AMERICAN CAPTAIN FIRED ON BY TURKEY

CRUISER TENNESSEE IS ORDERED TO CHIOS BY AMBASSADOR AT CONSTANTINOPLE AS RESULT OF INCIDENT ARRIVING TODAY.

BOMBARDING BELGIUM

French Capture Forest Near Bixchoot After Three Days' Fight—German Attempts to Dislodge French From Newly Captured Positions Fail—Sinking of Two British Ships is Confirmed—Two German Generals are Reported Killed.

Chios, Nov. 18.—The American cruiser Tennessee arrived here today. The sending of the American battleship to this place came as a result of an order issued by the American ambassador at Constantinople, it being considered the safer policy to get the ship out of the range of the Turkish guns.

The Turkish cruiser Forst fired on the launch of the Tennessee, which was carrying the captain of the Tennessee near Smyrna while an attempt was being made to land. No reason is given for the Turkish vessel firing on the American captain. The Tennessee will probably remain here for sometime, and all operations which it is necessary to conduct in reference to the safety of the American residents will be conducted from here.

Bombardment Continues in Belgium.
Paris, Nov. 18.—The German artillery bombardment of Belgium continues today. The French Zouaves yesterday at bayonet's points, captured the forest near Bixchoot after a fight which had lasted for three days, and in which it is believed there were heavy losses to the Germans.

The German attacks have failed to dislodge the French from their newly captured positions near St. Mihiel.

Fighting in Belgium, according to the reports reaching here, is as violent as ever. The German artillery is doing deadly work, and the Allies are finding it difficult in all cases to hold their positions.

Sinking of Ships Confirmed.

London, Nov. 18.—The cruiser Glasgow reported today and confirmed the destruction of her sister ships, Good Hope and Monmouth by the Germans off Chile. Sir Christopher Craddock who was in command of the fleet, signaled the battleship Canopus, but before he could give his position, so that the Canopus could find them, the Germans had "jammed" the British wireless and all possible communication further was cut off.

The Germans won by their superior marksmanship. The British opened fire first with the advantage of light, but the Germans did not begin their firing until after the sun set.

The report says that the Good Hope blew up during the battle, although the reason of the explosion is not known.

Two German Generals Lost Their Lives.

Berlin, Nov. 18.—Two German generals von Vreien and von Lepel have been killed in action against the Allies according to an official report made public here today.

POSTED NOTICE.

Take Warning and Save Trouble.
Notice is given that the Nail and Madden lands, and especially the Red Bank pasture, the F. E. McKenzie ranch lands and the Van Tuyl farm and ranch lands are all posted according to law and all trespassers, especially hunters and wood haulers will be prosecuted without fear or favor, we are forced to do this to protect our interests so take notice and save trouble.

GUTIERREZ REJECTED BY CHIEF.

Efforts Again Being Made To Make Peace, But Without Hope.

Washington, D. C. Nov. 18.—Gen. Carranza has again refused to deliver the executive power to any but a man of his own selection, and more peace plans for Mexico are upset, according to official dispatches today from American agents in Mexico.

Just as it seemed that an amicable adjustment had been reached, Gen. Carranza has announced that he was misunderstood. From both American consul Silliman and Leon Canova, special agent at Aguascalientes, the state department received practically the same version of the newest split summarized as follows:

Carranza first telegraphed Gen. Gonzales that he was willing to deliver the executive power to Gutierrez provided both he (Carranza) and Villa relinquished their commands and met in Havana on Nov. 25.

Carranza Favors Gonzales.

Gonzales telegraphed that to Gutierrez, chosen provisional president by the convention at Aguascalientes, who took it to mean that Carranza was ready to deliver the executive power to him. Now Carranza has announced that when he used the words "provisional president" he meant a man who enjoyed his entire confidence, such as Gen. Pablo Gonzales.

New Plan Is Discussed.

With troop movements under way and hostilities imminent, efforts are being made by some of the generals to patch up the differences. A compromise proposal being discussed is that Carranza should resign his command to Gonzales, who would retain control of the territory held by Carranza, while Villa would turn over his forces to Gutierrez. Both Gonzales and Gutierrez could then remain in power in their respective territories while the convention reassembled to ratify the choice of Gutierrez or choose another provisional president. Official dispatches indicate there is some hope of an agreement along that line.

Others Parley; Villa Moves.

Confidential information received by officials today indicated that while Carranza and other chiefs were parleying, Villa was moving steadily southward toward Mexico City to assist Gutierrez in setting up a provisional government as ordered by the Aguascalientes convention.

Send Troops to Cardenas.

Gov. Caballero, of Tamaulipas, has sent to Cardenas troops to meet the Villa forces moving toward Tampico from San Luis Potosi. American consul Bevan reported today by wireless that conditions at Tampico were unchanged.

EXEMPTION OF SMALL FARMS FROM TAXATION

Land Commissioner Robinson has an interesting chapter in the biennial report entitled "The Land Problem and Farm Life." In this he discusses conditions in Texas and makes a number of suggestions.

Among the recommendations made is that the State exempt from taxes all farms of 200 acres or less where the owner resides upon same and cultivates it. Another recommendation is that idle tillable land adjoining cultivated land be taxed in the same amount as the cultivated land. This is to force the cultivation of the land or its sale to those who will cultivate it. And also to avoid placing a tax on the man of thrift who makes the soil produce, while the adjoining land owner does nothing.

Mr. Robinson makes some suggestions as to direct taxes on acreage above a certain amount and for an inheritance tax on land gotten through bequest, but exempting all such inheritances below a certain amount.

In 1910 Tolstoy prophesied that a general war in Europe would begin in 1912 and last until 1925. It is hoped that he missed the latter date by more than two years.

SOUTHERN HISTORY FACTS TO BE KEPT

George W. Littlefield, Terry Ranger, Presents History Fund to University of Texas.

"Writing History the Wrong Way" is a charge that frequently has been made by the Southerner, reconstructed and otherwise, against the bulk of American history authors since the Civil war.

Geo. W. Littlefield, who served as one of Terry's Rangers during the war, and now President of the American National Bank of Austin, Texas, is one of those

the country. The endowment is known as "The Littlefield Fund."

It is the hope of the donor that with this mass of original historical data available, a great stimulus will be given to the study of the history of that exciting period, and that a thoroughly impartial history, by competent historians, will result.

Texas Farm Life Subject of Study

Facts of Actual Texas Conditions Shown in Special Maps.

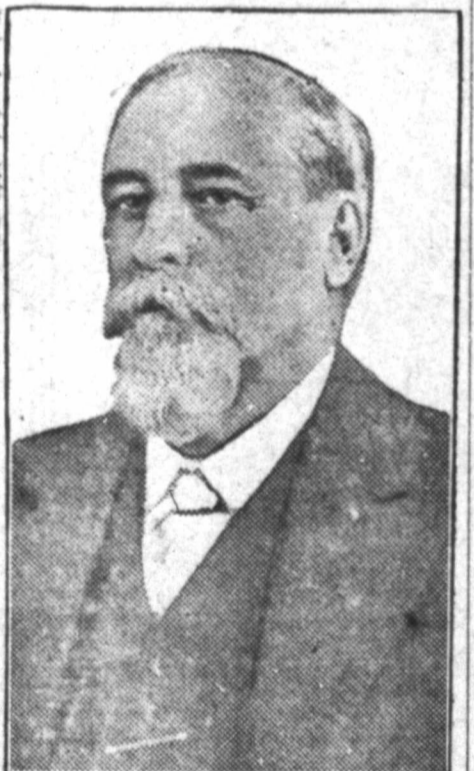

At the last National Corn Exposition the Division of Public Welfare, in the Department of Extension of the University of Texas, had a display of maps of the State of Texas. On these maps was shown in color and by figures just where each county of the state stands so far as certain problems affecting agricultural life of the state are concerned. Among the subjects dealt with were those of tenancy and mortgages, the amount of different crops produced, or the number of live stock to be found, and other closely related subjects. The facts thus set forth permitted the people from any county to compare their standing at a glance with the standing of other counties on the same question. This material has since been used by local parties who want to make a further study of their own communities as related to other communities, or who desire to write an intelligent article upon the agricultural resources and possibilities of their respective counties. In this way the information compiled by the University has been given a wide area of usefulness and for work along all lines of community betterment it forms a basis founded, not on personal opinion, but upon actual evidence as furnished by the best authority.

In the thirty-one years of its existence the University of Texas has granted approximately 3600 degrees.

If the world were to come to an end presumably Britain's official press bureau would report it as follows: "The situation at the front remains unchanged."

Militarism may be a poor way to preserve culture, but Boston's baseball team is doing what it can.

Southerners who believes that the South's side of the late unpleasantness has never been fairly presented, and he is backing his judgment to the extent of \$25,000.00, having recently given this amount of money for the purpose of securing maps, newspaper files, private manuscripts, letters, books, and other original sources bearing upon the part played by the South in the war between the States. This fund is invested so as to yield \$1,500 per year, and the interest is to be expended annually by a committee composed of the State Librarian, the librarian of the University of Texas, and Eugene C. Barker, professor of history of the University of Texas. The life of the fund is fifty years, and at the end of that term the committee feels confident that the State of Texas will have deposited in its University library such a collection of historical data as cannot be matched by any library in

GOING SOME.

