

A Personal Message to You

THE most important thing in this world is the salvation of your own soul. The issues of Eternity hinge upon it; for "What shall a man profit if he gain the whole world and lose his own Soul. Or what shall a man give in exchange for his Soul?"

Death is the only absolute sure thing that will come to you in this world, and just as surely as Death, is the Judgment before the bar of God.

ARE YOU PREPARED TO MEET IT?

These are burning questions and can not be escaped by any one by any code of morals or philosophy. Each of us INDIVIDUALLY MUST FACE THEM.

REV. FRANK WRIGHT OF MISSOURI

Will begin a series of revival meetings in Colorado, at the Union Tabernacle, beginning

Wednesday, June 9th

At which time your individual responsibility to God and obligation to your own soul will be presented. Once more the Master will knock at your door and ask for admittance to your heart. If heretofore you have deafened your ears to His knock and dulled your conscience to His call, then we implore you to improve this new opportunity to let Him in. "How shall we escape if we NEGLECT so great salvation."

If you have not already taken Christ as your Savior, hasten to do so now. You do not know that another opportunity will ever be given you. Then, why delay?

If a business man, you can well afford to lay aside your business affairs and settle once for all this MOST IMPORTANT QUESTION. Find the pearl of great price.

He says to all: "Seek ye first the kingdom of God and His righteousness and all these things shall be added unto you."

He says to the afflicted, the burdened, the cast-down and the suffering: "Come unto me all ye that labor and are heavy laden and I will give you rest."

To the hardened sinner He says: "He that cometh unto me I will in no wise cast out." "Though your sins be as scarlet they shall be as white as snow; though they be red like crimson they shall be as wool." There is Hope and Salvation for ALL.

Every reader of the Record has a special invitation to attend these meetings. Your presence is necessary to the success of the meeting. Talk to your friends about it, particularly to your unconverted friends, and bring them with you. God certainly requires some return at our hands for His unmerited goodness to us and the best sacrifice we can make is "a broken and contrite heart."

Read this column next week. It will have another message for YOU.

Union Prayer Meeting next Wednesday evening at the Methodist Church. Everybody invited. Every Christian specially urged to be present.

WILL NOT ACT HASTILY.

President Knows People of This Country Wish and Expect Him to Act With Deliberation.

Washington, May 8.—The first formal comment at the White House on the sinking of the Cunard liner Lusitania came in a statement by Secretary Tumulty this evening. He said: "Of course, the president feels the distress and gravity of the situation to the utmost and is considering very earnestly, but very calmly the right course to pursue."

"He knows that the people of this country wish and expect him to act with deliberation and firmness."

President Wilson, upon whom the eyes of the whole world are focused, studied in quiet seclusion tonight the legal aspects of the sinking of the Lusitania.

The official data has not yet arrived, hence the president did not communicate with the official family.

Secretary Bryan said that he had nothing to say.

It was confirmed tonight that the Lusitania carried no guns, mounted or unmounted which disposes of the German claim of a right of an attack because she was an auxiliary.

A German official advertisement warning neutrals not to sail on British ships was again printed in the New York papers today. An advertisement similar to this was issued just before the Lusitania sailed on her last voyage.

"I think the Lusitania was torpedoed deliberately for the purpose of making the United States declare war," Lord Charles Beresford said today.

He added that he foretold the present situation in February and the reason why Germany wants to bring America into the war.

The latest estimates of lives lost as a result of the torpedoing of the Lusitania by a German submarine off the Irish coast, is 1,198. It is believed that almost all, if not all, the survivors have been brought ashore and there is little hope of recovering any other passengers alive. Of the dead many are women. The stories from Queenstown described the bringing in of the bodies of a great number of women, many of them still unidentified.

When the Lusitania left New York May 1, she had on board 1,901 souls, 1,251 passengers and 650 crew. The passengers were made up of 291 in the first cabin, 599 in the second and 351 in the steerage.

The rising tide of popular indignation against the sinking of the Lusitania, with the consequent enormous loss of life of American citizens has caused administration officials to indicate more positive views for comprehensive action than was revealed by those officials earlier.

The apparent effort of these officials, struggling with injunctions of secrecy, is to produce the impression although not in the form of official statement, that early and decided action is to be expected from the administration in answer to a popular demand.

High officials indicated their belief that action will be forced, although they would make no prediction as to the precise character of action likely to be taken.

Secretary of State Bryan, probably with a view of stemming the tide of popular indignation, at least until the administration could decide upon a course of action, issued a warning against the danger of "rocking the boat."

Warning Sneered at, Says Germany.

Berlin, May 9.—The following official communication was issued tonight.

"The Cunard liner Lusitania was yesterday torpedoed by a German submarine and sank."

"The Lusitania was unlawfully armed with guns, as were recently most of the English mercantile steamers. Moreover, as is well known here, she had large quantities of war material in her cargo."

"Her owners, therefore, knew to what danger the passengers were exposed. They alone bear all the responsibility for what has happened."

"Germany, on her part, left nothing undone to repeatedly and strongly warn them. The imperial ambassador in Washington even went so far as to make a public warning so as to draw attention to this danger. The English sneered then at this warning and relied on the protection of the British fleet to safeguard Atlantic traffic."

COLORADO'S NEW ENTERPRISE.

A Busy Place Doing a Needed Work is a fit appellation for the new industry established just across the street from the Record Office.

Without noise or other ado a machine was unloaded, moved into the Simpson building, a wagon drove up to the door, delivered an old mattress, and in a few moments wheels began to whirl, the sound of beating with a stick was heard, a man seen sewing something around the edges of a mattress and soon afterward, the wagon bore it away, bringing in another. This has been repeated hourly in the busy place across the way. Thus began the work of the Overland Bedding Company in Colorado, and thus it has kept up continuously since.

Mr. J. E. Ferguson is the gentlemanly manager of the concern and gave this scribe a detailed description of every phase of the process by which they take an old mattress, disgorge its contents into a machine that thoroughly works over the old cotton, aereates it, rendering it fluffy and lively as down. It is then shot into a brand new tick and the edges tufted before a stuttering man can ejaculate "Scat!" And there you have a mattress in every whit good as new, and what is of great importance to the user and owner—perfectly sanitary. It matters not how old or soiled the mattress may be, it comes out clean, neat and inviting.

This company also makes new mattresses when preferred, to this end carrying a large variety of patterns in ticking ranging in quality and price from good to the best.

Phone them you have an old mattress to be renovated and they will call for and deliver the finished work.

This enterprise will remain here only a few weeks and it is evident from the stacks of mattresses they are receiving to be worked over, that the workmanship, prices, etc., are satisfactory in every particular.

MEETING OF B. W. M. W. OF CENTRAL WEST DISTRICT.

Mrs. R. B. Terrell returned from Stamford Saturday night, where she had been attending a district meeting of the B. W. M. W. of the Central West Texas District.

The people of Stamford did themselves honor by the way in which they entertained their visitors. The beautiful Baptist church building was decorated for the occasion with greens and roses. The guests were given a most hearty welcome.

The much loved district president, Mrs. O. H. Cooper, presided and all other officers were present and an unusually good meeting was held.

Dinner and supper were served in the basement, so that the entire time could be given to business.

Two state officers were there, Mrs. Beddo, corresponding secretary and treasurer, of Dallas and Mrs. J. W. Byars, leader of the State Juvenile Work, of Waco.

Rev. J. Edward Johnson, head of the Judson Memorial fund was there, and at the afternoon hour addressed the ladies.

After business the guests were given an auto ride to the principal places of interest in the city.

The old officers were re-elected with our own Sunbeam leader, Mrs. R. B. Terrell, as district organizer of Sunbeam work.

A visit to the open and virgin prairies just at this time is a revelation and inspiration to the ordinary mind. People who have been living in this section since before the railroad was built confess that never have they seen such a luxuriance of vegetable growth, and when a genuine, simon-pure, dyed-in-the-wool Old Timer admits that latter day conditions and accomplishments equal those of the "early days" one may be sure, there is no room for controversy. The regulation Old Timer admits nothing over his experience. He concedes nothing to latter day development. If he avers that it is not going to rain, not even a flood can change his point of view. Yet, in view of the Old Timer's set-fastness, the Record maintains that never since the settlement of this section have conditions for the cattle interests and the farmer, been as promising as now.

Read the double column ad on the front page of the Record this week. It will be changed from week to week during the progress of the meeting. Read it every week as it will carry a special message to you each time.

SAFETY AND COMFORT FIRST DRIVING YOUR FORD CAR MADE EASY.

SIMPLIFIES DRIVING.

The Auto Safety Steering Device attached to your car will eliminate seventy-five per cent of the fatigue of driving as it absorbs all the shock of the steering wheel, steadies your car and keeps it in a straight course without the constant shifting of the steering wheel that is ordinarily required. By lightly touching the wheel your car will keep its course with surprising ease.

PREVENTS ACCIDENTS.

Our Safety Steering Device is a check against accidents so common because of steering gear troubles. In case the steering gear should break or become disconnected in any way our Device would hold the car in a straight course, avoiding the inevitable plunge to the ditch, and preventing what might prove a very serious accident. This feature alone is well worth the price of the Device.

SAVES TIRES.

By reducing to a minimum the side

or wobbling motion of the front wheels of your car a substantial saving is effected on the crown of your tires.

GUARANTEE.

Our Safety Steering Device is substantially built in every detail and is guaranteed for one year and if during that time any part should wear out or become lost we will replace the same free of charge f. o. b. our factory at LaHarpe, Kansas.

PRICE.

The price is \$5.50 attached and once on your car you will never be without it. A short trial will convince the most skeptical. We want good agents everywhere.

MISSION RALLY. According to instructions of the general conference to educate the churches and people in general along lines of missionary and evangelistic work, the Methodists of Colorado and Colorado circuit set apart last Sunday as a Missionary Rally Day and observed it by an all day meeting at the Tabernacle. The music was along missionary lines and also the talks and sermons. Mrs. Jackson gave a report on Woman's Work that should inspire every woman to want to have some part in this great work. The pastor, R. A. Clements, preached at the eleven o'clock hour, a very helpful sermon from "A great door and effectual is opened unto me, and there are many adversaries."

