## ASCS OFFICE SENDS OUT IMPORTANT REMINDER

The following important reminders and announcements have been made by J. G. Meredith, Agricultural Stabilization and Conservation Service office manager:

Final date to release or ask for reapportioned peanut acreage is Friday, April 4. Producers who do not intend to plant their allotment this year are encouraged to release it to the County Committee for reapportionment to other producers in the county for one year.

Deadline to sign an intention to participate in either or all of the programs, cotton, wheat and feed grain, is April 1. Cotton producers who do not plan to plant cotton acreage may sign up to divert 12.5 percent of their allotment and release the balance. Producers electing to do this will receive full history protection for future cotton allotment determinations.

Workers at the ASCS office are in the process of completing applications for contracts under the Cropland Adjustment Program. The Program is for allotment crops, bases, and in some cases non-allotment cropland will be taken. Designated acreage must be devoted to a permanent type grass and can not be grazed

during the full term of the contract period. Cost-share assistance will be paid to assist in the establishment of this cover where one does not exist at the present time. Annual payments will be made the latter part of each year.

Funds are available to carry out any approved conservation practice for 1966. Mr. Meredith says. These practices include establishing permanent grasses, control of brush and mesquite, constructing earthen dams, establishment of waterways, constructing field and diversion terraces. Before beginning any work, requests must be signed at the ASCS office. Farmers, if you have recently changed your farming operations, if you have purchased or sold land or if your address has changed, you are urged to inform the ASCS office of these changes.

An important message from your Department of Health, Education and Welfare is this — crop insurance, livestock vaccination, equipment maintenance and medicare are all forms of protection to you as a farmer or rancher. If you are 65 years old you are urged to contact your local Social Security Office to learn about Medicare.

The temporary voter registration period will begin at the County Tax Assessor-Collector's Office at the Courthouse in Eastland Thursday, March 3, and will continue through Thursday, March 17, Edgar Altom has announced.

date) may register during this period, he said.

A person subject to the tax who has been issued either a paid poll tax receipt or a "Poll Tax Not Paid" (the federal-free receipt) during the regular registration period which ended on Jan. 31, 1966, need not and should not register, Mr. Altom pointed out.

Those persons 60 years of age and over who do not reside in a city of 10,000 or

**GI LOANS FOR WWII VETS WILL TERMINATE IN 1967**

WACO — World War II veterans have just a year and a half left to obtain GI guaranteed or insured loans, Jack Coker, manager of the Veterans Administration Regional Office in Waco, pointed out. Deadline for World War II eligibility is July 25, 1967, he said.  
 Eligibility has been expiring for World War II veterans according to a formula that adds ten years to the date of their last discharge from active wartime service plus one year for each 90 days of that service. The date reached by this formula is the individual deadline date for each veteran.  
 Thus eligibility has already expired for many World War II veterans but the July 25, 1967, deadline terminates the program for all of them, even through the formula would give a longer period of eligibility.

**For Sale**

Veterans who were discharged for a service-connected disability will be eligible until the final termination date of July 25, 1967; this also applies to widows of veterans who died of service-connected disabilities.  
 Those eligible may obtain a guaranteed loan to purchase a home, a farm or to buy or start a business.  
 The formula for determining the length of time Korean Conflict veterans will be eligible for GI loans is the same as for World War II veterans. However, Korean Conflict entitlement did not begin to expire until Jan. 31, 1965, and the final deadline date is Jan. 31, 1975, Coker said.  
 Korean Conflict veterans discharged for service-connected disabilities and widows of Korean Conflict veterans who died from such disabilities may take advantage of the final 175 deadline, the VA manager added.  
 He pointed out that a veteran's loan cannot be guaranteed unless the loan application is received by the VA before the veteran's eligibility expires.  
 Loan applications are ordinarily sent to the VA by lenders. The veteran, therefore, should see that his loan application reaches the VA before his entitlement expires.  
 An application for a Certificate of Eligibility is not a loan application, Coker warned.
