#### SCHOOL NOTES

Mr. Anonymous says "The best of us now and then repeat queer tales of women and men, and quote the house of They." The writer of school notes has an announcement to make: The notes failed to appear for two consecutive weeks thru no fault of his; they say they did not receive them. Many a work of art doubtless has been lost to the world by just such misfortune. However, who knows but that at some time in the dim future school notes will have an O. Henry piece of luck—that a turn of fortune's wheel will whirl them from obscurity to fame?

Some have hinted and some have said that school notes are not to be approved by those of fastidious tastes. These

remarks have left the writer undaunted. Yes, more: they have encouraged him and inspired him to further effort; for where appeared the genius fully approved by his contemporaries? There is such a thing as being ahead of one's time. Some have even gone so far as to say "it seemed to them that whoever was writin' those notes was tryin' to be funny." In reply to all these, the writer will say in passing, that it seems to the uninitiated that Addison was trying to be funny when he wrote "Rules for the Two-Penny Club."

The number of cars that transport Colorado children to and from school is noticeably on the increase, the Landers car being the latest addition.

The school office has lately been so "tidied" that pupils and teachers tip-

toe in and out—sometimes.

One day last week even chairs were noticed arranged in the conventional way, around a table in one of the cloak rooms. Of course this did not necessarily mean anything, neither did the squares of cardboard on the table—no immediately in front of each chair. But when the janitor was heard to groan under a basketfull of cans, peelings and other debris (you will remember he isn't very strong; he has been takin' mighty strong medicine) and one of the girls expressed her conviction that she oughtn't to have eaten more than three bananas even if some were left, we knew that seven somebodies had had something to eat.

Unusual activity is being manifested by a great majority of the pupils. This is explained in the fact that the examinations now under way to determine whether a pupil reap in exemption from the final examinations, the result of good work during the first three quarters of the session.

Quite a number of the ladies of the town came to the open meeting of the literary societies of the school last week. A special effort was made to have in the audience people other than the pupils and teachers, even if the exercises were in the nature of a practice program. Even if no special program was prepared the school was glad to see the visitors.

For some time Mary Rice and Alma Terry have been out of school on account of illness. About the time they began to be themselves again, their class, the freshmen, planned to write them a letter. Joe Earnest, by popular vote, unanimous and enthusiastic, was chosen to write the letter. The next day the scribe returned with the following, appreciated by the eighth grade, sick and well:

Dear schoolmates: We will try to write and tell you about the room.

First of all we'll tell you that the lilies do not bloom.

Perhaps it's from the puncture of the little wire hair-pin

That Stansil used to hold the stem up so's not to bend.

Our lessons in Latin are about a page or so.

With a lot of words and meanings that we usually don't know.

Then there's the declensions like is, ea and id.

Of hic, haec, hoc and others, including quis, quae, quid;

And as for those in Algebra, they're easier than ever.

But som'll never learn the rules, oh, never, never, never.

The other day when Mr. Hart was not at school by one,

Miss Ellis thought it best that our Algebra be begun;

So she got a junior boy, Fessor Carmack is his name,

To teach us this lesson 'till Mr. Hart came.

The basket ball boys with Snyder did play

On the high school campus, last Saturday.

Both sides played fine; everything went well,

Except the score (that we'd better not tell).

The number in our room today is over thirty-three.

Carl isn't here; we wonder why. What can the matter be?

And there are many other things that we'd like to tell

But 't would take too long.—Another thing, we hope you'll soon be well.

—The Eighth Grade.

#### FORD COMPANY MAKES GOOD ITS PROMISE.

When the Ford people reduced the price of its car last summer, they promised that no further reduction in price would be made for one year, but that if the sales of the car during that time increased 20 per cent, a rebate of \$40 to \$60 would be made to the purchaser of every Ford car. This increase has already been made and they will redeem their promise.

Better see A. J. Herrington and get in on this profit sharing plan now, if you ever expect to buy a car. This rebate is made possible only by the phenomenal increase in Ford business. Save \$40 to \$60 above the already low price and excellent quality of the Ford car.

I received a car of Ford's Wednesday and expect another car Saturday; you'll have to hurry to get in the band wagon of the Ford procession.

I carry the largest stock of tires in Colorado—Goodrich, Racine and Lee—the best made besides full line of other supplies.

A. J. HERRINGTON, Agent.

#### WEST TEXAS BASE BALL LEAGUE NOW ASSURED.

A Meeting Was Held Monday Evening and Plans Discussed.

Mr. J. E. Erwin of Dallas has been here most of the week in the interest of organizing a West Texas base ball league embracing Abilene, San Angelo, Sweetwater, Big Spring, Colorado and Snyder. An enthusiastic meeting was held Tuesday afternoon to hear Mr. Erwin's plan of organization, and to discuss the matter. The attendance included the stockholders of the local ball park, besides a number of business men, who are base ball fans. Several propositions were suggested, but nothing definite was decided on at this meeting. However the local fans are at work among the business men with a plan in view to present at the meeting at Sweetwater next Monday night, when representatives from the six proposed towns will get together and organize the league. It is up to Colorado to make good on this proposition, and as the initial bonus required for organization purposes is small, the Record urges every citizen of the town to help out on it, and let us get in the league and have some real good ball games this summer. We think Mr. Erwin was very liberal in his propositions, as were also the owners of the park. And it seems to us that it should be no trouble to get together on this matter. What is going to be done must be done this week, as the league will certainly be organized at Sweetwater next Monday night, and Mr. Erwin says there are several other towns wanting to join if Colorado does not enter. It would certainly be a hard knock on Colorado if it fails to get in this league, as there would be no chance to get up an independent team, and our splendid ball park would lie idle throughout the summer. If everyone will make a pull, but all pull together, we can go into this league with very small initial outlay.

#### GETTING DOWN TO BUSINESS.

Mitchell County Diversification and Marketing Association Has Enthusiastic Meeting.

The Mitchell County Diversification and Marketing Association met at the court house last Tuesday morning at 10 o'clock, and was called to order by Judge C. H. Earnest. The following members of standing committees were present:

Crop Methods:—P. C. Coleman, Thos McGuire and D. P. Smith.

