AUSTRIANS ROUT CZAR'S ARMY AT KRASNIK--INVADE RUSSIAN SOIL

PRINCE FREDERIC, OF SAXE, MENINGEN, LOSES LIFE—FRENCH WAR OFFICE DECLINES TO ISSUE STATEMENT ABOUT OUTLOOK OF BATTLE.

PROTESTS ARE MADE AGAINST ZEPPELIN'S BOMBS

American Minister Asks German Authorities to Desist from Dropping Bombs in Antwerp—Ten Streets Torn Up and Twelve People Killed. Russian Embassy Says Germans Were Defeated—Many Guns Captured.

Paris, Aug. 24.—It is officially announced that a great battle between the greater part of the English-French forces against the bulk of the German army continues today.

The English-French mission is to hold virtually the entire German army to Belgium while Russia pursues her successes in the east. The Russians occupy a territory fifty miles wide on the German frontier.

Servians after a great victory have made Sava in Austrian territory north of them. It is rumored that the Germans have occupied Nancy, but this is not confirmed.

GERMANS TAKE MANY PRISONERS.

Berlin, Aug. 24.—It is officially announced today that the Germans under Grand Duke Albrecht defeated the French at Neufchateau. The Germans captured many guns, flags and prisoners including several generals.

The Germans under Rupprecht, Crown Prince William and Albrecht are vigorously pursuing the French. Rupprecht's command captured a hundred and fifty guns at Luneville. The Crown Prince's command pursued the enemy beyond Longwy. The Germans are west of the Meuse and are advancing toward Maubeuge. They defeated the English cavalry brigade.

BRITISH FORCES "HOLD OWN."

London, Aug. 24.—The official bureau says: "The British forces were engaged all Sunday near Mons Belgium and they held their ground." The French embassy here informs us that up to the present time advantage has been with neither side. The Austrian fleet is reported to be proceeding toward Cattaro in Dalmatia and the French fleet is in the Adriatic.

AUSTRIA STOPS SERBIAN CAMPAIGN.

Udine, Italy.—Vienna dispatches say that the Austrians have about abandoned the Serbian campaign to concentrate against the Russians. The Bosnian troubles worry the Austrians considerably.

GERMANS MOVE AGAINST MUELHAUSEN.

Basle, Switzerland.—Reports from Upper Alsace say that the Germans are making another offensive move against the French army now occupying Muelhausen.

AUSTRIA COMPLIES WITH JAPAN'S DEMAND.

Washington.—The danger of war between Japan and Austria was removed today when Austria agreed to dismantle the Cruiser Kaiserin-Elizabeth now at Esing Tau.

WIRELESS VIOLATING LAW.

Washington.—Secretary Redfield notified the German owned wireless station at Tuckerton New Jersey that it was operating in violation of law, because it was not licensed.

NAMUR HAS FALLEN.

London, Aug. 25.—It is officially announced that Namur, thirty-four miles southeast from Brussels, has fallen. This news today caused the gravest concern throughout England. The fortifications were examples of the finest military designing in all Europe. The London press reflects the seriousness of the situation. The Times says the fall of Namur in two days will require a deal of explanation and that the Belgians feel that the allies have not given adequate support. The Express says: "We may yet see before long the Germans march upon Paris." An Ostend dispatch says that thirty thousand Germans are attacking Malines, thirteen miles southeast of Brussels. A great battle has been in progress since Friday in the province of Hainaut on the Belgian southern frontier. Fighting began throughout Flanders today. A Liege refugee says that soldiers inscribed on the city walls "William II Emperor of Europe."

ZEPPELIN AIR CRAFT BROUGHT DOWN.

London.—An Antwerp dispatch says that the Belgian Artillery brought down a Zeppelin airship which flew over Antwerp last night. Fifteen Germans were captured when the craft came to the ground. The airship previously had dropped seven bombs into Antwerp. One house was wrecked only three hundred yards from King Albert's palace. One bomb partly wrecked the Hospital Saint Elizabeth which flew the Redcross flag. This caused great indignation though fortunately no patients were in the building. The English and French newspapers generally admit that the Allies have met with reverses. It is assumed that the Allies are retreating to the first line of defensive works south from Maubeuge through fortress of Hirson, Verdun, Toul and Epinal. These are interspersed with smaller works while behind them lies another line of strongly fortified forts from St. Quentin through Reims to the great entrenched camp at Chalons.

CATTARO FORTIFICATIONS DESTROYED.

Milan.—A Cattaro dispatch says that the allied fleet destroyed all of the Cattaro fortifications before the Austrians had time to mine the harbor. The Austrian commander is reported to be parleying for surrender of the city.

SERVIA CLEARED OF AUSTRIANS.

Nish, Servia.—It is officially announced that Servian territory has been cleared of Austrians who have been forced across the river Sava. The Servians have reoccupied Sabac. It is claimed that the retreating Austrians massacred the inhabitants.

GERMANS CAPTURE 10,000 FRENCH.

London.—An Ostend dispatch reports fierce fighting on the outskirts of the city. The German Embassy by wireless says that the Germans severely defeated the French August 17 to 21, capturing ten thousand prisoners and a hundred and fifty guns.

BELGIANS LOST 66,000 SO FAR.

The Hague.—It is estimated that the Belgians so far have sustained a loss of fifty thousand wounded and sixteen thousand killed.

GERMAN ADVANCE CHECKED.

Paris.—It is officially announced that the Allies are holding the German offensive movement in the north after surprising and driving back the German advance. It is denied that the Germans have captured Muelhausen.

GENERAL DEVELOPMENTS TODAY.

London, Aug. 26.—The German forces delivered an attack on the French frontier yesterday. They were repulsed and retired all along the line. Antwerp dispatches say that the Belgians destroyed the German defensive works.

In Lorraine the allies have begun a combined offensive movement. The battle which was begun yesterday is still raging. The situation of the Vosges mountains is unchanged with the French making progress in the Lunéville region. The Germans were driven back at Tournai Monday, the French took Orroir in east Flanders. The Russian center is reported to be marching on Posen in the central part of eastern Prussia.

The Premier announces that German Togoland in Africa has offered to surrender. The Premier told the Commons that Kitchener needed not only one hundred thousand volunteers but all that he could get. The reported withdrawal of the French from Alsace is unconfirmed.

The German ambassador Von Berstorff announces that the Japanese attack on Tsing Tau has failed and that the Japanese are preparing for a siege.

AUSTRIANS INVADE RUSSIA.

Berlin.—Vienna reports say that the Austrians were completely victorious in a three day's battle with the Russians at Krasnik in Russia Poland twenty eight miles southwest of Lubin. The Russians were repulsed along the entire front of forty two miles and are now in full flight towards Lubin. This is the first indication of the Austrian advance into Russian territory.

PRINCE FREDERIC, OF SAXE, KILLED.

Berlin.—It is officially announced that Prince Frederic of Saxe Meiningen was killed before Namur.

ANNOUNCE RUSSIAN VICTORY.

London.—The Russian embassy announces fresh Russian victories against both Germany and Austria. The messages declare that the Russians occupy the whole southern half of eastern Prussia. A St. Petersburg dispatch says that the Germans are retreating toward Osterode and have abandoned a hundred guns.

AUSTRIA DECLARES WAR ON JAPAN.

Washington.—Vienna dispatches to London say that Austria has declared war on Japan. The formal declaration was served on the Japanese ambassador and he was handed his passports. He placed his affairs in the American minister's hands and leaves for Rome at once. Neither the state department nor the Japanese embassy here have any confirmation of the declaration of war on Japan.

FROM BUFORD.

Most everybody is busy working with their feed.

Mr. W. T. Rogers and family have returned from a visit out on the plains.

Miss Willie Younger from Dickens county paid Miss Anna Palmer a pleasant visit the first of the week.