Many make the auto the servant of their transportation needs; a multitude of humbler citizens use horses; about as many walk, while some of us are doomed to hobble about with crutch and cane.—All with the same objective—to get somewhere. And of course some arrive before others; but we are assured that the race is not always to the swift; that the first are sometimes last in the journey of this world. The tortoise and the hare is a notable case in point. So let us not despise the gait of the hobbler. He may be waiting for the aircraft passenger at the goal.

These reflections were suggested by the passage through town this week of a paralyzed man in a kind of go-cart drawn by five small dogs. He was utterly unable to walk and had to be helped in and out of his strange vehicle. He had started on his journey from Argenta, Ark., seven months ago and had been drawn by the dogs every mile of the way. His objective point is San Francisco, and his time of arrival is the opening of the Panama Exposition next spring—1600 miles yet before him.

And yet, he may arrive before many who start at the last minute, on train, in auto or aircraft. He is indifferent to the many dangers, accidents, delays by weather and other hindrances to his progress, believing that he'll get through by some dispensation of Providence. And if the fidelity and pulling power of his little dogs hold out, he'll certainly arrive in time to reap some of the extravagances of the big show.

How does he subsist? He doesn't have to ask for alms. The sight of him, knowledge of his purpose, his sticking to the job, good spirits of both himself and dogs, will jar a tightwad loose from his quarter quicker than any razor paste taker or missionary spieler. The Record wishes Bates and his faithful canine team a safe, sure and a prosperous journey to the Golden Gate, and rest and plenty after they arrive. Faith, and they will have earned it.

NOT ALWAYS TO BLAME.

It has not been a long time ago when the high cost of living was discussed that the farmer got the cussing for it. Recently before the farmers had a chance at it and the warehouses, cold storages, etc., were full with all sorts of food stuffs the prices went up like a sky rocket. Investigation showed that speculators were the guilty ones. They advanced prices without good reasons. Haven't heard any complaints about farmers raising prices lately. The speculators are hot at him though because he does not run all of his wheat to market and give them a chance to corner and squeeze the public.—The Farmer's Guide.

THE VENEER OF CIVILIZATION.

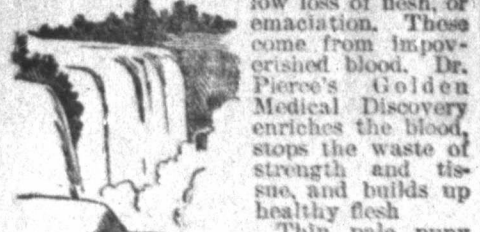

Samuel G. Blythe in an article in a current periodical, calls attention to a distressing feature of the war in Europe which has not heretofore been the subject of noteworthy mention or discussion. In his opinion, one of the greatest calamities likely to result from the great war is the brutalizing of those engaged in the struggle as well as those forced to witness the bloodshed, violence and extreme cruelty resorted to by the contending armies.

He advances the theory, apparently supported by facts, that civilized men who engage in war lose that humane consideration and refinement which is the result of centuries of Christian civilization and revert immediately to the brutal and savage state of man which existed before he was subjected to its restraints and salutary influences. While the temporary reversion to primitive savagery is a concomitant of warfare, all other great public calamities, he presses the fear that the magnitude of the present war, the vast number of those engaged and of those directly affected by its scenes of violence and bloodshed and its probable long duration, may result in the undoing practically all which had been accomplished by centuries in the civilization of man, and again necessitate a long period of time to reach the perfection which it had attained prior to the war.

Whether the fears of Mr. Blythe are to be realized as result of the world's greatest war is a question which comparatively short time will develop. We are forced to confession that the veneer of civilization is an exceedingly thin and flimsy affair, through which the dormant, animal fierceness of primitive man immediately discloses itself when conditions arise removing the ordinary restraints which hold it in bay.

In the work of a distinguished writer who ably discusses both the possibilities and impossibilities of the African race as factors in civilization, the author asserts and apparently proves, that a full-blooded negro, born reared and educated among the most enlightened people, who appears to be as thoroughly civilized as possible when taken away in his fortieth year turned loose in the jungles of Africa among the native wild tribes, and left there for sixty days, reverts to primitive savagery and becomes wilder than the wildest of his companions. While it is to be expected that the African will retrograde to savagery more rapidly than the Caucasian, is a lamentable fact that the only perceptible difference in the process the cases named is in the time required to accomplish that result.—An American.

THE WIZARD OF WISELAND

One of the big musical successes of the season is the new, two-act farcical extravaganza, "The Wizard of Wiseland," the book by Bide Dudley, former dramatic editor of the Denver Post, the score and lyrics by Chicago Publishing House.

The instantaneous success gained by this merry offering is said to be due to a clear and well-wrought-out plot, and to the excellence of the music, the standard of the latter, according to several critics, reaching that of light opera.

The story is just as original as the title. The graduating class of a young ladies seminary through the mystic properties of a potion prepared by their professor in chemistry and which they drink while unanimously wishing for the same thing, are transported during a short sleep to a wonderful island where "Pebbles are pearls and flowers are girls."

The Wizard of Wiseland will be seen at the Opera House Tuesday, Nov. 24th. A talented company of singers and players with a large and excellent chorus and well trained ballet are promised in the presentation.

GETS CARNEGIE MEDAL

As a reward for his bravery and courage in rescuing a little child from the ice grip of the waters of the Concho last February, Charles Hull of this city, aged over 60, has been awarded a handsome bronze medal and \$1,000 by the Carnegie Hero Commission at Philadelphia.

It was bravery personified and an utter disregard of the cold waters that induced Mr. Hull to plunge in and save the Buchanan child. The latter was riding in a baby buggy when the near-tragedy happened.

Mr. Hull was on the opposite bank from where the child struck the water and estimating the speed of the current, he jumped in. For over seventy-five feet he swam and emerged with the baby alive.

Friends immediately expressed an opinion that Hull should be awarded a medal and he was.—San Angelo Standard.

The Triumph of His Majesty the Devil

(Baltimore Evening Sun.)

And now hell has opened its mouth and vomited forth another reinforcement to the cause of battle, murder and general horror. The East Indian, the Japanese and the blackamoors are matched by the unspeakable Turk. Dishonors are now easy. But why should either side complain of the other on this account? Why pretend to aristocratic squeamishness and refinements in such a devil's game as this? War, like hell, is the most democratic of sports. It is not only free to every one, but every one is urged to take a part in it. The slums of humanity stand on the same footing in it as the highest levels of civilized society. All men are equal in the democracy of war. The Satanic lord and originator of this great institution allows no distinction of caste or color, of sex or age. Any one who can smash the life out of another human being and add something to the sum total of human woe, any one who can make two halves of misery shoot up where only one grew before, is more than welcome to join in the bloody revelry.

Let us hear no more of this hypocritical talk about the monstrosity of calling in the holy crusades of civilized and Christian nations. War is the game that throws down all the foolish little barriers that we have erected and restores mankind to its original level. It is essentially a heathen recreation. Let us hear no more appeals to the Christian God, who has been constantly invoked by all sides as their special patron, and who, if not a rank partisan, at least has been put in the position of a universal umpire in these international competitions. It is a shame to rob the devil of the credit that is due to him alone. Give praise and glory to whom praise and glory are due. War is a revolution against the peace and purity of heaven; it is a resumption of Lucifer's old rebellion, and he is its chief of staff, the generalissimo of all its forces. Let us not be so mean as to deprive him of the honor that belongs to him; let us give the poor devil his due as the producer of a most magnificent show; let us be devilish honest ourselves, and no longer turn up our eyes in pious pretense to the skies while we cut our brother's throat and rob him of his heritage. At least, let us save one virtue from the wrecks of matter and the crush of worlds, and be honest in our wickedness.

This mask being thrown aside, we can await with pleasant anticipation the next move of our great and peerless leader. He has not yet mobilized all his reserves. He has yet to call the roll of many other nations. Soon we may hear him call one after another—"Greece," "Bulgaria," "Roumania," "Italy," and—who knows?—"Sweden," "Denmark," "Holland."

Oh, he is a leader of infinite resource, the officially roused blood lust releases capacity, and he never does things other luster in its train. No war ever has been, no war ever will be fought without the sacking of cities, without pillage, concentration camps, without the water-cure, without rape or dum-dum bullets. These bestialities are inherent in war; the only possible way to stop them is not to make war.

And Europe's hands that laid the indictment before the court of America are not clean. What did European troops do on the march to Peking during the Boxer rebellion? Whose ivory hunters killed, crippled and maimed the black children of the Congo? Whose rubber hunters put out the eyes, cut off the hands of the Indians of the Putumayo? What happened to the Mohammedans after the Christian reconquest of the Balkans. What of the pogroms? Did Europe lift its hand to stop the Armenian massacres? The unbreakable glass house of self-righteousness has not yet been invented.—From "Pulse of the Pacific" in November number of Sunset, The Pacific Monthly.

ATROCITIES

War brings out some of the best and most of the worst traits in human nature; armies contain within them the noblest and the basest elements of society, and no amount of Hague stipulations will ever shackle the beast in man when every passion is loosed. In war, life becomes a very cheap commodity, the ever-present sight of suffering dulls and callouses sympathy.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. They advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me." Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. O. C. BROWN IS KILLED AT HAMLIN.