Live Stock:—U. D. Wulfjen, G. E. Goodwin.

Marketing:—J. H. Bullock and D. L. Beaman.

Organization:—W. A. Dulin.

The meeting was addressed by J. L. Quicksall, district agent, who spoke of the benefits of the organization and pointed to the many good things it had accomplished for other counties.

Mr. C. C. French, representing the Fort Worth stock yards, addressed the association, followed by Mr. Jack Estes, representing the Texas & Pacific railroad. Mr. French stressed the value of organization and close co-operation and the importance of growing more feed and livestock. He pointed the significant fact that Texas people were sending out of the state for meat, lard and feed stuff, to the amount of millions of dollars, which could be easily raised at home.

Mr. Estes emphasized the fact that the railroads could not haul the products of the farms unless the farmers raised it; they were mutually dependent. He assured the organization that his road would meet every effort toward better marketing facilities more than half way.

Messrs Quicksall, Dulin and Judge Bullock went out to Westbrook in the afternoon and organized a Boy's Agricultural Club, with the following membership and officers:

Coyt Buttler, president; Ernest Rhodes, Vice-president; Dave Gresset, Secretary; Elmer Reed, Hubert Rhodes Carl Phenix, Dick Reed, Homer Phenix, Jim Morse, Tilman Gresset, Woodie Berry.

#### NOTICE.

State of Texas, County of Taylor:  
To the Creditors of A. J. Payne, Colorado Texas:

You are hereby notified that A. J. Payne, of the County of Mitchell, State of Texas, on the 10th day of March, A. D. 1915, executed a deed of assignment, conveying to the undersigned all of his property for the benefit of such of his creditors as will consent to accept their proportional share of his estate and discharge him fully from their respective claims, and that the undersigned accepted said trust, and has duly qualified by law. All creditors consenting to said assignment must, within four months after the publication of this notice, make known to the Assignee their consent in writing, and within six months from the date of this notice file their claim, prescribed by

law, with the undersigned, who resides at Abilene, Texas, which is also his postoffice address.

Witness my hand, this 11th day of March, A. D. 1915.

C. W. GILL, Assignee.

Jack Estes, managing editor of the Texas & Pacific Magazine, was a Colorado visitor this week. Jack is an old newspaper worker, an all round good fellow, fills his job like a round peg in a round hole, stands AI with the company, and to culminate his certificate of recommendation, he and W. E. Bestwick of the Record job department "stuck types" together in the office of the McKinney Gazette in the days when the world was younger than it is now.

Mr. and Mrs. J. B. Reese are both on the sick list.

**A CREDITABLE RECORD.**  
 T. & P. Railroad Agent's Work Appreciated by the Company.

Distinguishing himself in the mass of ticket men from El Paso to New Orleans on the Texas & Pacific Railway W. A. Crowder, agent for the T. & P. at Colorado, won the first place on the Blue Ribbon roll in the Texas & Pacific Magazine, March number, which has just reached Colorado. Mr. Crowder's increase in ticket sales, for the month of January, 1915, was 86.3 per cent over the record of the same month last year.

Mr. Crowder's record for January not only speaks well for himself, but in addition indicates the substantial growth of Colorado. It must be borne in mind that he was in stiff competition with Dallas El Paso, New Orleans and other big cities on the T. & P. The Colorado agent's picture, a rich half-tone appears in print in the latest issue of the T. & P. Magazine. The following paragraphs are extracts from the Blue Ribbon roll:

"It is particularly interesting to note that the leader of increases for January, 1915, is a veteran of T. & P. service, W. A. Crowder, agent at Colorado, Texas, whose per cent is 86.3. While he is given all the credit for the record, he is unwilling that there be made no mention of the loyal station force that works under him. Mr. Crowder and his organization have worked diligently lately to head the honor roll.

"Mr. Crowder began his service with the T. & P. as an operator on March 9, 1881, at a side track ten miles west of where the town of Cisco now stands. He worked there for three months and was sent to Gordon, where he worked for a similar time. The next place he worked was at Santo, then called Sparta, where he worked as agent until July 13, 1885. Then he was sent to Colorado, where he has worked continuously for nearly thirty years.

"Mr. Crowder said when he went to Colorado it was a "wide open" town, and one of the largest shipping points in the Southwest. St. Louis, Kansas City and Chicago having buyers at that point, and stockmen ordered railroad cars by the hundreds. It was two years after Mr. Crowder went to Colorado that the first bale of cotton was raised in the county. This farmer's name was Sowell, formerly of Kaufman County, Texas, who hauled it by wagon to Weatherford to have it ginned, a distance of 200 miles. The bale was brought back to Colorado

**HEALTHY CHILDREN** come from healthy mothers. And mothers will certainly be healthy if they'll take Dr. Pierce's Favorite Prescription. Nothing can equal it in building up a woman's strength, in regulating and assisting all her natural functions, and in putting in perfect order every part of the female system. It lessens the pains and burdens, supports and strengthens weak, nursing mothers.

It's an invigorating, restorative tonic, a soothing and bracing nerve.

Mrs. BETTIE FLEMING, of 1225 Clinton Avenue, Fort Worth, Texas, says:

"I had been in bad health and the doctor would get me up for a while. Two years ago I was in very bad health, had womanly trouble. Had tried several different things and at last I began taking Dr. Pierce's Favorite Prescription and today I weigh 172 pounds, then I only weighed 150. I praise your medicines to every suffering woman, and tell them the good it has done and does till today for me."

and exhibited in the window of the Colorado National Bank, where it remained several months. From that small beginning farming in the Colorado country has increased until this season, at this time, there have been handled at Colorado 35,000 bales, going to nearly every quarter of the globe.

"Mr. Crowder, despite the fact that he has attained the age of 64 years, is still an active factor in business relations of the company. As his picture indicates, he has a keen eye and a businesslike expression. At one time he worked thirteen years without a vacation and in his long service of more than thirty-four years he has missed the pay car only once."