Mr. J. C. Gist's daughter and two sons have returned from a visit in Martin county.

A few of the Buford young people enjoyed a musical entertainment at Mr. and Mrs. Palmer's last Wednesday night. Everybody had a fine time.

Mrs. Richards, near Buford, has returned from Fisher county, where she spent a few days with her mother.

Mr. Blankhead is teaching a singing school at Buford, which will last ten days.

Miss Winnie Calaway from Colorado was at singing Sunday afternoon.

Buford is going to have one of the finest singing classes in Mitchell county.

Mrs. S. N. Palmers father and mother from Brown county have returned home.

The Christian meeting will start at Plainview Saturday night.

SAVE YOUR FEED.

The problem now is with the farmers, how will they get their crops gathered this fall. There will be equally as urgent call for help from all sections of West Texas as from this county, and with good conditions obtaining over nearly all the southwest, it bids fair to be a difficult problem. The enormous feed crop already assured in Mitchell county, will require some time and labor to save, by which time cotton picking will be in full blast, and the temptation to gather the cotton to the neglect of the feed is wellnigh irresistible to the farmer.

With several months continuance of present European conditions, the price of all kinds of feed stuff promises to steadily advance. Crops ready for the harvest are being burned or destroyed by invading armies and America must feed the combatants as well as non-combatants on both sides in the conflict. Cotton may command a higher price after the war, but food for man and beast is a present necessity. The farmer who saves the utmost of his feed crop will be acting the part of wisdom.

MALARIAL DISEASES.

How to Avoid Them and the Serious Consequences of Neglect.

"Fix me up something to knock the malaria doctor," remarked a yellow-faced, sickly looking man, entering a prominent physician's office the other day.

The doctor stepped to his medicine case, took down a couple of bottles, mixed a preparation which he handed to the patient with the customary advice to "shake well and follow directions," and returned his seat.

"Such cases are frequent," replied the doctor in answer to a question. "The warm days and damp, chilly nights are certain malaria breeders and are most serious in those who have neglected to keep their stomach, liver and bowels in good condition. Such persons are full of the impurities on which the malarial germ thrives, and it is from this class that typhoid fever, pneumonia, Bright's Disease, small pox and yellow fever claim most of their victims whenever these diseases are prevalent.

The proper way to guard against the malarial germ and the serious diseases which follow it is to get into good condition by taking a reliable remedy that will keep the bowels clear and the liver healthy, and to continue with it at frequent intervals during the sickly season. A dose of Prickly Ash Bitters three or four times a week will do all of this, besides stimulating the digestion, improving the appetite and keeping the bodily energy at the highest pitch.

Prickly Ash Bitters is known everywhere as a system tonic and bowel regulator. It not only removes all traces of malarial poison from the system, but tones up the vital organs, gives new strength and vigor, makes the body strong and the brain active.

"Prickly Ash Bitters is the best all-around medicine for the family I ever used. During the last ten years I have always kept it in my house. Whenever any of my family show signs of malaria, kidney trouble, indigestion or constipation a few doses is all that is needed to make them well and hearty again."—W. H. McWILLIAMS, Nearing, La.

HOW A NEW POPE IS SELECTED.

Ten days after the death of a pope of Rome, the College of Cardinals, scattered throughout the world, is convened at Rome in one wing of the Vatican palace, reserved for this purpose, and in which is provided everything necessary for the comfort and convenience of the college while in session. The utmost secrecy is preserved and every precaution taken to prevent any communication with the outside world while the college is in session. The doors leading to this particular wing of the building are bricked up and all windows closed except for actual ventilation of the place. When voting begins, each cardinal writes the name of his choice on a ballot and signs his own name beneath it, then takes an oath that he believes he has voted for the very best man in his opinion, for that high office. There is no such thing as voting for oneself. Two-thirds the vote of the entire college is necessary for a choice, and as vote after vote succeeds each other, the ballots are destroyed on a fire of burning damp straw. So long as the throng on the outside watching the chimneys of the Vatican, sees smoke issuing, they know no selection has been made for a Pope. But when the necessary majority has been secured by one candidate, the fire is extinguished, the brick and mortar taken from the doors and the new Papal See is announced. The college has been known to continue in session for 145 days before a selection could be made. It is said that it is possible an American citizen, Cardinal Felcino may be raised to the supreme eminence. He is of Italian birth, though long a resident of America and entertains a very friendly attitude towards this country, which may be against him in his selection as Pope.

TAKE DODSON'S AND STAY ON YOUR FEET.

Taking Calomel means staying home for the day—take Dodson's Liver Tonic and save a day's work. If an attack of constipation or biliousness hits you there's no need to take a dose of Calomel and spend at least a day getting over the effects of it. Ford's Beal sells Dodson's Liver Tonic, which he guarantees, takes the place of Calomel and keeps a liver without bad after effects.

Dodson's Liver-Tonic does all the good that Calomel can do, yet it is absolutely harmless to young people and old. It is a pleasant tasting vegetable liquid that will relieve constipation or sour stomach or other troubles that go along with a lazy liver, without restriction of habit or diet. You don't leave off any of the things you regularly do when you take Liver Tonic.

A large bottle of Dodson's Liver Tonic sells for 50 cents. Get the genuine and if you are not pleased with it the druggist from whom you bought it will give your money back with a smile.

\$154,085,000 NEW CURRENCY.

Washington, Aug. 23.—Extraordinary demands from National Banks for currency during the past three weeks have been met by the issuance of less than 12 per cent of available Aldrich-Vreeland emergency currency. According to a statement issued tonight by John Skelton Williams, Comptroller of the currency, \$154,085,000 of the emergency currency had been put out up to Aug. 19, leaving \$1,287,866,000 still issuable. To the thirteen southern states will be issued \$8,768,000. The Comptroller's statement shows that \$169,883,000 additional currency can be issued to the Southern states if needed.

CASE OF L. L. CANTELOU.

The case of L. L. Cantelou, Clarendon, Texas, is similar to that of many others who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says, "After trying a doctor for several months, and using different kinds of medicine for my wife who had been troubled with severe bowel complaint for several months, I bought a 25c bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using the second bottle she was entirely cured." For sale by all druggists.

MIDLAND COUNTY FAIR AND FAT STOCK SHOW

Midland has a reputation, well established, for doing things. The hospitality of her people is known to be of that liberally refreshing sort that is typically Western and ever accorded with lavish generosity. September 28th, 9th, 10th and 11th are the dates for the Midland County Fair and Fat Stock Show, and it is said that on this occasion Midland is going to transcend all her efforts of the past. More than \$4,000.00 have been expended within the past four weeks in putting the fair grounds in shape and in building improvements, while the program, recently issued, is very elaborate.

There will be truly wonderful exhibits. Nearly 250 head of pure bred and registered cattle have been entered, while other stock exhibits are but little behind the cattle. The agricultural display will be a revelation to everybody, and all other features of the fair will be made wonderfully complete.

As amusement features a thoroughly reliable carnival company has been secured. There will be two aviation flights each day.

Famous runners, trotters and harness horses have been secured, and there will be racing each afternoon.

The bronc bustin' has its place on the program each day, and \$15 will be awarded in cash prizes. It will be wild and woolly, sure enough.

A goat roping contest is a feature and 25 experts have been entered; and there are other cowboy and range sports galore.

Hon. Jas. E. Ferguson, our next governor-elect, will be there the first day to open the fair, and the railroad rates on all roads in Texas will not be more than one and a third fares for the round trip.

It will be a great time to visit Midland. You will see the town and the country at their best and the people vested in habiliments of merriest hospitality.

SOUTHERN CONGRESS SAYS HOLD COTTON.

FIRST BALE OF NEW COTTON.