Former Colorado Citizen Wounded. Hamlin, Jones Co., Texas, Nov. 14.—This morning about 10 o'clock Aubrey Anselby, 20 years old, shot and killed O. C. Brown. Anselby used a pump gun and fired three charges of No. 2 shot into Brown's body at a range of about thirty feet. Anselby fired each time directly up the sidewalk of the main street, which at the time was well crowded. About twelve or fourteen people were more or less seriously wounded by heavy shot. The most seriously wounded were Dr. W. S. Carruthers, shot about the head and upper part of the body; J. B. Hall of Pittsburg, Texas, shot in face, arms neck; Clyde Wilson, shot in face, arms and body; G. W. James, shot in legs, hand and stomach; Jim McGlocklin, shot in eye and head; W. H. McMuller, Memphis, Tenn., shot in chest and head; William Quilter, Galveston, shot in jaw. Brown is survived by his father, who lives here, and three brothers residing at Lueders, Texas; Artesia, N. M., and St. Joseph, Mo. Anselby's family, father and mother, live here. He also has a brother, J. O. Anselby, at Lubbock. Both Anselby and Brown have lived in Hamlin about eight years.

1914 CROP WORTH FIVE BILLION.

Washington, D. C.—The important farm crops of the United States this year are worth \$5,068,742,000, a hundred and four million dollars more than last year, notwithstanding the loss of four hundred and eighteen million dollars, sustained by cotton planters on lint alone, as result of the European war. Preliminary estimates and statistics announced today by the Department of Agriculture indicate that this year's wheat and corn crops are the most valuable ever grown in the United States. The wheat and apple crops were record harvests and the potato crop was the second largest ever raised. "A living from the farm"—not the store—should be the motto next year when crops are planted and livestock kept. Let each strive to see what a fine living he can produce on the farm. That will solve many of the problems with which the "uplifters," "reformers" and politicians are struggling. Only One "BROMO QUININE" To get the genuine, call for full name, LAXATIVE BROMO QUININE. INAUGURATION OF THE NEW CURRENCY SYSTEM

On November 16th, the new Currency system was put into effect all over the country. The 12 regional Government controlled banks will begin business as banks for bankers. This system contains the best and most valuable features to be found in the banking systems of the entire world, and it will be the beginning of the greatest era of prosperity ever known, and it will be an era that no panic will be able to puncture. The great benefit to be derived from these new banks is easily explained. For instance, suppose a bank loans \$100,000 to the business men of its community, and more business men wanted another \$75,000 which the bank could not spare. Under the old or present system the last set of men would go without the loan, and so business and industry would suffer accordingly, in that town or county. Under the new system, the local bank would deposit the securities it received as collateral for the first loan, with the Government Regional bank and borrow the \$75,000 therefrom at about four per cent and then lend it out at 5 per cent. So under this system no legitimate industry can ever suffer for want of money, and financial panics will be impossible.

DOBBIN AS CANNON FOOD.

Within a few months thousands and thousands of American horses, many of them family pets, will be galloping into the shrapnel and bayonets of German soldiers, tugging and straining at the traces as they drag heavy artillery over the half-frozen roads or lying wounded, helpless and dying on some French, Belgian or German battle fields. For, despite the peace talk, despite the humane sentiment of our people and despite everything, trainload after trainload of American horses are leaving Chicago every day, for Canada, to be shipped to England. Other trains leave St. Louis, Kansas City and Louisville, daily for New Orleans, whence the horses are shipped to France. These horses are being bought now, today, in the rural districts of the middlewest, as well as from the ranges further west. Many a family pet will be bullet-shattered and will die a lingering death in the cold of the coming winter, for there are no Red Cross societies to care for wounded horses.

COUNTY TREASURER'S QUARTERLY REPORT.

Ending Nov. 12 1914. In the matter of the Quarterly Report of J. E. Stowe, County Treasurer of Mitchell county, Texas, and the affidavits of the Commissioners of said County. In the Commissioners Court, Mitchell County, Texas, November term. A. D. 1914, this 12th day of November, A. D. 1914. We the undersigned Commissioners of Mitchell County, Tex. and J. H. Bullock, County Judge of said Mitchell County, constituting the Commissioners' Court of said county, and each one of us do hereby certify upon oath that on this, the 12th day of November A. D. 1914, at a regular term of our said Court, we have compared and examined the quarterly report of J. E. Stowe, Treasurer of Mitchell county, Texas, for the quarter beginning on the 12th day of August, A. D. 1914 and ending on the 12 day of November A. D. 1914, and upon finding same correct, have caused an order to be entered upon the minutes of the Commissioners' Court of Mitchell County, stating the approval of said Treasurer's report by said court which said order recites, separately, the amounts received and paid out of each fund on the said 12 day of November since his last report in the Court and during the time covered by this report, and the balance remaining in each fund on the said 12 day of November, A. D. 1914 and have ordered the proper credits to be made in the accounts of said Treasurer, in accordance with said order as required by Article 867 Chapter 1, Title XXV, of the revised Statutes of Texas, as assembled by an act of the 25th Legislature of Texas at its regular session. And we, each of us, further certify upon our oaths that we have actually and fully inspected and counted the amount of money, in cash and other assets, in the hands of said treasurer, belonging to Mitchell county on this day and date and found the same to be as follows, to-wit: Total cash on hand, belonging to Mitchell county in the hands of said Treasurer, \$8,654.41. Assets in addition to the above amount of money as actually and fully counted by us, in possession of said County Treasurer. Permanent School Fund invested in bonds \$1000.00. Permanent School fund in land notes \$7856.00. Total \$8856.00.

Assets \$17,510.41 Witness our hands, this 12 day of November, A. D. 1914. J. H. BULLOCK, County Judge. W. T. ROGERS, Commissioner, Precinct No. 1. J. M. HELTON, Commissioner, Precinct No. 2. B. O. JOYCE, Commissioner, Precinct No. 3. D. M. VINSON, Commissioner, Precinct No. 4. Subscribed and sworn to before me by J. H. Bullock, County Judge, and W. T. Rogers, and J. M. Helton, B. O. Joyce and D. M. Vinson, County Commissioners of said Mitchell County, each respectively on this 12th day of November, A. D. 1914. (Seal) EARL JACKSON, Clerk County Court, Mitchell, Co., Tex.

RESOLUTIONS OF RESPECT

To the City Council of the City of Colorado, Texas. Your committee to draft resolutions on the death of W. H. Moeser, beg to report as follows: WHEREAS, it has been the will of the All-wise Creator and Father of us all, to call from his labors, our associate, W. H. Moeser, and WHEREAS, we shall miss his wise counsel and ripe experience, as a co-servant of the public good, and recognizing his worth as a citizen and man, we desire to express our sorrow of our loss and perpetuate his memory by official action of this council, therefore, be it RESOLVED, that in token of our respect and appreciation, these resolutions be spread upon the minutes of the City Council, a copy furnished the family of deceased, also a copy furnished the Colorado Record for publication. Help For The Cotton Growers.

It was previously decided to open the new banks on Nov. 30, but owing to the urgent necessity (which the whole country recognizes) of helping the cotton planters, the banks opened on Nov. 15 and about one hundred and fifty million dollars (\$150,000,000) was immediately loaned to the cotton growers, which will at once relieve this distressing condition. Last week arrangements were made for shipping cotton to Germany and Austria which have received none since the war began, and these two countries will take 75,000 bales every month, and in view of the fact that no planter is to put in but half a crop next year, cotton will soon be at a normal price again. Corn will pay just as well as high priced cotton if it is fed to hogs and made into good hams and bacon at 20 and 25 per pound. Nothing pays better. The South can raise five times as much pork and beef as it is doing, and it should turn its attention to this matter with greater earnestness. Buy your meat from Pickens & Reeder. They keep the best. Guarantee The Magic Washing Stick.

The Magic Washing Stick is guaranteed to save all washboard labor on wash day, and to make the clothes white as snow. Contains no acid, alkali lye or poison of any character and can be used with perfect safety on the most delicate fabric. Lifts the burden of work from the womenfolks. Price 25c per box containing three Magic Washing Sticks, enough for fifteen big snowy white washings. Ask grocer or druggist, A. B. Richards Medicine Co., Sherman, Texas. Diversification and independence go hand in hand. When there are crops for the family table and crops and animals for cash the manager of the farm is sure to be more or less independent. He is independent because he does not go to the merchant and beg him "to run him" next year. The cotton farmer has been run so long that he is almost "run down". Diversify and be independent. Every cotton farmer should secure a few pigs, a bred gilt or a sow and begin now to raise his own meat next year. With plenty of meat and bread at home it will not require as much cotton as usual to purchase the other articles of food and clothing for the family. Hogs are scarce and now is the time to get breeding stock for your farm. Piles Cured in 6 to 14 Days Your druggist will refund money if PAZO OINTMENT fails to cure any case of itching, blind, bleeding or protruding Piles in 6 to 14 days. The first application gives ease and rest. 50c.

COLDS

An up-to-date remedy for colds. That is what Peruna is. In successful use over 50 years.

Colds are caught in many ways: Ily ventilated rooms; rooms that have direct draughts; crowded rooms; damp houses; stuffy school rooms; offices ily heated.

A dose of Peruna at the right time, at the first symptom of cold, before the bones begin to ache, before the sore throat manifests itself, or the cough, or the discharge from the nose, just a dose or two of Peruna before these symptoms begin is generally sufficient. But after the cold is once established with the above symptoms prominent, a bottle of Peruna, or maybe two, will be necessary.

"For several years I have been troubled with colds at each change of season. I took Peruna and have not been troubled with the slightest cold this entire season." Mr. Harry Fisher, 1223 Mosher St., Baltimore, Md.

