COLORADO SHORT HORNS WINS FROM BIG SPRINGS

Last Thursday, Friday and Saturday was the time set to pull off another series of three games, on the Big Springs diamond.

The battery for the first day for Colorado was Muns and Anderson; Big Springs, Baxter and Rosemond. Score 2 to 0 in favor of Colorado. The leading features of this game was Ezell getting a hot drive behind second and throwing man out at first. First score was made on wild heave by Baxter to second base. Everybody played good ball in this game, and it was anybody's game up to the eighth when Colorado run in the only scores made in the game.

Second day, the batteries were: Big Springs, Nichols and Rosemond; Colorado, Polychek and Anderson. Score 2 to 1 in favor of Big Springs. The pitchers in this game were about equal, and both teams did fine work.

The third game was where real hard work was brought out, as both had determined to get this game. The batteries were: Colorado, Muns and Anderson; Big Springs, Wyatt and Rosemond. Score 2 to 1 in favor of Colorado. Some of the features of this game was the home run by Dobbs, who put the ball over the fence, and won the game; Ezell's catch in last inning; Mun's pitching; Big Springs' center fielder who pulled down six high balls, that were hard to get, and would have been two and three baggers had he missed them. Anderson, the nifty catcher for Colorado deserves special mention, and his work was almost perfect in all three games.

This two out of three again ties Colorado and Big Springs in the number of games, having played twelve, each having won six.

Quite a number of Colorado fans were present at these games, especially the last day, when a special train of about 100 went over, besides a number of autos filled with rooters.

On Monday, Tuesday and Wednesday of this week Colorado played three games with Baird on the home diamond and they were hot games, too.

The first day's game was won by Colorado, but the game kept the fans guessing from start to finish. The batteries were: Baird, Mathews and Ray; Colorado, Polychek and Hart. Baird brought first blood, scoring two in third inning, but Colorado caught up and tied the score on three up to the seventh when Baird scored two more; but in the eighth, Colorado boys found the pitcher and got some good hits, and run in five big ones—8 to 5 in our favor.

There were several pretty plays made in this game, but no special features, worthy of mention.

The second day's game was a rotten one, the Colorado boys running off with it from the start. The score was 16 to 6 for the Short Horns, and if they had needed them could have made more. The batteries were: Colorado Cooper and Hart; Baird, Scott, Anderson and Ray. There were no especial features, except Coopers pitching, and some good in-fielding by the Colorado boys. The most spectacular play, perhaps was made by Farrer, Colorado's second baseman, who made a long run for a hot grounder to second, and whiffed it over in time to cut down his man on first. Baird was out of her usual form, and failure to hit and a number of errors in the in-field put them to the bad.

The third day's game was the worst we ever saw. The Colorado boys scored in every inning running up a total of 13, while Baird had 4. They played only seven innings, as Baird said it "was no use" and quit; nearly all the crowd had left the grounds, as the game was a joke. The batteries were changed in each inning, so that we will not attempt to give them.

The Colorado club now stands as follows:

Opponent Played-Won-Lost
Big Springs 12 6 6
Lorraine 2 1 1
Baird (tied one game) ... 9 5 3
Weatherford 2 2 0
Cuthbert 1 1 0
Anson 3 1 2
Ablene 3 0 3
Merkei 3 3 0
Hermleigh 3 2 1
Thurber 3 1 2
Total 41 22 18

Big Springs will play three games on our diamond, commencing next Monday. As these two teams are tied on the number of games, and the last three played were so close, it is expected that this will be a battle royal

for the big end of this series. Both teams have been strengthened, and both confidently expect to win. If you want to see the best games of the season, come out to these, and do all the yelling you can for Colorado. We understand Big Springs will run a special train down each day of the game, bringing many rooters to give heart to their team.

CUTHBERT WINS FOUR OF FIVE

The Seven Wells bunch of ball players came to Cuthbert last week and played three games with the home boys, but all three went to Cuthbert, the easiest sort—almost as easy as falling off a log. At no time in any of the games was Cuthbert behind with the score. Cuthbert's battery for the first game was Williams, Womack and Grisset. Seven Wells' complete battery was not learned. Bassinger did the pitching stunt. C. H. Gunn umpired. The final score was 10 to 4 in favor of Cuthbert.

The game Friday morning went the same way as the first one did, 9 to 5 in favor of Cuthbert. The home battery was Grisset and Holley. Claude Hicks officiated as umpire.

The game played in the afternoon went to Cuthbert by 9 to 1. Womack and Holley was our battery. Seven Wells has a bunch of good players but they couldn't deliver the goods that time.

But the crowning triumph of all came when Cuthbert, playing in a three game contest at Ira, Saturday shut out Fairview, 4 to 0. Bethel and Ira played in the morning, Ira winning 6 to 1. After dinner Cuthbert and Fairview played. Then the winners of the two games, Ira and Cuthbert, stacked together. Ira winning again 4 to 1, and therefore winning the purse.

The batteries were: Cuthbert, Bullock and Grisset. Fairview, Hicks and Hicks; umpire, Blackard.

Bullock was there with the speed of a lightning bolt, and everything else needed to mow the grass down, one, two, three. He had a strike-out to his credit.

The Fairview player getting as far as second base was Rogers, who hit a two bagger. Cuthbert and Fairview had been playing all the season and, to be frank about it, Cuthbert had been the looser in most of the games. Therefore since Cuthbert has been beaten by them, they decided to save their best pitcher for the game between them and Ira, as they meant to walk over Cuthbert. It happened, however, that the tables were turned and it was Cuthbert, instead of Fairview, that played Ira, and the one that was to have pitched for them against Ira, was engaged to pitch for Cuthbert. However, this making the fifth game that Cuthbert had played during the week, Ira beat them, 4 to 1. The batteries were, Cuthbert, Williams and Grisset. Ira, Autry and Holley; umpire Blackard.

Under the management of Mr. B. W. Womack, Cuthbert's team has been greatly improved and he says they are going to win more games in the future than they have in the past.

JUDGE THOS. L. BLANTON GRANTS
INJUNCTION RESTRAINING
RETURNS CERTIFIED.

TO FIGHT COUNTIES OUT

J. F. Cunningham, State Chairman,
And C. B. Waters, Secretary of
State Convention, and F. C.
Weinert Made Joint
Defendants.

Hon. W. P. Lane, accompanied by his attorney, Judge W. F. Ramsey, of Austin, arrived in Abilene over the Texas and Pacific Monday evening.

The purpose of the visit of the two gentlemen to Abilene was to file a suit in the Forty-second Judicial District Court to contest the action of the State Democratic Convention, which met in El Paso, in declaring Hon. Jeff McLemore nominated over Mr. Lane for Congressman-at-Large. The action was brought before Judge Thos. L. Blanton, who granted the petition of Mr. Lane and enjoined J. F. Cunningham of Abilene, as State Chairman, and C. W. Waters as Secretary,

for the big end of this series. Both teams have been strengthened, and both confidently expect to win. If you want to see the best games of the season, come out to these, and do all the yelling you can for Colorado. We understand Big Springs will run a special train down each day of the game, bringing many rooters to give heart to their team.

Business men and farmers have no clear means at hand for financing the cotton crop of 1914 in the face of this war situation. There has been no concert of action in the cotton growing counties of Texas and cotton is seeking a market at any price. In many cases no offers are made for cotton seed. In the face of these conditions county mass meetings are hereby called to be held next week to take positive action in saving Texas from enormous damage. In 1904 we faced bankrupt prices for our cotton, and the entire South rose up, Texas leading, and with the support and co-operation of all classes lifted the price from six cents to ten cents and better in the face of strong opposition. Credit was extended where needed and deserved and that entire cotton crop was saved. If Texas will move now, the whole South will follow the lead of her four million bales.

Congress has provided for an addition of \$60,000,000 in currency to be used in Texas for just such emergencies, but we need to know how to use it and desire to secure this help before the market for lint and seed breaks down. Under natural trade conditions 75 per cent of the Texas crop is exported.

Knowing how the fight for better cotton prices was won in 1904-5 and realizing the urgent need for action we, as former members of the executive committee of the Texas Cotton Association, we call a Cotton Convention to be held at Dallas, Monday, August 24, at ten a. m., to which farmers, merchants, bankers, ginners, oil mill men and spinners are invited, to consider ways and means for relief. County mass meetings should be held at every court house on Saturday, August 22, at one p. m. and co-operation with other counties considered, and select at least 12 delegates to the Dallas convention. At New Orleans on August 27 and 28 there will be a meeting of delegates from every cotton state. The time for action is short, the necessity is upon us, and we must not hesitate. All papers friendly to cotton are requested to publish this call.

Person to the above call there will be a meeting of the farmers and business men of the county at Colorado on Saturday, August 22, at 3 o'clock, all from certifying the returns to F. C. Weinert, Secretary of State, which leaves the contest up to the State Democratic Executive Committee for action.

The following was the order of the court in the injunction matter:
"That the defendants refrain from recognizing the said Jeff McLemore as the State nominee for the office of Congressman from the State at large, or from certifying his name to the

COTTON 20C AT CLOSE OF WAR SAYS GOV. COLQUITT

The Governor States That the Staple Is Sure to Jump to High Mark the Minute War in East Comes to an End.