To farmer N. E. Browne, of the Seven Wells community, belongs the credit of bringing the first bale of this year's cotton to this market. The bale was ginned by Oce Lambeth, weighed 455 pounds and was bought by J. M. Thomas for 10c per pound. In addition to the purchase price, Mr. Browne received a nice cash premium. The bale was brought in, ginned and sold on Saturday, August 22nd, nearly two weeks later than the date of the first bale last year.

CONGRESSIONAL CONVENTION

FOUND THAT SMITH LED BLANTON FOREIGNERS BY SMALL MAJORITY OF 3,573.

RESOLUTION IS ADOPTED

H. C. Hord Elected Chairman of 16th District Executive Committee for the Next Two Years.

Dr. P. C. Coleman returned home from the congressional convention at Sweetwater this week and reports:

The Convention of the 16th Congressional District met and canvassed the returns of the votes cast for Congressmen in the recent primary election, and declared Congressman W. R. Smith renominated by a majority of 3,573, with the returns from one county, Menard, missing. There are 38 counties in the District, 6 of which held no primaries. Smith carried 33 counties, and Blanton 20 counties. The total vote cast in the district was 38,901.

The total official vote was: Smith 21,237 and Blanton 17,644. Dr. Coleman of Mitchell county was chairman and Prof. Green of Callahan county was secretary. H. C. Hord was elected chairman of the 16th District Executive committee for the next two years.

The following platform was adopted:

1. We renew our allegiance to the time-honored Democratic principles promulgated by Jefferson and Jackson and maintained by Bryan and Wilson.

2. We send greetings to our President, Woodrow Wilson, and congratulate him upon the remarkable achievement of government, in behalf of the people, under his administration. We heartily express our approval of the tariff and currency laws, the repeal of the Panama toll exemptions, the Alaska Railway bill, the anti-trust program as presented by bills now pending in Congress, and the course of the administration in all things pertaining to the difficult Mexican situation. And we heartily congratulate President Wilson and Secretary Bryan upon the successful termination of their policies with our sister Republic, Mexico.

3. The horrors of the European war now in progress, in which are involved many of the great nations of the world, impress us of the wisdom of the peace plans of our great Secretary of State, William Jennings Bryan; and we call upon Democrats everywhere to support him, to the end that universal peace may be speedily attained.

4. We heartily approve of and endorse the service of Judge William Robert Smith, Representative from this Congressional District, recognizing in him a man, who has represented the people of this district for the past twelve years with distinguished ability and unvarying fidelity to the great mass of people. We recognize in him one of the great democrats of the nation, and one among those on whom the present administration relies for counsel and support in the formation and enactment of its policies. He has been of inestimable value to President Wilson in carrying out the Party's promise to the people. His faithful and untiring services in behalf of his constituents and the people of the state and nation, have been in all things approved and ratified by the Democrats of the district in the recent primary election. And we, the representatives of the Democrats of the Sixteenth Congressional District heartily and cheerfully give endorsement to the approval and ratification of Congressman Smith's course by the Democratic voters of the district.

5. We favor a fair and equitable redistribution of the State into congressional districts by the next Legislature.

August 22, A. D. 1914.

WOODS SEEKS PLACE AS SPEAKER OF THE HOUSE

John W. Woods of Rotan renominated as representative of the 121st district has announced his candidacy for speaker of the next house. In making his announcement Woods sets forth the following principles for which he stands: That he is in favor of open ballot for speaker. That he favors a committee to select the committee of the house, the same as is done in the National House of Representatives.

That he favors a calendar, by which meritorious bills may be given precedence in consideration before the house. Fitness and qualification only should be considered in selecting clerks and stenographers for the house.

Woods declared strongly for the immediate care by the state of all insane, deaf, blind and dumb and to the immediate taking of all insane from the jails of the state. He also declares for a comprehensive marketing and warehouse system.

FARMERS' MASS MEETING.

Plans for Mitchell County Warehouse Discussed and Delegates Appointed to Go to Dallas.

Persuant to the call in last week's Record for a farmers' meeting, they met at the court house last Saturday afternoon. A good crowd of representative farmers were present.

The meeting was called to order and presided over by farm demonstrator, W. A. Dulin. Jesse Bullock was chosen secretary.

Mr. Dulin, after stating the purposes of the meeting, spoke of those who could not hold their cotton and others who could. He declared that this country has the best cotton crop since 1906. He had studied the situation. He figures that fifty per cent of the cotton raisers in the south are men of ordinary means who practically owe all that they will make. That fifty per cent were the ones most seriously effected. It is the fifty per cent that he desires to see benefited. He figures likewise that twenty per cent of the farmers are in good circumstances and that they can take care of at least 50 per cent of their crops. He also figured that 30 per cent of the farmers can take care of every bit of their cotton without the assistance of anyone. What are we going to do about that fifty per cent? the 20 per cent? and then the 30 per cent?

County Judge A. J. Coe was called upon to discuss the situation. He told of the calling of an extraordinary session of the legislature for this week and what might be expected from this body. Among the most pungent assertions made were that the farmers need not expect the state to loan money on cotton, as it could not legally do so and again because if it wished to it has not the funds. He wanted the farmers and others to know that the

solution of the present situation was the holding of cotton. Cooperation among farmers was given as the sole solution. If we put fifty per cent of the cotton under sheds, the situation will be solved to the best interests of the farmers.

W. F. Altman also made a good talk on the situation, after which the following delegates were appointed to attend a State meeting at Dallas, on Monday, for the same purpose:

- W. F. ALTMAN,
GEO. GOODWIN,
H. C. DOSS.

These delegates returned from the Dallas meeting on Tuesday, with instructions to build bonded warehouse, put in bonded weighers and store the cotton for thirty to sixty days.

GOOD NEWS.

Many Colorado Readers Have Heard If and Profited Thereby.

"Good news travels fast," and the thousands of bad back sufferers in this vicinity are glad to learn where relief may be found. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Thousands upon thousands of people are telling the good news of their experience with this tested remedy. Here is an example worth reading:

J. J. Burnett, Snyder, Texas, says: "I have used Doan's Kidney Pills for the past five or six years, whenever I have had any symptoms of kidney trouble and I have always been benefited. I suffered every year from rheumatic twinges and weak kidneys. Seeing Doan's Kidney Pills advertised, I got a box. They strengthened my kidneys and cured the rheumatic trouble."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Burnett had. Foster-Milburn Co., Props., Buffalo, N. Y.

ADVERTISING THE COUNTY.

The following extract from the Texas Trade Review and Industrial Record reflects the impression made upon visitors and prospectors by the present deplorable condition of the county's public buildings. Comment is wholly unnecessary:

"The Mitchell County jail and courthouse buildings at Colorado, Texas, are in a deplorable condition. The jail has been entirely abandoned and only two county officers—sheriff and county clerk—maintain offices in the county court house. The building is a large brick structure, and twenty years ago was a fine building. It has been allowed to deteriorate until today it is almost uninhabitable. A leaky roof has resulted in almost decaying the ceilings and floors. The big clock stopped long ago, never to run again. The advisability of building a new courthouse and jail is being discussed. It will have to be done long before the county finishes paying for the fine buildings that have been allowed to rot down for lack of repairs at intervals. Mitchell County at present has \$34,000 outstanding bonds.

The jail is in absolute disuse and the cages are bars of rust. At present there is not a criminal case of any kind docketed in any court in Mitchell County. But when the authorities do have a prisoner to take care of they have to send him to Sweetwater. Law and order is the rule in Mitchell County. The last grand jury convened one morning and adjourned the afternoon of the same day without returning a single indictment.

The present tax rate in Mitchell County is seventy cents on the \$100 valuation. A new board of commissioners and county judge were nominated July 25, pledged to reduce the tax levy to fifty cents on the \$100 valuation.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodor's Black-Draught, and quite

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me. I haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Theodor's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

GREAT LIVESTOCK DISPLAY ASSURED

Big Preparations Being Made 1914 State Fair of Texas.

