VILLA TO OCCUPY MEXICO CITY. PLAN TO REACH EVERY FARMING COMMUNITY.

General Order is Issued to Troops to Avoid Rioting in Mexico City.

Washington, D. C. Nov. 23.—Villa today informed George C. Carothers, United States consular agent, that he has issued general orders that any of his soldiers molesting women or pillaging on entering Mexico City will be summarily shot.

Acting secretary of state Lansing said that order was reported prevailing in all the cities and towns thus far occupied by Villa's army. Mr. Carothers wired that arrangements were being made for the peaceful entry of the Villa columns into Mexico City.

From the Mexican capital came advice to the state department that the panic of the residents had partially subsided with the assumption of full command by Gen. Lucio Blanco, who after a heated argument with Gen. Obregon declined to accompany the latter in abandoning the city. Blanco has given assurances to the Brazilian minister and American consul Silliman that he will maintain order and has appointed a chief of police and several municipal officers to replace those who left to join Carranza at Orizaba.

Diplomats Reject Carranza's Request.

Gen. Carranza invited the entire diplomatic corps to accompany him to his temporary capital at Orizaba but the invitation was declined. The diplomats have been making vigorous representations to Gen. Blanco, in whom they have placed strong hope for the termination of the abuses which Carranza's troops are said to have been practicing in the last week. People driving in carriages in the principle thoroughfares of the city had their horses taken from the vehicles. Automobiles were confiscated and property was seized and there had been some looting. Latest dispatches, however, say conditions are much improved. Indications are that Gen. Blanco is friendly to Gen. Villa.

Fearing that communication eastward to Vera Cruz may be interrupted the Brazilian embassy and American consul Silliman are arranging to get into touch with Mr. Carothers who now is 100 miles north of Queretaro, so that dispatches may be forwarded to the state department through Villa's line of communication to El Paso.

Planned Sacking of Capital.

Plans for the eleventh hour abandonment of Mexico City to the Zapata forces were frustrated by Gen. Blanco, according to confidential reports received at the state department.

Gen. Carranza announced the capital would be evacuated last Friday, so that the Zapata forces would enter at the same time tearing up the railroads north of Mexico City to check and delay the Villa troops. One of the official reports speaks of "premeditated atrocities," and an intention to leave the capital to be sacked. Just what was the purpose of the move on the part of the Carranza chief was not disclosed.

BRITISH WAR LOAN OF \$2,000,000,000.

Is Completely Taken and Lists Closed Today, Says London Report.

German and Russian accounts disagree over the reported victory of the Russians in Poland. The Germans admit only that their advance has been stopped, while the Russians claim that the Germans have been cut to pieces. The mere fact that General Hindenburg has stopped, however, is of the greatest significance.

In Turkey, Russians say that her troops, which drove the Turks back are again advancing on Erzerum, and that one Turkish column has already been routed in the fighting about this place.

The French official announcement says that there is no change worthy of reporting in the battle in Belgium and Flanders. Indications are that the Germans are about ready for a cold weather campaign in Belgium.

The British war loan of nearly \$2,000,000,000, greatest in the history of the world, has been completely taken and the lists closed.

COSTS 8.25c TO RAISE COTTON.

Washington, Nov. 25.—The Crop Bureau announces that it costs 8.24 cents per pound to produce cotton now against 5.27 eighteen years ago.

The Department of Agriculture announces that alum may be used for pickling purposes, but regular customers will probably stick to rye and Bourbon as long as they last.

Smith-Lever Law Makes Probable an Expenditure of \$40,000,000 in Nine Years.

The Department of Agriculture has appropriations amounting to more than \$1,000,000 for extension and demonstration work in farming and home economics. For the same work State agricultural colleges have practically as much money under their control, including \$430,000 granted by Congress this year by the Smith-Lever extension act, and other sums appropriated by State Legislatures or contributed by counties, local organizations and individuals. In nine years if the plan inspiring the new law is carried out, the States and Federal Government will spend in the work a total of \$40,000,000. The Legislature of Texas and Oklahoma will be called upon this winter to make appropriations for their portions of the campaign.

The purposes of the Smith-Lever act, and purposes under it of the United States Department of Agriculture, were considered at length by the Association of American Agricultural Colleges and Experimental Stations recently in session here. In an address Dr. A. C. True, director of experimental stations, pointed out that the new law rounded out the Federal legislation, beginning with the Land-Grant act of 1862, and all of which provides for a comprehensive system of agricultural education and research.

One of Chief Results.

One of the chief results of the legislation will be a closer relation between the Department of Agriculture with the State agricultural colleges in promoting this character of education. Another will be for a realization of the fact that the Federal Department also founded in 1862, primarily, Dr. True said, for research and instruction in agriculture, is really a part of the national system of education presented in the States by the land grant colleges.

"Under the co-operative plan" said Dr. True "work heretofore looked upon as being in a sense an incidental function of the colleges and the department, is to be developed in a way ultimately resulting in the colleges and the department having a definite existence as educating agencies in practically every county of the United States.

"A leading feature of this plan is the county agricultural agent or adviser. Extended beyond the county unit, the policy is to organize farm women and farm men into small groups so there may in time be classes in agriculture and home economics in every school district in other words the agricultural colleges will be transformed some what local institutions to ones of wider scope, and wherever they operate, will carry with them the National Department of Agriculture, not only as a provider of funds, but an active aid in their educational operations."

WHI Center Efforts.

The Secretary of Agriculture and the Association of Agricultural Colleges have reached an agreement for general co-operation along the lines of the Smith-Lever act, covering a plan of bringing together all of the extension work of the colleges into one administrative organization in each State, which is commonly designated as the agricultural extension division (or service) of the agricultural college.

No country has ever attempted so comprehensive a system of extension work among the agricultural people on such a large scale, and over so vast a territory. The department and agricultural colleges and experimental stations have already done much work in accumulating agricultural knowledge and disseminating it thru publications and other means, but thus far they have not been able directly to reach the great mass of rural population.

ACTUALLY BEHAVING LIKE MEN.

Vera Cruz, Nov. 24.—The Carranza troops, which yesterday entered this port upon the departure of the American troops today are preserving perfect order here, and there have been no outbreaks.

It was feared that rioting might occur today on account of the fact that it was reported that a large number of Villa troops were near the city.

Most of us would be satisfied with the silver lining without the cloud.

SECOND TERM FOR PRESIDENT WILSON.

Now that the full returns from the Congressional election have all been reported and the smoke of battle clears away, a clear and complete Democratic victory is shown. In the next House of Representatives there will be 233 Democrats 193 Republicans, 7 Bull Moosers, 1 Socialist, from New York City and 1 Independent, Congressman Kent of California. These figures give the Democrats a clear majority of 31 over all opposition and 40 majority over republicans, and as all of the 8 progressives usually vote with the Democrats it will be seen that President Wilson will have more than 50 majority on his progressive measures. It is a well known fact that as a rule when any party "revises the tariff" it thereby disturbs business temporarily and the following election the party passing the bill is usually overwhelmed at the polls. There has been but one exception, and that was when the Dingley bill was passed at the commencement of President McKinley's term in 1897. In the fall of the following year 1898 the Republicans did manage to retain the control of the House by the slender majority of about 18 votes and that was made possible because we had just finished the victorious war with Spain. On all other occasions whenever a party passed a tariff bill it was defeated. So the fact that after President Wilson and his party leaders had put through the currency bill and tariff bill the country is seen fit to return a Democratic House and Senate, shows that the country approves what President Wilson has done and that they mean to engage his services for a second term.

Old Democratic Majority too Large.

The Republicans have seen fit to grant a good deal over the fact that the Democrat majority in the House has been reduced from 140 to 31. It must be remembered that 140 majority was an unwieldy one, and was an abnormal one and the Democrats did not want such a heavy majority because it is too large to work with, but the Republicans urged us to take them in 1912 and would not help ourselves and accept Democratic congressmen from Republican districts.

Change in Majority in the Senate.

The Democrats have not only elected all of their Senators whose age was up in addition thereto have placed the Republican senators Democrats in Wisconsin, South Dakota, and California, so that the Democratic majority in the senate overall has been increased from 10 to 23 which is the largest majority the Democrats have ever had in the senate since the civil war. By the time the presidential election of 1916 rolls around when the new tariff and cur-

rency shall have been more thoroughly tried, President Wilson will undoubtedly sweep the country again almost as overwhelmingly as he did in 1912 when the Republican party was split wide open.

Cotton Situation Improving.

The cotton pool is now nearing completion and every state is raising its quota of the one hundred and thirty five million dollars and New York has subscribed its share which is fifty million, and Chicago has pledged its share which is twelve million and every state is pledging the amount for which it is called upon. This pool will loan six cents a pound on four million bales of cotton, and these four million bales are to remain off the market, "for one year," so that the remaining nine million bales of this year's crop will at once find a market at the usual normal prices. It is believed that this measure will afford complete relief to the southern cotton planters and will at once restore normal conditions everywhere.

ANAESTHETICS LACKING, MANY WOUNDED DIE UNDER KNIFE.