Business men and farmers have no clear means at hand for financing the cotton crop of 1914 in the face of this war situation. There has been no concert of action in the cotton growing counties of Texas and cotton is seeking a market at any price. In many cases no offers are made for cotton seed. The following was the order of the court in the injunction matter:
"That the defendants refrain from recognizing the said Jeff McLemore as the State nominee for the office of Congressman from the State at large, or from certifying his name to the

election officers as such nominee, and from placing the name of the said Jeff McLemore on the official ballot as the Democratic nominee for the office of Congressman from the State at large, or from doing any act respecting the matter which will in any way affect the rights of the petitioner."

Harvey Cook and family visited in Colorado Saturday.

farmers and business men interested in cotton ought to be present. The situation will be discussed, and delegates appointed to attend the meeting at Dallas.

It seems practically certain now that Gov. Colquitt's plan for a general conference of governors of cotton producing states to devise means for the protection of farmers in the disposition of their cotton during the European war, will prove successful. Favorable replies from a majority of the governors have already been received, Gov. Colquitt announced. It is hoped to hold the conference this month. Gov. Colquitt telegraphed the Texas congressional delegation to urge the federal government to authorize an advance of as much as \$50 per bale on 10,000,000 bales, covered by warehouse receipts and insurance, the advance to be made direct to the farmer. It is pointed out this can probably be legally done, as the government voted \$250,000 as an additional appropriation to relieve Americans stranded in Europe.

The Southern Congressmen introduced (on the 14th) in the House and Senate bills to establish bonded warehouses for storing cotton which will be made the basis of the currency issues. The department of Agriculture and Treasury have approved the bills.

Hoke Smith tells the Cotton Congress that the ship registry amendment will bring immediate relief to American cotton. He further asserts that the English mills will use three-fourths the usual supply.

A mass meeting of all interested in cotton has been called for August 22 in the representative hall of the capitol at Austin. Commissioner of Agriculture, Kone, has called the meeting at the request of the Southern Cotton Congress. They will discuss the state warehouse plan and a possible special session of the Texas legislature. The Texas committee here urges Texas growers to hold their cotton for 12½ cents middling.

Cotton will jump to 20 cents a pound immediately Europe ceases war, is the belief of Gov. Colquitt, who has studied the question. The governor gives this as one reason for urging representatives in congress to have the federal government advance farmers at least \$50 per bale on their cotton. The governor estimates provision should be made to care for approximately ten million bales of the staple.

CASE CARS IN THE MAKING AND SELLING

D. H. SNYDER, Local Selling Agent

CASE cars in their classes are without equals, we claim. We know, too, that nearly every other manufacturer makes the same assertion, but we are conscientious in our belief that our position is uncommon. By classes we naturally refer to those determined by price. Again we say they cannot be duplicated.

Price is determined by cost of production and cost of disposition. PRODUCING FACILITIES. For seventy odd years we have been sending into the markets of the world, machinery that has stood the tests of time without faltering. It has always done exactly what we have claimed for it and we have claimed for it just those things that we knew it could do. In 1842 our shops required the service of one man—the founder. Today there are thousands in our factories at Racine. Seventy years ago the financial resources were on the same basis as our payroll. Today this company is capitalized at millions.

The accumulation of years of honest, conscientious endeavor to produce machinery, has inspired the confidence of the purchasers in our productions. With an organization such as this, it stands to reason that the greatest economies in manufacture are possible, and therefore, we can produce CASE cars most economically.

COST OF DISPOSITION. But here is the feature of the CASE organization of which no other manufacturer can boast. Here's where we base our uncommon claim. Long before we started building automobiles we had our own sales organization, extending throughout the United States, into Canada, South America, Europe and Australia. In fact, there is almost no place where one cannot find a CASE representative.

The adding of automobiles, therefore, to our line of products, did not burden them with the expenses of selling which are carried by other manufacturers. The increase in sales expense was practically negligible, as our own forces simply took them over as they would an increased production of our old line. The executive, sales and advertising departments' expenses too, which are so tremendous to him who produces automobiles, only, are not found in anywhere near the same degree in CASE cars because each of our products carries its share of the expense. It is because we have our own sales organization that we save the tremendous selling costs which other automobiles must carry.

The savings we have turned right back into our cars, which fact enables us to give you a better car at the same price, or the same car at a lower price, whichever way you want to figure it.

Having thus saved where others must spend, we can spend where they must save. This is why CASE CARS ARE INCOMPARABLE.

There is however just one thing that you automobile buyers do not want to overlook, and that is the stability of the company with which you are dealing. IT HAS A CASH VALUE IN ANY CAR. Three generations have bought and used CASE machinery. Three generations have attested to its efficiency. We have been in business for over seventy years. We hope to stay for many more. The only way to do this, we realize, is to maintain the confidence of those who are to buy our products. To this end the keen ability of our engineering department is incorporated in the design of our cars, the efficiency of our shops in their construction, the integrity of our salesmen in their disposition, and the honor of the CASE name back of all.

Case Complete Forty

You automobile buyers are entitled to know everything that is in your car. You know what is standard in equipment and accessories, and you, therefore, can judge whether specifications meet the question squarely or evasively. We believe that it is of primary importance to tell you precisely what CASE cars carry in their completeness. CASE completeness sets a new standard. We list below all accessories which are carried on our cars. We

specify the makes for your information. We are proud of our ability to equip our cars. You will find each and every part the best that is to be had today in its line.

There are, however, some things which cannot be listed—VALUES WHICH YOU CANNOT SEE. Accuracy in design, honesty and thoroughness in construction and materials are not visible. If your car has these you will appreciate and ENJOY THEM YEAR AFTER YEAR. In the following we give briefly a general description of the construction of CASE cars. Really, to appreciate them and to understand them, to realize their true worth, you must see them, and, better still, you must use them. Any representative of this organization will be happy to go over the cars in detail with you, pointing out all the points which we have described.

SPECIFICATIONS

T-head motor—41x51—40 horsepower. Wheel base 124 inches. Tread, 56 and 60. Westinghouse electric starting and lighting equipment. Willard 120 hour storage battery. Bosch magneto—two-point, dual system. Lubrication, splash and force feed. Clutch, single disc, raybestos on steel. Transmission, 3 speed selective and reverse. Front axle, Timken I beam. Rear axle, Timken full floating. Brakes, expanding and contracting 15x24. Steering gear, nut and screw. Control, right-hand drive and control spark and throttle on steering wheel. Front springs, semi-elliptic. Rear springs, 2-elliptic. Tank capacity, 20 gallons, rear. Adjustments, all dash adjustments located on cowl board within easy reach of the operator. Warner Autometer, 8-day clock—rim wind. Two-tone electric vibrator horn. Firestone universal, quick detachable, demountable rims. Goodyear No-Rim-Cut tires—37x44. Extra tire on rim. Two extra inner tubes. Tire cover. Weed tire chains. Rayfield carburetor, water and air heated—dash adjustment. Genuine Pantasote top and dust hood. Quick adjustable side curtains folded in top—easily attached front seats. Rain vision ventilating wind shield. Electric head lights. Side lights combination oil and electric. Electric tail light. Electric dash lamp. Work light on long wire. Robe rail, foot rest, and the usual tools, tire repair kit, jack, etc. Mayo impulse tire pump.

Do you know of any car equipped with such completeness as this one? But you cannot truly judge a car even by such unusually good specifications as are found on this CASE Forty. THERE ARE THINGS BENEATH THE HOOD WHICH CANNOT BE SPECIFIED. Engineers even cannot judge materials accurately without laboratory tests. For these hidden values you have to take some one's word. In what organization can you better place your confidence THAN IN THE CASE COMPANY?

DETAILS OF CONSTRUCTION

EXTERNAL APPEARANCE. We believe that we shall be proud of these cars when many of you now using motors will be passing one another in the air. We believe, too, that all owners of CASE cars will be proud of them even when the styles have changed, because externally, the elements of their design are those fundamentally good, those that the ins and outs of fashion do not alter. The quiet dignity of their refinement will always be pleasing to note. Their long, low lines are those of comfort and grace. The balance of their proportions is emphasized by the sweeping line of the fenders, and the gentle curve of the back of the body. The body itself is of hammered steel, and the new fenders of pressed steel, are of unusually graceful contour. The work

throughout shows that strict attention to detail which is characteristic of CASE products.

UPHOLSTERY. Among the many things to consider in automobiles, there is perhaps none more fundamental in itself than that of comfort. This is dependent upon two things—the design of the seats and the material of which they are made. CASE cars are built to warrant that remark of approbation so often heard of them, "My, but that's a comfortable car." This can be spoken in truth, not only of the first month, but year after year. The material put into those places in which we spend where others must save, is done with the purpose of extending the life of all parts, as far as possible. This gives the CASE owners values not to be found in other cars. The Turkish cushions are of real leather, with the springs placed just as closely together as possible, to prevent the sagging of the seats. With robe rail, floor carpets, foot rest, there is nothing affecting the physical comfort of the motorist that has been omitted in these cars. Note please the height and angle of the seat backs. The precaution in the design and construction is taken to provide the most luxurious comfort, so that you can motor all day without the usual fatigue which comes from riding in cars not so thoughtfully planned. This is of great value to you motor car buyers.

Speaking of values beneath the hood: Comfort we admit is essential, and beauty absolutely necessary, but the foundation for the real enjoyment of these qualities is in the reality of those parts which are not to be seen. It is here that CASE cars shine with particular brilliancy—in those structural parts which keep them alive year after year. They make them sources of pleasure and profit to their owners and give them a re-sale value in excess of other cars of the same class.

