not more breeze near the window than passes throughout the room.
4. The windows are high at the top, allowing the air to escape from the room at the place of greatest pressure.

Any rural district of Texas that is planning to build a school house may secure, by writing to the State University at Austin, a free bulletin on one, two, or three-room school buildings. If desired, plans and specifications accompany the bulletin.

Studebaker SIX

\$1575

- F. O. B. Detroit
- FOUR Touring Car..... \$1050
 - SIX Touring Car..... 1575
 - SIX Landau-Roadster..... 1800
 - SIX Sedan..... 2250
 - Model "35" Touring Car 1290
 - Model "35" Coupe..... 1850
 - Six-Passenger SIX..... 1550

The Studebaker SIX is economical in fuel because it has the best motor construction.

Its small-bore, long-stroke motor, with 3 1/2 x 5-inch cylinders, uses less gasoline than larger "Four" engines. Economy of tires is equally pronounced, owing to lightness and even balance. Only the most accurate manufacturing process can produce that balance. Studebaker SIX embodies 6,000 manufacturing operations; the combined results of 5,000 separate machines. Our special steels receive two to four heat treatments—the most possible. They must withstand pressure up to 150,000 pounds per square inch. We use 247 drop forgings in the Studebaker SIX. More than in any other car. It is completely Timken equipped—even to the wheel hubs. To the best values of the others, it adds many that no other car can give—at any price. These are only a few of the reasons why the Studebaker SIX outsells all other "Sixes."

Buy Because It's a Studebaker F. S. J. PER Local Dealer

What counts isn't what you pay—but what you get for what you pay. The Ford buyer gets the most value for his money in the car and the best service afterwards. Big production, skilled workmen and best materials make Ford quality high and Ford prices low.

\$500 for the runabout; \$550 for the touring car and \$750 for the town car—f. o. b. Detroit, complete with equipment. Get catalog and particulars from A. J. Herrington, local dealer.

Artistic Table Furnishings

One important feature of our business comprises everything in the way of table silverware—knives, forks, spoons, sugar bowls, cream pitchers, platters, etc., of sterling silver or plated ware as you may elect. The designs are modern, chaste, exquisite. High grade articles at moderate prices is the whole story in a nutshell.

James T. Johnson

When we chronicled the size and left of the onions brought in by Mr. Geo. Goodwin last week we thought we had scored a record. But now comes farmer Geo. Dunn from the Belmont Farm east of town and says "not so fast", and plumps down a Bermuda onion weighing 34 ounces. The Record challenges any farmer in West Texas to beat this specimen of onion.

Oat Meal paper is the thing. W. L. Doss has it at 20 cents per-ROLL.

Oat Meal paper at 20c per ROLL. W. L. DOSS.

One secret of success is to pretend to be happy and prosperous when you are neither.

WHEN YOU ARE NERVOUS

You have the first symptom of a run-down system, and nervous people too often conceal their aches and pains and suffer in silence, while, if neglected, this condition often foreruns more serious trouble. If those so afflicted would stop taking medicine containing alcohol or drugs which menace the foundations of health, and just take the pure, strengthening nourishment in Scott's Emulsion, it would create new blood to pulsate through the organs, refresh their bodies and build up the whole nervous system. It is rich, sustaining nourishment, free from wines, alcohols or drugs. Shun substitutes.

Cut glass, ice tea tumblers. Only \$1.75 per set at Major's Jewelry Store.

The Gulf Refining Company, J. E. Stowe, local agent, is erecting a new warehouse on the siding near the creamery. The company has been doing business in this local field but a comparatively short time, but Mr. Stowe has built up a nice business already.

Swifts Premium Ham, Breakfast Bacon, Chile and Bolled Ham at Beal's Market.

P. A. Martin, Jr., president of the Stock Yards National Bank of Oklahoma City, was in the city this week in the interest of making loans to cattlemen. His bank is a subscriber to the National reserve bank of this district and has abundant capital. When a boy Mr. Martin was "devil" in the office of the old Jefferson Jimblecute, and even now the smell of printer's ink and the whirr of a press instinctively lures him to the printing office.

You can enter Hart's Business School at any time. There are now forty attending.

