Business men and good road boosters met in the town of Pecos, Texas, a few days ago to promote the building of an automobile road from Pecos to Midland, via Barstow, Poyte, Grandfalls and Edwards ranch. This is an important link in the West Texas Air line and money was raised which will assist its construction. Within a few weeks the West Texas Airline will be posted from Sweetwater to El Paso—El Paso Times.

Mutual Movies Make Time Fly—See 'em at the opera house.

So far this season about 200 automobiles per month have passed thru El Paso en route to the California exhibitions, and the average amount spent by these tourists in that city, per month, is estimated at \$7,000.

If you want the best in Cultivators see McMurry. The best's the cheapest.

Newest and best millinery at Mrs. B. P. Mills.

An alarm of fire Wednesday night about 11:30, given by fire bell after a fullside of shots and yells, took the fire department to the home of William Taylor on the hill across Lone Wolf creek. The house was practically consumed when the boys arrived. We were unable to learn the amount of Mr. Taylor's loss.

A car load of Studebaker cars was received this week by Byron B. Byrne, consisting of four "4s" and one five-passenger "6."

Mr. Ed Jones made a trip to San Angelo on business Tuesday, and he said the roads, in some places, were a sight to behold after the recent heavy rains. He was driving his new Hup, and he says he went through the worst places without a bobble.

Post City now enjoys the illumination of electric lights. Ten thousand trees have also been put out in that community this spring.

### THOMAS-ALLEN.

#### Pink and White Wedding of One of Colorado's Fairest Daughters.

On Wednesday evening at 8:30 o'clock at All Saints Episcopal church, Miss Lilly Allen and Mr. Robert Charles Thomas were married; the Rev. Mr. Rafter officiating.

The church had been beautifully decorated in green and lilies, with pink roses on the altar; and lighted with large candles which have a sacredness because of having been used by a dear friend, whose grandmother, just before dying, requested that Miss Allen use them in her wedding.

Just before the bridal party arrived Miss Adams sang very sweetly "Calm Is the Night," with Miss Jeanett Earnest as accompanist, who also played the wedding march as the bridal party entered. First came the bride's maids and men—Misses Lois Prude, Annie Beal, Elizabeth Menzes; Messrs Harry Landers, John Arnett and Joe Smoot. The Matron of Honor, aunt of the bride, Mrs. F. B. Robinson of Fort Worth, with the maid of honor, Miss Looney. Then the ring bearer, Willis Shropshire, in white, bearing the ring in the center of a lily. Then the quaint little flower girls, Corinne Lupton and Elizabeth Looney, in pink, with poke bonnets, bearing Italian baskets of pink roses, scattering petals as they went, for the bride who came on the arm of her father, Mr. Virgil Wesley Allen. They were met at the altar by the groom and best man, Mr. Carl Phenix. After they were grouped in a st. circle around the altar, the minister came forward and pronounced the solemn words that made them man and wife.

The maids were dressed in pink taffeta with poke bonnets and carried white roses.

The matron and maid of honor wore beautiful gowns of white taffeta and carried pink roses. The maid of honor wore the conventional bridesmaid's veil.

The bride was a picture of loveliness in a gown of white duchess satin with tulle trimmings of princess lace and pearls. Her veil was held in place by a band of real orange blossoms sent from California by an uncle. She carried a bouquet of lilies of the valley and white roses.

The ushers were Mr. J. C. Prude and Mr. Chester Thomas. All the men wore the conventional black.

Immediately after the ceremony a reception was given the friends at the home of the bride's parents.

Mr. and Mrs. Allen received the guests who were introduced to the receiving line by Mrs. J. L. Allen and Miss McComas. First came Mr. and Mrs. Chester Thomas, Mr. and Mrs. John Hurd, Miss Adams, Miss Jeanett Earnest, Mr. and Mrs. F. B. Robinson, Mr. Carl Phenix, Miss Looney, Bride and Groom, Miss Lois Prude, Mr. Harry Landers, Miss Annie Beal, Mr. John Arnett, Miss Abbie Thomas, Miss Nell Ruth Arnett, Mr. Wilson, Miss Bell Gary, Mr. Wootton Jeffers, Mr. and Mrs. Herman Harp and Rev. and Mrs. R. W. Thomas.

The guests were then shown the wedding gifts which were on display in the back parlor, which consisted of almost everything that a couple would need in any home.

From there the guests were escorted to the dining room by Mrs. Looney and Mrs. Burns, where Misses Coleman Whipkey, Eva Jackson, Johnnie Collins, Ethel Greenwood, Martha Earnest, Omedel Payne and Victoria Enderly served them with pink and white ice cream, with pink and white cake. As they left the dining room tiny pink and white bows were pinned on each guest by Misses Irene Whipkey, Hazel McKenzie and Ione Dulaney.

Mrs. Allen was assisted in entertaining by Mesdames Shropshire, Lupton Boren of Sweetwater, W. V. Johnson, Mr. and Mrs. J. C. Prude and Dr. and Mrs. Durringer of Fort Worth.

Then the bridal cake was cut and Miss Looney got the ring; Mr. John Arnett, the thimble; Mr. Carl Phenix the dime.

The bride's favors to her maids were ivory stick fans with the name and date engraved on them, and tiny ones to the little flower girls, and a ring to the ring bearer.

The groom's gift to the bride was a crescent pin with a lily in the center, formed of pearls. The groom's gifts to his men were tie clasps.

The bride and groom are both well known and loved by all Coloradans. The bride is the only child of Mr. and Mrs. V. W. Allen, was born and reared here. She is a refined, cultured young lady, held in high esteem by every-

body who knows her, and is capable to fill any sphere her husband may attain.

The groom is the youngest child of Rev. and Mrs. R. W. Thomas and a prominent young ranchman of West Texas.

Mr. and Mrs. Thomas left on the night train for a short visit in the east and will then be at home in the Edwin Foulke's place.

The bride wore a going away suit of sand pigskin, with accessories to match and rose colored hat.

They left midst a shower of rice, and good wishes. She threw the bouquet, and Miss Looney was the fortunate one to catch it.