It is this ability to build into our cars such elements that makes them superior. Beginning with scientific accuracy in design, seconded by the highest grades of materials used in all parts, we cannot emphasize too strongly our firm belief in the fact that CASE cars are usually wise investments. Our ideal is perpetual motion—the eternal youth of machinery. In so far as is possible, we have built this feature into CASE cars for 1915. Your only safe investment is in the product of a concern which you know will continue in business, one that years hence will hear your call should you cry. For seventy years we have been working and growing. For many more we hope to grow and to serve.

THE FRAME of the CASE Forty is of single drop type of special analysis pressed steel, with channel sections, all rivets being hot driven. The motor is carried on a sub-frame. As the foundation for the whole car, the first necessity here is strength, so that there can be no disalignment of related parts, no giving here and taking there, with the attendant rattling and squeaking. Of such possibility you have no worry in your CASE Forty. But strength must be had in combination with lightness. No unnecessary parts to tote around and to attend to, and all those parts which are necessary must be within easy reach. The whole chassis of the CASE Forty has been designed with this in mind—simplicity. It is of importance, particularly to the man who cares for his own car. The simpler any mechanism the greater its efficiency. This feature is notable in the CASE Forty.

THE MOTOR

The four-cylinder motor of T-head type, somewhat arbitrarily rated at 40-horsepower, will develop from 48 to 52. Its bore is 4 1/2 inches and its stroke 5 1/2 inches.

The equipment is the very best known in the automobile world today, and in this respect is typical of what is found throughout this CASE Forty, even in the smallest parts, in those hidden values for which we ask you to take our word. The name, therefore the reputation, of this company is behind each and every part of each and every car that bears our trade-mark—"Old Abe."

DR. BUCHANAN SHOT AT SAN ANGELO
Angelo Physician Receives Bullet in Shoulder while Seated at a Table in the Angelo Restaurant.

Seated at a table in the Angelo restaurant, Dr. L. C. G. Buchanan was shot at 12 o'clock Friday noon. He lay in a semi-conscious condition on the spot where he fell until 1:30, when he was removed to St. John's Sanitarium. John Simmons surrendered immediately following the shooting and is being held in the custody of deputy sheriff John DeSpain until a hearing is given, which will likely be this afternoon.

Dr. Buchanan was eating dinner in the rear of the restaurant and was facing the door. His niece, Miss Buena Vaughn of Hillsboro, was sitting on the opposite side of the table. According to eye-witnesses, John Simmons and brother, Jeff, walked through the front of the restaurant back to where Buchanan was sitting, then John pulled a revolver from his hip pocket and fired two shots, the second taking effect. It seemed to have grazed the right shoulder and then entered the wall. Jeff Simmons grabbed John's right arm, and this ended the shooting.

For fear of excessive bleeding, Buchanan was permitted to lie where he fell for an hour and a half. Four physicians were with him constantly. They would make no statements regarding the seriousness of the wounds.—San Angelo Standard, Aug. 14.

A later report says: Dr. Buchanan, the physician who was shot at noon Friday by John Simmons, the meat market dealer, as he sat at lunch in the Angelo restaurant, was this morning reported by an attending physician to be doing as well as could be expected.

A hemorrhage of the lungs, however, was suffered during the night, but the doctors believe there is still a chance for recovery. The hemorrhage it is said was not necessarily caused by the bullet striking the lungs for the spitting of blood would immediately have followed had this been the case. The jar resulting when the missile came in contact with the ribs is attributed as the cause of the back-set.

By agreement between W. A. Anderson, attorney for the defense, and Alex Collins, district attorney, the bond of John Simmons was fixed at \$1,000 Friday afternoon. A number of men were waiting to sign the bond, and in a few minutes after the paper was ready it bore the following names: J. M. Simmons, the defendant, J. M. Hammonds, T. W. Taylor, M. B. Jones D. Jones, W. H. Green, Hugh Jackson, J. D. Simmons, Gus Jones, T. S. Barton and G. P. Mitcham.

The complaint filed by John DeSpain, deputy sheriff, charged assault with intent to murder. Bond was made before Judge Branch.

"There were not more bondsmen because there was no more room on the white space," said Sheriff Allen. Long after the bond was filled, men from all over town phoned in wanting to sign Simmons' bond.

WE CANNOT DOUBT SWAMP-ROOT TESTIMONY OF HONEST CITIZENS.

Some time ago I began the use of your Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. The doctors who treated me made me believe that my great sufferings were due to female trouble. I was so bad at times I would faint away and had sinking spells. Finally a new doctor was called in and he said that I had kidney trouble and gave me medicine, of which I took several bottles. I obtained some relief from this but I was getting weaker all the time; I could not sleep and suffered so much pain that my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Swamp-Root, which I did, and I am glad to state that the first dose gave me great relief. After taking the third dose I was helped into bed and slept half the night.

I took several bottles of Swamp-Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months. I would have to be helped in and out of bed ten to twenty times every night. After taking Dr. Kilmer's Swamp-Root for two days I was entirely free from getting up and could sleep soundly.

MRS. D. E. HILMAN, Tannetion, W. Va.

Personally appeared before me, this 11th of September, 1909, Mrs. D. E. Hilman, who subscribed the above statement and made oath that the same is true in substance and in fact. Joseph A. Miller, Notary Public.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Colorado Record. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

MAXWELL CUTS PRICE OF 1915 CARS TO \$695.

New Models Embrace 17 Features in Advance of Old Machines.

The most sensational news that the automobile world has heard in a long time is the announcement that the Maxwell Motor Co., Inc., Detroit, Mich., will sell its new 1915 "25" model at \$695.

This news is creating unbounded astonishment. The 1914 Maxwell "25" was a tremendous seller.

But as the trend of the times is unmistakably toward a still lower priced car, the Maxwell Motor Company decided to make a "25" car that possesses the features of a thousand dollar car, and offer it at a price that would positively make it the greatest automobile value in the world.

The 1915 model "25" is a big advance over the previous car. It contains 17 new and distinct features—improvements that will at once favorably impress automobile judges and automobile dealers.

These features include a pure stream line body, adjustable front seats, Simms high tension magneto, three-quarter elliptic rear springs, tire brackets on rear, spring tension fan Kingston carburetor, clear vision windshield, foot rest for accelerator pedal, tail lights with license brackets attached, gasoline tank under dash cowl, crown fenders with all rivets concealed, head lights braced by rod running between lamps, famous make of anti-skid tires on rear wheels, gracefully rounded double shell radiator equipped with shock absorbing device, instrument board, carrying speedometer, carburetor adjustment and gasoline filler; improved steering gear, spark and throttle control being on quadrant under steering wheel; electric horn button in end of quadrant.

"We believe," said President Walter I. Flanders, of the Maxwell Motor Co., "that our new Maxwell "25" at \$695 will prove the fastest selling car made in this country. It certainly has every feature that should insure its phenomenal popularity. At its price it represents most remarkable value.

It is made of the finest materials; the workmanship is the best; it is a light, easy running and handsome car and it has practically every feature of a thousand dollar car.

Our schedule for the coming year calls for 60,000 cars, but we will be able to considerably increase this number. As the demand grows we will amplify our facilities in our various factories in Detroit, Dayton and Newcastle. We will be ready for any emergency. During the summer we added largely to the equipment of our factories, particularly at Newcastle. More employees have been steadily added, and we will meet all demands for this phenomenal Maxwell "25" with promptness.

"The past year has been one of exceptional prosperity with the Maxwell Motor Company, but I firmly believe that the coming year will establish a record that will be more than wonderful.

"We will equip the new "25" model

with the Gray & Davis electric starter and electric lights for only \$55 additional."

The new 1915 Maxwell "25" is a wonderfully easy car to drive, and can quickly attain a speed of 50 miles an hour.

As a hill climber of unusual power and celerity the new Maxwell "25" has already signally distinguished itself. The Lick Observatory victory of the Maxwell in which it broke the record by five minutes, is still the talk of the automobile industry.

GOOD TURNOUT ON THE ROAD.

Eighty-six whites and fourteen Mexicans foregathered last Monday morning to work on the Robert Lee road between Rod Bank and McKenzie's ranch. A full day was put in and the road much improved over its former condition. There was some disappointment at the absence of farmers who use this road, on this occasion, as the work was done primarily for their benefit. Farmer Fred McKenzie and Geo. Adams were the only representatives of this class.

About noon several good ladies came upon the scene with refreshments for the inner man in addition to the 'cue Mr. McKenzie had prepared. Geo. Adams supplemented the dinner with a wagon load of delicious watermelons, while there was ample ice water on the side. A good start has been made in putting this road in passable condition, and with a little more work Colorado can successfully compete for the farm products of the southeastern portion of the country.

It is up to the new commissioners now to grade and finish up this road, as well as several others. If the new court will keep up the road work as well as it has been carried on, in another year Mitchell county will be second to none in this section, as to her roads. Let the good work go on.

CASE OF L. L. CANTELOU.

The case of L. L. Cantelou, Clarendon, Texas, is similar to that of many others who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says, "After trying a doctor for several months, and using different kinds of medicine for my wife who had been troubled with severe bowel complaint for several months, I bought a 25c bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using the second bottle she was entirely cured." For sale by all druggists.

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst.

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

SO DECEPTIVE.