\$415,000 FOR REPAIRING STATE CAPITOL

Contrary to general expectations, the Senate finally passed the \$415,000 appropriation bill for the repairing of the State Capitol by a vote of 17 to 5. While everything regarding the appropriation part of the bill has been done insofar as the Senate is considered, it is by no means certain that the measure will pass the House without amendments cutting the sum appropriated. Senator Cowell in speaking about the finance committee, pointed out that he was not in favor of increasing the people's taxes by large appropriations and that he thought the \$200,000 he suggested in his amendment to the bill would be sufficient. A vote of the Senate, however, showed that his colleagues did not agree with him.

Don't overlook the truism: the man who hasn't time to read always has the time to work for the fellow who does read. If he takes the paper just because his wife and children "devil" him till he does, and not because he cares to keep up with his neighbors and the world generally, he's doing better than the fellow, whom wife, children nor devil can induce to take it, but is losing much of community interest, say nothing of his dearth of information. Reading, like many other good and profitable things, does not lie in wait for a man, run him down and cram itself into his hard head; you have to seek it on its own terms and pay for it in time and honest effort. Atlanta, Ga., May 10.—Leo Frank was resented today to be hanged for the murder of Mary Phagan, on June 22nd. CHAMBERLAIN'S LINIMENT.

This preparation is intended especially for rheumatism, lame back, sprains and like ailments. It is a favorite with people who are well acquainted with its splendid qualities.

Mrs. Charles Tanner, Wabash, Ind., says of it, "I have found Chamberlain's Liniment the best thing for lame back and sprains I have ever used. It works like a charm and relieves pain and soreness. It has been used by others of my family as well as myself for upwards of twenty years." 25 and 50 cent bottles. For sale by all dealers.

There are six constitutional amendments to be voted upon by the people of Texas on Saturday, July 24. The first is to increase the membership of the supreme court of Texas to five from three. The second authorizes counties to create special loan funds for students. The third authorizes counties or subdivisions thereof to levy a special road tax not to exceed 50 cents on the \$100 valuation. The fourth authorizes the issuance of bonds for public improvements, such as drainage and levees. The fifth would permit traveling men to vote wherever they may be on election day. The sixth provides for the separation of the State university and the Agricultural and Mechanical college.

A Winstead dispatch having reported an egg fried by lightning, it goes without saying that the unflinching optimist had it served sunny side up.

PROSPERITY POINTERS.

Here are some prosperity pointers: Some of the arms manufacturers of the United States have contracts that cannot be filled within the next two years, work as hard as they may, double shift, with as many men as can be assembled at the plants.

Tenders have been made for the delivery of billions of cartridges, in some cases so large have been the requests that the arms company declined the order, stating that five years would be required to fill it.

Contracts are in existence calling for war material, the delivery of which does not begin until next September, and continues at monthly intervals for two years.

Woolen mills of the United States are now running on contracts for army winter clothing cloth, showing that the military authorities in Europe are considering the comfort of the men in the trenches during the winter of 1915-16.

Travelers returning from Europe begin to predict that the war will last for at least two years longer. This will mean a continuation of the orders for war material and for foodstuffs.—Fort Worth Record.

A New Back For an Old One, How It Can be Done in Colorado.

The back aches at times with a dull indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys and again the loins are so lame that to stoop is agony. No use to rub or apply a plaster to the back if the kidneys are weak. You cannot reach the cause. Colorado residents would do well to profit by the following example:

A. A. Princess, Sweetwater, Texas, says: "I have used Doan's Kidney Pills with excellent results. I had weak kidneys which caused my back to ache and I had other pains, common to kidney sufferers. A friend told me of the wonderful good Doan's Kidney Pills did him, so I got a box and used them as directed. In a short time I was cured and I haven't had any need of a kidney medicine since."

THE FOUNTAIN AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION THAT SYMBOLIZES THE BUILDING OF THE PANAMA CANAL

The labor that went into the building of the Panama canal is symbolized in the Fountain of Energy, by A. Stirling Calder. This heroic sculpture stands in the center lagoon of the three lagoons of the South Gardens and faces the main entrance gates. The waters were first released on opening day, February 20, coincidentally with the opening of the portals of the exhibit palaces and by the same means: the electric spark transmitted across the continent when President Woodrow Wilson opened the great exposition at San Francisco by wireless.

HAS MADE EXCELLENT RECORD.

Speaking of faithful and efficient officers reminds us that there are none better than our own District Attorney, W. P. Leslie, of Colorado. Mr. Leslie recently returned home from discharging his duties here during the term of court and each term has found him stronger in the estimation of the people than before. That he has made a most excellent record is borne out by the facts that he has never lost but two cases where indictments were returned. He has never had a case thrown out of court where a bill was returned. For many years it looked like conviction could scarcely be secured in Nolan county and the same conditions existed in a greater or less degree throughout the district, but Mr. Leslie has brought about a change and the fellow who thinks he can commit crime and escape the penalty of the law, has come to realize that he must get out of this district. Of course, Mr. Leslie has been assisted greatly by the efficiency of our District Judge, Beall, who has made a most excellent record. In speaking of his work to a Reporter representative some time ago, Mr. Leslie said the success he had had was due in a good measure to the fairness and wise course pursued by the District Judge.—Sweetwater Reporter.

JORDAN GRANTED BAIL.

District Judge John B. Thomas was here Wednesday to try the Habeas Corpus case of Edward B. Jordan, who was suing for bail.

Jordan is charged with the murder of his father, J. B. Jordan, and the case is set for trial at the September term of the District court.

Jordan has been in jail here since the killing. The state was represented at the habeas corpus hearing by District Attorney Stinson, and Judge Woodruff was here from Sweetwater for Jordan.

The court granted bail in the sum of \$5,000,000. The bond had not been filled up to Thursday.—Snyder Signal.

SICK HEADACHE.

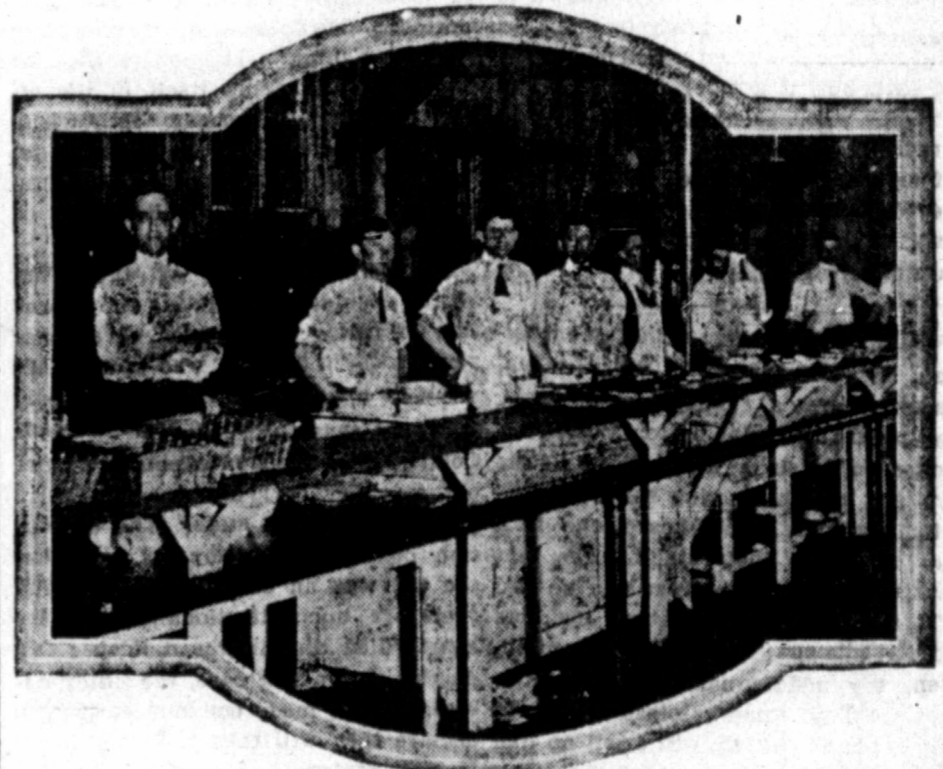

Mrs. A. L. Luckie, East Rochester, N. Y., was a victim of sick headache and despondency, caused by a badly weakened and debilitated condition of her stomach, when she began taking Chamberlain's Tablets. "She says, 'I found them pleasant to take, also mild and effective. In a few weeks' time I was restored to my former good health.'" For sale by all dealers.

THE CHEAPEST EATING-HOUSE IN TEXAS

Here's a line of boys who are working their way through the University of Texas, by cleaning up tables and serving in the University Cafeteria. Manager Veazey, at the extreme left, is not a student.

Fully sixty per cent of the student body of this great educational institution is either in whole or in part self-supporting, thus emphasizing the dependence of the poor student upon state-supported institutions of higher education. Meals here average but twelve cents each, and many students get their board here on the University campus for \$8.00 per month, the average is about \$11.00 per month. Rooms in University Hall nearby are obtained at from \$1.50 to \$3.00 per month, although there are not sufficient rooms to supply the demand at these prices. Not a cent is made by the management of the cafeteria—when it is discovered that a surplus is accumulating, the price of food is cut down. Here is actually board at cost. Besides furnishing cheap meals to over four hundred students per day, a half a dozen or more students are enabled to earn their board cleaning up tables, and otherwise serving the management.

MANUAL TRAINING AT STATE UNIVERSITY

University of Texas Students—future teachers of manual training in the public schools of the State.

The great handicap which bars progress in vocational education in Texas today is lack of properly trained teachers. The University of Texas is doing a great work in turning out hundreds of highly trained teachers each year who take their life positions in the public schools.