RICHEST OF PREMIUMS.

Management Declares That no Farm Industry in the Southwest Wants More Encouragement.

Dallas.—One of the big features of the 1914 State Fair of Texas, Saturday, October 17, to Sunday, November 1, is to be the livestock display. Never has there been such promise of unusual success. Firm in the belief that there is no other farm industry in the Southwest than the raising and raising of livestock, the management of the State Fair has arranged for a distribution of more than \$20,000 in prizes in this division. Splendid shows of beef and dairy cattle, swine, sheep, goats, horses—saddle and combination animals, roadsters, coach and draft—jacks, jennets and mules are auspiciously promising.

Specials are offered this year by the Texas Saddle Horse Breeders' association, the American Saddle Horse Breeders' association and the Percheron Society of America in the horse division. The American Hereford Breeders' association contributes more than \$1000 in cash specials in the beef classes. The American Jersey Cattle club contributes more than \$400 for Jerseys. In the swine division, specials are contributed by the American Berkshire association, the American Hampshire Swine Record association, the American Tamworth Swine Record association, the American Pure Jersey Swine Breeders' association, the Standard Poland-China Record association and the Chester White Record association and the Armstrong Packing company of Dallas.

All saddle horses and roadsters will be judged in front of the race track grand stand instead of in the livestock pavilion, as in previous years.

Young men of Texas, under twenty-five years of age, will judge cattle, swine and horses at the 1914 State Fair of Texas, Dallas, for a purse of \$100. The money is equally divided in each class.

DAIRY TEST AT FAIR.

Crusade Inaugurated by Fair Management Producing Good Results.

Dallas.—No state in the Union is as rich in Jerseys as Texas, and since the State Fair of Texas began the annual competitive dairy test in 1911, the Jersey has demonstrated to the men and women of this state how important she is in converting the products of the farm into health-giving human foods.

That this crusade on the part of the Fair management has resulted in more efficient dairying is now recognized by all. Held in a dairy demonstration building, a splendid permanent exhibit of modern completeness, the Jerseys entered in the contest fed a certain amount of food each day, have demonstrated their ability to produce butter fat. As exhibitors have been permitted to select their own feedstuff, the demonstration has also resulted in proving the kind of feed that produces the best sort of results.

At the 1914 fair, which begins Saturday, October 17, twenty-eight animals of this state how important she is in converting the products of the farm into health-giving human foods.

RACING AT STATE FAIR.

Every Great Stable in America Represented in the Entries.

Dallas.—This city is to have the most brilliant turf program in history, this fall at the 1914 State Fair of Texas, which begins Saturday, October 17, and continues sixteen days. The ten harness stake events, closing July 1, for purses and stakes valued at \$24,500, attracted 350 entries and every race filled. It is the greatest record in the annals of the local track, and nearly 100 more entries than recorded for similar events in 1913.

Every great turf center in the United States and Canada is represented. The greatest horses in America will participate in the trotting and harness events. The famous stable represented are those of Ed Geers of Memphis, Tenn.; T. W. Murphy of Foughkeepsie, N. Y., the biggest money winner of last year; W. O. Poole of Boham, Texas; and there will be more grand circuit horses in Dallas this fall than ever before in the annals of the local track.

The State Fair management offers this year a \$40,000 in purses and stakes. Each day there will be some big stake event in the harness classes, as well as interesting contests for runners.

Racing begins Tuesday, October 20, and closes Friday, October 30, ten days in all.

ARTISTRY IN EXHIBITS.

Symmetry in Arrangement of Exhibits Will Favorably Impress Visitors.

Dallas.—Declaring an artistic display of fruits and produce the mirror which reflects the prosperity of a community, Secretary W. H. Stratton of the State Fair of Texas has inaugurated a movement for feature displays of farm, orchard and garden products at the coming meeting, which opens Saturday, October 17, and continues sixteen days.

In his letters to agricultural exhibitors, Secretary Stratton declares that exhibits of this nature should be arranged together in a perfect, uniform, graceful display of symmetry and artfulness, in order to impress visitors with the fertility and agricultural possibilities of the section represented.

It is the purpose of the State Fair exhibition of the agricultural products from every section of the state, Secretary Stratton reports, to show the demand for country exhibit booths. This year's exhibit in harness classes, as well as interesting contests for runners. Racing begins Tuesday, October 20, and closes Friday, October 30, ten days in all.

COLORADO, TEXAS, AUGUST 28, 1914.

The Roby Banner announces that its new "headquarters" are in the "east room of the county jail (ground floor)." That's as fittin' as the milkman living next the town pump.

When asked to express his opinion on the present war in London last week, Gen. Huerta, late, but not latest, of Mexico, replied that he had always noticed that "God was on the strongest side."

Happily is the condition of Spain in the midst of war's alarms and European political entanglements. She is the only country of Europe which has any prospect of peace and prosperity at present and no fear of future despoliation in the final readjustment of the map.

If there was ever an opportune time for the United States to develop trade with the South American countries, now is that time. This country alone of all the great powers stands at the universal trade counter ready to do business. It should take up the work of peace that the warrior has laid down.

Old Huerta had hardly hit the shores of England before he had himself interviewed. He expressed the opinion, after getting in touch with the war situation that "Emperor William and the German people were certainly crazy." And he knows just how it is himself.

Science claims that lying can be detected by the difference in one's rate of breathing. This may be an improvement on the "swallowing" test, but we know some people whom no test could detect, because lying is their normal condition. A certain kind of them will take their county paper for years, read every word in it regularly, but when anything is said about paying for it, they claim they "never ordered it."

While hot under the collar and smarming from the flattening effects of the steam roller, Hon. Joseph W. Bailey flung his gauntlet in the teeth of his opponents at the El Paso convention and announced that he would take the issue before the people in the senatorial campaign of 1916, and announced his candidacy in the race. But after cooling off a bit and taking a sober second think, he modifies his intention by announcing that he meant he would take an active part in that campaign in support of a man who reflected his views. He's learning discretion in his latter years.

Not only are the asylums of the state full of unfortunate lunatics, but the county jails contain several hundred interdicts. It is a sad commentary upon the great commonwealth of Texas that it has made such stunted provision for those unfortunate citizens who have been bereft of reason, that they must be confined in jails and prisons intended for criminals. Our legislatures meet biennially and when this pressing matter is brought to their attention, there is a Pecksniffian show of sentimental drivel, but nothing is done. We talk airily of bond issues, probings, personal investigations, etc., but if some common sense fellow should arise and devise ways and means whereby all the state's lunatics could be humanely, comfortably

cared for and scientifically treated, the friends of humanity in Texas would rise up and call him—Moses.

It is no uncommon occurrence to see a town slowly dying of dry rot and inertia, galvanized into new life and activity by the energies and methods of one man or one firm. The trouble is never with the town or its location, but is the result of the apathy and resignation of its citizens. We have seen many a business that has dragged along for a quarter of a century, keeping only two jumps ahead of a sheriff's execution, taken over by new blood with new methods and ideas, evolve into a great success in a few years. Colorado offers as good opportunities for business success as any town in West Texas. The town seems to have accepted defeat and resigned itself to the inevitable. All team work has been abandoned and every fellow is hooking for himself. Honest publicity, unanimity of sentiment and concert of action, besides keeping everlastingly at it, is the price of success in business today. When the citizenship of a town are united, working harmoniously together for the accomplishment of some desired end, and with a spirit of willingness to sacrifice something of individual interest that a greater public good may be secured, there is nothing necessary to their material benefit and moral uplift that may not be had. Wake up, Samson, or some Dallah will soon shear your locks!