Many Colorado People Fail to Realize the Seriousness.

Backache is so deceptive. It comes and goes—keeps you guessing.

Learn the cause—then cure it. Possibly it's weak kidneys. That's why Doan's Kidney Pills are so effective.

We present the following case as proof:

A. A. Princes, Sweetwater, Texas, says: "I had weak kidneys, causing my back to ache and I had other pains common to kidney sufferers. A friend told me of the wonderful good Doan's Kidney Pills did him, so I got a box and used them as directed. In a short time I was cured. I haven't had any need of a kidney medicine since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Princes had. Foster-Milburn Co., Props., Buffalo, N. Y. 8-14-21

LONGFELLOW LOCALS.

The health of the community is very good at present, and most of the farmers are hitching "Ol' Jude" to the slide to head feed, and it is rumored that some of them will have to ride "Ol' Jude" to make it possible to head some of it.

A good many from here are attending the Baptist meeting at Shepherd, this week.

Mr. and Mrs. Barnett and family spent a very pleasant Sunday with Mr. and Mrs. Tom Free of Buford.

Miss Wilson of Big Springs was visiting the Misses Wilson here recently.

Mrs. and Mrs. West of Lasky Town left for the east Sunday to spend several days.

Mr. and Mrs. Bert Cash returned from Post City last week and are well pleased with the country there.

Mr. and Mrs. Hogan entertained several visitors in their home last week, though we are unable to give their names.

Mr. and Mrs. Judson Felts have returned from the plains.

The Misses Hart and Lois Caswell of Valleyview, attended our singing Sunday afternoon. Come again girls.

Miss Ida May Atkinson entertained a large number of young folks last Friday evening, and all report a pleasant time.

Mr. and Mrs. Foster Currey entertained with an ice cream supper last Tuesday evening which was enjoyed much, though lightning was flashing and thunder rolling in the midst of the fun which meant to return home at a very early hour, but a few lingered a little too long and had the experience of being in the rain. In spite of all a splendid time was had.

A very pretty wedding was solemnized at the home of Mr. and Mrs. Watlington at 3 o'clock Sunday afternoon, when Mr. Kay McCarley and Miss Mamye Watlington were united in marriage. Capt. Watlington of Loraine officiating. Miss Mamye is one of our most popular young ladies and we will miss her very much. She is loved by all who know her, and we congratulate Mr. Kay in his choice. The groom is a prosperous young farmer of the Valleyview community and has a host of friends who wish them all the happiness possible in their new life.

The bride was beautiful in a golden brown brocaded silk, with accessories to match, while the groom was very handsome in a blue serge. A number of friends and relatives were present. They will make their home in the Valleyview community.

Mr. Looby of Loraine attended the McCarley-Watlington wedding Sunday.

Our singing was dull Sunday on account of the wedding and the protracted meetings near us, and we have decided to discontinue the singing until the first Sunday in September.

COLORADO, TEXAS, AUGUST 21, 1914.

DEATH OF MR. MERRELL

On Thursday morning the friends of Mr. William M. Merrell were shocked when the news spread that he was dead, for no one knew that he was even sick. On Wednesday night he told the family that he was suffering with neuralgia in the head, and if he was asleep when they got up the next morning not to wake him. Mrs. Merrell was with her aged mother next door and about six o'clock Miss Lulu looked into his room and saw that he was sleeping, and went on about the morning work. About seven o'clock she heard him breathing hard, and went to the bed to find him dying. She called her mother and the neighbors, but he died before they reached his bedside.

Mr. Merrell would have been 64 years old next October. He and Mrs. Merrell had been married thirty years last week. He leaves a wife, four daughters, a brother in Arkansas, a nephew in Ira, and a host of friends, to mourn his death. Miss Shell and the married daughter were at Lamesa and came through in an automobile as soon as they could reach here.

He had been a member of the Methodist church for more than thirty years. He was also a member of the Masonic order, and the funeral will be conducted today (Friday) at 10 o'clock by Rev. R. A. Clements at the family residence; burial at Odd Fellows cemetery with Masonic honors.

Mr. Merrell was a fine christian gentleman, a loving husband, a kind father and a good citizen. The Record joins the many friends of the family in extending sympathy in this sad hour.

Messrs Ben and Rube Morgan left this week to visit relatives in Hamilton and Coryell counties. They will visit their father in Hamilton, where a family reunion will be held. There is quite a large family and they all expect to be present—the first time in a number of years.

Mrs. P. J. Ratliff and daughter, Miss Eula Lee, left for their home in Paris last week, after a visit with relatives.

Miss Rosabell Breedlove returned to her home in Abilene Tuesday, after a pleasant visit with friends.

Alton Robertson and Sallie Wood of Bauman spent Monday with Mrs. Bruce DeGarmo.

Mr. and Mrs. John C. Moor of Dallas are visiting their parents, Mr. and Mrs. John W. Moor.

Miss Ruby Franklin visited her grandmother in the Plainview neighborhood this week.

Mrs. M. E. Churchill, of Sweetwater is the guest of Mrs. Keathley, Mrs. Culppepper and other friends.

Miss Martha Earnest returned from her trip to Corpus Christi Sunday night. She reports a very pleasant time. Mrs. Doss is enjoying the sea breezes so much she will continue her stay the rest of the month.

Mrs. C. H. Earnest, daughters Misses Mabel and Jeanette, and son Joe, left Monday night for a visit in New York City and Philadelphia.

Mr. J. H. Ratliff and family left last night for their home in Menter, after a visit with his brothers M. C. and Dr. T. J. Ratliff.

We learn from the San Angelo Standard that our old friend Frank C. Van Horn, who moved from this county to Christoval several years ago, is still up to his prospecting habits, with most favorable chances of turning the long looked-for trick this time. He is at the head of a company promoting the oil prospects at Christoval, which company had lately secured the backing of ample capital to put through its prospects. Here's hoping that Frank and all his company may strike it so rich (and that quickly) that their arms will ache from counting their money. And (privately) if Frank wishes to square the account of the many good turns we contemplated doing him, he could bring up his Ford and take us down to Christoval for an outing and a "once-over" of that famous resort.

When Cyclone Davis did land a political job, it evidently turned his head, and he bids fair to add another name to that list of short horse which has graced the stalls of our national congress, and made unforgettable by Jeff Davis and Bob Taylor. Cyclone is a fairly good "quarter pony at a back country picnic, but on the thoroughbred course of the four mile track, he's left at the post. But Cyclone is one of the kind of office hunters who doesn't know when he's out of his class or over his head in water. He has already served notice that he does not propose to keep silent during his first term. So we may expect to hear the Cyclone blow and see the steam roller of the house rules mash him out like a flattened pin on a railroad track.

Now is the time for Carranza to display wisdom to match his patriarchal whiskers:

BE REASONABLE.

"What shall we do with the drunkard?" is the title of an editorial in one Boston newspaper. The real question is: What shall we do to prevent drunkard making? A full-fledged victim of the whisky habit may, of course, be rescued and restored to health; but prevention is always more important than cure. There are too many saloons and too much whiskey is drunk in them. The public must be educated into the full realization of what the drink tax on health, efficiency, savings, worldly success, and happiness really comes to. It is a case for common sense—not passion.—Collier's Weekly.

Fifty years ago much of the prohibition sentiment that prevailed was in the keeping of and fostered by long haired, effeminate looking men, children and spinsters beyond the hope of matrimony. Sentiment, passion and hysteria were its energizing powers. It lay by the roadside, like the wounded man who went down from Jerusalem to Jericho, while political parties looked upon it, acknowledged its virtues, but passed by on the other side. And so it lay bleeding in the ditch until Common Sense in the guise of business interests chanced to pass that way. Today the economic aspect of prohibition is forcing the issue to the front with irresistible force. No big corporation allows the saloon or whisky drinkers to touch its interests or service at any point. The advocates of prohibition are hardened to defeat; it does not deter them nor dampen their ardor in their determination to wipe the open saloon from the face of this country. The anti-saloon senti-

ment is growing daily; the liquor traffic is on its last legs of defense, and it only needs the dissolution of the unholy partnership between it and the federal government to give it the saber thrust.

HISTORY WRITTEN AT STATE CONVENTION.

Candidates Are Given Good Start and Political Leaders Battle.

Political history of the stirring kind was written in El Paso during the closing hours of the Democratic state convention. Oratory was turned loose in liberal portions to give the Democratic leaders a good start in the race for office, which already has been won in the state primary.

Intellectual battles were fought on the floor of the convention tent by the two commanders of Democratic factions in Texas, "Joe" Bailey and "Jim" Ferguson, and when the figurative smoke of battle had cleared, the forces of Ferguson rallied around him and by acclamation, put him in charge of the executive affairs of the party and the state, while the friends of Bailey, glorying in the stand he had taken, informally voted him the greatest man in Texas.

The closing hours of the convention were devoted largely to bringing the work to a systematic close by formally nominating the candidates for state offices as nominated in the July primaries.

In placing Ferguson in nomination, C. F. Greenwood, of Dallas, said:

"In behalf of the legislature I bespeak their loyal support of Gov. Ferguson. I nominate a man who never spent a dollar in this campaign that came from a corporation or from any other source than his own pocket. I nominate for the highest office in our gift, Jim Ferguson."

Senator Caude Hudspeth next spoke in praise of the governor elect.

The nomination was by acclamation, the delegates standing and cheering for the next governor.