Have you been attending the revival services at the tabernacle? They are growing daily in attendance and interest, and are being supplemented by afternoon prayer meetings at homes.

Rose Beads in real hand carved to match any color dress.—Major's the Jeweler.

Judge W. R. Smith is campaigning this week in the northeastern part of his district.

The hot days have come, with the flies and mosquitos. Do not add to the heat by having a washwoman come to the house; for if she boils the clothes outside she will have to make starch in the house and extra dinner will have to be prepared, while she, with her careless ways, will let the flies and mosquitos in. Then there is ironing day, when there is no comfort for anybody. Send your clothes to us this summer and let us do both the washing and ironing. You will find it cleaner, cooler and cheaper.—The Laundry.

Quite a number went over to Westbrook Monday night to hear what Don Quixote Blanton had to say. He sees a windmill whichever way he turns, and shivers a lance or two.

"KING" CONSTIPATION OVERTHROWN
Dethroned by Dodson's Liver Tonic. Thousands Who Once Feared Constipation Now Laugh at It.

It's little wonder that constipation has been called the "King of Human ills."

Not that constipation in itself is so dangerous, or so alarming, but that constipation so surely leads to many and dangerous complications. At least 80 people out of every 100 are marked at some time or other by constipation's "Reign of Terror."

But thank goodness thousands have found a safe and pleasant way to stop constipation. And it's not by calomel-dosing either, because calomel is anything but safe. It's by taking Dodson's Livertone, the harmless vegetable liquid which is recommended and guaranteed by Floyd Beall.

Dodson's Livertone is fast displacing the use of dangerous calomel. This is because Dodson's Livertone accomplishes exactly the same results without the dreaded and disagreeable after-effects which often follow calomel.

Dodson's Livertone should be in every home in the land. Get a bottle (50c) today. It means goodbye to dull brains, bilious headaches, "furred" tongues and a score or more of complaints which arise from constipation and a sluggish liver.

GOING TO THE EXPOSITION!

Buy a Studebaker car and go with the Studebaker Exposition Club to California next year. See F. J. Kelper about this big trip. He will tell you about it.

A BIG FEED CROP

H. W. Stoneham was in from his ranch in the Scott pasture yesterday. Mr. Stoneham says he has 250 acres planted to sorgum and milo maize that is now as high as a man's head and is heading. He has a contract with parties to sell them the entire output of his farm at \$8 per ton for sorgum, weighed three weeks after it is cut, and \$17.50 per ton for maize heads. He estimates that his farm will bring him from \$40 to \$50 per acre net. This land was raw prairie until this spring.

Mr. Stoneham says the total rainfall from April 29th to the present date is 13.39 inches.—Sterling County Record.

NOTHING BETTER FOR THE LIVER

Simmon's Liver Purifier is the ideal liver medicine, because it contains no minerals. While it is thorough in action is mild and pleasant to take. Price 25c. Put up in yellow tin boxes. Ask your druggist. Sold by W. L. Doss.

HONEY! HONEY!

Mitchell County Honey Raised By J. H. Halley
Comb honey 12 1-2 cents per pound. Strained honey 10 cents per pound. 60 pound can of comb for \$6.00; or of strained for \$5.00. Write of phone (260) J. H. Halley, Colorado, Texas.

That Baltimore man who rolled three miles away has shown Huerta the successful way in which to make a safe exit from Mexico.

SHAVED HIS WAY THROUGH COLLEGE

Some years ago, while visiting a town in North Texas, a former President of the University of Texas went into a barber shop to get a shave. Becoming attracted by the ruddy-faced, pleasant mannered young barber who waited on him, he fell into a conversation with him, in the course of which he inquired if he would not like to go to college. The young man replied, "One of the ambitions of my life is to become a college graduate. I see little hope of it now, for I have a mother to support and, besides, I am paying the expenses of a sister who is away at school. They are both entirely dependent upon me and I must work to support them." "If you will come to the University of Texas," replied the President, "I will let you have a room at Breckenridge Hall for your shop. I believe you can go to the University and still make as much as you can in this small town."

