

## WHAT HAPPENED TO THE COTTON LOAN?

### FARMERS WANT TO KNOW.

#### Producers Tired of "Watchful Waiting."

By Peter Radford  
Lecturer National Farmers' Union

The government officially estimates the 1914 cotton crop at 15,969,000 bales. This is the largest production in the history of the cotton industry. The 1911 crop held the record to the present year with a production of 15,690,701 bales. I estimate we have at least two million bales in the field, much of it deserted by the discouraged farmer and will probably never be gathered. The 1914 crop also ranks among the largest in production per acre, averaging 208 pounds per acre and reaches the low water mark in price. The price officially estimated for the 1914 crop is 6 cents per pound against an average price of 12 cents per pound in 1913 and a production of 182 pounds per acre.

#### Greatest Crop—Lowest Value.

The value of the 1914 crop is six cents less per pound, or \$480,000,000 less than the value of last year's crop. This is a greater financial blow to the South than the freeing of the slaves and it has sent millions of Southern farmers and their families staggering down the thoroughfares of poverty, but the South is brave and can meet adversity. When the war was over we beat our swords into plow shares and we have the courage and ability to transform a calamity into a blessing.

The Farmers' Union asked Congress to meet the emergency by lending money on cotton so as to enable poor farmers to hold their crop, but the request was rejected, or rather modified by the government agreeing to join with bankers in providing a fund of \$135,000,000 for lending on cotton. The anti-trust law had a special construction placed upon it, the patriotism of bankers was appealed to and headlines full of hope were flashed across the columns of the leading newspapers of the nation for a few months, but where is the money? No farmer has ever seen a dollar of it. There is nothing quite so destructive to those in distress as false hope, and if this movement which has been so persistently heralded to the world has failed, we are entitled to know it.

I want to call attention to the fact that the farmer—the owner of the property involved—was never consulted in the transaction. The story was told him as children are told the story of Arabian Nights and the bed-time story of the rainbow with the pot of gold, and it seems to be about the same sort of literature. The farmers were never taken into the confidence or the councils of the business men and the government officials engaged in the transaction. We do not know why.

#### Farmers Have Squared Accounts Unaided.

It is perhaps sufficient to say that a business movement having for its component parts the most powerful forces on the American continent made an honest and strenuous effort to help the farmer and failed, and the farmers of the South are now drinking the bitter dregs of that failure. Approximately three-fourths of the cotton crop is now out of the hands of the producer and the poor farmer who most needed the money has already squared accounts and has begun the struggle to overcome the deficit that has taken school books from his children, shoes off his wife and threatens the shelter of his family, and it is his permanent relief that the government and the business men of the nation should now turn their attention.

The problem has three factors: the farmers, the business men and the government, and if all three elements will unite we can easily work out plans for relief, and the organized farmers of America are ready to do their share.

## CAPITOL UNSAFE, INSANITARY, SAY EXPERT REPORTS

### Joint Committee Will Investigate Alleged Disease Breeding Places in State Building.

Following the reading of a sensational report regarding the alarming insanitary and dangerous condition of the State Capitol, a resolution was adopted authorizing the appointment of a House committee to work in conjunction with other committees to make an inspection with the object in view of reporting a general plan for putting the building in a thoroughly sanitary condition.

The report which is signed by Charles H. Page, architect, and John L. Martin, plumber and electrician, declares the law is most flagrantly violated in regard to sanitation, that the fixtures have long been antiquated, that the heating system is irredeemably antiquated, that the wiring was not installed at all in accordance with the underwriting rules of the State and that the building could not pass an inspection according to such rules.

"In regard to the plumbing system," reads the report, "we find it in a very deplorable condition and absolutely contrary to all the rules and regulations the various cities of Texas have adopted. None of the fixtures in the toilets are vented or re-vented, thus the sewer gas is allowed to escape directly into the toilets and from there it naturally circulates throughout the building."

"We find that the various fixtures are absolutely out of date, due to the long time they have been used, and there is not one in the building that would pass a sanitary inspection. Therefore, we recommend that all the fixtures and pipes be taken out of the building and replaced with new fixtures and new pipe and the systems have the most modern equipment for venting and re-venting."

"We think this course is absolutely necessary and should be done to protect the health of the employees of the State house."

The report estimates that the work could be done efficiently for approximately \$87,000, including plumbing, heating and electrical wiring.

The joint resolution was introduced by Representatives Nordhaus, Haney and Witt and provides that "the house of representatives and senate concurring, a joint committee be appointed to consist of three members of the senate three members of the house, the State Health Officer, the State Dairy and Food Commissioner," whose duty it shall be to make a thorough inspection of the capitol and report a complete plan for renovation of the building.

## BRYAN SAYS MEXICO WON'T BE MOLESTED.

"As long as I am Secretary of State, we will under no circumstances intervene in Mexico. Villa should know this by now."

This statement was made to me by Secretary of State Bryan in his private office. Having been told that Mr. Bryan wished to see me regarding the Mexican situation, I went to his office at 4 o'clock. He drew up a chair and leaning back comfortably, he began asking me many questions regarding existing conditions in Mexico. Villa's character, Zapata's ideas, etc.

The statement quoted above came when I told Mr. Bryan that Mexicans were making preparations for American intervention, and that these preparations included the building of a cartridge factory in the most inaccessible part of the Mexican republic, which will manufacture 100,000 rounds a day.

"There is a great peace wave over this country," Mr. Bryan said, "and Villa needn't entertain any fears of an American invasion."

Mr. Bryan thought that Mr. Roosevelt, if President, might intervene; that there was little prospect of his being president again. Most intervention talk, Mr. Bryan said, is started by Americans who have personal interests down there.—By John W. Roberts.

"I obey and respect the orders of President Guiterrez," Villa says in a telegram sent from Mexico City, to his Washington agent. "I am his subordinate." Strange how modest General Villa always is, and yet he usually heads the procession.

Phone us and see what we have. We will do our best to please you.—BEAL'S MARKET.

## SAM LAZARUS AS A REFORMER; WOULD EFFACE SOCIAL EVIL.

Hon. Sam Lazarus of St. Louis and Texas and ex-Senator D. E. Decker of the United States of the Panhandle were in Fort Worth en route to the capital of the state. Mr. Lazarus has large interests in Texas. He has large interests in Missouri. He is president of the St. Louis city council and by virtue of this office is the mayor pro tem of that flourishing as well as ancient town.

Lazarus is a man of affairs, and a deep student of sociological research. St. Louis reformers have caused an upheaval and for the ten thousandth time since the crucifixion of the Nazarene they have resolved to stamp out the social evil.

As the second executive officer of the city, Mr. Lazarus investigated the ramifications of the social evil in that city. Then he invaded the libraries and book stores. Finally he evolved a plan for the abolition of the social evil. He had watched the workings of the Mann law and this gave him an idea. The Mann law provides a home in the penitentiary for the man who transports or escorts a woman across the boundary lines of a state for immoral purposes. It is equipped with a double row of shark's teeth and it catches them coming and going.

Should a gay Lothario pay the railroad fare of a professional cyprion from one point to another he is in bad for in so doing he gives an order to the warden of the federal penitentiary to get the prison tailor busy and also makes a yearly reservation for a room without bath.

This Mann law is a terror. It has made Don Juans, old and young, sit up and take notice and there can be no evasion of its penalties. Its constitutionality has been affirmed at least three times by the supreme court of the United States.

It has caught in its net hundreds of white slaves. It has tangled in its meshes men who were rich and prominent. It is no respecter of persons. It sent the son of a powerful politician of California, over the road and that politician holds a high office in the city of Washington.

This isn't all it has done. Men who lured from their homes the thoughtless and young of the country, who were in dense ignorance of the pitfalls which awaited them in the city, have been exposed and apprehended and placed behind the stone walls of federal prisons. Men who trailed and tracked poverty-stricken working girls in the cities of the nation have been made to pay the price.

One federal judge, a southerner, made a most important ruling last week. Namely, that when a man introduces a woman as his wife or registers her in a hotel as his wife, that act alone constitutes a lawful marriage and the woman is his lawful wife.

A fox gentleman without respect for the conventionalities of society prevailed upon a girl to accompany him to a hotel and pass the night there. To save himself from the ire of the landlord he registered the girl as his wife.

The Mann law caught him. He was a gay bachelor.

The grave and learned judge decided that if the girl was not his wife, she should be and forthwith provided the accused with a legal spouse and a lawful partner by judicial decree. That chap got his.

But, back to the Lazarus who does not need any crumbs swept from the table of a modern Dives.

He has decided to submit to the lawmakers of Texas a bill. It does not contain many words. Neither is it ambiguous as to the meaning of those words. It simply provides that the man who has unlawful intercourse with a woman outside the bonds of wedlock is guilty of a capital offense and upon conviction thereof shall be sentenced to undergo imprisonment in the state penitentiary for a term of not more than five years and not less than two years.