HARVESTING BIGGEST FEED CROP IN HISTORY

West Texas is now harvesting the best feed crop in its history, is the claim made by different merchants who were buying goods in Dallas. These merchants visiting at the Dallas Trade League headquarters were an optimistic group of men and every one expressed himself as confident that the European war will not hinder trade to any great length of time.

West Texas has raised a bumper feed crop, so they say, and the ranges are covered with the best growth of grass in fifteen years. The cotton crop has been unusually good and many of the farmers are expressing the belief that they will get a bale to the acre. Rains have been good to the West Texas farmers and stockmen and their lands have produced bountifully. The merchants say that many of the cattlemen claim that their herds are in better condition now for the winter than they have been in twenty years, or since the days of the "big grass."

Many of the merchants said they expected to buy as heavily of fall and winter stocks as usual, and their statements are borne out by the wholesalers.—Dallas News.

The Associated Press Association accuses the United Press Association of killing the Pope five hours before his death really occurred and sending the faked news to all the papers it served. The Pope died at 1:20 Thursday morning, which corresponds with 6:20 Wednesday evening here, the difference in time between this longitude and that of Rome being seven hours. Several of the afternoon papers served by the United Press published the announcement of his death in their Wednesday afternoon editions. When Cyclone Davis bobbed up at

El Paso and informed Mr. Bailey that, if he (Bailey) should enter the race for senator against Culberson two years hence he would be met at the state line by a "Cyclone," we cannot think he really meant to create the impression that he would enter the race himself for the senate. The Cyclone was feeling a bit frisky just then and the conjunction of a democratic state convention and a wide open wet town got him to seeing things big. O no; by the time the Cyclone blows through one term in congress he'll have his sights lowered and his ideas of his own importance considerably shriveled.

RANK SOCIALISM.

Socialism has never proven beneficial to the human race. It has almost without exception been hostile to Christianity. It is radically at variance with the fundamental principles of our government, which is founded on individualism. According to Socialism it is wrong to own property, in fact, no one can hold property which can not be taken by the State.

According to Socialism, the individual exists for the State. According to the American idea the State exists for the individual. This is also the Scriptural view.

The newly brought forward land rent doctrine is rank Socialism. In approving it, a professor in our State University carries the doctrine to its logical conclusion by maintaining that the State can rule land, labor and all the products of labor. This is the logic of it. If the farm values can be fixed by law, farm products can. And the State can fix prices on everything else. With this doctrine goes all property right. And with it goes individualism and all progress. Moreover, with this doctrine established, the teaching of Jesus will be of none effect.

Socialism is a ruinous heresy, and as bad a religious heresy, for Christ's teaching can not stand if modern Socialism be established.

It is little wonder that the ablest men of Texas are afield now to combat this mischievous doctrine, urged to save the saloon from destruction. When we have undermined the right to have, hold and use the fruits of one's labor, we will have undermined the foundation of happiness, for all of us and stagnated the race.—Baptist Standard.

GOVERNORSHIP NOMINATION AN EXPENSIVE LUXURY.

When he first announced his candidacy for Governor of Texas, subject to the action of the Democratic Primary Election, plain "Farmer Jim" Ferguson stated that he was ready to spend a round \$30,000 of his own money, if need be, to defray the expenses of his campaign. Subsequent developments have proven that "Farmer Jim" was a pretty good guesser as to the actual expense which a successful campaign for the Governorship, on his part, would cost. His campaign manager, John G. McKay, recently filed at Belton an affidavit covering expenditures in which an outlay of exactly \$31,424.63 is accounted for. The largest expense was for printing, advertising and poll lists of the various counties, amounting to \$14,091.15; the smallest, a little item of \$325.00 incurred by Manager McKay, principally for railroad fare and hotel bills. It is set forth that no contributions whatever were received from any other source, and that all the costs were borne by Mr. Ferguson, in person. Verily, it does cost money for one of the "plain" people to be elevated to the Governor's chair—a sum which will require about two full terms to earn back. Mr. Ferguson must have been strongly impressed with the dignity and importance of the office—a luxury compared with which the purchase and maintenance of a six-cylinder automobile fades into insignificance. As campaigns for the Governorship are now conducted in Texas, a poor man stands about as good a chance of being nominated for the office as the proverbial camel has to squeeze through the eye of a needle. Such is Jeffersonian simplicity!—Dallas Democrat.

REASONS FOR COUNTY HOSPITAL.

An Excerpt From "The Small Town and Its Hospital," by Charlotte A. Aikens.

Charlotte A. Aikens wrote an article for the December Woman's Home Companion on "The Small Town and Its Hospital." Here is a portion of the article which gives some reasons why hospitals should be established in small towns as well as in cities.

Now is the time for all the time on a "Already the rural hospital, the well equipped, successful hospital in the small town or village, has arrived in some localities and is becoming in a great many others. Many of the reasons which have led to the establishment of hospitals in larger cities apply with equal force to small towns. There are a large number of homes in the country which are unsuitable for the care of the sick. The farmer's

wife has usually her hands full with her daily duties that the care of a case of severe illness in the home becomes a strain to which she is unequal. Then in every community there are accidents from machinery, and injuries from building operations, and such things as really need the best possible provision. Appendicitis is not at all confined to city people and every rural locality can count up a considerable number of cases which have resulted fatally when, if they had been within easy reach of a local hospital, a timely operation would have saved a life. Pneumonia has a long list of victims in every country, and statistics tell us that typhoid fever is more prevalent in country towns and rural communities—according to population—than in large cities.

The great difficulty of securing suitable domestic help in homes of all kinds has had considerable influence on the establishment of small hospitals. After all, a hospital is just a sort of co-operative enterprise which makes housekeeping for the sick easier and the best modern methods of treatment can therefore be much more easily obtained."

THE FINISHING TOUCH.

The rain Sunday night put the finishing touch on one of the grandest pieces of work that Nature consorting and collaborating with man ever accomplished in the state of Texas; particularly in this statement true of conditions in Mitchell county. It came down gently, slowly, and every drop seemed to count. It will put the late feed well on to maturity, guarantee another crop on the stubble land and give the cotton additional growth and vigor. Reports from several sections of the county indicate that the rain was general over the county and every one seems satisfied with conditions. And, as if Mother Nature feared she had not given us enough, or, perchance, had missed a spot or two in this section of the country, gave us another liberal downpour on Tuesday morning, which was a bigger, better and more general rain than the one of Sunday night. And again on Wednesday beginning about 5 a. m., it rained all day long, and the ground is now so thoroughly wet that it can take no more.

A DELIGHTFUL PROSPECT.

A Ride Over the Country Reveals Most Satisfactory Crop Conditions Air of General Prosperity.

By virtue of the hospitality and kindness of Mr. J. L. Doss, the Record force was given a ride over the northeast part of the county last Sunday afternoon, in the former's big Studebaker Six. To one who has not visited this section for several years, the development and present condition of the crops are a revelation. Eight years ago the farmsteads in this part of the county could almost have been counted on the fingers of both hands, while now it is a succession of well cultivated farms and comfortable homes. One of the most striking features of these farm improvements is the absence of the "camping" or "squatter" element, which is usually in universal evidence in the settlement of a new country. Most of these country homes are built on generous and pleasing lines with many of the conveniences and accessories of urban homes. Thriving orchards, and in many instances, flourishing gardens, and blooming flowers, attest the home making and home loving instinct.

The field crops could hardly be better if each farmer had been consulted as to his individual needs and served by old Jupiter Pluvius and King Sol accordingly. There is already more feed made and ready for the harvest than can be gathered. On either side of the road in many places, there was a billowing sea of feed as far as the vision could reach. From the car, the whole was a moving panorama of cotton and maize fields, interlarded with corn patches and besprinkled with watermelons in profusion. The cotton crop is vigorous and clean, and while the weed is not large as a rule, seems heavily fruited, and the general average of estimates by experienced and conservative cotton men is that if the present promises are realized, a half bale per acre. Truly West Texas is having a red letter day in crop production, and old Mitchell county will be found near the forefront of the procession of prosperity this fall.