New York, Nov. 23.—Because of the lack of anaesthetics many wounded soldiers, operated on in Serbian hospitals, die as a result of the shock while on operating tables, according to reports received at New York Red Cross headquarters from nurses serving with hospital units at the front. There is also a shortage of surgical instruments in the field bases behind the armies.

Supplies of absorbent cotton, gauze bandages, anaesthetics, iodine, alcohol and similar necessities for the warring European armies are utterly inadequate. Enormous orders have been received by American manufacturers from the warring nations for these supplies.

Large shipments are being made by the Red Cross as fast as they can be purchased, no distinction being made in the countries to which they are distributed.

WILL TEST INTRA-STATE SHIPMENTS.

Fort Worth, Texas, Nov. 15.—A test of intra-state liquor shipments will be made by Perry Coleman of Fort Worth, it was announced here today by his attorney, former Senator W. A. Hanger. Already a test case of interstate shipments under the Allison law have resulted in the higher courts dealing the law a severe blow. Now it is planned to take up the intra-state shipments. The fighting will begin in the district court here and will be carried to the court of criminal appeals.

Germany's army is as painful a surprise to the British as Britain's army is to the Germans.

PASS THE PLATE FOR STARVING BELGIANS.

Christmas approaches and countless unhappy Belgians, despite governmental relief, the Rockefeller Foundation and other valuable agencies, are confronted with starvation. I therefore beg the favor of your columns to say that the Dollar Christmas Fund for Homeless Belgians, of which I am Treasurer, is working for the special purpose of preventing starvation amongst hundreds of thousands of Belgians this winter. For this purpose we are co-operating with the London "Shilling Fund" a much older fund which has collected nearly \$400,000 and which is expressly organized to see that no Belgian man, woman or child spends Christmas tide devoid of food and shelter.

There will be no duplicating, no overlapping and every penny subscribed will go direct to the victims in whose behalf I appeal. I believe this great work of mercy commands the sympathy of us all and more especially in this month when Americans doubly blessed with peace and plenty are preparing to celebrate the Day of Thanksgiving. Inspired by this thought I suggest various ways in which you can help to avert the agony or suffering which must otherwise confront the refugees during the coming winter. You send a donation to our Fund addressed to myself as Treasurer, Messrs Henry Clews & Co., Bankers, Broad Street, New York, or you can apply to our Secretary, Percy Bullock, 66 Broadway, New York for a collecting card. He will be glad to issue same to any person enclosing references. Churches, Chapels, Clubs Societies and Sunday Schools can assist by a collection. Entertainment committees may render great help by sending us the proceeds of benefit performances. In all these ways friends everywhere are assisting nobly. All the money received will be cabled to Europe before Dec. 20th. Many heads of families and boarding houses have promised to "pass the plate" for the homeless Belgians before the turkey on Thanksgiving Day. The needs are immeasurable. Let us remember that no little nation in the world's long history has been more grievously stricken yet no people can raise their heads more proudly from the dust. The Crown of Thorns is Still a Crown! Help us as best you can. Your gift will surely be remembered long after the war has ceased and no man's Thanksgiving or Christmas Day will be the less happy because in some cases the gift may entail some measure of personal sacrifice.

Yours very truly,
HENRY CLEWS,
Treasurer, Dollar Christmas Fund for Homeless Belgians, 15 Broad Street, New York.

WAR REVENUE TAXES.

Austin, Texas, Nov. 20.—Collector of Internal Revenue A. S. Walker today called attention to the requirements of the recently enacted Emergency Revenue law, commonly called the War Revenue Act.

Beginning with the month of November, special taxes are imposed on the following occupations: Dealers in tobacco, cigars, cigarettes, snuff, etc., (when annual sales exceed \$200) bankers, brokers of all kinds, commission merchants, theatre proprietors, circus proprietors, and proprietors of bowling alleys, pool and billiard rooms.

To avoid 50 per cent penalty, these taxes must be paid to the Collector of Internal Revenue before the close of business on November 30th. The first tax period is that from Nov. 1st, 1914 to June 30th, 1915 and the tax to be paid at this time is 2-3 of the tax for a full year. The tax to be paid by dealers in tobacco, cigars, etc., is \$3.20 for the remaining eight months of the fiscal year.

All persons liable to the above special taxes should immediately write the Collector at Austin for blank application, Form 11a, and after this form has been received it should be properly executed and forwarded to the Collector by return mail, accompanied by Austin exchange or postal money order for the amount of the tax. If application blank is not received promptly, remittance to cover the tax should be mailed to reach the Collector before the close of business on November 30th. The 50 per cent penalty will apply to all remittances received after that date.

Banker's returns will be made in duplicate on Form 457. The tax should be remitted at the time of filing report, which must be rendered during November.

All perfumes, cosmetics, etc and chewing gum sold at retail after November 30th must have the proper revenue stamp attached. A stamp tax is also imposed on notes, deeds, bonds, insurance policies (not including life insurance), powers of attorney, and other documents on and after December 1st.

Supplies of stamps to be attached to documents and articles may be obtained from the Collector at Austin or from the deputy collectors at El Paso and Dallas. Orders for documentary stamps should be made on Form 427, and on Form 427-A for perfumery, cosmetics, chewing gum, etc.

A copy of the law giving schedule of documents and articles taxed will be furnished on request.

And judging by her photographs, Miss Christobel Pankhurst would make such an attractive Red Cross nurse.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you. You can't make a mistake in taking

GARDUI

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

NEW WET AND DRY LINE-UP.

As a result of the November elections there are now fourteen states in the dry column. They are Arizona, Colorado, Georgia, Kansas, Maine, Mississippi, North Carolina, North Dakota, Oregon, Tennessee, Virginia, Washington and West Virginia.

There remain 15 states in which half the population live in so-called no-license territory. They are Alabama, Arkansas, Florida, Idaho, Indiana, Iowa, Kentucky, Louisiana, Minnesota, Nebraska, New Hampshire, South Carolina, South Dakota, Texas and Vermont.

There remain eleven states in which 25 per cent of the population lives in no-license territory. They are California, Delaware, Illinois, Maryland, Massachusetts, Michigan, Missouri, Ohio, Utah, Wisconsin and Wyoming. At different times in the past 23 states have adopted the policy of prohibition. All but nine for one reason or another, abandoned it for local option or control by license.

California and Ohio, out of the six states in which statewide prohibition amendments were voted on this fall,

elect to remain in the wet column. In Ohio the new amendment to the constitution practically places the state in the wet column forever, as it provides that no new liquor legislation shall be introduced into the legislature. The present laws, however, are very strict and are carried out to the letter. The new amendment does not prohibit the holding of wet and dry elections in communities under the laws that are at present in force.

The states that have voted dry during the year 1914 are Arizona, Colorado, Oregon, Washington and Virginia.

TROOPS LEAVE VERA CRUZ. Seven Months' Occupation of Mexican Port is Ended. Transports Departing.

Vera Cruz, Mex., Nov. 23.—The occupation of this port by the American forces under the command of Gen. Funston ended today and the embarking on the transports which are to carry the soldiers home to the United States began this morning.

The outposts began falling back at 9 o'clock this morning and two hours later the first American soldiers began boarding the transports. The troops have been here for seven months having been sent here in April when it became known that an ammunition ship of ex-President Huerta was being sent here. The Americans seized the customs house and after a battle, in which few troops were killed and wounded, took possession of the city and have held it until this time. It was deemed advisable by the United States Government to abandon this port in view of the recent developments in Mexico, although several protests were made by some of the Mexican leaders declaring that this would be giving more power to one than the other.

Carraza troops under command of Aguilar took possession of the city as fast as the Americans embarked. These Mexicans had mobilized just outside of the American outposts last night.

The city is quiet today and all saloons are closed. The inhabitants in many sections showing distinct signs of nervousness, however. Many business houses remained closed this morning.

The Americans took along with them about three hundred Mexicans who feared to remain.

It is rumored that the former Carraza troops which recently deserted to Gen. Villa are also near Vera Cruz but this has not been confirmed.

Many nun refugees were taken aboard the army transports, it being feared that they might be harmed should they remain here. The Americans also carried vast sums of gold, collected as customs receipts, to be held for return to Mexico. The departing soldiers and marines numbered nearly seven thousand.

SWENSONS TO FURTHER HOLDING MOVEMENT.

Spur, Texas.—The need of warehouse facilities here for storing a large portion of this season's cotton crop is imminent and plans are now on foot by the firm of S. M. Swenson & Sons of New York, owners of several thousand acres of land in this part of the State, to solve the problem. They propose to have erected here, under their direction, warehouses of sufficient capacity to hold all the cotton that farmers in this territory will store. It is understood that storage houses capable of holding 100,000 bales will be constructed here at once.

MYSTERIOUS DEATH OF SAN ANGELO CITIZEN.