The out of town guests were: Mr. and Mrs. F. B. Robinson, Dr. and Mrs. Durringer of Fort Worth; Miss Elizabeth Menzes, Mrs. Blanc, of Atlanta, Ga.; Mrs. Jno. Hurd of Post; Mrs. Herman Harp, Mrs. Boren and Miss Ione Dulaney, of Sweetwater.

The Record joins the many friends of this young couple in wishing them a long, happy and prosperous life.

#### DON'T OVERDO THE BUSINESS.

The Record is not an expert farmer or stockraiser, but it can see a barn door without being wholly blinded by a knot hole in the same door. The Record has preached the gospel of diversification and hog raising for ten years, in season and out of season. The Record still is an earnest advocate of this system of farming for the small farmer, but is not unmindful of the danger of overdoing a good thing, particularly in hogs. Before one goes into the hog raising business, on any scale, the wherewithal to feed them should be carefully considered. To accumulate a dozen or more of brood sows and have the farm covered with pigs, and nothing to feed them on, is a worse condition than to have none at all; while to buy feed on which to raise hogs is business suicide of the roughest sort. It is far better to have feed to raise ten hogs and only have five hogs, than to have twenty hogs and feed for only five. First and last, the raising and selling of hogs is but the marketing of your feed crop on foot. Whenever there is a demand for any commodity, the people who go in to supply it usually either overdo the supply or fail because of lack of provision for the exactions of the business. Better raise two hogs and succeed, than try to raise ten and fail.

#### AN ENCOURAGING SIGN.

Farm and Ranch expresses regret at the circumstance that the people are losing confidence in public officials. It declares that it is unfortunate that new officials, who are honest and efficient, must bear the odium that corrupt and dishonest politicians have placed upon public office.

Why the development of a sentiment which shall ultimately result in the elimination of demagogues and professional politicians should be viewed with regret by any one interested in honest and efficient public service is far from clear. A lethargic lack of interest in elections and in the still more important matter of selecting honest, capable men for office are the principal sources of serious troubles with which Texas has had to contend. This loss of confidence presages an awakening of the people destined to ultimately result in a general uplift and improvement of existing conditions.

No honest man should object, in view of the great number of inefficient and corrupt politicians who from time to time have managed to deceive the people sufficiently to be elected to important and responsible offices, to being viewed with that suspicion which the past experiences of the people warrant pending the establishment of his honesty and efficiency by the righteousness of his official conduct. When every man is suspected until he demonstrates that it is unwarranted in his case, evil, incapable and designing persons will no longer be able to deceive the people by their hypocritical, false pretensions.

The principal difficulty in obtaining honest officials in all instances is due to the circumstance that while there is a superabundance of honest men for public positions too many of them become dishonest after their election. There is, of course, no possible way of forestalling or escaping the consequences of sudden and complete change in the moral stamina of man.—Austin American.

#### COLORADO NOT ELIGIBLE.

The postoffice business at this place amounted to the sum of \$8,439.70, the past fiscal year, which puts the office back into second class. Some of our citizens have thought the town might be able to secure a federal building for postal purposes, but to be eligible to a federal building, the population of the town must be 5,000 and the business of the postoffice \$10,000.

Automobiles can now make the trip from El Paso to Fort Worth along the general route of the Texas & Pacific railway, over good roads. In Culbertson county about three miles of deep sand, near Plateau, has been covered with bear grass to the depth of several inches, and autos are able to make the run over it at good speed.—El Paso Times.

DEMAND THE GENUINE AND AVOID DISAPPOINTMENT

THE COCA-COLA CO. Atlanta, Ga.

April 23rd and beg to say that it was with most extreme regret that we were compelled to give up our visit to Colorado on our trade trip this year.

With kindest regards, I am, Yours very truly, J. R. BABCOCK, Sec. Dallas Chamber of Commerce.

AGRICULTURE IS FIRMLY ESTABLISHED.

So far as human experience and foresight can determine, West Texas never promised more than it does now.

Heretofore this was not the rule in West Texas. A farmer might sow a patch of whatever he chose in one county, and the chances of his reaping it were less than that of the other man who didn't sow but lived in an adjoining county.

But the farmer and his land have become acquainted. Methods adapted to the first haul as cheap as possible, moved farming from the realm of mere gambling and placed it on a reasonably sure, safe and profitable basis.

We can cover any style of button to match any dress or suit on short notice. Mail orders given prompt attention.

RESOLUTIONS OF RESPECT.

To the Worshipful Master, Wardens and Brethren of Mitchell Lodge, No. 563, A. F. & A. M.

Whereas, the Mallet of Death has again dropped in our midst, and it has pleased the Divine Architect of the Universe to remove from this transient existence our Beloved Brother, Hannibal Cook, and

Whereas, his steady conformity to the useful regulations of our Order, his exemplary conduct, his endeavor to preserve unscathed the reputation of our Fraternity, and his desire to inculcate universal benevolence, made him a master workman in carrying forward the moral edifice of Freemasonry, therefore be it

Resolved, that we bow in humble submission to the inevitable decree that, "The dust shall return to the earth as it was, and the Spirit shall return unto God who gave it."

Respectfully submitted S. D. VAUGHAN JOHN W. MOOAR J. T. DAVIS, Committee

COLORADO, TEXAS, APRIL 30, 1915.

Old Huerta must be fomenting some diabolic plot against the peace of Mexico. He has not given out a signed interview for three whole days. Look out for him to break out in a new place. He's about worn the ruffing out of his mouth.

General Joffre does not tolerate swell dressing officers nor those who do their fighting on the boulevards. He retired 29 generals last week to give place to more active and efficient men.

Cotton has been steadily advancing for several weeks as it usually does just about planting time. It is to be hoped that the farmers will not suffer themselves beguiled into planting another big crop. The 1914 crop was the world's record, and there is a big surplus now on hand. Ten million bales will bring as much as sixteen million next fall. Let the farmers bear this in mind and cut their cotton acreage at least one-third.

While inquiring as to what's become of things that used to be, why not take a look for the old fashion "call" to run for office, signed by "Many Voters," "Pro Bono Publico," and the rest of that family of patriots?

Josephus Daniels, secretary of the navy in Mr. Wilson's cabinet, seems to be getting all that may be coming to him. His utter lack of ability to handle the job he has, is arousing the most severe criticism in all quarters. The forcing out of Admiral Fiske from the naval board is resented by prominent officers in both arms of the service. Daniels' presence in the cabinet is claimed to be a concession to the demand of Mr. Bryan, who improved the occasion to repay past services in his behalf by the North Carolinian.