WEDDING ANNOUNCEMENT

Captain and Mrs. Fall announce the marriage of their daughter Fanny Fall to Mr. Tom Thumb, at the First Methodist church, Colorado, Texas, September the eleventh, nineteen hundred fourteen. Benefit of the Methodist Missionary Auxiliary. You are cordially invited to be present.

500 CLUB.

Miss Lois Prude was hostess for the 500 club Tuesday. Besides the regular members the players were: Mesdames Burns, Looney, Bailey, Stoneham Beal, W. W. Campbell of Yoakum, Misses Maggie Figh and Jean Figh of Dallas, Miss Lillie Allen was the club prize, a cut glass vase; and Mrs. Looney carried off the guest prize a silver pickle fork. Refreshments of fried chicken, potato chips, hot buttered biscuits, cold slaw, olives, coffee and iced watermelon were served.

SIXTH BIRTHDAY.

Master Jack Hale properly celebrated his sixth birthday Tuesday, by having his Sunday school class and a number of other friends come play with him. The dining room was all darkened and a place of mystery until after games, when they were led in to behold a beautiful, decorated table in the center of which was a lovely birthday cake with six lighted candles on it, and around it were many birthday gifts, given by these little guests. The gifts were admired and the cake cut and served with delicious ice cream.

BIRTHDAY.

Master Blandford Harness celebrated his eighth birthday this week by having his Sunday school class, the children of his neighborhood and a few other special friends to play with him. The center of attraction was the birthday cake with its eight lighted candles, surrounded by beautiful decorations on the dining table. After games directed by his aunt, Miss Nora Blandford and Miss Nell McMurry, it, with some delicious, juicy watermelons was sampled again by the merry little people. Many little gifts were left by the friends as souvenirs of the happy occasion.

CURTIS PUBLICATIONS.

Mrs. A. L. Whipkey wishes to announce that she is still agent for the Curtis Publications—Saturday Evening Post, Ladies Home Journal and Country Gentleman, and will take pleasure in sending in new subscriptions as well as old ones. She will see that your subscription is promptly attended to, and the small commission she receives is spent in your home town. So do not send in your subscription, but phone 157 and she will attend to it at once and save you the trouble and expense of writing and mailing.

CLASS IN PIANO TO BEGIN

I will begin my class in music on the first of September, and all those who take from me this year are requested to begin at that time if convenient. My studio will be at my home one block from the high school building. I ask that all my old pupils will attend this year, and any others expecting to take piano are requested to see me or phone, and I will take pleasure in calling and discussing the matter. Of course pupils can begin at any time, but would prefer that those who can do so would commence at the beginning. I want to again thank my

patrons of the past year, and respectfully ask a continuance of your patronage. MISS LELA WHIPKEY

HONORING GUESTS.

Mrs. Royall G. Smith honored her guests, Miss Nora Sue Blandford, her sister from Polytechnic, and Miss Nell Sue McMurry, her cousin from Nashville, Tenn., with a four course six "clock dinner Thursday. Covers were laid for fourteen. The guests felt doubly honored in being invited. They were the first to be invited to partake of Mrs. Smith's hospitality in her new home, and again associating with these charming young ladies. The table looked most inviting with its vases of cut flowers resting on beautiful centerpieces of cluny lace. Each course was perfectly prepared and served by this charming hostess. This will ever be a pleasant memory to the young ladies.

MISSION STUDY CLASS.

The Mission Study Class met with Mrs. A. L. Whipkey last week with Mrs. J. E. Hooper as leader. The subject was "Florida—the Land of Flowers." Roll call—Tell something of the work of the Sweetwater Association. Mrs. G. W. Smith told something of the three centuries of warfare of the land of flowers, and also something of the New Florida. Mrs. Pearson told of Church Affiliations and Mrs. Terrell of Special work done by special workers. The bible questions were Romans and Corinthians. Mrs. J. H. Greene was received as a new member Mrs. Churchill of Sweetwater, but formerly of Colorado, and who assisted in organizing the class, was a visitor. At the social hour light refreshments were served by little Misses Daisy Adams and Lois Whipkey. Mrs. M. C. Rathin is hostess next week.

SIX O'CLOCK DINNER.

Tuesday Miss Mabel Smith honored Miss Nora Sue Blandford of Polytechnic, a lifelong friend and school mate; and Miss Blandford's cousin, Miss Nora Nell McMurry of Nashville, Tenn with a six o'clock dinner. Covers were laid for fourteen. The table looked beautiful with bouquets of cut flowers at either end on dainty embroidered centerpieces. The place cards were in the form of a contest. Lots of fun was had in fixing out the bill of fare before the dinner was served. The waiters were the hostess' brother, Mr. Thomas R. and little nephew, Master Richard Pearson. Mr. Thomas R. looked and acted like a regular South American, and Master Richard made an ideal French chef. There were every imaginable good thing to eat, especially dear to young ladies. Toasts were given by Misses Eleanor Coleman, Mary Arbuthnot and Bessie McMurry. After dinner music and contests were enjoyed. The personnel was, Misses Nora Sue Blandford, Nora Nell McMurry, Bessie McMurry, Eleanor and Mildred Coleman, Exie and Ruby Campbell, Lela and Irene Whipkey, Jessie Person, Mary Arbuthnot, Ethel and Ollie Pritchett and Mabel Smith.

PARLOR PLAY.

The Young Ladies Missionary Society of the Methodist church gave their play—Young Doctor Devine—on the lawn at Mr. Earl Jackson's Monday evening. The girls all did their parts well. It was a girls' boarding school play and the characters were just the right age to imagine how they would act were a young man to appear on the scene. Smallpox was reported in the vicinity and the matron decided to have all her pupils vaccinated. They found out the doctor was young and supposing that a man would appear on the scene they began to lay plans to catch him, declaring he should not leave heart-whole. What was their surprise when the doctor proved to be a young lady. They all went into hysterics; were examined; found something the matter with every one of them and they were ordered to bed, and the proper medicines given. Besides the play a program of music and readings was given. Little Miss Mary Jackson sang "Laddie" very sweetly and was encored and responded very ladylike. Mrs. Spruill delighted the audience with a reading, as did also Mrs. Cromer, who was encored and gave a German dialect piece that was very much enjoyed. Miss Ruth Buchanan gave a beautiful piano selection. The young ladies deserved a better crowd than attended. They put a good deal of time and work on it and should have been better patronized. But the play had been postponed from Friday night, and, too, the weather was threatening.

MADOO BELIEVES BANKS CAN DO IT

SECRETARY OF THE TREASURY THINKS UNDER THE FEDERAL RESERVE SYSTEM

STRIKING FACTS ABOUT THE GREAT CANAL

(Leslie's Weekly). Time required to go through the canal, from ten to twelve hours. Freight will be charged \$1.20 a ton; passengers are free. American coastwise ships may pass through free of all charges. The canal will save 8,000 miles between New York and San Francisco. New York is brought 5,000 miles nearer Valparaiso and the west coast of South America. Our Atlantic seaports are 4,000 miles nearer Australia. The distance to the Philippine Islands is not reduced materially. Bulk products, like wheat, lumber, minerals, wood and hides will get lower freight rates through the canal from Pacific ports. Eastern machinery, textiles, manufactures and finished products will enjoy cheaper rates to Pacific ports. Staple products of the South, cotton, iron, coal, lumber and ship supplies will have similar advantages to the Orient and Pacific ports. Immigration will be deflected in large numbers from New York to the Pacific ports. The cost of operating the canal will exceed \$1,000,000 annually. About 2,500 employees will be required. To pay interest on the investment and operating expenses approximately \$15,000,000 revenue per annum will be needed. Traffic experts estimate that for the first few years the average annual tonnage will be 10,000,000 tons, not enough at the \$1.20 rate to make the canal self-supporting. The rates charged vessels are the same as those at Suez. The government will monopolize the business of supplying coal and provisions and operating repair facilities. Great dry docks, wharves, warehouses, repair shops, and other facilities to cost \$20,000,000 are under construction. All permanent buildings will be of the Italian Renaissance style of architecture. The route of the canal will be beautified with trees, etc. Storage for 450,000 tons of coal, maximum capacity, is provided. Normal storage capacity 37,000 tons. Oil 100,000 barrels. Monster 270-ton floating cranes will handle wrecks or accidents in the canal or locks. Warships of all nations may pass through the canal, but can not linger more than twenty-four hours at either end in time of war. The Interstate Commerce Commission has jurisdiction over the canal traffic.