PEOPLE DAILY SWARMING AND SETTLING AT THE BIG CASH STORES

The people realize that they can get the greatest amount of merchandise from us for the least money, and the fact has been proven in many ways that the quality is equal to any and it is generally understood and thoroughly demonstrated that our prices are from 10 to 25 per cent less than those of usual price. If you will visit our stores you will readily see that we carry the largest assortment of merchandise in these towns and the quantity, quality and price will be shown to you. In our daily purchases, considering quality, we strive to prepare to give the greatest amount for the least money. This week a specialty on Jelly, the greatest amount ever offered for 5c. We profess to be a friend and a money saver to every father and mother or householder that visits our stores or has any knowledge of our intentions.

A Word of Praise and Thanks

We give God the praise for present conditions and surroundings in life. We are grateful to Him for our little accumulations, and our knowledge of right from wrong. We are grateful to Him for establishing us in Loraine and Colorado, Mitchell County, where we have been blessed with a generous patronage and a hope for many new customers. We feel honored and thankful that we have so conducted ourselves and have established ourselves in a reality of knowing how to buy and sell merchandise.

Sunday was Mothers' Day and our hearts being filled with the best wishes for every being with whom we come in contact and to bring to your memory afresh your father and mother, we offer you the following:

Father and Mother—I thank you for this being of mine, for the body you gave me, for the bones and the sinews, the heart and the brains that are yours, Father and Mother, I thank you. For the light in my eyes, the blood in my veins, for my speech, for my life, for the knowledge you have placed in my being. All that I am is for you that gave me birth, for all the love that you gave unmeasured from the beginning, Father and Mother, I thank you. For the hands that led me, for the breast that nestled me, the strong arms that shielded me, the laps that rocked me. All that I am is for you that nursed me; for your smiles and encouraging words through the day, for your kisses both day and night, my Father and Mother, I thank you. For all the tears you shed for me, the songs that you sang for me, the prayers that you said for me; for your kindness, and patience and ministrations to me. All I am is from you who reared me and God who has spared and blessed me. For the faith you had in me, the hopes you had in me for your trust and pride, Father and Mother, I thank you. I thank you for your praise and your chiding, for the justice you bred into me and the honor you had; all that I am you taught me. For the pains that I caused you, for the visions and despair, my Father and Mother, forgive me. Forgive me the grief I brought you, the sobs and the sorrow I wrung from you, for the strength I took from you, Father and Mother, forgive me. For the fear I gave you, for the alarms and dreads, my Father and Mother forgive me. Forgive me the joys I deprived you, the toils I made for you, the hours, the days and the years that I claimed from you, Father and Mother, forgive me. For the times that I hurt you; for the times that I had no smiles for you; for the thoughts I did not give you, my Father and Mother, forgive me. For all the pains and sorrows I wrought you; for your lessons I did not learn, for your wishes I did not heed; for the counsel I did not obey, my Father and Mother, forgive me. Forgive me my selfishness, all the great debts of your love I have not paid, dear Father and Mother, and may the peace and joy that passeth all understanding, be yours. May all of our lives be as you and God would have them to be. May we so live and walk each day of our lives and be prepared for the call, then dear Father and sweet Mother will readily forgive me. May we all think more and do more for the fathers and mothers that are living today. Yours for your best wishes and love to you all.

COLORADO, TEXAS, MAY 14, 1915.

Some people were discussing gossip and gossipers when one person advanced the idea that it is just as bad for a person who is not in the habit of gossiping to repeat the story of a professional gossip as it is for the gossip to start the story on his rounds. In one sense, it is sometimes worse, because gossipers are usually well known as such, and in the majority of instances their words are taken with few grains of salt, but if a story is repeated by another who has not acquired the degrading habit of using the slimy tongue of slander, it is more apt to be believed than when told by the individuals whom it is known take a delight in slandering others.

We wonder how many of the business men of Colorado paid 25c last Saturday for a "genuine gold filled, non-breakable collar button" when solicited to do so by a couple of flossie brothers, with a winning smile and bewitching looks. We heard one man say he'd take their stock. The fact that the self-same buttons can be had of the home dealer for about 10c, was no impediment to the transaction. Men, try middle name is gullibility, and yet these same helpless victims in the hands of Deilah, will swell up like a pouter pigeon and assert that they "never saw a woman who had any sense about attending to business," when any kind of an oxidized "skirt" can blow down the pike and sell one of these past masters of finance and business acumen, a half gross of nursing corsets and self-lifting boot straps. No indeed—woman is not the equal of man in business affairs. She can give him cards, spades, big and little casino, and beat him out hands down, on any part of the field.

Victor Murdock, proprietor of the Wichita (Kansas) Eagle, after twelve years service in congress, has returned to newspaper work and will conduct that paper upon an entirely new policy. Interviews of public men are to be printed just as uttered, without any sort of doctoring or padding, while the doings of the social set are to be written up without adjectives, and where an adjective must be used to qualify, nothing stronger than the positive degree will pass muster. The use of a superlative adjective will be notice of discharge from the force. This kind of a paper may be a success in a large city, but its first issue would be its own epitaph in a country town, where glass are diamonds, ham and pass in print as "most delicious, lovely refreshments" and every one present looks loveliest in charming one thing and another. Cut the adjectives out of an up to date social function and there'd be nothing left.

The best patronized West Texas daily newspaper that comes to this office is the Morning Reporter at Abilene. And think of it! Abilene is a prohibition town—not city. Cities don't want prohibition.—San Angelo Morning Sun.

Huerta and his backers no longer make a secret of his mission to this country. A new revolution, aided by that old arch brigand, Pascual Orozco and alleged to be backed by certain American interests, will be launched and directed from El Paso, in the opinion of the El Paso Times.

War has already cost Great Britain over two and a half billions, and is mounting at the rate of ten and a half millions a day. Already the national debt of the empire has doubled, and with the prospect ahead of the war continuing three years, the situation is not an agreeable one for Englishmen to face. And Frenchmen, Russians, Germans, Turks and Austrians are in no better plight. It appears that all Europe is beggaring itself in the effort to destroy German militarism, meanwhile employing an equally detestable militarism to compass the destruction.—Fort Worth Record.

The constitutionality of the Port Worth ordinance regulating the operation of motor cars, which carry passengers, for a 5c fare, was upheld last week by the court of criminal appeals in a test case taken up from Tarrant County. The decision affects operators of passenger carrying automobiles in every part of the state. The contention of the auto operators was that the \$10 was an occupation tax and therefore unconstitutional, but the court ruled that it was a license fee. As this was a test case, the jitney operators have made common cause and declare they will take the case to the United States Supreme Court for a decision.

There will likely be something doing in oil promotion in Mitchell county within the next month or two. Just keep your ear to the ground and your lamps open, and if you still have that piece of land near the Colorado river that you have been trying to unload on some fellow the past few years, see that the taxes on same are up to date and that nobody has strings tied to it. Heed the words of the Prophet. There's going to be doings in this county ere long and land will be land no matter what's under it.

WILL SAVE TEXAS PEN \$500,000 ANNUALLY.

Representative W. H. Hill of Walker county is preparing an amendment to the laws governing the state penitentiary system which he declares will save the system at least \$500,000 annually. He declares the system now owes \$700,000, and needs a thorough reorganization. A similar bill was presented at the last regular session but failed of a quorum at the last moment.

REDISTRICTING BILL.

Senatorial and congressional redistricting of Texas is expected to be taken up by the special session of the legislature, bills providing for that being now in process of preparation. Governor Ferguson has indicated he will recommend the passage of reapportionment bills if the present special session can handle them as well as the appropriation bills.

When the Lusitania was sinking Alfred G. Vanderbilt, who was equipped with a life belt, gallantly took it off and placed it about a young woman. Then he went to seek another belt. He was not seen again and evidently sank with the ship a few minutes later.

Many one-cylinder human machines try to go a six-cylinder gait and are ditched by the roadside.

IS THIS CIVILIZED WARFARE?

The sinking of the Lusitania and consequent death of 1,200 people, is a far more deplorable catastrophe than the loss of the Titanic or the sinking of war vessels with all on board in an actual combat. The loss of life in the Titanic disaster, was purely accidental; the loss of lives in a naval battle would be justified by the rules of warfare. But the premeditated lying in wait for a ship belonging to an enemy but filled with men, women and children and engaged strictly in commercial pursuits, and sending it to the bottom without warning or taking the people off before destroying it, and that within sight of land, is certainly the culminating atrocity of the present European war. Whatever material advantage Germany may hope to secure by such methods of warfare, sure it is that nation loses much in prestige and in whatever sympathy other nations of the world might have been inclined to extend her when the final reckoning comes. All these things will be thrown in the balances against Germany and public sentiment will fast crystallize in favor of her enemies.

The sinking of the Lusitania gives concrete evidence of the desperate straits into which Germany realizes herself fallen, and can only hasten the day of her humiliation by giving a more cohesive strength to her enemies and precipitating sentiment against her among neutral nations. The sinking of this ship without offering to take off the men, women and children of neutral nations, at least, and then abandoning the stricken vessel to the waves within ten miles of the shore, makes the death of these people, in morals, if not by the code of international warfare, murder in the last degree.

After working for nearly half a century to build up the most formidable war machine in the world, the Kaiser imagined that the German army could repeat its coup of 1870 in a whirlwind campaign against Paris, after that turn upon England and then be ready to meet the horde of Cossacks from Russia. The carrying out of this program, of course meant the sandbagging of little Belgium as a means to that end, but the stubborn resistance of the Belgians was not foreseen. The Germans had mapped out a program which would crush all their enemies by the very force and rapidity of their movements and end the war in about ninety days. But Belgium was the pebble in the German army's shoe. Her brave people held the invading Germans in check long enough for the French and English to mobilize their armies and come upon the field. But even with this serious interruption of German plans, the German army advanced to within 25 miles of Paris itself before beaten back by the Allies. Since that time the progress of the war has been slow but tremendous in its results. Owing to the modern improvements in field telegraph, air observation, etc., the enemy can not now be taken by surprise. Every move made by one side is readily seen and known on the other. It seems to have resolved itself into a contest of men and endurance. In view of such miscarriage of his plans, such loss of life, destruction of property and the putting back the condition of the nations engaged in the struggle, it would be interesting to know whether with foreknowledge of all these things, Emperor William II would have declared war against the world last July.

How many people can name off-hand the present alleged president of Mexico? You could have searched us in vain for information until we happened to see his name mentioned this week in an El Paso paper. The loudest claimant to that honor just now is Roque Gonzales Garza; but his name may be Mud tomorrow.

Everyone who has had the industry and obeyed the advice of his wife to the extent of planting a garden this spring, is now coming into good table living. Never before have the people of Colorado had such gardens as now. People who never before raised their own vegetables, are now bragging about the fine onions, radishes, lettuce, "sparrowgrass," near peas and beans, wherewith they daily regale themselves. The demand for tomato plants has been unprecedented and a land office business could be done in potato slips. Nobody imagined the conditions would be so favorable and everyone depended on his neighbor providing the slips, from whom he could buy, and so the parable of the wise and foolish virgins has its exemplification in our midst every year. If you have potato slips, they are as legal tender as gold. Just put a little ad in the Record. A barrel of sand is as profitable as one of sugar, if the people who buy don't know you have the sugar. You get the point of argument?

J. H. Bullock, county superintendent salary, stamps, etc., \$78.25. A. C. Looney Electric Co., repairs on lights, 50c.

Contract was awarded Austin Bros. of Dallas, Texas, for a 70-foot steel span on 80-foot steel approaches, to be delivered at Lorraine, Texas, to furnish labor and lumber for flooring; Austin Bros. to furnish foreman to erect same, to be paid for when bridge is completed and received by D. M. Vinson.

Both the house and senate committees are vying with each other in additions to the appropriation bill. If all are adopted there is not the least doubt the bill, when completed, will be nearly \$20,000,000, and tax rate in excess of 17 cents ad valorem, originally estimated as sufficient, will be necessary. The rate may go to 20 cents.

Senator Morris Sheppard, in a speech at Georgetown said the Lusitania sinking will be a tremendous argument for general disarmament. He recommended patience in the handling of the present situation.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Gardui, the woman's tonic. She says further: "Before I began to use Gardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Gardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

GARDUI

The Woman's Tonic

a trial. I still use Gardui when I feel a little bad, and it always does me good."

Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Gardui, the woman's tonic. You cannot make a mistake in trying Gardui for your trouble. It has been helping weak, ailing women for more than fifty years.

COUNTY TREASURER'S QUARTERLY REPORT.

Ending May 10th, 1915.

In the matter of the Quarterly Report of J. E. Stowe, County Treasurer of Mitchell county, Texas, and the affidavits of the Commissioners of said County.

In the Commissioners Court, Mitchell County, Texas, May term. A. D. 1915, this 10th day of May, A. D. 1915.

We the undersigned Commissioners of Mitchell County, Tex. and J. H. Bullock, County Judge of said Mitchell County, constituting the Commissioners' Court of said county, and each one of us do hereby certify upon oath that on this, the 10th day of May, A. D. 1915, at a regular term of our said Court, we have compared and examined the quarterly report of J. E. Stowe, Treasurer of Mitchell county, Texas, for the quarter beginning on the 8th day of March, A. D. 1915, and ending on the 10th day of May, A. D. 1915, and upon finding same correct, have caused an order to be entered upon the minutes of the Commissioners' Court of Mitchell County, stating the approval of said Treasurer's report by said court which said order recites, separately, the amounts received and paid out of each fund on the said 8th day of March since his last report in the Court and during the time covered by this report, and the balance remaining in each fund on the said 10th day of May, A. D. 1915 and have ordered the proper credits to be made in the accounts of said Treasurer, in accordance with said order as required by Article 867 Chapter 1, Title XXV, of the revised

Statutes of Texas, as assembled by an act of the 25th Legislature of Texas at its regular session.

And we, each of us, further certify upon our oaths that we have actually and fully inspected and counted the amount of money, in cash and other assets, in the hands of said treasurer, belonging to Mitchell county on this day and date and found the same to be as follows, to-wit:

Total cash on hand, belonging to Mitchell county in the hands of said Treasurer, \$16,169.11.

Assets in addition to the above amount of money as actually and fully counted by us, in possession of said County Treasurer.

Permanent School Fund invested in bonds \$1000.00.

Permanent School fund in land notes \$7856.00.

Total \$8856.00.

Assets \$25,025.11

Witness our hands, this 10th day of May, A. D. 1915.

J. H. Bullock, County Judge.

W. T. ROGERS, Commissioner, Precinct No. 1.

J. M. HELTON, Commissioner, Precinct No. 2.

B. O. JOYCE, Commissioner, Precinct No. 3.

D. M. VINSON, Commissioner, Precinct No. 4.

Subscribed and sworn to before me by J. H. Bullock, County Judge, and W. T. Rogers, and J. M. Helton, B. O. Joyce and D. M. Vinson, County Commissioners of said Mitchell County, each respectively on this 10th day of May, A. D. 1915.

COMPARE PRICES

In the Light of Firestone Extras

YOU who know, know tire values from experience; but note also the specifications in this cross section. The same relative values apply in all sizes of Firestone tires. For instance, in the 30 x 3 inch, you pay only 40 cents more for the more mileage values represented in these extras. And only a trifle more in proportion for the larger sizes.

Less material and lower grades are traps to make sales on prices.

The Firestone organization, the largest in the world specializing on tires, can make and market tires and tubes at a lower cost to you, the user, than any one else in the industry.

Actual Size 3-inch "Plain Tread" FIRESTONE

Fig. 1. 4 plies of fabric in Firestone—3 plies in the ordinary.

Fig. 2. Extra coating of finest rubber between fabric layers in Firestone—not in the ordinary.

Fig. 3. 1-16 inch finest rubber cushion layer in Firestone—not in the ordinary.

Fig. 4. 1-16 inch breaker strip of high-grade fabric and high-grade rubber in Firestone—same quantity in others.

Fig. 5. 1-16 inch tread, tough, resilient, in Firestone—3-16 inch in the ordinary.

Fig. 6. 1-16 inch side wall of strongest rubber in Firestone—same quantity in others.

Fig. 7. Bead of extra cohesive strength in the Firestone—same size bead in others.

Yet you pay only \$9.40 for this 30 x 3 Firestone—less than 9% more than four widely advertised makes.

CHURCHES, CLUBS AND SCHOOLS

GO TO CHURCH The Church is the Gateway to Real Happiness

GO TO CHURCH if you wish to be saved.

There is a hell. No doubt about that. Like heaven, it BEGINS HERE AND NOW. Recently the newspapers carried a story relating the suicide of a well known man. Ten years before he murdered his young wife and allowed another to be executed for it. He wrote: "I can endure it no longer. Each day the awful secret plunges me into the torment of the damned." For ten years he had lived in hell and then, like Judas, went out into the darkness and hanged himself. No writer, even with an inexhaustible vocabulary, can paint a literal fire equal to the one that exists in many a human soul. If there is no hell, why plan churches, missions, slum settlements?

THE MOMENT A MAN ENTERS A CHURCH HE FEELS BETTER. THE CHURCH IS THE GATEWAY TO HEAVEN. WHY DON'T YOU JOIN THE GO TO CHURCH THROG? YOU'LL FIND THE BEST PEOPLE IN YOUR COMMUNITY IN CHURCH. IF YOU HAVE BEEN A BACKSLIDER GET BUSY NOW. IT IS NEVER TOO LATE TO MEND. YOU'LL FIND THAT IF YOU GO TO CHURCH NEXT SUNDAY YOU'LL WANT TO GO TO CHURCH THE FOLLOWING SUNDAY.

There are thousands who would not dream of staying away from church on Christmas day or Easter, but who Sunday after Sunday will miss GOING TO CHURCH. It is to the people that this appeal is particularly addressed. If it is wrong to miss GOING TO CHURCH on Christmas and Easter, why is it not wrong to do so on Sunday?

WHEN THE GO TO CHURCH MOVEMENT GOT INTO FULL SWING A YEAR AGO THERE WAS A SPLENDID RESPONSE. THE CHURCHES WERE FILLED. DON'T LET THIS SPLENDID MOVEMENT DIE OUT. IT IS ONE OF THE BEST—IF NOT THE BEST—AGITATIONS THAT EVER WAS STARTED.

DO YOUR PART.
GO TO CHURCH.

I like to play close by my father's den, Where he's at work, and every now and then
Ask: "Father, are you there?" and he answers back:
"Yes, son." That time I broke my rail road track
All into bits, he stopped his work and came
And wiped my tears, and said: "Boy, boy! Be game!"
And then he showed me how to fix it right,
And I took both my arms and hugged him tight.
Once, when I'd asked him if he still was there,
He called me in and rumbled up my hair,
And said: "How much alike are you and I!"
When I feel just as boys feel when they cry,
I call to our Big Father, to make sure That he is there, my childish dread to cure.
And always, just as I to you, 'Yes, son,' Our Father calls, and all my fret is done!" —S. Gillilan.

THE CLUBS.

HESPERIAN.

Mrs. Phenix was hostess for the Hesperian last week, with Mrs. Ratliff as leader. The program on Mother's Day was:
Roll call—Lullays my mother used to sing.
Auld Lang Syne—Club.
Mother a world power—Mrs. Collier.
Music—Mrs. Broadus.
A father's influence—Miss Dry.
A Psalm to Fatherhood—Mrs. Davis.
Toasts to our mothers, led by Mrs. J. L. Allen.
Quartette—Home Sweet Home—Messdames Barcroft, Ratliff, Wulfen and Doss.
After the lesson, salad, ice tea, cake and marshmallows were enjoyed.
The meeting today is with Mrs. Doss.

BAYVIEW.

Mrs. R. O. Pearson was hostess for the Bayview with Miss McComas as leader, last week.
The hour was spent with the search questions on the first half of Silas Marner. Mrs. Robert Brennan, Mrs. John C. Moorar and Mrs. John Person were the guests. Refreshments were served at the social hour.
The last meeting of the year will be held with Miss McComas today.

STANDARD.

The Standard had a business meeting this week and adjourned for the summer.

500 CLUB.

Last week Miss McMurry entertained the 500 club. The members in honor of the event of the last time she would entertain as a young lady, each

brought her a gift for her new home. The prizes were won by Mrs. Brooks Bell and Mrs. Snyder, and were hand work from the bride's dowery box. Ice cream and cake were served.

HONORING THE BRIDE.

Nearly all the social affairs last week were given in honor of this week's bride, Miss Bessie McMurry.
Friday afternoon Miss Looney entertained the bride club and young ladies of the town. The house was attractively decorated with bright colored cut flowers. A table of men also graced the occasion, they were Messrs Allen, Prude, Adams and Looney. The honoree was presented individual silver cream and sugar. The prize was won by Mrs. Charley Thomas, a cut glass water bottle. At the close of the games creamed chicken, sandwiches, olives, pickles, ice tea ice cream and cake were served.

On Saturday morning Misses Coleman entertained with 42 in her honor. Cut flowers and ferns were the background for the happy bright faces. Each game that Miss McMurry won she was presented with a present, among which was a lovely clock by Mrs. Coleman and also a beautiful violet bowl and reflector by another daughter of the house, Mrs. Max Thomas. A delicious salad course was served at the conclusion of the happy event.

Again, on Saturday afternoon Mrs. J. L. Doss called the old euchre club together, complimentary to the bride. Three tables responded and a very pleasant afternoon was spent. The royal prize, two crochet dollies, was won by Mrs. Snyder. The lone hand, also dollies, was carried off by Mrs. Stoneroad. The honoree was presented a set of silver tea spoons. Ice cream and cake were served.

CENTRAL CIRCLE.

The Central Circle of the Methodist church met with Mrs. Harry Smith Monday afternoon.

Many interesting current events were given at roll call.

Besides the regular business the ladies decided to give a bazaar near Christmas times, and each lady pledged her help to the amount of five dollars. There was a good representation and those absent will be visited. Dues to the amount of ten dollars were received.

Mrs. F. B. Whipkey, Mrs. J. B. Hall and Miss Willie Smith were visitors. Ice cream and cake were served by Mrs. Flem McSpadden.

The June meeting will be with Mrs. D. N. Arnett.

MOTHERS' DAY.

Last Sunday a special effort was made that all the members of the Baptist church should be present and especially did the pastor desire that the

parents be there. Autos were furnished to bring the shut-ins and aged. The house was full and an inspiring and helpful sermon was preached by their honored pastor, Rev. W. L. Williamson on "Heavenly Recognition" using the text "For now we see through a glass darkly; but then face to face; now I know in part; but then shall I know even as also I am known."

COMMENCEMENT SERMON.

The sermon for the graduating class of the Colorado High School, was preached at the school auditorium last Sunday evening by the Rev. Mr. Engle pastor of the Presbyterian church at Sweetwater.

The auditorium had been beautifully decorated by loving hands, for this occasion and special music furnished by the Choral Club.

Colorado is ever ready to honor in every way her graduating class for she is justly proud of her school and its work.

The house was filled with attentive listeners and got a splendid message from the text: "Study to show thyself approved unto God, a workman that needeth not be ashamed."

Many good things were presented, but a few helpful and practical will long be remembered. He urged the necessity of study, and that it might be the kind of knowledge that would be pleasing to God, and with it all, self respect might be retained; for with self respect gone, they might have all else, and be a failure.

All the churches called in their appointments for the evening services, and assisted in this program.

The graduating exercises will be held this evening (Friday) at the same place.

BAPTIST CHURCH.

Services at the Baptist church as follows: Sunday school 10 a. m.; preaching at 11 a. m. and 8 p. m.; Junior Union at 3 p. m.; Sunbeams at 4 p. m.; B. Y. P. U. at 7 p. m.; prayer-meeting every Wednesday evening at 8 o'clock; choir practice Friday evening at 8 o'clock. A cordial welcome given to all who will attend any or all of these services.

FIRST CHRISTIAN CHURCH.

Next Sunday, May 16th.—Bible school 10 a. m.; communion and sermon 11 a. m., sermon subject, "Personal Responsibility." At the evening hour, we will unite in the union service to be held in one of the churches as per announcement elsewhere in this paper. This union service will be one of several Sunday evening services of like character looking to and preparing the way for our great union meeting to begin the 9th of June. Everybody cordially invited to attend these services.

J. F. MONTGOMERY, Minister

PRESBYTERIAN CHURCH.

There will be no preaching services at the Presbyterian church next Sunday, as the pastor will be in Midland to install the pastor there. Sunday school at 9:45 a. m. and Young Peoples' Society at 7 p. m. Be sure to be at these two services, also attend preaching at one of the other churches GUY B. DUFF, Pastor.

METHODIST CHURCH.

Every Sabbath Sunday School at 9:45 a. m.; Preaching at 11 a. m. and 7:30 p. m.; Junior League 2:30 p. m.; Senior League 6:30 p. m.; Prayer meeting every Wednesday 7:45 p. m.; Choir practice every Wednesday following Prayer Meeting; Vesper Service every 4th Sunday 7:30 p. m.
A cordial invitation is extended to all.
R. A. CLEMENTS, Pastor.

BIRTHDAY PARTY.

Little Miss Mary Bell Brennan had a few little friends play with her Monday in honor of her fourth birthday. After games the birthday cake with its bright candles was admired and eaten with ice cream. Many little gifts were left in honor of the occasion.

JUNIOR B. Y. P. U. PARTY.

The Junior B. Y. P. U. held their social meeting at the Sunday school rooms Friday evening. Mrs. Ratliff and Mrs. Lee Jones were hostesses. A pleasant time was had with music and games, then ice cream and cake were enjoyed.

THIS IS FOR MOTHERS.

INFORMAL CHURCH WEDDING

Wednesday at high noon, Mr. J. G. Holt and Miss Bessie McMurry were united in marriage at the Presbyterian church, Rev. Guy B. Duff officiating.

The church was a perfect bower of green and white around the altar, the large windows and the organ, while vases of roses rested on the center of the organ and bright colored flowers were in the windows.

Just before the hour arrived for the ceremony Miss Looney sang, "I Dreamed a Dream" with Miss Jeanette Earnest as accompanist. Then as Miss Earnest played the wedding march the couple marched in behind the ushers, Mr. Robert McMurry, brother of the bride, and Mr. Grady McRae of Loraine. They were met at the altar by the bride's pastor, who, in a sacred and solemn way, pronounced the words that made them man and wife.

The bride never looked prettier in a coat suit of sand silk poplin with accessories to match, carrying the beautiful bride's bouquet.

Immediately after the ceremony the bridal party, with a few intimate friends repaired to the home of the bride's parents for luncheon.

They are to go to housekeeping immediately in rooms at Mrs. Shropshire's.

The bride is the daughter of Mr. and Mrs. R. L. McMurry and another of Colorado's jewels to adorn a new home this month.

The groom is a courteous and popular salesman at C. M. Adams dry goods store, and a young man of industry and worth.

The Record, with their host of friends, wish for them a long life of peace, prosperity and happiness.

RELIGIOUS SERVICES.

Beginning next Sunday, May 16th, at 11 a. m. and 8 p. m., there will be preaching services at the union tabernacle throughout the entire week. During the week there will be but one service daily—at night. Rev. Aeryle Arceneaux of Fort Worth will do the preaching, and the community is earnestly invited to come and worship with this congregation.

Real Worth vs. Low Cost

If you asked your butcher for a porterhouse steak and he handed you a cut of the flank and said, "This doesn't cost as much and is just as good," you wouldn't believe him, would you?

Yet the butcher's statement is just as truthful as an assertion that inferior baking powders made of alum or phosphate of lime are as good as Dr. Price's, which is made from cream of tartar.

Alum is a mineral acid salt, declared by many medical authorities unsafe to use in food.

Dr. Price's Cream Baking Powder is as pure and wholesome as the grapes in the vineyard, from which cream of tartar is derived.

The only reason for using such substitutes as alum and lime phosphates is because their cost is less to the manufacturer.

Payne if possible to secure the seven reel film of Sampson and Delilah for them. She wrote at once and notified the club that the reels could be obtained for \$15, advertising matter to be sent a week ahead. The club set the time for May 6, and telephoned every lady who had a phone, only to find out at noon Thursday, that there would be no show. The company sent Mrs. Payne no advertising and when the reels came they asked more than \$15 for then C. O. D. As Mrs. Payne and the club both felt that nothing could be made, the reels were returned. We expect to have another good reel soon and hope our friends will come out to see it, as the club's part of the proceeds is to go on the city's new sanitarium furnishings. So you can see a good show and help a good cause at the same time.

PACK BOX FOR B. O. H.

Last Thursday the ladies of the Baptist Mission and Aid Society held their regular business meeting, finished the garments and packed a box for Buckner Orphans Home. There were five new quilts besides new garments of all kinds, for all sizes. With a low estimate it amounted to more than one hundred dollars. The treasurer reported ninety-two dollars for Home and Foreign Missions. They also appointed a committee to assist in raising the money for the Phenix Sanitarium which the church was pledged to give. Mrs. J. L. Shepherd and Mrs. A. L. Whipkey are the committee and will be glad of the assistance of any one who wishes to help in this good work.

MALARIAL DISEASES.

How to Avoid Them and the Serious Consequences of Neglect.

"Fix me up something to knock the malaria, doctor," remarked a sallow-faced, sickly looking man, entering a prominent physician's office the other day.

The doctor stepped to his medicine case, took down a couple of bottles, mixed a preparation which he handed to the patient with the customary advice to 'shake well and follow directions,' and resumed his seat.

"Such cases are frequent," replied the doctor in answer to a question. "The warm days and damp, chilly nights are certain malaria breeders and are most serious in those who have neglected to keep their stomach, liver and bowels in good condition. Such persons are full of the impurities on which the malarial germ thrives, and it is from this class that typhoid fever, pneumonia, Bright's Disease, smallpox and yellow fever claim most of their victims whenever these diseases are prevalent.

The proper way to guard against the malarial germ and the serious diseases which follow it is to get into good condition by taking a reliable remedy that will keep the bowels clear and the liver healthy, and to continue with it at frequent intervals during the sickly season.

A dose of Prickly Ash Bitters three or four times a week will do all of this, besides stimulating the digestion, improving the appetite and keeping the bodily energy at the highest pitch.

Prickly Ash Bitters is known everywhere as a system tonic and bowel regulator. It not only removes all traces of malarial poison from the system, but tones up the vital organs, gives new strength and vigor, makes the body strong and the brain active.

"Prickly Ash Bitters is the best all-around medicine for the family I ever used. During the last ten years I have always kept it in my house. Whenever any of my family show signs of malaria, kidney trouble, indigestion or constipation, a few doses is all that is needed to make them well and hearty again."—W. H. McWilliams, Nickerling, La.

THAT BASEBALL GAME.

Mr. C. A. Pierce, the great Poo-Bah of the "Leans" informs us that owing to the commencement exercises and other important social stunts, which are on hand for this week, the great game of ball which has been planned will not be pulled off until one day next week. But all arrangements have been made to pull off the stunt one day next week, and everybody should be sure to see it. Mr. Winn will not participate as he is no doubt by this time making a batting average of .500 on the Pacific coast, but there is plenty of other fat timber to take his place. A small admission will be charged and the proceeds will be applied to the deficit of the Colorado Base Ball Association of last season. Watch for street circulars announcing the day, hour and minute, and be there.

WHOOPING COUGH.

"About a year ago my three boys had whooping cough and I found Chamberlain's Cough Remedy the only one that would relieve their coughing and whooping spells. I continued this treatment and was surprised to find that it cured the disease in a very short time," writes Mrs. Archie Dalrymple, Crooksville, Ohio. Sold by all dealers.

T. & P. OFFICIALS HERE WEDNESDAY

COLORADO BUSINESS MEN GREET VISITORS AT TRAIN—TALKS AT STATION.

GET ACQUAINTED SESSION

Welcome Address by Dr. P. C. Coleman; Responded to by N. M. Leach, Gen. Traf. Mgr.

Colorado played host to fifty or seventy-five Texas and Pacific officials and traffic men of Northern and Eastern railroads Wednesday, for about 30 minutes, when the special train bearing the "higher-ups" arrived from the west, where the officials have been warmly welcomed by a number of towns.

Immediately after the arrival of the train the visitors were conducted inside the passenger station, where a get-acquainted meeting was held.

The address of welcome by Dr. P. C. Coleman and response by Mr. Leach were limited to only a few minutes, so that the visitors and their hosts might mingle freely and get acquainted. The visitors were not treated formally, but in the most informal manner possible in order to promote a spirit of fellowship. The leading business men of the town met the train. It was an opportunity to make a favorable impression on men who are high in power with the principal railroad through Colorado, and the opportunity was seized with pleasure.

The Record, in talking to Mr. Geo. D. Hunter, the General Passenger Agent, he said, that following an annual business meeting held at Shreveport, La., on May 5 and 6, the Texas & Pacific traffic departments from all parts of the United States are being conducted over the line of the T. & P. for the purpose of familiarizing them with the country along the line and for the purpose of enabling them to meet the patrons of the road, so that these traffic representatives can go back to their respective territories and "boost" the T. & P. country.

This is a "get acquainted" trip and "we want to know you, and want you to know us. Our desire is to give good service and to secure the close cooperation and support of the people along the line of the Texas & Pacific Railway. Your patronage is highly appreciated."

Mr. Hunter dropped into the Record office just for a minute, and complimented the paper, and the mechanical equipment very highly.

The party is in charge of Mr. N. M. Leach, general traffic manager, and is being conducted over the Rio Grande division, Fort Worth to El Paso, by the Superintendent of this division, Mr. L. M. Dooley. Following is the personnel of the party:

- Passenger Traffic Department:— Geo. D. Hunter, General Passenger Agent, Dallas. A. D. Bell Assistant General Passenger Agent, Dallas. N. C. Woodriddle, S. E. Passenger Agent, Atlanta, Ga. J. M. Tyler, Traveling Passenger Agent, Birmingham, Ala. W. R. Trelford, Northern Passenger Agent, Chicago, Ill. T. H. Bradley, Soliciting Passenger Agent, Chicago, Ill. Clarence W. Jones, City Passenger Agent, Dallas. J. A. Chilton, District Passenger Agent, Fort Worth. J. F. Zurn, District Passenger Agent, Fort Worth.

WORKED HIS WAY THROUGH UNIVERSITY OF TEXAS

Jack G. Grissom

That there is no boy in Texas so poor who, having the ambition, the health and the will, cannot obtain a University education, is demonstrated by J. G. Grissom, whose photograph in reproduction appears above. Mr. Grissom will receive this year two degrees from the University of Texas, the degree of Bachelor of Arts and the degree of Master of Arts. He has earned himself every penny he has spent at the University. But for the munificence of the state in supporting a University it would be impossible for poor boys to secure a University education. Handicap young Grissom, for instance, with a payment of \$200 per year for tuition, and he would be unable to attend the University. The founders of the Republic pointed out this fact, that whereas the rich can send their sons and daughters anywhere, to the East, to Europe, or to the Orient, to secure an education, the children of the poor must depend upon state supported institutions of higher education. Therefore, the University of Texas has been truly called "the poor man's school," since above half of the students within its walls are either in whole or in part self-supporting, and fifty per cent of the remainder would be unable to attend a university that demanded tuition-fees.

Any comprehensive scheme for rural school improvement in Texas must include a provision for the training of teachers to teach them. Herein is a great service of the University of Texas, which institution alone furnishes above 400 well trained teachers to the common schools of the State.

The University of Texas is the largest institution of learning in the South. It has graduated above 4,000 students, while the roll of its ex-students and graduates include the names of over 20,000 individuals.

The foreign mission board of the Southern Baptist convention which will convene in Houston on the 11th received \$537,073.66 to midnight May 5th when the books of the Secretary were closed. Texas gave \$87,535.00 of the amount. The board is behind \$99,800.00.

WILL TEACH NEXT TERM.

It has been rumored over the city that I would not teach my class in music next school term. I wish to correct this rumor by stating that I have arranged for a special studio near both school buildings, where my pupils will have more privacy and comfort, and will begin the class with the opening of the school term. I am going off to take a special teacher's course from one of the best teachers in the state, and will be better equipped than ever before for my class next fall. I wish also to thank my patrons for their kindnesses during the past term, and assure them, every one, that I appreciate their patronage and hope to have all of my class back again next year, besides a number of others. If I am unable to see you before I leave for my studies, I want you to remember that I will be back and ready for business at the usual time in the fall. Again thanking you, I remain Yours truly, LELA WHIPKEY.

If you have any doubts as to the urgent need in this city for some system of sewerage in the business section, just amble along the sidewalks on either side of Second street from the corner of Oak to Adams' corner, and note the condition of the gutters and alleged culverts. The water stands after a rain in some places in front of the doors of business houses, until it becomes green and unutterably filthy and offensive. It will require a survey by a competent engineer to grade the gutters, outlets and culverts, so that they will be self-flushing and cleansing. No amount of work and money expended to this end will accomplish any good, unless under the direction of some competent engineer. As conditions exist now, they are worse than if no attempt had been made at drainage. Unless these things are done on a comprehensive and intelligent plan, they had better be left alone and not attempted.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Catarrh Cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, Etc. GANDERBONES FORECAST

MAY.

A soldier of the Allies Was fighting in his trench; Around him were the British, Beside him were the French. He thought of Piccadilly, He thought of Leices'er Skuare, And he ducked to let a cannonball Go whizzing through his hair.

The soldier of the Allies Had notions of his own; He didn't give a whoop outdoors For anybody's throne. He'd battled since October In pleasant times and rough, And it struck him in a quiet way He'd shot around enough.

A soldier hard beside him Sat down a bit to rest; They often talked of this and that, Except when matters pressed. "I wonder how much longer," The other soldier said, And watched a German aeroplane That circled overhead.

The soldier of the Allies Looked very, very wise; A quizzical expression swept The corners of his eyes. "You tell me why we're fighting," He said unto his friend, "And I'll be glad to tell you when The blooming thing will end."

May gets its name from the Latin maiores (the elders) exactly as June gets its name from juniores (the younger). The Roman people were divided into these two classifications by Romulus, it being the duty of the elders to maintain the republic in council and that of the young men to maintain it with arms. Thus came the custom of the old men declaring war and the young men going out and getting killed in it. A great many of the Romans felt at the time that the men who were going to be killed ought to have the privilege of saying whether there would be war or not, and it was finally decided to have a battle in which it would be determined who were better able to do the empire's fighting. This battle, which was fought upon the Campus Martius, was one of the greatest hoaxes ever foisted upon gulleless youth. The old men made only a show of fighting, and when the battle began to warm up they blithely beat it for Rome. The young men were too jubilant over their victory to realize that they were the victims of a plot, nor did they ever quite realize it until Rome went to war and they got to thinking it over in foreign prisons. Caesar considered that a great wrong had been done the young men, and he did his utmost to right it. He also made the point that Rome suffered doubly by sending the young men to the front, first because the old men were much craftier fighters, and second because the empire could much easier spare them. This occasioned a tremendous debate in the Forum, and great feeling arose. Brutus, Cassius and others of the elders, seeing that the debate was going against them and that the custom probably would be altered, laid for Caesar when he came out to his lunch and assassinated him. Thus fell Caesar, and thus fell with him every young man who has since died at the front.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Cant Not Salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Livertone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness, and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work. Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

And turn a summersault for Spring, And birds in forty-seven keys Will try to make the welkin ring. The hopeful angler will resume Where last the fish were known to bite, The smell of painting will perfume The dreamy areas of night The boy before the soda fount Will mix a dozen drinks at once, The happy farmer will recount His newest scientific stunts. The flicker's merry rat-a-tat Will fill the morn another year, And Maude will wear a cheesebox hat Hung raking over one pink ear.

One can't restrain the joy of Spring because the Kings have fallen out. The cheery meadowlark will sing, and all the buds will blossom out. A host of healthful garden truck will storm the human Dardanelles. The sitting hen will softly cluck and warm the chickens in the shells. The mocking bird will fill the night with fervid pledges of its love, a brighter beauty will bedight the iridescence of the dove the circus will resume its sway, with posters going on before, the gentle blandishments of May will beckon through the schoolroom door, the wind will blow in playful spurts, the bullfrog in the glade will grunt, and Susie will sew lighter shirts for summer service at the front.

A fig for who is winning now on Europe's battlefields and red, the hired man behind the plow will see that all of them are fed. Or bloody work along the Aisne, or naval battles at The Horn, he'll tool the undulating plain and stuff the combatants with corn. He little wots about the right, or little cares which side is wrong; he only hopes to give his milie to keeping people well and strong. There is no medal on his chest, nor has he Carnegie to thank for something feathering his nest and lying in the village bank. He toils for love, for all men's good, for what to him is doubly dear, and when he has done what he could, he sleeps the balance of the year.

At any rate the whippoorwill Will bare the secrets of his heart, And Cupid, lying very still, Will shoot us with his fiery dart. The bride'll thrill for thought of June When dad's well wishes will be cash, The tender glamour of the moon Will make the bachelors all rash, The widow will begin to set Her deadfall for another mate, The tourist will beg'n to fret And nibble at the summer rate, The icecream suit will tempt the rain The garden peas will race the beans, And we shall be ourselves again, For having sassafras and greens.

OUR MEDICAL SCHOOLS.

Dr. C. E. Cantrell of Greenville, Texas, is a member of the national committee on medical education. He stated before the Texas Medical Association in session at Fort Worth last week, that the United States was far behind in its standards of medical education compared with European countries. He said efforts are being made to concentrate and consolidate the schools of the country; sixty of them had already been eliminated by merging into larger schools. The number of recognized reputable medical schools in the United States is now 96, and that many of the smaller of these would be eliminated and fewer but stronger schools built up. Five years course of study will be urged, the fifth year to be that of an intern and credited on the course of study. The standard and requirements of the entrance examinations will be raised so high that only the best prepared will be able to enter the profession of medicine. Texas has only one medical school ranking as Class A—the medical department of the state university, but it ranks in efficiency and thoroughness with the very best of the United States.

"TIZ" FIXES ACHING, SWOLLEN, SORE FEET

How "TIZ" Does Comfort Tired, Burning, Calloused Feet and Corns.

"Ah! Boys, 'TIZ' is the thing!"

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "TIZ," and "TIZ" cures their feet right up. It keeps feet in perfect condition. "TIZ" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "TIZ." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a 25 cent box of "TIZ" now from any druggist, department or general store. Just think! a whole year's foot comfort for only 25 cents.

Dr. F. S. Pearson, multi-millionaire manufacturer, head of the El Paso Milling company and also interested in many other large corporations in the United States and foreign countries, was among those lost when the Lusitania, the ocean greyhound of the Cunard line was sunk by a German submarine.

The United States will be so busy getting in crops with which to feed Europe next winter that not much else will happen here in May. The President will continue, however, to keep the country as neutral as may be, considering that almost all of us sprung from one of the countries engaged in the war. He will not do much at golf or at living around in pleasant country places this summer, but will stick to the White House pretty closely. This is not an easy time to be President. In former times one could put in a good deal of one's time bear hunting, as Mr. Roosevelt did, or sunning one's self on the grass somewhere along Long Island Sound, as Mr. Taft did. It is nothing like that now. The President must stick to his knitting, and if there is any bear hunting and sun-doing to be done, the Vice-President will have to do it.

The war in Mexico will continue northward through the month in search of cooler weather, and will probably summer on the south bank of the Rio Grande. The war is a little worn and fatigued after an unusually warm season in Mexico, and a few months at the proper resort will put it on its feet. Gen. Huerta, who may be said to have been one of its grandfathers, is in this country again, and will probably pay the war a visit some time during the month. He has consulted some excellent specialists abroad on the peculiar nature of the war's ailment, and something may come of it. What does come of it may not be to the General's liking, but when one has the war at heart, as Huerta has, one feels like doing something, at any rate.

The first twenty days of May will be under the influence of Taurus the Bull, the second sign of the zodiac. If this doesn't restrain the Japs, it will be because they mistake Taurus for one of their own little rice-fed bulis. The last ten days of the month will be under the influence of Gemini the Twins, the third sign of the zodiac. The President has waited patiently for the influence of this sign on the Mexicans, and if he isn't mistaken they will finally reward our watchful waiting. The moon will be full on the 28th.

Then June will come, a time apart. With Cupid for her crony, And none of us will have the heart To mention alimony.

A Talk With Henry Ford

This is the Most Important Advertisement I Ever Caused to be Published. — Read Every Word — and then Marvel!

On a personal visit to Mr. Henry Ford I broached the subject of a possible August 1st Rebate.

(The Ford Company announced last year—as you well remember—that if their total sales reached 2,000,000 cars between August 1, 1914, and August 1, 1915, each purchaser during that period would receive back a refund of \$40.00 to \$50.00.)

"Mr. Ford," I suggested, "is there anything I can say to our people with regard to the Ford Motor Company's 300,000 car rebate plan?"

"We shall sell the 300,000," was the quiet reply—"and in 11 months, a full month ahead of August 1st."

"Then a refund is practically assured?"

"Yes—barring the total unexpected. We are 50,000 to 75,000 cars behind orders today. Factory and branches are sending out 1800 daily."

I then said to Mr. Ford: "If I could make a definite refund statement we would increase our local sales 500 cars."

"You may say," was Mr. Ford's deliberate and significant reply to this—

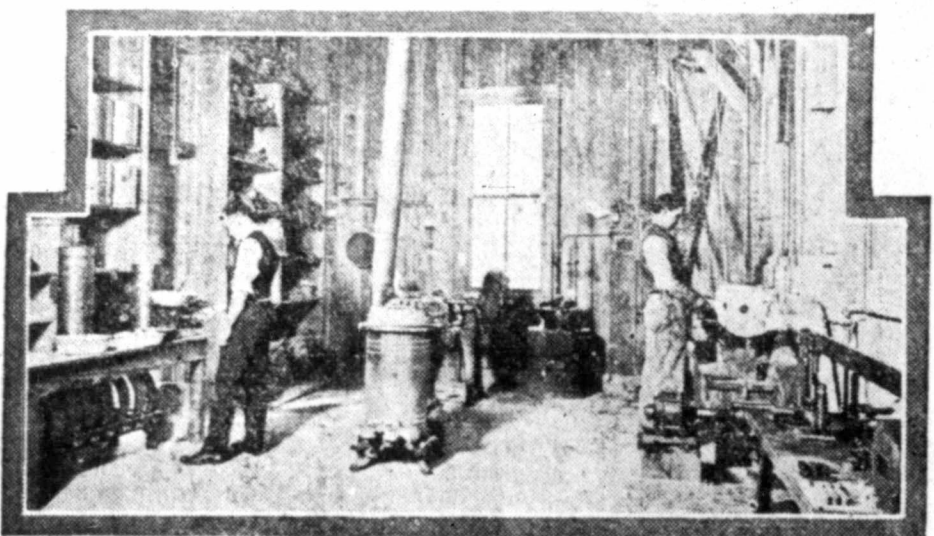

"You may say that we shall pay back to each purchaser of a Ford car between August 1, 1914, and August 1, 1915, barring the unforeseen, the sum of \$50. You may say that I authorized you to make this statement."

What can I add to the above? **\$15,000,000 cash coming back to Ford owners!** And to prospective Ford owners up to August 1, 1915, it actually means—**Ford Tinting Cars for \$490—less the \$50 rebate! Ford Runabouts for \$440—less the \$50 rebate! What is there left for me to say?**

TESTING TEXAS ROAD MATERIALS, UNIVERSITY OF TEXAS BUREAU OF ECONOMIC GEOLOGY

Millions of dollars per year are voted for road building in Texas, and increasing millions will be voted as the state becomes wealthier and more populous. The proper spending of this money is an enormous problem. The University of Texas is contributing to the solution by training young men in engineering and the installation of a first-class roads material testing laboratory, where over a thousand samples of Texas roads material have been tested in the last few months and recommendations made concerning each sample.

Above is a scene in the roads testing laboratory, at the University of Texas, in Austin, where the Bureau of Economic Geology is testing various stones and gravels which are found in Texas, with a view to determining their suitability for road construction. The United States Office of Public Roads maintains such a laboratory in Washington, but the University laboratory is as complete an establishment of its kind as can be found in the country. The director of this laboratory hopes to be able to test, analyze, catalogue every material of use in road-building in the state, and publish results of all such investigations for free distribution. County road engineers, commissioners, owners of gravel pits or limestone quarries, or indeed, any one interested in having tests made of available road material can secure a report upon the same by sending samples to the University Bureau of Economic Geology.

TENANTRY AND HOME BUILDING.

The evidence brought out by the tenantry investigation in Texas is misleading. It does Texas an injustice. Vital importance attaches to the truth in this matter.

It is easier for tenants to win homes today than ever before, if the truth be told. The truth will be told.

I know what I say. I am in the field everlastingly. I write directly from the furrow and know absolutely, first hand, what I write. I am in the field and know my field. I know my neighbors who are landlords. Nearly every one of them have been tenants. I know how hard it was to make a nickel 50 years ago. I know how easy it is to make a dollar now. The thing is to know how to get on it, and then get at it. We know how now. Heretofore we didn't. We have tools now. Heretofore we had a crooked stick. We had no system.

It is beyond my comprehension, since watching the improvements in machinery and methods for half a century, how progressive, intelligent men can claim that it is harder to procure homes now, under modern conditions, than it was under environments existing in modern times. True, lands in some sections are high. Stop short now and think! Less land makes a home. I knew a family who got a good living from an acre of land.

The man who owns a deed to an acre-surface of this good old earth is rich. He owns it to the center of gravitation. He owns more good, rich fertile dirt than he could remove in a hundred thousand years. Suppose one evolution after another brings us to the "happy-glad" day when we can produce by inoculation, fertilization and irrigation one bushel of toothsome tubers to every bushel of soil. More wonderful things have already happened. Why, man alive, it's the gladdest day that heaven has ever given to this earth. What we want is self-reliance, confidence, enthusiasm, inspiration—"nerve."

It is no exhibition of a boastful spirit to say here, that Farm and Ranch is doing its part. Its writers are pointing the way out of the woods. Gentle-

men, there is a bright light beaming just ahead of us. Many of us with muddled, confused brains walked a hundred thousand miles behind a forked stick for a plow before we "got up" to ride. But now, bless your souls, my farmer friends, we are up and on—riding—riding to the tune of the present times. Black your boots, gentlemen, and mount! The conveyance has come! Will you mount? It's up to you. Do you want to tell me that with present prices for milk, butter, chickens, eggs, beef, pork, mutton, kid, wool, hides, pecans, peas, peanuts, milo, kaffir, wheat, oats, feterita and Sudan grass and with "proved" and improved methods of producing these things, intelligent renters can not pay for homes? Pshaw! Nothing to it. Thousands of tenants have done it in Texas under far more grievous environments I have bought, improved and sold four little farms to men who are having no trouble whatever in meeting their payments.

Will we stop now and lie down under the juniper tree? Will we crawl like a worm and wriggle and squirm any longer? Not much longer. Will we walk on blistered feet longer? Not much.

Every student at all familiar with actual conditions knows absolutely that there are a thousand opportunities now where there was not the ghost of a show in primeval days.

Any man with brains enough to make brains for a suckling gosling can see and grasp opportunities now that never did present themselves before.

I boast, yes, I boast for the encouragement of the "poor devil" who thinks he is down and out, but isn't by a jugful, and a big jug. One of my neighbors came here, rented land, lived in a tent, hauled wood 25 miles to Ballinger and swapped it for flour, bought a piece of raw land on time and made it pay for itself. He then bought another tract adjoining and has the entire home paid for and it is well worth \$19,000.

More men have made the money renting to make the first payment on a home than any other way.

The right kind of a renter in Texas is on his way "home." He is just getting his feet well fixed in the stirrups.

I know, I crawled! I walked, I am now riding. I worked for wages, I rented on halves, rented for one-third and one-fourth. I bought land and paid for it. I am personally acquainted with lots of people who have done 10 times better than I have done. You can do it.

Jump in, man, and get yours. It's here for you. There is room enough on earth for everybody to have a home. I mention only this one typical instance. There are thousands.—John Baller in Farm and Ranch.

ONCE TOO OFTEN.

Sometimes we do things once too often. It is an all-prevailing common habit and too often a misfortune.

The bather insists upon one more plunge into deep waters and never comes out.

The drunkard must have one more drink before he falls into the gutter.

The indulger in forbidden fruits must have one more taste before he is beyond redemption.

The aeronaut must always make one more flight before his final challenge to cruel fate.

The prodigal son must be "a good fellow" just once more before he is swept away in the crowd and lost forever.

The wayward girl must see once more the bright lights of the Great White Way before she listens to her heart's appeal for penitence, but she will never see her mother's face again.

The crowd jeered the black champion of the prize ring when they saw him fallen and beaten in Havana. He had stayed too long. He had fought once too often.

So they will jeer all those who turn their backs upon home, upon church and bible and school, for one more chance to have "a good time."

"Let us eat and drink; for tomorrow we shall die" is the motto of those who live in the Paradise of Fools.—John A. Schleicher in Leslies.

KIDNEY TROUBLE CAUSES INTENSE SUFFERING

Sixteen years ago I was taken sick with Kidney trouble and suffered terribly for three months. I did not work during this time and was mostly confined to the bed. After using other remedies I finally tried a bottle of Swamp-Root. I immediately began to feel better, and after using seven fifty-cent bottles, was entirely cured and have had no Kidney trouble since. I can truly say that I owe my good health to Swamp-Root. You may publish this letter for the benefit of other people afflicted as I was with the hope of bringing to their attention this most wonderful remedy.

Yours truly,

HATTIE A. QUIMBY.

NOTED FLYER WILL BE AT STATE FAIR.

Art Smith the famous aviator whose achievements at the Panama-Pacific Exposition have won him world-wide fame and have placed him in the first rank as an aviator, will entertain visitors at the 1915 State Fair of Texas, October 16 to 31. Smith has a record of thirty consecutive loops in one flight. He went to San Francisco from Chicago to become exposition flyer following the tragic death of Lincoln Beachey. Soon after his arrival at the exposition grounds he demonstrated by his daring that he was a worthy successor to the intrepid Beachey. He has been in the flying game since 1911 and in connection with his regular flights gives a demonstration of what he terms "aerial insanity" that, it is declared, outdoes anything ever attempted by any aviator before in the country. According to the contract closed, Smith will give several flights each day during the fair. On six nights during the fair he will give his wonderfully spectacular night flights. On these occasions his machine is brilliantly illuminated and as he makes his sensational loops he throws into the air fireworks of many different colors. The effect is exceedingly beautiful and promises to be a big feature.

To Drive Out Malaria And Build Up The System Take The Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

INFECTION IN THE AIR.

Medical authorities agree that colds are infectious. In some cities children with colds are barred from schools. Spring's changing weather brings many colds. The quickest and safe way to stop colds, coughs and croup is to give Foley's Honey Tar Compound.

LOCAL HAPPENINGS and PERSONAL MENTION

We have sold you hats for the past fifteen years. Let us sell you this season's hats.—Mrs. B. F. Mills.

Mr. A. H. Sisler of Dallas is here a few days this week visiting his sister Mrs. J. T. Davis.

There is a right and a wrong way in which to do everything, and in nothing is this more true than in laundry work. Clothes poorly washed and ironed are neither clean, sanitary or pleasant to wear. Why do you persist in following these unsatisfactory ways in your home, when you can have it done properly at a more reasonable price? For results that please send them to the Colorado Steam Laundry.

If you don't attend the Country Store at the Opera House Movies, every Tuesday night, you won't get yours.

Sweetwater Summer Normal

The Sweetwater Summer Normal is to open June 7th, and close July 16th. Examination at the close for all grade certificates. Strong faculty; best high school building in the west; good laboratories for Physics, Chemistry, Physiology, Physical Geography; splendid library, swimming pool and shower baths; cool and delightful climate. Board and lodging \$16.00 to \$20.00 per month.

This summer school is especially planned for those wanting to prepare for examinations to teach, and those wanting to do some review work needed to make up grades or prepare to make a grade. Sweetwater is noted for her fine school spirit, her amusements, her good roads, her fishing lakes and her healthful climate.

AT THE OPERA HOUSE MOVIES.

The inauguration of "Amateur Night" on Friday in addition to the "Country Store" on Tuesday night, met with the heartiest approval by the large audiences. All the contestants did extremely well, and the appreciation was so evenly shown by the audience that it was almost impossible to award the first prize of \$5.00; but after several attempts it had to be admitted that Miss Lucile Sprull was the winner by nearly unanimous consent. The second prize of \$2.00 was awarded Miss Hallie Roddy, though she was closely crowded by Master Brooks Bell, Jr. and Miss Julia Shepherd, although we have been secretly advised by the gentleman in charge, that had it been left to him, he would have included Miss Josephine Smith in the cash prize distribution, for her courage and beauty.

In view of the fact that the commencement exercises are to be held to-night (Friday) we have decided that in order not to interfere with the arrangements of the school board or cause any distraction of the pupils, the Amateur Night for this week will be Saturday instead of Friday. We have an extraordinarily good bill. Some of the talent can barely come under Amateur heading. As a result the audience is going to be hard pressed to make a fair award. We sincerely hope there will be no tie, for then we would have to decide as to whom should go the first prize. We don't carry much insurance, so you see we would prefer to play the silent part.

But there is one thing we are going to handle, and that is the "Country Store," so that we may be positively sure that the various appropriate articles go where they will do the most good; so that if you have any particular friends that you think will need any particular thing—send in their names, or better still, come early and get the lucky number, that you may give it to them yourself.

The pictures for Saturday night are particularly good. The Craven, a two reel feature of exceptional interest. A situation arises in this story that may occur to any of us. "The Girl and Two Boys" is another picture of a story that we see around us every day, but which we fail to recognize. But after seeing this picture we will be able to keep posted on what the boys and girls are doing. Our Saturday matinee will start at 2 p. m. and continue till 6 p. m. The night show at 7:30 p. m. We assure everybody a good time; so bring the children and come to the Opera House Movies.

W. B. RALPH, Manager.

MISS McDONALD IS COMING.

Miss K. McDonald, a noted Beauty Expert from the Harmony Laboratories of Boston, will be at my store for a week beginning Monday 17th. Miss McDonald is a beauty specialist who has made good, and will give a personal demonstration of Harmony complexion requisites in your own home, free of charge. If you are interested in your skin, Miss McDonald will be glad to show you how to retain or restore its original attractiveness. She arrives Monday, May 17th for one week's stay. If you will let me know when she may call on you, I will make the necessary arrangements. Miss McDonald's services are also free to Women's Clubs—just phone me.

VERY SERIOUSLY SCALDED.

Wednesday morning while Bob Deats and another young man by the name of Wallace were standing in front of the big boiler at the oil mill, the feed pipes at the back end of the boiler exploded sending a great volume of live steam out through the front of the boilers, blowing off the doors and enveloping both men. Mr. Deats was standing a little out of the direct path of the steam, but sustained some painful burns. Mr. Wallace received the full force of the jet and was very seriously and dangerously burned over most of his body. He was taken to his home and medical aid summoned. Up to this writing the final result of his injuries can not be foretold.

PRIVATE SCHOOL.

I am going to teach a private school at my home this summer, and I shall be glad to have those pupils who have failed or who wish to prepare themselves for another grade.

HAVE YOU BEEN SICK?

Then you realize the utter weakness that robs ambition, destroys appetite, and makes work a burden.

To restore that strength and stamina that is so essential, nothing has ever equaled or compared with Scott's Emulsion, because its strength-sustaining nourishment invigorates the blood to distribute energy throughout the body while its tonic value sharpens the appetite and restores health in a natural, permanent way. If you are run down, tired, nervous, overworked or lack strength, get Scott's Emulsion-to-day. It is free from alcohol. Scott & Bowne, Bloomfield, N. J.

Miss McDonald, the beauty expert will be here next Monday. See her at Doss' drug store.