Will some well informed person please tell us what are the "demands of Japan upon China." For months we have been reading of these demands and Japan's three-day ultimatum. What does the Jap want besides the earth?

Practically every labor saving and time saving improvement, as well as the conveniences provided by the government for serving the rural districts in mail facilities, depend upon good roads. Good roads are the foundation stone upon which rests all the advantages of transportation that modern invention has given us. They are useless without good roads. The profits of marketing the crops of the nation depend as much upon getting the products to market as upon the cost of their production. So far as the individual producer is concerned, good country roads mean more to him than do the railroads. He pays the price of transportation of the cotton he raises from the town where he sells it to Galveston, when he is paid by the street buyer for his cotton, and with bad roads, it costs him more to bring his cotton to market than to pay for its hauling to the seaport. It is therefore directly to his interest to make the soil, climate and rainfall have re- This can be done only by the maintenance of good roads.

Perhaps after Gen. Villa has taken those various cities two or three times more they will stay taken.

In the recent investigation of the pay of railroad employees, the fact developed that the Pullman Company, among the richest and most monopolistic of the big trusts, paid its porters from \$27.50 to \$42.50 per month, only the veterans receiving the last amount. All the witnesses testified that without tips they could not live on the pay they received. One of them said that if they were not allowed to accept tips no passenger with as much as \$2.00 on his person would be safe on a sleeping car. It was either tips or theft. Knowing this condition, the Pullman Company would be morally responsible for the thefts which the underpaid employees confess, would be made. The Pullman Company should be forced to pay its porters a salary on which they could honestly live. Their conductors are paid only \$75 per month, and these have no share in the tips received by the porters, who frequently received as much as \$100 to \$125 per month in tips.

The name of the commercial organization here has been changed to the "Chamber of Commerce" on the principle that the latter name is more comprehensive and also that it is new and may inspire a new and greater spirit of enthusiasm in its membership. For some reason unaccountable at this end of the line, there has been much dissatisfaction with the service its local correspondent has been able to secure for Colorado in the Dallas News. Items of local interest have been sent that paper repeatedly without appearing in print, while the same quality of news sent from neighboring towns found ready access and publicity. Complaints have been made and correspondent changed several times, the News disclaiming any intention of discriminating against the news from Colorado. The attention of the management of the News has been called again to the matter by citing two or more recent instances where the Colorado items were turned down, while the same kind of news from other towns was used. The Chamber of Commerce will try to straighten the friction out and hopes to enjoy freer access hereafter to the columns of that paper.

In the Roosevelt-Barnes damage suit, the question was asked Col. Roosevelt if he did not know before becoming a candidate for governor of New York, that the constitution of that state required five years residence for eligibility to the governorship. He replied that he did know that fact, and that he had made affidavit that a year previous to his election as governor of New York, he was a resident of Washington. Despite these two insurmountable obstacles, Mr. Roosevelt was elected governor and his eligibility and election at the time, were sanctified by the courts and submitted to by the people.

PROSPECTS NEVER SO BRIGHT.

Agricultural Conditions in Mitchell County Now Surpass Those of the High Water Mark of 1906.

Outlook for Immigration this Fall is Very Flattering. Now is the Time to Buy Land.

The year 1906 for the past nine years has been held as the high water mark of agricultural prosperity and immigration in West Texas. In that year the rainfall for Mitchell county was 33.32 inches. \*What little cotton was planted that year made from half to one bale per acre, but less than 5 per cent of the area of the county was at that time in cultivation.

Up to this time 1915, conditions are much ahead of those in 1906. True crops are not quite so advanced as then, but there is every indication that by the 1st of June crop conditions will be much in advance of what they were June 1906. When it is considered that one man with an average team of horses can break, plant and cultivate 80 acres of land without the expense of one dollar for help except for the ha vesting, this section offers to the "one-horse" farmer opportunities that do not exist in other sections of the state. All things considered, West Texas and particularly Mitchell county needs just such farmers and citizens as these. Mitchell county could locate at least one thousand of these farmers and their families, and the Record believes that with a systematic campaign to this end made by the Chamber of Commerce and some county organization—like the Mitchell County Diversification and Marketing Association—their location in this county could be achieved. If only twenty families could be induced to come, it would mean twenty more farms and more than twenty good citizens, a nucleus that would draw more of the same kind.

Now is the time for the small farmer or investor to come to West Texas. Land will never again be as cheap as now. Contrary to prediction made several years ago that the bottom would drop out of the land boom in West Texas, and that one could, by waiting a few years, buy the best land at his own figures, farming land has steadily held up even during the years of drouth and business depression, and has today a higher market value than it has ever had. The greatest handicap to the agricultural development of Mitchell county and West Texas generally, is the holding of large bodies of land usually by non-resident owners and their unwillingness to cut it up and sell to the small farmers, who want homes of their own. This condition, however, is world wide and world-old, whether there shall ever be a solution to the problem, is not now promised. But something must be done in the near future to equalize the equations of this problem. But it will be settled some day, and settled right.

Land is the basis of wealth, and a man is not really an integral part of his state until he owns some amount of land; without land he is merely a kind of speculator, taking toll simply of the wealth created on the land as it passes through his hands. The farmer who creates new wealth every year is the mud sill of our national prosperity. The miner only locates what has been in the earth for hundreds or thousands of years; the woodsman destroys our forests with no thought of their renewal; the manufacturer merely multiplies the value of the raw material; the many classes of wholesalers, jobbers, distributors, etc., only take toll of what they handle, while back and behind all is the farmer, who is the only creator of new wealth every year. He takes one seed, and makes a hundred more; he directs the bringing forth of the animal kingdom, each species after its kind; he controls the feeding and clothing of the world, and in his hands is the peace and well being of the nations.