"I give the children Peruna if they have a cold, and it always relieves them." Mrs. T. D. Hayes, 1937 Druid Hill Ave., Baltimore, Md.

"When I feel a cold coming on I take a little Peruna, and it does me good." Mr. Charles E. Many, 12 Water St., Ossining, N. Y.

"No family should ever be without Peruna, for it is an unfailing cure for colds." Mrs. M. F. Jones, Burning Springs, Ky.

Senator Owen Declares All Business Of Country is Controlled by 125 Men.

Muskogee, Okla.—United States Senator Robert L. Owen, in closing a speaking tour here tonight declared that the Pajo congressional committee had found that the Associated Press, every railroad, every steamship line, every trust every telephone and telegraph company, most of the banks and every large corporation in the land were owned and controlled by 125 men through a system of interlocking directorates.

Senator Owen urged the people to uphold the Wilson administration by returning Democratic congressmen and senators but declared that he believed in independent voting.

"No man should belong to a party," he declared. "When in your heart of hearts you feel that you cannot realize the ends for which you struggle thru your party, cast it aside and attach yourself to one that has your true interests as its ideal."

YOU'RE BILIOUS AND COSTIVE!—CASCARETS.

Tonight! Clean Your Bowels and End Headaches, Colds, Sour Stomach.

Get a 10 cent box now. Furred Tongue Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10 cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good gentle cleansing, too.

THE ATTITUDE OF CARUSO.

All doubt as to whether or not the annual American tour of Caruso would be interfered with on account of the European war was removed a few days ago by an announcement that the great Italian singer had signed for the United States. This prompt decision of Post James Montagu to perpetuate the following, in the name of the war:

Caruso's salary is da nation, com nearly twice as da wonderful king. rity A. Calvin grand! Till fro when he come to heara me sing. T m But stay in Italia. jeter she get too much excite. At da sound of da drum and da officer come. And tell me "You go out and fight."

That fight is one game I no care for; an how they load da musket with lead and shoota him! O! la! la! he Pal me, maybe they killa me dead. I nethan rel, such as da patriot can; Mr he dron, I think anyhow that I hang out of a fist now. Do is da fold of da Star-Spangled. Oye, you a, im.

NEED OF FOOD FOR BELGIANS URGENT.

Special Steamer Cargo Will Be Sent From New York to Carry Supplies to Starving Millions in Europe.

A special steamer, carrying a cargo of food supplies for the starving Belgians, will be sent from New York to Rotterdam at the earliest possible date. It was announced today by the Belgian relief committee here. This was arranged by exchanges of cablegrams with Walter Hines Page in Holland and Henry Vandyk in Rotterdam, following the completion of working arrangements here.

From Rotterdam the cargo of food will be distributed by means of organizations just completed. The London American committee is opening offices in Rotterdam, Brussels, Ghent, Liege and other cities. It has arranged close working co-operation with the Comité Central Secours Belge whose organization extends over the whole Belgian country. This committee has been recognized by the German, Belgian and English governments as the accredited vehicle for help in Belgium.

The American London committee, at an outlay of about \$500,000, already has distributed in Belgium 9,000 tons of food. Sufficient food supplies are obtainable in London and Ambassador Page telegraphed back to the Belgian relief committee in this city its latest remittance of \$50,000 intended for the purchase of supplies.

As adequate quantities of food, which can be furnished only in this country, can best be shipped from this city, the Belgian relief committee here has placed itself at the disposal of anyone who wishes to use its service.

Remarkable Cure For Croup.

"Last winter when my little boy had croup I got him a bottle of Chamberlain's Cough Remedy. I honestly believe it saved his life." writes Mrs. J. B. Cook, Indiana, Pa. "It cut the phlegm and relieved his coughing spells. I am most grateful for what this remedy has done for him." For Sale by all Dealers.

CATTLE SELL AT \$157 A HEAD.

Record Price is Paid in the Livestock Market at Chicago.

Range cattle as "off grass," that is, cattle that never have eaten grain, were sold for \$157.20 a head at the Union Stock yards a record price for the Chicago market.

"It is easy to understand why beef is high when cattle bring such prices as this," asserted Melville F. Horin, statistician of the Union Stock Yards. One dealer from Montana sold eighteen choice grass fed steers averaging 1572 pounds each for \$10 a hundred or \$157.20 a head.

"The price he received for his stock ranged from \$8.50 to \$10 a hundred pounds except heifers at \$7.85 and a few poor heaves at \$7.50. His entire consignment of 736 head of cattle brought \$81,000 or an average of \$110 a head and not one of them ever tasted grain."

VILLA: IS HE MAD?

A strange analogy in the Mexican and the European situation has arisen. Mexico was at peace after three years of war; the forces of the Constitutionists were victorious had attained their object and entered the capital, assumed the reins of government, when suddenly Villa broke loose.

There are two sets of diametrically opposed opinions of Villa. One party proclaims him a common bandit with uncommon ability, a brigand actuated solely by the lust for power and gold, a hireling at the service of any ring with the necessary price, cruel, brutal, ignorant, blood-crazed, power-mad. The other party hails Villa as the one Mexican leader having the interest of the masses at heart, as the champion of the under dog, the high-minded patriot who refuses to sheath the sword until every peon lives on his own soil under his own vine and fig tree.

It is not given unto mortals to look into the innermost recesses of man's heart. Villa does not clearly know whether he is a selfish bandit or a simple pure champion of the downtrodden. Human motives are exceedingly interwoven gossamer strands as ly interwoven gossamer strands as the cocoon of the silkworm. Villa's war madness is hotly affirmed and denied; time will reveal his real purpose.—Sunset Magazine.

BRITISH ARMY TO BE 2,000,000.

Estimate is Introduced in House of Commons Looking Toward This.

London.—An estimate for the increasing of the British army to over 2,000,000 men, thereby giving England a better opportunity to protect her own shores against any possible invasion by the Germans, was introduced in the House of Commons, when that body met here today. It is not intimated when action will be taken on this, although it is believed that some action will be taken soon.

The British army lost 57,000 men killed up to October 31, in the fighting against the Germans and Austrians. Premier Asquith told the House of Commons today. The number of wounded and prisoners was not given.

Chas. Taylor, "The Get-It-Done Painter"

WHY WOMEN FADE.

This is for ladies only. Men should keep their eyes off it.

A million women today should be told what other millions have learned—that they need one element in their blood far more than men, and that lack of it is the reason they are apt to fade many years before they should. The needed element is iron. Iron builds up the red corpuscles of the blood and sustains vitality and strength. Women need a constant supply of blood-making material, or their system breaks down under the constant drain. The very moment there is a lack of blood, or when the blood is impoverished, the signal appears upon the face in sallowness or palor, and the remedy is McCroskey's Tonic, for it contains iron.

Nothing else meets this particular condition as well. Use of it has made thousands of women look many years younger and made them even feel younger than they looked. It not only restore strength, energy and beauty, but it is a prompt and certain cure for all the ills peculiar to the sex. It cures because it removes the first cause. It supplies just what nature needs to bring health. It strengthens the debilitated organs and gives tone and elasticity to muscles and ligaments rounds out wasted tissue and renews the vigor of the nervous system, it helps quickly and just as surely and permanently. It has been used and praised by both old and young women, and mothers should see that their daughters coming into womanhood should take it. It will bring them through all right.

EIGHT MILLIONS IN FIFTEEN MINUTES.

Chicago, Nov. 2.—Eight million dollars in fifteen minutes was the record of Chicago banks today in subscribing to their pro rata share of the \$135,000,000 National cotton loan pool to aid the Southern growers in carrying the portion of the 1914 crop which they have been unable to export during the war.

Before the day was over practically the entire \$12,000,000 part of the loan apportioned to local institutions was taken outright and approximately \$2,000,000 was taken by banks on the condition that the loan should meet the approval of their boards of directors.

HOW LONG WILL WAR LAST.

It is impossible that any country, no matter how rich or determined, should be able to feed, clothe, transport and equip with war material these huge modern armies aggregating five million men and more for a period much longer than a year. Five million men under arms have dependent upon them at least ten million women and children who must be supported, after a fashion, by the state; in France and Belgium alone more than 10,000,000 non-combatants have been made home less beggars by the war. Throughout Europe at least 12,000,000 soldiers, 25,000,000 women and children dependent upon them, at least 15,000,000 victims of the battle zones must at present derive their sustenance from the various governments. Coupled with the complete breakdown of the European industrial fabric, this ever increasing burden must before long put an end to hostilities. If the war lasts until the summer of 1915, Europe will display a marvelous staying power.—Sunset Magazine.

Despondency Due to Indigestion.

It is not at all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa. "For years my digestion was so poor that I could only eat the lightest foods I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them, did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine. For sale by All Dealers.

WASHINGTON NEGROES JEER WILSON'S NAME.

Washington, Nov. 15.—President Wilson's name was hooted and jeered by a crowd of 500 negroes who assembled at the Second Baptist Church a negro church, tonight, to listen to a report by W. M. Trotter, the Boston negro who headed a delegation which was at the White House Thursday to protest to the President against the race segregation in the administrative departments of the government. Resolutions protesting against the segregation of negroes in the departments were adopted amid great disorder.

Trotter charged the President with breach of faith in his alleged promises to a delegation headed by Trotter which waited on him at Seagirt in 1912.