The young man thought over the proposition carefully and finally decided he would make the attempt. When October came he shipped his barber's outfit to Austin, fitted up an attractive shop in the boys' dormitory, took his examinations for admission to the University, and went to work. His shop became so popular that during the second year another barber who had a shop near the campus, saw the advantage of having a student barber connected with his business. The young man therefore moved his chair, where he worked short hours and received greater pay. After four years he graduated with honors. Meanwhile, a friend who had money became interested in him and helped him through Rush Medical College of Chicago. The young man is now happily married, a successful practicing physician, and a strong force for good in the community in which he lives.

A helpful, sympathetic word from a kind-hearted University President came at the right moment to this ambitious poor boy. This heroic young man is an example of what is possible in America where every man is supposed to have an equal chance.

Beware of Ointments for Catarrh That Contain Mercury as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure, be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

LOCAL NOTES

Watt Collier makes a specialty of Baggage hauling.

The Record job department printed invitations this week to the wedding of Miss Eula Wallace and Thaddeus Fowler of Atlanta, Texas. The former is the daughter of W. D. Wallace, a highly respected and prosperous colored citizen of this county. The ceremony will occur July 8th.

Special attention given to cream orders out in town.—Ben Morgan.

Mr. R. S. Stokes and wife, father of Colorado's Joe Stokes, were visiting the latter and family this week. Mr. Stokes Sr. was on his return trip to Carlsbad, N. M., where he had visited another son. He went from here to his home in Lometa.

Wall paper 7½ cents per ROLL at Doss'. Don't order before you see it.

Mr. Ham Cook and family have returned from a month's visit with relatives and friends at Belton, Salado and Lampasas. They made the trip in their big car without mishap or delay. He reports splendid crops along the way, with special emphasis on the wheat crop in Coleman county.

Give me your cream orders, if possible, one day ahead.—Ben Morgan.

FOUND.—A pair of nose glasses with black cord attached. Owner call and get them at this office. Charges 25c for this adv.

Get the LaFrance from A. J. Payne ever sack guaranteed.

The weather the past ten days impresses one with the fact that the good old summertime is fully come.

Home made ice cream \$1.25 per gallon.—Ben Morgan.

Mrs. Hooper has let the contract for the erection of a seven-room bungalow residence on the lot facing the Methodist church, to Van King. Work will begin at once on this new home.

PIANO TUNING

L. W. Norcross of Ft. Worth will make regular piano tuning trips west from Fort Worth as in former years. Is now at Big Springs, Colorado next stop. First class work guaranteed. 7-24-P.

Mrs. Hardwick brought into this office Tuesday morning, a head of lettuce of her own raising that measured 14 inches across the top.

Watt Collier float line hauls anything anytime. Phone No. 8. He'll do the rest.

If you need a row binder to gather that bumper crop, it will be to your interest to carefully read the ad of the Pratt Hardware Company, in this issue of the Record.

W. E. Berry of the Cuthbert community left last week for his old home in Ludington, Michigan, where he has not been for the space of 31 years. There is to be a water carnival and jubilee on July 3 and 4, in celebration of the completion of a dock the government has erected there, and friend Berry wants to be at the killing of good things and free doings that will be pulled off at that time. And if you have never seen friend Berry perform at a barbecue or picnic, believe us, he makes a full hand and a half, even when not particularly "hungry". The Record hopes to see him return sans gout or need of repairs.

WANTED.—A lot of clean, soft, cotton rags. Will pay 5 cents per pound. A. S. BECKNER, at Ice Plant.

W. E. Lester sends the Record to his friend, E. L. Skelton, Ben Franklin, Texas. Mr. Lester appreciates the most effective method of advertising Mitchell county. One year's subscription to the Record for a friend or acquaintance back east or in some other state, will do more to induce him to migrate to this favored section than all the personal letters and promotion literature that can be written or printed. If one hundred copies of the Record were sent to prospective immigrants in other parts of the country, many of them would be landed here within a year's time. They would soon appreciate the happiness of the slogan—"Great is Mitchell County and The Record is its Prophet." You who have friends in other states or in other sections of Texas, whom you have been trying to induce to come to Mitchell county, try this suggestion once; if not for one year, then for six or even three months.

Miss Mary Roe has returned home from Houston.

Misses Lilly Allen and Marguerite Looney are in Big Springs this week attending the Gill-Abney wedding.