Manufacturing industries build up big cities and congest the population; they make captains of finance and industry, who hold their operatives in hardly higher esteem than they do their machinery. It destroys the individuality of a man and makes him little better than a chattel. His employer dictates in many cases how he shall vote, how he shall think, worship God and even seeks to proscribe if not regulate the daily life of his employee. Such environment and repression soon kills the independence, individuality and patriotism of the workman, and he thinks only of how he can retain his job and the good will of his boss. Consider the farmer of like ability, owning his own home, free of debt and earning about the same money as the wage worker in the factories. He feels his independence, his individuality, he fears the ill will of no boss, is not in constant dread of losing his job, thinks for himself and realizes that he is a component and important part of this great government.

Strictly agricultural sections do not build large cities, but are singularly free from most of the economic disturbances that afflict manufacturing centers. Agriculture attracts a different class of laborers, is not disturbed by agitators, strikes, riots and other concomitants of manufacturing industries. It is the backbone of the country's prosperity, its strength in adversity, the foundation of all commerce and the father of all industries.

To the farmer looking for a home, where the natural conditions of living are favorable in the matter of long crop seasons, a salubrious climate, ex-

cellent health, mild winters, ease of cultivation of crops, Mitchell county offers superior attractions. The land is being rapidly put under the plow and in a few more years, good and smooth land, conveniently located as to school, church and market facilities, will be much harder to secure than today. If the promise of present conditions in fulfilled, and cotton commands a reasonable price next fall (as there is every reason to believe it will) this section will witness a flood of immigration compared with which that of 1905 and 1906 will seem negligible. If Colorado and Mitchell county want a generous share of this influx, now is the time to begin the invitation. Systematic and persistent advertising in various practical ways will bring results.

The general opinion is that the European war will terminate sometime this summer, and that a great emigration from Belgium, Germany, England and France will immediately follow. Farmers who have lost their all, will seek a new start in a new country, where they may feel secure against future human slaughters. America will naturally be their goal. These emigrants will not be the scum and off-scourings of Southern Europe, but the best farming class of the greatest framing countries of the world. West Texas and particularly Mitchell county needs just such farmers and citizens as these. Mitchell county could locate at least one thousand of these farmers and their families, and the Record believes that with a systematic campaign to this end made by the Chamber of Commerce and some county organization—like the Mitchell County Diversification and Marketing Association—their location in this county could be achieved. If only twenty families could be induced to come, it would mean twenty more farms and more than twenty good citizens, a nucleus that would draw more of the same kind.

Let us see if something of this kind can not be done; it would mean more to the advancement of Mitchell county than can be expressed in words. We have every condition here that immigration seeks, and it is up to us to bring them together. A live immigration organization in every county, kept in close touch with the immigration departments of the different railroads, might induce hundreds of new citizens to locate in this section. It is being done in other parts of the country, why not in Mitchell county?

There's good men and good men. Some are positively good, doing good things. Others are negatively good, simply by not doing bad things. They have all the desire to do wicked and naughty things, but lack the courage or opportunity to do them. They are good and honest, because they are not wicked and overtly dishonest in their acts. There's many a murderer who never took a human life or drew human blood; there's many a thief who never took anything not belonging to him; many a liar who never uttered a falsehood in his life; many an adulterer who never committed physical adultery, and so through the entire category of sin. It is not what a man does that determines his morality; it is what he is in his heart. The Master set forth this principle very clearly when he declared: "But I say unto you that those looketh upon a woman to lust after her, hath committed adultery already in his heart." And had other sins been under discussion at the time of this enunciation. He doubtless would have said the same in their connection and commission. The "rich man" in the bible, whose entrance to heaven is declared as difficult as the passing of a camel through the eye of a needle, is not one who simply possesses wealth, but one whom wealth obsesses. Job was not a "rich man" although possessed of great wealth. Judas was a "rich man" because he loved money above all else. One may not possess a dollar and yet be a "rich man" in his heart—a heart eaten up with avarice. Gehazi was another "rich man" though a servant of a penniless old prophet. A man is what his heart is, and out of it are the issues of life and death.

WE'D BETTER SLOW UP.

It requires line upon line and then some, to bring the public to heed certain precautions and the sacrifice of a human life or two is often made before care and thoughtfulness work a reformation. There is a law against running an automobile on the streets of cities and towns exceeding a certain speed. Nearly everyone who owns an auto knows of this restriction, yet so cock-sure are they of their ability to avoid accidents that they throw the burden of liability upon the other fellow. Others may have accidents, but not they. It has been little less than a miracle that someone has not been killed on the streets of Colorado by fast and reckless driving of autos. There is not a day that passes but the speed limit is broken by dozens of people on the business streets

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side. The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair. At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work." If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

of the town, and with the great increase of machines the menace to human life becomes greater and more imminent every day.

Immunity from arrest and fine has emboldened many to daily contempt of the state law and city ordinance. They regard the law as a dead letter so far as it effects them. Such drivers can be brought to a wholesome respect for the safety of other people only by prompt arrest and stiff fines for every offense. In some places no child under 16 years of age is allowed to handle an auto on the public streets. Unless something is done to regulate the handling and speed of autos better than heretofore, someone or more than one, will be killed or injured. The danger hangs above the head of every citizen of the town.

WHAT WE CALL "A PERMANENT INVESTOR."

Many years ago, when West Texas had been but just discovered, some of the leading papers of the nation sent out staff specialists of writers, photographers, off-hand artists and other accessories to a well and thoroughly equipped investigating expedition, for the purpose of writing up the country and incidentally selling copies of their papers. This writer recalls the particular expedition sent out by the Leslie's Magazine, and remembers some of the pictures published. The arrival of the Leslie staff at Colorado was made in conjunction with a tax sale of real estate by the sheriff of the county. Nothing more natural than that the northern visitors should visit this sale, not unmindful of the possibility of picking up a fortune that others had trod upon. And so it happened that one of the Leslie's Magazine party bid in a half section of as fine shinnery land as the wind ever shifted overnight, but which lay in intimate juxtaposition on the north, to the corporate lines of the City of Colorado.

The highest and best bid for the property was about \$5.00, and from that date till this good day, the owner has steadfastly adhered to his Mitchell county investment like the proverbial tick to the Senegambian shank, albeit tempting offers have been repeatedly made for its purchase. The property lies just at the head of Oak and Walnut streets, north of town, and is the crem-de-la-crem of the shinnery lands in that locality. The owner keeps it leased to responsible parties, and to attest his community interest donated twenty acres of the land for cemetery purposes, to the county. Merely to evince a neighborly interest, certain citizens at divers times and at sundry places, have helped clear the land synchronously with a thrifty provision of fire wood against the coming of cold weather. The owner of the land living so far off (New York) would not of course, care to pay the express charges on his stove wood from West Texas; so those who had so kindly cut it for him, paid back the deserving turn, and burnt it for him. He would hardly recognize the wooded landmarks today, he left behind in 1883.