"I emphatically deny that I was in the slightest degree disrespectful, impudent, insolent or insulting to the President on Thursday," said Trotter, referring to his call at the White House. "The President's assumption that I was insolent was probably due to his Southern birth."

The claim was made by Trotter in his speech that he had been "denied the right of free speech at the White House."

"Our delegation went to Seagirt in 1912 to inspect the candidate of the Democratic party," said Trotter. "We went with fear and misgiving because the candidate was of Southern birth, but our reception was cordial. A crowd of non-Afro-Americans were left outside while we were ushered in and shown to seats. The candidate held my hand in his while he told me what he would do."

INDIGESTION ENDED, STOMACH FEELS FINE.

"Pape's Diapepsin" Fixes Sour, Gassy Upset Stomachs in Five Minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out of order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific harmless and pleasant stomach preparation which truly belongs in every home.

LUKE McLUKE SAYS.

Every time a girl thinks of her dimples she has to smile.

A whole lot of married men regard Home as a place where you change your clothes.

Our idea of a glutton is a grown man who can eat as much as a 10-year old boy.

The popular idea of Economy is to go without a lot of little things we need. You can get one big thing that will do.

Best Cough Medicine For Children.

"Three years ago when I was living in Pittsburgh one of my children had a hard cold and coughed dreadfully. Upon the advice of a friend I purchased a bottle of Chamberlain's Cough Remedy and it cured him at once. I find it the best medicine for children because it is pleasant to take. They do not object to taking it," writes Mrs. Lafayette Tucker, Homer City, Pa. This remedy contains no opium or other narcotic, and may be given to a child as confidently as to an adult. Sold by all Dealers.

Fire at Big Springs last Saturday, a week ago, wiped out the last of the frame structures in the business section of Main Street.

The one gin at Big Springs has been turning out an average of 100 bales of cotton per day for some weeks. Up to Nov. 14th about 5000 bales had been ginned in Howard returning estimate of fifty per cent of and of that county.

The Clyde Enterprise completed the second year of its publication last week and will discard the hippin and assume knickerbockers. The Record hopes to see the Enterprise attain to the strength and vigor of manhood and crown a youth of labor with an age of ease.

They are so stingy they would not give it to their wives.

The Record is glad to note that during the congressional vacation, Senator Culberson (of Texas) is emerging into the open and gives out a few safe bromides for the good of the country. We have been waiting these many years (but not suspending breathing) for the big stunt in statesmanship our next great Senior Senator has given promise of pulling off, but it always gets hitched in transit. His garrulity will break off short when congress reassembles, and his health will become a matter of grave concern in the newspapers. Of such stuff and stunts are many great men made.

The friends and acquaintances of Rev. Holmes Nichols, for several years pastor of the First Baptist church of this city, will be delighted to learn that he will fill his old pulpit in that church next Sunday morning at 11 o'clock. Mr. Nichols has been in attendance upon the Baptist State Convention at Abilene, and at the urgent solicitation of his Colorado friends, consented to come over and preach Sunday for them. Irrespective of denominations, Mr. Nichols is loved by the people of Colorado as few preachers are, and he has a host of friends who would rejoice could the way be opened for his return to this church.

CUM GRANO.

Texas ranks eighth in the salt production of the world. During 1913 the production was 49,774 tons, valued at \$5.59 per ton. Van Zandt and Anderson counties furnished the supply, being the only counties in Texas where salt is found.—Merton Star.

It requires distance as well as perspective to give correct proportions to landscapes, news and general events. This is the only explanation we can make for Bro. Tom Kellis going 300 and more miles from home to locate the valuable salt deposits of Texas, while rubbing up against more saline wealth in a neighboring county than both Van Zandt and Anderson counties possess combined. Send to Austin Bro. Kellis and get a bulletin of the facts. Learn that Mitchell county is largely underlaid with a 400 foot thick stratum of salt, pumping brine 98 per cent pure.

IT'S NOT THE TOWN—IT'S YOU.

If you want to live in the kind of a town Like the kind of a town you like, You needn't slip your clothes in a grip And start on a long, long hike, You'll only find what you left behind. For there's nothing that's really new. It's a knock at yourself when you knock your town. It isn't your town—it's you. Real towns are not made by men afraid Lest somebody else gets ahead. When everyone works and nobody shirks You can raise a town from the dead. And if while you make your personal stake Your neighbor can make one too, Your town will be what you want to see. It isn't your town—it's you

THE NEW THANKSGIVING YEAR.

Another year is before us that will bring cares, disappointments and perplexities all its own. If the experience of the years that have gone before, shall have taught us how to bear and solve them, then, we have not lived in vain.

This is wisdom, as distinguished from knowledge or the acquaintance with facts. But unless our experience helps us to avoid repetition of our mistakes, it is not wisdom we have gained, but the occasion for regret.

Through many years we have been brought and protected by an arm stronger than our own; guided by an intelligence superior to man's, and dealt with according to the multitude of our Father's tender mercies.

Let not prosperity and health blind us to our total dependence upon God. We are not a survival of the fittest—superior animals, alive today by reason of a stronger constitution than the friends who have passed on during the last year—we have not been spared because of better care, or more favorable environment, but solely by God's mercy.

With hearts swelling with gratitude for the blessings that have brought us to another glad Thanksgiving Day, with a measure of strength of body and mind, let our daily acts reflect our gratitude. Let our prayer to the unfeeling source of light and mercy, be to prepare us for the coming days, that His grace may enlighten our darkness and strengthen our weakness; that we may forget the sins and weaknesses of the past, but cherish the wisdom and humanity they have taught us.

Inspire us with higher purposes and stronger hopes; deepen in our hearts the love of truth and goodness. Renew within us the life of that which alone makes life worth living. Give us understanding of the solemn meaning of these earthly days.

Suffer us not to be unfaithful in our duty to our state or nation. Still lead us by thy hand, admonish and guide us by thy spirit. O, leave us not to ourselves, Thou Good Shepherd of the sheep!

Let not the sorrows and struggles which must come rob us of faith in thy love and wisdom. Whatever light may shine or shadow fall, still keep us fast in the fellowship and in the service of our Lord and Master.

IF CHRIST CAME TO THE COURT HOUSE.

As journalist, lawyer and legislator Mr. E. G. Senter has fought long and vigorously to take waste and nonsense out of court procedure. In the series of articles lately published by him in Farm and Ranch under the title, "Bread and Butter Issues," he forcibly exhibited the need for reform in the courts, and declared that the time has come for the people, as a whole, to take this subject in their own hands; that lawyers would never originate or join in making the needed reforms. In the state senate, when bill after bill proposed by him—most of them based on recommendations that had been made by Chief Justice Brown of the supreme court, at meetings of the State Bar Association—was defeated, he then told the lawyers who defeated them, in a speech upon the floor of the state senate, that he intended to carry the fight up to the people themselves. That fight he has renewed, and he will make his appeal to the body of the people through Farm and Ranch, and afterwards, as a committee of one, representing Farm and Ranch, before the next legislature. He has a specific remedy, and will appeal to the people to instruct their representatives in the senate and house of the next legislature to enact this remedy into law.

He expects to confront the opposition of representatives of the several organizations of county officials, as he did when in the legislature. Then he was handicapped. Now his hands are untied. He will maintain that every dollar spent in the court house represents 80 cents of waste; that nine-tenths of the things required to be done in every lawsuit are unnecessary and bear no relation whatever to the merits of the case; that the mirror mazes, delays, uncertainties and vexations of the law are mainly due to the system of legalized graft, by which has converted the court house from a temple of justice to a harbor for pensioners upon the enforced bounty of taxpayers and litigants; that a stenographer who is unable to earn more than \$60 per month in private business should not be permitted to charge litigants at the rate of from \$500 to \$1,000 per month; that the stenographers' bounty law should be repealed in its entirety; that the system of farming out the feeding of prisoners to sheriff's is barbarous, and as unjustifiable as the plan of farming out taxes pursued in the middle ages; that a judgment of five dollars payable to the state, and \$50 costs, payable to the officers, is a disgrace to civilization; that litigation, and all other business of the state, should be conducted upon business rules, and subject to the law of common sense; that under regulations looking solely to the public welfare and not solely to the production of fees, under ordinary conditions a law suit could be begun anywhere in the state and pushed to final judgment in the appellate court within three months, at a cost of not exceeding \$25, instead of requiring an average of about five years and an expenditure, if hard fought, at from \$250 to \$5,000.

His plan requires that the act be held at the root of all forms of court-house graft, which Mr. Senter terms

the "Johnson grass of the law." His remedy is not new or untried. He maintains that the present system is new, and has been fastened upon the common law by the fee grabbers. He proposes not to prune the law, but to put the fee grabbers out of the temple of the law.

Any one who can read can understand his remedy. He believes that if the attention of the people can be had, the ground-swell which will strike the next legislature will make it useless for the fee grabbers to appear there.

This series of articles will be entitled, "If Christ Came to the Court House," and the general text will be, "Woe unto you, lawyers, for ye have men with burdens grievous to be borne, and ye yourselves touch not the burdens with one of your fingers." (Luke 11:46.)—Editorial in Farm and Ranch, Nov. 21st.

Now is a good time to make repairs on the buildings, implements, roads and fences. It is highly important that these repairs be made before the busy season next spring. While you are making repairs use paint upon the old building, the implements and the machines. Paint improves the appearance of buildings, vehicles and implements almost by magic and transforms unsightly buildings into attractive houses. As to durability it saves years in deterioration.