**"TIZ" EASES TIRED, SORE, SWOLLEN FEET.**  
 So Tired of Burning, Aching, Calloused Feet and Corns? Use "TIZ."

Why go limping around with aching, puffed-up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "TIZ" from the drug store now and gladden your tortured feet?

"TIZ" makes your feet glow with comfort; takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "TIZ" instantly stops pain in corns, callouses and bunions. "TIZ" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot torture.

Corn is now selling in East Texas and Louisiana at \$1.25 per bushel and before another crop is made the price is expected to reach \$1.50. West Texas maize is growing in the esteem of the corn raising farmers of the East.

**EXECUTRIX'S NOTICE.**  
 The will of William H. Moeser having been probated and the undersigned appointed executrix of the same, February 2, 1915, all claims for money against the estate of William H. Moeser, deceased, must be presented to me for allowance, at Colorado, Texas, it being my place of residence and post-office address, within one year of the 2nd day of February, 1915, the date of letters of administration issued to me as executrix of said estate. If not presented to me within the year aforesaid, payment of the same will be postponed until the claims presented within that time are paid.

**TO THE HOUSEWIFE.**

Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of the minor ailments and are most likely to lead to serious diseases. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you will find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by all dealers.

The next generation of Coloradans will bless the consideration of the present one for them, in the matter of planting shade trees. The campaign for more shade in Colorado has borne good fruit, and the Record believes next year will witness a more extensive planting even than this. The same amount of money and time could not have secured a better nor more permanent return than beautifying the home with nice shade trees. The Record's embryo nursery has been nearly cleaned out of available trees.

CREATION—FOUR DAYS AT SHADOWLAND THEATRE.

Great Film History of the Earth—Photo-Drama of Creation Shown in This City Free.

MARCH 22 TO 25.

The moving picture show has long been hailed as a device of the devil, but in about one hundred cities of the world it is being used as a means of giving biblical instruction. It is not cold formalism or abstruse dogma, but living, breathing religion, which appeals to both heart and intellect. "The devil need not have all the good tunes," said Wesley, and he took the best and set words to them. So the International Bible Students Association has taken the moving picture film and talking machine, enlisting them in the service of righteousness.

**Character of Antiquity Seen.**

Witnessing "Creation" we may see moving on the canvas, with every semblance of reality, the outstanding figures of history, with whom reading and study have made us familiar. Philosophers, statesmen, warriors, princes, potentates, scholars and artists pass in fascinating succession before our eyes, acting the parts which were played by those characters when they were on earth's stage in actuality.

We see the Garden of Eden as an ingenious imagination stimulated by biblical research pictures it for us. We view the stately cities of antiquity and their modern successors. We sweep over the world with ever increasing interest from the time of our remotest ancestors, forward as the scroll of history unrolls, and when we rise from our seats we feel that the past has been made for us a living reality instead of the dried bones of historical chronicle.

**Some Thrilling Situations.**

Very vivid and thrilling are some of the situations. We tremble with Isaac in fear as we behold his father Abraham about to sacrifice him as an offering to the Most High; we stand with Moses at the court of Pharaoh, and witness his appeal for the release of the Israelites refused; we look with the Prophet's longing eye at the Promised Land, and we enter therein with Joshua and his hosts. So through the eras of Biblical record we pass until we come to the days of the Savior, when He walked with meek humility on earth and worked miracles which attested His power. His dark, mysterious sayings, His parables and figures of speech, are elucidated to such a degree that little children can easily comprehend His meaning.

The I. B. S. A., to which belongs the honor of originating and exhibiting the Photo-Drama of Creation, was founded thirty years ago, and is undenominational. The organization has no creed. It is operated just like the Sunday Schools of the protestant churches. If any one wishes to belong to any particular Sunday School all he has to do is to attend that school. He is not voted in. He becomes a member by attendance. He makes no confession of faith. He belongs. His attendance is proof that he wishes to learn the bible. The Association's world wide activities are solely for the encouragement of bible study. All their lectures are free and the same is true of their latest innovation, "Creation;" no admission fees are charged and no collections are taken. It is positively a philanthropy.

**HEADACHY, COSTIVE, BILIOUS, "CASCARETS"**

Tonight! Clean Your Bowels And End Headaches, Colds, Sour Stomach.

Get a 10 cent box. Sick headache, biliousness, dizziness coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10 cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

The patriotic remarks of William Howard Taft again call attention to him as a man who refuses to nurse a grudge. Taft says there are times to show Americanism—not partisanship.

**OUCH! ACHING JOINTS, RUB RHEUMATIC PAIN.**

Rub Pain Right Out With Small Trial Bottle of Old St. Jacob's Oil.

Rheumatism is "pain" only. Not one case in fifty requires internal treatment. Stop drugging! Rub soothing, penetrating "St. Jacob's Oil" right into your sore, stiff, aching joints, and relief comes instantly. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and can not burn the skin.

Limber up! Quit complaining! Get a small trial bottle of old, honest "St. Jacob's Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. "St. Jacob's Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains.

**GOOD ROADS NOTES.**

There is about one mile of roadway between West Colorado bridge and the top of the hill west of the city which is the key to almost the western half of the county. This mile or more of road should be graveled, even at the sacrifice of other stretches of road further west. Every man, woman and child, whether in car, wagon, buggy or cart, from the Westbrook and Iatan part of the county, and from the Cutbert or Badgett's gin country, in fact a good big one-fourth of the county must proceed over this one mile of road when going to or leaving the county seat. We could well afford to drop work on some other places until this is placed in first-class shape and then maintained that way. A great deal of work has been spent on it, but it should be graveled, if it takes all summer. It is in barely passable condition now but wait till it rains and then see what a mess it will be in. Commissioners from the two precincts west, will you not look into the advisability of this step?

The road known as the Sterling road leading south-west out of town is getting to be fierce, especially the first six miles to Morgan creek. The culverts do not fit in with the road, either one is too low or the other is too high, and the road is full of chuck-holes and "waves." Two cars last week reported broken springs from driving over this road. And, by the way, not enough attention is given on any of the roads to the culverts matching with the road. A very little work at each culvert would harmonize the road with the culvert and not cause these bump-ups and bump-downs.