But this is not what we started out to say. We intended to waive all improvements that have been made on the land since then and merely mention the tenacity of his adherence to proprietorship as a worthy example of confidence in West Texas investments. Through good and evil report; in drouth and in flood; under liquor and local option administration; Bailey and Anti-Bailey, Hon. John A. Sleicher president and editor of Frank Leslie's and Judge, millionaire and with a few other minor distinctions, has kept his Mitchell county shinnery land, waiting for it to come into its very own. We wonder how Brother Fields, Col.

Geo. Brown, neighbor C. W. Simpson, Clarence Grabel, Judge Coe and other contiguous land owners, who have been wanting to sell, will feel when the announcement is made that a gusher had been struck on the "graveyard" section, that blew drill, derrick, men and all else movable off the section and 18,000,000 barrels of fine (\$1 a barrel) oil lost before the flow could be pinched down. And who knows what's under that section of shinnery? Who knew what was under the German's farm at Thrall? If everything comes to him who waits, as the promise in the books is, Judge Sleicher is due a mine of pure radium, at least.

GO TO CHURCH Now is the Time. Don't Procrastinate

GO TO CHURCH. Do it now. "NOW" IS THE GREAT WORD OF GOD. "NOW" IS THE ONLY TREASURE WE HAVE, YET WE SQUANDER IT AS IF IT WERE OF NO VALUE.

Shakespeare declares in his familiar but ever true lines, "There is a tide in the affairs of men which taken at the flood leads on to fortune." And Lowell ringingly proclaims, "Once to every man and nation comes the moment to decide."

GO TO CHURCH NOW.

ENTERTAINMENTS FOR BRIDE.

Miss Annie Beal entertained at her home in South Colorado, last Thursday with a kitchen shower for the bride of the week, Miss Allen.

The house was appropriately decorated for the day, with cut flowers. On the dining table was an exquisite lunch cloth of cluny lace on which rested a vase of lovely pink roses.

The guests were greeted by Mrs. Beal and her daughters, Mrs. Snyder, Mrs. Stoneham Beal, Mrs. Ralph Beal and Miss Beal. Vocal solos were enjoyed, rendered by Misses Adams and Looney. Then a pleasant half-hour was spent in writing favorite recipes for the bride.

The presents were then brought to Miss Lilly in a large basket, carried by Dudley Snyder and Jimmie Beal, who were clad in white. There were numerous others which would not go in a basket, among which were a kitchen table and an up-to-date Hoosier cabinet.

The honoree looked very pretty in a green striped silk crepe, with rose colored hat. A most delicious salad course was served.

On Saturday afternoon Mrs. Charles Mann entertained the young lady friends of the bride, at her home in South Colorado with a handkerchief and hose shower. Mrs. Mann was assisted in receiving her guests by her sister, Mrs. Will Singleton of Sweetwater.

The house was decorated with cut flowers and the punch room was especially pretty with the floral letters A-T over the punch bowl. Here Misses Prude and Beal assisted by little Mary Snyder and Annie Mary Mann served most delicious punch.

Musical numbers were given by Misses Jeannette Earnest and Whipkey, after which ice cream and cake were served. Misses Looney, Vera Gary, Ethelene Stokes and Natalie Smith assisted the hostess in serving.

The bride looked her best in a Belgian blue crepe de chine with gold lace hat.

Again on Friday evening Mr. and Mrs. Edwin Foulkes entertained at their home with a dance.

The receiving line was the host and hostess and bridal party.

Many pretty gowns were seen and the bride looked charming in a dainty pink taffeta evening gown.

There were twenty couples of dancers besides three tables of bridge enjoyed by the more sedate ones. Mrs. Adams proved the most skillful player, and was awarded a set of cut glass sherbet glasses.

All during the evening delicious punch was served and later tutti-frutti ice cream and cake were enjoyed.

A luncheon to have been given by

the bridesmaid, Miss Lois Prude, and a dance by the Colorado boys at the club rooms on Monday evening were postponed on account of the death of an intimate friend of the bride's family, Mrs. L. A. Bailey.

Groom Was Pelted.

While as a usual thing all entertainments and showers are for the bride, yet Mr. Thomas came in for his share of the gifts; not in as dainty a way as when given the bride. Last week the young men friends of the groom had him arrested and carried to the garage where a storm awaited him.

DEATH OF MRS. L. A. BAILEY.

Everyone who had lived in Colorado any length of time, was saddened when the news came Saturday morning of the death of Mrs. Louise A. Bailey in San Antonio. She left here a few months ago, seemingly in the best of health, to make a visit with her children in different parts of the state and a few weeks ago had to go to a sanitarium for an operation.

In the passing of Mrs. Bailey another of Colorado's gentlewomen has gone. Mrs. Bailey had lived in Colorado for thirty three years and was interested in everything that made life happier and better for humanity in general, and her friends in particular.

She was a consistent member of All Saints Episcopal church here since its organization, and was, at the time of her death, president of the Guild, and had been for a number of years. She was also interested in literary work, having been an active member of the Standard club for many years and was the first member of that organization to be removed by death.

Mrs. Bailey was born in Buffalo, N. Y., Jan. 12, 1856, daughter of Lyman A. and Margaret Frink; was reared in St. Louis; married in Troy, Mo., Jan. 16, 1873 to Arthur A. Bailey. Three children were given them, May Etta B. Liles, (deceased) Pearl B. Swain of Dallas and A. R. Bailey of Brenham, and four grandchildren, Mrs. Lillian Liles Campbel of Yoakum, Hugh N. Swain and Mary Elizabeth and Pearl Ellen Bailey.

The remains reached here Monday and funeral services were held at the family's beautiful home, Monday afternoon by the Rev. Mr. Rafter, rector of All Saints Episcopal church, and the body laid to rest beside the husband and daughter in the I. O. O. F. cemetery.

The Record joins the host of friends in offering sympathy in this sad hour.

