## BACKACHE AND RHEUMATISM.

#### Dear Mr. Editor:

"For the benefit of others, I gladly give this statement regarding the merits of Dr. Pierce's Anuric Tablets. Am nearly 76 years of age. I suffered from backache, weak back, rheumatism, and could not control the excretion of the kidneys. I can safely say that 'Anuric,' the new dis-covery of Dr. Pierce, Buffalo, N. Y., has done me more real good than anything I have ever taken for these ailments." Mns. N. M. Furst,

Dawson, Texas.

Nore-"Anuric" prolongs life because old people usually suffer from hardening and thickening of walls of arteries, due to the excess of urie acid in blood.

Dr. Pierce, Buffalo, N. Y., has been testing this medicine. The relief obtained by sufferers has been so satisfactory that he has placed "Anuric" with the druggists in town. If not obtainable, send 10 cents to Dr. Pierce for large trial package, or 50 cents for full treatment.

## WILL YOU SHARE IN THE BENETITS?

So far our special days, with your help, have proven a success. Our first effort was to rid the country of all the surplus chickens and turkeys, which proved a success and put \$1,000 in circulation among our customers and friends. Our second effort was our rabbit and fur day. This we consider a success for our first effort along this line, for we put about \$400.00 in circulation and, at the same time, rid the country of a great pest. Our third effort was to buy up the fat hogs-which proved a grand success, considering that we received two car loads at Loraine and Colorado. The majority of these hogs were as fine as ever raised in Texas. The liberal price we paid for same put \$2,200 in circulation among our good customers and friends. We want to say right here: Necessity may or may not be the mother of invention, but there is no sort of a question about Hustling being the Father of Success. We want you to look upon us as being self-starters. We don't have to be cranked every day. We have long since found out, so long as a man or mule is kicking, they make no progress in life. Good crops and good prices bave brought about one of the greatest improvements ever known in the commercial world. People have money and are spending it freely with us. Our business is far beyond our expectation. We have the goods and the prices and the best of treatment. We have been greatly rewarded for same. Up and doing is the watchword with us every day.

Our Spring goods are coming in most every day and our thoughts are just like yours on the line of new spring styles and the necessities for spring. Our stocks will soon be complete with the latest styles of spring dress goods, silks, silk waists, ladies' ready-to-wear garments, in fact, everything to complete a first class dry goods store. Our Grocery department is also complete. Our seed potatoes and onion sets are now in and same seem to be very scarce on the market and we would advise you to buy at once. We have a full and fresh line of new garden seeds. By buying early you can easily supply your wants both in quality and price. More or less everything seems to be scarce along this line and advancing far beyond your expectation.

We are expecting fully a tenth of our business to be done this year on turkeys, chickens, eggs and butter. At our three stores we will at all times pay you the market price for all of this line of produce that you will bring us. We also buy hides and furs-in fact, we want to try to buy everything you have to sell. We will have more special days later on. Talk to us along the line of what you have to sell and try to have something to sell every time you come to town, for we believe this is the year to stay out of debt. Yours for business.

The devil is getting all the rope he needs to hang himself. In his obsession for publicity Cyclone Davis is making a greater harlequin of himself than nature intended. In a recent speech he referred to General Nelson A. Miles as "the grand old patriot." About fifty years ago, Nelson A. Miles, Chas. A Dana and Edward Stanton were held by the people of the South as the Triumverate in Infamy. Nelson Miles was the jailor of Jefferson Davis. then a prisoner within Fortress Monroe, aged, ill and broken in hope, but not in spirit. General Miles put upon this defenseless prisoner, the unnecessary indignity of manacles and shackles. It was not done as a precaution against escape or guarantee of his safekeeping, but as an insult to the man and the people he represented. Old Cyclone may next break out in a pean of praise of Edward Stanton.

**A Distinctive Reason** 

What is the chief reason for the superiority of Dr. Price's Cream Baking Powder?

There are several good reasons, but there is one which distinguishes Dr. Price's from other baking powders.

This reason, which every woman should know, is that Dr. Price's Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

**A NEW BUSINESS FOR COLORADO** 

HE undersigned having opened a New Furniture Business in Colorado. in the North room of the Lasky block on Oak Street, desires to become acquainted with the people of the town and county, and to this end extends a cordial invitation to everyone to visit our store and inspect our stock and ascertain our prices.

We have been engaged in the furniture business many years and believe we understand the attitude of the average furniture buyer to the retail furniture trade. We have gone up against the "mail order" competitor time and again and have not yet confessed defeat at his hands in a fair and square contest. There is always something in the mail order proposition that the buyer does not understand until after he has parted with his money.

We shall keep a large stock of

as well as a line of the most approved and higher priced kinds. Decide what you want and bring your mail order catalogue and prices to our store. See if we do not meet their prices, besides giving you the opportunity to inspect what you buy before paying for it.

We have located in Colorado permanently and hope to build up our business by methods of honest dealing, honest quality and reasonable profit. We invite you to come to our store and will be pleased to place our experience and knowledge at your service. Watch this paper for our further announcements.

WHAT THE CAPTURE OF ERZERUM MEANS.

The stragetic value of Erzerum to the Russians is that it opens the gate to roads leading to vital points. From there they can fight toward Constantinople, or toward Bagdad, or toward Kut-el-Amara, where they can form a junction with their British allies. Of course, the road from Erzerum and any one of these goals is long and is thick

with natural and artificial difficulties. The possession of Erzerum yields no mortgage on any of these goals, but it makes the attainment of them practicable. Which way the Russians will elect to go remains to be determined. But an advance toward the British would, if it should succeed, so serious-

ly embarrass what have seemed to be the German and Turkish purposes in that quarter that the natural supposition must be that it is in that direction the Russians will proceed from Erzer-