San Angelo, Nov. 18.—W. A. Guthrie, one of San Angelo's most prominent citizens, was found dead here this morning. The body was found in the South Concho river just below the city limits, both legs being tied with rope and the left arm was also tied. There were no marks of violence on the body. It is believed Mr. Guthrie was murdered and the body thrown in the river. Officers are hard at work on every possible clew. Mr. Guthrie was manager of the water and light company here as well as the San Angelo Oil & Gas company. He has resided here for more than thirty-five years and was in the early days a newspaper man.

FAMOUS HUMORIST DIES.

Passadena, Cal., Nov. 20.—Robert Burdette, veteran humorist, died here last night after a prolonged illness. He was known far and wide for his great humor.

He began cultivating good humor obscurely in Peoria, Ill., forty years ago when he spent part of his days at a desk on the Peoria Transcript "trying to think," as he himself once related, "of pleasant things to tell the folks when I went home at night." His audience of "folks" then was Carrie Garrett, the Peoria girl he had married a short time before, while she lay supposedly on her death bed, but who lived, and, though an invalid for life became immortalized by her husband as "Her Little Sereene Happiness." It was she who encouraged him to sow his humor in wider fields. At her bedside Burdette became prolific with fun-making contributions to the Burlington, Ia., Hawkeye, and through these he became famous the country over as "The Burlington Hawkeye Man."

REALIZATION SALE

AS the good people of this town and county know, the price of cotton has been low—really lower than they can AFFORD to raise it for—and to make it harder, money has been tight. We are the first firm in town to realize this to a sufficient extent to cut our prices and bear our part of the burden.

This is to be the Big Sale, not of oratorical statements and hot air, but of the thing that counts—"CHEAP PRICES." There is not going to be a dull moment in the entire Sale. New goods are going to be on the way all the time to replace the ones that will be stripped from our shelves at the EXCEPTIONALLY low prices we are going to sell them at. Don't take our word for this, you must come and see to realize the full import of our meaning. Opening Saturday, Nov. 28, at 8 a. m., RAIN OR SHINE.

A MERCANTILE MOVEMENT OF MARVELOUS MAGNITUDE

DRY GOODS

We have combed the market with a fine comb and everything in line of Dry Goods is here for your approval—color, style or weave. We have them all. We do not ask you to send us a mail order and let us select your goods; all we beg of you is to come and see our display. We know we can please you or we would not be so insistent. We have not overlooked the staple goods in Gingham, Outing, Calico, etc. We have an endless variety and guarantee to please the most fastidious buyer or chronic bargain hunter. Bring the whole family; you are welcome to make our store your headquarters or gathering place while in town.

Shoes--Shoes

As the trade already knows, we handle the celebrated Wortheimer-Swarts brand of shoes. These shoes are the recognized standard of American made shoes, and are made stout and strong out of genuine leather to withstand the hard wear given them by the people of the western country. We specialize on the staple lines, but the people will be surprised, once they take a look at the large line of novelties we carry in this line.

Our shoes are sold satisfaction guaranteed, so in buying them you have all to gain and nothing to lose.

Millinery

We have grouped our millinery into five separate and distinct lots to be sold as follows:

- Regular \$2.50 hats now \$ 1.48
- Regular \$3.50 hats now \$2.48
- Regular \$4.50 hats now \$2.98
- Regular \$6.00 hats now \$4.48
- Regular 10.00 hats now \$6.48

Do not compare these goods with the cheaper lines bought from commission houses. They were all bought direct from the East and constitute the most stylish and fashionable shapes, colors and trimmings to be found in the large millinery stores in the big cities.

Men's Clothing and Hats

We want to call special attention to this line. We are very much overstocked in our men's clothing and hats. Anticipating a large business and high priced cotton, we bought too heavy. That we are faced with this critical situation is no fault of yours, but is going to be a big factor in lowering the high cost of living for you if you will but anticipate your future wants and supply your present needs at the unheard of prices we are going to put on these goods. Remember there is no time like the present, so come now while the fruit is ripe and pick the apple of prosperity.

Lace, Embroidery, Ready-to-Wear

These are the lines to which we have given special attention in the past, and are proud to say we have as complete a line and as big an assortment as any firm in town. These good things are not going to escape our attention in the Sale and will be sold at prices that will compare favorably with the other low prices we are going to make in our endeavor to lower the price of merchandise to a level with the low price of cotton.

Please allow us to call your attention once more to the fact that we only ask you to come and look, for we are sure if you once see the prices you cant help but buy.

NOTICE

Owing to the low price of our merchandise during this sale we will be forced to discontinue giving coupons with purchases until the sale is over.

RAINFALL FOR COLORADO THE LAST TEN YEARS.

This record was made from the Government Gauge, now in charge of Rev. H. G. Hennessy.

Table with columns: Year, Jan., Feb., Mar., Apr., May, June, July, Aug., Sep., Oct., Nov., Dec., Total. Rows for years 1904 through 1914.

COLORADO, TEXAS, NOVEMBER 27, 1914.

Congress will begin grinding again on December 7th. There's grist and aplenty waiting.

If a plain-going average Texan should meet a woman on the public highway rigged out after the manner of many of the fashion plates, with the "hip-shot" and slouching attitude therein portrayed, he would simply "light a shuck" for the rocks and canyons.

How often do you see a man get out and look all over town for his dog if it is not at home in the evening, when his son or daughter can stay away until the wee hours of the night and he will never once inquire where he or she is, or cares what kind of company they may be in. And still you wonder at the increase in crime.

On a ride over the surrounding country Sunday, many fields of cotton were seen that had not been picked over the first time. Feed was to be seen on every hand, most of it in the shock, but some had not been cut, which latter, evidently had been left for pasturage later on. Better save all the feed possible. Brother Farmer, even though it can not so readily be turned into money as cotton, it will go further in reducing the cost of living.

"Christmas dinner in London" is the slogan of the German troops along the Belgian coast. The British however are not as badly scared by this threat as they might be, remembering their own boast during the Boer war to eat their Christmas dinner in Pretoria. Falling in which purpose, they dined plum puddings from mortars within the Boer fortifications bearing general Kitchener's compliments and regrets that he was compelled to postpone his engagement. The Kaiser will find a man's job attending to his business at home.

Those retrospectors who hark back to the formative days of our nation to point every example and adorn every tale of greatness, should re-adjust their perspective. Against the background of achievement as it existed in 1776 to 1814, Washington, Napoleon, Jefferson, Franklin and contemporaneous great men in every walk of life want some compared with the gait of former accomplishments. The things they did were in advance of what had been done before them. But if the greatest of them could revisit this old earth now and sit down at a country cross roads, they would gasp in utter helplessness. They could hardly keep out of the way of passing sprinkling carts. The problems confronting our statesmen at that time were vital but simple—more a question of endurance and nerve than of training and thinking. Put Washington and Jefferson in the places of William and Bryan, even with full knowledge of intervening history, and they would hardly keep the pace of the preambles. Place Napoleon, with his methods in the European war, and he would be lost in the movement. The same is true in the activity. It would be Henry Clay; then, John, and then, their day, up to the day, up to the day, up to the day.

Truly, the world do move and every generation reaches higher than its predecessor.

THE VISION OF VICTOR HUGO.

"A day will come when the only battle field will be the market open to commerce and the mind opening to new ideas. A day will come when bullets and bomb shells will be replaced by cotes and by the venerable arbitration of a great sovereign senate. A day will come when a cannon will be exhibited in public museums just as an instrument of torture is now, and people will be astonished how such a thing could have been. A day will come when these two immense groups, the United States of America and the United States of Europe shall be seen placed in the presence of each other, extending the hand of fellowship across the ocean."

In a letter accompanying his remarks in the U. S. Senate on the cotton situation, Senator Gore says:

"One defect in the plan of campaign in Congress was that there was no organized centralized opinion in the South on any one specific proposal. The other was that the principal plan involved the valorization of cotton at a fixed price. The principle of valorization can not pass Congress and it can not become a law. We ought to face that fact. Too many people oppose it in principle and are also opposed to the establishment of such a precedent."

Right now is the time to arrange for that sow and pigs that will grow amazingly by next fall. It is unthinkable how any man, particularly a farming person, who has ever feasted on good old home spun, stuffed and linked sausages, cured in a regulation smokehouse, and sopped up the brindle gravy therefrom, can ever live and die content without such larrupin victuals on his table by every Thanksgiving, or Christmas at least. Compared with the simon pure, well seasoned, home grown sausage, mixed by some good mother, turkey, canvas-back duck, patte grois fas and all their concomitants, are but dead sea apples of disappointment. No other viands lay so graciously upon one's constitution, so soothe an irritable conscience and put the average man content with himself and at peace with his kind. We can easily understand the motif of the heathen who figured his idea of paradise with a big plum pudding hedged with links of sausage. Man that's victuals and then some!

We have been expecting Gov. Colquitt to try to steer President S. P. Brooks of Baylor University into the presidency of the State University, in an effort to eliminate him from the senatorial race. But President Brooks is not a lamb of the sacrificial breed.

Assassin and usurper though he is, Old Huerta lacks a furlong of being any kind of a fool, and his sinister spirit is not without a sense of humor. On hearing of Carranza's contemplated capitulation, he cabled the latter from Europe: "You have my sympathy. Shall I prepare a place for you on this side?"