CARD OF THANKS.

We wish to thank our friends for the beautiful flowers sent in memory of our mother, and for their kindness and sympathy in our bereavement.

MISSIONARY MEETING.

The Methodist Woman's Missionary Society met in regular session Monday afternoon. Besides the regular business, Mrs. Hester and Mrs. Jackson were appointed as delegates to the district meeting at Big Spring, this week. Also Mrs. Clements was appointed to the annual meeting in Memphis, Texas, on the 28th of May, with Mrs. Jackson as alternative.

WHY WOMEN FADE.

This is for ladies only. Men should keep their eyes off it.

A million women today should be told what other millions have learned—that they need one element in their blood far more than men, and that lack of it is the reason they are apt to fade many years before they should.

The needed element is iron. Iron builds up the red corpuscles of the blood and sustains vitality and strength. Women need a constant supply of blood-making material, or their system breaks down under the constant drain. The very moment there is a lack of blood, or when the blood is impoverished, the signal appears upon the face in sallowiness or palor, and the remedy is McCroskey's Tonic, for it contains iron.

Nothing else meets this particular condition as well. Use of it has made thousands of women look many years younger and made them even feel younger than they looked. It not only restores strength, energy and beauty, but it is a prompt and certain cure for all the ills peculiar to the sex. It cures because it removes the first cause. It supplies just what nature needs to bring health. It strengthens the debilitated organs and gives tone and elasticity to muscles and ligaments rounds out wasted tissue and renews the vigor of the nervous system, it helps quickly and just as surely and permanently. It has been used and praised by both old and young women, and mothers should see that their daughters coming into womanhood should take it. It will bring them through all right.

HONORING MRS. V. O. MARSHALL.

Tuesday afternoon Mrs. C. T. Harness entertained the ladies of the Christian church with 42 in honor of Mrs. V. O. Marshall, before she left for her new home in Cleburne.

While Mrs. Marshall has lived here but a few years, yet she has proved herself such a friend to every noble undertaking that all who know her love her, and especially those who know her best. She will be missed much in her church circle.

While the guests were entertained in their games, the expressman brought package for Mrs. Marshall and after she had reluctantly opened it before her friends, as she had no idea what it was, she was more than delighted to find it was composed of small packages, and all for her, from those selfsame ladies. There were many dainty personal belongings that will bring forth happy remembrances when worn by the honoree.

Mrs. Harness served ice cream and cake with sweet peas as favors.

Mrs. Marshall left Wednesday for Cleburne, where Dr. Marshall has already located, with the best wishes of all her friends.

SENIOR B. Y. P. U.

The Senior B. Y. P. U. entertained the Baraca, Philathia and the Fidelis classes of the Sunday school last Friday night at the Sunday school rooms. A very pleasant evening was spent with music, contests and charades. The young people were honored by the presence of the pastor and his wife, Mr. and Mrs. Greene, Mr. and Mrs. Pierce, Mr. and Mrs. Morgan, Dr. and Mrs. Ratliff, Mrs. F. B. Whipkey. Ice cream and home made cake were served. Supt. Greene made himself useful by furnishing victrola music while the pastor had the distinction of knowing the most charades.

PRESBYTERIAN CHURCH.

There will be no services at the Presbyterian church next Sunday at 11 o'clock a. m., the congregation worshipping at that hour in the union service at the tabernacle. Sunday school and the evening services will occur at the usual hours.—Guy B. Duff, Pastor.

She Knows What She Wants

The well informed housekeeper objects to the use of alum in food. She might read in an advertisement or be told that it was all right in the quantities used, but in the end she would merely ask, "Do you mean to say that these baking powders contain alum?"

If the answer, however qualified, were in the affirmative, that would be enough. She would not buy it. Why?

Because she knows that cream of tartar has always been accepted as the most wholesome product for raising cake and biscuit, and she wants a baking powder made of cream of tartar, like Dr. Price's.

This conclusion is the result of unconscious absorption, either her own or her mother's, of the opinions of the highest authorities on hygiene and home cooking.

The prudent housekeeper looks at the ingredients printed on the label. She knows what she wants.

WHERE WORLD'S GREATEST PIPE ORGAN WILL BE HEARD

Festival Hall—Panama-Pacific International Exposition—from the south promenade of the South Gardens, the facade of the Press building showing at the extreme right. On the great organ in this hall—one of the six greatest organs in the world—Camille Saint Saens will play an original composition, and there will be recitals by Edwin Lamare of London, Wallace Sabin and other maestros. This hall will center the intellectual, dramatic, musical and literary life of the exposition at San Francisco many of the 400 conventions of this year making it their assembly place.

**YOUR attention is respectfully called to an important point not generally known, that a laxative should have a tonic element to successfully meet constipation.**

Mr. John B. Capers, of 610 Pecan St., Fort Worth, Texas, had a significant experience in this particular. He was afflicted with a severe case of constipation and bowel trouble. He spent a good deal of money in trying to find a remedy. To his astonishment, Peruna very quickly relieved him of his bad symptoms. This happened a number of years ago. Since then, Mr. Capers states that he has had similar attacks of trouble, the prominent symptom of which is constipation, and has always found prompt and efficient relief from Peruna. He says: "Up to the time I started using your Peruna, I could drink castor oil like water. It did no good. As for salts, they were of no use. Physics of all kinds and classes were used, but we had to call on the fountain syringe for help." Peruna was able to correct this condition completely in Mr. Capers' case, and there is every reason to believe that it was the tonic qualities of Peruna, added to the laxative qualities, that procured this very desirable result.

TEXAS FACTS

POPULATION.

There are 365,000 persons who were born in Texas and who reside in other States, while 830,000 persons born in other States live in Texas.

The center of Texas population is 5 miles Northwest of Waco, in McLennan county.

If all the people in the United States moved to Texas, our population per square mile would not exceed that of Massachusetts.

If Texas were as densely settled as the average State in the Union, we would have 8,000,000 instead of 4,500,000 people.

The population of Texas increases at the rate of 235 persons per day.

The population of Texas is 14.8 persons per square mile. In the rural districts the average is 11.3 persons per square mile.

Massachusetts has 419 persons to each square mile of area.

During the past decade the population of Texas has increased 27.3 percent and the United States 21 percent.