The road leading in the direction of Coke county is in better shape than ever. It has had no recent work done on it. Is that the reason? The Sterling road has been having for some time the undivided attention of our road gang, and yet it is far from being in as good travelling condition as the Coke county road.

**TAX PAYER.**

**MOTHER! IS CHILD'S STOMACH SOUR, SICK!**

If Tongue Is Coated or If Cross, Feverish, Constipated give "California Syrup of Figs."

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat, sore, doesn't eat, sleep or act naturally, has stomach ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50 cent bottle of "California Syrup of Figs," which has directions, for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeit-felts sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

Pantaleot both rhymes and chimes with suffrage.

An ostrich at the San Diego exposition broke up a ball game, by chasing and swallowing all the balls batted over the fence separating its pasture from the ball grounds.

That Clark Pari-Mutuel bill which sought to allow and encourage race-track betting, was badly handicapped by its name. Had it been known as the "Touts' Delight" or "Bookman's Joy," the bill would doubtless have received more general outside boosting.

So great and pressing is the demand by European nations for war munitions in the United States, that there is slight chance of Mexico's getting any farther deliveries. All factions in Mexico are running short of ammunition. It is only a matter of a few more big battles when none practically will be left. Arms houses of the United States say there is little prospect that delivery of war munitions of any kind can be made in Mexico within the next two years.

We call attention to the announcement of the production of the photodrama "Creation" at Shadowland theater, March 22-25, in this issue of the Record. This series of entertainments is wholly and highly educational, and will be given absolutely free to the people of Colorado and vicinity. The cost of the production of these slides was \$1,500,000. Hundreds of the most famous paintings of the world have been faithfully reproduced. These entertainments have been enthusiastically attended all over America, there being 18 sets of the same slides now touring the country. To attend these entertainments is to acquire a knowledge of the history of the human race from the creation of the world down to the present time. Don't miss them.

We would again warn the public and especially automobile owners that Colorado isn't immune to serious accidents although she has escaped so far. With the constant increase of automobiles and motor cycles, the danger is increasing. Especially is this so unless the speed limit is observed. Very few of the autos that go out of town on Second street observe the speed limit in the restricted territory, if we may believe those who have observed closely. There ought also to be some rules or ordinances about turning corners. One or two collisions were narrowly averted last week. Every driver seems to see how close he can cut a corner in turning, regardless of the direction he is going. If the proper officers should keep their eyes on Second street and time some of these gas wagons, we believe a number of them would learn by

strict should see to it that an election for trustees does occur on the first Saturday in May next.

**DIAZ TO LAUNCH**

**NEW REVOLUTION.**

If it be possible, the situation in Mexico will be further muddled by the new revolution in Yucatan under the leadership of Felix Diaz, who makes no secret of his preparations to that end. The venture will be financed in New York City. But Felix is a dead issue; he had his throw and made a mess of his opportunity, and the name of Diaz is no longer one with which to juggle. It looks now that intervention is inevitable, either by the United States or in conjunction with other nations. The policy of watchful waiting may have been expedient in the earlier stages of the trouble, but things have come to such pass of disorder and poverty that the situation involves more than the principles of the Monroe doctrine and material interests.

The leaders in Mexico have long ago lost sight of any pretension of fighting for principle, but have resolved into so many bands of plunderers and murderers. Each one is trying to get all he can in the immediate present, having no thought or care for the future of the country. Today, Mexico is in an immeasurably worse condition than little Belgium, which country only needs the foot of the conqueror to be taken from its neck, to rise quickly from the ashes of its own spoiling. If something is not done in Mexico soon by means of intervention, anarchy and chaos will result. There seems to be no hope that any salvation can be worked out by the people themselves. They are no more capable of applying the workings of constitutional republican government than the apes of Borneo.

Of the 15,000,000 inhabitants of Mexico, less than one-fifth are Spaniards; the others are either pure blood Indians or breeds. Less than three millions of the country's population can read and write. The land is owned by a select few, and the Greaser hates the Spaniard with all the venom that race bred engenders. There is no hope that a representative of the best class of the Caucasian race can be elected president of Mexico, and so long as such samples of the mixed and Indian classes as have come to the fore during the present warfare, have control of power, there is little hope for Mexico.

If the nations having interests in Mexico should intervene with an army of pacification and continue to police the country, administering its government through an executive of their own selection until all the institutions were put in smoothly running order, giving the people an object lesson in good republican government, we believe it would be the quickest, easiest and most abiding solution of the question. Either the United States alone or in conjunction with other nations at interest, will eventually have to do in Mexico what England has done in Egypt.

Saturday, March 20th, has been designated as "California Orange Day," and a nation wide movement will be in effect on that day among hotels, restaurants and railway dining cars in the interest of oranges. The Old Reliable T. & P. will feature oranges in the menu on its big fleet of dining cars.

**IF MEALS HIT BACK AND STOMACH SOURS**

"Pape's Diapepsin" ends stomach Misery, Indigestion in Five Minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can get blessed relief in five minutes. Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why they relieve sour, out of order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare, or assimilate into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach trouble and indigestion in five minutes.

## HUSBAND RESCUED DESPAIRING WIFE

**After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.**

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

### GO TO CHURCH It Will Insure Happiness Here and In Hereafter

#### GO TO CHURCH.

By going to church you'll insure a happy life here and in the hereafter.

THIS LIFE IS AN ILLUSION. AS A BOY YOU WERE TAUGHT TO LOOK FORWARD TO THE WHITE HOUSE AND THE PRESIDENCY. OR PERHAPS YOUR DEAR MOTHER PRAYED THAT YOU MIGHT BECOME GOOD ENOUGH TO BE A CLERGYMAN. THE THINGS THAT YOU HAD HOPED FOR WERE MADE UP IN YOUR IMAGINATION. THEY ARE SELDOM REALIZED. OFTEN IT IS A WISE AND MERCIFUL ARRANGEMENT THAT THEY ARE NOT. YOU BEGIN LIFE WITH ILLUSIONS. ALL LIFE'S EXPERIENCE IS A CORRECTION OF THESE ILLUSIONS.