Even as a mere sea policeman Uncle Sam requires an efficient navy.

THERE IS A PLACE IN THE AFFAIRS OF MEN FOR ALL GOOD NEWSPAPER MEN.

The election of Arthur Capper, to the governorship of Kansas, while a distinct personal triumph, is at the same time a tribute to newspaper men and newspaperdom in general. No doubt Capper, the man, would have achieved success in any field. It is the personality, the ability, which would have pushed him forward, but success was doubly assured him as Capper the newspaper man.

All of which brings us back to the oft repeated assertion that the newspaper field above all others offers opportunities found in no other sphere of activity. Humble beginnings offer no obstacle to the man who through newspaper work seeks achievement in his own chosen field or in such work as custom has designated as his heritage.

Destiny cannot in the nature of things be expected to hold out governorships to us all. There are too many newspaper men and too few governor's chairs. Furthermore destiny has not designed all of us for conspicuous places in the affairs of men. She does, however, hold out to all newspaper men the hope, and we might almost say, the assurance of personal success in the closer spheres of their activity, a success which is measured more by esteem and even affection of those with whom they come into daily personal contact than by nation wide reputation.

It is the newspaper work that lifts the man devoted to it above his fellow men. It is the knowledge that he is in touch with the vital affairs of community, state and nation that makes his advice sought after and heeded. Whether he is a shining light of lesser star in the firmament of journalism, his guidance is sought for. Be he great or small his light is seen nevertheless. He has a marked place in the affairs of men, the difference between one newspaper man and another being merely in the number of men upon whom their influence and leadership is exerted.

As in all other walks of life, honesty of purpose is the first requisite for the newspaper man who would rise to the heights of his profession or to heights outside his chosen work. Ability is the second requisite and this, if nature has withheld it from the individual, can in a great measure be acquired by work and is useless without work.

Newspaperdom gives its disciples an advantage over other men, and in return for honesty of purpose and hard work it holds out to them the most coveted earthly gifts.

There may not be "a place in the sun" for all of us. We are not all of us Cappers, but there is a good place in the affairs of men for all good newspaper men.—Publishers' Auxiliary.

SERIOUS RIOTING IN MEXICO CITY.

Unrestrained Looting Indicates That All Organized Constitutional Forces Have Gone Out to Meet Villa or Zapata.

Mexico City, Nov. 24.—(Delayed)—Serious disorders broke out here tonight when mobs broke into stores, sacking the places and looted pawnshops and other establishments. The police are powerless to quell the disorders.

At 8 o'clock tonight civilians and former federal soldiers were armed and hoped to control the situation. There has been much shooting, but there have been only a few casualties reported up to this hour tonight.

Go To Meet Villa.

Washington, Nov. 25.—The delayed dispatch reporting unrestrained rioting in Mexico City indicates that all organized Constitutional forces have left the city, either to meet Villa or Zapata, who are threatening the city.

More human ills can be traced to an impure blood stream than any one cause on earth. Irregularities of the bowels and indigestion follow it invariably. GROGAN MINERAL WATER is Nature's own infallible remedy. It is swift, sure and pleasant; no bad effects. It is truly a boon to humanity. GROGAN WELLS, Sweetwater, Texas.

Fifty-six per cent of the world's people are now engaged in war, while the affected area covers 58 per cent of the land surface.

"The lobster industry has been hard hit by the European war" says a news item from Halifax. There are several of these crustaceans in Colorado that haven't been touched.

Nobody seems to have found out yet whether the foot and mouth disease was due to the war or the election.

COUNTRY EDITOR AS HE IS.

"The country editor's job is not writing" says William Allen White. "The average man who looks at an editor in any Kansas town and finds his career worth emulating, knows little about the aforesaid career. The average man believes that all the editor has to do is to go around with his note book, and jot down a few personal, write up a batch of desultory thoughts on large affairs, and go to press and cut receipts.

"The truth is different. The real country editor has to make much of the news which he writes. The commercial club, the church, the baseball team, the college, the law and order league, the county central committee, the whist club, and the good roads movement all must feel the influence of his guiding hand. He must be in everything and run errands for everyone, pass the paper, get the hall, hire the band, send out the circulars, deliver the address of welcome, do the town lying for harmony's sake and hold the sack. He must be guide, philosopher and friend to those in trouble and be mentor and administrator to those who are about to get into trouble.

"The preacher, the town drunkard, the statesman, the social climber, the real estate boomer, the man from the grand lodge who is about to exemplify the new work, the promoter, the broken soldier kindly bade to stay, the captain of industry and the girl with the fatherless baby, all come to him to help them in their troubles. He is the town confessor, the town boomer and the town goat, doorman, rock of refuge, errand boy and vicarious sacrifice; the editor is the only creature in all the wide animal kingdom that needs the wings of a dove, the strength of a lion, the protective odor of the skunk, the smooth, crawling belly of a worm of the dust, and the aspirations of a god."

Beware of Ointments for Catarrh That Contain Mercury

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

THE MAN WHO DIDN'T SUCCEED.

They sing of the men who build the mills
And girdle the earth with steel;
Who fill the hour and wield the power
That molds the public weal.
Honor to them that in honor do
The work that the world must need,
And yet in chief I hold a brief
For the man who didn't succeed.

'Tis not to excuse the indolent;
No plea for the down and out;
Nor specious rot condemning what
The leaders are about,
Merely to ask in a casual way
Of those who chance to read,
For fairer view, and kinder, too,
Of the man who didn't succeed.

His house is small, his table light;
His family must endure
The snubs and sneers of the buccan-
eers
Whose debts fall on the poor;
Yet his is a home and no hotel,
His wife is a wife indeed;
There's nothing above his children's
love
To the man who didn't succeed.

Admitting it's true that he did not
make
The most of his talents ten,
He won no pelf nor raised himself
At the cost of his fellow-men.
His hands are clean, his heart is
white,
His honor has been his creed—
Now who are we to say that he
Is the man who didn't succeed?
—New York Sun.

MISSION STUDY.

The Methodist Missionary Study Class had their regular study Monday at the church with Mrs. Hart the leader in charge. The devotional services were conducted by Mrs. D. N. Arnett. The lesson was on the "child at school" Quite an interesting meeting was held.

CLUBS.

Mrs. C. T. Harness was hostess for the Bay View at Mrs. Royall G. Smith's last week with Mrs. Richard Pearson as leader.

Roll Call—Quotations from Shakespeare.
Coriolanus, Act III Scene 1.
Silas Mariner, Chapter II.

The guests were Mrs. Harness, Misses Byrd Adams, Bess McMurry, Juanita Shropshire. A salad course and orange gelatine with cake were served at the social hour.

STANDARD.

The Standard met with Mrs. Hooper last Friday.

Roll Call—Items about the Desert, Antony and Cleopatra, act IV to scene 10—Leader Mrs. Hooper, Egypt and its monuments, Chapter V, Leader, Mrs. Riordan.

Reading—The Caravan in the Desert (Felicie Hemans)—Mrs. Prude.

Magazine—Through Algeria and Tunisia—Leader, Mrs. Gary.
Social hour.

MISSIONARY STUDY.

Mrs. Smoot was hostess for the Mission Study Class of the Baptist ladies last Thursday with Mrs. G. W. Smith as leader. The devotional services were on Peace and the scripture was Isa. 48-49. The Mission Study was "Cuba's Cry."

The meeting was one of exceptional interest as nearly every member took part on the program. The offering went for Buckner Orphans Home.

At the social hour a most delicious salad was served by the hostess. The meeting next month is with Mrs. F. B. Whipkey.

Mrs. R. A. Taylor of Marshall is visiting her parents Mr. and Mrs. J. W. Smith.

Mrs. Sam Majors left this week for El Paso where she will take medical treatment. She was accompanied by her father, Judge Coe.

SERVICES AT BUFORD.

Rev. W. A. Bentley, a Christian minister of Clyde, will begin a series of sermons at the Buford school house at 11 o'clock a. m. on the second Sunday in December and extending to the third Sunday inclusive. Services at night only, during the week.

CHRISTIAN LADIES BAZAAR.

The women of the Christian church will hold their annual Bazaar, Dec. 11th and 12th, at Mr. Riordan's Christmas store.

There will be for sale, aprons, doll clothes, fancy articles suitable for Christmas gifts, cakes, pies, chickens and home made candy.

It was a treat to the Baptist people as well as all who attended services at that church last Sunday to hear Rev. B. Broome preach both morning and evening. Mr. Broome was pastor of the church here for some time and greatly endeared himself to his congregation and the community in general. He is a preacher of force and education, and the Record is glad to know that he is pleased with his work at Granger.

HOLDS PRAYER SERVICE.

Rev. Holmes Nichols is visiting his many friends here a few days while on his way to El Paso. He conducted the Prayer Meeting services Wednesday evening, reading and commenting on the first part of the twelfth chapter of Hebrews.

It was a feast to all who were brave enough to face the elements. For more than six years Bro. Nichols led this church and always there will be a warm place in their hearts for him and his and wherever he goes their earnest prayers will follow him.