There is a child born every four minutes in Texas.

We build seven homes in Texas every working hour in the day.

Our foreign born population is constituted chiefly of Mexicans, Germans and natives of England.

We have 23,000 persons who were born in Ireland. Ten years ago we had only 6,169.

We have 1,003,357 males over twenty-one years of age. Eighty-three percent of them are white.

Texas could muster an army larger than the standing army of the German Empire and would not have to get outside the State for material.

Fourteen percent of our population is in the cradle.

The storm damage at Austin is estimated at \$2,000,000; at Dallas the figures are placed at \$200,000 not counting the loss and inconvenience caused by the cutting off of the natural gas supply; in Williamson county damage is placed at \$250,000.

**CALOMEL SALIVATES AND MAKES YOU SICK.**  
Acts Like dynamite on a sluggish liver and you Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel with 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

**RURAL JITNEY SERVICE.**

The jitney car is a success in the city, where it operates in competition with street cars and carries passengers at less than two cents a mile. It has, therefore, come to stay.

But the automobile carrying passengers over regular routes or country roads for a fixed fare per mile, is becoming even a greater success. Particularly is it true of passenger-auto lines between rural towns or communities and railroad points—routes over which there has been no passenger service before.

The people of nearly any rural community can establish such a line to their railroad market town. The expense of starting it will be small, as will be the expense of operation. And, owned by a number of the people of the community and operated for the general good, it will be liberally patronized and thus be a paying investment.

What would it be worth to you to have an automobile, that you or your family might ride for a small fare, make regular trips from your community to the railroad town two or more times a day? It would be equal to living on the railroad.

Thus, modern science makes it possible, by community cooperation, for people living in the country to have all the advantages and escape the disadvantages of rural life.

**CITATION.**

THE STATE OF TEXAS, To the Sheriff or any Constable of Mitchell County—Greeting:

You are hereby commanded to summon J. M. Crowell, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd Judicial District; to appear at the next regular term of the District Court of Mitchell County, Texas, to be held at the Court House thereof, in Colorado, Texas, on the 3rd Monday in May, A. D. 1915, the same being the 17th day of May, A. D. 1915, then and there to answer a petition filed in said Court on the 16th day of November, A. D. 1914, in a suit numbered on the docket of said Court, No. 3163, wherein Alphonse Klob, Emil Baerwald and David Rumsey are Plaintiffs and J. M. Crowell is Defendant; the nature of Plaintiff's demand being as follows:

Suit in trespass to try title, for the recovery of those certain lots of land situated in Mitchell County, Texas, described as lots Numbers 9, 10, 11, 12, 13, 14, 15 and 16 in Block No. 3, of the town of Lorraine, according to the map of a part of said town, which is of record on pages 488 and 489, of Book No. 24, of the Deed Records of the said county of Mitchell:

Plaintiffs allege that Chas. J. Canda, Simeon J. Drake and Sigmund Neustadt were the common source of title to the said lots;

That by deed dated November 5th, 1907, and duly recorded, said Canda, Drake and Neustadt conveyed said lots to defendant, J. M. Crowell, and in part consideration thereof, said Crowell executed his two notes of even date with said deed, each for \$105.00, bearing interest from date, at the rate of 6 per cent per annum, and payable to the order of said Canda, Drake and Neustadt, 1 and 2 years respectively, after date;

That said notes provide for the payment of ten per cent additional, on the amount then due, as attorney's fees, if placed in the hands of an attorney for collection, or if collected by legal proceedings;

That said notes, though long since due, are wholly unpaid; That in and by the said deed, the vendors' lien is expressly retained on said lots, to secure the payment of said notes;

That plaintiffs are the owners and holders of said notes, and the vendors' lien securing the payment of same;

That by reason of the fact that the vendors' lien was expressly retained in said deed, to secure the payment of said notes, said transaction was and is an executory contract of sale, as between the grantors in said deed, and the defendant, Crowell;

That plaintiffs elect to rescind said executory contract of sale, and recover said lots, the superior title to which, is yet in them;

That there are no improvements on said lots, and no equities exist, which would render rescission herein, inequitable;

That if for any reason, the court should hold that plaintiffs are not entitled to rescind said executory contract of sale, then, in the alternative, plaintiffs would show that the defendant promised to pay said notes, and the interest thereon, and that though often requested, he has failed and refused, and still fails and refuses to pay same, or any part thereof, to Plaintiffs' damage in the sum of \$500.00.

Plaintiffs pray that the defendant be cited to appear and answer herein, and that upon final hearing hereof, they have judgment against the defendant, for title and possession of said lots, and all costs of suit, and in the alternative, for a judgment against the defendant, for the principal of said notes, with interest accrued thereon, for ten per cent additional on the amount due, as attorney's fees, and for all costs of suit, and that the vendors' lien on said lots, as the same existed on November 5th, 1907, be established, and ordered foreclosed;

And that in the event of foreclosure, an order of sale be issued to the Sheriff, or any constable of Mitchell county, commanding him to seize and sell said lots, as under execution, to satisfy the judgment herein prayed for, against the defendant;

And that in the event said lots shall not be sold for enough to satisfy the judgment prayed for, then that plaintiffs have their execution against the defendant, for whatever balance may remain unpaid, after the proceeds of the sale of said lots shall have been credited on said judgment.

Herein full not, but have you before said Court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Colorado, Texas, this 14th day of April, A. D. 1915.

## The FORD

This is the Most Important Advertisement I Ever Caused to be Published.—Read Every Word—and then Marvel!

On a personal visit to Mr. Henry Ford I broached the subject of a possible August 1st Rebate.

(The Ford Company announced last year—as you well remember—that if their total sales reached 300,000 cars between August 1, 1914, and August 1, 1915, each purchaser during that period would receive back a refund of \$40.00 to \$50.00.)

"Mr. Ford," I suggested, "is there anything I can say to our people with regard to the Ford Motor Company's 300,000 car rebate plan?"

"We shall sell the 300,000," was the quiet reply—"and in 11 months, a full month ahead of August 1st."

"Then a refund is practically assured?"

"Yes—barring the total unexpected. We are 50,000 to 75,000 cars behind orders today. Factory and branches are sending out 1800 daily."