His visit to Austin is for the purpose of enlisting the aid and co-operation of the lawmakers of Texas. Mr. Lazarus would write his bill into the statutes of Texas. He believes that a law of this nature would destroy the social evil. It would compel men and women to marry. It would settle the question of reservations in cities and towns. It is drastic, nay draconian. But he insists that it would go to the root of the evil.

Ex-Senator Decker is the personal attorney of Mr. Lazarus and he knows the legislative ropes under the big dome at Austin.

Lazarus is in dead earnest. He is a very liberal and yet a very sincere

# The New Dodge Car

DODGE BROTHERS' CAR has arrived. Hundreds of people have seen this new marvel of the automobile world, which will soon be on exhibit at Colorado, shown by Messrs. Winn & Payne, Resident Agents, and Mr. Fred A. Grayum, District Dealer for Dodge Brothers. More interest has been displayed in this car, perhaps, than any other automobile on the market, from the reason that it marks the advent of a machine made up of the very best materials possible at an exceedingly low price. It has been termed the "car of mystery," from the fact that nothing was known of its makeup until it was ready for delivery.

It is an automobile complete in every detail and the confidence and desirability of this new machine is evidenced by the fact that 14,000 dealers applied for local agencies before any detail of specifications or price were given out from the factory.

To the critical observer there is nothing about this car to call forth anything but admiration. A powerful 35 horse power machine of 110" wheel base, large wheels, ample room for five passengers, electric lighted and electrically started, one man top, clear vision rain shield, full floating rear axle, genuine leather upholstery, and beautifully finished, backed up by \$60,000,000 of assets and the world-wide reputation of Dodge Brothers, who have manufactured the vital parts for more than two-fifths of all the automobiles in use, makes this a car that competes with all machines up to a value of \$2,000, the most attractive bargain on the market.

## WINN & PAYNE

man. His investigation in St. Louis astounded him, and he is on the war-path, armed with a bill that will be a companion piece as a state statute to the federal statute should it be on the governor of Texas.—Fr. Worth Record.

## COMPULSORY SCHOOL ATTENDANCE LAW BEING DRAFTED

At the request of several members of the senate and the house of representatives of the Thirty-fourth legislature, State Superintendent of Public Instruction, W. F. Doughty, is preparing a bill, providing for a compulsory school attendance law for Texas. In the preparation of this bill, Mr. Doughty has conferred and advised with many of the leading educators and friends of education throughout the state, and has given close study to compulsory attendance laws in operation in other states and nations, with a view to writing a law applicable to Texas' needs, based upon the combined wisdom of the leading thinkers of this state and the observation and experience of other states and nations. There were 166,000 children within the scholastic age, who should have been in school, but failed to attend during the entire session of 1913-14. The report of the State Superintendent also indicates that the children who did enroll in the public schools, made an attendance record slightly less than 65 per cent, which means that 35 children out of every 100 scholastics in Texas were out of school daily last year. Only five other states of the union do not have compulsory school attendance laws. Every state touching Texas has a compulsory school attendance law, and Superintendent Doughty thinks that now is the time for the people of Texas and the Thirty-fourth legislature, to give serious thought to this matter.

Owing to the abundant feed crop of Mitchell county this year, the poultry business has been given more than usual attention. Never before have chickens been as plentiful and as cheap at this season. There is every reason to believe 1915 will be a repetition of last year as to crop conditions, particularly as to feed crops. The poultry market is always good, if not locally, in the neighboring cities, at least. Why not increase your poultry stock this spring and be ready to reap some of the profits others are now getting?

Considerable repair work has been done on the county jail in order to render it more habitable and comfortable for any protracted stay. The work on the court house is still in progress. The roof of the house has already been "done" in shining sable, rent, rust and rain proof.

General appropriation bills totalling \$14,000,000 have already been introduced in the lower house of the Texas legislature.

### TWO KILLED AT SIERRA BLANCA.

Double Tragedy the Result of Dispute Over Counting of Cattle Shipment.

The following account of a double killing at Sierra Blanca last Friday is taken from the *Marfa New Era*. Mr. Boykin was brother-in-law to Mr. D. M. Logan, section foreman for the T. & P. at this place.

"Following a dispute over the counting of some cattle in the Texas & Pacific stockyards at Sierra Blanca last Saturday morning at 8 o'clock, F. Boykin of Sierra Blanca, was shot and instantly killed, and Walter Sitters, 19 years old, received a wound which resulted in his death several hours later.

Following the shooting H. L. Robertson, formerly a State Ranger, but recently foreman of the T-O ranch, surrendered to State Rangers Ira Quinn and Pat Craighead, and was taken to El Paso and lodged in the county jail.

According to the testimony given by witnesses at the hearing before Justice of the Peace J. J. Murphy in El Paso, the early part of this week, it seems that Boykin, in company with a man by the name of Cross, went to the stock pens about 5 a. m. Saturday morning to load some cattle, and while thus engaged some of the animals got mixed with others in the pen and Boykin and Cross were engaged in counting the animals when Robertson rode up. Harsh words were exchanged between Robertson and Boykin. Robertson struck Boykin with a rope which the latter pulled away from him. Boykin had a knife in his hand. Robertson pulled his pistol and fired. It was thought that this first shot was the one that hit young Walter Sitters, as Robertson's horse wheeled around when he pulled his gun. Four more shots were fired, according to testimony given, all four shots striking Boykin.

The shot that struck young Walter Sitters was an accidental shot as he and Robertson were the closest of friends, and both were employed by the T-O ranch.

It was stated that there was considerable bad feeling in Sierra Blanca against Robertson and the T-O people.

Robertson was held to the grand jury; his bond being fixed at \$500."

### GIRLS! DRAW A MOIST CLOTH THROUGH HAIR.

Try This! Hair Gets Thick, Glossy Wavy and Beautiful at Once—Stops Falling Out.

Immediate?—Yes! Certain?—That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

Carranza dispatches from the City of Mexico declare that anarchy, panic and disorder reign in that city. It is alleged that many women are near death as result of assault by Villa troops.

Weather Prophet, Irl Hiaks foretold the recent cold snap almost to a day. He also says the closing days of January will be marked by severe cold and violent storms, extending to the gulf. He warns all to make preparation for the comfort of both man and beast.

### FERGUSON GETS TENANT FLANK PLACED IN BILL.

Committee Endorses Wilson's Administration, but Not Colquhitt's.

Austin, Jan. 23.—Governor Ferguson's tenant relief bill was introduced in the house today by Reeves and Bagby. The Senate Affairs Committee favorably reported the bill endorsing President Wilson and rejecting the bill endorsing Governor Colquhitt. It also favorably reported a bill to force railroads to roof their cotton platforms.

General appropriations bills totaling \$14,999,000 were introduced in the house this afternoon by Bryan.

The penitentiary committee of the house this afternoon decided to take a junket trip to investigate the entire system.

### EXCELLENT FOR STOMACH TROUBLE

"Chamberlain's Tablets are just fine for stomach trouble," writes Mrs. G. C. Dunn, Arnold, Pa. "I was bothered with this complaint for some time and frequently had bilious attacks. Chamberlain's Tablets afforded me great relief from the first, and since taking one bottle of them I feel like a different person." For sale by all dealers.

### BY LEAPS AND BOUNDS.

In his weekly letter, dated Saturday last, Henry Clews, the New York banker, thus informs:

"By far the most encouraging element in the present situation is our foreign trade. Our exports are progressing by leaps and bounds, due to liberal foreign orders for war material, to heavy exports of wheat at high prices and to practical resumption of cotton shipments. The outward movement on these accounts is by no means at an end, and the orders for war materials promise to run to even much larger amounts. The effect of this foreign demand for American products at a time when imports are running comparatively light, is to leave a heavy excess of merchandise exports estimated at \$110,000,000 in December and as much as \$40,000,000 in the first week of January. If these tendencies continue, conditions will soon favor a large influx of gold, unless Europe should send back American securities more freely than at present, or unless European banks should undertake to restrain the movement by artificial means."

### TRY IT! SUBSTITUTE FOR NASTY CALOMEL.

Safely Cleanses Your Liver Without Making You Sick and Cant Not Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tonic is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tonic is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tonic is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness, and constipation, you have only to ask for your money back.

Dodson's Liver Tonic is a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work. Take Dodson's Liver Tonic instead and feel fine, full of vigor and ambition.

Citizens of Brownwood and San Angelo enjoyed snowballing last week for the first time in the history of either town.

Some people give the impression that they believe every word they say.

### SAFETY FIRST WITH THE SOLONS

One of the very first resolutions introduced in the state senate was to appropriate \$5000 out of the contingent expense fund for the purpose of remedying the "insanitary conditions of the Senate chamber" and the committee rooms, which conditions the honorable stated, were a serious menace to the health of the members and employees of the Senate.