"I want to congratulate this convention," said Mr. Ferguson, "on the stand taken on the resolutions just voted on."

He referred to its action in voting down the Bailey resolutions.

Lieutenant governor, W. P. Hobbly was placed in nomination by Jim Story of Fannin County.

For State Chairman, B. Y. Cummings temporary chairman, placed in nomination Paul Waples, of Fort Worth. He was chosen without a dissenting voice. All nominations were by acclamation.

Continuing his criticism of Bailey Ferguson in his speech said:

"Bailey says that the tenant farmers of San Antonio did not vote for me and I tell him that the tenant farmers of Cook county did."

"The hissing of geese saved Rome, but the Texas democracy will never be saved by the hissing of foreign dictators."

"Bailey has discovered that a great crime has been committed against the body politic. He says he came here knowing that there had been a lavish outlay of money in the past. It is up to him to tell the people when and where that happened. I ask him to be frank and tell the name of the man who used money lavishly. Was it Ball Jim Ferguson, Campbell, Colquitt or Ramsey. He ought to tell the name of the man."

"Ah—but he says that a great vision came over him in his dream and he came here to tell us about it. He says that the poor man cannot run for governor in Texas. It might be a great danger if honest men were cut off from running for governor. It would be possible for a poor man who was crooked to get the backing of corrupt corporations and win by corrupt means. There should be no maudlin sentiment about this. Joe Bailey came here to cast aspersions against me because Ferguson spent \$31,000 in the campaign. He is not sincere and I resent his insinuations that I or McKay spent money dishonestly. If you follow that Washington dictator, you will cast aspersions on McKay. When did this reform come over him? He did not tell you when."

"Why did he not have the nerve to rise in the senate when Lorimer was on trial? That man did not spend money legitimately, but bought legislatures as you would buy cattle. Yet Joe Bailey supported him. He is the man who ought to raise a question of spending money lavishly or corruptly. We fought this out while Bailey was in Washington where you will find the National Brewers' organization has an office and Joe Bailey comes to Texas to get busy."

"We told Woodrow Wilson and W. J. Bryan that they had committed a grave indiscretion. We did the same with Burleson. Is Joe Bailey any bigger than the others?"

"If he wants to come to Texas to discuss these things let him come at the proper time. This is not a question of the Democracy of any man. Any man may entertain any conviction he wishes, and be a Democrat. I told the people that they did not need to surrender their views on prohibition. The

prohibition and anti-prohibition leaders have endorsed this platform. It is not a question of Democracy. It is a question of whether or not we will keep the faith with the people of Texas. It is a question of whether or not we will let a foreign dictator come to Texas and tell us what to do. Bailey says that the land plank is dangerous. He sneered back in that big, dignified way of his and said that it was 'unconstitutional.' It don't make any difference whether it is constitutional or not. The people made the constitution and they can make another one. It is a question of whether the third and fourth is right or wrong. It is not a question of constitution but the rights of the tenant farmers of the state.

"Tom Ball declared that the condemnation and purchase of private land was not confiscation. Bailey supported Ball. Yet he tells you that you cannot take land for private use. He don't care anything about the right of contract. If I am a socialist as he says I am, then when he supported Tom Ball he was the greatest high handed anarchist who ever lived."

On rebuttal Bailey was given 15 minutes. After criticizing Ferguson's speech, Bailey said:

"Ferguson says that I voted for Lorimer. Ferguson never read a word of that testimony in his life and doesn't know what was in it. Think of a man expressing an opinion upon a case when he did not read the testimony."

"Did you vote for Lorimer?" a delegate asked.

"Yes I voted for him under oath to decide according to the law and the testimony."

"I would do the same thing again under the same conditions. I never lynched a man yet whose skin was white, and I never will."

"Now we come to Wolters. I did not know that one of his grudgees was that I did not help him to beat Morris Shephard. I tried to, but couldn't. I wrote letters for Jake Wolters, some of them at his request. The reward is that he gets mad at me because the people of Texas did not elect him to the senate."

"I believe every state ought to have the right to decide the question of prohibition for itself. So did Wolters. Yet he got mad at me and is not willing to say so. Wolters says and governor Ferguson to be—I hope he will be in spite of his exhibition here—that prohibition is not a test of Democracy. So say I in the state for it is a mere police regulation. In the nation it goes to the foundation of government and involves the doctrine of states right. The man who does not know the difference between state and national wide prohibition ought to have gone to the senate."

"Wolters justified all I said about the use of money for Ferguson by saying that if it had not been spent they never would have beaten Tom Ball. He says what I never would say—except for Ferguson's ability to spend money he would not be the nominee of the party today. I never said anything that bad about him."

"How many men have \$30,000 and Wolters admits that without that Ferguson would not have been nominated. We got a confession that politics is controlled by money right there."

"I know you don't want to hear that, but Mr. Wolters said it. I don't care who he is or where he comes from, no man ought to receive the Democratic nomination who owes it to the use of money. I don't say Ferguson does."

"Wolters does say that. Wolters says that without money he could not get the newspapers to tell the truth. They have told 1000 lies about me. There is no use to abuse the papers. Deprive them of money and like men, if you deprive them from temptation they will not lie."

"I say with the authority of Thomas Jefferson, that no greater misfortune could come to the country than the destruction of the press. If the great dailies will not tell the truth the weeklies will."

"I want to see the man without a dollar have as good a chance at the primaries as a man with money. If not the man with the short head and the long purse will be able to beat the man with the long head and the short purse. Let us banish the money from our midst, let us banish the use of money and let us restore the glorious times, when the ballot fell from the freeman's hand and executed the freeman's will as the lightning does the will of God. For the man who will buy office, will sell privileges and power. Let us make it impossible for any man to stand before a Democratic convention and say except for the use of money he never would have been nominated."

"When Jake Wolters defends 'Cyclone' Davis it looks like the millennium has come. But I expect that Cyclone will denounce Wolters to the world before long. It was a noble sight to see Cyclone Davis and Jake Wolters walking down the aisle making common cause against Joe Bailey. What a splendid and inspiring spectacle!"

"No matter how I may be assailed by unsuccessful politicians, I will do my duty."

MISSIONARY SOCIETY.

The Ladies Missionary Society of the Methodist church met at the church house and carried out a program on Stewardship and Mission Study. Roll call, Notable instances of giving. Scripture lesson, Mrs. Merritt, giving of her personality, Mrs. T. J. Davis. Missions a debt of charity, Mrs. W. L. Doss. A talk—Mission study, Miss Jo Dry. The study course in Dallas, Mrs. M. K. Jackson. After the program the ladies decided to take up a special course of study, and decided to take "The Child in the Midst." The books will be ordered right away and it is hoped that those who were not there will give their order for a book and begin the work at the beginning. It was also decided to give a Tom Thumb Wedding real soon, and Mrs. M. K. Jackson was appointed to take charge of it.

WEEK END HOUSE PARTY.

Miss Ewell Gary entertained with a week end house party of girls in honor of her guests Misses Thelma and Maud Loefer of Big Springs. The personnel of the party was: Misses Winnie Vaughan, Lula Mae and Elnora Dulaney and Winnie Davis Crockett. The main diversions were eating and auto riding.

METHODIST PLAY.

The Young Peoples' Missionary Society of the Methodist church will give a play Friday (tonight) on Mr. Earl Jackson's lawn. The play is entitled "Young Dr. Devine," and the cast of characters is as follows:

- Rebecca Eva Davis
Elizabeth Rowena Hester
Grace Courtney Formwalt
Marie Eril King
Laura Claudia Smith
Maude Gertrude Schroeder
Rose Lona Harrington
Madam Katie Buchanan
Dr. Devine Sallie Harrington
This will be accompanied by a musical program.

Everybody invited to be present. Admission 25 cents.

CHURCH SOCIAL.

The members of the Christian church and Sunday school met on the church lawn Wednesday evening in a social capacity. All the officers, teachers and pupils were there. In fact everybody in the church and school was there, except a few who were kept away on account of sickness. Everyone came in his best mood, came to have a good time and had it. The lawn was lighted and seated for the occasion and the little folks played games while the older ones enjoyed the social intercourse with one another an abundance of home made cake and ice cream were served to everybody. It was a pleasant affair and the church and school will be the better off for it.

BUNCO PARTY.

Mrs. Jack Smith entertained twelve little girls with bunco, Monday afternoon in honor of her little sister, Janie Bell Bounds, of Marlin, who is visiting her. A merry time was had by all and at the close of the games all the girls cut for a box of candy, ice cream and cake were served for refreshments.

YOUNG PEOPLE.

The Young Peoples' Missionary Society of the Methodist church met with Mrs. J. G. Merritt Monday afternoon. After the business meeting the rest of the time was spent in rehearsing their play they are to give soon. Light refreshments were served at the social hour. Misses Hazel Costin and her cousin Ava Bynum were guests.

PICNIC.

Mrs. Gary entertained about thirty-five of the near young people in honor of Misses Maud and Thelma Loefer of Big Springs, who are guests of her daughter, Miss Ewell, with a picnic on the lawn, last Tuesday evening. Dainty things were prepared by the hospitable hostess and enjoyed by all. Music and games followed and were also enjoyed.

HONORING MISS BLANDFORD.