Its a good idea to "beware of the Greeks bearing gifts." Every concern in the north that looks to the south for a large share of its business, is flying to the relief of the cotton farmer and hankering to grab a part of the surplus crop. From auto factories, to patent medicine foundries come offers to help—and all in the advertising line. Publicity is what they want, not cotton. What was it the devil said about "My Servant Job?"

But Not Too Simple.

The simple life is the best after all. A life devoid of the frills, nerve force of the individual, making him old beyond his years. Give us the easy, breezy, simple pleasures of life that leaves one rejuvenated and refreshed, capable of tackling the serious problems of life with a vim and energy and a saneness of judgment calculated to accomplish his ends.—Mineral Wells Index.

Most of these advocates of the simple life are people who live in comparative luxury, whose ideas on the subject have been gained by a summer's camping in the woods, with a hired cook and as many of the comforts and conveniences of home as they could carry with them, and nothing to do but hunt and fish and swing in a hammock under the shade of the trees. We would rather have the opinion of the man who is compelled to live the simple life from necessity; the man who has to sweat and struggle and figure close all through the year to make both ends meet, and then sometimes falls to make them come together, as many a Texas farmer is likely to do this year. His opinion would be worth something, because he knows what the simple life really is.—Ex.

Beware of Ointments for Catarrh That Contain Mercury as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. BENEFIT FOR TRAINING SCHOOL FOR DELINQUENT GIRLS.

When the Hesperian Club decided to give a benefit at the Picture Show during the week of Nov. 8 for the school to be built for Delinquent girls, they were delighted to find that all the Moving Picture Shows of the state had set aside Thursday as the day for this. And Mrs. Payne not only cheerfully did this but donated everything made that day aside from running expenses.

The town was informed of this through the papers and by phone. All being invited to be at the show and bring an offering if they cared to as the price of admission was only ten cents. The orchestra played several beautiful selections, the reels happened to be especially good ones so the crowd was amply repaid for going, and the nice sum of \$19.00 was received for this most worthy cause. If every town did proportionately well the \$25,000 needed is assured and the school can be built at once. The Hesperian women are especially grateful to the paper for the extended notice given the work and Mrs. Payne for her kindness and generosity. They also thank everyone who contributed in any way, and the orchestra for the lovely music, and those who attended and made contributions.

A CARD OF THANKS.

We wish to thank the good people of Colorado who so willingly and tenderly rendered their assistance to us in the sickness and death of our loved wife and daughter. May God's richest blessings be on every one and may you be so blest with friends when sorrow comes to you.

W. P. RUDDICK IS DEAD.

One of the saddest accidents that has shocked this community in many years occurred last Saturday afternoon about half past three o'clock, when Mr. W. P. Ruddick was thrown from a wagon loaded with cotton, sustaining injuries to which he succumbed Monday morning about 8:45.

He was driving a load of cotton in to the gin from his farm south of town and in crossing a small ravine between the home of Jim Lovelace and the Tilly place the wagon bumped into a rut and he, with the board on which he was sitting, slid forward and fell just in front of the forewheels of the wagon, which passed over his head and his body as well. Owing to the fact that the only witness to the accident was a boy and the nearest possible help, Mexican cotton pickers, some time elapsed before the injured man was brought to his home in town and given medical attention.

From the first the worst was feared as to the result of his injuries, which were found to be extensive, severe and obscure. He was wholly paralyzed in body and soon lost the power of coherent speech, gradually sinking into complete coma and finally death.

He was surrounded in the hour of dissolution by his devoted wife and four loving daughters, to whom he gave perfect assurance as to his confidence in the future life. His was the death of the Triumphant Christian and well might we all pray and strive, that our life and last end be like his. For truly, a good man has gone from our midst, and we shall miss him much.

William Penn Ruddick was born in Azalia, Penn., April 5, 1851, being 64 years old at the time of his death.

He was married to Miss Sarah Hutchinson in 1875. To this union there were born 7 children four of whom together with the mother survive him, three having preceded him in early childhood.

At the age of 23 he was brightly converted to God, concerning which fact there never was a shadow of a doubt in his mind. He immediately united with the Friend's Church in which faith he lived loyally to the last. Reverently, followed by a large concourse of sorrowing friends, all that was mortal of this exemplary citizen, devoted husband and father, was borne on Tuesday afternoon, to the silent city out on the hill, where the last sad rites were said by Rev. R. A. Clements, and his last earthly resting place covered with a carpet of flowers, fit emblems of his steadfast faith in his own immortality.

Mr. Ruddick came to Mitchell county in the early days of this country's settlement, about 1883. By industry, frugality and square dealing with all men, he achieved quite a substantial success as a farmer, and his memory will long be cherished by all who knew him. The Record extends sympathy to the bereaved family, assuring them that in the light of human reason and by the promises of God's book, "All is well with his soul."

SUSPENSION OF PUBLIC SCHOOL.

Owing to several cases, suspicious enough to be treated as diphtheria, among the children of the town, some of whom are pupils, it has been deemed the part of wisdom as well as prudence to suspend the public school until conditions develop more clearly. There will be no school therefore next week, but if no contagion develops, work will be resumed next Monday week. This precaution on the part of the school trustees is heartily approved by every patron, who recognizes that "safety first" is always the best policy.

BREAKS A COLD IN JUST A FEW HOURS.

"Pape's Cold Compound" Ends Grippe Misery—Don't Stay Stuffed-Up.

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

The Junior B. Y. P. U. will meet at 3 o'clock p. m. in the Sunday school rooms.

Sir Ernest Shackleton, sensible man that he is, has started for the south pole, it being farther away from the war than is the north pole.

DEATH OF MRS. J. S. DUNKLEMAN.

On last Thursday evening Esma Powell Dunkleman, wife of J. S. Dunkleman died at her home in West Colorado, age 27 years.

She had been ill for only a few days and while her friends and neighbors knew she was suffering yet they did not realize she was so serious until a few hours before she passed away. While she had been suffering from an abscess in the head yet, heart failure was the direct cause of her death.

Mrs. Dunkleman had only lived in Colorado a little more than a year yet she was loved by all who knew her.

She was a faithful wife, a loving mother and a devoted Christian, and what higher sphere has woman? Her father is a minister and the early became a Christian and lived in the discharge of her Christian duty daily. She leaves a husband, one child, a father, two brothers, three sisters and scores of friends to mourn their loss. The funeral services were conducted by Rev. W. R. Thomas at the family residence and the body taken to Lurkin for burial beside her mother who had passed on before.

The Record joins the community in sympathizing with the loved ones and bids them look to Him who said "My Grace is Sufficient for Thee."

RESOLUTIONS OF RESPECT.

WHEREAS, In the providence and wisdom of the Supreme Ruler of the Universe, our Brother Wm. H. Moesser has been removed from this Lodge and called from amongst us, and

WHEREAS, Bro. Moesser was a loyal knight, and a true and faithful member of the Order of Knights of Pythias and this Lodge, and friends of each of its membership.

THEREFORE, Be it Resolved: That while we bow in submission to the will of an all wise God, we do sincerely and deeply mourn his loss and cherish his memory and friendship.

That we extend to the bereaved family our sympathy in this hour of sore trial.

That a copy of these resolutions be sent the family, a copy spread upon our minutes and a copy furnished the paper, for publication.

Respectfully submitted:

HIGH SCHOOL NOTES.

Colorado High School is like America—not in size, wealth nor carelessness, but in this: She has been so busy making history that she has had little time to write it, hence the infrequency of school notes. However, as school activities are over for a few days and history making suspended for the time, the history writing herein has its inning.

The first examinations of the session were held Wednesday, Thursday and Friday of last week. It is to be supposed that some failures were achieved, but judging from the bright faces of a majority of pupils, there must have been some who passed.

A member of the board of school trustees passed the school house recently.

The Teachers' Institute will be held in the High School Auditorium next week.

On the play ground, Colorado High School is doing something. The boys have their regular practice in foot ball and the girls have re-organized their basket-ball team and will begin practice when school work is resumed.

Among the smaller children "playing school" is the order of the day, with Mary Terrell to impersonate Mr. Hart, the Fifth Grade girls "keep" school as often as the intermission occurs.

Most of the rooms have shown their appreciation of the beautiful by acquiring some pictures for the walls, and a number of growing plants for the windows.

Of the many really funny things that have happened in school this year, a few are worth telling: On the way home one day last week one of the teachers was accosted by: "Say—don't you want to ride?" Looking up the pedestrian met the eyes of Dorothy Burns. A minute later the teacher was comfortably seated between

the aforesaid young lady and Lillian Smith who was successfully playing Jehu. After controlling curiosity for a time the guest asked of whom the equipage was obtained. The answer accompanied by chuckles was: "Oh! this? This is 's sloop-wagon.'"

Harry Ratliff's English is sometimes frowned upon. This is possibly why he replied to the question, "Is this summary you've handed in, in good English?" with "Tort to be; got it out the th' cyclopaedia."

So endeth part one. SCRIVENER.

BIRTHDAY PARTY.

Little Miss Laura Bell Grantland celebrated her fifth birthday with a party last Thursday afternoon.

She invited all of her neighborhood friends, who came excepting a great time, and they had it.

Games of all kinds were indulged in and afterward the guests were taken to the dining room where a lovely birthday cake adorned by five candles, greeted their eyes. The children had lots of fun blowing out the candles. They were then served a delicious salad course. When the time came to leave, the children all said they hoped Laura Bell would hurry and have another birthday.