Hardly had the resolution been introduced when Mr. Townsend jumped to his feet and declared he was confident the work could be done for \$500 and he thought the Senators should have an opportunity to investigate conditions before voting this money.

In answer to Senator Townsend, Senator Hudspeth called attention to the fact that two members had died immediately after the Thirty-third legislature had adjourned, attributing their death to the insanitary condition of the capitol.

Senator Clark, one of the signers of the resolution, pressed its passage, declaring there were 100,000,000 germs floating around the corridors a perpetual and serious menace to the health of everyone.

Senator McNealus also pleaded for favorable consideration of the resolution, declaring he believed the prevailing conditions were largely responsible for the death of his old desk-mate.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets tonight! put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gasses and constipated matter which is producing the misery.

A 10 cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing, too.

### MILLION ARE HELD AS WAR PRISONERS.

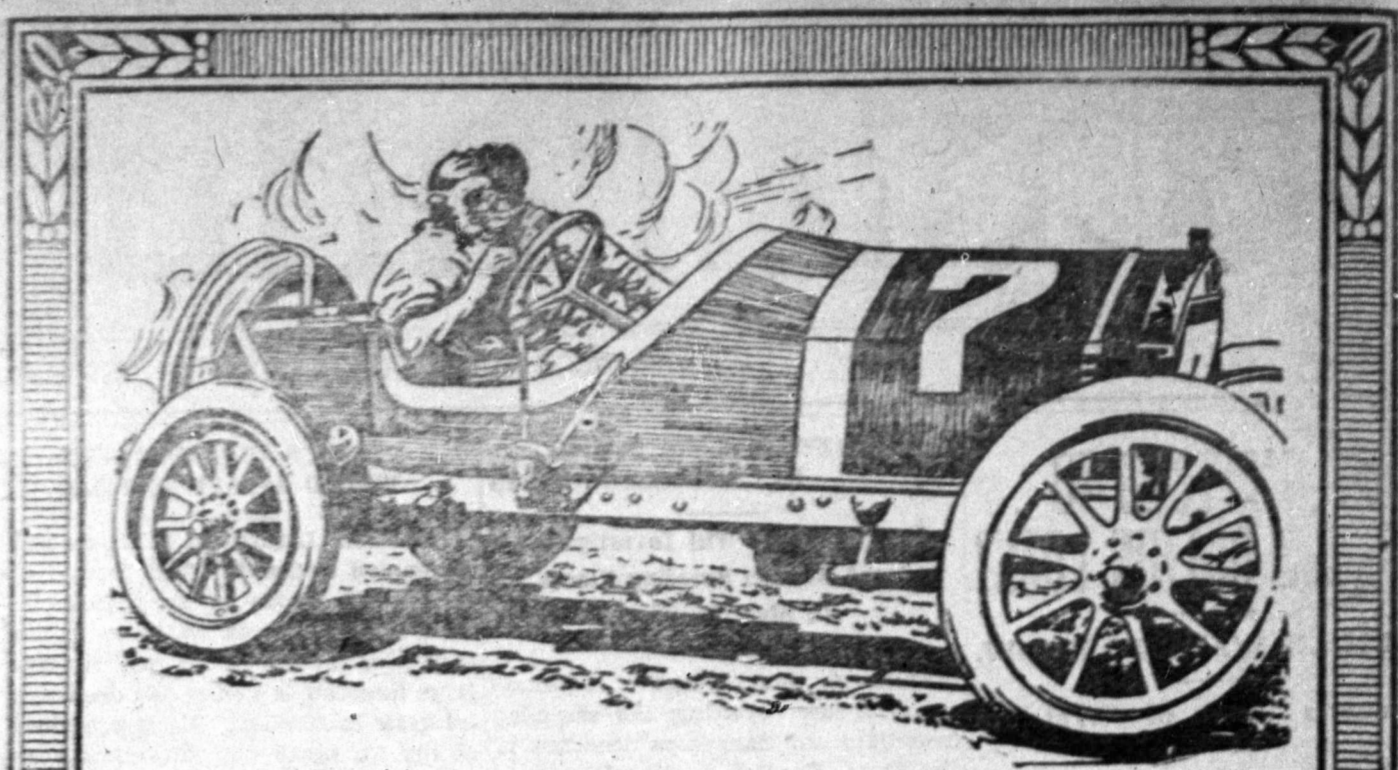

Official reports state that the prisoners of war in Germany and Austria now number 800,000. The Cologne Gazette compares this figure with 200,000 prisoners which it asserts are held by the allies. These totals do not include prisoners now en route to concentration camps or a portion of those captured in Russian Poland. The Austrian prisoners are estimated at 200,000. The total of 800,000 is more than double the total of the Franco-Prussian war.

### GREAT NEED OF VETERINARY SURGEONS

Texas, with an investment of \$393,471,990 in domestic animals, has only seventy-five licensed veterinarians to safeguard and protect these animals. That, says Dr. Mark Francis, professor of veterinary science at the Agricultural and Mechanical college, and whose work with the Texas fever tick has saved the state more than the total appropriations made for the Agricultural and Mechanical college, is the reason why the Thirty-fourth legislature should appropriate \$150,000 for the establishment of a school of veterinary medicine at the college. This appropriation was made by the Thirty-third legislature but was vetoed by Governor Colquhitt.

The \$150,000, for which the board of directors of the college is asking, will provide for the erection and equipment of a veterinary science building and for the necessary teaching staff. Five instructors, one in veterinary anatomy, one in physiology, another in pathology, one in medicine and one in surgery, must be maintained to make the school measure up to the requirements of the civil service. The college now has four graduate veterinarians and three of these not only have advanced work in the best schools of America, but have pursued their studies abroad. In addition to the instruction of students candidates for the degree of doctor of veterinary medicine, the building would be utilized by those engaged in the work of fighting hog cholera, Texas fever, and other diseases of livestock common in Texas.

If you intend to preserve your citizenship, better pay that poll tax before February first.

## Winning the Race

Louis Disbrow, who has secured every world's record for automobile racing up to fifty miles on dirt tracks, demands of the products which he uses quality and service capable of withstanding the most severe treatment.

Disbrow says himself that the class of racing he does is particularly hard on the motor, owing to the dust which comes in through the carburetor and gets into the cylinders.

For THREE YEARS Disbrow has used

TEXACO MOTOR OIL and TEXACO GASOLINE

with the exception of two months when he didn't have them.

In nearly three years he had not ground a valve, taken up a bearing or removed carbon from the motor.

In the two months he was using other oils he did these things twice.

TEXACO MOTOR OIL AND GASOLINE

saved him (in his own words) 20 per cent gasoline and 30 per cent oil.

Here is a product made in Texas by The Texas Company, expressing fully the quality and service which have made the Lone Star Emblem world famous in the oil business.

### SEIZURE OF SHIPS IS BIG LAW POINT.

Believe Dacia Must Go Before Prize Court Eventually; State Department Powerless.

Washington, Jan. 23.—Administration officials believe the cotton ship Dacia sooner or later is bound to go before a prize court if she undertakes the voyage from Galveston to Rotterdam via Norfolk, but it was pointed out that they were powerless to avoid this issue.

The state department was presented with evidence that the Dacia, a German-owned steamship, had been sold to an American citizen and under the law there was no power to refuse her registry as an American ship.

That the British government has a perfect right to test the genuineness of the transaction by which the vessel changed her flag is admitted generally and the proper authority to pass upon this question is a British prize court. Apparently the burden of proof is upon the purchaser of the vessel in view of the fact that she was purchased from a German company by a German-American and is carrying cargo destined for Germany.

The prize court will be governed by the well established rules of evidence for such tribunals, it is pointed out, and the United States government is not bound to accept the findings of such court if they appear to be in conflict with the facts and evidence. In that event the case may be treated diplomatically after the court has ruled.

Much time naturally will be consumed in these proceedings after the seizure of the ship and during that period it is believed here to be scarcely probable that further ventures of the same character will be undertaken.

The case of the food laden steamer, *Wilhelmina*, which cleared from New York for Germany is attracting much more interest at the state department than that of the *Dacia*. Though the exporters of the cargo appear to feel con-

fidant that neither the ship nor the food can be detained by the British owing to the admissions in the British note replying to the American protest against interference with shipping, their confidence is not shared by all officials here.

While it is true that the British government having in mind Lord Salisbury's declaration in regard to the exemption from seizure of food cargoes destined for the civil population of belligerent countries indicated an intention of living up to this view, it is pointed out that certain reservations were made under which the cargo might be seized.

The state department declines to make public its action in the case of the steamer *Farn*, which has been ordered either to interne or to leave San Juan, Porto Rico. It is regarded as unneutral for the department even to admit that such an order has been issued, much less to state the time allowed for the German lieutenant commanding the *Farn* to obey the order of the American collector, in view of the fact that British cruisers are known to be on watch for the ship.

### Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Frank Z. Bishop went from central Texas to Corpus Christi in 1910 with something like \$600 in his pocket. He declared he was going to build "a rattling good town to order" in a section at that time the habitat of the longhorn and coyote. He acquired a part of the great King ranch and built his town to order 20 miles west of Corpus Christi. The town had everything of a modern nature in the way of improvements; thousands of acres of land were put in cultivation and sold to farmers in Illinois, Missouri, Kansas

and Texas. 30,000 acres were planted to cotton last year. From the outside Bishop was a veritable millionaire and all seemed plain sailing. But last week a deed of assignment was recorded in the county clerk's office of Nueces county for the benefit of his creditors. Assets were scheduled at \$1,262,000 and liabilities at \$792,344. Mrs. Henrietta King, owner of the famous Santa Gertrudis ranch, is the principal creditor, holding a claim against Bishop for \$300,000, all secured. The John Hancock Life Insurance Company is the second largest secured creditor, holding claims for \$200,000.

### OUCH! RUB BACKACHE, STIFFNESS, LUMBAGO.

Rub Pain From Back With Small Trial Bottle of Old "St. Jacob's Oil"

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacob's Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin.

Lumber up! Don't suffer! Get a small trial bottle of old honest Jacob's Oil from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

R. E. Rushing of Sweetwater mysteriously disappeared from the home of his brother-in-law, I. Brock, at Fort Worth, whom he was visiting, and no word has been heard of him since. Foul play is suspected, as Mr. Rushing had with him at the time, a considerable sum of money.

**INTERNAL CATARRH**

"Peruna Has Done Wonders For Me. I Was So Weak."

Mrs. M. P. Curry, P. O. Box 615, Petersburg, Ill., writes: "I have been troubled with internal catarrh since my girlhood, and was sick in bed three months. When I was able to get up I was so weak and thin I could hardly walk. What I ate disagreed with me. I had stomach and liver trouble, and my feet and limbs were swollen so I could scarcely drag around."

"I took Peruna and it has done wonders for me. My cure was a surprise to my friends for they never expected to see me well again. I just took two bottles of Peruna after doctoring for five months and growing worse all the time."

**Continuous Headache.**  
Mrs. Esther M. Miller, Box 191, De Graff, Ohio, writes: "I was a terrible sufferer from internal catarrh, and had the headache continuously. I was not able to do my housework for myself and husband. You recommended Peruna. I took four bottles and was completely cured. I think Peruna a wonderful medicine and have recommended it to my friends."

**NINTH COTTON GINNING REPORT.**

14,907,000 Bales Ginned Prior to Jan. 16th. 4,120,000 Bales Ginned in This State.

Washington, Jan. 23.—The ninth cotton ginning report of the season, compiled from reports of Census Bureau correspondents and agents throughout the cotton belt and issued at 10 a. m. today, announced that 14,907,000 bales of cotton, counting round as half bales, of the growth of 1914 had been ginned prior to January 16th. This compared with 13,582,936 bales or 97.1 per cent of the entire crop, ginned prior to Jan. 16th last year, 13,088,930 bales, or 97.0 per cent in 1912 and 14,515,799 bales, or 93.3 per cent in 1911. The average quantity of cotton ginned prior to January 16th in the past three years was 13,728,921 bales or 95.8 per cent of the crop.

Included in the ginnings were 50,000 round bales compared with 96,807 last year, 78,690 in 1912 and 97,654 in 1911. Sea Island cotton included numbered 79,000 bales, compared with 76,277 last year, 70,758 in 1912 and 109,867 bales in 1911.

Ginnings prior to January 16, by states, with comparisons for the past three years and the percentage of the entire crop ginned in those states prior to that date in the same years follow:

State	1914	1913	Per Cent
Alabama	1,676,000	1,473,154	99.4
Arkansas	941,000	967,687	93.2
Florida	88,000	65,765	98.6
Georgia	2,596,000	2,314,101	98.6
Louisiana	434,000	420,384	96.2
Mississippi	1,432,000	1,176,539	94.0
North Carolina	853,000	732,817	93.5
Oklahoma	1,147,000	825,069	97.9
South Carolina	1,426,000	1,368,774	96.5
Tennessee	342,000	358,275	97.7
Texas	4,120,000	3,715,418	98.5
All other states	136,000	111,053	92.4

Ginnings of Sea Island cotton prior to January 1 by states:  
1914, Florida 32,000; Georgia 41,000; South Carolina 5,000. 1913, Florida 25,000; Georgia 42,650; South Carolina 3,261.

The next ginning report of the Census Bureau will be issued at 10 a. m. Saturday, March 20, and will show the quantity of cotton ginned throughout the season.

**THE PROPER COURSE.**

Information of Priceless Value to Every Colorado Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a nearby resident who has used them and publicly tells of the benefit derived.

Mrs. S. P. Dally, Big Springs, Texas says: "Doan's Kidney Pills have done me a great deal of good whenever I have had occasion to use them. My kidneys were disordered and acute pains darted through my back. The kidney secretions were irregular in passage. The first few doses of Doan's Kidney Pills helped me and two boxes cured me. Another of my family has also taken Doan's Kidney Pills with success. You are at liberty to continue the publication of my former endorsement of Doan's Kidney Pills." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Dally had. Foster-Milburn Co. Props. Buffalo, N. Y.

**WHY ASYLUMS ARE CROWDED.**

McNealus Says Relatives Want to Get Rid of Insane.

That there are 25 per cent of the inmates of the insane asylums of the State of Texas who are not insane but are kept there by relatives who merely want to get rid of them, was the declaration of Senator James C. McNealus.

"We hear all this talk about the insane asylums of the state being overcrowded," said Senator McNealus. "That is the case, but there are 25 per cent of the inmates of those unhappy institutions who are kept there by relatives who merely wish to shift the responsibility of their keeping from themselves to the state. If we would rid the insane asylums of this condition, and remove the insane now confined in the jails of Texas, we should see to it that those persons in the asylums who are not insane should be sent back to their relatives, where they properly belong."

COLORADO, TEXAS, JANUARY 29, 1915.

"The affair occurred in a saloon on Chadbourne street," is the very significant statement in the San Angelo Standard's account of the most serious cutting scrape that had occurred in that city in years. Naturally, where else?

Wichita Falls and San Angelo are the only two towns of significance in West Texas in which the open saloon flourishes, and in these towns the saloon exists only by reason of the preponderance of the town vote. The balance of the counties don't want them.

As in the case of all other machinery subject to the direction of the human element, a "fool-proof" aeroplane has been devised. If so, it is the first human product to resist the fool folly bent. Fate, in its grim humor has given the fool a power that wisdom has been trying for five thousand years to overtake and prevent.

Evangelist Ham, who has been conducting a red hot revival at San Angelo the past two weeks, declared in one of his sermons that he "did not come to San Angelo to put out the saloons. Hypocrisy in the churches and the ball room craze are ten times worse problems than the saloons. The job of trying a can to the saloons would be ten times easier than to knock out the dance."

The progress of the steamship Dacia which cleared from Galveston last Saturday with a cargo of cotton consigned to Bremen, Germany, will be watched with interest by the state department of this country, as well as by the general public. If England seizes the vessel, as that country declares it will, some important international questions will have to be thrashed out by the two governments. Mr. Bryan had better begin to stiffen his vertebra with generous potatoes of grape juice.

Along in the early eighties there was a book called "The Dance of Death" written by one of the leading society women of Washington and New York, which had a tremendous vogue at the time. In view of the crusade being made against the more recent and intimate dances in certain quarters, we have frequently wondered why some of the more fanatical opposers of the dance have not resurrected the book. In the matter of invective and sensual realism, no book, writer or dancer of today, has a single thing on it.

Talk to the average one-crop West Texas farmer about burdens of the cotton crop and advantages of diversification, and he not only agrees literally with you but goes you a few lines better by declaring that only a fool will continue under the old system of all cotton and nothing else. Suggest to him the benefits of a home acre with a saving of half the living expenses, and he'll grab your hand and assure you he believes you are nearly as smart as he is. Speak of the opportunity for raising a little wheat, oats, rye, etc., and he thinks just as you do about it. "Everybody ought to do these things," and then he goes right home and gets under the collar to pull some supply merchant's ass from the ditch. And if the merchant doesn't happen to have an assine quadruped in the ditch just then, this particular kind of

farmer, we're talking about will help push one in, and if the merchant hasn't one to push in the ditch, this particular kind of farmer will get him one. The main thing with him is, he's gotten the habit of pulling someone's ass from a ditch and isn't happy unless performing that neighborly kindness. His name? Oh, its Legion.

If you don't pay your poll tax without delay—before February 1st—you disfranchise yourself, that is, you disqualify yourself to vote, but can be forced to work the roads and still have the glorious privilege of enlisting in the army and being shot in case of war. However, better pay your poll tax today.

Compulsory education and a no-fence law are both bitterly opposed at first by the mass of people, as it requires much trouble and no little extra expense many times to prepare for their operation. But once in effect nothing could induce them to revert to the old order.

Keep your head cool, your feet warm and your bowels open, this is the crystallized wisdom of the ages for long life, health and happiness while here. And in the fear of the Lord, for the hereafter.

Alas, poor Willie of the Crosstie Route! If the "Trespass Law" now pending before the national congress becomes a law, the pioneer tourists of "See America First" propaganda, will either have to stagnate or go to work. The proposed bill makes it a trespass for anyone to walk on a railroad company's track, right of way or ride on one of its freight trains. About the only way one can use the railways for transportation will be to buy a ticket and make a contract right to be on its property.

They—Jerome principally—have gotten Harry Thaw back into New York state and will try to recommit him to the asylum for the criminal insane. Thaw may be all and more of what is alleged against him, but he did a benefit to humanity when he removed the satyr known as Stanford White. In commenting upon his death and the trial of Thaw, the Boston Globe remarked in view of the refusal of White's wife to have anything to do with the trial: "Bad indeed must be the man for whose death not one woman mourns."

Mrs. Maggie O'Leary, made famous by her cow kicking over a lamp and starting the great Chicago conflagration in 1871, has just died at her home at Escaban, Mich. The fire raged for two days and two nights burning over an area of 2000 acres and doing property damage to the extent of nearly \$200,000,000. Realizing the damage she had innocently caused, Mrs. O'Leary kept the secret of her cow's kick for many years.

"No one, American or foreigner, is safe in Mexico today if he has a few dollars jingling in his pocket," declares ex-governor George Curry, of New Mexico, who has just returned from that country. Mexico has nothing on Dallas, Houston or Fort Worth in this respect. And the "few dollars a-jingling" are not necessary for an ambulance ride in the latter places.

### IN THE SAME BOAT.

The University of Texas is broke. Students who have been earning their expenses by doing odd jobs for the University are met at the paymaster's desk with the laconic rebuff, "No funds." When a man knocks reams of paper through the typewriter, and goes after his pay for the job, it is rather hard to find out that he has his work for his pains and can whistle for his money. In the mean time he can continue to wear last year's shoes and stand off the landlady as best he can.

A. & M. College, for once ought to be able to sympathize with us. If the downtown papers' reports of legislative proceedings are correct, the college is out of fuel, or nearly out, and an emergency appropriation will be needed to get through the year. This is apparently what years of suspicion and discord have brought us to. It is a token of the trend toward better feeling which is coming to be between the two institutions that there is a realization on both sides that there is precious little to be gained by strife.

Over in this neck of the woods a tiny percolating suspicion is beginning to soak in on us that a man who is over there trying to make himself of some use as raiser of what we eat and wear is no worse than the man who is over here trying to learn something else. When this suspicion grows a little—and it is getting stronger every day—we will be able to laugh at our former squabbles. Are we not bone of one bone and flesh of one flesh, sister institutions with a common aim? At all odds we are broke together, and that is a sympathetic bond stronger than hoops of bailing wire.—Daily Texan.

### IMMIGRATION BILL.

Just at the end of President Taft's administration a bill was passed restricting the immigration to this country which he vetoed. A similar bill passed the house of representatives about a year ago by the vote of 252 against 126. This is a two to one vote and will pass a bill over President Wilson's head if he should be so foolish to veto the same. The bill passed the senate by a still greater vote of 50 against a bare 7 opposing votes. It is claimed that President Wilson is opposed to the "literacy test" which would exclude all foreigners who can neither read nor write in their own language, nor the English language. This of course would exclude quite a number of honest, worthy and desirable immigrants. But, however, the time has arrived when immigration to this country must cease entirely, because they are spreading crimes throughout the United States at an alarming rate. For instance, you can go to a certain gang in New York City and pay them \$25.00 in and thirty days they will murder any person you wish to have out of the way. The Evening edition of the "New York Herald" is the authority for the statement, that since business has been dull you can now have anyone murdered for over five dollars. This is the immediate result of the unlimited immigration from foreign countries who settle in the larger cities such as New York, Boston, Philadelphia, Chicago and others and they will not work on the farms, and so they are a burden and a tax on the thrift and industry of the United States.

### "SIC VOS NON VOBIS."

For the fourth time in the reading of this writer, the man who wrote the lines: "Laugh and the world laughs with you; weep and you weep alone," died last week. This time it was John Jace and his passing was in New York. Wonder what Ella Wheeler Wilcox thinks of it all?

Col. William G. Sterett, who for the past four years held the office of Fish and Game Commissioner for the State of Texas, will return to the Dallas News on February 1st. He has been with A. H. Belo & Co. publications since 1885, except during the year he took a fling "at the urgent solicitation of his many friends" for a seat in congress, and the four years he served as commissioner. Readers of the Dallas News will welcome his return to newspaper work.

The Trinity and Brazos rivers of Texas have become annual jokes in the national congress. As ladies for the "pork barrel" they have served the purpose of several congressmen who wished to continue warming their seats, but as a practical proposition, appropriations to make them navigable, are literally a farce and deserve all the ridicule their mention on the floor of congress evokes. It would be a saving to the national treasury, if the entire body of congress would come down to Texas and view these "grand and noble streams," as Senator Sheppard calls them.

"When I lie in heaven" is the title of a recent poem by the Bentztown Bard. You'll never get there, Partner. Lairs have no place in that country.

### LEADER WAGSTAFF.

The king-maker is greater and more powerful than the king. The man who is to shape affairs in the Texas legislature during the next two years isn't named Ferguson nor Hobby nor Woods. When Ferguson wants help, he will send for Wagstaff. When Woods is in a dilemma, it will be Wagstaff who will pilot him home.

We know nothing as to the man's antecedents. Whether he is from the wiregrass region of Georgia, the Cumberland mountains of Tennessee or the red hills of Cherokee is outside the pale of our information.—Waco Times Herald.

He's a native of Maury County, state of Tennessee, Lynnville Post Office and came to Texas with his father about 1890, settling at Buffalo Gap in charge of the school at that place. He moved to Abilene in the early nineties and has been forging steadily to the front every day since. He is a Presbyterian by inheritance, inclination and strict practice—keeping the Sabbath Day and all other good things that come to hand.

Now comes a scientist and predicts that the day will soon come when a dog and his master will sit down, by a fireside at night and engage in an animated discussion of the day's hunt. We admit we are yet a little in the dark as to whether the man or the dog has the growing to do before this can come about but as for us we have decided that we will not have any talking dogs in any family which our influence might reach. The very thought of what a dog like that might say to the neighbors after a whole day with you alone in the fields is enough to make us a pronounced opponent to the scientist in question.—Beaumont Journal.

Imagine the result if poodle dogs should become gifted with the power of speech.—Austin American.

It has long been the dream of Russia to possess Constantinople and control the Dardanelles, which is known as the "Eye of the World," owing to its strategic and commercial importance. Developments in the fortunes of war seem to promise a realization of this dream, but, in the event Russia held this important point, the interests of England in India would menace, and war between these nations would sooner or later result. One thing seems certain as an outcome of the present war—the doom of the Ottoman Empire in Europe and the probable wreathing of Palestine from the hand of the Turk.

Multimillionaire Henry Ford is seeing big again through his altruistic glasses. After distributing ten millions of the profits of his automobile business among his employees, knocking out tuberculosis as a mere diversion, lending his counsel on financial matters to the Wilson administration, he now goes before the U. S. Commission on Industrial Relations and guarantees to take every convict out of Sing Sing penitentiary and make an honest man of him simply by giving him a job in his factory. This all reads well in black ink on white paper and doubtless makes efficient advertising copy, like Mr. Ford's other altruistic visions, but Mr. Ford seems to overlook the fact that very many of those men are now in the penitentiary because they did hold good and responsible jobs.

That excellent howitzer "T. R." seems to be minus an adequate cement foundation these days.—Greenville (Ala.) Advocate.

### A BRILLIANT SUCCESS.

The general press dispatches describe the inaugural ball as a brilliant success, "greatest of them all," "magnificent gowns add splendor," etc. However, we take the following from the columns of the Daily Texan, who was also there:

"Ropes were stretched to keep the multitude of humanity back, but to no avail, for the Texas students were so desirous of seeing their new chief executive and all the ladies adorned in their evening attire, that they willfully severed the ropes with their pen knives and forced the crowd to be kept back by sheer force. 'Mob' would not begin to describe the attendance. The students alone that attended would have been all the ladies would have comfortably held, and these in addition to the six train loads of the out of town folk and thousands of the Austin contingent made life miserable, rather than the time enjoyable."

Don't allow the community's immunity from fires this winter to lull you into a sense of security or begot carelessness. Our coldest weather is yet to come according to the weather wise and past experience. Better see that your flues are clean and in sound condition and that your chimneys need no attention.

### WHY WORRY?

Why should we murmur and complain When things are not just right? Some gloomy days we always have. While some are fair and bright.

Away back when the world was young They had their ups and downs; Sometimes it was fair Eden's smile, Sometimes Jehovah's frowns.

We worry when it's wet and cold These dreary winter days; Not that it helps those things at all, It's just our foolish ways.

We're startled when some one does wrong, Surprised and filled with fears, As if it hadn't been this way All these six thousand years.

We're prone to talk about the bad, With nothing good to tell; But God in heaven rules the world And rules it very well.

And though we try on, all our lives To do our very best, We'll have to cross the cold, dark stream To reach the land of rest.

### THE CLUBS.

#### BAYVIEW.

Mrs. R. O. Pearson was hostess for the Bayview last week with Mrs. C. T. Harness as leader. The lesson was: Roll call, quotations from Shakespeare, Coriolanus, act V, scenes 1, 2, 3. Silas Marner, Chap. 9. Mrs. John C. Moorar was a guest. A delicious two course luncheon was served at the social hour.

#### STANDARD.

The Standard met with Mrs. Burns last week and this program was carried out: Roll call, items about the Nile. Much Ado About Nothing, act 3, scenes 1, 2, 3. Africa, Chaps. 2, 3. leader Mrs. Coleman. Magazine, The French Dahomey and Southern Nigeria, Mrs. Smoot. Paper, The Camel and the Locust, Mrs. Burns. Social hour, refreshments.

#### HESPERIAN.

The Hesperian met with Miss Maddin last week, with Mrs. Doss as leader. Roll call, The Influence of Browning—a personal experience. Reading, O, Lyric Love, Mrs. Barcroft. Reading, Prosopie, Mrs. Phenix. The Epilogue to Ascolando, Miss Dry. Discussion, did Browning's faith and optimistic philosophy he preached stand the test of time and sorrow? The Club. Compare with Brutus in Julius Caesar, Mrs. Barcroft. The program was concluded with a quotation contest to see who could give the most quotations from the author just studied, Browning. Mrs. J. L. Allen and Mrs. M. K. Jackson had the distinction of standing the longest. Misses Louisa Roe, Boss McMurry and Eleanor Coleman were guests. The hostess served a feast of turkey, salad, jelly, hot biscuit, coffee and cake and iced grape juice. The meeting today is with Mrs. Allen.

#### MRS. MADDIN ENTERTAINS.

Monday afternoon Mrs. A. E. Maddin delightfully entertained her neighbors, honoring her cousin, Mrs. Clark, who has been with her for some weeks and who left Wednesday for her home in Galveston, by having them spend the afternoon with her. All brought their work, and a very pleasant time was had working and talking. Mrs. Maddin served most appetizing and appreciated refreshments of sausage, hot biscuit, salad, pickles and sandwiches, followed by grape juice and cake. The shadows lengthened and home going time came all too soon. It was the wish of all that Mrs. Clark may visit Colorado again soon.

#### MISSIONARY SOCIETY.

The Missionary Society of the Methodist church held its regular monthly meeting with the president, Mrs. D. N. Arnett Monday afternoon. After the devotional exercises the regular business was transacted. The officers gave their reports for the past year and plans and pledges were made for the coming year. The treasurer's report was as follows: Home and Foreign Missions \$100.00; work of prayer \$14.20; local work \$288.70; dues \$76.50; box to orphans home at Waco \$20.00; box to rescue home at Dallas \$20.00; on scholarship for training school \$5.75; total \$525.15.

### AID SOCIETY.

The Ladies Aid Society of the Christian church held their regular meeting last week with Mrs. Leslie Crowder. The treasurer's report showed that \$403.75 had been taken in, an increase of \$37.35 over the previous year. The time of meeting was changed to Thursday instead of Monday. Mrs. Crook was a guest. The following officers were elected: Mrs. Ed Jones, President; Mrs. Broadus, Vice-President; Mrs. Hale, Secretary; Mrs. Marshall, Treasurer.

### MISSIONARY SOCIETY.

The Baptist Missionary and Aid Society met with Mrs. Geo. W. Smith last Thursday with Mrs. A. L. Whipkey as leader. The subject was "Our Local Organization." After the bible lesson Mrs. T. J. Ratliff read the Constitution. Mrs. Smith gave a short history of the organization. Mrs. Smith and Mrs. Harness are the only members that were in the first organization. Mrs. Smoot and Mrs. Hooper have been active members since the reorganization more than twenty years ago. Mrs. Hooper read the Standard of Excellence which contained ten points. It was found that this organization fell short in two points—Increase in membership and increase in gifts. They decided to strive this year for the Standard of Excellence. Several who had not been regular in attendance promised to be at all the meetings if possible this year and Mrs. Jack Smith and Mrs. Goss enlisted as new members. After the program ladies of other denominations came in for the social hour and a musical program by Mrs. Royall G. Smith, Mrs. J. H. Guitar, Misses Jeanette Earnest and Lela Whipkey. It was announced that this part of the program was in honor of Miss Swan, sister of the hostess, a missionary in China, and the offering, with love and good wishes, would go to her, assuring her that her personal friends are thinking of her. Delicious sandwiches and tea were served by the hostess and her daughters, Mrs. R. O. Pearson, Mrs. Royall G. Smith and Miss Mabel Smith.

### GEORGE ODERBOLZ DIES VERY SUDDENLY

Mr. A. J. Payne received a telegram Tuesday conveying the sad intelligence that Mr. George Oderbolz had died very suddenly that morning at Alvarado, where he and his family had been living for two years or more. Interment took place at Calvert, where deceased was reared, and where several relatives now live.

For many years Mr. Oderbolz was a citizen of Colorado, working most of the time for Burns & Bell as salesman. He had many friends here who will grieve at his sudden death. He had many commendable characteristics and was popular in business circles. He married Miss Nina Stone-rod of this city, who with a daughter survive him. The Record extends condolence to the bereaved relatives in their loss.

### PRESBYTERIAN S. S. REPORT FOR 1914.

The following report was read last Sunday by the secretary of the Presbyterian Sunday school:

The school has had an average enrollment for the year of 93, which is more than the enrollment of the church. There was an average attendance of 68. The total amount contributed by the school was \$252, which was disbursed as follows.—Incidentals and literature \$73.00. Sabbath School Extension, \$13.00. Home Missions \$13.00. Foreign Missions \$51.00. Ministerial relief \$7.00. Orphans Home \$52.00. Balance \$43.00. The average contribution per member for the year was \$2.71.

This is indeed a creditable report but is in keeping with past offerings of this devoted congregation. Few churches of like numerical strength of this denomination or of any other, have so liberally supported every interest fostered by the general church as this Colorado church. Both Pastor Duff and his members are to be congratulated on the above showing.

### DEATH OF MRS. H. WRIGHT.

From the columns of the Waco Times-Herald we take the following notice of the death of Mrs. H. Wright, who, at the time of her death, was visiting her daughter in St. Louis. Col. H. Wright left here some weeks ago to spend the holiday season with them and was at his wife's bedside when the end came.

H. F. Montgomery is in receipt of a telegram announcing the death in St. Louis of his mother, Mrs. H. Wright, who would have been 72 years old on the first of next February. She passed away at the home of her daughter, Mrs. Louise Muren. The remains have been shipped to Waco, and will arrive here tomorrow afternoon at 1 o'clock on the Katy limited. The funeral will take place Sunday afternoon at 3 o'clock from the home of Mr. Montgomery, 2301 Lasker street. Rev. J. R. Morris pastor of the Fifth street Methodist church, will officiate. The pall-bearers are N. S. Hill, W. H. Bohner, J. J. Shrader, Lee R. Davis, E. E. Bexley and A. B. Garber.

Mrs. Wright had been a resident of Waco for many years, but for the past eight years she has lived at Colorado, Texas. She was known to many in this city, and was universally beloved and esteemed. She is survived by her husband, two sons and one daughter, and these have the sincere sympathy of many in their great bereavement.

### MR. POND DIES SUDDENLY.

Mr. Ephriam Pond, aged 76 years, father of our fellowtownsman, W. H. Pond, died very suddenly last Sunday morning, at the home of his son, in East Colorado, of heart failure. The remains, accompanied by W. H. Pond and mother, were shipped to Clifford, Indiana, for interment. Mr. Pond seemed to be in the best of health up to the moment of his sudden death, neither he nor his immediate family having the least premonition of his coming end. The Record extends sympathy in behalf of the community, to the bereaved family.

### BIRTHDAY DINNER.

It has been reported lately that Mr. Gustine is growing childlike and it must be so, for on his birthday, Tuesday, he had a crowd of little boys to help him celebrate the auspicious occasion. Miss Kathloen Ingram assisted him in entertaining and they all enjoyed the many good things that Mrs. Gustine knows so well how to prepare. Many happy returns of the day Mr. Gustine.

The establishment of another state lunatic asylum, to be located in or near El Paso, was proposed by Senator Hudspeith in a bill he has introduced. Hudspeith says there is no question as to the urgent need of another such institution, and that it should be located in the western part of the state. That's a good bill, Mr. Senator, and the Record hopes El Paso will get the institution.

Thus far it looks like a perfectly good year.

### SCHOOL NOTES.

The Assyrians are said to have come down like a wolf on the fold—after sheep. Tuesday the State University visitor of schools descended like a wolf on a fold—after goats, judging by Uncle Harry Ratliff's, "Say, Kid, that feller sure like to got my goat when he asked me who was the Wolsey of France."

Hardly had the school had time to re-adjust its mental bib and tucker when who should be spied coming over the stile but a book agent! Armed with a bulky prospectus and a grim determination to touch the purse of the teachers, he came undaunted and unattended, but not unannounced. The teachers evidently sensed his approach by their magical vanishing before the janitor had finished "yonder comes a peddler."

Following up the sound of Miss Ellis' wax-chewing, the book man was heard to approach the closed door of the library. Mr. Donnell crouched down behind a Latin dictionary and finding that his head had to stick up above its length, threw wide open his mouth, thus perfecting his obscurity. Miss Ellis flattened up against the wall and quit breathing, thus escaping detection. Mr. Hart attempted to slip out at one door as the man entered the other, turned the wrong door-knob, thus throwing himself on the book agent's mercy. A turning of the wrong door-knob cost the turner a cool half-hundred.

Miss Collins is still walking somewhat gingerly from a sprained ankle. The remnant of Saturday's snow was enjoyed to the utmost Monday

morning, even if the experiment of throwing into the house did fall a few brave spirits for the noon hour. Several times during the day there was heard "Wish it had come Thursday."

The sixth grade room boasts some of the earliest hyacinths in town.

The ninth and tenth grade girls, having been prized away from their desks and forced to stay outside the house during the intermissions, organized their forces and hiked around the block to keep up circulation. They may, in a discussion of the Reformation, say Catholicism, but they can adjust themselves to new conditions—no small accomplishment.

The tenth grade attempt things, not only physical but they do some voluntary mental hiking. They are individually besieging the hardest original problem in Geometry, with the hope of winning a dollar, together with the

honor of solving the problem without assistance from anyone.

### "BOY EVANGELIST" BLAMES ALL CRIME ON LIQUOR TRAFFIC.

Saloons and the liquor traffic were the things against which Charles Mundell, "the boy evangelist," preached Sunday afternoon at the revival in the East El Paso Presbyterian church. A large number attended the service. Mr. Mundell said that the saloon increases the taxes to take care of the criminals, papers and insane which are its result. He said that 70 per cent of the crime of the world, 60 per cent of the poverty, 50 per cent of the insanity, 100 per cent of the tramps and 90 per cent of the red light trade are caused by the saloon. The revival will continue for another week.—El Paso Herald.

### INDIGESTION

#### A Disorder that Breeds Disease in the Body, and an Easy Way to Cure it.

Take care of the stomach and you will have little need for the doctor.

When the stomach begins to show signs of disorder; when the food digests slowly and with discomfort; when you have heartburn; feel bloated and uneasy, you are in a condition that needs attention.

Prickly Ash Bitters corrects the disordered stomach by strengthening and toning up the digestive organs, driving the badly digested food into the bowels and thence out of the system.

Constipation is nearly always present when the stomach becomes sour or disordered. Prickly Ash Bitters contains the medicinal qualities which act as a restorative and regulator for the stomach and bowels. It strengthens the digestive organs, cures constipation and prevents the return of bilious conditions.

Thousands of people who have received lasting benefit from this great remedy willingly testify to its power in curing indigestion, constipation and kidney trouble.

"I suffered from constipation for years, and tried many remedies, but Prickly Ash Bitters is the only medicine that has ever done me any good. Through its use I am now in good health and entirely free from all traces of my former trouble."—B. P. STIGALL, Winnsboro, Louisiana

#### CUT OUT COMPLAINING.

What is the matter with the United States?

As I have been residing in London since the beginning of the war, I have been hearing this question asked on all sides. I have never heard any satisfactory answer. No one seems to know.

Why are the African factories not running night and day? Why are the railroads not opening up new territories and getting ready for the millions of immigrants who have already made up their minds to leave Europe as soon as the war is over?

From the European point of view, the United States is a haven of peace and security and prosperity. It has no troubles that it dare mention to Belgium or Austria or France or Germany or Serbia or Great Britain or Russia.

Every tenth Briton has enlisted. Every tenth Frenchman is at the front. Every tenth Belgian is dead. What does the United States know of trouble?

If I could afford it, I would charter the Mauretania and Lusitania, and convey a party of 5000 American advertisers to Europe for a trip of education. I would give them a week in London, a week in Paris and a week in Antwerp.

I would let them look at the United States from the scene of war. I would give them a look at real trouble. I would let them see trains, ten at a time, five minutes apart, packed with the maimed and the dying.

I would let them see graves 100 yards long and full, and Belgium, the country that was, nothing now but 12,000 square miles of wreckage.

Then, when they began to understand, to some slight extent, the magnitude and awfulness of this war, I would say to them:

"Now go back and appreciate the United States. Realize your opportunities. Don't start digging trenches when nobody is firing at you. Don't fall down when you have not been hit. Don't be blind to the most glorious chance you have ever had in your life.

"Go back and advertise. Get ready for the most tremendous business boom that any nation ever had. Build your factories bigger. Train more salesmen. Borrow more money. Go ahead, and thank God that you are here and that your family is alive, and that you are living in a land of peace, at a time when nearly the whole world is at war."—Ex.

#### NEW PARDON BOARD HAS 700 APPLICATIONS NOW

Austin, Jan. 25.—There are approximately 700 applicants for pardons pending with the new board of pardon advisers, composed of Judge Wm. Blakeslee and former State Senator W. P. Sebastian. It is announced by the new governor that no applications for executive clemency will be considered by him before such application has been acted upon by the board.

That Sudan grass planted in rows makes excellent grazing crop is the statement of B. Youngblood, director of the Texas Experiment Station system. "Plant Sudan grass in rows eighteen to thirty-six inches apart and turn hogs or cattle in to graze. The animals will walk in the furrows and will not trample the grass down. When the grass is grazed down, run a mower over it if the stubble is too high. The moisture of the soil will cause it to grow up again immediately or if the ground is very dry, the grass will grow out after the first rain. Sudan grass will not stand trampling like Bermuda and other meadow grasses." Those are the words of Director B. Youngblood, who is responsible for the spread of the grass in Texas.

A negro highwayman in Fort Worth after knocking his victim down and robbing him, added this touch of fiendishness to his work—pouring sulphuric acid into the eyes of the helpless man. The man will, without doubt lose the sight of both eyes. Can you figure out a punishment commensurate with such a crime?

#### EAT CABBAGE, FISH SAUSAGE, NEW BREAD.

##### "Pape's Diapepsin" Digests Food When Stomach Can't—Cures Indigestion.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief some times—they are slow, but not sure. "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gasses, no belching, no cructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

While in the post office a few days ago we overheard the following conversation by a fellow who isn't very much in favor of the new stamp tax. He was saying: "I've licked a dozen stamps today for telegrams I've sent; I licked and stuck one on a bill with which I paid the rent. I licked a stamp to place upon a note which I renewed and then I licked another one to make the mortgage good. I've licked these stamps to show that I respect my country's will, and now I'd like to lick the man that introduced the bill." When we left he was still fussing.—Marfa New Era.

#### BILLY SUNDAY PRAYS FOR DRUNK BY PHONE

Chicago, Jan. 24.—Billy Sunday, the evangelist rescued a despairing soul at 2:37 o'clock this morning by long distance telephone at a cost of \$8.30 to the soul.

The evangelist was in Philadelphia and the wounded soul was in the Stratford Hotel in Chicago.

Just before 2 o'clock in the morning the soul, incarnated as a traveling salesman known from New York to San Francisco, approached the hotel clerk with more determination than steadiness. Streams of tears were coursing the florid cheeks of the soul. "I'm drunk," said the penitent, "Gotta be prayed for. Where's Billy? Where's good old Billy Sunday?" When told that Sunday was in Philadelphia, he said: "Can't help it, gotta get good old Billy to pray. Ring him up."

Presently Sunday was on the telephone. "You gotta pray for me, Billy," sobbed the soul. "I'm drunk again." "All right, let us pray," came the voice from Philadelphia. For six minutes the unprecedented revival meeting continued. At last the soul hung up the receiver and smiled contentedly. The soul, whose name is withheld, cheerfully paid the bill.