Miss Nell Ruth Arnett entertained with cards and 42 on Tuesday afternoon at her sister's home, Mrs. Tom Stonerod, Jr., in honor of Miss Nora Sue Blandford of Polytechnic, a former Colorado girl. There were five tables of five hundred and two of 42 guests consisted of the 500 club and Mrs. R. McMurry and Miss McMurry, Mrs. Royall G. Smith, Mrs. Bailey, Mrs. Myrtle Vaughan, Mrs. Jim Coughran, Mrs. Gardner Hammock of

Ballinger, Mrs. W. W. Campbell of Yoakum, Mrs. Staten Hamner of Galveston, Mrs. John Daniels of Merkel, Mrs. Dick Arnett, Mrs. Edwin Fulk, Miss Ruth Buchanan, Miss Gene Figh of Dallas and Miss Maggie Figh of Alabama. The honor carried off both prizes given in 42, a souvenir spoon and a set of cut glass tumblers. Mrs. Bailey won the guest prize in 500, a Colorado spoon, and Miss Martha Earnest bore off the club prize, a set of cut glasses. At the close of the games a two course luncheon was served, pressed chicken, olives, wafers sandwiches and iced tea, and ice cream and cake.

BAPTIST MEETING CLOSED.

The Baptist meeting held at the tabernacle closed last Sunday night and Dr. Williams left to conduct a union meeting at Trinity. The meeting was a success in every way. Christians were edified and strengthened by this strong preacher. Many were converted and thirteen united with the church for baptism, and two say letter. All his sermons were fine, but perhaps those on Influence, Supremacy of Religion and Consecration, will live longest in the hearts of the people.

At the close of the Sunday morning service after he had preached on Consecration, an offering amounting to more than a thousand dollars in cash and notes, for the endowment of the Seminary was taken.

A beautiful and impressive service was held at the church house Monday night when thirteen was buried in baptism.

KING'S DAUGHTERS.

Mrs. Andrew Cooksey was hostess for the Kings Daughters last week. Mrs. J. G. Merritt presided. After the study of the Sunday school lesson the regular business was transacted. They decided to send a box to the Amelia McKeown Home at Stamford. One new member was received. Mrs. Price and Mamie Hall were guests. At the close of the meeting several young ladies were invited in to the social hour and to meet the Misses Anderson, the cousins and guests of Mrs. Cooksey. Mrs. Stowe favored the guests with a vocal solo and Miss Whipkey a piano number, after which ice cream and cake were served. The meeting next month is with Mrs. Annis.

Mrs. W. W. Campbell of Yoakum is visiting her grandmother, Mrs. A. A. Bailey.

MALARIAL DISEASES.

How to Avoid Them and the Serious Consequences of Neglect.

"Fix me up something to knock the malaria, doctor," remarked a sorrowful, sickly looking man, entering a prominent physician's office the other day.

The doctor stepped to his medicine case, took down a couple of bottles, mixed a preparation which he handed to the patient with the customary advice to 'shake well and follow directions,' and resumed his seat.

"Such cases are frequent," replied the doctor in answer to a question. "The warm days and damp, chilly nights are certain malaria breeders and are most serious in those who have neglected to keep their stomach, liver and bowels in good condition. Such persons are full of the impurities on which the malarial germ thrives, and it is from this class that typhoid fever, pneumonia, Bright's Disease, small pox and yellow fever claim most of their victims whenever these diseases are prevalent.

The proper way to guard against the malarial germ and the serious diseases which follow it is to get into good condition by taking a reliable remedy that will keep the bowels clear and the liver healthy, and to continue with it at frequent intervals during the sickly season.

A dose of Prickly Ash Bitters three or four times a week will do all of this, besides stimulating the digestion, improving the appetite and keeping the bodily energy at the highest pitch.

Prickly Ash Bitters is known everywhere as a system tonic and bowel regulator. It not only removes all traces of malarial poison from the system, but Jones up the vital organs, gives new strength and vigor, makes the body strong and the brain active.

"Prickly Ash Bitters is the best all-around medicine for the family I ever used. During the last ten years I have always kept it in my house. Whenever any of my family show signs of malaria, kidney trouble, indigestion or constipation a few doses is all that is needed to make them well and hearty again.—W. B. McWilliams, Rocking, La.

Studebaker

AUTOMOBILES

STUDEBAKER dealers, everywhere, are of the progressive, prosperous and permanent type of business men.

They enjoy steady business day in and day out, year in and year out.

They are not in the motor car business today and some other line of business tomorrow.

They know motor car values and the ins-and-outs of the business.

That is why they are Studebaker dealers.

Studebaker cars are manufactured practically complete in Studebaker plants.

The Studebaker organization is, we believe, the most efficient unit in the entire motor car industry.

Its co-operation with Studebaker dealers along the line of sales, of service and of advertising is broader in its scope and more helpful in character than is the co-operation enjoyed by any other class of dealers.

That is why Studebaker dealers are invariably successful dealers.

That is why Studebaker territory is at a premium.

That is why there is in many parts of the country an actual waiting list of responsible dealers anxious to secure Studebaker representation.

Many divisions and subdivisions of territory are being made in various parts of the country, making a few very desirable openings for responsible dealer connections.

Dealers visiting Detroit are cordially invited to inspect the Studebaker plants and investigate Studebaker manufacturing and sales methods.

CALOMEL MAY HURT YOUR LIVER.

Every time you take this powerful drug you are in danger. Take Dodson's Liver Tonic instead. Calomel is made from mercury, and while mercury has many valuable uses, it is a dangerous thing to swallow. If calomel stays in the system very long it salivates. Even when it works naturally, its after-effects are often bad. Floyd Beall will sell you Dodson's Liver Tonic, which is positively guaranteed to take the place of calomel. Liver Tonic stimulates the liver just enough to start it working, and does not make you sicker than ever—as calomel often does. You feel good after taking Dodson's and it won't force you to stop eating or working after taking it. It is as beneficial for children as for adults. Try a large bottle for fifty cents under the guarantee that your money will be given back cheerfully if you're not satisfied. 8-21

Whenever You Need a General Tonic Take Groves' The Old Standard Groves' Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and builds up the Whole System. 50 cents.

NOTES OF IMPORTANCE TO YOU

I suppose that it is not generally known to my old trade of the Roscoe, Hermleigh, Snyder, Dunn and Colorado territories that we have consolidated our two banks at Loraine and that I have built a new mercantile building, basement floor 50x100 feet, first floor 50x100 feet and decking some two-thirds of the first floor space, very nearly equal to a three story building in space.

The building is in a manner complete and is very nearly filled with a line of general merchandise as follows: DRY GOODS, CLOTHING, HATS and CAPS, BOOTS and SHOES, LADIES' READY-TO-WEAR GARMENTS, GROCERIES—Bought in carload lots—HARDWARE QUEENSWARE, BINDER TWINE, WAGON AND HOUSE PAINTS, LINSSEED OIL, PRATT'S STOCK and POULTRY FOOD, LINIMENTS, INSECT EXTERMINATORS; a general and complete line of all articles named; WAGON, BUGGY AND PLOW HARNESS; STEEL WINDMILLS that require only one greasing per year. The above merchandise is in a manner all new and bought at the right prices.

I want to say to you that I am the same W. L. Edmondson who sold you goods so cheap, not so many years ago, in Roscoe. The European War is now demoralizing prices but many predict that prices, especially of food stuffs, will be high this fall. I want to say to you that I have my stock of merchandise and you can buy cheap from me despite the war. I want you to watch my ads in the Loraine, Roscoe and Colorado papers. In these papers I will run an ad for some two or three months, naming you prices that I feel sure will justify you to bring your cotton to Loraine and buy your dry goods, hardware and general supplies from us.

We will name you a few specials for the next week proving to you we mean what we say.

All bolt Spring and Summer Dress Goods such as Lawns, Voiles, Crepes, Tissues, Summer Hose, Men's, Ladies' and Childrens' low cut shoes, all for HALF PRICE for the next week.

8 oz. Ducking, 11 cents per yard. White Sisal Binder Twine, 10 cents per pound. Standard Granulated Sugar, \$5.00 per 100 pounds. First Class Grade of Flour, \$2.65 per 100 pounds. Second Grade, \$2.40 per 100 pounds. Third Grade, \$2.20 per 100 pounds.

Here are the lowest prices ever known in a retail way of first class Canned goods:

Table listing various canned goods and their prices, including items like Hominy, Kraut, Tomatoes, Peaches, Apples, Apricots, Pineapples, and Blackberries.

All other canned goods too numerous to name at similar prices. We have a large stock of Tinware, Glassware, Hardware and Leather Goods on which we are making special prices. We want your trade if low prices and good treatment combined will get it. Watch our changes weekly in the paper and come to us with your wants. "The Big Store."

COME TO US

for jewelry of every description. There is much to admire in our display of Sparkling Gems and Attractive Novelties for the simple reason that our assortment is remarkable. It's only necessary to look at what we have to see that this is the case. Your eyes must describe it to you, as we can't attempt the task. Seeing is knowing, and in this case knowing is almost equivalent to buying. Our prices are reasonable.

James T. Johnson

A MISTAKEN IDEA

There are some people who still resort to drugged pills or alcoholic syrups to overcome colds, nervousness or general debility, and who know that the pure, unadulterated nourishment in Scott's Emulsion is eminently better, but refrain from taking it because they fear it may lead to excessive fat or obesity. This is a mistaken idea, because Scott's Emulsion first strengthens the body before making flesh. Its blood-forming properties aid nature to throw off sickness by building health from its very source, and flesh is formed only by its continued use. Avoid alcoholic substitutes for SCOTT'S.