SURPRISES MANY IN COLORADO

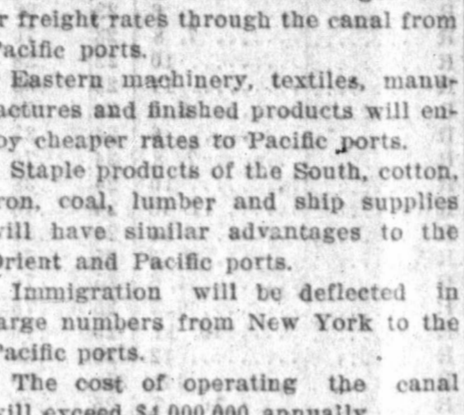

The quick action of simple buckthorn bark and glycerine, etc., as mixed in Adler-I-ka, the remedy which became famous by curing appendicitis, is surprising Colorado people. Many have found that this simple remedy drains so much foul matter from the system that a single dose relieves constipation, sour stomach and gas on the stomach almost immediately. Adler-I-ka is the most thorough bowel cleanser ever sold. W. L. Doss. 8-21

Case Cars in the Making and Selling

D. H. SNYDER, Local Selling Agent

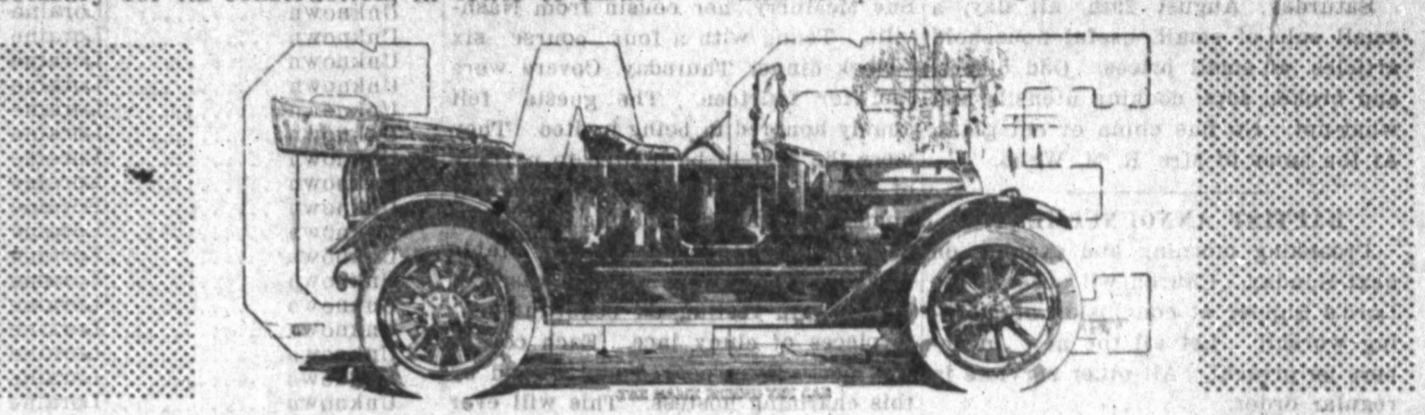

We have advertised that CASE cars for 1915 set a new standard of completeness. Certainly the specifications as outlined for the Forty bear us out in this statement. We list here the detailed specifications of our Thirty-five, a car somewhat smaller than the Forty. We have found a variety of demands in the automobile world for CASE cars, and therefore, have built three models to meet the demands for the various types of cars. It is easy enough to buy a permanent car if the funds at hand are unlimited. To those, however, who want smaller cars, the question is a very different one, because of the materials which are necessary for its construction, in order to insure its permanency. We claim that this CASE Thirty-five at \$1,600.00 contains many features not found even in the more expensive cars, and for a car of permanence, in its class it has no rivals. We are able to do this because we have been able to save in departments where other manufacturers must spend. Remember always that this price includes the CASE complete equipment. Here is what we mean by complete equipment.

Let us hope that Chicago Aldermanic junketers will not buy the Hotel leg next year. Thus the pendulum swings back to the simple life. Occasionally an aviator breaks a record, but more often they break their neck.

Case Cars in the Making and Selling

3-4 elliptic. Tank capacity, 16 gallons under front seat. Adjustments, all dash adjustments located on cowl board within easy reach of the operator. Warner Autometer, 8-day clock, run wind, electric vibrator horn. Firestone universal, quick detachable, demountable rims. Goodyear Non-Rim Cut tires, 35x4 1-2. Extra tire on rim. Two extra inner tubes. Tire cover. Waxed tire chains. Rayfield carburetor, water and air heated, dashpot and dash adjustment. Mohair top and dust hood. Quick adjustable side curtains, folded in top, easily attached from seats. Rain vision ventilating wind shield. All lamps electric. Electric dash lamp. Work light on long wire. Robe rail, foot rest, and the usual tools, tire repair kit, jack, etc., etc.

DETAILS OF CONSTRUCTION. Read, if you will, the specifications of this car. Judge it, too, by its appearance, by its lines and general external design. Throughout the design of the whole car it has been our idea to secure a smaller car, and not to follow the general popular lines by attempting to fake a larger car. There are some cars smaller than this one which in illustration seem even larger, due to the fact that there is no way of gauging their sizes as shown. Stand along side of them, then draw your conclusions. This car has been designed for comfort. No matter how attractive a car is without the fundamental element of comfort, it is of comparatively little use to you who expect to use your car extensively. THE MOTOR of this car, rated at 35-horsepower will develop from 40 to 45 actual horsepower. The complete motor, like that of the 40 and 25, is built in our own shops, and therefore, insures to the buyer real CASE efficiency.

There is to be no cuff on the trouser leg next year. Thus the pendulum swings back to the simple life. Kansas farmers are giving fetes in order to keep the boys in the country. Improving the old fashioned cookery would also help.

Our BULLETIN BOARD SYSTEM

EACH day for six days we will have written on our bulletin boards some attractive bargains. Watch these boards and read this space. The bulletin board on the east end of the south wall will announce dry goods specials; the board on the west end of the same wall will have grocery or hardware specials. If you read each board daily you will discover that we are making prices far cheaper than you have ever known before. We are after the trade of Loraine, Colorado and Roscoe, and hope to win this trade territory by bargain prices and accommodation. Watch our ads in the papers of these towns.

Rev. Clements, pastor of the Methodist church, preached a most excellent and timely sermon on last Sunday morning. His text was the difference between the choice of Abraham and Lot. He paid his special respects to that class of church members who serve God with their mouths on Sunday but trot with the Sodomites all during the week. It was an old time, soul-digging sermon of righteous rebuke.

The superabundance of fine tomatoes around Colorado this year, emphasizes the need of canning facilities. Under conditions like the past season, the country immediately around Colorado could easily furnish all the tomatoes a small canning factory could handle. And in the absence of a public factory, family outfits could be used to the greatest advantage and saving.