Carbon paper, the best at the Record office.

Miss Madalyn Adkinson left Wednesday for Merkel after a pleasant visit with Miss Gladys McSpaddin.

If it's home made ice cream Ben Morgan has it.

Curren Shaw of Sweetwater is the guest of Ralph Hester.

Rev. and Mrs. Phelan of Chillicothe are visiting relatives in the city. Rev. Phelan preached at the tabernacle Tuesday morning and Wednesday evening.

Miss Elizabeth Sandifer, Messrs. Jess Rogers and Will Johnson of Abilene are spending a few days on the McKenzie ranch.

Miss Eva Jackson of Lampasas, came in Tuesday night to visit her sister, Mrs. J. L. Allen.

Grandma Cooksey returned this week from Sweetwater, after a week's visit. She is quite sick.

LOST: A set of auto mud chains between Colorado and the Thompson ranch north of Iatan. Return to this office.

E. J. Leggett writes from Walnut Springs, inclosing quid pro quo, that he must have the "Prophet of Mitchell County"; that is better than a letter from home containing a remittance.

H. C. Doss has changed the location of his place of business and now has room to spare for his vehicle and implement stock. He has leased the old skating rink next to Moor livery barn and will arrange it to suit the convenience and requirements of his business.

J. W. Gross of the Rogers community was in this week and exhibited a stalk of cotton which he declares is only an average of his entire crop. It was twenty three inches high and bore one bloom and fifteen squares. The stalk was of vigorous growth and well bunched. Mr. Gross says his crop of 200 acres is clean and growing beautifully. His farm is on the hard land, which this season seems to be doing better than the shinnery.

No man is so poor that he can't afford to smile occasionally.

LORAIN NEWS ITEMS.

Rev. J. W. Sewell, President of the Christian College of Abilene held services at the Christian church, Sunday.

Mrs. Alex Baum of Cross Plains who was the guest of Mrs. A. D. Smith left Saturday in company with A. D. and family to Cross Plains.

Clyde Wilson went down to Abilene on the late train Sunday to visit his brother, Tennis.

Miss Loraine Dees will leave this week for Putnam to visit Mrs. Jim Bird.

Mrs. Marvin White is able to be up and will return to Dumas this week.

Rev. G. C. Farris and wife visited in Sweetwater Monday.

M. Struck, representative for Pollock & Struck of St. Louis, did business here Monday.

John Land has sent for his household goods and he and his wife will reside on the Payne farm.

Mrs. J. J. Smith entertained a number of their friends Sunday with a birthday dinner, honoring their eldest son, Tilton.

Rev. Werner of Snyder visited friends here Sunday.

Rev. W. C. Haggard and family of Mexia arrived Sunday to visit W. S. Erwin and family. Rev. Haggard's health has been bad and he hopes to be benefited by the change. They will occupy Mrs. Alice Erwin's home.

Mrs. J. W. Bennett is quite sick.

Mrs. Pearl Templeton visited down in Silver Sunday.

Little Jack Templeton has been quite sick but is reported better.

Miss Nola Baird is up after a recent illness.

Little Theire Kidd is quite sick of appendicitis.

J. M. Fairborn is out again after a few days illness.

Mrs. W. S. Erwin writes to home folks about her new grandson, Bob Jr. Anderson at San Angelo, who made his arrival last week.

The ball game Saturday afternoon resulted in scores of 7 to 1 in favor of Hermleigh. The Loraine boys will play Saturday.

A. J. Bay and son, Bill Bay, and Bertie Perry attended the play at Sweetwater Saturday night.

W. H. Hurd and Prof. J. S. Rives have joined the weed killers down on Champions at John Johnson's.

Morgan Copeland happened to the painful accident Saturday during the ball game, to have his arm badly sprained and one bone misplaced.

Mrs. H. Parker of Westbrook was the guest of Mrs. B. Parter the earlier part of the week.

E. F. Kavanaugh representative for Hoes Co., of St. Louis, was busy here Monday.

Mrs. Alice Erwin entertained most delightfully her Sunday School class and the boys of Mr. McRea's class Friday evening. Various games were played and refreshing punch and cake served at intervals and all had a merry happy time and pronounced Mrs. Erwin a charming hostess.