Again there occurs that immortal saying, "What doth it profit a man to gain the whole world and lose his own soul?" Riches, as often has been preached, do not bring happiness. More often they bring misery. Solomon, when he had satiated every desire, said, "All is vanity." There is only one place on earth that true and lasting happiness can be had, and that is the house of God. There is an emptiness in the happiness of the world, in the happiness that can be bought with riches. The man who is rich in religion, who is rich in the virtues, is far happier than a Croesus.

IT IS IN THE CHURCH THAT YOU WILL FIND REAL HAPPINESS. TRY IT. GO TO CHURCH NEXT SUNDAY. IF YOU HAVEN'T BEEN TO CHURCH IN A LONG TIME YOU WILL AT ONCE FEEL THE BENEFICIAL EFFECTS. YOUR HEART WILL BE LIGHTER. YOU'LL WALK WITH A MORE BUOYANT STEP. YOU'LL BE REFRESHED IN BODY AND MIND. YOU WILL FEEL LIKE THE TRAVELER ALONG A DUSTY ROAD WHO FINDS A BUBBLING SPRING.

The door of the church is open. It is inviting. The pastor bids you to enter. Follow the happy throng. Be one of them.

IF YOU DESIRE HAPPINESS NOW—

IF YOU WISH HAPPINESS HEREAFTER—

GO TO CHURCH.

#### THE CLUBS.

##### BAYVIEW.

Mrs. Arbutnot was hostess for the Bayview last week with Mrs. C. M. Adams as leader. The lesson was:

#### DEATH OF MRS. BROWN.

On last Sunday the friends and acquaintances of Mrs. Christie Brown (nee Maxfield) received the sad news that she had died at her home in Sweetwater. The body was brought here and the funeral was conducted at the Christian church by the pastor, Rev. Burkhardt, of Sweetwater and Rev. Montgomery of Big Spring, at 10 o'clock Monday morning.

Mrs. Brown was born and reared here and was loved by all who knew her. Hers was a life of service for an unappreciative, criticizing public, but never did she fall in the least to perform her every day duties. So well was she appreciated by her employers that she was constantly promoted. For several years she was the head operator in the telephone office here, when, a little more than a year ago, she was removed to Sweetwater, and was ready for another promotion when the manager of all said "Come up higher," and with the same spirit of obedience that characterized her life here she obeyed the summons.

Very sad indeed is the death of anyone, but when the summons comes to one in the early morning of life, it is particularly so.

Miss Christie, as she was known here, had been a bride but a few short weeks and our hearts go out in tender sympathy to this loved husband, as also to the father, sisters and brothers who are bowed in sorrow.

As a testimony of the love her many friends bore for her, the casket was a mass of lovely novelties, the silent emblems of love.

#### KING'S DAUGHTERS.

The King's Daughters entertained their husbands and a few special friends in a most delightful manner at the home of Mr. and Mrs. J. T. Davis last Friday evening. After all had arrived and exchanged greetings, score cards in the shape of shamrock leaves were passed, it being near St. Patrick's Day, the good saint was remembered, and couples found their tables for the different kinds of amusement. Knowing that the husbands were "many men of many minds" various things were furnished. There was one table of hearts, another of advertisement posters, one to thread the needle, one of 42, one of pied names, one of forming words from "Shamrock," and a corner where they played snap. A certain length of time was given, and the winner passed to the next table. Mrs. Annis won the most number of games and had the distinction of wearing a green bow home. It is said that Dr. Phenix threaded the most needles. He did it by looking over, under and through his spectacles.

After the games a regular feast of baked chicken, peas, potatoes, cranberries, sandwiches, cake and coffee was served. Mrs. W. L. Doss had the distinction of drinking the most coffee. It was quite a pleasant affair. These ladies believe in encouraging the social as well as the benevolent and spiritual part of life.

Mrs. Housewife. Had it ever occurred to you that the backache and worn out feeling you have the latter part of the week is due more to your washing and ironing than any other part of your house work? You will find it to your advantage to send your laundry to us and escape that tired feeling—Colorado Steam Laundry.

Some pretty hand made articles will be given away at the package tea next Tuesday.

#### CHRISTIAN CHURCH.

Order of services: Bible school 10 a. m.; communion and sermon 11 a. m.; Sermon subject, "God's Mighty Power in the Gospel." Evening service 7:45 p. m.; sermon subject, "Man's Princely Privilege of Choice."

J. F. Montgomery, pastor of the First Christian Church of Big Spring, will be present and will do the preaching both morning and evening, and hopes to meet all members of the Colorado Christian church, and as many of the friends and citizens of the city as may feel an interest in these services. Everybody cordially invited to attend, and a hearty welcome is promised all.

Sunday, March 21.

#### METHODIST CHURCH.

Every Sabbath Sunday School at 9:45 a. m.; Preaching at 11 a. m. and 7:30 p. m.; Junior League 2:30 p. m.; Senior League 6:30 p. m.; Prayer meeting every Wednesday 7:45 p. m.; Choir practice every Wednesday following Prayer Meeting; Vesper Service every 4th Sunday 7:30 p. m.

A cordial invitation is extended to all.

R. A. CLEMENTS, Pastor.

Attend the package tea, and help the Christian ladies pay their pledge for missions.

Clifford Reese made a business trip to Abilene Wednesday to dispose of some real estate interests.

#### HONORING MRS. WALKER.

Mrs. F. M. Burns entertained with an informal reception at her home Monday afternoon in honor of her guest, Mrs. John Walker of Brownwood. Many of the ladies had known Mrs. Walker for years and were glad of the opportunity to renew the ties of friendship, and the others were glad of the opportunity to meet her; and all enjoyed the hospitality of Mrs. Burns.