WHEN YOU ARE NERVOUS you have the first symptom of a run-down system, and nervous people too often conceal their aches and pains and suffer in silence, while, if neglected, this condition often ferments more serious trouble. If those so afflicted would stop taking medicine containing alcohol or drugs which menace the foundation of health, and just take the pure, strengthening nourishment in Scott's Emulsion, it would create new blood to pulsate through the organs, enrich their bodies and build up the whole nervous system. It is rich, sustaining nourishment, free from wine, alcohol or drugs. Shun substitutes.

Attention is directed to the ad of Wootton Jeffress in this issue of the Record. He offers the farmers a market for their cream at greater profit than they can handle the milk and butter themselves. The farmers at Merkel, Roscoe, Tehoka, and a number of the smaller towns in this country are availing themselves of this fine opportunity, and some of these places ship as much as 100 gallons per week. If the farmers near this point would see Mr. Jeffress and talk over the plan with him, no doubt many would try this plan of marketing their cream and could at the same time get the benefit of the skim milk for calf, pig and chicken food.

INVESTIGATING MITCHELL COUNTY ROADS

The entire body of the Scurry county commissioners' court was here last Thursday looking after data regarding the building of good roads. Many of the public roads of the county were inspected by the Scurry county commissioners and much detailed data accumulated. County Judge A. J. Coe did the honors of host on this occasion and dined the party at the Barcroft Hotel. The party included Judge C. R. Buchanan, G. W. Brown, Commissioner of Snyder; A. C. Wilmeth, Commissioner of Snyder; T. C. Stinson, of Ira; J. E. Thomas, of Hermleigh, and Lon McGuire of Snyder, who personally conducted the party.

It is no small complement to Mitchell county to have its public roads held up as a pattern for others. There is no argument for good roads like good roads themselves; they must be used and enjoyed to be fully appreciated. Scurry county does well to investigate the good roads of Mitchell county before entering upon the building of its own.

COLORADO WINS FROM BIG SPRINGS

AN EXCITING BALL GAME WHICH RESULTED 9 TO 0 IN FAVOR OF THE SHORT HORNS

TO PLAY DALLAS GIANTS

Manager Scott Has Matched a Series of Games with the Giants of Dallas, the Big Texas Leaguers

Last Monday was the first game of a series of three to be played with Big Springs, and the game was looked forward to with considerable interest by Colorado fans, as these two teams had tied on the number of games, having six games each to their credit.

The big rain on Sunday night put the diamond in bad shape, in fact the game was played in the mud, but it was played nevertheless.

The cloudy, threatening afternoon also cut down the attendance, but still one of the largest crowds of the season was out to see the game.

It was a pretty game up to the eighth inning, when the Colorado boys made a race track and stirred up the mud in fine shape running the bases.

In Colorado's first inning with two men on bases Farrar put one over the fence which (on account of ground rules) gave him two bags, and scored two, and in the seventh one more was slipped over the home slab. But in the eighth the twirler for Big Springs was hit freely, and the bases were soon choked. He walked one in home, hit a couple, and finally went out of the box in favor of Scroggins, who held the score down to six in that inning, as no hits were made off him. The score was 9 to 0. Kerr, who twirled the pig skin for Colorado was a wonderful little pitcher, and had the game in his hands from the start. He struck out 16 with all ease, and during the entire game had only eight for ten balls called on him. He had absolute control and when he put the stuff on the ball they went down one, two, three. He walked none nor hit anyone. He did not make an error in the game.

The score is as follows:

	Ab	Bh	Po	A	E	R
Rosemond, C	4	1	0	1	1	0
Shell 2B	4	0	0	1	1	0
Hart Rf	4	0	0	1	0	0
Scoggins, 3B, P	4	0	5	2	0	0
Wyatt, P	3	0	8	0	0	0
True Cf	3	1	1	0	0	0
Bynum, Lf	2	0	0	0	0	0
Maxfield, 1B	3	1	10	1	0	0
Knight, SS	3	0	0	0	0	0
Nichols Lf	1	0	0	0	0	0
Lester, 2B	1	0	0	0	0	0
Totals	32	3	24	14	2	0

	Ab	Bh	Po	A	E	R
Colorado	200	000	16x			
Big Springs	000	000	000			

Struck out by Kerr, 16; by Wyatt 5; by Scroggins, 1. Base on balls, off Wyatt, 1; off Scroggins, 2; off Kerr 0. Left on bases, Colorado, 8; Big Springs 5. Hit by pitcher, Wyatt 2; Kerr 0. First base on errors, Big Springs 3, Colorado 1. Sacrifice hits, Ezell and Lester. Two base hits, Farrar, True, Ezell, Kerr 2.

Again Monday night and Tuesday morning it was raining, but the boys stayed over thinking they could play Wednesday; but another big rain on Wednesday morning was too much, and the games were called in until the first of next week.

Commencing next Monday, on the home diamond, three games will be played with this same bunch, and there will be a battle for at least two of the games.

Colorado went to Big Springs on Thursday to play the rest of the week over there, as their diamond is much better situated for wet weather, and it will be in fair shape.

Colorado has now played 42 games; won 23; lost 18; tied 1.

Will Play Dallas Giants.

The sensation of the ball season will be a series of games with the Giants of Dallas, the Texas league team, who will be here on September 10, 11, 12, and try out the merits of the Colorado Short Horns in a sure enough game of base ball. Manager Scott says he wants to get some team in his class so as to show the Colorado fans what his team can do when they are put to the rub. Talk up these games and lets

have a big crowd. It is going to cost a good deal to get this big team out here, and we want the park full of fans. Rates on the railroad will probably be secured for those days, and a good attendance is counted on from adjoining towns.

"LEAD KINDLY LIGHT"

John Henry Newman, one of England's distinguished scholars, poets and theologians, was born Feb. 21, 1801, and died Aug. 11, 1890.

In the latter part of 1832, Dr. Newman was prostrated with malarial fever. On recovery sufficiently to attempt to return to England he took passage on an orange boat as far as Marseilles. Between Corsica and Sardinia the vessel passed into a severe storm.

With wind and waves raging furiously and the sky black with impenetrable clouds, the passengers became panic stricken under the belief that the vessel would not survive the storm. Dr. Newman for awhile paced the deck, awed by the threatening situation and deeply engrossed with the religious movement in which he had become a central figure.

Suddenly on the night of Jan. 16, 1833, there appeared a slight rift in the dense clouds, and out of it a solitary star beamed forth hope and encouragement.

Dr. Newman was so impressed with this omen that he bowed his head, and uttered the prayer, "Lead kindly light amid the encircling gloom lead thou me on!"

After the storm cleared he wrote the immortal hymn, which now can be understood by a knowledge of the circumstances that inspired it.—Selected.

Attention, Farmers of Mitchell County

Are You Satisfied With the Prices You Get the Year Round for Your Butter

WHEN IN THE WINTER the market here in Colorado is 10 and 15 cents per pound, and your product is sometimes hard to sell at these prices?

Would you make a small investment to insure you a perpetual market throughout the year?

Here is the solution and my proposition to get better prices for your product: Nissley Creamery Company of Fort Worth and Dallas, the largest creamery and cash buyers of hand-made cream in the Southwest, have appointed me their local agent of Mitchell county, thereby offering you a high market price for pure cream, at prices which will pay you more for cream than you get for butter; and they (the Nissley Creamery Co.) want to know how many people of this county can furnish them with cream.

All that you can bring in will be handled by me, tested while you wait and cash paid to you on delivery for every pound.

In selling your cream this way it will necessitate the small expense of purchasing a cream separator, but at the same time saving you the labor of churning, and will pay for itself in one or two months' time.

See me and let's talk it over more fully.