Miss Lona Herrington assisted Mrs. Grantland in entertaining the children.

A PHYSICIAN'S DIAGNOSIS OF KIDNEY TROUBLE.

A Seemingly Common Disease which Becomes Fatal through Neglect and which May Be Readily Cured by Prompt Attention.

More than two-thirds of the annual death rate, physicians claim, is directly traceable to kidney disease.

Interested by this remarkable assertion and desiring to acquire a better understanding of the origin of the disease, a prominent physician was recently interviewed as to the symptoms of such troubles.

"To what do you attribute the great destructiveness of kidney disease?" was asked.

"The hold which the disease gains in the body before the victim becomes aware of his true condition, and the rapidity with which it eats its way into the vital organs."

"Would not the proverbial 'ounce of prevention' check the progress of the disease?"

"There is no doubt of it. The trouble is that victims of this disease mistake the symptoms for some trifling ailment in the stomach or bowels; therefore they do nothing to arrest the course of the disease until it is well advanced."

"What is the origin of kidney trouble?"

"Almost invariably bad digestion, followed by torpid liver and a constipated habit."

"What are the symptoms?"

"Headache, dizzy spells, sluggish brain, restless nights, pale or sallow skin, bad breath, lack of appetite, heart burn, sour belching, backache or tenderness over the kidneys, nervous weakness, dark rings around the eyes, tired feeling, too much or too little urine, and sediment in urine."

ITS EFFECT ON THE HEART.

"In what way is the heart affected from kidney trouble?"

"In all cases the heart is disturbed, though in many instances the palpitation does not become alarming until the disease has advanced to a serious point. A severe heart throbbing and nervous trembling is noticeable, especially after a little bodily exercise; the victim frequently imagines he has heart disease."

HOW TO CURE IT.

"What is the proper course of treatment for kidney disease?"

"First, to get rid of uric acid and other poisons in the system. This can be done by stimulating the bladder and bowels so that they will act more freely. The suffering kidneys must be strengthened, the liver and stomach toned up and the digestion improved."

Prickly Ash Bitters is a remedy that answers these requirements completely. It is not only a system tonic and regulator, but its healing and restorative influence will build up the weakened kidneys and urge them to a better performance of their duties. It gives strength and tone to the liver, stomach and heart and promotes harmony of action throughout the body.

M. W. Burr, village blacksmith and respected citizen of Starks, La., says: "I was troubled with kidney and liver disorder for 18 years. I was in continual misery until I began taking Prickly Ash Bitters which has entirely cured me, and I now am a strong, healthy and hearty man. I give it to my wife and four children and they are in the best of health, too. I feel that Prickly Ash Bitters is the best remedy on earth and that everybody should keep a bottle at home."

\$6000,000,000 FOR THE SOUTH.

(Mr. Richard H. Edmonds in the following article tells how the South may save \$600,000,000 within the next year to balance any deficit created by the low price of cotton. Even better than the financial advantage, is the moral and spiritual gain to be had through that which he proposes. Russia is esteemed by Americans to be a hard nation. It is ruled by a czar and has a hierarchical religion. But Russia recently got better in a day and is infinitely better. Let not a section which within a few years will have thrown away half the value of the entire cotton crop on the hands of the whiskey devil, think it is a bad thing to be confronted by hard times of the extreme type when the value of the cotton crop declines millions, but millions more than the South annually sends at a direct and immense drain on its moral manhood and economic life.)

Accepting as correct the statement that the cotton crop in Russia—and in regard to which no denials have appeared in any American papers—that country has the world an example on prohibition of strong drink which ought to have a world-wide effect.

It is said that the sale of vodka, the alcoholic drink, has been controlled by the Government and that it

has yielded a revenue of \$400,000,000 a year to the Government; but that in a journey through the country the czar became so much impressed with the drunkenness of his people that a ukase was recently issued forbidding the sale of all alcoholic drinks throughout Russia during the continuance of the war. It is also said in the news that comes from Russia that the result of this prohibition has been so effective for good that this prohibition by the czar will be made permanent. May Heaven grant that this be done.

Russia is a great, and in many respects, a mysterious country. It owns about one-sixth of the land area of the earth and has about one-tenth of the world's population. Its area is about three times as large as that of the United States, or in round figures 9,000,000 square miles. It is a country of almost limitless mineral and timber resources and agricultural capabilities. It is the only one of the European nations now at war that is self supporting in the matter of providing its own foodstuffs. Its autocratic government has been vigorous in persecuting dissenters from the State, or Greek Church; but we must in this connection remember that in this country both in Virginia and in Massachusetts there was vigorous persecution of Christians in the early days.

In some respects Russian civilization is backward, and we must not expect from the Government of that country at the present time that broadness of civil and religious liberty to which we have grown accustomed in this country. It is barely possible that in the overruling Providence of the Almighty a broader religious liberty to all Russia may be one of the results of the war; but if the czar has been successful in issuing a ukase and having it enforced forbidding the sale throughout that great empire, with its 170,000,000 people, of strong drink, he has in that particular accomplished more than all the Christians of this land of liberty and enlightenment have been able to do.

We look with horror upon Europe's awful war. We shudder as we read of the fearful devastation, of the millions of men battling with each other, each seeking to kill the other before he can be killed. No human mind can grasp the awfulness of this, the world's most terrific tragedy. No human pen can ever tell the story. Death and destruction are everywhere. Millions are being wounded or made, invalids by disease, and hundreds of millions through out Europe are suffering in agony and suspense from poverty or from the loss or the fear of loss of loved ones who have gone down into the Valley of Destruction.

While we contemplate these things and marvel that civilization and Christianity must carry this terrific burden, we do not stop to think that civilization and Christianity have for centuries been carrying a burden of strong drink which in the large has brought to the world more sorrow, more suffering and more deaths, and has cost the world far more in money than the awful war which engulfs Europe at present. Let us not in our amazement at Europe forget that this land of ours, with all of its enlightenment and all of its Christian influence, still permit and legalizes a business which annually carries to untimely graves thousands and thousands of men, which brings sorrow and suffering to hundreds of thousands of women and children, and which costs hundreds of millions of dollars a year more utterly wasted than if thrown in the ocean.

Until we have swept from our own country the accursed whiskey business, with all of its wide ramifications in politics and in business, in the development of vice and in business, in the tremendous burden which the country must carry in the maintenance of jails, penitentiaries and almshouses, whose recruits are largely an outcome of drink, let us be careful in too harshly criticizing even the horrors of Europe's war, unspeakably evil and indescribable as they are. Let us sweep before our own door before we denounce too vigorously the dirt in front of our neighbor's.

As a Christian nation we are permitting; and Christians are responsible for it—the legalizing of the whiskey industry, and in some prohibition States officials and private citizens either wink at the violation of the law or else they fail to do their utmost in the performance of their duty.

Taking the Government's figures as to the production of strong drink in this country and its wholesale or manufactured monetary value, it is, I believe, reasonably safe to say that we spend annually in the United States \$2,000,000,000 for strong drink. This is equal to the value of two full cotton crops, even of the crops of late years which have yielded a billion dollars a year in value.

So far as the economic loss is concerned, this country could better afford to take its cotton crop and its wheat crop and annually dump their value into the ocean than to permit the spending of the \$2,000,000,000 for alcoholic drink, for this means not on-

ly a waste of money, but also the destruction of the lives of thousands of men who otherwise would be a great economic asset to the nation. If the South in proportion to its population to that of the country drinks as much per capita as the nation drinks, it must spend \$600,000,000 or \$700,000,000 a year on strong drink.

Our politicians and public men generally, bankers and business men, as well as cotton growers, are greatly disturbed about the decline in the price of cotton. Some of them are foolishly talking about the South becoming bankrupt because this year's cotton crop may sell for much less than last year's. But many of these very men are heedless of the fact that every year the South is spending as much for drinks as the total value of its cotton crop up to the period when high prices of recent years have carried this value above the average for many years.

If it should prove true that the czar by reason of the good effect of the prohibition of the sale of alcoholic drinks, proposes to make this prohibition permanent, then indeed, would Russia have set us an example which ought to make the Christians of this country bow their heads in shame. Let us not denounce Russia for that lack of religious liberty which we enjoy until we have followed the example of Russia and banished alcohol from the nation.

Well may we mourn over the awful situation in Europe. Well may the earth tremble beneath the load of misery which it must carry. Well may we while ceaselessly praying for peace in Europe, render thanks every hour of our lives to the Almighty that through our land peace holds sway. But while these things be true, let us not forget that upon every individual in this country professing the name of Christ or professing to be interested in the welfare of humanity, a fearful responsibility rests until the whiskey curse has been banished from this land. Not until then will this be a land of liberty.

It is two weeks since the foregoing article was written, and now comes the following announcement in the daily papers of October 20th:

"Czar Nicholas in a telegram to a Russian Temperance Society says: 'I have decided to prohibit forever in Russia Government sale of alcohol.'"

SUFFERED TWENTY-ONE YEARS—FINALLY FOUND RELIEF.

Having suffered for twenty-one years with a pain in my side, I finally have found relief in Dr. Kilmer's Swamp Root. Injections of morphine were my only relief for short periods of time. I became so sick that I had to undergo a surgical operation in New Orleans, which benefitted me for two years. When the same pain came back one day I was so sick that I gave up hopes of living. A friend advised me to try your Swamp-Root and I at once commenced using it. The first bottle did me so much good that I purchased two more bottles. I am now on my second bottle and am feeling like a new woman. I passed a great gravel stone as large as a big red bean and several small ones. I have not had the least feeling of pain since taking your Swamp-Root and I feel it my duty to recommend this great medicine to all suffering humanity. Gratefully yours,

MRS. JOSEPH CONSTANCE, Echo, La.

Personally appeared before me, this 15th day of July, 1911, Mrs. Joseph Constance, who subscribed the above statement and made oath that the same is true in substance and in fact. Wm. MORROW, Notary Public.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Colorado Weekly Record. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

THE MIGHTY THIRTY-THIRD.

Another Austin man has sprung to fame. S. S. Pettus well known as a newspaper circulator, is the author of "The Mighty Thirty-Third," a poem appearing on the cover of the Dallas Democrat, Senator McNeal's paper.

Mr. Pettus resides here and has for many years. He has written several other poems, but none has attracted the attention his most recent communique with the muse has.

The poem follows: Demosthenes and Cicero, as orators, were good. Considering the times they lived, they did the best they could.

But Orator: you wish to know the meaning of the word? Then pay a flying visit to "The Mighty Thirty-Third!"

Of all the Legislatures any common-

wealth could boast, From the shores of the Pacific to the great Atlantic coast; From our country's birth to this good day, of none we've ever heard. That could compare with this, our own. "The Mighty Thirty-Third!"

As arguments go, pro and con, great points are driven home, And oratory fills the halls and rumbles through the dome. The audiences sit enthralled at what is seen and heard. No wonder they're delighted; it's the Mighty Thirty-Third!"

It's what the Governor doesn't want is what they're going to do, And what he wants they'd see him dead before they'd put it through. He thinks they are contrary; they think he is a "bird."

And harmony's excluded from "The Mighty Thirty-Third!"

They talk about the cotton crop and how it should be sold; Of trouble caused by this and that; of bankers hoarding gold. And of the war in Europe, too, there's a good bit heard.

They talk almost of everything this "Mighty Thirty-Third!"

They sometimes open with a prayer, and sometimes with a row. It does not matter how they start in to their great pow-wow.

But it always ends about the same, if rightly I have heard— With nothing much accomplished by "The Mighty Thirty-Third!"

GOOD NEWS.

Many Colorado Readers Have Heard It and Profited Thereby.

"Good news travels fast," and the thousands of back-sufferers in this vicinity are glad to learn where relief may be found. Many a lame, weak and aching back, is had no more, thanks to Doan's Kidney Pills. Thousands upon thousands of people are telling the good news of their experience with this tested remedy. Here is an example worth reading:

J. J. Burnett, Snyder, Texas, says: "I have used Doan's Kidney Pills for the past five or six years, whenever I have had any symptoms of kidney trouble and I have always been benefited. I suffered every year from rheumatic twinges and weak kidneys. Seeing Doan's Kidney Pills advertised I got a box. They strengthened my kidneys and cured the rheumatic trouble."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Burnett had. Foster-Milburn Co., Prof. Buffalo, N. Y.

CITATION BY PUBLICATION.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Mitchell County—Greeting.

You are hereby commanded to summon M. J. Stovall by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper in the 32nd, Judicial District; to appear at the next regular term of the District Court of Mitchell County, Texas, to be held at the Court House thereof, in Colorado, on the 2nd, Monday in December A. D. 1914, the same being the 21st, day of December A. D. 1914, then and there to answer a petition filed in said Court on the 5th, day of November A. D. 1914, in a suit numbered on the docket of said Court, No. 3159, wherein M. E. Stovall is Plaintiff and M. J. Stovall is Defendant the nature of plaintiff's demand being as follows: That heretofore to-wit: On June 10, 1907, Plaintiff and Defendant were married and lived together as husband and wife, but that on August 29th, 1907 defendant flew into a violent passion and cursed plaintiff and abused her. That thereafter on September 1st, 1907, defendant left plaintiff with full intention of not returning to her and since that time Defendant has continued to abandon and live apart from Plaintiff, and plaintiff now knows nothing whatever of the whereabouts of Defendant.

Plaintiff further avers that she was formerly married to one Duncan and her name prior to her marriage to Defendant was M. E. Duncan. That Plaintiff had no issue with this Defendant, but did have issue with former husband, Duncan, and plaintiff desires that her name of M. E. Duncan be restored to her.

Plaintiff prays for citation in terms of the law, and that upon final hearing hereof, she do have a decree against the Defendant for divorce and dissolution of the bonds of matrimony heretofore and now existing between this plaintiff and Defendant and that the name of M. E. Duncan be restored to her, and for all costs herein incurred etc.

Herein fall not, but have you before said court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Colorado, Texas, this 5th day of November A. D. 1914.

EARL JACKSON, Clerk District Court, Mitchell County, Texas.

ANNOUNCEMENT

AFTER persistent efforts to arouse interest in Dairying throughout Mitchell county, I beg to announce to the owners of milk cows, that on

SATURDAY, NOV. 21st

I will open my Cream Station for business at 215 Walnut Street, Colorado, Texas, for the purpose of buying and shipping hand separated cream.

On that date I shall want all the sweet cream that you can bring in, which will be tested through the Babcock System, in order to determine the percentage of butter fat that your cream contains.

I will pay cash on delivery of your product and as the present price of butter fat is 28c a pound, you can readily see that it is advantageous to you to market cream instead of butter, for which you have only a limited demand, at prices much less than the price of cream, and the time and labor of churning is saved.

In order to save you from making any investment at this time, in the way of cream separators, I would suggest that you put your fresh milk in shallow pans or crocks, and let the cream rise from gravity, then you can skim with a ladle. Later, after you see the advantage in marketing cream, it will be to your interest to procure a cream separator.

Begin saving your cream by Thursday, Nov. 19th, anyway, as it will keep sweet, as well as butter, in cool weather.

Remember the date—November 21st.

Doss handles the A. K. Hawkes glasses. The best glasses made. Try a pair. Cheap but good.

Dr. T. J. Ratliff has been confined to his bed the past ten days, but is now convalescent.

Congressman W. R. Smith is here, a guest at the Crazy Hotel and will remain ten days or more. He is in the hands of his friends today devoting most of his time to handshaking.—Mienral Wells Weekly Index.

Newest and latest millinery—Mrs. B. F. MILLS.

Ben Morgan is headquarters for the best candies made. His Christmas stock is now arriving.

Jack Estes and Lee Francis of Dallas, the former manager of the Texas and Pacific Magazine, and the latter traveling passenger agent for the same railway, paid this office an appreciated visit last week.

More new hats at Mrs. E. F. Mills this week.

The barn, a new Mitchell car, a bale of cotton, several hundred bales hay, a buggy—all the property of Mr. S. M. Johnson of Sweetwater, were destroyed by fire last week, entailing a loss of about \$2500. Mr. Johnson formerly lived in Colorado and has many friends who sympathize with him in his loss.

We keep a nice line of boiled and cured hams, bacon, bologna and sausage. Drop in and see us.—Pickens & Reeder.

We are selling our hats cheaper than any are in West Texas. Come in and see for yourself—MRS. B. F. MILLS.

As George Dunn drove up to the gin early last Saturday morning, we asked how many bales of cotton he had brought to the gin to date. "This is my 58th bale and there are at least 30 or 35 bales more to be gathered in the first over. He estimated two months ago that his 200 acres of cotton would clean up 100 bales, but at this rate, he will exceed his one hundred bale estimate, by a good many.

Our young friend, Johnnie Basden, no longer "homeward plods his weary way" behind faithful schedule-set Dobin, but only lights on the ground where mail boxes occur. With his car, he is now back in town almost by the time he formerly started. He bought the Metz car formerly owned by Stoneham Beal and Mr. Beal is now owner of a new Ford.

W. L. Doss keeps his pure fresh candies on ice in a specially prepared candy refrigerator. Pure, sweet and sanitary.

The total rainfall for the year up to this date at this station has been 29.57 inches, which is more than 25 percent above the annual average for ten years. Abilene has had almost ten inches of rainfall more than Colorado since January 1st, that city experiencing two near water spouts during the summer. But Mitchell county is devoutly thankful for what she has received at the hands of Old Probs, and earnestly prays for an extension of the same blessing.

Our styles are right and our prices are right. MRS. B. F. MILLS.

"Mr. and Mrs. H. W. Stoneham request the honor of your presence at the marriage of their sister, Mary Emma

Charles McDonald on the evening of Monday, the twenty-third day of November nineteen hundred and fourteen at eight o'clock at their residence Mitchell County, Texas."

J. I. Payne of Sweetwater was a business visitor here Monday.

Gerald McCreeless of Dallas was a visitor here this week.

TOO MANY CHILDREN

are under-size, under-weight with pinched faces and poor blood; they do not complain but appetite lags, they have no ambition and do not progress.

Such children need the rich medicinal nourishment in Scott's Emulsion above everything else; its pure cod liver oil contains nature's own blood-forming, flesh-building fats which quickly show in rosy cheeks, better appetite, firm flesh and sturdy frames.

If your children are languid, tired when rising, catch cold easily or find their studies difficult, give them Scott's Emulsion; it supplies the very food elements that their systems lack.

Scott's Emulsion contains no alcohol and is so good for growing children it's a pity to keep it from them.