After the hostess had welcomed her guests, they met the honoree and chatted awhile with each other. There was another treat in store for them when Mrs. Walker very graciously responded to an entreaty to tell of her trip to Egypt. She told, in a very interesting manner of the country, the customs and the people; the Pyramids and other things and places of interest were made so real that the guests could almost imagine they were on the journey. All were made glad when hearing of the lives of the women, that they were in America. Many questions were asked her and the ladies would have been glad to hear her longer.

Mrs. Walker was a young lady and bride in Colorado and Colorado is always glad to welcome her own.

The hostess served refreshments of iced cream and little cakes, before the good-byes were said.

#### BIRTHDAY CELEBRATION.

Lois Whipkey entered her teens last Saturday and celebrated the auspicious occasion in a little different manner than the other Whipkey children at the teen age. She, under the chaperonage of her teacher, had several of her friends and classmates as her guests to the picture show matinee, and afterwards to Ben Morgan's for up to date refreshments. Of course thirteen on the thirteenth ought to have something unusual, even for the child of the "devil."

Mrs. John Vaughan returned from her trip to the Woodmen convention last Saturday morning, accompanied by her daughter, Mrs. Lola Demmitt of Georgetown.

J. J. McClure of Dallas, dropped in for the time 'o day with the Record yesterday. He is selling trunks and a line of advertising novelties, reporting business as fairly good. He says his son Roy who had typhoid fever, suffered a relapse, but is now convalescent again.

#### MITCHELL COUNTY MEET OF INTERSCHOLASTIC LEAGUE

As stated in a previous announcement the annual meet of the interscholastic league of Mitchell county will take place on Saturday, April 3. This meet is both literary and athletic in character. The track events will take place during the morning and afternoon at the base ball park, while the declamatory contest will be held in the evening at the high school building. The following schools are expected to participate: Westbrook, Union Chapel, Payne, Loraine, Looney, Carr, Buford and Colorado. A small admission sufficient to meet the expenses of the contest will be charged.

Sterling Keathley is recovering from a siege of pneumonia.

#### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure, sent for circular, free.

#### A CORRECTION.

It is not at all times possible for a newsgatherer to verify his information—much must be taken on the confidence he has in his informant. This was true in case of the information the Record had in regard to the death notice of Mrs. Sarah Mitchell at Fort Worth, and whose remains were brought to Colorado for interment. Our information was that she was the wife of Mr. Dave Mitchell, who formerly lived here. The fact that both families had engaged in the hotel business here, gave further color to the truthfulness of the information, and so the Record gave it just as it was given us.

The Record has been corrected in its statement from several sources, but the following from the daughter of Mrs. Mitchell, is most authentic: "Mrs. Sarah Rebecca Mitchell, was the wife of Reubin N. Mitchell, who died there (in Colorado) five years ago. They ran the Farmers' Hotel for three years, which hotel was afterwards called the Winfrey House."

The widow of Mr. Dave Mitchell is now living at Fort Worth, and her Colorado friends will be glad to know that she is in the enjoyment of most excellent health.

Born to Mr. and Mrs. E. B. Tarrant, a boy.

## A Year of Prosperity

The sunlight of prosperity, in our way of thinking, is now casting its rays through the darkened clouds, which have hung over us and around us for the past three or four years and with the unusual favorable conditions, having had good rains, having an abundance of feed, we have renewed courage and interest in our portion of the country which is the garden spot of West Texas. With the desired number of landlords and tenants to till all the farming lands that are under cultivation and with renewed resolutions on their part, and with the present conditions of the banks and of the merchants, we feel almost certain this will be one of the most prosperous years of our lives. We have accordingly assembled together the strongest, the best and the cheapest priced merchandise we have ever shown, including all the newest novelties for both men and women. If you were standing under an apple tree filled with ripe apples, to what would your attention naturally be attracted? Would it not be the best and the biggest apples on the tree? Just so with us. In looking over our enrollment of prosperous farmers we find you are standing out prominently as an aggressive and successful business man. We desire the privilege of offering you sufficient inducements to get your business, and in turn are looking for the biggest apples on the tree. In our new field of business we hope it won't be for lack of acquaintance with us and with our line of merchandise. We are not blind to the fact that if we ever get your business we will have to show you that you will get goods that are equal in grades and much lower in price. This we have found to be no boy's job. We take this opportunity of naming to you the different lines we will carry at our two places of business, Loraine and Colorado.

First, a \$50,000 stock of Dry Goods, Shoes, Clothing and Hats. Second, a \$5,000 stock of Groceries. Third, a car of Oliver Chill Cultivators and Planters and for the use of these we have a carload of the Pure Genuine Mebane Stormproof Cotton Seed. The question arises with some of you. What is the best cotton seed for this country? Our information from men of experience, men of close observation and from inquiry among prominent cotton growers over the state and from the agricultural department—all those who are in a position to know—is that the Mebane Triumph Stormproof Cotton is the best all around cotton for this country. It will produce as much seed cotton per acre or probably more than any other known variety and makes a much better turnout, seldom, if ever, taking over 1250 or 1300 pounds of seed cotton to make a 500 pound bale. In all common cotton it takes 1500 to 1700 pounds to make a 500 pound bale. So you see the difference is never less than 200 pounds of seed cotton on each bale. On an average it takes 75c per 100 pounds to pick cotton. The saving in picking alone would be \$1.50 per bale, enough to pay for planting seed. The saving on an average crop of 20 bales would be \$300 pounds of seed cotton, or a little over 3 bales, which, if sold at 8 cents per pound, amounts to \$120.00. Besides the lint is much better and will sell for at least \$2.50 to \$2.00 a bale more than common cotton. The greatest value of all: The farmer who buys this seed will have an abundance of pure Mebane seed for next year. This cotton is a five lock cotton, stays in the boll so well that it has won its name "Stormproof." It matures at least three weeks earlier than most cotton, thereby enabling us to get our cotton out earlier. We offer this seed to you for \$1.50 per bushel or will exchange for your seed at the market price delivered at Loraine. We will carry this seed at both Loraine and Colorado.