Pete Avery has the agency for all kinds of Electric Irons, also a fine Toaster Stove. On exhibition at Almond's store. Go see them. Low in price. Has many uses.

STATED MEETING

R. A. M. No. 175 Friday Night August 21. Visiting companions welcomed. F. B. WHIPKEY, H. P.

WILL BE READY TO SERVE YOU.

My restaurant will have been completely renovated and refurbished by the 1st of September, when I shall be ready to serve the hungry public better than ever before in the history of my business in Colorado. Others come and go with the fluctuating fortunes of the town but "Jakes" stays on through good and ill fortune. Remember the date of re-opening—September 1st.

I thank the people of Colorado and Mitchell county for the liberal patronage accorded me during the past thirty years and ask a continuance of the same based on better service than I have ever been able to give. JAKE MAURER.

SURPRISES MANY IN COLORADO.

The quick action of simple buckthorn bark and glycerine, etc., as mixed in Adler-I-ka, the remedy which became famous by curing appendicitis, is surprising Colorado people. Many have found that this simple remedy drains so much foul matter from the system that a single dose relieves constipation, sour stomach and gas on the stomach almost immediately. Adler-I-ka is the most thorough bowel cleanser ever sold. W. L. Doss. 8-21

For Sale Cheap.

Two good east front lots, with well; close in for sale. Cheap. See Dr. W. R. Smith.

HEADACHE GONE.

Rub a little Hunt's Lightning Oil on the pain is gone almost instantly. For neuralgia and rheumatism it seldom fails to give instant relief. Don't suffer pain when this splendid remedy can be purchased at your drug store.—W. L. Doss.

MAJESTIC RANGES

ONE WEEK ONLY

COMMENCING MONDAY, AUGUST 24—ENDING SATURDAY, AUGUST 29

ONE WEEK ONLY

SAVE \$8.00

As a special inducement during our demonstration week only, with every MAJESTIC RANGE sold (prices always the same) we will give free one handsome set of ware as illustrated here. Every piece of this ware is the best of its kind. Not a piece that is not needed in every kitchen. It cannot possibly be bought for less than \$8.00. This ware is on exhibition at our store. DON'T FAIL TO SEE IT.

Which Shall It Be

Do you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove?

You KNOW that old stove eats up a lot of fuel each year.

You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs.

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

THE GREAT MAJESTIC MALLEABLE AND CHARCOAL IRON RANGE

You make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos—parts being malleable can't break—has a movable reservoir and an oven that doesn't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (browns bread just right all over without turning), heats 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen;" you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 300 per cent stronger than other ranges where most ranges are weakest.

MAJESTIC RANGES ARE MADE IN ALL SIZES AND STYLES

ON-LEGS IF DESIRED

MAJESTIC NEVER-BURN COOKER-STEAMER-CALENDER AND DRAINER-HEAVY STAMPED IRON MALLEABLE KETTLE: 13 OZ. ALL-COPPER TEA KETTLE: 14 OZ. ALL-COPPER COFFEE POT

HEAVY MALLEABLE PUDDING PAN-LARGE NEVER-BURN WIRED DRIPPING PAN: 2 SMALL NEVER-BURN WIRED DRIPPING PANS: 2 SMALL DRIP PANS CAN ALSO BE USED AS ROASTERS

Don't Overlook the Date. This is a Special Invitation to You and Your Friends and Neighbors

CHILDREN

SOUVENIR DAY 100 TANGO HOOPS FREE

The first 100 boys and girls who present to THE MAJESTIC RANGE SALESMAN at our store, between 3 and 5 p. m. TUESDAY written answers to the following questions, will receive a "TANGO HOOP Souvenir" FREE.

- 1—What range is your mother now using?
- 2—Do you know anyone needing a new range? Who?
- 3—Why should the GREAT MAJESTIC RANGE be in every kitchen?

\$1.00 ARTICLE FREE

The one giving neatest and best answer to the last question may select any \$1.00 article from our stock, in addition to the SOUVENIR.

Don't be discouraged if you are not one of the 100 to get a Tango Hoop Souvenir. You will get a MAJESTIC PUZZLE CARD. Something for all the boys and girls.

Don't fail to get one of these Tango Hoops. It's a new and wonderful toy—amuses the old as well as the young. The Hoop dances forward, hesitates and returns to the operator. Children, it's great, and will be the talk of the town.

Be sure to have your answers ready to hand in at our store TUESDAY AFTERNOON, between 3 and 5. They must be written answers—OTHERWISE YOU WILL NOT get a souvenir.

SPECIAL All during this week a special demonstrator direct from the MAJESTIC FACTORY will be glad to show you "ALL ABOUT RANGES"—show you why the MAJESTIC is the best range on earth at any price.

Come, If You Intend to Buy or Not

EDUCATION lies in KNOWING THINGS—KNOW why the oven of a range is heated—KNOW how the water is heated—HOW the top is heated—WHY the MAJESTIC uses so little fuel—KNOW how a range is made inside and outside. This education may serve you in the future. DON'T OVERLOOK a chance to KNOW THINGS shown by one who knows. COME.

THE TWENTY YEAR TEST.

"Some twenty years ago I used Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Geo. W. Brock, publisher of the Enterprise, Aberdeen, Md. "I discovered that it was a quick and safe cure for diarrhoea. Since then no one can sell me anything said to be 'just as good.' During all these years I have used it and recommended it many times, and it has never disappointed anyone." For sale by all dealers.

AUSTRIANS ROUT CZAR'S ARMY AT KRASNİK--INVADE RUSSIAN SOIL

PRINCE FREDERIC, OF SAXE, MENINGEN, LOSES LIFE—FRENCH WAR OFFICE—DECLINES TO ISSUE STATEMENT ABOUT OUTLOOK OF BATTLE.

PROTESTS ARE MADE AGAINST ZEPPELIN'S BOMBS

American Minister Asks German Authorities to Desist from Dropping Bombs in Antwerp—Ten Streets Torn Up and Twelve People Killed. Russian Embassy Says Germans Were Defeated—Many Guns Captured.

Paris, Aug. 24.—It is officially announced that a great battle between the greater part of the English-French forces against the bulk of the German army continues today.

The English-French mission is to hold virtually the entire German army to Belgium while Russia pursues her successes in the east. The Russians occupy a territory fifty miles wide on the German frontier.

Servians after a great victory have made Sava in Austrian territory north of them. It is rumored that the Germans have occupied Nancy, but this is not confirmed.

GERMANS TAKE MANY PRISONERS.

Berlin, Aug. 24.—It is officially announced today that the Germans under Grand Duke Albrecht, defeated the French at Neufchateau. The Germans captured many guns, flags and prisoners including several generals.

The Germans under Rupprecht, Crown Prince William and Albrecht are vigorously pursuing the French. Rupprecht's command captured a hundred and fifty guns at Luneville. The Crown Prince's command pursued the enemy beyond Longwy. The Germans are west of the Meuse and are advancing toward Maubeuge. They defeated the English cavalry brigade.

BRITISH FORCES "HOLD OWN."

London, Aug. 24.—The official bureau says: "The British forces were engaged all Sunday near Mons Belgium and they held their ground." The French embassy here informs us that up to the present time advantage has been with neither side. The Austrian fleet is reported to be proceeding toward Cattaro in Dalmatia and the French fleet is in the Adriatic.

AUSTRIA STOPS SERBIAN CAMPAIGN.

Udine, Italy.—Vienna dispatches say that the Austrians have about abandoned the Serbian campaign to concentrate against the Russians. The Bosnian troubles worry the Austrians considerable.

GERMANS MOVE AGAINST MUELHAUSEN.

Basle, Switzerland.—Reports from Upper Alsace say that the Germans are making another offensive move against the French army now occupying Muelhausen.

AUSTRIA COMPLIES WITH JAPAN'S DEMAND.

Washington.—The danger of war between Japan and Austria was removed today when Austria agreed to dismantle the Cruiser Kaiserin-Elizabeth now at Esing Tau.

WIRELESS VIOLATING LAW.

Washington.—Secretary Redfield notified the German owned wireless station at Tuckerton New Jersey that it was operating in violation of law, because it was not licensed.

NAMUR HAS FALLEN.

London, Aug. 25.—It is officially announced that Namur, thirty-four miles southeast from Brussels, has fallen. This news today caused the gravest concern throughout England. The fortifications were examples of the finest military designing in all Europe. The London press reflects the seriousness of the situation. The Times says the fall of Namur in two days will require a deal of explanation and that the Belgians feel that the allies have not given adequate support. The Express says: "We may yet see before long the Germans march upon Paris." An Ostend dispatch says that thirty thousand Germans are attacking Malines, thirteen miles southeast of Brussels. A great battle has been in progress since Friday in the province of Hainaut on the Belgian southern frontier. Fighting began throughout Flanders today. A Liege refugee says that soldiers inscribed on the city walls "William II Emperor of Europe."

ZEPPELIN AIR CRAFT BROUGHT DOWN.