I then said to Mr. Ford: "If I could make a definite refund statement we would increase our local sales 500 cars."

"You may say," was Mr. Ford's deliberate and significant reply to this—

"You may say that we shall pay back to each purchaser of a Ford car between August 1, 1914, and August 1, 1915, barring the unforeseen, the sum of \$50. You may say that I authorized you to make this statement."

What can I add to the above? **\$15,000,000 cash coming back to Ford owners!** And to prospective Ford owners up to August 1, 1915, it actually means—**Ford Touring Cars for \$490—less the \$50 rebate! Ford Runabouts for \$440—less the \$50 rebate! What is there left for me to say?**

A. J. HERRINGTON

### AN UNWELCOME NATIONAL GUEST

The presence of General Victoriano Huerta in the United States at this time bodes no good for the people of Mexico.

General Huerta has come to New York not on a business and pleasure trip, as he avers, but in the capacity of conspirator. He is in this country for the purpose of formulating a new revolution in Mexico, and his oath to do nothing to violate the neutrality laws of this country was false when it was uttered. The very presence of Huerta in the United States is a violation of our neutrality laws.

There are conferences being daily held in New York with Victoriano Huerta as the central figure, having for their object the restoration of the Diaz form of government in the republic of Mexico. These conferences are not confined to members of the old Mexican scientific party by any means.

There are American interests in Mexico that have suffered severely through the revolutionary period, which are ready to finance a new movement to end the prevailing revolutionary activity. General Huerta has been chosen as the military head of the movement.

In all of the reprehensible and bloody career of Huerta in Mexico one fact has stood out pre-eminently—he is a first-class fighting man and wholly unafraid. He has no conscientious

scruples as to methods and there is much iron in his arm.

Huerta has been selected as the man who is to lead the new movement toward Diazism in Mexico, and if he is allowed to proceed with his plans it means a war of extermination. Backed by the purchasing power of good American dollars and turned loose in the republic of Mexico, it is probable Huerta would become a more dangerous factor than ever before.

The Washington government should compel General Huerta to leave this country without delay. If he refuses to take his departure, he should very promptly be interned.

It is surprising that an individual who has caused the Wilson administration so much trouble in the past, and who has already brought so much woe upon a stricken sister nation should be permitted to remain in this country to insolently plot for a resumption of his former detestable actions.

General Huerta should be compelled to go.—El Paso Times.

The Record will sell you the latest Webster's International (Unabridged) Dictionary at a bargain. Come see it.

To the army aviator war would not mean any great increase of danger. It is hoped that no aviator will be appointed to the general staff.

### "MUST SHOW ME."

Governor Ferguson is reported to be carrying a knife up his sleeve for the Texas School of Journalism, which is maintained in connection with the state university, and it is probable the governor will not stand for the \$17,000 appropriation necessary to keep the School of Journalism in existence. "The university must show me," says the governor, "that the people of Texas are getting value received for their money before I shall allow their money to be spent. Unless the department of journalism can show more conclusively that it is doing a service to the people of Texas, I shall cut the entire item of its appropriation." An academic education, such as a man can obtain in the university, coupled with actual training on a modern newspaper, would appear to be the correct schooling for all aspiring journalists. But it is not journalists we need in Texas, but real newspapermen, who are trained in the hard school of active newspaper work.—El Paso Times.

### TEN WEEKS IN BED—EMINENT PHYSICIANS FAILED—WONDERFUL RECOVERY.

I wish to inform you of the great benefit I have derived from the use of Swamp-Root. I had been a sufferer for more than twenty years from kidney and liver trouble and was almost constantly treated by the most eminent physicians who could only give me temporary relief. I had been in bed ten weeks when I began the use of Swamp-Root. Inside of twenty-four hours I could see that I had been greatly benefited. I continued to use Swamp-Root until I had used several bottles when I felt that my old trouble was completely cured and I am positive that any person suffering with kidney or liver trouble can be cured by the use of this preparation.

I am now in the best of health, better than I have been for ten years or more. I do not know how to express myself as strongly as I desire, in favor of Dr. Kilmer's Swamp-Root, as I am sure that it saved my life and that my good health is due entirely to this great remedy. I heartily recommend it to every sufferer and am confident they can be benefited as I have been. It is a pleasure for me, gentlemen, to hand you this recommendation.

MRS. H. J. PRICE,

1406 Center St. Portsmouth, Ohio. Personally appeared before me this 13th of September, 1909, Mrs. H. J. Price, who subscribed the above statement and made oath that the same is true in substance and in fact.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Colorado Record. Regular fifty-cent and one dollar size bottles for sale at all drug stores.

### INSURANCE KEYRATE LOWERED.

The creation of the office of Fire Marshal by the City Council, as per the ordinance published recently in the Record, will have the effect of lowering the fire insurance rate in Colorado quite materially. This office together with the offering and posting of notices of \$100 reward for arrest and conviction of persons of the crime of arson and the appointment of a regular night watchman, will mean eventually a reduction in the key rate of fire insurance for the city ten cents on the \$100 valuation. The city council will arrange for a permanent night watchman soon. The City Marshal will be the Fire Marshal. We understand that none of these extra officers will mean added expense to the tax payers of the city, directly.

### NOTHING SO GOOD FOR A COUGH OR COLD.

When you have a cold you want the best medicine obtainable so as to get rid of it with the least possible delay. There are many who consider Chamberlain's Cough Remedy unsurpassed. Mrs. J. Boroff, Elida, Ohio, says, "Ever since my daughter Ruth was cured of a severe cold and cough by Chamberlain's Cough Remedy two years ago I have felt kindly disposed toward the manufacturers of that preparation. I know of nothing so quick to relieve a cough or cure a cold." For sale by all dealers.

It's hard to completely eliminate old Dobbin as a means of transportation, no matter what the motive power. Dr. Coleman can bear ready and grateful testimony to this statement. He was called urgently to the Vincent community last Saturday night in the storm then just beginning. Arriving within two miles of his destination, his auto stuck in the mud. He had to abandon his machine and took shelter in a church nearby. He had but two matches with him and wasted both in trying to light one of the church lamps. He waited till morning before proceeding to the home of the patient, and to make an end to this story, he was finally compelled to return home in the old fashioned country doctor style—astride a trusty, non-stickable horse.