JUNIORS ENTERTAIN SENIORS.

On Tuesday evening the High School Juniors entertained the Seniors at the home of Miss Mabel Earnest, with 42 besides the class a few other friends enjoyed this holiday occasion.

Mr. Stewart Cosper and Miss Claudia Smith proved to have won the most number games and were presented boxes of stationery for their skill. The young ladies refreshed their guests with sandwiches and coffee.

We will have lots to be thankful for this year.

ECHOES FROM THE CONVENTION.

The twenty-eighth annual session of the organized work of the B. W. M. W. of the Baptist General Convention met the 17 and 18 of this month in Abilene, Colorado Society had four messengers, and all went, Miss Elsie Hooper represented the Y. W. A.

Abilene entertained in a most regal manner. Nearly all homes regardless of denomination were at the disposal of the visitors, and every thing and every body were at their best.

The weather was ideal and all officers were at their posts of duty so that from the very beginning the work moved along nicely. Good reports came in from all sections of the state, and every thing was peace and harmony.

The plan of work was laid out for next year on a basis of \$300,000 Missions, Benevolence and Education were discussed and each will be studied prayed for and contributed to but perhaps the key note this year will be personal service. That is that every one of the faith may have some part in this great work let it be ever so humble.

On Thursday morning the Convention was called to order by the much beloved and honored president, Dr. E. C. Buckner.

In the absence of the gavel he waved a white flower and every thing was perfect quiet and at his request a new president was elected. The honor fell upon Dr. S. P. Brooks, president of Baylor University and the scene will long be remembered by all that mighty host as the retiring aged saint gave his parting benediction to this strong and loved incoming president.

All work was carried on in a quiet harmonious way which has not always been characteristic of Baptists and plans laid out for the work for the coming year in most hopeful spirits.

Dr. Buckner turned the Orphans Home and all its property over to the Convention. The collection taken for that amounted to \$31,000.00

We had the pleasure of meeting several former pastors and friends of former days besides making new friends and attending a great Convention, we were entertained in the hospitable home of Dr. and Mrs. W. C. Neal. They are as hospitable as of yore and as great workers and as loyal to their church and pastor as when they lived in Colorado. May they live long and prosper.

Mrs. R. W. Mitchell of Abilene visited her parents Judge and Mrs. A. J. Coe this week.

The Wonderful Magic Washing Stick.

The Magic Washing Stick, the greatest helper woman ever had with the washing, and I have been singing its praise to my neighbors, writes Mrs. Mollie Martin, Route 3 Apache, Okla. It is truly a wonderful article, saving all the washboard labor on wash-day. Three Magic Washing Sticks for 25c. Enough for fifteen big washings. Makes clothes white as snow. A. B. Richards Medicine Co., Sherman, Texas.

Belgium's way is as hard as if she has been the chief of transgressors.

HONORING MRS. HENNESSY.

Mrs. Bailey entertained the 500 Club Tuesday in honor of Mrs. Hennessy, who left Wednesday night for her new home in Denison. A number of special guests also enjoyed the games. The house was beautifully decorated with chrysanthemums. The honoree was presented with a handkerchief case filled with dainty handkerchiefs.

Miss Bess McMurry won the first Club prize, Miss Brooks Bell the new president, won the second club prize while Mrs. R. A. Taylor of Marshall won the guest prize. A most delicious turkey course followed by fruit gelatine cake and coffee were served.

The meeting next week is with Mrs. B. H. Snyder.

SEWING.

A number of Baptist ladies and Mrs. Earnest spent Tuesday in the Sunday school rooms sewing and quilting for their Buckner Orphans Home box. Three quilts were quilted, a good many garments completed and more cut out, a good dinner eaten and a pleasant day enjoyed by all. On account of the bad day not enough were present to finish all they had planned to do so they spent Thursday afternoon finishing up their work. The box will be packed December the third at the church at 3:30 o'clock. Let all friends remember the date and have the garments they wish to give ready. There is a dirth of pillow cases and if any one wishes to make some, take off a yard of domestic and sew up and hem with an inch hem. The ladies wish to thank all who have helped in any way and especially Mr. G. D. Adams for furnished the machines.

FORMER PASTOR PREACHES

On last Sunday Rev. B. Broome, former pastor of the Baptist church visited his friends while in the West attending the Convention and filled the pulpit at both morning and evening hours. Large congregations greeted him at both services and both sermons were deep spiritual discourses. At the morning service he preached on "Give ye them to eat" and at the evening hour his text was "God forbid that I should glory, save in the cross of our lord Jesus Christ."

BAPTIST CHURCH.

Rev. Thad Carter will preach at the morning hour. After sermon, the church will go into the call of a pastor.

Every member of the church is urged to be present.

PULPIT COMMITTEE.

SCHOOL NOTES.

The regular session of the Mitchell County Teachers Institute began its sitting down, and its risings up last Monday morning. There were Brothers, sisters, husbands, wives Working at the gabfest for their dear lives.

The meeting of the aforesaid gabfest must not be misunderstood. It was not a half-hearted, luke-warm affair; so equal was the proportion of words, facial contortions, stamping of feet, and waving of hands that had the meetings lasted a week longer, some of the meeters wouldn't have gone up in smoke, but like the One-Hoss Shay would have worn out all over simultaneously, not because they would want to, but being well balanced people, they would have to.

The subjects, discussed were many and varied ranging from how to teach children to recognize the members of the At family—M. At, C. At, and R. At—to what to do with the theory of evolution.

Among the visitors to the Institute, Mrs. Shaw deserves first place. Though she stood in no danger of extreme activity, she truly expressed in words bearing, and skillfully manipulated crayons, a sympathetic nature and a wholesome, optimistic view of life.

Another visitor who deserves special mention was Mr. Richardson, an ex-teacher, and a representative of a book company, who made a very interesting speech and asked no favors.

Miss Lula Mae Dulaney assisted the Institute Choir in tempering institute sobriety with musical selections.

On Tuesday evening a high school party was enjoyed in the home of Mrs. C. H. Earnest.

Next Monday school books will be dusted and school work resumed. So endeth part two.

OUR STATE UNIVERSITY.

In managing the University, the Board of Regents was forced, several years ago, to adopt one or the other of the following alternatives:

1. To expend all of the University's income in teaching and other necessary running expenses, in an effort to provide for its students' instruction approximately equal to that furnished by the average strong State university; or,

2. To expend part of the University's income in much-needed permanent buildings, and thereby cause classroom instruction to suffer. The board, mindful of the rights of the students who through the University, and who must remain ignorant if not educated now, chose the first of these alternatives, and believes that experience has each year more fully sustained the wisdom and justice of its decision.

The University has no legislative appropriation for the current fiscal year, 1914-15, during which the expenditures for salaries and supplies will amount to \$713,730.82, and for repairs to \$19,360.00, a total of \$733,140.82. By postponing all permanent building in Austin, and by saving up land rentals, interest on bonds, and fees for the years 1913-14 and 1914-15 the Regents have provided \$380,394.93 for this year. This sum will keep the University in operation until about March 15, 1915; and that it may not then close down, an emergency appropriation of \$352,745.89 (the difference between \$733,140.82 and \$380,394.93) will be asked of the next Legislature as soon as it convenes. Of this emergency amount, \$240,000.00 has been provided for out of this year's taxes, already levied, through the wise and patriotic foresight of the Governor and of the other members of the Automatic Tax Board.

Although the student body is certain to increase, in 1915-16 and each year thereafter, at a rate probably in excess of ten per cent, the Regents, because of the cotton situation, have asked the next Legislature, for 1915-16, for no increase over this year's running expenses. But anticipating a return to normal conditions in 1916-17, two years from now, they have asked for an increase of about twenty per cent for that year. Bearing in mind both the general situation and the future needs of the University, as determined by careful, itemized estimates, the Board has requested—

NONING STANDS AS HIGH, as a remedy for every womanly ailment, as Dr. Pierce's Favorite Prescription. It's the only medicine for women certain in its effects.

"Favorite Prescription" is an invigorating, restorative tonic, a soothing and strengthening nerve and a complete cure for all the functional derangements, painful disorders, and chronic weaknesses peculiar to the sex.

For young girls just entering womanhood; for women at the critical time; for nursing mothers; and every woman who "run-down," tired or overworked—it's special, safe, and certain help.

For the fiscal year 1915-16 \$713,730.82;

For the fiscal year 1916-17, \$847,950.82.

These amounts will enable the Board to use the entire Available University Fund from land leases, interest on bonds, fees, etc, for these two years, 1915-16, and 1916-17, as a basis for the erection of permanent buildings to replace at least in part, the twelve temporary shacks now on the campus. The University although growing rapidly, has been unable to put a dollar into permanent buildings in Austin for more than four years, and has, in proportion to its students, scarcely half as much invested in its plant as the average strong State University. The building needs of the University are as urgent as those of any other of the State's institutions; and the following new structures are now an almost absolute necessity:

Five dormitories for girls, 50,000 each	\$250,000
Fifteen dormitories for boys, 50,000 each	750,000
Dining Hall and Kitchen	100,000
Domestic Science Building	125,000
Biological Sciences Building	150,000
Chemistry Building	150,000
Education and Practice School	175,000
Total	\$1,700,000

Sincerely yours,
S. E. MEZES,
President.

GOOD NEWS.

Many Colorado Readers Have Heard It and Profited Thereby.

"Good news travels fast," and the thousands of back sufferers in this vicinity are glad to learn where relief may be found. Many a lame, weak and aching back. Is had no more, thanks to Doan's Kidney Pills. Thousands, upon thousands of people are telling the good news of their experience with this tested remedy. Here is an example worth reading:

J. J. Burnett, Snyder, Texas, says: "I have used Doan's Kidney Pills for the past five or six years, whenever I have had any symptoms of kidney trouble and I have always been benefited. I suffered every year from rheumatic twinges and weak kidneys. Seeing Doan's Kidney Pills advertised I got a box. They strengthened my kidneys and cured the rheumatic trouble."

VILLA PROHIBITS NEWSPAPERS.

El Paso, Nov.—All American newspapers were prohibited from entry into Mexico by an order from General Villa put into effect along the border. Even persons crossing the international border at this point were relieved of newspapers they carried. No explanation was given, for the order, which was the first of its kind to have been made during the past four years of revolutionary activity in Mexico.

It becomes more and more apparent that Col. Roosevelt doesn't care what people say, just so they keep talking about him.

NOTICE OF TEACHERS' EXAMINATIONS.

To the County or Ex-Officio County Superintendent:

EVER SALIVATED BY CALOMEL! HORRIBLE.

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

SANTA CLAUS AS A FIRE BUG.

By S. W. Inglish, Austin, State Fire Marshal.

Santa Claus has done his full share toward bringing misery as well as merriment to this world. The candle on the Christmas tree has contributed its full quota toward making a heap of ruins out of what was a house of happiness.

It is not the nature of Santa Claus to sow seeds of sorrow. Why not induce this dear old gentleman to join the ranks of fire preventers?

Don't permit your own neglect to be saddled on Santa Claus. Don't permit your Christmas merriment to wind up in smoke and flame and ashes and despondency.

It is far better that common sense be used as a seasoning for Christmas cheer than it is to have the spirit of the season made unsavory with bitter tears of regret.

In every little Christmas tree candle there is danger.

SEGREGATION INCIDENT.

The recent incident at the White House, when a delegation of Boston negroes offended the President by the manner of their protest against race segregation in the Government departments, is eliciting comment in the Republican press at the North. The papers of that kind always seem to consider it their political duty, to rebuke what they call "race prejudice." It is done now in a perfunctory way that betokens force of habit and is free from the fanatical raving of the old days, when sectional questions were the chief issues in politics.

The Pittsburgh Dispatch recalls that when Mr. Wilson was a candidate he said: "Should I become President of the United States, they (the colored people) may count upon me for absolute fair dealing and for everything by which I could assist in advancing the interest of their race in the United States."

That promise has not been violated because of the complained of "segregation" at Washington. Placing white men and negroes in different rooms is not discrimination against or

unfair treatment of either so long as both are equally well provided for.

These papers do not like the President's explanation, made to the committee that called on him, that he was informed that the segregation "had been made to avoid friction. The Pittsburgh Dispatch again says:

"We do not believe that President Wilson shares the silly prejudice which holds that it is impossible for a white man and a colored man to be in the same room, unless the colored man is serving the white man. But that makes it all the more unjustifiable that he should serve the prejudice with a plea of 'friction' that has been distinctly absent in forty-five years' experience at Washington."

There has been a considerable increase in Southern white men in the departments at Washington since the present administration came in, and if the Dispatch doesn't believe there

might be friction under such conditions, it doesn't understand the strength of the feeling it calls "silly prejudice."

Whether or not that feeling is proper is academic, and, however decided, would not alter the fact of its existence.

An English official in India in the fifties precipitated the great mutiny by refusing to recognize "the silly prejudices of the natives." The religious scruples of Hindus and Mohammedans over whom Great Britain rules have since that time been given grave respect. The soldiers from India now fighting in France are all provided with their "praying mats."

There is nothing more real or deeply rooted than race antipathy of the kind that exists in the South, and it makes segregation a necessity here. The same method might have been in all sincerity an easy way out of an ex-

isting situation at Washington. It was not an insult to the negroes to be put apart from the whites, and likely didn't offend anyone but the professional agitators of race equality.

And this antipathy is not peculiar to the South. It exists wherever white men and the dark races are thrown together. It has been given a very marked exhibition in California in respect to Mongolians.

The feeling is really shared by the Northern whites, who make a practice of protesting against it whenever it takes on a political aspect.

Politically, President Wilson has nothing to fear from anything that may be made of this incident, and nothing to gain. The only effect of agitating the race question would be to make the assurance of a solid South doubly sure.—Nashville Banner.

A Summons to You for Your Benefit.

We deem it necessary and for your benefit to fire the second cannon shot at this immense line of merchandise beginning Saturday, Nov. 28th. It is our purpose for you all to be benefited by our taking the second shot at the profits, which will be blown into parts unknown. The first shot has scattered the first car of flour over a portion of Mitchell, Scurry, and Nolan Counties. Second to arrive by Saturday Nov. 28th, at prices below advertised, same being from 30c to 50c on the hundred less than today's market. Also a car of sugar and syrup to arrive on or before Saturday, Nov. 28th.

Entire Line of Groceries

We believe the same will be scattered all over Mitchell, Scurry and Nolan Counties. Third shot—A whole army of sharp shooters will be turned on our entire line of Dry Goods, Clothing, Shoes and Hats, hoping and believing that there will not be a whole bolt, scarcely a suit or a hat or a pair of shoes left, and we hope and believe that we will have the opportunity of shooting at the profit on every item of our entire line of merchandise. As a beginner we are naming you our second shots:

Ladies ready-to-wear Suits and Cloaks, Men's Suits, Hats, and Shoes of every kind at a reduced price. We will strive to satisfy you on every line we carry. We believe we are not exaggerating when we say that we have received more goods this fall than all of Loraine has in any six months during the past five years. At this season of the year we are entitled to a profit but the price of cotton is such that we will be pleased to know that we will hold our own. We know that this is an opportunity that you cannot afford to let pass, because everything in the grocery line is advancing. Flour is now worth \$3.25 in carload lots. Question any of your dealers as to this being a fact. We will buy your cotton, chickens, turkeys at market price. Eggs are now worth 3 per dozen. Butter 25c per pound. Don't wait but come in at once while our stock is complete. Bring your wife and family and supply their wants and comfort and satisfy their tastes and appetites. There is something real to you in this opportunity. We believe our reputation is such that people know that we will do what we say and openly say what we do. Positively at these prices it must be a CASH deal to all, or, whenever charged 10 days or 30 will be charged at regular prices as heretofore. Hope we will have the pleasure of seeing you in our store during the next week. Our goods will not be offered at these prices very long, only giving every family a reasonable time and opportunity to supply their wants.

No tickets will be given while this sale lasts but we have a \$10.00 Doll and two 50 pound sticks of candy that will be given away December 24th. Those that buy at any one time from our entire line of merchandise \$2.50 will be entitled to guess at the number of seed in a kershaw now in our store and the one who guesses the nearest to the actual number will be entitled to the doll now in our show window. Second nearest guess will be entitled to the 50 pound stick of candy. Third nearest guess in like manner.

PROHIBITION THAT PROHIBITS. Remarkable Achievement of Turning Most Drunken Nation in World to Most Sober is Work of One Man.

Petrograd, Nov.—There is a prohibition in Russia today, prohibition which means not a drop of vodka, whisky, brandy, gin or any other strong liquor is obtainable from one end to the other of a territory populated by 150,000,000 people, and covering one-sixth of the habitable globe. The story of how strong drink has been utterly banished from the Russian empire was related to the Associated Press by Michael Demitrovitch Tchelisheff, the man directly responsible for putting an end to Russia's great vice the vodka habit.

Must Be Taken Literally. It should be said in the beginning that the word prohibition in Russia must be taken literally. It does not imply a partially successful attempt to curtail the consumption of liquor resulting in drinking in secret places, the abuse of medical licenses and general evasion and subterfuge. It does mean that a vast population who consumed \$1,000,000,000 worth of vodka a year, whose ordinary condition has been described by Russians themselves as ranging from a slight degree of stimulation upward, has been lifted almost in one day from a drunken sluttia to sobriety. The nation has been compelled, virtually overnight, to abandon its enormous daily consumption of vodka, a liquor that is almost pure alcohol, and become abstemious to the extent of letting no queer pass its lips.

On that day when the mobilization of the Russian army began special policemen visited every public place where vodka is sold, locked up the supply of the liquor and placed on the top the imperial seal. Since the manufacture and sale of vodka is a government monopoly in Russia, it is not a difficult thing to enforce prohibition.

Drunkenness Vanishes. From the day this step was taken drunkenness vanished in Russia. The results are seen at once in the peasantry. Already they are beginning to look like a different race. The marks of suffering, the pinched looks of the illness and improper nourishment have gone from the faces. There has been also a remarkable change in the appearance of their clothing. Their clothes are cleaner, and both men and women appear more neatly and better dressed. The destitute character of the homes has been replaced with something like order.

In Petrograd and Moscow the effect of these improved conditions is fairly startling. Women may now pass at night through portions of these cities where it was formerly dangerous even for men. Minor crimes and misdemeanors have almost vanished.

Work of One Man. This miracle has been virtually accomplished by one man. He is Michael D. Tchelisheff, a peasant by birth, originally a house painter by profession, then mayor of the city of Samara, and is a millionaire. Physically, he is a giant. Although he is 55 years of age he looks much younger. His arguments display the energy of youth, his eyes are animated and his black hair is not tinged by gray. In Petrograd Mr. Tchelisheff is generally found in a luxurious suite of rooms in one of the best hotels. He goes about clad in a blue blouse, with a tasseled girdle and baggy black breeches tucked into heavy boots. He offered his visitors tea from a silver tray and the fruit of the Crimea.

FALACIOUS ECONOMIC THEORY

Before the great war broke out in Europe the people of the United States for the most part seemed to be logging along obsessed with the belief that we were doing business on a sound basis. Both political parties seemed to have agreed that the gold standard was the proper thing and that having agreed to redeem our obligations in gold we were safe from financial disaster.

It is true that there were outstanding obligations estimated at all the way from 60 to 80 billions face value, all of them bearing the promise that they would be paid in gold, while the total stock of gold with which to redeem these promises aggregated only about 2 billion dollars, but then we had agreed to pay in gold and to the minds of the astute financiers that seemed to be all that was necessary.

When the ordinary plug citizen timidly asked how it was possible to pay 80 billions of debts with 2 billions of gold he was told with an air of superior wisdom that he didn't understand finance and shouldn't trouble his head about it. That was a matter that should be left to bankers and Wall street brokers. All he had to do was to skirmish around and pay the interest on what he owed.

And the strange thing about the whole business is that this sort of "bunc" goes down with a large majority of the hot polloi. They frankly admit that this subject of finance is too deep for them and therefore do not trouble themselves much about it.

It is true that in a limited way they have some financial experiences. When one of them owes a grocery bill of ten dollars and has only one dollar in his pocket and does not know where he is to get the other nine it puzzles him to figure out how he can pay the grocery bill, but then he supposes that big finance is operated somehow on an entirely different basis from his little grocery transactions. So the country went serenely on, supposing we were really on a gold basis and that all these billions of obligations that bore the promise of being paid in gold could be paid in gold.

A great many of these obligations had been sold in Europe. Nobody knows just how many but it is safe to say that the aggregate was several billions. When the war broke out the holders of these obligations suddenly wanted the gold and commenced to dump their American securities onto the American market. They were even ready to take less than the face value but they wanted the gold and wanted it right away.

Then the illusion that we were on a gold basis in fact was suddenly destroyed. There were only 2 billion dollars in gold in the United States and more than half of that was in the treasury of the United States, held there to redeem gold certificates that had been issued. To redeem the obligations that had been sold in Europe was a manifest impossibility. If it had been undertaken this country would have been drained of gold within two weeks and there would still have been billions of the obligations left unpaid.

There was only one thing to do and that was to shut up shop and say to the holders of the obligations, "Of course we promised to pay these bonds and stocks in gold but then we didn't really mean it. We didn't suppose you would take that promise seriously. The fact is we haven't the money."

The stock exchanges closed for exactly the same reason that a bank closes when its depositors come in and demand their money and the bank hasn't it.

And when the illusion that we are actually on a gold basis went to smash what did the money lenders and stock jobbers do? They immediately hastened to congress and demanded that the government issue to them currency based on promises to pay, like those they had already demonstrated their inability to pay and congress acceded to the demand.

If however, the people had asked their congressmen to pass a law authorizing and directing the government to issue to them, the people, currency direct, a howl would have gone up from the bankers and brokers and speculators that could have been heard from New York to San Francisco. They would have said, "What? Issue money direct to the people? That is as bad as the demands of the crazy greenbackers of nearly forty years ago. Do you not know, gentlemen of congress, that government currency can be good and safe only when it is passed out through the hands of bankers?"

But they have put it over. Also it looks as if the people were going to stand for it. The reason why they can put it over is because of this lingering belief that only a few wise men can possibly understand finance. So we go on like patient clumps clinging to a wornout theory, permitting a

few to control the money supply of the country, using our government credit to enrich themselves while the great mass who furnish the credit get none of the benefit.—Farmer's Mail and Breeze.

Despondency Due to Indigestion.

It is not at all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa. "For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them, did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine. For sale by All Dealers.

RHEUMATISM IS SLOW POISONING

because the entire system becomes permeated with injurious acids.

To relieve rheumatism Scott's Emulsion is a double help; it is rich in blood-food; it imparts strength to the functions and supplies the very oil-food that rheumatic conditions always need.

Scott's Emulsion has helped countless thousands when other remedies failed. No Alcohol. Refuse Substitutes.

There was no evidence noticeable last Saturday of slack business and depressed times. The hum of the four gins, the long procession of waiting wagons, the heavy loading of goods into farm wagons, the relays of diners in the restaurants and general good humor prevailing, all were symptoms of reviving business.

We are still trying to keep the town clean, won't you help by sending us your Thanksgiving Laundry after so many good things to eat you surely will not feel like washing.—COLORADO STEAM LAUNDRY.

PROPOSED BALTIC AND BLACK SEA CANAL

The commission appointed by the Russian Duma and Senate four years ago has reported favorably on the proposed Baltic and Black Sea canal scheme. It is proposed to canalize the Dnieper and the Dwina, the former flowing into the Black Sea at Kherson, and the latter into the Gulf of Livonia and the Baltic Sea at Riga. The sources of the two rivers, at the divide would be connected by artificial waterways. The length of the canal would be 1,540 miles.

PANAMA CANAL AND TRANSCONTINENTAL FREIGHT.

The influence of the Panama Canal upon the movement of freight by rail has been greater than was anticipated and the amount of tonnage which is being sent through the canal is a matter of surprise to those who are accustomed to the handling of transcontinental freight. Since August 15th, when the canal was opened for business, over fifty ships varying in size from 6,000 to 12,000 tons have been carrying through the canal freight consigned to the Pacific Coast. A considerable proportion of this is being moved, even from as far West as Ohio, by the way of New York and the canal to Pacific coast points. As instances of this we note that 15,000 tons of wrought iron pipe have been shipped by the canal route from Youngstown, Ohio, to San Francisco. The all-rail price is 65 cents per hundred weight; by way of New York and by the canal it is 48 cents. Canned corn is being shipped through the canal from the Indiana canneries to the Pacific Coast as is also cast iron pipe, sent from Alabama via New Orleans.

Uncle Joe Cannon refused to commit himself as to women suffrage the other day. His questioner was evidently a pretty girl.

WHY WOMEN FADE.

This is for ladies only. Men should keep their eyes off it.

A million women today should be told what other millions have learned—that they need one element in their blood far more than men, and that lack of it is the reason they are apt to fade many years before they should. The needed element is iron. Iron builds up the red corpuscles of the blood and sustains vitality and strength. Women need a constant supply of blood-making material, or their system breaks down under the constant drain. The very moment there is a lack of blood, or when the blood is impoverished, the signal appears upon the face in sallowness or palor, and the remedy is McCroskey's Tonic, for it contains iron.

Nothing else meets this particular condition as well. Use of it has made thousands of women look many years younger and made them even feel younger than they looked. It not only restores strength, energy and beauty, but it is a prompt and certain cure for all the ills peculiar to the sex. It cures because it removes the first cause. It supplies just what nature needs to bring health. It strengthens the debilitated organs and gives tone and elasticity to muscles and ligaments rounds out wasted tissue and renews the vigor of the nervous system. It helps quickly and just as surely and permanently. It has been used and praised by both old and young women, and mothers should see that their daughters coming into womanhood should take it. It will bring them through all right.

HERE IS THE PROOF.

"Don't bother booze and it won't bother you," is the answer one gets every now and then when the evils that grow out of the use of the stuff is mentioned.

Here is a concrete example of how booze bothers folks who do not bother it. Driving in his automobile from the fair grounds on Friday of fair week, Mr. C. M. Anderson was seriously hurt and his machine badly broken up by a young disciple of the bottle who literally ran his horse into the automobile while running at break neck speed. Not only so; but at every jump of his horse he fired his six-shooter and filed the air with hellish yells.

Mr. Anderson and his automobile were badly done up although neither he nor the machine was under the influence of booze. This is the proof that booze interferes with anything and everything, at any time and on any occasion. Yet we are told "don't bother booze and booze won't bother you."—San Angelo Sun.

CAN-CAN PROSPERITY.

As an indication of Western prosperity, the Cudahy Packing Company of South Omaha will reopen their canning plant, which has been closed for more than two years. The cannery will employ 200 workmen and double that number of men will be put to work in other departments of the packing plant as a result of the reopening of the cannery.

The increase in the amount of live stock consumed by the Cudahy Company will be considerable.

As a starter the plant has an order for 5,000,000 cans of corned beef for the British Army. Three months, night and day work, will be required for this contract alone.

THE NEW PRESIDENT OF THE UNIVERSITY OF TEXAS

Dr. Wm. J. Battle, elected Acting President of the University of Texas, to succeed President S. E. Mezes, resigned, was born in Raleigh, N. C., in 1870. His father before him was a university president, and his whole life has been spent in academic surroundings. His career as a student was phenomenal, having taken an A. B. degree, with honors at the University of North Carolina when 18 years of age. At twenty one he had taken his master's degree at Harvard, and during the two succeeding years spent there studying for his doctor's degree, he held valuable fellowships in recognition of his brilliant record as a student.

His promotion in the academic world was rapid, passing from a tutorship in the University of Chicago in 1893 to an Associate Professorship of Greek in the University of Texas and a full professorship in the same institution in 1898. He has served the University as Dean of the Faculty since 1911. The present year will round out twenty-two years of active service in the University of Texas, continuous, except for one year spent in study abroad on a leave of absence.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Builds up the Blood and Builds up the Whole System. 50 cents.

A WORTHLESS BAUBLE.

In contemplating the result or rather the lack of result, of the recent sessions of the legislature, one is almost tempted to despond for self-government.

Everywhere, under the caption of "Failure of the Legislature," is a review of the late sessions, and pertinent suggestions of various methods of relief which might have been effectively adopted. This review but emphasizes the disappointment, altruistic patriotism must feel in contemplation of popular government helpless in the face of an industrial and commercial crisis.

It is an unquestioned fact that a pronounced majority of the legislature realized the need of such action as might relieve the public's sore distress. There was no doubt in the legislative mind that such relief was practicable. But the failure of popular government, as exemplified by the spectacle of these sessions, was due to popular passions, popular selfishness, popular cowardice.

Prejudice, hatred, fear of public opinion, all combined to make the mass of representatives the subservient playthings of a few bold reactionaries seeking political advantage or private gain, while the majority, without cohesion, without conviction, drifted, helpless, until it had sinned away its day of grace.

Texas has written her history in heroic deeds and patriotic devotion. Because Texas has a glorious record of achievement, it seems scarce less than a crime that so splendid a people must wear the shackles of slaves for the want of courage and wisdom and patriotism in her chosen representatives.

As popular vices and weaknesses in the recent sessions betrayed popular government in this hour of dire distress, so have been revealed to the people the dangers in representative power. On the one hand it is abused, on the other it is important. If with the people struggling in the throes of financial oppression, popular government is helpless to relieve where government could and should relieve, then what advantages is it to the people to possess so worthless a bauble, to possess so worthless a bauble.—Austin Tribune.

ATTENTION COLORADO BOYS AND GIRLS.

The laundry is offering you a contest that will enable you to make some Christmas money. Read this carefully then get busy.

Beginning Nov. 10 we want each of you under fifteen years of age to write us a letter telling us why your mama should send us her laundry instead of doing it herself or hiring some one to do it. Make your letter short and to the point, not over fifty words, address the letters to Mrs. J. T. Davis Colorado and mail them between Nov. 10 and Dec. 10.

A committee of three ladies who patronize the laundry will be selected to judge these letters the writer of the one they decide is best will be given \$5. The second best \$2.50, the third \$1, and the fourth can have his or her clothes washed one week free. Now boys and girls we want every one of you to try for this prize. Some one is sure to win and it may be you.

Mothers, save your little infants from the ills so common to baby life. Take a glass of Grogan Mineral Water each day for several weeks before and after the little one's birth. It insures a strong and healthy baby. Don't delay but send \$1.25 today for five gallon jug. Satisfaction guaranteed. Fifty cents credit for the return of the jug.

Grogan Mineral Wells, Sweetwater, Texas.

SUFFERED TWENTY-ONE YEARS—FINALLY FOUND RELIEF.

Having suffered for twenty-one years with a pain in my side, I finally have found relief in Dr. Kilmer's Swamp Root. Injections of morphine were my only relief for short periods of time. I became so sick that I had to undergo a surgical operation in New Orleans, which benefited me for two years. When the same pain came back one day I was so sick that I gave up hopes of living. A friend advised me to try your Swamp-Root and I at once commenced using it. The first bottle did me so much good that I purchased two more bottles. I am now on my second bottle and am feeling like a new woman. I passed a great gravel stone as large as a big red bean and several small ones. I have not had the least feeling of pain since taking your Swamp-Root and I feel it my duty to recommend this great medicine to all suffering humanity. Gratefully yours.

MRS. JOSEPH CONSTANCE, Rapides Par. Echo, La.

Personally appeared before me, this 15th day of July, 1911, Mrs. Joseph Constance, who subscribed the above statement and made oath that the same is true in substance and in fact.

Wm. MORROW, Notary Public. Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Colorado Weekly Record. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

REPORTED BRYAN WILL QUIT JOB ABOUT MARCH 4.

New York, Nov. 23.—The Herald this morning prints the following.

Washington, Nov. 22.—From a usually well informed Democratic source the Herald hears that Wm. J. Bryan will retire from the cabinet on or about March 4, next.

Though the Herald has no official confirmation of the report, it came from a source of information, so far as can be determined where no ill wish to Mr. Bryan could be parent to the thought. No suggestion of a schism with President Wilson was contained in the report and the initiative for the change in the cabinet was said rather to lie with Mr. Bryan than with the President.

Mr. Bryan was described as desiring relief from the wearing of routine of executive duties which have become vastly magnified in the State Department by the European war. The suggestion of the Herald's informant was that Mr. Bryan will leave the cabinet "to gird up the loins of Democracy" for the battle of 1916, a task to which Mr. Bryan referred in the last issue of the Commoner.

Best Cough Medicine For Children.

"Three years ago when I was living in Pittsburgh one of my children had a hard cold and coughed dreadfully. Upon the advice of a druggist I purchased a bottle of Chamberlain's Cough Remedy and it benefited him at once. I find it the best cough medicine for children because it is pleasant to take. They do not object to taking it," writes Mrs. Lafayette Tuck, Homer City, Pa. This remedy contains no opium or other narcotic, and may be given to a child as confidently as to an adult. Sold by all Dealers.

I NEED THE MONEY.

If I have accommodated you with credit work during the past year, it was because I expected you to pay me this fall. I am in need of the money to pay my own bills, and urge all who owe me to come in and settle up and begin a new account. FRED MEYER, 11-27-c.

WHY DON'T YOU.

Why don't some of you folks who are paying rent buy one of my three real bargains and own your home? But that is your business. However, it is my business to let you know that I have these bargains. ERNEST KEATHLEY.

PATRICK BREAKS SILENCE.

He Deals Story That His Pardon Was Procured by Bribery and Discusses Charges.

Tulsa, Okla., Nov. 22.—"Absurd, ridiculous!" said Albert T. Patrick when shown the story emanating from New York, and appearing today, that his pardon from Sing Sing prison two years ago was procured by bribery.

"I was pardoned solely on the grounds of innocence," Patrick continued. "In fact, I was informed my pardon had been agreed upon two weeks before it was issued. Governor Dix held it back until Thanksgiving Day as a matter of sentiment."

That Dix was influenced to pardon Patrick upon the agreement that John T. Millikin of St. Louis, Patrick's millionaire brother-in-law, would consent to bring his wonderful mining property in the Cripple Creek District (Colorado) into a giant merger, in which it is charged Dix was indirectly interested, is the charge made.

"The fact is," said Patrick, "Millikin was willing to come into the merger, and set a price upon his property, and twice extended an option given. The reason the deal did not go through was that the syndicate did not live up to its agreement. Millikin's option expired but recently."

Since his release from prison Patrick has been engaged in the oil industry in Oklahoma. Until a month ago he was in the employ of John T. Millikin as manager of his oil interests in Oklahoma. He is now in business for himself as a lease broker. His wife died here about a year ago.

Although he has kept silent about the case until today, Patrick said that from now on he will wage a ceaseless fight to vindicate his name of any charges that may be resting against it.

PRINTED STATIONERY FOR FARMERS.

Every farmer who owns his farm ought to have printed stationery, with his name, the name of his postoffice properly given. The printed heading might also give the name of whatever crops he specializes in, or his specialties in stock. Neatly printed stationery gives you a personality and a standing with any person or firm whom you write and insures the proper reading of your name and address.

If you wish to write to your congressman or member of the legislature, or if you have a request to make of your county superintendent of schools, or if you wish information from any business house, in any case your letter will have increased weight and receive more and quicker attention if you use printed stationery.

Get the habit. Come into the Record office and have us print you 500 sheets of good paper with envelopes to match. It will be one of the best investments you ever made.

Hunters Take Notice.

My latan pasture is posted according to law, any one hunting on same will be prosecuted, this is fair warning.