London.—An Antwerp dispatch says that the Belgian Artillery brought down a Zeppelin airship which flew over Antwerp last night. Fifteen Germans were captured when the craft came to the ground. The airship previously had dropped seven bombs into Antwerp. One house was wrecked only three hundred yards from King Albert's palace. One bomb partly wrecked the Hospital Saint Elizabeth which flew the Redcross flag. This caused great indignation though fortunately no patients were in the building. The English and French newspapers generally admit that the Allies have met with reverses. It is assumed that the Allies are retreating to the first line of defensive works south from Maubeuge through fortress of Hirson, Verdun, Toul and Epinal. These are interspersed with smaller works while behind them lies another line of strongly fortified forts from St. Quentin through Reims to the great entrenched camp at Chalons.

CATTARO FORTIFICATIONS DESTROYED.

Milan.—A Cattaro dispatch says that the allied fleet destroyed all of the Cattaro fortifications before the Austrians had time to mine the harbor. The Austrian commander is reported to be parleying for surrender of the city.

SERVIA CLEARED OF AUSTRIANS.

Nish, Servia.—It is officially announced that Servian territory has been cleared of Austrians who have been forced across the river Save. The Servians have reoccupied Sabac. It is claimed that the retreating Austrians massacred the inhabitants.

GERMANS CAPTURE 10,000 FRENCH.

London.—An Ostend dispatch reports fierce fighting on the outskirts of the city. The German Embassy by wireless says that the Germans severely defeated the French August 17 to 21, capturing ten thousand prisoners and a hundred and fifty guns.

BELGIANS LOST 66,000 SO FAR.

The Hague.—It is estimated that the Belgians so far have sustained a loss of fifty thousand wounded and sixteen thousand killed.

GERMAN ADVANCE CHECKED.

Paris.—It is officially announced that the Allies are holding the German offensive movement in the north after surprising and driving back the German advance. It is denied that the Germans have captured Muelhausen.

GENERAL DEVELOPMENTS TODAY.

London, Aug. 26.—The German forces delivered an attack on the French frontier yesterday. They were repulsed and retired all along the line. Antwerp dispatches say that the Belgians destroyed the German defensive works.

In Lorraine the allies have begun a combined offensive movement. The battle which was begun yesterday is still raging. The situation of the Vosges mountains is unchanged with the French making progress in the Luneville region. The Germans were driven back at Tournai Monday, the French took Orroir in east Flanders. The Russian center is reported to be marching on Posen in the central part of eastern Prussia.

The Premier announces that German Togoland in Africa has offered to surrender. The Premier told the Commons that Kitchener needed not only one hundred thousand volunteers but all that he could get. The reported withdrawal of the French from Alsace is unconfirmed.

The German ambassador Von Berstorff announces that the Japanese attack on Tsing Tau has failed and that the Japanese are preparing for a siege.

AUSTRIANS INVADE RUSSIA.

Berlin.—Vienna reports say that the Austrians were completely victorious in a three day's battle with the Russians at Krasnik in Russia Poland twenty eight miles southwest of Lubin. The Russians were repulsed along the entire front of forty two miles and are now in full flight towards Lubin. This is the first indication of the Austrian advance into Russian territory.

PRINCE FREDERIC, OF SAXE, KILLED.

Berlin.—It is officially announced that Prince Frederic of Saxe Meiningen was killed before Namur.

ANNOUNCE RUSSIAN VICTORY.

London.—The Russian embassy announces fresh Russian victories against both Germany and Austria. The messages declare that the Russians occupy the whole southern half of eastern Prussia. A St. Petersburg dispatch says that the Germans are retreating toward Osterode and have abandoned a hundred guns.

AUSTRIA DECLARES WAR ON JAPAN.

Washington.—Vienna dispatches to London say that Austria has declared war on Japan. The formal declaration was served on the Japanese ambassador and he was handed his passports. He placed his affairs in the American minister's hands and leaves for Rome at once. Neither the state department nor the Japanese embassy here have any confirmation of the declaration of war on Japan.

FROM BUFORD:

Most everybody is busy working with their feed.

Mr. W. T. Rogers and family have returned from a visit out on the plains.

Miss Willie Young from Dickens county paid Miss Anna Palmer a pleasant visit the first of the week.

Mr. J. C. Gist's daughter and two sons have returned from a visit in Martin county.

A few of the Buford young people enjoyed a musical entertainment at Mr. and Mrs. Palmer's last Wednesday night. Everybody had a fine time.

Mrs. Richards, near Buford, has returned from Fisher county, where she spent a few days with her mother.

Mr. Blankhead is teaching a singing school at Buford, which will last ten days.

Miss Winnie Calaway from Colorado was at singing Sunday afternoon.

Buford is going to have one of the finest singing classes in Mitchell county.

Mrs. S. N. Palmers father and mother from Brown county have returned home.

The Christian meeting will start at Plainview Saturday night.

SINGING AT WESTBROOK.

The west side singing convention will meet at Westbrook on the first Sunday in September. Everybody invited, and especially the classes and singers from the this district are urged to come. Let us have a big crowd and a good time. GEO. GOODWIN.

CARD OF THANKS.

To our many friends and acquaintances who extended aid and sympathy to us in our sad hour of trouble, in the loss of husband and father, we desire to express our heartfelt thanks and appreciation. Also to those who brought in such beautiful flowers. May God's richest blessing be with you always in our prayer.—Mrs. W. M. Merrell and Children.

NOTICE.

Rev. B. W. Dodson will preach at the Methodist church Sunday at 11 a. m., and at the tabernacle at 8 p. m. His theme at the evening service will be "Why Bog Ingersoll Failed to Destroy the Bible. Everybody cordially invited to attend both these services. R. A. CLEMENTS, Pastor.

SAVE YOUR FEED.

The problem now is with the farmers, how will they get their crops gathered this fall. There will be equally as urgent call for help from all sections of West Texas as from this county, and with good conditions obtaining over nearly all the southwest, it bids fair to be a difficult problem. The enormous feed crop already assured in Mitchell county, will require some time and labor to save, by which time cotton picking will be in full blast, and the temptation to gather the cotton to the neglect of the feed is wellnigh irresistible to the farmer.

With several months continuance of present European conditions, the price of all kinds of feed stuff promises to steadily advance. Crops ready for the harvest are being burned or destroyed by invading armies and America must feed the combatants as well as non-combatants on both sides in the conflict. Cotton may command a higher price after the war, but food for man and beast is a present necessity. The farmer who saves the utmost of his feed crop will be acting the part of wisdom.

\$8.00 Set of GRANITE AND COPPER WARE FREE WITH EVERY MAJESTIC RANGE SOLD

Special Demonstration and Sale GREAT MAJESTIC RANGES

\$8.00 Set of GRANITE AND COPPER WARE FREE WITH EVERY MAJESTIC RANGE SOLD

ONE WEEK ONLY

COMMENCING MONDAY, AUGUST 24—ENDING SATURDAY, AUGUST 29

ONE WEEK ONLY

SAVE \$8.00

As a special inducement during our demonstration week only, with every MAJESTIC RANGE sold (prices always the same) we will give free one handsome set of ware as illustrated here. Every piece of this ware is the best of its kind. Not a piece that is not needed in every kitchen. It cannot possibly be bought for less than \$8.00. This ware is on exhibition at our store. **DON'T FAIL TO SEE IT.**

Which Shall It Be

Do you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove?

You KNOW that old stove eats up a lot of fuel each year.

You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs.

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

THE GREAT MAJESTIC MALLEABLE AND CHARCOAL IRON RANGE

You make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos—parts being malleable can't break—has a movable reservoir and an oven that doesn't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (browns bread just right all over without turning), heats 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen;" you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 300 per cent stronger than other ranges where most ranges are weakest.

MAJESTIC RANGES ARE MADE IN ALL SIZES AND STYLES

ON LEGS IF DESIRED

CHILDREN

SOUVENIR DAY

100 TANGO HOOPS FREE
Tuesday, Between 3 and 5 P. M.

The first 100 boys and girls who present to THE MAJESTIC RANGE SALESMAN at our store, between 3 and 5 p. m. TUESDAY written answers to the following questions, will receive a "TANGO HOOP Souvenir" FREE.

- 1—What range is your mother now using?
- 2—Do you know anyone needing a new range? Who?
- 3—Why should the GREAT MAJESTIC RANGE be in every kitchen?

\$1.00 ARTICLE FREE

The one giving neatest and best answer to the last question may select any \$1.00 article from our stock, in addition to the SOUVENIR.

Don't be discouraged if you are not one of the 100 to get a Tango Hoop Souvenir. You will get a MAJESTIC PUZZLE CARD. Something for all the boys and girls.

Don't fail to get one of these Tango Hoops. It's a new and wonderful toy—amuses the old as well as the young. The Hoop dances forward, hesitates and returns to the operator. Children, it's great, and will be the talk of the town.

Be sure to have your answers ready to hand in at our store TUESDAY AFTERNOON, between 3 and 5. They must be written answers—OTHERWISE YOU WILL NOT get a souvenir.

SPECIAL

All during this week a special demonstrator direct from the MAJESTIC FACTORY will be glad to show you "ALL ABOUT RANGES"—show you why the MAJESTIC is the best range on earth at any price.

Come, If You Intend to Buy or Not

EDUCATION lies in KNOWING THINGS—KNOW why the oven of a range is heated—KNOW how the water is heated—HOW the top is heated—WHY the MAJESTIC uses so little fuel—KNOW how a range is made inside and outside. This education may serve you in the future. **DON'T OVERLOOK** a chance to KNOW THINGS shown by one who knows. **COME.**