Miss Elsie Morton of Eastland is the guest of Miss Bessie Vanwie.

Miss Lettie Miller is visiting in town this week.

Rev. J. L. Elliott and family and Arlie Martin and wife and Miss Lucile Martin attended the funeral of Rev. Elliott's father, at Roscoe last Saturday.

D. K. Nelson has had his residence raised about three feet which will greatly add to the beauty of his place as well as comfort.

Jessie Bullock, Earl Jackson, Postmaster Persons and others of Colorado were among the visitors to hear Judge Blanton Tuesday.

W. F. Altman, J. F. Pratt, C. W. Palmer, J. M. Coats, F. Johnson were the W. O. W. brothers who went out Monday and helped hoe weeds out of S. H. Corbell's crop, as he was behind in his work since his recent illness.

Dr. Buchannon of San Angelo was busy here Tuesday.

Mrs. D. A. Goodwin and daughter, Frankie of Paducah are guests of Mrs. C. E. Jameson.

John Mahon and sister, Miss Casey, visited between trains in Abilene Wednesday.

Vic Payne Jr. is the guest of Morgan Copeland this week.

Mrs. V. D. Payne of Abilene passed through Tuesday morning en route to Big Spring to attend the wedding of her brother, Mr. Claude Gill.

Fred Haynes and wife of Roscoe are

guests of the Misses Thomas and are en route to California.

Mrs. J. H. Johnson Jr. entertained the W. M. M. S. with a social from 5 to 7 on Thursday.

R. T. Gregg and family of Valley Springs are expected in next week to visit J. H. Gregg and family.

B. B. Burns was bus here Tuesday.

Mrs. D. K. Nelson is suffering this week from a bruised arm caused by falling from the door steps.

A. Phillips had his studio moved to the lot next to the D. K. Nelson store.

Mrs. Taber and children from Abilene are the guests of Mrs. H. H. Knott.

Miss Wanda Altman has gone to Hermleigh to teach music.

Miss Nora Hallmark and Mr. Alfred Ritchie were married Sunday afternoon at the Baptist parsonage in Colorado. Rev. J. N. Campbell officiated.

This happy young couple took their parents and friends by surprise but nevertheless they have the heartiest congratulations of all.

A BEEF FAMINE THREATENS

Rachmen Appear to be Holding Back Their Stock

Fewer than 11,000 Head Have Gone To the Slaughtering Pens Within Four Days—Twice That Many a Year Ago

Buyers of cattle from the dressed beef houses say a temporary beef famine threatens Kansas City and vicinity, its duration depending on the will of the ranch owners in the great grazing sections to the west and southwest.

The slaughter of cattle in Kansas City has been far below normal for some time past, but reached an acute stage this week when fewer than eleven thousand cattle have gone to the six big dressed beef concerns in four days, are no more than enough to supply the state of Mississippi a full beef ration for two days. This week's slaughter of cattle will be less than half that of the corresponding week a year ago.

Slaughter Far Less than Capacity

The capacity of Kansas City slaughter houses is eighteen thousand cattle daily and the plants have had less than one-seventh of this number in the past four days.

In four days this week the five Western markets received only 82,000 cattle, a decrease of 333 per cent. In the first five and one-half months this year the same markets received 300,000 fewer cattle than in the same period of 1913 a decrease of 12 per cent. The shortage of meat has been increased further by the unusually light weight of cattle this year, due to the scarcity of feed.

Killers say prices for cattle have been kept with bounds owing to the unusually small use of beef. They say the consumption of mutton has increased, while pork and beef have decreased, thus keeping prices of cattle and hogs lower than expected and prices of sheep higher.

Receipts Depend Upon Grazing

Increased receipts, commission men say, depend entirely on the grazing sections to the west and southwest of Kansas City. Thus far this season that movement, which should be well under way, is far below normal, practically the only grass fat cattle received coming from Texas below the quarantine line. Only one shipment has been received from the Oaage country.

The Missouri Valley will supply few feed cattle until another corn crop can be made into beef. Pasture men assert that they will hold cattle for gains, making the marketing season late. Some say it will take killing frosts to turn cattle from grass and then if the corn crop is as large as it now promises, many will go to feed lots instead of to market.