Don't forget our Millinery opening at Loraine, Friday and Saturday, March 19th and 20th. We are striving to interest you by showing you the new styles of our New Dress Goods on living models. We will have music, both vocal and instrumental, readings; also a number of items thrown away, some gains offered at auction sale. We are striving to make this the biggest Millinery and Spring Opening ever held in Loraine. Also at Colorado, Friday and Saturday, March 26th and 27th, if we can possibly get moved. However, if the opening in Colorado should be delayed the store will be opened for business and the New Hats and New Dress Goods will be on sale. An opportunity for your business is what we are striving for and hope to prove and show to you that we have the goods and the prices that will attract your attention and to get your business we will give you a list and details of prices in the next issue. You can buy with gold or silver things you want in every way, you can purchase all that's needed for a spring or summer day. The display is of the choicest and the prices can't be beat—Give us a chance to furnish you with everything to wear and eat.

Yours for Prosperity and Business.

LORAIN AND COLORADO, TEXAS

P. S.—After investigating the situation and beginning work on our Colorado house and finding so much necessary to be done, we have realized that it will be impossible to get things arranged for the opening as advertised. It will be necessary to postpone the opening at Colorado until one week later.

**FERTILIZER IN DRY FARMING.**

Without irrigation, not much good will result from the use of commercial fertilizer, when the annual average rain fall is below 35 inches. It is not only that it does not "take hold" as the farmers say, under drouthy conditions, but it often "fries" the soil and "burns" the crops.

The best fertilizer for the farmer where rain fall is shy, unless he irrigates, is organic matter plowed under, and the best form of this is lot manure, the next best being such leguminous crops as cowpeas, the clovers etc. Even the farmer in regions of 45 to 50 inch rain fall will, generally speaking, get more good from commercial fertilizer if his soil is full of humus, as result of rotting organic matter.

The dry farmer gets double benefit from the plowing into his soil of lot manure and nitrogen gathering plants. He gets the fertilizing effect as well as the moisture-holding effect of the resulting humus.

Naturally, the dryer the conditions, the slower will plowed under organic matter resolve itself into humus. And in sections where as a way-out-west farmer expressed his situation, "It takes five years to rot a plowed under corn-stalk"—well, his section is merely too dry for "dry" farming.

**UGH! CALOMEL MAKES YOU DEATHLY SICK.**

Stop using Dangerous Drug Before It Salivates You! It's Horrible.

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

**RHODES SCHOLAR TO BE SELECTED.**

According to a statement concerning Rhodes Scholarships just issued by the Rhodes Trust, an appointment of a Rhodes scholar from Texas will be made next winter. The scholar will take up residence at Oxford in the fall of 1916. The schedule now in operation provides that another appointment from Texas after the coming appointment, will not be made until 1918. Qualifying examinations will be held in Austin on October 5 and 6, 1915. Detailed information may be had from Registrar Matthews, University of Texas, Austin, Texas.

**A NEEDED PROTECTION.**

The scriptural injunction to avoid even the appearance of evil, embraces danger to human life, as well. And although the mere appearance of danger is in the nature of fair warning, many there be who fail to heed it. The grading done on the big hill one mile west of town more than two years ago, was in itself a good job, but left such a gulch on the north side with such a narrow roadway and steep gradient that nothing short of a watchful and kind providence has prevented serious if not fatal accidents so far. If a brake should fail to hold, a wheel to skid, a scarry team to meet an auto, or any other of the various things that beget accident and panic, should occur at the steepest place on this grade, a fatality would be almost inevitable. An auto or team could not go over into the chasm without fatal consequences. The Record has often wondered why a parapet or protecting wall was not built along the north side of this grade when the road was made. More than enough rock to build such a wall was taken out of the hill, hauled away and dumped into ravines, when it could just as easily have been piled on one side of the roadway. As it is today, the hill is a constant menace to life and limb. An accident is possible at any time and nearly probable during a wet and slick condition of the roads.

A serious accident at this place would, no doubt, cost Mitchell county, many times as much as it would take to build this wall, in litigation and damages.

**CLEANSER YOUR HAIR MAKES IT BEAUTIFUL**

It Becomes Thick, Wavy, Lustrous And all Dandruff Disappears—Hair Stops Coming Out.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre, and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots invigorates, and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

**EXTENSION OF ORIENT CHARTER.**

The legislature passed the Orient Railroad charter extension bill last week giving that road the right of extension. This means the road can begin the construction of its Del Rio branch unhampered, and by terms of the contract recently made by the railroad committees with the Orient, trains will be operating to Christoval by July 1, 1916, into Eldorado by July 1, 1917 and into Sonora one year later.

**FOR STOMACH AND LIVER.**

I. N. Stuart, West Webster, N. Y., writes: "I have used Chamberlain's Tablets for disorders of the stomach and liver off and on for the past five years, and it affords me pleasure to state that I have found them to be just as represented. They are mild in their action and the results have been satisfactory. I value them highly." For sale by all dealers.

**INDICATIONS OF COTTON REDUCTION.**

According to data furnished by more than forty Austin American correspondents in as many different sections of the state, the cotton acreage for 1915 will be at least 50 per cent less than in 1914. Many farmers declare their purpose to cut their acreage from 75 to 80 per cent. Nearly all are preparing to put in a larger acreage of corn, oats and wheat and all kinds of truck than ever before. All signs now indicate that the crop of 1915 will be the most diversified ever produced in Texas.

In the federal grand jury investigation of alleged frauds in recent Indiana elections, a one-legged negro was found to have voted seven or eight times by changing his name and leg.

**THE EDUCATION LEGISLATURE.**

The thirty-fourth legislature, according to Prof. W. F. Doughty, State Superintendent of Public Instruction, will go down in history as the "education legislature of Texas." In this connection he points to several educational measures, all in advanced stages of legislation, which will improve school conditions in the state. Among these he mentions the pending rural school law, the compulsory school attendance law, placing the office of county school superintendent on a professional basis, the submission of a constitutional amendment for the removal of fifty cent limit on local taxation for school purposes only, and the proposed submission of a constitutional amendment permitting the people of a county to levy upon themselves a county school tax for the support of rural schools. Governor Ferguson is said to be in thorough accord with these measures.