The black fiend who held up and robbed J. C. Fuller at Fort Worth the other night as he was going home from his work and then put out his eyes with sulphuric acid simply gave the public an example of what may be expected of the highway robber. Still juries WILL NOT assess the death penalty in such cases. The Reporter believes that the highway robber and the burglar are the most serious menaces to society that we have to contend with. They do not stop at anything, murder included, and their deeds to cover crime are of the most revolting character. They hold you up or enter your home with murder in their heart and upon the least provocation they will put their hell born intentions into effect. Juries let sympathy get the best of them, and Governors and boards of pardon get sorry for them and society is made to suffer. A jury that fails to assess the death penalty and a Governor who interferes with a sentence of that kind against a man who has been proven guilty beyond the possibility of a doubt are responsible to a certain degree for the crimes committed by the party they fail to punish. The enforcement of law is in the hands of juries and they must learn that fact and instead of turning law breakers loose they must punish them.—Abilene Reporter.

## STOMACH TROUBLE FOR FIVE YEARS

### Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die."

I tried different treatments, but they did not seem to do me any good.

I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

Friday night the entire empire of West Texas was covered with a blanket of snow. Reports indicate that the snowfall was general over the state. Between two and three inches fell in this immediate section, and owing to the dryness of the ground and preceding cold weather, was more than two days in melting, despite the bright sunshine. This moisture will be a great benefit to the farming interests, particularly to the small grain that may have been already sown. The fall was not heavy or wet enough to cause the cattle or other stock to suffer, and taken all in all, was a blessing to the country.

Depend upon our friend, D. T. Bozeman, the Sage and General Poo Bah of Cuthbert, to always do the acceptable thing at the right time in his own inimitable way. He said recently that he'd several things "laid up against the Record" and would some day wipe clean the score. We were expecting something, but not in the shape of an invitation from the postmaster one day last week to "come get your eggs." However, the "aigs was there"—three full dozen of them, done up in the most approved style of parcel post requirements. Every one of them was recent from the hen, and for two enduring days, the Record had 'em in every imaginable style—billed (hard and soft) fried, (straight up and over) poached and scrambled—and they were good victuals to the last one of them. Thanks, Bro. Bozeman; if the Record can do you a slight favor, such as a neat obituary, marriage notice (others being victims of course), just drop us a wireless telephone hint, and it shall be done.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. THE SECRET OF SUCCESS

Genuine Merit Required to Win the People's Confidence. Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."

According to a sworn statement and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfills almost every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism. You may receive a sample bottle of Swamp-Root by Parcel Post, Address Dr. Kilmer & Co., Binghamton, N. Y., and inclose ten cents; also mention the Colorado Weekly Record.

The national defense fund of the army appropriation bill will be increased to \$101,000,000.

It contains no opium or other harmful drug. For sale by all druggists.

COUNTY ATTORNEY RESIGNS.

Quite a ripple of interest was incited last Thursday morning when it became known that a special session of the commissioners' court had been called for the purpose of accepting the resignation of County Attorney, T. J. Coffey and the immediate appointment of a successor. A petition to the commissioners' court was circulated and generally signed, asking the appointment of M. Carter to that office. The court accepted the resignation of Mr. Coffey but deferred the appointment of his successor till a future meeting. Mr. Coffey will remove to Dallas, where he will enter an established law office and further prosecute his studies in the second estate.

### THE FARMERS' MEETING.

There was a meeting of the business men of Colorado held at 11 a. m. last Friday, at the stockmen's hall. The meeting was addressed by J. L. Quick-sall, District Agent of the U. S. Department of Agriculture and Dr. Harkey representing the Extension Department of A. & M. College. These gentlemen made very able talks on business people and farmers' co-operating together in organizing a diversification and marketing association for Colorado and Mitchell county. Every business man present voted in favor of the organization. A meeting of farmer's was also held at the court house at 2:30 p. m. and addressed by the same gentlemen. All farmers present voted in favor of the organization. A committee was appointed by Dr. Harkey to select the names of 10 business men and ten farmers to issue a call for a meeting of all the farmers and business men in Mitchell county to be held in Colorado in the near future, when Dr. Sharkey will come back and address the people and complete the organization. The object of the organization is to help the farmers, especially the tenant farmers to help himself, to encourage him to diversify his crops, to raise more live stock, more feed, and through this organization to furnish him a market for his crops. I hope and trust that every farmer and business man in Mitchell county will do all in his power to push this organization. The marketing of farm products is one of foremost agricultural questions that confront the farmers today, and any system of diversification and better marketing will not only help the farmers but the business men as well; so let us all pull together for the upbuilding of Mitchell county.

Respectfully,  
W. A. DULIN,  
Agent for Mitchell County.

A. W. Montague, superintendent of terminals for the Texas and Pacific railroad, at Fort Worth, was shot and killed last week by C. A. Myers, a discharged employe. This is the second time the superintendent of terminals at Fort Worth has been shot and killed by a discharged switchman. R. E. Boswell met a similar fate two years ago. Myers was removed to another place by the officers for fear of violence at the hands of Montague's railroad friends.

All kinds of Typewriter ribbons at Record office.

Pictures of General Roque Gonzales Garza, the newest president of Mexico, show him to be a cross between a chicken thief and busted snake eater. He won the office of president by picking it up when Gutierrez took to the hills overnight.

Mrs. Clark, who has been visiting her cousin, Mrs. A. E. Maddin, left for her home in Galveston Wednesday. She was accompanied by Miss Myrtle Maddin, who will make an extended visit in Navasota, Goldthwait and Wolf City. The two little boys of Mr. and Mrs. H. L. Hutchinson have been wrestling with chickenpox this week.

If Fort Worth keeps up its present pace in crime, it will soon qualify with Dallas and Houston in Class A1. The quality of its crimes surpass the work of either Dallas or Houston artists, and the town is piling up quite a creditable score numerically.

### "SYRUP OF FIGS" FOR CONSTIPATED CHILD.

Delicious "Fruit Laxative" can't harm Tender Little Stomach, Liver and Bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50 cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

### POLL TAX RECEIPTS.

Number of poll taxes paid up to noon on Wednesday of this week, listed by precincts:

Precinct No. 1, Colorado.....	278
Precinct No. 2, Westbrook.....	65
Precinct No. 3, Spade.....	23
Precinct No. 4, Landers.....	16
Precinct No. 5, Cuthbert.....	44
Precinct No. 6, Car.....	12
Precinct No. 7, Lorraine.....	149
Precinct No. 8, Iatan.....	6
Precinct No. 9, McKenzie.....	6
Total.....	599

With a possible number of 50 exemptions.

### NOTICE TO TAX PAYERS.

The office of Tax Collector will be open Sunday and Sunday night for the accommodation of those who can not pay their poll tax sooner. The Attorney General has ruled that payment of poll tax on Sunday is legal. Time expires at 12 o'clock Sunday night; so you had better hurry.

### HATS IN THE RING.

Dallas, Jan. 26.—Former Governor O. B. Colquitt, who is here today, announced informally, that he expects to be in the race for the United States Senate in 1916.

Mr. B. F. Wilson, who formerly lived in Colorado and worked for the Western Windmill Co., died suddenly at Mangum, Okla., Tuesday. Mr. Wilson was reared in Colorado, being sister of Green and Miss Hun Dulaney.

### SINGING CONVENTION.

The Nolan County Singing Convention will meet at Champion, Sunday, February 7th, 1915. All singers and lovers of music are invited to come. A good time is promised to all.

JAMES HOLMES, Sec. N. C. S. C.

German aviators are growing more aggressive in dropping bombs in territory held by the Allies. Eighty were dropped in the city of Dunkirk in one day.

True, we've had some snow and freezing weather the past two weeks, but take warmth and comfort from the reflection on how much worse it has been up Amarillo way. Anything in temperature above freezing and any velocity of the wind under 90 miles the hour, is advertised by the promoters of that gusty village as the happy ideal of the good old summer-time.

### NOTE THIS, FARMERS.

I will sell you any quantity of Stock Food at 10 per cent less than you pay for it by mail order.—W. L. Doss.

### HORSE POWER SURGERY.

High power electric motors are used in the French army to extract the steel bullets from the wounded.—Abilene Reporter.

### A CORRECTION.

Owing to misinformation, the Record stated last week that Mr. A. S. Beckner had bought the plant and business of the Crystal Ice Company. No deal was made, but Mr. Beckner is still making ice and will deliver it at any time to parties wishing it.

### SPECIAL BARGAINS.

Pure Half-and-Half cotton seed and Spanish Peanut seed for sale at my place seven miles west of Colorado. Will deliver cotton seed at Colorado at \$1.50 per bushel and peanuts at \$1.00. Good, clean nuts, well matured.