Thus far this year receipts of all live stock at the Kansas City stock yards were only 40,276 cars, a decrease of 9,289 cars, or 18 1-2 per cent, compared with the same period in 1913, and the smallest car lot receipts in any similar period since 1892. The decrease is 117,300 cattle and 225,000 hogs. There is an increase of 18,000 sheep.—Kansas City Times, Friday June 19.

Get ready to welcome home the prodigals who for the past three or four years have pulled up and gone hence in search of that delectable country, where crops grow like ill weeds and grass and weeds have to be cultivated; where it rains whenever one wants it; taxes are always being lowered, and other bankers and merchants run after the farmer to extend him unlimited credit. They are coming back, all right, but narry a fatted calf, pig, or even shanghai rooster will be slaughtered to celebrate their return to their better senses. The Record, the great Prophet of meteorological conditions, told 'em all along.

Many a man hasn't a chance after acquiring a better half.

GOLDEN GATE

HEINZE.....

FRESH VEGETABLES.

IMPLEMENTS.

Y. D. McMurry

The Old Reliable Grocer

STRAW HATS are nice and cool in this hot weather. See what Coughran Bros. have in this line.

SHERIFF'S SALE.

The State of Texas, County of Mitchell.—Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Mitchell County, of the 9th day of June, 1914, by Earl Jackson, Clerk of said Court, for the sum of Four Thousand Three Hundred Nine and 10-100 Dollars and costs of suit, under a Judgment in favor of Missouri State Life Insurance Co., in a certain cause in said Court, No. 2653 and styled Missouri State Life Insurance Company vs. Charles E. Sprull, Georgia Sprull, Texas Nursery Co. and W. H. Neely and G. Neely, placed in my hands for service, I, Preston Scott, as Sheriff of Mitchell County, Texas, did on the 9th day of June, 1914, levy on certain Real Estate, situated in Mitchell County, Texas, described as follows, to-wit:

First Tract—The South-west One-fourth of Survey No. 17, in Block No. 26, originally surveyed by virtue of Certificate No. 2-1361, issued to the Texas and Pacific Ry. Co., and patented to said Railway Company on the 22nd day of February, 1881, by patent No. 161, Volume 52, and containing 160 acres of land, more or less.

Second Tract—The West One-half of Section No. 20, in Block No. 26, originally surveyed by virtue of certificate No. 2-1362 issued to the Tex-

as and Pacific Railway Company and patented to J. S. O'Keefe on the 17th day of April, A. D. 1901, by patent No. 10, Volume No. 20 and containing 320 acres of land, more or less;

And levied upon as the property of Charles E. Sprull, Georgia Sprull, Texas Nursery Co., W. H. Neely and G. Neely; and that on the first Tuesday in Aug., 1914, the same being the 4th day of the month at the court house door of Mitchell county, in the City of Colorado, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said order of sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Charles E. Sprull, Georgia Sprull, Texas Nursery Co., W. H. Neely and G. Neely; and in compliance with law, I give this notice by publication in the English language once a week for three consecutive weeks immediately preceding said day of sale, in the Colorado Record, a newspaper published in Mitchell County.

Witness my hand, this 9th day of June, 1914.

PRESTON SCOTT, 6-26c Sheriff Mitchell County, Texas

"Bell" Connection Solves Farm Problems

Said a prosperous and Up-to-date farmer: "We like to joke the women-folks about using the telephone, but I guess we men use it as much as they do. We find the Long Distance Bell connection feature of our service a wonderful convenience."

Have you a telephone connected to the Bell System? Ask our nearest Manager for information, or write

The Southwestern Telegraph & Telephone Co.

A Notice to All

I KEEP NOTHING—BUT SELL WOOD, COAL AND FEED

Plenty of oak wood in 4-foot, cook stove and heater lengths. I have and will keep plenty of McAlister, Colorado, lump and nut coal. Also have a good line of Blacksmith coal.

For feed of all kinds see or phone me. Free delivery. Will furnish meal and hulls at mill prices.

Wholesale oils and gasoline for The Texas Company.

W. W. PORTER