**A STITCH IN TIME.**

Colorado People Should Not Neglect Their Kidneys.

No kidney ailment is unimportant. Don't overlook the slightest backache or urinary irregularity. Nature may be warning you of approaching dropsy, gravel or Bright's disease. **AMERICA IS GIVEN IMPORTANT SECRET. Two Discoveries, Revolutionizing Gasoline Production and Making of Explosives.**

Two discoveries, both of vast importance to American industries and one regarded also as a priceless military asset, were announced by Secretary Lane of the interior department. They are chemical processes developed after years of research by Dr. Walter F. Rittman, chemical engineer of the bureau of mines. One is expected to enable oil refineries to increase their output of gasoline by 200 per cent; the other makes possible the production from crude petroleum of toluol and benzol, bases for dyes and high explosives, for which in the past the United States and the rest of the world has depended almost exclusively on Germany. Dr. Rittman has applied for patents on his processes to prevent the possibility of any monopoly in their use and will dedicate them to the American people.

"These processes," said Secretary Lane, "are fraught with the utmost importance. The Standard Oil company has had a big advantage over the independents in production of gasoline, having a patented process obtaining three times the amount of gasoline from a given quantity of petroleum the independents now obtain. Independent producers as a whole never have been able to even approach these results. Now the federal government through the efforts of Dr. Rittman proposes to make free for the use of all a process confidently expected to increase their yields gasoline fully 200 per cent and perhaps more. Dr. Rittman claims his process is safer, simpler and more economical. When it is realized the gasoline industry each year yields \$100,000,000 to \$150,000,000 the importance of this discovery is seen."

"The second process discovered by Dr. Rittman may prove of much more value than the first; in that it suggests the establishment of an industry in which Germany heretofore has been pre-eminent—the dye industry—and also promises indirectly a measure of national safety of incalculable import. Among the necessary ingredients of high explosives toluol and benzol are in the first rank. Heretofore, these products have been mainly obtained in Germany and England from coal tar. Explosive manufacturers have had to depend largely on these sources. The federal government now proposes to obtain toluol and benzol from practically any American petroleum. The supply can be made sufficient for all purposes and at a reasonable cost."

"The real comforting thing, however, is that in time of great national stress if the nation is ever called upon to defend itself we will be able to manufacture the most efficient and most powerful explosives known in warfare."

"Dr. Rittman concludes from his experiments that this process may become more economical than German methods, and it may result in giving the United States a supremacy in the dyestuffs industry that has for some time belonged to Germany."

**SPEAKER WOODS.**

The office of Speaker of the Texas House of Representatives is a hard place to fill. He is usually elected after a warm campaign against some other strong member. His friends and supporters expect a good deal of him while those who opposed him are inclined to be critical—watching for proof of the fact that the other man ought to have been elected. There are, besides the Speaker, 141 members, most of whom have pet measures they are anxious to have considered and it is a hard task to be fair and yet make every member believe that he is getting a square deal. But the present Speaker, Hon. John W. Woods, of Fisher County, is measuring up to the requirements of the office in such a manner as not only to gratify his friends and supporters, but to win the commendation of those who vigorously opposed him. When a man can do that, it is proof that he is a big man—a fair man. There are other offices in Texas where men like Jno. W. Woods are needed, and it does not require any remarkable powers of prophecy to say that he will be heard from again.—Dallas County Record.

### BITTEN BY VICIOUS HORSE

Grady, I. T., Nov. 29, 1898.  
Dear Sir:—About eleven months ago I was taken by something I thought to be rheumatism, and lost the use of one leg. I consulted physicians; they told me it was incurable and advised me to have the leg amputated. Unwilling to part with my leg, I commenced using medicines advertised for the above disease, all to no effect; but after taking two bottles of McCrosky's Tonic you left with W. C. Sappington for me, my health was greatly improved, and after taking the third bottle I am able to walk without my crutches. You may use this if you see fit. Anyone doubting this can write to me and I will answer them, provided a stamp for postage is inclosed.

THE TRAIN'S COMING.  
The T. P. train comes through the cut, And leaves a cloud of falling soot. The depot throngs with people, too, Who gladly now report, " 'Tis true— 'The train's coming!'"

But why came they to wait that train? What have they here tonight to gain? Depart these people, one and all? Then, why should they so gladly call, " 'The train's coming!'"

Why come they here most every night? 'Tis surely not to see the sight! For trains may come and trains may go And yet you'll hear them shout " 'Tis so 'The train's coming!'"

Make known, ye gods, the cause, I pray This night of myst'ry turn to day! Oh, lift this load from off my soul Before they o'er my coffin toll— "The train's coming."

### A WONDERFUL HEALING INFLUENCE IN KIDNEY TROUBLES.

A year and a half ago I was taken with a severe attack of Kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced it as Stone in the Bladder and prescribed Lithia Water. I took Lithia Water and Tablets for some time and received no relief from them. I stopped taking medicines for some time, later having some Swamp-Root in the house I decided to try it and felt much relieved. While taking the second bottle commenced to pass Gravel in urine until I had passed in all at least a half dozen or more and have not suffered the slightest spicc—and in all have taken one bottle and a half and feel very grateful to Swamp-Root.  
Yours truly,  
H. W. SPINKS,

### Of Special Interest to Housekeepers

This is the first of a series of practical talks that will appear in this space every week. It will pay you to read them carefully. They will contain nothing that is not absolutely true, and will prove helpful to the housekeeper in the selection or use of a common, everyday food necessity.

No article used in such small quantities occupies a more important place in household economy than baking powder. On it depends not only the successful preparation but the healthfulness of the food.

Therefore, the character and quality of the baking powder she should use is one of the most important questions which confronts the housewife, and to help her solve it in a satisfactory manner is the purpose of these little articles.

# No Repairs In Three Years

When you buy a piece of equipment, an automobile, a tractor or a gas engine, the price you pay for it is only a part of the cost. There are the repairs, the depreciation and the replacements to be considered.

Did you ever consider how much of this CONTINUAL COST depends on the oil?

Here is some evidence on the point:
